

Low Performing School Addendum

School Location: Hunter Elementary

Insert goals from your School Improvement Plan and modify if needed to address proficiency and/or growth. Your School Improvement Plan and the Low Performing School Addendum will be submitted to the School Board and NCDPI for approval.

- Goal 1: By June 2016, Hunter Elementary will increase student achievement in grades 3-5 ELA to 53.9% as measured by the NC EOG.
- Goal 2: In June 2016, Hunter Elementary will increase student achievement in grades 3-5 Math to 64.5% as measured by the NC EOG.
- Goal 3: In June 2016, Hunter Elementary will increase student achievement in grade 5 Science to 55% as measured by the NC EOG.

Regional Support:

The regional office will provide

- Frequent team walk-thru visits and feedback to principal about the quality of observed instruction and the alignment to curriculum standards and pacing expectations.
- On site coaching of principal, curriculum facilitator, and identified teachers (as requested and pending resource availability).
- Provide four professional development Fundation sessions for 2nd and 3rd grade classroom teachers.

Central Office Support:

Central Office based Curriculum and Instruction staff has prioritized standards and revised pacing guides in tested subjects and grades based on NCDPI test specifications. This creates more targeted and purposeful instruction aligned with state summative assessments. Low performing schools will complete diagnostic assessments linked to pacing in tested subject areas. As a result, schools will be able to provide targeted standard-level remediation to students. Additionally, several members of our central office based curriculum team have been placed in our four regions so that low performing schools receive additional support in the areas of literacy, math and science. Two district wide Learning Conferences are scheduled in the fall and spring for teachers that will focus specifically on instructional strategies to maximize student

outcomes. Teachers will be able to take strategies directly back to their classrooms for immediate

2014-16 SCHOOL IMPROVEMENT PLAN

School Name Hunter Elementary School Number 409

School Address 1305 Merritt Dr., Greensboro, NC 27407

Principal Michelle Thompson

District Name/State Local Education Agency (LEA) Number Guilford County Schools (410)

Date of Initial School Staff Vote of Approval 2-Jun-15

Date of Last Review/Update 12/8/2015

Principal Signature (Signature On File)

Board of Education Authority Signature (Signature On File)

School Vision and Mission Statement

Visior

In an environment where students feel capable, cared for and connected, students at Hunter Elementary will experience academic success at or above grade level through strategies promoting rigorous instruction aimed at high levels of achievement.

Mission Statement

Hunter Elementary will graduate responsible citizens prepared to succeed at higher education or the career of their choice.

To lead us toward our mission, our school community shares the following beliefs:

- Students will learn when provided with authentic and rigorous learning opportunities.
- Teachers will employ data based differentiated instruction focused on Assessment for Learning methods.
- Students are successful when professional educators strive to be reflective practitioners committed to rigorous research based practices.
- Students are the primary focus for all decisions regarding the efficient use of time and resources.
- Staff, parents, and community will provide a safe and orderly learning environment for all students.

District and State Goal Alignment

Guilford County Schools Strategic Plan 2016, Area I: Personalized Learning

Supports State Board of Education Goal: North Carolina public schools will produce globally competitive students.

Guilford County Schools Strategic Plan 2016, Area II: Character, Service and Safety

Supports State Board of Education Goal: Leadership will guide innovation in North Carolina public schools.

Guilford County Schools Strategic Plan 2016, Area III: Parent, Family and Community

Supports State Board of Education Goal: North Carolina Public School students will be healthy and responsible.

Guilford County Schools Strategic Plan 2016, Area IV: Educator and Organizational Excellence

Supports State Board of Education Goal: North Carolina public shoods will be led by 21st Century professionals.

Supports State Board of Education Goal: North Carolina public schools will be governed and supported by 21st Century systems.

SUMMARY OF SCHOOL DATA ANALYSIS AND/OR COMPREHENSIVE NEEDS ASSESSMENT

1. What does an analysis of your school data and/or a comprehensive needs assessment tell you about the school's strengths?

An analysis of the school's Comprehensive Needs Assessment indicates there are slight discrepancies for achievement among Black and Hispanic students. In Reading, Black students are out-performing Hispanic students. In Math and Science, Hispanic students are out-performing Black students. The differences narrow between these subgroups as the students reach fifth grade. Black students made progress in reaching proficiency in reading. The AG population reflects proficiency increases for reading and science. The fifth grade team worked hard this year to plan tightly using data based decisions which resulted in a very small range from highest to lowest results. The fifth grade team met their math and science AMO targets.

The Diagnostic Indicators of Basic Early Literacy Skills (DIBELS) and Text Reading and Comprehension (TRC) composite results indicate that Hunter increased proficiency by 1%. Kindergarten and third grades composite results showed the greatest impact in increasing students at the proficient level and decreasing students who are below grade level. All racial subgroups show that proficient students increased. In kindergarten 64% grew from well below to Benchmarking for the mCLASS composite and data indicates success in growing 26% of the well below students to the Benchmarking level in DIBELS. Kindergarten data also indicates that 75% of students are proficient in basic phonemic awareness. The second and third grades met their end of year target goals for total reading comprehension which was the result of intensive instruction for all students in written comprehension.

The Leveled Literacy Intervention program targeted 146 students for reading intervention in first through fifth grades. As a result, 97% of those students served made growth in their independent reading level. There were 65 students who reached grade level proficiency and 23 students were exited from ESOL, due to proficiency progress measured by the World-Class Instructional Development and Design English Language Development Standards (WIDA).

The most current Teacher Working Condition Survey (TWC) results show that 89.2% of teachers believe that Hunter Elementary is a good place to work. Highlighted strengths indicate that rules are consistently enforced and students are aware of the expectations for their conduct. Teachers indicate that data is used to improve student learning. They also indicate that reflection is encouraged in an environment where there are high professional standards. They agree that the Professional Learning Communities work to develop and align instructional practices at a high level. The TWC areas that showed the greatest increases in agreement are that leadership has created an environment of trust and mutual respect and teachers feel they can raise issues and concerns that are important to leadership. Teachers recognize that efforts are made to protect their time from duties that interfere with their essential role to educate students and teacher's non-instructional time is sufficient.

2. What does the data analysis and/or comprehensive needs assessment tell you about the school's gaps or opportunities for improvement?

An analysis of the data indicates each grade level across all tested subjects showed areas of strength and opportunity for growth. Fifth grade continues to raise the achievement of students in science and reading. Fourth grade showed increased proficiency in reading and math. Preliminary growth indicates third and fifth grades made great progress to increase student's average scale scores while fourth grade seemed to not have as much growth on scale scores. The data indicates that reading is slowly trending up and math is trending down.

There are gaps in achievement between Black and Hispanic racial groups but these gaps decrease for reading from third to fifth. Our Black student subgroup is higher than the Hispanic subgroup. The gaps exist in math but they increase from third to fifth and the Hispanic subgroup is higher than the Black subgroup. Because Hunter serves a high percent of Economically Disadvantage students, this subgroup mirrors the overall school results. There are gaps between our females and males in fourth and fifth grade, with females out performing the males in all subjects.

The Diagnostic Indicators of Basic Early Literacy Skills (DIBELS) and Text Reading and Comprehension composite results indicate that Hunter increased proficiency by only 1%. First and second grades did not meet their DIBELS goals for end of year and kindergarten and first did not meet their target goals for TRC. The teachers report that this decrease in the end of year results for both DIBELS and TRC is the result of DIBELS testing being conducted by a mCLASS team for middle and end of year testing rather than classroom teachers.

| 3. | What data is | missing, ar | nd how will | vou ac | about | collecting | this i | nformation f | or fut | ure u | se? |

North Carolina EVAAS growth data are not available at this time- will await release.

Need to disaggregate the results for students who attended the African American Male Enrichment programs- team working to compile this data.

4. Based upon the data analysis conducted and/or the comprehensive needs assessment, what priorities emerge for your school?

Priority Area 1:

1B) Increase literacy skills in all student subgroups kindergarten through fifth grade.

Priority Area 2:

2B) Increase math skills for all student subgroups as indicated on the math EOG third through fifth grade.

Priority Area 3: 3B) Increase science skills for all student subgroups as indicated on the science EOG fifth grade. Priority Area 4: 4B) Increase writing content skills for all student subgroups in grades k-5.

PLAN: School Improvement Plans are developed based on data analyses and/or comprehensive needs assessments (PLAN), to implement solutions (DO), to understand the results or impact (CHECK) and to make adjustments based upon the outcomes of the strategy implementation (ACT).

| the outcomes of the strategy implementation (A | and date of the datategy implementation (No.1). | | | | | | | | | | | |
|---|---|--|--|--|--|--|--|--|--|--|--|--|
| Priority Area 1 | 1B) Increase literacy skills in all student subgroups kindergarten through fifth grade. | | | | | | | | | | | |
| *SMART Goal *Specific, Measurable, Attainable, Results- Oriented, Time bound | By June 2016, Hunter Elementary will increase student achievement in grades 3-5 ELA to 53.9%. | | | | | | | | | | | |
| Target Goal for 2014-15 (What goal must be reached to be on target to meet SMART goal?) | | | | | | | | | | | | |
| GCS 2016 Strategic Plan Alignment | Area I: Personalized Learning | | | | | | | | | | | |

DO: School Improvement Plans are developed based on data analyses and/or comprehensive needs assessments (PLAN), to implement solutions (DO), to understand the results or impact (CHECK) and to make adjustments based upon the outcomes of the strategy implementation (ACT).

Increase literacy proficiency by creating an environment for learning, helping students develop understanding, and helping students extend and apply knowledge using researched based strategies for increasing student achievement.

CHECK: School Improvement Plans are developed based on data analyses and/or comprehensive needs assessments (PLAN), to implement solutions (DO), to understand the results or impact (CHECK) and to make adjustments based upon the outcomes of the strategy implementation (ACT).

What data will be used to determine whether the improvement strategies were deployed with fidelity?

Completed surveys, compiled survey results, walk through observations, training agenda and training feedback cards, student writing samples

How will you determine whether the strategies led to progress toward the SMART goal? (Include formative, benchmark and summative data as appropriate.)

Formative and Summative data will show progress from BOY, MOY and EOY. Records should indicate increased TRC literacy levels for students participating in the LLI program based on running records, DIBELS/TRC.

Hunter Elementary Page 9 - Priority Area 1 Guilford County Schools

What does the data/evidence show regarding the results of the implemented strategies?

Review 1 - 2014-15 (Based on results evidenced August through November, how/should strategies be changed?)

ELA 2014-2015 data indicates that k-2 DIBELS and TRC results show students held over the summer. Teachers will use DIBELS BOY to start scale back strategies for the rest of 2nd trimester. Interim Assessment #1 indicates that 3rd grade shows the greatest discrepancy with the district ELA averages. 4th and 5th grades are within 1-2% with the district averages but still slightly below (4th - 51.3%, 5th - 59.5%). The Intervention Facilitator continues to conduct daily FUNdations using the 2nd grade program with all 4th grade transitions students and others where warranted.

Review 2 - 2014-15 (Based on results evidenced December through February, how/should strategies be changed?)

ELA - IA 2 data indicates that k-2 DIBELS and TRC results show students grew from BOY to MOY. TRC data showed a steady result and all GR and LLI groups have incorporated a written prompt at the end of each small group lesson. Interim Assessment #2 indicates that all grades are making slight progress in ELA but this continues to be an area where Hunter students struggle. Math and 5th grade science IA 2 shows great progress. Fifth grade has double digit growth in both science and math in all classes. Each of the classroom teachers have implemented progress monitoring using the MOY data. K-2 teachers have used the DIBELS/TRC scale back strategies. All AAM have been in LLI groups (unless reading below a level D). All AAM students in 2nd and 3rd grade have been invited for afterschool literacy tutoring using Fundations and Wordly Wise as the instructional materials. All AAM in 4th and 5th grades have been invited to attend the LEGO Story Writer program. The afterschool AAM initiative serves 49 students. The group has been meeting since February twice each week. We have introduced science investigations once each week using volunteer engineers from Sutton-Kennerly. All 3rd, 4th and 5th grade teachers have looked at the predictions for students based on the IA 2 results. This information has been used by teacher to ID student strengths and weaknesses. Individual conferences were held to discuss areas where students had relative strengths and how they could use this to increase their success. Groups and individual interventions were developed using this data.

Review 3 - 2014-15 (Based on results evidenced end-of-year results, how/should strategies be changed?)

Refer to Data Analysis Tab B

Review 1 - 2015-16 (Based on results evidenced August through November, how/should strategies be changed?)

Teacher Leaders have presented 50% of the trainings based on Marzano's 9 Effective Strategies. The surveys indicate teachers are aware of the strategies and how to use them but only use them 1-2 times each week. We would like to increase the use of the effective strategies to daily.

LLI has been implemented for all 4th graders that are yellow or red. There are 152, 1st - 4th grade students in the LLI intervention program. The MOY data should provide information on the success of using interventionist to conduct LLI daily with all level yellow and most red students in grades 1st-4th.

FUNdations strategies have been incorporated and FUNdations tracker indicates the average classroom has increase by 20-30% on the assessments.

Wilson Fluency is being implement grades 2nd - 4th and progress tracker indicates 87 out of 117 students have reached their fluency goals and 111 out of 117 are showing improvement.

Review 2 - 2015-16 (Based on results evidenced December through February, how/should strategies be changed?)

(New SIP will be developed based on end of year results to begin the next two year planning cycle.)

ACT: School Improvement Plans are developed based on data analyses and/or comprehensive needs assessments (PLAN), to implement solutions (DO), to understand the results or impact (CHECK) and to make adjustments based upon the outcomes of the strategy implementation (ACT).

Based upon identified results, should/how should strategies be changed?

Review 1 - 2014-15 (Based on results evidenced August through November, should/how strategies be changed?)

BOY 1st quarter shows that student cohorts are closer to the district average (3rd - 38.4%, 4th - 51.3%, 5th - 59.5%). Individual classrooms are within 1-2% of each other for performance, indicating that classrooms are tightly planned as teams. Student's ELA pre and post data are showing growth and teachers indicate through PEP and conferencing that students are moving up in their literacy skills. At this time the strategies will remain the same in class. The AAM students will begin working afterschool in enrichment club in February. 2nd and 3rd grade will utilize Wordly Wise to build tier 2 vocabulary and 4th and 5th grade will utilize the LEGO Writing program to increase speaking, listening and content writing skills.

Review 2 - 2014-15 (Based on results evidenced December through February, should/how strategies be changed?)

Continue the afterschool AAM tutoring groups through May. Use MOY AI 2 ELA results to inform how to best increase student results using standards strengths and weaknesses. Determine LLI groups and adjust interventionists and groupings based on data. Exit any students who have reached grade level and enter students who have yet to be brought into the intervention program.

Review 3 - 2014-15 (Based on results evidenced March through June, should/how strategies be changed?)

Refer to strategies and action steps

Review 1 - 2015-16 (Based on results evidenced August through November, should/how strategies be changed?)

The media specialist and the Reading specialists have organized and planned for a team to enter the Battle of the Books Competition. Books have been purchased and the afterschool group will meet regularly to read and discuss these challenging texts.

The School Improvement Intervention Plan has been created and in addition to the above noted strategies each grade level will focus on the following:

K- LNF and FSF 10 minutes/day

1st-2nd - MWF, NWW, and DORF 10 minutes/day

3rd- 4th - DORF 10 minutes/day

Review 2 - 2015-16 (Based on results evidenced December through February, should/how strategies be changed?)

(New SIP will be developed based on end of year results to begin the next two year planning cycle.)

2015-16 TITLE I SCHOOLWIDE WORKSHEET 1B

School Name: Hunter Elementary School Number: 409

Principal: Michelle Thompson

LEA Name/Number: Guilford County Schools (410)

Priority Area 1

1B) Increase literacy skills in all student subgroups kindergarten through fifth grade.

Improvement Strategy #1

Increase literacy proficiency by creating an environment for learning, helping students develop understanding, and helping students extend and apply knowledge using researched based strategies for increasing student achievement.

| CHECK: School Improvement Plans are developed based on data analyses and/or comprehensive needs assessments (PLAN), to impute outcomes of the strategy implementation (ACT). | ement solutions (DO), to unde | erstand the results or in | npact (CHECK) | and to make a | djustments bas | sed upon |
| What data will be used to determine whether the improvement strategies were deployed with fidelity? | | | | | | |
| Unit assessments, classroom assessments, lesson plans, observations, pre/post assessments | | | | | | |
| How will you determine whether the strategies led to progress toward the SMART goal? (Include formative, benchmark and su | mmative data as appropriate | e.) | | | | |
| The data listed above will be analyzed to show progress or areas of improvement. | | | | | | |
| What does the data/evidence show regarding the results of the implemented strategies? | | | | | | |
| Review 1 - 2014-15 (Based on results evidenced August through November, how/should strategies be changed?) | | | | | | |

BOY 1st quarter shows that student cohorts are closer to district average in 4th and 5th (4th- 38.5%, 5th - 36.3%). Individual classrooms are within 1-2% of each other for performance, indicating that classrooms are tightly planned as teams. Students Math pre and post data are showing growth and teachers indicate through PEP updates and conferencing that students are moving up in their math skills. Third grade shows the greatest difference with the district average. Teachers will work with CF and principal to drill down at each taught standard to determine next steps.

Review 2 - 2014-15 (Based on results evidenced December through February, how/should strategies be changed?)

MOY Al 2 shows that student cohorts are closing the gap between the district average in all grades (3rd- 37%, 4th- 41.5%, 5th - 53.3%). The fifth grade teacher results have exceeded the district averages in reading and math. Individual classrooms continue to be within 1-2% of each other for performance, indicating that classrooms are tightly planned as teams. Students Math pre and post data are showing growth and teachers indicate through PEP updates and conferencing that students are moving up in their math skills. Third grade shows the greatest difference with the district average. Teachers will continue to work with CF and principal to drill down at each taught standard to determine next steps.

Review 3 - 2014-15 (Based on results evidenced end-of-year results, how/should strategies be changed?)

Refer to Data Analysis Tab B

Review 1 - 2015-16 (Based on results evidenced August through November, how/should strategies be changed?)

Everyday Math 4 materials are in full use for grades k-4. 5th Grade is using the Core Curriculum and the Power Standards to provide necessary supports since so much of the strategies and programing is taught prior to the 5th grade. Grades k-4th are using the Assessment Tracker feature to track results of unit assessments and to progress monitor results.

Review 2 - 2015-16 (Based on results evidenced December through February, how/should strategies be changed?)

(New SIP will be developed based on end of year results to begin the next two year planning cycle.)

ACT: School Improvement Plans are developed based on data analyses and/or comprehensive needs assessments (PLAN), to implement solutions (DO), to understand the results or impact (CHECK) and to make adjustments based upon the outcomes of the strategy implementation (ACT).

Based upon identified results, should/how should strategies be changed?

Review 1 - 2014-15 (Based on results evidenced August through November, should/how strategies be changed?)

At this time we will drill down to research taught standards at 3rd grade. Teachers will plan for reteaching and remediation based on OFIs.

Review 2 - 2014-15 (Based on results evidenced December through February, should/how strategies be changed?)

Continue to utilize Pre and Post assessments. As the teachers are completing the units they will use the Math Coach EOG prep workbooks to review and spiral the covered material.

Review 3 - 2014-15 (Based on results evidenced March through June, should/how strategies be changed?)

Refer to strategies and action steps above.

Review 1 - 2015-16 (Based on results evidenced August through November, should/how strategies be changed?)

The Home School EM4 Connections are working with families and Leadership decided to utilize the Title Funding set aside for an Everyday Math Event on a Reading family outreach event. Continue to monitor implementation using Assessment Tracker.

Review 2 - 2015-16 (Based on results evidenced December through February, should/how strategies be changed?)

(New SIP will be developed based on end of year results to begin the next two year planning cycle.)

the outcomes of the strategy implementation (ACT).

What data will be used to determine whether the improvement strategies were deployed with fidelity?

Completed surveys, compiled survey results, walk through observations, training agenda and training feedback cards, student writing samples

How will you determine whether the strategies led to progress toward the SMART goal? (Include formative, benchmark and summative data as appropriate.)

| PRIORITY AREA 4B AND ASSOCIATED STRATEGIES |
|--|
| Formative and Summative data will show progress from BOY, MOY and EOY. Records should indicate increased TRC literacy levels for students participating in the LLI program based on running records, DIBELS/TRC. |
| What does the data/evidence show regarding the results of the implemented strategies? |
| Review 1 - 2014-15 (Based on results evidenced August through November, how/should strategies be changed?) |
| |
| Review 2 - 2014-15 (Based on results evidenced December through February, how/should strategies be changed?) |
| |
| Review 3 - 2014-15 (Based on results evidenced end-of-year results, how/should strategies be changed?) |
| New Strategy to assist with Priority 1 Literacy goal |
| Review 1 - 2015-16 (Based on results evidenced August through November, how/should strategies be changed?) |
| All grade levels and specials classes have implemented writing across the curriculum during their class times. Each student maintains a journal with writing from each content area. Teachers provide immediate feedback on written responses completed during guided reading. |
| Review 2 - 2015-16 (Based on results evidenced December through February, how/should strategies be changed?) |
| |
| (New SIP will be developed based on end of year results to begin the next two year planning cycle.) |
| ACT: School Improvement Plans are developed based on data analyses and/or comprehensive needs assessments (PLAN), to implement solutions (DO), to understand the results or impact (CHECK) and to make adjustments based upon the outcomes of the strategy implementation (ACT). |
| Based upon identified results, should/how should strategies be changed? |
| Review 1 - 2014-15 (Based on results evidenced August through November, should/how strategies be changed?) |
| |
| Review 2 - 2014-15 (Based on results evidenced December through February, should/how strategies be changed?) |
| |
| Review 3 - 2014-15 (Based on results evidenced March through June, should/how strategies be changed?) |
| New Strategy to assist with Priority 1 Literacy goal |
| Review 1 - 2015-16 (Based on results evidenced August through November, should/how strategies be changed?) |
| In order to progress monitor the increased proficiency with TRC writing prompts, teachers will be trained how to appropriately and regularly model writing to the prompts. Teachers will utilize and provide students with TRC Written Response Rubrics. Teachers will formally score 1 response each week for students who are not proficient due to written response (level J and above). Results from the scoring will be submitted weekly to the CF. |
| Review 2 - 2015-16 (Based on results evidenced December through February, should/how strategies be changed?) |
| |
