Assistant Secretary
Office of Elementary and Secondary Education
US Department of Education
400 Maryland Avenue, SW
Washington, D.C. 20202

Dear Assistant Secretary Baesler:

Pursuant to 34 C.F.R. §200.6(c)(4), the North Carolina Department of Public Instruction (NCDPI) requests a 1.0 percent participation waiver, in part, from specific statutory and regulatory requirements established under the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA). This waiver request, if granted, would allow the state to exceed the 1.0 percent cap on students with significant cognitive disabilities who are administered the alternate assessment aligned with alternate academic achievement standards (AA-AAAS) to meet the statewide assessment requirement.

As presented in Table 1, the NCDPI anticipates exceeding the 1.0 percent cap on alternate assessment participation in mathematics and English Language Arts/reading at grades 3–8, and science at grades 5 and 8 for the 2025–26 school year. Table 1 displays the reported data from the 2024–25 school year and indicates where there were overages.

Table 1. *North Carolina Alternate Assessment Participation for the 2024–25 School Year*

Table 2 below displays the participation rates for each school year beginning with 2017–18 through 2024–25. The participation rate percentages for 2023–24 mirror pre-pandemic rate percentages. Based on the percentages in Table 2, the NCDPI anticipates exceeding the 1.0 percent cap in the 2025–26 school year.

2025–26 School Year Required State–Level Data

As required by 34 C.F.R. §200.6(c)(4), the NCDPI is submitting this waiver ninety days prior to the administration of the AA-AAAS spring 2026 administrations. Also, as required, included in this request is state-level data from the 2024–25 school year that shows the number and percentage of students in each subgroup who participated in the AA-AAAS. In previous years, North Carolina has followed and met the federal participation assessment requirement and measured the achievement of at least ninety-five percent (95%) of all students and ninety-five percent (95%) of students with disabilities subgroup under section 1111(c)(2)(C) of ESSA who are enrolled in grades for which the assessment is required under §200.5(a).

Table 3, on the following page, shows a comparison of the 2022–23, 2023–24, and 2024–25 school year participation data, which includes the number and percentage of students in each subgroup of students defined in section 1111(c)(2)(A), (B), and (D) of ESSA who took the alternate assessment aligned with alternate academic achievement standards

The NCDPI requires all students enrolled in a Public School Unit (PSU) to be assessed using the general assessment under standard conditions, the general assessment with accommodations, or the alternate assessment aligned with alternate academic achievement standards with or without accommodations. The only exception to participation is for medical exceptions approved by the NCDPI Medical Exception Committee. As previously stated, North Carolina in the 2024–25 school year met the ninety-five percent (95%) participation rate requirement of all students and the subgroup of students with disabilities under section 1111(c)(2)(C) of ESSA who are enrolled in grades for which the assessment is required under §200.5(a).

As shown in Table 4, data from all required assessments in the 2022–23, 2023–24, and 2024–25 school years, the participation rates for all students and students with disabilities was greater than ninety-five percent (95%) for each subject and grade assessment.

2025–26 School Year Participation Requirements for AA-AAAs

The NCDPI verifies that each PSU anticipated to assess more than 1.0 percent of its students in any subject using the alternate assessment followed the State’s guidelines for participation in the AA-AAAs. The NCDPI examines and updates the alternate assessment eligibility criteria annually and provides training to all PSU’s exceptional children, accountability, and testing personnel involved with determining if a student has a significant cognitive disability. The *North Carolina Alternate Assessment Decision Making Flowchart*, found in [Appendix M](#), is guidance provided for Individualized Education Program (IEP) teams, initially developed and implemented in the 2018–19 school year. In June of 2023, this guidance document was updated using stakeholder feedback. This tool is for IEP teams to use when considering the appropriate educational program and related assessments for students who may have a significant cognitive disability. At the beginning of August 2023,

the NCDPI Office of Exceptional Children added the [Alternate Assessment Eligibility Worksheet](#) to the state-wide IEP system, Every Child Accountability and Tracking System (ECATS).

Completion of the *Alternate Assessment Eligibility Worksheet* is a requirement for any student considered for the AA-AAAs. After the eligibility worksheet is completed, the IEP team must complete the assurance document which provides a clear understanding to all team members, including the parents or guardians, that the student will receive a certificate of completion rather than a high school diploma. To assist with this worksheet and assurance document, the Office of Exceptional Children provided PSUs with a [Tip Sheet](#) and a [Frequently Asked Questions](#) document that included a video to help schools determine alternate assessment eligibility.

In the 2025–26 school year, the Office of Exceptional Children conducted a targeted monitoring activity of all PSUs that exceeded the 1% threshold. This targeted monitoring activity included a virtual desk review of the Alternate Assessment Eligibility Worksheet for a sampling of students that are served on the Extended Content Standards within the PSU. Based on findings from the monitoring activity, PSUs have been prescribed corrective action in two prongs. Prong One consists of student level corrections of specific findings for individual students on the *Alternate Assessment Eligibility Worksheet*. Prong two verifies that the PSU is correctly implementing the specific regulatory requirements based on the State's review of updated data. Based on the targeted monitoring results, prong two is required for all PSUs that were monitored and consists of 3 activities: [Corrective Action Timeline](#), [PSU Self-Reflection Document](#), and [PSU Action Plan](#). All corrective action must be concluded by November 26, 2026 (one-year window from date of the corrective action notification).

2025–26 School Year Plan and Timeline

As stated earlier, the Office of Exceptional Children conducted a targeted monitoring activity of all PSUs that exceeded the 1% threshold. This targeted monitoring activity included a virtual desk review of the Alternate Assessment Eligibility Worksheet for a sampling of students that are served on the Extended Content Standards within the PSU. Based on findings from the monitoring activity, PSUs have been prescribed corrective action in two prongs. Prong One consists of student level corrections of specific findings for individual students on the Alternate Assessment Eligibility Worksheet. Prong two verifies that the PSU is correctly implementing the specific regulatory requirements based on the State's review of updated data.

As part of the corrective action process, PSUs were required to attend an initial coaching session led by IDEA Integrated Monitoring Consultants in January 2026. This coaching session guided PSU staff in a data analysis specific to local findings of noncompliance which in turn lead to the completion of the [self-reflection document](#) and finally a [PSU Action plan](#). The self-reflection document is a tool designed to facilitate a PSU's review of policies, practices, and procedures used to determine whether the NCEXTEND1 Alternate Assessment is the most appropriate assessment for students with disabilities. Each section of the self-reflection guide focuses on a specific component and includes essential questions to support problem-solving. The

structure is intended to assist PSUs in identifying areas for improvement, prioritizing next steps, and strengthening practices related to the NCEXTEND1 Alternate Assessment and Indicator 3c data. The PSU action plan will be developed with coordinated efforts between PSU stakeholders and the Office of Exceptional Children Integrated Monitoring staff members. The action plan will summarize data gathered from the self-reflection document and include a reflection area, action items, person responsible, a timeline for the completion, as well as a list of team members who assisted with developing the plan. The completed self-reflection document and action plan are due to the PSU's assigned monitoring consultant by February 14, 2026. When all corrective action components are met and verified, closing letters will be sent by the monitoring consultant no later than November 26, 2026.

In November 2025, staff from the Office of Exceptional Children – IDEA Integrated Monitoring team held a full day technical assistance session highlighting the outcomes of the targeted monitoring activity with a focus on completion of the Alternate Assessment Eligibility Worksheet accurately and proficiently. Team members assisted participants with a data analysis that included reviewing data points collected by IEP Teams through formal and informal evaluations and used when making placement decisions. At the end of the technical assistance session, participants could describe and demonstrate the completion of the Alternate Assessment Eligibility Worksheet using appropriate data sources with the expectation that redelivery and coaching of the requirements must be implemented locally.

After the 2025–26 school year testing window, the NCDPI will analyze participation data in each subject for the alternate assessment aligned to alternate academic achievement standards to determine the anticipated participation rates for the 2026–27 school year. The *Justification Process*, found in [Appendix K](#), requires each PSU that anticipates exceeding 1.0 percent participation on the AA-AAAS to address disproportionality found in the data analysis.

Addressing Disproportionality

The NCDPI Offices of Exceptional Children and Accountability and Testing will continue to address disproportionality in the percentage of students participating in the alternate assessment aligned with alternate academic achievement standards by requiring a justification from each district and charter school that exceeds the 1.0 percent cap. PSUs were encouraged to analyze their data for disproportionality to include, but not limited to, internal audits and compliance checks to ensure students taking the NCEXTEND1 Alternate Assessment meet the eligibility criteria. The NCDPI will continue to provide professional development opportunities through face-to-face and webinar format to present current data as well as updated training on the eligibility criteria. In addition, the NCDPI will provide technical assistance as needed to individual districts and charter schools where disproportionality is present. The NCDPI requires PSUs that exceed the 1.0 percent cap for the total student population assessed in a subject area using an alternate assessment to complete the disproportionality excel worksheet to assist in identifying subgroup and subject areas of concern. Staff members tasked with interpreting the disproportionality data are provided with guiding questions to pinpoint concerns and develop hypotheses. PSUs are

expected to submit the worksheets along with an action plan that addresses how the areas of concern will be reviewed, revised, and remedied as appropriate.

2025–26 School Year Testing Window

The North Carolina Operational Testing Calendar is available on the [NCDPI website](#). Students who are instructed on the North Carolina Extended Content Standards (i.e., reading, mathematics, science) are assessed using the NCEXTEND1 Alternate Assessment during the final ten instructional days of the school year.

2025–26 School Year Public Comment Process

On December 22, 2025, the NCDPI posted its notice of the waiver request for public comment with a link to the comment submission form. The public comment period closed on January 21, 2026. The NCDPI did not receive any public comments for the posted waiver.

Appendix K: Justification Process for Exceeding the 1% Participation Rate in the Alternate Assessments based on Alternate Academic Achievement Standards for Students with Significant Cognitive Disabilities

The NCEXTEND1 Alternate Assessment measures the content standards specified in the North Carolina Standard Course of Study Extended Content Standards for all assessed content areas. The Every Student Succeeds Act (ESSA) requires states to ensure that the total number of students assessed in each subject using the alternate assessment based on alternate academic achievement standards does not exceed 1.0 percent of the total number of students assessed in each subject. States that anticipate they will exceed 1.0 percent participation in the alternate assessment based on alternate academic achievement standards must submit a waiver request to the US Department of Education.

The North Carolina Department of Public Instruction (NCDPI) has reviewed participation data for the NCEXTEND1 assessment in 2024–25 and found that just over 1.0 percent of students in North Carolina participated in each of the NCEXTEND1 content areas. For this reason, the NCDPI will submit a waiver for the 2025–26 school year. Furthermore, the ESSA requires that the waiver be submitted ninety (90) days prior to the beginning of the alternate assessment testing window. To ensure this deadline is met, the NCDPI will submit the waiver request to the US Department of Education on February 2, 2026.

The ESSA requires each district or charter school to complete and submit a justification when it anticipates exceeding 1.0 percent of students assessed in a subject area with the alternate assessment. In North Carolina, there are approximately 160 PSUs that exceeded the one percent participation in the alternate assessment during the 2024–25 school year and are predicted to do the same in 2025–26. Justifications from each district and charter school will be reviewed by the NCDPI and follow up actions will be determined based on the information found in the justification document. Staff from the Office of Exceptional Children and the Office of Accountability and Testing in each district and charter school should collaborate to provide the following information in the justification document:

Section 1: Contact Information

- Contact information for the primary public school unit staff member responsible for the justification document.

Section 2: Analyzing Contributing Factors

- Did the Individualized Education Program (IEP) teams utilize the alternate assessment eligibility criteria and the *North Carolina Alternate Assessment Decision Making Flow Chart* and make alternate assessment participation decisions?

- Describe how Exceptional Children case managers have been informed and trained on the *Alternate Assessment Eligibility Worksheet* and *Assurance document* included in the Every Child Accountability and Tracking System (ECATS).
- Does the public school unit have any student(s) participating in the alternate assessment with the primary eligibility areas of: Specific Learning Disability, Orthopedic Impairment, or Speech Language Impairment? If yes, explain the criteria the IEP team used to determine how the students met the criteria for participation in the alternate assessment.
- Does the public school unit have a small overall student population that increased the likelihood of exceeding the 1.0 percent threshold?

Section 3: Assurances

- What data sources are used to determine eligibility for students participating on the *Extended Content Standards* that align with the alternate assessment?
- Describe the public school units process for generating and utilizing the Case Management Report in ECATS to monitor placement of students instructed towards the *Extended Content Standards*.
- Describe the public school unit's process for transitioning a student's instruction from the North Carolina *Standard Course of Study* to the *Extended Content Standards* or from the *Extended Content Standards* to the North Carolina *Standard Course of Study*.
- In the public school unit, how are parents or guardians directly informed annually about the implications of the *Extended Content Standards* in relation to not earning a high school diploma.
- Describe the process for auditing Exceptional Children IEP records for students instructed on the *Extended Content Standards* and participating in the alternate assessment.
- After completing the Disproportionality Excel document, answer the following guiding questions.
 - In reviewing the data, what subgroups in your public school unit have the largest discrepancy between participants on the general assessment and the alternate assessment?
 - When looking at subgroup discrepancies, what hypotheses can be formed?
 - What problem-solving actions will the public school unit take to address the identified hypotheses?

Section 4: Resources and Technical Assistance

- What resources and technical assistance does the public school unit need from the NCDPI to ensure that students are being assessed using the appropriate assessment?

The completed justification document must be signed by the superintendent or charter school director, exceptional children's director, and testing coordinator. The document must be scanned and emailed to alternateassessment@dpi.nc.gov. The justification

document will be publicly posted. As such, the document **must not contain any personally identifiable information.**

The NCDPI will notify districts or charter schools in writing if further information is needed and include next steps. For questions, contact your exceptional children director or regional accountability coordinator.

Appendix L: NCEXTEND1 Eligibility Criteria

To determine participation in any of the NCEXTEND1 alternate assessments, the following eligibility requirements must be met:

- The student must have a current Individualized Education Program (IEP).
- The student must have a significant cognitive disability.
 - The student's disability significantly impacts cognitive functioning and adaptive behaviors, defined as those skills which are essential for someone to live and function independently.
 - The student requires extensive and repeated individualized instruction and support to make meaningful gains.
 - The student uses substantially adapted materials and individualized methods of accessing information in alternative ways.
- The student must be instructed using the North Carolina Extended Content Standards (i.e., reading, mathematics, science).
- The student must be enrolled in grades 3–8, 10, or 11, according to the NC Student Information System (NCSIS). Only those students enrolled in 11th grade for the first time are required to take the NCEXTEND1 alternate assessment at grade 11.

The vast majority of students with disabilities do not have a significant cognitive disability. The NCEXTEND1 is **not** appropriate for students who

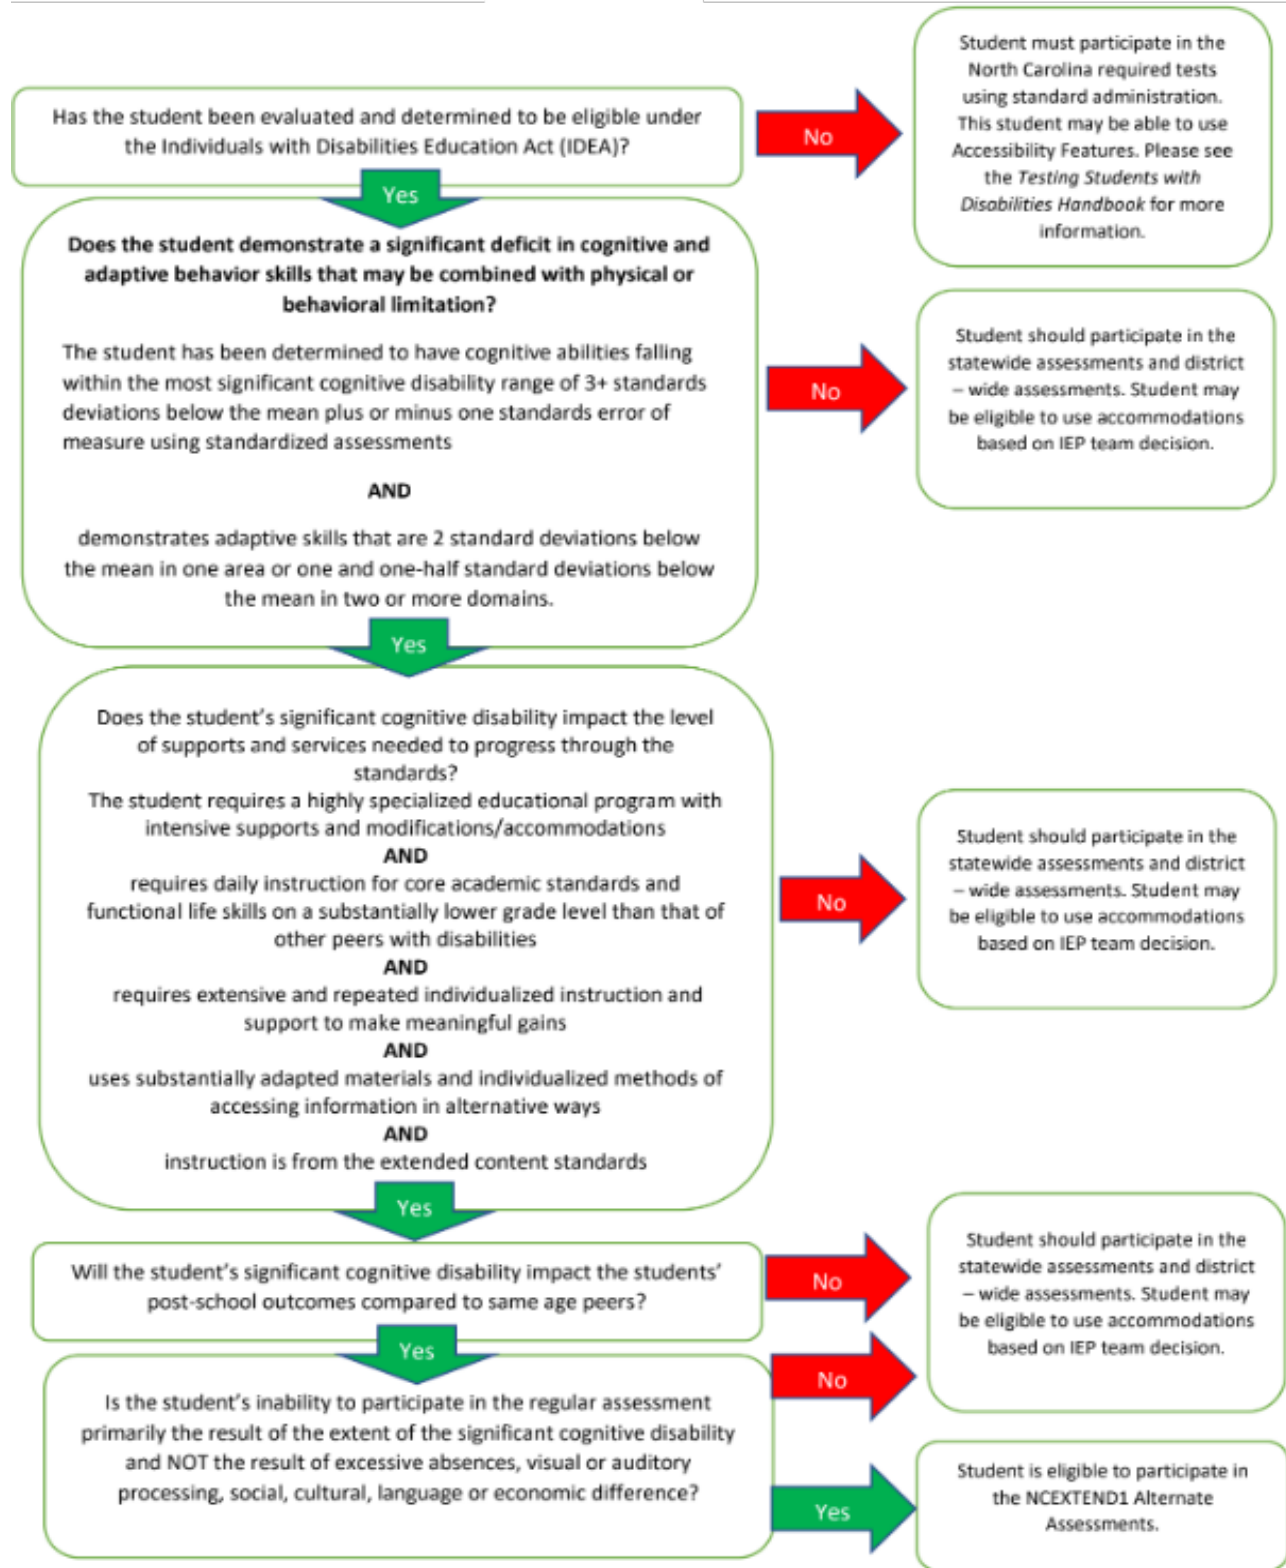

- are being instructed in any or all the assessed general grade- or course-level content standards of the *North Carolina Standard Course of Study* (i.e., reading, mathematics, science);
- demonstrate delays only in academic achievement;
- demonstrate delays only in selected areas of academic achievement;
- demonstrate delays owing primarily to behavioral issues; or
- if in high school, are pursuing a North Carolina high school diploma (including students enrolled in the Occupational Course of Study pathway).

Evidence for the decision to participate in NCEXTEND1 is **not** based on:

- a disability category or label;
- poor attendance or extended absences;
- native language, social, cultural, or economic differences;
- expected poor performance on the general education assessment;
- academic or other services the student receives;
- educational environment or instructional setting;
- percent of time receiving special education services;
- English Learner status;
- low reading level or achievement level;
- anticipated disruptive behavior;
- impact of student scores on the accountability program;
- administrative decisions;
- anticipated emotional distress; or
- need for accommodations to participate in the assessment process.

IEP teams may use the following *North Carolina Alternate Assessment Decision Making Flow Chart* to aid in decision making regarding the NCEXTEND1 alternate assessment for students.

Appendix N: 1.0 Percent Statewide Annual Review Process

1.0 Percent Statewide Annual Review Process

Background Information

The Every Student Succeeds Act (ESSA) empowers states to look more carefully at the participation rate on the alternate assessment aligned to alternate academic achievement standards (AA-AAAS) for students with the most significant cognitive disabilities. Under the Act, the total number of students assessed in a subject using an alternate assessment may not exceed 1.0 percent of the total number of students in the state who are assessed in that subject. If a State anticipates that it will exceed the cap with respect to any subject for which alternate assessments are administered in any school year, the State may request a waiver for the cap for the relevant subject for one year. The regulation in question, 34 C.F.R. §200.6(c)(2), requires State Education Agencies, such as the North Carolina Department of Public Instruction (NCDPI), to adhere to a 1.0 percent cap for the total number of students assessed statewide in a subject area using an alternate assessment. Since the inception of ESSA, North Carolina has continued to exceed the 1.0 percent participation rate.

Purpose

Each PSU is responsible for ensuring appropriate student eligibility, identification, and placement in special education. The *1.0 Percent Statewide Annual Review Process* is designed for PSUs to monitor student participation rates on the alternate academic achievement standards and the alternate assessments for students with the most significant cognitive disabilities. As stated in the *State Approaches to Monitoring AA-AAAS Participation Decisions Brief*, “Although it is IEP teams that determine which students participate in the AA-AAAS, the state must monitor and support LEAs to help ensure IEP teams are making appropriate decisions. It is important to know how states are monitoring IEP decision making because ultimately the responsibility resides with the state for ensuring that only students who qualify for participation in the AA-AAAS take the assessment.”¹

1.0 Percent Statewide Annual Review Process

The *1.0 Percent Statewide Annual Review Process* ensures students are being appropriately identified and assessed using an alternate assessment. Any PSU at or above 1.1% must complete the tasks on the following pages and submit to the NCDPI Office of Exceptional Children. As a reminder, the PSU test coordinator has access to the participation rate data via the secure shell.

1.0 Percent Statewide Annual Review Process (any PSU at or above 1.1%)

1. In the Every Child Accountability and Tracking System (ECATS):
 - Run and download the [Case Management Report](#) and open with Excel.
 - In the Excel document, on the top right of the menu bar, click the “Sort and Filter” button and then select “Filter”.
 - Locate the “Extended Content Standard” column. Filter and select “Yes” only.
 - Locate the “Primary Disability” column. Filter and select Specific Learning Disability (SLD), Speech-Language Impairment (SI), and Orthopedic Impairment (OI).
 - The Extended Content Standards (ECS) are designed for students with the most significant cognitive disabilities. Students with SLD, SI, and OI as their primary disability area and instructed towards the ECS, should alert public school unit personnel of a potential error in identification, course of study, and/or participation in state-mandated assessments.
 - Public school unit personnel must review the students’ eligibility and course of study. The Exceptional Children Director or Coordinator must contact and inform each case manager that the student(s) with the primary eligibility areas of SLD, SI, and OI and participating on the ECS, must convene an IEP team meeting to either change the student(s) course of study or initiate a re-evaluation to determine eligibility for the student(s). The decision to change the student(s) course of study or complete the re-evaluation process must be completed by June 30, 2025.
 - The Exceptional Children Director or Coordinator must complete and submit the [Case Management Report spreadsheet](#) only if students with the primary eligibility areas of SLD, SI, and OI are found to be instructed towards the ECS. If no students are found to match this criteria, N/A should be entered into the Qualtrics link provided below.
 - Locate the “Primary Disability” column. Filter and select Intellectual Disabilities-Mild (IDMI) and Autism (AU).
 - These two primary disability categories may be used for students instructed towards the ECS. Personnel should review the report to ensure students are receiving the appropriate instruction and assessment based on their eligibility and the data used to justify participation in the alternate assessment is documented in the student’s IEP.
 - Locate the “Primary Disability” column. Filter and select all.
 - Locate the “Grade” column. Filter and select 8, 9, 10, 11, and 12.
 - Locate the “Course of Study” column. All ECS high school students must have “Extended Content Standards: Leading to Graduation Certificate” selected as their Course of Study.
 - Students may **not** have “Future Ready Occupational Course of Study: Leading to a NC Diploma” or “Future Ready Course of Study: Leading to a NC Diploma” selected. Public school unit personnel should review the course of study selected for any ECS student if there is a misalignment.

- Check a sample of transcripts to ensure all high school ECS students are enrolled in “AX” courses.
- 2. All exceptional children teachers and LEA representatives in a PSU are required to complete the [Alternate Assessment Eligibility Training Course](#) in Canvas.
 - The [Alternate Assessment Eligibility Training Course](#) is designed to provide an overview of North Carolina's identification process for students with the most significant cognitive disabilities.
 - The Exceptional Children Director or Coordinator will submit the [Alternate Assessment Eligibility Training Course Completion Log](#) which includes each staff member's first, name, last name, and completion date.
- 3. Complete the *Extended Content Standard Self-Reflection Guide* and submit Part G only.
 - The PSU [Extended Content Standard Self-Reflection Guide](#) is a resource for use in reviewing PSU policies, practices, and procedures for determining whether the NCEXTEND1 alternate assessments are appropriate for students with disabilities. Sections A through G of the guide organizes a particular component with essential questions for problem-solving. This organization is intended to support the identification of areas to strengthen and prioritize first steps.
