NCEXTEND1 Grade 5 Mathematics

Public Schools of North Carolina

Department of Public Instruction | State Board of Education
Division of Accountability Services/North Carolina Testing Program

Item 1

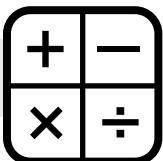

Test Cards: Provided by NCDPI

- Stem: “What is 2×5 ?”
- A: 10
- B: 7
- C: 3

*Objects/symbols may be substituted for the pictures if used routinely in the classroom. (Provided by the assessor)

Trial 1

- The assessor presents and reads the stem.
- The assessor says: **“What is 2×5 ? ”**
- The assessor presents and reads the answer choices in the following order (*Choice A, Choice B, Choice C*).
- The assessor says: (A) **“10”** (B) **“7”** (C) **“3”**
- The assessor says: **“What is 2×5 ? Select an answer.”**
- If the student answers correctly, the assessor presents the next item.
- If the student answers incorrectly, the assessor removes the incorrect answer and proceeds to trial 2.
- If the student does not respond, the assessor randomly removes one of the incorrect answers and proceeds to trial 2.

Trial 2

- The assessor presents and reads the stem.
- The assessor says: "**Let's try again. What is 2×5 ?**"
- The assessor presents the answer choices in the following order.

If B was removed

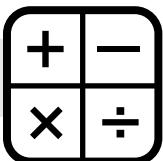

The assessor says: (A) "**10**" (C) "**3**"

If C was removed

The assessor says: (A) "**10**" (B) "**7**"

The assessor says: "**What is 2×5 ? Select an answer.**"

- The assessor and student continue to the next item.

Item 2

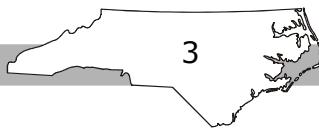

Test Cards: Provided by NCDPI

- Stimulus: a scripted bar graph
- Stem: "How many more miles did John run on Thursday than on Friday?"
- A: 1 mile
- B: 2 miles
- C: 3 miles

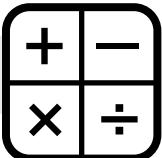

*Objects/symbols may be substituted for the pictures if used routinely in the classroom. (Provided by the assessor)

Trial 1

- The assessor presents and reads the stimulus.
- The assessor says: **"This bar graph shows the number of miles John ran each day, Monday through Friday."**
- The assessor presents and reads the stem.
- The assessor says: **"How many more miles did John run on Thursday than on Friday?"**
- The assessor presents and reads the answer choices in the following order (*Choice A, Choice B, Choice C*).
- The assessor says: (A) **"1 mile"** (B) **"2 miles"** (C) **"3 miles"**
- The assessor says: **"How many more miles did John run on Thursday than on Friday? Select an answer."**
- If the student answers correctly, the assessor presents the next item.
- If the student answers incorrectly, the assessor removes the incorrect answer and proceeds to trial 2.
- If the student does not respond, the assessor randomly removes one of the incorrect answers and proceeds to trial 2.

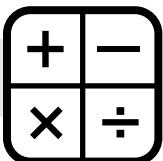

Go to the next page.

Trial 2

- The assessor presents and reads the stimulus.
- The assessor says: **"Let's try again. This bar graph shows the number of miles John ran each day, Monday through Friday."**
- The assessor presents and reads the stem.
- The assessor says: **"How many more miles did John run on Thursday than on Friday?"**
- The assessor presents the answer choices in the following order.
If A was removed
The assessor says: (B) "2 miles" (C) "3 miles"
If C was removed
The assessor says: (A) "1 mile" (B) "2 miles"
- The assessor says: **"How many more miles did John run on Thursday than on Friday? Select an answer."**
- The assessor and student continue to the next item.

Item 3

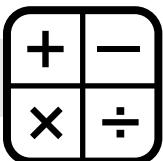

Test Cards: Provided by NCDPI

- Stimulus: a scripted graphic presenting 47 cubes
- Stem: “Which amount is equal to 4 tens and 7 ones?”
- A: 2 tens and 27 ones
- B: 2 tens and 17 ones
- C: 2 tens and 7 ones

*Objects/symbols may be substituted for the pictures if used routinely in the classroom. (Provided by the assessor)

Trial 1

- The assessor presents and reads the stimulus.
- The assessor says: **“This shows 4 tens and 7 ones.”**
- The assessor presents and reads the stem.
- The assessor says: **“Which amount is equal to 4 tens and 7 ones?”**
- The assessor presents and reads the answer choices in the following order (*Choice A, Choice B, Choice C*).
- The assessor says: (A) **“2 tens and 27 ones”** (B) **“2 tens and 17 ones”** (C) **“2 tens and 7 ones”**
- The assessor says: **“Which amount is equal to 4 tens and 7 ones? Select an answer.”**
- If the student answers correctly, the assessor presents the next item.
- If the student answers incorrectly, the assessor removes the incorrect answer and proceeds to trial 2.
- If the student does not respond, the assessor randomly removes one of the incorrect answers and proceeds to trial 2.

Trial 2

- The assessor presents and reads the stimulus.
- The assessor says: "**Let's try again. This shows 4 tens and 7 ones.**"
- The assessor presents and reads the stem.
- The assessor says: "**Which amount is equal to 4 tens and 7 ones?**
- The assessor presents the answer choices in the following order.

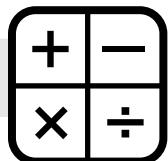

If B was removed

The assessor says: (A) "**2 tens and 27 ones**" (C) "**2 tens and 7 ones**"

If C was removed

The assessor says: (A) "**2 tens and 27 ones**" (B) "**2 tens and 17 ones**"

- The assessor says: "**Which amount is equal to 4 tens and 7 ones? Select an answer.**"
- The assessor and student continue to the next item.

Item 4

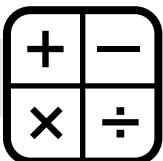

Test Cards: Provided by NCDPI

- Stimulus: a scripted presentation of a numerical pattern
- Stem: "Which number comes next in the pattern?"
- A: 13
- B: 14
- C: 15

*Objects/symbols may be substituted for the pictures if used routinely in the classroom. (Provided by the assessor)

Trial 1

- The assessor presents and reads the stimulus.
- The assessor says: "**This shows a pattern, 3, 6, 9, 12, _____.**"
- The assessor presents and reads the stem.
- The assessor says: "**Which number comes next in the pattern?**"
- The assessor presents and reads the answer choices in the following order (*Choice A, Choice B, Choice C*).
- The assessor says: (A) "**13**" (B) "**14**" (C) "**15**"
- The assessor says: "**Which number comes next in the pattern? Select an answer.**"
- If the student answers correctly, the assessor presents the next item.
- If the student answers incorrectly, the assessor removes the incorrect answer and proceeds to trial 2.
- If the student does not respond, the assessor randomly removes one of the incorrect answers and proceeds to trial 2.

Trial 2

- The assessor presents and reads the stimulus.
- The assessor says: "**Let's try again. This shows a pattern, 3, 6, 9, 12, ____.**"
- The assessor presents and reads the stem.
- The assessor says: "**Which number comes next in the pattern?**"
- The assessor presents the answer choices in the following order.

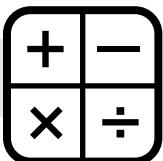

If A was removed

The assessor says: (B) "14" (C) "15"

If B was removed

The assessor says: (A) "13" (C) "15"

- The assessor says: "**Which number comes next in the pattern? Select an answer.**"
- The assessor and student continue to the next item.

Item 5

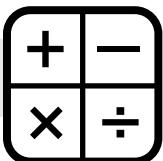

Test Cards: Provided by NCDPI

- Stimulus: a scripted presentation of a parallelogram and a square
- Stem: "Which shape also has 4 corners and 4 sides?"
- A: triangle
- B: pentagon
- C: rectangle

*Objects/symbols may be substituted for the pictures if used routinely in the classroom. (Provided by the assessor)

Trial 1

- The assessor presents and reads the stimulus.
- The assessor says: **"This shows a parallelogram and a square. Both have 4 corners and 4 sides."**
- The assessor presents and reads the stem.
- The assessor says: **"Which shape also has 4 corners and 4 sides?"**
- The assessor presents and reads the answer choices in the following order (*Choice A, Choice B, Choice C*).
- The assessor says: (A) **"triangle"** (B) **"pentagon"** (C) **"rectangle"**
- The assessor says: **"Which shape also has 4 corners and 4 sides? Select an answer."**
- If the student answers correctly, the assessor ends the presentation of the sample items.
- If the student answers incorrectly, the assessor removes the incorrect answer and proceeds to trial 2.
- If the student does not respond, the assessor randomly removes one of the incorrect answers and proceeds to trial 2.

Trial 2

- The assessor presents and reads the stimulus.
- The assessor says: "**Let's try again. This shows a parallelogram and a square. Both have 4 corners and 4 sides.**"
- The assessor presents and reads the stem.
- The assessor says: "**Which shape also has 4 corners and 4 sides?**"
- The assessor presents the answer choices in the following order.

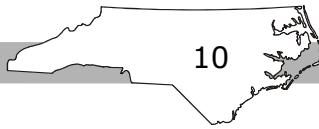

If A was removed

The assessor says: (B) "pentagon" (C) "rectangle"

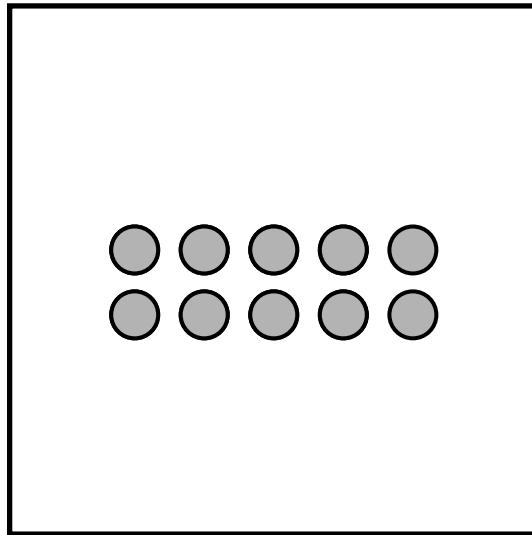

If B was removed

The assessor says: (A) "triangle" (C) "rectangle"

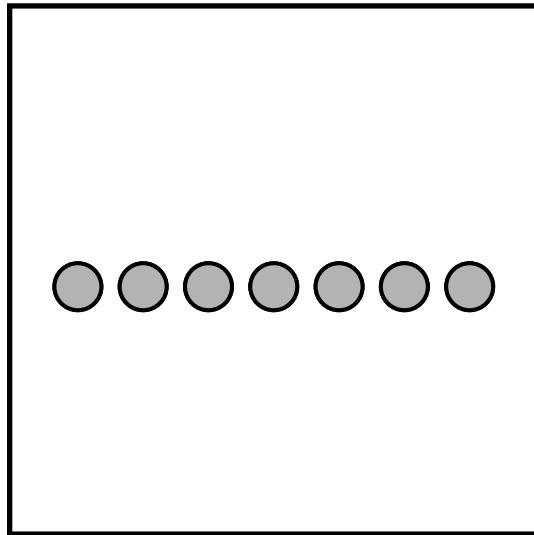

- The assessor says: "**Which shape also has 4 corners and 4 sides? Select an answer.**"
- The assessor ends the presentation of the sample items.

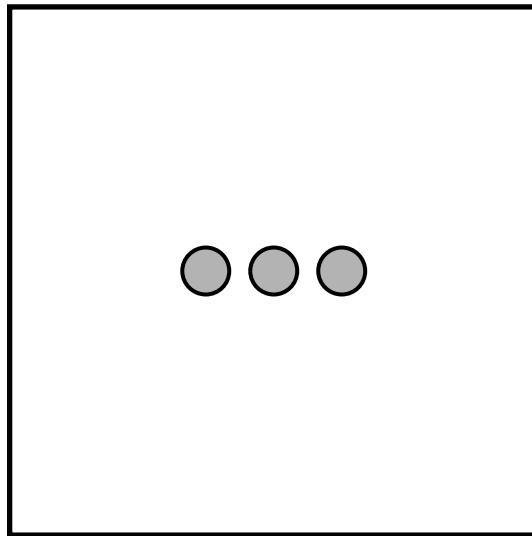

What is 2×5 ?

10

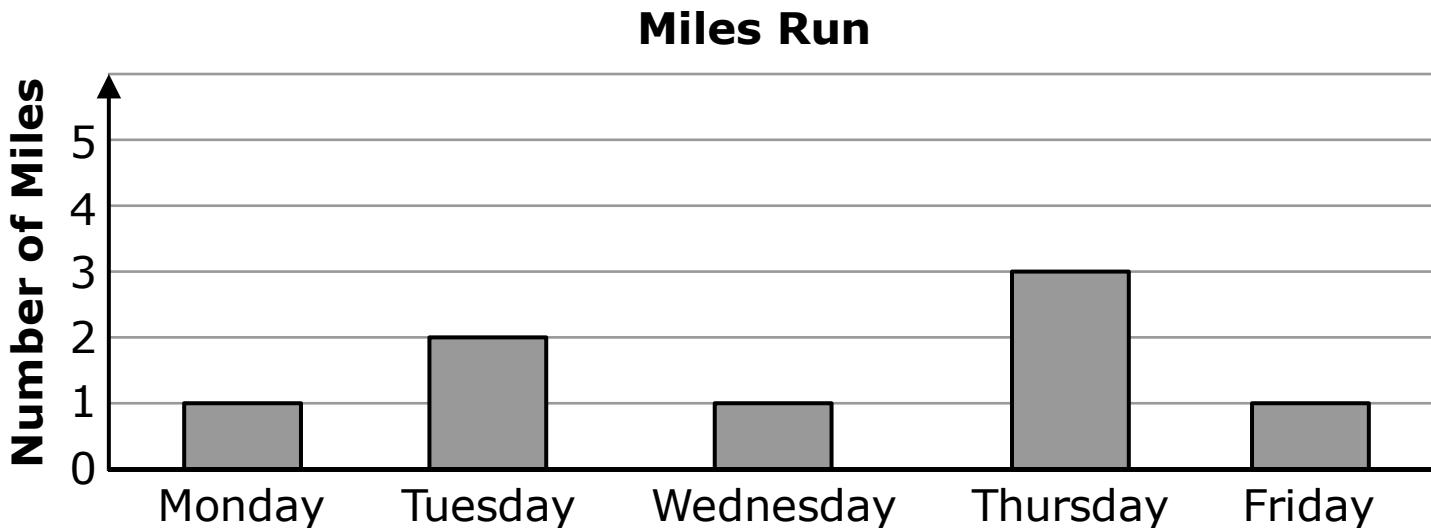

7

3

This bar graph shows the number of miles John ran each day, Monday through Friday.

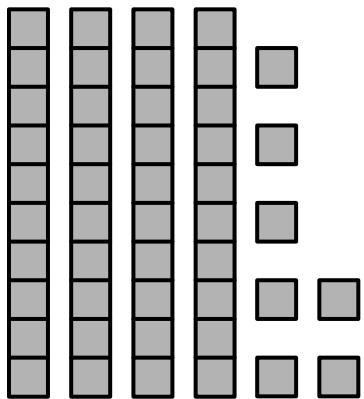

How many more miles did John run on Thursday than on Friday?

1 mile

2 miles

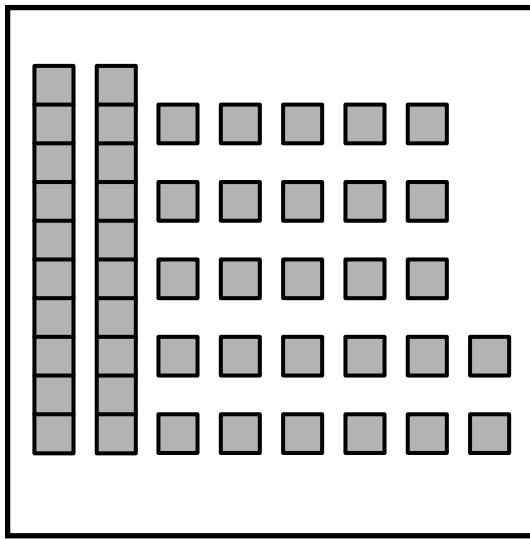

3 miles

This shows 4 tens and 7 ones.

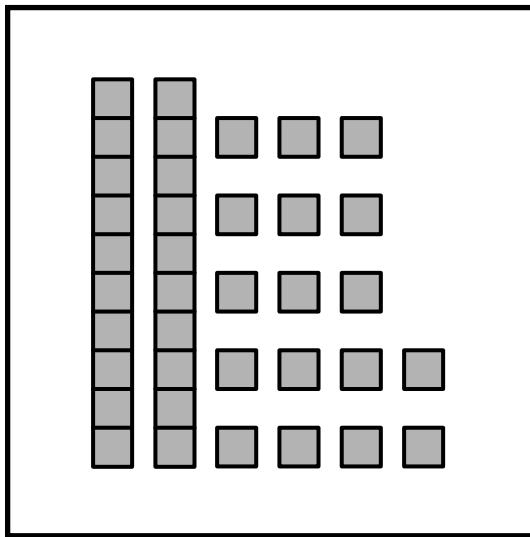

4 tens and 7 ones

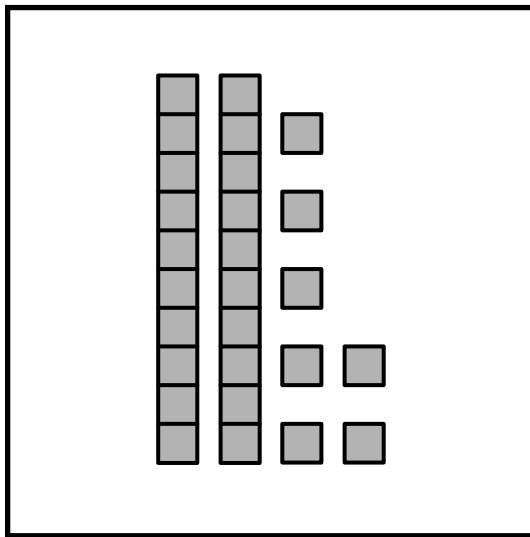

Which amount is equal to 4 tens and
7 ones?

2 tens and 27 ones

2 tens and 17 ones

2 tens and 7 ones

This shows a pattern.

3, 6, 9, 12, ____

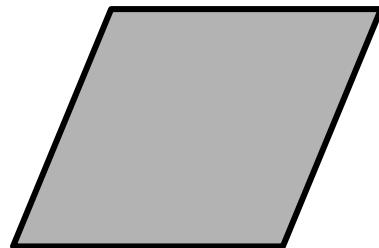

Which number comes next in the pattern?

13

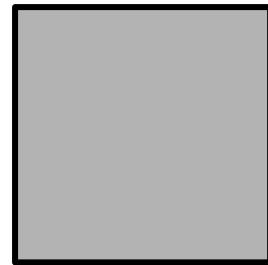

14

15

This shows a parallelogram and a square.
Both have 4 corners and 4 sides.

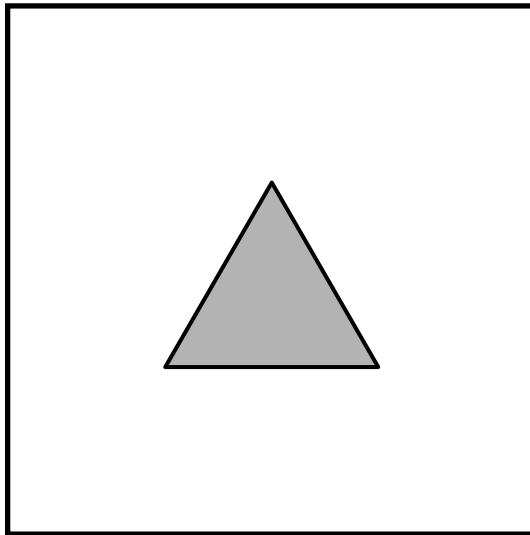

parallelogram

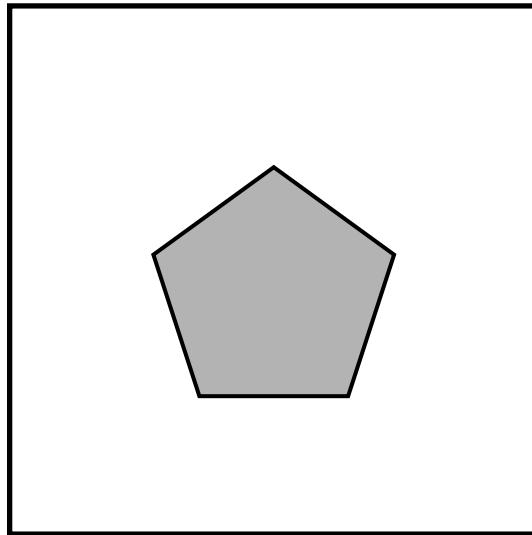

square

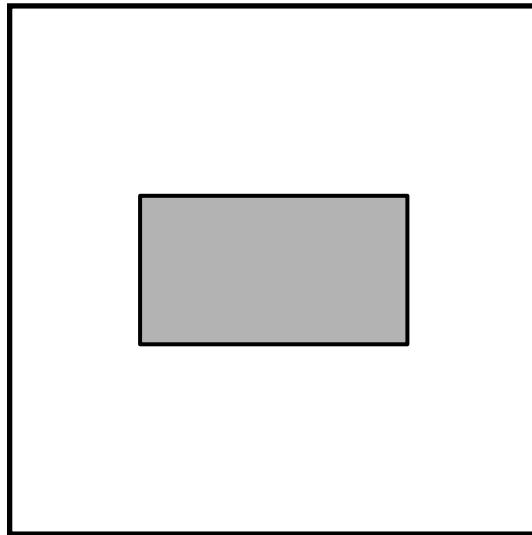

Which shape also has 4 corners and
4 sides?

triangle

pentagon

rectangle
