

FAI 2022 Advanced Math Course Reporting

*Dr. Charles Aiken
Section Chief, Mathematics and Science
Office of Academic Standards*

*Stephanie Cyrus
State Consultant, AIG & Advanced Programs
Office of Advanced Learning and Gifted Education*

- Examine the Purpose and Timeline of the Advanced Math Course (AMC) report
- Walk through the processes:
 - Run the AMC report
 - Examine and validate the AMC report data
 - Make data corrections at the student level
 - Approve the AMC report at the school and LEA level

The purpose of the legislation

Advanced Courses in Mathematics legislation

Broaden access and successful participation in advanced courses.

Regardless of student background and demographic factors, those who demonstrate readiness are guaranteed the opportunity to access advanced coursework in mathematics.

GENERAL ASSEMBLY OF NORTH CAROLINA SESSION 2019

SESSION LAW 2019-120 SENATE BILL 500

AN ACT TO MAKE CERTAIN MODIFICATIONS TO THE IMPLEMENTATION OF ADVANCED MATH COURSES OFFERED WHEN PRACTICABLE FOR GRADES SIX AND HIGHER.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 115C-81.36 reads as rewritten:

"§ 115C-81.36. Advanced courses in mathematics.

(a) When practicable, local boards of education shall offer advanced learning opportunities in mathematics in grades three through five, and advanced courses in mathematics in all grades ~~three-six~~ and higher. For the purposes of this section, advanced learning opportunities are those services and curricular modifications in mathematics for academically or intellectually gifted students approved as part of the local plan, as required by G.S. 115C-150.7.

(a1) When advanced learning opportunities are offered in mathematics in grades three through five, any student scoring at the highest level on the end-of-grade test shall, for the next school year, be provided advanced learning opportunities in mathematics approved for that student's grade level. No student who qualifies under this subsection shall be removed from the advanced learning opportunity provided to the student unless a parent or guardian of the student provides written consent for the student to be excluded or removed after being adequately informed that the student's placement was determined by the student's achievement on the previous end-of-grade test.

(b) When advanced courses are offered in ~~mathematics~~, mathematics in grades six and higher, any student scoring a level five at the highest level on the end-of-grade or end-of-course test for the mathematics course in which the student was most recently enrolled shall be enrolled in the advanced course for the next mathematics course in which the student is enrolled. A student in seventh grade scoring a level five at the highest level on the seventh grade mathematics end-of-grade test shall be enrolled in a high school level mathematics course in eighth grade.

The purpose of AMC reporting

Advanced Courses in Mathematics legislation,

NCDPI will report the number and demographic information for students who **were eligible** for advanced math courses, and were then either ***placed*** or ***not placed*** in an advanced math course in the following school year.

Where & When do we report?

Districts run and approve the PowerSchool AMC report

- State Reporting hub
- Submission window opens
October 1 - 15, 2022

NCDPI will compile and submit the data to the Joint Legislative Education Oversight Committee (JLEOC) - by December 15, 2022

Running the Report

School level reports - all secondary schools

Running the Report

The screenshot displays the PowerSchool SIS interface. On the left is a navigation menu with sections: Functions, Reports, and People. The 'Reports' section is highlighted, and a red box encloses the 'State Reports' link. A red arrow points from this box to a callout window on the right. The callout window, titled 'Reports', lists: System Reports, ReportWorks, PSCB Custom Reports, sqlReports, State Reports (highlighted with a hand cursor), and Standalone Reports. The main interface shows the 'Start Page' with filters for 'Students' (All) and a search bar. Below this is a 'Current Student Selection (0)' section with a message 'There are no search results.' and a 'Daily Bulletin - Tuesday, October' section. A 'Legend' section at the bottom indicates 'Icons' and 'Date Entry'.

Running the Report

The screenshot displays the 'Reports' section of a web application. The 'State Reporting Dashboard' tab is selected and highlighted with a red circle. Below the tabs, a table titled 'Current Collections' is visible, with columns for 'Details', 'Report', 'Submission Starts', 'Submission Ends', 'Errors / Warnings', and 'Workflow Options'. A 'Run' button is circled in red on the right side of the table. A large red arrow points from this 'Run' button to a 'Refresh' button in the bottom right corner of the interface. The 'Refresh' button is also circled in red. The interface includes a top navigation bar with various report categories and a bottom section with 'Errors / Warnings' and 'Workflow Options' tabs.

12					M	8	A	N	N	N	Y	N	20072Y07	7th Grade Math	Level 5	21092Y0M	Y

Review the available data

At the **school level detail view**, consider the following:

1. Are there any students missing from the report?
 - *Cross reference with accountability data to determine if there are students who achieved a Level 5, but are not listed on the report.*
2. Is the information captured in the table accurate?
 - *Determine if students are accurately reflected as either placed (Y) or not placed (N) in an advanced course in the current school year.*

Data review - next steps:

For students missing from the report -

- Check historical test record
- Enter test data
- Refresh/re-run to capture the change

Concerns about students showing as “not placed” on report-

- No - due to parent request
 - Keep written documentation of request
 - Report is accurate - make no changes
- No - because the student was overlooked when preparing schedules for the new year
 - FIX the student's schedule
- No - but the student IS enrolled in an advanced course?
 - If so, check the current course code!
 - LOCAL codes will require a **data correction - using the NEW override feature!**
