Sneha Shah-Coltrane, Senior Director, Office of Advanced Learning/Gifted Education *Sneha Coltrane*

Trey Michael, Senior Director, Office of Career and Technical Education *Trey Michael*

DATE September 6, 2024

2024-2025 PRESIDENTIAL SCHOLARS PROGRAM

The U.S. Presidential Scholars Program was established by President Lyndon Johnson in 1964, and since that time, the program has honored over 8,000 outstanding high school seniors. The mission of the program is to recognize and honor outstanding high school seniors and thereby encourage high attainment among all students.

Students are selected based on outstanding scholarship qualities. Since 2013, Chief State School Officers (CSSO) have been invited to nominate candidates from their states for the General component of the program. The program also partners with several recognition organizations that nominate candidates for the general component of the program. And beginning in 2016, outstanding students who demonstrated excellence in CTE were included for recognition.

Each PSU may nominate one to three students, based on senior student enrollment*, for both the General Education and Career and Technical categories. Submissions are **due to NCDPI on or before October 25, 2024**. A team from the NCDPI will evaluate PSU nominations and make recommendations to the CSSO based on those scores. NC Superintendent of Public Instruction Catherine Truitt may nominate ten male and ten female candidates in the General Education category based on their outstanding scholarship. Additionally, Superintendent Truitt may nominate up to five candidates who meet the U.S. Presidential Scholars candidacy requirements for Career and Technical Education.

Nominations from each CSSO are due to the Presidential Scholars Program Office in the U.S. Department of Education by November 29, 2024. Candidates will receive a letter of invitation from the Presidential Scholars Program Office to apply for the U.S. Presidential Scholars Program by the end of January 2025. Please note that application for the U.S. Presidential Scholars Program is by invitation only. Semifinalists are announced in April, with finalists announced the first full week of May 2025. The recipients will be recognized in June through the U.S. Presidential Scholars, Scholar National Recognition Program.

GENERAL COMPONENT NOMINATION REQUEST:

PSU Chief Academic Officers may nominate one to three students*, based on senior enrollment from your district/charter, who demonstrate outstanding scholarship qualities as a candidate for the 2024- 2025

Scholars program. High school seniors graduating between January and August 2025, who are U.S. citizens or legal permanent residents are eligible for nomination. The candidates will go through the NCDPI application process. NCDPI nominations are selected based on a committee selection process. As in the past, the 2025 U.S. Presidential Scholars will be selected by the Commission on Presidential Scholars and receive the Presidential Scholars Medallion.

It may be helpful to consider the following questions during the selection of nominees:

1. What about the student makes him or her stand out as having outstanding scholarship?
2. Were there special challenges or hurdles this student has overcome while still achieving high academic success?

In addition, it may be useful to know that the national (and state-level) reviewers will be considering the following categories when evaluating the nominees at the semifinalist and scholar evaluation levels:

- SAT and/or ACT scores
- Involvement and Service (in school and community)
- Leadership and Problem-solving
- Character and Perseverance
- Writing samples
- Academic achievements

CAREER AND TECHNICAL EDUCATION (CTE) NOMINATION REQUEST

In addition to the general nominations, each PSU may nominate one to three students*, based on senior enrollment, to be included as candidates for recognition for excellence in CTE. This component of the program will honor students “on the basis of outstanding scholarship and demonstrated ability and accomplishment in career and technical education fields.” Please see the CTE criteria attachment for guidance.

All high school seniors who are participants of a CTE program graduating between January and August of 2025 who are U.S. citizens or legal permanent residents are eligible. Candidates who are nominated and have completed applications will be reviewed by a committee of qualified individuals experienced in career and technical education. The Presidential Scholars Program CTE committee will choose 60 applicants to be named as semifinalists. The Commission will then review the 60 CTE semifinalist applications for Presidential Scholars. All 2025 U.S. Presidential Scholars will be selected by the Commission on Presidential Scholars and will receive the Presidential Scholars Medallion.

In addition, it may be useful to know that the national (and state-level) CTE reviewers will be considering the following categories when evaluating the nominees at the semifinalist and Scholar evaluation levels:

- Academic Rigor
- Technical Competence
- Employability Skills
- Ingenuity and Creativity
