STATE BOARD OF EDUCATION

STATE BOARD OF EDUCATION VISION: Every public school student in North Carolina will be empowered to accept academic challenges, prepared to pursue their chosen path after graduating high school, and encouraged to become lifelong learners with the capacity to engage in a globally-collaborative society.

STATE BOARD OF EDUCATION MISSION: The mission of the North Carolina State Board of Education is to use its constitutional authority to guard and maintain the right of a sound, basic education for every child in North Carolina Public Schools.

ERIC DAVIS
Chair: Charlotte – At-Large

ALAN DUNCAN
Vice Chair: Greensboro – Piedmont-Triad Region

MARK ROBINSON
Lieutenant Governor: High Point – Ex Officio

DALE FOLWELL
State Treasurer: Raleigh – Ex Officio

CATHERINE TRUITT
Superintendent & Secretary to the Board: Cary

JILL CAMNITZ
Greenville – Northeast Region

REGINALD KENAN
Rose Hill – Southeast Region

AMY WHITE
Garner – North Central Region

OLIVIA OXENDINE
Lumberton – Sandhills Region

VACANT
Southwest Region

TODD CHASTEEN
Blowing Rock – Northwest Region

DONNA TIPTON-ROGERS
Brasstown – Western Region

J. WENDELL HALL
Ahoskie – At-Large

JAMES FORD
At-Large

2020-2021 Credentialing Data

North Carolina
Career and Technical Education

December 2021

Prepared by:

Stephen Kelley
Senior Analyst for CTE Reporting and Analysis

Nancy Cross
Section Chief for CTE Reporting and Analysis

Linda Lay
Section Chief for Credentials and Support Services

North Carolina Career and Technical Education
North Carolina Department of Public Instruction

Special thanks to all CTE consultants, local teachers, support staff, and administrators who provided the data used in this report.

EXECUTIVE SUMMARY

Credentials in Secondary North Carolina Career and Technical Education (CTE)

Credentials recognized by NC CTE are typically endorsed by business and industry and provide documentation for student mastery of skills required for employment and advancement in a career.

North Carolina CTE experienced a steady increase in credential attainment between academic years 2010-2011 and 2018-2019; however, a two-year decline began in spring 2020 and can be directly related to two distinct factors.

- The COVID-19 pandemic negatively impacted credential data administration and reporting.
- The new Strengthening Career and Technical Education for the 21st Century Act (Perkins V) required pathway realignments with a more focused definition of recognized credentials.

The 2020-2021 academic year saw 126,078 credentials collected statewide, which approximates the NC CTE 2014-2015 credential achievement level.

Top Credentials

CPR/AED (Cardiopulmonary Resuscitation/Automated External Defibrillator) were earned by 4,134 students. Microsoft Office Specialist PowerPoint (3,951), Specialist Word (3,951), OSHA (Occupational Safety and Health Administration) Healthcare (3,423), and Adobe Photoshop (3,101) were among the most frequently earned credentials across North Carolina.

Students in Union County Schools reported the highest number of credentials earned at 9,218. Union, Caldwell, and Burke County Schools are among the top ten districts and increased credentials earned from 2019-2020 to 2020-2021.

The top schools based upon the percent of students earning credentials of all students enrolled in CTE courses are (1) Caldwell County Schools, (2) Hoke County Schools, (3) Alleghany County Schools, (4) Pender County Schools, and (5) Burke County Schools.

Data Collection

Educators and business and industry representatives recommend credentials each year that are aligned to the CTE curriculum and valued by employers. Proposed credentials are investigated to ensure they meet requirements for reporting.

Credentials earned data was collected for each student and matched to enrollment information. Much of the NC CTE credentials data was collected directly from the credentialing agency. Additional results were collected from students using third-party software. Care was taken to protect the confidentiality of student information during the collection and analysis process.

Contact Information

The 2020-2021 NC CTE Credentialing Data report provides a more detailed analysis of credentials earned by secondary NC CTE students. It includes statewide, regional, and individual school district information.

For more information about this report or credentialing data in NC, please contact NC CTE Section Chief for Reporting and Analysis Nancy Cross at (984) 236-2890 or Nancy.Cross@dpi.nc.gov.

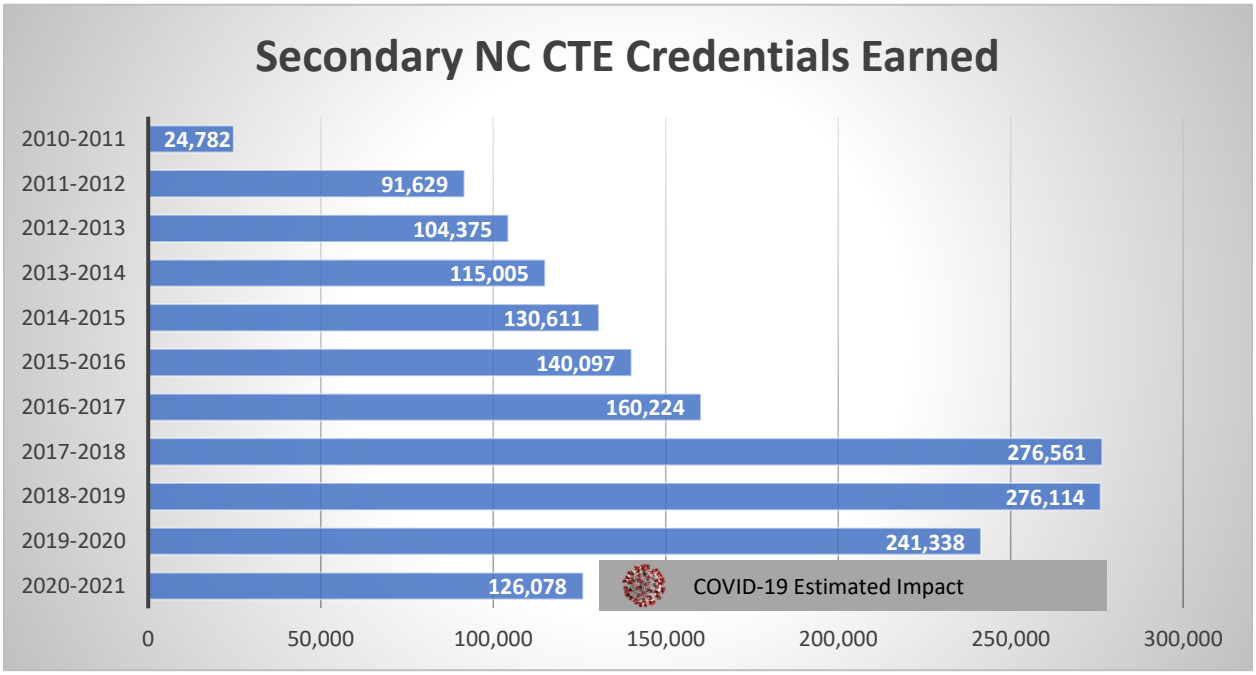
CONCLUSION 254

INTRODUCTION

Across North Carolina, CTE students have earned and reported 1,686,814 credentials since 2010-2011. Of that number, 126,078 were earned and reported during the 2020-2021 academic school year. The table below depicts the trend date from the 2010-2011 academic year through the 2020-2021 academic year.



For this report, credentials are defined as certifications issued by professional associations, vendors, or employers. Credentials demonstrate the student or employee "has acquired the designated knowledge, skills and abilities to perform a specific job" (Bielick, Cronen, Stone, Montaquila & Roth, 2013). A credential can be based on a written, oral, or performance-based examination, or a combination of the three, and may require supervised work-based learning experience in addition to successfully passing the credentialing exam.

Credentials differ from licenses, which are generally issued by a governmental entity. Licenses frequently are required for a practitioner to enter a field, while credentials help potential employees get hired or qualify them for a higher pay level but are not legally mandated. Secondary students benefit from earning credentials in several ways.

- Credentials provide an advantage to students seeking entry-level employment as they document proficiency in required skills against a state or national standard.
- Employees with credentials may start at a higher pay rate or be eligible for a pay raise or promotion more quickly than employees without a credential.
- Because the cost of the credential is usually covered by local or state sources, students can save considerable money as they prepare for their future careers.
- As credentialed employees, students can earn money for postsecondary education through employment that is well paid and often provides experience in their chosen field.
- Preparing for the credential examination educates students about what it takes to be successful in their field and exposes them to networking opportunities that can smooth their transition to the world of work.

STATEWIDE RESULTS OVERVIEW

The 230 individual credentials available to students across North Carolina in 2020-2021 measured workplace readiness skills, (i.e., general job skills applicable to many different careers such as Microsoft Office Specialist (MOS) certifications in MOS Word, MOS Excel, MOS PowerPoint, and MOS Access), or indicated proficiency in career-specific skills such as North Carolina's Nurse Aide certificate. A total of 126,078 individual credentials were attained statewide for the 2020-2021 academic school year.

Credential Tiers

NC CTE partners with the NC Department of Commerce to assign tier ranking to each industry-recognized credential. Tier 1 credentials, considered foundational certifications, offer students the opportunity to experience the process of earning an industry-recognized credential and establish a starting point for earning additional, stackable credentials. Tier 2 credentials are springboard or door-opener certifications which are sometimes included in industry vacancy notices and potentially provide an advantage for students when seeking employment in a related career. Tier 3 credentials are advanced certifications which are often required for employment and used to leverage higher starting and long-term salaries for employees. Consideration is given to both academic rigor, employment value, and industry demand as part of the credential tier assignment process.

Tier 1	61,820
Total	**126,078**

Microsoft Office Specialist Credentials

Through a statewide agreement between Microsoft, Certiport, and the NC Department of Public Instruction, students were given the opportunity to certify as a Microsoft Office Specialist (MOS) and Microsoft Technology Associate (MTA). Under the Carl D. Perkins Career and Technical Education Act of 2006 (Perkins IV), many courses aligned to MOS credentials were included in the four-course sequences that created pathways. As NC CTE transitioned to the Strengthening Career and Technical Education for the 21st Century Act (Perkins V), many courses were defined as supplemental courses that support all pathways but were not included in the two- to three-course sequences of newly established pathways. Therefore, PSUs prioritized course and credential offerings to meet local need. The effect of refocusing pathways resulted in approximately 33,000 fewer MOS credentials this year than in previous years. There were 30,367 MOS exams administered resulting in 10,519 earned credentials during the 2020-2021 academic year.

National Center for Construction Education & Research Credentials

The National Center for Construction Education & Research (NCCER) credentials are aligned to many CTE course offerings. These credentials offer validation of professional skills through a module format that validate student knowledge and skills in the NC CTE Trade and Industrial

Education program area. While NC CTE recognizes individual modules as credentials, it is important to consider the students who complete a series of modules aligned to specific courses. There were 4,361 students who completed six to ten required modules aligned to their CTE course and, coupled with students who completed a portion of the required modules, a total of 42,490 individual NCCER modules were earned. Examples of individual modules through NCCER include Module 00101 – Basic Safety, aligned to Construction Core and Module 26101 – Orientation to the Electrical Trade, aligned to Electrical Trades I.

Course Code	Course Title	Number of Students Completing Full Module Sequence by Course

IL59	Plumbing II	0
IL60	Plumbing III	0

Career Readiness Credentials

ACT WorkKeys®

The ACT WorkKeys® examination is administered each year to CTE concentrators. A CTE concentrator is a student who has successfully completed a concentrator course in an approved Career Pathway Program of Study. A concentrator course is defined as a second- or third-level course that builds upon skills acquired in a prerequisite course or courses.

The ACT WorkKeys tests measure student employability skills in three areas – Applied Math, Graphic Literacy, and Workplace Documents. Test-takers who score high enough on the assessment receive a National Career Readiness Certificate™ (NCRC), which is available at four levels—Platinum, Gold, Silver, and Bronze. Employers use NCRC as a screening tool to improve the quality of their workforce and to help potential employees understand the level of performance necessary to be successful in a field.

In 2020-2021, just over 30,000 students participated in ACT WorkKeys test administration and 63.3% of those students received a National Career Readiness Certificate of Silver or above.

Total Individual Credentials Earned	**126,078**

STATEWIDE REGIONAL RESULTS

When considering results based on the eight State Board of Education regions, the Southwest region has the highest number of individual credentials earned at 32,243. The Northwest Region has the highest credential earned percentage based on overall CTE enrollment at 98%.

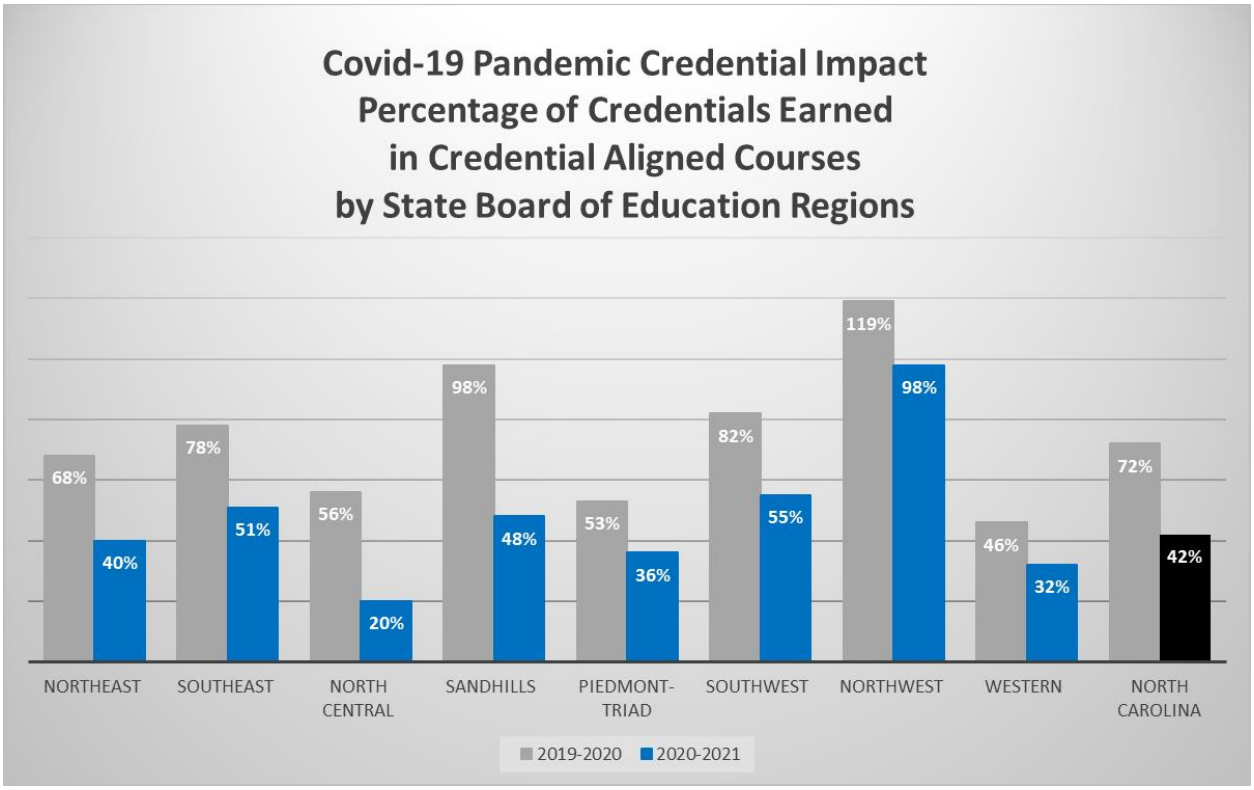
NC CTE Credentials: COVID-19 Impact

The first case of COVID-19 was detected in December 2019. By March 2020, schools across the United States were impacted and shifting to virtual platforms to sustain classroom instruction. An impact to credentialing was noted in the 2019-2020 academic year, with instructional opportunities limited in the last quarter of the school year. However, an even greater impact to credentialing was experienced in the 2020-2021 academic year as instructional delivery was disrupted across the state for a longer period.

Districts and teachers provided the means for students to obtain credentials within the restrictive delivery models where online options existed for credential administration. Without face-to-face instruction, many credentials had to be deferred to a later date when administration could occur within credentialing guidelines. In many cases, credentials that depend on face-to-face instruction or testing were unable to be earned and reported during the 2020-2021 collection window.

The chart below demonstrates the impact of COVID-19 on the percentage of credentials earned by students enrolled in credential aligned courses.



PUBLIC SCHOOL UNIT RESULTS OVERVIEW

Students in 172 Public School Units (PSUs), including 115 traditional and 57 charter and specialty schools, had the opportunity to earn credentials in 2020-2021. The charts below highlight the top ten PSUs based on 1) number of earned credentials, 2) percent earned based on total enrollment, and 3) percent earned based on credential potential (the number of credentials which could potentially be earned).

Highest Number of Earned Credentials

Public School Unit		State Board of Education Region	Earned
900	Union County Schools	Southwest Region	9,218*
140	Caldwell County Schools	Northwest Region	6,516*
360	Gaston County Schools	Southwest Region	6,065
920	Wake County Schools	North Central Region	5,602
760	Randolph County Schools	Piedmont-Triad Region	4,004
670	Onslow County Schools	Southeast Region	3,624
800	Rowan-Salisbury Schools	Southwest Region	3,601
600	Charlotte-Mecklenburg Schools	Southwest Region	3,256
120	Burke County Schools	Northwest Region	3,249*
260	Cumberland County Schools	Sandhills Region	3,105

** indicates an increase in number of earned credentials from previous year*

There were 298,179 enrollments in CTE courses aligned to credentials during the 2020-2021 academic year. This number represents a decrease of 4,130 from the previous year. Of those students enrolled in CTE courses aligned to a credential, 42% earned industry recognized credentials statewide for a total of 126,078 credentials.

In the chart below, which displays the top PSUs in this category, each PSU CTE enrollment and credentials earned are reported as a percent earned value. Note that for some CTE courses, students can earn multiple credentials for the same course. An example is the CTE course BM10-Microsoft Word and PowerPoint, which is aligned to two credentials, Microsoft Office Specialist Word and Microsoft Office Specialist PowerPoint. Students enrolled in BM10-Microsoft Word and PowerPoint could earn both credentials and this could lead to a percentage of over 100% for the PSU percent earned.

Highest Percent Credentials Earned Based on CTE Enrollment

Public School Unit		State Board of Education Region	Enrolled	Earned	Percent Earned
140	Caldwell County Schools	Northwest Region	2,679	6,516	243%*
470	Hoke County Schools	Sandhills Region	1,596	3,006	188%*
030	Alleghany County Schools	Northwest Region	674	1,084	161%*
710	Pender County Schools	Southeast Region	2,068	2,794	135%*
120	Burke County Schools	Northwest Region	2,426	3,249	134%
421	Roanoke Rapids City Schools	Northeast Region	725	969	134%
830	Scotland County Schools	Sandhills Region	1,224	1,560	127%
880	Transylvania County Schools	Western Region	936	1,160	124%*
050	Ashe County Schools	Northwest Region	591	707	120%*
300	Davie County Schools	Piedmont-Triad Region	1,271	1,497	118%*

** indicates that there was an increase in percent credentials earned based on enrollment from previous year*

Based on the number of credentials earned as a percentage of the number of credentials available, the top PSUs and charter school are shown in the chart below. This comparison of

credential potential creates a consistent analysis point by comparing the available credentials to the earned credentials in each PSU or charter school.

Highest Percent Credentials Earned Based on Potential

Public School Unit		State Board of Education Region	Potential Credentials	Earned	Percent Earned
140	Caldwell County Schools	Northwest Region	10,954	6516	59.49%
13B	Cabarrus Charter Academy	Southwest Region	44	22	50.00%
710	Pender County Schools	Southeast Region	5,732	2794	48.74%
300	Davie County Schools	Piedmont-Triad Region	3,357	1497	44.59%
120	Burke County Schools	Northwest Region	7,329	3249	44.33%
630	Moore County Schools	Sandhills Region	6,907	2908	42.10%
030	Alleghany County Schools	Northwest Region	2,603	1084	41.64%
360	Gaston County Schools	Southwest Region	15,514	6065	39.09%
550	Lincoln County Schools	Southwest Region	5,239	2012	38.40%
950	Watauga County Schools	Northwest Region	2,146	824	38.40%

Based on the number of students enrolled in courses offering industry-recognized credentials, the percent earned in reported in the table below. Values can exceed 100% because of courses which offer multiple credentials for students to earn. The percent earned range, therefore, varies from district to district based on the courses offered and the number of credentials which can be earned.

PUBLIC SCHOOL UNIT RESULTS BY CTE ENROLLMENT

Public School Unit		SBE Region	Enrolled	Earned	Percent Earned
010	Alamance-Burlington Schools	Piedmont-Triad Region	5,841	337	6%

CONCLUSION

While the impact of COVID-19 and the transition from Perkins IV to Perkins V contributed to lower credential earning in 2020-2021, both factors also contributed to leaders across NC CTE thinking creatively and critically about credentialing practices and processes. Students and industry partners benefit from opportunities offered across North Carolina for secondary credentialing. NC CTE is committed to continuous improvement by creating expanded opportunities for students to earn credentials, while supporting PSU leaders and teachers to make the menu of credentials available across the state.

Priorities for improving the secondary credentialing efforts include the following actions.

- An updated process for vetting and approving new credentials will be implemented.

- NC CTE will support PSUs in the implementation of existing credential opportunities.
- The process for collecting and reporting earned credentials will continue to increase in efficiency and accuracy.
- NC CTE will support PSUs to interpret and utilize credential data.
