

The Sun Setting of CECAS

A sunset over a body of water with mountains in the background. The sun is low on the horizon, casting a bright reflection on the water. The sky is filled with orange and yellow clouds, and the water is a deep blue.

Agenda

- Introductions
- Transition to ECATS-Data Cleanup
- Questions and Comments

Transition to ECATS Data Cleanup

Transition to ECATS – Data Cleanup

Administrative Features

- Deactivate user account access within LEA to those no longer affiliated with your LEA, Charter or SOP.
- Check for duplicate user accounts and deactivate if possible.

Transition to ECATS – Data Cleanup

Student Records

- Conduct Partial Information search or review Case Manager Student List to identify duplicate student records.
 - Partial Information search does not pull exited status records.
- Submit request through the Remedy web portal to remove duplicate student records in your LEA, Charter School or SOP.
 - Duplicate records in PowerSchool must be resolved prior to submitting request to have duplicate records in CECAS resolved.

Transition to ECATS – Data Cleanup

Student Records

- Conduct Partial Information search to identify student records that have missing NC Student ID or incorrect NC Student ID.
- Submit request through Remedy web portal to update NC student ID field with the correct PowerSchool ID if the NC Student ID is blank or incorrect.

Transition to ECATS – Data Cleanup

Student Records

- Review Closed Services by Student Report to identify student records that need to be exited or need an updated plan/IEP documented in CECAS.
- Review the Timely Placement Progress Report (Indicator 11) to identify student records that need to be completed with initial placement documentation.

Transition to ECATS – Data Cleanup

Student Records

- Review the Early Childhood Outcomes Report (Indicator 7) to ensure the category “Other Grades” in the total count displays as zero.
- Review the Student Information Form Detail Report (PRC29) to identify any missing students based on the selected report criteria.

Special Ed Screen/EC Forms

- Conduct an EC Forms Search
- Focus on the set of forms that apply to the student's current IEP status.
- Do not close/verify a form left open due to process issues within CECAS (ex. Reset for referral, Error forms or duplicated forms)
- After close/verifying a form, check Special Ed screen to ensure latest evaluation history is accurate and current

Special Ed Screen/EC Forms

- Migration will capture closed/verified forms for prior 3 years and the current year of ECATS implementation.
- LEAs should print forms that will not be closed/verified if the LEA would like to maintain a copy in the student's folder.
- Migration will capture Special Ed screen data and Plan data for the 3 years prior to and current year when ECATS is implemented.

Transition to ECATS – Data Cleanup

- To aid in correcting data, run Indicator 11 test counts to view errors in current data.
- Current 3rd party users should request xml files from their vendor and run Indicator 11 test counts so data corrections can be made within their 3rd party system.
- Submit data requests in timely fashion through Remedy OnDemand so data can be corrected prior to ‘dark period’.
