N.C. Principal Evaluation: EMPOWERING leadership capacity

This 4 part webinar series is for administrators evaluating principals and assistant principals. The principalship requires leaders with multifaceted talents and skills to design and create learning environments that are nurturing and effective. The concept of leadership is extremely complex and systemic in nature. Isolating the parts of leadership completely misses the power of the whole. It is not just knowing what to do, but why to do it, how to do it and when to do it. Participants will view their role as one to coach and empower such leadership capacity. You must register for each part of the 4 part presentation. Each part last 1 hour.

Register for each of the 4 part sessions below:
