GRIP & MANIPULATION
Single Child Documentation Form

K-3 FORMATIVE ASSESSMENT CONSORTIUM

Child:	This form is a resource for recording evidence before entering it in the technology platform. Remember to identify a learning status for each piece of evidence you document. Note that a child's learning status may be "Emerging" if he/she has not yet reached Skill A.

Skill A	Skill B	Skill C	Skill D
Uses early fine motor skills (e.g., fisted grip, palmar grasp, or early scissor grip) to hold and/or manipulate items, with whole arm movement.	Uses a more refined grip (e.g., using thumb and finger [pincer grip] or tripod grip) to hold and/or manipulate objects with whole arm movement and increased stability from the shoulder.	Uses refined wrist and finger movement, beginning to transfer control of movement from the shoulder to the elbow.	Uses hands with minimal elbow movement and primary control from wrist and fingers.
WATCH FOR: Fisted grip, palmar grip, whole arm movement	WATCH FOR: Pincer grip, tripod grip, whole arm but more stability than A	WATCH FOR: Precise finger and wrist movement Some transfer of control from shoulder to elbow	WATCH FOR: Precise finger and wrist movement Minimal elbow or shoulder movement

Evidence and Notes (Describe what you observed that provides evidence for the skill selected. Describe any prompts used. Note that a child may be "Emerging" if not yet at Skill A.)

1. Date: ☐ Observation ☐ Situation

Learning Status:_____

2. Date: ☐ Observation ☐ Situation

Learning Status:_____

3. Date: ☐ Observation ☐ Situation

Learning Status:_____

Physical/Motor Development
SRI International, September 2017

___ Child cannot be assessed on this construct due to physical/motor disability.
