

Federal FY25 (GY26) Funding

GANs Received

DPI has received GANs for the following federal programs:

- Title I-C (PRC 0051)
- Title II (PRC 0103)
- Title III (PRC 0104)
- Title IV-A (PRC 0108)
- Title IV-B (PRC 0110)
- Title I-A (PRC 0050)
- IDEA – Part B (PRC 0060)
- IDEA – Part B Preschool (PRC 0049)
- McKinney-Vento Homeless Education (PRC 0026)
- CTE (PRC 0017)

Although some of these grants were frozen by the US Department of Education in July and early August, DPI has now received GANs for all of the frozen programs. The initial review of these GANs is that the amounts are substantially the same as the amounts used to calculate federal planning allotments. After the DPI team finalizes the PSU portion of these Grant Awards, we can provide more definitive data and execute the allotments for these programs.

DPI is aware of questions regarding action the federal government may take to consolidate federal grants. The federal FY26 budget will determine the allocation streams (traditional versus new). The target timeline for its passage is the start of the federal fiscal year on October 1, 2025. The budget's approval will guide the direction of funding streams and whether they are consolidated. While we are evaluating the potential implications of several options at DPI, it is premature to commit to a single approach before the budget is finalized.

As we move through the upcoming year, we will work to ensure that all PSUs remain informed as new information becomes available.
