Evidence of Need & Support

Background
The mission of Eminence Academy is to empower scholars to learn, grow, and lead in the pursuit of holistic excellence. Eminence scholars will exemplify the B.E.S.T. values: brilliance, excellence, stewardship, and teamwork.

Evidences of Need
- Opportunities to improve scholar achievement
- Lack of public school choice
- Community survey data

Opportunities to improve scholar achievement
There is a dire need for educational innovation in Duplin County. According to the NC School Report Cards, Duplin County Schools (DCS) proficiency scores on End-of-Grade and End-of-Course tests have continuously decreased for three consecutive years. In 2016, DCS earned a 31.5% proficiency on College and Career Readiness standards. Black and Hispanic/Latino students, which according to the US Census Bureau account for over half of the county population, earned 19.9% and 26.7% respectively.

The stated mission of Duplin County Schools is "to work collaboratively with the community to prepare all students for career, college, and life success." How can ALL students be adequately prepared for career, college and life success if only three out of every ten students meet the state criteria for college and career readiness proficiency as determined by NC? The aforementioned scores are simply unacceptable and are the auspices of the founding of Eminence Academy. Our proposed centrally located school site in Kenansville, NC will allow us the opportunity to achieve a diverse student population that mirrors the LEA while offering academic innovation.

The data below is derived from the NC Report Cards for 2016, the latest available version. Students in grades 3-8 must complete state End-of-Grade (EOG) assessments in English language arts/reading and mathematics and students in grades 5 and 8 must complete state EOG assessments in science at the conclusion of each school year.

Student performance on the EOG assessment is reported in levels ranging from 1-5.

Lack of Public School Choice

The Eminence Academy Foundation was incorporated in July 2017 for the specific purpose of establishing a charter school in Duplin County, North Carolina. As of the time of this application, there are no other public charter schools in Duplin County. Further, only three of the six counties surrounding Duplin have educational choice in the form of charter schools. Foundation trustees and volunteers worked diligently to survey the local community and identify evidence to support the establishment of Eminence Academy.

Community Survey Data
The Eminence Academy Foundation conducted a community survey in Duplin county during the months of July, August, and September to gauge interest in the support for a charter school. The survey was administered in various locations throughout the county to ensure the validity of the responses provided. Further, a copy of the survey was posted on the website as well.

Board Response to Survey Results
Unpacking the survey results, we have concluded that there is a significant level of interest in the development of a charter school to provide educational choice in Duplin County, North Carolina. While we originally were disappointed in the low number of “Yes” responses for Question 3, we are optimistic about the responses for “I would need more information first.” Our conversations with community members have led us to believe that a challenge we will need to overcome is the lack of understanding of public charter schools and educating the community on the similarities and differences of charter schools as compared to the local LEA.

We are excited that after sharing with respondents information about what our school would provide and our mission, many individuals thanked us for starting this and eagerly anticipate the approval of the school so that they can send their children to our school.

Charter School Board Member Information Form

*Note:* To be completed individually by each proposed founding charter school board member. All forms must be signed by hand.

Serving on a public charter school board is a position of public trust and as a board member of a North Carolina public charter school; you are responsible for ensuring the quality of the school’s entire program, competent stewardship of public funds, and the school’s fulfillment of its public obligations and all terms of its charter.

As part of the application for a new charter school, the State Board of Education requests that each prospective board member respond individually to this questionnaire. Where narrative responses are required, brief responses are sufficient.

The purpose of this questionnaire is twofold: 1) to give application reviewers a clearer introduction to the applicant team behind each school proposal in advance of the applicant interview, in order to be better prepared for the interview; and 2) to encourage board members to reflect individually as well as collectively on their common mission, purposes, and obligations at the earliest stage of school development.

**Background**

3. Brief educational and employment history.

   **Education**
   - Hampton University From 06/2011 To 05/2014
   - North Carolina Central University School of Law From 08/2014 To 05/2017- Juris Doctorate

1. Have you previously served on a board of a school district, another charter school, a non-public school or any not-for-profit corporation?

   No: ☐  Yes: ☒

2. How were you recruited to join this Board of Directors? Why do you wish to serve on the board of the proposed charter school?

   I was recruited during a networking event in Duplin County. My experience with the criminal and juvenile justice system ignited my interest in serving on the board of Eminence Charter School. It is my belief that a
quality education or the lack thereof, is too often linked to the justice system. I connect with the mission of the school and want to serve children in their efforts to attain a quality education.

3. What is your understanding of the appropriate role of a public charter school board member?  
As a trustee, it is my responsibility to ensure that the organization fulfills all obligations as provided in the charter granted to the foundation by the State.

4. Describe any previous experience you have that is relevant to serving on the charter school’s board (e.g., other board service). If you have not had previous experience of this nature, explain why you have the capability to be an effective board member.

I have previously served on the Wayne County Parks and Recreation Board. I gave valuable insight into the workings of a publically accountable board.

5. Describe the specific knowledge and experience that you would bring to the board.  
Having obtained my Juris Doctorate, I will serve as the board’s legal representative. I will ensure that the board is aware of all applicable laws as it pertains to charter schools in North Carolina. Further, I will ensure that the school operates within those legal boundaries. Finally, I will advise and counsel the board when necessary.

**School Mission and Program**

1. What is your understanding of the school’s mission and guiding beliefs?  
The school’s mission focuses on the achievement of the individual student, as it pertains to the student’s entire life. The school will focus on the student’s academic achievements, personal growth, and character skills.

2. What is your understanding of the school’s proposed educational program?  
We have developed a strong academic program consisting of a curriculum that exceeds state standards and promotes high school and college readiness.

Teachers will challenge their students to think critically and prepare them for high school by fostering positive behaviors that will help our kids succeed. For example, during the first few weeks of the school year, students will learn how to be a student at Eminence. Teachers are going to teach students study skills such as: organizing assignments, managing projects, and creating study schedules so they will be better prepared to handle the high level of rigor at the school.

3. What do you believe to be the characteristics of a successful school?  
I believe that a successful school has excellent leadership, excited teachers, rigorous and interactive educational programs, and eager students.

4. How will you know that the school is succeeding (or not) in its mission?  
I will hold the President accountable by frequently reviewing the student data and the financials.

**Governance**

1. Describe the role that the board will play in the school’s operation.  
The board will hire a president to carry out the policy and the vision of the charter school.

2. How will you know if the school is successful at the end of the first year of operation?  
I will know if the school is successful by thoroughly reviewing student data and school financials.
3. How will you know at the end of five years of the school is successful?
   I will know the school is successful in five years by student scholastic achievement, student enrollment rates, as well as staff and community feedback.

4. What specific steps do you think the charter school board will need to take to ensure that the school is successful?
   Frequent reviews of student data and school financials. Hold the president accountable and adhere to best-practices concerning board governance. Provide surveys to staff and parents soliciting feedback as it pertains to the school.

5. How would you handle a situation in which you believe one or more members of the school’s board were acting unethically or not in the best interests of the school?
   Utilize the procedure outline in the By-laws and call for a special meeting to address the concerns.

*Please include the following with your Information Form
- a **one page** resume
- a national criminal background check

*If you responded within the application that disciplinary action has been taken against any past or present professional licenses, provide a detailed response below outlining the disciplinary action taken and the license validity.

I, Habekah B. Cannon, J.D., certify to the best of my knowledge and ability that the information I am providing to the North Carolina State Board of Education as a prospective board member for Eminence Charter School is true and correct in every respect.

   No: ☒  Yes: ☐

5. How were you recruited to join this Board of Directors? Why do you wish to serve on the board of the proposed charter school?
   My colleague, Dr. Habekah Cannon informally shared with me that she was working with a group of people to start a charter school in Duplin. Having friends that previously worked with Teach for America who lived in the area, I’ve known about the interesting educational landscape in the county. She talked to me about the school’s vision and purpose of educating children of all backgrounds with the goal of building their confidence so they would be able to be successful in life. I was very intrigued and a short telephone conversation somehow turned into an hours-long discussion on how we could literally change the lives of young people by giving them hope for their futures. I am very excited to serve on the board for the Eminence Academy Foundation because I believe that this school can be the change-maker that so many kids need.
6. What is your understanding of the appropriate role of a public charter school board member?
A board member’s role on a public charter school board is to provide the overarching vision of the school and provide the parameters (school policy) for the vision to be accomplished. The board is responsible for hiring an executive (Academy President) who manages the daily operations of the school. As a board member, it is my responsibility to hold the executive accountable by monitoring quarterly reports, asking relevant questions and being committed to transparency. In the first few years, I understand that the board will be very busy to craft policies and establish a strong financial foundation for the future of the school.

7. Describe any previous experience you have that is relevant to serving on the charter school’s board (e.g., other board service). If you have not had previous experience of this nature, explain why you have the capability to be an effective board member.
While I have not served as a formal board member of a non-profit organization, I have been privileged to have participated in many leadership experiences that support my capability to serve. My understanding is that a board member serves to contribute his/her time, knowledge and resources to support the organization’s growth. I am very committed to fulfilling this and all other obligations as necessary because I truly believe in the mission of our school.

8. Describe the specific knowledge and experience that you would bring to the board.
As an aspiring lawyer, I bring of course an aspect of legal knowledge that can be helpful when making critical decisions. Having served as a manager for one of America’s largest privately-held companies, I bring an aspect of business expertise to the board. Understanding the complexities of business, especially financial management and controls will be valuable to the board.

School Mission and Program

1. What is your understanding of the school’s mission and guiding beliefs?
The school’s mission is to empower scholars to learn, grow and lead in the pursuit of holistic excellence. Eminence Academy is being organized so that scholars will learn character skills that support their academic performance. The school believes in the data instructional model where teachers collect scholar data frequently and change how they teach as a result. Also, the school seeks to be a joyful place where children are excited to learn and are excited about college.

2. What is your understanding of the school’s proposed educational program?
As I understand it, the school’s educational program is structured using the Common Core and pre-AP standards. Teachers will focus on using scholar data to tailor their instruction, and scholars will take learning style surveys so that teachers can better reach the scholars. The school will be focused on interventions that support scholars who may need additional assistance with grasping the content.

3. What do you believe to be the characteristics of a successful school?
A successful school has a strong board with vision and purpose that holds the executive accountable for reaching goals, and teachers who are willing to do whatever it takes for scholars to be successful. Also, a successful school is welcoming of parents and works on their schedules to maximize their support. Of course, a successful school has to be fiscally sound by being conservative with taxpayer dollars and holding the executive accountable for making sure that funds are spent wisely. A successful school is a place where everyone is working on the same team with a clear mission.

4. How will you know that the school is succeeding (or not) in its mission?
I will know that the school is being successful in reaching its mission by looking at the school data on a consistent basis. Prior to each board meeting, I will review the reports and information to track trends
and prepare questions to ask of the executive. I will look at our strategic goals and measure our progress and make recommendations as needed.

**Governance**

1. Describe the role that the board will play in the school’s operation. The board does not play a significant role in the daily operations of the school. However, all board members have committed to volunteering in the school and soliciting business/community partners outside of our board member duties. We will monitor the executive and provide feedback as appropriate.

2. How will you know if the school is successful at the end of the first year of operation? I'll know if Eminence is successful at the end of the first year if we meet our academic, operational and financial goals.

3. How will you know at the end of five years of the schools is successful?

4. I'll know if Eminence is successful at the end of five years if we meet our academic, operational and financial goals for that time period.

5. What specific steps do you think the charter school board will need to take to ensure that the school is successful?
   I believe that the first and best thing we can do as a board is work very hard during the planning year to give us a strong start. Seeing that we already have an identified executive is an important part of that. We will need to focus on exceeding the number of seats for the first lottery by marketing ourselves in the community and work with the President to recruit quality teachers. Financially, we will need to be fiscally conservative by saving money whenever possible and raising money to support the school. We must remain focused on achieving our mission and continue working as a tight team in order for us to be successful.

6. How would you handle a situation in which you believe one or more members of the school’s board were acting unethically or not in the best interests of the school?
   In this scenario, I would immediately consult the Conflict of Interest Policy for guidance and proceed to call for a special board meeting to address the issue.

   No: ☒ Yes: ☐

5. How were you recruited to join this Board of Directors? Why do you wish to serve on the board of the proposed charter school?
I heard about what the foundation was doing and I agreed with the idea of opening a charter school in Duplin County. One of my friends connected me with some of the board members who asked me to join their team and I agreed. I want to serve on the board of Eminence because my family and I are deeply connected to the Duplin community. Much of my career as an educator has been centered in or around Duplin County and I know firsthand just how beneficial a school like Eminence has the potential to be.

6. What is your understanding of the appropriate role of a public charter school board member?
The role of a public charter school board member is to oversee the mission of the school. It’s our job to make sure the school’s visions are being upheld through ethical practices and accountability.

7. Describe any previous experience you have that is relevant to serving on the charter school’s board (e.g., other board service). If you have not had previous experience of this nature, explain why you have the capability to be an effective board member.
I have uniquely qualified to serve on this board because of my current experience working at a charter school, KIPP Charlotte and my connection to the Duplin community. In my current professional role, I’m working to make transformational change to ensure that scholars are college and career ready while being empowered to be the future leaders and agent of change. In my experience as a Teach for America Manager, Teacher Leadership and Development, I developed many relationships in the community that will prove fruitful to the success of Eminence Academy.

8. Describe the specific knowledge and experience that you would bring to the board.

**Community Knowledge and Building Relationships** – I am a well-known member of the Warsaw community, where my family has lived for many years. The relationships I have cultivated in the community provide a basis for the school to develop from. As a result, we have built significant interest amongst parents who want to see Eminence Academy grow and prosper so their children can succeed.

**School Culture & Character Development** – This is truly one of my strength areas because I have worked for many years building school culture and developing character in scholars. These experiences will help us develop a world-class character development curriculum for the school.

**School Mission and Program**

1. What is your understanding of the school’s mission and guiding beliefs?
   It is our goal that all scholars will leave Eminence high school, college and career ready with 21st century skills who are productive citizens and leaders of their communities. These scholars will leave with great confidence and intrinsic motivation for success in high school and college.

2. What is your understanding of the school’s proposed educational program?
   We are using some of the nation’s finest curriculum resources to push our scholars’ thinking and build their problem solving and analytical skills. The educational program will rigorously cultivate the knowledge necessary for their success.

3. What do you believe to be the characteristics of a successful school?
   A successful school is first and foremost a school that values inclusiveness with a lens towards equity and social justice. A productive communications plan that involves all stakeholders and reinforces the culture of excellence. The educational program must have strong goals and desired outcomes linked to the mission of the school, and the board must progress monitor those goals quarterly while readjusting the plan as needed. A successful school has well structured systems, routines and procedures using the mindset “Inspect what we expect.” Further, a strong school has strong school leaders who coach their teachers to be strong instructional leaders and classroom managers. In a successful school, school leaders are unapologetic about having courageous conversations that confront issues head on to get the
team on track. Finally, a successful school must have the strong, positive support of community members and parents. Parents should be welcomed in the school and contribute to building joy that we hope to instill in our scholars.

4. How will you know that the school is succeeding (or not) in its mission?
   If our scholars are learning through looking at NWEA MAP, EOG scores and other types of data that provide schoolwide trends, we will know our school is being successful. The board will conduct walk-throughs of the school to examine the growth of school culture, and measure the number of extracurricular and leadership opportunities available to scholars. Tracking and unpacking data as a board will give us the perspective we need to measure success and hold the President accountable.

Governance

1. Describe the role that the board will play in the school’s operation.
   The board is responsible for making sure we get the “right people on the bus” (Jim Collins) to ensure that our school reaches its organizational mission and goals. We must ensure that our finances are spent conservatively and funds are spent with a mission-driven mindset. Finally, the board must hold the president accountable for operating a safe and orderly school that produces high scholar achievement. The board must set high standards and ensure that those standards are being met.

2. How will you know if the school is successful at the end of the first year of operation?
   We will know that our school is successful at the end of the first year if 100% of our teachers are retained for the following year. Our scholars will meet their annual growth goals because every teacher actively participates in professional development and craft and execute quality instructional plans. Every teacher will receive coaching from school leadership to continuously improve instructional practices and standardize instruction. Teachers will have experienced leadership opportunities that allow them to contribute to the school community and positively impact school culture. The school will be successful if year one goals are being met and progress towards year two through five goals are making appropriate progress.

3. How will you know at the end of five years of the schools is successful?
   At the end of five years, we will have teachers who have remained at Eminence for multiple years. The faculty and staff is inclusive, diverse and equitable, while the school has a targeted focus for achieving its goals. We will have met our enrollment goals annually because of our strong family, school and community partnerships. Our professional development focus will have proven successful through high levels of scholar achievement as exemplified by a grade of A on the NC Report Card.

4. What specific steps do you think the charter school board will need to take to ensure that the school is successful?
   1) Get the right people on the bus – Ensure that the school board hires a president and holds them accountable for hiring people who are aligned with the mission of the organization
   2) Spend Low, Raise High – The board must spend state tax dollars responsibly by reducing spending and committing itself to raising unrestricted funds to support strategic organizational goals
   3) Adopting Board Policy – We must adopt policies that outline the vision and goals of the school, and support the school leader who provides the roadmap and leadership for us to reach these goals.
   4) Scholar-Centered Mindset – We should make sure that every action the board takes is mindful of the impact on all scholars regardless of their background, gender, ethnicity, etc.
   5) Challenge and Respectfully Disagree – Board members must be willing to challenge the status quo and have a willingness to “stand up against the masses to be a voice for the few.”
5. How would you handle a situation in which you believe one or more members of the school’s board were acting unethically or not in the best interests of the school?
   I would address the situation with the alleged individual with the mindset to seek to understand. I would provide them with the opportunity to explain and encourage them to disclose their perspective to the board. Otherwise, I would bring this to the board’s attention promptly and encourage an investigation to begin in accordance with the bylaws and adopted policies.

Eminence Academy Foundation

To the Board of Trustees:

We have enjoyed speaking with you concerning your interest in beginning a new charter school in the State of North Carolina for the 2019-2020 school year.

A strong Board for the Eminence Academy, the proposed charter school, is the foundation for a successful charter school. It seems that Eminence Academy Foundation is taking the right steps in building a successful charter school in Duplin County.

During our conversation with Da’Quan Love, Board Chairman, we reviewed and explained the many audit and 990 requirements related to the operation of a charter school in North Carolina. We informed the Board of filing requirement of the audit for the year ending June 30th, by the October 31st deadline required by the State of North Carolina. We also informed the Board of the Form 990 tax return filing deadline being the 15th day of the 5th month following the fiscal year end, June 30th. The Form 990 tax return would be due November 15th. The Internal Revenue Service offers a 3-month extension of time to file if there is a need.

We would also like to make mention, during our discussion, how imperative it is to get the filing of the 501(c)(3) complete with the Internal Revenue Service for their approval. This process can sometimes be lengthy, so the importance of submitting the application as quickly as possible is a must.

We have included a short biography of our Company and also our last peer review to assist you in the documentation process of your charter school application.

We look forward to working with you throughout your journey after the approval process of your application. If you need any additional assistance, please feel free to contact our office at (919) 269-8553, anytime.

Sincerely,
