## I. Writing, Grammar, and Usage

**Teachers:** Students should be given many opportunities for writing, both imaginative and expository, with teacher guidance that strikes a balance between encouraging creativity and requiring correct use of conventions. In sixth grade, it is appropriate to emphasize revision, with the expectation that students will revise and edit to produce (in some cases) a finished product that is thoughtful, well-organized, and reasonably correct in grammar, mechanics, and spelling. Continue imaginative writing but place a stronger emphasis than in previous grades on expository writing, including, for example, summaries, book reports, essays that explain a process, and descriptive essays. Note also the requirement below for writing persuasive essays, a research essay, and a standard business letter.

### A. WRITING AND RESEARCH

- Learn strategies and conventions for writing a persuasive essay, with attention to
  - defining a thesis (that is, a central proposition, a main idea)
  - supporting the thesis with evidence, examples, and reasoning
  - distinguishing evidence from opinion
  - anticipating and answering counter-arguments
  - maintaining a reasonable tone
- Write a research essay, with attention to
  - asking open-ended questions
  - gathering relevant data through library and field research
  - summarizing, paraphrasing, and quoting accurately when taking notes
  - defining a thesis
  - organizing with an outline
  - integrating quotations from sources
  - acknowledging sources and avoiding plagiarism
  - preparing a bibliography

### IV. Sayings and Phrases

**Teachers:** Every culture has phrases and proverbs that make no sense when carried over literally into another culture. For many children, this section may not be needed; they will have picked up these sayings by hearing them at home and among friends. But the sayings have been one of the categories most appreciated by teachers who work with children from home cultures that differ from the standard culture of literate American English.

All for one and one for all.  
All's well that ends well.  
Bee in your bonnet  
The best-laid plans of mice and men oft go awry.  
A bird in the hand is worth two in the bush.  
Bite the dust

A fool and his money are soon parted.  
A friend in need is a friend indeed.  
Give the devil his due.

## HOW WE GET PAID

HUB International takes pride in the services our brokerages provide to you, our client, for insurance and risk management programs. For our efforts we are compensated in a variety of ways, primarily in the form of commissions and contingency amounts paid by insurance companies and, in some cases, fees paid by clients or third parties. The means by which we are compensated are described below.

**Commission income** - Commission, normally calculated as a percentage of the premium paid to the insurer for the specific policy, is paid to us by the insurer to distribute and service your insurance policy. Our commission is included in the premium paid by you. The individuals at HUB International who place and service your insurance may be paid compensation that varies directly with the commissions we receive.

**Contingency income** - We also receive income through contingency arrangements with most insurers. They are called "contingent" because to qualify for payment we normally need to meet certain criteria, usually measured on an annual basis. Contingency arrangements vary, but payment under these agreements is normally the result of growing the business by attracting new customers, helping the insurance company gather and assess underwriting information and/or working to renew the policies of existing insureds. There is currently no meaningful method to determine the exact impact that any particular insurance policy has on contingency arrangements. However, brokers tend to receive higher contingency payments when they grow their business and retain clients through better service. In other words, the amount of earned contingency income depends on the overall size and/or profitability of all of a group of accounts, as opposed to the placement or profitability of any particular insurance policy. For this reason, the individuals involved in placing or servicing insurance are rarely, if ever, compensated directly for the contingent income that we receive.

**Supplemental Commissions** - Some insurance companies have recently replaced contingent commissions with supplemental commissions. These commissions, in fixed amounts, are established annually in advance based on historical performance measured by criteria comparable to those by which contingent commissions are calculated. We refer to these commissions as guaranteed supplemental commissions, or "GSCs".

**Fees paid by clients** - On occasion, with more complex business insurance programs and where additional resources, products or services are appropriate, a fee may be negotiated for placement of insurance coverage or additional services. Fees charged for the placement of insurance will be outlined in a proposal and approved, usually in writing, prior to the insurer binding coverage. On occasion, we may receive both commissions *and* client-paid fees for placing insurance, which generally will be disclosed in writing to you in advance. In certain circumstances clients pay us mutually agreed-upon fees for additional services, such as third party administration of employee benefits or workers' compensation programs.

**Wholesale Operations** - We own wholesale insurance brokerages in both the U.S and Canada. These are intermediaries through which other brokers, typically retail brokers that have a relationship and deal directly with their clients, place coverage. Our own retail brokers may place client policies through HUB-owned wholesale brokers. In such cases, both the HUB retail broker and the HUB wholesale broker will earn commissions, and they are included in the client's premium payment. Ordinarily wholesale brokers, whether owned by HUB International or not, are included in the transaction because they offer products that are particularly suitable to a client's needs that are not available through normal insurance brokerage retail channels.

**Other Compensation and Benefits** - We may receive revenue or further benefits from our insurance brokerage activities in other ways, including, but not limited to, from insurance company promotional events, payments from insurers for promotional marketing and/or employee training and development, fees or a percentage of the interest paid to us for the administration of premium finance contracts, interest paid to us by financial institutions earned on fiduciary or trust accounts in which we hold your premium payments pending remittance to the insurance company, and fees paid to us for policy and/or claims administration and/or loss control services that we provide.

**Related Party Transactions** - In limited circumstances, our subsidiaries or employees may have interests in insurers and reinsurers with whom policies are placed. We own a reinsurance broker that arranges reinsurance for carriers. It is possible that coverage placed by our retail brokers could be reinsured pursuant to placements made by our reinsurance subsidiary. Ownership of a reinsurance broker also creates an additional, mutually beneficial dimension to our relationships with insurance companies.

**Customer Centric Carriers** - We have access to the products and services of hundreds of insurers. However, we believe our ability to provide the best combination of products, service, value and ongoing access to capacity is enhanced by focusing on a manageable number of carrier relationships. These strategic relationships include many of the most respected national and regional insurance companies in the insurance industry (the "Strategic Carriers"). Although we will continue to access our other insurance company relationships where appropriate, we expect that many of our clients' insurance needs may be met through the Strategic Carriers. The Strategic Carriers may pay us enhanced compensation, which we intend to use in part to invest in initiatives to improve our ability to serve our customers' and to optimize their insurance buying experience. A portion of any enhanced compensation from our Strategic Carriers may be used to incentivize our employees to prioritize, investigate and access the products and services of our Strategic Carriers for the purpose of consolidating the number of insurance markets we deal with, while at the same time addressing the needs of our clients. More information regarding our Strategic Carrier relationships is available upon request from your HUB International insurance advisor or by visiting our website at [www.HUBinternational.com](http://www.HUBinternational.com).

Our goal is to be your insurance brokerage of choice. **On September 5, 2018, the NC Innovation School District released information regarding the qualifying schools based on performance. Brogden Middle, a middle school serving members of the targeted population, was included in the 14 qualifying schools for this year.**

### **Qualifying Schools Announced for Possible Inclusion in the NC Innovative School District**

FOR IMMEDIATE RELEASE September 5, 2018

(Raleigh, NC)— Dr. Eric Hall, Deputy State Superintendent of Innovation and founding Superintendent of the North Carolina Innovative School District (ISD), announced today the names of the qualifying low-performing, schools in the state and those that will be considered for inclusion in the ISD for the 2019-20 school year. The qualifying list, which includes both rural and urban schools, is determined by school performance data provided by the North Carolina Department of Public Instruction’s Accountability Division.

Last year, 48 schools were on the qualifying list compared to 14 this year. Of the 14, six are rural schools and eight are urban schools. The number of low-performing districts—districts with over 50% of their school considered low-performing—decreased from 11 to seven. “These reductions show that school systems across the state are taking strategic steps to improve student growth and achievement in their district,” Dr. Hall commented. “It is important to note that schools that adopted one of the state’s established reform models were removed from the qualifying list. It is our hope that these interventions will be successful and lead to improved student outcomes,” Dr. Hall added.

The following criteria was used to identify qualifying schools:

- School performance score was in the lowest 5% of all schools in the prior year (2017/2018 school year)
- Includes all or part of grades K-5
- Did not exceed growth in at least one of the prior three school years and did not meet growth in at least one of the prior three school years
- Did not adopt one of the state’s established reform models for the immediate prior year

#### **Qualifying (Low-Performing) Schools**

1. Ashley Academy – Forsyth County Schools
2. Brogden Middle – Wayne County Public Schools

3. Carver Heights Elementary – Wayne County Public Schools
4. Eno Valley Elementary – Durham Public Schools
5. Fairview Elementary – Guilford County Schools
6. Forest Park Elementary – Forsyth County Schools
7. Gaston Middle – Northampton County Schools
8. Hall-Woodward Elementary – Forsyth County Schools
9. Hillcrest Elementary – Alamance Burlington Schools
10. Kimberly Park Elementary – Forsyth County Schools
11. Renaissance West STEAM Academy – Charlotte Mecklenburg Schools
12. Stocks Elementary – Edgecombe County Public Schools
13. Vandalia Elementary – Guilford County Schools

The ISD narrowed down the list of 14 qualifying schools to a list of schools under final consideration by removing:

- All schools rated as a “D” in the 2017-2018 school year
- All schools rated “F” but met growth in 2017-2018
- All schools who have met academic growth in both 2015-2016 and 2016-2017 *and* earned a “D” rating for those same years

### **Qualifying Schools Under Consideration for Transfer into the ISD**

#### *Rural*

1. Carver Heights Elementary – Wayne County Public Schools
2. Gaston Middle – Northampton County Schools
3. Hillcrest Elementary – Alamance Burlington Schools
4. Williford Elementary – Nash-Rocky Mount Schools

#### *Urban*

1. Fairview Elementary – Guilford County Schools
2. Hall-Woodward Elementary – Forsyth County Schools

The ISD will now begin the task of selecting two to four schools for transfer into the ISD for the 2019-2020 school year. Dr. Hall explained, “Once we make final selections from the list of schools under consideration, we will begin partnering with local communities and districts to examine how we can work together to create innovative conditions that will help students improve their academic growth and achievement.” Additionally, the ISD superintendent will work with families and local partners to identify and match qualified operators to run the selected schools under contract with the State Board of Education for a period of five years. At the end of the contract, the schools will be transitioned back to the control and management of the local

school district, unless other options are agreed upon by the local school board, the ISD Superintendent and approved by the State Board of Education.

## Board speeds some class size cuts

- By Joey Pitchford      Feb 27, 2018

The Wayne County Board of Education voted to quickly reduce class sizes at five low-performing elementary schools -- without plans on how to fund it -- at its meeting Monday night, a decision which one board member called politically motivated but others hailed as long overdue action.

The vote came during a discussion on the results of the board's Student Assignment Committee meeting Feb. 8, which included a recommendation that schools be considered "appropriately populated" if they are between 90 and 105 percent full. Board member Raymond Smith said that low-performing schools in Wayne County have a high prevalence of lateral entry teachers, who are not typically licensed, and that the board needed to focus on prioritizing assigning certified teachers to low-performing elementary schools.

Smith then made a motion that the board implement the class size restrictions originally mandated by the General Assembly in House Bill 90 -- a maximum of 18 students per class in kindergarten, 16 in first grade, and 17 in second and third grades -- at the five low-performing elementary schools by the start of the 2018-2019 school year. The motion also included prioritizing those schools when placing licensed teachers.

The five **low-performing elementary schools** in Wayne County Public Schools are **Brogden Primary, Carver Elementary, Carver Heights Elementary, Eastern Wayne Elementary and Spring Creek Elementary.**

After several procedural votes to add the motion to the agenda, board member Jennifer Strickland raised concerns about the fast-paced nature of the proposal. With no indication that Wayne County Public Schools has the money to complete the project, and no information about where else the money to lower the class sizes would come from, Strickland said that ordering school staff to figure out how to accomplish class size reductions by the next school year was more political grandstanding than responsible governance.

"This is a sad attempt by the members of the [Student Assignment] committee who are running for re-election to get the paper to run a headline saying they're the only ones doing anything about this," she said. "This should not be political."

The committee is made up of board members Smith, Richard Pridgen and Len Henderson. Pridgen is up for re-election to the board this year, while Smith has filed for the N.C. House of Representatives District 21 seat now held by the retiring Larry Bell. Strickland and board member Chris West are also up for re-election.

Smith denied the idea that the motion had any political underpinnings. Rather, he said, it is simply time to do something about an issue which has been looming over the board for months. Smith called on the Wayne County Board of Commissioners to commit to funding the project.

"I don't understand how we as a Board of Education can sit here and not take an action which would benefit our low-performing schools, he said.

"We've got to do something. We talk and talk and talk, it's time to do something," he said. "We had the joint meeting with the commissioners, and they had a lot to say about education. Let's see if they're willing to put their money where their mouth is."

Pridgen said that in order to meet the class size mandates -- which have now been stretched out over four years in House Bill 90 -- the district needs to get a head start by addressing the lowest performing elementary schools. That way, he said, WCPS could have a better idea of how to redistrict the entire county ahead of time.

The board ultimately passed the motion five votes to two, with Strickland and West casting the dissenting votes. Strickland said she agreed that low-performing schools need to be addressed, but could not in good conscience vote for the motion without any information on if WCPS could actually implement it in the given time frame.

Responding to NAACP representative Keith Copeland, who called the vote "courageous," Strickland disagreed.

"I do not believe it is an act of courage to make a decision without knowing the cost. Not just money, but the cost in people. There was just not enough information here for me to support this," she said. "There was nothing in here about asking for the extra dollars, being told no, and then reevaluating."

The board will need to add funds for new teachers and possibly new classroom space to its budget request, due to be presented to the commissioners in May.

**Appendix F:**

**Charter School Board Member Information Form**

**Note:** To be completed individually by each proposed founding charter school board member. All forms must be signed by hand.

Serving on a public charter school board is a position of public trust and as a board member of a North Carolina public charter school; you are responsible for ensuring the quality of the school's entire program, competent stewardship of public funds, and the school's fulfillment of its public obligations and all terms of its charter.

As part of the application for a new charter school, the State Board of Education requests that each prospective board member respond individually to this questionnaire. Where narrative responses are required, brief responses are sufficient.

The purpose of this questionnaire is twofold: 1) to give application reviewers a clearer introduction to the applicant team behind each school proposal in advance of the applicant interview, in order to be better prepared for the interview; and 2) to encourage board members to reflect individually as well as collectively on their common mission, purposes, and obligations at the earliest stage of school development.

**Background**

1. Name of charter school on whose Board of Directors you intend to serve: Leadership Academy of Wayne

2. Full name: Marilyn Renee Crumpler Benton

Home Address: 1939 Aman Dairy Road Dunn, NC 28334

Business Name and Address: Academics Plus, Inc. P.O. Box 10744 Goldsboro, NC 27532

Telephone No.: 919 395 5347

E-mail address: drbenton1@gmail.com

3. Brief educational and employment history.

My education includes a degree in Home Economics Education, and a Masters, Educational Specialist, and Doctorate in Educational Administration. My career began as a high school teacher, and after 11 years, exited the classroom to work with my husband in our newly formed business, Academics Plus, Inc. which opened in 1989. We began our business providing tutoring and testing to students of all ages. Over the years, our business has evolved from providing individual tutoring to becoming an approved NC vendor for Supplemental Education Services (SES) as well as being approved in Va, SC, and Florida. As funding was eliminated with this program, we developed an online tutoring platform and served colleges in tutoring support. In 2016, our business transitioned to focus on providing consulting. Also, I serve in a position with our nonprofit, Academic Abundance, Inc. where we currently have a grant working with Teen Pregnancy Prevention.

4. Have you previously served on a board of a school district, another charter school, a non-public school or any not-for-profit corporation?

No:  Yes:  xxxxx

5. How were you recruited to join this Board of Directors? Why do you wish to serve on the board of the proposed charter school? I am a Founding Board Member. To serve on this board is an opportunity to be a part of creating a school which can provide a quality education I believe in the value and power of education.

I believe when good people establish good programs that life is better for all who have a part. It is my desire to be a part of a charter school which can provide an opportunity for children to have a better life.

6. What is your understanding of the appropriate role of a public charter school board member?  
The role of the public charter school board member is to provide governance for the school.
7. Describe any previous experience you have that is relevant to serving on the charter school's board (e.g., other board service). If you have not had previous experience of this nature, explain why you have the capability to be an effective board member.  
I have not served on a charter school board; however, I believe my many years of experience in education, providing services to families and students with the greatest academic needs both locally and across the state, gives me a bigger view of the critical needs of students. I have excellent reasoning skills and am able to look objectively and within the scope of the laws currently in place, to make decisions.
8. Describe the specific knowledge and experience that you would bring to the board.  
I have specific knowledge about schools and how to run and organize schools. I have planning and organization skills which I believe will be essential to putting in place the full plan to open this school once the charter is approved. I have extension experience in communications, both written and verbal, and have spent much time in conversation with parents, staff and other business constituents to gather information, plan, and find solutions to problems.

### **School Mission and Program**

1. What is your understanding of the school's mission and guiding beliefs?  
The mission of LAW is to develop the academic skills of the students such that when they exit the school, they are able to be successful at the next school placement and ultimately bringing a better quality of life to their local community and ultimately the greater community. Students who are taught the academic skills required for displaying proficiency are less likely to be involved in negative things within our society. Educated young people who have developed leadership skills will be a part of the next generation of leaders.
2. What is your understanding of the school's proposed educational program?  
The educational program is designed to serve all levels of learners. For those with deficient skills or beginning learners, Direct Instruction will be used to teach reading and math and ensure that students master the foundation skills needed to be successful in school. As students demonstrate mastery, Core Knowledge in the content areas will be infused into instruction to ensure rigor and knowledge for all learners. Embedded in the instructional program will be leadership development beginning with the most foundational leadership concepts at the earliest grades.
3. What do you believe to be the characteristics of a successful school?  
While there are many characteristics of successful schools, LAW's success will be greatly viewed through Reading and Math Achievement Scores. As many of the students in the proposed charter location are in low performing schools, it is critical to the future of the community that the students who attend are proficient readers and mathematicians.
4. How will you know that the school is succeeding (or not) in its mission?  
As a Board Member it will be important for me to keep the mission of the school along with the established goals at the forefront of every decision. Strategic reviews of data collected and provided for the Board will give insight into how the school is doing towards goal accomplishment. Enrollment,

student achievement results, financial soundness, personnel retention and satisfaction, and parent and community feedback will be evidences of the school's success.

## **Governance**

1. Describe the role that the board will play in the school's operation.  
The board will serve as governing board providing oversight to all of its operations. The board hires and terminates those who are approved to work in the various roles at the school. The board does not "run" the school.
2. How will you know if the school is successful at the end of the first year of operation?  
Specific goals have been established for LAW. As a board member, these goals will become a guide for all the functions of the school. As I review information, I will be evaluating the information against the goals which have been established. For me, by the end of the first year, I will feel a sense of success if LAW has achieved the enrollment goals, stayed within the budget, and student achievement is in line with our goals.
3. How will you know at the end of five years of the schools is successful?  
At the end of five years, our success will be marked by full projected enrollment, academic achievement that is well surpassing local performance, high teacher retention and performance, and significant financial stability.
4. What specific steps do you think the charter school board will need to take to ensure that the school is successful?  
To ensure the school's success, the board must abide by the bylaws established. By so doing, this should assist with public trust of the school and the board. Further, the board must support the leadership of school and provide oversight of policy and procedure to its leaders. As a board member, we must not be about our personal goals, but rather what is best for the school. This does not mean we are a laissez-faire group, but rather focused on aligning every decision with the mission and goals that have been established.
5. How would you handle a situation in which you believe one or more members of the school's board were acting unethically or not in the best interests of the school?  
As difficult as a situation like this can be, it is in the best interest of the school, as reflected in the bylaws, that I must call attention to the issue.

I was a founding member of the Board of Directors, I was recruited by the founding board's chairman, Dr. Ken Benton. I am interested in serving on this board as result of professional and personal educational experiences that I have with the other

### 3. What do you believe to be the characteristics of a successful school?

It is my belief that a successful school provides opportunities for all students to develop to their fullest potential. I further believe that a successful school has a culture and climate where teachers are positive and students are happy, engaged, and excited about learning. While academic growth is important to school success, I believe that success is a result of the belief that all students are capable. I further believe that a successful school embraces goals that include responsibility, accountability, initiative, creativity, teamwork, integrity, and leadership for staff and students.

### 4. How will you know that the school is succeeding (or not) in its mission?

Growth toward our Goals as outlined in the Charter Application will be assessed on a monthly basis by measuring departmental growth toward specific objectives set out by the CEO and are aligned to impact the greater Charter Goals. Finances, academics, operations, and governance will be monitored. Measurement results will also be used to evaluate the success of the CEO.

## **Governance**

### 1. Describe the role that the board will play in the school's operation.

It is important that each member of the board have an understanding of both management and governance, the relationship of these two principles and how these areas impact the school's operation. Both are paramount to the success of the school. It will not be the role of the board to micro manage the day to day operations of the school. The board will hire a CEO whose responsibility will be to manage and ensure successful day -to-day operation of the school.

### 2. How will you know if the school is successful at the end of the first year of operation?

Success will be measured against the schools' goals as outlined in the Charter Application. The areas of enrollment, academic growth/achievement, financial stability, and overall operations will be measured to determine if the school is successful at the end of the first year of operation.

### 3. How will you know at the end of five years of the schools is successful?

Continuous monitoring of student achievement from year to year will help the board determine if student achievement has improved, meeting or exceeding state growth expectations. The ultimate yardstick to measure the school's success will revolve around student achievement; however, further indication of success will be successful completion of the renewal process to extend operations of our charter school for additional years. Enrollment, Finance, Operations, and Governance will also be evaluated to determine the overall success of the school.

### 4. What specific steps do you think the charter school board will need to take to ensure that the school is successful?

It will be important to make sure all Board members are fully trained, have a full understanding of the principles of Governance and a clear understanding of their role. All board members must

founding members Dr. Ken Benton and Dr. Marilyn Benton. I have known the Benton's for over 25 years and have had both personal and professional interactions with them through these years. I believe in the mission of this board and opportunity for school choice that LAW will provide to Wayne and surrounding counties.

6. What is your understanding of the appropriate role of a public charter school board member?

It is my understanding that the appropriate role of a public charter school board member is to make sure that the charter school adheres to its charter and the goals outlined within the charter, which is a governance responsibility. Included in the governance responsibilities are hiring and evaluating a Chief Executive Officer, and providing oversight in governance, academics, fiscal management, and school operations.

7. Describe any previous experience you have that is relevant to serving on the charter school's board (e.g., other board service). If you have not had previous experience of this nature, explain why you have the capability to be an effective board member.

I do not have specific charter school board member experience. I have served in educational leadership roles during my educational career, including working directly with the Managing Director of a NC Charter School. I attended and observed the interactions of the charter school board at numerous meetings.

8. Describe the specific knowledge and experience that you would bring to the board.

I bring an extensive educational background and vast experience working with students of different ages and abilities, including students with special education needs. I have a comprehensive understanding of NC public school curriculum. I would also have the experience of a teacher and will bring the "teacher perspective" to the board.

### **School Mission and Program**

1. What is your understanding of the school's mission and guiding beliefs?

The school's mission is to develop within every child educational and leadership skills that impact the individual, transform community, and outlast personal experience. I believe that the focus of this mission is centered around leadership and learning. Combining these two aspects will make a positive impact on individual students that have traditionally struggled academically. This creates potential to transform individuals, families, and the community at large. Then, in turn, increases the the possibilities to have an even greater global impact.

2. What is your understanding of the school's proposed educational program?

I have an understanding of the Direct Instruction, Core Knowledge, and Covey's Leadership Program proposed for LAW. I worked for three years in a NC charter school that used these programs. I participated in all staff development and training that was provided to the staff to ensure all had a clear understanding of these programs.

have a common understanding that the board is made up of a group of people working together for the good of the school. Every member should commit to staying out of the day-to-day operations of the school, and agree to focus on making sure the charter is adhered to, which is a board member's role. If the board does this and hires a qualified, competent CEO who has understanding of leadership, finance and operations, and who then in turn can hire a strong competent academic leader, the school will meet and exceed all expectations. The school will in turn be deemed successful and continue to exist.

5. How would you handle a situation in which you believe one or more members of the school's board were acting unethically or not in the best interests of the school?

I would make sure that board policy and NC General Statute is followed. If necessary I would examine and appropriately challenge those concerns within the guidelines outlined in the school's Board Authority and Duties policy, Governing Principles policy, and Code of Ethics policy. I would have a personal responsibility and duty to appropriately address all unethical actions of any individual serving as a member of the board under the requirement of duty specified under Governance of the charter.
