Governance

- Describe the role that the board will play in the school's operation.
 When thinking of the role of the board in the school, I think of those that are ultimately responsible for the school. These are individuals are the major decision makers. They are the ones that are the community should be able to reach out to when they have concerns; whether it good or not. The board is also responsible for making sure that all funds accounted for and used appropriately.
- 2. How will you know if the school is successful at the end of the first year of operation? As a school, they should always be looking at their measurable results and how they can improve. This includes enrollment of the students that you have and openness to the parents as they give feedback that could help advance the school. You also look at the measure of the student's academics from the beginning to the end of that particular year. The school should also go back and revisit their mission statement to make sure they are fulfilling the original mission.
- 3. How will you know at the end of five years of the schools is successful? It would be similar as to the last question. Its important that success is built year over year and that we have improved upon the results each year. This includes student enrollment, academics, and compliance.
- 4. What specific steps do you think the charter school board will need to take to ensure that the school is successful?

 A charter school should stay in compliance with all rules and regulations that are set
 - before them. It is important that board ensures that those in charge of daily operations have a clear understanding of what is expected of them. They will be the face associated with the charter school, so they should be respectful to all they meet daily. It is imperative that everyone involved in a charter school receives the proper training. There should be certain times of the year that self-assessments should be done along with yearly evaluations.
- 5. How would you handle a situation in which you believe one or more members of the school's board were acting unethically or not in the best interests of the school? In this particular case, I think there should be a closed board meeting called. The issue at hand should be brought to everyone. At this time, all information should be shared and the conflict of interest policy followed.

- 3. Brief educational and employment history.
 Bachelor of Arts degree in History and Minor in Political Science
- 4. Have you previously served on a board of a school district, another charter school, a non-public school or any not-for-profit corporation?

No: 🛛	Yes:			
-------	------	--	--	--

- 5. How were you recruited to join this Board of Directors? Why do you wish to serve on the board of the proposed charter school?
 - Community leaders discussed the need for parents and children to have another choice of attaining education apart from the traditional learning experience. I chose to head up the development of a charter due to the performance gap between disadvantaged children and

- their counterparts. Having smaller classrooms with an arts theme is a unique way to help those disadvantaged students improve.
- 6. What is your understanding of the appropriate role of a public charter school board member? Oversee the school in its entirety. We will need to keep the public trust and operate in the best interest of families and students that we serve. We will ensure the school remains in compliance with all pertinent regulations.

If you have not had previous experience of this nature, explain why you have the capability to be an effective board member. I have the capability of being an effective board member due to my 10 years of experience in mental health with children and adults. I have a BA in History with my initial intent of being a teacher. I was a substitute teacher for about 2-3 years and coached football. I have a passion to see the children of Greene County succeed. I believe this school will be fundamental in establishing a great foundation for the children that attend this school and will impact them for the rest of their lives. I have a heart to leave a legacy to my children and the people of Greene County.
- 8. Describe the specific knowledge and experience that you would bring to the board. I understand the importance of working as a team and knowing the importance of abiding by state and federal regulations. In my current job of working with people with severe and persistent mental illness, I understand the importance of note-taking, the consequences of poor note-taking, treating people with dignity and respect, meeting Medicaid requirements, honoring HIPAA, respecting people's rights as human beings, and delivering an effective service to the people you serve and ensuring they have everything they need to be successful. Establishing a budget, abiding by the budget, hiring competent teachers and staff and having high standards that embodies the mission statement of LCA is all needed to ensure LCA is governed successfully.

School Mission and Program

- What is your understanding of the school's mission and guiding beliefs?
 The mission of Lighthouse Charter Academy is to create enthusiastic and devoted scholars through an engaging curriculum with an arts-based focus. I believe an arts-based program will provide students in our community a unique and different way to experience education that is not currently offered.
- 2. What is your understanding of the school's proposed educational program?

 To provide students with a familiar but unique theme and environment to learn. While today's youth are heavily influenced by the arts, an arts-based school can help to invoke or awake new desires and wills to learn.
- 3. What do you believe to be the characteristics of a successful school?

A school that has strong parental and community involvement. A strong, diverse and heavily involved board that will set the foundation for financial solvency that will ensure the school's compliance with local, state and federal regulations.

4. How will you know that the school is succeeding (or not) in its mission?

The board will meet monthly and as needed to ensure the charter is functioning responsibly and according to local, state and federal guidelines. We compare our performance to SMART goals, gauge parent feedback, measure overall student growth, review EOG results and compare them to state and local results. We will implement processes and systems in regard to the mission of the charter.
- 3. How will you know at the end of five years of the schools is successful?

 By doing the same as in the previous question but looking at it through a broader lens in terms of long-term success.
- 4. What specific steps do you think the charter school board will need to take to ensure that the school is successful?

Work to be in compliance with all rules, regulations, and demands from the Office of Charter Schools.

- Responsive to the needs of parents
- Continue to develop and attend trainings

All per pupil amounts are from the most current information and would be approximations for Year 1.

Federal funding is based upon the number of students enrolled who qualify. The applicant should use caution when relying on federal funding in year one to meet budgetary goals.

These revenue projection figures do NOT guarantee the charter school would receive this amount of funding in Year 1.

For local funding amounts, applicants will need to contact their local offices or LEA.

^{*}All budgets should balance indicating strong budgetary skills. Any negative fund balances will, more than likely, generate additional questions by those evaluating the application. If the applicant is depending on other funding sources or working capital to balance the operating budget, please provide documentation such as signed statements from donors, foundations, bank documents, etc., on the commitment of these funds. If these figures are loans, the repayment needs to be explained in the narrative and found within the budget projections.

Assurances are needed to confirm the commitment of these additional sources of revenue. Please include these as Appendix M.

Project Scope (Short Film Project)

Students. Students are older teenagers or adults and are at an (pre-)intermediate English level. They work in teams of 4. Class size should not exceed 25-30 students (6-7 teams) in order to have enough teacher-team talking time.

ABOUT ME

Having completed 8 English projects in the past 8 years I am confident project work is a valuable and fun way to practice and improve the students' language skills, higher order thinking skills, social skills and creativity.

I want to share my experience and knowledge of extended projects with other teachers so that their students will also be able to enjoy the benefits of project work. After all, we're doing it for them.

There are a few course books for learning English with projects in the market, but the target group is often younger students and

INSTRUCTIONAL METHODOLOGY

"ACTIVE-BASED LEARNING STRATEGIES"

Early 20th Century educational theoreticians John Dewey and Maria Montessori likely never imagined their respective theories of pragmatism and science would evolve over time into what is now known as Brain-Based Education. One increasingly popular form of Brain-Based Education in known as Active-Based Learning or Active-Learning.

In the 1990's, Mel Silberman published his book entitled "Active Learning: Strategies to Teach any Subject." Silberman's writing was not first embraced in the mainstream, it was first embraced in public charter schools seeking academic results for traditionally failing students from low income minority families. The Active-Based Learning Strategies began to show promise when the Success Academies in the State of New York began showing phenomenal success with traditionally low academic performing, low income, minorities. Just recently, 100 percent of a Success Academy school in New York's students passed the New York State Mathematics exam.

Success Academies have experienced a great level of success with Active-Based Learning and have made information available to the public and so others can use their strategies. Silberman (1996) provides an extensive list of classroom implementation strategies using Active-Based Learning.

The distinguishing feature of Active-Based Learning Strategies is that the strategies are designed to engage three neural pathways during each lesson. In essence, the lessons engage students cognitive processing by engaging, for example, visually, auditory, and body-kinetically. Active-Based Learning recognizes Howard Gardner's Multiple Intelligences Theory and recognizes that student learn through pathways to at least ten distinct active centers of the brain.

Teachers using Active-Based Learning Strategies have found that students who are engaged on multiple levels learn the educational objective at a deeper level, remember it longer, and are able to perform at higher levels of Bloom's Taxonomy. The social side of learning built into Active-Based Learning Strategies transforms school culture and

establishes positive norms in the educational environment.

Active-Based Learning in the classroom may include "Team-Building Strategies" that cause the students to work in groups or in a whole class to learn an educational objective and apply it in a practical way. The Team-Building Strategy and a social component and will include students engaging the topic through three neural pathways. In the end, the students had sensor rich shared learning experience which advances their academic learning and creates a lifetime memory.

Active-Based Learning in the classroom may include a "Peer Teaching" experience. In the active setting, all students play a teaching role. For example, each student may be required to figure a strategy to teach everyone in the class how to solve a particular math equation or memorize a set of important historical facts. In this case, education becomes fun and students find surprisingly creative ways to assure that all their peers know and understand to the information being taught.

Silberman (1996) identifies 101 Active strategies which teachers can use to teach any subject.

In Active-Based Learning, students may collaboratively learn speed reading and calculate their cognitive processing speeds. Students work together to help each other master reading objectives with the philosophy that no person will be left behind. Students delightfully respond and meet the objectives as a team.

Finally, Active-Based Learning is a school-wide collaboration in which every student and teacher identifies the learning objectives and work together to ensure that the entire school, as a team, meet the learning objectives.

The teachers' role in the Active-Based Learning environment is as a facilitator and coach who focuses on ensuring that students learn the first time by engaging at least three neural pathways. Students demonstrate their learning in a social context which further reinforces the learning. An Active-Based Lesson Plan designs learning activities which are sensor rich and invoke thinking skills.

The foregoing application is submitted on behalf of the Board of Directors of Lighthouse Charter School. The undersigned has read the application and hereby declares that the information contained in it is true and accurate to the best of his/her information and belief. The undersigned further represents that the applicant has read the Charter School Law and agrees to be governed by it, other applicable laws, and SBE regulations. Additionally, we understand the final approval of the charter is contingent upon successful completion of a mandatory planning year. Per SBE policy "Planning Year for New and Preliminary Charter Schools - CHTR 013, all new nonprofit boards receiving a charter must participate in a year-long planning program prior to the charter school's opening for students. The planning year provides an applicant time to prepare for the implementation of the school's curricular, financial, marketing, and facility plans. During this planning year, regular meetings are held with the Board of Directors and consultants from the Office of Charter Schools to provide information on the following topics: school opening plans, staff development, finance, governance, board training, marketing, policies and procedures, securing a school site, and hiring a school administrator. Final approval of the charter will be contingent upon successfully completing all of the planning program requirements.
