Check here if you are a Charter or Lab School (Skip to Question 14)

LEA did not skip schools within rank order (Skip to Question 14)

In accordance with federal law, an LEA may skip and not serve an eligible attendance area or school if

- the school meets comparability requirements; and
- the school is receiving supplemental funds from other State or local sources that are spent for programs that meet the requirements of Title I and those funds are at least the same as would have come from Title I.

Comparable services are provided for (1) schools that are skipped within a selected grade-span; and (2) schools that are skipped in the district as a whole. Complete the following table for eligible attendance areas/schools, in a selected grade-span or in the district as a whole, that will be skipped and will not receive Title I funds. Attach additional pages as needed.

Note: Approval for skipping schools is contingent upon the LEA's provision on substantial evidence that supports that supplemental state and local funds are provided. Approval is granted on a school-by-school basis.

LEA Per Pupil Cost:

List the skipped schools. For each one, calculate the amount of Title I funds the school would receive if it had been included in Title I, given its position in rank order. The amount is determined by multiplying the PPA the school would have received by the number of low-income students.

A supplemental State or local program meets the requirements of Section 1115 if the program:

- Serves only children who are failing, or most at risk of failing, to meet the State's challenging student academic achievement standards;
- Provides supplementary services designed to meet the special educational needs of the children who are participating in the program to support their achievement toward meeting the State's student academic achievement standards; and
- Uses the State's assessment system described in §200.2 of the Title I regulations to review the effectiveness of the program

School Improvement CSI / TSI / IPG

Comprehensive Support and Improvement (CSI)

- **CSI-LP (Low Performing Schools)**

- Technical support and additional funding should be focused on supporting efforts towards academic improvement and increased achievement

- Schools are the lowest performing five percent of all schools receiving Title I, Part A funds (served) in the state.

- **CSI-LG (Low Graduation Rate)**

- Technical support and additional funding should be focused on supporting efforts towards an increased graduation rate

- NC identifies high schools with a four-year cohort graduation rate less than 66.7% as needing comprehensive support and improvement regardless of Title I status.

Current CSI Formula Grants

- Annual allotment-PRC 105 (must be identified as a CSI School)
- \$75,000 Base allocation
- Additional allocation based on a PPA (per pupil amount) using the prior year's best 1 of 2 average daily membership (ADM)
 - CSI-LP – total ADM of the school
 - CSI-LG – total ADM in grades 9-12

CSI

Special Provision

(2022-23 will be an exit year)

- Each grant is awarded for a period of time beginning July 1st and ending September 30th of the following year. The Tydings amendment extends the grant period to 27 months by allowing unexpended funds as of September 30th to carry over an additional 12 months. Funds are potentially available to PSUs for 27 months provided there are schools identified as CSI schools and a budget is submitted each year.
 - If one or more schools exit CSI status, the PSU may reallocate unexpended carryover funds, based on need, to any other schools in the PSU that remain in CSI status.
 - If all schools in the PSU exit CSI status, unexpended fund balances as of September 30th will revert to the State for reallocation to PSUs in accordance with Section 1003 and Section 1126 of the Elementary and Secondary Education Act.

Targeted Support and Improvement (TSI)

- Targeted Support and Improvement (TSI) schools as defined in the North Carolina Every Student Succeeds Act (ESSA) State Plan.
- Two categories of TSI schools.
 - TSI – Consistently Underperforming Subgroups (TSI-CU)
 - TSI – Additional Targeted Support (TSI-AT)

TSI – Consistently Underperforming Subgroups (TSI-CU)

- North Carolina defines subgroups as “consistently underperforming” if the subgroup receives a grade of “F” on the NC statewide system of annual meaningful differentiation (School Performance Grades) for the most recent and the previous two (2) years.
- Schools with one or more subgroups meeting this definition will be identified on an annual basis
- Schools will annually exit this identification if the identified subgroup(s) receives a grade of “D” or above for the most recent and the previous year.

TSI – Additional Targeted Support (TSI-AT)

Schools meeting TSI-Additional Targeted Support (TSI-AT) criteria will be identified every three (3) years beginning in the 2018-19 school year using the following criteria:

A school that has any subgroup where the score on the NC statewide system of annual differentiation (School Performance Grades) is at or below the highest identified CSI school's All Students group total score in the identification year...AND

Beginning in the 2021-22 school year, the identification criteria will be applied to schools identified as having consistently underperforming subgroups (TSI-CU)

Exit criteria for these schools will be applied annually after the third year of identification.

Title I schools unable to exit TSI-AT by the end of the sixth year (1st identified schools = 2024–25) will be identified as CSI-Additional Targeted Support Not Exiting Such Status (CSI-AT).

CSI / TSI

- NCStar for School Improvement Planning
- CSI & TSI schools share an annual parent letter informing the parent of the goals/strategies to include how parents can assist their child at home.
- The status will be included on the School Report Card.
- Fall and Spring CSI Support Visits from FPMS

Innovative Partnership Grant (IPG)

Innovative Partnership Grant (IPG) is authorized under the State's federally approved plan for The Every Student Succeeds Act (ESSA).

This grant is provided to schools identified CSI schools in need of additional fiscal resources, technical support, and regular school visits to improve student achievement and ultimately to assist these schools with exiting the federal identification and status of CSI.

Note: If a school exits CSI status and has been awarded the IPG, the IPG funding will continue to be provided throughout the duration of the grant as long as all requirements are met.

IPG

- NCStar for School Improvement Planning
- Fall and Spring IPG Support Visits
- Fall and Spring Convenings
- Schools will be provided renewable allotments up to \$500,000 per year for 3 years.

Moving Forward

- New list for CSI/TSI identified schools will be announced during the 2022-23 school year (Oct. at the earliest)
- CSI/TSI notification letters are not required to be sent out until after the new list is approved and shared (letters will be required to be sent out for any identified CSI/TSI school in the 2022-23 school year)
- CSI carryover funds must be spent by September 30, 2022 or risk reallocation/reversion. The carryover budget must be approved by FPMS. Funds must be used for the purpose of exiting CSI status.
- After the CSI identified schools are approved for funding, the CSI application will be placed in the CCIP platform (this will be a separate shell in CCIP). FPMS will provide training and additional information/requirements for schools/stakeholders applying and receiving CSI funding.
- FPMS is currently working on an IPG Cohort III – this will be a competitive grant for the 2022-23 CSI identified schools. More information will be available during the 2022-23 school year.

ESSER CCIP Documentation Guide

If your adjustments at the district level are still reflective in your current budget and in the grant details table, you would not have to submit an amendment, but if you are adding or moving items from one allowable use area in the table to another and an object code amount must also be adjusted, you will need to submit a revised budget and application to gain approval on both before you move forward.

Capital projects as needed **MUST** be added into the grant details table and identified specifically in the grant details table (and in history log if you would like as well) to document the capital project and to gain prior approval of the allowability of the use of the funds for this project.

DIRECTIONS: To ensure that the organization's plan for the use of the Elementary and Secondary School Emergency Relief II (ESSER II) funds (PRC 171) as provided in the Elementary and Secondary School Emergency Relief Act, 2021 is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subject

- Application must match to the amount of remaining funds.
- Only the initiatives that remain active and current should be copied over.

181 Part C: Addressing Learning Loss

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

\$ 5,486,092.08 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction; Assessments (both formative and summative) will be utilized on a regular basis during the school year to determine where students are in their learning journey, and what plan needs to be made by teachers and support staff to differentiate and customize learning for students. After initial assessments, students will receive both grade level instruction and interventions, by trained personnel, teachers and tutors, to address learning gaps/losses that are the effects of the interruption of educational services due to Covid. Assessments already approved by the state such as iStation, I-Ready, EOG/EOC tests, NC Check-Ins, Schoolnet, Envisions math assessments, will be the main resources used to evaluate students. Other formative assessments may be utilized as approved by the PSU.

* (B) Implementing evidence-based activities to meet the comprehensive needs of students;

The PSU is already in a partnership with Learning Focused Schools based on the work of Dr. Max Thompson to provide professional development and support to teachers in order to increase high-quality teaching and learning in the classroom. Much of his work is centered around how to choose and use high level teaching strategies to help students achieve grade level performance and "catch students up" when they have fallen behind. This work in our district is perfect timing for addressing the learning losses/gaps that we will see over the next few years. This is a true partnership with follow up provided by the organization, in order to track progress and provide evidence for the effectiveness of their work and the benefit for students and teachers. Personalized Learning, another district initiative that is underway will be used to differentiate instruction for students so that time can be maximized for all students. This effort will begin in our Summer Learning Program.

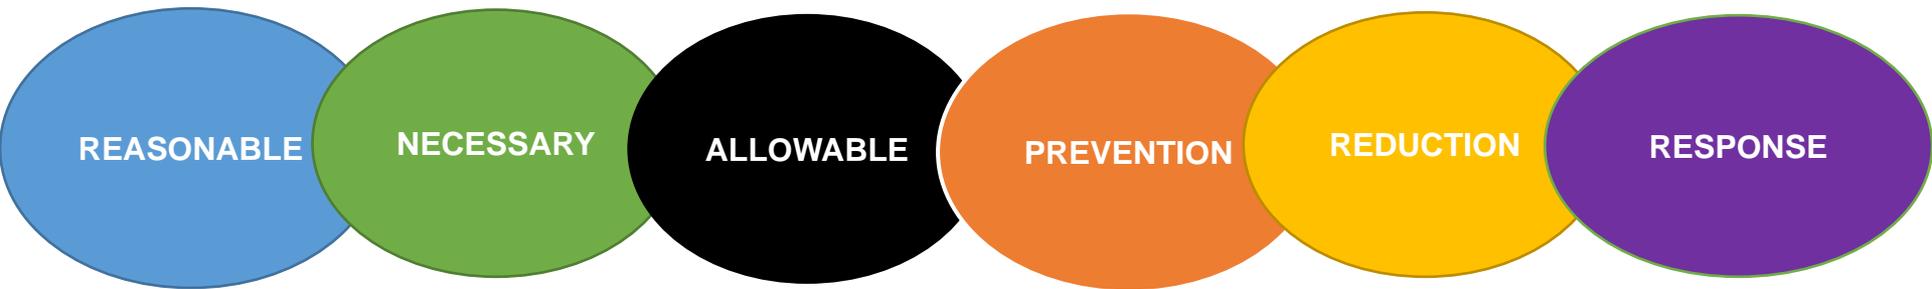

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

As much as parents have been forced to be an integral part of their child's learning experience over the past year, the next few years may prove to be even more important for parent involvement. Parents will need to be educated on the fact that the next few years may be hard as teachers work with them to close the gaps that have occurred during the pandemic. More focused work will need to be done with students to provide required work and skills that have been missed or not given due time during instruction. They will need to be given explicit information on what to expect, how to help their child, and how to prepare for any future possibilities of extended school closure. There was not time or warning before the pandemic to adequately prepare them for helping their child. Now, we can hopefully provide training, information sessions, and support for parents to better understand what to do and how to do it. They can prepare questions based on this past year's experience that they need answered. Teachers can schedule small sessions at the beginning of the school year for parents to come in and see how particular things are done and taught in their child's classroom. Materials and learning kits could be made to support any future remote learning based on what parents saw they needed during the pandemic. Teachers can help parents with homework,
