Educator Equity Under ESSA

• ESEA, as amended by the Every Student Succeeds Act (ESSA) of 2015 Section. 1112(b)(2), requires SEAs and LEAs/PSUs to address whether low-income and minority students served by Title I, Part A are taught at disproportionate rates by ineffective, out-of-field, or inexperienced educators to compared to their peers.

• The local educational agency will identify and address, as required under State plans as described in section 1111(g)(1)(B), any disparities that result in low-income students and minority students being taught at higher rates than other students by ineffective, inexperienced, or out-of-field teachers.
The State Board is committed to delivering equitable opportunity to every student in North Carolina, bearing in mind that “fair” is not always “equal”, and equal is not always equitable. Therefore, “Educational Equity” is the belief and practice of ensuring that every student is treated in a fair and just manner, providing the necessary allocation of resources for the success of every student, and eliminating discriminatory barriers to full participation and opportunities for every student.

Equity plans are an opportunity for PSUs to think deeply and plan strategically for how to ensure that all students receive instruction from effective teachers and that we address any disparities that result from low-income and minority students being taught at higher rates than other students by ineffective, inexperienced, out-of-field teachers.
Educational Equity

“If a district’s goals include preparing all students for college and career, the district should ensure that all students receive *the supports they need* to meet that goal rather than just providing all students with identical supports and resources.”

(Hanover Research, 2019)

“Quite simply, the distribution of teachers in North Carolina compounds inequities for those who are economically disadvantaged, of color, or low-performing.”

(Bastian, 2021)
FY 2023 Equity Plan
The PSU Equity Plan

Data Collection:
PSU leadership must collaborate with stakeholders to analyze data, determine root causes of local equity gaps, identify strategies most likely to address equity gaps, consider how to implement proposed equity strategies, leverage funding and monitor long-term implementation of strategies.

North Carolina Equity Report- Narrative Component

Federal ESSA regulations under Title I, Part A Section 1112(b)(2) require that all local educational agencies (LEAs) that receive Title I-A funds develop a plan for how the LEA will identify and address any disparities that result in low-income students and minority students being taught at higher rates than other students by ineffective, inexperienced, or out-of-field teachers. This section of ESSA requires that all LEAs that receive Title I-A funds create and submit plans describing how the LEA will improve gaps identified from the data analysis. To this end, LEAs are expected to have the plan to ensure the equitable distribution of teachers.

The Equity Report includes both the Data and Narrative Component. Both must be complete to satisfy the requirement of the Federal Regulation. The excel file must be complete to satisfy the data component. PSUs must use data pulled after October 1 to complete this report. The report will be available from October 1-November 15 and is due no later than November 15, 2023.

Name of Person Completing the Survey: [Name] 
PSU Name: [Name] 
PSU Number: [Number]

Preparer attestation: Your signature below indicates that this survey was reviewed by a committee of stakeholders before submission.
Equity Plan Components

• The Equity Plan includes both the Equity Gap Calculation Tool and Equity Narrative Plan. *Both must be complete to satisfy the federal requirement.*

• PSUs must use data pulled after October 1 to complete this report.

• All columns of the tool must be complete. If a column is not applicable, please place a 0 in the column.

• The report will be available from October 1- November 15 and must be uploaded in the History Log of CCIP, no later than November 15, 2023.
Data Collection

The Equity Report includes both the Equity Gap Calculation Tool and Equity Narrative Plan. Both must be complete to satisfy the federal requirement. PSUs must use data pulled after October 1 to complete this report. All columns of the tool must be complete. If a column is not applicable, please place a 0 in the column. The report will be available from October 1 - November 15 and must be uploaded in the Document Library of CCIP, no later than November 15, 2023.

Data collection must not occur prior to October 1.

The reporting date must be prior to November 15.
## School Names and Grade Spans

</table>

Grade Span(s) must Match the Building Eligibility Page in CCIP
Teacher Certification - Percentage of Out of Field Teachers

For each area, based on an analysis of data from the Equity Gap Calculation Tool, answer the following questions to demonstrate how the PSU will develop, review, and evaluate strategies to eliminate any teacher quality inequities.

1. Do inequities between schools and/or grade spans related to out of field teachers exist within the PSU? If there is at least a 10% difference in the number of out of field teachers in any school based on the Equity Gap Calculation tool, then an inequity is present, and it must be noted. [ ] Yes [ ] No

2. If yes, please describe the inequities that exist between school types. If no, please enter "No" in the field below. Examples of school types include: Title I to non-Title I, high minority to low minority enrollment rates and urban to rural locales.

3. If yes, please describe the inequities that exist between grade spans. Single site schools must describe any inequities between grade spans. If no inequities exist between grade spans, please enter "No" in the field below. Grades spans should match the grade spans indicated on the Equity Gap Calculation Tool - K-5, 6-8, 9-12.

4. Identify at least one strategy the LEA will use to eliminate the inequities related to teacher certification that will be described below.
   [ ] Active recruiting strategies
   [ ] Certification Pathways to Full Licensure with Colleges and Universities
   [ ] Collaboration with colleges and universities
   [ ] Hiring qualified and experienced teachers for each classroom
   [ ] Licensure checks as a part of the hiring process
   [ ] New Teacher Support Programs
   [ ] Reimbursement for tuition and testing requirements
   [ ] Retention bonuses
   [ ] Signing bonuses
   [ ] Tuition assistance for Instructional Assistants
   [ ] Other

• Before completing this section of the narrative, stakeholders should review current data from the Equity Gap Calculation tool, and the Equity Plan from the previous year.

• In addition, stakeholders should conduct a Root Cause Analysis to determine the root causes for the identified inequities (e.g., Fishbone, 5 Whys Protocol).
Definition of Clear License Types

Clear License Types:
• Professional Educator’s Initial License
• Professional Educator’s Continuing License
• Administrator/Supervisor License
• Residency license – a pathway to a clear license

Out – of – field License Types:
• Emergency License
• Permit to Teach
Teacher Experience – Percentage of Beginning Teachers

For each area, based on an analysis of data from the Equity Gap Calculation Tool, answer the following questions to demonstrate how the PSU will develop, review, and evaluate strategies to eliminate any teacher quality inequities.

12. Do inequities between schools and/or grade spans related to teacher experience exist within the PSU? If there is at least a 10% difference in the number of beginning teachers in any school on the Equity Gap Calculation Tool, then an inequity is present, and it must be noted. Beginning teachers are defined as those with 3 years or less experience.
   □ Yes. □ No

13. If yes, please describe the inequities that exist between school types. If no, please enter "No" in the field below. Examples of school types include Title I to non-Title I, high minority to low minority enrollment rates and urban to rural locales.

14. If yes, please describe the inequities that exist between grade spans. Single site schools must describe any inequities between grade spans. If no inequities exist between grade spans, please enter "No" in the field below. Grades spans should match the grade spans indicated on the Equity Gap Calculation Tool - K-5, 6-8, 9-12.

15. Identify at least one of the strategies the LEA will use to eliminate the inequities related to teacher experience.
   □ Active recruiting strategies
   □ Collaboration with colleges and universities
   □ Hiring qualified and experienced teachers for each classroom
   □ New Teacher Support Programs
   □ Retention bonuses
   □ Signing bonuses
   □ Tuition assistance for Instructional Assistants
   □ Other

16. If other is selected, please describe the strategy.
Teacher Effectiveness – Percentage of Effective Teachers

Teacher Effectiveness - Percentage of Effective Teachers
For each area, based on the analysis of data from the Equity Gap Calculation Tool, answer the following questions to demonstrate how the PSU will develop, review, and evaluate strategies to eliminate any teacher quality inequities.

23. How is teacher effectiveness measured within the PSU? Please select the how effectiveness is measured from the list below. Be sure to maintain any documentation that can demonstrate how effectiveness is measured.
   - Combination of EVAAS and NCEES Ratings
   - EVAAS Ratings
   - NCEES Ratings
   - Other

24. If Other was selected above, please explain how teacher effectiveness is measured within the PSU.

25. Do inequities between schools and/or grade spans related to teacher experience within the PSU. If there is at least a 10% difference in the number of effective teachers in any school according to the Equity Gap Calculation tool, then an inequity is present, and it must be noted. Beginning teachers are defined as those with 3 years or less experience.
   - Yes.
   - No.

26. If yes, please describe the inequities that exist between school types. If no, please enter "No" in the field below. Examples of school types include Title I to non-Title I, high minority to low minority enrollment rates and urban to rural locales.

27. If yes, please describe the inequities that exist between grade spans. Single site schools must describe any inequities between grade spans. If no inequities exist between grade spans, please enter "No" in the field below. Grades spans should match the grade spans indicated on the Equity Gap Calculation Tool - K-5, 6-8, 9-12.

28. Identify at least one strategy the LEA will use to eliminate the inequities related to teacher effectiveness.
   - Collaboration with colleges and universities
   - Instructional Coaching
   - Professional Learning Opportunities
   - Peer Mentoring
   - Other

29. If other is selected, please describe the strategy.
Describe the steps the LEA will employ to execute strategy #1. (Required)

Describe how the LEA will evaluate the effectiveness of strategy #1. (Required)

Describe the steps the LEA will employ to execute strategy #2. (Optional)

Describe how the LEA will evaluate the effectiveness of strategy #2. (Optional)

Describe the steps the LEA will employ to execute strategy #3. (Optional)

Describe how the LEA will evaluate the effectiveness of strategy #3. (Optional)
Stakeholder Engagement

- Stakeholder engagement could include any of the following groups:
  - Teachers
  - Instructional support staff
  - Instructional specialists
  - Principals
  - District leaders
  - Parents
  - Local community organizations
  - Institutions of Higher Education
Stakeholder Engagement in the Equity Planning Process

The development of equity plans should be fully informed by ideas, insights, and perspectives of various stakeholder groups.

PSUs should engage stakeholder groups in reviewing equity data, and then, facilitate conversations to explore various perspectives regarding interpretations and implications.

Stakeholders must be encouraged to participate throughout the development and implementation of the equity plan.
Stakeholder Involvement

36. List the Names and Positions of Equity Planning Stakeholders.

37. Identify the date when the 2023-2024 Equity Plan was developed.

38. Identify the date when the 2023-2024 Equity Plan will be reviewed.

39. Identify the date when the 2023-2024 Equity Plan will be evaluated.

40. How will the 2023-2024 Equity Plan be shared with the school staff?
    - Public Forum
    - Staff Newsletter
    - School Website
    - Other

41. If Other was selected above, please explain how the equity plan will be shared with school staff.
Glossary of Terms & Frequently Asked Questions
# Glossary of Terms

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Equity Gap</strong></td>
<td>Gap occurs when low income or minority students are more likely to be assigned to ineffective, novice, and out of field teachers.</td>
</tr>
<tr>
<td><strong>Ineffective Teachers</strong></td>
<td>PSUs may choose one of the following definitions to use: Teachers rated below &quot;proficient&quot; on an PSU’s approved teacher evaluation system – OR– Teachers who did not meet growth based on the 3-year average in EVAAS system. Essentially, the PSU must provide a percentage of teachers not deemed highly effective and rated as &quot;In Need of Improvement&quot;.</td>
</tr>
<tr>
<td><strong>Out-of-Field Teachers</strong></td>
<td>The percentage of teachers who do not hold a valid teaching license for the subject or course they teach OR Teachers who hold a provisional license, emergency license, or residential license. Long-term substitutes are also included out-of-field educator measure.</td>
</tr>
<tr>
<td><strong>Inexperienced Teachers</strong></td>
<td>Teachers with fewer than three full years of teaching experience. PSUs must provide the percentage of beginning teachers (BTs) by school.</td>
</tr>
<tr>
<td><strong>Minority Student</strong></td>
<td>A non-white student, who is a racial or ethnic minority, including Black/African-American, Hispanic/Latino of any race, Asian/Asian-American, Two or more races, American Indian/Alaskan Native, or Hawaiian Native/Pacific Islander.</td>
</tr>
<tr>
<td><strong>Educational Equity</strong></td>
<td>The belief and practice of ensuring that every student is treated in a fair and just manner, providing the necessary allocation of resources for the success of every student, and eliminating discriminatory barriers to full participation and opportunities for every student. (North Carolina State Board of Education)</td>
</tr>
</tbody>
</table>
Common Questions - Data Collection

- Which grade spans should be included in the Equity Data Component?
  - Grades K-12 must be included in the data collection.

- If we do not track economically disadvantaged student data monthly, may we use low-income data from the most recently approved ESSR report?
  - Yes.

- Does the low-income data have to match the Building Eligibility page, or should we use current data?
  - All demographic data should be current, unless there is a documented circumstance that prevents the PSU from retrieving current data. In those instances, data should match the Building Eligibility page.
Common Questions - Data Collection

• How do PSUs account for a K-8 schools when looking at grade spans?
  – PSUs may determine which grade spans best fits any schools that may span across grade spans. For example, if elementary students account for 60% - 90% of the enrollment in a K-8 school, then the school should be listed as an elementary school. PSUs must be consistent with your decision. If you decide K-8 is recorded in the elementary grade span, the PSU should use this categorization for all Equity reporting.

• As a charter school serving students in grades K-12, we don’t collect economically disadvantaged by grade span. How should we report the number of low-income students by grade span?
  – The PSU should use the original number of low-income students found on the Building Eligibility Page. Divide the number of low-income students (original number) by the number of grade spans offered at the schools. For instance, a PSU with 3 different grade spans, and 184 low-income students (original number) would calculate the low-income totals for the school as follows: Example: 184/3 = 61.3 low-income students per grade span. *Be sure to round up to the nearest whole number.
Common Questions - Narrative Component

• Do PSUs include elective/specials teachers in the equity plan or only classroom teachers?
  – All teachers of record should be included in Educator Measure data.

• If a PSU uses EVAAS for ineffective teachers, should evaluation data be used for teachers who are brand new or do not have EVAAS data?
  – PSUs should choose only one data source for reporting each of the Educator Measures to ensure consistency. There may be gaps in data due to teacher vacancies and years of experience. PSUs are highly encouraged to choose the data sources with the richest data to better inform your plan.

• Is there a special way to document hiring flexibility in Restart Schools?
  – No. Educator measures for Restart schools should be reported in the same manner as other schools.

• Are single site schools required to complete the annual Equity Plan?
  – Every PSU in the State of North Carolina must submit both components of the annual Equity Plan. Single sites (Charters/LAB schools) are not exempt. Comparisons can be made across grade spans/levels at single sites. Single-site PSUs may also choose to identify holistic gaps and document strategies to address those gaps.
Common Questions - Stakeholder Meetings

• How often should stakeholders convene to discuss the Equity Plan?
  – The type and frequency of stakeholder convening must be determined by the PSU. A strong plan will include at least three stakeholder convenings to ensure stakeholder input is captured during the development process, the review/revision process and the evaluation process each year.

• For the stakeholder input, may we use the charter schools’ SIP monthly discussions as ongoing input, implementation, and review since many of those stakeholders are part of those teams?
  – Yes. The make-up of stakeholder groups is determined by the PSU.

• Should PSUs schedule and hold all 3 meetings with stakeholders on the creation, revision and evaluation of the plan before we submit the plan on November 15?
  – No. Between October 1 and November 15, stakeholders should convene to analyze data and develop the annual plan to address inequities illuminated by the analysis. Throughout the year, stakeholder input should be sought to review and provide feedback on the implementation of the strategies included in the plan. Stakeholders should also convene to evaluate the effectiveness of the strategies and decide to continue or discontinue the implementation of the strategy. Please refer to this tentative schedule for further details.
Equity Plan Approval Process

*Unresolved plans are those that have not received a FY24 approval comment by NCDPI.*
## Sample Equity Plan Implementation Timeline

<table>
<thead>
<tr>
<th>Month</th>
<th>Activities</th>
</tr>
</thead>
</table>
| October             | □ Pull data sources pertaining to enrollment of low-income and minority students, inexperienced teachers, out-of-field teachers and ineffective teachers.  
□ **Convene stakeholders** to analyze data, determine equity gaps, and to develop the Annual Equity Plan. |
| October - November  | □ **Convene stakeholders** Upload the data and narrative components of the annual LEA Equity Plan in CCIP **no later than** November 15. |
| January – March     | □ **Convene stakeholders** to review the implementation of the current Equity plan.  
□ *Outstanding Equity Plans will be noted for non-renewal of Title I funds on January 31.* |
| April- May          | □ **Convene stakeholders** to review the implementation of the current Equity plan.                                                                |
| June – August       | □ **Convene stakeholders** to evaluate the effectiveness of each of the strategies outlined in the Equity Plan.                                 |

* Unresolved Equity Plans are those that have not received a FY24 approval comment by NCDPI.
