STATE AGENCY ADMINISTRATIVE REVIEW SUMMARY

Section 207 of the HHFKA amended section 22 of the NSLA (42 U.S.C. 1769c) to require State agencies (SA) to report the results of the administrative review to the public in an accessible, easily understood manner in accordance with guidelines promulgated by the Secretary. Regulations at 7 CFR 210.18(m) requires the SA to post a summary of the most recent final administrative review results for each School Food Authority (SFA) on the SA publicly available website no later than 30 days after the SA provides the results of the administrative review to the SFA. The SA must also make a copy of the final administrative review report available to the public upon request.

Civil Rights – Validation of the SFA's compliance with civil rights requirements as applicable to the School Nutrition Programs Finding Detail: E. Resource Management YES NO Resource Management – Validation of the SFA's compliance with overall financial health of the School Nutrition Program Finding Detail: The State Agency (SA) provides state reimbursement for the reduced-price breakfast as legislated through SB 415. Mount Airy City Schools has been charging the reduced-price copay of \$.30 for breakfast served during the current school year as well as during the financial review period of School Year (SY) 2016-2017. The amount collected for SY 2017-2018 from the students has been credited back to the applicable student's account and the price paid by the student for breakfast has been adjusted to reflect the student payment of \$0.00. The amount provided by the SA in error during the SY 2016-2017 must be refunded to ensure compliance with federal regulations which allow no more than \$.30 to be collected for breakfast served to a student that is eligible for reduced price meal benefits. The amount due to the SA in error is \$1,121.40. The district does not allow students to charge meals paid or reduced-price meals when they do not have meal money. Instead, students receive a reimbursable meal at the Point of Sale. The student's number is not recorded in the computerized system, instead it is recorded in a notebook. As a result, the School Nutrition Program has lost the revenue for the food and the allowable Federal reimbursement. In most instances, the student pays the money owed to the School Nutrition Program. Currently, the student's name is marked off the list, but still there is no federal reimbursement claimed. As a result, there is a potential loss of \$0.39 for paid students and \$2.91 for reduced price students under the National School Lunch Program.
