A. Program Access and Reimbursement YES NO Certification and Benefit Issuance — Validation of the SFA's certification of students' eligibility for free or reduced-price meals benefits Verification — Validation of the process used by the SFA to confirm selected students' eligibility for free and reduced-price meal benefits Finding Detail: Meal Counting and Claiming — Validation of the SFA's meal counting and claiming system that accurately counts, records, consolidates, and reports the number of reimbursable meals claimed by category Finding Detail: B. Meal Patterns and Nutritional Quality YES NO Meal Components and Quantities — Validation that meals claimed for reimbursement contain the required meal components and quantities Finding Detail: During the off-site assessment, a review of meal pattern compliance revealed that on days where the menu planner did not offer a roll, 9-12 grade students choosing the Grilled Chicken Salad entree did not meet the two (2) oz. minimum daily grain requirement. During the targeted week of review, the minimum weekly grain requirement of ten (10) grains would not be met due to one day's menu. Off-site technical assistance was provided by the reviewer and the Grilled Chicken Salad recipe was revised by the School Food Authority to provide two (2) grains. Offer versus Serve (OVS)(provision that allows students to decline some of the food components offered) — Validation of the SFA's compliance with OVS requirements, if applicable Finding Detail: Dietary Specifications and Nutrient Analysis — Validation that meals offered to children through the School Nutrition programs are consistent with federal standards for calories, saturated fat, sodium, and trans fat Finding Detail:

Food Safety – Validation that all selected schools meet the food safety and storage			
requirements, and comply with the Buy American provisions specified by the regulations			
Finding Detail: A high temperature dishwashing machine is in use at the Governor Morehead School;			
however, during the on-site review, the reviewer was informed by the Food Service Director that the			
final rinse temperature had not been reaching the minimum final rinse temperature of 180 degrees F.			
The machine had been modified to dispense a Quaternary Sanitizing Solution during the final rinse			
cycle. During the on-site review, the strength of the Quaternary Solution did not register to the			
minimum requirement of 200 PPM. Additionally, the Kitchen Assessment Form was not being			
completed to document the required HACCP Monitoring of the dish machine temperature or			
concentration of sanitizing solution
