## 1.0 Percent Participation Justification Form 2018–19

The Every Student Succeeds Act (ESSA) requires each district and charter school to complete and submit a justification when it anticipates exceeding 1.0 percent of students assessed in a subject area (i.e., English Language Arts/Reading, Mathematics, and/or Science) with the NCEXTEND1 alternate assessment. Justifications from each district and charter school will be reviewed by the North Carolina Department of Public Instruction (NCDPI), and follow up actions will be determined based on the information found in the justification document. Staff from the Exceptional Children and Accountability Divisions in each district and charter school should collaborate to provide the following information on the justification document. Responses to Sections 1–4 and the designated signatures are required; it is optional to include additional information (see page 5). This justification document will be publicly posted. As such, the document must not contain any personally identifiable information. If necessary, additional pages may be attached to this form.

## 1.0 Percent Participation Justification Form 2018–19

The IEP team continually monitors student progress through data collection such as alternate

assessments, benchmarks, and informal classroom assessments. The team meets regularly to discuss any progress made.

Does the district or charter school have a process in place to identify and address disproportionality in alternate assessment participation (specifically, among race, gender, or socioeconomic status groups)?

Yes

No

Explain below:

### Section 4: Resources and Technical Assistance

What resources and technical assistance does the district or charter school need from the North Carolina Department of Public Instruction to ensure that students are being assessed using the appropriate assessment?

The 3 Extend1 students are all male however, of different races, ages, and socioeconomic status groups.

The IEP team decides on alternate assessments based on student needs and disability.

Our students need an additional alternative assessment. The IEP team believes there should be an alternate assessment that fits between the regular EOG and the Extend1. There are a number of students that simply fall somewhere in between.
