# NC State Board of Education Global Education Task Force Goal 4.2

Global-Ready School	Preparing Students for the World: Final Report of the State Board of Education's Task Force on Global Education (January 2013) provides a set of recommendations for ensuring that every student who graduates from our public schools is "prepared to be a globally engaged and productive citizen." Recommendation 4.2 states: "Institute a Global-Ready designation for schools and districts that provides a process and incentives for K-12 world language opportunities for all students; pathways for teachers to achieve SBE recognized badging and career ready-employer requirements, among others."			
Global-Ready Designation	<ul> <li>The NC Global-Ready School Implementation Rubric is built around the North Carolina Department of Public Instruction's (NCDPI) "Global-Ready School Attributes," which describe characteristics of a high-quality Global-Ready School.</li> <li>The rubric articulates a common language for Global-Ready School implementation strategies and establishes a continuum describing beginning-to-great global schools. The rubric can serve as a guide for schools or other organizations in the design and/or implementation of Global-Ready leading and learning efforts. The rubric may be used to reflect on characteristics of a school model and to plan action steps for the future.</li> <li>NCDPI is using this rubric as the framework for the "NC Global-Ready School Designation" application. The rubric is available at: https://files.nc.gov/dpi/documents/globaled/actions/rubric.pdf</li> </ul>

# **Application Guide and Directions**

### Designation

Schools can earn the Global-Ready School (GRS) Designation at either the "Prepared" or "Model" Level of Achievement.

### **Rubric Terms and Organizational Structure**

Attributes are grouped under overarching principles. Each Attribute is further defined by **Key Elements**. The **Levels of Achievement** indicators are as follows:

- **Early:** There is awareness school-wide for global education. The school has a few systems and structures in place to support global education and needs to identify and integrate systematic support for these efforts. Limited practices showing little impact on students.
- **Developing**: The school occasionally implements systems and structures to support global readiness. The school recognizes the need for global connectivity and has some components of global connections. An opportunity exists for refining systems and structures. Inconsistent practices showing some positive impact on students.
- **Prepared:** The school effectively implements systems and structures (processes) to support global readiness. Many components of global education are embedded school-wide. Sound, well-embedded practices showing positive impact on students.
- **Model:** The school consistently implements systems and processes to support global readiness. The school is a leader for other schools to replicate or model. Global readiness is embedded in the school's culture. Well-developed, cutting edge practice showing consistent, high-level student impact.

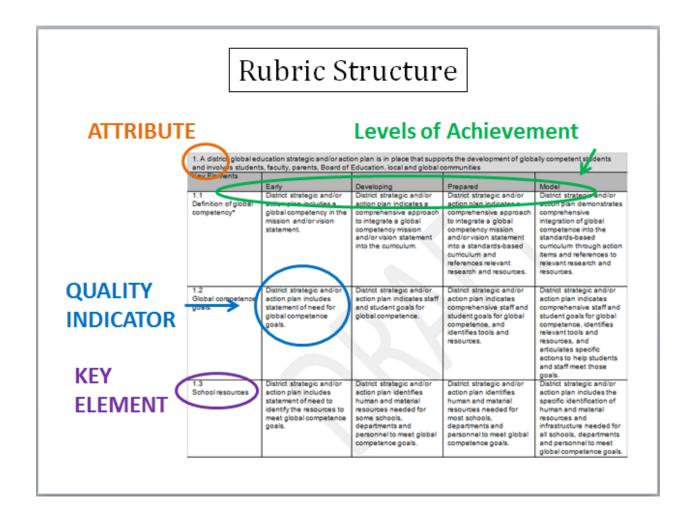

The Overarching Principles and Ten Attributes of Global-Ready Schools define essential components central to 21st Century Skills:

	NC Global-Ready School Overarching Principles and Attributes*					
А	A Global-Ready School demonstrates its commitment to prepare students for the world through sustainable strategic planning.					
1.	A site-based global education strategic plan is in place that supports the development of globally competent students and involves students, faculty, parents, local and global communities.					
2.	2. A site-based global education committee or advisory council is in place to address the goals of the global education strategic plan.					
	A Global-Ready School demonstrates teaching and learning practices by integrating global themes throughout curriculum, aligned with state, national, and international business/industry standards.					
3.	Professional development on embedded global education curriculum.					
4.	Embedded global themes and problem-based learning throughout the curriculum.					
5.	Global experiential learning experiences (face-to-face and virtual) for each student and teacher.					
6.	Alignment of student global competency development with career and/or postsecondary pathways.					
7.	7. Leading-edge language instruction.					
8.	Authentic assessment and demonstration of global competence.					
	A Global-Ready School initiates and sustains local, national, and international community and business/industry partnerships.					
9.	Global education strategic plan is communicated.					
10.	Business/industry, nonprofit, and community partnerships for Global Education opportunities that extend the classroom walls.					
*Att	*Attributes define essential components central to 21 <sup>st</sup> century skills					

The Global-Ready School Designation Rubric contains ten Global-Ready Attributes. Each **Attribute** is described individually on separate pages. Each Attribute page lists two to six "Key Elements" or key components of the Attributes, indicated in the rows. The Level of Achievement across the top of the page, ranges from "Early" to "Developing" to "Prepared" to "Model" and represents varying depths of implementation for each Key Element, indicated in the columns. Finally, the "Quality Indicators" describe the critical nature of a school's implementation of a particular Key Element at a particular point along the Levels of Achievement. Schools can use the rubric as a road map for their goal setting towards earning the state level designation.

The Global-Ready School rubric is comprised of the following elements:

- Overarching Principle
- Attribute (grouped under an Overarching Principle)
- Levels of Achievement ("Prepared" or "Model" required for designation)
- Key Elements (for each Attribute)
- Quality Indicators (for each Level of Achievement per Key Element)

### **Review Process**

Each application will be reviewed to assure it is complete (Forms A-E) and submitted according to the directions.

Application Forms can be found on pgs. 8-37 of this document. To receive a Word Protected set of the GRS Application forms, please complete the *Intent to Apply* form (does not obligate the school to complete) at: <u>https://forms.ncpublicschools.gov/nc-global/global-ready-school-designation-intent-to-apply</u>

Applications with culminating self-assessments at the "Prepared" or "Model" Level of Achievement will be evaluated by a state level review team.

### **School Notification of Designation Status**

Schools will be notified in May of application status.

### **Designation Status Length and Renewal**

After three years, schools will need to re-apply or renew the NC Global-Ready Designation. If desired, a school that initially receives a "Prepared" designation may apply to seek a "Model" designation during any of the subsequent three years through the initial application process.

#### **Tips for Completing the Application**

- Establish a team to complete the application and involve staff in writing narratives, documenting and selecting evidences, and editing. Designate an "application point person" who will ensure that all key elements have been addressed and that evidences for those key elements are clearly identified.
- Establish a timeline for completion of the application including the time for district level review and approval as determined by the superintendent.
- Plan for early input and collaborative involvement from business partners, community partners, and postsecondary partners.
- Remember the rubric is a roadmap and how a school arrives at the destination is often unique.
- Include narrative summaries of accomplishments along with impact on students for each of the ten Attributes, not to exceed 600 words per Attribute.
- Address each Key Element under each of the Attributes with narrative summaries along with impact on students not to exceed 600 words and evidences that clearly and concisely connects per Key Element.
  - Provide data that is both qualitative and quantitative. Example: A sign-in sheet as evidence, it should be accompanied by a correlating comment/description which indicates the percentage as required by the rubric. If the rubric requirement is 80% to be Model, then the burden of proof for meeting that goal is the responsibility of the submitter, not the evaluator.
  - $\circ \quad \text{Use student results and outcomes in responses.}$
  - o Remove personally identifiable information of students' names.
  - $\circ$   $\quad$  Select evidences that provide a clear picture for the reviewer.
  - Use an evidence more than once, if it addresses multiple Key Elements; however, each use must be specifically clarified and linked to the Key Element it addresses.
  - o Select supporting evidences that best exemplify and distinguish the school.
  - o Do not submit actual evidences with the application. Provide links to those evidences.
- Incorporate global education strategies within the school improvement plan.
- Complete Forms A, B, C, D and E and submit all 5 forms.
- Share successes with staff.

#### 5.2 Local global connections

Early	Developing	Prepared	Model
School has an event during year that celebrates the heritage of the student body and local community.	School builds on multiple events that celebrate the heritage of the student body and local community. Some teachers bring local global connections into the classroom through guest speakers and field trips.	School's student body heritage is intentionally mapped into curriculum and intentionally highlighted throughout the year. Local immersions with different communities exist during some classes.	Strong partnerships with local global communities, organizations, and nonprofits encourage students to explore multiple perspectives. School has developed partnership with a school abroad, and students and teachers connect with that school virtually.**

#### 5.3 Experiential learning\*\*\*

Early	Developing	Prepared	Model
Virtual global learning experiences are sometimes planned.	Virtual and face-to-face global learning experiences are offered to students, but are not always aligned with the curriculum. School leaders acknowledge the importance of international exchange to build global competence in teachers and students.	Virtual and face-to-face global learning experiences are accessible to some students and are aligned with the curriculum. School leaders encourage international exchange for teachers and students. Media center is emerging as a global hub.	Virtual and face-to-face global learning experiences are strategically implemented across the curriculum. Experiential learning is accessible to all. Travel opportunities are intentional and aligned to curriculum. Media Center is a global hub.

The Descriptive Narrative should not exceed 600 words and should indicate the outcomes/impact for this Key Element.

#### 5.4 Global service learning

Early	Developing	Prepared	Model			
Teachers and students identify possible venues to provide service to a part of the global community (e.g., neighborhood park, school).	Teacher and student creation and implementation of plans to provide service to a part of the global community is supported by the school plan.	At least 25% of students and teachers provide service based on a school supported plan to a part of the global community **** (e.g., peer tutoring for English homework).	At least 50% of students and teachers provide service based on a school supported plan to a part of the global community****.
