

GUIDELINES FOR Testing Students Identified as English Learners

2026–27

In compliance with federal law, the NC Department of Public Instruction administers all state-operated educational programs, employment activities and admissions without discrimination because of race, religion, national or ethnic origin, color, age, military service, disability, or gender, except where exemption is appropriate and allowed by law.

Inquiries or complaints regarding discrimination issues should be directed to:

Dr. Thomas Tomberlin, Senior Director, Office of Educator Preparation and Teacher Licensure, NCDPI,
6301 Mail Service Center, Raleigh, NC 27699-6301 / Phone: (984) 236-2114

Visit us on the web: www.dpi.nc.gov

State Testing Anonymous Tip Line: <https://go.ncdpi.gov/28hwz>

Use our state testing anonymous tip form to anonymously report a concern about suspected testing irregularities, security concerns, or possible violations of state testing.

A. English Learner Testing and Accountability Requirements

Students whose primary language is not English and are identified as English Learners (ELs) represent a steadily increasing percentage of North Carolina's public school population at all grade levels. The *Guidelines for Testing Students Identified as English Learners* publication contains policy guidelines and procedures for testing students who are identified as ELs as part of the Annual Testing Program.

All students must participate in the Annual Testing Program. The public school unit (PSU) must ensure all students, including those identified as ELs, participate in standard administrations of required state tests or, if eligible, receive appropriate accommodations during the administration of the tests. To ensure valid test results, all school personnel must follow the appropriate procedures for use of accommodations by ELs presented in this publication and any published supplements or updates.

EL teams or committees must review this publication before making decisions about testing accommodations for students identified as ELs. Some students identified as ELs are also identified with disabilities, and information about testing these students can be found in the [Testing Students with Disabilities Handbook](#).

Participation in the Annual Testing Program

Per [General Statute §115C-174.11\(c\)\(1\)](#), "The State Board of Education shall adopt the tests for grades three through 12 that are required by federal law or as a condition of a federal grant. These tests shall be designed to measure progress toward reading, communication skills, and mathematics for grades three through eight, and toward competencies for grades nine through 12. Students who do not pass the tests adopted for eighth grade shall be provided remedial instruction in the ninth grade." Further information about testing students identified as ELs can be found in State Board of Education (SBE) policy [TEST-011](#).

North Carolina does not provide tests or alternate assessments in a language other than English.

Notifying Parents and Legal Guardians of Required State Tests

According to [16 N.C. Admin. Code 06D .0307](#), "(g) LEAs shall, at the beginning of each school year, provide information to students and parents or legal guardians advising them of the districtwide and State-mandated tests that students will be required to take during that school year. In addition, LEAs shall advise students and parents or guardians of the dates the tests will be administered and how the results from the tests will be used. Also, information provided to parents shall include whether the State Board

of Education or the local board of education requires the test(s). (h) LEAs shall report scores resulting from the administration State-mandated tests from the Annual Testing Program to students and parents or guardians no later than 30 days after the test is administered and along with available score interpretation information within 30 days from receipt of the scores and interpretive documentation from the NCDPI.”

EL Identification

As stated in SBE policy [TEST-011](#), “To be identified as English Learners (ELs), students indicating more than one language on the standardized, statewide Home Language Survey (HLS) must have their language background and previous identification as an EL investigated by Public School Unit (PSU) staff with English language acquisition experience. If the student’s background or previous identification indicates limited English proficiency, the state-adopted screener must be administered within 30 days of enrollment. Thereafter, all students identified as ELs must be annually assessed using the state-adopted English language proficiency assessment.”

The WIDA Screener for Kindergarten, the WIDA Screener, or the WIDA Alternate Screener are the state-adopted English language proficiency identification assessments. The administration of the appropriate screener is based on results from the HLS process. The HLS process, the identification, and the subsequent placement of EL students in English as a Second Language (ESL) services are guided at the state level by the NCDPI Office of Teaching and Learning. For additional information or questions concerning students identified as ELs, contact ESLTitleIII@dpi.nc.gov.

Once identified as an EL, students must be assessed annually with a state-identified English language proficiency test. The state adopted English language proficiency tests are WIDA ACCESS for Kindergarten, WIDA ACCESS, and WIDA Alternate ACCESS tests. Eligible students may participate in the WIDA Alternate ACCESS in place of the WIDA ACCESS.

Results from these tests help determine eligibility for state-approved testing accommodations on tests that are part of the Annual Testing Program, such as end-of-grade (EOG) and end-of-course (EOC) tests.

The SBE determines proficiency standards for all North Carolina tests. Individuals responsible for making decisions about testing accommodations for ELs are not permitted to revise the standards established by the SBE to meet the unique needs of a student.

WIDA Alternate Screener

As stated in SBE Policy [TEST-011](#), “Effective with the 2025–26 school year, the WIDA Alternate Screener is the state-adopted alternate English language proficiency identification assessment given to students who have a significant cognitive disability and are instructed toward the Extended Content Standards. Students with a composite score less than 3 qualify for English language development services and are assessed annually on the state-adopted alternate English language proficiency assessment.”

Eligible students may participate in the WIDA Alternate Screener in place of the WIDA Screener for Kindergarten or WIDA Screener. For additional information on student eligibility for the WIDA Alternate Screener see the [Multilingual Learner/Title III Virtual Repository](#) (Modules > Student Identification Using WIDA Screeners > WIDA Alternate Screener).

WIDA Alternate ACCESS Eligibility Criteria

The WIDA Alternate ACCESS is for students in grades K–12 who are identified as ELs and have significant cognitive disabilities that prevent participation in the WIDA ACCESS test. The WIDA Alternate ACCESS is available for ELs who have a current Individualized Education Program (IEP), are instructed using the North Carolina Extended Content Standards (i.e., reading, mathematics, science), and are eligible to participate in the NCEXTEND1 alternate assessment when enrolled in the appropriate grades (i.e., Grade 3–8, 10 and 11).

When ELs are enrolled beyond grade 12 and receive instruction on the North Carolina Extended Content Standards, they are required to take the WIDA Alternate ACCESS annually until either exiting EL status or no longer enrolled in school.

Eligibility for Testing Accommodations

As illustrated in Table 1, students who score below Level 5.0 Bridging on the reading domain of the WIDA Screener or the WIDA ACCESS test are eligible to receive state-approved EL testing accommodations on all state tests. Students who score Level 5.0 Bridging or above on the reading domain of the WIDA Screener, the WIDA ACCESS test, or exit EL status must participate in all state tests without accommodations (SBE policy TEST-011).

TABLE 1. Eligibility criteria for EL testing accommodations

Reading Domain Score	Eligibility
1 Entering, 2 Emerging, 3 Developing, or 4 Expanding	Eligible to receive state-approved EL testing accommodations for all state tests
5 Bridging or 6 Reaching	Must participate in the general state test administration without EL testing accommodations

English Learners' First Year in United States (US) Schools

State Board policy [ACCT-021 \(1\)\(D\)\(1\)](#), states that “students identified as English Learners (ELs) shall participate in the statewide testing program using either the standard test administration or the standard test administration with accommodations. . . . ELs must participate in state assessments beginning with their first year in a US school; however,

- for the first year, the requirement is for participation and for reporting (e.g., NC School Report Card), not the accountability model.
- for year two, ELs' test scores will be included in the growth analysis for the accountability model.
- for year three and beyond, ELs' test scores will be included in growth and the achievement indicator of the accountability model.”

TABLE 2. Inclusion of ELs in the accountability model

Recently arrived EL (by enrollment date)	Year 1 (reading, mathematics, science)	Year 2 (reading, mathematics, science)	Year 3 and beyond (reading, mathematics, science)
Does the EL student take state tests?	Yes	Yes	Yes
Does the EL student receive an Individual Student Report?	Yes	Yes	Yes
Is the EL student included in the accountability model?	No	Included for growth	Included for proficiency and growth

Inclusion of First Year EL Students in the Twenty Percent End-of-Course Calculation

Per [16 N.C. Admin Code 06D .0309\(c\)\(2\)](#), “PSUs shall adopt policies and use results from all EOCs as a minimum of twenty percent of the student’s final grade for each respective course with the exception of:

- (2) English Learner (EL) students, as defined in 25 CFR 30.101, in their first year in a United States school;”

The Multiple Measure Tool (MMT) Process

Beginning with the 2026–27 school year, the NCDPI will implement the MMT process as an alternate pathway for students to exit the English Language Development program. The MMT process is designed to supplement results from the ACCESS test and provide an indication of a student’s ability to engage with grade-level academic English.

Students who exit English Language Development services through the MMT pathway are included in the year-end accountability model in the same manner as students who exit through WIDA ACCESS testing scores.

For more information about the MMT process see the [Multilingual Learner/Title III Virtual Repository](#) (Modules > Multiple Measure Tool).

Exiting EL Identification

Results from the annual WIDA ACCESS test, the WIDA Alternate ACCESS test, or the NCDPI [Multiple Measure Tool](#) (MMT) are used to determine if a student may exit EL identification. Students who score an overall composite of 4.5 or above on the WIDA ACCESS test or who score a Performance Level (PL) 2 or higher on the WIDA Alternate ACCESS, exit EL status. For the 2026–2027 school year, students are counted as "Exited". Once students have exited (regardless of method) they enter a four-year period as Monitored Former English Learners.

A student maintains the EL designation and accommodations through the end of the academic year in which he or she is eligible to exit. Maintaining a student's EL status for the full academic year ensures accommodations remain available, accountability reporting remains consistent, and equity in assessment is preserved.

Reidentification of EL Students

Any former EL student (exited EL status) may be reidentified by school personnel. To reidentify a student who was screened and did not qualify as an EL (Not EL) or has "Exited" EL identification through the WIDA ACCESS test or the MMT, schools will begin the reidentification process by reviewing and documenting the student's academic progress with the student's EL team and parents or legal guardians. School districts are encouraged to use the Multi-Tiered System of Support framework to obtain ongoing formative assessment information to monitor each student's progress and to identify areas where instructional modifications and/or additional support might be needed. If it is determined that language is a barrier to the student's academic achievement, the student can be reidentified through the WIDA Screener testing process. Documentation to support administering the WIDA Screener for Kindergarten or WIDA Screener should be retained at the school (grade level and semester determine the appropriate test). The language assessment screener can only be given one time per academic school year. For example, if a student was screened in kindergarten and did not qualify as an EL, the student cannot be screened again until first grade.

Monitored Former English Learner

The *Every Student Succeeds Act* (ESSA) requires each state to determine if students who exited EL status (using the English language proficiency [ELP] test or the MMT) will be included in subgroup reporting for the accountability model. In North Carolina, students are considered Monitored Former English Learners for four years after they exit EL status and are a part of the EL subgroup for most accountability model calculations.

Table 3 below is an example of how students are included in the EL subgroup after exiting EL status.

TABLE 3. Inclusion in the EL subgroup after exiting EL status

Year	EL Identification	ELP Test Participation	Included in the EL Subgroup
2025–26	EL	Takes ELP test and exits EL status	Yes
2026–27	Exited Year 1	Not tested on the ELP test	Yes
2027–28	Exited Year 2	Not tested on the ELP test	Yes
2028–29	Exited Year 3	Not tested on the ELP test	Yes
2029–30	Exited Year 4	Not tested on the ELP test	Yes
2030–31	N/A	Not tested on the ELP test	No

Transfer Students

When a student identified as an EL transfers

- within a PSU,
- to another North Carolina PSU, or
- transfers in or out of North Carolina,

the student's English language proficiency scores must be transferred with the student's cumulative record to the new school.

To identify transfer students as ELs, students indicating more than one language on the standardized, statewide Home Language Survey (HLS) must have their language background and previous identification as an EL investigated by PSU staff with English language acquisition experience.

Scores from WIDA Consortium member states. The WIDA Screener for Kindergarten, WIDA Screener, WIDA Alternate Screener, WIDA ACCESS for Kindergarten, WIDA ACCESS, and WIDA Alternate ACCESS scores can be used for determining EL status by applying the North Carolina criteria for identification and exit. A list of participating states can be found on the [WIDA Consortium's home page](#) (under Members/States Pages). When a student enrolls in a school from a WIDA Consortium

member state, the school has up to thirty calendar days from enrollment to obtain WIDA screener or test scores from the member state.

If the receiving school does not receive the scores within the timeline, a certified test administrator must administer either the WIDA Screener for Kindergarten, the WIDA Screener, or the WIDA Alternate Screener to determine EL identification and eligibility for ESL services. If scores are received and are more than a year old, schools should go through the HLS process to determine EL identification and if necessary, administer an Instructional Update using the appropriate WIDA Screener.

Students who transfer to North Carolina during the test window must be assessed even if they have taken the WIDA ACCESS test in another state during the current school year.

B. Joint Responsibilities

Responsibilities of the PSU Test Coordinator and EL Coordinator/Lead

The PSU test coordinator and EL coordinator/lead work collaboratively to provide information to school-based staff who make decisions and write plans for testing students identified as ELs. The information in this section explains how to appropriately document a student's participation in the Annual Testing Program at grades 3–12, including whether the student will participate in the

1. state test under standard conditions (i.e., without testing accommodations) or
2. state test with testing accommodations.

It is the joint responsibility of PSU and school personnel to work collaboratively to ensure the following occur within a reasonable time frame:

1. All school test coordinators, school administrators, teachers, EL teams or committees, parents or legal guardians, and students aged eighteen or older are informed about
 - a. the state testing requirements at each grade level (including state-identified English language proficiency test and the National Assessment of Educational Progress [NAEP], if applicable) and
 - b. the guidelines governing the provision and use of testing accommodations.
2. A local monitoring system is established to ensure eligible students identified as ELs who have appropriate documentation in their current EL Plans are provided testing accommodations during the administration of state tests. A monitoring system helps ensure valid test scores and that all state policies are followed.
3. Ensure appropriate documentation of testing accommodations is included in current EL Plans.
4. All scheduling and provisions required to accommodate testing ELs are in place before testing begins.
5. Ensure appropriate accommodations are provided to students identified as ELs who have documentation on file at the school.
6. A local system is established for (a) notifying parents or legal guardians, and students before the test administration date about the approved accommodations the student will be provided, and (b) procedures are in place if a student declines to use the approved accommodation(s) during a test administration.
7. All appropriate staff receive training on the state-identified language proficiency test.

Training of School Personnel

Before testing begins, the school test coordinator must ensure all personnel assigned to administer or proctor (if utilized) assessments are trained on the proper procedures for testing students identified as ELs.

Per [16 NC Admin. Code 06D .0307 \(a\)](#), “Only current or retired professional educators as defined in [G.S. §115C-270.1\(2\)](#), or teachers who

- (1) are employed by local education agencies (LEAs); and
- (2) have training in the Annual Testing Program as required in Rule .0308 of this Section shall administer secure tests.”

To avoid the appearance of a conflict of interest and to protect test administrators from allegations of impropriety, a test administrator should not be assigned to administer a test in a room where his or her relative or ward is tested. Relatives and wards include children, stepchildren, grandchildren, nieces, nephews, siblings, in-laws, and persons under the test administrator’s guardianship.

All test administrators must: a) participate in training on the administration of state tests, including the [Online Test Administrations—Policies and Procedures Training Course](#), and the appropriate use of testing accommodations, (b) complete the *Testing Security Protocol and Procedures for School Personnel* [training course](#), [video](#), or [publication](#) training, and (c) sign a *Test Administrator-Confidentiality and Test Security Agreement* (which can be found in the [North Carolina Test Coordinator’s Policies and Procedures Handbook](#)).

Additionally, test administrators responsible for administering tests to ELs must receive training on:

1. the standard procedures for administering the test(s) in the specific test administration guide, and
2. information about delivering testing accommodations during a test administration.
 - To ensure valid test results, training before the administration of each state test must include review of accommodations that have been approved for the student to use with specific tests and the appropriate use of and procedure for the provision of the approved accommodations.
 - A student may require accommodations for only one test (e.g., reading), or a student may have approval for accommodations on several tests (e.g., reading, mathematics, science). In addition, a student may have approval for

more than one accommodation per test because of his or her individual needs.

- Following the test administration, the test administrator or designated personnel must complete the accommodations provided following the directions as outlined in the test administration guide. Accommodation documentation must be accurate because it is used for state and federal reporting purposes and for making determinations about the validity of test scores.
- Unless the provision or use of the testing accommodation requires special handling, the test administrator must follow standard procedures for processing and returning test materials.

C. Accommodations Considerations

Information in this publication should be considered when determining how a student identified as an EL will participate in state testing. Student options include:

1. participation in the state test under standard conditions (i.e., without testing accommodations) or
2. participation in the state test with testing accommodations.

The EL team or committee should consider each state test separately when preparing and planning for any accommodations a student may need. For example, it may be appropriate for a student to receive an accommodation during the North Carolina Reading EOG Test; however, the team or committee may decide the same student will take the North Carolina Mathematics EOG Test under standard conditions.

Student Participation in the Annual Testing Program

Table 4 and Table 5 include the tests in which all EL students must participate during the 2026–27 school year.

TABLE 4. 2026–27 state-mandated non-vendor tests

Grade Level	Non-Vendor Tests
3	Beginning-of-Grade 3 Reading Test
3–8	End-of-Grade Reading Test
3–8	End-of-Grade Mathematics Test
5 and 8	End-of-Grade Science Test
9–12 ¹	End-of-Course Biology
9–12 ¹	End-of-Course English II
8–12 ¹	End-of-Course NC Math 1
9–12 ¹	End-of-Course NC Math 3

¹ North Carolina EOC tests are administered at the end of the course for Biology, English II, NC Math 1, and NC Math 3. Per 16 N.C. Admin. Code 06D .0309, “students who are enrolled for credit in courses in which EOC assessments are required shall take the appropriate EOC assessment at the completion of the course.”

TABLE 5. 2026–27 state-mandated vendor tests

Grade Level	Vendor Test
K, 1–12	WIDA ACCESS
4, 8, and 12	National Assessment of Educational Progress
10	PreACT
11	The ACT
9–12 ²	ACT WorkKeys

The school test coordinator should provide the following information to EL teams or committees for consideration when determining how a student will participate in state tests:

1. copies of this publication,
2. information about the Annual Testing Program:
 - a. [state tests and national assessments \(e.g., NAEP\) required for each grade level or at the conclusion of specific courses](#),
 - b. information about testing under standard conditions,
 - c. [procedures for testing with accommodations](#) (including procedures to be followed in the event (1) [the student declines to use the accommodation](#) and (2) an accommodation not located in this publication is provided during the administration of a North Carolina test), and
 - d. [ESSA](#).

Instructional Accommodations

Accommodations used during instruction and classroom assessments should always be discussed, finalized, and documented in the current EL Plan before the discussion and documentation of accommodations to be used during a state-mandated test administration. Accommodations used during state tests should either be the same as or similar to those used during instruction.

Review of Student Accommodations

The EL coordinator, in collaboration with the school test coordinator, should review student testing accommodations before the testing plan is created for the school. This may include the review of documentation in EL Plans and any available testing accommodations reports from the accommodations management system (i.e., Every

² While many students test in the twelfth grade, CTE concentrators at any grade are eligible to take the ACT WorkKeys test.

Child Accountability and Tracking System [ECATS], North Carolina Student Information System [NCSIS], or the PSU-approved accommodations management systems).

Determining Accessibility Supports

A list of accessibility supports is available for reference in the [North Carolina Accessibility Framework](#). The three tiers of accessibility supports provide increased access for all students. The *Accessibility Framework* includes *Universal Design Features* (components of the test construct to promote access that are available for all students), *Designated Features* (available for all students regardless of IEP, Section 504, or EL status; however, should be teacher-supported and used on a regular basis by the student), and *Accommodations* (available only to students with a documented need in an IEP or Section 504 Plan). It is important that IEP teams and Section 504 committees recognize the various supports available within the tiers when determining which accommodations are needed during instruction, classroom assessments, and state testing.

Additional Guidance

In the event the EL team or committee requires guidance not specified in this publication, the team or committee is to contact the PSU or school test coordinator and the EL coordinator for clarification before arriving at a final decision. The PSU or school test coordinator and EL coordinator can provide the team or committee with information about the potential impact of the team or committee's decision regarding test validity and test security (e.g., test scheduling) in addition to mandates such as the federal ESSA legislation, the North Carolina Administrative Procedures Act, NC Administrative Codes, SBE policies, and the [Testing Code of Ethics](#).

The SBE determines proficiency standards for all North Carolina tests. EL teams or committees are not permitted to revise the standards established by the SBE to meet the unique needs of a student.

Testing Accommodations Documentation

For data collection purposes, there must be a single authoritative source for testing accommodations. To support the needs of the whole child and ensure a complete and accurate record of all testing accommodations, the NCDPI has established the following authoritative order for testing accommodations documentation:

1. IEP
2. Section 504 Plan
3. EL Plan

4. Transitory impairment documentation

For example, all testing accommodations for a student with disabilities who is also identified as an EL must be documented in the student's IEP. Using one authoritative source for documenting accommodations streamlines implementation and supports timely, student-centered decision-making. All appropriate team members should be present or consulted before accommodations decisions are made.

Accommodations for North Carolina-Developed Tests

Each member of the EL team or committee must have access to the accommodation information located in [Section F](#) of this publication at the EL meeting so that appropriate accommodations for test administrations can be discussed, determined, and documented. To avoid any testing irregularities or misadministrations, the EL team or committee should discuss the delivery of accommodations procedures located in Section F before making a final decision about which accommodations will be provided to a student. The team or committee is responsible for specifying, to the greatest degree possible, how the accommodations will be provided during testing. For example, the team or committee should address (a) the length of a session before a break, if the sessions will stretch across multiple days, or how many additional days are needed when providing the *Multiple Testing Sessions* accommodation; (b) the amount of extra time to be given when providing the *Scheduled Extended Time* accommodation; and (c) whether the test administrator reads aloud all words or only words requested by the student when providing the *Test Read Aloud (in English)* accommodation for tests that do not measure reading comprehension.

The following accommodations approved for use by the Annual Testing Program will result in valid test scores for North Carolina-developed tests:

- *Multiple Testing Sessions*
- *Scheduled Extended Time*
- *Student Reads Test Aloud to Self*
- *Test Read Aloud (in English)* (Use of this accommodation during the administration of a state test that measures reading comprehension invalidates the results of the test.)
- *Testing in a Separate Room*
- *Word-to-Word Bilingual (English/Native Language) Dictionary*

Students with Disabilities Also Identified as English Learners

Students with disabilities who are also identified as ELs are eligible for the same state-approved testing accommodations as students with disabilities; however, EL students are also approved for EL specific accommodations outlined in SBE policy [TEST-011](#). Most EL testing accommodations overlap with those approved for students with disabilities except for the *Word-to-Word Bilingual (English/Native Language) Dictionary* accommodation, which is only permitted for EL students. Testing accommodations related to the English proficiency needs of EL students should also be indicated in their EL Plan.

Additional information regarding the testing of students with disabilities who are also identified as ELs can be found in the [Testing Students with Disabilities Handbook](#).

Correct Documentation of EL Accommodations

To maintain consistent terms across student plans, schools must ensure the language used in testing accommodations documentation (i.e., EL Plans) aligns with the state-approved language. For example, students who require breaks during a test administration should have the state-approved term *Multiple Testing Sessions* documented in their EL Plans. The state-approved language must be used to document both the testing accommodations and the guidelines for providing them. Given that some accommodations require details as to how the accommodation must be provided (e.g., the amount of *Scheduled Extended Time*), it is also essential that accommodations documentation includes designated areas to record details about how the accommodation is provided. Additional information pertaining to the correct documentation of accommodations can be found in [Section C](#) of this publication. Refer to [Table 6](#) for a complete list of approved EL testing accommodations.

Accommodations for the National Assessment of Educational Progress (NAEP)

To ensure the integrity of NAEP, every effort must be made to include selected students in the test administrations. The NCDPI recommends EL teams or committees use the accommodation(s) listed in the *District Assessment* section of the respective plans (i.e., IEP, Section 504 Plan, EL Plan) during the administration of NAEP. For more information about NAEP testing, refer to the [North Carolina Test Coordinator's Policies and Procedures Handbook](#).

Approved EL Accommodations Table

Table 6 contains the accommodations approved by the Annual Testing Program for use during North Carolina state tests for students identified as ELs. Approved accommodations for vendor tests may differ from this table, and school test coordinators should consult the test publisher's resources, as necessary.

TABLE 6. Approved accommodations for students identified as ELs

Accommodation	BOG3 Reading Test, EOG Reading Tests (Grades 3–8), and EOC English II	EOG Mathematics Tests (Grades 3–8), EOC NC Math 1, and NC Math 3	EOG Science Tests(Grades 5 and 8) and EOC Biology
<i>Multiple Testing Sessions</i>	Yes	Yes	Yes
<i>Scheduled Extended Time</i>	Yes	Yes	Yes
<i>Student Reads Test Aloud to Self</i>	Yes	Yes	Yes
<i>Test Read Aloud (in English)</i>	No	Yes	Yes
<i>Testing in a Separate Room</i>	Yes	Yes	Yes
<i>Word-to-Word Bilingual (English/Native Language) Dictionary</i>	Yes ³	Yes ³	Yes ³

Guiding Principles for Accommodations

The following “guiding principles” for determining if accommodations are appropriate for a student are adapted from a document published by the Council for Exceptional Children, [Making assessment accommodations: A toolkit for educators](#) (pp. 22–24).

- a. **“Do not assume that all ELs need testing accommodations, and if it is determined accommodations are needed, base them on student need.”**

Whether a student receives testing accommodations and what those accommodations should be based on the individual needs of the student.

³ Students identified as ELs and scoring below 5.0 Bridging on the most recent administration of the reading domain of the WIDA Screener, WIDA Screener for Kindergarten, WIDA ACCESS for Kindergarten, or WIDA ACCESS are eligible to receive this state-approved EL testing accommodation.

Decisions must not be based on a category of disability or an educational placement.

- b. **“Be respectful of the student’s cultural and ethnic background.”** When a testing accommodation is being discussed, make sure the student and the student’s family are comfortable with it. Additionally, the student’s ability to access the test from a language perspective must be taken into consideration when making testing decisions.
- c. **“Integrate test accommodations into classroom instruction.”** Decisions regarding testing accommodations must be based on those accommodations the student requires to access instruction and similar classroom tests. The instructional accommodation decision comes before the testing accommodation decision. Students may not use an accommodation on state tests that they have not used routinely in the classroom.
- d. **“Know which accommodations are approved for each test.”** Refer to [Table 6](#) of this publication for a list of approved testing accommodations that are specific to each test.
- e. **“Plan early for accommodations.”** The need for accommodations should be evident during classroom instruction. The discussion concerning accommodations should take place well before the administration of any assessments for which they are needed.
- f. **“Include the student in decision-making.”** Whenever possible, the student should be included in deciding whether a testing accommodation is appropriate. A student can often express whether there is a need for an accommodation and a willingness to use it. It is likely that a student who is uncomfortable with an accommodation may be reluctant to use it.
- g. **“Understand the purpose of the test.”** It is important to know which construct is being tested so the chosen accommodations yield valid results. For instance, use of the *Test Read Aloud (in English)* accommodation is a valid option for the North Carolina EOG Mathematics Test, but it would invalidate the results for the North Carolina EOG Reading Test because the reading tests measure comprehension.
- h. **“Request only those accommodations that are truly needed.”** The decision regarding testing accommodations must be based on the individual needs of the student. If the student does not need an accommodation to access the test, use of it may overwhelm or distract the student. For instance, if a student is provided the *Test Read Aloud (in English)* accommodation, but does not need it to access the test, the distraction of someone reading the test aloud may outweigh any benefits.

- i. **“Determine if the selected accommodation requires another accommodation.”** There are some accommodations that require the student to also receive additional accommodation(s) to ensure correct implementation during testing. For example, a student receiving *Student Reads Test Aloud to Self* also requires one-on-one testing because the student cannot read the test aloud in a standard testing environment.
- j. **“Provide practice opportunities for the student.”** All students should have opportunities to practice sample questions in the same format that they will experience on the test. Practice opportunities may demonstrate that a specific testing accommodation is unnecessary for a student.

D. School Planning Considerations

The following information is provided as guidance for implementation of accommodations at the school level. This section also provides information about accommodations approved for use on state-mandated tests. When accommodations are provided in accordance with the procedures in this section, along with a standardized test administration, results from the tests are valid.

Role of the EL Team or Committee

To ensure appropriate testing decisions are made for students identified as ELs, decisions should be made by the school's EL team or committee and not by an individual teacher.

Accommodations must be assigned according to the individual student's needs and EL team's or committee's input. The EL team or committee should consider the following specific student characteristics when determining accommodations:

- the student's current level of English proficiency,
- the level of previous schooling in the student's home language, and
- the amount of schooling and instruction the student has received in US schools.

Testing decisions for the use of accommodations must be made on a case-by-case basis for the individual student and for the specific test. Addressing each student and each state test at a time enables the EL team or committee to focus on the individual student's needs for each test. Teams or committees determining appropriate accommodations for individual students are expected to select only those accommodations that do not invalidate the test score. Accommodations that alter the construct of the test, interfere with the measurement of the construct, or provide inappropriate assistance to the student within the context of the test invalidate the results of the test. Provision of accommodations for North Carolina tests that are not specified in this publication may invalidate the results of a given test. Provision of accommodations on vendor tests that are not specified by the vendor may invalidate the results of the test.

Parents or legal guardians should be informed and understand which accommodations the student will receive during testing before leaving the IEP, Section 504 Plan, or EL Plan meeting. If parents or legal guardians cannot attend the meeting, written notification of testing accommodations must be provided.

The testing staff must refer to the [North Carolina State Specific Guidance for WIDA Assessments](#) for annual testing information regarding specific policy and guidance on

the state-approved test administration procedures and accommodations for all WIDA assessments.

Documentation of Accommodations Provided

After completion of the test administration, test administrators or other designated school personnel must complete the Accommodations tab in NCTest Admin. The school test coordinator should be contacted if questions arise while entering this information.

PreACT, The ACT, and ACT WorkKeys

School test coordinators can find additional accommodation information for the PreACT, The ACT, and ACT WorkKeys on the North Carolina ACT-hosted website.

NAEP Accommodation Procedures

The EL team or committee should contact the school test coordinator for a copy of the list of approved accommodations designated by NAEP to ensure that the accommodations listed in the district assessment portion of the EL plan are allowable for use during NAEP test administrations.

If the EL team or committee determines, after consulting with the school test coordinator, that a student cannot access NAEP, the student may be excluded from participating in the administration. Before excluding a student based on an accommodation need, the school test coordinator is to send an email to the North Carolina NAEP State Coordinator, Andrea Faulkner, at Andrea.Faulkner@dpi.nc.gov. The email should include the school's name, the school test coordinator's contact information, and a summary of the student's accommodation needs. Confidential student-identifying information should not be included in the email. The NAEP State Coordinator will review the information included in the email and respond with a follow-up email or phone call to discuss the student's accommodation needs.

The NCDPI is committed to including as many students as possible in NAEP testing. The NAEP results for North Carolina should represent the entire student population. The EL team or committee should consider ways to offer accommodations for EL students to enable participation in NAEP, and every effort should be made to identify accommodations that will facilitate students' participation. NAEP publicly reports results at the state level, but school and individual student reports are never shared publicly.

Changes to Testing Accommodations before Testing

Instructional accommodations can and should be used or changed as appropriate to meet the needs of the student; however, it is best practice for a student to have at least

thirty school days before a test date to use the accommodation. This helps ensure the student has experience using the accommodation during instruction and similar classroom tests before testing. The use of testing accommodations that have not been used routinely during instruction or similar classroom tests may result in a misadministration and invalidate test scores.

Notifying Students about Testing Accommodations

When a state test is administered with accommodations, students must be provided with the following information on an individual basis before the test date:

- identity of the test administrator and proctor (if utilized) (It is best practice that the students know and have worked with the test administrator before the test administration.),
- test date, time for the test administration, room location, and
- testing accommodation(s) that will be provided, and the way they will be provided.

Notifying students before the test administration date about the accommodations they will receive lets them know what to expect on the day of the test. For example, if a student will receive the *Test Read Aloud (in English)* accommodation during the administration of a mathematics test, the EL team or committee may have agreed and documented that the test administrator is only to read aloud upon the student's request. Alternately, it may be specified that the test administrator is to read all words aloud to the student. Knowing such details beforehand assists the student in preparing for the test administration.

Additionally, notifying students ahead of time also gives school personnel the opportunity to address students' concerns before the test administration date. For example, when a student is notified about the accommodation before the test date, the student may state that he or she does not want to use the accommodation documented in the EL Plan. Knowing this information before the day of the test allows the school time to work with the student, parent or legal guardian, and the EL team or committee to resolve the issue before the day of the test.

Procedures to Follow When a Student Declines the Use of a Testing Accommodation

Accommodations documented on the EL Plan on the day of testing are expected to be provided during the test administration regardless of whether a student wants to use them. As noted in the previous subsection, before the test administration date, the student should be notified of the accommodation(s) that will be provided during the test administration. Documentation of notification should be maintained at the school. The

student should also be reminded of the accommodation(s) on the day of testing before the test administration.

However, a student may decline the use of an accommodation during a testing session by refusing it. For example, a student who has the *Testing in a Separate Room* accommodation, but refuses to go to the separate setting, is declining a documented accommodation.

The exception to this policy applies to a student who has a documented extended time accommodation but completes the test within the standard testing time. In this case, the student is not declining the accommodation; rather, does not need to use it.

Steps 1–5 outline the process schools must follow when a student declines the use of documented accommodations on the day of the test.

Step 1. It is the school's responsibility to ensure all documented accommodations are provided to the student. If the student declines the use of an accommodation on test day, the decision is then discussed thoroughly with the student to ensure the student understands the reasons for the accommodation and the potential consequences of not using it. The student should also be informed that their parent or legal guardian will be notified of the refusal and given the option to request a retest. This step can be facilitated by the test administrator, principal, or principal's designee. If the student agrees to use the accommodation(s), the testing session continues.

Step 2. If the student continues to decline the use of the accommodation(s), the refusal must be reported immediately to the school test coordinator to allow for any necessary changes. The refusal should be documented on the [Review of Accommodations Used During Testing Form](#) indicating the student refused the accommodation(s). The school test coordinator will notify the EL staff member who oversees the student's EL Plan and the PSU test coordinator after testing has concluded.

Step 3. Immediately upon completion of testing, the parent or legal guardian is notified by telephone, with a follow-up in writing, that the accommodation was provided at the start of the test administration, but the student declined the use of the accommodation. Telephone and written follow-ups are to be completed by the EL staff member who manages the student's EL Plan. Also, the school test coordinator must submit a report of testing irregularity in the [Online Testing Irregularity Submission System](#) (OTISS).

Step 4. If the parent or legal guardian wishes to have the student retested, then this must be documented in writing with the parent's or legal guardian's signature. It is best practice not to share the first test score with the student, parent(s), or legal guardian(s)

until the decision to retest is final. When a retest occurs, the second test score must stand for accountability purposes.

Step 5. After testing is complete, the EL team or committee should reconvene to address the recommendations for accommodation(s) and the student's concerns. The student should be encouraged to attend the meeting so that concerns, implications, and decisions about future testing accommodations can be discussed with the student before the next testing window. The *Review of Accommodations Used During Testing Forms* completed during previous test administrations should be reviewed at this meeting to inform testing accommodations decisions.

Procedures to Follow When Required Testing Accommodations Were Not Provided as Documented

If a student is not provided a required testing accommodation during a test administration, the result may be a misadministration. When this occurs, the school must:

1. notify the parent or legal guardian immediately and
2. complete a report of testing irregularity in the OTISS.
3. If the parent or legal guardian signs a statement waiving the right to have the student retested with the required accommodation, the test results from the administration without the accommodation will be used for state and local accountability purposes and for student performance placement. A *Sample Testing Irregularity Parent or Legal Guardian Notification Form* can be found in the *North Carolina Test Coordinator's Policies and Procedures Handbook*.
4. If the parent or legal guardian signs a statement indicating that the student must be retested with the required accommodation, the PSU superintendent or school director declares a misadministration, and the affected student is retested with the required accommodation. It is best practice not to share the first test score with the student, parent(s), or legal guardian(s) until the decision to retest is final. When a retest occurs, the second test score must stand for accountability purposes.

Procedures to Follow When Testing Accommodations Are Provided That Are Not Required

If a student is provided a testing accommodation that is not required as indicated on the student's EL Plan, the result may be a misadministration. When a student is provided with a testing accommodation that is not required, the school test coordinator must:

1. notify the parent or legal guardian immediately,

2. conduct an investigation to determine if the provision of the accommodation results in a misadministration,
3. complete a Report of Testing Irregularity in the OTISS,
4. if appropriate, declare a misadministration by the PSU superintendent or school director if necessary, and
5. if appropriate, administer another secure form of the test to the affected student without the provision of the accommodation. If, after the investigation a misadministration is not declared, the test results from the administration with the undocumented accommodation will be used for state and local accountability purposes and for student performance placement.

Valid and Invalid Test Scores

All valid test scores remain in the student's permanent record and are used for accountability purposes. Invalid test scores must not be included in the student's permanent record and are not used for accountability purposes.

E. Accessibility Framework

The *North Carolina Accessibility Framework* consists of three tiers of testing supports that are either embedded in the testing platform or locally determined provisions. Consistent with IDEA and ESSA, these supports are designed to address construct-irrelevant barriers for students. Accessibility supports enable students to participate meaningfully in assessments and to demonstrate their knowledge and skills accurately, while preserving the validity of score interpretations, maintaining rigorous academic standards, and ensuring that the intended construct of the assessment is not changed.

Tier 1: Universal Design Features

- Universal design features are available to all students and are designed to promote access by minimizing factors unrelated to knowledge and skills measured.

Tier 2: Designated Features

- Designated features are available to students for whom the need has been identified by an educator, or a team of educators, based on the student's documented classroom use and individual learning needs. Designated features enable students to demonstrate their knowledge and skills accurately by addressing factors unrelated to the purpose of the assessment, without altering the intended construct, academic expectations, or validity of score interpretations. They do not require formal documentation in an IEP, Section 504 Plan, or EL plan.

Tier 3: Accommodations

- Accommodations are only available to students with appropriate documentation in an IEP, Section 504 Plan, EL Plan, or transitory impairment plan.

Tier 1: Universal Design Features

TABLE 7. Tier 1 Universal design features and descriptions

Tier 1: Universal Design Feature	Description
Digital Notepad	Electronically embedded scratch paper students can use during online testing to make notes.
Electronic Pen	An embedded writing tool students can use to make notes or mark in the online test.
Expandable Selections (all platforms except iPad)	A divider bar in the middle of the device screen that can be adjusted to show more of a selection or a question.
Flag for Review	An embedded tool that allows students to flag questions for review.
Graph Paper (mathematics tests)	The student uses graph paper to make notes.
Highlighters or Colored Pencils	Physical highlighters or colored pencils can be used by students to mark text, questions, or response options.
Highlighter Tool	An embedded tool that students can use while testing online to highlight text, questions or response options. (Students may not use a physical highlighter or marker on the device screen for any reason during testing.)
Keyboard Navigation	Students can navigate the test using the keyboard arrow keys as well as turn embedded features on and off.
Online Calculator	An embedded Desmos calculator students can use to answer calculator-permissible test questions.
Read Aloud Test Directions (in English)	- Test administrators are permitted to read test directions aloud to students as many times as necessary. - Test administrators must not omit, revise, interpret, explain, or paraphrase the test directions.

TABLE 7. Tier 1 Universal design features and descriptions (continued)

Tier 1: Universal Design Feature	Description
Scratch Paper	Blank paper students can use during testing.
Strike-Through Tool	An embedded online tool that allow students to mark an X on the device screen.

Tier 2: Designated Features

Considerations and Instructions for Designated Features

Educators must use caution when determining the use of designated features, as the use of one or more than one may overwhelm or distract students. Educators should also consider the needs of the entire class or small group to ensure that designated features used by one student will not interfere with the testing experience of any other student in the room. As noted in each test administration guide, all designated features must be provided at the beginning of testing.

If students have an IEP, Section 504 Plan, EL Plan, or transitory impairment document, it is best practice to document all designated features in the student's current plan before test day. If students do not have documentation in an IEP, Section 504 Plan, EL Plan, or transitory impairment documentation due to time constraints, this should not prevent students from receiving access to designated features.

- To appropriately document designated features in an IEP or Section 504 Plan, select "Custom Accommodation", then specify the reason for the designated features. For students with an IEP, when the *Review of Accommodations Used During Testing Form* is printed, the information included in the "Custom Accommodation" box will print after the words: "Special NCDPI-Approved Accommodation(s) Specify".

TABLE 8. Tier 2 Designated features and descriptions

Tier 2: Designated Feature	Description
Adapted Pencil	• A writing utensil that may be larger in diameter or may have a modified special grip.
Adaptive Seating	• May include round tables, standing desks, stability or yoga balls, working on the floor with a clipboard, sitting on a couch, or sitting on a floor mat at a table. • Must be positioned in such a way that no student is able to see another student's test documents. • All rooms with adaptive seating designated for testing (including those to which students may be relocated) must be approved by the RAC before testing can occur.
Alternate Background Color and Color Contrast	• An embedded online tool that changes background color to provide color contrast on the device screen. • The required Online Assessment Tutorial is used to determine a student's preferred alternate background color. • Options for color contrast include a background of white, yellow, green, gray, or cream with black font, or a black background with white font. • This tool must be preselected in the student interface questions (SIQ) in NCTest in order for it to be available at the time of testing.
Color Acetate Overlays	• A color acetate overlay can change background color to provide the student with higher contrast or glare reduction. • A color acetate overlay can be placed on the device screen.

TABLE 8. Tier 2 Designated features and descriptions (continued)

Tier 2: Designated Feature	Description
Large Font	• Large font is available online for students who need a font size beyond the standard, 12-point Verdana. • To ensure the student has access to large font on the test, it must be selected in the student's SIQ before test day. • The largest online font available is 18-point Verdana. • The screen may be enlarged for some devices by selecting ctrl, shift, and +. To enlarge information on iPads, pinch and zoom in or out.
Noise-Cancelling Headphones and Ear Plugs	• Headphones and ear plugs reduce unwanted ambient and low frequency sounds. • Headphones must not be connected to any other device beyond the one used for testing either wirelessly (e.g., Bluetooth) or through a wired connection.
Preferential Seating in the Classroom	• Preferential seating in the classroom may be used for students during standardized test administrations, not in a separate setting. • All preferential seating must be positioned in such a way that no student is able to see another student's test documents.
Reading Tracker	• Reading trackers must be blank, empty space on both sides.

TABLE 8. Tier 2 Designated features and descriptions (continued)

Tier 2: Designated Feature	Description
Redirection	• Test administrators may use proximal cues used routinely in classroom instruction, such as a light tap or gesture, to help maintain student engagement or redirect a student's attention to the test. • Test administrators must be sure that redirection is provided in a consistent manner and not used in such a way to reflect whether a student has provided correct or incorrect responses to test questions.
Test Read Aloud (in English)	• This only applies to online mathematics and science tests. If this is provided for any test measuring reading comprehension, the test results are deemed invalid. • Students can control which portions of the online test are read aloud by clicking a button beside the desired text. • The online audio files are computer-generated modulation and not human vocalizations.

Tier 3: Accommodations

Accommodations are available for students with a current IEP, Section 504 Plan, or EL students who have scored below 5.0 Bridging on the most recent administration of the reading domain of the WIDA Screener or the WIDA ACCESS test.

Specific information about approved accommodations for use on state-mandated tests for ELs can be found in [Section F](#) of this publication. This publication is also available on the [Testing Students Identified as English Learners](#) website.

<u><i>Word-to-Word Bilingual (English/Native Language) Dictionary</i></u>

Accessibility Framework Decision-Making Support

The Council of Chief State School Officers (CCSSO) developed the following *Five-step Decision-making Process for Administering Accessibility Supports* to assist in making instructional and testing decisions for students with and without a documented disability. Educators are encouraged to use this process to determine which accessibility supports, if any, are needed by students to maximize benefits from instructional and test scenarios.

Lazarus, S., Goldstone, L., Wheeler, T., Paul, J., Prestridge, S., Sharp, T., Hochstetter, A., and Warren, S. (2021). CCSSO Accessibility Manual: How to Select, Administer, and Evaluate Use of Accessibility Supports for Instruction and Assessment of All Students. The Council of Chief State School Officers (CCSSO).

F. Accommodations Options

Multiple Testing Sessions

Description

The *Multiple Testing Sessions* accommodation allows the total test administration time to be divided into shorter sessions, as determined by the individual needs of the student.

Considerations and Instructions

Scheduling for only one test administration. For students who are required to take only one test (e.g., EOC Biology) during a designated testing window, the multiple testing sessions must begin on the same day as the standard test administration but may continue beyond the school's schedule for the standard test administration if the EL Plan designates the sessions are to stretch across multiple days.

Scheduling for more than one test administration. For students who are required to take more than one test (e.g., EOG reading and EOG mathematics) during a designated testing window, the multiple testing sessions for the first test must begin on the same day as the standard test administration but may continue beyond that day if the EL Plan designates the sessions are to stretch across multiple days. If the student requires additional days to finish the first test, the student can continue to work on consecutive school days until the test is completed. For example, if the student begins mathematics on day one and needs additional days to complete the test, the student can continue working on the mathematics test on day two. If the student completes the mathematics test on day two, the student can begin the reading test on day three even if it is not the first day of the standard administration of the reading test.

Every effort must be made to complete the test administration as closely to the school's standard test schedule as possible to maintain test security. Additionally, students must be allowed to eat lunch during the school day and travel home at their regularly scheduled time.

Specific procedures during the test administration and the role of the EL team or committee. There are several ways the *Multiple Testing Sessions* accommodation may be provided. For example, it may be appropriate for the student:

- to begin the test on the same day as the standard administration and complete the test on a subsequent school day(s).

- to begin the test on the same day as the standard administration and complete the test on a makeup day.
- to test for a specified time (e.g., fifteen minutes), take a break (e.g., five minutes), and then test again for a specified time, etc.
- to complete a predetermined number of test questions (e.g., ten questions), take a break (e.g., three minutes), and then complete the next predetermined set of test questions, etc.
- to use the *Testing in a Separate Room* accommodation so as not to disturb other students.

Information from the student's EL Plan regarding specific procedures for the provision of the *Multiple Testing Sessions* accommodation must be available for the test administrator on the day of testing.

When reading the instructions for the standard test administration from the test administration guide to a student with multiple testing sessions, the test administrator should replace the standard timing information in the test administration script with the timing information documented in the EL Plan.

If it is anticipated that the student may require additional time beyond the total time designated in the test administration guide when receiving multiple test sessions, the EL team or committee should consider the provision of the *Scheduled Extended Time* accommodation. If the student is not provided the *Scheduled Extended Time* accommodation, the student is expected to complete the test within the maximum test administration time designated in the test administration guide.

Students with the *Multiple Testing Sessions* accommodation whose testing breaks differ from those designated in the test administration guide must also be provided the *Testing in a Separate Room* (one-on-one or small group if all students in the room have the same work and break schedule) accommodation.

Maintaining Test Security during Breaks

In cases in which a student takes an extended break from testing on the same day, (e.g., lunch or five-minute breaks between scheduled mini sessions) and does not have the opportunity to communicate with others or to access any electronic devices (e.g., computers, cell phones), the student may go back to previously attempted questions following the breaks.

Exception: When taking a mathematics test, students may not go back to calculator inactive questions if they have received a calculator and are working on the calculator

active questions at the time of the break or lunch. Students may only check questions that were already completed in the calculator active portion of the test.

If a student has the opportunity to communicate with others or to access any electronic devices during breaks on the same day or continues the test on a subsequent day, the student cannot go back to previously attempted questions following the breaks.

More frequent breaks. If a student receives the *Multiple Testing Sessions* accommodation, he or she may require more frequent breaks than the standard work and break times. The test administrator should replace the standard timing information in the test administration script with the timing information documented in the student's EL Plan.

Extended breaks. When the student takes an extended break, the test administrator should instruct the student to click the **Pause** button to prevent others from seeing the test questions on the screen and to ensure test materials remain secure. The **Pause** button pauses the test for sixty minutes. If the student is taking a break for longer than sixty minutes, the test administrator should follow the directions for testing over multiple days.

For extended breaks, the test administrator must do the following:

- Alert students when they have five minutes remaining before the break.
- Inform students of this policy and instruct students that they should not discuss specific test questions or information contained in the test with others after they leave the room for breaks or lunch.
- **Online administrations.** While the testing platform will not lock down test questions the student completed the previous day, and there is a possibility that a student could return to previous information, the test administrator should attempt to ensure this does not occur. It is best practice for the test administrator to record the question number where the student stopped to ensure the test begins at the correct starting point during the next test session and that the student does not return to questions that were accessed before the break.
- **Paper administrations.** Attach a paper clip to students' test books so they cannot return to previously attempted questions. Pages that contain reading or science selections students will need access to must not be held together with paper clips; therefore, students must complete the reading or science selection they are working on and the selection's questions before taking the break or going to lunch.

Testing over multiple days. If the student has completed testing for the day (or is taking a break that is longer than sixty minutes), the test administrator must close

NCTest by clicking the **Save and Exit** button on the review or pause page. The exit logout screen will pop up for the test administrator to enter his or her username and password to exit the test without completing it. The student's responses to test questions will be saved.

When the student returns to testing, the test administrator must log back in to NCTest and click the **Start** button so the student can continue testing from his or her previous stopping point. Clicking the **Start** button will launch the test again to allow the student to continue working. The test administrator should ensure the test begins at the point the student stopped on the previous day.

Once the student finishes testing, the **End Test** button must be clicked, and the test will be finalized at 7:00 p.m.

Collecting, Storing, and Processing Test Materials

The test administrator must follow regular procedures for processing test materials unless the *Multiple Testing Sessions* accommodation is used in conjunction with another accommodation that requires special storage and processing.

Questions for the EL Team or Committee

The EL team or committee is encouraged to consider the following questions when determining whether the *Multiple Testing Sessions* accommodation is appropriate for the student:

1. Does the student typically require extra time over several days to complete classroom assignments and similar classroom tests?
2. What is the standard test time and break time for each test? Is the student able to access the test with standard time and scripted breaks?
3. In addition to taking more frequent breaks or having the test given over multiple days, does the student need additional time to complete the test? If so, the EL team or committee should discuss whether *Scheduled Extended Time* should also be documented as an appropriate accommodation.
4. Can the student finish the test within the given time constraints with either more frequent breaks or over multiple days? If so, *Scheduled Extended Time* should not be documented as an appropriate accommodation.
5. Does the student routinely use the *Multiple Testing Sessions* accommodation during classroom instruction and similar classroom tests?

6. Is the student using another accommodation during the administration of the state test that may require the provision of the *Multiple Testing Sessions* accommodation?
7. Should the student be provided with the *Testing in a Separate Room* accommodation?
8. Has the team or committee considered how the *Multiple Testing Sessions* accommodation will be provided to the student during the administration of the state test?

Scheduled Extended Time

Description

The *Scheduled Extended Time* accommodation allows the test to be finished during a specific extended period of time.

Considerations and Instructions

Role of the EL team or committee. *Scheduled Extended Time* may be an appropriate testing accommodation if the EL team or committee determines that, because of the student's level of language proficiency, the student will need additional time to complete the test beyond the time designated in the test administration guide. The EL team or committee determines how this accommodation will be provided and documents the specifics in the EL Plan before the test administration.

Scheduling. Test administration guides for state tests specify (1) an estimated test administration time and (2) the maximum testing time allowed. The EL team or committee are expected to reference these guides to determine the amount of additional time a student will be provided after the maximum amount of standard testing time has expired. This may be in terms of a multiple of the designated administration time (e.g., 1.5 times the designated administration time) or as a specified amount of time (e.g., one hour beyond the designated administration time). The EL team or committee must review the local policy and document the final decision. Test administrators will be expected to stop the student from testing, even if the student has not answered all of the test questions, when the amount of extended time documented in the EL Plan has been met. Students provided the *Scheduled Extended Time* accommodation without the additional accommodation of *Multiple Testing Sessions* are expected to complete the test in one day.

Students who are provided the *Scheduled Extended Time* accommodation may not begin the test administration sooner than the school's scheduled start for the standard test administration.

Schools are encouraged to start testing as early in the day as possible so that extended time accommodation requirements can be met. When the testing session is extended for accommodation purposes, it must immediately follow the testing session on the scheduled testing day.

Procedures during the test administration. When reading the test instructions to students, the test administrator should omit any information regarding time limits. All other standard testing instructions located in the guide must be followed.

Maintaining Test Security during Breaks

Students with the *Scheduled Extended Time* accommodation should receive breaks as designated in the test administration guide. Students must be allowed to eat lunch during the school day and travel home at their regularly scheduled time. If a student is still testing at the regularly scheduled lunchtime, arrangements must be made to ensure the student has the opportunity to eat lunch.

If the student does not have the opportunity to communicate with others or to access any electronic devices during lunch, the student can go back to previously attempted questions following the break. Exception: For all North Carolina mathematics tests, students may not go back to work on calculator inactive questions if they have received their calculator and were working on the calculator active questions at the time of the break or lunch. Students may only check questions that were already completed in the calculator active portion of the test.

If a student has the opportunity to communicate with others or to access any electronic devices during lunch, then the student cannot go back to previously attempted questions following the break.

For extended breaks, the test administrator must do the following:

- Alert students when they have five minutes remaining before the break.
- Inform students of this policy and instruct students that they should not discuss specific test questions or information contained in the test with others after they leave the room for breaks or lunch.
- **Online administrations.** While the testing platform will not lock down test questions the student completed the previous day, and there is a possibility that a student could return to previous information, the test administrator should attempt to ensure this does not occur. It is best practice for the test administrator to record the question number where the student stopped to ensure the test begins at the correct starting point during the next test session and that the student does not return to questions that were accessed before the break.
- **Paper administrations.** Attach a paper clip to students' test books so they cannot return to previously attempted questions. Pages that contain reading or science selections students will need access to must not be held together with paper clips; therefore, students must complete the reading or science selection they are working on and the selection's questions before taking the break or going to lunch.

Collecting, Storing, and Processing Test Materials

The test administrator must follow standard procedures for processing the test materials unless the *Scheduled Extended Time* accommodation is used in conjunction with another accommodation that requires special storage and processing.

Questions for the EL Team or Committee

The EL team or committee is encouraged to consider the following questions when determining whether the *Scheduled Extended Time* accommodation is appropriate for the student:

1. Does the student routinely use the *Scheduled Extended Time* accommodation during classroom instruction and similar classroom tests?
2. Is the student provided another accommodation during the administration of the state test (e.g., *Multiple Testing Sessions*) that may require the provision of the *Scheduled Extended Time* accommodation?
3. Can the student complete the test with extended time in one day? If not, the *Multiple Testing Sessions* accommodation should be considered.
4. Should the student be provided with the *Testing in a Separate Room* accommodation?
5. Has the team or committee considered how the *Scheduled Extended Time* accommodation will be provided to the student during the administration of the state test?

Student Reads Test Aloud to Self

The *Student Reads Test Aloud to Self* accommodation is recommended for students who, because of their level of language proficiency, need to read online tests, printed tests, and classroom materials aloud to themselves.

Description

The *Student Reads Test Aloud to Self* accommodation permits the student to read the test aloud during the test administration.

Considerations and Instructions

To ensure the validity of the test, students provided the *Student Reads Test Aloud to Self* accommodation must also be provided the *Testing in a Separate Room* (one-on-one) accommodation. No other students may be present in the room during the test administration.

The *Student Reads Test Aloud to Self* accommodation also applies to students who routinely use a device that allows them to hear themselves read, such as a PVC elbow pipe or other device that directs the sound toward the students' ears. Students may use these accompanying accommodations when they are documented in the EL Plan.

If the *Student Reads Test Aloud to Self* accommodation is provided, a test administrator or proctor (if utilized) may not (1) correct the student who is reading aloud or (2) read all or any part of the test to the student, unless the student also has the *Test Read Aloud (in English)* accommodation. If the test administrator (or a proctor) corrects or reads all or any part of a test that measures reading comprehension to the student, the test results are invalid. The following North Carolina tests measure reading comprehension:

- Beginning-of-Grade 3 (BOG3) Reading Test
- Read to Achieve (RtA) Test
- North Carolina EOG Reading Tests (Grades 3–8)
- North Carolina EOC English II Test

Collecting, Storing, and Processing Test Materials

The test administrator must follow the standard procedures for processing the test materials unless the *Student Reads Test Aloud to Self* accommodation is used in conjunction with another accommodation that requires special storage and processing.

Questions for the EL Team or Committee

The EL team or committee is encouraged to consider the following questions when determining if the *Student Reads Test Aloud to Self* accommodation is appropriate for the student:

1. Does the student routinely use the *Student Reads Test Aloud to Self* accommodation during classroom instruction and similar classroom tests?
2. If this accommodation is provided, will the student also need a device (e.g., PVC elbow pipe) that will direct the sound toward the student's ear?
3. Has the *Testing in a Separate Room* accommodation been considered?

Test Read Aloud (in English)

Reading Tests

If the *Test Read Aloud (in English)* accommodation is provided during the administration of North Carolina tests that measure reading comprehension (i.e., selections, sample questions, test questions, or answer choices are read aloud to the student), the test results are invalid. The following North Carolina tests measure reading comprehension:

- BOG3 Reading Test
- RtA Test
- North Carolina EOG Reading Tests (Grades 3–8)
- North Carolina EOC English II Test

Before deciding to use accommodations that will invalidate test results, EL teams or committees should refer to the [Valid and Invalid Test Scores](#) subheading in this publication for information regarding invalid test results for North Carolina tests.

Description

The *Test Read Aloud (in English)* accommodation permits the test to be read aloud to a student during the administration of state tests that do not measure reading comprehension.

Considerations and Instructions

Procedures during the test administration and the role of the EL team or committee. The EL team or committee determines if a student needs a test read aloud, and if so, how it will be read aloud. These decisions must be documented in the student's EL Plan.

There are three methods in which a student may have a test read aloud:

1. the test administrator reads the test aloud,
2. a device reads the test aloud, or
3. a combination of the two methods.

The EL team or committee may wish to consider the following options when making decisions about the specific way tests will be read aloud to the student when using the *Test Read Aloud (in English)* accommodation:

- The student has everything (e.g., words on maps, tables, graphs, charts, device screen) read aloud during the test administration.

- The student only has words read aloud upon the student's request.
- The student does not require numbers in mathematics tests to be read aloud.
- The student only requires this accommodation when there is greater content than usual on a test and does not need the accommodation for tests with less content or shorter sentences.

Test Read Aloud (in English) for online testing. The EL team or committee is expected to continue documenting the *Test Read Aloud (in English)* accommodation in student plans in the event a student transfers out of state or is required to take a vendor test where the test read aloud accommodation may be needed.

Students provided the *Test Read Aloud (in English)* accommodation for online testing can control which portions of the online test are read aloud by clicking a button beside the desired text. The device will mostly read aloud what a human reader typically reads aloud.

The online audio files for the *Test Read Aloud (in English)* accommodation are computer-generated modulation and not human vocalizations. If a student is sensitive to the computer-generated voice, it may be appropriate for the student to have the test administrator read the test aloud.

When using a device to provide the *Test Read Aloud (in English)* accommodation, the *Test Read Aloud (in English)* option must be selected in the SIQ. Selecting *Test Read Aloud (in English)* in the accommodations data management system will automatically turn on the option for the device to read the test aloud in the student's SIQ. If this option is not needed for a student, this functionality can be turned off in the SIQ during the verification process. If *Test Read Aloud (in English)* is selected in the SIQ, the device will generate one of the available *Test Read Aloud (in English)* forms.

Testing in a separate room. If students receiving the *Test Read Aloud (in English)* accommodation are testing online wearing headphones, they may test in a standard test setting. However, to ensure validity of the test, students using a human reader or not wearing headphones must also receive the *Testing in a Separate Room* accommodation. The EL team or committee must determine if the student will take the test in a separate room, in either a one-on-one or small group setting.

For paper test administrations, a testing session comprised of a small group must use one test form for students provided the *Test Read Aloud (in English)* accommodation at one test site (i.e., classroom). The EL team or committee must determine if the student will take the test in a separate room, in either a one-on-one or small group setting.

Guidelines for Test Administrators Reading the Test Aloud

Information from the student's EL Plan regarding specific procedures for the provision of the *Test Read Aloud (in English)* accommodation must be available for the test administrator on the day of testing.

The test administrator must review the standard test administration procedures in the test administration guide before the test administration day and omit general directions not applicable for students provided the *Test Read Aloud (in English)* accommodation.

For online test administrations, the test administrator may either read the instructions and questions to the student from the student's device screen or use an additional computer monitor. If an additional computer monitor is used, it must be set as a duplicate of the student's monitor (not a desktop extension), and the appropriate configuration file must be used.

For paper administrations, the test administrator must have a copy of the test to read the instructions and questions to the student.

When reading the test aloud, the test administrator must adhere to the following guidelines:

- The test administrator may repeat the instructions, sample questions, test questions, and answer choices (for state tests that do not measure reading comprehension) as many times as necessary for the student to understand and respond. At no time may the test administrator paraphrase the test instructions or questions because these actions will result in a misadministration.
- If reading the entire test aloud, the test administrator must read one test question and its corresponding answer choices and then allow the student to choose an answer before moving on to the next question.
- The test administrator must read each test question and its answer choices in a consistent manner so as not to provide any hints of the correct answer.
- If reading a test question on request, the test administrator should say the question number before reading the question and its answer choices.

Frames. When necessary, introductory statements for selections, referred to as frames, are included in test books and online for some tests of reading comprehension. A frame is included to provide background information about the selection. An example of a necessary frame is one that cites a historical time period for the setting of a selection or additional relevant information not included in the selection. In the event the test administrator reads aloud frames to students during the administration of North Carolina

tests that measure reading comprehension, the test results are invalid because the frames provide some information regarding the selection.

North Carolina mathematics tests. The test administrator is to read aloud fractions, greater-than and less-than signs, equal signs, exponents, etc. in the same manner they are read aloud when used routinely during classroom instruction and similar classroom tests. The test administrator must not read aloud information that will provide the student with the answer. For example, a test question asks, “Which digit is in the hundreds place in the number 2,345?” The test administrator would read the number aloud as “two—comma—three—four—five” instead of “two thousand three hundred forty-five.”

Procedures for using a device to read tests aloud. When using a device to provide the *Test Read Aloud (in English)* accommodation, the accommodation must be selected in the SIQ before the online test administration. The accuracy of the SIQ must always be verified using the appropriate documentation before testing.

Before the testing session begins, the test administrator must set the device’s volume to an appropriate level. The volume cannot be modified through the device after the NCTest Secure browser or NCTest Chrome app has been launched. When using an iPad, volume controls are available in the NCTest iPad app.

Procedures during the online test administration. To activate the read aloud option, students must click or touch the green audio button. Audio buttons are located adjacent to every block of text for which there are audio files available. Each audio button activates the computer-generated voice for that block of text.

Scheduling. The *Test Read Aloud (in English)* accommodation, when provided through the online testing platform via iPads, increases the stress on bandwidth and network connectivity at both the school and district level. Significant use of this option may affect the network performance of the school or district.

Collecting, Storing, and Processing Test Materials

The test administrator must follow the standard procedures for processing the test materials unless the *Test Read Aloud (in English)* accommodation is used in conjunction with another accommodation that requires special storage and processing.

Questions for the EL Team or Committee

The EL team or committee is encouraged to consider the following questions when determining whether the *Test Read Aloud (in English)* accommodation is appropriate for

the student, and if so, what method and specific procedures for its provision will be used:

1. Does the student routinely use the *Test Read Aloud (in English)* accommodation during classroom instruction and similar classroom tests?
2. Has the team or committee considered the method (i.e., test administrator reads the test aloud, a device reads the test aloud, or a combination of the two methods) by which the student will be provided this accommodation during the administration of state tests that do not measure reading comprehension?
3. Has the team reviewed the limitations of this accommodation when a device reads the test aloud as described in this publication?
4. For online testing, is the student able to control the mouse to click on the button to activate the read aloud option for a block of text?
5. Does the student routinely have information read aloud by a device during classroom instruction and similar classroom tests?
6. Would the student's functioning reading level affect his or her performance on a state test that does not measure reading comprehension?
7. Has the team or committee considered the specific manner (e.g., everything read aloud, read aloud upon request) in which the student will be provided this accommodation during the administration of the state test?
8. Will the student be comfortable requesting that the test questions are read aloud?
9. If the student will be provided this accommodation, has the *Testing in a Separate Room* accommodation been considered?
10. Is the student agreeable to testing in a separate room?
11. Will the test administration be one-on-one or in a small group?
12. Is the student comfortable wearing headphones? If not, the student must receive the *Testing in a Separate Room* (one-on-one) accommodation so that he or she will not have to wear headphones.
13. Should the student be provided the *Scheduled Extended Time or Multiple Testing Sessions* accommodation?
14. For online testing, does the test administrator require a special setup of an extra computer monitor or another visual device to read the test aloud to the student?
15. If the EL team or committee is considering the provision of the *Test Read Aloud (in English)* accommodation during the administration of a state test that measures reading comprehension, are the student, parent or legal guardian, and committee aware that the test results will not be valid?

Testing in a Separate Room

(One-on-One or Small Group Test Administration)

Some EL students require greater concentration for longer periods of time based on their level of language proficiency, or they may be using other state testing accommodations, and these factors may require testing in a separate setting.

Description

The *Testing in a Separate Room* accommodation allows a student to take a test in a separate room in a one-on-one or small group administration.

Considerations and Instructions

Role of the EL team or committee and providing one-on-one or small group test administrations. Based on the individual needs of the student, the EL team or committee determines how the *Testing in a Separate Room* accommodation will be provided (i.e., one-on-one, small group) and documents the specifics in the EL Plan.

One-on-one setting. If the EL team or committee specifies the test administration should be one-on-one, the student must receive the *Testing in a Separate Room* accommodation on a one-on-one basis as part of the classroom instruction and similar classroom tests.

Small group setting. If the EL team or committee specifies the test administration is to occur in a small group, the EL team or committee must review the local policy for the definition of a small group. The maximum number of students for a small group test administration is determined at the local level but must be documented in the student's current EL Plan. If the EL team or committee has specific concerns regarding the number of students in a particular small group test administration, it should document these concerns in the EL Plan.

The EL team or committee must consider whether other accommodations the student will be provided during testing require the *Testing in a Separate Room* accommodation (e.g., *Test Read Aloud [in English]*, *Multiple Testing Sessions*, *Scheduled Extended Time*). If other accommodations will be provided that require the *Testing in a Separate Room* accommodation, they must be documented in the student's EL Plan.

Environmental considerations. It may be appropriate for the student to use a study carrel, special furniture, or special lighting during the test administration.

Scheduling. Testing will result in a misadministration if certain accommodations (e.g., different break times for *Multiple Testing Sessions*) are provided to a small group, and

all of the students are not receiving the same accommodation(s). When students have different break times, the principal or principal's designee, usually the school test coordinator, will need to locate separate rooms for each different break time designated for students in their EL Plan.

Procedures. If a student(s) is testing in a separate room with no other accommodations, the test must be administered as stated in the test administration guide.

Collecting, Storing, and Processing Test Materials

The test administrator must follow the standard procedures for processing the test materials unless the *Testing in a Separate Room* accommodation is provided in conjunction with another accommodation that requires special storage and processing.

Questions for the EL Team or Committee

The EL team or committee is encouraged to consider the following questions when determining whether the *Testing in a Separate Room* accommodation is appropriate for the student:

1. Does the student typically require a separate room to complete classroom assignments and similar classroom tests?
2. Is the student provided another accommodation during the administration of state tests that may require the provision of the *Testing in a Separate Room* accommodation?
3. Will the student receive this accommodation during the state test administration on an individual basis or in a small group?
4. If the student will be in a small group, has the maximum number of students or a range (e.g., no more than 10 students) for the small group been specified in the EL Plan?
5. Does the student require a study carrel, special furniture, or special lighting?

Word-to-Word Bilingual (English/Native Language) Dictionary

Some ELs use a word-to-word English/native language dictionary during classroom instruction and tests because of their level of language proficiency. Word-to-word bilingual English/native language dictionaries may be provided in a paper or electronic format; however, electronic dictionaries cannot connect to Wi-Fi or provide any other additional capabilities.

The *Word-to-Word Bilingual (English/Native Language) Dictionary* accommodation is available for specific tests. Refer to [Table 6](#) of this publication for a list of the tests permitting the Word-to-Word Bilingual (English/Native Language) Dictionary accommodation.

Use of a *Word-to-Word Bilingual (English/Native Language) Dictionary* is not permitted on the state-mandated WIDA Screener for Kindergarten, WIDA Screener, WIDA Alternate Screener, WIDA ACCESS for Kindergarten, WIDA ACCESS, or WIDA Alternate ACCESS tests.

Description

Word-to-word English/native language dictionaries or may be used to assist ELs in translating an unknown word.

Considerations and Instructions

An English/native language dictionary may be used during state-mandated testing, provided the following requirements have been met:

1. The dictionary is a word-to-word or word-to-phrase English/native language dictionary that does not contain definitions.
2. The dictionary may not contain diagrams, written notes, or formulas.
3. The dictionary must be a published document, not a state-made, teacher-made, or student-made.
4. The dictionary must be checked and approved by designated personnel in the PSU before testing to ensure that requirements 1–3 are met. If a PSU or school test coordinator is unsure of the appropriateness of a dictionary, the question can be submitted to the Annual Testing Program through the RAC for clearance before use in the school or district. Use of a dictionary that is not approved is a testing irregularity and may result in a misadministration.
5. The checked and approved dictionary must be provided to students during the time of state testing.

6. The student has been using the dictionary on a regular basis in his or her classroom.

The Annual Testing Program does not compile a recommended list of word-to-word dictionaries for PSUs.

Students should be able to read and write in their native language if a word-to-word resource will be provided during testing.

This accommodation may be appropriate for students at any level of English reading proficiency, although the student must use the dictionary on a regular basis and been taught how to use it, which requires practice and teacher support.

Schools may not provide an English dictionary to any student during testing. Use of an English dictionary during state-mandated testing results in a misadministration.

G. Accommodations Monitoring

North Carolina's Comprehensive Plan for Monitoring Testing Accommodations

The NCDPI monitors schools for evidence of the implementation and effectiveness of testing accommodations. The monitoring system includes documentation of testing accommodations required, provided, and used. Monitoring ensures required testing accommodations are provided during test administrations and that the school has appropriately documented the use of accommodations during testing.

The Annual Testing Program is responsible for conducting all monitoring activities with assistance and participation from the Office of Exceptional Children and the Office of Teaching and Learning.

For more information about the *North Carolina Annual Testing Program Accommodations Monitoring Plan*, refer to the [Testing Students with Disabilities Handbook](#).

Review of Accommodations Used During Testing Form

In order to meet the accommodations monitoring requirements of the USED, the Annual Testing Program developed the *Review of Accommodations Used During Testing Form*, available in [Appendix A](#) of this publication and found on the [Testing Accommodations](#) website. This form must be completed for each student who requires testing accommodations and with each state test the student requires testing accommodations. *Review of Accommodations Used During Testing Forms* are not required for PreACT, The ACT, or ACT WorkKeys tests; however, the accommodations needed for these tests should be documented on students' individual plans.

For students with an EL Plan, Column 1 on the *Review of Accommodations Used During Testing Form* is to be completed during the EL meeting where a student's testing accommodations are determined. During the test administration, the remainder of the form is completed to document the testing accommodations provided to the student, and to record whether and how the student used the accommodations. A copy of the *Review of Accommodations Used During Testing Form* is to be filed with the student's accommodations documentation for at least one year to assist the EL team or committee during the next meeting at which accommodation decisions will be made.

Tracking Required Testing Accommodations and Planning for Test Administrations

To electronically track and monitor required testing accommodations, schools must enter testing accommodations data into an accommodations management system (e.g., ECATS, NCSIS, or the public school unit-approved third-party application) at the time of the EL team or committee meeting.

The NCDPI will use the submitted data to monitor testing accommodations and provide feedback to the PSUs and schools throughout the school year. In addition, reports available from these systems may be useful to PSU and school test coordinators for local monitoring and for planning and scheduling accommodated testing sessions.

Reports from the accommodations management systems can be used before testing to verify that the proper testing accommodations have been scheduled for each student. This verification will help ensure the accommodations provided during the test administration match what is documented in the student's EL Plan. Once the testing accommodations have been verified, the school test coordinator can use this information to plan small group administrations, if applicable.

Appendix B: *Testing Code of Ethics*

Introduction to the *Testing Code of Ethics*

In North Carolina, standardized testing is an integral part of the educational experience of all students. When properly administered and interpreted, test results provide an independent, uniform source of reliable and valid information, which enables:

- *students* to know the extent to which they have mastered expected knowledge and skills and how they compare to others,
- *parents and legal guardians* to know if their children are acquiring the knowledge and skills needed to succeed in a highly competitive job market,
- *teachers* to know if their students have mastered grade or course-level knowledge and skills in the curriculum, and if not, what weaknesses need to be addressed,
- *community leaders and lawmakers* to know if students in North Carolina schools are improving their performance over time and how the students compare with students from other states or the nation; and
- *citizens* to assess the performance of the public schools.

In order to achieve those objectives, teachers and administrators must conduct testing in a fair and ethical manner, which includes:

Security

- assuring adequate security of the testing materials before, during, and after testing and during scoring
- assuring student confidentiality

Preparation

- teaching the tested curriculum and test-preparation skills
- training staff in appropriate testing practices and procedures
- providing an appropriate atmosphere

Administration

- developing a local policy for the implementation of fair and ethical testing practices and for resolving questions concerning those practices
- assuring all students who should be tested are tested
- utilizing tests which are developmentally appropriate
- utilizing tests only for the purposes for which they were designed

Scoring, Analysis, and Reporting

- interpreting test results to the appropriate audience
- providing adequate data analyses to guide curriculum implementation and improvement

Standardized test scores are only one of the many indicators of how well the student is learning. Test scores should be used in conjunction with all other available information about a student to understand student progress and improve student learning. When administering tests, school administrators and teachers must comply with applicable statutes, rules, and policies. In particular, administrators and teachers must comply with the *Testing Code of Ethics* ([16 N.C. Admin. Code 6D .0311](#)), which is printed on the following pages.

16 NCAC 06D .0311 TESTING CODE OF ETHICS

- a. This Rule shall apply to all public school unit (PSU) employees or agents while they are administering the Annual Testing Program defined in Rule .0307(c) of this Section.
- b. The PSU shall develop local policies and procedures to ensure maximum test security in coordination with the policies and procedures developed by the test publisher.
- c. The PSU shall require all testing coordinators, school test coordinators, test administrators and proctors to be trained as required in Rule .0308 of this Section.
- d. The PSU shall designate the personnel who are authorized to have access to secure test materials. "Access" to test materials by school personnel means handling the materials but does not include reviewing tests or analyzing test items.
 - 1. Persons who have access to secure test materials shall not use those materials for any purpose other than test administration.
 - 2. No person shall copy, reproduce, or paraphrase the test materials without the express written consent of the test publisher.
- e. The principal shall store test materials in a locked facility to which only the principal has access. The principal shall not allow anyone access to the test materials except as necessary for administration.
- f. When PSU personnel discover loss of materials, failure to account for materials, or any evidence of unauthorized access to the materials, they shall report the discovery without delay to the principal, school test coordinator, school system (LEA) test coordinator, or charter school director.
- g. PSUs shall ensure that test coordinators:
 - 1. plan and implement training for school test coordinators, test administrators, and proctors;
 - 2. ensure each school test coordinator and test administrator is trained in accordance with Rule .0308 of this Section; and
 - 3. in conjunction with program administrators, ensure test accommodations to students entitled to testing accommodations as defined in 16 NCAC 06G .0315; are documented and provided.
- h. The principal or the principal's designee shall serve as school test coordinator.
- i. The principal shall ensure the school test coordinator maintains test security and accountability of test materials, including taking the following actions:
 - 1. before each test administration, the school test coordinator shall count and distribute test materials;

2. after each test administration, the school test coordinator shall without delay collect, count, and return all test materials to the locked storage facility;
 3. establishes procedures to assure all students participating in the Annual Testing Program have an equal opportunity to demonstrate their knowledge on the test; and
 4. identifies and trains personnel, proctors, and backup personnel for test administrations.
- j. Teachers may help students improve test-taking skills by:
1. helping students become familiar with test formats using curricular content;
 2. teaching students test-taking strategies and providing practice sessions;
 3. helping students learn ways of preparing to take tests; and
 4. using resource materials such as test questions from test item banks and linking documents in instruction and test preparation.
- k. With respect to test administration, PSUs shall:
1. assure each school establishes procedures to ensure all test administrators comply with test publisher guidelines;
 2. inform the local board of education of any breach of this code of ethics; and
 3. inform test coordinators and principals of their responsibilities.
- l. The school test coordinator shall:
1. assure school personnel know the content of rules in this Section and local testing policies;
 2. implement the school system and local testing policies and procedures to assure all students participating in the Annual Testing Program have an equal opportunity to demonstrate their knowledge on the test;
 3. ensure proctors are trained; and
 4. ensure all violations of rules in this Section and local testing policies are reported to the school system (LEA) test coordinator.
- m. Test administrators shall:
1. administer tests according to the directions in the assessment guide and any subsequent updates developed by the test publisher;
 2. administer tests to all students enrolled in a grade or course that requires a test in the Annual Testing Program;
 3. report all violations of rules in this Section and local testing policies to the school test coordinator; and

- n. Proctors shall serve as additional monitors to help the test administrator assure that students have an equal opportunity to demonstrate their knowledge on the test.
- o. Scoring. The school system test coordinator shall:
 - 1. ensure each test is scored according to the procedures and guidelines defined for the test by the test publisher;
 - 2. maintain quality control during the entire scoring process, which consists of handling and editing documents, scanning answer documents, and producing electronic files and reports. Quality control shall address scoring accuracy and scoring consistency.
 - 3. maintain security of tests and data files at all times, including;
 - a. protecting the confidentiality of students at all times when publicizing test results; and
 - b. maintaining test security of answer keys and item-specific scoring rubrics.
- p. Educators shall use test scores as one piece of information to be interpreted together with other scores and indicators when determining a student's grade. The PSU shall ensure that school personnel analyze and report test data within the limitations described in this Paragraph.
 - 1. Educators shall maintain the confidentiality of individual students. PSU personnel shall not publicize test scores or any written material containing personally identifiable information from the student's educational records except as permitted under the provisions of the Family Educational Rights and Privacy Act of 1974, 20 U.S.C. 1232g and regulations adopted pursuant thereto.
 - 2. Staff development relating to testing must enable school personnel to respond knowledgeably to questions related to testing, including the tests, scores, scoring procedures, and other interpretive materials.
- q. Unethical testing practices include the following practices:
 - 1. encouraging students to be absent the day of testing;
 - 2. encouraging students not to do their best;
 - 3. using secure test items or modified secure test items for instruction;
 - 4. changing student responses at any time;
 - 5. interpreting, explaining, or paraphrasing the test directions or the test items;
 - 6. classifying students for the purpose of avoiding State testing;
 - 7. not testing all students enrolled in a grade or course that requires a test in the Annual Testing Program;

8. failing to provide required accommodations during testing to students entitled to testing accommodations as defined in 16 NCAC 06G .0315;
 9. modifying scoring programs including answer keys, equating files, and lookup tables;
 10. modifying student records for the purpose of raising test scores;
 11. using a single test score to place a student in a grade or a course; and
 12. providing inaccurate test results and interpretations to the public.
- r. In the event of a violation of this Rule, the State Board of Education may impose any one or more of the following sanctions:
1. withhold any monetary incentive awards;
 2. file a civil action against the person or persons responsible for the violation for copyright infringement or for any other available cause of action;
 3. seek criminal prosecution of the person or persons responsible for the violation; and
 4. in accordance with the provisions of 16 NCAC 06C .0312, suspend or revoke the professional license of the person or persons responsible for the violation.
