

NORTH CAROLINA
State Board of Education
Department of Public Instruction

Report to the North Carolina General Assembly

Broaden Successful Participation in
Advanced Courses

*SL 2013-360 (SB 402, Budget Bill), sec.
8.27 (h)*

*SL 2014-15, sec. 12 as amended by 2014-
15, sec. 49.5*

G.S. 115C-174.26

Date Due: December 15, 2021
DPI Chronological Schedule, 2021-2022

STATE BOARD OF EDUCATION

STATE BOARD OF EDUCATION VISION: Every public school student in North Carolina will be empowered to accept academic challenges, prepared to pursue their chosen path after graduating high school, and encouraged to become lifelong learners with the capacity to engage in a globally-collaborative society.

STATE BOARD OF EDUCATION MISSION: The mission of the North Carolina State Board of Education is to use its constitutional authority to guard and maintain the right of a sound, basic education for every child in North Carolina Public Schools.

ERIC DAVIS

Chair: Charlotte – At-Large

JILL CAMNITZ

Greenville – Northeast Region

TODD CHASTEEN

Blowing Rock – Northwest Region

ALAN DUNCAN

Vice Chair: Greensboro – Piedmont-Triad Region

REGINALD KENAN

§ 115C-174.26. ADVANCED COURSES

In response to G.S. 115C-174.26, the North Carolina Department of Public Instruction (NCDPI) initially established the NC Advanced Placement Partnership (NCAPP) in May 2014 with the College Board. The NCAPP continues with its purpose to broaden access and successful participation in advanced coursework in North Carolina's public schools. According to G.S. 115C-174.26, "it is the intent of the State to enhance accessibility and encourage students to enroll in and successfully complete more rigorous advanced courses to enable success in postsecondary education for all students." NCDPI's Division of Advanced Learning and Gifted Education serves as a liaison with AP/IB/CIE organizations, providing monthly updates on critical issues and working with districts to discuss issues of equity and excellence in advanced programming.

The NCAPP continues to respond to the legislation through various efforts. In 2020-21 twenty-one NC school districts participated in the NCAPP as "targeted districts" with focused support and technical assistance. For this 2021-2022 academic year, the same twenty-one districts are participating with the NCAPP as targeted districts, and most have been designated low-performing districts. Currently, there are three full-time staff dedicated from College Board to the NCAPP. NCAPP also provides statewide support through professional development opportunities for all public school districts across the state, both face-to-face and virtual. College Board and the NCDPI are continuing to work together on these various aspects to ensure continued success of the NC AP Partnership.

In addition, the General Assembly continues to appropriate funds for all Advanced Placement (AP), International Baccalaureate Diploma Programme (IB), and Cambridge Assessment International (AICE) exams for public school and charter school students who were enrolled in the corresponding AP/IB/CIE courses. This funding began with AP and IB for the 2014-15 school year, with Cambridge included in this effort beginning the 2016-17 school year.

Alongside NC's public school districts, the NCAPP spearheads NC's progress with AP course enrollment and AP exam participation and performance. Overall across the state, there were decreases this past year, likely due to the lingering impact of COVID-19. However, there was an increase in the number of Hispanic AP exam-takers in North Carolina for the 2020-2021 school year.

Below are some key highlights that are detailed further in the report:

- The pandemic impacted AP scores for almost all demographic subgroups. There was a 9% decrease in performance on 2021 AP exams compared to the 2019-2020 school year. AP performance in NC decreased; however, the declines were less than decreases seen nationally in almost all subgroup areas.
- The number of AP Exam-Takers in North Carolina's public schools decreased 0.3 % from 2020 to 2021, as compared to a 4.4% decrease in AP Exam-Takers in public schools nationwide. In total 70,038 NC public school students took 125,787 AP exams, with 61,819 receiving a proficient score. This represents a 1.1 % decrease of exams taken, and a 16.1 % decrease of exams attaining a 3+ score over last year, compared to a 18.2% national decrease in exams attaining a 3+ score over last year.
- One notable increase: AP participation and performance for Hispanic students in North Carolina's public schools was higher than the participation and performance for Hispanic students seen nationwide. The number of Hispanic AP Exam-Takers in North Carolina's public schools increased 2.8% from 2020-2021, as compared to a 5.4% decrease in Hispanic AP Exam-Takers in public schools nationwide. The number of Hispanic students' exams attaining a 3+ score decreased 22.9% over last year in NC, outperforming the 30% decrease for the same group nationwide.

- Currently in 2021-2022, 72,577 students are taking at least one AP course. These students represent 133,732 AP course enrollments in NC public schools. This represents a decrease of 7.1% of individual students taking at least one AP course compared to last year's enrollment of 78,174 students.

The overall effort to broaden access and successful participation in advanced courses has been a result of diligent work by NC's teachers and districts and the investment by the state of NC. NCDPI will be working with College Board and school districts to further examine the changes in the data to ensure even more intentional strategies to support growth are utilized. With NCAPP's sustained efforts of professional development and technical assistance to support implementation, the State Board of Education (SBE) and NCDPI will continue efforts to increase access and successful participation in Advanced Placement courses across NC.

REPORT REQUIREMENTS

This report responds to the requirements of the legislation enacted in SL 2013-360, Broaden Successful Participation in Advanced Courses. The SBE/NCDPI report fulfills some requests, while others are fulfilled by the companion College Board NCAPP Annual Report.

The following table reviews the report requirements and indicates which report addresses the required information:

The North Carolina Advanced Placement Partnership's report to the NCDPI and the assessment of that report	SBE/NCDPI Report College Board NCAPP Report
Number of students enrolled in advanced courses and participating in advanced course examinations, including demographic information by gender, race, and free and reduced-price lunch status	SBE/NCDPI Report College Board NCAPP Report
Student performance on advanced course examinations, including information by course, local school administrative unit, and school	College Board NCAPP Report
Number of students participating in 10 th grade PSAT/NMSQT testing	College Board NCAPP Report
Number of teachers attending summer institutes offered by the North Carolina Advanced Placement Partnership	College Board NCAPP Report
Distribution of funding appropriated for advanced course testing fees and professional development by local school administrative unit and school	SBE/NCDPI Report
Status and efforts of the North Carolina Advanced Placement Partnership	SBE/NCDPI Report College Board NCAPP Report
Overall data submitted by the International Baccalaureate Organization (IBO)	IBO Report

STATUS AND EFFORTS OF THE NCAPP

NCAPP TARGETED DISTRICTS

NCDPI and College Board agreed that the twenty-one school districts that participated 2020-2021 continue with the NCAPP for 2021-2022. The current 21 target school districts are low-performing in the areas of ACT composite, math rigor, overall performance composite scores, and AP participation and performance. Each year, NCAPP and NCDPI will continue to re-evaluate the districts participating based on new levels of need to ensure effective implementation.

2021-2022 NCAPP Targeted Districts

Asheboro City	Avery County	Columbus County	Duplin County	Edgecombe County
Franklin County	Greene County	Iredell-Statesville	Lenoir County	Lexington City
Lincoln County	Nash/Rocky Mount	Person County	Randolph County	Richmond County
Robeson County	Sampson County	Scotland County	Wayne County	Wilson County
Yancey County				

NCAPP STATE-WIDE EFFORTS

In addition to focused district support through professional development and technical assistance, NCAPP continues to work with state-wide efforts as well. Particularly, each school district across the state is invited to send a select number of high school AP teachers to participate in content-based professional development opportunities throughout the year. Due to the ongoing impact of COVID-19, face-to-face professional development opportunities were cancelled. However, NCAPP used the funds to host virtual Spring AP One-Day Workshops, to host a virtual Middle Level Colloquium, to support virtual Advanced Placement Summer Institutes (APSI) for which 618 scholarships were awarded, to launch an AP Summer Refresher Series for teachers, and to host an AP Teacher Symposium that is continuing throughout the year as an AP Best Practices Series. This series supports teachers throughout the school year using the AP instructional materials developed through College Board and launched in 2019. State-wide efforts with regional technical assistance through the SBE regions and webinars for administrators and district teams continue to provide support for systemic change and program development.

NCDPI RESPONSE TO NCAPP REPORT

NCDPI received the College Board's NCAPP Annual Report in October 2021. The report reflects the progress of the NCAPP for the last year as well as exam performance information. NCDPI is pleased that College Board and the NCAPP team continue to find new ways to support teachers and districts through unprecedented times.

For the May/June 2021 AP exams, College Board again responded to the persisting COVID-19 interruption by providing intentional supports for teachers and students to continue instruction. Additionally, AP exams returned to full-length exams, and schools were provided a flexible AP exam schedule that offered traditional paper and pencil as well as digitally-administered exam format options for students. The College Board is

committed to serving NC public school districts and continues to partner with NCDPI to ensure effective implementation.

DISTRIBUTION OF NCAPP FUNDING FOR AP, IB, AND AICE EXAM FEES

For the payment of AP exams for the May-June 2021 exam administration, NCDPI paid College Board \$12,115,114 to support NC's public school students and families. NCDPI and College Board have developed a state-wide invoicing system to facilitate effective payment and lessen the burden on high schools and their districts.

NCDPI particularly notes the continued success of the implementation of the state-covered AP exam fees. College Board and NCDPI continue to work together with NC's school districts, high schools, and charter schools to improve this process. NCDPI appreciates the hard work of all involved to ensure that students' exam fees were covered.

For the payment of the IB Diploma Programme exams and fees for the May 2021 exam administration, NCDPI paid the International Baccalaureate Organization (IBO) \$1,054,438 to support NC's public school students and families. NCDPI and IBO have developed a full state invoice process to better facilitate payment and lessen the burden of billing on high schools and their districts.

For the payment of Cambridge International exams and fees for the May 2021 exam administration, NCDPI paid Cambridge University \$54,570.87 to support NC's public school students and families.

AP/IB/CIE CURRENT COURSE ENROLLMENT DATA

Currently in 2021-2022, there is a decrease in the number of students taking at least one AP course and a decrease in course enrollments compared to last school year. This year 72,577 students are taking at least one AP course. These students represent 133,732 course enrollments. This represents a decrease of 7.1% in the number of students with a decrease in 8.6% in course enrollment from last year.

See the following Table 1, Table 2, and Table 3 for current 2021-2022 student enrollment data for AP, IB, and CIE courses in NC's 115 traditional LEAs and charter schools. The student enrollment data is disaggregated by gender, race/ethnicity group, and economically disadvantaged status. All student data is masked at the appropriate level.

For further data regarding AP, IB, and CIE course exams, please see the NC Report Cards at <https://www.dpi.nc.gov/data-reports/school-report-cards> and the NCDPI Accountability website at <https://www.dpi.nc.gov/districts-schools/testing-and-school-accountability/school-accountability-and-reporting/north-carolina-sat-and-ap-reports#advanced-placement-ap-reports>.

COMPANION COLLEGE BOARD NC AP PARTNERSHIP ANNUAL REPORT

Please refer to the following report prepared by College Board and submitted to NCDPI for remaining report requirements.

COMPANION INTERNATIONAL BACCALAUREATE ORGANIZATION (IBO) ANNUAL REPORT

Please refer to the following report prepared by IBO and submitted to NCDPI to include in this report.

For questions regarding this report, please contact NCDPI, Division of Advanced Learning and Gifted Education at Sneha.shahcoltrane@dpi.nc.gov.

Data as of October 12, 2021

NC Advanced Placement Partnership Annual Report

Sept. 27, 2021

I. Mission and Purpose of the NC AP Partnership:

The mission of the Partnership between The College Board and the state of North Carolina is to prepare, inspire, and connect students to postsecondary success and opportunity, with a particular focus on minority students and students who are underrepresented in postsecondary education. The purpose of the Partnership is therefore to assist in improving college readiness of secondary students and to assist secondary schools to ensure that students have access to high-quality, rigorous academics with a focus on access to Advanced Placement courses.

II. Driving Governance:

G.S. 115C-174.26 Advanced Courses. According to statute, it is “the intent of the State of North Carolina to enhance accessibility and encourage students to enroll in and successfully complete more rigorous advanced courses to enable success in postsecondary education for all students.”

III. 2020-2021 Results:

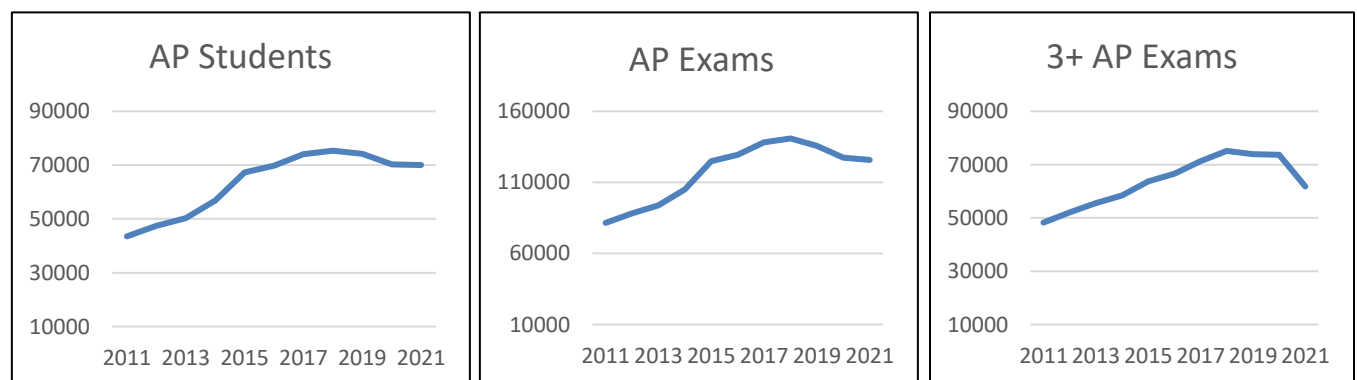

Teacher Professional Development:

- Number of teachers across the state attending 2021 AP Summer Institutes through NCAPP scholarships: 618 scholarships awarded
- Number of teachers and administrators across the state participating in other professional development through NCAPP scholarships (all events held virtually due to pandemic):

• District Leadership Colloquium	Sept. 30-Oct.1, 2020	55 attendees
• Fall AP Teacher Symposium	Oct. 2-3, 2020	82 attendees
• Spring AP One-Day Workshops	March 5, 2021	138 scholarships awarded
• Middle Level Colloquium	April 28-29, 2021	35 attendees
• Summer Refresher Series	July, 2021	376 attendees
• Summer AP Symposium	Aug., 2021	371 attendees
• AP Mentoring Scholarships	School Year, 2020-21	60 scholarships awarded

AP Exam Performance (see p. 4 – 25 for school level details):

- Nationally learning loss during the pandemic significantly impacted AP scores for all demographic subgroups. Although AP performance in NC decreased, the declines were less than the national average. The number of AP Exam-Takers in North Carolina’s public schools decreased 0.3 % from 2020 to 2021, as compared to a 4.4% decrease in AP Exam-Takers in public schools nationwide. In total 70,038 NC public school students took 125,787 AP exams, with 61,819 receiving a proficient score. This represents a 1.1 % decrease of exams taken, and a 16.1 % decrease of exams attaining a 3+ score over last year, compared to a 18.2% national decrease in exams attaining a 3+ score over last year.

NC Advanced Placement Partnership Annual Report

Sept. 27, 2021

- AP performance for Black students in North Carolina's public schools outpaced the performance for Black students seen nationwide. Black students' exams attaining a 3+ score decreased 30% over last year in NC, as compared to 31.7% decrease for the same group nationwide. The number of Black AP Exam-Takers in North Carolina's public schools increased 0.9% from 2020 to 2021, as compared to a 1.4% increase in Black AP Exam-Takers in public schools nationwide.
- AP participation and performance for Hispanic students in North Carolina's public schools continues to outpace the participation and performance for Hispanic students seen nationwide. The number of Hispanic AP Exam-Takers in North Carolina's public schools increased 2.8% from 2020 to 2021, as compared to an 5.4% decrease in Hispanic AP Exam-Takers in public schools nationwide. The number of Hispanic students' exams attaining a 3+ score decreased 22.9% over last year in NC, outpacing the 30% decrease for the same group nationwide.

AP Course Participation:

- Enrollment in advanced courses, including demographic information by gender, race, and FRL status.
DPI to provide enrollment data

PSAT Participation:

- Number of students participating in 10th grade PSAT/NMSQT testing: October 2020: 7,195 Tests. Students taking the SAT with the PSAT/NMSQT as a Junior and Sophomore or younger continue to score higher than the national average (SAT Evidence-Based Reading and Writing 578 – 36 points higher than the national average; SAT Mathematics 571 – 39 points higher than the national average) while students taking the SAT without the PSAT/NMSQT continue to score lower than the national average (SAT Evidence-Based Reading and Writing 502 – 40 points below the national average; SAT Mathematics 489 – 43 points below the national average).

Funding Distribution:

- Distribution of funding appropriated for advanced course testing fees and professional development by local school administrative unit and school.
DPI to provide funding distribution

IV. Current status and upcoming events for the NC AP Partnership – 2021 - 2022:

AP Mentoring, 2021-22 School Year

- 65 scholarships are available to AP English Literature and Composition, AP Computer Science Principles, AP Government and Politics and AP U.S. History teachers from each LEA. AP Mentoring is a teacher-to-teacher support program from the College Board for teachers in these disciplines of all experience levels, which connects teachers interested in enhancing their practice with mentor teachers who have deep knowledge of AP and a record of student success.

Pre-AP Program, 2021-22 School Year:

- Pre-AP courses deliver grade-level appropriate instruction through focused course frameworks, engaging instructional resources, and learning checkpoints. Available to target districts who self-select to offer to 9th and 10th graders.

NC Advanced Placement Partnership Annual Report

Sept. 27, 2021

AP Best Practice Series for Teachers, Oct., Feb., and April 2021:

- 750 scholarships for teachers in high-incidence AP subjects to gather virtually throughout the year with other NC teachers and master teacher facilitators to discuss specific challenging topics in their courses.

Fall AP One-Day Workshops, Nov. 3, 2021:

- 115 Scholarships will be made available to AP teachers from across the state. Multiple sessions in high-incidence AP subjects will be offered, and the full day trainings will be held virtually.

District Leadership Colloquium Feb. 8-9, 2022:

- 60 administrators from the 21 NCAPP target districts are invited to attend this two-day face-to-face professional development on increasing rigor and growing AP programs.

AP Teacher Symposium Feb. 10-11, 2022:

- 125 AP teachers from low AP performing districts are invited to attend this two-day face-to-face professional development on best practices in teaching AP courses. This audience includes AP teachers from the 21 NCAPP target districts as well as other lower AP performing districts to expand impact across the state.

Middle Level Colloquium, April, 2022:

- 60 middle school administrators from the 21 NCAPP target districts are invited to attend this two-day face-to-face professional development designed to build the pipeline of prepared students and trained teachers in pre-AP teaching strategies.

Vertical Articulation Summit, Spring, 2022:

- 60 district middle and high school leaders from our target districts will come together for a 3-day retreat at Wildacres Conference Center. They will focus on strategic planning to build readiness pipelines of prepared students and trained teachers in pre-AP and AP teaching strategies, master scheduling, and counseling. Contingent on pandemic status.

AP Summer Institutes Summer, June, 2022:

- 375 scholarships for June, 2022 AP Summer Institutes will be made available for AP teachers in each LEA this spring.

School and District Technical Support - Ongoing:

- College Board staff provides extensive and on-going professional development and data analysis sessions to administrators, counselors, and teachers in districts as needs arise.

North Carolina Legislative Report

I The International Baccalaureate.

The International Baccalaureate offers four Programmes for schools and students; the Primary Years (PYP), pre-k through grade 5, Middle Years (MYP), grades 6 through 10, Diploma and Career-related (grades 11 and 12). The IB Organization's international education has a core goal to guide students towards the skills needed to be lifelong learners.

All 4 IB Programmes offer a student centered, inquiry-based approach to an international education, focused on approaches to learning for all age groups. These approaches include; research, communications, social, self-management and thinking skills. The skills needed to be lifelong learners. Through these skills, and the knowledge base that backs them, students become confident in their ability and prepared for success in whatever path they follow whether college or career.

During the 2020 – 2021 school year due to COVID, IB schools and students in 150 countries around the world, including the US, faced continued and significant disruption to their usual routines. IB programmes are based upon collaboration, teamwork, discussion and participation. Teachers had to adapt, innovate and learn new methods to help students continue their education and meet the IB's learning objectives. It is impressive how successful many school communities were in making this huge shift.

As in the latter part of the 2019 – 2020 school year the IBO modified its assessment practices to in order to provide valid and reliable marks while recognizing the challenges that students have faced. There were two major changes,

- adaptations were made to the coursework and assessments, with mitigation introduced
- schools were given the opportunity to choose whether the final student scores would be determined;
 - as was done for the 2019 – 2020 year (calculated on the basis of the required internal assessments)
 - or by students in school writing the final examinations in a safe and secure setting

In North Carolina approximately **50%** of the schools chose the calculated route. The other half provided an in-school examination session.

The same assessment practices and options will be in place for the 2022 assessment session.

In 2023 the IB will return to completing the full suite of assessments both internal and external in a school setting.

The staff in all divisions of the IBO have been immensely impressed with the patience, adaptability and creativity shown by teachers and students during this stressful time.

I Schools and Growth

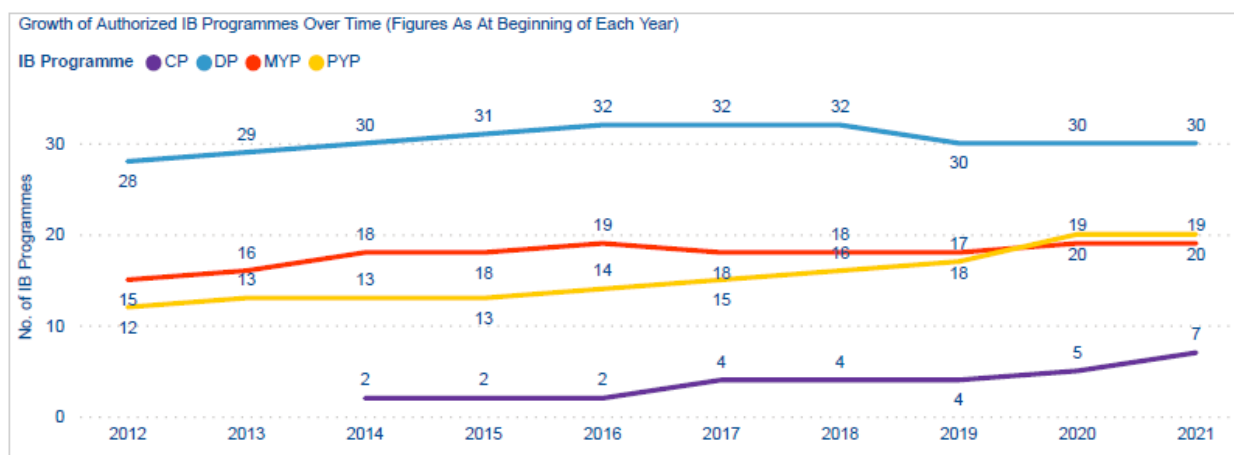

IB Authorized Public Schools and programmes in North Carolina

Schools and students in North Carolina have been participating in International Baccalaureate programmes since the first school was authorized in Charlotte-Mecklenburg in 1992. **64** schools in North Carolina currently offer the IBO's Programmes. A number of these schools are in partnership with a Middle school offering the MYP. There are; **20** PYP, **19** MYP, **30** DP and **7** CP programmes amongst these schools.

Current Candidate Schools and programmes in North Carolina (as of Sept 29, 2021)

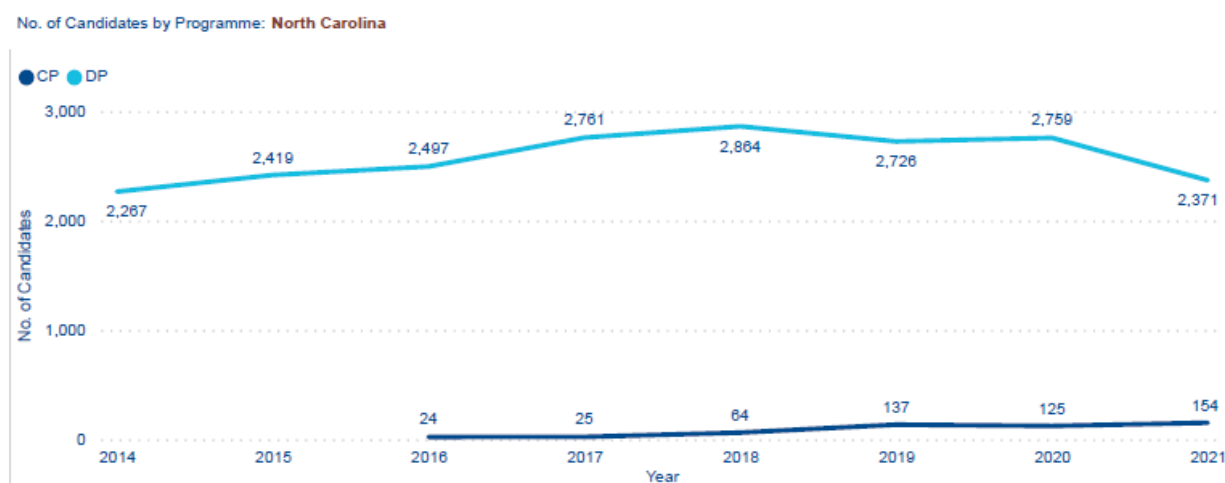

There are **8** schools with programmes in candidacy, working towards authorization. **6** of these will be offering the Middle Years Programme, **1** for the Diploma and **1** for the Primary Years. Our research shows that students with Middle Years and/or Primary Years experience are more likely to join the Diploma Programme and will be more successful in it.

North Carolina Growth since 2012

Student growth for the Diploma and the Career- related programmes sine 2014

I Number of North Carolina candidates by Programme

It is interesting to note the growth in the number of schools now authorized for the Middle Years Programme. Our research shows that students who have participated in this programme are more likely to enrol in the Diploma programme in their junior and senior year and to be more successful in that two year programme that follows the middle years. [MYP study](#)

II Number of candidates by category

Anticipated = examining a course in junior year

Diploma = examining and completing all components of the full diploma programme

Courses = completing individual IB courses

Retake = rewriting an examination from a previous year.

II Students and Data from the Diploma and Career- related Programme

Number of test takers: Total = **2525**

- **2371** students from the Diploma Programme
 - **1009** of these students were attempting the *full diploma.
The other **1362** were taking one or more diploma courses
- **154** students from the Career- related Programme

Total exams written: **8063** - 79% of these exams scoring 4 or better (see below)

For students attempting the full Diploma the pass rate was 68%. There were;

- *671 Diplomas awarded
- 9 Bilingual Diplomas awarded

*Achieving an IB Diploma is a very significant milestone. Students have completed two years of study in 6 courses one from each of the core academic areas; Literature and Language, a Second Language, Individuals and Societies (History), Mathematics, Science and either a second course from the above list or an Arts course. They have also completed a course called Theory of Knowledge which considers ways of knowing and looks at the interdisciplinary connections between their courses. Diploma students must also do community service and extracurricular activity as well as prepare and submit a formal research paper of 4000 words on a topic in a subject area of interest to them. Programme details can be found here;

[Diploma Programme](#)

III A summary of Performance data for students in 2021 the IB Diploma and Career-related programmes includes;

- There were in total, **9332** examinations written by students in these programmes. The IB exams are rigorous and measure competencies in many learning skills, as well as in subject knowledge in significant depth.
- Final scores of **4 or better** were achieved on **79%** of these exams. The final score is the result of the combination of the results achieved on required assessments during the 2 years of the courses and the results on the final exam. The IB scale is 1 through 7. This score is an important milestone for recognition, as you will see below.
- **909** North Carolina students requested transcripts of their IB success be sent to North Carolina universities they plan to attend.

IV Post-Secondary Recognition.

- Participation in IB coursework is an important contributor to admissions decisions at North Carolina Public and Private Universities and at Universities throughout the US, Canada and around the world.

- A score of 4 or better on IB coursework often leads to credit and placement options at many universities in the US including both private and public institutions in North Carolina. Details can be found on the institution websites.

V Support for students, teachers and schools

The IBO's goal is to provide students an opportunity to learn and develop skills in a setting where they are engaged by teachers using the most up to date pedagogical practices. We want all students to be able to participate successfully in their learning.

During this challenging year, both the IB Professional Development and Learning and Teaching divisions began creating resources for teachers and administrators to draw upon for guidance and support. That material was made available through free online learning resources and some detailed support material on the Programme Resource Centre available to teachers in authorized and candidate schools. This year all of our professional development and authorization activities have been completed virtually.

- Authorization of Schools.
 - We provide consultants and guidance during the 2 to 3-year process to help schools be successful in becoming an IB authorized school. and we participate with each authorized school every five years to help them review and improve their programme. These processes are all being done virtually at this time.
- Required Professional Development for teachers and administrators
 - Exceptional workshops help school leaders and teachers learn how to guide students to become the learners we envision. In the 2020 - 2021 school year **319** North Carolina teachers, coordinators and administrators participated in our online Professional Development workshops. Another **230** NC teachers have completed; In-School Workshops, District Workshops and other IB Professional Development opportunities. It is noteworthy that in this demanding and challenging year so many educators have found the time to build their professional skills and knowledge.
 - The IBO has developed several resources available free of charge to educators to help with adaptation to teaching virtually. They include;
 - COVID leadership; self paced online workshops for school leaders
 - Specific Learning resources for each programme
 - A webinar for virtual learning
- Programme Resource Centre
 - Teachers and coordinators have access to a globally subscribed Programme Resource Centre. The PRC contains proven resource material to help teachers and coordinators to be successful. From Sept 2020 through Sept, 2021 there were **4988** user visits to the PRC from teacher and coordinators in North Carolina. This number is a significant increase over last year.

A great deal of support material from the IB's Teaching and Learning Division was added this year. Much of it was developed specifically for teachers working virtually with IB students in all IB programmes. North Carolina teachers have been making good use of this material to provide the best possible education for their students.

- IBO Staff support
 - There are specific IBO staff for NC schools assigned to authorized and candidate schools who help with the process of becoming an authorized IB school and with the work that continues towards improvement once authorized. Each authorized school in North Carolina is assigned an IB World School Manager to whom they can reach out for support as needed.

VI Research

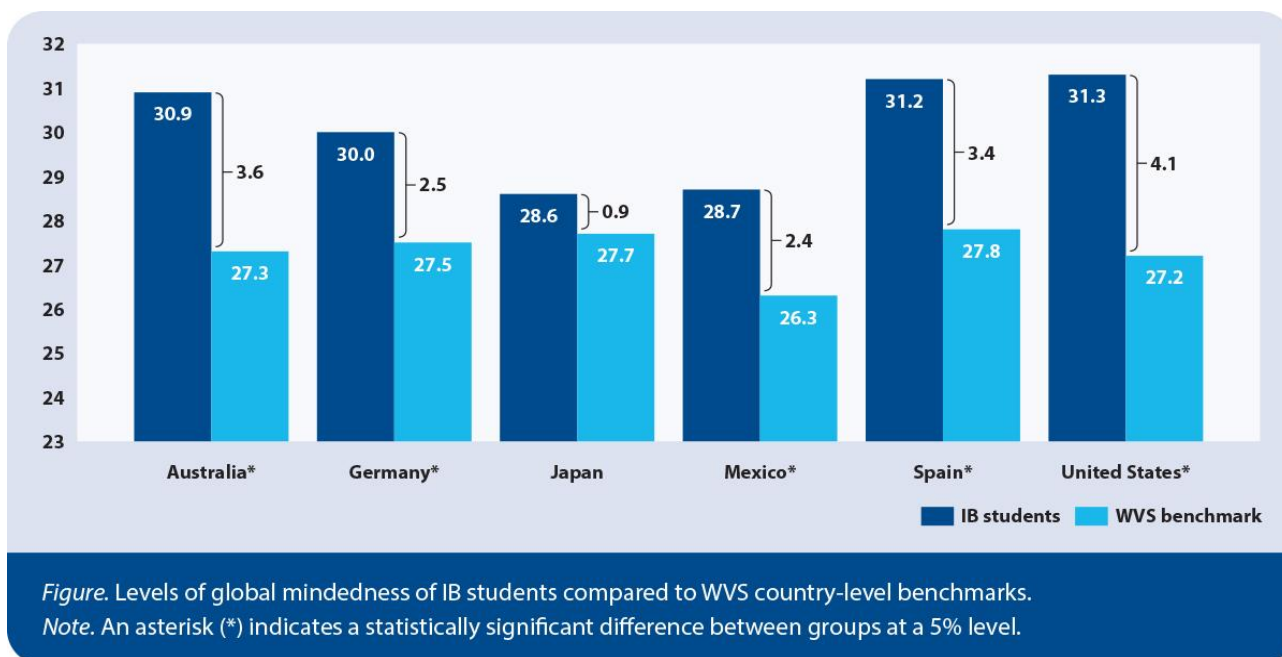

Summarized below are three examples of interesting, very recent research about the success of students in IB programmes.

I

For the DP/CP, a study on [global-mindedness](#). Here are a few main findings below.

This study measured DP and CP students' global-mindedness levels benchmarked against their peers from a similar age range and the same six countries (Australia, Germany, Japan, Mexico, Spain and the **United States**). To examine levels of global mindedness, researchers used the World Values Survey (WVS). Here are some of the study's main findings:

- Across all of the countries studied, DP and CP students showed higher levels of global mindedness than young adults in the WVS benchmark groups. The difference was statistically significant in five out of six countries, including the US.
- Additionally, second-year IB students averaged higher global-mindedness levels than their first-year peers in five out of the six countries, suggesting that exposure to the DP and CP may increase levels of global mindedness.

VI Research continued

II

A study on [critical thinking among DP students](#) This study examined the effects of the DP on the critical thinking skills of students in Australia, England and Norway. Here are some of the study's main findings:

- The results suggest that the IB embraces an approach to critical thinking development, which is largely in line with best practice research.
- Quantitative findings indicated that IB students had significantly higher levels of critical thinking than their non-IB peers—an advantage that held even after matched samples of IB and non-IB students were used for comparison.
- The critical thinking advantage of IB students also increased over the course of the DP.
- In interviews, students and teachers shared a belief that the theory of knowledge course, the extended essay and DP subjects foster critical thinking development. Teachers and students also generally believed that the DP better prepares students for university compared to national or state programmes.

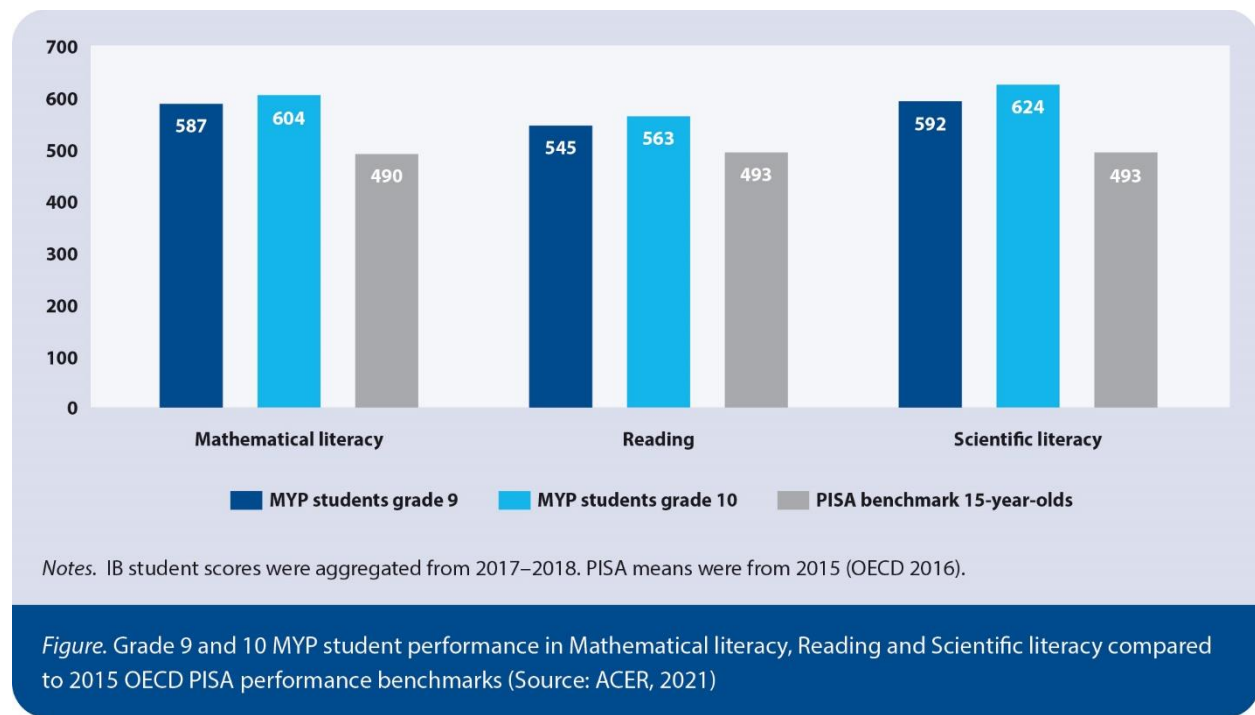

III

A study on [PYP and MYP outcomes on the International Schools Assessment](#). See a description and some main findings below.

This study examined PYP and MYP student performance on the International Schools' Assessment (ISA) compared with non-IB students from the same ISA cohorts. The study also investigated how grade 9 and 10 MYP students' ISA results compared with PISA means.

Here are some of the study's main findings:

- Consistent with previous research (Tan, Bibby 2010; Tan, Bibby 2012), analysis showed that, on a global level, PYP and MYP students performed significantly better than students from non-IB schools in the ISA assessment areas at several grade levels. In fact, IB students performed as well or better in all the domain and grade comparisons.
- When comparing MYP students' ISA scores with the PISA benchmarks, MYP students had statistically higher mean scores in all three domains (Mathematical literacy, Reading and Scientific literacy), similar to the findings of the previous two studies (Tan, Bibby 2010; Tan, Bibby 2012).
