Recommendations for Early Learning Additions to the NC CCIP 2020-2021/NCDPI Consolidated Application

The North Carolina Early Childhood Foundation, the Office of Early Learning at the Department of Public Instruction and EducationCounsel continue to partner to support Local Education Agencies (LEAs) and early childhood community leaders in collaborating to incorporate early learning strategies into district plans for the Every Student Succeeds Act (ESSA). ESSA can serve as one tool available to communities to strengthen their birth-through-eight system and support children’s school success.

This document is designed to support LEAs as they develop their ESSA plans. It outlines opportunities throughout the 2021 Consolidated Application to include activities to support young children’s development beginning at birth.

In addition to the specific questions noted below, there are opportunities throughout the application to include additional information related to early learning programs and policies. We strongly encourage district leaders and their partners to understand whether and how funds are being used for early childhood programming (see Title I, Question 9) and to work together on how to address this section through a coordinated community plan.

Please refer to the federal guidance in Non-Regulatory Guidance Early Learning in the Every Student Succeeds Act: Expanding Opportunities to Support our Youngest Learners for additional information and requirements.

We recommend that district leaders review the application and this document with early childhood leaders in their communities to develop a strong, coordinated plan that supports optimal development for all children in the community.
