Grant Details

Alamance-Burlington Schools (010) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Learning Loss & Prepare for Reopening Data Set Approximate Student % At-Risk Documentation Achieve3000 65% March Achieve Report Cohort Monitoring Tool Middle 22% Secondary Cohort Tool Snapshot High 22% NCELI Social Emotional 18% NCELI Snapshot Physical 25% Language 32% Cognitive 29% Literacy 22% Mathematics 21% Imagine Learning Literacy 22% Imagine Snapshot Math 26% Panorama 3-5: Self-Management 28% Panorama Snapshot 3-5: Social Awareness 28% 3-5: Self-Efficacy 43% 3-5: Teacher/Student Relationships 15% 3-5: Sense of Belonging 26% 3-5: Engagement 31% 6-12: Self-Management 29% 6-12: Social Awareness 38% 6-12: Self-Efficacy 57% 6-12: Teacher/Student Relationships 34% 6-12: Sense of Belonging 58% 6-12: Engagement 67% Renaissance Star Early Literacy (K-1) 53% Star Snapshot Star Reading (1-3) 53% Processes Used to Develop the Needs Assessment: Ongoing, monthly virtual PLC meetings facilitated by the district's curriculum specialists and lead school counselors are used to not only provided resources and training but to also collect feedback and input on the needs of the district. As a result, data is frequently reviewed, and teachers and district leaders are able to recommend next steps for resources and strategies. Additionally, the district's MTSS Implementation Team reviews at-risk trends and makes recommendations for district-level resources and strategies to target unique needs of the district. Prepare for

Reopening & Testing/Repairing/Upgrading Projects to Improve Air Quality School Name HVAC Sq. Ft. X $30 (HVAC) Priority Order HVAC Williams 256767 $7,703,010.00 1 S. The Assistant Superintendent for Operations worked with his team, contractors, and count commissioners to identify needed upgrades and the opportunities for system improvement. Additionally, the Chief Secondary and Chief Elementary Officers worked with school principals to determine various issues around the schools that could be addressed with ESSER funds. How the PSU intends to assess and address student learning gaps resulting from the disruption in educational services. ABSS continues to hold regular assessment windows. In fact, the end of the 20-21 school year will see a variety of Curriculum Based Measure assessment windows to assess for at-risk status along with summative assessments that allow the district to see the impact of COVID-19. After receiving the results of these assessments, ABSS will triangulate that with other data that we've collected with students and invite students to our summer learning program. Additionally, ABSS intends to continue the implementation of Saturday School in which students attend in-person, small group tutoring sessions in order to accelerate their learning in order to mastery content and skills while also diminishing their likelihood of needing remedial classes at the high school level. Further, as results come in from the end-of-year assessments and we use those data in conjunction with teacher feedback in our district PLCs, our curriculum leads will make adjustments to the core content for the 21-22 school year in order to address the learning gaps from the previous year and to intentionally pre-plan to add support into the next grade level's work around those standards.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

After reviewing various data points, it it clear that on any given measure, a minimum of one quarter of our students are currently at risk. As we begin to triangulate those factors, we see that many students are at-risk across multiple measures, but some students are simply at-risk on only one measure. Throughout the year, we have faced a variety of barriers, but throughout the 20-21 school year, we've continued to provide various testing windows and resources in order to help schools identify and mitigate the circumstances around learning loss. As a result, we've been able to provide targeted interventions to those showing at-risk status on various indicators, and we intend to continue that

through the use of ESSER II and ESSER III funds. Current staff and student devices are not able to run various programs (due to their age) in order to meet the demands of teaching and learning in the district. Additionally, they will not allow the full functionality of the various software that we use to address individualized instruction. As a result, we will purchase 9000 student devices to replace our aging student devices and will provide new staff devices to teachers and we will add TAs as COVID has shed light on their need for more digital resource access.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 10,088,153.14 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

While ABSS does not plan to provide additional or different assessments with ESSER III funds, we do intend to use funds to provide additional remediation and instructional support positions for 34 sites. As a result of those positions, schools, teachers, student support teams, and families will be better equipped to quickly and accurately respond to the academic needs of each child. As a result, we will more quickly identify the types of interventions needed and more quickly support students with fewer interventions as a results of addressing the skills and curricular gaps created by learning loss due to COVID-19.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Again, ABSS intends to use funds to provide additional remediation and instructional support that will address components of the whole child. These school-based positions will support the implementation and fidelity of our MTSS which addresses the whole child (academic, social/emotional, behavior, attendance/engagement). The expectation is that the number of students demonstrating at-risk results is reduced as these positions have a direct impact on the efficacy and efficiency of interventions. Additionally, we plan to use approximately 4 million dollars to build our district's Tier II intervention resources and provide training on their use.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

As a result of the MTSS process, parents/families are required to be notified every time their child's intervention changes. In connection with greater efficiency of services in the school, that will translate to more frequent, more precise communication with parents/families about the individual needs of the child. Additionally, we have technology-enhanced resources that will allow clear provision of notification via the student information portal. As a result, parent notification is streamlined into the same place where they check grades, attendance, etc.

* (D) Tracking student attendance and improving student engagement in distance education;

While ABSS does not intend to provide any additional resources for tracking attendance or engagement, it does intend to support this practice through previously established resources and procedures.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

While ABSS does not plan to provide additional or different assessments with ESSER III funds, we do intend to use funds to provide additional remediation and instructional support positions for 34 sites. As a result of those positions, schools, teachers, student support teams, and families will be better equipped to quickly and accurately respond to the academic needs of each child. As a results, we will more quickly identify the types of interventions needed and more quickly support students with fewer interventions as a results of addressing the skills and curricular gaps created by learning loss due to COVID-19. Additionally, as we continue to support the regional coaches with these funds, they will be delivering hands-on support for teachers as they address the learning loss needs of their students. The regional coaches will be trained in best-practices and be able to support the appropriate selection and delivery of instructional opportunities based on the data they have for each of their students.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ⊙ No				$
	* ⊙ Yes ○ No	The Office of Operations was consulted and has been working on many projects throughout the year. The Assistant Superintendent for	July 2021 - June 2024	Improved air quality	$ 26,950,300.00

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.		Superintendent for Operations worked with his team, contractors, and count commissioners to identify needed upgrades and the opportunities for system improvement. Additionally, the Chief Secondary and Chief Elementary Officers worked with school principals to determine various issues around the schools that could be addressed with ESSER funds. While many of our schools are in line for improvements, the review of the data and potential for upgrades allowed a more thorough and expedited review of our HVAC systems which has led to a clear			

		priority for work to repair and upgrade projects to improve air flow. As a result, approximately half our our school sites will receive much needed upgrades to the HVAC and ventilation suggestions far ahead of schedule.			
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ◉ No				$
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◉ Yes ○ No	ABSS intends to support additional school nurses throughout the district. As such, these funds are being set aside to provide continuous access to school nurses.	July 2021 - June 2024	Reduced virus transmission	$ 306,126.00
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ◉ No				$

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ⦿ Yes ◯ No	Support Position: - Technology support position to address the growing demands of technology support as we open a virtual school and continue to use additional online resources for individualized learning.	July 2021 - June 2024	-Usage metrics - Deployment timeline -TWC results -Ticket timelines	$ 71,925.00
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◯ Yes ⦿ No				$
	* ⦿ Yes ◯ No	To address learning loss, ABSS intends to continue to provide summer learning opportunities for the next two summers (above and beyond what is typically offered)	-June 2021 - August 2024 -June 2022 - August 2022		$ 184,309.85

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.		is typically offered) to students who are identified as "at-risk" based on various factors (EL, students experiencing homelessness, low income, migrant, etc. in addition to academic and other risk factors). As such, we are setting aside funds to provide supplies, transportation, and additional employment payments for student learning opportunities outside of the regular school year. While we have specific plans for the summer of 2021, we will evaluate our impact and our course of action to provide better and more tailored supports over the		-Student retention reduction -HS students requiring remedial courses reduction - Students proficient in reading increase	

		next two summers. Additionally, as we work with local support groups, we will look to provide summer support to entering kindergarten students so that their opportunities for a smooth transition into formal schooling is seamless and allows for greater time spent on Kindergarten standards attainment.			
	* ⦿ Yes ◯ No	Whereas, due to Covid-19, the Alamance-Burlington School System is experiencing unprecedented labor shortages across multiple classifications of employment. It was the determine of the Alamance-Burlington Board of Education, at	December 2021-June 2022	-Staff Retention - Improved Staff Recruitment - Increased Number of Substitutes	$ 10,959,394.26

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		the recommendation of the superintendent, payment of retention bonuses to employees will assist in retaining current employees, payment of recruitment bonuses will assist in recruiting much-needed new employees, and payment of incentive bonuses to substitutes will will assist in ensuring that schools are adequately staffed during the upcoming winter months.			
			Total ESSER III Allotment	$	38,472,055.11

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan

Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

☐	11/7/2021 5:24:45 PM	Nick Anderson	The amended carryover budget in the continuation application that has been submitted within BAAS and the amended FY 2022 – ARPA (American Rescue Plan Act) – ESSER III Application (PRC 181) within CCIP have been approved. This approval reflects programmatic allowability of strategies only. In the event of a fiscal audit, it is the responsibility of the district to provide documentation that demonstrates the strategy is for the prevention of, is in response to, or will reduce the spread of Coronavirus and is the most cost-effective way to address the problem. Any capital projects must adhere to all guidelines and requirements of capital projects. **Dr. Nick Anderson** ***ESSER Program Administrator Northwest Region*** Federal Programs NC Department of Public Instruction (W) 984-236-2786 nick.anderson@dpi.nc.gov	C

Alexander County Schools (020) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

The district collaborated with many different groups to determine the needs of Alexander County Schools. The district leadership team met multiple times (Superintendent, Associate Superintendent, CFO, Federal Programs Executive Director (also EC Director), HR Executive Director, Director of Student Support Services & Accountability, Maintenance Director & Technology Coordinator. The Federal Programs Director outlined the allowable uses for the funds specifying the primary purpose of the funds and the expiration of funding. Each director was tasked with collaborating within their departments to prioritize a list of needs with a description and data of the purpose of their request. The Federal Programs Director also sought input from building Principals. Once data and information was collected from all parties involved, the needs were prioritized. The Leadership Team met again to discuss the needs of each department. The areas of need were identified as learning loss, (including 3 years of a summer program, instructional support coaches for the high school, instructional support positions, educational technology, and teachers for after school tutoring for 3 years). Maintenance was the next area of focus, numerous school are in need of a modified or upgraded HVAC system along with building isolation rooms for ill students. During the pandemic we have become very dependent on educational technology. A technology assessment found that data projectors and outdated interactive tech needed to be replaced and the next generation of technology employed at a Total cost of ownership savings from the previous deployment. This next generation of classroom technology includes interactive panel technology deployed with the use of mobile stands, not a fixed platform. Interactive panel technology is an effective mechanism to re-engage students in collaborative learning and encourage flexibility in classroom interactivity while facilitating the recovery of lost time in the classroom due to the requirement of virtual learning in the last 18 months. All classrooms lacking the interactive panel technology will receive an interactive panel on a mobile cart. Carts will accommodate earlier grades K-2 by providing a platform that can be lowered or raised as needed. Referrals for mental health and behavioral services are a priority for the district. Alexander County Schools has also suffered a loss of adm funding due to COVID 19. The constant move of families from homeschool to school, from district to district and state

to state has taken a toll. This loss has had an impact on teaching positions, exceptional children's funding, and other essential positions within the school district.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

* (B) implementing evidence-based activities to meet the comprehensive needs of students; Academic: The Alexander County School System has a well defined Core Curriculum and Instructional Framework providing for instruction that is engaging and aligned to state and national standards. The universal screening process and assessment opportunities as listed above provide for frequent adjustments to instruction to meet the needs of small groups or at risk students. Alexander Central High School has many of these structures, however it is not as well defined as at the elementary and middle schools due to a lack of centralized support and staffing issues. Every school has a well defined WIN (What I need) time for differentiated Core and "acceleration for all." During this time, students are identified for additional support, pre teaching of content to build background and skills and enrichment. WIN groups are flexible and students will rotate in and out depending upon individual needs. Alexander Central High School has a Smart Lunch and seminar period where the schedule permits for a WIN opportunity, but it has not been utilized in a systematic fashion in order to progress monitor student learning or to determine effectiveness of these supports. We need to implement a well defined system of support and the ability to problem solve any deficiencies in implementation. An additional Intervention time is provided for any student who is not making adequate progress in Core and WIN instruction. The interventions are research based and consistent with our Standard treatment protocols which are skill specific in math and reading. Some of these interventions occur during WIN time and those needing intensive support will be provided with 48 (1.5) after school intervention slots by licensed teachers or trained interventionists for additional interventions. The interventions are research based with many coming from Intervention Central and the Florida Center for Reading Research. Due to Learning Loss, we will purchase the instructional component for 100% of our K-8 students and Edmentum for credit recovery for our high schools. Both of these tools can be used remotely if needed and if we were to have to close down schools for a period of time. The Instructional Component provides for differentiated practice and support to close gaps for students. Also in response to learning loss, we will be providing 3 weeks of Summer Jump Start where our intention is to fill gaps, but to also pre teach difficult content in Core areas to promote success in the next school year. This will be a K-12 initiative, with credit recovery and pre teaching being the main focus at the secondary level. This will be monitored, supported and implemented by MTSS Learning Loss Facilitators. We will provide transportation for after school tutoring and the Summer jump start program. Instructional Facilitators will be paid a semester supplement of 1250.00 in order to train interventionists, implement the tutoring program and progress monitor to determine effectiveness. Elementary and Middle Schools have access to a full time Instructional Facilitator whose primary responsibility centers around MTSS. We have a need for this level of support at our high school and will hire a math and ELA MTSS/Learning Loss Coach.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 1,660,732.65 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

The Alexander County School System has a robust system of diagnostic, formative and summative assessments. Academic Assessments: Diagnostic Assessments: Dibels for K-3 and fourth grade students who are identified as reading retained. IReady Diagnostic for 3rd- 8th grade in Reading. K-8 in Math. BOG for third grade Reading Progress Monitoring: Reading Dibels Progress Monitoring (K-3) AND RTA 4th graders iReady Growth Monitoring (school choice-3-8) iReady Benchmark Assessment MOY/EOY Comprehensive (3-5) NC Check-ins (6-8) Math MOY and EOY Benchmark from the state of NC (k-2) iReady Growth Monitoring (School Choice-K-8) NC Check-ins (6-8) Science NC Check-ins (6-8) High School Common Formative Assessments Mid Term exams Final exams Regular check-ins NC Check-ins for math I Identified at Risk Core Assessment Dibels for K-3 and fourth grade students who are identified as reading retained iReady Growth Monitoring (school choice-3-8) Iready Standards Mastery(K-8) Easy CBM (Tier 3) NC ENSI Summative Assessments EOGs and EOC's required by the state o f NC SEL Assessments Surveys By screening all students at the beginning and end of the school year, we measure and monitor valid and reliable SEL data from students and teachers on student SEL mindset and skills. The survey is based on CASEL Core Competencies and research-backed curriculums. Check-ins Check-ins measure how a student is doing in a specific moment rather than overall perceptions measured at the beginning and end of a school year by surveys. This process of gathering student voice and SEL skill-competency guides core and interventions

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

The Alexander County School System has a well defined Core Curriculum and Instructional Framework providing for instruction that is engaging and aligned to state and national standards. The universal screening process and assessment opportunities as listed above provide for frequent adjustments to instruction to meet the needs of small groups or at risk students. Alexander Central High School has many of these structures, however it is not as well defined as at the elementary and middle schools due to a lack of centralized support and staffing issues. Every school has a well defined WIN (What I need) time for differentiated Core and "acceleration for all." During this time, students are identified for additional support, pre teaching of content to build background and skills and enrichment. WIN groups are flexible and students will rotate in and out depending upon individual needs. Alexander Central High School has a Smart Lunch and seminar period where the schedule permits for a WIN opportunity, but it has not been utilized in a systematic fashion in order to progress monitor student learning or to determine effectiveness of these supports. We need to implement a well defined system of support and the ability to problem solve any deficiencies in implementation. An additional Intervention time is provided for any student who is not making adequate progress in Core and WIN

instruction. The interventions are research based and consistent with our Standard treatment protocols which are skill specific in math and reading. Some of these interventions occur during WIN time and those needing intensive support will be provided with 48 (1.5) after school intervention slots by licensed teachers or trained interventionists for additional interventions. The interventions are research based with many coming from Intervention Central and the Florida Center for Reading Research. Due to Learning Loss, we will purchase the instructional component for 100% of our K-8 students and Edmentum for credit recovery for our high schools. Both of these tools can be used remotely if needed and if we were to have to close down schools for a period of time. The Instructional Component provides for differentiated practice and support to close gaps for students. Also in response to learning loss, we will be providing 3 weeks of Summer Jump Start where our intention is to fill gaps, but to also pre teach difficult content in Core areas to promote success in the next school year. This will be a K-12 initiative, with credit recovery and pre teaching being the main focus at the secondary level. This will be monitored, supported and implemented by MTSS Learning Loss Facilitators. We will provide transportation for after school tutoring and the Summer jump start program. Salaries: teachers, non-certified staff, bus drivers, counselors, nurses, social workers, instructional coaches, instructional supplies, software, lunches and snack. Instructional Facilitators will be paid a semester supplement of 1250.00 in order to train interventionists, implement the tutoring program and progress monitor to determine effectiveness. Elementary and Middle Schools have access to a full time Instructional Facilitator whose primary responsibility centers around MTSS. We have a need for this level of support at our high school and will hire a math and ELA MTSS/Learning Loss Coach.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Parent and family communication is required for teachers/administrators in the district if students are not engaged/active in distance education. Contacts logs are kept at the school to track the various forms of contacts. The purpose of these contacts is to promote student success an involve parents in their child's learning. School administrators have been tasked with working with school staff in having engaging and interactive family engagements events via virtual or outdoors. The focus of family engagement events is to provide technology and instructional support to families to make students more successful. We strive to provide district and school communication into a language that families can understand. The district sends multiple communications (by phone, website and email) regarding events and general information. * (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment; Alexander County Schools Offer a variety of opportunities for parents to become engaged in supporting student learning. In addition to parent nights, conferences are held at a minimum of quarterly for all students who are working below grade level. Each school employs a strategy for documenting parent contacts. Parents are invited to Student Support Team Meetings where more intensive interventions and support to parents can be provided. We have also shared curriculum support resources from a variety of websites for parents and have provided hot spots to families who do not have internet access for financial reasons. We have worked within the community to create additional open wifi in each of our schools and at various locations throughout Alexander County, We have begun training in Specially Designed instruction with all EC staff and school administrators. Food Pick-up sites Employment of additional student support staff Translation services Communication of interventions in multiple languages Specialized instructional support personnel work with school teams to cultivate awareness of the identifications and situations that indicate a student is homeless. All school employees are require to participate in a Safe Schools Module that addresses

homeless and its identification. School social worker provide training and ,materials to all schools, PreK programs and community agencies. Annually, school social workers attended national and state conferences on homelessness. Hot spots are provided to families/students identified in homeless situations tp allow them to participate in virtual learning. Children in foster care, and other identified groups are given the same opportunities as unidentified students. For children and youth in foster care, school teams supported by specialized instructional support personnel ensure students have access to housing, transportation, food, and care resources.. For students in foster core homes for treatment, there is an intake meeting process to assist the schools in appropriately placing students with comparable services.

* (D) Tracking student attendance and improving student engagement in distance education;

Attendance As a result of COVID school closures and virtual learning, our students are more disengaged than ever. We will examine our school policies and practices on attendance to ensure the reflect research around school attendance. Regular attendance ensures children benefit from participating in quality early education, habit of attendance is a school readiness skill, and good attendance is a measure of parent engagement. We must identify barriers to student attendance and assist our families in addressing these barriers to ensure a quality education for our students AttendanceWorks provides guidance, training, and resources to assist our district with addressing these challenges.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

We utilize our assessment system to monitor progress of students in weekly PLC and monthly Student Support Team (SST) meetings. We will utilize ESSER III funds to provide research based interventions through progress monitoring in an effort to continue our efforts towards achieving core proficiency. Each school tracks individual student growth through a system maintained by instructional facilitators who are the leads in Pandemic Recovery. The group collectively examines where gains are being made in order to problem solve practice at a minimum each nine weeks. Additionally, Central Office principal liaisons meet with principals to discuss progress towards reaching or exceeding pre pandemic progress.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ● Yes ○ No	Installation of water bottle filling stations in Alexander County School buildings :By shutting down the ability to drink directly from the fountains we reduce the [possibility] of someone drinking from the fountain after someone else touched it with their lips or saliva. Thus keeping down on the spread of all sorts of viruses.	August 2021-June 2024	By shutting down the ability to drink directly from the fountains we reduce the [possibility] of someone drinking from the fountain after someone else touched it with their lips or saliva. Thus keeping down on the spread of all sorts of viruses.	$ 35,269.00

11/9/2021 11:40:39 AM

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ○ No	Improve air quality systems in 3 schools that will increase air flow and help prevent the spread of infectious disease. Repairs and replacement of various Bard Units and ventilator heat pumps.	August 2021-June 2024	Decreased COVID-19 transmission in schools and classrooms. Decreased absences among students and staff due to contagious disease transmission. Virus transmission data, contact tracing, quarantine data, and air quality checks.	$ 500,000.00
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ⦿ No				$ 0.00
		In response to a loss of ADM in our district caused by the Corona virus ACS EC program suffered	August 2021-June 2024		$ 2,124,609.35

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ◯ No	a $325,500 loss in allotment per year. To provide EC services that address learning loss and lack of progress on IEP goals caused by COVID 19, ACS will use a portion of ESSER III funds to contract for services to help address the need. These positions have been hard to fill due to the fear of contracting COVID by applicants and employees. Additional instructional assistants will be employed to assist teachers in the classroom to help with the prevention of the spread of the virus and to help educate students on healthy behaviors. ESSER II funds will also be used to employ a translator/interpreter to communicate information about COVID, healthy habits, and announcement with		EC Program Data, I-Ready Data, EC Staffing Data & EC Student Headcount, Progress on IEP Goals. Communication logs between ESL family liaison & parents. Psychologist log of students tested and log of MTSS data from meetings attended.	

		announcement with our EL students and families. This individually will work in collaboration with other school personal to help EL families that are suffering from the affects of COVID. Additional psych. to help address additional needs.			
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◉ Yes ○ No	Salaries to support and sustain 3 new nurse positions hired during the pandemic. Funding additional PPE for chorus classes, band students, nursing supplies, etc.. to assist in COVID response and mitigation.	August 2021-June 2024	Decreased exposures among students and staff to COVID-19. Increased awareness and education among students, staff, and parents concerning contagious disease and communicable disease.	$ 357,990.00
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$ 0.00

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$ 0.00
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ◉ No				$ 0.00
	* ◉ Yes ○ No	Data projectors and outdated interactive tech needed to be replaced and the next generation of technology employed at a Total cost of ownership savings from the previous	August 2021-June 2024	Walk-through data, PDP Goals set specifically for the effective use of technology in the classroom. Communication logs kept by teachers/staff while using VoIP.	$ 333,000.00

| EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment. | | deployment. This next generation of classroom technology includes interactive panel technology deployed with the use of mobile stands, not a fixed platform. Interactive panel technology is an effective mechanism to re-engage students in collaborative learning and encourage flexibility in classroom interactivity while facilitating the recovery of lost time in the classroom due to the requirement of virtual learning in the last 18 months. All classrooms lacking the interactive panel technology will receive an interactive panel on a mobile cart. Carts will accommodate earlier grades K-2 by providing a platform that can be lowered or raised as needed. Integration of VoIP in schools; Voice Over | | | |

		schools: Voice Over Internet Protocol is a technology that allows you to make voice calls using internet connection instead of a regular phone.			
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ○ No	Due to the increasing needs of students, student support services added counselors, a social worker, and administrative assistant. Students manifest anxiety and stress, requiring a counseling professional response for an increase in student self-harm reports/assessments and threat reports/assessments. Students needing small group sessions and direct work on self-management, self-awareness, social awareness, responsible decision making, and relationship skills. Teachers require support with the	August 2021-June 2024	Increased access to counseling services. Reduced officer referrals and suspensions. Early identification of mental health needs. Number of employees accessing the Employee Assistance Program.	$ 684,971.00

		Integration of resilience and SEL into daily routines. Additional effects of COVID19 have affected families, jobs, and resources. School social workers are more now than ever. Students and families are in need of community resources. To manage the wave of demand, our district has added a social worker. Though needed, the additional student support services staff has increased managerial needs, such as data collection, spreadsheets tracking student needs, transportation, SEL curr., etc..			

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ○ Yes ⦿ No				$ 0.00
	* ⦿ Yes ○ No	In response to a loss of ADM and funding in our district caused by the Corona virus ACS will use ESSER funds to continue to employ existing staff: 4 teachers and 3 teacher assistants.	August 2021-June 2024	Unbudgeted_____ will be kept to cover unexpected costs associated with the reduction and response to the impacts of COVID-19 on school operations and services. Indirect cost will also be found in this category.	$ 2,498,066.00

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.					
				Total ESSER III Allotment	$ 6,533,905.35

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.

*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Alexander County Schools (020) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

 There are no new applicants.

Alexander County Schools (020) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Alleghany County Schools (030) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

NEEDS ASSESSMENT A needs assessment was carried out as part of a systematic process for determining and addressing needs, or "gaps" between current conditions and desired conditions or "wants". The difference between the current condition and wanted condition helped identify the need(s). Date Reviewed: 4/26/2021 Stakeholders included the District Leadership Team, School-Based Administrators and School Improvement Teams. Reviewers included Missey Weaver, Scott Carter, Heath Vogler, Steve Hall, Melissa Fitzgerald, Gerald Miller, Dustin Webb, Stacy Miller, Melissa Vestal, Sherrie Hines, Travis Sturgill, and School SIT Teams. Plan to Address and Assess Learning Gaps: Offer summer learning for at-risk students being identified and encouraged to attend Purchase tiered resources to include core, supplemental, and intensive curriculum across multiple grade levels/content areas to ensure equity across grade spans. Provide integrated STEM and project based learning professional development for teachers and purchase STEM instructional resources Contract with content specialists to provide instructional coaching/data analysis in areas with excessive learning loss. Purchase additional resources/supplies/materials across grade spans and curriculum areas as needed to enable more hands on learning. This will address learning loss while reducing virus transmission by allowing students to work alone or with smaller groups. Provide professional development to reduce and close instructional gaps Provide stipends for staff to participate in summer offered professional development Instructional gaps and gains will be determined through formative and summative assessments including iReady, NC Check-Ins, EOGs, CTE assessments, CTE Credentials, and EOCs. Current Conditions (What is/ What are we doing well?): Grade level/content area planning and collaboration Good communication Data rich 3-5 Consistent Core Curriculum Technology rich Use of Evidence-based programs and interventions K-5 Student centered district (Whole Child) Highly qualified staff Global Schools & Leader in Me Work closely with community agencies and businesses/industries Identified Needs/ Gap: 6-12 Core Curriculum (Math, ELA,

Science, & Social Studies) 5th Grade Science Core Curriculum Need for engaging instructional resources Limited outside learning environments Extra classroom library books needed of various genres High number of students in tiered interventions (tier II, tier III, and EC) due to COVID and learning loss Lack of supplies, materials, and resources for individual student use to accommodate for hygiene/physical distancing. Not a true technology 1:1 district. Need funding to replenish and extend what we currently have in place. Improved integrated STEM instruction Need for improved audio/visual devices/communication platforms for both face-to-face and virtual instruction/outreach Lack of K-2 Core ELA Lack of furniture to accommodate for appropriate spacing (physical distancing) Current appliances are out-of-date & lack proper sanitation Need for curriculum coaching Increased need for an additional school nurse Need for additional support staff to clean schools Need additional mental health support staff Improved sanitation and air quality systems Desired Conditions (Wants): Identified Core Curriculum Resources for engaging instruction & PD for how to use it effectively Outdoor learning environments/opportunities Reading material K-12 (Classroom Libraries) Tiered Interventions Individual supplies, materials, and resources Student devices STEM Instructional Resources/PD/facilities Voice Amplification System Identified ELA Core Curriculum for K-2 Purchase additional furniture as needed Upgrade commercial washing systems for cafeteria and athletic locker rooms to improve sanitation Contract with curriculum specialists Contract with a school nurse Contract with a cleaning service Contract with mental health support staff Purchase supplies/equipment to sanitize and reduce the risk of virus transmission Purchase and install upgraded HVAC and ventilation systems to include windows and doors

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Data collected from our local needs assessments indicates we have weaknesses/gaps in tiered resources to include core, supplemental, and intensive curriculum across multiple grade levels/content areas. There is also a need for supplies, materials, and resources to appropriately accommodate for physical distancing while enhancing learning opportunities. While Alleghany may be technology rich, we are not a true 1:1 district and lack of devices and other technology tools limit our students ability to learn and close academic gaps. Due to Covid there is also a need for additional staffing to include healthcare workers, mental health support staff, curriculum support, and custodial staff. In addition stakeholders recognized the need for enhanced learning environments to promote learning opportunities for students while reducing transmission risk. While conducting this needs assessment the need for improved sanitation and air quality became apparent throughout all school facilities.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 745,158.80 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Alleghany County Schools will use the following assessment measures to assess all students' academic progress and assist teachers in planning and implementing differentiated instruction: iReady NC Check-Ins Summative Assessments (EOGs, EOCs) Dreambox Data Imagine Learning Data CTE Credentials

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

After obtaining baseline assessment data Alleghany County Schools will implement the following evidence-based activities/instructional strategies to meet individual student needs: Differentiated Core - Purchase core curriculum in areas of Math, ELA and any other areas of need. Tiered Interventions (e.g. Letterland Intervention, Touch Math, HillRap, Number Worlds, VMath, Language Live, Exact Path, Classworks) Research (Evidence) Based Programs/Practices (e.g. Imagine Learning, Dreambox, Go Math, Into Reading, Letterland, HillRap, Write From the Beginning)

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Alleghany County Schools will maintain effective communication and support with families to include: Open House-Face-to Face or Virtual dependent upon COVID restrictions/protocols Daily communication via Dojo, Remind, and Communication Folders Parent involvement nights in the areas of literacy, math, and STEM Migrant Coordinator provides support to Hispanic families Parent technology lessons Informational videos provided to parents via websites and social media Media communications

* (D) Tracking student attendance and improving student engagement in distance education;

Alleghany County Schools will track attendance through: Zoom Attendance Program Sign In Program Usage (Tracking) Assignment Completion Alleghany County Schools will increase student engagement during distance learning opportunities by: Providing standards-based choice board activities Utilizing a variety of tech tools during on-line instruction Utilizing best practice instructional strategies for remote learning

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Alleghany County School will measure academic impact via: Formative and summative test scores to include iReady, NC Check-Ins, EOGs, CTE assessments, CTE Credentials, and EOCs

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds.

For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ○ No	To increase physical distancing and reduce virus transmission Alleghany County Schools will: Purchase additional furniture to enable more physical distancing in the total school environment Create/build/purchase outdoor learning structures Purchase additional equipment for food services Renovate existing water access points for fountains and coolers to incorporate touchless water fountains. Upgrade commercial washing systems for cafeteria, nurse rooms, and athletic locker rooms to improve sanitation	July 1, 2021- September 30, 2024	COVID transmission and quarantine numbers evidenced through tracing and ABC Collaborative	$ 450,000.00

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ○ No	The following preventive measures will improve air quality and reduce virus transmission: Add, where not already present, HVAC systems with virus filtration and upgrade existing HVAC with virus filtration systems. Install air filtration systems in CTE shop areas throughout the district to improve air quality and assist in overall ventilation. Replace/repair existing doors and windows that are damaged within the school buildings.	July 1, 2021- September 30, 2024	COVID transmission and quarantine numbers evidenced through tracing and ABC Collaborative Engineer stamped improvements will provide evidence of improved indoor air quality	$ 700,000.00
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ◉ Yes ○ No	The following measures will aid in preventing, preparing for, and responding to Coronavirus: Contract with a healthcare worker to improve coordination responses and/or employ additional healthcare workers and/or provide additional duty/extended day stipends.	July 1, 2021- September 30, 2024	Contact tracing spreadsheets (healthcare worker works in conjunction with the local health department to determine quarantine times for students and staff to return to work or school)	$ 91,592.00

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◉ Yes ○ No	The following activities will improve outreach and service delivery among our special populations: Provide additional instruction/support for students through an instructional coaching position. Provide an EC/Special Populations/MTSS Coordinator for K-12. Expand our special population staff for K-12 to reduce caseload size and improve service delivery. Purchase supplies, materials and specialized equipment to assist learning with our Special Populations Students. Contract/Employ tutors/mentors to provide support to special population students during the school day.	July 1, 2021-September 30, 2024	Formative and summative test scores to include iReady, NC Check-Ins, EOGs, CTE assessments, CTE Credentials, and EOCs.	$ 400,000.00
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◉ Yes ○ No	In order to improve preparedness and response Alleghany County Schools will: Contract with an outside cleaning service to sanitize facilities. *Even though money has not been budgeted for this area an amendment may be used at a later time	July 1, 2021-September 30, 2024	COVID transmission and quarantine numbers evidenced through tracing and ABC Collaborative	$ 0.00

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ⦿ Yes ○ No	Alleghany County Schools will provide professional development opportunities for staff focused on sanitation procedures and minimizing the spread of Coronavirus.	July 1, 2021- September 30, 2024	COVID transmission and quarantine numbers evidenced through tracing and ABC Collaborative	$ 10,000.00
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ○ No	Purchase needed supplies to sanitize and clean facilities.	July 1, 2021- September 30, 2024	COVID transmission and quarantine numbers evidenced through tracing and ABC Collaborative	$ 50,000.00
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ⦿ Yes ○ No	In order to plan for and coordinate activities during long-term closures Alleghany County Schools will: Purchase assistive technology and/or adaptive equipment for remote instruction. Purchase audio/video enhancement for in-classroom instruction as well as at-home remote instruction to assist with learning loss.	July 1, 2021- September 30, 2024	Attendance and completion of assignments during long-term closures Program usage reports MCNC reports reflecting bandwidth and usage	$ 400,000.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ⦿ Yes ◯ No	Alleghany County Schools will purchase educational technology to: Improve or update existing technology in response to learning loss in order to reduce downtime and improve access. Provide equity across the district by ensuring all students have the same equipment. Add technology devices as an extension of what we currently have in place to accommodate a true 1:1 initiative.	July 1, 2021- September 30, 2024	Program usage reports MCNC reports reflecting bandwidth and usage Attendance and completion of assignments during long-term closures	$ 320,751.00
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ◯ No	Alleghany County Schools will improve existing mental health services and supports by: Contracting with community mental health agencies to provide school-based mental health services Expanding student services staff to include psychologists, school counselors, and social workers. Provide professional development in order to train all staff in how to recognize and respond to mental health issues/concerns among our student population.	July 1, 2021- September 30, 2024	SEL/Mental Health data including SEL screener results, SHAPE assessment results, FAM-S, district created SEL/Mental Health Service Tracking Tool, local SEL/Mental Health Needs Assessment and YRBS	$ 70,000.00

| SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care. | * ○ Yes ○ No | Alleghany County Schools will implement the following measures for summer learning: Contract with all required staff to provide summer school learning opportunities for all students. Provide bonuses for all eligible staff members who provide summer learning opportunities for students. Provide snacks and water to students who participate in the summer learning program. Purchase resources/supplies/materials across grade spans and curriculum areas as needed to enable more hands-on learning. | July 1, 2021- September 30, 2024 | Pre and post test results of competency-based assessment (iReady), grade level promotion/retention data, and Credit Recovery data for 9-12 Attendance data | $ 350,000.00 |
| | * ○ Yes ○ No | | July 1, 2021- September 30, 2024 | District Created Survey Appalachian Evaluation Survey Pre and post test results of competency-based assessment (iReady), grade level promotion/retention data, and Credit Recovery data for 9-12 | $ 138,292.20 |

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		Alleghany County Schools will utilize Appalachian State University BT services for beginning teacher support to provide professional development in student learning loss and best practices. Alleghany County Schools will fund extra duty stipends/pay using ESSER funds for the purpose of reducing class size in the attempt to minimize virus transmission and, at the district level, for the management of ESSER. Provide stipends for teachers to attend summer workshops/curriculum development days.			
			Total ESSER III Allotment	$	2,980,635.20

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.

*	✓	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✓	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✓	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✓	Funds shall not be transferred into or out of this allotment category.
*	✓	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Alleghany County Schools (030) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - New Applicant Summary

There are no new applicants.

GAN Information

Alleghany County Schools (030) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Ashe County Schools (050) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Ashe County directors and administrators meet on multiple occasions to discuss the needs of our students. Each Wednesday of every month we have meetings to discuss needs. The months of March, April and May have been dedicated to meeting to brainstorm and discuss ways to mitigate learning loss along with problem solving solutions to meet the needs of the whole child. Ashe County is also in the process of developing a new strategic plan that will go into effect in August 2021. This has allowed us to gain insight from parents, teachers, administrators, community leaders, board members and students as we assess our needs and problem solve ways to improve. We also sent a parent survey in April of 2021 and the results also helped us determine how to best use our ESSER funds. To determine the most important educational needs as a result of the disruption in educational services due to COVID 19, we also analyzed multiple pieces of data. Our most alarming data comes from a large number of at-risk students or students needing credit recovery. Each of our three elementary schools reports higher than average numbers of students who need to attend summer learning: Mountain View Elementary School- 250 invited to summer school, Blue Ridge Elementary School- 275 invited to summer school, Westwood Elementary- 180 invited to summer school, Ashe County Middle- 80 invited to summer school, Ashe County High School has the most alarming numbers: Students

Failing in Fall Semester: 1 Class: 92 2 Classes: 42 3 Classes: 45 4 Classes: 72 Students Failing in Spring Semester (Q3): 1 Class: 101 2 Classes: 84 3 Classes: 56 4 Classes: 14 Quarter three benchmark assessments also demonstrate a drop in proficiency overall for our district as compared to last year's check in data. Schools also have charts demonstrating grades pre and post COVID and it is evident that more students are struggling academically and mentally-even those who may not have struggled in the past. While we do see that preliminary Summer Learning Extension Program Results show growth for many students, we know that learning loss was widespread and that not all students accepted the invitation to the Summer Learning Program. EOG scores in math and science at all grade levels demonstrate a drop due to loss of learning due to COVID: (see sampling below) 2018-2019 Math 2020-2021 Grade 3 63.2% Grade 3 50.0% Grade 4 66.1% Grade 4 39.9% Grade 5 69.3% Grade 5 53.2% Grade 6 80.5% Grade 6 62.0% Grade 7 73.6% Grade 7 60.7% Grade 8 67.8% Grade 8 54.9% 2018-2019 Science 2020-2021 Grade 5 90.1% Grade 5 73.0% Grade 8 91.7% Grade 8 86.5% As we progress and map our needs for math, we will examine the need for math specialists at each school. Ashe County was fortunate to bring back our K-5 students four days a week early in the school year. However, inclement weather often prevents students from going outside and the gymnasiums must be used in order for students to get much-needed physical activity. None of the three elementary schools have proper air or ventilation in the gym which inhibits us from providing the safest and healthiest environment for our students. Jerry Baker, head of Safety and Maintenance conducted a needs assessment at the building level. He and the administration of each building discussed the need for proper air/climate control in the gym. Many of our most at-risk students are not only struggling academically but are in need of counseling and SEL. Student threat assessments demonstrate a need and our Gaggle Alert system increased 75% over a two-month period with our 6-12 graders who were on Plan B (Two days Face to Face and three days remote). Children in foster care has risen from 50 students to 75 students this school year. COVID closures and remote instruction has prevented our direct early involvement in at-risk situations and students being in isolation has caused abuse to escalate. In a teacher survey from the 20-21 school year, teachers highest need was "How to design engaging lessons." The third highest need according to the survey was providing and integrating social emotional instructional practices along with meeting the needs of Tier 2 and 3 students both online and face to face. Teachers and administrators also reported that the most challenging aspect of online learning was student engagement. COVID has also highlighted the need and importance of school nurses. During the second semester of the 2020-2021 school year we were able to use funds to hire a nurse extender part time for the middle school (the only school without a school nurse). In order to provide In a teacher survey from the 20-21 school year, teachers' highest need was "How to design engaging lessons." The third highest need was providing and integrating social-emotional instructional practices along with meeting the needs of Tier 2 and 3 students both online and face to face. We know that we must provide professional development to help teachers learn how to motivate and engage students while getting them back in the routine of traditional school during traditional school hours. During the 20-21 school year, COVID guidelines and regulations stressed the need for proper air quality. In two of our older elementary schools, a large majority of the window do not open or close properly. Many

do not have screens and when the windows are open in order to improve air quality, bees, insects and even an occasional bird gets into the classroom environment. Through safety needs surveys, email conversations, and expressed concerns from school administration and teachers, we see a need to replace the windows in those two elementary schools to allow better air quality and room climate.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Based on the data above, Ashe County Schools has determined the following: -Summer learning offered to K-12 students for the next two summers (2022, 2023) is a necessity in order to mitigate the loss of learning and fill the learning gaps of students. One summer (2021) of providing K-12 the opportunity is not enough to mitigate all the issues caused by remote learning and school closures. -Twilight School for high school students is necessary to help students have the flexibility to work and stay in school. This "school" would operate for two hours in the evening for students in grades 9-12. This will also be a time to recover credit and get students back on track with their graduation cohort. Without this extra opportunity to recover credit, some students will not graduate on time or at all. -One Lead Innovator of Student Success position (12 months with benefits) who will not only work with students but train our teachers in order to build capacity for the future. These positions will help with engagement strategies so that current and new teachers know how to create a culture that makes students want to attend school. Teachers need to learn SEL and engagement strategies that help them create an environment where students want to come to school and be educated for the future. With the high levels of students failing at the high school level, we must work to mitigate the student's disengagement and help them see a purpose in education. We would also need to provide materials and supplies for this position. -Extra tutors who are trained by NC Ed Corp to work with early literacy in our elementary schools (2 tutors per school). This is high-impact tutoring that requires tutors to be trained in the Science of Reading and other vetted programs. -Two tutors for our middle school to help fill learning gaps through small group and individualized instruction -One tutor for our ELL population who will work with students both in the face-to-face setting and Ashe Online. Due to the rising number of ELL population who are now considered at-risk, we need another tutor who can help with a small group and individualized instruction. -Extended day tutoring conducted by highly qualified teachers who will work after school to help students fill the learning gaps in reading and math -STEM coordinator for our Ashe Online school who will also plan engaging and enrichment activities for our elementary students to help them apply their learning in a relevant manner. This is an effort to mitigate the disengagement from virtual learning and closures. We also need a budget for supplies and materials that will support the STEM activities/program. -STEM Bus Facilitator will be needed to travel and teach lessons that engage students at all schools in our district. Knowing that

disengagement is one of the biggest needs, we must have a stronger application, hands-on learning piece to all of our lessons in order to get students to see the relevance to school and learning. -Professional Development to help teachers learn how to develop engaging activities for each content area- Teachers in grades 6-12 will participate in in-depth training that helps them learn to design engaging lessons to help mitigate the disengagement caused by hybrid learning and school closures. We are starting with 6th-12th since they remained on Plan B (hybrid with 2 days F2f and 3 days remote). Phase II of the training will include grades Pre-K-5th grade -Mental Health Strategies Training for all staff will occur over a two-year period. This training has been requested but is supported through an increase in the number of at-risk students as reported by Student Services. -Digital Learning materials and software to allow Ashe Online students to continue engaging and effective learning. -Due to the rural landscape, hotspots are necessary for certain areas to allow students to be able to access the Internet for online learning. -Professional development and training for teachers in the area of interventions for Tier 2 and Tier 3 students since we have an increase in the number of students who show learning gaps. -Mental Health Therapist that will work at each of our three elementary schools. This is due to the increase in number of student thread assessments, Gaggle alerts and reports of at-risk behavior have risen since March 2020. -School Nurse position at Ashe County Middle School. It was detrimental for this school to not have an assigned school nurse during COVID. This position will allow the administration to focus on instruction and management and free them up from COVID tracing and tracking and provide a safer environment for our middle school students as the nurse will help mitigate the spread of viruses by screening students who have symptoms and allowing them to receive care outside of school rather than catching it later in the day when germs have been spread in multiple locations. .

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 2,378,417.29 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

In grades K-8 we use iReady a Comprehensive based assessment. This program allows individualized instruction. We have used this program in math and reading for six years and our teachers have been trained and will continue to be trained on how to use the program to fidelity. We also use NC Check-Ins in reading, math, and science in grades 3-8. This extra formative data is used with other data points and analyzed in PLC teams and school improvement meetings to help gauge needs and pathways of instruction for our students. Starting in the 2021-2022 school year, our high school will begin using Mastery Connect to conduct formative consistent assessments in all EOC courses (Math I, Biology, Math III, and English II). We will use Exact Path for other subjects and focus on training the teachers on how to use unit recovery rather than whole class credit recovery. With the focus on helping students catch up and deal with issues before the complete failure of a course, we have improved their chances of graduating with their cohort. We have also rearranged the high school schedule so that all teachers can meet as a department during their planning so that they can share data and effective lessons that demonstrate growth. This shared community will give time for data analysis but will also allow time to coach those teachers who are showing consistently low scores with their students. This also will give teachers a focused agenda and time to dig deep into student data so that during Husky Hall (homeroom), students can be pulled into small groups according to needs. We also plan on allowing students to focus on life skills, college prep, resume writing, applications to scholarships, or jobs, etc. during part of the Husky Hall Time. These strategies will benefit all students but provide equity for those populations that are most at-risk due to these types of assessments pointing out personalized needs. Our response is to analyze and provide time and materials to fill the gaps.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

We use MTSS universal screeners with our students. Based on where students place within those screeners, they place as Tier 1, 2 or 3. Interventions that are researched based are used to help meet student needs. For interventions, we use vetted researched based and proven successful over time strategies and programs. Because we've seen positive results from these programs over time, we will continue to use those programs. We will also train our teachers in the area of how to create and teach engaging lessons. This professional development will take place in phases. Our core 6th-12th teachers will being the training in 2021-2022 and it will continue into 2022-2023. Phase II will bring in core subject K-5 teachers. We decided to train our teachers in phases due to K-5 needing to focus on the state's Science of Reading initiative. The third phase will train our enrichment and CTE teachers. Not only will we provide the training, but we will allow time in PLCs to discuss the strategies and share results within each department thereby helping promote growth in our teachers. We also know that SEL is an important component of students having a well-rounded educational experience. Within the engagement training, we will also stress the importance of effective and purposeful feedback. One of the biggest lessons learned through school closures is that without consistent and purposeful feedback, assignments lose their relevance and purpose. Another focus and need Ashe County has is for more STEM oriented classes and opportunities. To gain student engagement and excitement about learning, we are

hiring a STEM Teacher for our Ashe Online students who will also serve as a STEM Coordinator to build capacity in our teachers as we train them how to integrate STEM into their own content areas. This person will also serve in a rotation for our 5th and 6th grade students in order to increase interest in our current CTE programs and pathways. The classes that have product or project based learning are the classes that will reengage our students and help keep them in school.   Our MTSS screener will also identify students who have specific SEL needs and we will use our programs to help students with those areas of growth. To build capacity, we must also train our teachers to be equipped in how to integrate SEL strategies into their core content areas. We will continue to use a consistent LMS for our online classes as well as classes within the school building. We have been a district that has used Canvas for five years and the pandemic demonstrated that it is imperative to have a consistent tool ease management of lessons, announcements, communication and feedback. In order to meet the health and safety needs of our students, we need to hire a school nurse at our middle school and a mental health therapist who will work a rotate days at each of our three elementary schools. In order to be effective with personalizing instruction for students, small group instruction is most effective. Not only will we employ tutors during the school day to work with individuals and small groups, but we will offer extended day tutors and hire our highly qualified teachers too use researched based strategies to help our at-risk students get on or closer to grade level. Due to our current number of at-risk students and number of dropouts, we are incorporating a Twilight school at the high school level and stronger transitions from 6th to 7th grade and 8th to 9th grade through our summer programming. The Twilight school will allow students to recovery needed credit, but also allow flexibility to those students who are having to hold a job to help their families. By employing a drop-out prevention specialist, we will not only recruit students who need this opportunity, but we will also build capacity in our own high school teachers as this person will also train teaches and staff on how to prevent drop outs. Having highly qualified teachers who build relationships with students is the key to mitigating the gaps caused by COVID, but we also know that when we put effective materials and tools in the hands of those teachers, wonderful opportunities can be created for our students. Our curriculum and technology director have been monitoring usage and surveying teachers (both through verbal, written conversations and digital surveys) to decide which materials and tools need to remain consistent in our district. ESSER funds will help us purchase or continue services from those programs/tools. ESSER III has allowed us to leave some money unbudgeted so we can have more time to plan and address needs as they arise. We have plans to form community partnerships that allow for clubs and internship that will help our students see relevance and find a connection. However, we need more stakeholder input and time to create a plan that will work best according to needs we see during the next school year.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

We will follow our protocol of making sure families stay informed. We use multiple modes of communication through Remind App, Connect 5 call messages, email, district and school websites, phone calls and paper notifications. We

also have Town Hall meetings where parents and community members can listen to information and then ask questions. We did this several times during school closures and then with our Ashe Online students, teachers, and parents. We provided tech support for parents all year for remote days, inclement weather remote days, students on Plan B, and our Ashe Online students. They could call in for help or go to the school website and create a Tech Help Ticket. We also offered times for parents to come in on a one-to-one basis to be guided through how to use the LMS and other digital programs. We will continue to offer these same opportunities to parents. We also created Digital Flipbooks (which can also be printed) for students clarifying expectations for teachers, students and parents in both an all online setting and a hybrid setting. We are also planning to have sessions for parents on cyber-safety and social emotional support as well as health and wellness. In our strategic plan (currently being created), a focus area is personalization. A goal that falls within this focus area is to start a Parent Engagement Focus Group at each school. Each school will be expected to have an equal representation of the district population in the group. These school groups will be stronger and more involved than the traditional PTO. They will help problem solve and become ambassadors and spokes people for our district as we try to encourage all families to engage and build relationships between the school , home, and community. We also use social media sites to highlight information and recognize our strengths. We have also started a positive campaign that highlights teachers and students on Facebook. This has received a very positive response from our parents and the community. We are working to make sure families and the larger community knows we are partners and that the partnership is essential to help our students achieve their goals.

* (D) Tracking student attendance and improving student engagement in distance education;

Due to lessons learned from school closures from COVID-19 in March of 2020, we alerted all stakeholders to the importance of keeping thorough records for attendance. While we will continue to use PowerSchool as a district to track attendance, we have protocols in place to help us track students who do not attend school. If a student is physically absent from the building or has missed two or more assignments online and not completed daily check-in, the student and/ or parent is contacted. When teachers see a trend, they communicate this to the school counselors, if that does not solve the issue, then administration is contacted and district Student Services become involved (social worker, Student Services Director, Student Success Coordinator). We were able to hire an Attendance and Student Engagement Coordinator part time (20 hours per week) who has helped track down students who have poor attendance or chronic absenteeism. Continuing her position is imperative so that school administration can focus on ensuring instructional leadership rather than becoming truant officers. As mentioned in the above letter B, we are also going to be starting some long-term and consistent training for our staff concerning how to create engaging lessons and give purposeful feedback. Once these strategies are in place and being done to fidelity, we predict the number of students truant will decrease. We must put all of the resources together to create a culture that serves the whole child. All of these ideas are interconnected. We must have strong organization structures and processes, academic

excellence, developmental responsiveness, and social equity. If those things are in place, students will reengage with school and realize the importance of education.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Our schools have either created a spreadsheet to use for analyzing this data or are in the process of creating a spreadsheet for at-risk students or students who seem to be struggling in other areas in order to help them. We have also identified all at-risk students grades K-12 and are tracking their progress. We know that this data (grades, test scores, attendance reports, student services reports) will be necessary as we closely monitor these students as they progress from grade to grade. We were able to hire an Attendance and Student Engagement Coordinator part time (20 hours per week) who has helped track down students who have poor attendance or chronic absenteeism. Continuing her position is imperative so that school administration can focus on ensuring instructional leadership rather than becoming truant officers. Our drop out prevention specialist will also help with the task of analyzing and tracking data over the next years to make sure we do not miss or "lose" a single student.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ⦿ No				$ 0.00

11/9/2021 11:43:46 AM

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ◯ No	We will do a total window replacement in two of our older elementary schools due to a large majority of the windows not opening, closing or both. Many of the windows do not have screens and it is a necessity to be able to open the windows to allow proper ventilation and air circulation.	When supplies are available it will take two months	Feedback from administration and teachers concerning better air exchange and the ability to open and close windows that formerly could not do so.	$ 675,320.00

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$ 0.00
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ◉ No				$ 0.00

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$ 0.00
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$ 0.00
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	In order to maintain proper sanitation the meet our local and state DHHS guidelines, we will continue to purchase the needed PPE for our schools and students.	2022-2023-purchase supplies as needed		$ 200,000.00

				Impact measures will be demonstrated as evidenced by clean school environments that have proper signage and equipment to help stop the spread of viruses. With proper cleaning, the data should show little to no school spread as we have witnessed in the 2020-2021 school year.	

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ◯ Yes ⦿ No				$ 0.00
	* ⦿ Yes ◯ No		2022-2024- as machines go out of life	Educational technology including 1:1 devices and specific educational software offers both students and teachers many opportunities to innovate with teaching and learning. Providing	$ 512,933.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		In order to provide equity with within a one to one environment, we will do a replacement of laptops as new freshmen enroll every school year. This also includes preparation of the devices and needed for community hotspots or personal hotspots for the few students who live in the most rural areas of our district.		equitable devices for all students greatly benefits not only the instructional program, but also those students who are financially challenged or minority students, thus leveling the educational playing field. Along with securing devices for students, another priority is to ensure that connectivity is not a barrier	
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ◯ No	In order to provide mental health services across the board to our district, we need a mental health therapist to serve our three elementary schools. Due to the rising number	2021-2024		$ 366,973.00

		of mental health needs at the elementary level, we need to make sure all students needs are met in order for them to achieve academically. Without focusing on the whole child, we are not going to help our students recover from the challenges that have occurred during school closures and hybrid instruction. We also fee like Maslow's levels of needs must be met and in order to provide the safest and healthiest environment for our students, we need a school nurse to serve Ashe County Middle School in order to have		Impact measures will be demonstrated through service and contact logs that show the number of times met with students and data logs or summaries of outcomes of situations.	

		personnel that can spot symptoms before they are spread by evaluating symptomatic students as early as possilbe.			
SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ○ No		June and July of 2022, June and July of 2023		$ 359,280.59

| | | ESSER II Funds will help us meet the requirements of HB 82 but more importantly will help fund a robust summer learning experience with enough staff to help students at all levels K-12. This will help benefits all students by allowing them extended learning. These funds will help purchase materials, pay staff, transportation costs, bonuses, and materials needed for engagement and enrichment. (STEM Kits). | | Impact measurements will be demonstrated through the CBA for grades K-8. The number of at-risk students who attend and achieve credit recovery and pass the EOCs. We will also track attendance and match that to the data from the summer learning program. We will also track the progress of students who attend multiple years of summer school to have data to support high yield tutoring and services. It will be necessary to keep track of all services provided to at-risk students longitudinally. | |

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ◯ No	Indirect cost	Indirect cost	Indirect costs	$ 100,325.12
				Total ESSER III Allotment	$ 2,214,831.71

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

There are no new applicants.

GAN Information

Ashe County Schools (050) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Avery County Schools (060) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Stakeholder meetings (3/16/2021, 4/15/2021, 4/26/2021) were conducted in order to develop this plan and identify needs in the district. The group of stakeholders included district level leadership as well as school level leadership. Stakeholders reviewed school improvement plan needs assessments, as well as district-wide data, including iReady results in K-8 reading and math, student attendance data, high school course passing rates, enrollment trends, and COVID tracking data including number of cases, student and staff contact-tracing numbers resulting in quarantines. Avery County Schools has used student iReady data to make decisions and intends to use iReady data to identify students' needs and learning gaps due to the Covid 19 pandemic. Mid year data results showed 53% of students reading below grade level and 62% of students performing below grade level. IReady assessments at the end of the year will be used as a baseline for K-8 performance. Assessments will be given in the 2021-22 school year at the beginning of the year, middle of the year, and end of year. Additional metrics include the tracking of student attendance, EOG/EOC performance, and high school course passing rates.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

As a direct result of the pandemic, Avery County Schools has experienced a 9% loss of enrollment (112 students) from March 2020 to March of 2021. Many of these students have withdrawn to attend homeschools, which we expect to return in the fall of 2021. Classroom teachers and support staff will be needed to respond to the needs of these students returning to school. Current academic levels of students also show large learning gaps for students. 2020-21 Mid year iReady data results showed 53% of K-8 students reading below grade level and 62% of K-8 students performing below grade level. These data are being used as guidance for summer school programming, adjustments to core instruction (class size instructional materials, and supports) and intervention. End of Year assessments, along with EOG/EOC results will also provide guidance for next steps. At the high school level, increased levels of student failures have been noted. First semester failures were at 9%, totalling 210 courses. Efforts will be made for students to recover credit and/or repeat courses to remain on track for graduation. Attendance rates this year have been much lower than in years past. The rates do not include students who have been transitioned to remote instruction due to quarantine but general absences. Through the first seven months of school, attendance rates are 2.5% lower (93.5% from 96%) than historical norms. Our most recent months rate from the Principal's Monthly Report (PMR) shows an attendance rate dropping to 90%. These student absences widen instructional gaps for students.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 1,573,305.18 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

K-8 students are administered iReady assessments in Reading and Math at the Beginning of the Year (BOY), Middle of the Year (MOY), and End of the Year (EOY) to identify at risk students. High Schools monitor student grades,

attendance, and office referrals to identify at-risk students. Once at risk students are identified, staff differentiate instruction for learners below standard in a combination of direct instruction, small group, and intervention groups in the areas of need. Student progress throughout the year is monitored by each school's MTSS process (Multi-Tiered System of Support) to problem solve and make adjustments to services, student groupings, and overall levels of support. Additional assessments, such as running records, easy CBM, CORE reading assessments, Lindamood Bell assessments, etc. are given to students to assess progress in the area of intervention given. Avery County Schools intends to operate a Summer Learning program to mitigate learning loss due to COVID-19 and provide remediation and enrichment. Transportation and lunch will be provided for the program, held on the campuses of Freedom Trail/Cranberry Middle School, Newland Elementary, and Avery Middle School. At risk students have been identified in accordance with G.S. 115C-105.41 with letters to parents disseminated for invitation. Schools utilized iReady data, attendance data, and classroom/course grades to identify at risk students. Students at the high school will be identified as a result of failures in EOC courses, or students identified as off track for cohort graduation. Additional information below in Part D: Summer Learning.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Avery County Schools (ACS) implements a number of evidence-based activities to meet the needs of students. Beginning in the fall of 2021, ACS will join a cohort to have all K-5 staff trained in the Science of Reading. Additionally, the district is beginning training with Lindamood Bell (listed in the federal What Works Clearinghouse) with elementary school staff. ACS also has a long standing relationship with the Hill Center https://www.hillcenter.org/ for training in HillRap, HillWrite, as well as other evidence based instructional methodology. ACS utilizes MTSS teams at each school to identify student needs and place them in interventions corresponding to their area of need. Other specific activities include: 6 minute solutions for fluency, Heggerty, intentional small group instruction/tutoring, iReady My Path activities, etc.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Avery County Schools posts information on the averyschools.net website and district Facebook page. Additionally, the district and individual schools share information through the district LMS, currently Powerschool Learning, and transitioning to Canvas in the fall of 2021. The district and schools also utilize School Messenger to inform parents of coming events, announcements, and updates. Schools meet regularly with parents and host regularly scheduled PTO and parent events. Beginning in the fall of 2020, schools also began utilizing web conferencing, utilizing platforms such as Zoom and Google Meets to conduct parent conferences and information sessions. The utilization of both online and face to face sessions to ensure access for parents regarding student supports will be a continued practice moving forward. Online students are required to complete an orientation session prior to enrollment for the 2021-22 school year.

* (D) Tracking student attendance and improving student engagement in distance education;

Student attendance is tracked in Powerschool. Per ACS School Board Policy 4400, "The student's report card is considered notification of absences and tardiness. North Carolina General Statute 115C-378 requires that letters of notification that their student has accumulated three (3), six (6) and ten (10) unexcused absences per school year." School Messenger Alert system is also utilized to alert parents of student absences. Many efforts have been made to increase student engagement in distance education. New guidelines that outline successful attributes for successful online learning have been developed and shared with prospective online students for 2021-22. Professional development in digital tools, online web conferencing, and best practices in utilizing a Learner Management System (LMS) to support student learning have been offered to teachers. Teachers also utilize PLCs (Professional Learning Communities) to share effective practices to increase student engagement.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

K-8 students are administered iReady assessments in Reading and Math at the Beginning of the Year (BOY), Middle of the Year (MOY), and End of the Year (EOY) to identify at risk students. Results are compared beginning Winter of 2020, continuing through each of the testing windows in the 2021-22 school year and beyond. High Schools monitor failure rates, attendance, and office referrals to identify at-risk students. EOG/EOC results will be monitored, and compared against historical performance, as well as state and regional performance. Results will be compared to pre-pandemic levels across all areas to determine progress programmatically as well as for specific students.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ⦿ No				$

11/9/2021 11:44:37 AM

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ◉ No				$
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ◉ No				$
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ◉ No				$
	* ◉ Yes ○ No	Due to Covid, we must provide the funds necessary to continue our support for technological	September 2024	-Devices available for all students.	$ 358,718.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		technological capacity and access, including hardware and software, connectivity, and the instructional expertise needed to support in-person and remote learning for all students. Students depend on this infrastructure and devices for instruction. The pandemic has increased our dependence on technology. The shutdown of schools on 3/13/20-8/17/2020, in conjunction with periods of remote learning and student quarantine throughout the 20-21 school year created significant gaps in student learning. When students are forced to work remotely, their			

		school-issued device becomes even more essential. Avery County Schools do not own the devices used in our district and would like to purchase these devices to ensure access.			
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◯ Yes ◉ No				$
SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ◯ No	Avery County Schools is operating a 6 week K-12 Summer Learning program to mitigate learning loss due to COVID-19 and provide remediation and enrichment. The program will operate on the following dates: Session 1- June 7- 24 Mon- Thursday	August 2024	-Summer school attendance rosters (students and staff) -Pre-post learning assessments	$ 1,073,799.83

		8:00am-3:00pm; Session 2- July 12- 29 Mon- Thursday 8:00am-3:00pm. Funding sources for the program will be State PRC 016 Summer Reading Camp, State PRC 121 Summer Learning Program, and PRC 171 ESER II. Transportation and lunch will be provided for the program, held on the campuses of Freedom Trail/Cranberry Middle School, Newland Elementary, and Avery Middle School. At risk students have been identified in accordance with G.S. 115C-105.41 with letters to parents disseminated for invitation. Schools utilized iReady data, attendance			

		data, attendance data, and classroom/course grades to identify at risk students. Students at the high school were identified as a result of failures in EOC courses, or students identified as off track for cohort graduation.			
	* ⦿ Yes ◯ No	As a result of COVID, a number of students in ACS have experienced learning loss based on analysis of key data. To identify at-risk students, K-8 schools administer iReady assessments (Reading/Math) at the Beginning, Middle, and End of the Year; and the High School monitors grades, attendance, and office referrals. ACS is in need of	September 2024		$ 842,236.05

| **OTHER ESSA ELIGIBLE ACTIVITIES:** Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act. | | intervention assistance (tutors) in order to decrease the gap and effects of learning loss due. ACS will be implementing a focus on literacy (Science of Reading/Linda Mood-Bell), providing professional development for staff along with supplies and materials to decrease learning loss. ACS has experienced a drastic decline in enrollment due to parents withdrawing their children, choosing smaller, private environments. In an effort to maintain continuity of services in classrooms, ACS will provide support for the salary/benefits of | | -Completion of Professional Development -Intervention progress monitoring data for students -iReady data improvement -Course completion -Staff time and effort reporting -Devices available for all staff. This section includes - indirect cost of $164,670.89, and -unbudgeted of $0.56. | |

		salary/benefits of teachers and instructional staff through FY24 in an effort to respond to learning loss. Our staff rely on the technology infrastructure and the devices served by that infrastructure to create instruction and deliver it to students in both our on-campus and virtual learning environments. When staff are forced to work remotely, their school-issued device becomes even more essential. Avery County Schools do not own the devices used in our district and would like to purchase these devices to ensure access. Indirect: $164,670.89 Unbudgeted: $0.56			

| | Total ESSER III Allotment | $ | 2,274,753.88 |

Part E: Assurances

Check **all** *assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:*

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Avery County Schools (060) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

 There are no new applicants.

Avery County Schools (060) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Beaufort County Schools (070) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

The Beaufort County Schools has involved a variety of stakeholders in the development of this application. Specifically, the Superintendent has shared information about the grant to many stakeholders throughout the community including but not limited to the Board of Education, the County Manager, and the County Commissioners. Information about the grant has been shared with all principals. Moreover, a specific group of stakeholders met on Wednesday April 28th, 2021 to discuss the grant. Involved in that meeting were principals and classroom teachers from across all grade levels and attendance zones within the PSU. Additionally, the meeting was attended by the Superintendent and other district staff including the Chief Academic Officer and Finance Officer, along with the Federal Programs Director. Many of the aforementioned individuals are also parents within the PSU. As a follow up to this meeting, the Federal Programs Director followed up with several parents who did not attend the meeting as well as with two student stakeholders who represented two different high schools. The COVID-10 pandemic has had a tumultuous effect on our district. This disruption in educational services has led to learning gaps that have crossed every imaginable line or barrier affecting all students across all grade levels, geographic locations, and socio economic backgrounds. Our district intends to assess, address, and overcome these gaps through a variety of funding initiatives

taking full advantage of all allowable uses of funds for this grant, specifically the use of funds for addressing learning loss. We have vast needs in addressing learning loss. Students lost valuable time from in person instruction with a qualified teacher in their actual physical presence. It is purely logical that these needs can only be met by replacing that lost time. Our application will lay out a plan for time replacement through summer and after school learning plans. Additionally, as needed, we will also lay out a plan for remedial services within the typical instructional day as well. Other allowable uses of funds within the grant will allow us to assist in the major initiative of addressing learning loss. Facility repairs and improvements are such a use. There is a need to use funds in this area in order to attempt to prevent the spread of COVID-19. The application will support this need. Along the same lines, there is a need to improve air quality in efforts to prevent the spread as well. Additionally, stakeholders have identified specific needs with regards to training and the cleaning/sanitation supplies needed to keep facilities free of the virus. Our PSU is one of the largest property owners and the largest employer within the geographical area of our county. We maintain and operate: -   14 schools -   a main Central Office campus housing administration, finance, human resources, transportation, and curriculum -   an operations center housing plant operations, nutrition, and technology -   an annex housing Student Services, Mental Health, Federal Programs, Exceptional Children, and Preschool -   a professional development complex of two large meeting rooms. -   A fleet of over one hundred yellow school buses Stakeholders have also identified needs in coordinating and addressing preparedness and response to COVID 19 with regards to specific procedures and systems internally as well as coordination with other state and local agencies, externally. There are also additional needs for educational technology for in person learning and in the event that we are forced to close in response to a COVID 19 event in the future. Finally, there has been an increased need for mental health services in response to COVID 19 and our application will support its use as a funding strategy.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Data clearly shows that that our PSU has been affected by a huge loss of time in learning. The pandemic caused the PSU to be closed to in person instruction for the latter third of the 2019-2020 school year beginning on March 16th through June 5, 2020. This resulted in a loss of approximately 350 hours of in person face to face instruction on average for all students in our PSU. Moreover, the Beaufort County Schools began the 2020-2021 academic school year on 100% remote status, with no in person face to face instruction with the limited exception of students with intellectually moderate to severe cognitive and physical disabilities following the Extended Content Standards. While we truly believe that all BCS teachers delivered virtual instruction to the upmost best of their abilities, it is not the optimal form of service delivery. We believe that to be in person face to face instruction. This continued through

October 9th resulting in over 40 missed school days of in person face to face instruction or approximately 240 hours. A hybrid learning model began on October 12, 2020 allowing PK-5th graders to attend four days per week. While this model is safe in that it allows for deep sanitation efforts to take place every two school days, it does result in an average loss of seven hours of in person instruction weekly for all students enrolled in the PSU. Minimally this Wednesday loss will total 189 hours additionally per PK-5th grade child. Students in grades 6-12, due to state guidelines, were not allowed to move to the model until March 22, 2021, resulting in an additional loss of 703 hours on top of the 240 lost prior to October 9th. From there the Wednesday loss is an additional 56 hours. In looking at our PK-5 and 6-12 population, a conservative estimate is that a child, on average without respect to grade level, enrolled in our PSU for both the 2019-2020 and the 2020-2021 school year will endure a loss of approximately 1,070 hours of in person face to face instruction. This results in a grand total of nearly 6.5 million lost hours of in person face to face instruction due to the COVID-19 global pandemic. Since the beginnings of public education in this State over 180 years ago, there has never been a time of a greater loss of learning. Addressing learning loss is our focus but it can only be done in collaboration with other allowable grant uses. Data suggests that simply the age and condition of some of our properties are not conducive to the prevention of COVID-19. Several of our schools still operate with boilers and chillers which do not necessarily lead to optimal filtration of air when compared to new more efficient units. None of our facilities currently have touchless doors. Even handicapped accessible doors require touch. This can lead to virus transmission. Some of our newer facilities have touchless restroom fixtures and water fountains but not all. Again, this can lead to virus transmission. Certain populations of students have been disproportionately affected by learning loss including but not limited to low income students, students with disabilities, English learners, students experiencing homelessness, youth in foster care, and racial and ethnic minorities. Data suggests nationally, that these populations may have experienced higher percentages of students and families who chose to remain 100% in remote learning status even after hybrid learning began. We believe there is a need for principals to have specific resources to address the needs of those special populations in addition to the overall student population by site. In conclusion, the PSU has determined that in regards to overall needs in the efforts to prepare for, prevent, and respond to COVID-19, insufficient funds currently exist in order to allow principals flexibility with custodial staffing or increased custodial staffing in order to be able to revise sanitation procedures so that there is an increased frequency of cleaning and in order to be in adherence to any state and/or federal guidance received in response to COVID-19. Insufficient funds for additional sanitation supplies currently exist due to the demand for increased frequency of cleaning in order to be in compliance with any state and/or federal guidance received in response to COVID-19. Insufficient funds exist to plan for potential closures, specifically to plan for online learning, obtain mobile hot spots and online platforms, and to assist in meeting IDEA requirements under online learning during school closures. Insufficient funds currently exist to purchase additional hardware, software, connectivity, and assistive technology for use during a future school closure over and above what has currently been obtained. Insufficient funds currently exist to continue and to expand during school, after school, and summer school programs that will be necessary in order to make up for learning losses that

have occurred due to COVID 19. Insufficient funds exist to provide additional supports needed to any previously approved activities for students classified under federal law including but not limited to the Elementary and Secondary Education Act of 1965 as amended by the Every Students Succeeds Act of 2015, the Individuals with Disabilities Education Act, Carl D. Perkins Career and Technical Education Act of 2006 , Fostering Connections to Success and Increasing Adoptions Act of 2008, or the McKinney Vento Homeless Assistance Act.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 9,707,000.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Assessments are critical in determining the academic needs as well as progress of students. It is through their use we are able to determine how to instruct them as well as determine their overall performance. The global COVID-19 pandemic has made this difficult in public education due to school closures, lack of in person face to face instruction and the cancellation of certain state summative assessments in the 2019-2020 school year. Thus, we began the current year without current summative assessment data from the last. That will change for the current year as all state summative assessments will be conducted. We will use data from the End of Grade and End of Course Assessments to assess where our students are at the conclusion of this school year. Moreover, we will use the data supplied by the state for specific subgroups to further evaluate their performance and needs. These groups include but are not necessarily limited to our low-income students, children with disabilities, English Learners, racial and ethnic minorities. With our English Learners, we will use data from the ACCESS for ELs assessment with regards to that group's performance with the acquisition of the English Language. The various aforementioned summative assessments help us drive decisions about student promotion or retention and leveled group placement. We intend to use funds in combating learning loss in a variety of methods, including a summer learning program this summer and possibly over future summers. This program will be available to all students who need it. Determination of need will be

made by local promotion guidelines including summative assessment performance such as the End of Grade or End of Course assessments. We will operate a six week all day long program this summer using this strategy. In order to determine hopeful progress made by participating students, we will administer and use Beginning of Year assessment data at the beginning of the 2021-2022 school year. In addition to summative assessments, our PSU will also utilize formative assessments to measure growth and progress during the school year while we combat the learning loss effects of the pandemic. This will start with our youngest learners. We currently operate a 180 child preschool program funded by NC Pre K, Title I , and the EC program. In accordance with state requirements we use one of the state-approved four year old early childhood curricula, known as The Creative Curriculum. It is one of the most widely used pre-K curricula in the nation. It's comprehensive and research-based and features exploration and discovery as a way of learning. We use GOLD as our formative assessment for the Creative Curriculum. The assessment model used in GOLD follows widely held expectations for kindergarten preparedness and enables a whole-child approach to assessment. Our Preschool program shares data at year end with all Kindergarten principals so that it can be used in placement decisions. We use IReady data as pre and post assessment as it is also research-based. Many rigorous research studies meeting ESSA evidence standards demonstrated positive and statistically significant gains for students receiving i-Ready Instruction above that of their control group counterparts in both reading and mathematics on internal and external outcome measures. Additionally, mCLASS will also be used to determine groupings and service delivery both in summer and for after school and during school learning loss programs. mCLASS is an integrated, gold standard literacy system based on the science of reading that offers teacher-administered assessment and holistic instruction for grades K-6.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

We plan to use funds to implement a variety of programs and initiatives to combat learning loss and meet the needs of our students. As previously mentioned, there has been a tremendous amount of hours lost of in person face to face instruction due to the COVID-19 global pandemic. We believe that the main way to over come that loss of hours is to replace them with additional hours of instruction. Two of our main strategies in addressing learning loss will be Summer Learning Programs and After School Learning Programs. A six week all day long summer learning program will be held in Summer 2021. It will be offered to any child K-12 who is at risk of academic failure. It will be modeled on a typical school day. It will be funded at least in part by this grant. It will operate seven hours a day with transportation to and from the school sites provided by the PSU. Additionally both breakfast and lunch will be provided to all participants at no cost. Other important components of the program include: Math instruction (K-8) Reading instruction (K-8) Science instruction (3-8) A period of physical activity An enrichment activity Social-Emotional Learning supports The Summer Learning Program addressing learning loss will also integrate the Third grade Read to Achieve Summer Reading Camp. For the K-8 realm, here is a daily schedule that will address learning loss: K-2 Grade Daily Schedule 3 hours - Reading Instruction (Reading Horizons, RISE, Text Talk) 2 hours - Math 1 hour - Small Group Reading and

Math 30 min - Enrichment/ SEL 45 min - Lunch/ Physical Activity 15 min - Transitions 7.5 Hours Total/6.5 Instructional Hours 3rd Grade Daily Schedule 3 hours - Reading Instruction (Reading Horizons, RISE, Text Talk) 1.5 hours - Math 45 min - Science 45 min - Small Group Reading and Math 30 min - Enrichment/SEL 45 min - Lunch/ Physical Activity 15 min - Transitions 7.5 Hours Total/6.5 Instructional Hours 4-8 Grade Daily Schedule 1.5 hours - Reading Instruction 1.5 hours - Math 1 hour - Science 1 hour - Small Group Reading 1 hour - Small Group Math 30 min - Enrichment/SEL 45 min - Lunch/ Physical Activity 15 min - Transitions 7.5 Hours Total/6.5 Instructional Hours In the K-8 realm, we will use the Competency-Based Assessment System Tool provided by the Department of Public Instruction. BCS will partner with Cadence Learning for grades 4-8 Reading and Math curriculum and teacher support. In the high school realm, we will also address learning loss through a summer program. We will use credit recovery as a way for these youngsters to pass previously failed courses, including access to modules and teacher support. BCS will use Odysseyware for Credit Recovery Here is a schedule for high school students: EOC Daily Schedule 5.5 hours - EOC Course 1 hour - Enrichment/SEL 30 min - Physical Activity 30 min - Lunch 7.5 Hours Total/6.5 Instructional Hours We believe that this will be the most intensive and robust summer learning program ever held in our PSU and will definitely help us address learning loss from the COVID-19 pandemic. It will be staffed primarily by full time current PSU teachers, support personnel, and contracted service providers. After summer, we will turn our attention to the upcoming school year. We propose to fund an after school tutoring and remediation/enrichment program at all 14 sites in a continuing effort to combat the COVID-19 learning loss. This would be a program primarily held on Tuesdays through Thursdays for a couple of hours after school. Students would be provided a snack between the end of the regulars school day and the beginning of the after school tutoring. The after school program would be staffed by full time current licensed teachers employed by the PSU. We will use the same strategies, pedagogies, and programs as the summer program. Transportation home will be provided.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Parent and Family Engagement has long been a hallmark of our work with Beaufort County Schools. For years, our schools have worked hard and made significant strides in this endeavor. It has been and will continue to be a critical component of our work in addressing learning loss. If anything the pandemic has brought Parent and Family Engagement into the 21st Century. Over the past 13 months, we have seen a number of creative ways to foster our work with providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment. There has been a massive and monumental increase of the value, importance, and necessity of student support staff during this time. At the onset of the pandemic and through the period of required remote learning, our school social workers, counselors, nurses, therapists, and translators were stretched extremely thin. These are our front line staff in assisting parents and families in addressing learning loss. While all students have been affected by this, low-income students, children with disabilities, English Learners, racial

and ethnic minorities, students experiencing homelessness, and children and youth in foster care have been disproportionately affected. We have used partnerships with numerous community agencies to find supports for all students and families during this time. GEER funds allowed us to hire an additional school social worker through June 2022. We will propose using funds in this grant to extend that employment and to hire additional staff including social workers, counselors, nurses, therapists, and translators in efforts to foster good parent and family engagement in our efforts to address learning loss. Additionally, funding will be used to continue using platforms such as See Saw that allow for communication with families. We will continue issuing Alert Now calls, texts, and emails. We will also propose using funds to pay for supplemental postage and mailing costs due to the pandemic. We will also continue the wise use of our district website and our social media platforms to provide information and assistance to parents and families on how they can effectively support students, including in a distance learning environment.

* (D) Tracking student attendance and improving student engagement in distance education;

The COVID-19 Global Pandemic has further complicated the already challenging issue of student attendance and engagement, whether in person or in remote learning. This has made reducing learning loss even more challenging for all students but especially low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care. Nationally, data suggests that those groups have disproportionate numbers of students whose families have elected to remain in remote learning rather than returning to in person face to face instruction. Tracking student attendance and improving student engagement in distance education has been a challenge. Beginning last March, we have used various student support staff to help in this endeavor including but not limited to school social workers, nurses, counselors, therapists, and translators. At each school, counselors have kept track of students in remote status and their attendance. New attendance codes provided by the Department of Public Instruction for use in the PowerSchool program have greatly assisted in this endeavor. Our PSU requires that those students in remote status log in to their actual school class for at least a portion of the class period. This allows the classroom teacher to actually see whether the remote student is in attendance and engaged. That classroom teacher is then able to make a valid decision on the attendance code used for the attendance of their remote students in PowerSchool daily. Our call system sends out a call to parents in the evening of days that a child misses school whether in person or remote. When issues arise with attendance of students, the teacher makes a referral to the counselor who then makes a parent contact. Many times, this resolves the issue. However, in cases where it does not, the school social worker assigned to that school gets involved. Parent contacts, including home or virtual visits are made in which the importance of attendance is discussed as well as possible legal repercussions. There are sometimes underlying issues involved that contribute to the lack of attendance and engagement. School social workers are trained to identify and assist with such matters in an effort to resolve attendance and engagement issues. Many times, additional supports are needed form other staffers including therapists, nurses, or translators. Unfortunately, there are times when these efforts do not resolve the attendance and

11/9/2021 11:58:59 AM

engagement issues and we are on the cusp of having to take the parent to court. In an effort to mitigate that circumstance, our PSU has implemented a Juvenile Attendance Council. Instead of taking a parent to court, we first try to use the JAC to resolve attendance matters. JAC is used to problem solve attendance issues. It involves staff associated with the case from the school and district level. Additionally, two resident district court judges attend who are actively involved in plan development. The desire outcome of all involved, particularly the judges is to avoid going to court. While JAC began as a result of the pandemic, our PSU will continue the initiative. We hope to use additional funds from this grant to hire additional social workers and counselors to combat attendance and engagement issues due to the COVID 19 pandemic.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

All schools will continue tracking the progress of all students as all students experienced learning loss due to the COVID-19 pandemic. Of course, we will continue to track student course grades in the pre and post pandemic eras, but we will also rely on assessment data in order to determine student achievement levels. Assessments are critical in determining the academic needs as well as progress of students. It is through their use we are able to determine how to instruct them as well as determine their overall performance. The global COVID-19 pandemic has made this difficult in public education due to school closures, lack of in person face to face instruction and the cancellation of certain state summative assessments in the 2019-2020 school year. Thus, we began the current year without current summative assessment data from the last. That will change for the current year as all state summative assessments will be conducted. We will use data from the End of Grade and End of Course Assessments to assess where our students are at the conclusion of this school year. Moreover, we will use the data supplied by the state for specific subgroups to further evaluate their performance and needs. These groups include but are not necessarily limited to our low-income students, children with disabilities, English Learners, racial and ethnic minorities. With our English Learners, we will use data from the ACCESS for ELs assessment with regards to that group's performance with the acquisition of the English Language. The various aforementioned summative assessments help us drive decisions about student promotion or retention and leveled group placement. In addition to summative assessments, our PSU will also utilize formative assessments to measure growth and progress during the school year while we combat the learning loss effects of the pandemic. This will start with our youngest learners. We currently operate a 180 child preschool program funded by NC Pre K, Title I , and the EC program. In accordance with state requirements we use one of the state-approved four year old early childhood curricula, known as The Creative Curriculum. It is one of the most widely used pre-K curricula in the nation. It's comprehensive and research-based and features exploration and discovery as a way of learning. We use GOLD as our formative assessment for the Creative Curriculum. The assessment model used in GOLD follows widely held expectations for kindergarten preparedness and enables a whole-child approach to assessment. Our Preschool program shares data at year end with all Kindergarten principals

so that it can be used in placement decisions. We use IReady data as pre and post assessment as it is also research-based. Many rigorous research studies meeting ESSA evidence standards demonstrated positive and statistically significant gains for students receiving i-Ready Instruction above that of their control group counterparts in both reading and mathematics on internal and external outcome measures. Additionally, mCLASS will also be used to determine groupings and service delivery both in summer and for after school and during school learning loss programs. mCLASS is an integrated, gold standard literacy system based on the science of reading that offers teacher-administered assessment and holistic instruction for grades K-6.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
	* ◉ Yes ○ No	The district proposes to use some funds from the grant make facility repairs and improvements in			$ 486,000.00

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.		order to minimize virus transmission. Specifically, we propose the use of funds for several initiatives that we feel will prevent the spread of COVID-19. The use of touchless doors is such an initiative. Touchless doors in major entrance and exit areas reduce hand contact which will decrease virus transmission. In a similar fashion we propose to use some funds in order to implement touchless faucets and fixtures in buildings across the district. This would include restrooms, break rooms, kitchens, kitchenettes, classroom kitchens, dining	Activities will begin upon application and initial budget approval and continue through 9/30/2024.	Impact measures of the successful implementation of this funding strategy will be measured by having a reduction in the numbers of doors, faucets, fixtures, and fountains district wide in all buildings and properties owned and /or maintained by the PSU. It will also be measured by having more square footage available in rooms per child due to changes in wall configurations. These measures, if successful, will logically lead to a reduction of virus transmission within our properties.	

		kitchens, dining rooms, classrooms, shops, studios, etc. Additionally, we also propose to use funds to install and use touchless water fountains. We propose where needed using funds to add, remove, or change wall configurations in rooms in order to better physically distance students to prevent the virus.			
	* ◉ Yes ○ No	The district proposes to use some funds from the grant to improve air quality. We believe that better filtration and circulation of air will better prevent virus transmission. Some of our older	Activities will begin upon application and initial budget approval and continue through 9/30/2024.		$ 316,000.00

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.		and inefficient air handling units do not allow for clear flow and circulation of air. We have some buildings still equipped with chillers and boilers that would be considered in that category, specifically. Upgrading and repairing these outdated and inefficient systems will better enable us to prevent the virus. Additionally, we propose that funds be used for better filtrations systems, air purifiers, and higher quality air filters in efforts to prevent the spread of COVID-19.		Impact measures of the successful implementation of this funding strategy will be measured by having a reduction in the number of air handling units and systems that are inefficient and to a certain degree less able to condition and filtrate air in a method conducive to reducing the possible spread of the virus. These measures, if successful, will logically lead to a reduction of virus transmission within our properties.

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ⦿ Yes ◯ No	The district proposes to use some funds from the grant to coordinate preparedness and response with other local and state agencies. This could involve additional staff needed to improve those efforts. Other agencies would include but not be limited to the County Health Department, County Emergency Management Department, County Department of Social Services, local homeless shelter, and others.	Activities will begin upon application and initial budget approval and continue through 9/30/2024.	Impact measures of the successful implementation of this funding strategy will be measured by having been able to place additional staff and resources in place to provide better coordination with our outside agencies. While they will not necessarily prevent virus transmission, these measures, if successful, will provide better preparedness and response.	$ 486,000.00
		The district proposes to use some funds from the grant to			$ 243,000.00

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ◯ No	address the needs of special populations, many of whom which have been disproportionately affected by the pandemic including children with disabilities, English Learners, students experiencing homelessness, and children and youth in foster care. Many additional staff are needed to help with learning loss within these groups. Additional teaching staff specializing in EC and EL are needed to help with learning loss and in order to safely social distance. Our homeless and foster care district point of contact needs additional social workers	Activities will begin upon application and initial budget approval and continue through 9/30/2024.	Impact measures of the successful implementation of this funding strategy will be measured by, over the life of the grant, seeing how students in these special populations perform whether in remote, hybrid, or full face to face in person learning. Specifically, if their performance levels return to their pre-pandemic performance as a subgroup of students, then we will deem this strategy to have been successful.	

		therapists, and counselors to deal with the increase in these groups as the pandemic has taken a toll on these communities. Additional translating services are also needed for our EL and non-EL members of the Hispanic community in order to foster better parent and family engagement within this minority group and to deliver relevant school information due to the pandemic.			
	* ◉ Yes ○ No	The district proposes to use some funds from the grant to improve preparedness and response. Unlike coordination			$ 48,000.00

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.		coordination efforts previously mentioned, this will be our internal systems. This could possibly involve the addition of staff and other resources to assist with these efforts including but not limited to within the following areas: District Leadership, Transportation, Technology, Child Nutrition, Plant Operations, Instructional Services, and Student Support Services. Individuals would work to improve pandemic/disaster procedures and response efforts in the event of a resurgence of the virus. In response to the virus there is a need to space	Activities will begin upon application and initial budget approval and continue through 9/30/2024.	Impact measures of the successful implementation of this funding strategy will be measured by having developed and implemented successful virus/disaster preparedness and response procedures and systems by using any additional staff and resources supplied through the funding strategy.	

		is a need to space and socially distance students both inside facilities as well as when using yellow school bus or white activity bus transportation.			
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ⦿ Yes ○ No	The district proposes to use some funds from the grant to provide training on proper sanitation and cleaning methods in order to prepare, prevent, and respond to COVID-19. Training will focus on custodial and janitorial staff as well as other relevant staff members within our building. It will be scientifically based in accordance with state and federal guidance.	Activities will begin upon application and initial budget approval and continue through 9/30/2024.	Impact measures of the successful implementation of this funding strategy will be measured by our PSU monthly monitoring the work of our dedicated custodians and contracted custodial staff by ensuring that they follow procedures and protocols provided in their training based on best practices to combat the pandemic.	$ 49,000.00

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ◯ No	The district proposes to use some funds from the grant to purchase additional sanitation and cleaning supplies for all of our buildings in efforts to prepare for, prevent, and respond to COVID-19. For the foreseeable future, we will need more of such supplies as we continue to battle our way out of this pandemic.	Activities will begin upon application and initial budget approval and continue through 9/30/2024.	Impact measures of the successful implementation of this funding strategy will be measured by our PSU reviewing the amounts of sanitation supplies needed and used monthly and will review and making adjustments to amounts purchased and on hand if needed.	$ 486,000.00
	* ⦿ Yes ◯ No	Funds will be used to plan for potential closures, specifically to plan for online learning and to assist in meeting IDEA requirements. If necessary, we have plans for a potential time in the winter months			$ 340,000.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.		of a COVID 19 resurgence that could necessitate a school closure similar to our previous state. Funds would be used for mobile hotspots to give secure internet access in areas of our rural county so that students may either work in online platforms from home or have access at a safe location near their home The strategy will be particularly critical in meeting IDEA requirements for our SWDs that have IEPs, allowing us to deliver specialized instruction and related services.		Impact measures of the successful implementation of this funding strategy will be measured by our PSU monthly monitoring the number of students who successfully connect through our mobile hotspots and successfully engage in online platforms during school closures, including SWDs served under the IDEA.	
		Funds will be used to purchase additional hardware,			$ 2,669,000.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ○ Yes ○ No	software, connectivity, and assistive technology. As before mentioned, funds would be used to purchase mobile hotspots for in home and in community use. Additionally, funds will be used to purchase additional devices so that all students in the PSU will have access to a device. Funds will also be used to purchase and download educational software for these devices, including adaptive and assistive technology devices to assist in IEP implementation for SWDs.	Activities will begin upon application and initial budget approval and continue through 9/30/2024.	Impact measures of the successful implementation of this funding strategy will be measured by monitoring the number of students who have access to a PSU owned device, checking with students and families to make sure the device and any of its accompanying software and assistive technology are functioning at capacity allowing student to be successfully engaged with online learning.	
					$ 292,000.00

| MENTAL HEALTH SERVICES: Providing mental health services and supports. | * ⦿ Yes ◯ No | We propose to use funds from the grant to provide mental health and supports. Due to the pandemic, many students and families have faced additional hardships and that takes a toll on a child. It is hard to focus on school when your family is facing homelessness, sickness, or death. Funds are needed to provide additional therapeutic support and coordination of services for students. This would involve the hiring of additional staff as well as additional contracted services. | Activities will begin upon application and initial budget approval and continue through 9/30/2024. | Impact measures of the successful implementation of this funding strategy will be measured by our student support services staff tracking students served with this strategy. Our social workers, counselors, therapists will maintain records of students and families working through mental health issues and hopefully see improved outcomes for these individuals. | |
| | | We believe that summer learning | | | $ 1,407,000.00 |

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ○ No	~~summer learning~~ is a strategy that goes hand in hand with addressing learning loss. Previously in this application we have laid out a detailed plan for how summer learning will address the learning loss endured by and in response to COVID-19. In synopsis, the summer learning plan will operate in a manner that mirrors a typical school day for 6 weeks with meals and transportation provided. Remediation will be provided to any student in grades K-12 who was not proficient at the end of the school year in an effort for them to demonstrate	Activities will begin upon application and initial budget approval and continue through 9/30/2024.	Impact measures of the successful implementation of this funding strategy will be measured by reviewing assessment data on students before the program and after, In our case, looking at both the EOG/EOC in May and BOY data in August. Improved scores and data on a child will denote successful strategy implementation.

		mastery of the failed course or area. The summer learning program will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care through evidence-based interventions that respond to students' academic, social, and emotional needs. Summer learning addresses learning loss.			
		Funds may be used to supplement any			$ 564,607.00

| OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act. | * ⦿ Yes ○ No | supplement any previously approved activities under ESEA, IDEA, CTE, Fostering Connections to Success and Increasing Adoptions Act of 2008, or McKinney Vento Homeless Education. Under this activity, specific groups of students could receive additional support using some of the before mentioned strategies. Examples of possible spending strategies include but are not limited to: additional funding for the transportation of homeless and unaccompanied youth, additional support for CTE enrolled youngsters in the | Activities will begin upon application and initial budget approval and continue through 9/30/2024. | Impact measures of the successful implementation of this funding strategy will be measured by reviewing assessment data on students served by these specific legislations/funding sources. Improved scores and data on a child in a specific subgroup will denote successful strategy implementation. | |

		purchase of required equipment to complete internships, additional support in carrying out the IDEA as well as any efforts to maintain the operation of and continuity of services in the LEA and continuing to employ existing staff of the LEA, particularly in light of any losses in local revenue. Included in this category as well will be any allowable indirect costs associated with the grant at the rate set by NCDPI for our PSU.			
			Total ESSER III Allotment	$	7,386,607.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

GAN Information

Beaufort County Schools (070) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Bertie County Schools (080) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

The Curriculum and Instruction Team and Operations Team worked in conjunction with school leaders to identify specific needs related to the educational needs resulting from COVID-19 school closures and delayed reopening. Data from the following sources were reviewed to determine the impact of COVID-19 on student learning: Student Attendance, School At-Risk Reports, iReady Mid-Year Reports, and Benchmark Data. A summary of the data for each category is as follows: -Student Attendance School Average Monthly Attendance Aulander Elementary 87.65% Colerain Elementary 89.26% West Bertie Elementary 88.96% Windsor Elementary 88.29% Bertie Middle 88.20% Bertie High 87.91% Bertie Early College 89.15% At-Risk of Academic Failure Report Elementary - 115 students Middle - 248 students High - 234 students - iReady MOY (Grades K-5) Reading: Grade # students 1 grade level below # students 2 grade levels below # of students 3 or more grade levels below K 17 0 0 1 67 2 0 2 55 19 2 3 23 25 18 4 41 15 37 5 23 38 25 Math K 14 0 0 1 59 8 0 2 48 19 5 3 43 23 16 4 51 30 20 5 45 22 27 - iReady MOY Middle Grades (6-8) Reading 6 25 20 45 7 11 12 49 8 16 3 40 Math 6 46 21 30 7 27 19 32 8 32 7 36 Benchmark Data Case 21 (3-8) Mid-Year Projected Percent Proficient Grade ELA Math Science K 78.7 88.8 1 40.3 39.2 2 38.9 42.5 3 38.3 44 4 41.8 43.9

5 41.8 36.6 38 6 37 34.6 7 45.5 26.7 8 34.1 10.2 50.8 High School Course Semester 1 Semester 2 Eng. II 58.2 46.8 Biology 53.3 0 Math I 7.1 8.7 Math II 44.6 23.1

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Student performance has been tracked this school year through the following data sources: Student Attendance Reports from PowerSchool, the At-Risk Report, iReady diagnostic data, and Case 21 benchmark assessments. The student attendance reports reveal that engaging all students consistently virtually has been a challenge this school year. Monthly reports indicate that the average attendance for all schools to date is below 90%. It is likely that attendance has had an impact on student performance. For example, the At-Risk report reveals that 597 students in the district are in danger of academic failure, with the majority of the failures reported in the middle and high schools. Further concerns for student achievement are revealed in the diagnostic and benchmark assessments. The iReady Mid-Year report indicates that 226 students are at least 1 grade behind in reading and 260 students are at least 1 grade behind in math. In middle school, the iReady Mid-Year report indicates that 241 students are at least 1 grade behind in reading and 250 students are at least 1 grade behind in math. This data is further validated by the mid-year benchmark assessment results. The data indicates that except for Kindergarten, fewer than 50% of the students are proficient in reading, math, and science in all grade levels except 8th grade science, semester I English II, and Biology. While all subject areas show tremendous opportunities for growth, the math results indicate even greater areas of learning loss that must be addressed.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 1,639,572.80 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students'

academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Implement a digital curriculum program (i.e. Edmentum, Pearson, or Apex; CASE 21 (benchmarks)) to diagnose student learning needs, target instruction, and analyzing progress. Students will be placed on a learning pathway based on diagnostic results. Teachers will use the data to personalize instruction based on student needs. Implement a virtual learning program for virtual students to ensure continuity in instruction and assessment.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Employ six (6) Instructional Coaches to work closely with teachers to design and deliver effective instruction, analyze and use data to drive instructional decisions, and provide professional development to meet the learning needs of students. There is a significant population of novice teachers in the district. Utilizing the Instructional Coach model will provide those teachers, in particular, the support necessary to effectively meet the needs of the students. Employ six (6) Interventionists to work with targeted groups of students to address specific areas of learning needs. The Interventionists will be an additional layer of support to ensure that students receive the targeted instruction to address their learning loss needs. Because of the variations in learning gaps produced by COVID school closures, additional supplementary textbooks and materials will be utilized to ensure that students' individual learning needs are met based on assessment data.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Employ one (1) Family Engagement Liaison to provide pertinent information and training to families on how to support student learning. Parents will be surveyed to determine areas of need and interest. Some of the informational/training sessions may include: Technology 101 - Using a Computer, Navigating through Google Classroom, PowerSchool Parent Portal, etc.; Successful Parent/Teacher Conferences; Social Emotional Learning; Curriculum Sessions.

* (D) Tracking student attendance and improving student engagement in distance education;

Utilize the Family Engagement Liaison to work with schools in monitoring student attendance through the use of PowerSchool and maintaining communication with families to ensure consistent student engagement, as evidenced by improved grades. The Family Engagement Liaison will meet with Principals and teachers to identify students who have challenges with attendance and grades. The Family Engagement Liaison will contact those students/families weekly to discuss challenges and successes with school/class attendance, participation, and grades and report the results of the conversations back to the Principal for the purpose of determining next steps. All contacts will be kept in a log.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Case 21 benchmarks will be administered at the beginning, middle, and near the end of the year in English Language Arts, Math, and 5th/8th grade Science for elementary and middle schools. For the high schools, benchmarks will be administered at the beginning, middle, and near the end of the semester in Biology, English II, Math I, and Math III. The benchmarks will inform teachers of students' overall progress towards mastering the standards taught during the specified periods of time. In grades K-8, iReady will also be used to diagnose student progress and areas of weakness so that teachers can provide targeted instruction to address those areas prior to benchmarks. All K-12 teachers will have access to the Case 21 item bank to build weekly formative assessments. In addition, grades 6-12 will have access to Apex Tutorial, which can be used for personalized instruction to address specific areas of learning loss.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	The funds will be used for outdoor facilities, track, and athletic complex, that will facilitate helpful living, increase outdoor learning spaces, and promote wellness activities.	September 2021-June 30, 2024	The improvements to the existing facility will reduce unhealthy safety risks, improve overall health and wellness, and provide more opportunities for learning (outdoor learning space), and help improve social distance measures. The facility will be monitored and maintained by the student services, maintenance, and the athletic department.	$ 2,712,735.00
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◯ Yes ⦿ No				$

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ⦿ No				$
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ⦿ No				$

11/9/2021 12:01:49 PM

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$ [ ]
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$ [ ]
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	Maintain adequate supplies for cleaning to decrease the number of COVID cases originating in schools.	June 1, 2021-September 30, 2024	Custodial cleaning logs will be collected weekly by the school administrator. An inventory of cleaning supplies will be collected monthly by the school custodians. The Executive Director of Human Resources and Operations will maintain a monthly log of COVID cases per school.	$ 199,995.00

| LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements. | * ◯ Yes ◉ No | | | | $ |

| EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment. | * ⦿ Yes
○ No | Macbooks/ iPads for students | June 1, 2021- September 30, 2024 | Ensures that students have access to digital curriculum resources for in-person and remote learning; Improved student attendance and performance. The Coordinator of Technology Services will monitor the purchase and delivery of 1100 Macbooks and 890 Ipads. We currently have 0 Macbooks and 72 iPads for students. | $ 578,604.17 |

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ◯ No	Social Worker to address social emotional learning needs and assist with engaging families in supporting student learning.	June 1, 2021- September 30, 2024	The Social Worker schedule and log of student/family contacts will be collected weekly by the school administrator and Director of Student Services. Student attendance and pass/failure data will be collected weekly from PowerSchool to determine areas of improvement and to address areas of need.	$ 271,593.00
SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◯ Yes ⦿ No				$

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ◯ No	-Textbooks - Contracted Services - Recruitment & Retention - Supplements - Indirect cost - SEL Support - Staff: coaches, interventionists, parent liaison	June 1, 2021- September 30, 2024	Coaches & Interventionists will be collect benchmark data at the beginning,middle&end of the semester/year & formative assessment data will be collected weekly to determine standards mastery after receiving personalized instruction using supplemental materials:textbooks & digital resources.Attendance & pass/fail data will be collected weekly by the SW&Liaison to determine areas of improvement &address needs.HR will monitor teacher retention. Maintenance will monitor contracted services weekly.	$ 2,795,364.03
				Total ESSER III Allotment	$ 6,558,291.20

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

There are no new applicants.

GAN Information

Bertie County Schools (080) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Bladen County Schools (090) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

When examining the needs of the district that have emerged as a result of COVID-19, the district will consider and assess the following items to determine appropriate methods for allocating and utilizing resources through the strategic use of ESSER funds: 1. Engage stakeholders in a discussion of critical needs that are necessary to sustain and maintain core operations of the school district during closure of schools in both short-term and long-term periods. 2. Survey parents, students, business partners, and community organizations on the availability of connectivity and access to devices for the purpose of engaging students in remote learning opportunities. 3. Collaborate with school personnel, district personnel, and other stakeholders in determining and implementing appropriate procedures and systems to improve the preparedness and response efforts of the district as it relates to building closure, appropriate sanitation, health and safety of students and employees, instructional needs to support teaching and learning in a remote learning setting, planning for extended learning opportunities, and providing nutritional and support services to students and families. 4. Reviewing the unique needs of special student populations to ensure access to equitable educational opportunities and ensure that resources are provided and that appropriate staff are continually employed to support meeting these unique needs. 5. Surveying principals and other school and district leaders to determine

necessary resources to address individual school needs. 6. Review CDC guidance to determine appropriate sanitation protocols to ensure the safety of school staff and students. 7. Work closely with principals, teachers, parents, and other stakeholders in determining appropriate strategies and resources through the use of surveys and interviews to address learning loss for students as a result of COVID-19.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Critical needs will be identified from a review of quantitative and qualitative data collected during the needs assessment. Appropriate items will be prioritized and aligned to the applicable funding strategy. 1. Data from the survey to determine availability of connectivity and access to devices will be used, in comparison with current district data to determine the need for devices to fill gaps in availability for students, to replace end-of-life devices critical to support remote learning, and to determine needs to extend access to connectivity through a variety of options and partnerships 2. Review information and data collected to determine the fiscal needs required to implement appropriate procedures and procedures as it relates to coordinating with public health departments, conducting activities to address the needs of students from special populations, purchasing educational technology, summer learning and supplemental after school programs, mental health services, addressing learning loss, school facility repairs to reduce risk of virus transmission and support student health, implementing activities to maintain the operation and continuity of services, and to employ existing staff. 3. Prioritizing needs and resources as determined in collaboration with principals and other school and district leaders. 4. Engaging all stakeholders in the review of data and decision-making on the appropriate allocation of funds aligned with the aforementioned needs and proposed strategies below.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 4,148,337.20 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

District will work with administrators, teachers, parents, and other stakeholders regarding the implementation of research-based strategies and interventions to support the unique needs of students, and specifically those of special populations and at-risk students. Specifically, we will use diagnostic assessments to determine academic progress and development of differentiated plans for targeting student needs. We will use the iReady platform to conduct formative assessments of students. iReady provides diagnostic data on each student and prescribes a unique pathway based on the students' academic progress. Additional data will be used to guide teachers and others in supporting student academic needs. By having this data in real time, teachers and other support staff can work with students to ensure that they are receiving differentiated instruction that is specific to their individual needs. The iReady assessments will be delivered every 4-6 weeks. This data will be used to inform instruction and provide customized learning paths for each student. Teachers, administrators, and others will collaborate and disaggregate data from iReady, NC Check-ins, School Net, and other assessment tools in PLCs to determine best practices and lesson development and design to support addressing the learning loss. Parents will receive detailed reports of their child's program. Schools will also release a progress report for all students every 3 weeks between each reporting period. This data will also provide guidance to additional support staff that will be working with students in small groups and individually with focused intervention strategies.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

We will use research based strategies and instructional activities to work with students based on their diagnostic data. Teachers will employ the 11 high probability instructional strategies as a part of their daily classroom instruction. Students will also receive supports to address socio-emotional and mental health needs. The district will use interventions to address learner needs, regardless of academic or socio-emotional. The district will work with support staff and mental health providers to ensure that students have supports and resources in place to support their well-being. The district understands the concept of educating the whole child and this will guide the work that will take place in addressing learning loss and supports for students.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Parents will be provided with opportunities to participate in training on how to work with their students using the resources we provide. We will also work to provide support for families and students in after-school tutoring and resources to support students. Students will be support with technology devices, as well as other resources necessary to support them at home outside of the daily classroom, as well as to participate in remote instruction when needed.

* (D) Tracking student attendance and improving student engagement in distance education;

We will track student attendance and engagement in targeted learning loss programs to help ensure that students are growing academically and social-emotionally towards meeting targeted goals to address the learning loss that was experienced from COVID-19. Attendance will not only be tracked during the school day as required, but all support activities that are provided as a result of the focused work for addressing learning loss for students as a result of COVID-19.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Data drives instruction. Therefore, it is important for teachers and administrators to use all available data to determine the impact of learning loss on students. Data will be reviewed from pre-pandemic sources and compared to present formative and summative assessments data to determine students who have experienced learning loss, or those who are at-risk for failure.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
		In examining			

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ◉ Yes ○ No	In examining repairs and improvements, we have determined the need to install touchless faucets and toilets throughout the building to reduce the risk of virus transmission through high-touch surfaces. In addition, we will look to retrofit water fountains to include filling stations for water bottles that are also touchless. Due to COVID-19, traditional water fountains had to be disabled and were not able to be used for students. We will also examine other opportunities for additional improvements and repairs to	July 2021 - June 2024	Increased access to touchless improvements in school to promote safety, potential for reduction of infection and virus transmission. Documentation to demonstrate effective can include attendance data, maintenance records, and monitoring of usage and impact to school safety.	$ 325,000.00

		and repairs to reduce the risk of virus transmission and environmental health hazards			
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ○ No	We have several locations that have much needed HVAC upgrades and replacement to improve the indoor air quality in schools. The focus in on providing access and entry of fresh air into the school facilities. This will also include the replacement of chillers and boilers that are faulty and are need of replacement to support indoor air quality. In addition, we have several doors and windows in buildings that need to be replaced to	July 2021 - June 2024	Data from indoor air quality reports and capacity from updated HVAC systems, documentation of upgraded systems and controls to ensure efficiency and the introduction of fresh air throughout school facilities, maintenance records and reports, and physical inventory and monitoring.	$ 2,000,000.00

		replaced to ensure that air quality is at its greatest and that these are supportive of maintaining quality air in the building, as well as address safety and efficiency.			

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ○ No	We will continue to work collaboratively with our public health department and agencies to coordinate responses and proactive solutions to prevent, prepare for, and respond to COVID-19. These partnerships include access to vaccines, additional contracted nursing staff, and community partnerships and outreach.	July 2021 - June 2024	Collaborative partnerships are attributed to the success in our efforts against COVID-19. Evidences of these partnerships include meeting agendas, meetings, brochures and other promotional materials, as well as contracts and agreements to demonstrate the collaborative work across agencies to prevent, prepare for, and respond to COVID-19.	$ 250,000.00
	* ○ Yes ○ No		July 2021 - June 2024		$ 525,000.00

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.		We will provide another $125.00 per ADM in addition to the base allocation under "providing principals/leaders with resources" to address the unique needs of students in special populations and at-risk students. This will be used to provide supplemental resources in addition to other funding resources received by the school and specifically to address concerns of learning loss and social-emotional needs for students.		Schools will receive supplemental funds to support students. These funds and their usage will be demonstrated by purchase orders, invoices, student usage data from programs, and minutes from School Improvement Team meetings regarding the discussion and allocation of these funds to support students.	

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◉ Yes ○ No	We will continue to work collaboratively with our public health department and agencies to develop and implement procedures to prevent, prepare for, and respond to COVID-19.	July 2021 - June 2024	Collaborative partnerships are attributed to the success in our efforts against COVID-19. Evidences of our collaboration to develop and implement procedures and systems to improve preparedness and response efforts include meeting agendas, meetings, brochures and other promotional materials, as well as copies of developed protocols, procedures, and systems implemented.	$ 50,000.00

| TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases. | * ● Yes ○ No | We will provide training and professional development on sanitation and best practices to minimized the spread of infectious diseases. We will work with our health department, nurses, and other providers to make this training available to all employees. | July 2021 - June 2024 | Training logs, sign-in sheets, and evaluations from training programs will be used to document the training activities that occurred, and will be focused on sanitation and minimizing the spread of infectious diseases. | $ 50,000.00 |

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ◯ No	We will work collaboratively with schools and district supports offices to ensure that we purchase and maintain an inventory of supplies to sanitize and clean facilities in accordance with COVID-19 protocols.	July 2021 - June 2024	Checklists of supply needs, inventory of supplies, and purchase orders/requisitions will be provided to document purchase and usage of supplies. Daily sanitation will be monitored by administration and compliance with cleaning protocols for COVID-19 will be implemented and evaluated.	$ 350,000.00
	* ⦿ Yes ◯ No		July 2021 - June 2024		$ 750,000.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.		We will work collaboratively to have plans developed and ready to be implemented for the possibility of long-term closures to ensure that students are provided meals, access to technology resources, and following guidelines of IDEA with appropriate services.		The following documentation can be used to ensure the effectiveness of efforts in the event of a long-term closure: transportation logs for meals, meal service records, purchase orders and invoices, compliance with IEP and other documentation for service time and services to students.	
	* ⦿ Yes ◯ No		July 2021 - June 2024	Impact measures will include data on student to device ratio, access to connectivity, and inventory and purchase records for devices, instructional hardware, and instructional software programs for students.	$ 600,000.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		Funds will be allocated to purchase educational technology devices, software, and connectivity to support students in receive regular access to technology both in the classroom and in virtual environments when needed. This can also include purchases for educational software and resources to support teaching and learning, and to address the learning loss experienced by COVID-19. It is estimated that 500 devices will be purchased.			
			July 2021 - June 2024		$ 1,000,000.00

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ◯ No	In addition to academic concerns for student as a result of COVID-19, our district understands that there will be social-emotional learning concerns for student, as well as mental health needs. The district intends to provide supports for students in mental health, to include contracting with outside agencies and community agencies, as well as utilize in-district supports and additional resources targeted at supporting students' mental health and social-emotional needs.		Evidence of these services being provided will consist of service contracts with agencies, logs of services, documentation of purchases of resources and supports, and documentation from meetings and stakeholder collaborations concerning supports and resources for students.	
		District will work with administrators	July 2021 - June 2024		$ 2,000,000.00

| SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care. | * ⦿ Yes ◯ No | administrators, teachers, parents, and other stakeholders to plan a summer learning program that is focused on the implementation of research-based strategies and interventions to support the unique needs of students, and specifically those of special populations and at-risk students. Specifically, we will use diagnostic assessments to determine academic progress and development of differentiated plans for targeting student needs. We will track student attendance and engagement in targeted learning loss programs to | | Diagnostic data reports, surveys from parents, staff, and other stakeholders, attendance and academic data. Targeted academic goals for each child, use of adaptive technology resources to build customized pathways for student using adaptive programs, and review of related reports. | |

		help ensure that students are growing academically and social-emotionally towards meeting targeted goals to address the learning loss that was experienced from COVID-19.			
	* ⦿ Yes ○ No		July 2021 - June 2024	Evidence of these activities being provided will consist of service contracts, logs of services, documentation of purchases of resources and supports, and documentation from meetings and stakeholder collaborations concerning supports and resources for students.	$ 321,698.23

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		The district will work to provide other resources and support to students and schools, to include enrichment activities and opportunities for supplemental instruction to support students. Additional supports will be provided to address social-emotional learning, and to promote educating the whole child, realizing that there will be many needs for children as a result of COVID-19.			
			Total ESSER III Allotment	$	8,221,698.23

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan

Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Bladen County Schools (090) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

GAN Information

Bladen County Schools (090) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Brunswick County Schools (100) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Brunswick County Schools (BCS) conducts a needs assessment through our annual budget request process. The process begins at the school level with School Improvement Team chairs soliciting needs from the groups they represent. These needs are then taken to the School Improvement Team as a whole which includes parent representatives. Principals compile their needs and bring them to their grade span groups where Assistant Superintendents compile the requests as well as any department request from directors and submit to the Superintendent's Cabinet and School Board. DATA FROM GRADE SPAN REQUESTS https://docs.google.com/spreadsheets/d/1iJgZloaYlG6hvKfle10rkJxYbXqBWJnqFjeqaEVUnNY/edit#gid=1929328271 An additional needs assessment is completed through the BCS Instructional Team utilizing District NCStar Indicator A.03 addressing subgroup data. This team analyzes academic, behavioral, social emotional, and attendance data by subgroup and utilizes a plan, do, study, act model to address disproportionate data. ALL DATA IS LINKED THROUGH THIS FOLDER (MONTHLY MEETINGS) https://drive.google.com/drive/folders/13dEbsYWwEU1dIriwN6EhLkHmoJUxgecB?usp=sharing Allowable Use Data Sources Professional Development- SAMPLE EVALUATION DATA - https://docs.google.com/spreadsheets/d/1YjrsJ1gK4Huy3-b0yYRCZHYgeabCSw5QYICbH1-K9K0/edit?usp=sharing

HVAC Our system has schools with functioning but old HVAC systems (approximately 70%) that met code 25+- years ago in regard to fresh air requirements. Those requirements today require higher levels of fresh air. We have identified these old systems for replacement with new systems that utilize DOAS (dedicated outside air systems) technology/ equipment. This equipment allows a large input of fresh air but tempers the air for humidity and temperature which allows control of humidity and therefore inhibits mold growth but now cannot bring in additional fresh air Custodial Supplies Before the COVID-19 pandemic, there was 0% of supplies needed for items such as fogging, thermometers, gloves, masks and signage etc. Due to CDC guidelines these additional cleaning and PPE are needed. Our district did not need these materials prior to the pandemic and must now provide at 100% of our locations until guidelines are lifted. Technology Hardware - Remote teaching and learning created unexpected wear and tear on our technology devices. Our devices did not go home with students prior to COVID. We experienced a 29% increase in work orders associated with mobile devices. We experienced a large volume of damage/failures of devices. Chromebooks have not been returned by students and therefore not inventoried as of today so we do not have a final count. Mental Health Services - GRADE SPAN REQUESTS

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

As a result of the previously described district needs assessment process, the following are examples of the human and material resource priorities that will be needed in response to COVID-19 global pandemic which in turn will reduce the current ratio of student to support staff: school nurses, school social workers, school psychologist, ESL teachers, EC teachers and assistants, dropout prevention, technology replacements and software/subscription extensions. The addition of student services positions will decrease the ratio of student to provider which is imperative to the social emotional recovery of students in response to the COVID-19 remote learning closures/options. The Instructional Team data analysis demonstrates an increased need in middle school math as well as minority student gaps from the average. Middle school math is the lowest performing area in the NC Check-Ins for the 2020-2021 school year. Exceptional Children and studnets of color continually perform 5-12% below the district average score on NC Check-

Ins. The goal is for all subgroups to be within five percentage points of the district average. Reduction of, the prevention of, and/or in response to COVID-19 connections to data in Part A as it relates to allowable uses in Part C: Improving Air Quality: Our system has schools with functioning but old HVAC systems that met code 25+- years ago in regard to fresh air requirements. Those requirements today require much higher levels of fresh air. We have identified these old systems for replacement with new systems that utilize DOAS (dedicated outside air systems) technology/ equipment. This equipment allows a large input of fresh air but tempers the air for humidity and temperature which allows control of humidity and therefore inhibits mold growth but now cannot bring in additional fresh air. Replacement systems with reduce the spread of airborne viruses. Coordination of Preparedness and Response: Building Substitutes will be needed to reduce the vacancies that occur in response to COVID-19 quarantines. Due to the response of COVID-19 additional cleaning and PPE management, custodial responsibilities and staffing have changed in order to prevent the unnecessary spread of the COVID-19 virus. Addressing Unique Needs of Special Populations - As the data demonstrates in the above needs assessment, student academic and social emotional outcomes have been negatively impacted in the response to COVID-19 due to virtual learning. BCS will decrease the student to provider ratio be adding positions to support special populations - school psychologists, ESL and EC teachers, and EC teacher assistance. The more personalized support should directly impact a reduction in student failing grades and out of school suspensions which have increased in response to COVID-19 virtual learning. Improving Preparedness and Response - In response to receiving funding due to the COVID-19 global pandemic a Federal Programs financial assistant is needed. Mental Health Services - Grade Span Request data in Part A demonstrates the need for additional positions as students' social emotional and discipline incidents have increased since the return of all students to 5 days a week of instruction. Current discipline data has had a large increase:
https://docs.google.com/spreadsheets/d/1NSo5K7Q3BU3JBr1_FqRTTEkzU0yRMEqSTJYst9GT7is/edit?usp=sharing.
In response to this learning loss, additional positions will be added in the areas of school nurses and social workers. The immediate attention by a lower school nurse ratio will cut the response time for quarantine notification. The provider to student ratio decrease as a result of the added social work positions will reduce the absentee rate that has occurred in response to the COVID-19 global pandemic. Summer Learning is a direct response to the COVID-19 PANDEMIC as students in BCS missed 20%-100% of in person learning the data below: - K-8 Literacy Data
https://docs.google.com/spreadsheets/d/1pEdizQcjY2k2DgE29uKejJ8PciUO2eHt1evDiELS0zc/edit#gid=927016729 -
K-8 Math Data
https://docs.google.com/spreadsheets/d/1I9M89bq0XaERSxldyNUNaV_0cHjRhc9Oj2klW9O89no/edit#gid=1854439949
- 5-8 Science Data https://docs.google.com/spreadsheets/d/1ISLGNL8c8V-Sv3la9lweQXX6Q63YQZ7eke6ZWkuW-
g8/edit#gid=0 Brunswick County Schools is confident we can provide documentation in the event of a fiscal audit that all requests connect to either prevention of COVID-19, are in response to the COVID-19 pandemic, or are in an effort to provide a reduction to the impact of the COVID-19 pandemic.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 5,670,957.20 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Learning loss will be addressed using the three tiered MTSS model. Assessments used to measure student progress and level of risk include: iReady Summer School, NC Check-Ins, mClass (or the tool selected through Read to Achieve policy), math cluster assessment (K-2), universal math screener (K-3), NC Early Learning Inventory (K), K-12 social emotional screener, HMH math inventory for middle school math (tier 2), IXL placement, Lexia placement assessment for all middle schoolers in the areas of word study, grammar, and comprehension, and EOGs/EOCs. Differentiated instruction will occur during core learning time through scaffolded instruction and small group instruction. Additionally, all K-8 student will have access to an intervention block to meet specific needs to their current progress which will now include an interventionist that will work directly with at-risk students in a specialty area at each of Brunswick County's K-8 schools. Instructional supplies such as decodable text and others that address reading and math loss will be needed to support this specialized block.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Learning loss will be addressed using the three tiered MTSS model. Differentiated instruction will occur during core learning time through scaffolded instruction and small group instruction. Additionally, all K-8 student will have access to an intervention block to meet specific needs to their current progress. Evidence based core instruction will be enhanced by fidelity of Letterland, Go Math, and The Science of Reading for example. Evidence based intervention activities include Math 180 for middle school students to ensure algebra readiness as well as Reflex Math in elementary to build fluency. To reduce disruptions to learning, software/subscriptions with high teacher and student usage during the global pandemic will be renewed with multi year contracts in order to prevent any further learning loss. Students benefit most by having a certified teacher and manageable class sizes. Due to the impact COVID has had on hiring certified staff, at this time we are unable to fill various middle and high school math positions. We will contract with an outside

organization to provide remote instruction for math classes at the middle/high school level. Para professionals will be hired to perform the face to face classroom management functions and supervision.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

All BCS parents have access to parent resources including instructional videos, a comprehensive parent handbook related to remote learning and have access to the BCS help desk. SEL community resources are shared with families to support global mental health needs. Currently, the digital learning team is developing cyber safety and digital tool use resources for parents. Behavior specialist, school social workers and ESL staff offer parent support/informational groups.

* (D) Tracking student attendance and improving student engagement in distance education;

School Social Workers and Dropout Prevention Specialists monitor and support the needs of students with at risk attendance patterns. Court diversion is a step in the process that engages families in individualized action planning. Students are monitored for engagement and inappropriate technology usage utilizing the Gaggle Platform and Classwize.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Tracking student academic progress is a priority for Brunswick County Schools. Long-term data spreadsheets are kept based on the following assessments: EOG/EOCs, NC Check-Ins, K-3 literacy (mClass and Istation), instructional improvement assessments (local). Data analysis for subgroups is also a priority of the District Improvement Team, this is tracked using mClass, NC Check-Ins, and EOGs. In order to monitor and support the needs of middle and high school mathematics, a Secondary Director focusing on Mathematics will be hired. Additionally, a Dean of Students for traditional high schools will be hired to specifically address the behavioral/social emotional needs of students that have resulted in learning loss. In order to reduce teacher turnover of high performing staff, Brunswick County will implement a performance bonus for teachers achieving high levels of growth with the students they serve.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$
	* ◉ Yes ○ No	Approximately 70% of the systems's HVAC infrastructure is 20+ years old therefore installed under codes which required far less outside air(fresh	2021-2024	Meets current energy codes/outside air requirements	$ 6,000,000.00

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.		air) than what is required by current codes; and certainly far less fresh air than is recommended to dilute Covid transmission in indoor settings. We propose to replace equipment at locations where systems cannot be further modified to bring in the desired amount (amount required by today's code) of fresh air. Attention will be given to ensure new equipment is energy efficient and capable of controlling humidity so not to create another air quality issue. Two schools have windows that meet minimal opening codes for emergency exit; however they do not provide enough openings to allow cross ventilation			

		cross ventilation and desired dilution of inside air with fresh air to inhibit Covid transmission. We propose to replace those window systems with a full opening option.			
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ⊙ Yes ○ No	Building Substitutes - ensuring there is always a qualified substitute in each building to take over a class due to a disruption such as a mandatory quarantine. Custodial responsibilities have changed in order to prepare and respond to virus outbreaks as they occur as well as implementing preventative measures to control the spread of viruses. Additional services have been needed to reduce the	2022-2024	Reduction in uncovered classes that increase the load of present teachers. Reduction in the spread of airborne viruses	$ 1,982,401.00

		opportunity for COVID-19 spread. Health assistants are needed to assist nurses with COVID testing for students and staff. This will be contracted through the staffing agency we already use for other temporary services. - Additional nursing support is needed to administer COVID testing related tasks. This will be done with contracting and/or direct hire			
	* ⦿ Yes ○ No		2021-2024	Reduction in caseloads	$ 1,049,031.00

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.		In order to reduce the caseload in the Student Support Department, school psychologists and nurses will be added to increase mental health and physical screening and support at the school level in response to the global pandemic health crisis. In order to decrease the caseload for special populations, ESL and EC teachers and ECTAs will be added to decrease the ratio of teacher to student support as a result of learning loss and social emotional impacts from the pandemic crisis.			

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◉ Yes ○ No	Federal Programs financial administrator to monitor all funds related to the global pandemic. Bonuses for recruitment and retention for staff due high staffing turnover during covid	2021-2023 2021-2023	Meeting all federal accounting requirements	$ 2,980,152.22
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ◉ No				$ _____

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ○ Yes ◉ No				$
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◉ Yes ○ No		2021-2023	Student to Staff Ratio decreased	$ 994,549.00

		In reducing the caseload in the Student Support Department school social workers, school nurses, and dropout preventionists will be added. This additional staff will be temporarily added in response to the global pandemic in which students lost the school structure or impacts to their personal household i.e. loss of job, loss of family members.			
	* ○ Yes ○ No	Summer Learning Programs will be offered following House Bill 82 guidance at twelve (12) Brunswick County School locations. Each site will have a Lead Administrator, Certified Staff in Elementary, Middle	2022-2024	Competency Based Assessment and Credit Recovery	$ 7,383,053.00

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.		or High School as well as rotating support staff for ESL, EC, and SEL. Transportation, breakfast, and lunch will be offered to all students as well as physical activity each day. Additional costs include technology support, custodial staff, rotating school nurses, and instructional supplies. Students will be placed in summer programs based on need using the BCS at-risk intervention plans and teacher recommendation. Bonus Payments will be made to staff based on their days of service to students. This will be done to attract employees after a low initial interest in working the six week program.			

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ○ Yes ◉ No				$
				Total ESSER III Allotment	$ 20,389,186.22

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Brunswick County Schools (100) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - New Applicant Summary

There are no new applicants.

GAN Information

Brunswick County Schools (100) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Buncombe County Schools (110) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

1. Buncombe County Schools (BCS) brought together a group of 581 stakeholders representing 9 subcommittees gathering input on the impact of COVID on the BCS system. Stakeholders consisted of school leaders, classroom educators, community partners, parents, students, board members, instructional support staff and district leadership. This process allowed BCS to appropriately address all aspects of the ESSER II & III funding. Through our process BCS determined its most important educational and other needs based on the data below: Attendance Days under modified school calendar: K-8 Plan A - 46, 9-13 Plan A - 41 (~25%) K-8 Plan B - 84, 9-12 Plan B - 79 (~46%) K-8 Plan C - 52, 9-13 Plan C - 62 (~29%) Positive COVID Case Count Positive Cases: 798 students 266 staff Excluded by screening & quick test: 2041 students 522 staff Community Trauma Unemployment Rate Apr 20-May 20:18.5% DSS/Foster Care/Homeless Abuse/Neglect reports decreased by 500 under plan C, Increased by 75 per month in Plan B and 100 in first month of Plan A McKinney Vento Homeless 19-20: 542 2020- As of 4/22: 530 with 45% are BIPOC and increasing weekly. Attendance 10 or more ABS: K-8: 5258: 25% Hisp, 12.6% Blk, 6.1% Multi 53.6% White 9-13: 3330: 21.6% Hisp. 8.1% Blk, 5.5% Multi 69% White 6,000 students K-8 have 20 or more absences. BCS has 93 students that location is unknown Grade Distribution/Exam Fall EOC exam 2019 to fall of 2020 - The number of level 5 students decreased by 7% and the number of students Not Proficient increased by 10%. Course grades 3-8 saw a decrease of 12% for students who earned an A. Students who earned an F increased by 9%. Grades 9-13 saw a decrease of 4% for students who earned an A. Students who earned an F increased by 8%; 1 Middle School: 2019 2 student failed 2 or more courses, 2021 59 students failed 2 or more courses. 1 High School:

2019 8.7% Failure rate, 2021 16.9% Failure rate. IREADY K-6 MOY 18-19 to MOY 19-20: 6% increase in proficiency MOY 19-20 to MOY 20-21: 7% decline in proficiency in grades 2-6 gr K/1-excluded due to parent support inflating scores) Dual Language mClass Spanish language assessment BOY 2020 to MOY 2021: K-3: 11.75 percentile point proficiency decline 2-3: 22 percentile point proficiency decline Mental Health 2021: 3959 receive school therapy: 17.8% Referrals in: Plan C: 48; Plan B: 105; Plan A: since 3/8/21; 165 Community Crisis Center: Sucide Assessments Given: Mar 20-Aug 20:126; Sept 20-Apr 21: 165; In-Patient 266 Student Behavior 553 Major incidents Aug 2020 - Feb 2021 1181 majors Mar 21- Apr 21 Plan A Increase in severity in 19/68 highest risk students & six 911 calls for serious threat of harm to self or others Behavior Incidents 37% are BIPOC Panorama student survey Student Relationships (% postive reponses); Gr. 3-5: Fall 2019: 81% Fall 2020: 65%, Gr. 6-12 Fall 2019: 67% Fall 2020: 50% Fall 2020 New Survey topics 6-12 during remote and Plan B: Learning model satisfaction: 43%; Cultural Awareness/Action: 30%; Overall engagement: 50% Exceptional Children In 19-20 the number of referrals to Exceptional Children was 349 with a qualifying placement number of 205. That is a 58.7% placement average for our district. This year we have 201 referrals and the eligibility average has dropped to 50%. This indicates a lack of quality intervention data. Equipment Air Quality Maintenance Needs in prevention of Covid due to the age and the functionality of equipment Personnel - Full Time and additional contracted services Cleaning Chemicals & PPE - Quantities purchased by demand Chillers - 15 Chillers Package Units/Split Systems - 143 Units HVAC Controls Systems - 15 systems Boilers/Pumps - 18 Systems Exhaust Fans - 3 Systems 71 identified HVAC and facility repair/upgrade projects including one complete HVAC System Media Center: Over 7000 bks have been unrecoverable since 3/15/20 Technology: Homework Hotspots/Connectivity to support remote/blended learning increased 275% Student device usage increased heavily resulting in 8% overall damaged/lost student devices Web Conferencing increased 19,900% since 3/15/20 Screnn recording increased 19,000% since 3/15/20 LMS usage increased over 1000% since 3/15/20 Virtual Academy -Enrollment increased by 64% from 2019 to 2021 Graduation Rate: All 90.6%; BLK 89.3%, HSP 89.1%, Multi 85.0%, WHT 91.5%, EDS 87.2%, EL 78.6%, SWD 75.4% Dropouts - August 2020-March 2021. 29% of 133 dropouts for the school year 20-21 are of Hispanic descent while Hispanic students make up 19% of school population. Decrease in ADM for best 1 of 2 by 1,492 students between FY19-20-FY 21-22. NCDPI held ADM harmless in FY 20-21 & has reduced FY 21-22 allotted ADM by 344 for BCS. This equates to 14 positions that BCS is overstaffed for FY-21-22 due to COVID-19 & the loss of students. In addition to the 14 positions for FY 21-22, if ADM doesn't recover BCS is projected to be overstaffed by an additional 46 positions for FY 22-23 based upon the additional 1,148 loss of ADM (Actual Loss 1487)-(NCDPI FY 21-22 reduction 344) = 1,148 Due to the size of the ESSER II & ESSER III we will need 2 additional employees to manage the grants 2) ESSER II and III funds will allow BCS to provide the means to assess and address the learning and emotional needs of our students. BCS will implement: reliable valid assessments to identify the individual student learning needs differentiated core instruction summer learning academy for all at risk students, school based before/during/after school tutoring programs high quality evidence based instructional materials support SEL of all students strategies for family engagement Below is our 3 year plan for ESSER funds but will be modified as data informs the steps of recovery. ESSA III will partly be used to sustain items in ESSER II based oan the formative need data.

Part B: Data Analysis

Academic performance data as evidenced by iReady, grades & midyear EOC's shows COVID (C19) had a negative impact on students & was intensified vulnerable populations. This data decline is partly due to the impact C19 had on our teachers' ability to teach & support one another through the use of common instructional resources. The resources teachers had didn't fully support remote hybrid instruction. The way to close the learning gap is to use evidence-based & culturally relevant curriculum that can be consistently supported by district instructional staff. C19 revealed the importance of continuing learning platforms & software necessary to support student learning through long term closures. Supporting teachers with blended learning strategies & coaching will support best practices in a blended environment. The negative impact of C19 on students revealed the need for a valid & reliable data & assessment system to identify student academic learning loss (LL) & track progress, this will help in the development of intervention systems. In addition BCS needs a central location to access multiple types of student data will allow a more timely & comprehensive response to students needs. Due to student LL a result of C19, BCS will host summer school for at risk students & implement a school-based before/after/during school tutoring program. Dual Language (DL) teachers administered the mClass Spanish language assessment at BOY '20 & then MOY '21. There was an average 11.75% decline in the # of K-3 students who were proficient at BOY compared to their proficiency at MOY. Gr 2 & 3 saw a decline of 22% between BOY & MOY as a result BCS will hire a DL Coach to support the teaching & learning of DL students. According to EL attendance & participation data, BCS anticipates that EL student's progress in acquiring English will decline. Due to C19 many incoming EL Kindergarten students haven't attended in-person PreK. BCS will hire 4 ESL teachers & 2 ESL assistants to provide additional support to EL students. BCS is committed to increasing the participation of ESL families in the education of their students. To do this, we will hire 3 additional district parent outreach liaisons who will work within a designated attendance zone to engage families. Our Language Services Center will need support in the form of an interpreter/translator. The data indicates a disproportionate # of EL students dropping out of high school during C19. BCS will hire one Newcomer Success Advocate/Tutor for our 6-12 high school students to track & support EL newcomers. During C19, hand over hand occupational therapy (OT) was not provided per IEP goals since OT is a direct service. This resulted in a need to offer services for those students that require OT. Also, BCS expects a higher number of K students to enroll for 21-22 which comprises the highest %of students that require OT services. BCS will hire 3 OTs to provide the services that weren't able to be offered during C19. As indicated by mental health, DHS, Panorama & student behavior data, BCS students need support with social emotional learning. BCS plans to hire additional mental health therapists, school counselors, behavior specialists, social workers, psychologists & social emotional certified teachers & provide additional professional development for staff to support SEL & behavior needs of students. BCS will expand our Virtual Academy (VA) to accommodate students unable or not comfortable returning to F2F instruction due to C19 by expanding options at the elementary level & increasing enrollment capacity overall. Additional personnel & courseware licenses will need to be provided to support expansion. A dedicated space will need enhancement to accommodate individual & small group tutoring and counseling support. Teachers will need training on best practices in a virtual environment & in developing virtual courses. Virtual Academy expansion will result in additional communication budgets needs so parents are aware of school options. Due to the response to C19 our media centers distributed materials for students to use at home. Many of these materials

weren't recovered & need to be replaced. To prepare for long term closure BCS will increase the # of e-books accessable remotely by students & staff. The increase of student device usage resulted in increase in replacement & repair of devices. C19 revealed the an increased need for internet access through hot spots. BCS will provide student devices & hot spots. BCS performed an internal needs assessment on school facilities that were in need of repairs/improvements in order to reduce the risk of virus transmission & exposure to environmental health hazards as well as to support student health needs. This resulted in the identification of 71 school facility repairs & improvements. To facilitate these needed improvements a project manager is required. C19 exposed the lack of health care options available to members in of our most vulnerable populations. In order to facilitate better health outcomes for students in our most economically depressed district, BCS plans to convert space at select middle school campuses to Health Centers. A new employee will be hired to increase staff in our Family Resource Center. A Special Populations Support/Development Specialist will be hired to improve equitable access to instruction & SEL support during C19 recovery serving as a lision between school & families to increase communication & assist in conflict resolution though colloaborative problem-solving. In addition this specialist will train staff in culturally responsive instructional strategies & help initiate & support change to better the meet the needs of BIPOC students. To maintain the operation of & continuity of services to students & schools & to continue to employ existing staff we will pay for the salaries of the 14 staff that ADM loss left unfund. BCS will hire 2 employees to manage ESSER fund: Program & Finance

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$	10,806,715.00	* 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

The district plans to administer a comprehensive assessment system that includes regular diagnostic screenings and formative assessments in all academic areas as well as social emotional skills. Results from these assessments will be used routinely by Professional Learning Communities and other school-based problem-solving teams to determine the individualized needs of students in these areas. Results will be analyzed by subgroup including children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care. Results from these assessments will also be utilized to plan differentiated learning activities for students in the core classroom with the use of evidence-based instructional resources and high impact strategies. We will support staff with professional learning and pay for Subs in the use of highly effective instructional materials, high impact strategies, culturally responsive

teaching and support differentiating instruction for all students. Additional Psychologists will be employed to support teachers with interpreting data and intervention fidelity. We will use funds to extend employment of instructional coaching staff by 10 days to build capacity to support teachers in meeting students' academic needs.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

All students in BCS will benefit from and will be provided strong core instruction that will make increased use of culturally-relevant instructional materials in combination with high impact strategies both in the area of math and English language arts. Professional learning in the areas of high impact strategies, culturally responsive teaching and evidence based instructional materials will take place with administrators, instructional coaches and teachers. In order to best meet the needs of students who are struggling, a full-year tutoring program will be implemented at every school in BCS. Due to the intensified needs of middle students who were disengaged during the pandemic, interventionists will be hired to work directly with students in need of intervention. High school students will need additional options for recovering credits during the school day; therefore, we will hire credit recovery facilitators (interventionists) for each high school to work with students on achieving this goal. To address the unique needs of vulnerable populations, specialized curriculum resources for exceptional children will be purchased and supported by district coaches. A Dual language Coach will be hired to support Dual Language teachers in addressing the learning loss of their students.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

The district plans to implement and support effective communication between schools and parents by using parent liaisons to mitigate gaps. These liaisons will be responsible for communicating distance learning requirements. To further support our commitment to increase effective communication with families who speak Spanish, an on-site district interpreter who will be readily accessible to schools and families will be hired. A Dual Language coach will work directly with teachers and principals to support home communication about student academic and social-emotional needs as well as strategies for supporting their students at home. We will continue to use our multimedia sources to communicate with all parents.

* (D) Tracking student attendance and improving student engagement in distance education;

Daily attendance and learning systems usage will populate into a data warehouse as part of a more complete picture of student engagement in distance education. The district will use this data to communicate with schools, teachers and parents concerning student engagement. Schools will utilize this data in problem-solving teams to both inform instruction, parent communication and interventions.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Student academic progress will populate into a student data warehouse and dashboard as part of a more complete picture of student progress pre-pandemic to present. This will better assist the district and the schools in identifying those students who experienced learning loss and effectively work to mitigate that loss. The district will use the data to communicate with schools,

teachers and parents concerning student academic progress. Schools will continue to track student progress utilizing the data in problem-solving teams to inform further instruction through the use of small groups and individualized interventions. The routine use of screening tools throughout the year will help schools regularly monitor growth and track learning needs throughout the post-COVID recovery period.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	Create Health Centers at selected middle schools separate from school building.	June 2021 - September 2023	The number of students who recieve services for the newly created Health Centers.	$ 1,500,000.00

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ○ No	Mechanical system repairs, replacements, and upgrades will result in reduced downtime. 200 piece of equipment including chillers, boilers, domestic water boilers, package systems, split systems, controls systems, exhaust systems will be upgraded/replaced to reduce the risk of virus transmission by increasing air quality at 37 campuses. Hire 1 FTE Project Supervisor position to manage HVAC projects.	June 2021 - September 2023	a reduction in the number of Work Orders as related to HVAC systems and issues.	$ 9,278,957.94
	* ⦿ Yes ○ No		June 2021 to June 2024		$ 97,093.70

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.		COVID-19 caused tremendous economic hardship on families resulting in high needs for basic supplies, food, clothing and shelter. -BCS established the Family Resource Center During COVID BCS uses displace teacher assistants to work in the Family Resource Center. We will Hire 1 Homeless Services Resource Specialist to help in meeting the needs of our Homeless families in our Family Resource Center. This position is essential to address student, family, and community for continued recovery at the Family Resource Center especially with homeless families since teacher assistants are back in school but the need is still there.		Increased level of support offered to Families in the area of food, household supplies, personal hygiene, clothing, housing assistance, workforce development. BCS will use data collected at the Family Resource Center to monitor the level of support offered to families such as sign in sheets and other data collection EL Subgroup Data ACCESS Test Scores	
		"- Additional instructional support for EL students 4 ESL Teachers and 2 full	August 2021-June 2024		$ 2,358,714.60

| ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population. | * ⦿ Yes ○ No | Teachers and 2 full time assistants due to the disengaged students during the 2020-21 school year that has resulted in learning loss A Newcomer Success Advocate for Middle/High students to combat the number of disengaged EL students and reduce drop out 3 District Family Outreach Specialist for Marginalized families to aid in reengaging EL families 3 Occupational Therapists in order to increase services lost to COVID Special Populations Support & Development Specialist and PD (plus subs for teachers) for equitable student access to education to help with learning loss 1 Full time Spanish Interpreter for Language Services Department to allow for increased communtication ESL | | Increases in student achievement in Special Populations students as measured by ACCESS Test, Grades, EOG, EOC, Iready, Formative Assessment Data & Progressing Monitoring Increased EL Graduation & Attendance rate of EL students Service Logs for OT will be aligned with IEPs Increased rate of EL families participating in Panorama Community Surveys (PCS) Increased positive ratings from parents on (PCS) BCS Will use My Learning Plan to track PD attendance and PD offerings. | |

		Curriculum-Year 3 licenses for digital curriculum 2 Coaches to support our Autistic student Population			
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	COVID-19 cleaning supplies, PPE and custodial contracted services will be purchased to ensure all requirements of the NC Strong Schools Toolkit are followed to reduce the spread of COVID-19.	June 2021 - September 2023	PPE Usage reports and Sanitation Supply reports will be used to measure impact	$ 350,000.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ◉ Yes ⃝ No	Professional Development and provide Subs- Best Practices for Supporting Engagement in Virtual Enviroment - Best Pracrtices for Supporting SEL in Virtual Environment; Courseware for virtual learning and assessment and EBooks for district usage Contract/stipend for special request courses not taught by BCS teachers ($250/add't course request) Special Services stipend/contract to support specific IEP/504 needs Communications budget to inform stakeholders regarding virtual options and create community	June 2021 - June 2024	# of in person appointments/support sessions for Virtual Academy as measured by room reservations BCS will use My Learning Plan to track PD attendance & offerings Increase teacher & staff confidence in effective utilization of blending learning as measured by Teacher Technology Survey Increased ADM for Virtual Academy Increased student achievement/SEL as measured by EOC, EOG, Iready, Progress Monitoring Data, Grades & Panorama including subgroup data	$ 251,000.00
	* ◉ Yes ⃝ No	Continue to support/provide Homework Hotspots/Connectivity to support remote/blended	August 2021 - June 2024		$ 4,414,470.21

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		remote/blended learning. Purchase 2400 Student devices due to increase usage/ damaged/lost, To measure impact reliably a Student Data Warehouse/Dashboard is needed to address learning loss. SaaS Software for Counselors/Social Workers to track students/outcomes Seesaw LMS to address the need for blended learning/ong term closure Zoom to address remote/blended learning/long term closure Screencastify Record & Edit to address learning loss, need for blended learning/long term closure Kami to address blended learning/long term closure Adobe Creative Cloud to address blended learning/long term closure 6 Blended Learning Coaches to address remote learning needs & long		Achieve & maintain 97%+ student at home high speed broadband connectivity. Achieve 100% replacement of broken/damaged devices & achieve/maintain 100% student to mobile device ratio. Increase teacher & staff confidence in effective utilization of blending learning as well as increase usage of blended learning tools as measured by Teacher Technology Survey Increased student achievement/SEL as measured by EOC, EOG, IReady, Progress Monitoring Data, Grades & Panorama Accurate Reporting Data	

		term closure An additional support person in the PowerSchool Student Information Systems office due to increased workload related to COVID-19 staffing, student scheduling Face-to-face/ remote/virtual student data			
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ○ No	COVID 19 has caused and data upon return to Plan A demonstrates the need to train and support staff in CORE SEL practices. Needs: Hire 3 Integrated Academic/SEL Coaches, and provide PD along with subs, to support teachers in using SEL strategies with all students PD and cost of subs to train in Core SEL practices for all coaches/ school leaders. Hire 4 Mental Health therapists to serve non-Medicaid population and support student crisis response. Hire 1	August 2021-June 2024		$ 2,804,244.25

		response. Hire 1 Counselor and 4 Social Workers and provide PD plus cost of subs 4 Counseling Interns and 3 School Social Worker Interns 4 Internal Trainers to conduct mental health first aid Professional development training for Principals and School Improvement teams in how SEL and equity work together for positive student outcomes. Plus the cost of subs		Increases student SEL skill scores as measured by Panorama data Decrease in classroom/office referrals for disruptive/aggressive behavior as report in Educator's Handbook Increase in SEL instruction/support in classrooms as measured by SEL walkthrough data Increase in the # of students served by mental health therapist as measured by intake service documentation BCS Will use My Learning Plan to track PD attendance and PD offerings.	

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ⚪ Yes ⦿ No				$ 0.00
	* ⦿ Yes ⚪ No	Due to increase behavior issues as a result of COVID: Hire 3 Behavior Lead Specialist and 6 Behavior Assistants Implement Restorative Practices district wide: PD and sub costs Admin Cost: Federal Program Accountant; Program Compliance Director Indirect Cost Retention and Incentive Staff Bonus for all permanent staff: $1,200	June 2021 - June 2024		$ 17,824,321.30

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.				ncreases in student SEL skill scores as measured by Panorama data Decrease in classroom/office referrals/suspensions for disruptive/aggressive behavior as report in Educator's Handbook BCS Will use My Learning Plan to track PD attendance and PD offerings. Successful Audit and Monitoring Reports with no Findings Compliance in the scope of work conducted under ESSER II & III

Total ESSER III Allotment	$	38,878,802.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Buncombe County Schools (110) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - FPMS-ARPA ESSER III PRC 181

Buncombe County Schools (110) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - New Applicant Summary

 There are no new applicants.

Buncombe County Schools (110) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Asheville City Schools (111) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

1) ACS surveyed stakeholders, including district and school staff, and parents. A core planning team from all departments analyzed the data. This team will continue to meet and evaluate/monitor the use of the funds described in the application. 2) Learning Loss Learning loss has been measured by grades, benchmark assessments, attendance, staff and parent surveys. These tools will continue to guide our use of funds allocated for learning loss. Addressing Learning Loss: Due to school closure from March 13, 2020 to April 12, 2021, assessments and grades indicate a high percentage of at-risk students. Data indicates 25% of ACS student population meet the at-risk criteria outlined in board policy. Stakeholders prioritize learning loss in our district survey.. We have seen over a 4x increase in the number of students failing at least one or more core academic classes when comparing December 2019 (288) to December 2020 (1213). Facility Repairs/Improvement to Minimize Virus Transmission: The ACS 5 Yr Facility Improvement Plan suggested HVAC upgrades on five ACS campuses. Four of our campuses required major renovations to the window systems that are currently installed. On these four campuses, $2.5 million worth of HIGH PRIORITY window replacement projects were suggested. Improve Air Quality: ACS has upgraded all air filters in our air handlers with MERV-13 filters at a cost of $20,392.52. Filters must be changed quarterly. Currently there are over 750 filters to be changed. Over 100 rooms across the district do not have functioning windows or appropriate air flow. Due to regular staffing constraints, ACS contracts with an outside HVAC engineering firm. Coordination of Preparedness and Response: All school staff have completed multiple professional development sessions on COVID mitigation and response. Funding has been spent on professional development training, materials, signage, and contracted service personnel to provide additional preparedness and response functions. Providing Principals/Leaders with Resources: Principals have requested approximately a quarter of their school budgets to fund instructional resources for addressing learning loss and lost materials/supplies due to the pandemic. Twenty percent of stakeholders determined this area was a top priority for funding. Addressing the Unique Needs of Special

Populations: We have seen an increase of homelessness in our community and schools. Likewise, based on our EC headcount data for 2020 and 2021, there is an increase in students identified with active IEPs. Despite the increase, we have experienced a significant drop in Medicaid funding due to COVID and remote learning. Since October 2020, Asheville City Schools has supported 13 community learning PODS sites to serve 198 at-risk students in the district during remote learning. Student enrollment has decreased but the number of at-risk students has increased. Any reduction in staff will impact services as we get these students re-enrolled in Asheville City Schools Improving Preparedness and Response: District safety meetings occur twice per week to review incident command data and support team feedback. In February '21, ACS surveyed staff to collect vaccination requests. 616 school staff were prioritized to receive vaccinations. Training to minimize virus transmission: All school staff have completed district-funded multiple professional development sessions on COVID mitigation and response. District leaders meet with local health officials every two weeks and district leaders meet to plan district response initiatives, Weekly updates on COVID transmission and community impact are shared with school leaders. Supplies to Clean and Sanitize: ACS purchased PPE supplies to supply 4300 Students and 900 permanent and temporary staff. In the 20-21 school year, the district purchased cleaning and sanitation supplies including liquid gel hand sanitizer, surgical grade masks, surgical gloves, soap, hand towels, and virucide and sanitation equipment including multiple disinfectant devices for all campuses. Contracted cleaning and mitigation services were used when a case of COVID was identified. Long-Term Closure Activities: Since March '20, we have increased our number of wifi hotspots by 12x and additional devices were purchased to expand to 1:1 devices from grades 5-12 to K-12. Additional subscriptions, at-home learning materials, and communication tools were purchased to ensure remote learning engagement and family communication. Over 450 certified staff were paid a stipend to complete professional development for extended remote learning. Educational Technology: To accommodate remote instruction, 1:1 devices for students was expanded from grades 5-12 to K-12. Based on repair needs throughout the school year, we anticipate 5 times the typical loss and damage to student devices. Engaging instructional technology needs have increased as students have experienced learning loss and have been remote for the majority of the 2020-2021.. Mental Health Services: Since March of 2020, the mental health team has seen a fifty percent increase in mental health student referrals as compared to the previous school year and an increase in the request for mental health staff training. The district mental health tracking form indicates that since the beginning of this school year, the mental health team members have been called to intervene and support students and families more than 1,750 times. Summer Learning: Student benchmarking and End of Course data indicates a high percentage of at-risk students. Data indicates at least 25% of our ACS student population meet the at-risk criteria outlined in board policy. Additionally, as of March 2020, approximately 20% of students in Grades 9-12 are in need of credit recovery for courses required for graduation.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Addressing Learning Loss: Data indicates significant gaps in standard mastery from March 2020 through this school year. Data on learning loss during COVID indicates an extensive need for both accelerated and expanded learning opportunities for students grades K-12 in ACS. School day learning alone will not address learning gaps for all students; ACS will need to offer summer and afterschool learning opportunities. Facility Repairs/Improvement to Minimize Virus Transmission: As part of the 5 year plan,

HVAC upgrades were recommended within the next 3 years. Upgrades include: replacement of older two-pipe systems with a four-pipe system, enhancement of existing systems and where needed entire new systems and duct work. Some window renovation projects require the remediation of lead and asbestos coated paint and trim. Improve Air Quality: The higher grade filters have been prioritized. Individual room air purifying units need to be purchased for rooms with inadequate equipment or air flow. There is an ongoing need for HVAC maintenance from an outside contracted engineering firm. Coordination of Preparedness and Response: Ongoing professional development is needed to support changing COVID protocols. District leaders will continue to coordinate with local health officials to plan and adjust district response to COVID. Contracted staff will be needed to support implementation of required COVID safety protocols. Providing Principals/Leaders with Resources: Principals have used school budgets to address unique needs on their campus. School Improvement plans to align funding to long term goals and needs due to extended school closure. Prioritized purchases must be adaptable to remote and in-person teaching. Addressing the Unique Needs of Special Populations: Improved identification of homeless students has and will continue to require additional resources. Academic and social emotional support is required for these students. For students with disabilities, additional support at schools is needed to support specially designed instructional needs and extended learning opportunities for our EC students prior to the transition back to school in the fall. As students return to campuses from community or private learning PODS additional academic and social emotional support may be required. Improving Preparedness and Response: ACS will continue to support vaccination efforts for staff and students. Substitutes are required at a higher rate due to staff response to the vaccination. As state and federal COVID protocols are updated, additional training, staff, and support will be needed to ensure compliance with recommended safety protocols. Training to minimize virus transmission: An ACS Parent & Staff COVID-19 Handbook of safety procedures and protocols will be updated and maintained. Additional staff training will take place as state and federal protocols are updated and to prepare for all students to return in person. Supplies to Clean and Sanitize: We will need to purchase on an annual basis 70,000 student/adult face masks, 1000 face shields, 140 cases of various size gloves, 400 cases of paper towels, 525 cases of hand soap, 200 cases of hand sanitizers, 50 cases of Lysol wipes, 1000 spray bottles, 40 cases of COVID disinfectant, 10 Ryobi disinfectant sprayers, 5 Kia-vac bathroom disinfectant foggers, and additional cleaning supplies as needed. Average total cost of $150,000.00 annually. Long-Term Closure Activities: In the event of additional long-term closures, meals will continue to be served at community sites. Additional service licenses for hotspots will be purchased for families who do not have internet access at home. Consumable materials for students to participate in learning at home will need to be purchased in the event of another long-term closure. Staffing and materials needs for community learning PODS sites to serve at-risk students will continue in the event of another long-term closure. Educational Technology: Based on the higher levels of device loss and damage of student devices, the district will need to purchase additional devices to replace lost or damaged technology. Replacement of damaged and outdated instructional technology used within the classroom is also needed at an increased rate to support teachers in developing instruction aligned to meet student learning needs. Data analysis indicated that instructional technology and software aligned to addressing and recovering learning loss are high areas of priority and need. Additional staff or maintaining the same level of services may be needed to support virtual learning and student needs transitioning to an in-person learning environment. Mental Health Services: Data indicates that at all levels there are significant mental health needs in our district. These needs will be addressed through increased training for staff and district coordination of mental health screening. Additional contracted behavioral technicians or mental health staff may be needed to accommodate caseload increases. It is clear a strong social emotional learning curriculum that can be used in -person or remotely would benefit

all students. In order to response to the impact of COVID-19 we maintain continuity in services provided by Student Support Assistants focused on the well-being of students' mental health. Summer Learning: Due to school closure from March 13, 2020, to April 12, 2021 student benchmarking and End of Course data indicates a high percentage of at-risk students. Data indicates 25% of ACS student population meet the at-risk criteria outlined in board policy. In accordance with House Bill 82, a K-12 summer program will be offered to students, with a focus on reading, math, science and/or credit recovery.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 1,876,033.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, underline{provide a detailed description} of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Asheville City Schools will use STAR Renaissance 360 as a screening, benchmarking, and progress monitoring assessment tool. STAR is nationally and state normed and will allow teachers to monitor student's academic progress throughout the school year. School staff will meet in regularly scheduled professional learning communities to analyze student data and make plans for adjusting core instruction for all students and develop student support and intervention plans on an individual student basis. Principals will participate in quarterly data dives with their staff and district leadership to analyze the data from assessments by subgroups and develop plans for areas of improvement. Driven by Data 2.0: A Practical Guide to Improve Instruction by Paul Bambrick Santoyo will be used to develop data analysis protocols for school and district improvement. All schools will use the MTSS process to identify students who need supplemental instruction and intensive interventions to meet the individual academic needs of all students. NC Star will be used to conduct school based needs assessments, set goals and action steps, and monitor progress of student outcomes throughout the school year. Learning Circle will be used as an Early Warning Response System in all schools to track and analyze student data in grades, attendance, and behavior, monitor student progress, identify students in need of additional support, and develop and monitor student support plans. NCENSI will be used as a math screener for grades K-5. Formative and summative assessments aligned to curriculum standards will be used in all content areas. Canvas is used as the Learning Management System in Grades 6-12 to administer both summative and formative assessments to students. Students receiving supplemental and intensive interventions will use various assessments tools for progress monitoring. These include, but are not limited to, mClass, STAR CBM, EasyCBM, Core Phonics Assessment and PAST. IXL is used as a math diagnostic and assessment tool to assist students and teachers in identifying student skill mastery and practice assessments tied to areas of growth.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Curriculum resources that are research based and shown to accelerate student growth will be used to minimize the effects from student learning loss. The district curriculum team will be selecting evidence based core curriculum that is culturally responsive and meets the comprehensive needs of students. This includes planned purchases in ELA and Math curriculum. Additional resources will be purchased to support supplemental instruction and intensive interventions to address skill deficits from extended school closures. Additional staff to implement these activities will be utilized. Instructional timeframes and pacing guides will be adjusted to maximize time and resources spent on areas of high needs for students. School staff at the elementary, middle and high school levels will spend additional time adapting curriculum and creating resource banks for evidence-based activities targeted to accelerate growth for students, specifically black and brown students and students with disabilities. Additional training on differentiation and implementation of researched-based strategies and practices will be provided to school staff over the next three years. We are striving to make sure we are adequately staffed and maintain a high level of service through low student to adult ratios. This means we will fund additional instructional assistants so that at K-2 we are maintaining a high level of support for students and teachers. Additionally we will hire 12 ESSER Academic Support Assistants as temporary remedial support for schools when students are transitioning back to campus and increased adult coverage is needed to assess and deliver academic support.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

To support parents throughout distance learning, remote learning websites were established for the district and each school with the following information and supports: * School Schedules * Resources for parents to support distance learning * Attendance Procedures * Archive of School Communication * Technology Support for student devices and learning management systems * Grade Level/Teacher Specific Supports Each week, school schedules and expectations are communicated with students and families. Drop in support for technology is available for students engaged in distance learning. Social media and school websites are utilized for sending regular communication to families and students about remote instruction. The following Learning Management Systems are utilized at the indicated grade levels: * K-2: SeeSaw * 3-5: Google Classroom * 6-12: Canvas An orientation page/module for each learning management system was developed and shared with students and families to provide additional support for navigation of student learning activities during distance learning. Schools held open houses and orientation events to support the transition to remote instruction. Surveys with students and families were administered to determine modifications and changes needed to further support families in distance learning schedules, protocols, and procedures. In our COVID- Recovery phase we are focused on recognizing parents as valued as authentic partners and want to hear feedback about their experience during remote learning. Parents have expressed a greater understanding around learning loss and want to actively engage with schools to support student growth. Our master calendar has allocated time for parent-teacher conferences, beginning of year home-visits, transition to school instructional materials, and outreach efforts to ensure parents have the opportunity to offer evidence of their child's learning gaps.

* (D) Tracking student attendance and improving student engagement in distance education;

During times of remote learning, student attendance is tracked through PowerSchool. Two-way communication is established daily between students and their teachers. School staff, including teachers, counselors, social workers, and administrators,

engage students through phone calls, email communication, and home visits. Community PODS sites will be maintained in the event of further school closures and Asheville City Schools will assist with staffing, food, and transportation for these sites. Attendance and student engagement will be tracked through PowerSchool, Learning Management Systems, Early Warning Response System (Learning Circle), and additional school level forms. Schools utilize parent communication logs to monitor family engagement throughout school closures. Remind, a communication platform, is utilized to increase and streamline communication between students, parents, and school staff. Blackboard Parent Link is also utilized for district and school communication. A consistent schedule for synchronous and asynchronous learning is developed for each school to provide students and families structure for engaging with their schools throughout times of distance learning. Student homeroom and advisory blocks are used to assist with attendance for the school day, social emotional learning time, and to engage students during remote instruction. Despite decreased enrollment in 20-21 directly related to COVID-19, we are staffing in ordering to maintain stability and continuity of services. Counselor and social workers will focus on getting students back into school and accessing appropriate academic and social emotional services.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Our district assessment calendar reflects regular benchmark data from beginning, middle and end of the year. Shifting into next year and beyond we will analyze student progress using previous year's data by creating a baseline from 2020-2021 scores. In addition to collecting and analyzing student benchmark data, end of year assessments will be used to evaluate student levels and learning loss due to extended school closures. Pre and post- assessments will be used with students during summer programming to evaluate student levels and growth throughout additional programming. A comparison analysis of student course grades will be used to determine areas of high need on a district, school, and individual student basis. Additional credit recovery options will be available at the high school level to allow students to more quickly recover course credits due to higher failure rates during the 2020-2021 school year. Student growth data will be tracked and monitored using benchmark assessments and required state assessments. Student support plans will be developed for students who have experienced high levels of learning loss and staff will be trained in and implement supplemental and intensive interventions for small group and individual students based on identified skill deficits. Learning Circle, an Early Warning Response System, will be used to evaluate and compare student data at 5 risk levels in the areas of course grades, attendance, and behavior. Transition plans for students will be developed to further support school staff in identifying areas of learning loss and individual student learning profiles.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ● Yes ○ No		July 2021 - Sept 2024	Facility repairs and upgrades will be monitored on the district's 5 year maintenance plan. Virus transmission rates will be monitored to determine effectiveness of upgrades in minimizing virus transmission. Staff surveys will be completed to determine staff perceptions of facility safety compliance with recommended COVID protocols.	$ 1,039,806.00

		The following facility repairs are required to minimize virus transmission: * HVAC Upgrades including the enhancement of existing systems and where required, entire new systems and duct work on three campuses (Herring, Asheville Primary, and Asheville High School). * Window renovation projects (Asheville Primary) * Isolation space renovations (to be evaluated during fiscal year 21-22) * Plexiglass safety shields in high traffic areas, as needed at each of the 11 sites			

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ○ No	To sustain improved air quality on 11 campuses related to COVID19 guidance, the following will be needed at all sites: * Air filters * Air purifiers * Contracted HVAC services	July 2021 - Sept 2024	Air quality compliance data will be collected and monitored in comparison to CDC guidelines/recommendations. Maintenance inspections of facility compliance will occur at least bi-annually to document growth toward district goals.	$ 220,000.00
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ◉ Yes ○ No	* If needed, contracted Health Monitors or Bus Assistants to support safety protocols during school hours, COVID testing stations, vaccination clinics * Signage	July 2021 - Sept 2024	COVID numbers will be monitored and implementation of safety protocols and screeners will be tracked. Surveys of family/parent feedback safety and district communication.	$ 5,000.00
		Based an analysis of student data, IEP goals, and the number of at-risk students the	July 2021 - Sept 2024		$ 300,000.00

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ○ No	following support is needed: * Employ a Special Population (Extended Learning) Coordinator to work with schools to identify and support after-school programs focus on remediating lost learning due to COVID * Supplemental academic supports and supplies for students identified as McKinney-Vento *Alignment of students' IEP goals with standards-based goals and evident-based practices to ensure improved academic outcomes for students with disabilities who have experienced learning loss * Data collection around the needs for all medically fragile students or		The number of students qualifying as at-risk, homeless, and EC will be: *Monitored on a district-wide dashboard through Student Services *Data will be collected on the student progress for specialized academic support * Social emotional data will be collected to document student referral rates and progress	

		students requiring remote learning resources			
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ⦿ Yes ◯ No	The following will be used to improve preparedness and response to COVID-19: * Bi-weekly meetings with the district safety team * Updates to Parent and Staff COVID-19 Handbook * All safety communications will be translated in alternate language formats *District leaders will participate in in depth training for maximizing campus safety	July 2021 - Sept 2024	To monitor preparedness and response, the District Safety Team minutes will document feedback from school-based safety leaders, updates to the Parent and Staff COVID-19 Handbook will be archived, training sessions will be monitored to ensure staff compliance, and safety surveys will be conducted at least twice a year to gauge staff feedback.	$ 5,000.00

11/9/2021 12:11:01 PM

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ⦿ Yes ⚪ No	*Professional Development for all staff through the Public Works Safety Modules *Custodians, health monitors, and school staff will be trained on proper cleaning procedures for minimizing virus transition. *Emergency plans for staff coverage	July 2021 - Sept 2024	To monitor training effectiveness, staff rosters from professional development will be maintained by the ACS Safety Officer and transmission rates will be monitored and archived on the district COVID-19 Dashboard	$ 20,000.00
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ⚪ No		July 2021 - Sept 2024	To monitor use of funding for supplies, a standardized supply request form will be completed by schools/campus supervisors on a monthly basis. Additionally, district Auxiliary Services will review all request totals monthly to track and determine district supplies.	$ 350,000.00

11/9/2021 12:11:01 PM

		Cleaning, sanitation, and PPE supplies and equipment will be ordered in bulk to ensure items are readily available. These include: * Face Masks * Face shields * Gloves * Paper Towels * Hand soap * Hand Sanitizer * Disinfectant * Sprayers * Foggers * Contract with a custodial service to deep clean or sanitize following exposure * Supplies to support special enhancement classes (music/band) with high transmission potential. (covers for music instruments and body fluid waste disposal materials)			

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ◉ Yes ○ No	In the event of long-term closures, the funds will be used in the following areas: * Internet connectivity devices and service off school campuses (hot spots) * Meal service at community sites * Consumable learning materials for students	July 2021 - Sept 2024	To monitor the effectiveness of the long-term closure activities we will track the number of hotspots provided to families, monitor meals provided through Child Nutrition, document staff hours at community feeding sites, and collect and analyze data on long-term usage of digital subscriptions.	$ 900,309.00
EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ◉ Yes ○ No		July 2021 - Sept 2024	We will monitor device to student ratio for grades K-12, collect data for family connectivity needs in collaboration with student services, and collect and analyze data on instructional technology used to support student learning.	$ 500,000.00

		To address the educational technology needs due to extended remote learning, funding will be allocated in the following areas: * Student Devices) * Instructional technology replacement and upgrades for classrooms * Assistive technology * Devices, hardware, and service to support student connectivity * Instructional technology and software and to support remote instruction			
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◉ Yes ○ No	The Student Support Department would be utilized in ways that intentionally and effectively support the mental and social emotional health of our student population by: *	July 2021 - Sept 2024		$ 375,000.00

		Training Staff on Youth Mental Health First Aid, Trauma Informed Care, Restorative Practices and the 5 Core practices of Social Emotional Learning. * Resources to support the social emotional needs of students * Creating a comprehensive Mental Health response and recovery plan for all mental health care providers in the district. * Ensuring students and families experiencing a mental health crisis are identified and mental health supports (including staff) are put in place at school and in the community		Staff training will be documented by participation with pre/post surveys to determine staff feedback and feedback surveys to monitor the impact of curriculum purchases will be administered. Mental health wellness surveys will be provided to students and staff to collect feedback and student referrals for mental health services, response time for supports, and the overall number of students moving in and out of MTSS Tier 2 and Tier 3 support plans for mental health needs will be tracked	
	* ⦿ Yes ◯ No				$ 500,000.00

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.		Summer programming will follow requirements from the state: All summer funding will be spent in the following areas to support the implementation of summer programming: * Staffing for certified teachers in reading, math, science, exceptional childrens, electives, and English as a Second Language for grades K-12 * Staffing for a certified counselor or social worker for grades K-12 * Materials for curriculum, assessments, and resources for programming K-12 * Transportation for summer programming	Summer 2021 Summer 2022 Summer 2023 Summer 2024	Throughout summer programming, student growth will be measured using end of year and end of summer assessment data to evaluate growth, attendance and participation will be monitored, and student learning plans will be developed to track learning gaps and document communication between school year and extended year staff.	
		In order to maintain stability and continuity of			$ 899,016.00

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ◯ No	services as we respond to COVID-19 recovery, we are employing: 5 student support specialists focused on student mental health and social emotional learning 5 instructional assistants focused on addressing learning loss at first and second grade 2 school counselors to support a lower caseload due to student social emotional needs and learning loss. 1 social worker to maintain a lower caseload so they can work closely with students and families with increased access to student services and community services 2 Digital Lead Teachers who will work with teachers to support learning loss, prepare and respond to remote	June 2021 - September 2024	Staff employed to maintain continuity of services will be evaluated for effectiveness around district COVID response. This includes annual evaluations, stakeholder feedback surveys, and mental health service tracking and referrals.	

		learning supports Unbudgeted/admin is included in this area			
			Total ESSER III Allotment	$	5,114,131.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Asheville City Schools (111) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

GAN Information

Asheville City Schools (111) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Burke County Schools (120) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

1) Burke County Public Schools held two formal input meetings with district and school leaders. After current data was presented/reviewed to the teams that illustrated the impact of COVID-19 on our district, the teams first brainstormed needs related to prevent, reduce or respond to COVID-19 in our schools and developed a comprehensive list of ways the teams felt the funding could best be used to help triage the current situation for both short and long-term solutions. A second input meeting was held and teams were charged with revisiting the previous list through the lens of ESSER II guidelines as reviewed by our district's finance officer and federal programs director. The teams narrowed down needs and prioritized the most significant to include the following: continued accessibility for teachers and students to digital and print curriculum materials that are aligned to research to fill in learning gaps identified, improve learning environments to make them safer and healthier places for learning for students and staff, increase accessibility to healthcare professionals that can help mitigate problems related to COVID-19 and assist in preventing similar issues in the future, and to find fair and equitable ways to reward and recognize staff that have persevered through the pandemic and continued to provide top-notch services to students and families in hopes of retaining them in our workforce and not losing them due to burn-out or fatigue. Data used to help inform team discussion included the

following: - BCPS COVID-19 Data Tracking from September 2020 - April 2021 - - teams considered trends in cases by school and level (elementary, middle, and high). It was noted that nursing support was needed at all levels and more equitably distributed among schools. The teams agreed that data indicated a need for a nurse on each campus to assist in tracking COVID-19, mitigating COVID-19, and collaborating with the healthcare community to assist in getting students back in school as quickly as possible if/when presenting symptoms of COVID-19. Nurses also were very instrumental in getting every employee vaccinated that wished to be vaccinated by the end of March 2020 resulting in over 50% of BCPS employees receiving a vaccine through district sponsored clinics. - Financial data was presented by the district's Chief Finance Officer. He shared data about the significant increase in expenditures related to custodial supplies (both the school level and the district level) and equipment over the course of the past year, resulting in over a 300% increase from previous years. Additionally, the district had incurred costs and projected costs associated with improving air quality and eliminating additional health hazards in buildings that could potentially exacerbate student/staff illness and absences. Comparative data between schools showed increased costs associated with older buildings with older air handling systems. - Student assessment data illustrated decreased student proficiency across grade level spans from PreK through 12th grade. Data included MOY Reading and Math STAR assessments (k-8), Teaching Strategies Gold (PreK and K), Check-in Data from 1st, 2nd and 3rd nine-weeks (3rd-12th), CTE assessment data, Lexia Core 5 (K-5 -- student growth from Aug 2020-April 2021) and Dreambox Data (K-5 student growth Aug 2020-April 2021). - Demographic data was compared to achievement outcomes. Learning loss was more significant among students that are economically-disadvantaged students. - Attendance data showed that BCPS student attendance had decreased almost 10 percent from the 2019-2020 school year - Parent and school referrals for school-based Mental Health for students almost doubled from the 2019-2020 school year. - Human resources shared retention rates of certified personnel indicating a slight increase in the number of teachers resigning during the 2020-2021 school year compared to previous years; however, it is anticipated that retirement rates and resignations will sharply increase between May-August. ** As of 5/25/21 - When comparing the previous fiscal year to the current fiscal year, retirement rates were already 18% higher than the previous year and resignation rates were over 10% higher than the previous year. This is also considering that rates will continue to increase over the course of the next six weeks before the July 1 turn of a new fiscal year. Collectively, resignations and retirements are over 15% higher than all of last fiscal year with 6 weeks remaining in this year. - BCPS Virtual Academy student enrollment projections by grade level and course were shared and discussion around the continuity of providing high-quality virtual teaching and learning for students K-12. 2) Burke County Schools will utilize end of year assessment data (STAR Early Literacy, STAR Reading, STAR Math, End of Module Math Assessments for K-2, EOG and EOC scores) to determine gaps at the district level, the school level, grade level level, classroom level and student level. Once identified, the gaps will be addressed through multiple layers of intensified instructional support including summer learning opportunities, after-school tutoring programming/extended-school day activities, decreased student:teacher ratio for interventions, targeted curriculum programs to address learning gaps of students, and adaptive math/reading

programs to target specific learning deficits. Teachers will receive additional training to build their capacity for effectively delivering instruction that addresses patterns of learning gaps identified and specific student gaps. Additionally, attendance will be reviewed with a critical lens and supports from school counselors and school social workers to address chronic absenteeism among students. Data collected among all areas for the 2020-2021 school year will be compared with data from 18-19 and 19-20 years to determine impact of COVID.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Based on the data collected and the conversations/input from the teams the following expenditures were prioritized to address the needs of the district to prevent, respond, and reduce COVID-19 impacts on the operations of our schools: 1) Improve buildings/facilities to help eliminate health hazards associated with and that complicate COVID-19 2) Purchase custodial supplies and equipment to continue to help schools/district combat COVID-19 exposures 3) Address equity concerns of accessibility of higher level courses for low-income students in high school 4) Provide more equitable access to digital content, programs, and courses through updated student devices and hotspots for students living in remote areas that can not access high-speed internet from their homes. 5) Fund nurses for each of our 25 campuses, eliminating shared nurses to help respond to COVID-19 and mitigate negative impacts of COVID-19 on teaching and learning 6) Funding to retain employees for the 2021-2022 school year that persevered through the pandemic. As mentioned above, resignations and retirements are already up by over 15% across the district (As of May 25th, 2021) when compared to last fiscal year. Additionally, it is noted there are still six weeks remaining in this fiscal year which gives ample potential for this metric to increase beyond 15%. 7) The team recognized the significant impacts of mental health issues that have arisen among our student population over the course of the pandemic. BCPS is committed to attending to the social and emotional needs of students, and recognizes the correlation of mental health and academic outcomes for students

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 2,903,545.99 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

BCPS will utilize STAR Early Literacy, STAR Reading, and STAR Math assessments (nationally-normed) to determine student deficits in learning for K-8th grade. Subgroup data will be extracted from STAR reports to determine trends in learning deficits among low-income students, children with disabilities, English learners, racial/ethnic groups represented by our student population, homeless students and students in foster care. Additionally, EOG data and EOC data will be used to determine patterns of deficits among student proficiency at the district level, school level, grade level, and individual student level through the MTSS framework of school improvement planning. ACCESS data will be analyzed and compared to previous years to determine impacts of COVID-19 and school closure. EVAAS data will be used to analyze student growth data. Data will be viewed through a school comparison lens, grade level lens, course/subject area lens, subgroup lens, and individual student lens comparing actual growth measures to projected growth measures. Students that miss the mark for growth will be prioritized for district learning-loss programs.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Learning loss will be addressed with the use of evidence-based instructional activities for identified students on targeted skill and standard deficits as represented in the data collected. These activities include: - Summer Learning Program - 6 week summer learning program; 156 hours of instruction will be made available to eligible students the summer of 2021. Students will have access to high-quality, effective educators that will engage them in research-based instructional programming and evidence based instructional strategies. Resources, salaries, snacks and materials will all be purchased with ESSER III funding. - Virtual learning options will be made available to students through our virtual academy. Additionally, students that are unable to be physically present in our buildings will have access to a robust digital teaching and learning curriculum/instructional framework. - MTSS - Student learning deficits will be addressed through the district's MTSS process at each school. The district employs a standard treatment protocol in K-8 for reading and math in which all schools have been trained. The standard treatment protocols are research-based and provide a scaffold of high-quality interventions for teachers to utilize for students struggling to progress at appropriate rates. - Extended School day - The district will develop extended school-day programs to allow additional instructional services to be rendered to students that continue to exhibit significant learning deficits beyond the 2021 summer school program. Teachers will be trained to deliver targeted, research based instruction to students beyond the regularly scheduled school day to overcome the learning loss that resulted from prolonged school closure due to COVID 19. - Provide high quality mental health services to students to meet the social and emotional needs of

students. Academic gains are contingent on the social and emotional well-being of students. - Partner with local community college to increase accessibility of programming to low-income students and homeless students that lack resources for transportation - Providing contracted tutoring during the school day for specific students - Employing part-time certified staff to reduce the student to teacher ratios during core academic periods in elementary and middle school. - Provide high quality PD to teachers in the science of reading to increase capacity of PreK-8th grade teachers in fundamental literacy instruction - Systematically engage students in evidence based core reading and core math programs in K-8th grade and core phonics (Prek-2nd grade) which will be monitored for fidelity of implementation at all levels - Engage students in research based digital programs (Lexia Core 5, Dreambox, and Freckle) that provide adaptive skill building opportunities and address specific learning gaps identified by individual students - Utilize the support and expertise of instructional coaches through modeling, providing feedback to teachers, engaging teachers in discussions around student data and planning specific lessons to address the gaps identified in the data - Materials for students to engage in remote learning will be necessary for any short remote learning periods that result from covid (manipulatives, books, kits, etc.)

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

- Utilize parent educators at elementary and middle school level to specifically help connect families to resources to support students in the growing Latino community represented in BCPS. - Provide parents to a technology help desk (web-based and phone hotline) that can be accessed daily for technology support - Provide parent engagement sessions at the school level to educate parents on resources available to them to help support the learning of their student at home. - Increase print and digital resources available to families to access for support in assisting students with course work - Develop programming at all levels to foster relationships between families and school counselors/social workers to provide social and emotional support to students and families

* (D) Tracking student attendance and improving student engagement in distance education;

BCPS developed a student engagement protocol during school closure and remote learning to mitigate the learning loss of unengaged students. School counselors were trained in the protocol and were charged with the task of identifying students that are "chronically absent" from school. School MTSS teams were then charged with the responsibility of problem-solving in collaboration with student families around attendance issues. As we return to in-person learning, school counselors are working through protocols for working through DJJ to monitor students who meet the definition of "chronic absenteeism" and that have been unsuccessful in improving attendance through the MTSS interventions administered. School counselors work in collaboration with DSS and truancy officials to uphold compulsory attendance statutes in NC. Burke County's Virtual Academy refined eligibility requirements for the 2021-2022 school year and sought input from teachers and principals concerning the level of engagement of each applicant during remote learning. Students that were unengaged and unsuccessful during remote learning will be required to

return to in-person learning for the 2021-2022 school year and will not be admitted to our district's virtual academy. Students will be referred to their school's MTSS team. Student Services department will revise and refine the student engagement protocol for both virtual and in-person learning to be implemented in the 2021-2022 school year.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Each school (PreK-12th grade) maintain digital student data walls that chart student progress from year to year. Pre-pandemic data points will be compared to current student data points to determine the impact of COVID-19 of each child. Learning loss will be measured for each child using this comparative data analysis at the school level. Schools will prioritize students to participate in learning loss activities according to this comparative data analysis. Data to be considered will include, ELA and Math proficiency data, nationally normed grade equivalence data, attendance data, school incident/discipline referral data, course proficiency data, student report card data, ACCESS testing data, EVAAS data, NC Check-in data, formative assessment data, course completion/credits earned data.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ○ No	Improved air quality systems that will increase air flow and help prevent the spread of infectious disease.	July 2021 - August 2024	Decreased COVID-19 transmission in schools and classrooms. Decreased absences among students and staff due to contagious disease transmission.	$ 6,317,371.02
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ⦿ No				$
		Contracted transportation			$ 195,000.00

| ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population. | * ○ Yes

○ No | transportation services for at-risk and low income students to access college courses at the local community college. Financial barriers for families to provide students transportation to the community college is a barrier that has been exacerbated by the financial impact on families resulting from the COVID-19 pandemic. Additionally, parent educators will be employed to assist families specifically those that do | August 2021 - August 2024 | Increased access to rigorous college level courses for low-income high school students | |

		not speak English in the home to re-engage students in learning.			
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ⦿ Yes ◯ No	- Salaries to support and sustain the 11 new nurse positions hired during the pandemic ($605,450.12) - Funding to additional nursing supplies to assist in COVID-19 response and mitigation ($150,000) - - Funding to support purchase of school PPE needs and supplies ($400,000)	June 2021 - August 2024	Decreased exposures among students and staff to COVID-19 - Increased awareness and education among students, staff and parents concerning contagious disease and communicable disease	$ 1,155,450.12

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	Purchase specialized custodial supplies for cleaning and sanitizing to prevent COVID-19 transmission. ($400,000.00) Contracted custodial support to respond to COVID-19 ($92,160)	July 2021 - August 2024	Decreased COVID-19 transmission among schools	$ 492,160.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ⦿ No				$ [ ]
	* ⦿ Yes ○ No		July 2021 - August 2024		$ 990,000.00

| EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment. | | Upgrade student devices; hot spots and accompanying subscriptions ($990,000.00) Purchase digital curriculum, assessment tools and programs that support high quality virtual teaching and learning along with hight quality progress monitoring of student growth and proficiency on grade level standards. ($2,090,556.00) | | Increased student access to digital programs and curriculum to support virtual teaching and learning. Increased access to high quality digital instructional programs that specifically address student learning loss and thus decreasing gaps in student proficiency data among both individual students and student sub-groups. increase access to high quality digital assessments to inform instructional decision-making related to learning loss | |

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ◯ No	Contracted Mental Health Therapists to attend to the increased mental health needs of students that have been exacerbated by the pandemic and school closure. Additionally, employee mental health will resources will be contracted out through an employee assistance program.	July 1, 2021 - August 2024	Increased access to school-based mental health for students	$ 450,000.00

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ○ No	Salaries: teachers, non-certified support, counselors, instructional coaches, cafeteria staff, extra 1 month office staff support for each summer site, nurses for summer learning site; transportation, instructional supplies, software (included in the above set-aside in Part C for learning loss)	June 2021 - August 2021	Increased percentage of students meeting grade level proficiency standards. Decreased achievement/learning gaps among student sub-groups as represented by data.	$ 0.00
	* ◉ Yes ○ No		July 2021 - August 2024	Unbudgeted will be kept in reserve to cover unexpected costs associated with the reduction and response to the impacts of COVID-19 on school operations.	$ 1,151,051.46

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		Unbudgeted - $1,961,832.86 Total; $1,300,645 of the unbudgeted is reserved for learning loss and is included in that set-aside amount Indirect Cost - $489,863.66			
				Total ESSER III Allotment	$ 10,751,032.60

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

There are no new applicants.

Burke County Schools (120) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Cabarrus County Schools (130) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

CCS has an extensive budget development process starting in October of each year and finalizing in April. It includes school level committees, school improvement teams, leveled committees, department committees and ultimately the budget committee. The budget committee is comprised of approximately 30 members. The membership includes at least 2 board members, 1 county commissioner, 4 county staff, 5 parents/community and and 16-18 CCS staff members (principals, teachers, TA's, cabinet). We use a prioritization process called Trego where each of the district objectives are weighed and measured against every budget request. The budget objectives are aligned with our strategic plan. With our first and second objectives being (1) safety, security, health and sanitation and (2) student learning experience, the results of our normal budget requests and prioritization aligned perfectly with the intent of ESSER II funds. The cabinet made the recommendation to apply ESSER funds to our already determined budget priorities. This was shared with principals, teacher reps, county and the board for feedback. The BOE approved the plan as submitted. Extended School Year Opportunities During the summer of 2021, CCS will offer two summer learning opportunities for students. Our Second Chance EOG/EOC Program will allow students who did not pass the EOG/EOC an opportunity for brief remediation and an opportunity to retake the state assessment. Our Jump Start

Program for students in grades K-12 in compliance with HB82. Students who are "at-risk" for failure will receive instruction for 150 hours in June and July. Instruction will be provided in small group and individualized formats to meet the needs of our students. Additionally, we will provide hands-on fun learning experiences for students so they will enjoy a "camp" feel during the summer. During the 2021-22 school year, we would like to expand our after school tutoring opportunities for students who are not on grade level. Small Group Instruction - School Day Elementary schools have mastered the ability to provide both whole group and small group instruction for students based on individual student needs. However, typically our middle and high schools provide whole group instruction with minimal differentiation. Learning Loss funds will be used to support the MTSS model by providing systems to provide a differentiated core instructional framework along with multiple opportunities for students to learn in small groups. More specifically, this funding will be used to employ part-time temporary small group instructors to work with students during the regular instructional block with the classroom teacher. This flexible group structure will allow students to receive instruction based on standards-based assessments and teacher observations. Professional Development The most effective way to improve teaching and learning is to improve the instructional practices of our teachers. We have planned professional development to address the CCS Strategic Plan in the area of early literacy with 80% or more of our students being on grade level in reading by the end of 3rd grade; small group instruction at the high school level; disciplinary literacy instruction in science and social studies; and conceptual understanding in mathematics. The frame of our work must all be culturally responsive and have tight accountability measures. The coordination of this professional development will be done by the added position "Professional Development Coordinator." Advanced Teacher Roles The articulated goals of state educational leaders as well as the CCS Strategic Plan is to ensure all students have a highly qualified teacher every day. The Advanced Teacher Roles plan will increase the reach of our most highly effective teachers while rewarding them financially for their impact on student achievement (high growth as defined by North Carolina's Education Value-Added Assessment System - EVAAS). Student Pathways All students need to be on the right path to graduate ready for both career and college. While all students do not need to go to a four-year college based on their career pathways, all students do need some type of post-secondary education (community college, trade school, certificate programs, etc.). We have purchased a tool to support students beginning in 5th grade with their career interest and corresponding educational pathway to high school graduation and beyond. We are in need of additional tools that will identify students and ensure that all students are taking the most rigorous courses available to them. This will support them regardless of their post high school goals and aspirations. We are considering programming such as AVID, Equal Opportunity Schools, and Pre-AP programs. Student Instructional Supplies and Materials In order to support the work detailed above, there will be specific student materials such as decodable readers for students in grades K-3 to meet our literacy goals, summer learning materials, etc. These materials will be purchased in additional to our regularly purchased instructional materials

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Teaching positions - targeting learning loss to all populations and special populations like EC and ESL. Selected teachers with have specific job responsibilities surrounding MTSS and a proactive approach to meeting the needs of our learners. Mental Health - the additional of psychologist, social work and guidance will assist students and families in dealing with and responding to COVID. Break Fix Technicians - will provide for the staff necessary to deploy and maintain one device per student. Custodial positions - the addition of custodial positions will help our schools with new and added cleaning and sanitization related to COVID. Mental Health Data Analyst - develop data tracking systems to assess, analyze and inform mental health deliver services. EC Mental Health Clinician - to employ a trauma-informed school-based mental health clinician to provide individual and group therapeutic services within Impact Classrooms across the district to address significant mental health and behavioral challenges Professional Development Coordinator - is critical to ensuring teaching and learning occurs at a high level. Secondary Academic Advisement Specialist - lead the district's efforts to promote the highest level of academic rigor, scholastic performance, and ensure that all graduation requirements are being met. Promote an academic culture in which all students are challenged to achieve to their highest, unique potential.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 5,949,415.80 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

CCS has a robust student data analysis process including the use of multiple reliable and valid assessments in order to identify needs and provide corresponding support. Beginning with the 2021-22 school year, we will be administering

the iReady diagnostic assessment in both reading and math to all students in grades K-11. The information gained from this assessment will inform individual teachers, Professional Learning Communities, schools, and our district of learning gaps our students may have as a result of the learning impacts of COVID. The Curriculum and Instruction Department has developed protocols to review this data along with other critical data points that will guide our MTSS model to ensure a strong core instructional program along with systematic supplemental and intensive interventions. We will also use specific progress monitoring tools and protocols to review progress during specific times during the school year. All data is disaggregated to address our various subgroups.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

CCS has a strong MTSS process in place. Our focus for the past two years has been strengthening core instruction to include evidence-based practices to ensure at least 80% of our students are meeting grade level expectations. Evidence-based practices include the use of the Science of Reading and Mathematical Practice and Concepts. CCS has developed Curriculum Guides based on the Understanding by Design process by Dr. McTighe. CCS will address learning loss via a summer program and after school program. At the district level, we collect and analyze quarterly benchmark data as compared to EVAAS data. Individual schools and teachers track individual student performance at least quarterly based on their current performance on benchmark assessments and their EVAAS. Students are tracked in quadrants, so teachers know how students are preforming based on their expected performance based on prior testing histories. Additionally, in SY2021-22, we will be able to use iReady diagnostic data in order to identify areas that we need to target in the event of learning deficiencies.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Prior to the pandemic, CCS was a Canvas district. Beginning with the 2020-21 school year, we moved our entire district to Canvas as our Learning Management System. We provided and continue to provide instructional videos to support students and families in Remote Leaning. We do not anticipate the implementation of Remote Learning beyond the current school year; however, we will support students and their families in the event we move into a Remote Learning situation in the future. Our district has technicians and other staff available to support all technology needs in order to support students regardless of the learning environment.

* (D) Tracking student attendance and improving student engagement in distance education;

All CCS teachers and administrators were required to participate in 10 hours of professional development using The Distance Learning Playbook by Doug Fisher, Dr. Nacy Frey, and Dr. John Hattie. Through these sessions, teachers and school teams developed processes to address student/teacher relationships, developing classroom management processes, communicating learning intentions, planning instructional units, developing engaging tasks, and the use of effective feedback, assessment, and grading. Throughout these sessions, we focused on strategies that yielded the

highest evidence-based effect size. Administrators have implemented these practices into in-person and remote classroom visits. CCS removed barriers to student attendance by providing every student with a district issued device, internet connection, LMS, and daily live teaching.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

At the district level, we collect and analyze quarterly benchmark data as compared to EVAAS data. Individual schools and teachers track individual student performance at least quarterly based on their current performance on benchmark assessments and their EVAAS. Students are tracked in quadrants, so teachers know how students are preforming based on their expected performance based on prior testing histories. Additionally, in SY2021-22, we will be able to use iReady diagnostic data in order to identify areas that we need to target in the event of learning deficiencies.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ◉ No				$

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◉ Yes ○ No	Teaching positions - targeting learning loss to special populations like EC and ESL.	3 Years		$ 4,030,026.30

At the district level, we collect and analyze quarterly benchmark data as compared to EVAAS data. Individual schools and teachers track individual student performance at least quarterly based on their current performance on benchmark assessments and their EVAAS. Students are tracked in quadrants, so teachers know how students are preforming based on their expected performance based on prior testing histories. Additionally, in SY2021-22, we will be able to use iReady diagnostic data in order to i

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$

| LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements. | * ⚪ Yes
 ◉ No | | | | $ |

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ○ Yes ◉ No				$
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◉ Yes ○ No	Mental Health - the additional of psychologist, social work and guidance will assist students and families in dealing with and responding to COVID.	3 Years		$ 4,099,932.01

				Student growth data will be apparent once mental health needs are addressed. At the district level, we collect and analyze quarterly benchmark data as compared to EVAAS data. Individual schools and teachers track individual student performance at least quarterly based on their current performance on benchmark assessments and their EVAAS. Students are tracked in quadrants, so teachers know how students are preforming based on their expected performance based on prior testing histories.	

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ○ No				$ 0.00
	* ◉ Yes ○ No	Hiring technology staff, custodians, indirect costs, teaching positions that focus on MTSS supports, hiring a secondary academic advisement specialist, and hiring a staff development coordinator	3 years	every student having a device, building cleanliness, student outcomes. At the district level, we collect and analyze quarterly benchmark data as compared to EVAAS data. Individual schools and teachers track individual student performance at	$ 14,266,553.69

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.				least quarterly based on their current performance on benchmark assessments and their EVAAS. Students are tracked in quadrants, so teachers know how students are preforming based on their expected performance based on prior testing histories. Additionally, in

Total ESSER III Allotment	$	22,396,512.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Cabarrus County Schools (130) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

Cabarrus County Schools (130) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Kannapolis City Schools (132) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Prior to the district-wide meeting, each school met with teachers and parent representatives to complete a needs assessment addressing instructional loss. A districtwide needs assessment session was held on March 22, 2021 and June 17, 2021-- including district leaders from the following areas: Elementary, Secondary, Student Services, ESL, EC, Student Accountability, School Nutrition, HR, Finance, and Transportation. The Assistant and Assistant Superintendent were also in attendance. Each department had been requested to determine the most important educational needs prior to the session. The day-long process included protocols and decision making processes that allowed input from all areas. As each group shared top requests (anchored in data) to meet students needs through the context of their department, consensus with top needs as a result COVID-19 and a disruption to school learning environments emerged. The following needs were compiled for best addressing KCS student learning gaps resulting from the disruption in educational services: 1) A decrease in consistent K-12 attendance and a decrease in student achievement based on local and state MOY data. Lastly, using DESSA data, there are concerns for the overall well being of students - especially with social and emotional learning 2) Due to increases in class sizes to support both on campus and remote learning, there is a need for additional personnel. Additionally, there is a need to reduce large

class sizes, especially in our K-3 classrooms and at the secondary level to support small group instruction long-term. There is also a huge need to support our growing LatinX families/Spanish speaking families. 3) There is a need to replace digital devices that no longer support current online programs. Additionally, to support 1:1 with on campus and remote learning, there is a district need to purchase additional devices. 4) Teachers need continued support/professional development for both synchronous and asynchronous learning and personnel (Instructional Technology Facilitators) to support this. 5) Because KCS is a high low-income district and a growing population of English Learners, it can be difficult to recruit and retain high quality staff to best meet students' needs. The district has already encountered unexpected resignations throughout the year and are expecting more, including a large amount of early retirements. Our belief is that by incentivizing teachers and Instructional Assistants with increased supplement pay, it will assist with retention and sustain the Professional Development that has and will be offered to address schooling loss and instructional gaps (both academically and socially) 6) There is a need to address air quality in buildings and increase custodial supplies to support a healthy and safe building. There is also a need to improve facilities with improved water fountains/coolers to prevent any transmission of diseases and overall student/teacher health.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

1) Summer opportunities for identified K-12 students that will address learning loss due to COVID-19 school disruptions (attendance, classroom, local and state assessment data will be used to identify students based on required criteria) 2) Hiring additional classroom teachers to lower class size to better asses and meet individual needs beginning Fall 2021 due to learning gaps (both current and future due to continued COVID-19 impacts). This will also include 2 EL (English Learner) teachers to support our growing LatinX populating/ Spanish speaking families. 3) Increase number of student digital devices to support 1:1 learning; This includes replace current devices that are antiquated and no longer supporting online learning programs Additionally, hire 2 additional instructional Tech facilitators to support the on-boarding of new technology and to support teachers with needed professional development. 4) Continue to provide Blended Learning professional development for teachers to support engaging and rigorous on-line learning for students, both in-class and when remote. 5) Because KCS has a high number of low-income families and a growing population of English Learners, it can be difficult to recruit and retain high quality staff to best meet students' needs. Our belief is that incentivizing Teachers and iInstructional Assistants with additional supplement pay or bonus pay for 2021-22, it will support teacher retention and increase moral while responding to unprecedented circumstances. This need and analysis supports instructional gaps by retaining teachers who will

sustain new practices and professional development that has and will be offered to address schooling loss and instructional gaps (both academically and socially) 6) There is a need to address air quality in buildings and increase custodial supplies to support a healthy and safe building; therefore, air purification systems will be placed in facilities. There is also a need to improve facilities with improved water fountains/coolers to prevent any transmission of diseases and overall student/teacher heath.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 2,395,888.40 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

The district will continue to meet and adjust our current curriculum documents to best address instructional gaps for students throughout 2021-22. The Understanding by Design framework will be revisited and adjusted through the lens of meeting all students' needs, including SWD, ELs and any other at-risk students. All universal screeners and ongoing assessments are valid and approved by the district (mClass, iReady, and Fastbridge). There is strong collaboration (monthly meetings) between all departments (C & I, EC, ESL and MTSS) to ensure there is alignment with with strategies and assessments, to prevent over assessing and receiving duplicate data.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

The district is strong with collaboration among all schools, ensuring that we are implementing evidence-based activities, yielding strong student outcomes. Through monthly meetings, there is district collaboration of curriculum unit planning, with a strong focus on differentiation and interventions. The MTSS coordinator (in collaboration with site Instructional Coaches) have created district-wide Intervention matrices as a specific resource to address learning gaps. Additionally, the district will be facilitating year-long professional development on differentiation and interventions, targeting when and what to use to meet the comprehensive needs of all students.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

All communication is provided in English and Spanish. Additionally, the district has established a Remote Learning online site to support distance learning. Each school also has specific strategies, including putting all information on multiple social media sites. All schools will offer virtual parent sessions on Zoom (Curriculum nights, Sharing Helpful strategies, etc.) that are targeted to their school and often specific grade levels. The district has also hired a translator to support families in need.. With technology, our tech department created a hotline to support family members if they were having difficulties with digital devices. All of these measures will continue to stay in place as they have proven to be effective.

* (D) Tracking student attendance and improving student engagement in distance education;

Our Student Services coordinator and Social workers have created tracking documents to monitor attendance, both virtually and remote. When there are concerns, immediate action is taken with home visits and/or phone calls. If additional steps are needed, it elevates to the MTSS team, with ongoing strategies (contracts, establishing a mentor buddy, check-in and check-out protocols) are established. With online learning this year, student engagement is even more critical, therefore, the district has (and will continue) to offer professional development in this area. The PD is targeted for elementary, middle and high school. We have also created Virtual support teams to that teachers can exchange ideas if they are having trouble with attendance and student engagement with remote learning.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

KCS has implemented systems that support tracking of academic progress ... including before and during the pandemic. Our student accountability department has created spreadsheets that allow for all common assessment (both local and state) data to be warehoused. This allows for district viewing and the ability to observe not just specific grade level trends but also districtwide. We also have monthly Data Guru meetings that help facilitate these conversations and identify students that need specific interventions. One specific area that we observed through assessment and looking at district data is the need for targeted Phonics support in K-2. The learning gaps are greatly observed in this area.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how

you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ○ No	District maintenance will install new water stations for staff and students to reduce the risk of virus transmission and exposure to environmental heath hazards.	Summer & Fall 2021	An improved and a safer environment for our educators and students. Impact measures will be reduced health concerns during the school year and feedback from staff and students.	$ 200,000.00

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ○ No	The district will improve air quality with purchasing purification systems for all facilities in Kannapolis City Schools.	Summer & Fall 2021	Improved quality of air, supporting the work environment for educators and students. This will be monitored by our district maintenance department. This will also support teacher retention.	$ 600,000.00
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ○ No	To address learning loss for SWD, EL students and other students at risk, additional positions have been added to the district: EL coordinator and SWD Coach. These positions will help assist with implementing district-wide structures and initiatives to best address unique needs. (*The salaries were put in for 2 or 3 years years for sustainment)	2021-2022	For EL students, success measures will be an increase in ACCESS scores and an increase in students exiting at the end of 5th grade. For EC students, meeting IEP expectations, with the overarching goal of exiting the program. For other at-risk students, success measures are documented communication and the monitoring of support systems in place - i.e. MTSS process	$ 900,000.00
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ⦿ No				$

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ⦿ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ⦿ No				$
	* ○ Yes ⦿ No				$

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.					
	* ⦿ Yes ◯ No		2021-2022	All KCS students will have digital access, for both on campus and remote learning. This will support equity among students/families.	$ 1,000,000.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		The district will purchase technology devices to support instruction, for both on campus and remote learning. Much of the devices (iPads and Chromebooks) are outdated and don't meet requirements to run new programs. Additionally, we will purchase software to support both remote learning and small group instruction when in the classroom.			

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ○ No	An additional social worker and psychologist will be hired to support the growing mental health needs across the district. (Salary was put in for 2 years to support sustainment).	2021-2022	Measures of success are better meeting students needs, with the district goal being less student referrals or when referred to a school problem solving team, putting goals/strategies in place to better support in a consistent and timely manner.	$ 247,945.00
SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ○ Yes ○ No	KCS will offer multiple summer opportunities to address learning gaps with students. Funds are for staffing, resources needs such as supplies and intervention programs, and transportation costs.	Summer 2021		$ 2,605,700.00

				As required by House Bill 82, there will be pre and post assessments to determine impact of instructional sessions. These measures will include online assessment systems (Istation, iReady and Fastbridge) as well as locally created resources. Teacher and student surveys will also be administered requesting feedback.	
	* ⦿ Yes ◯ No	For recruitment and retention support, the district will incentivize by increasing supplements for teachers, The will increase our district's pay competitiveness 0with surrounding	2021 and beyond		$ 4,029,908.60

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		with surrounding LEAs. Additionally, Instructional Assistants will receive an incentive bonus for the additional time and expectations that have been added to their responsibilities due to instructional losses among students. Additionally, we have planned for additional positions (teachers to reduce class size) and a tech coordinator to support the roll-out of new devices.		Impact is increased ability to recruit and retain teachers during this unprecedented time. Measures will be annual retention rate, transfer of professional development impacting student achievement and surveys to measure teacher morale.	
				Total ESSER III Allotment	$ 9,583,553.60

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

There are no new applicants.

GAN Information

Kannapolis City Schools (132) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Caldwell County Schools (140) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

1) Since the beginning of COVID-19 in March of 2020, Caldwell County Schools has learned of multiple areas needed: focus areas to enhance the educational experiences for the students of the district. Continuous meetings immediately began with district leadership at all levels: including the superintendent, associate superintendent, assistant superintendents, directors of all departments within the school system, to start the brainstorming process of how to move forward with the current situation and plan for an unknown future. Each department reached out to those involved in their areas to plan the way information could be gathered to determine needs and to be able to proceed with instruction and learning for all students. Initially, the district brought in or met virtually with principals, surveyed parents, students, and any other stakeholders imaginable (including community members, business partners, and the faith-based community) to identify needs. Through the process of working to provide for immediate needs, planning forward for if, or when, school was to begin, as well as if, or how, students would be engaged planning began to pinpoint and prioritize a plan of action. Regular meetings, conversations, and planning opportunities occurred, typically, on a daily basis. As the year has progressed and the system has been successful in having the majority of its students being instructed in person since the beginning of the school year, barriers and issues which have arisen

during this school year accelerating long range planning into short term actions. Data was needed and the central office became the "command central" to collect, compile, and analyze for what might lie ahead, especially during the summer months. This data collection process involved every department to determine departmental needs. Finally, the data was compiled to get an overall picture of the system, its needs, and how to prioritize and fund those needs. Data collection regarding student engagement, lack of sufficient time to completely teach all standards at a normal pace, a variety of learning choices and options were created to meet the current need. Simultaneously, data has been collected continuously throughout the year. The data overwhelmingly indicates a large portion of the students in Caldwell County Schools are not at target to be on level or meet proficiency at this point in the school year. Data (student outcome measures: formative, summative, criterion referenced, observational, attendance, social emotional data for students, discipline, and student engagement) clearly indicates student learning gaps have occurred simply due to the disruption and unintentional unpreparedness for such an event as was experienced. Implementation data has been and is being examined as well. 2) Through all of these experiences, and with all of the input gathered, the district intends to continue to keep the ultimate focus on the safety and prevention of the spread of COVID-19 by adding additional safeguards to lessen the opportunities for transmission of the virus: adding necessary equipment to schools that reduce student contact such as installing water bottle filling stations, ensuring the air quality is the most up-to-date and preventative system to reduce sickness; therefore, resulting in increased attendance so that students' learning will be more consistent. Additional sanitizing will continue until a time that no longer warrants the extreme measures currently in place. Summer learning programs will take place over at least the next three years, 2021-2024, for extended learning opportunities to fill gaps. Updated curriculum materials which raise the expectations of teachers, students, and parents, and meet the level of rigor and robustness necessary to keep students engaged with the capacity to exponentially close gaps due to the disruption of learning, will be secured with well-planned, detailed professional learning, coaching, and support as well as any technical assistance necessary to ensure the implementation yields maximum benefit and high levels of achievement and growth. The district will partner with outside agencies which have been vetted and use evidence, research-based best practices and strategies to work with principals and leadership for building capacity through instructional leadership aligned to districtwide innovations and goals. Those include addressing Mental Health Needs, Social Emotional Learning and Planning, Student Engagement, Instructional Design and Delivery, and any other needs that might arise through "the work." The goal of such a partnership will ultimately be building sustainability for capturing all strategies and plans through the MTSS Framework, continuous improvement, supporting the NC Star™ platform as the central tool for school improvement. Another area that has recently surfaced during the pandemic and has caused a disruption of continuity in learning and creating gaps, is working to improve a focus in the areas of Equity, Inclusion, Access, and Diversity. The district is investigating a partnership with the Dreambuilders™ organization to assist and support Caldwell County Schools to build capacity in that particular area which is becoming more prevalent within the community. Continued efforts to engage and communicate with families will be in place by adding additional resources necessary to enable

parents/guardians to conduct two-way conversations and communication. Connectivity issues, lack of appropriate devices, additional technical support personnel, understanding and education for students, teachers, and parents regarding the use of technology as a communication tool, instructional tool, along with educational software and programs necessary to create common language and consistency due to the onset of COVID-19 that will reduce barriers to teaching and learning, will be addressed through the federal funds available as well

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Data (student outcome measures: formative, summative, criterion referenced, observational, attendance, social emotional data for students, discipline, etc.) overwhelmingly indicates student learning gaps have occurred simply due to the disruption and unintentional unpreparedness for such an event as was experienced. Implementation data has shown inconsistency in continuing with supplemental and intensive supports, student engagement is lower than normal, attendance has taken a huge hit and the district's ADM is projected to be much lower than pre-COVID-19 based on current enrollment as compared with previous years. Data revealed several huge deficits which were directly related to COVID-19 simply due to CDC guidelines with sanitizing, social distancing, Governor's Orders for students to be separated 6 feet apart, air ventilation systems in need of repair or overall replacement, alternate modes of teaching and learning, and various models of instruction: in person with appropriate safety protocols in place, hybrid learning models of 2 days in class and 3 days remote instruction, and an all remote option. Stress related issues increased at an exorbitant rate for students and adults alike, additional nurses, social workers, and other support staff are necessary to continue to minimize the transmission of the virus and keep the contact tracing intact. One of the initial and most difficult areas that data supported additional attention is in the area of technology in all aspects: connectivity issues in the remote areas of the county, the need of hot spots or boosters where internet reception was not reliable, an insufficient amount of individual devices to enable all students to work from a virtual format if needed, additional technicians to meet the work load created almost instantaneously, high quality software and programs to serve as Learning Management Systems, professional development for the seamless integration of technology and other digital mechanisms for administrators, teachers, students, parents, and other members of the community. Data has also revealed students are not performing at typical targets specifically due to the inconsistencies in the structures for teaching and learning which has caused wide gaps in academic, social and emotional, attendance, engagement, quality of work, and a decline in self-motivation and completion of work products. The gaps with special populations appear to be widening rather than narrowing causing the district to need to search for curriculums, materials, and other supports that reflect higher expectations, include appropriate rigor and are robust enough to not only peak

students' intrinsic desire to dig deeper and learn more, but to also become better decision makers through thinking, reasoning,, understanding, and building core knowledge regardless of the format, platform, or delivery method of the content. Regardless of continuous outreach efforts, data indicates parent and family engagement is an area where there need to be additional tools to continue to find alternate methods or avenues to engage families in the educational partnerships necessary for all students to experience. Finally, the state legislation is requiring each Public School Unit to offer a summer learning program for eligible students with specific guidelines and restrictions. Data also indicates parents want their children back in the schools in a setting that is safe from physical harm, is warm, welcoming, and inviting, shows caring attitudes and respect for the students and families, and will do all in their power to make the educationally journey one that is significant for their child(ren).

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 4,067,730.40 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

The district will administer state required benchmark assessments, standardized testing required by the state, as well as district purchased competency based assessment systems with diagnostic and progress monitoring capacity. Other assessments that serve as placement or pre-assessments, formative assessments built-in, are adaptable, and provide target data such as Lexile Levels, Quantile Levels, and proficiency cut scores. These other assessments include but are not limited to specific programs and software programs which have the evidence based, research-based evidence for validity and reliability. Information gathered from these assessments, districtwide, will assist in streamlining the instructional framework and models as well as lesson designs for continuity across the system. Caldwell County Schools has a longstanding tradition of transient population and the theory is the more consistent we can be with our selection of instructional tools, pacing, and providing equity in the quality of instruction the more academic success all student will receive, regardless of special populations.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

The first line of defense in closing achievement gaps since the interruption of learning with COVID-19 is to plan, organize, and implement a summer learning program as prescribed by the state to extend learning opportunities for students to "catch up" or fill in the gaps from the typical consistency they are accustomed to in a regular school year. Summer learning will occur in the month of June before students have a time to wind down from attending school (especially since the middle and high school levels have only be back to 4 day, in person instruction for one full semester), June 2 through July 2. The summer learning will be for all grade spans K-5, middle, and high school. Students will attend 5 days a week and will adhere to evidence-based activities through selected Summer Reading Programs that meet the criteria set forth with The Science of Reading. Math interventions in grades K-5 that promote thinking, reasoning, and understanding through a conceptual approach will be utilized to ensure all students in grades K-5 will build numerical reasoning for success. The intervention program selected is one of the most effective evidence based intervention programs available and strongly endorsed by the What Works Clearinghouse and Foundations of Math. The program is Do the Math, by Marilyn Burns. A middle level math recovery/intervention program has been selected to use in summer learning is MathLinks from the Center for Mathematics and Teaching. High School courses will be taught as they are typically taught with Credit Recovery as an option for summer learning as well. The second layer of addressing learning loss will be capitalizing on updated curriculum materials that raise expectations for administrators, teachers, students, and parents designed to build students' core knowledge and teach content areas of science and social studies/history through literacy instruction. The materials include embedded practices and protocols for teachers and students alike to use for the teaching of core social emotional competencies aligned to the CASEL Competencies. The curriculum is designed to align with The Science of Reading and incorporates the four domains of the ELA NCSCOS: Listening, Speaking, Reading, and Writing. These materials with a carefully and purposefully designed professional development plan and continuous support will set all students up for success with integrated art, music, and other types of texts. It is also available for a K-8 implementation which builds on itself from Kindergarten through grade 8. Mathematics is a weak area where students in the district need more opportunities to learn conceptually and gain an understanding for numerical reasoning before moving to more advanced concepts. The district will be working to find the evidence-based curriculum that will build that concept of seeing how the math in the world around them fits by their learning experiences. Specific math interventions such as the interventions intended to be used in the summer learning will be integrated throughout the elementary and middle schools for use with the standard treatment protocols in each school's MTSS Framework.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Communication efforts are being planned and outlined to ensure parents and families understand the opportunities available, know the processes involved in getting their children enrolled and attending, and how they can effectively

support students (even in a distance learning environment). Multiple outreach measures will be incorporated through parent tips sheets that accompany specific curriculum programs and materials, parent/teacher communications, virtual meetings, guides posted online and available in print format, and a repository of "how to" videos which are short manageable clips with screenshots and explicit directions. Information is always translated into the language that is the most convenient for parents to process and respond. The district hopes to purchase a software program that will translate two-way, in time communications so that both the sender and receiver will be able to share in their native tongue and it will automatically be translated for the receiver in his/her language, and vis-versa. Such supports will enable ongoing dialogue and the ability to develop relationships with a common goal of what is best for each and every child.

* (D) Tracking student attendance and improving student engagement in distance education;

There are some highly recommended outside agencies who partner with districts in developing the tracking systems and data capture for attendance and improving student engagement in both distance learning and in person instruction. It is the hope of the district to be able to contract some services with one of the vetted and highly regarded entities to assist in taking steps to build the district's capacity to make this process continuous and ongoing. Contracted services would be an allowable expense with ESSER funds and such entities have the necessary expertise and tool box of best practices to assist the district in planning for sustainability once their services are completed.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Diligence in building a consistent tracking system for academic progress for the summer learning program will consist of End of Year data from the competency based assessment system which is already in place with the district. At the end of the summer learning experience students will have the same assessment so that evaluation of program and instruction, student growth, and comparison data will be in place to look from several lens: as an entire district, in specific school sites, in specific classrooms, and at the individual level. In grade 3, there will be an additional opportunity to show proficiency with the state required RtA assessment as a pathway to meet state legislation.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ○ No	Water Bottle Filling Stations for all facilities Contracted services for installation of stations	2021-2024	# of water bottle filling stations installed to meet the CDC guidelines to slow spread of virus transmission	$ 1,000.00

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ◯ No	add bipolar ionization to existing/new hvac units add hvac controls to schools replace chiller/ac units at various schools/add controls replace BARD AC units	2021-2024	# of units updated and replaced as well as the addition of bipolar ionization to 100% of HVAC in all facilities	$ 6,082,529.10
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ◯ Yes ◉ No				$

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◯ Yes ⦿ No				$
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◯ Yes ⦿ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ◯ Yes ⦿ No				$

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ◉ No				$

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ○ Yes ⦿ No				$ ☐
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ⦿ No				$ ☐

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ○ Yes ○ No	Included in funds budgeted for Part C Learning Loss - see above	2021-2024	See outcome measures described in Part C Learning Loss as summer learning is a major component of closing the gaps for learning loss	$ 2,369,347.42
	* ○ Yes ○ No	Indirect Costs Unbudgeted Reserve	2021-2024	Amount of indirect costs paid out	$ 526,548.50

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.					
			Total ESSER III Allotment	$	8,979,425.02

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Caldwell County Schools (140) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

Caldwell County Schools (140) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Camden County Schools (150) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

1. Camden County Schools consulted with a variety of stakeholders to determine the most significant educational needs of the district. District administrators, school administrators, classroom educators, school-based counselors, school-based nurses, transportation personnel and cafeteria staff were consulted in the planning of the Summer Extension Learning plan. These consultative sessions were held both formally and informally to discuss the various moving parts regarding the Summer Extension Learning Plan and how each part affects the various departments across the district. 2. Camden County Schools will utilize student data collected from current classroom performance, attendance (both in-person and remote), EOG/EOC assessments, iStation, iReady, Star Reading, STAR Math, NCVPS, APEX/High school credit recovery, and pre and post Summer Extension Learning Program assessments to develop differentiated learning plans for students who have experienced the most significant learning loss and gaps due to COVID-related educational disruptions. The development of individual and small group learning plans will ensure that the district maintains a laser focus on ensuring that students and teachers have what they need to assess and address and close identified learning gaps.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Camden County Schools has identified the critical needs through a cumulative needs assessment process. (This data is based on the 2020-2021 school year and is being used for planning purposes only for SY 2022-2023 and SY 2023-2024. This information will be updated once available.) Based on the 2020-2021 school year, Camden County Schools identified 391 students at-risk of failure. *Based on the 2020-2021 school year, 161 students in grades K-3 were identified at-risk, which includes, 3rd grade students who had not met the Read-to-Achieve standards. Data used to identify these students included, but was not limited to, iStation end-of-year benchmark data, NC Check-in data, other formative assessments and classroom performance. *Based on the 2020-2021 school year, 49 students in grades 4-6 were identified as at-risk. Data used to identify these students included, but was not limited to, iReady end-of-year benchmark data, NC Check-in data, other formative assessments and classroom performance. *Based on the 2020-2021 school year, 34 students in grades 7-8 were identified as at-risk. Data used to identify these students included, but was not limited to, iReady end-of-year benchmark data, NC Check-in data, other formative assessments and classroom performance. *Based on the 2020-2021 school year, 147 students in grades 9-12 were identified as at-risk. Data used to identify these students included, but was not limited to, grades, observations, diagnostic and other formative assessments, state assessments and class failures. *Based on the 2020-2021 school year, Camden County Schools had 387 students participating in Plan C (remote instruction). If our district has to offer a remote instruction option for SY 2022 - 2023 and SY 2023-2024 , our district will potentially have 100 students applying for remote instruction. ESSER III funding will contract services with Pearson to assist with providing instructional services for any remote students returning in SY 2022 - 2023 and SY 2023- 2024. *Camden County Schools operates with Chromebooks as our main student devices. We currently have 1,836 student devices. Of these devices, most were purchased within the past 5 years. As we looked at the age of the devices, our replacement plan shows the greatest number of devices expiring during the 2021-2022 school year (1,068 devices expire by June 2022). The 2022 -2023 school year sees 736 devices expire and 23-24 has 536 devices. With the bulk of our devices expiring in the next school year, we would not be able to maintain the level of substantive educational experience our students have come to expect. We would not have enough devices to keep our student population equipped if we were to return to any type of remote learning during any of the covered school years.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

11/9/2021 12:02:48 PM

$ 150,000.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Camden County Schools currently utilizes and will continue to utilize the following high-quality assessments as universal screeners and/or progress monitoring tools: *iStation (Grades K-3) *STAR Reading (Grades K-3) *STAR Math (Grades K-3) *iReady (Grades 4-8) *SchoolNet (All Grades/Content available) *NC Check-ins (All Grades/Content available) Data collected from the assessments named above will assist in the development of individual and small group learning plans. Student learning plans will ensure that the district maintains a laser focus on providing students and teachers with what they need to assess, address and close identified learning gaps. Student learning plans will be reviewed every 4 weeks and adjusted according to the student response to interventions.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Camden County has identified the following evidence-based, high-yield strategies as a district focus for instructional improvement: *Peer assisted learning *Guided instruction *Explicit instruction *Use of common academic language *Relevant and immediate feedback *Multiple exposures to new content *Scaffolding (control content complexity) *Promote metacognition ("Think - Alouds" and gradual release of complex tasks) Instructional walk-throughs at both the school and district level will incorporate these identified strategies. Data collected from instructional walk-throughs will be reviewed quarterly and used for district and school-based coaching.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

To assist parents and families in their efforts to support student learning, Camden County Schools will: *Develop parent assistance centers (PACS) at each school *Create parent websites with tutorials on a variety of topics such as technology that their child and teacher use daily, examples of content lessons, instructional videos, etc. *Hold parent events either in-person or virtually at least 3 times per year *Create learning-to-go packs for additional skills practice at home

* (D) Tracking student attendance and improving student engagement in distance education;

Camden County Schools will utilize school counselor and social workers to assist with the following: *Monitor attendance of at-risk students *Monitor student progress for those at-risk students with academic contracts *Serve as the school/home liaison for at-risk students *Provide mental health support with coping skills in dealing with school related anxiety for at-risk students Camden County Schools will utilize attendance data, grades, progress reports, staff observation data/anecdotal notes and student/parent self-reporting to establish baseline performance and ensure student progress. Students progress will be tracked using the above named metrics with data reviewed weekly. Camden County Schools will provide students access to fully remote instructional options at all grade levels. Providing this option will allow students to experience distance education 100% remotely rather than a hybrid option which is currently being used at this time in most schools.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Camden County Schools will utilize student data collected from current classroom performance, attendance (both in-person and remote), EOG/EOC assessments, iStation, iReady, Star Reading, STAR Math, NCVPS, APEX/High school credit recovery, and pre and post Summer Extension Learning Program assessments to develop differentiated learning plans for students who have experienced the most significant learning loss and gaps due to COVID-related educational disruptions. The development of individual and small group learning plans will ensure that the district maintains a laser focus on providing students and teachers with what they need to assess, address and close identified learning gaps.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ⦿ No				$ _____

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ◉ No				$
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ⦿ No				$
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ⦿ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ⦿ No				$

11/9/2021 12:02:48 PM

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ◉ No				$

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ○ Yes ● No				$ _____
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ● No				$ _____
	* ● Yes ○ No	Camden County Schools will utilize ESSER III funds to support a Summer Extension Learning program for students at-risk of retention and greatest learning loss for	June 2022-August 2022; June 2023-August 2023; June 2024-August 2024	Camden County Schools will establish baseline data for at-risk students utilizing data collected from classroom performance, attendance (both in-person and	$ 580,376.03

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.		learning loss for SY 2022-2023 and 2023-2024. Funds will be used for: *Teacher pay, incentives and matching FICA for 60 general education teacher and 6 EC teachers (Over 3 years) *Instructional Assistant pay, incentives and matching FICA for 20 TAs (Over 3 years) *School counselor pay, incentives and matching FICA for 6 counselors (Over 3 years) *School nurse pay, incentives and matching FICA for 4 nurses (Over 3 years) *Site Coordinator pay, incentives and matching FICA for 6 coordinators (Over 3 years) *Transportation		in person and remote), EOG/EOC assessments, iStation, iReady, Star Reading, STAR Math, NCVPS, APEX/High school credit recovery, and pre and post Summer Extension Learning Program assessments. From baseline data, student growth can be determined and used to develop individual student learning plans for the next school year.	

		(Over 3 years) *Bus driver pay and matching FICA for 5 drivers (Over 3 years) *Supplies and materials supporting the summer learning program (Over 3 years) *Contract services for Speech Language (Over 3 years) *Contract services for Occupational Therapy (Over 3 years)			
	* ◉ Yes ○ No	*Indirect Costs	August 2021 - September 2024	N/A	$ 16,513.05

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.					
		Total ESSER III Allotment		$	596,889.08

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

 There are no new applicants.

Camden County Schools (150) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Caswell County Schools (170) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Prior to creating ESSER funds budgets and plans, CCS analyzed data to prioritize district needs and met with stakeholder committees. These committees include ESSER fund, Title I Steering committee, district leadership committee, and SIT teams; stakeholders include principals, directors, parents, teachers, and instructional coaches. CCS plans to address learning loss needs created due to COVID including social emotional learning as well as educational achievement gaps. CCS teachers, instructional coaches and district leaders are assessing student learning on an ongoing basis, creating short, and long term plans to address student needs. CCS is utilizing multiple data points to assess student skill deficiencies. CCS started the 2020 - 21 instructional year under Plan C Remote Learning utilizing the district's 1:1 initiative K-12. The lack of the internet across the county and connectivity issues, students were supported by hotspots and the use of flash drives. The BOE approved a transition to in-person learning plan for all PreK-12 students on March 8. The district's Strategic Plan 2018 - 22, created a strategic footprint for the district aimed at student achievement and support. The 5 Strategic Goals include Academic Excellence, Healthy and Responsible Students and Community Partnerships, Recruitment and Retention of Highly Qualified Staff, Globally Connected and Innovative Learning, and Safe and Efficient Schools and Services for Students and Staff. Istation

reading data indicated 78% of K, 67% of 1st grade, 58% of 2nd grade, 43% of grade 3, 58%of grade 4, and 46% of grade 5 students fell in level 1 and 2 for student performance. Istation math data show 47% of K students, 49% of grade one, 75%of grade 3, 30% of grade four, and 87% of grade 5 students performed at level 1 or 2. iReady math results indicate 78% of 6th graders, 67% of 7th graders, and 58% of 8th graders, 58% of 2nd graders, 43% of 3rd graders, 58% of 4th graders, and 46% of 5th graders were in the level 1 or level 2 instruction. iReady reading results indicate 48% of 6th graders are performing 1 grade level below; 7th graders, 45% students are performing 1 grade below; and for grade 8 reading, 56% of students are performing 1 grade below. The preliminary percent of students at-risk for academic failure for the elementary school is 12.40%, ms 15%, and hs is 21.70%. For fall testing session in 2020-2021, of the 26 students who took math I, the proficiency rate is .08%, and math III students demonstrated 25.7% proficiency. In addition, biology students demonstrated 14.8% proficiency, and English II students demonstrated 47% proficiency. Recruiting and retaining teachers prove to be a challenge, especially when the district is embedded among other higher paying districts. Yearly, district and school leaders work in concert to retain teachers because of the lack of supplement provided in stark contrast to neighboring districts. In the 2018-19 fiscal year, with $300,000 appropriated for teacher supplements resulted in a 2.38%, or an average of $1,108 per teacher, supplement for all certified staff. The CCS Teacher Turnover Rate was 18.9%, 6% higher than the state average of 12.47%, with 61% of teachers resigning to teach in another LEA. The teacher turnover rate continues to increase from year to year; consequently, climbing from 5.10% to 6.53%. In 2019-20, 33 teachers left the district for various reasons. High teacher retention rates can adversely influence student achievement. The disparity of teacher supplements in surrounding districts ranges from $2, 231.00 to $5,142.00 in comparison to no current supplement in CCS. Twelve teachers left the district to teach in these surrounding districts. Caswell County Commissioners appropriated $300,000 in 2017-18, but did not appropriate any in 2018-19, 2019-20, or 2020-21. For the 2018-2019 fiscal year, the CCSBOE voted to fund the $300,000 for teacher supplements from fund balance. However, the budget does not allow for a continuation; thus, impacting teacher retention and inevitably student achievement. CCS has created a 1:1 initiative for K - 12 students that creates equality and equity and enhances student learning and engagement. With Chromebook license expiring in all 6 schools, the replacement of devices will be necessary to support and advance student learning. With a focus on utilizing technology during in-class, remote, and blended approaches, the district will need to leverage funds to purchase additional Chromebooks for students over the next two years. Integration of leveled content will support at-risk learners including low-income students, students with disabilities, EL learners, and students in the MTSS Process CCS has 6 schools. Stoney Creek Elementary was built in 1958, Oakwood Elementary was built in 1968 and an additional instructional wing constructed in 1994, North and South Elementary were built in 1991, and Dillard Middle School was built in 2001. Various repairs and replacements have been conducted in 1997, 2001, 2015, 2016, and 2019 including wall A/C units installed at Stoney Creek and the replacement of chillers South, North, and Oakwood. A Summer Learning Program will serve at risk students in grades K-12 from June 7-29 and July 12-August 3. The Summer Program will offer instruction for in person learners focusing on reading, math, and science to mitigate

learning loss and address student learning needs. In high school, credit recovery and EOC course support will be available. In addition, virtual learners in K-5 will be offered online individualized learning activities in reading and math through Istation. Students in grades 6-8 will be offered online activities in iReady Identification will be based on risk factors including learning loss, achievement, and addressing the learning needs of low income , EC, homeless, and EL Learners. Transportation, child nutrition, SEL support, and physical activity will be provided.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Analysis of Data to Support Funding Based on the development and review of the Comprehensive Needs assessment, the following needs have been prioritized: 1.Focus on the literacy and math skill development of students in K - 12; 2.Using data and process to inform instructional practices; 3.Provide identified students with extended learning opportunities; 4.Purchase digital resources to support remote and blended learning models; 5.Recruit and Retain highly qualified Professional Staff; 6.Conduct a facility needs assessment to address HVAC systems and air quality. To support and build upon the use of technology to differentiate, inform, and expand learning and educational programs for students at each of the district's six (6) schools, the district needs additional devices to create a one-to-one learning environment to support student learning K-12. Teacher recruitment and retention are necessary to provide quality instructional programs to students. All six(6) of the district's schools need additional training, supplies, equipment, and support to maintain the cleaning, disinfectant, and sanitization of classrooms, instructional spaces, and buses. There are opportunities for improved air quality due to the age of buildings and HVAC systems.   According to current data, students from K-12 are in need of reading and math intervention. Preliminary at-risk for academic failure percentages by school level are as follows: 12.40% for elementary; 15% for middle; and 21.70% for high school. As the grade level of the students increases so does the at-risk of academic failure rate. Per this essential data, students will receive academic and social-emotional remediation and enrichment. From kindergarten through grade 5, more than 30% of students are functioning one a level 1 or 2 instruction as well as performing below one grade level in reading. Moreover, at least 45% of middle school students are performing at least one grade level below. As preliminary indicators of performance, although the high school student EOC English II scores are at 47% which is higher than the prior year, only 77 students have tested thus far. Of the 22 math I students who tested .08% are proficient along with 25.7% proficient in math III. In comparison to last fall EOC results, prior to COVID, students performed as the following: English II 38%, Math I 49%. Math III 32%, and Biology 29%; thus, students were performing higher than years prior.   Reading and math intervention and remediation will continue to be a vital focus throughout the district to build upon student strengths in preparation for grade progression. The district has integrated the standards-aligned EngageNY as a vertical articulation for math and ELA curricula alignment from elementary through high school as one

answer to providing a commonality in terms to support student readiness and mastery. Pre-COVID, the district began to witness student successes with increased student achievement data. Furthermore, the benchmark data along with diagnostic data guides targeted areas of support; thus, driving the sessions and topics for summer programs along with embedded remediation and enrichment time throughout the elementary through high school day. To support remote and blended learning models, a one to one implementation is supported in every school. This one to one initiative was instrumental with helping our students adapt to remote learning as the pandemic presented throughout the year. To support the remote and blended learning, the district hired an instructional technology facilitator who provides district support for technology fundamentals and augmentations to increase student mastery of concepts as well as teacher mastery of technology delivery.   During the 2019-2020 school, elementary teachers were trained on GoogleClassroom and secondary teachers were trained on Canvas. The PD for these Learning Management Systems built the capacity of educators to facilitate remote and blended learning models. The district purchased flash drives for schools throughout the district to provide equitable access to instructional materials while learning both remotely and then blended. The district purchased digital support resources such as Screencastify to provide a seamless but condense video platform for teachers and student posting and access. In addition, the district purchased headsets with microphones, so students could experience a clearer sound quality when provided instruction. To provide reliable student access to technology, the district purchased chromebooks to replace outdated and damaged chromebooks. HotSpots and HUBS were purchased to provide accessibility to the WiFi. (Check)
For identified students, we provide students with structured math, reading, and science instructional support. Elementary and middle schools have integrated time during the instructional day to provide remediation and intervention to students for reading, math, and science support to strengthen areas of weaknesses. Moreover, students meet with teachers either virtual or in-person for one to one support along with whole group remediation and intervention needs. Additionally, during summer learning programs, students will engage in extended learning opportunities for math, reading, and science remediation and intervention. This identification process for elementary and middle grades include varying levels of support needed using the following formative and summative assessment performance: iStation, iReady, and EOGS. For the secondary level, performance on the End of Course and Career and Technical Final Exams are used to identify students in need of extended learning opportunities. Once students have completed instructional support in the summer programs, students will have the opportunity to take the math and science area State Assessments to demonstrate the increased levels of proficiency.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 908,716.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Caswell County Schools will be addressing learning loss through tailored identification of students who are not successful in reading, math, science, EOGs and EOCs and CTE credentialing. Students will be invited to participate in the Summer Learning Programs based on multiple data points which include Competency Based Assessments (Istation K-5 , and iReady 6-8), EOC 9-12, EOGs 3-8, CTE credentialing, and high school credit recovery needs. The program will utilize available data and selection of at risk students who are displaying indicators or learning loss or demonstrating credit recovery needs in the preceding school year.   Addressing Learning Loss for identified students will occur during the district's Summer Learning Programs. Summer Programs will serve at risk students in grades K-12 including but not limited to low income, students with disabilities, homeless, in foster care, and EL learners. The Summer Programs will offer instruction for in-person learners focusing on reading, math, and science to mitigate learning loss and address student learning needs. In high school, credit recovery, EOC course support as well as CTE credentialing needs will be available. In addition, virtual learners in K-5 will be offered online individualized learning activities in reading and math through Istation. Students in grades 6-8 will be offered online activities in iReady Identification will be based on risk factors including learning loss, achievement, and addressing the learning needs of low income, EC, homeless, and EL Learners. Transportation, child nutrition, SEL support, and physical activity will be provided. Students in grades K-5 will have multiple points of data analysis to determine instruction and remediation. These include individual Istation scores, individual student EOG summaries, Words their Way Spelling Inventories, Text Reading Comprehension data, K-2 NCDPI formative assessment, as well as grades. Students in grades K-5 will be given the Istation Indicators of Progress (ISIP) for reading and math. They will take the ISIP in July as a progress monitoring indicator as well as at the end of summer learning camp as a summative of learning. Students in grades 3-8 will also participate in any reassessments opportunities available in Reading, Math, and Science EOGs. Students in grades 9-12 will be administered the English II, Biology, Math I, Math III EOCs and CTE credentialing support. Grade level iReady assessments will be available for students in grades 6-9. In addition, EOC assessments, credit recovery modules for students in grades 9-12 as well as credentialing support through the credentialing camp. Summer learning instruction will occur with focused remediation, intervention and small group instruction. Instruction will be differentiated to improve student achievement levels and address learning gaps in skill development. Student learning data will drive the placement of students in the learning setting, small group development, and to determine content of

instruction. Summer 2022 Program K - 12 Students will attend a 7-week instructional program engaging in learning activities as well as a variety of enrichment including STEM, art, and theater. Three Signature practices daily using inclusive practices utilizing SEL engaging strategies and use optimistic closure. SEL activities will be integrated into math, science, art, and language arts instruction where appropriate utilizing the NC SEL Standards Mapping Document. Each grade level will include science, math whole group and small group time as well as whole group literacy (shared reading and interactive read alouds), guided reading groups, Levelled Literacy Intervention, word study, independent learning stations, remediation/intervention and vocabulary integration. All grades will integrate fiction and nonfiction text including science integration. Transportation and meal service will be provided (breakfast and lunch).   Students in grades 9-12 will have the opportunity to complete course remediation in English II, Math I, Math III, and Biology. The purpose of these sessions will be to improve functional skills and access to enrichment alongside credit recovery and credentialing opportunities. Students will be provided standard-aligned instruction and curricula in preparation for successful outcomes. The standards will be aligned to test specifications per each EOC provided by NCDPI. Summer 2023 Program K - 12 Students will attend a 7-week instructional program engaging in learning activities as well as a variety of enrichment including STEM, art, and theater. Three Signature practices daily using inclusive practices utilizing SEL engaging strategies and use optimistic closure. SEL activities will be integrated into math, science, art, and language arts instruction where appropriate utilizing the NC SEL Standards Mapping Document. Each grade level will include science, math whole group and small group time as well as whole group literacy (shared reading and interactive read alouds), guided reading groups, Levelled Literacy Intervention, word study, independent learning stations, remediation/intervention and vocabulary integration. All grades will integrate fiction and nonfiction text including science integration. Transportation and meal service will be provided (breakfast and lunch).   Students in grades 9-12 will have the opportunity to complete course remediation in English II, Math I, Math III, and Biology. The purpose of these sessions will be to improve functional skills and access to enrichment alongside credit recovery and credentialing opportunities. Students will be provided standard-aligned instruction and curricula in preparation for successful outcomes. The standards will be aligned to test specifications per each EOC provided by NCDPI.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

The district will utilize evidence-based practices for addressing learning loss for identified students and is a critical feature in improving learning outcomes. School and district MTSS teams will be an integral part of data analysis and creating systems of support for students both academically and socially emotionally. MTSS systems of support as well as summer learning programs will focus on providing student academic support to mitigate learning loss achievement gaps. When teachers combine their expertise as content knowledge experts with explicit instruction and practices and programs backed by research, the likelihood a child will grow academically is increased tenfold. Teachers will utilize explicit instruction in areas where student data demonstrates a need. Teachers and leadership will use continuous

formative assessment in analyzing all available data and collect data on an ongoing basis to assess student learning, determine instructional needs, and plan next steps in instruction and program needs. Program plans include tiered support, progress monitoring, and transition planning for academic and social emotional needs of identified students. Students learning will be progress monitored throughout summer learning and the school year; the data will be used to identify and address learning loss via multiple data points such as Istation Indicators of Progress, standards and skill mastery assessments, text reading comprehension growth, teacher observation, MTTS data and other data points available. School and district MTSS programs will employ evidence based programs such as Heggerty for phonemic Awareness core instruction as well as BRIDGE the Gap for phonemic awareness intervention; FUNdations for core phonics along with FUNdations double dose and specific phonics intervention, Guided Reading and Fountas and Pinnell Classroom Literacy (K-2) Shared Reading and Interactive Read aloud along with Engage NY ELA (3-8) for core ELA instruction and Levelled Literacy Intervention for text comprehension support in grades K-5. In math and reading, IStation and iReady provide individualized adaptive computer instruction as well as intervention for specific skill deficits. Eureka math provides core math instruction (K-12). To provide a continuum for 9-12, Engage Caswell, adapted from Engage NY and led by a state math assessment writer in collaboration with Caswell 9-12 math teachers, will continue to be implemented during the summer programs as pre-COVID scores demonstrate increased levels of proficiency. Core instruction and tiered support provided will be analyzed and monitored for fidelity through MTSS, SIT, and PLC data analysis. These data analysis sessions will drive next steps and needed resources to locate and address learning gaps. Effective classroom practices in reading acquisition from the Science of Reading will continue to drive K-3 reading instruction and all grades reading intervention and support needs. Effective evidence based classroom practices will remain at the forefront of analysis of walkthrough data, teacher survey data, and professional development planning. Due to Covid-19, students, parents, and staff have experienced education and life events differently than ever before. School closures and other experiences during this pandemic may contribute to or trigger certain behaviors. Stressors are likely to increase for students and families during this time. These stressors have the possibility to lead to changes in mental health. A high number of impact procedures are put in place to protect and provide SEL support for the students and their families including: - Systematic check-ins - Parent/Teacher referral forms - Targeted small groups on specific topics impacting students ex. Anxiety - Individualized counseling sessions based on needs assessments ? Intentional SEL guidance lessons - Student/Family Needs Assessments - Utilizing trauma informed strategies within the classroom. - Supports will be put into place for including training modules to assist teachers in classroom implementation strategies. - Class Meetings "Morning Meetings" to promote connectedness and communication - Resource mapping of available resources for students and families.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

In support of strengthening student academic achievement, the district developed a parent and family engagement policy that establishes the district's expectations and objectives for meaningful parent and family engagement and guides the strategies and resources which strengthen school and parent partnerships in the district. The goal of CCS is to foster the participation of parents and families in meaningful communication regarding student learning and other associated school activities that ensure parents play an integral role in assisting with their child's learning in traditional, blended, and virtual education settings. The school district works to provide assistance to parents and families in understanding state and district academic information connected to student learning and progress. Program topics include gaining knowledge about the challenging state academic standards, local academic assessments, as well as the required assessments for North Carolina students, including alternative forms of assessment. In addition, the school district will coordinate pages on the district and school websites that will contain resources and materials to assist and support parents working with their children at home. To assist parents with understanding and supporting distance learning, the district holds informational meetings for parents and families (virtual) to discuss all aspects of distance learning, including technology issues, connectivity, instructional delivery models, and assessments. The district's instructional technology department supports distance learning and provides parents access to instructional videos and other resources posted on the district's webpage under Remote Learning Resources for Parents and Students. Remote Learning Resources include Chromebook Use, Tech Tips for students and parents, using Google Classroom as well as Canvas, and resource videos including topics on connecting to Wi-Fi, completing assignments, opening courses, and navigating, and both Learning Management Systems. To address Social and Emotional support at home, the district's Reopening Plan offers parents guidance on working with their children during school closures and during remote learning. Information included in the reopening plan provides specific information on warning signs, risk factors, and preventive and reactive actions. The parent's role in crisis management is clearly defined and examples and actions are explained. Resource mapping has been included to give parents the most updated resources available in the community as well as information for local, state, and national organizations. The resources are located on the district's webpage.

* (D) Tracking student attendance and improving student engagement in distance education;

Student attendance is analyzed regularly during each marking period. Schools have developed systems of parent notification and reaching out to students on a regular basis to increase engagement associated with student achievement. Schools have utilized recognition, PBIS rewards, engagement, social and emotional engagement techniques as well as other strategies to connect with parents, motivate students and increase attendance. These practices will be shared and become more widespread. Teachers and schools use various modes of communication for both students and parents. Parents are educated on the importance of student engagement and attendance. Attendance needs are communicated to parents through phone calls, notes, emails, texts, formal traditional letters, and parent conferences. Daily attendance is recorded in grades K-5. In grades 6-12 student attendance in individual

courses is recorded. Parents are contacting on a regular basis to emphasize the importance of good attendance as it relates to student achievement and progress. Students who are chronically absent as well as those who are experiencing barriers (food insecurities, transportation, medical, or mental health needs) to attendance are referred to school counselors and social workers to conduct meetings with parents to discuss attendance and to identify any barriers that exist. Social Workers conduct home visits and virtual meetings to engage parents and to discuss available community resources for the student and/or the family to meet identified needs. The district's DropOut Prevention and Re-engagement specialist worked with identified middle and high school students experiencing attendance related issues or to reconnect students during remote learning. The retrieval process targeted over-aged and under-credited students as well as students needing a new pathway towards graduation including alternative programs, credit recovery, and other district approved completion programs. School Resource Officers provide an additional layer of support and engagement by conducting home visits and wellness checks for identified students. Wellness checks are conducted for those students and households that were not regularly participating in remote learning, turning in flash drives of completed work, or checking in with assigned teachers or principal. CCS has identified individuals who needed connectivity support during distance learning. Due to the district's 1:1 initiative, HotSpots were distributed to families identified as having connectivity issues and access. Additionally, CCS partnered with 4 churches in the community where connectivity was an issue. Wifi access points were installed and students could be provided access to the internet to increase participation and re-engage.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Mitigating learning loss and promoting academic achievement due to school closures will require a long range plan supported by student data, the administration of assessments to accurately reflect the students current achievement levels and identification of skill and learning gaps. School and district MTSS teams will be an integral part of data analysis and creating systems of support for students academically developing evidence based interventions based on the analysis of students adata. MTSS systems of support as well as summer learning programs will focus on providing student academic support to mitigate learning loss achievement gaps. Student learning data is integral to determining learning loss. Analysis of previous summative learning assessment data along with pretests will be analyzed to determine current needs and areas of learning loss. Comparing pretest and summative assessment results to those of pre-pandemic cohorts can produce the identification of learning loss trends and help to indicate if learning loss is diminishing for future cohorts taking the same assessment. Summative assessments such as benchmarks, EOGs and EOC results can be used in this fashion. Summative Assessments and standards mastery assessments can be utilized to determine where learning loss has occurred. Once gaps are located, foundational skills which might need to be built or remediated can be identified so the gaps can be addressed as soon as possible. Students grades are housed in Powerschool and available to compare all individual pre-pandemic student achievement versus present

achievement. School SIT teams and MTSS teams identify data points for each course, student learning group, and subject to compare pre-pandemic grades to current learning trends.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ◯ No	In response to the COVID-19 virus and to improving environmental health and air quality in schools and district buildings, the district will make prioritized maintenance, replacement, and upgrades to HVAC systems based on assessment including but limited to control systems, heating and air conditioning systems, and filtering to improve environmental health for student and staff.	July 1, 2022 - September 30, 2024	By September 30, 2024, the district will improve attendance rates of students and staff and increase classroom instructional time by improving the Indoor Air Quality at each designated school and school building following the recommendations and priorities of the district Needs Assessment.	$ 450,000.00
	* ◉ Yes ◯ No	In response to COVID-19 and associated grant, provide Federal Funding Program Oversight through personnel and contracted financial services to include compliance with	July 1, 2022 - September 30, 2024		$ 400,876.94

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.		compliance with Federal and State requirements in accordance with approved application, budget, and the conditions of the award including Federal Guidelines and regulations, grant management, and progress reporting. In response to COVID-19 and to mitigate the spread of the virus, the district will hire 2 school nurse positions (RNs) to provide: -health education and training -conduct health screenings -administer COVID-19 tests and immunizations -coordinate health services and related mitigating strategies as part of the reopening plan. In preparation to create a healthy learning		By September 30, 2024, Oversight personnel will collect, monitor, analyze, and submit monthly grant fiscal reports and narratives to the CFO and Superintendent for approval By June 30, 2023, improve attendance rates of students and staff and increase instructional time by: - providing health awareness trainings - making health referrals based on assessments and screenings - coordinating reopening strategies - purchase PPE, hand hygiene and cleaning supplies to support reopening strategies.	

		environment for students and staff, the district will: -purchase hand sanitizer and additional cleaning supplies for schools and district buildings. -purchase PPE including face masks/shields, gowns, gloves, and eye protection based on NCDHHS guidelines.			
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ◯ No	IIn response to school closures and associated learning loss, school level problem solving teams will: -Identify student academic needs using multiple data sources and assessments -Determine appropriate evidence-based strategies to provide identified students with	July 1, 2022 - September 30, 2024	By September 30, 2024, identified students participating in in-school and after school tutoring opportunities will increase academic achievement levels on state, local, and competency based assessments.	$ 31,633.62

		students with extended learning opportunities including remediation and intervention support -Provide individual and small group learning services to improve student achievement levels and address learning gaps in skill development of at-risk students including low income, students with disabilities, EL students, and homeless students. - Provide learning service models including in-school and extended day tutoring -Review of collected data to evaluate effectiveness			
	* ⦿ Yes ○ No	In response to school closures, the district will employ Specialized Instructional	July 1, 2022 - September 30, 2024	By September 30, 2024, - increase student attendance at each school. -	$ 380,488.86

| IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts. | | Support Personnel to: Psychologist/MTSS Coordinator - Support students' learning, social/emotional development, and mental/behavioral health using MTSS problem solving models, academic/social-emotional learning assessments, and the delivery of evidenced-based interventions - Conduct comprehensive psychological and educational evaluations Dropout Prevention Specialist - Work with school level teams, develop a strategic plan and associated strategies to identify potential dropouts, engage students and parents, and develop individual | | decrease dropout rate by using evidence based strategies included in individual graduation plans. - increase the number of evidenced based interventions provided as part of the MTSS process. - increase student achievement levels K - 12 as measured by state, local, and competency based assessments in reading and math. - increase connections and referrals of students and parents to mental health and behavioral support services | |

		develop individual plans and alternatives for addressing over-aged, under-credited students at-risk of dropping out. School Social Worker - Conduct reliable assessments of students to inform the design of interventions to remove barriers to learning, provide crisis intervention services, and connect students and families to resources including food, transportation, and mental health services.			
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ⦿ No				$

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ◉ No				$
	* ◉ Yes ○ No	In response to school closures and in preparation for reopening schools, the district will update	July 1, 2021 - June 30, 2022		$ 30,000.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		will update classroom digital devices for teachers to: - support the presentation of digital instruction and content; - use of digital technologies in a variety of professional activities including teaching and learning, classroom management, and professional development; - increase student engagement by providing meaningful and relevant learning experiences; - differentiate instruction; and - support the integration of STEM and SEL activities.		By June 30, 2022, the district will purchase digital devices for staff to engage student and increase student achievement as measured by state, local, and competency based assessment K - 12.	
MENTAL HEALTH SERVICES: Providing mental health services and supports.			September 1, 2021 - September 30, 2023		$ 30,000.00

| | * ⦿ Yes
○ No | In response to school closures and to address social emotional learning as part of the district's reopening plan for students and addressing the social emotional core competencies, the district will provide a professional development program for staff including but not limited to in the following areas: -Trauma Informed Strategies and Practices for Classrooms and Schools; -Mental Health First Aid; -Restorative Practices; -Suicide Recognition and Prevention; and -Integrating SEL Strategies into the curriculum | | By September 30, 2023, Caswell County School staff will participate in a professional development program to support the social emotional needs of students at school and in the classroom, improve student academic achievement as measured by state, local and competency based assessments, improve classroom behavior and school discipline, and improve school attendance. | |

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ○ Yes ◉ No				$
	* ◉ Yes ○ No		July 1, 2021 - September 30, 2024		$ 2,311,864.58

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		In preparation for the Federal Grant Funding associated to COVID-19, provide indirect costs including but limited to utilities, general expenses, and administrative expenses of administering the grant. In response to school closures due to COVID -19 and the district's needs assessment regarding teacher attrition and turnover rates, the district will provide yearly stipends over the next three years for certified teachers to recruit and retain highly qualified staff at the district level.		The indirect cost will support the district's administration, maintenance, and continuity of services as outlined in the submitted grant application. By September 30, 2024, the district will increase student achievement for K-12 students over a three-year period based on local and state assessments. By September 30, 2024, the district will decrease the LEA Teacher attrition rate over a three-year period based on the NCDPI Report to the General Assembly: State of Teaching Profession report.	
				Total ESSER III Allotment	$ 3,634,864.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Grant Details

Catawba County Schools (180) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

1. A survey was sent out by district leadership to all principals in the PSU. A screencast of information related to ESSER II and ESSER III funds was to be shared with all employees for input into priorities for ESSER II/III funds. This information was also to be shared and discussed with each school improvement team, with the school improvement team chair collecting the ideas for use from constituents. One survey was completed by each school and returned to district leaders. Eligible areas for allowable use were listed on the screencast and survey, with questions asked about the school's prioritized needs related to each area as a result of Covid. A virtual meeting was then conducted with all building level administrators for additional conversations concerning funding needs. Our PSU is also developing a new strategic plan, and input was collected from every constituent group to provide their suggestions for each area of the plan including the areas of instruction, social/emotional well being, technology, culture and maintenance. This information is also being used in conjunction with needs assessed that are specifically related to Covid, and compared to the assessment listed in the first paragraph. We are conducting feedback virtual parent and student meetings the last week of May to further gather input from parents and students. Data collected from these meetings will be used in amendments to this plan for future purchases. 2. Our PSU will use NC Check-In data, EOG/EOC scores and

formative assessment data to help address student learning gaps. This information will be compared to pre-Covid information to determine where the greatest areas of learning loss have occurred. After needs are determined, intensive research based interventions and instruction will be delivered by trained personnel, in appropriate group settings, to address these gaps and losses. Post assessments (both formative and summative) such as iStation and I-Ready will then be administered to determine the effectiveness of our interventions and next steps in the improvement cycle.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

As a result of our needs assessment primarily related to ESSER and the use of funds to address learning gaps/losses related to the disruption in the educational process, our findings are as follows: 1. Overwhelmingly, the number one priority for funding is learning loss from Covid. Open ended responses call for funding in the areas of an extensive Summer School, remediation/tutoring funds to hire tutors, a more intense instructional before and after school program to help maximize student time to combat learning loss, and funding to improve our Pre-K programming to ensure we can mitigate social emotional issues created by these younger children being at home this past year. 2. The next priority that was reported in the needs assessment is resources provided to administrators to meet the individual needs of their particular schools related to Covid and learning loss. Requests in this area centered around funding again to reduce class size and provide tutoring needs for students who have learning loss due to Covid. As a part of this priority, an identified need was a district wide consistent assessment tool for students in grades K-8 with resources embedded to help personalize instruction for students. This tool will be very important for diagnosing student learning loss in terms of needs for reteaching in standards. 3. The third priority was social emotional learning and supports for students due to the severe mental health issues that have progressed due to Covid. Recommendations from constituents centered around ensuring that we have behavioral specialists in place next school year for regular education students with severe needs due to Covid. 4. The fourth main priority for funding centered around technology and ensuring that our end of life devices are replaced during the next three years of ESSER funding. Due to Covid, our chromebooks have been used extensively at home and school and have suffered from damage that occurs from transporting them to and from school. During the next three years, we will need to ensure funding for devices to make sure students have needed instructional tools. Based on our PSU assessments and surveys related to district strategic planning, these are the prioritized areas of concern: Prioritized areas center around recovering learning loss due to Covid, mitigating logistical issues related to air quality and cleaning to ensure Covid transmission is at a minimum, and technology priorities for the funding of needed online tools and devices that will help students with learning loss due to

Covid. End-of-year formative and summative assessment data will not be available before the grant is due. It is difficult to determine exactly what our academic/educational needs will be until we have that data. Overall, we have approximately a 20% failure rate for the district, which indicates the need for credit recovery efforts and strategies/resources to be put in place to help with learning loss.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 5,411,064.68 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Assessments (both formative and summative) will be utilized on a regular basis during the school year to determine where students are in their learning journey, and what plan needs to be made by teachers and support staff to differentiate and customize learning for students. After initial assessments, students will receive both grade level instruction and interventions, by trained personnel, teachers and tutors, to address learning gaps/losses that are the effects of the interruption of educational services due to Covid. Assessments already approved by the state such as iStation, I-Ready, EOG/EOC tests, NC Check-Ins, Schoolnet, Envisions math assessments, will be the main resources used to evaluate students. Other formative assessments may be utilized as approved by the PSU.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

The PSU is already in a partnership with Learning Focused Schools based on the work of Dr. Max Thompson to provide professional development and support to teachers in order to increase high-quality teaching and learning in the classroom. Much of his work is centered around how to choose and use high level teaching strategies to help students achieve grade level performance and "catch students up" when they have fallen behind. This work in our district is perfect timing for addressing the learning losses/gaps that we will see over the next few years. This is a true partnership with follow up provided by the organization, in order to track progress and provide evidence for the

effectiveness of their work and the benefit for students and teachers. Personalized Learning, another district initiative that is underway will be used to differentiate instruction for students so that time can be maximized for all students. This effort will begin in our Summer Learning Program.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

As much as parents have been forced to be an integral part of their child's learning experience over the past year, the next few year's may prove to be even more important for parent involvement. Parents will need to be educated on the fact that the next few years may be hard as teachers work with them to close the gaps that have occurred during the pandemic. More focused work will need to be done with students to provide required work and skills that have been missed or not given due time during instruction. They will need to be given explicit information on what to expect, how to help their child, and how to prepare for any future possibilities of extended school closure. There was not time or warning before the pandemic to adequately prepare them for helping their child. Now, we can hopefully provide training, information sessions, and support for parents to better understand what to do and how to do it. They can prepare questions based on this past year's experience that they need answered. Teachers can schedule small sessions at the beginning of the school year for parents to come in and see how particular things are done and taught in their child's classroom. Materials and learning kits could be made to support any future remote learning based on what parents saw they needed during the pandemic, Teachers can help parents with homework, online assignments, and technology questions. The pandemic, although it forced more parent involvement, may have given educators the perfect opportunity to become more of a "partner" with parents in their own child's learning, and to bridge the gap between home and school. We will seize this opportunity to improve our communication with and assistance to our parents/guardians. We will ensure that parents are an integral partner in the Summer Learning Program.

* (D) Tracking student attendance and improving student engagement in distance education;

Students in most schools in our PSU already had a requirement during the pandemic for "checking in" on a daily basis to record attendance for PowerSchool. For those still choosing to engage in distance/remote education in the coming years, this will continue to be a requirement. When students have the "choice" of an online education, they have usually chosen that for a particular reason (in a normal school year). For that reason, and when parents give them the alternative of doing well or going back to in person learning, students may be more likely to attend sessions, complete work and stay on track. No one really had the choice for a while, and therefore, students already not doing well with in person learning, found it even easier for being disengaged when learning remotely. Also, every teacher was a distance education teacher for some portion of this past year. They are not all skilled at providing distance learning, and it required immediate response. It was hard for them to keep students engaged when they did not know what they were doing, how some of the technology worked, what to do when students had no connectivity, etc. Our PSU will take this opportunity to discuss at our meetings and staff developments the challenges teachers faced with remote learning,

and then to design training/instruction in how to deal with these issues. We may be able to utilize our teachers who have been providing remote instruction to lead some of these sessions. For educators who teach remotely all of the time, they understand how to provide guidance and consequences for students (and parents) when engagement becomes a problem. They have policies and procedures to address those issues. We just need to instruct all of our teaching staff in those methods and procedures should they become necessary again. Professional development will be presented to help more teachers learn additional engagement strategies for students with a special focus on special populations related to TSI School designation. Daily attendance will be taken in our Summer Learning Program and efforts will be made to entice students to attend all days of the 6 week program.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Pre-pandemic data that exists on current students will be gathered and studied. If there is no "before Covid data," such as with kindergarteners, the data can be compared with a typical year's data for a past student cohort group. After end-of-year assessments are performed, this new data will be examined, disaggregated and compared to the pre-pandemic information. Academic facilitators, district learning leaders, and teachers/classroom support will carefully determine the priority areas of need. Appropriate interventions and instruction will be chosen and administered, and then assessments administered again. We will be looking for improvements in scores that indicate a closing of the learning gap, and the ability of students to perform on grade level. The district is committed to providing "data dives" for teachers on a quarterly basis to compare district wide assessments. During our Summer Learning Program, we will use I-Ready assessment tools to pre-assess and post-assess students to measure the progress of learning and to ensure that we know exactly where to start with students in the fall.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$
	* ◉ Yes ○ No	Maintenance Support for Salaries Increased inspections, testing and repair of air quality systems (HVAC, filtering, purification, etc.) in order to keep our air quality as high as possible, will be	2021-2022	Decrease in number of Covid transmissions which will lead to less adult and student quarantines, positively affecting instruction.	$ 1,776,398.44

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.		as possible, will be necessary. This will increase the number of hours our already stretched thin workers will be required to log, or possibly the addition of more staff. This may also need to include a reserve of substitute workers familiar with our maintenance services in order to continue when our regular employees may be out due to short term or long term illness. Our goal is to keep the air pure and free of contaminants, especially the Covid virus and it's ever changing variants. This will require more frequent inspections/testing systems, replacement of filters, cleaning			

		ducts, and making sure air flow is maintained when HVAC systems may be compromised or in need of repair.			
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ◯ Yes ◉ No				$

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ◉ No				$
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ⦿ No				$
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ⦿ No				$

| EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment. | * ◉ Yes ○ No | Funds will be used to purchase Chromebooks to replace end of life devices during the next three years. Due to Covid, chromebooks have been utilized for all instruction consisting of instruction at home and at school. Due to maximized usage, the existing Chromebooks are approaching end of life at a much quicker rate and the damage rate has increased exponentially this school year. We will need to purchase 17,500 Chromebooks over the three year period. | 2021-2022, 2022-2023, 2023-2024 | Reports on status of end of life devices and replacement plans Student satisfaction survey in terms of quality of chromebook and its functionality | $ 9,200,000.00 |
| MENTAL HEALTH SERVICES: Providing mental health services and supports. | * ○ Yes ◉ No | | | | $ |

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ◯ No	Students have been in and out of school for over one full year. Learning has been largely remote instead of the traditional face to face model. Teachers have not had access to students and parents as they normally do to provide support/remedial instruction as students struggle to do more learning on their own. It is imperative that we offer Summer Learning opportunities to all students whose parents wish to take the steps necessary to assist their child in closing the gaps that this year long interruption in educational services due to Covid has caused.	2021-2022, 2022-2023	End of Summer School Assessments -- growth from the beginning of summer school to the end of summer school Number of promotions gained during summer school Attendance percentages for students during the six week summer school	$ 0.00

		It will be advised that ALL students performing below grade level based on end of year assessments, take the opportunity to attend. Any other students who wish to attend will be welcomed. This will increase the need for transportation, meals, medical screening, etc. as more students will likely attend this summer as compared to a normal year. Funding for Summer Learning is addressed in Part C above.			
	* ⦿ Yes ◯ No	Funding will be used to employ 18 new additional fully virtual teachers for next school year. We have over 680 families who have requested to have fully virtual instruction next	2021-2022 School Year		$ 10,667,859.07

| **OTHER ESSA ELIGIBLE ACTIVITIES:** Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act. | | year due to continued concerns with COVID or the desire for flexibility with the learning environment. In an effort to not affect the traditional school allotment, schools were allotted for face to face and virtual students with the goal of schools being able to reduce class size in the traditional classes when these fully virtual students are pulled out and placed with these new positions. We will target on the learning loss that has occurred due to COVID this year. We plan to sustain this plan by taking positions from the traditional allotments as soon as learning gaps have been filled | | Test scores from traditional classrooms and all virtual classrooms Traditional classroom class sizes (reduced class sizes) Parent Surveys --- all virtual students | |

and schools can afford the larger class sizes. ($1,355,637.24) - Recruitment & Retention Incentives: In an effort to address the decrease in our work force due to the stress & mental strain from COVID pandemic, we will implement bonuses for our current and new employees. The bonuses will be given after 90 days of employment in the amount of $1000.00 twice a year for ALL full time employees. (Part time employees will receive $500.00 twice a year.) Substitutes will also be given a bonus based on the number of days they work per month. The sub bonuses will be

	bonuses will be given in $50, $100, & $150 increments per month. $5,042,011.60 $3,711,747.14 - Unbudgeted Reserve $558,463.09 - Indirect Costs		

	Total ESSER III Allotment	$	21,644,257.51

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.

* ☑ **LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)**
An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Catawba County Schools (180) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

 There are no new applicants.

Catawba County Schools (180) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Hickory City Schools (181) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Hickory Public Schools used several processes to develop the Needs Assessment. The administrative services staff reviewed data, recommendations from the ABC Collaborative and current protocols to begin the process of identifying needs. The Facilities Director conducted an onsite review of each building based in light of the ABC Collaborative's recommendations and identified potential opportunities to improve air quality, reduce the risk of spread of the virus and other potential COVID related facility needs at schools. Each principal was given a survey to complete with their leadership team to identify their specific needs. This data was shared with a districtwide committee which include district administrative staff, principals, teachers, classified staff, and community members. The committee reviewed recommendations and had opportunities to add suggestions and recommendations. Following the meeting participants were asked to rate the level of need in each allowable category. In addition, we met with our Regional NCDPI Support Team twice to get outside feedback on our plans and received recommendations on potential opportunities noted from that team. Data considered in developing this needs assessment included student academic data, such as iReady reading and math assessment, benchmark assessments, attendance and behavior data. We also reviewed DLMI and digital resources to determine needs in the event that we need to quarantine students or return to remote learning.

Utlizing the lens of MTSS, we examined the current implementation of the process and the resources need In addition, we reviewed recommendations from national experts on addressing social-emotional wellness after the pandemic. This process will continue through the life of the grant as we monitor our progress and adjust initial planning. Hickory Public Schools plan to address learning loss focuses on improving the MTSS process in every school across the district. The first step in this process is ensuring a strong evidence based core in reading and math is in place in every classroom. We will be hiring MTSS/SEL Coordinators who will spearhead the effort at each school. HPS currently uses iReady to assess reading and math K-8. This allows us to identify standards that students have not mastered as well as track growth. We will implement a data system that allows the district, schools and teachers to monitor students SEL screening, behavior and academic screening. They will track data with the leadership of the school and deploy evidence-based interventions. We leverage the strengths of our PLC process. We will hire tutors/interventionists to directly work with students in implementing the interventions and assist in shoring up core instruction. Furthermore we will continue our Modern Teacher initiative to improve instruction

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Data show that over 1,180 students are at risk for retention due to attendance or academic performance. That is almost 30% of our district. However, even those students who are not at risk, demonstrate gaps in mastery of standards. Since the return to Plan A, the rate and severity of behavior referrals has increased significantly when compared to pre-pandemic data. Principals report that teachers are struggling with addressing behaviors effectively.. Kintegra Behavioral Health has seen a significant increase in the number of referrals of students in our schools. Although we have Second Step SEL curriculum across the district in K-8, we need assistance and coordination to support implementation. HPS lacks a reliable SEL screener that could be used with students and needs to improve SEL intervention capabilities. In examining the core instructional model HPS lacks a consistent core reading and math curriculum. This leads to each individual school determining literacy and math curriculum and standard protocol of interventions. These gaps provide a patchwork, which make it difficult to implement an effective MTSS effectively using data to determine effectiveness of interventions. As a small district, this leaves significant challenges for the district to support the MTSS process. In order to address learning loss, HPS needs to invest in the full systemic process of MTSS. Facilities review demonstrated that four schools have older HVAC systems that do not adequately draw in outside air. Dedicated Outdoor Air Systems would significantly improve the quality of the air and introduce outside air, a key recommendation from the ABC collaborative to reduce the potential spread of the COVID virus. In addition, two of these schools need a BMS upgrade in the HVAC system which would also improve air quality.

Furthermore, most schools lack "touchless" toilets, soap dispensers and paper towel dispensers. Adding these to schools will reduce the opportunity for students to spread the virus. Other facilities upgrades could also improve air quality and reduce the spread of the virus. These could include window replacements and installation of UV/Static air cleaners to improve indoor air quality. Each of the schools lacks furniture for outdoor learning or eating. This is a recommendation of the ABC Collaborative to reduce the potential of spread, especially while eating. The move to remote learning, demonstrated that Hickory lacks a plan for refreshing digital technology. Our DLMI indicates the immediate need for 700 student devices to be able to comfortably allow for 1:1 instruction. Over the next few years we will need dedicated funding to refresh student educational devices in case quarantines or variants of the virus move us to remote learning in the future. Software and digital platforms will need to be in place to ensure that our students have access to their teachers if they are quarantined or we need to return remote learning. The additional devices have lead to the need for an additional technology assistant to provide quick troubleshooting when something isn't working. This will assist in the prevention of further learning loss.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 2,187,179.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

HIckory Public Schools uses iReady reading and math assessments in grades K-8 to assess student progress and assist educators in identifying student needs. In addition, grade level benchmarks are administered in grades 3-8. High School teacher utlize course benchmark assessments for EOC courses and schoolnet to assess for other courses. HPS provides access to Edgenuity for grades 6-8, which also has built in assessment aligned to the course standards. With the addition of the MTSS/SEL coordinators, this will provide schools the opportunity to have an additional resource to be focused on the data and assist in ensuring students have access to differentiation or

intervention as needed. The MTSS/SEL coordinator will utilize a data system that incorporates academic, behaviour, attendance and SEL screening data to assist the school in problem solving decisions.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

MTSS is an evidenced based process that if properly implemented will meet the comprehensive needs of students. HPS plans to adopt new common curriculum in both reading and math to support the core instruction of our MTSS process. In selecting curriculum we will look to programs with an evidence base to support. The tutors/interventionists highered will use evidence based programs/models for intervention. The comprehensive nature of meeting students needs will be through a data platform that not only screens students in SEL, but then provides evidenced based programs for intervention. Additionally, it pulls in student academic, attendance and behavior information to assist teams in addressing the full nature of what is going on with students. The process will be monitored at the district level to ensure quality implementation. In addition, HPS is further implementing the Modern Teacher process with an evidenced based model of personalizing student learning. District and school staff will be monitoring the data to determine how well the core instruction and interventions are meeting the needs of students.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

HPS staff have worked hard to make sure parents have the information they need to support their students in person and through distance learning modes. We will continue that work. All schools send home weekly phone calls and texts to keep parent informed of what is going on at their school. Schools also use different apps to share information as a school and for individual teachers/classes. Parents have access to PowerSchool Parent Portal to be able to access student grade information on a regular basis. District and School websites have posted information on ways parents can support their students.

* (D) Tracking student attendance and improving student engagement in distance education;

The MTSS data tracking system pulls in attendance and will be tracked during the regular meetings at the school. MTSS/SEL coordinator will identify any students with greater than 10% absences no matter the reason and will work with school teams on intervention. The modern teacher model assists teachers in evaluating where students are in relation to standards and provides the instructional voice and choice to students to assist them in engaging with the curriculum in ways that meet their personal interests. This improves student engagement. The modern teacher process in focused on digital convergence and is fully compatible with distance education.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Principals and MTSS/SEL coordinators will examine student performance in several ways to identify students that experienced learning loss. Attendance will be one factor, as students with significant attendance issues are likely to have experienced loss. Comparison of iReady data for students in grades K-8 will be an additional opportunity to track potential loss. Comparing student grades pre and post pandemic is another opportunity. The MTSS data system also allows principals to monitor academic performance and track implementation and outcomes of the interventions implemented. These are key pieces of data that are currently challenging to support as it primarily happens on paper. Our intent is to place this information in a data system that easily provides information across the district and at the school level.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ◉ Yes ○ No	Installation of touchless toilets and urinals to reduce transmission of virus	June 2021 through June 2023	Improved sanitation Installation of the toilets and Urinals	$ 500,085.00
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ○ No	Installation of Dedicated Outdoor Air Systems at 2 schools	June 2021 through June 2023	Improved Air Quality Installation of the DOAS systems.	$ 300,000.00

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◉ Yes ○ No	Hire NC Ed Corp reading tutors for 5 elementary schools for grades K-3. (6/22 through	August 2022 through June 2024	Improved Reading Proficiency Documented Intervention Plans	$ 624,908.00

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	Purchase of sanitation supplies to ensure disinfection	August 2022 through June 2024	100% of schools report sufficient sanitizing supplies.	$ 40,000.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ◉ No				$

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ● Yes ○ No	Refresh student computer devices to maintain 1:1 access in the event of quarantine or return to remote/distance learning. Provision of software to maintain quality learning Platforms	August 2022-August 2024	DLMI data demonstrates that 100% of students have an up to date device to support their learning.	$ 1,570,170.00
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ● Yes ○ No	Hire District SEL Coordinator to coordinate SEL services and interventions	Ausust 2021 through June 2024	SEL Plans SEL Intervention Improved Social-Emotional Screening data	$ 141,336.00

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ○ Yes ⦿ No				$
	* ⦿ Yes ○ No	ESSER Project Manager (July 2022-June 2024) Indirect Cost Unbudgeted Reserve	June 2021 through June 2024	Full compliance with monitoring and record keeping	$ 352,519.00

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.					
				Total ESSER III Allotment	$ 3,529,018.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Hickory City Schools (181) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

Hickory City Schools (181) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Newton Conover City Schools (182) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Newton Conover City Schools desires to create an exceptional educational experience for our students and works to prepare students to be successful in their post-secondary careers. In these efforts, we attempt to work with students, parents, and community members to create a positive learning environment in which all students can be successful. Our leadership team along with school leaders, teachers, and other stakeholders collaborated to develop an assessment of needs district-wide as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction. Surveys were used to collect input from the various stakeholders including administration (central office and school - level), school based personnel (certified and classified), parents/families, and the Board of Education members. The district leadership team continues to review data, identify priority areas that the district can address with ESSER resources, and select resources in response to the needs. Planning was not isolated to ESSER II and III funds. Rather leadership identified priority needs and then aligned strategies/use of funds to available funding (including but not limited to ESSER I, II, III, non-federal funds, etc.) maximizing various funding sources. Since the identified needs span across many areas, the data used to prioritize the use of funds were extensive to include, but not limited to: student academic data (EOC data, various computer

based progress monitoring tools, BOG 3, CASE 21 Benchmark Data); student engagement data (Canvas usage, Google Classroom usage, attendance); district's implemented return to in-person instruction plan to include numbers of students served in-person and remote; student and employee attendance rates; district vacancy and substitute coverage rates; instructional personnel process and perception data (professional development evaluations; and instructional coaches data based on teacher interactions and school requests. Newton Conover City Schools leadership team will measure the impact of the district's response by using student data and other measures to monitor progress and make recommendations if the outcomes are not achieved or not trending to result in the desired outcomes so that adjustments are made to address learning recovery. We will implement a summer learning program for all identified students that show a deficit in learning due to Covid. We will measure the success of the summer learning programs by looking at attendance rates, progress monitoring and growth on assessments as well as the number of Credit Recovery.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Newton Conover City Schools data indicates a learning loss for our students. Elementary Reading has a decrease of 9% in 3rd grade, 25.8% in 4th grade, and 4.3% in 5th grade. Middle School Reading shows a decrease in reading of 4.3% in 6th grade. 6.6% in 7th grade, and 12.9% in 8th grade. Math proficiency in elementary shows a decrease of 10.7% in 3rd grade, 6.8% in 4th grade, and 9.9% in 5th grade. In middle school math, a deficit is shown of 7.6% in 6th grade, 13.5% in 7th grade, and 17.7% in 8th grade. Science is showing a decrease of 7.3%5th grade and 6.8% in 8th grade. High School EOC courses show a deficit of 30.67% in Math I, 12.83% in English II, and 16.67% in Biology. According to first semester data, almost 30% of students at NCHS were failing two or more CORE classes. This data shows a need for Reading and Math programs for K-8 students including Istation, IReady, Wonders, myperspectives, envision math. At the high school level, we need to utilize Edmentum for credit recovery. In addition, the data analysis shows that we will hire an instructional coach at the middle school level to facilitate coaching on personalizing learning to ensure that students receive the instruction that they need. Since the pandemic, we have had to change our teaching and have partnered with Modern Teacher. By working with MT we are aligned with a strategy officer, provided with a framework for achieving digital convergence. The pandemic has made improving personalized learning and leveraging technology to support high-quality instruction an immediate need. In addition, our Low-Performing School will employ two additional teachers to lower class size to effectively meet the needs of the students where the data shows a significant loss in academics since COVID. Tutoring sessions will be offered during/after school. To respond to learning loss, NCCS would need to hire an additional 3 TAs to support teachers and students (working with

behavior and academic needs). Our data shows that administrative teams have provided support for over 11% of our student population in the areas of SEL and managing behaviors which shows the need to hire two behavior interventionists and a TSI Intensive Interventionist. These three positions will help the staff with Tier 2 and 3 students in the multi-system of support. Due to COVID, we have more students than ever before who are disengaged in school and who are not attending school. Now, more than ever, schools need to be able to gain access to a variety of reports in a quick and timely manner to identify students who are at-risk in order to make a plan of support and to ensure students do not fall through the cracks. Level Data will provide two-dozen-plus reporting categories including: Attendance Summaries; Gradebook Analysis; Contact Tracing;Mapping Student Home Addresses; Student Access to Technology; Incident Management; and Lunch Status. To prevent the spread of Covid, Newton-Conover City Schools Facilities Department needs to purchase additional air filters that need to be changed more frequently to provide cleaner air in all buildings. The coils also need to be cleaned more often to provide better overall air quality. Due to the limited number of maintenance staff, these additional services will need to be contracted out. The facilities management department reports that there is a need for an additional 2.5 positions in order to complete their daily assigned school-wide cleaning manifests at the level that is required as mandated by the CDC. In addition, the facilities department needs to purchase supplies(PPE equipment, CDC approved chemicals, gloves, etc) to keep the campuses safe. In a response to Covid, NCCS will look at ways to address the needs of the special populations. According to the data, we will need to hire an additional ESL teacher for our middle school. With the lack of instruction due to only being in school for 2 days a week, learning loss has increased with ESL students. This means that there will be an increase of ESL students in the middle school who will need additional services. Another way NCCS will target specific groups will be to partner with Hunt Institute and Dream Builders to provide staff development. Since March 13, 2020 we have had 151 teachers quarantined. Since February 8, 2020 we have had 892 students quarantined. Since March 13, 2020 we have experienced between 900-2900 of our students utilizing the remote learning option for instruction. We need to hire two level III technology technicians to support the increased amount 1,247 Chromebooks for students and 316 laptops for staff and becoming 1:1 in grades K-12. We have added many programs and subscriptions to help mitigate learning loss and increase safety and engagement as well as expanded Gaggle so that it now covers students K-12. In addition to this, NCCS understands that all students must be equipped with a working Chromebook and a hotspot if needed in the event the system has to quarantine the school, class, or district or a student becomes quarantined due to COVID. NCCS will need to continue to refresh the fleet of Chromebooks as their warranty expires or the devices reach their expiration date. So far this school year, Canvas has been launched over 708,000 times and Google Classroom has been launched over 340,000 times which proves that we need these available. All of these online tools(Little Sis, Classlink, Canvas, Google Workspace, Peardeck, and Securly) will be needed to provide online instruction. As a response to learning loss and the data analysis, a summer Learning will be necessary for identified students.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 692,300.94 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Newton Conover City Schools will be using the Iready and mclass assessments K-8 to provide the /teachers/parents information about the academic progress of their students. Iready provide the teachers individualized lessons to address the specific needs of each student in the classroom. Teachers will be able to create groups of students to work with in small groups to improve academic gaps that match. Teachers will also be able to work one-on-one with each student to help them grow in the areas of weakness. These programs provide additional avenues for teachers to access that will guide them with specific interventions to put into place to address the areas that are of concern. NCCS teachers will be able to quickly identify the students who need to move in the RTI process to Tier 2 and 3 by utilizing these assessments. In addition to this, we will utilize the CASE 21 benchmarks for grade 2-12 to provide teachers with information related to each student's progress in October, January, and April of each school year. After we receive the data, each school completes an analysis of the data to determine the overarching strengths and weaknesses of each grade level. In High School, we will utilize the CCRA, Case 21 Benchmark and school net assessments to help identify areas of weaknesses for students and then develop a plan of action to attack those concerns. Our ESL and EC departments will work with the teachers to ensure they understand the need for differentiation and/or accommodations to meet the needs of these populations. The ESL/EC teachers will meet with the regular education teachers to discuss the ESL/EC students so that they are working as a team to address the students needs. NCCS teachers will provide tutoring to the at risk population to fill gaps.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

NCCS will be implementing the following activities: Wonders Reading program for K-5, Myperspectives reading program for grades 6-8, Equip Math assessments at elementary, Istation for grade K-5, Iready for Grade 6-8, Envisions Math for 6-8. Edmentum for High School, SEL help with Interventionist, behavior support with interventionist and a rigorous summer learning program. As we are looking at the academic gaps in Literacy at the elementary and secondary levels due to COVID, we have identified the need to purchase a program that will address all levels of students in literacy. This program (Wonders)will be able to meet the academic needs of ESL students and EC students. Specific lessons are available to address the academic vocabulary, phonics, phonemic awareness, comprehension, fluency, and vocabulary. We would purchase either Wonders, Wit and Wisdom, or CKLA for K-5. For our middle school, we would purchase My Perspectives from SAVVAS to provide a personalized literacy program that is aligned to the North Carolina Standard Course of Study. Lessons can be personalized for students who are at-, below-, or above-grade level. My Perspectives provides students with age-appropriate, ability-aligned learning opportunities in ELA.. We would also need to offer professional development on each of these programs. Through partnering with Modern Teacher and being part of the Modern Teacher network, our district will be aligned with a strategy officer, provided with a framework for achieving digital convergence, and have the opportunity to partner with and learn alongside over 160 districts across the US in improving the quality of modern public education. i-Ready Learning is a collection of rigorous reading and mathematics instructional resources designed to address every student's learning needs, accelerate growth, and enable all students to access grade-level learning. Students will engage in motivating, personalized instruction, learning games, and other resources. NCCS will need to continue to use this program to support the academic needs due to COVID of the 6-8 students. Istation assesses the National Reading Panel's "Big Five" foundational essentials. Schools get actionable and insightful data that measures phonemic awareness, phonics, fluency, comprehension, and vocabulary, as well as many other skills. Due to COVID, our at-risk students need direct instruction that Istation provides to help them close academic gaps. As we are looking at the academic gaps in Math to COVID, we have identified the need to purchase a program that will address all levels of students in math at the 6-8 level. Middle school will work with envision math. These programs will be able to meet the academic needs of all students including specifically the ESL students and EC students. Envisions math (middle school) will provide a personalized math provide aligned to the North Carolina Standard Course of Study. Lessons can be personalized for students who are at-, below-, or above-grade level. Moreover, teachers have a great deal of autonomy in how they develop their lessons using the vast array of standards-aligned resources available to them. Envisions provides students with age-appropriate, ability-aligned learning opportunities in Math. We would also need to offer professional development on each of this program. We will be implementing the Science of Reading during the next few years. This will increase the reading programs in our school buildings. We will utilize Sanford Harmony as well as the SEL 3 Signature Practice Playbook to address social and emotional needs from our students. We will utlize Letterland phonics, espark and Brainpop for reading and math in the elementary level. These programs will address the learning gaps.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

NCCS will provide the remote learning plan for parents to access on the website to gain information and resources for remote learning. Parents will be able to keep abreast of assignments by using the Canvas parent Observer option as well as the Parent Portal that is attached to Powerschool. We will provide tutoring opportunities for any identified students in order to help mitigate the learning loss from COVID. Schools will continue to hold parent conferences, Zoom meetings, sending notes home, using the one call now, using class dojo or remind to inform parents about their child's academic performance. If school is open, we will continue to do face to face meetings with parents such as parent teacher meetings, student led conferences, etc.

* (D) Tracking student attendance and improving student engagement in distance education;

NCCS schools have identified all disengaged students as well as students with failing scores. They will continue to track attendance and engagement at all levels K-12. The schools have created a engagement protocol that they are utilizing to make the best decisions related to the individual student needs. Our MTSS process will continue to be utilized to address the academic, social, or behavioral needs of the at-risk students. We are working with NCed CORP and have hired people to help make home visits, help with homework, and help in all ways with the disengaged students. Our principals, administrators, and school counselors are making home visits to encourage students to complete assignments, participate in remote learning, or be active in all Zoom sessions. In addition, we have partnered with Kintegra Health to help with some of the social and emotional needs of our students.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Each of our schools are tracking their students to ensure academic progress is being made. They will continue to look at formative assessments, summative assessments, benchmarks, EOCs, EOGs, and classwork to determine success. We will use the Iready and Istation data that is available for grades K-8 to determine gaps in academics.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$

11/9/2021 11:56:10 AM

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ◉ No				$
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ◉ Yes ○ No	As a result of COVID, additional safety and sanitizing procedures have been implemented throughout our school buildings, and, therefore, an 2.5 custodians is desperately needed to carry out these additional duties. Survey administrators	By September 30, 2024	Survey administrators and custodial staff about joint training on the continuous implementation of best sanitation practices in the schools, and how to monitor the completion of daily cleaning manifests as well as report concerns to custodial staff.	$ 180,380.85

and custodial staff about joint training on the continuous implementation of best sanitation practices in the schools, and how to monitor the completion of daily cleaning manifests as well as report concerns to custodial staff. Partner with Hunt Institute to provide training on Put on Your Own Oxygen Mask First: Leading and Managing with Resiliency is designed to support our site-based administrators as they work with their staff to support and bolster the school's resilience as well as Answering the

		as Answering the Equity Call: Guaranteeing Racially-Equitable Inputs and Outcomes Always - P			
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ◉ No				$
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◉ Yes ○ No	In response to Covid, we have had such an increase in devices, use and additional programs that we are in need of two level III technology technicians. We have had a large increase in	By September 30, 2024	Number of work orders completed each year, survey about technology	$ 123,816.74

		devices for both students and teachers. We have added 1,247 Chromebooks for students and 316 laptops for staff. We are now 1:1 in grades K-12. Due to the increase of devices and overall technology use, there is an increase in support needed in our schools. We have added many programs and subscriptions to help mitigate learning loss and increase safety and engagement. We have expanded Gaggle so that it now covers students K-12.			

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ⦿ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ⦿ No				$
	* ⦿ Yes ○ No	In response to Covid, all students must be equipped with a working Chromebook in the event the system has to quarantine the school, class, or district or a student becomes quarantined due to COVID. NCCS will need to continue to refresh the fleet	By September 30, 2024	Technology Work Logs, Number of log in on specific platforms	$ 847,166.29

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.		refresh the fleet of Chromebooks as their warranty expires or the devices reach their expiration date. All of these online tools(Little Sis, Classlink, Canvas, and Google Workspace) will be needed to provide continuous learning if/when students have to move into a remote setting.			
	* ◉ Yes ○ No	In response to COVID, NCCS will purchase: 1 - Securly which allows for teachers to work with individual students or small groups of students and continue to monitor all students in the class. 2 - Peardeck offers	By September 30, 2024	Teacher survey about securly and peardeck, Gaggle reports, and checkout of hotspots	$ 33,891.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		Peardeck offers teachers the opportunity to see student responses in real time and build interactive presentations that are either teacher paced or student-paced, depending on the way the presentation is designed which helps with learning loss. 3- Gaggle- we have an increase in students using technology inappropriately especially in the area of questionable content. Social emotional issues are able to be addressed quicker with this product. 4 - Hotspots are offered to our students who are working virtually to ensure they			

		have reliable internet for completing online work. 5. Letterland Phonics online, Espark and Brainpop will help the gaps in reading and math Teacher survey about securly and peardeck, Gaggle reports, and checkout of hotspot			
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ◯ No	Since we have had a disruption in the regular schedule for students due to COVID, we are noticing a change in behaviors of students. Newton-Conover City Schools would like to hire two new, additional staff members (one to serve students in grades K-5 and one to serve	By September 30, 2024	Logs from Behavior Interventionist	$ 178,641.89

		one to serve students in grades 6-12) to provide behavior and emotional support in our schools. These educators will support Tier 2 & Tier 3 students in the MTSS process by providing home visits, facilitating 1:1 support sessions, working with parents and families, supporting teachers with strategies, and providing other supports as needed. These educators will be provided with opportunities to go through a variety of SEL and MTSS training to ensure they are equipped to support students and families.			

| SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care. | * ◉ Yes ○ No | In response to learning loss, we will hold summer learning for two school year. K-12 students that have been identified either by failing classes or by the data sources of Istation, Iready, EOC etc will be invited to attend. NCCS will hire teachers at a flat rate of 35.00 per hour and noncertified at a flat rate of 20.00. Bonuses will be paid at a rate of 300.00 per week for employees if they work all 4 days of the week. Noncertified will receive a 200.00 per week if they work all 4 days. We will have a 6 week program at K-8 and 5 weeks at high school. | By September 30, 2024 | student performance on EOGs, EOCs, Benchmarks (Oct., March, Jan) Iready and Istation results | $ 1,188,365.86 |

| | | We will provide 150 hours of instruction. In addition to this we will ensure that math and reading are taught to K-2 while 3-8 is taught reading, math, and science. There will be a physical activity period, field trips, and snacks. High school will have credit recovery and offer initial credit for other classes as well as have an elective. We will incorporate SEL practices throughout the summer learning program. | | | |

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ⦾ No	Indirect Cost Unbudgeted Reserve	By September 30, 2024	Indirect Cost Unbudgeted Reserve	$ 144,770.32
				Total ESSER III Allotment	$ 2,697,032.95

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Newton Conover City Schools (182) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

Newton Conover City Schools (182) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Chatham County Schools (190) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Process for developing Needs Assessment and Plan: Chatham County Schools (CCS) has continuously gathering and analyzing data since April 2020 to determine best practices in meeting our students, staff and community needs due to the pandemic. Informal needs assessments occurred monthly to determine if CCS needed to modify instruction and back to school plans to best meet stakeholder needs. Stakeholders were invited to BOE meetings for public comment on all back to school plans as plans changed throughout the semester. Several stakeholder surveys were conducted using K12 Insights, a leader in educational analytics to assess current progress and seek input for the future. Throughout the summer and fall semester of 2020 CCS staff worked with school personnel and district leadership to quickly identify glaring needs and planned for ESSER I funds through the analysis of academic data and feedback from stakeholders. As the semester continued staff around the district was able to gather school benchmark data, course failure data, attendance (or lack of participation data), social emotional health data (referrals to counselors and social workers), etc. Academic Services and Instructional Support staff analyzed these needs and developed a list of curricular and intervention needs. In January 2021 a survey was sent to the federal programs family advisory council for input on what went well with the first semester and needs for the remainder of the year. In addition certain

stakeholder groups (PreK staff, ESL staff, Instructional Coaching staff, district leadership, school leadership) were asked to complete surveys asking for feedback on the current year and input for future spending. Upon completion surveys were compiled and presented to district and school leadership. Each group was able to organize compiled needs into district and individual school priorities that would best meet the needs of our students and teachers. The district leadership team (principals, directors, cabinet members, and assistant principals) were given the opportunity to complete a survey providing needs analysis and suggestions for how to spend ESSER funding. This data was then compiled and used to hold 2 individual group meetings to then narrow the focus and prioritize the needs. The results from both groups activities and consensus building exercises were used to develop the final budget and final application. How we intend to address and attend to student learning gaps: Chatham County Schools uses a comprehensive assessment system to help determine student needs. This system encompasses cumulative state assessment data, universal screening data in reading and math for grades K-8, selective screening data for our struggling high school students, common formative assessment data, progress monitoring data, individual diagnostic data, and attendance data. MTSS teams evaluate this data on an ongoing basis to determine what learning gaps may exist across grade levels, within classrooms, and among individual students. As a district MTSS team, we recently evaluated the most current student outcome data within our assessment system to determine what gaps exist in math and reading due to the impact of COVID-19. We compared the needs indicated by this data (which, for example, indicated a significant discrepancy between last year's math data and this year's math data) to the current instructional and curricular materials available to our students. The district will purchase intervention materials and provide specialized professional development for specific subjects and specific grade levels as needed per this evaluation. All school MTSS teams follow a similar process throughout the year to determine if Core instructional supports need to be adjusted to target class wide learning loss as indicated by assessment data and also which students should receive supplemental or intensive supports during an intervention block during the school day (as all schools in Chatham County have this time allotted in their master schedules). Interventionists and teachers will be provided with evidence-based intervention materials and trained on implementation of these materials to ensure fidelity. It is our intention to continue these data evaluation conversations in an ongoing manner so that we can monitor student progress and close any learning gaps that our students face. Additional specific subgroup and area information on our needs assessment and analysis can be found here:https://docs.google.com/document/d/1uZ0UNM8zkBBK1xBK-G078z4cjtcVC39J_j3auZfPd7k/edit?usp=sharing

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Through the analysis of our subgroup data and department data in Part A CCS plans to utilize the funds to support our high needs subgroups (migrant, EC, McKinney Vento, ESL, Black, economically disadvantaged and Latinx), students not meeting proficiency based on our STAR assessments, mental health services for students, HVAC systems, Virtual programming and supporting our alternative program. The comprehensive needs assessment and analysis prepared in Part A allowed Chatham County Schools to prepare more detailed information for Part B and can be found here, https://docs.google.com/document/d/1JX-dOv_6x-7MAzC6HhE11xZmzuMYU0QGi5DzMKM8r5M/edit?usp=sharing. This information helps provide a description of how the funds will be utilized in alignment with the needs analysis and to Part C below.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 5,282,418.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Chatham County Schools currently uses a variety of student assessments within the Renaissance assessment system, namely STAR Early Literacy, STAR Math, STAR Reading, and STAR curriculum-based measures in both reading and math. Students are regularly assessed throughout each school year to inform teachers of what grade level skills and standards they have mastered or have yet to master, which enables teachers to differentiate instruction so that specific needs of students are met. This assessment suite also allows us to monitor student growth, hence enabling professional learning teams to evaluate the effectiveness of instruction and make any necessary adjustments to ensure all students are learning at an appropriate rate. All of the assessments within the Renaissance platform are research-based, valid, and reliable.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Chatham County Schools (CCS) has the infrastructure to support the implementation of evidence-based activities. Using our MTSS Curriculum, Instruction, Environment and Assessment matrix schools have evidence-based core curriculum and tiered intervention curriculum to use when working with students. Each K-8 school has a curriculum coach to assist in training teachers in using curriculum as well as support the MTSS model for monitoring and tracking student progress in order to determine needs of students. With ESSER III funds each high school will receive a MTSS position to monitor, track and arrange interventions for students in need. In addition, each K-8 school will receive an additional certified staff (from funds other than ESSER to utilize based on the needs of the individual school) to provide interventions and/or support around addressing the learning gaps of students. In the area of literacy the district will hire an instructional program facilitator specifically to train and support teachers with literacy instruction in grades K-8. In addition all schools with K-2 will receive additional instructional assistants in order to lower the teacher to student ratios to allow for at least two adults during literacy blocks. All assistants will be trained in literacy rotations and interventions to ensure high fidelity of implementation. Through ESSER II funds the district will be purchasing additional evidence based intervention kits to build our MTSS Curriculum, Instruction, Environment and Assessment resources for schools.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Chatham County Schools will hire an interpreter/translator to work with our largest second language families who speak Spanish. Our second language population is one subgroup in great need of support academically. With constant communication and training provided by the district and schools the families will have a better understanding of what is occurring to close the learning gaps and assist their children at home. This position will also give our families a contact person in case they have additional questions or concerns. This position will work with all families (those attending school in person and virtually). CCS will use ESSER III funds to provide funding for a separate Virtual Academy for those students and families who want the option to participate virtually. We will have a separate school number for our Virtual School. This school will be a member school of our district and utilize similar supports as do the in-person schools. The Virtual School will have administrative oversight and stand alone virtual teachers and staff to support all virtual academy students and families. MTSS structures and supports will be expected in Virtual Academy to ensure we are meeting the needs of all the students and families enrolled.

* (D) Tracking student attendance and improving student engagement in distance education;

Student academic data will be monitored and tracked by MTSS school teams as well as the district team through Performance Matters. Student attendance will be tracked through Power School. Student discipline will be tracked through Educators Handbook. The district MTSS coordinator will work with schools to ensure each site is monitoring student progress consistently throughout the each semester through MTSS meetings, kid talk meetings, School

Improvement Team meetings, etc. In addition to the MTSS coordinator CCS will hire an equity specialist to specifically work with school leaders and teachers in addressing the learning gaps with our most at risk populations. This position will provide training to help teachers and administrators plan culturally relevant and engaging lessons for all students. In addition this position will work with the district MTSS coordinator to monitor and track our students and most specifically our low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care. All in-person and virtual academy students will be monitored and provided intervention resources as needed. CCS will also hire a digital teaching and learning facilitator to assist teachers (in all schools including virtual academy) with engaging instructional practices in an online environment. The facilitator will help teachers create a combination of synchronous and asynchronous opportunities for students to provide a flexible learning environment resulting in increased student engagement. The virtual academy will work the same as brick and mortar buildings with school leadership monitoring student performance and acting in accordance to our MTSS structure to provide appropriate supports and interventions.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Chatham County Schools uses a comprehensive assessment system to help determine student needs. This system encompasses cumulative state assessment data, universal screening data in reading and math for grades K-8, selective screening data for our struggling high school students, common formative assessment data, progress monitoring data, individual diagnostic data, and attendance data. MTSS teams evaluate this data on an ongoing basis to determine what learning gaps may exist across grade levels, within classrooms, and among individual students. As a district MTSS team, we recently evaluated the most current student outcome data within our assessment system to determine what gaps exist in math and reading due to the impact of COVID-19. We compared the needs indicated by this data (which, for example, indicated a significant discrepancy between last year's math data and this year's math data) to the current instructional and curricular materials available to our students. The district will purchase intervention materials and provide specialized professional development for specific subjects and specific grade levels as needed per this evaluation. All school MTSS teams follow a similar process throughout the year to determine if Core instructional supports need to be adjusted to target class wide learning loss as indicated by assessment data and also which students should receive supplemental or intensive supports during an intervention block during the school day (as all schools in Chatham County have this time alloted in their master schedules). Interventionists and teachers will be provided with evidence-based intervention materials and trained on implementation of these materials to ensure fidelity. It is our intention to continue these data evaluation conversations in an ongoing manner so that we can monitor student progress and close any learning gaps that our students face.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ◉ No				$
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ○ No	*Training and support for beginning teachers with blended learning, serving students with learning gaps *adding two ESL teacher positions to reduce teacher:student ratio to serve ESL students	June 2020 through September 2023	*STAR assessment data *STAR data specifically addressing K-2 literacy *Student attendance data *Student discipline data *Teacher classroom subgroup data (using the above data points) *High School course passing/failing rates *High school graduation rates *High school dropout rates *Communication log and information in Spanish to families *ACCESS scores	$ 735,000.00
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ○ No	Purchasing of additional PPE to maintain indoor requirements for personal protection for students and staff	June 2020 through September 2023	PPE and other supplies utilized by schools	$ 35,000.00

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$
	* ○ Yes ◉ No				$

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.					

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ○ Yes ◉ No				$
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◉ Yes ○ No	*Adding three social workers to provide mental health supports to students and staff in schools *Adding a counselor to provide mental health supports to students and staff in schools	June 2020 through September 2023	CCS will track and monitor student grades, attendance, discipline records and DESSA information (gradesK-8) for all students served through the mental health contracted services	$ 840,000.00

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ○ Yes ◉ No				$
	* ◉ Yes ○ No	*supports for 6-12 alternative ed program *indirect cost and unbudgeted *hiring incentives due to increased number of unfilled positions *retention bonuses to maintain current employee positions *additional educational supplies	June 2020 through September 2023	*Alternative Ed program SIP, enrollment and course tracking, mental health support tracking	$ 5,148,330.00

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.					
				Total ESSER III Allotment	$ 6,758,330.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Chatham County Schools (190) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

 There are no new applicants.

Chatham County Schools (190) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Cherokee County Schools (200) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Cherokee County Schools, a district in the Western Appalachian Mountains and spread across 385 square miles of rugged terrain, faced the challenge of teaching face-face and remotely for students in quarantine as we embarked to master hybrid instruction.Two ESSER advisory meetings were held to review unfinished learning of students impacted by school closings during the global pandemic. The Needs Assessment Plan was conducted by teachers, school administrators, the executive committee, parents, and community stakeholders. Data used to determine needs was collected from attendance, discipline reports, social worker intake forms, nursing reports, SRO reports, iReady BOY-EOY reports, EOG EOY data,technology surveys, and teacher/parent/administrator surveys. While there is a significant learning gap; (75% students are 1 grade or more level behind), we will continue to focus on what CCS intends to assess/address student learning gaps using Edmentum, iReady, MTSS constructs, attendance, discipline referrals, and EOG to determine success in student achievement to recover unfinished learning. Needs were determined as following: 1. Learning loss: (75% students 1 or more grade level behind according to iReady and EOG data) 2. Instructional Coaches are needed in in high schools, K-12 Science, Math, and general content areas to support teachers with technology 3. Best practice professional development incorporating hybrid learning to assist

students learning remotely and in quarantine; 4. Curriculum Engineers in content/grade level areas to support teachers as an additional duty -CCS established the curriculum engineers to provide additional support across grade levels to enhance instruction/collaborate/ and share best practices for remote, teaching while maintain social distancing and sanitation requirement and face-face learning. After surveying teachers, this will continue as all suggested their instructional practice improved as a result. 5. Beginning Teacher Support Program with NCBTSP to attract and retain high quality teachers in the era of the global pandemic. There is a teacher shortage and many are leaving the profession due to protocols, masks, social distancing requirements. Contracted service provided to coach teachers to offer interventions and strategies for accelerated learning to catch up students due to learning ost to COVID. 6. iReady will be used as a high quality diagnostic to track growth of learning recovery lost due to COVID. 7.Guidance/Mental Health Services are needed with the influx of attendance, discipline, and behavioral issues mitigating trauma and neglect due to familial hardships due to COVID. 8. Another area of need was in technology for devices for students and teachers. Due to COVID an immediate need for learning without devices to do work remotely, hold conferences with teachers remotely, and meet with parents in quarantine more devices emerged. The stakeholders agreed hotspots, Kajeet mobile hotspots to position throughout the community for student usage are becoming limited again for students/teachers needing connectivity. Also personnel and students do not have devices to work remotely with appropriate software for Google Meetings and software for instructional purposes. Technology is needed for student devices, infrastructure, cyber security, connectivity, hot spots, personnel devices, virtual labs, cameras, smart boards for interacting with manipulatives and understanding content while maintaining social distancing practices in response to and in preparation for learning during COVID-19 shutdowns. Justifications for technology: MalwareBytes is advanced endpoint protection for the entire district. This software is a three year quote to keep our computers and users safe so that we do not experience downtime and can increase the amount of machines available to kids and staff so that they can use them without worry. The software prevents users from entering sites that may contain programs designed to steal their information or simply flood them with advertisements. Students will have more quality time available for completing assigned tasks. They will also have the ability to install this on their family's devices thereby giving them more opportunities for using technology to recover losses and extend learning. ($71,291.10) 3 year quote iPads are used by K-2 as a primary technology resource. The device provides the easiest access for early literacy and ease of use by caregivers when rendering setup assistance on home networks. The devices support the use of iReady assessments and the follow-up assignments in the area of ELA. Having access to these devices and quick replacements allow students to work at home and school on devices. These curriculum-connected devices also provide a channel of communication for students and families with the school to monitor progress and identify areas of need. ($180,000) 500 devices + cases + tax The pandemic has exerted extraordinary demands on our core student device, the Chromebook. The use of devices at home over an extended period of time has created a backlog of repair needs and a shortage of available devices. Keeping devices and replacements available in grades 3-12 eliminates one key variable in addressing learning loss-- the availability of technology at both

school and home. We plan on replacing all student and staff devices over a three year cycle while maintaining the accidental damage and protection repair policy. Additionally, the old devices are incapable of downloading necessary software for students learning remotely due to COVID. ($1,197,500) device plus case for all students, staff, and replacement pool = 2,500 devices Adding SMART boards to math classrooms across the district K-12 allows students the opportunity to see, hear, and touch mathematical concepts and problems. in an applicable manner while maintaining social distancing requirements. Teachers will be able to create new cont

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

It was determined using iReady, attendance, discipline referrals, and social worker reports students who chose to stay in remote learning were significantly behind students who attended school face-face. More specifically, schools on an AB schedule were lower achieving, splintering the learning gap. The issue of equitable learning was discussed, it was determined using iReady data a correlation exists between schools using best practices of Learning Focused with fidelity (anchor charts, essential questions unpacking standards, and distributive summarizing) performed better than school that did not. A school showing significant growth was HDam, who implemented these practices and strategies with fidelity. The team agreed to continue the partnership with Learning Focused to accelerate learning throughout the entire district to support teachers with accelerated learning strategies. In addition to performing in the high growth high proficiency category, HDam also outperformed the state median for EOG proficiency in all subject areas. This performance in the era post COVID proves accelerated learning strategies are effective and necessary to mitigate unfinished learning due to COVID.
https://docs.google.com/spreadsheets/d/1AWhK1MvelJP3wCUHPoI4ydoBEfQlnq7WjAdGnDzG3vw/edit?usp=sharing
Data from Curriculum Engineer attendance showed student performance, especially for remote/quarantined students, improved in classrooms of teachers who participated in the weekly collaborative to unpack standards, cover classes for each other virtually in the event of a teacher absence, and when the school closes for remote learning due in response to COVID. Student iReady data shows a significant amount of growth (42%) in classrooms where teachers participated versus those who did not . Surveys from stakeholders indicate this program "helped them survive" this year with the weekly professional development, curriculum mapping, and hybrid instruction/Canvas coaching sessions we adopted this year. Beginning Teacher surveys indicate BT's insist on a continued partnership with the NCBTSP service for coaching teachers during the pivotal time of acquiring learning loss and to meet the pressures of being tasked to catch kids up. Retaining teachers in our rural area is challenging, and beginning teachers indicate on surveys that they lack skills implementing classroom management with online LMS. NCBTSP assists in the retention

of Beginning Teachers and offers coaching through this partnership. Additional support is needed in the area of mental health (SEL) as the rate of discipline referrals, DSS reports, and attendance issues increased this year. Teacher surveys indicate they no longer feel equipped to handle the emotional traumatic issues/behavioral issues, and the number of counselor referrals/ attendance issues have increased, indicated this need is significant. A technology survey indicated a significant need for personnel and student devices.Technology is an area of significant need as teachers lack devices that can use software necessary for blended instruction, virtual parent conferences, and attend virtual professional development sessions. Students also need devices as they embark on remote learning and face-face learning while practicing social distancing requirements with devices that can utilize and download the software necessary to practice cooperative learning at a reasonable distance.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 2,277,594.34 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

iReady will be used and funded as a research based diagnostic (418) to track student academic progress for K-8 learners. iReady was adopted by CCS for 2020-21 school year. The interventions and lessons in the teaching toolbox were proven to accelerate unfinished learning due to COVID -19 as indicated on diagnostic reports. iReady has an at home component teachers and parents can collaborate about, supporting students at home and within the classroom. CCS will continue to purchase iReady for the 2021-2022 SY -2024.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

The Covid-19 pandemic shutdown halted student learning, despite educator efforts to teach remotely. Barriers to remote learning included; limited device accessibility, the challenge of internet connectivity due to mountainous terrain, and teacher preparedness with blended instruction and social distancing requirements. The district realized teachers

needed additional support to combine best practice with the implementation of hybrid instruction, while still closing the unfinished learning gap in students in an equitable manner to ensure educational equity. The Curriculum Engineers was developed to offer virtual professional development for teachers throughout the district on accelerating learning strategies to recover learning lost due to COVID. Engineers will be taking this on for a stipend as this is an additional duty. ID-19 ; providing pacing, best practices to overcome the challenges of teaching remotely to quarantined students, and collaborate on lessons to revise to meet the demands of social distancing protocols. Teachers need additional professional development for interventions/instruction with social distancing requirements and in the area of hybrid blended learning as teachers were frustrated (how can we teach our students when we can not be close to them?). CCS established the curriculum engineers to provide additional support across grade levels to enhance instruction for remote and face-face learners. After surveying teachers, this practice will continue as all suggested their instructional practice improved as a result and evidence shows teachers who participated in Curriculum Engineer program and collaborated had a higher number of students showing proficiency in student iReady scores as the weekly professional development promoted more strategies to enhance student engagement, growth, and accelerated learning. Learning Focused professional development strategies will be implemented throughout the district to assist teachers to transform teaching in a hybrid learning environment and combining best practice to accelerate learning for students who have unfinished learning due to COVID-19. https://learningfocused.com/teacher-professional-development/ CCS will be using this profesisonal development for three years as it has been proven to accelerate learning, catching students up. (311) A contracted service budgeted for three years is the continued partnership with the NCBTSP - coaching service to retain beginning teachers who are needing assistance with coaching and strategies to catch students up from the learning loss of COVID-19. (311) Curriculum Engineers and Master Instructional coaches (subs budgeted) will continue assisting teachers with instruction combining hybrid learning with best practice - CCS is doing F-F with online learning in every classroom to impact student growth positively, subs will be budgeted for Master Teachers. This will impact student learning as teachers acquire new skills and employ new strategies and collaborate across a broad district.(192) The Curriculum Engineers offers virtual professional development for teachers throughout the district; providing pacing, best practices to overcome the challenges of teaching remotely to quarantine, strategies to engage parents remotely, interventions to accel students to recover learning. The additional duty will be supplemented. A bonus to recruit math teachers will be offered - hard to find positions due to teachers being quarantines in highly qualified areas such as Calculus - CCS will contract with Elevate K12 - (sole source) to provide teachers to students during teacher absences. The Coronavirus-19 global pandemic shutdown halted student learning, despite educator efforts to teach remotely. Barriers to remote learning included teacher readiness with blended instruction and social distancing requirements. CCS faces the challenge of teaching face-face and remotely for students in quarantine. Two Master Teachers are hired to model to teachers how to combine best practice with the implementation of hybrid instruction, while still closing the unfinished learning gap in students in an equitable manner to ensure educational equity during COVID-19. Subs are budgeted for MT's.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

CCS will use devices/internet/social media/funding to mail materials to students, provide outreach through home visits on the learning bus, and host virtual events.

* (D) Tracking student attendance and improving student engagement in distance education;

Canvas, iReady, Edlio are being used to track student/teacher engagement. Teachers have been frustrated due to the lack of engagement with students who are remote learners. Grades and assessments indicate either students are performing well above grade level (due to extra assistance outside of independent work) or doing nothing at all, failing classes. Curriculum Engineers and Instructional coaches will assist teachers with instruction combining hybrid learning with best practice -CCS is doing F-F with online learning in every classroom. Provide additional professional development and support for improved instruction is a need. Additional guidance counselors will conduct outreach and home visits to target students' needs and provide assistance to families. The attendance has progressively gotten worse due to mandated quarantines due to exposure to COVID, even if the student is healthy. The aforementioned resources are necessary in order to provide learning in response to quarantines.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

iReady and the conversion to EVAAS is being studied, MTSS supports using iReady interventions and provide activities for parents to use at home in response to learning lost due to COVID.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⊙ Yes ○ No	Following an inspection, repairs will only be performed if related to the prevention of, response to, or preventing the spread of COVID-19	July 2021-2024	Student attendance, enrollment, and health reports will be used to measure impact. Our goal is an increase in student attendance and a decrease in home school enrollment by 25%.	$ 300,000.00
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ⊙ Yes ○ No	An additional computer technician was hired to assist with the demands of technology in response to preparation of another COVID shutdown and to assist remote learners.	July 2021-June 2022	CCS aims to see an increase in connectivity rates and student engagement rates as indicated by technology surveys - our goal is 25% increase in student familiarity.	$ 50,400.00

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ◉ No				$
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◉ Yes ○ No	Two additional custodians are needed to assist with sanitation efforts in high enrollment schools.	June 2021-September 2024	Student attendance and COVID exposure tracking sheets will indicate an increase in student attendance by 25% and a decrease in students needing to be quarantined due to exposure of COVID.	$ 99,561.84

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$
	* ○ Yes ◉ No				$

11/9/2021 12:12:38 PM

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.					
	* ⊙ Yes ○ No	Please see data analysis section for tech breakdown. The present devices are unable to install software necessary for student learning, hotspots are becoming limited again for students needing connectivity, and teachers need	July 2021-July 2024		$ 1,182,533.72

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		teachers need devices capable of downloading software necessary to teach remotely for students learning in quarantine and remotely. Technology is needed for student devices, infrastructure, cyber security, connectivity, hot spots, personnel devices, virtual labs. MalwareBytes is advanced endpoint protection for the entire district. This software is a three year quote to keep our computers and users safe so that we do not experience downtime and can increase the amount of machines available to kids		Student attendance, parent participation, iReady diagnostic, student retention rate, EOG scores will determine impact on students and learning recovered with the target outcome of 25%.

		and staff so that they can use them without worry. The software prevents users from entering sites that may contain programs designed to steal their information or simply flood them with advertisements. Students will have more quality time available for completing assigned tasks			
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◉ Yes ◯ No		July 1 2021 - Sept 2024	Attendance, student retention rates, trends in discipline referrals, and student graduation rates will be analyzed to determine learning achieved	$ 354,955.00

		2 Guidance Counselors are needed to conduct outreach, track non participatory students, and assist families throughout the district affected by the trauma of unemployment of global pandemic. Survey and office referrals indicate sociol-emotional needs are outgrowing the skill set teachers have to meet needs.			

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ⦿ Yes ◯ No	Extended school day/summer learning is needed to accelerate learning. The budget was prepared to be comparable with bonuses should we be required to offer one for teachers again by the state to recruit and retain administrators/ teachers to recover learning lost due to COVID.	June 2024	iReady assessments, student retention rates, data from summer learning programs indicating growth and gap closure. the target outcome on student impact will be measured through iReady.	$ 967,202.80
	* ⦿ Yes ◯ No	Unbudgeted reserve/indirect costs	June 2021- July 2024	Unbudgeted reserve/indirect costs	$ 120,251.31

11/9/2021 12:12:39 PM

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.					
				Total ESSER III Allotment	$ 3,074,904.67

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Cherokee County Schools (200) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

Cherokee County Schools (200) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Edenton-Chowan Schools (210) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Teachers and staff were at the crucial point of the 2019-2020 school year to determine students' mastery goals with end of year assessments and observations. Because of the loss of ability to do this, the process to determine the students needs as a result of learning loss related to the Pandemic closures involved: School Improvement teams composed of principals, teachers, support staff and parents working with most recently available data (student work samples, grades, EVAAS predictors, 2019-2020 classroom/state assessments completed, and observable performance) to determine how to best proceed to meet the educational needs of students At the beginning of the 2020-2021 school year, each school team used formative assessments to determine the present level of performance for each student, whether remote or in-person. Teacher input on student success included MTSS, data spreadsheets, mClass, iReady, EOCs, EVAAS predictors, Social, Academic, Emotional, Behavior Rating Screener (SAEBRS), WorkKeys, Meetings were held with community members/partners to determine needs in the community and assess areas of concern surrounding families and our students. In addition to community meetings, surveys were also administered. As a result, we created "A Day in the Life" document to help parents as they transitioned students back into in person learning. This document laid out the daily safety precautions and protocols for students, staff and families. Virtual and in person meetings were held with staff to prepare for students to return to structured environments of school settings. These meetings included

the process to maintain safety as well as provided meaningful instruction to meet the needs of students. We will continue to make adjustments to our protocols and procedures to ensure safety of our students. We continue to address student learning gaps and needs by administering interim and post assessments such as: Grades K-8 - mClass in reading and iReady in reading and math; benchmarks in science; teacher made assessments in all other subject areas, Social, Academic, Emotional, Behavior Rating Screener (SAEBRS) Grades 9-12 - College and Career Ready Graduate; WorkKeys, EOCs, Graduation rate, SAEBRS Once schools reopened in August 2020, staff worked with families to provide remote or in-person learning opportunities. As data supported the need for tutoring to decrease students' learning gaps, class modifications and after school tutoring were established. Students were also invited back to in-person learning throughout the school year as social distancing rules relaxed in Plan A. In order to address the social-emotional health of our students and faculty, we will partner with Calm Minds Kind Hearts (CMKH) to learn and implement mindfulness strategies in our classrooms. We will also partner with RTI to ensure we have a long-term plan to promote social-emotional learning across our schools. To support the partnerships of CMKH and RTI, a counselor, social worker, and behavior interventionist will be added to our district. We recognize the importance of strong curriculum and instruction. Therefore, an additional instructional coach will be employed at the high school level to support teachers in the learning management system, asynchronous learning, social-emotional learning, integration of curriculum, writing curriculum maps, and creating standards-aligned plans. This support will help close learning gaps as a result of the pandemic. COVID affected everyone. Even our most astute students struggled academically and socially. Therefore, we will employ another AIG teacher to work with grades 3-12, creating a team of two. We also want to be proactive in supporting students who have not been in a formal educational setting in the early years. Due to the economic hardship caused by the global pandemic, we will expand our Pre-Kindergarten program. The early childhood education program will target four year olds in Chowan County who are not currently enrolled in a high quality child care. Research shows that children who participate in a high quality child care setting prior to entering school have high success rates in life. The chart below notes specific research from The Children's Cabinet (www.childrenscabinet.org). Benefits in Kindergarten & Elementary School -Improved reading skills -Improved math skills -Improved language skills -Fewer social issues -Fewer behavioral issues -Less likely to be retained Benefits in Middle & High School -Less likely to enter juvenile detention -More likely to graduate Benefits in Adulthood -More likely to have a highly skilled job or higher education by age 21. -Less likely to commit a crime or felony -Less likely to rely on social assistance programs (i.e. TANF, Food Stamps, Housing) The Children's Cabinet also reports that children who attend high quality child care have more defined motor development and higher levels of social and emotional stability. Students with disabilities will be included in our program. PPE will be purchased and additional employees will be hired during the of Summer 2021 to improve the physical plant by ensuring that buildings are cleaned and maintained to safety standards. An after school tutoring program will be established in the fall 2021 to continue to address learning loss created by the COVID pandemic.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

With a focus on the Science of Reading, we found that only 30% of our students entering Kindergarten were proficient in DIBELS (Dynamic Indicators of Basic Early Literacy Skills). Third grade students are slightly at or below the state average with: 51.48% proficient in 2016; 55.4% proficient in 2017; 51.66% in 2018; and, 51.6% in 2019. In January 2021, K-3 students had made some progress, but continue to need academic and social-emotional support. For instance, 31% of 3rd graders were proficient on the NC Check-in at the end of first quarter and 16% were proficient at the end of second quarter. The same pattern was seen across grades 4-12. Further, beginning of year data at 6th grade shows: 20% were proficient in ELA; 11% were proficient in Math; 5% were proficient in Science; and 3% were proficient in Social Studies. By middle of the year, this cohort of students were at 14% proficient in ELA; 19% proficient in Math; 17% proficient in Science; and 18% proficient in Social Studies. As an example, at the high school level, 116 students (22%) were failing one or more courses at the end of first semester. Each school's MTSS team reviewed each student's progress with a focus on those who were failing. As many students as possible were invited back to in person school while honoring the social distancing requirements. We administer SAEBRS (Social Academic Emotional Behavior Rating Screener) at each school. That data shows that 7.3% of our K-2 students are at risk. 8.2% of our 3-5 students are at risk and 13% of our middle and high school students are at risk. Therefore, 158 K-2 students have been invited to SELREP. Another 168 students at grades 3-5 have been invited to participate in SELREP. Based on teaching capacity, the maximum number of middle school students we can invite is 75, although more were eligible based on our data. At the high school level, there are 220 students with failures/possible failures who will be invited to recover credits through SELREP. To date during this school year, we have addressed 660 health incidences with 111 positive COVID cases.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 676,352.20 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

The focus on learning loss will consist of teachers and support staff working with small groups of students in order to assess their individual needs. Additional staff will be hired as necessary to support smaller group interventions and social emotional needs. The anticipated positions include reading interventionists, math interventionists, behavior interventionists, social worker, AIG teacher, counselor, instructional coach, PreK teacher, and PreK instructional assistant. Additional support personnel will also be needed: nurse, program specialist, and data manager. These staff will support low SES students, exceptional children, EL students, students who experienced an ACE (adverse childhood experience) due to COVID, AIG students, homeless students, students in foster care, and all students irregardless of their race or gender. Our K-8 students will be assessed using i-Ready in reading and math. Local benchmarks will be administered in writing, science, and social studies. Teachers will differentiate core instruction to meet the needs of individualized students. Supplemental and Intensive services will be provided by teachers and the additional staff hired to meet the learning loss needs due to the COVID-19 pandemic. We have active MTSS teams at all K-8 schools who will provide oversight and ensure each school is accurately assessing students, analyzing data, and creating a personalized approach to student learning. Our 9-12 students will be assessed through formative classroom assessments, 9 weeks tests, and final exams (state and local). Beginning in 2021-22, the high school schedule will include an intervention session for each block to address learning loss and to remediate/accelerate students. The MTSS team, school administrative team, and an instructional coach will guide teachers in creating personalized learning for students to mitigate learning loss due to the COVID-19 pandemic.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Each school has a planning team that is used to identify students' needs and possible resources that may be utilized. Contracted services will be provided by RTI International and CMKH to provide research based resources and activities to support teachers and staff as they prepare activities to meet the needs of students. Districtwide leadership teams will continue to collaborate with school based leadership teams to research and discuss best practices to meet the needs of all students. Impact Measures: By taking a team approach with resources both inside and outside of the district, we will be able to analyze various methods that may be used to meet the needs of students. In doing so, we will be able to meet the needs (academic, behavioral, social/emotional) of the whole child.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Parent information sessions are provided throughout the school year. At the beginning of the year, parents learn about the various learning platforms for their students. They are afforded the opportunity to learn how to effectively engage with the system to best support their child's learning. Three of the schools provide parent education nights which allow

time for parents to work with their students to learn how to best use technology and resources to support learning. In grades, PreK - 8, weekly folders are sent home by students with information that parents may need in order to support their child's learning. In addition, various forms of social media are used to provide information that parents may need as they support their child. Impact Measures: Family partnerships are a vital component of any learning environment. The pandemic has required our system to think outside the box of traditional parent engagement activities such as drive-through parent nights. In doing so, we are able to provide more in-depth guidance for parents (such as learning on the lawn to provide tutoring sessions for parents and students) to be able to support their child with activities that the school may have traditionally been able to do.

* (D) Tracking student attendance and improving student engagement in distance education;

Teachers and staff use the state's student management system in order to track student attendance. When in-person students are absent or not engaged in the classroom, teachers make contact with parents via telephone, internet or social media. At the high school level, an automated system is used daily with a voice alert to notify parents of student absences. When asynchronous learning occurs, students must check in with the teacher via the selected learning platform (i.e. See Saw, Google meet, Zoom, etc.) during the designated time. If students don't check in, parents receive communication from the school of their child's absence. Teachers schedule assignments weekly in the selected learning platform. Students have timelines and due dates for all assignments. Teachers and/or counselors make verbal contact with students and/or parents when work is not completed satisfactorily. Impact Measures: Students will be in school or connected through their remote setting. This will allow students to receive the appropriate support from teachers and staff to ensure that they are making progress towards their learning goals.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

In order to track progress of students, we will utilize our school system created data collection and tracking process. Each student has a data sheet that teachers complete which includes various data points such as EVAAS predictors, standardized tests scores, grades, formative assessments, etc. Students who are not working at current grade level standards will be identified to receive additional support. Impact Measures: Through the MTSS process, each school level team uses data to identify students who need additional support to reach their learning targets. Personnel will support students via in class support, small group instruction, after school tutoring and other identified sources of support dependent on the individual student.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER

III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ◉ Yes ○ No	In order to reduce the spread of infectious diseases, building improvements such as water fountain removal and replacement of water coolers is necessary. In order to reduce the spread of	June 2021- September 2024		$ 1,396,235.00

11/9/2021 12:13:21 PM

| | | infectious diseases, building improvements such as carpet removal and replacement with tile is necessary. Update on 9/30/21: Buildings, including classrooms and peripheral school areas, must be completely renovated to maximize our mitigation response to infectious diseases by providing flexibility to move students to healthy learning spaces. Also, student furniture had to be stored in a non-climate controlled | | By improving physical spaces, less spread of disease will occur which will result in less staff and students who need to quarantine. Data Collected: Attendance. Invoices. Instrument/method used: PowerSchool. Inspection of completed work. Person/Position responsible: Data Managers. Director of Maintenance. | |

		space in order to offer social distancing in schools. Rust built up on the furniture and will have to be replaced. A water management solution is required at the middle school to address unhealthy moisture issues stemming from pooling water. We will continue to address needs within facilities as they arise in regard to creating healthy learning environments.			
	* ◉ Yes ○ No	To increase circulation of fresh air into the buildings of our schools, we will purchase air filters to	June 2021-September 2024		$ 0.00

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.		air filters to allow for a more frequent replacement cycle. Also the cooling towers at our elementary schools are failing. Because these buildings are newer and no windows can open, we will update the cooling towers and make repairs or replace the HVAC systems to improve the quality of air and circulation in these buildings. Update on 9/30/21: Dollar amount is 0; waiting for the rest of PRC 181 to be allocated.		By improving air quality, less spread of disease will occur, resulting in less students/staff being sick and needing to quarantine. Data Collected: Attendance. Invoices. Instrument/method used: PowerSchool. Inspection of completed work. Person/Position responsible: Data Managers. Director of Maintenance.
		System administration, nurses		$ 0.00

| COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus. | * ⦿ Yes ◯ No | maintenance, reception and custodial staff utilize the summertime and weekly meetings beyond the normal working hours to ensure that responses to exposures and positive cases are appropriately handled. This involves planning and preparation for various scenarios that may occur to ensure the schools are safe from COVID-19 pandemic transmission. Update on 9/30/21: Dollar amount is 0; waiting for the rest of PRC 181 to be | June 2021-September 2024 | Because of the continual coordinated response, there continues to be a reduction of spread of the virus, which allows schools to remain open. In doing so, we are able to continue to plan for and teach students, limiting their learning loss. Data Collected: Staff record of work (e.g., CEUs) Instrument/method used: Professional learning calendar. Person/Position responsible: Human Resources. | |

		allocated.			
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ◯ No	Support personnel will be hired to address learning loss due to the COVID-19 pandemic. Those positions include reading interventionists, math interventionists, behavior interventionists, social worker, AIG teacher, counselor, instructional coach, PreK teacher, and PreK instructional assistant. And support personnel: nurse, program specialist, and data manager. Supplies will be purchased for these personnel to	June 2021-September 2024	By employing support staff we can meet the needs of the whole child. Students will be able to be in the correct emotional/behavioral state for learning to occur. With students emotionally ready to tackle the challenges of the day, learning can/will occur. OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ◯ No	will be provided incrementally over the three year period of this grant. A Mobile Unit will be designed and purchased 1. to support students who are learning remotely, 2. to connect with and provide staff development to childcare center personnel, 3. serve as a book bus bringing literacy to students and families throughout our community. The mobile unit will be outfitted with new print and digital resources. Update on 9/30/21: Athletics provide important social	June 2021-September 2024	Activities will be provided to address needs of students both through prof. dev., the mobile unit and athletics to ensure that further learning loss does not occur. It is essential to maintain the operation and continuity of services (i.e., athletic transportation and referee payments) for our athletic program as we meet student needs. Data Collected: Attendance. Invoices. Prof. learning calendar (CEUs). Instrument/method used: PowerSchool. Person/Position responsible: Data Managers, C&I, AD	

		important social emotional learning (SEL) components for students. Athletic expenses are typically funded through gate revenues, which were dramatically affected in the 2020-2021 school year due to the COVID pandemic restrictions. Significant revenue losses will thereby cause the most immediate subsequent years to experience shortfalls and strain schools' ability to maintain the operation and continuity of services. Our high school and middle school			

		principals have requested support for their athletic programs. Funds will also be used for PreK expansion, staff development, climate-controlled storage facility, transportation cart to serve a school on two sites, online textbook, and SEL/PE software. Updated on 9/30/21: Includes Indirect Costs.			

	Total ESSER III Allotment	$ 2,705,408.80

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

* ✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
* ✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
* ✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
* ✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
* ✔	Funds shall not be transferred into or out of this allotment category.
* ✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

 There are no new applicants.

GAN Information

Edenton-Chowan Schools (210) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Clay County Schools (220) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Planning team members included the Superintendent, Federal Programs & EC Director, Testing & Accountability Director, Finance Officer and Principals from each school who provided input from each SIT, Maintenance Director, Air Quality Inspectors. Learning Loss Planning was conducted through use of live documents for input from each stakeholder and discussion in meetings conducted weekly, or more often, to review the areas where students have a documented learning loss and/or have become at-risk for failure in reading, math, and/or science and provide additional academic support to allow those students to reach grade level expectations. This also included conducting surveys to collect data about which staff was willing to work during the Summer Learning Program and what resources would be needed to help students grow during those 6 weeks. Discussion also pertained to how principals could support their staff and students. Instructional curriculum, materials/supplies, and diagnostic tools will be purchased where needed to provide the tools needed to determine at-risk students. Determination of learning loss will be assessed through a combination of data including the diagnostic tools utilized by each school, NC EOG/EOC scores, NCCI benchmarks, and SchooNet benchmarks. The 2021 SLP will provide direct and online academic instruction/interventions to students that meet the criteria set forth by each school. Afterschool Tutoring will be offered

in each school beginning the 21-22 SY for students not on grade level and needed extra academic support. Additional Staff will be hired to provide academic interventions and instructional coaching. Continual monitoring of the progress of students in each school will be conducted by the school administrators and discussed at district leadership team meetings to determine if the remaining ESSER funding should be re-budgeted to best serve the student needs. More than ever, teachers are dealing with a wide range of skills, gaps, & needs as a result of COVID-19. Teachers will need support in analyzing data, developing intervention groups, &differentiating instruction to meet the wide range of needs represented. The instructional coach positions will provide such support to teachers. 3-5 has a large population of EC students-19.34%. As a result our EC staff is also in need of additional support. In order to fully meet & address the learning needs of their students, teachers require support with the paperwork demands of special education. By adding a compliance specialist, the EC teachers will have support with ensuring all paperwork is compliant with all COVID-19 requirements, such as remote learning contracts, etc. We also have to ensure that we have high quality teachers available to ensure the effective & appropriate delivery of content & interventions. Retention bonuses will help us combat teacher turnover, which already includes 6 certified staff at HES as of right now. An Early Intervention Team meets monthly to work on an intervention plan with parents to work on attendance. Students who have participated in the fully remote environment have shown the most struggle. Many students need counseling & other emotional supports. Our school counselor currently implements Second Step SEL curriculum to support students SEL needs. A larger number of students need individualized counseling. Referrals for in home counseling this year increased. Students have limited outside experiences this year. No field trips or visiting presenters are allowed. These valuable experiences have not been provided which would increase student background knowledge & build vocabulary important to student achievement in ELA. GEER funding will be utilized to support after school tutoring during the 21-22 SY. GEER funding will also be utilized to pay Specialized Support Personnel to work the summer months beginning the summer of 2021 and continuing each summer the funding is available until it is expended. PRC 016 RtA Summer Reading Camp funding will be utilized to fund a portion of the 2021 SLP. ESSER II funding will be utilized for the 2021 Summer Learning Program and future SLPs if required and funding is still available. ESSER III funding will be utilized for the 2021 Summer Learning Program to address student learning loss and future SLPs if required and funding is still available. Academic support will be provided through the hiring of additional staff through the 21-24 SY to assess and address the learning loss, achievement gaps and mental health needs that are a direct result of the mandated school closure due to COVID-19. We also have to ensure that we have high quality teachers available to ensure the effective & appropriate delivery of content & interventions. Retention bonuses will help us combat teacher turnover, which currently includes 21 certified and classified staff in our district. This turnover is a direct correlation to the added duties and work required to provide online/remote instruction during the mandated COVID-19 school closure and disrupted school scheduling due to Plan B reopening with a modified student schedule.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

K-2 iReady MOY shows that only 33% of student are on grade level for reading & only 20% of students are on grade level for mathematics. Student face to face instruction has been impacted by remote & hybrid learning. Student achievement along with attendance have declined a great deal during the pandemic. At the end of each grading period we look at students who are red in iReady & discuss with the Care Team how to meet student needs. The Care Team is made up of the school counselor, principal, General Ed teachers, nurse, exceptional children's teacher, school psychologist, school social work & sometimes the parent. Our care team has experienced a large number of students being referred for lack of academic progress. After school tutoring as well as small group interventions have been used as a strategy to increase student achievement. 3-5 iReady MOY 20% of students were 2+ grade levels below in reading & 16% in math. 45% of HES students were 1 grade level below in math at MOY & 30% in reading. At least 50% our students below grade level in math &/or reading. We do not currently have class size restrictions for 4th or 5th grade making providing individualized instruction in small groups to target demonstrated weakness is difficult. Funds will allow us to address learning gaps that exist for students as demonstrated on their iReady diagnostic assessments by allowing us to provide interventions in smaller groups by adding assistants who can deliver interventions & work alongside the teacher to address learning loss. Our SLP will allow us to provide opportunities throughout the summer months to strategically address students who are performing below grade level & at-risk for failure. As stated above, over 50% of our students were below grade level in reading &/or math at the middle of the year. 6-8 iReady EOY shows that only 39% of students are on grade level for reading & only 35% of students are on grade level in math. Student face to face instruction has been impacted as a result of remote & hybrid learning, & multiple student & teacher quarantine periods. 2020 Reading: 44% of students on grade level; 31% were 2+ grade levels below - Math: 44% of students on grade level; 24% were 2+ grade levels below 2021 Reading: 39% of students on grade level; 41% are 2+ grade levels below - Math: 35% of students on grade level; 32% are 2+ grade levels below 9-12 Student academic performance declined during the COVID pandemic. Mid-term/quarterly failure reports are used to investigate root causes & encourage after school homework & mentoring. The 20-21 SY 3rd quarter course failures is 182, compared to 43 the 19-20 SY 3rd qtr. Fully remote students have fallen behind. Math is a concern with learning loss. 9-12 math staff request a new digital curriculum w/textbooks to recover lost learning. Many students needed more SEL support during the pandemic. GEAR UP provided mentoring this year & will continue next year. Instructional time was lost due to substantial numbers of students & staff quarantines this school year which is difficult to make up. 9-12 students were in 2-day/week face-to-face cohorts, 40% totally remote students. 31% remain fully remote in the 4-day schedule. COVID restrictions let to participation in sports/extracurricular activities dropping. We couldn't form a JV women's basketball team. The softball team had only 9 players. No field trips or a school prom were held. These

important parts of high school life are things that keep many students motivated to come to school & pass their classes. 7 of 40 staff have resigned/retired. Our rural location & lack of connectivity made remote learning a challenge for our students & is a root cause for failures. Funds will help our students close learning gaps & get back on a path to attain grade level academic expectations, ultimately graduating high school on time. Academic support will be provided through the hiring of additional staff & purchase of instructional technology based on student assessment outcomes. HVAC Systems Upgrades required due to all systems on campus being 30+ years old. The CDC recommends a layered approach to reduce exposures to SARS-CoV-2, the virus that causes COVID-19. Reference: https://www.cdc.gov/coronavirus/2019-ncov/community/ventilation.html Multiple Health Department inspection report scores were reduced due to cleanliness related to an inability to adequately clean/disinfect the current walls and floors. CCS is currently experiencing teacher turnover at a rate much higher than in the past. We currently have 6 teacher resignations and have lost or are losing staff to retirement who no longer wish to continue working in this field due to the added work and stress caused by the addition of remote instruction and mandated wearing of face masks and social distancing. At the time of the writing of this grant, 20 staff (approximately 10.4%) have resigned/retired from our district. Due to this increase in turnover, retention bonuses will be provided to staff who return the fall of each subsequent school year beginning the fall of 2021 through the fall of 2024.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 885,616.06 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Current and newly purchased diagnostic data will be utilized at teach school to address student academic needs and differentiated instruction. This software provides student feedback with differentiated activities as the student progresses along with data reports for teachers to provide small group and individualized instruction to meet the academic deficits of the students. Additional certified and classified staff will be hired to address learning loss related

to the mandated COVID-19 school closure and altered schedule. K-2 will utilize iReady diagnostic data, teacher made assessments and Fundations assessments will be used to determine learning loss with changes made where necessary to address continued learning loss. 3-8 will utilize iReady Diagnostics, NCCI benchmarks and EOG data will be analyzed and changes made where necessary to address continued learning loss. 9-12 will utilize IXL diagnostics, teacher-made assessments, Apex assessments. Both IXL & Apex are utilized for differentiation in the classrooms. Teachers are familiar with the data provided by both programs and use that data to determine what differentiation is needed to meet the student deficits in each academic topic. Provide teacher stipends for additional afterschool hours for planning remote instruction.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

A MTSS will be provided in every school for differentiated instruction/interventions for students not on grade level or at-risk for failure. Child Find will be followed for Special Education Referrals for any students that research-based interventions are not showing an improvement for over time. K-2: Certified Teachers for all core instruction; iReady assessment and progress monitoring resources, Ready Toolbox, Scholastic Lit Camp and Scholar Math. Small group guided reading will be provided using scholastic leveled readers to increase comprehension strategies. Spring math, Frax, and Reflex will be included to increase fluency with facts and fractions. After school tutoring and additional teacher assistants are also being utilized to address learning loss to support small group instruction and targeted intervention of learning gaps. Strengthening core instruction through addition of instructional coach. 3-5: Face to Face instruction for all core instruction with certified staff. We will be using core Ready curriculum for math and reading, with Phonics for Reading for ELA as well as Do the Math modules for supplemental intervention. Science activities will be hands-on/project based learning related to power standards. Small group guided reading will be provided using scholastic leveled readers to increase comprehension strategies. Spring Math, Frax, and Reflex will be included to increase fluency with facts and fractions. After school tutoring and additional teacher assistants are also being utilized to address learning loss to support small group instruction and targeted intervention of learning gaps. Strengthening core instruction through addition of instructional coach. 6-8: Certified teachers for all core instruction; iReady,Study Island, and NCCI will be used as assessment resources After school tutoring available for all students 2 days per week Small group/individual Tier II targeted interventions with reading/math interventionist 9-12: Face to face instruction with certified teachers for EOC courses. Apex Learning online curriculum and assessments for non-EOC courses.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

K-8: Family newsletters and Parent Education Events . Counselor outreach services to provide individualized support. Utilization of parent outreach communication tools (Social media, websites, auto calls, etc.) Parent letters at the conclusion of the school year; social media/website resources 9-12: A School Counselor will contact parents of

students to discuss ways we can support their children's academic progress, set expectations and answer any questions Social Media and website posting of important student and parent information Morning Announcements made for students Districtwide: School Social Worker will make phone or face-to-face contact with families of any students that may need extra resources that the school has been unable to make contact with.

* (D) Tracking student attendance and improving student engagement in distance education;

K-12: We will keep daily attendance and follow up with families as needed if attendance problems develop. School will utilize weekly attendance tracking strategies, attendance letters at 3,6, and 10 absences as well as utilizing Early Intervention Team meeting and Mountain Mediation referrals. Our school social worker and school counselors will collaborate on home visits and other necessary actions as needed to address attendance concerns. If lack of internet connectivity in the home is the source of the lack of attendance/virtual participation (for students that qualify), the student will be assigned a HotSpot by the school.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

K-12: MTSS tracking and Special Education Referral rates, After school tutoring participation data collection, School report cards, EOG/EOC data, SchoolNet Benchmarks Compare iReady diagnostics for math and reading. Growth monitoring monthly to determine progress and provide interventions as needed for students not showing adequate growth. Intervention service logs 6-8: iReady diagnostics for math and reading Study Island data for science will be recorded and monitored NCCI benchmark data Intervention service logs 9-12: Course failures will be the primary indicator of learning loss ACT scores CTE assessments Graduation Rates

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$ [ ]

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ◉ No				$
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$
		Hire: K-5 Instructional Coaches to address			$ 175,563.72

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ○ No	teaches to address learning loss related to COVID-19 school closure & altered schedules. EC Compliance/Transition Specialist to address school closure compliance and improve student services. The COVID-19 school closure led to a large percentage of Students With a Disability ignoring online assignments, not logging on for live Gen Ed or SpEd instruction, and an overall lack of participation. Attendance dropped even with teachers and school administrators reaching out to families and offering additional time to complete work. This position will assure IEP services are documented correctly and students/parents are fully informed about IEP goals and	08/01/2021 to 09/30/2024	Documentation of PLCs for staff, interventions provided to students in Tier 3, documentation of individual meetings with teachers for instructional improvement. Improved IEP documentation for services and transitions and completion timelines	

		maintain communication with the families to assure their meaningful participation in the IEP writing process and carrying out of those services written in the IEP including transition between schools and into post-secondary careers or education.			
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ⊙ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ⊙ No				$

11/9/2021 12:15:17 PM

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ○ No	Purchase ride-on floor scrubbers for cleaning & sanitation to reduce the spread of the COVID-19 virus and other viral or infectious diseases on school surfaces.	08/01/2021 to 09/30/2024	Annual Sanitation or Building Inspection Reports	$ 40,000.00
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ⦿ Yes ○ No	Due to the possibility of future school shutdowns or in the event a student must receive their education remotely for fear of contracting COVID-19, CCS will renew remote connectivity devices (Hotspots) for students without internet access at home for any student/staff quarantines, altered school schedules, or school closures.	08/01/2021 to 09/30/2024	Records of hotspot issue for each school.	$ 3,385.00
	* ⦿ Yes ○ No	COVID-19 school closure and student/staff quarantine has directly impacted instruction by	08/01/2021 to 09/30/2024		$ 3,798.50

| EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment. | | instruction by requiring ongoing virtual options for students to participate and teachers to teach. To address this, CCS will: Upgrade student devices that will work more efficiently and provide easier connectivity for regular and special education services to students in the event of school closure. Purchase technology for new hire positions listed in this grant. Upgrade outdated classroom Promethean Boards with Smart Panels with upgraded processors to enhance connectivity with student devices and remote instruction for virtual students for real-time instruction with their on-campus peers. | | Reduction in device failure. Record of students participating in remote instruction. Record of devices/panels purchased and who they were issued to. | |

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ○ No	-Hire one high school Student Support Specialist (SSS - certified teacher working toward Guidance Counselor certification) to address unique student mental health needs and provide appropriate advisement services to students who have been adversely affected by the March 2020 long-term school closure due to NC Covid-19 Response Mandates. This SSS will also help in the planning and implementing of any grief counseling supports offered in the event of a death of a staff member or student due to COVID complications.	08/01/2021 to 09/30/2024	Data collection of services provided and number of students served by the Student Support Specialist. Grief Support Plans developed in the event of a death on campus.	$ 162,409.63
	* ⦿ Yes ○ No	"As a direct result of the mandated school closures, altered school schedules, & student/staff	08/01/2021 to 09/30/2024		$ 145,203.25

| SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care. | | quarantines due to COVID-19 CCS will: -hire Certified & Classified staff for At-Risk Students in SLP in grades K-12 for a 6 week program, including 5 bus drivers, 8 cafeteria staff, 3 Cerical Staff, 7 TAs, & 56 certified staff. -purchase Curriculum, Supplies, & Diagnostic Tools for SLP Instruction and addressing Learning Loss GEER funding was utilized for Specialized Support Personnel to work the 2021 summer months and will continue for each summer funding is available until it is expended. PRC 016 RtA Summer Reading Camp funds will be utilized to fund a portion of the 2021 SLP. -uilize for the 2021 SLP to address student learning loss & future required SLPs, if funds are available. -hire | | -Improved students outcomes at the end of the SLP 2021 as measured by purchased diagnostics. - Record of POs for curriculum purchases & reported student improvement outcomes. - Record of student attendance in the SLPs offered through this funding. | |

		available. Hire academic support personnel as needed through the 21-24 SY to address learning loss, achievement gaps, & mental health needs"			
OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ◉ Yes ○ No	Recognizing the high number of staff retirements and resignations in all departments during the 2019-20 and 2020-21 SYs related to the high demand of remote instruction and COVID spread, CCS District Leadership Team determined we needed to provide retention bonus for all district staff to agree to return to work yearly to maintain the current staff trained by CCS and familiar with our students and process. Bonuses are an incentive to remain with our district & are paid Sept 1 of the next SY to assure return. These ~~bonuses were paid to~~	08/01/2021 to 09/30/2024	Measure of retained staff each year. Funds unbudgeted to allow time to see what needs arise during the 21-22 SY when the stakeholders will determine where to use this funding.	$ 398,983.94

		bonuses were paid to employees in the following amounts: $150 to PT Bus Drivers and Cafeteria Staff, $300 to all FT classified staff in transportation, maintenance, cafeteria, clerical, TAs, & central services, $600 to all FT certified personnel including teachers, related service providers, administrators, and central services, excluding the Superintendent. - Unbudgeted Reserve Funding - Associated Indirect Cost			
			Total ESSER III Allotment	$	929,344.04

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.

*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Clay County Schools (220) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

 There are no new applicants.

GAN Information

Clay County Schools (220) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Cleveland County Schools (230) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Cleveland County Schools desires to create an exceptional educational experience for our students and works to prepare students to be successful in their post-secondary careers. In these efforts, we attempt to work with students, parents, and community members to create a positive learning environment in which all students can be successful. Cleveland County Schools sincerely appreciates the support of our national, state, and local leaders and all of their efforts to provide support for our students and schools throughout this coronavirus pandemic. The emphasis placed on our students through the allocation of funds reinforces the priorities of academic achievement, learning recovery, and the health and safety of everyone. Cleveland County Schools recognizes the importance of the ESSER III funds and has been diligent in the effort to engage stakeholders in a needs assessment process to appropriately address the allocation of these funds to effectively and efficiently meet the specific needs of our students and schools. Cleveland County Schools has met with school and district leaders, community leaders, school staff members, including but not limited to NCAE, teacher advisory, and our local teacher assistants' association. The formulation of our plan for the effective and efficient use of these ESSER III funds is a compilation of the feedback received from multiple groups over the period of the pandemic. It was the goal of our district to listen to feedback and get perspective on the pressing

needs of our students and schools that have been highlighted during these pandemic times. We are acutely aware that the disruption in educational services has created learning gaps across all grade spans, for students who have been attending face to face in Plan B and for those who have remained totally remote. As we move into Plan A, our goal will be to use the few weeks of school we have left to conduct both formative and summative assessments in elementary, middle, and high school. We will also use our universal screening tools at all grade spans to assess where the learning gaps are most significant. Our district MTSS leadership team will be looking at district data in an effort to create a plan for supporting our schools as we move into the 2021-2022 school year. School-level MTSS leadership teams will be looking at school-level data to determine the best course of action for addressing the learning gaps. Our district leaders will guide our schools through both a comprehensive needs assessment, as well as the FAMS (Facilitated Assessment of MTSS). Data from both of these tools will be used to assist schools in developing goals for the 2021-2022 school year. At both the district and school level, our overarching goal will be to mitigate learning loss across all grade spans, as well as to assist students and families with ensuring both social and emotional well-being.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Cleveland County Schools has four traditional high schools that all exceed 50 years in age. The schools, built in the 1960s, have dated heating and air conditioning systems that have contributed to diminishing air quality. Cleveland County Schools has embarked on an RFP process to hire a consultant to review all of our current HVAC systems and provide the district with guidance on the upgrade and potential replacement of these systems. Included in the potential upgrade and replacement is the mechanical and non-mechanical heating, ventilation, air conditioning systems, control systems, and building envelope. The ultimate goal of this project is to greatly improve the indoor air quality of the high schools. This indoor quality, while always important, has become even more essential in keeping our students and staff healthy and safe during the pandemic. The assessment of our high school systems should be completed in the summer of 2021 with work beginning in the Fall of 2021. Of the total ESSER III allocation, $25 million dollars will be appropriated to the first of our district's pandemic response needs. Cleveland County Schools also acknowledges the increased demand for remote and online instruction, and this has stretched the capacity of the number of current devices for both students and staff. As the increasing demand for online instruction and services is maxing out the capacity of our current inventory. Given the increased demand of online learning, the district plans to spend $4 million over the next three years to update antiquated student devices in order to maintain a one-to-one student-to-device ratio, and also ensure that our staff have updated devices to provide high quality online remote instruction. In order to address student achievement, enhance instruction and mitigate learning loss, it is essential that our schools continue

to be staffed with high-quality professionals. High-quality teachers, teacher assistants, enrichment teachers, social workers, and guidance counselors. In order to ensure that we are able to hire high-quality staff, approximately $6.7 million dollars of the total ESSER III allocation will be appropriated to the district's efforts to continue to employ existing staff. This amount will be used to employ fifteen teachers, fifteen teacher assistants, five social workers, and eight guidance counselors. Also, to mitigate learning loss, we will be allocating approximately $1 million of the ESSER III funding for the purpose of purchasing high-quality assessments that are valid and reliable, to accurately assess students' academic progress, and assist educators in meeting students' academic needs. The remaining portion of ESSER III funding allotted to Cleveland County Schools will be left in unbudgeted reserve so that we can access it as needed for allowable uses. In summary, the allocation of ESSER III resources to Cleveland County Schools will be used to improve the air quality in our high schools, upgrade district technology, and continue to employ high-quality professionals to allow our schools to provide high-quality core instruction along with needed interventions.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 9,308,350.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

To mitigate learning loss, we will be allocating approximately $1 million of the ESSER III funding for the purpose of purchasing high-quality assessments that are valid and reliable, to accurately assess students' academic progress, and assist educators in meeting students' academic needs. These tools will be used for collecting both benchmark data and progress monitoring data. We will also be employing additional staff to provide support and intervention for our students.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

In order to address student achievement, enhance instruction and mitigate learning loss, it is essential that our schools continue to be staffed with high-quality professionals. In order to ensure that we are able to hire high-quality staff, approximately $6.7 million dollars of the total ESSER III allocation will be appropriated to employ fifteen teachers, fifteen teacher assistants, five social workers, and eight guidance counselors. We are going to invest a little over a million dollars into updating our computer equipment and display equipment in many of our classrooms across our district to enhance student learning. And finally, we are going to invest approximately $350,000 into updating the instructional materials across the district in our media centers.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

We will not be using this category.

* (D) Tracking student attendance and improving student engagement in distance education;

We will not be using this category.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

We will not be using this category.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ◉ Yes ○ No	This amount will be used for contract services to complete a facilities study and will also be used to purchase miscellaneous equipment for our schools such as dehumidifiers, air purifiers, and bottle filtration stations.	Fall 2021 through spring 2024	This will directly impact the health and well-being of our students and staff by reducing the risk of virus transmission.	$ 100,000.00
	* ◉ Yes ○ No	Cleveland County Schools has four (4) traditional high schools that all exceed 50 years in age. The schools, built in	Fall 2021 through spring 2024		$ 25,000,000.00

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.		schools, built in the 1960s, have dated heating and air conditioning systems that have contributed to diminishing air quality. Cleveland County Schools has embarked on an RFP process to hire a consultant to review all of our current HVAC systems and provide the district with guidance on the upgrade and potential replacement of these systems. Included in the potential upgrade and replacement is the mechanical and non-mechanical heating, ventilation, air conditioning systems, control systems and		The ultimate goal of this project is to greatly improve the indoor air quality of the high schools. This indoor quality, while always important, has become even more essential in keeping our students and staff healthy and safe during the pandemic.	

		building envelope.			
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$ [____]
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ◉ No				$ [____]

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◯ Yes ◉ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ◯ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◯ Yes ◉ No				$

11/9/2021 2:49:34 PM

| LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements. | * ○ Yes ● No | | | | $ |

    11/9/2021 2:49:34 PM

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ◉ Yes ○ No	Technology needs continue to increase in order to meet student academic needs. In order to address learning loss and provide online support, enhancement, and instructional services, the district must be able to continue to update and refresh student devices and update our infrastructure	Fall 2021 through spring 2024	Continuing to refresh and update student devices will allow us to provide online support, enhancement, and instructional services.	$ 500,000.00
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ◉ No				$

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◯ Yes ⦿ No				$
	* ⦿ Yes ◯ No	This amount will be placed in unbudgeted reserve at this time for us to determine how to best use this funding in the future. This amount will also include our indirect cost	Fall 2021 through spring 2024	By placing this allowable amount in unbudgeted reserve, it will allow us to best analyze which category will best serve the needs of our students and our district.	$ 3,229,157.00

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.					
				Total ESSER III Allotment	$ 28,829,157.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

 There are no new applicants.

GAN Information

Cleveland County Schools (230) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Columbus County Schools (240) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

As a result of the disruption in educational services and subsequent shift to remote learning due to COVID and return to in-person instruction, the district worked with stakeholders at all levels, including, but not limited to staff, students, administration, parents/families, elected officials, county and state agencies, etc. Strategic planning meetings including representatives from each mentioned area have been held monthly to assess district needs and direction for student learning needs, staff training, and facility needs. In addition, bimonthly administration meetings, monthly principals meetings, and weekly staff meetings have been used to determine educational needs and facility needs. Columbus County Schools is assessing and addressing student learning gaps resulting from the disruption in educational services through use of HMH growth measures, iStation data, check in data, EOG and EOC data (as soon as available), iReady data, EC progress monitoring, Brigance, and monitoring of services.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

During the 2020-2021 school year, our students have lost instruction due to Covid and inability to attend school full time. Our student assessments scores have decreased due to the lack of knowledge and understanding of the curriculum. During the first quarter of the current school year, our student failure rates for our K-8 schools were between 20% to above 50% and our high school failure rates for each individual school were between 25% to 35%. This is a significant increase from previous years. Failure rates were due to the loss of instruction when students were at home during the end of the 2019-2020 school year and not attending school full-time during the 2020-2021 school year. HMH growth measures, iStation, iReady, progress monitoring, NC Check-ins, and other assessment data have determined where students are and what support each individual student needs to grow academically. EOG and EOC data, when available at the end of the year, will determine exactly where students are due to state assessments to help students next school year.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

| $ | 4,292,395.33 | * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024. |

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

All students, including the subgroups listed above, will be given a variety of assessments to gauge their academic need. Students will be assessed using the HMH growth measure at the beginning, middle and end of the year in reading, grades 2-8, and in math, grades K-8. This data will be used to see the longitudinal growth of students and to identify any areas of weakness for remediation. Students will be given the state mandated reading assessment at the beginning, middle and end of the year in grades K-4. This assessment will help the teacher to gauge student growth, identify at-risk students and remedial areas that need targeted interventions for continued growth in reading proficiency. Ongoing assessments will include module and unit tests from the core program for grade K-8. High school students will be assessed twice a semester, in each core subject, using county mandated benchmarks as well as NC Check-Ins for Math 1, Math 3 and Biology. These assessments will determine what needs to be retaught and remediated based on current grade level and course standards. This data shall be used, along with the implementation of MTSS, to drive instruction and interventions that will target our learning losses across the district.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Students that are showing signs of learning loss in foundational reading skills, based on assessment data, will be given intervention using Reading Horizons Discovery and Elevate programs. Teachers will implement small group instruction and utilize the computerized based program to remediate and target those skills. For reading comprehension, students will be given small group interventions with research based intervention practices along with supplemental adaptive computer programs. In K-4, students will use the iStation supplemental computer program to remediate and in grades 5-8 the iReady computer program will be used to meet individual student needs. Teachers will monitor this supplemental program and will conference with students as needed. High school teachers will use the Quizalize program to remediate and target skills that students haven't mastered based on assessments within the Quizalize program, on district benchmarks, Math 1, Math 3 and Biology NC Check-Ins and other ongoing classroom assessments. Students that are showing learning loss in math will be provided small group instruction, with conceptual support, based on the data from the longitudinal assessments in part A. K-8 students will also have access to adaptive math programs to supplement the small group instruction and meet individual student needs. In grades K-4, we will use the iStation math adaptive program and in grades 5-8 we will use iReady's adaptive math program. Teachers will monitor student progress and will intervene through conferencing when students are not proficient on a skill or domain in the adaptive programs. High School teachers will have access to the Quizalize program and the Savvas Math Envision program to supplement the small group instruction and to meet individual student needs. Teacher-student conferencing will take place to help students who are not proficient on a skill or domain within these two programs.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Columbus County Schools will send frequent progress reports home with students to update parents on their child's academics. All schools will have communication platforms such as Remind or Class Dojo, so that teacher communication is easily accessible for parents and vise versa. Columbus County Schools will host Family Literacy and Math nights at least once a semester. During the event, parents will have opportunities to see strategies and programs that are implemented in their students' classroom. Parents will also receive activities to promote student learning at home. Columbus County Schools will offer parent teacher conferences once a grading period. Virtual students will be able to attend the face-to-face event at any time. Teachers will post all updates, assignments, announcements, etc...in their Google or Schoology Classroom so that virtual students receive the same information as face-to-face students. Resource teachers (EL, AIG, EC, etc.) will be available to provide strategies for students under their expertise.

* (D) Tracking student attendance and improving student engagement in distance education;

Daily attendance will be taken by teachers with fidelity. If a lack of participation is occurring with distance learning students, teachers will document the number of absences and conduct a parent teacher conference to discuss absences. Stakeholders will decide whether it is beneficial to keep the student in a virtual learning environment. Teachers will offer PBIS incentives to distance learning students just as they will for their face-to-face students. Positive behavior, consistent participation and attendance will be rewarded to promote student engagement. Teachers will implement digital tools to enhance instruction for both sets of students. Teachers will limit paper worksheets and have students create digital products to determine application of learning. Teachers will offer collaboration opportunities between face-to-face and distance learning students. Teachers of virtual students will be available to their students just as face-to-face teachers are to their students.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Teachers will continue to monitor data through the use of data trackers throughout the district. These trackers have areas for historic data as well as current data. Disaggregation of data will occur after student assessments to note if reteaching or remediation should occur for that child. Teachers will discuss student longitudinal data through the use of growth measures, diagnostic tests, district benchmarks,NC Check-Ins and note areas where learning loss must be recovered. These discussions along with data analysis will drive instructional/intervention/enrichment practices. Discussions will occur in professional learning communities, grade level meetings and MTSS team meetings so that teachers can support one another in closing student gaps. Pre-pandemic data will be compared to current data to determine if the learning loss is due to gaps in learning or possible disabilities. When disabilities are suspected the process for testing will begin to ensure that the correct supports are put in place to meet the needs of the child.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

| FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs. | * ⦿ Yes ◯ No | COVID closures have caused many regular/routine maintenance projects to not be able to be completed. To make needed repairs and improvements, additional custodial/maintenance workers will be hired/contracted to perform needed cleaning and maintenance on district facilities. Additional needed materials will be purchased to complete cleaning/repair projects. These will include, but are not limited to cleaning buildings, floors, replacing worn and damaged carpeting, painting of facilities (both affected by moisture due to failing HVAC systems, affecting air quality), and other repairs as determined by maintenance directors. Water bottle filling stations will be installed to replace water fountains. | Improvements/repairs will be scheduled by priority beginning 7-2021 though 9-2024. | Improvements/Repairs will be scheduled and monitored by administration and maintenance leaders. Environmental hazards will be screened before and after completion of projects for improvement impacts. Health department will conduct inspections of facilities. | $ 1,093,448.33 |

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ○ No	6 out of 11 of our schools HVAC units consists of antiquated window units. Many are in need of repair or are in a state of disrepair. 5 of our schools, and our central office building and mobile units have central HVAC units that are as much as 30 years old and are in need of repair/replacement. Columbus County Schools will replace and upgrade all window units to improve air quality, ventilation, filtering, etc. Facilities with central HVAC will be inspected, tested, repaired and replaced as needed and deteriorated HVAC materials/equipment will be removed.	Priority basis, 7-2021 through 9-2024, window units/HVAC/ductwork will be repaired/replaced by need.	Data from indoor air quality reports and capacity from updated HVAC systems, documentation of upgraded systems and controls to ensure efficiency and the introduction of fresh air throughout school facilities, maintenance records and reports, and physical inventory and monitoring.	$ 1,193,982.57
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◉ Yes ○ No	Due to COIVD shut down, our special populations groups were not able to receive the additional services they would in face to face settings. 100% of migrant and 100% of Native American students received no tutoring services. During virtual learning, our migrant populations attendance online declined by at least 33% and migrant students did not receive the services of migrant tutors. 84% of our EC population suffered learning loss and exposure to needed curriculum. During virtual learning, participation in tutoring services for Native American students declined by 50%. Columbus County Schools will employee additional migrant tutors/recruiters, Indian Education tutors, career counselors, home/school liaison, curriculum materials, sensory materials, classroom materials, counseling materials, etc for use with special populations to address learning loss. In addition, each high school reports a decrease in student participation and an increase in absenteeism.	Affected students will receive area-specific services using curriculum materials 8-2021 / 9-2024.	Diagnostic data reports, surveys from parents, staff, and other stakeholders, attendance and academic data. Targeted academic goals for each child, use of adaptive technology resources and curriculum materials to build customized pathways for students and review of related reports. Attendance and participation will be monitored and recorded.	$ 529,520.52
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ⦿ Yes ○ No	Due to COVID, sanitation requirements have increased. Transmission information provided by the CDC and other agencies is vital. Columbus County Schools will hold professional development sessions for employees to address proper sanitation requirements and best practices to reduce rates of transmission.	PD to be conducted 8-21, 8-22, 8-23, 8-24. Sanitation/best practices will continue through 9-2024.	Attendance by staff at PD sessions will be tracked and monitored by school administration. Implementation of sanitation techniques will be monitored by administration and maintenance staff. Contract tracing will occur and be monitored by student services staff.	$ 22,401.17
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ○ No	Due to COVID, all school/district facilities must be sanitized and cleaned with approved sanitation materials and equipment. Additional cleaning materials and supplies are needed to ensure proper cleaning and sanitation.	8-2021 through 9-2024, on a daily basis.	Schools/facilities will be monitored/inspected by district maintenance leaders to ensure daily sanitizing/cleaning is occuring. Principals will complete monthly building inspection reports to be submitted to Central Office ensuring proper cleaning and sanitizing of buildings.	$ 44,802.35
	* ⦿ Yes ○ No		Services to be provided 8-2021 through duration of of grant period (9-2024).		$ 11,200.59

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.		During facility closure dates caused by COVID, all students are required to attend classes online. Columbus County Schools will provide all staff members with professional development/training for online and blended learning. Columbus County Schools has already provided a Chromebook to each student and faculty member and a wireless hotspot to all students and faculty members that do not have internet access. School cafeterias will make available both breakfast and lunches during long-term closure. Meals will be available for pick-up at school sites and will be delivered to communities via school bus delivery. Columbus County schools will also employee an additional computer technician to ensure working technology is provided to all students.		Schools will monitor online attendance (Powerschool)/participation in online coursework/assignments. Teachers/administration will communicate with parents regarding attendance and participation. All staff will attend PD on best practices for online and blended learning. Schools will prepare and distribute meals using attendance data and meal participation data. Technicians will provide reports/updates on all computer equipment used.	
	* ⦿ Yes ◯ No		Infrastructure, software and hardware will be upgraded by priority beginning 7-2021 through 9-2024.		$ 438,266.87

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		Online learning due to COVID has increased dramatically, up to 100%. To ensure substantive educational interaction between students and teachers, upgrades are needed with technology infrastructure, hardware, and software. Columbus County Schools will invest in technology infrastructure upgrades at all facilities to improve connectivity for students and staff. To better serve students, presentation systems (panels) are needed for the delivery of substantive instruction both virtually and in person. Software/computer programs are needed in all curriculum areas to ensure students and staff cover objectives and goals that are aligned with course requirements. Additional devices (laptops/desktops/chromebooks) will be purchased to improve the substantive, daily educational interaction between staff and students, including low-income students, and students with disabilities, which may require assistive technology or adaptive equipment.		Student participation in learning via technology will increase by 50%. Teachers will monitor participation in online lessons and activities and document student progress. Teachers/administration will revise pacing guides to include software/programs and will monitor student use and participation. Progress will be shared with parents on a regular basis by reports and conferences. Technology staff will test system connective rates/availability/reliability and share reports with stakeholders.

| MENTAL HEALTH SERVICES: Providing mental health services and supports. | * ⦿ Yes ◯ No | Due to COVID/online learning, students have not been able to access services provided by school counselors, dropout prevention persons, and school nurses. With all students returning to facilities, there is a shortage of aforementioned staff to meet student needs. Columbus County Schools will hire additional school counselors, dropout prevention persons (home/school liaison), and contract extender school nurses to address the mental health needs of students and to provide support services. Curriculum counseling materials will be purchased for use with students affected by social/emotional learning concerns due to COVID. | 8-25, 2021 (or receiving of funds) - duration of grant period (9-2024). | Referrals to school counselors and school nurses will be tracked and monitored for increases in services provided, by administration. Dropout rates will be monitored by school administration and compared to pre-pandemic rates to ensure an increase in services. | $ 493,096.66 |

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ⦿ Yes ○ No	Due to COVID and the shift to online learning, documentation at all schools shows a loss of participation and lack of attendance by students in all areas including low-income students, students with disabilities, English learners, migrant students, homeless and students in foster care. Columbus County Schools will provide a learning recovery summer program for all at-risk students in grades K-12 to provide instruction and support to help student learning loss. Opportunities for additional students to participate will be available if space permits. Teacher pay and substitute teacher pay will be covered.	Summer Learning will take place each June/July through 2024, per state hours/day requirements.	Progress monitoring for students in grades K-8 will use iReady to access for math. Each student will be assessed at the beginning and end of the summer school program. Grades K-4 will use Istation and grades 5-8 will use iReady to assess students in reading. Students in high school will have the opportunity to re-assess at the end of the summer learning recovery period using the North Carolina End-of-Course test.	$ 6,706,709.84
	* ⦿ Yes ○ No		7-2021 (or receiving of funds) through duration of grant period (9-2024), on a priority basis.	Student performance data will be monitored and reported to stakeholders on a regular basis by teachers and administration. Materials/equipment will be inventoried and monitored for use towards improved student achievement. Principals and other school leaders will monitor classrooms and transportation, as well as surveillance footage to ensure student distancing to lessen the contact spread of COVID. Staff supplements will be documented through payroll department.	$ 3,188,126.77

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	To maintain the operation and continuity of services in our LEA and to continue to employ existing staff, and to ensure safety recommendations of the CDC, Columbus County Schools will purchase additional/update existing equipment in schools lab, including but not limited to science labs, CTE labs, EC classrooms, Media Centers, Health/PE classes, Arts classes, purchase additional security and bus cameras/GPS systems to monitor student distancing, to purchase additional transportation/activity buses to meet distancing requirements, and other needed materials/equipment etc. to ensure adequate equipment for student/staff use to meet recommendations of CDC for distancing/safety. Columbus County Schools will also use funding to supplement salaries of certified staff by 2% and classified staff by 3.5% in a effort to retain staff.			
			Total ESSER III Allotment	$ 13,721,555.67

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.

*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Columbus County Schools (240) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

Columbus County Schools (240) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

☐	11/5/2021 2:32:09 PM	Tina Letchworth	**181 Amended** The amended carryover budget in the continuation application that has been submitted within BAAS and the amended FY 2022 – ARPA (American Rescue Plan Act) – ESSER III Application (PRC 181) within CCIP have been approved. This approval reflects programmatic allowability of strategies only. In the event of a fiscal audit, it is the responsibility of the district to provide documentation that demonstrates the strategy is for the prevention of, is in response to, or will reduce the spread of Coronavirus and is the most cost-effective way to address the problem. Any capital projects must adhere to all guidelines and requirements of capital projects.	C

Attention Needed	Date	User	Status (S)/Comment (C)	S/C
☐	11/3/2021 2:11:50 PM	Beverly Turner	Primarily due to the pandemic, reading proficiency EOG scores in Whiteville City Schools dropped 17.3 percentage points from 2018-2019 to the 2020-2021 school year. In an effort to recoup learning loss and increase reading proficiency in grades Pre-K - 5, teachers are participating in 140 hours of state mandated LETRS training to be completed outside the normal school day. Teachers are stressed by the impact of the pandemic on student learning, and morale is at its lowest. In order to raise teacher morale, we would like to compensate PreK-5 teachers for their time spent on LETRS training outside of school hours by providing $1000 per teacher in January of 2022 and an additional $1000 in May of 2022. Teachers will provide evidence of completion of coursework through certificate of mastery and work sample portfolio. WCS made the decision not to purchase ionizers, which is in the original budget; our plan is to amend the budget, moving funds from ionizers to PD, to pay the PD stipends.	C

Whiteville City Schools (241) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 3 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Grades K - 2 Whiteville Primary School Subject - Reading - Overall 2019-2020 MOY Istation 51% 2020-2021 MOY Istation 36% Edgewood Elementary-2nd Quarter Benchmark Comparison 2019-2020 and 2020-2021 2019-2020 Reading (3rd grade) 55% 2020-2021 Reading (3rd grade) 54% 2019-2020 Reading (4th grade) 71% 2020-2021 Reading (4th grade) 51.2% 2019-2020 Reading (5th grade) 54% 2020-2021 Reading (5th grade) 47% 2019-2020 Math (3rd grade) 74% 2020-2021 Math (3rd grade) 66.2% 2019-2020 Math (4th grade) 69% 2020-2021 Math (4th grade) 56.3% 2019-2020 Math (5th grade) 65% 2020-2021 Math (5th grade) 40.9% 2019-2020 Science (5th grade) 40% 2020-2021 Science (5th grade) 32% Central Middle School - 2nd Quarter Benchmark Comparison 2019-2020 to 2020-2021 2019-2020 Reading (6th) 40.8% 2020-2021 Reading (6th) 37.5% 2019-2020 Reading (7th) 61.45% 2020-2021 Reading (7th) 48.6% 2019-2020 Reading (8th) 59.6% 2020-2021 Reading (8th) 48.6% 2019-2020 Math (6th) 40.13% 2020-2021 Math (6th) 24.8% 2019-2020 Math (7th) 52.5% 2020-2021 Math (7th) 44.7% 2019-2020 Math (8th) 35.85% 2020-2021 Math (8th) 18.2% 2019-2020 Science (8th) 36.6% 2020-2021 Science (8th) 47.6% Whiteville High School Average Grades-Reporting period 21% - at least one F on report card 11% - at least one F on report card Whiteville High School 1st Semester Average Biology 2019-2020 Biology 39.3% 2020-2021 Biology 53.98% English II 2019-2020 59.6% 2020-2021 45.5% NC Math I 2019-2020 23.81% 2020-2021 24.14% NC Math III 2019-2020 61.19% 2020-2021 42.68% NEEDS ASSESSMENT PROCESS/PLAN DEVELOPMENT: WCS Directors, Principals and Superintendent worked collaboratively to gather data to develop the Needs Assessment. The directors, principals and superintendent met several times to review the data, provide input and develop a plan for students based on the needs assessment. Directors, principals and superintendent all had input in building the budget for this plan. To gain further input from stakeholders, principals reviewed the plans with their school's School Improvement Team, which consisted of classroom teachers, support personnel, and parent representative. Lastly, a meeting of directors, superintendent and principals met to finalize the plans for the ESSER II funds. ASSESSING AND ADDRESSING LEARNING GAPS: Students who are considered at risk will be identified and provided academic and social/emotional support as needed.

Students at risk are identified as one of the three 1) C or below on subject/reporting period; 2) absent 10 or more days, and 3) not proficient on quarterly math, reading or science (5th, 8th, Biology) benchmarks. These students will be identified by a team of teachers per grade level. Teachers will administer the Diagnostic/Screener to determine level of proficiency in reading and math. Students will also take quarterly benchmarks to determine mastery of grade level standards. All data will be analyzed by teachers and administration. Steps will be taken in Tier I and if necessary, in Tier II and III to target students' areas of weakness. Students will be monitored by teachers, MTSS school coordinator and administration using the MTSS framework/model. Supports will be provided as needed, i.e. SEL/counselor, nurse, interventionist, etc. Specific assessments by school to be used to address learning gaps are: Grades K-2: IStation Reading Assessment will be used to determine progress; State MOY and EOY Math Assessment Grades 3-5: Quarterly Reading, Math, Science (5th) Benchmark Assessments, Previous and current year Reading, Math, Science (5th) EOG scores Grades 6-8: Quarterly Reading, Math, Science (5th) Grade 9-12: English II, Biology and Math I and III Benchmark Assessments, English II, Biology and Math I and III EOC scores for previous and current school year.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Analysis of data comparing MOY/3rd qtr data in 2019-2020 with MOY/3rd qtr data in 2020-2021 that support use of ESSER II funds. Grades K - 2 Whiteville Primary School From 2019-2020 MOY to 2020-2021 14.4% decrease in Istation Reading Assessment Grades 3 - 5 Edgewood Elementary: From 2019-2020 to 2020-2021 4.7 percentage point decrease in 2nd quarter reading benchmark scores. 3.2 percentage point decrease in 2nd quarter math benchmark scores. 8 percentage point decrease in 2nd quarter science benchmark scores Grades 6- 8 Central Middle School: From 2019-2020 to 2020-2021 7.9 percentage point decrease in 2nd quarter reading benchmark scores 15.1 percentage point decrease in 2nd quarter math benchmark scores Grades 9 - 12 Whiteville High School: From 2019-2020 to 2020-2021 14 percentage points increase in students with atleast one F. 14.1 percentage point decrease in 1st semester English II scores 18.5 percentage point decrease in 1st semester NC Math III scores Steadily decreasing scores in almost all subject areas listed above signifies a strong need for additional resources to meet the needs of our students. Many students were already at risk prior to COVID, and now these students are even further behind. Moreover, students who were normally scoring proficient (Pre-COVID), are now behind academically and need additional support to return to grade level proficiency. Additional teaching staff is needed to reduce class size, allowing teachers more time to work with individual or small groups. In comparing student assessment scores from pre-COVID (2019-2020) to COVID (2020-2021), data indicates a consistent decreasing trend in IStation scores (K-2), 2nd qtr benchmark scores (Grades 3 - 8) and 1st semester EOCs (Grades 9-12), which indicates a significantly higher number of students are at risk academically in comparison to the previous year. In order to provide additional academic support for our students, 11 additional teachers (and 2 EC teachers) are needed for the regular school day to reduce class size, allowing teachers more time to work with individual or small groups. Additionally, 6 instructional assistants are needed to work with at risk students in small groups under the supervision of classroom teachers. Adding new teachers also requires the district to purchase the supplies and materials needed to upfit new classrooms, which is indicated below and in the budget. With more students using software for learning (we became 1:1 laptops during COVID) there is a need to purchase software so students can be monitored during computer activity. Too often students are not on task while on a

computer, and this is hard to detect with so many students in the room at one time. The purchase of the monitoring software will allow us to monitor the students' computer activity more efficiently, thus improving learning and student success. Student engagement is another area of concern. Students who work remotely need more engaging activities in order to maintain a level of motivation that promoted success. While training for all staff was conducted to convey strategies for more interactive learning, the problem merits the purchase the software program "Unique Learning Systems" for students with disabilities and English Learners who need more interaction during the learning process. To further support students, an interventionist will be hired each of the 4 schools to work with student and coordinate MTSS process for at risk learners. At the middle school, 2 tutors will be hired to support classroom instruction, working with student in small groups for remediation. In the event of an uprising of the pandemic, funds are needed to cover the excessive number of substitutes needed when teachers are out due to quarantine or actual COVID symptoms. Also, when subs are difficult to find, especially in the more specialized areas, i.e. high school, our WCS teachers have been willing to take over another teacher's classroom for several weeks; therefore, additional responsibility stipends are needed to compensate these teachers for going above and beyond their regular obligat To increase student proficiency, at risk students will be offered a six week summer school in 2020. Although ESSER I, RtA, ICARES and Title I funds have been budgeted for part of the summer school, the remaining expenses will be paid from ESSER II. These funds will cover teachers, assistants, custodians, counselors, nurses, assistant principals/summer school leads, support staff, transportation, snacks, and supplies and materials, Data also indicates that few parents and community members volunteered in the schools during the 2020-2021 school year. In order to build parent and community engagement in the schools, a Public Relations Coordinator is needed to encourage parent and community involvement in the schools by reading one on one with students, tutoring students, assisting in the classroom or field trips, etc. A parent liaison for each of the four schools will be hired to work with the Public Relations Coordinator to encourage parents to attend monthly parent meetings that address helping their children become successful students. Parent Liaisons will serve as a bridge of communication between teachers and parents. Data also indicates that a significant increase in student absences and the number of students are experiencing social and emotional issues, which merits the position of a Social Worker that not only works with students with social and emotional issues,but also monitors and addresses truancy. In the event of another COVID outbreak, we will pay "additional responsibility stipends" to teachers who, in the absence of other teachers, assume the absent teacher's responsibilities (This will be part of the third drop.)

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 4,011,548.81 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic

progress and assist educators in meeting students' academic needs, including through differentiating instruction;

In comparing student assessment scores from pre-COVID (2019-2020) to COVID (2020-2021), data indicates a consistent decreasing trend in IStation scores (K-2), 2nd qtr benchmark scores (Grades 3 - 8) and 1st semester EOCs (Grades 9-12), which indicates a significantly higher number of students are at risk academically in comparison to the previous year. In order to provide additional academic support for our students, 11 additional regular education teachers are needed for the regular school day to reduce class size, allowing teachers more time to work with individual or small groups.(The 11 additional teacher will be counted in the third drop) 2 Exceptional Children Teachers are also needed to reduce class size, allowing more time for individualized instruction. (Counted below in Special populations). Additionally, 6 instructional assistants are needed to work with at risk students in small groups under the supervision of classroom teachers. In addition, we are adding two instructional tutors at the middle school level. MTSS coordinators/interventionists are also needed for each of our four schools to focus on the progress of the at risk students, identify needs, schedule MTSS school meetings, monitor the support provided by teachers and support services to bring students to success. MTSS coordinators will also serve as interventionists. To further support at risk students, a screener software program is needed to enable teachers to more accurately pinpoint specific needs of individual students, design lessons to target students' areas of need, monitor the progress of the student, and provide data to support the MTSS process of students. The data and mini-lesson plans will be used as a springboard to work with students in small groups in Tier I, Tier II or Tier III in the MTSS process. The reading data indicates a need for support of a reading interventionist at Whiteville Primary and Edgewood Elementary with an interventionist at Central MIddle School and Whiteville High School This The two reading intervention positions will identify students reading below grade level proficiency and work one on one or in small groups to improve reading fluency and comprehension as ell as provide classroom guidance and intervention strategies to individual teachers. The interventionists will also conduct MTSS meetings at their respective schools, and monitor the process for the at risk learners, ensuring these students receive the targeted intervention and support needed to become successful. More parent involvement is needed in the schools as well as home regarding student learning. Parent liaisons will be hired for each school to improve parent/teacher communication with parents of English Learners. Parent Liaisons will be responsible for drawing parents out to the schools for monthly parent training at their school. Parent trainings will provide strategies for parents to use at home to increase student success, including ELs. All students will be treated equitably depending on specialty areas of need including foster, homeless, low income/low wealth. At risk students will be targeted for a six week summer school in 2022 and 2023. Teacher will have small groups so instruction can be tailored to their specific academic needs. These funds will cover teachers, assistants, custodians, counselors, assistant principals/summer school leads, transportation, snacks, and supplies and materials, The addition of teachers for class size reduction teaching positions will require additional technological equipment and materials to outfit their teaching materials. Laptops, doc cameras, online signature software ,Unique Learning Systems Software, Software to review students' screens. (counted in technology below) We currently utilize and will continue quarterly benchmark assessments K-12, A universal screener will be purchased to diagnose student needs and collect data to progress monitor students as well as determine if more intensive services are justified.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Whiteville City Schools currently has in place a built in system of remediation for each of our schools K-12. Utilizing ESSER funding will enable us to offer individualized and small group support for at risk students through tutorials, daily intervention block, after school program, summer learning loss recovery, and parent workshops. These steps are in addition to our class size reduction

positions and additional teacher assistants that will support more small, intimate learning sessions. Our parent liaisons are intended to extend the learning environment beyond the school. MTSS Coordinators/Interventionists will be added to work with students on academic areas of need and expedite the assessment process and initiation of support in response to the learning loss that has been caused by the pandemic. (Both parent liaisons and MTSS Coordinators/interventionists will be funded with the third drop)

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

WCS will focus on building parent communication and engagement while fostering positive relationships with parents. WCS, through Parent Liaisons at each school, will provide for monthly parent information sessions on a wide range of topics, including the use of technology, understanding parent portal, extending the learning environment at home, evaluating student homework, tips and strategies for student responsibility/organization, and connectedness with their child's classroom. Our parent liaisons will be vitally important in this effort as they will be responsible for corresponding with individual parents and households, including business and community engagement and conducting home visits.(These salaries will be counted in the third drop). The small size of our district lends itself to a carefully choreographed system of support for our parents.

* (D) Tracking student attendance and improving student engagement in distance education;

Student progress will be tracked through PowerSchool, which is a part of our protocol for attendance monitor. Letters are sent out upon the 4rd, 6th, and 10th absences. Absences at the 10th day trigger a parent contact by the district social worker as well as truancy court. This situation will be supplemented through the addition of two social worker dedicated to attendance related matters as well as family counseling and support and available community services. In addition, WCS will offer professional development to teachers on creating engaging activities and lessons for students, in an effort to improve student engagement, including online lesson in the event virtual learning is required by the district. Unique Learning Systems software will be purchased with ESSER funds to increase EC and EL student engagement during distance learning.(Includrd below in allowable use under

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Data has been collected for pre-covid vs post covid using 2nd quarter benchmark assessments and where available student end of course assessments, i.e Highschool, fall semester 2019 vs fall semester 2020. We will continue to monitor benchmarks and other relevant data points at the end of each academic period to assess student growth.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No		July 1,2021 - September 30, 2024	Student Survey indicating use of water bottle filling station and social distancing on activity buses during a pandemic. Teacher Survey indicating use of outdoor classroom Attendance Data (Minimizing absences by reducing viral transmission) Outdoor Learning Space Log (# of uses) Observations of following COVID guidelines (space between students).	$ 356,009.85

Water bottle filling stations will be added to water fountains at each school to eliminate individualized handling of water dispensing equipment, thus reducing viral spread. WCS will purchase two activity buses. The purpose of these buses will be to enhance our seating capacity for student activities, sports events and other transportation needs to prevent viral spread. WCS will build an outdoor learning space/classroom at each school site (4). The structures will be 20' X 30' on a concrete base with ceiling fans, and lighting with tables and benches set in concrete. This will greatly enhance the ability to safely conduct in person learning and enhance student engagement. Capitalized assets including teacher desks and teacher chairs will need to be purchased to upfit class size reduction positions.

| IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement. | * ◉ Yes ○ No | Whiteville City Schools facilities have individualized HVAC systems for classroom units. We recognized that this greatly diminishes our ability to centrally control;/improve air quality at each site. This will necessitate the addition of ionizer units as add ons to each of the 140 HVAC units to diminish viral and air-borne bacteria transmission. Additionally, roof replacement at Whiteville Primary's 2nd grade building will need to be replaced due to water seepage through roof deck causing mold and water encroachment causing poor air quality in classrooms. | July 1, 2021 - September 30, 2024 | Monthly Maintenance Inspection Data-noting air cleanliness Teacher Survey-indicating satisfaction of clean air Attendance Data (Minimizing absences by reducing viral transmission) | $ 275,000.00 |

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ⦿ No				$
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ○ No		July 1, 2021 - September 30, 2024		$ 540,200.00

		Two additional EC general curriculum positions will be utilized to reduce teacher caseloads to provide for more individualized and unique instruction. Parent liaison hired to build parent relationships, improve parent/teacher communication and educate parents on ways to help and become involved in their child's education and increase probability of EL student success. (To be added back in third drop) Unique Learning Systems software purchased to increase students engagement during distance education for students with disabilities, EL students and other at risk learners as needed. Funds are earmarked for Foster and Homeless to provide for their school related needs. i.e. instructional supplies, uniforms, etc. MTSS Coordinators/Interventionist will be in place to monitor the needs and support of all at risk learners.		EOG Comparison scores of EC students as well as at risk students in special populations. EC teacher lesson plans- indicating more individualized and small group learning. Communication log of bilingual parent liaison to prove consistent communication with Spanish speaking families, including parent meetings with teacher. Communication log of Migrant Recruiter i Unique Learning Systems data (participation/uses) Homeless/Foster Expenditures MTSS data MTSS Agendas and Sign in Sheet	

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ⦿ No				$ [ ]
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ⦿ No				$ [ ]
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ○ No	WCS has noticed a significant increase in the purchase and need for sanitization equipment and supplies to maintain healthy, clean environments.This additional purchase will enable us to keep healthy and safe facilities. (Will be added on the third drop)	July 1, 2021 - September 30, 2024	Monthly Maintenance/Custodial inspection Custodial schedule with job assignments Teacher Survey-noting cleanliness of school Attendance Data ((Minimizing absences by reducing viral transmission)	$ [0.00]
	* ⦿ Yes ○ No	WCS will purchase food truck for community food service distribution. COVID pandemic necessitated delivery of meals to students participating in virtual learning. School Nutrition must provide meals in compliance with	July 1, 2021 - September 30, 2024	Van Delivery Roster (# of meals delivered from food truck) Parent Survey Student Survey # of students virtual learning during pandemic monthly	$ [60,000.00]

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.		NC Food Code,i.e. maintaining proper food handling protocols such as temperature and storage during long term closure. Additionally, school nutrition assistants need to properly wash hands, clean and sanitize the area of food service. During the school year 2020-2021 WCS averaged serving 1,000 or more meals per week when on the hybrid schedule. A lease vs. purchase analysis has been conducted and purchase is the least expensive route. Additionally, to consider yellow school buses based on routes run during COVID, it would cost approximately $1,500.00 per month, $15,000.00 per year. During life expectancy of van, (20 years) that would total over $300,000.00, not including the cost of hot/cold handling, which is required. The food van is the most economical choice.			
		Computer carts (35) = $24,500 will be used as charging stations as well as securing purchased laptop	July 1, 2021 - September 30, 2024		$ 199,850.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ● Yes ○ No	devices. The aforementioned supplies and materials will be to support class size reduction positions. SmartBoardAir-wireless $46,350. These devices allow for teachers to operate multiple tablets at the same time for maintaining virtual class and transmitting instructional material. In addition, each new class size position will need a laptop and smartboard to support delivery of instruction. (Will be added back in third drop. Purchase a screener/diagnostic tool to assess students. Areas of academic need identified through this screener will be targeted by teachers and instructionalassistants. With the addition of additional technology equipment we have realized the need for an inventory control system. This will enable us to more accurately track the inventory of computer equipment		Teacher Surveys indicating use of charging stations to improve student usage of laptops and increase of security. Administrative Surveys-indicating Fixed Asset Inventory in one secure location MTSS Student Data-improvement based on diagnostic assessment reports MTSS Agendas/Sign in Sheets indicating usage of diagnostic/assessment tool to determine student growth. Lesson plans developed from screener data that targets needs of learners.	

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◉ Yes ○ No	Due to the pandemic, many students who remained on Plan C are experiencing social/emotional issues. Attendance has also been an issue, and resources need to support the students in these categories. One social worker and one counselor will be hired to work with students who are struggling socially and emotionally, and/or experiencing attendance issues.	July 1, 2021 - September 30, 2024	Teacher Surveys indicating assistance for students with SEL issues. Parent Surveys indicating support for students with SEL issues Student Surveys indicating support for students with SEL issues. Social Worker Parent/Student Contact Log indicating communication with parents and students experiencing SEL problems. Attendance Data - indicating increase due to resolved student SEL issues. # of student counseling sessions.	$ 275,000.00
	* ◉ Yes ○ No		July 1, 2021 - September 30, 2024	Pre and post assessment - IReady Summer School Attendance Data Lesson Plans that document targeted learning Summer School Schedule	$ 959,278.56

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.		Summer school program for 2022-2023 and 2023 - 2024 will target at risk students academic and social and emotional needs. Certified teachers, instructional assistants, counselors, nurses, custodians, cafeteria workers, and bus drivers will be employed to staff the program. Face to face instruction (online only if pandemic guidelines require) for all at risk students, including students with disabilities, English Learners, Migrant Learners, Homeless learner and students in foster care. Administrators and Central Office Directors will devise a plan for summer school, and certified instructional staff will build lesson plans based on student data that targets the needs of the students. Pre and post assessments will be administered for all summer school students.			
	* ⦿ Yes ◯ No	WCS will hire an additional computer technician to support the additional software and device purchases. During COVID, WCS received laptops for	July 1, 2021 - September 30, 2024		$ 1,569,375.78

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		WCS received laptops for K-5, which increased the need for technical support for those computers. WCS will provide additional supplements to all staff for the extra duties, roles, and responsibilities incurred due to the pandemic (even those paid out of state or local funds). We will follow our procedure for paying supplements--5% to certified & administrative staff and 3.5% to non-certified staff, paid out annually. Custodians will receive a bonus for working summer school. Community Involvement Coordinator to serve as bridge between community and students. Coordinate volunteers to read to students, serve as mentor for at risk students, or work w/students on academic skills for success. (In 3rd drop) DocuSign software purchased to allow parents to sign documents remotely during pandemic. Unbudgeted Reserves: $8,306.00 Indirect cost included		Teacher Survey Administrative Survey Computer Technician Work order log Payroll records for supplements and bonuses Community Involvement Coordinator Log Community Involvement Meeting Agendas/Sign in sheets Volunteer log	

				Total ESSER III Allotment	$	4,234,714.19

Part E: Assurances

Check __all__ *assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:*

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Whiteville City Schools (241) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 3 - New Applicant Summary

There are no new applicants.

GAN Information

Whiteville City Schools (241) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 3 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at <u>NCDPI School Allotment Section</u>. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Cumberland County Schools (260) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Cumberland County Schools utilizes a continuous improvement process to address needs as they are identified. Since March 2020, when the community was initially impacted by the pandemic, we communicated with various stakeholders to gather input for the district's response. The district continues using established stakeholder groups and district processes for gathering input in the 20-21 school year. Surveys are used as one method to collect input because data are collected and analyzed efficiently since many concerns require swift attention and action. Additionally, data from various surveys are shared among divisions so that information is readily available to guide the district's pandemic response. The groups providing input include, but are not limited to administration (central office and school - level), school based personnel (certified and classified), Teacher Advisory Council, Cumberland County Association of Principals and Assistant Principals, Student Voices (student advisory), parents/families, Board of Education meetings (public comments and discussions), and community groups. Multiple Google surveys provide stakeholders with opportunities to share concerns and request assistance (food, healthcare, housing, mental health support, transportation, internet access, computer for remote learning, assistance for remote learning). District leadership continues reviewing data, identifying priority areas that the district can address with ESSER resources, and

selecting resources in response to the needs. Planning was not isolated to ESSER II funds. Rather leadership identified priority needs and then aligned strategies/use of funds to available funding (including but not limited to ESSER I, II, III, non-federal funds, etc.) maximizing various funding sources. Based on grant funding allowability and periods of availability, the district developed a multi-year plan and will continue to assess and address facilities' conditions, mitigation process, and students' progress in learning recovery. CCS' Data and Accountability department will measure the impact of the district's response by using student data and other measures to monitor progress and make recommendations if the outcomes are not achieved or not trending to result in the desired outcomes so that adjustments are made to address learning recovery. Since the identified needs span across many areas, the data used to prioritize the use of funds were extensive to include, but not limited to: student academic data (Fall EOC Math 1, Math 3, Biology, English 2 data and various computer based progress monitoring tools); student engagement data (Canvas usage, instructional personnel feedback, attendance); district's implemented return to in-person instruction plan to include numbers of students served in-person, remote, and enrollment at our Virtual Academies; student attendance rates; district vacancy and substitute coverage rates; instructional personnel process and perception data; Exceptional Children data such as number of evaluations and re-evaluations needed to ensure compliance; Student Services trend and referral data, availability of community services, and nursing services; technology support requests, utilization rates, and areas of needed support; facility needs assessment data (HVAC systems); PPE and cleaning supplies inventory and usage data; Technology device inventory for students and employees, including adaptive devices, and device condition reports. Beginning in March 2020, CCS issued devices to all students to accommodate remote instruction. Providing students with devices reduces barriers to accessing digital resources, and the district remains responsive to changing family dynamics due to the pandemic. From March 2020 to June 2020, student engagement measured by teacher reports was low in many schools for a variety of reasons including unreliable and inconsistent internet. Based on the district's enrollment, urban setting, county population, community mobility, and size of geographical county, an internal contact tracer team is needed to conduct timely tracing within CCS and partner with the health department in an attempt to reduce the spread within the community. Sharing data on the district dashboard informs the community of district mitigation efforts. Due to the large number of families who opted for the full virtual model CCS launched 2 virtual schools to accommodate these requests. We also allowed families to opt into a full virtual experience at their assigned school. In anticipation of the return to in-person learning each school was assigned a permanent substitute teacher position to help eliminate difficulty finding daily substitute teachers. It is anticipated that this will be necessary in upcoming school years. As Cumberland County School (CCS) began to return to in-person learning our schools experienced difficulty retaining staff due to COVID19 concerns and experienced a higher than normal resignation rate. This difficulty, coupled with the traditional recruiting challenges requires CCS to implement strategies to recruit and retain premier professionals to help ensure we have a sufficient workforce. While the competition for the best and brightest can often hinge on important factors such as workplace

satisfaction, a sense of appreciation, and inclusion in the decision making process; compensation is a critical factor in the recruitment/retention process.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

SY20-21 opened under Plan C in the Cumberland County School System. On March 15, 2021, students returned to blended in-person learning 2 days a week on an AA/BB schedule. On April 12, 2021, all students requesting in-person instruction 4 days a week returned to the buildings. Remote learning provided by students' assigned schools and the virtual K-5 and 6-12 academies remain an option. Approximately, 61% of CCS students returned to face-to-face instruction. Students remaining in remote settings receive remote instruction from classroom teachers who are also teaching students in-person. Based on 20-21 data, disengagement challenges continue. School and central office staff work to address root causes for disengagement, and teachers implement strategies to connect with students and families establishing relationships. Based on current data, there is a continued need for supplemental support. First quarter (2nd Q) 2020 data indicate an increase in the number and percentage of D's and F's as grades earned by students. Below is a detailed breakdown by grade spans: Elementary: 19-20 at the end of quarter 2, 7.68% of the grades assigned were D's. In 20-21 the number was 12.08%. In 19-20 at the end of quarter 2, 5.10% of the grades assigned were F's. In 20-21 the number was 27.65%. The percent of students who failed all assigned courses at the end of quarter 2 was 0.7in 19-20 and in 20-21 increased to 11.3%. The number of students who failed at least once course in quarter 2 in 19-20 was 12.5% and rose to 35.1% in 20-21. Middle: 19-20 at the end of quarter 2, 10.63% of the grades assigned were D's. In 20-21 the number was 12.07%. In 19-20 at the end of quarter 2, 9.48% of the grades assigned were F's. In 20-21 the number was 27.85%. The percent of students who failed all assigned courses at the end of quarter 2 was 0.1in 19-20 and in 20-21 increased to 3.7%. The number of students who failed at least once course in quarter 2 in 19-20 was 21.2% and rose to 51.8% in 20-21. High: 19-20 at the end of quarter 2, 10.8% of the grades assigned were D's. In 20-21 the number was 10.4%. In 19-20 at the end of quarter 2, 6.3% of the grades assigned were F's. In 20-21 the number was 12.0%. The percent of students who failed all assigned courses at the end of quarter 2 was 0.6% in 19-20 and in 20-21 increased to 1.5%. The number of students who failed at least once course in quarter 2 in 19-20 was 15.8% and rose to 27.1% in 20-21. Students who did not take an EOC assessment in the fall received an incomplete. The incomplete will be replaced when the EOC is taken or at the end of the year if the student does not take the assessment. CCS students' performance is as follows on Fall EOCs: Biology- slightly lower percent non-proficient compared to the Fall of 2019 and lower than the state Fall 2020. English 2 scores showed an increase when compared to Fall 2019, but still 6 points behind the Fall 2020 state average. Math 1 and Math 3 saw

drastic decreases in Fall 2020 when compared to Fall 2019. Math 1 Fall scores dropped 30.3 percentage points and the gap between CCS and NC in the fall grew from 4.5 in 2019 to 17.6 in Fall 2020. Math 3 scores also saw a decline. The Fall 2020 scores are 26.1 percentage points lower than the Fall of 2019. The gap between CCS and NC for the fall to fall comparison grew from 3.1 to 18.1. Because students were not attending school until March 15, 2021, the BOG3 Beginning of Grade 3 Reading Assessment was not administered in 2020-2021. Local assessments have been administered and the trends from these show evidence for extensive support in the areas of Reading and Math. With in-person instruction 4 days a week, efforts to mitigate infection remains a priority. The average age of CCS Buildings is 57.31 years. Aging HVAC systems, HVAC control systems, roof and window systems can increase COVID transmission risk. HVAC systems have approximately 8,000 filters per cycle and are changed at 3 month intervals. CCS has identified at least 77 schools where HVAC systems or units are not performing optimally, are scoring above 350 on the CIP data sheet and have exceeded life-cycle expectations. Many of the current control systems are outdated, limiting the ability to centrally control and monitor systems on all 96 campuses. Aging, failing and leaking roofs contribute a great deal to poor Indoor Air Quality. CCS has identified 82 roof areas that are beyond life-cycle expectancy and are not performing well. 59 buildings have window systems that do not fully operate, limiting the most basic mitigation strategy of opening a window. Updating these systems is not a quick fix. Portable air purifier placement is a mitigation effort that is efficient, scalable and temporary until more permanent solutions can be put in place. CCS has also implemented a Virtual Academy, creating a need for space renovations to accommodate on-site personnel to support the Cumberland Academy. Traffic around school zones has increased tremendously, due to decreased bus capacity and/or parents choosing to transport their children by POV, causing severe congestion and increased vehicular volume in and out of school drives and adjacent roadways. Providing non-custodial staff with supplies to enhance cleaning efforts in classrooms and shared space is critical. Ensuring adequate custodial staff who are trained in COVID cleaning and disinfecting strategies are in place also plays a major role in keeping spaces safe for students and staff and decreasing anxiety levels among all stakeholders. CCS has also increased supply levels of paper towels, hand soap, hand sanitizer and custodial cleaning supplies to keep pace with the need for frequent cleaning and disinfecting procedures as well as personal hygiene measures such as frequent handwashing. Providing an increased level of PPE and safety supplies also reduces the risk of virus transmission among students and staff.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 28,770,253.82 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Assessing student progress will be a key strategy to inform instruction and address students' needs. The following assessments will be used to provide a clear picture of the strengths and weaknesses of our students: K-3 Screener is a validated, research-based assessment that combines quick indicators of early skill development and deeper observations of student interaction with authentic text for students in grades K-3. This combination of assessments measures five important reading skills all children must develop to become proficient readers. Sucessmaker: This screener will be used in grades K-5 in mathematics. This screener provides the data-driven insights that classroom teachers, school, and district administrators need to determine exactly where to focus their instructional time to ensure all students are on track to meet more rigorous expectations and to succeed on the accompanying assessments. As part of the screening process, teachers will receive tools for Instruction to respond to the findings. It is an online assessment that makes it easy to identify potential trouble spots, which ultimately takes the guesswork out of effectively preparing for the NC State Standards. This screener gives administrators a clear indication of overall performance and the scope and scale of intervention needed along with growth and progress over time. Case21 Benchmarks will serve as the local benchmark and are required for all schools. This is the only district-required local assessment and will be administered three times throughout the school year or through the semester, depending on the school's master schedule. The assessment will address the standards taught to date. These interim results will be used to take a snapshot of progress, offer additional support, or address district-wide gaps. Schools and PLCs will use the data to identify critical gaps in learning and corresponding instructional gaps and collaborate on solutions.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

The CCS Academic Roadmap seeks to provide clear expectations, identify support structures, upgrade the use of data, and increased communication. The learning model is founded upon the emphasis on strong instructional leadership at all levels-classroom, at each campus, and in the district office. Therefore, in accordance with Cumberland County Schools' mission to prepare, support, and challenge ALL students, our Academic Road map will: --Provide Robust Learning Experience through best practices and instructional strategies focused on high leverage instruction Improve Opportunity and Access for all students by providing varied learning and extended learning opportunities to address the continuum of learners. Opportunities will be during school, after school, in the community, and on weekends. --Promote Blended and Personalized Learning with tailored student learning plans that accelerate

student learning and provide engaging learning tasks that accelerate learning --Focus on Continuous Improvement by utilizing data to track and monitor school and student progress --Align Postsecondary and Career Opportunities by collaborating with institutions of high learning and work-based programs to support transitions post-high school.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Despite the COVID-19 pandemic, Cumberland County Schools (CCS) remains committed to supporting families through Cumberland Family Academy and school-based family engagement outreach efforts. Cumberland Family Academy is part of priority four of the district's strategic plan, which calls for the development of a district-wide family engagement outreach program. This initiative provides families with tools to support their children's education and brings school staff, families, caregivers and community organizations together as equal partners. During Cumberland Family Academy information sessions, presenters cover various topics ranging from Canvas to college planning, virtual learning resources, academic success, family health, and more. In light of the COVID-19 pandemic, families can join sessions via Zoom, where they are able to participate and ask questions. Additionally, CCS posts an encore of each session on the district's YouTube channel and Facebook page the following Tuesday to provide the information to families that cannot join the live session. Also, the district continues to monitor school-based family engagement activities, requesting that each school facilitates at least four family engagement per year.

* (D) Tracking student attendance and improving student engagement in distance education;

Accurate data collection is necessary and helps identify students who are not engaging and at-risk falling behind. To assist us in tracking attendance we will: --Continue to take attendance on a daily basis through PowerSchool this will provide evidence of whether a student is present or absent to fulfill state, district, and/or other reporting requirements. This data is also important so that school leaders and teachers have an accurate picture of which students are participating in distance learning and which are not. --Develop a consistent monitoring process for taking attendance that can be applied across learning models face to face, hybrid, or completely remote. Should our district find the need to switch between different instructional models, a process and systems are outlined to allow seamless transition in attendance recording. --Have a system in place for tracking in-person attendance versus virtual attendance-We will continue to use the codes that address onsite learning and offsite learning as we evaluate student attendance data. Given the vastly different nature of remote learning, the ability to distinguish between and report on the two types of attendance will help schools and the district identify students who may require additional resources and support. Keeping the attendance system as clear as possible will help ease any confusion and monitor progress. --Utilize multiple sources of information to document and verify student engagement Our district will track the varied sources to better understand student engagement and participation by having protocols to monitor Gradebook assignments and assignment scores, Login records and login duration from learning platforms or student portals, Daily logs (electronic or paper) that can be saved or stored in a student's file, Online polls or chat history and Attendee logs from video or

audio calls. Having a clear plan in place to monitor student attendance and engagement will help our district to collect accurate data for reporting as well as determine which students may need additional support to keep them engaged and learning.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

The grade distribution feature in PowerSchool has been used and will continue to be used to compare the grade distributions across grades K-12 pre and post-pandemic. An overview of accumulated data results for elementary through high school will continue to be gathered to assess target areas and determine the next steps for all students to address and reduce barriers that impede learning.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

| FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs. | * ⦿ Yes ○ No | HVAC Systems: Repair/Replace aging and/or inefficient systems -Roofing Systems: Repair/Replace aging and failing systems -Window Replacements: Replace window systems that are not functioning -- Space Renovations and mobile classrooms to meet social distancing requirements. | Throughout grant funding availability. | -Increased ventilation, -Improved filtration without compromising system efficiency. Ability to open windows - Decreased complaints of poor IAQ concerns - Improved systems efficiency. - Decreased staff and student absenteeism. - Increased student learning time - Decreased or eliminated risk of virus transmission -Planned repair and renovation projects will be completed on time with minimal disruption to student learning activities | $ 200,000.00 |

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ○ No	Air Purifiers: for use in areas where ventilation is not optimal and risk of virus transmission is increased. HVAC Systems repair, replacements or upgrades. Filter Servicing Contract: Will enable the district to efficiently manage and maintain filter change schedule.	Throughout the grant funding availability.	- Decreased or Elimination of virus transmission via airborne vector or aerosolization - Filter change cycle is maintained - Increased instructional time - Increased student learning as measured by summative and formative assessments.	$ 550,000.00
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ◉ Yes ○ No		Throughout the grant funding availability.	Increased student learning as measured by summative and formative assessments	$ 2,903,000.52

11/9/2021 7:13:53 PM

		-Even with widespread vaccine availability there is considerable concern regarding substitute availability, to assist with staff absences due to quarantine, allot schools a permanent substitute to ensure onsite coverage for adequate student supervision. - Continue to fund recommended symptom screener as per Strong Schools Toolkit			

11/9/2021 7:13:53 PM

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◉ Yes ○ No	-Create ESL newcomer support through lead teacher and teachers, increase ESL support through instructional assistants - Increase the number of guidance counselors, social workers, and school nurses to improve ratio of students to GC/SW/nurse. - Support social emotional and academic needs of military-connected students.	Throughout grant funding availability.	Increased student learning as measured by summative and formative assessments	$ 20,056,932.04
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◉ Yes ○ No		Throughout the grant funding availability.		$ 250,000.00

11/9/2021 7:13:53 PM

		--Provide student services personnel at each school to serve as school preparedness and response apprentice. -- Secure translation and interpretation services to effectively engage CCS families of 85 different languages in the education process. --- Provide outreach in the community through family engagement personnel, social media, news, websites.		-Increased student learning as measured by summative and formative assessments - Improved outreach to the community. -- Increased positive connections and relationships in school (peers and adults) Increased positive perceptions about learning and the instructional opportunities	

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	-Frequent cleaning and disinfecting of desk/tabletop surfaces, high touch surfaces and shared equipment reducing the risk of transmission within schools and auxiliary facilities. - Providing an adequate level of PPE and safety supplies to schools for delegated staff, EC classroom staff, screeners, isolation rooms, nursing areas, front office areas, etc.	Throughout the period of grant availability.	-Reduce the risk of COVID and other health concerns.	$ 100,000.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ⦿ Yes ○ No	--Provide teachers and instructional support staff with devices to efficiently provide instruction. - Continue use of a secure video conferencing platform to provide core instruction and intervention. - Expand storage capacity for high volume of technology equipment, to include needed machinery to transport and service devices and network.	Throughout the period of grant availability	Increased student learning as measured by summative and formative assessments - Increased positive connections and relationships in school (peers and adults) Increased positive perceptions about learning and the instructional opportunities	$ 9,140,000.00
	* ⦿ Yes ○ No	-Provide hotspots to students to increase access in the case of no access or unreliable internet to access resources and attend remote	Throughout the period of grant avialability	Increased student learning as measured by summative and formative assessments. - Increased technology support.	$ 13,677,438.32

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		instruction. - Secure replacement parts for damaged Chromebooks distributed to students. - Refresh aging Chromebooks to ensure students can receive instruction - Secure instructional technology facilitators to aid in determining equitable districtwide instructional digital tools and provide PD/coaching - Secure3 instructional support technicians to support increase of technological resources			
		-Increase secondary students' access			$ 914,600.00

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ◯ No	to the SPARCS program by training Student Services staff to become SPARCS facilitators. SPARCS is a trauma-informed small group counseling intervention. - Purchase the BIMAS, a web based platform designed to measure student outcomes. Universal screening behavior/social emotional learning skills, progress monitoring of behavior interventions, and program evaluation. Purchase materials needed to provide each elementary school classroom with a Calm Down Corner	Throughout the period of grant availability	-Build student self-regulation skills as measured by the decrease in discipline referrals. - Increase students' adjustment & academic performance through SEL as measured using the universal screener. - Increase awareness of warning signs, ability to talk about mental health needs, and connect students to help as measured by the SEL assessment. -Increase students communication, problem solving, as evidenced by discipline, attendance, academic data.	

		Down Corner. - Purchase materials and furniture for Secondary Schools to develop a space that any student may access to be designated as a Calm Down Corner. - Purchase a SEL program for all elementary schools. -Train staff to become certified instructors of the APA's Notice. Talk. Act. Mental Health training for School staff. Trainers will provide professional development to school staff that work directly with students to Notice warning			
		-CCS Rise Summer learning will focus on high			$ 3,218,136.30

| SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care. | * ◉ Yes ○ No | quality instruction, literacy, mathematics, and Science for grades K-12.The funding will support curriculum, resources, transportation, personnel, PPE resources, and foods and nutrition. The purpose of Rise Summer Program is to provide in-person instruction on specific subjects and offer additional enrichment activities to students in prekindergarten through grade 12 to address learning losses, and negative impacts students have experienced due to COVID-19. Cumberland County Schools | Each summer throughout the period of grant availability. | -Increased student learning as measured by summative and formative assessments - Increased positive connections and relationships in school (peers and adults) Increased positive perceptions about learning and the instructional opportunities | |

11/9/2021 7:13:53 PM

		County Schools (CCS) shall provide priority enrollment to identified at-risk students. Students who are not identified as at-risk may also participate in a program within the space available. CCS year-round schools, will offer the program during vacation periods (intersession) in the instructional calendar.			
	* ⦿ Yes ◯ No	-Provide multi-day professional development to staff regarding standards-aligned instruction, rigor, and leadership development. - Provide appropriate resources prior to each school year with attention on	Throughout the period of grant availability	-Increased student learning as measured by summative and formative assessments - Increased teacher efficacy Increased supports to homeless students.	$ 5,000,000.00

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		specific areas of student needs due to interrupted instruction. - Assist McKinney-Vento with with transportation, tutoring, supportive services, and remove barriers for all students. Connect students in transition with supportive community resources to help with social emotional and challenges of daily living, and academic losses. Provide families and students with family engagement resources, programs, and enrichment activities. -CCS will offer a retention bonus of $1,000 for any staff member (certified &

				Total ESSER III Allotment	$ 56,010,107.18

Part E: Assurances

*Check **all**assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:*

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.

*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

There are no new applicants.

Cumberland County Schools (260) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at <u>NCDPI School Allotment Section</u>. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Currituck County Schools (270) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

*Our grade level or content PLCs met regularly and identified their at-risk students based on their available assessment data. (MClass, NC Check-ins, Classroom assessments, DreamBox data, eSpark data,etc.) *Our Leadership team looked for gaps or trends in the data to determine what we need to address moving into the 2021/2022 school year. *Our District Leadership team has determined that we will strategically leverage the ESSER III funds to train our instructional staff on instructional practices that have a high effect size of 0.40+, as well as on the effective use of standards aligned learning software and digital tools to assist with filling those identified learning gaps. Ongoing support will be provided by our instructional coaches at each school. *Furthermore we can hire additional staff like Instructional Assistants to provide more 1:1 instructional time to meet students needs. *Summer learning opportunities for identified at-risk students will be provided summer 2021. *Parent Feedback was collected through surveys regarding remote learning and identifying supports needed for parents moving forward.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

*502 K-5 students who returned for face-to-face instruction have been identified as not meeting grade level expectations for the 2020-21 school year and have been recommended for summer learning by instructional staff. *46 K-5 students who were enrolled in our Virtual Academy for the 202-21 school year have been identified as at-risk for not meeting grade level expectations and have been recommended for summer learning by instructional staff. *180 6-8 students have been identified as at-risk for not meeting grade level expectations for the 2020-21 school year and have been recommended for summer learning by instructional staff. *249 9-11 students have been identified as having lost 2 or more credits during the 2020-21 school year and have been recommended for summer learning credit recovery. *35 seniors have been identified as not meeting graduation requirements and have been recommended for summer learning to earn their diploma at the conclusion of credit recovery. *Data analysis indicates that student attendance, specifically at the secondary level, during remote instruction was poor. *Further analysis of data indicates that even when students were in attendance, engagement was poor during remote instruction.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 537,711.20 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

We have identified teacher leaders who will work together this summer with our current Instructional Coach team to create benchmark and cluster assessments for 4th, 5th, and 8th grade Science, 6-8 Math, Math 1, Biology, English II, and Math 3. These will be given at the end of each unit to allow for a more responsive re-engagement with the content. The results will be gathered in a formalized process that will allow building level and district level administrators in addition to our Instructional Coaches so they provide oversight and support for each teacher.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

We will be adding additional support staff like a MTSS coordinator to meet with school level PLCs as well as individual teachers to support teachers in implementing interventions for at-risk student needs. We will be adding additional Instructional Assistants who will be trained on literacy instructional strategies to be able to work with focused small groups based on needs. We will be adding additional Literacy and Instructional Coaches to provide the on-demand and long term support needed to improve our standards alignment, pacing, planning, and assessment practices to ensure more rigorous and targeted instruction is taking place daily in all classes and in all our schools to address student learning loss as determined after COVID closures and remote learning.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

We will expand our current Virtual Learning website to include more resources for parents. We will schedule some parents sessions to teach them about our devices and the software that we are using with their students so they can assist them at home when needed. We will also expand our CCS-Parent YouTube channel library for 'Just in time' short videos to help at home.

* (D) Tracking student attendance and improving student engagement in distance education;

We track attendance in PowerSchool and our Data Management team sends weekly reports to principals of students who are exceeding normal absences for the year. This information is also shared with our Counselors and Social Workers to work collaboratively to identify any family needs that we may be able to assist with addressing so that the student can resume normal attendance in order to receive the instruction (s)he needs.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

We are monitoring data pre-pandemic and will compare that to our post-pandemic student progress in order to identify gaps in learning and leverage these funds to provide the instruction and support needed to address those learning needs and move our students forward.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ⦿ No				$
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ⦿ Yes ○ No		July 1, 2021-June 30, 2022	Meeting records including notes will be maintained and shared.	$ 45,000.00

		We will have a Student Services Coordinator that will meet regularly with our county health department to stay informed about COVID related issues facing our area. She will then meet with our district leadership team as well as the Nurse PLC to everyone has the more up-to-date information as it pertains to our student / staff health and organizational operations.			
	* ◉ Yes ○ No	We will continue our MTSS position from our ESSER II year. We will also add an EC Program Specialist that will support the implementation of specially designed	July 1, 2021- September 30, 2024		$ 1,514,031.79

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.		designed programs targeting the needs we've identified through our Exceptional Children's Program Evaluation. Two additional Literacy Coaches will be identified to offer the ongoing support needed at the building level for our at-risk readers in grades K-3. We will employ a K-12 Curriculum Director to provide the planning and support for the expanded instructional coach team. We will expand our Instructional Coach team to have more individualized ongoing support at each of our schools.		We will monitor meeting notes and agendas as well as assessment and EC audit data to determine if we are seeing the positive student impact that this is designed to address.	

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ⦿ No				$ [ ]
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ⦿ No				$ [ ]
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ⦿ No				$ [ ]
	* ⦿ Yes ○ No	*We will have a Digital Learning Coordinator that will oversee our District Remote Learning Plan. She will collaborate with	July 1, 2021- September 30, 2024		$ [80,000.00]

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.		our Instructional Coach team to provide targeted professional development for teachers in preparation for any potential closures we may face. Especially how to handle virtual learning, basic troubleshooting of Chromebooks and mifis, and strategies for supporting parents and caregivers if virtual learning is needed. *Funding will be set aside to support school nutrition services as a result of closures due to COVID-19; including remote site pick-ups for virtual students		*We will maintain records from professional development sessions. We will maintain agendas and notes from meetings held by our Digital Learning Coordinator. We will survey and collect data including interviews from key stakeholders to determine the effectiveness of these efforts. *Ability to sustain meal delivery service during closures

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ⦿ Yes ○ No	We will provide access to instructional software that will support instructional practices that have a high effect size (Hattie). We will provide access to instructional software that will be used to target identified learning gaps, as well as acceleration for our advanced students.	July 1, 2021- September 30, 2024	We will use data from our ClassLink reports to monitor student and staff use of each of these programs as well as the reports from the software companies themselves to determine the effectiveness.	$ 511,813.01
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ⦿ No				$

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ○ Yes ⦿ No				$ _____
	* ○ Yes ⦿ No				$ _____

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.					

Total ESSER III Allotment	$ 2,150,844.80

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Currituck County Schools (270) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

GAN Information

Currituck County Schools (270) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Davidson County Schools (290) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Development of the comprehensive needs assessment began by reviewing the grant details and identifying the allowable usage of funds. Once allowable uses were identified, a district team developed questions based on the funding areas in order to get input from all stakeholders. Questions were developed around facilities, student learning loss, special populations of students, mental health, and technology needs. The needs assessment was put into Qualtrics in order to gather the data and analyze the results by stakeholder groups. District leaders met with school administrators to review the needs assessment and methods to distribute the assessment to all stakeholders. All staff received the survey on April 14, 2021. The needs assessment was modified to ensure parents received questions that pertain to their needs and their student needs based on the allowable uses of funds. The needs assessment was distributed to various parent stakeholder groups. In order to address the impact of COVID-19, we analyzed the data from the needs assessment, specifically the questions on learning loss. We looked at what parents said they feel that their child needs and the struggle they have had due to the impacts of COVID-19 (academically and socially). PLC leveled groups used data from MOY (reading and math) to determine the students who are at-risk. Students were given invitations to attend our Summer Learning Program where we will focus on intervention for reading, math and science. 2. Davidson County Schools will address student learning gaps resulting from the disruption in education services in key areas including: -continued focus on priority standards as identified through formative and summative assessments -utilizing tools specifically developed by NCDPI such as Math Sets to increase the formative process -increase the use of tools such as SchoolNet that assist with ongoing data evaluation of student performance -consistent use of digital learning tools across grade levels with fidelity -focus on relationship building with all stakeholders to assist students in being connected -addressing the growth mindset with flexibility, intentionality, and consistency -implementing greater use of social and emotional practices aligned with key practices -increased parent/community involvement with in-person and virtual open houses/parent nights -increased support for ongoing initiatives such as mentor programs that target students who are not successful or not making connections with school and teachers -added in-

person supports at the secondary level with advisory periods or intervention blocks -personalizing learning to student needs with flexibility

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

In order to look at the various needs of each level, the data was sorted by level. Below are links to the survey results: ELEMENTARY NEEDS ASSESSMENT https://drive.google.com/file/d/1IkVlmZAmaNSYYnZpax0IFxIkDVD_YZuR/view?usp=sharing MIDDLE SCHOOL NEEDS ASSESSMENT https://drive.google.com/file/d/1IH70Y4Z06aqEFamKv8qgX8TgUsKQQuWf/view?usp=sharing HIGH SCHOOL NEEDS ASSESSMENT https://drive.google.com/file/d/1tZwxhQPFWUOQyZ73w_ZtO-8vuniUFznf/view?usp=sharing Facilities: The survey results showed that 71% of the staff felt indoor air quality and ventilation were the greatest needs for our schools. The parents also agreed (74%) that our greatest needs were indoor air quality and ventilation even though staff reported that rarely does a parent or student complain about the indoor air quality. Learning Loss Staff and parents feel that the best way to support students with learning loss is to have additional staff at the schools. Specifically, the data indicates that we need to provide specialists for our schools in order to provide intervention during the day, hire teachers to lower class size or to create transition classes for students (80% of respondents). Parents and staff believe that after-school programs are the least effective way to address learning loss citing lack of transportation and participation as barriers. Parents who wrote additional comments mentioned the need for students to have small group or one-on-one intervention time with a specialist in the classroom. Technology Resources Teachers felt that technology tools such as interactive boards, document cameras, and replacements of the 5-year cycle of chromebooks are the most valuable tools in educational interactions between students and teachers (54%) with only 14% requesting calculators and access points for connectivity. Student Supports and Special Populations Parents believe that in order to support our students' mental and social-emotional needs, schools need additional school counselors (71%). While staff also indicated schools need more school counselors (43%) they also stated that additional social workers are needed to support our students (32%). Parents believe that students who have exited EL services and programs are getting the support they need to be successful (78%) and they indicated that the school provides appropriate opportunities for family engagement (75%). Parents of EC students commented that the biggest struggle they have had with the pandemic is the lack of in-person instruction and no interaction with peers. They commented that there is a need for their EC child to have a slower pace in instruction that is individualized for their child and not just moving through the curriculum. The teachers reported that the EC students need additional EC reading and math interventionists (67%). Once the data was collected, district leaders met to look at the results from all of the stakeholders. We worked in teams to collaborate around the district strategic plan and goals, analyzed the data and developed strategies to achieve our district goals and close learning gaps. Timelines for each area in the allowable uses of ESSER funds were created based on the above results that were described.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 8,072,376.48 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

In order to assess the true impacts of learning loss, we will review data from valid and reliable assessments, including End-of-Grade and End-of-Course assessment data, NC Check-In data, and formal assessment data from universal screeners. We will use a Curriculum-Based Assessment (CBA) to accurately assess the learning loss for all students and subgroups. For our summer learning program in K-8, we have chosen to use the CBA recommended by the Department of Public Instruction, iReady for reading and for math. We will give an iReady pre-assessment to determine student learning loss and gaps. All support teachers (EL, EC) will have access to the data to support students during times of academic service. Once we have identified the skills needed to close gaps, the iReady Teacher Toolbox will be used to support teachers in differentiating lessons during small groups based on the data from iReady. Researched-based intervention lessons are provided through the iReady Teacher Toolbox to align with the students needs. The growth data will be monitored to help all students and subgroups who may need additional support using the MTSS Framework. Throughout the school year, students in elementary and middle school are formally assessed using a diagnostic tool in reading and math. All students are screened using a universal screener. This occurs at the beginning of the year, in the middle of the year, and at the end of the year in order to determine progress, the students are making and evidence that gaps are closing. We will also continue to implement NC Check-Ins in order to provide students, teachers, and parents with immediate feedback during interim benchmarks. NC Check-Ins are developed by NCDPI and aligned with grade-level content standards. Students take these assessments in Grades 3-8 Reading, 3-8 Mathematics, Grade 5 and Grade 8 Science, and NC Math I. Additionally, teachers at all levels will utilize other assessment items selected from the resources provided by NCDPI to be used in informing instruction. These include Math Sets, Released Tests, and the SchoolNet test bank. All of these resources will form a balanced assessment approach to provide teachers with the data they need in order to differentiate instruction for all students. Current failure rates, screening data, and Check-In data are illuminating concerns with learning gaps in mathematics. We recently purchased a high-quality K-8 mathematics resource and plan to use the additional funding to provide textbooks and digital resources for Math I-IV in addition to K-8 math resources. We have not purchased a high school mathematics textbook in over nine years. Students experiencing homelessness or in the foster care system will be provided any materials or resources needed to be successful in school and at home. The progress of these students is monitored specifically, and interventions, special programs, and additional supports are provided as needed. All students with disabilities will be provided the same additional support and opportunities as their non-disabled peers. IEP teams will convene to determine what support is most appropriate in light of the child's circumstances and the learning gaps due to the pandemic. Teams will consider the nature of the disability and the ability of the student to access the curriculum. If appropriate, the team will determine which goals will be targeted along with the frequency

of service delivery for specially designed academic instruction as well as related services. They will also develop a plan to progress monitor the student and address any assistive technology the student may need for remote learning.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

In order to meet the comprehensive needs of all students, class size reduction teachers will be provided and reading and math tutors will be hired to support students with closing the learning gaps. The reading and math tutors will be provided with training and materials on research-based programs such as HillRAP. Our tutors will also complete the Math Foundations and Reading Research into Classroom Practice in order to ensure adequate training on addressing the foundational skills students need. Reading support will be focused around the areas of the Science of Reading (phonemic awareness, phonics, fluency, and comprehension). Additional interventionists/tutors will be hired at the secondary level in order to provide support in meeting the academic needs of all students. This personnel will train, coach, and provide daily ongoing support for students as they implement evidence-based instructional strategies in core content. Additional school social workers will be hired at both levels in order to provide comprehensive services to meet the growing and complex social and emotional needs of students. In addition to providing personnel to support student social and emotional needs, Davidson County Schools will continue a very focused and targeted approach to the integration of CASEL social and emotional programming. Resources and materials offered through NCDPI as well as from CASEL will be a significant part of this approach. Teacher and classroom programs will systematically support student SEL competence in the key areas of self-awareness, self-management, responsible decision making, relationship skills, and social awareness and provide opportunities for practice. District staff will continue training on best SEL practices to support their use with fidelity. Period evaluations of behavior and SEL supports will be conducted in conjunction with the school and district level MTSS teams as a part of the annual FAM-S evaluation. Teaming structures will continue to reflect a more integrated approach to student attendance, behavior, academic, and social-emotional needs. Alongside the CASEL SEL framework, Davidson County Schools will further implement the Harmony curriculum and build community partnerships and mentorships that support student academic and SEL needs. The district will continue to support academic offerings such as courses in arts education and career and technical education which engage and attract student interests. Personalizing learning to student needs will be critical with regard to the offering of courses in a "brick and mortar" setting versus an online setting. Our district will seek to expand programming in a hybrid model seeking to attract students who may desire to pursue part of their school day as virtual learners but join the school for performance or product-based courses in the arts and career and technical education field. Research supports meeting and engaging students where they are and where their interests are is critical in maintaining their interest and motivation in school.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

At all levels, teachers will meet with parents at the beginning of the year to discuss expectations and provide resources for parents and families, whether they are learning in-person or via distance learning. Various forms of communication with parents and families will be utilized to establish parents as partners in the education process. School FAM-S evaluations indicate a significant need for increasing parent and family engagement to mitigate learning loss. Elementary, middle, and high schools will host Open House/Meet the Teacher nights where parents will be provided with specialized information for supporting their child for the school year. In addition, multiple parent nights will be held throughout the school year in order to educate parents on important and relevant topics. We know that families are going to need more support than ever before, so we plan to adjust the topics for these

learning sessions to address how parents and families can be engaged in partnering with us to help mitigate learning loss in reading, math, and science. In addition, parents will be kept informed of student progress and skills needed to be successful through frequent assessment reporting to parents. We also plan to help them understand how they can be more aware of social and emotional issues that impact learning and how they can help their child be more successful. These parent nights will be offered virtually for our students in the virtual academy. For online learners, parents will be given a sample schedule students should follow when their child is at home learning. Teachers will provide weekly/monthly calendars of assignments with live links of the resources that students need to complete the assignments so parents and students understand what is expected. Teachers will ensure that students and parents understand the Learning Management System that will be used. Teachers will explicitly teach students how to access materials, resources, assignments, and how to submit assignments. Infographics or videos will be created to support the parents' understanding of the Learning Management System. Teachers will explicitly teach strategies for online learning. For example, teachers will demonstrate how to annotate text on a computer screen. There will be a video library for teachers to refer to that shows effective small group instruction in a remote learning environment. These videos will be used for training purposes as well as a resource for teachers to refer to when planning small group instruction. Teachers will utilize communication tools such as Class Dojo, Remind, newsletters, etc. to keep parents informed of strategies and ways to support their child at home. Power School will be used to document student assignments and progress so parents can get timely feedback.

* (D) Tracking student attendance and improving student engagement in distance education;

Attendance Attendance will be tracked daily based on in-person attendance to school via PowerSchool, or to scheduled Zoom meetings. We are also assessing daily Google Form submissions as a manner in which we can assess if students are completing assignments and checking in with their workload and courses each day. Parents will be informed of attendance at our virtual open house meetings and updates on our website and social media. Schools will choose a combination of two-way communication processes to track attendance for each school/teacher. Examples of two-way communication tools include but are not limited to the following: Google Form, SeeSaw/Google Classroom/Canvas engagement, virtual meetings, two-way email conversation, online work submission, or phone call for students without internet connectivity. Student Engagement -Purchase and install 700 70 inch Titanium Interactive Panels (Promethean boards) to complete installment in every elementary classroom and secondary classrooms within the district -Interactive panels will increase teacher/student interaction during daily instruction with increased digital enhancement -Using the RFP process, DCS will contract with the chosen vendor to purchase the Interactive Panel product, installation, and on-site training of the Active Inspire software application Davidson County Schools is leveraging learning management systems such as Seesaw, Google Classroom, and Canvas to enhance student learning by providing a common and consistent format for online learning at each grade level. Specifically, student engagement is supported and enhanced with these learning management systems by -Improving communication between the teacher, parents, and students through -in platform communication tools such as inbox messages, conversations, and chats -more frequent updates on assignments, due dates, and grades -multiple formats to support student choice in the types of work products uploaded (written, audio, video) -richer and more personalized feedback -the use of announcements, notifications, and "to-do" lists -cloud-based content allowing for 24/7 access -parent access (Canvas) allowing parents to participate as observers -Providing students and teachers at each level (elementary, middle, and high) unified learning management systems that allow for greater consistency, collaboration, clarity Additional work has been implemented in creating modules and activities to train students how to work and communicate in an online environment where teachers begin the semester/year with a "Getting to Know You" module that contains activities embedded with social and

emotional supports that teach the learning management system before teaching the content and build relationships with students prior to jumping into standards. We know that it is critical students feel a connection with the teacher and comfort with their devices and technology before any meaningful learning can take place. Our teachers have learned through the year that the quantity of assignments does not equate to the quality of assignments. To that end, breaking learning into manageable "chunks" is a best practice our teachers are implementing with opportunities for brain breaks and connection/network built into the learning process. We have learned that tasks can be created that check for understanding and are formative in nature not requiring a grade. Our district has spent a great deal of time addressing student needs (and specifically student engagement needs) this year through targeted coaching for remote learning. We are maximizing tools like Zoom and breakout rooms to guide the student-led conversation to move away from the silence and blank screens. Teachers are employing innovative SEL strategies as welcoming activities in Zoom chat to invite students into the relationship, then, work through the learning process together. Simultaneously, teachers are much more mindful after a year of support from coaching that disengaged students may not always be disinterested students. We are much more mindful of adverse childhood experiences that could be impacting students remotely such as environment and family support. Our district's core beliefs are very applicable to what we have learned and reinforced this year to support our online students: -Students must be taught more than just standards and exposed to various opportunities to become informed and contributing members of our society. (Our remote learning "Get to Know You" unit is addressing concepts as to how to address and email, how to work in collaborative groups remotely, and etiquette when speaking online) -A supportive environment fosters growth for all. (Teachers and schools are implementing more layers of support through advisory/intervention opportunities, mentoring programs, and one-on-one check-ins with students, even personal home visits when there is no response to emails and phone calls) -Learning experiences should include the development of skills to help students in their everyday lives. (Using learning management systems to support student understanding of workflows, deadlines, to-do lists, communication, and problem skills has been a testament to skills students will need for a lifetime.) -The more connected the learning, the deeper it goes and the longer it lasts. (Building relevance with students through shared personal experiences is a key component of the relationship process that is proving to be successful in reaching our students where they are in their learning process.) -Learning experiences should be varied to meet all learners. (A year of online learning has taught us that students and teachers are creative and innovative when posed with a challenge. We have learned to be flexible and problem solve and by allowing students more choice in their experience we are supporting their interest to take ownership in their learning.) -Communicating and maintaining high expectations lead to higher l

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

We will use PowerSchool, SchoolNet, and ECATS to track student data and compare students' performance pre and post-pandemic. Retention and failure data will be reviewed and disaggregated for all students. Subgroups of students who are failing at higher rates will be provided appropriate support to increase success. The teachers' planning process for standards-based instruction will focus on a backward design planning framework to ensure lesson plans and assessments are aligned to the current grade/content from the NCSCOS, with additional focus on priority standards from previous grade/content as outlined by DCS Instructional Framework. Standards will focus on the following key components: Readiness (to be ready for the next level) Endurance (Concepts/skills that last over time) Leverage (Crossover to other areas) The goal will be to improve student understanding and skills based on priority standards and prerequisite skills embedded within them. Teachers will be provided time

to analyze student work and data to improve instructional methods and increase student mastery of content missed due to the pandemic. Curriculum-Based Measures (CBM) will be used by our teachers to find out how students are progressing in academic areas. The CBM will be used to provide week-by-week information to teachers and parents on the progress students are making. CBM will be used in the MTSS Framework to monitor the effectiveness of interventions provided to our students. If the child's growth is not meeting expectations, the teacher will change the way of teaching or the intervention they are using with the child to ensure we are closing learning gaps. CBMs will help monitor and ensure the students are making sufficient progress toward meeting academic goals. If the teacher sees that a child is not making progress at an appropriate rate to close learning gaps, the teacher will increase the instructional time of the intervention, change the intervention or change the materials used. The success of the changes made will be tracked weekly. Throughout the school year, students in elementary and middle school are formally assessed using a diagnostic tool in reading and math. All students are screened using this universal screener. This occurs at the beginning of the year, in the middle of the year, and at the end of the year in order to determine progress, the students are making and evidence that gaps are closing. We will also continue to implement NC Check-Ins in order to provide students, teachers, and parents with immediate feedback during interim benchmarks. NC Check-Ins are developed by NCDPI and aligned with grade-level content standards. Students take these assessments in Grades 3-8 Reading, 3-8 Mathematics, Grade 5 and Grade 8 Science, and NC Math I. Additionally, teachers at all levels will utilize other assessment items selected from the resources provided by NCDPI to be used in informing instructional changes that need to occur in order to address learning loss and gaps in student understanding. These include Math Sets, Released Tests, and the SchoolNet test bank. All of these resources will form a balanced assessment approach to provide teachers with the data they need in order to differentiate instruction for all students.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ◉ Yes ◯ No	-Prioritize old versus new equipment -Hardware for social distancing in school buildings -Repairs to piping/boilers -Update to system controls to manage airflow -Contract with American Air System on filter replacements in our buildings -Outsource staffing to conduct preventative maintenance, make emergency repairs and install new equipment	July 2023 through September 2024	-Reduction in school/district work orders through Facility Tracker for HVAC equipment -Monitor efficiency through the Energy Management System (EDUCON) -Monitor contracted staff for completion and reduction of needed repairs/improvements	$ 2,275,000.00
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ◯ No	-Purchase and install fresh air units/purifiers, ionization bars, and through the wall units -Add HVAC systems to large congregate areas including kitchens and multipurpose rooms/gyms	July 2023 through September 2024	-Reduction in school/district work orders through Facility Tracker for HVAC equipment -Monitor efficiency costs through the Energy Management System (EDUCON)	$ 3,650,866.43

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ⦿ Yes ◯ No	-Purchase and disseminate PPE to be used by students, staff, and visitors in the schools -Purchase masks, bell covers, or other specialized protective equipment for use in music classrooms	July 2023 through September 2024	-Utilize Facility Tracker to monitor school use of PPE which will be disseminated by DCS Maintenance Department -With the use of PPE, DCS will have a reduction of virus transmission as evidenced by the district Dashboard data -With the use of intensive and specialized levels of protection of bell covers for instruments and singers in music classrooms, DCS will mitigate potentially harmful aerosols	$ 250,000.00
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ◯ No		July 2023 through September 2024		$ 314,086.22

| | | -Continue with EC Reading Diagnostician/Interventionist to support EC teachers and students in the acquisition of literacy skills and to help problem-solve areas in need of intervention to foster reading achievement -Add an EC Math Diagnostician/Interventionist to support EC teachers and students in the acquisition of numeracy skills and to help problem-solve areas in need of intervention to foster math achievement - Address the unique needs of English Language Learners by adding a full-time ESL teacher position within the district -Purchase 90 Apple ipads and 40 HillRAP application subscriptions for progress monitoring of students with disabilities | | -Improved outcomes for students with disabilities in reading with targeted strategies and intervention as well as enhanced instructional strategies for teachers to meet learner needs - Improved outcomes for SWD group in math with targeted strategies and intervention as well as enhanced instructional strategies for teachers to meet learner needs - Continued placement of the additional ESL teacher to improve the frequency and intensity of ESL services -Provides real time data for monitoring | |

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$ [ ]
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$ [ ]
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	-Purchase cleaning chemicals and tools, including paper products, to maintain cleanliness and sanitation of 35 schools	July 2023 through September 2024	-Daily building inspections by school administrators to monitor cleanliness and sanitation of the building -Utilize Facility Tracker to monitor school use of cleaning chemicals and tools, as well as paper products - School monthly sanitation reports will be completed and submitted to the district	$ 250,000.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ⦿ Yes ◯ No	-Purchase of Zoom software program to facilitate the DCS K-12 Virtual Academy online learning school and to provide remote learning for students in quarantine -Purchase Google Suite software tools to provide flexible, collaborative learning as a one-to-one district -Purchase Microsoft software to provide Office 365 across the district for staff and students	July 2023 through September 2024	-Supports remote and hybrid learning environments -Zoom ensures accessibility, increases student engagement and customizes the learning environment -Engage students directly within Classroom to provide clear guidance for doing their best work -Enable an inclusive learning environment with individual accessibility settings that fit each student's unique learning style -Equips staff and students with powerful tools for classroom learning and office efficiency	$ 600,000.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ◉ Yes ○ No	-Purchase 5000 Chromebooks to replace the end of life devices utilized by students on state contract through Tiber Creek Consulting, including chrome management software to monitor and manage district devices	July 2023 through September 2024	-Increase use of technology tools for in-person and online access to personalize student learning in the 21st century	$ 1,425,000.00
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◉ Yes ○ No		July 2023 through September 2024	-Increased student support personnel (two social workers) will enable DCS to meet the great mental health needs of students and families -Social workers will submit monthly reports of services provided to students and families -Improve learning --Improved counselor ratio	$ 504,120.88

		-Continue with two additional school social worker positions to obtain a 1 social worker to three schools ratio to increase student support personnel -Continue to improve academic services provided to Day Treatment students by adding two part-time certified teachers to serve students -Increase student support personnel with school counselors -Provide a school counselor for the K-12 Virtual Academy for 2021 -Improve student to counselor ratios in schools where counselors are currently split by replacing with fulltime positions			
SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ○ No		June 2023 through September 2024		$ 1,923,967.62

| | | -Provide Summer Learning programs for students in grades K-12 to mitigate learning loss due to the pandemic -Summer Learning programs will provide explicit instruction with in-person learning in reading, math, science, enriching and extension activities, and social-emotional learning supports -Physical activity will be provided daily to students in K-8 -Transportation and meals (breakfast and lunch) will be provided during summer learning -High school students will have the opportunity to earn course credits in credit recovery -EC and ESL teachers will work to provide support to students in special populations - Homeless and foster care students will be encouraged to attend summer learning - Summer Learning staff will receive their hourly rate of pay and incentives for working summer programs | | -Utilize a Pre and Post assessment to determine student growth and effectiveness of summer learning program -Multiple data points will be collected in small group and one-on-one interventions to monitor student progress during summer programs - High school credit recovery progress and completion will be monitored using a color-coded spreadsheet | |

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ◉ Yes ○ No	DCS will provide a one-time continuity COVID bonus that rewards, retains and recruits to employ existing staff DCS will offer a K-12 Virtual Academy to serve students with virtual instruction based on student eligibility and parent contract agreement - Continue with 5 full-time CTE Career Development Coordinators in the district to serve the middle and high school in each feeder pattern. CDCs will be responsible for ensuring all students have a Career Development Plan that includes academic and career goals. CDCs will coordinate work-based learning opportunities and facilitate additional career development activities. - Utilize MarjorClarity platform as an Academic and Career Planning Tool to help bridge the gap in career development and planning created by the pandemic	July 2023 through Sepetmber 2024	DCS will retain and recruit to employ existing staff Virtual program will operate as a school within a school -Students in grades 6-12 will have a Career Development Plan - Increase the number of work-based learning opportunities -CDCs will keep records of student interest areas to Career Clusters and Pathways -CDCs will assist students in academic and career planning -Students can earn micro-credentials, apply for scholarships and track work-based learning	$ 381,810.37
				Total ESSER III Allotment	$ 11,574,851.52

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

* ✔		Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
* ✔		At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
* ✔		Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
* ✔		Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
* ✔		Funds shall not be transferred into or out of this allotment category.
* ✔		**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Grant Details

Dare County Schools (280) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Multiple leadership meetings facilitated by the Superintendent with directors (PK- 5 Curriculum Director, Dual Language Immersion-Director of Innovation, 6-12 Curriculum Director, EC Director, CTE Director) and school administrators were held. School leaders conferred with their staff between meetings (including meetings with PLCs and School Improvement Teams, which includes parent representatives) to seek input and bring perspectives and suggestions back to the district leadership team meetings throughout the process. General areas of observed deficits and needs were identified and listed. Problem statements were then formulated. 1. Student engagement/disengagement during remote learning resulting in poor attendance, poor grades, and higher failure rates. 2. Isolation and lack of social interactions between classmates and caring adults have resulted in behavior issues prior to and after our return to Face to Face Learning. 3. 6-12 grade pace of teaching the standard course of study has been negatively impacted due to Cohort A/B in the hybrid schedule prior to the return of Face to Face. 4. Teachers in all grades across the district are struggling to differentiate instruction for their students as the gaps have widened for many students; specifically our EC and ESL student groups. 5. Teachers are reporting the need for additional training on research-based interventions in order to address the increased number of students who will be in

Tier II or Tier III of the MTSS (multi-tiered system of support) due to the pandemic. Pre-Pandemic Performance on State Assessments 2019 EOG Reading Results EOG Reading results by Grade Level: 3rd- 69.5%, 4th- 69.0% 5th- 66.2% 6th- 67.0% 7th- 69.9% 8th- 58.7% 2019 EOG Math Results EOG Math results by Grade Level: 3rd- 72.6%, 4th- 68.5%, 5th- 77.5%, 6th- 65.4%, 67.9%, 8th- 53.5% School Growth Performance and TSI Schools The district has 6 schools identified as TSI Schools. All schools were identified based on the performance of the Students with Disabilities subgroup, with ESL and Black student subgroups also identified for Cape Hatteras Secondary School and Manteo Middle School, respectively. 2018-19 subgroup performance data shows that these subgroups increased performance, meeting or exceeding growth in their respective subgroup categories (ESL and SWD). Discipline Referrals (March 1- April 30 2019 an March 1 - April 30, 2021) 2019 2021 Minor Incidents 293 104 Major Incidents 600 90 Attendance/Mental Health Referral Data Referral type 2019-20 2020-21 Attendance Referrals 129 216 Cases Escalated to Attendance Council 9 7 Mental Health Referrals 32 25 Dept. Social Services Referrals 58 55 ACCESS Test Results 417 EL Students in District; 105 or 25% of our EL population MET growth towards their targeted proficiency score MTSS Tier II and III Interventions (Reading, Math, Behavior) Total of 5063 K - 12 students in Dare County Schools Subject % Students in Tier 2 % Students in Tier 3 Total % At Risk Reading 9% 5% 14% Math 4% 2% 6% Behavior 2% 1% 3% PowerSchool At-Risk of Academic Failure Report(based on grades) K - 2 70/1006 students. 7% at risk of failure 3-5 50/1124 students 4% at risk of failure 6-8 272/1229 students 22% at risk of failure 9-12 383/1644 students 23% at risk of failure Among those in this data set, 453 of 666 (68%) are K-12 students with IEPs who are at risk of failure based on a data pull from PowerSchool. Elementary Literacy/Math Data Mid-year Reading (mClass) by Grade, Below Proficiency K = 89% 1st = 62%. 2nd = 43%. 3rd = 50%. 4th = 69% Mid-year Math (DreamBox) Below Proficiency K - 5 = 10.4% After data analysis and the completion of the needs assessment at the school and district level, a plan for addressing learning loss over the next three years through district activities and what flexibility would be given through school-specific activities were presented to school leaders. Staff meetings were then scheduled at each school to share details and collect further input on those activities that directly address the school's needs. The plan developed focuses on three main areas: Personnel to impact learning loss due to COVID-19; Programs (including Summer Learning Programs and instructional support programs to measure outcomes; and Professional Development to support teachers in delivering differentiated instruction, research-based interventions, and building capacity to develop curriculum resources to teach at a variety of levels of student skill while teaching the standard course of study aligned with courses.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Considering our Problem Statements, the following analysis of the data supports our leadership team members assertions and plan for addressing learning loss. 1. Based on attendance rates and referrals to social workers where the years align similarly, it is noted that the number of referrals were relatively the same as the previous year. This, during a time where there was a lack of direct/face-to-face access to the students to assess mental health and safety/well-being needs. The methods and criteria for recording a student "present" is also a consideration in reviewing this data. Students during remote learning were only required to "check in" or complete assignments in order to be counted present for the day. The schedule for direct instruction was abbreviated as it wasn't reasonable to expect students to log into classes for the "normal" duration of the class period and be engaged in school from 8:00 am to 3:00 pm every day. Essentially, students received about ? of the direct instruction, guided practice, and small group support they would have received in a face-to-face setting. The remote delivery of instruction limited key instructional components that allowed for peer interaction, hands-on activities, and collaborative projects. Academic data supports the assertion that elementary students requiring adult supervision received higher levels of support in engaging in online sessions and independent practice. Middle and high school students who struggled academically, disengaged without home support. At-risk report data supports this assertion with 22% of middle school students and 23% of high school students at risk of failing. While the academic performance data represents all students, two data sets speak to our English Learner and Exceptional Children populations. Teachers anecdotally reported difficulty with engaging their ELLs in remote learning. Recent ACCESS results show only 25% of our EL population made growth towards their targeted proficiency score. 68% of students with IEPs in K-12 are at risk of failure as of this time according to PowerSchool at-risk reporting. This data suggests that schools can anticipate an increase in MTSS intervention support being needed in the upcoming school year, which will place a strain on the currently employed school psychologists who not only provide screening/evaluation assistance but also serve as members of the problem-solving teams at each school. 2. As noted above, a lack of interactions and collaborative/hand-on activities during remote learning that typically engages students in learning have contributed to an increase in mental health referrals (when considering direct access to students for assessments). Teachers report an increase in minor disciplinary infractions within the classroom, some elevating to office and counseling referrals-particularly at the middle and high school level. However, when comparing discipline data between March 1 - April 30 2019, and the same time period in 2021, this doesn't appear to be the case. Even when taking into account a 4 day vs. 5 day instructional day and that teachers may be less inclined to report all incidents within the data collection system in order to "give grace" to students who have been out of the physical classroom for nearly a year. In spite of this, 3% of the student population have been identified to receive behavior intervention support. 3. The schedule for direct instruction was abbreviated as it wasn't reasonable to expect students to log into classes for the "normal" duration of the class period and be engaged in school from 8:00 am to 3:00 pm every day. Essentially, students received about ? of the direct instruction, guided practice, and small group support they would have received in a face-to-face setting. This abbreviated schedule has had a negative impact on the depth with which teachers would normally teach the standards and units within their

courses. Teachers met regularly to analyze their pacing guides and adjust to focus on the high impact, most important standards and skills for their course. Compacting the course content, combined with a lower level of parent support during remote learning are contributing factors in the high percentage of students appearing on the PowerSchool At-Risk Report at the middle (22%) and high school (23%) level. 4.District-wide, 14% of our students have been identified as at-risk and in need of Tier II and Tier III interventions in Reading. As already noted, only 25% of our ELL students made growth toward their language targets as measured by the ACCESS test. At the elementary level, where the foundational skills necessary for becoming strong, proficient readers are taught, 43-89% of K-4 students are not meeting benchmark goals as measured by mClass reading assessments. 10.4% of K-5 students are below proficiency as measured through DreamBox assessments. 5. When comparing literacy, math, academically at-risk data to previous years where 60 - 70% of K-8 students were at or above grade level in Reading and Math; 60-70% of middle and high school students demonstrating proficiency on EOGs and EOCs, there are large gaps in learning that must be addressed immediately while building the capacity of teachers on differentiation and implementing interventions. There is a need to have a district-wide system of measuring academic progress aligned with the curriculum (CBAs). Because of the increased intervention support needs, interventionists will be needed at each school to address immediate learning needs through small group, specialized instruction while classroom teachers will need additional training on both the foundations of reading and math instruction, research-based interventions/MTSS, and differentiation planning and execution within the classroom in order to meet the needs of the at-risk students in our district.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 3,190,746.43 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

DCS's strategic plan for addressing student learning loss as a result of COVID-19 has three major components: 1. Personnel (10 interventionists, 10 curriculum support/Literacy or Math Specialists, 3 School-based MTSS

Coordinators, and 1 school psychologist) to support intensive instructional/behavioral support and intervention for students in all schools; curriculum support through literacy/math specialists to work directly with students and staff to increase capacity in these core areas. 2. Programs-- Summer Learning, Curriculum-aligned online programs for screening and progress monitoring. 3. Professional Learning to support teachers in becoming more proficient in differentiated teaching, strategies for addressing needs of special populations (EC/ESL), literacy strategies across the curriculum as well as subs/materials to support this training. Dare County Schools (DCS) will assess students using current accountability measures provided by the state as well as adding an additional layer of support for teachers through using literacy and math screeners. These formative assessment screeners along with progress monitoring will help educators meet student's academic needs by differentiating instruction in the classroom. This data will be used by classroom teachers and specialists to best address any learning gaps accentuated by the COVID-19 pandemic. 100% of the funds provided through this grant will be used to address learning loss.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

DCS will use the funding provided to create the positions below to address the comprehensive needs of students both academically and socially/emotionally over the time period of July, 2021 - June 30, 2024. School-based Interventionist Positions: These educators will be highly skilled and trained on research-based interventions and the MTSS problem-solving process, work directly with students using research-based interventions to address potential learning gaps. The exact subject area (literacy, math) the interventionist focuses on will depending on school need as determined by student data. Multi-Tiered System of Support/Intervention Coordinators: DCS will use this funding to support three grade-span specific (PreK-5, 6-8, 9-12) coordinators to support reading and math interventions. Coordinators will be highly trained on research-based interventions and the MTSS problem-solving process and have the ability to coach teachers and lead PLCs, Problem-solving meetings, and professional development activities focused on intervention identification and implementation. MTSS Coordinators will create and deliver professional learning for school-based intervention positions, as well as classroom teachers. This added layer of support will ensure the needs of student subgroups are met through a wrap-around approach of both teacher's professional development and targeted intervention with students. School Psychologist: DCS will hire an additional School Psychologist to provide SEL supports for our students through the MTSS process that includes behavior as well as academic intervention assistance. Our school psychologists serve as a member of our problem-solving team, along with our social workers and school counselors, providing guidance and teacher feedback on implementing interventions for at-risk students. In addition, the additional school psychologist will support the increase in evaluations we anticipate as a result of COVID-19. Programs such as MTSS are based on evidence-based interventions.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

DCS will continue to support families through synchronous and asynchronous opportunities. The district and individual schools currently have video banks of tutorials for families to use when they need help or strategies for supporting their child's education. Our website is updated frequently with resources. Parent and family engagement nights that focus on the standards, expectations for proficiency, and strategies for supporting academic growth and success and social/emotional well-being will be held throughout the school year.

* (D) Tracking student attendance and improving student engagement in distance education;

Whether students are in a face-to-face or remote instructional delivery setting, attendance is recorded and monitored on a regular basis. The school counselors, social workers and school psychologists work as a team to monitor student absences of 3-5 consecutive days or 5 cumulative days absent on a monthly basis. Teachers, counselors, and administrators make initial contact with parents of absent students after two consecutive absences or a pattern of absences emerges within a two-week period. If after contacts have been made, progressing to the school administrator, there is still an attendance concern referrals are made to the team. Social workers lead the district's Attendance Council, which is a multi-agency problem-solving team that meets monthly. Referrals are taken to the team and interventions are put in place. If attendance doesn't improve, students' parents are referred to a local Judge where charges for truancy may be filed. Notifications to parents are made at each step of the process. This system has combined tracking, regular monitoring, and problem-solving to increase attendance rates at all schools.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Student academic progress is monitored and evaluated at 8 different points throughout the school year. In addition to the progress reporting and end of the quarter reports, students at all levels are administered benchmark and progress monitoring through curriculum-based assessments. While data is typically compared for growth from one time period to another, group data is often compared to previous groups at the same time period in the previous years. Using the data we have cited in our needs assessment and analysis, we will be able to measure the impact and recovery of learning loss. Specifically, in comparison to Pre-pandemic data, we will know our activities had the desired impact when student achievement rebounds and surpasses 20-18-19 results. Reduction in attendance/truancy, referrals to Attendance Council or DSS--tracking and monitoring monthly; Reduction in the number/percent of students identified as at-risk of failing (measured each quarter); Increase in student performance on state assessments, monitored 3 times per year with curriculum-based assessments/benchmarks.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with

ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ⦿ No				$

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ◉ No				$
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ◉ No				$
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ◉ No				$

11/9/2021 12:12:16 PM

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ○ Yes ⦿ No				$
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ○ No	A school psychologist will be hired to provide SEL supports for our students through the MTSS process that includes behavior as well as academic intervention assistance. Our school psychologists serve as a	July, 2021 through June 30, 2024		$ 171,083.00

| | | member of our problem-solving team, along with our social workers and school counselors, providing guidance and teacher feedback on implementing interventions for at-risk students. In addition, the additional school psychologist will support the increase in evaluations we anticipate as a result of COVID-19. | | MTSS implementation data will show an increase in intervention fidelity (Branching Minds); SEL programs will be created and training provided to teachers (materials, sign-in) and integrated into the academic day; Fewer mental health referrals being escalated to DSS or Attendance Council over the next three years. In comparison to Pre-pandemic data, we will know our activities had the desired impact when student achievement rebounds and surpasses 20-18-19 results. | |

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ○ Yes ◉ No				$
	* ◉ Yes ○ No	Indirect costs will be charged at the allowable percentage. Funds will be used to administer the grant.	July 1, 2021 - June 30, 2024	The grant will be managed and administered as approved.	$ 121,428.57

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.					
				Total ESSER III Allotment	$ 292,511.57

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Dare County Schools (280) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

GAN Information

Dare County Schools (280) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Lexington City Schools (291) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

In order to determine how ESSER III funding would be used in Lexington City Schools, we held a series of work sessions involving several stakeholder groups. The first work session was conducted by our Superintendent and the stakeholder group included was the Central Services Team. This team consists of all Assistant Superintendents, Executive Director, and Directors. The team brainstormed needs of the district based on instructional expectations, maintenance and custodial needs, and remote learning needs (including transportation, technology, and child nutrition). The categories identified as areas of focus included: Response to COVID, Low Income Student Needs, PD-COVID Cleaning, Child Nutrition, Technology, Learning Loss, HVAC/Facilities/PPE, Transportation, Social-Emotional Needs, Instructional software and material, and Instructional Supports. During this session the team also identified specific needs to be addressed within each category. The team had to justify each strategy and ensure its connection as a COVID induced need. As the strategies were being developed, the input of several community groups was sought including the YMCA, Salvation Army, and faith-based organizations. The work of the Central Services team was shared with school building administrators for review and feedback. Once the feedback was received, the recommendations were shared with the Board of Education for review. During this process, a detailed explanation of the recommendations was provided and suggestions for items to include or eliminate were solicited. After implementation of board recommendations, a summary document was prepared for all teams to reference. As we have reviewed student performance data (istation, Lexile, and IXL) and high school EOC scores and final class grades (first semester), we have determined that students have significant gaps and are underperforming

compared to previous years; especially in reading and math. (SEE CHART BELOW) We intend to address these student learning gaps by bringing in additional tutors and enhancing our Opportunity Culture initiative to provide opportunities for more small-group instruction and support for teachers in meeting the needs of students through personalized learning. We will also utilize end of year data (EOG & EOC) as well as additional istation, Lexile, and IXL data to better group students and provide individualized instruction and support. K-5 ASSESSMENT GRADE LEVEL # of Students Below Grade Level % of Students Below Grade Level istation K 102 72.8% 1 154 69.0% 2 94 49.5% 3 93 50.1% 4 138 64.0% 5 109 57.3% Grades 6-8 6th Grade Benchmark 1 Benchmark 2 Benchmark 3 Math 26.9% (32.3%) 20.1% (25.9%) 25.7% (21.3%) ELA 49.2% (22.7%) 31.3% (39.1%) 52.9% (23.8%) 7th Grade Benchmark 1 Benchmark 2 Benchmark 3 Math 27.3% (23.9%) 24% (17.6%) 30.9% (22.9%) ELA 71.9% (16.6%) 44.5% (37%) 63.2% (22.7%) 8th Grade Benchmark 1 Benchmark 2 Benchmark 3 Math 11.3% (44%) 7.3% (21.8%) 2.9% (10.5%) ELA 55.7% (20.5%) 37.2% (36.2%) 64% (19.6%) Science 55.9% (23.4%) 49.3% (23.7%) Math I 58.6% (24.1%) 36.8% (33.3%) 37.3% (28.8%) 2020-2021 1st Semester High School EOC Scores Assessment Percent Tested % Proficient 2019-2020 % Proficient (1st Semester Only) Biology 85.05% 24.32% 43.21% NC Math 1 79.34% 10.96% 30.77% NC Math 3 92.42% 29.51% 49.38% English II 79.59% 53.52% 53.52% From a human capital perspective, the district is observing an increase in retirements and teachers leaving the profession which may result in an increase of the number of vacancies at the beginning of the school year. Additionally due to the number of close contacts and positive cases, teacher absences have increased by 10 percent as compared to pre-pandemic numbers.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

During the 2020-2021 school year, we have administered a number of assessments to identify the current level of performance for students and to determine the learning gaps that need to be addressed for the remainder of the school year and the summer learning session. Our elementary data is clearly concerning; especially for kindergarten students. All grade levels are at or above 50% of students below grade level based on istation assessments that were done for MOY (Middle of Year) in January. We know that students are going to need double dosing this summer in an effort to build on the growth we've begun since students have been back face-to-face. Middle school students have been given multiple assessments in ELA, Math, and 8th grade Science. Math continues to be a key area for focus at each grade level. Eighth grade Math appears to be the area in need of greatest attention. The first number in each section represents the percentage of students who scored above 60% on the assessment and are considered "proficient." The second number represents students who would be considered "bubble" on these assessments scoring around 50% of the questions correct. As we plan for Saturday Boot camp and Boost, these will be the students who we will concentrate on. All grade levels in math are performing less than 30% proficient on all benchmark assessments. All students at risk will be invited and encouraged to attend the six-week summer learning session. High school student performance on end-of-year assessments was disappointing. The area that was comparable to performance from the previous year was English II. We have a strong English MCL (Multi- classroom

leader) who supports English and she has worked well with building the skill sets of both students and teachers. As we review cohort performance in ELA and Math, students are performing well below their projected performance levels. As a result, we are utilizing some of the ESSER III funding to add foundation/bridge courses in math as elective credits to help students build and relearn those foundation skills necessary to be successful in future math courses.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 2,808,993.27 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, underline provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Learning loss during the COVID-19 pandemic must be addressed, but it is our belief that we must meet children where they are and move forward with a focused and multi-dimensional plan that addresses students' individual learning and SEL needs. Assessments are one component of that plan. We use a variety of formative and summative assessments to gather baseline diagnostic data, determine the trajectory of instruction, measure progress, adjust instruction if needed, and determine the effectiveness of instruction. State and district assessments, school and classroom benchmarks, IEPs, MTSS data, progress monitoring data, anecdotal notes, work samples, grades, and many other data sources are considered. A balanced assessment system is critical in order to gain an accurate picture of students' strengths and needs, and it is as important to highlight strengths as it is to shine a light on learning loss or yet to be acquired skills.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Professional Development training and coaching is provided to educators by the district's Innovation Coach and Master Teacher Leaders to support personalized learning instruction, develop learner profiles for all students, integrate challenge-based learning, and ensure use of authentic student outcomes across the curriculum. *Professional learning on evidence-based best practice, specifically challenge-based learning, authentic student outcomes & personalized learning The district will provide an Innovation Coach to provide individual coaching to teachers to improve digital learning practices, increase innovative practices and opportunities for students, and improve student outcomes.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Through a variety of community partnerships, parents and families will be provided opportunities to attend workshops in our Parent Academy that focus on tools to support their child and their academic success, including in distance learning environments. These workshops will be provided on numerous topics, such as family & school partnerships and communication, school preparedness of pre-k and kindergarten, school transition preparedness for upcoming middle and high school students and their families, educational opportunities in the arts, STEM, CTE, dual enrollment, special education support (EC/AIG), college preparedness (GPA, budgeting, application process), anti-bullying and internet safety, and others. The groups have been extraordinarily helpful in giving departmental leadership ideas and direction about where to focus its collective energies. As a result of Parent Advisory Committees, we have a much clearer perspective on what families want and need from their child's education. Ongoing parent communication is a cornerstone of the special education process. The special programs department seeks to work closely with families and engage them as full partners in their child's education. Parent participation, input, and feedback are critical parts of a meaningful IEP, especially with regard to a student's strengths and needs, transitions and what the family envisions for their child's future.

* (D) Tracking student attendance and improving student engagement in distance education;

Key personnel, Outreach Coordinators, Administrators, Guidance Counselors, Social Workers, and Teacher Assistants were responsible for phone calls, texts, emails and home visits for students not consistently being present online during remote learning. Student attendance was taken daily.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Teachers worked closely with administrators and guidance counselors to closely monitor grades during pandemic remote learning. Students who were flagged as struggling or experiencing learning loss were offered additional small group sessions in all subject areas before and after class, before and after school as well as during the set aside acceleration and remediation time on Fridays (during pandemic).

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	Installation of Bottle Filling stations throughout the District to minimize exposure as students need to hydrate.	To be completed by December 2021	Students,Faculty and staff will be able to access drinking water in a more safe manner with less contact.	$ 50,000.00

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ◯ No	Boiler Upgrades at LSHS and LMS (total of 3 boilers). Air Handler Upgrades at South Lexington Elementary/Developmental Center and LHS Auditorium to filter air through schools and make schools more energy efficient. Installation of Bipolar ionization of systems in all facilities to be used in HVAC systems. Replace old, inefficient windows in South Lexington and Pickett Elementary Schools.	To be completed by June 2022	To upgrade and replace inefficient mechanical systems and improve the quality of air and building climate. Improve the air circulation throughout the buildings to minimize opportunities for transmission of COVID and other viruses.	$ 2,250,000.00
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ◯ Yes ⦿ No				$

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ○ No	Hire additional CTE Teacher and continuation of grant funded Career Development Coordinator Position to provide career opportunities and additional support to low-income and other special populations of students who need to transition to the world of work as a result of family challenges during the pandemic and beyond. * Bonuses will be paid to child nutrition & bus drivers, who were the front-line staff who prepared and transported meals to students during school closures.	July 2021-September 2024	Provide additional workforce development opportunities for students as they plan for careers beyond High School as a result of loss of family income during the pandemic. * Decrease turnover in transportation and child nutrition.	$ 555,329.72
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ⦿ Yes ○ No		July 2021-September 2024	Decrease teacher turn-over * Student enrollment in grass-roots teacher fellow program * Planning for safe re-opening of schools * Preparing teachers to be able to provide & support virtual learning	$ 648,949.00

| | | Implement effectiveness and retention bonuses to retain current staff and design and implement a local grass-roots, teacher recruitment program. Teachers' technology training, needed to meet the needs of our students during school closures, was mostly completed at home on their own time. Fear of COVID has increased teacher stress and the rate that qualified instructional staff are leaving our system. The effectiveness and retention bonuses are an incentive for staff to return. Bonuses will also be paid to CO and tech. staff, who were tasked with continuing operations during closure, equipping virtual teaching staff with needed technology, creating budgets and plans, keeping abreast of latest COVID protocols, and preparing our schools for students to return safely. | | | |

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ⦿ Yes ○ No	Training was provided to custodians and maintenance personnel, who put in extra hours of preparation and training on COVID cleaning protocols. Maintenance was regularly briefed and trained on the latest COVID protocols for preparing our schools for instructional personnel and students to return safely.	July 2021- September 2024	Installation of preventative measures and increased efficiency in sanitation measures will aid in the reduction of new COVID cases.	$ 26,070.00
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ○ No	Purchase equipment and supplies to clean and sanitize all school buildings. Purchase of Kaivacs and misting machines to better clean surfaces throughout facilities to minimize COVID exposures.	July 2021- September 2024	Clean and maintain all facilities, reduce transmission of viruses	$ 68,750.01
	* ⦿ Yes ○ No	Additional technical support position (Tech I) for up to 3 years to meet the increased needs of digital teaching & learning, bi-synchronous instruction and virtual academy as a result of school COVID closures and concerns of families who have medical issues and need students to learn from home.	July 2021- September 2024		$ 147,979.81

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.				Increased response time of technical staff to meet technology needs of staff and students. Decreased number of devices per technician who handle the number of Help Desk calls from students and parents during online learning and those in virtual school, which was offered as a result of concern for those who have medical conditions or special circumstances where students have compromised immune systems or medically fragile family members.
				$ 2,458,495.10

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ◉ Yes ○ No	Connectivity: Engineering Services and infrastructure upgrades for connectivity for students and staff. Computer Hardware: Student and Teacher iPads and Macbooks, Hotspots, Classroom Mobile Panels, Apple TVs, ipad carts (for 1st and 2nd grade) Other items, such as computer and student laptop replacements parts, tools and supplies. *15 additional Mobile panels and stands *30 device carts for grades 1 & 2 *3,000 Student iPads, 250 Teacher MacBooks, 250 Teacher iPads, 200 Apple TVs, 150 LED Panels, 150 Design Lab iPads, 600 Hotspots *Computer parts for repairs/damages	July 2021-September 2024	Increased: *bandwidth speed & connectivity rates to support online learning needs of students home during virtual learning as a result of COVID. * network security through modernized servers & infrastructure * number of devices able to connect within schools * Software: Increased # of high-quality online resources for staff & students In Hardware Increased: * student & staff access to tech. & improved connectivity for online learning * access to wifi in school buildings & at home	

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ○ No	Provide mental health services and supports. * Hire SEL/Mental Health Coordinator * Creation of Mental Resource Rooms at schools * Supplies for Art Therapy * Student Services Professional Development	July 2021 - September 2024	Increase access for educators and students to quality Mental Health supports throughout the school year as a result of struggles and social & emotional issues during the pandemic. The emotional toll of COVID is multifaceted. Students have been isolated at home, parents who were unable to work or lost their jobs, increased child abuse by parents who were isolated with children all day, the stress of preparations needed to teach virtually, death of loved ones, and fear caused by the disease.	$ 286,226.05

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ⦿ Yes ◯ No	Provide funds for staffing, materials, and transportation for summer learning opportunities that focus on closing learning gaps and providing enrichment opportunities to traditionally underserved populations.	July 2021- June 2024	Increased student achievement, attendance, and engagement for all at-risk students as a result of increased learning gaps that occurred during DOVID related closures and virtual learning.	$ 319,399.97
	* ⦿ Yes ◯ No	Provide funds for the conversion of the HR and Finance system to Business Modernization System and implement a more efficient absence / sub management system. Provide funds to employ additional custodial staff for maintaining and cleaning of schools Indirect Cost	July 2021- June 2024		$ 816,718.07

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.				* Increase efficiency in the HR-Finance Department to manage additional federal and state funding due to COVID. * Decrease the number of teacher absences that do not have a substitute teacher as a result of COVID quarantines and illnesses. Maintaining and deep cleaning schools to minimize transmission of viruses due to COVID-19.	
			Total ESSER III Allotment	$ 7,627,917.73	

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Grant Details

Thomasville City Schools (292) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

For the 2020-21 school year, Thomasville City Schools have operated in all three plans allowed under the NC Strong Schools guidelines: Plan C from August-October 2020; Plan B from October 2020-March 2021; and Plan A for PK-5 in March 2021, and 6-12 in April 2021. The Thomasville Remote Academy of Innovative Learning (TRAIL) program was also created to serve those students and families that desired a fully remote setting. At its height, this program served nearly 35% of students in the district, and even though some families have chosen to return to in-person instruction, there are still approximately 29% of the district's students enrolled in TRAIL. Assessment of the district's needs have been ongoing throughout the school year as TCS has had to adapt to the various methods of instructional delivery. This needs assessment has included district leadership, school leadership, and community stakeholders. The greatest areas of need that have emerged through this analysis are: Addressing learning loss and performance gaps Facility needs to improve air quality Education technology As school closure has impacted the district, learning loss and gaps in student achievement and student attendance and engagement have been of primary concern. There has been a nearly 100% increase in students failing at least one class at each level, elementary, middle, and high school. In addition, analysis of formative assessments has revealed a substantial increase in students performing significantly

below grade level, particularly within cohorts. For example, 32% of the district's 4th graders were performing at or above grade level in reading during 2019-20; this year only 20% are at or above grade level as 5th graders. In one of the areas where summative data can be compared, in Fall 2018-19, Math I had a proficiency of 73% but this year, Math I EOC proficiency declined to 15%. The same trend can be observed for Math III and Biology. Attendance and student engagement have also suffered throughout the year. Analysis of attendance was conducted at the end of the 5th school month and approximately 25% of elementary students and approximately 42% of secondary students had more than 20 absences, while 128 students district-wide, or approximately 6% of students, had more than 70 absences. Prior to school closure, TCS had been operating a successful attendance initiative but the pandemic has caused this progress to be lost. Given the pressing needs of learning loss, skill and achievement gaps, and the attendance and engagement deficits, TCS will be creating a summer learning program for students in K-12. This program will address learning loss through identification of students at greatest risk and providing personalized, differentiated instruction. This will be a multi-year summer program, as the district recognizes recovery of learning and closing skill gaps will be a long-term task. Funding from PRC 171 will be used for Summer 2021; summer programs in future years will be funded through PRC 181. From a facilities perspective, TCS completed the state-required facility needs assessment in November 2020, using BAISCA, a neutral 3rd party assessment group. Priorities and expenditures for facilities as well as facility needs were assessed. School administrators, school custodians, parents, district leadership staff and board members and district maintenance directors and team members were involved in the needs assessment and determination for use of allowable ESSER II funds in collaboration with other district needs. The district needs amount to $5,400,000 for HVAC and $95,000 specifically for indoor air quality. Our goal is to prioritize this work with ESSER II funds and begin with our two oldest schools, Thomasville High School and Liberty Drive Elementary School. Both of these schools were built in the 1950s and have mechanical, electrical, HVAC and air quality needs valued in the report at approximately $1,000,000 per school. The third priority is providing educational technology for students, as well as giving teachers the technology to be able to provide instruction in a variety of learning environments. In assessing the district's needs for instruction during the pandemic, efforts for remote instruction were hampered by the fact that, while the district was 1:1 for devices in grades 4-12, and 3rd grade devices were added as part of ESSER I funding, students in grades K-2 were not 1:1. As a result, our youngest students were sometimes not able to participate in live remote instruction, or view lessons asynchronously due to not having access to a device. Instruction for these students was provided by work packets, which made one-on-one and small group instruction practically impossible. Clearly there is a glaring need to equip the roughly 600 students in kindergarten through 2nd grade with devices for remote instruction during the pandemic, and for use in personalized instruction after the pandemic has subsided. Leveraging existing resources, the district was able to provide devices to over 1,400 students for use during remote learning. Given a modest projection of 15% of those devices needing to be replaced due to damage or loss, it is estimated approximately 200 devices will be required to restore full inventory for learning. Another challenge revealed through assessing the needs of the district during remote learning is the lack of classroom

technology for teachers to provide instruction in a hybrid or virtual setting. Many teachers did not have devices with microphone or webcam capability, or their classroom computers were so old as to not be compatible with the technology needed for remote instruction. The immediate need is for provision or replacement of approximately 150 staff devices.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Thomasville City Schools has seen a learning loss in our students as a result of the disruption in educational services when we transitioned to remote learning due to COVID-19. The two areas that have been largely impacted is the academic progress of our students, in terms of students passing classes, and daily attendance. In terms of academic progress, pre-COVID at our Primary School, we averaged 25% of students failing at least one class, this year we are averaging 50% of students failing a class per marking period. At our Middle School, pre-COVID, they recorded only 30% of students failing one class per marking period, but this year almost 60% of students are failing one class and currently 78% are failing at least one class for the year. Finally at the High School, only 25% of students failed a course each marking period prior to this year. In 2020-2021, 50% of students are failing one course each marking period, and we had 41% of our students fail a first semester course. Looking at formative assessment data, in Istation during 2019-2020 at the March ISIP testing, 51% of kindergarten students were proficient while this year after January administration only 46% of those students were proficient at first graders. Another formative assessment tool that Thomasville City Schools utilizes is I-READY. During the second diagnostic last year, 21% of the 4th graders were 3 or more grade levels below in reading, this year as 5th graders at the same point, 35% are 3 or more grade levels below. From 5th - 6th 24% to 54% of students were 3 or more grade levels below. 6th to 7th grade saw 45% to 52% 3 or more grade levels below. In Mathematics, 10% of 4th graders were 3 or more grade levels below last year but currently 40% are 3 or more grade levels below. 5th to 6th saw an increase from 22% to 44% 3 or more grade levels below, 6th to 7th 29% to 44% and 7th to 8th 48% to 59%. More of our students are falling further behind in terms of mastery grade level skills. One additional data point that demonstrates the loss of skill acquisition, is our High School End of Course Proficiency scores comparison from the fall semester over the past three years. In Fall 2018-19, Math I had a proficiency of 73% but this year, our Math I EOC proficiency declined to 15% proficient. The same trend can be observed for Math III (40% to 17%%) and Biology (44% to 27%). Relating to attendance, during the 2017-2018 school year, the district attendance attendance rate through month 6 was 93.6%, while 2018-2019 we were at a 92.7% attendance rate, 2019-2020 93.3%, and this year 88.5% attendance rate. To break down the date even further, during the 2018-19 school year, 140 students were absent between 18-39 days, 15 between 40-59 days, and 3 more than 60

days. In 2019-2020, 120 were absent 18-39 days, 12 between 40-59, and no students had more than 60 days absent. Currently, we have 369 students absent between 18-39 days, 197 between 40-59 day, and 236 students have more than 60 days absent.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 1,929,392.80 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Thomasville City Schools uses a variety of valid, reliable, and research-based assessments to measure progress and to drive data-based decisions about instruction for each individual student. Formative assessments are given in the form of Istation competency-based assessments for students in Grades K-3, and i-Ready competency-based assessments in Grades 4-8. Benchmarking is done using the CASE 21 assessments. These assessments are used to identify gaps in skills that impact student performance, and especially identify lost learning opportunities due to the pandemic. This data is compiled and disaggregated at the district level to ensure schools have the information they need to make data-driven decisions about student ability and progress, and how best to meet student needs from an instructional standpoint. Through the administration of these CBAs, we are able to diagnose the essential skills that students are deficient in and teachers can use that data to differentiate their instruction to address the learning loss that occurred and areas students did not master fundamental skills.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

In assessing the needs of Thomasville City Schools students as well as performance on formative assessments throughout the 2020-21 school year, a number of key data points stood out. First is that while the district currently utilizes a research-based reading instruction curriculum in grades K-10, there is not a unified math curriculum. ESSER funds will be used to identify, purchase, and implement a research-based math curriculum to address the skill deficits

in math in our students. The second area targeted for improvement is in developing capacity in teachers and equipping them with the skills and opportunities needed to deliver effective, high-quality instruction and close learning gaps. To help reach that goal, TCS will use ESSER funds to begin exploration and implementation of opportunity culture and leverage teacher leadership and those with demonstrated student performance. The third area of focus is understanding the gaps in learning opportunity for students will be greater than ever before given the manner in which students received instruction and the varying levels of engagement between remote and in-person instruction. Recognizing that these gaps cannot be closed in classroom instruction alone, TCS will provide grants to each of our schools in accord with their Title I allotments for support, targeted tutoring, extended day programs, and other strategies necessary to help students recover learning and close gaps. The district realizes that these gaps will require more than one year to close, so these grants will be for the next three academic years. Similarly, beyond the summer extension program required by legislation in 2021, TCS recognizes the need to provide summer extension opportunities beyond this year, so ESSER funds will be used to provide a summer learning program for 2022, 2023, and 2024. Again, the district understands the long-range need to address learning gaps beyond a single summer or school year.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Thomasville City Schools has a robust plan for providing information and assistance to parents and families. TCS is entering the 3rd year of a partnership with Scholastic to develop a framework of family and community engagement that involves principals, leadership teams, and stakeholders from all four of the district's schools. In addition, two of our schools dedicate a portion of their Title I funding to employ a dedicated parent involvement specialist whose primary responsibility is providing information and support to parents. These schools conduct monthly meetings with parents and families to discuss ways to support students. Beyond those supports, the TCS EL program provides monthly support meetings for Spanish-speaking families. These meetings are available in online and now in-person formats. Each school also provides weekly messages in English and Spanish for families, and the district provides a bi-weekly message using our communication platform.

* (D) Tracking student attendance and improving student engagement in distance education;

Prior to the pandemic, Thomasville City Schools was in the process of implementing a comprehensive plan to address student attendance and engagement. Components of this plan included working closely with Scholastic to improve family and community engagement (FACE) over a 4-year period. This FACE partnership included school administrators, teachers, student support staff, social workers, district leadership, and other stakeholders to identify and intervene early with students who were demonstrating concerns in engagement and attendance. This initiative also incorporated family involvement and diversion before family court was involved for attendance issues. TCS will

resume that program as there was evidence of success in rising attendance prior to March, 2020. At this time, Thomasville City Schools does not plan to provide a remote instructional option beyond the 2020-21 school year.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

We maintain an individual growth plan on each student that tracks various data points and establishes trends that can be correlated pre-pandemic learning to post pandemic performance. Beyond the individual student tracking, we have overall grade level performance data that monitors group outcomes. Both skill, standards, and overall mastery is evaluated and general loss or progress can be determined.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	TCS will install touchless fixtures in all school facilities for sinks, restrooms, and water fountains to reduce the risk of virus transmission as well as other health hazards	July 2021- September 2024	Reduction in infections Reduction in instructional days lost to sickness	$ 600,000.00
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ◯ No		Ongoing through July, 2024	Replacement of HVAC systems to bring air handling capacity and quality up to modern specifications.	$ 3,596,571.20

		District facility needs study has already been conducted and needs prioritized, beginning with the oldest buildings/systems. All TCS school facilities are at least 30 years old; the oldest is nearly 70 years old. ESSER III funds will be used to complete the replacement of the HVAC systems at Liberty Drive Elementary and Thomasville High School (both built in the 1950s) begun with ESSER II funds. Project will then move to repair/replacement at Thomasville Middle School (1970s) and Thomasville Primary School (1990s).			

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ⦿ No				$
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ⦿ No				$

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	TCS will continue to purchase and use supplies to clean and disinfect district buildings and facilities to minimize virus transmission.	Ongoing through September, 2024	Reduction in days lost to quarantine	$ 100,000.00
	* ◉ Yes ○ No		Ongoing through July, 2023		$ 495,000.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.		As we anticipate the need for additional remote learning to occur in 2021-2022 and beyond per the data analysis above, our staff need access to hardware and resources that will enable them to utilize the power of digital learning in an efficient and effective manner. This funding will be used to purchase 200 staff laptops as well as providing ActivPanels in classrooms to assist in the delivery of instruction remotely. In addition, this funding will provide for professional development for teachers in remote and hybrid instruction.		The anticipated impacts of providing devices that are going to run video-conferencing platforms and multiple digital resources simultaneously will be performance enhancements and minimized instructional disruptions for more positive staff and student experiences.	
		For students to			

| EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment. | * ○ Yes ○ No | For students to access adequate online learning resources to aid in recovering learning loss, our students need devices. Whether students are engaged in remote learning again by choice or necessity, there are programs and interventions that teachers and instructional support staff will be using to personalize instruction with students to build skills to recoup the skills needed and master standards. Access to devices beyond the school day will be essential to having other stakeholders and parents partner with us and their student's personal learning needs. Additionally, there will be the need to | December 2021-July 2024 | Students will all have the same access to a digital learning device which will provide equitable resources for every student in every grade level. Enhanced opportunities for digital learning will allow students to participate and engage with teachers and classmates in a way that some students were limited to completing paper/pencil packets only with limited instructional assistance due to connectivity and hardware issues. | $ 1,206,000.00 |

		recoup lost devices from students where due to a variety of circumstances, their devices were damaged, lost or unrecoverable. In addition, devices currently in inventory will need to be refreshed or replaced. Connectivity has been addressed via other funding sources. TCS will purchase 1,500 student devices over the life of this grant.			
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◯ Yes ◉ No				$
	* ◉ Yes ◯ No	TCS recognizes that learning recovery will be a multiple year process and will require extension opportunities	August 2021-July 2024		$ 750,000.00

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.		beyond the school day and school year. TCS will fund a summer extension program in Summer 2022, Summer 2023, and Summer 2024. In addition, TCS will provide grants to schools to be used for targeted tutoring, extended employment, and other resources required to extend instruction and recover learning. In addition, TCS will seek to implement Opportunity Culture in our secondary schools to improve instructional outcomes and develop teachers. Further, TCS will purchase and implement a new math curriculum to		Pre-assessments and post-assessments will be administered to assess learning loss and progress of students in closing skill gaps. Participation in this program will assess student abilities and guide teachers in addressing learning loss while closing gaps for the upcoming year.	

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ◯ No	TCS will provide retention bonuses of up to $4000 for classroom teachers, $3000 for teachers assistants, and $2000 for other staff who have worked through the 2020-21 school year and return for the 2021-22 year.	July 2022-July 2023	Reduced teacher turnover Increased student outcomes	$ 970,000.00
				Total ESSER III Allotment	$ 7,717,571.20

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Grant Details

Innovative School District (295) Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

The North Carolina Innovative School District (ISD) regularly employs a continuous improvement process as a systematic approach to collaboration and innovation. As the state required school closures in March 2020, the district worked to collect stakeholder feedback to address the impacts of the COVID-19 pandemic. The district employed surveys, reviewed data, and sought stakeholder input. School leadership team members, staff, families, and community stakeholders were engaged in a process of reviewing the school data to determine emergent student needs. In the Spring of 2021, the School Improvement Team met specifically to discuss and plan the use of ESSER II and III funds. The School Improvement Team was comprised of the Interim Principal; SIT Chair; IPG Coordinator; Counselor; Teachers from grades K-5; a Parent Representative; and the ISD Superintendent. Additional input was collected from the Public Schools of Robeson County, financial professionals, and the State Board of Education (EICS Committee). The district conducted an analysis of the data to identify the instructional needs of learners, assess learning loss and identify the social-emotional impacts due to the implementation of remote learning during the 2019-20 and 2020-21 school years. An array of data was reviewed, including, but not limited to diagnostic and formative standards-based assessment results from i-Ready; student attendance; staff vacancies; technology assessment;

Exceptional Children's program compliance needs; and perceptual data collected by the social worker, nurse, counselor, parent coordinator, SRO, and teachers (home visits, Canvas usage, etc.). i-READY DIAGNOSTIC - March 2021 READING Grade Level | Mid/Above Grade Level | Early/On Grade Level | 1 Grade Level Below | 2 Grade Levels Below | 3 or More Grade Levels Below | Number of students tested (%) K 12 35 54 0 0 26 1 2 5 86 7 0 43 2 19 6 44 31 0 32 3 13 16 19 25 28 32 4 5 5 24 18 47 38 5 0 0 22 35 43 23 MATH Grade Level | Mid/Above Grade Level | Early/On Grade Level | 1 Grade Level Below | 2 Grade Levels Below | 3 or More Grade Levels Below | Number of students tested (%) K 19 15 65 0 0 26 1 0 5 84 12 0 43 2 16 6 50 19 9 32 3 9 13 41 19 19 32 4 16 5 39 21 18 38 5 4 18 32 18 29 28 STUDENT ATTENDANCE 2020-21 20 days | 40 days | 60 days | 80 days | 100 days | 120 days | 140 days | 160 days | 180 days | AVERAGE 96.8% | 96.3% | 91.2% | 89.6% | 83.9% | 83.2% | 85.5% | 84.3% | 86.9% | 88.6% VACANCIES Over 50% of instructional positions are currently vacant. The bulk of the positions are in grades three through five and instructional support (Exceptional Children and Student Support Services). Less than 20% of the staff from the 2018-2019 school year remain. TECHNOLOGY A formal technology assessment was conducted in the spring of 2021. The report discovered that the current classroom technology systems are outdated and have limited functionality due to the major advances in technology over the past five years and the needs arising from remote learning. All the classroom whiteboards, PCs, overhead projectors, and televisions are outdated. The classrooms have individual air conditioning units that are over 20 years old and run loudly which prevent students from hearing. Speaking through masks exacerbates the auditory issues. EXCEPTIONAL CHILDREN Data for the Exceptional Children's program is still being compiled. Multiple IEP initial evaluations, re-evaluations and annual evaluations have not been completed due to access to independent educational evaluators, safety precautions and other issues. Districts across the state have not provided the instructional and resource supports to students in the Exceptional Children's program due to the COVID-19 pandemic. PERCEPTUAL DATA During the 2020-21 school year, students were provided with hotspots and laptops to accommodate remote instruction. However, elementary students often require support in accessing their classes and participating fully. About 30% of students remained at home and received virtual instruction due to parental concerns about the district's ability to minimize the transmission of COVID, ensure preparedness and response to future closures or outbreaks, fill staff vacancies with high-quality educators and address the social-emotional needs of students and families as they re-enter. The district will address learning gaps through the administration of high-quality assessment such as i-Ready diagnostic tests to assess students' needs, develop individualized learning pathways and monitor growth. Professional development in the areas of unpacking the NCSCOS standards, aligning them to the curricula and revising pacing guides for the upcoming year will support teachers in the understanding and covering of the content. Parents and families will be assisted using social media as well to submit Helpdesk tickets to the school to repair or exchange devices and hotspots. A social worker will be contracted to track attendance and improve engagement. Additional positions will be added to increase acquisition of literacy skills, support teachers in instructional and accelerate student learning.

Part B: Data Analysis

The data uncovered multiple areas of need and funds were prioritized to address the following areas: instructional resources and staff to increase student achievement in Reading and Math; decreased student attendance; district vacancy and substitute coverage; Exceptional Children evaluations and re-evaluations needed to ensure compliance; nursing services; social work support; technology resources ; PPE; cleaning supplies inventory and usage data; Technology device inventory for students and employees, including adaptive devices, and device condition reports. Students returned to full-time, in-person learning in March 2021. While about 70% of students returned to school, 30% remained at home to continue virtual learning. Students remaining at-home received simultaneous instruction from their classroom teachers as they simultaneously taught in-person students. The district discussed the usage of ESSER funds as well as all other state, local and federal funds to address the needs uncovered. A multi-year plan was developed to mitigate learning loss; minimize virus transmission; address unique needs of special populations; coordinate preparedness response; sanitize spaces; provide mental health services; improve educational technology; implement summer learning opportunities; offer principal resources; and enact other ESSA approved activities. The district plan will be measured based on student achievement, turnover rates, attendance, and other metrics as described below. i-READY READING & MATH DIAGNOSTIC - March 2021 The i-Ready data percentages in the table above represent the percentage of students at each grade level who are on-track to master grade level standards. The majority of students at each grade level are not on track to master grade level standards in Reading and Math. The majority of students are below grade level in Reading. Most students in grades three, four and five are three grade levels or more behind in Reading. None of the students in 5th grade were on grade level. Most students are below grade level in Math. Most students in Kindergarten through fifth grades are one grade levels or more behind in Math. Instructional support staff such as a Literacy Coach, Curriculum and Instructional Support Coordinator and Media Specialist will assist in strengthening the K-5 literacy program through the implementation of LETRS and guided reading programs. The Curriculum and Instructional Support Coordinator will support PLCs and the disaggregation of data such as formative assessments, NC Check-Ins and i-Ready. The school has not had a media specialist since 2018-19. The media specialist will update the book collection and support the use of leveled and challenging texts for literacy acquisition. STUDENT ATTENDANCE 2020-21 Student attendance began at 96.8% in August and dropped by almost 13 percentage points by the 100th day of school. While attendance improved to 86%, it remained significantly lower than the 92.3% average attendance for the previous year. Students must be in school or attending online to receive the necessary supports for closing learning gaps. A nurse and social worker will work in tandem to increase student attendance and engagement. VACANCIES Over 50% of instructional positions are currently vacant. The bulk

of the positions are in grades three through five and instructional support (Exceptional Children and Student Support Services). Less than 20% of the staff from the 2018-2019 school year remain. The recruitment and retention of highly effective staff are critical strategies for close learning gaps. Providing staff in hard to hire positions such as third, fourth and fifth grades as well as EC will attract talent and allow the district to provide competitive compensation in comparison to the surrounding districts. TECHNOLOGY The technology assessment discovered that the current classroom technology systems are outdated, and the air conditioning units coupled with the use of masks require solution that will allow both in-person and remote students to hear and see the teacher and their classmates clearly. Fifteen classrooms will undergo a technology retrofit which will include new smartboards, cameras, document cameras, microphones, voice amplifiers and other resources to improve technology integration. EXCEPTIONAL CHILDREN Multiple IEP initial evaluations, re-evaluations and annual evaluations have not been completed due to access to independent educational evaluators, safety precautions and other issues. Compensatory instructional and resource supports must be supplied for students in the Exceptional Children's program. Contracted a school psychologist will allow all IEPs to be brough current and assessments conducted in a timely manner. PERCEPTUAL DATA About 30% of students remained at home and received virtual instruction due to parental concerns about the district's ability to minimize the transmission of COVID, ensure preparedness and response to future closures or outbreaks, fill staff vacancies with high-quality educators and address the social-emotional needs of students and families as they re-enter. Resources are needed to ensure the school has sufficient PPE, appropriate sanitization materials, high-quality instruction materials and access to professional development. The school psychologist, nurse and social worker may proactively address COVID-related concerns and provide SEL programming. Portable air purifier will serve as a short-term solution to air quality concerns.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 181,192.20 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating

instruction;

The ISD will continue to maintain its robust, evidence-based assessment portfolio including End-of-Grade, NC Check -Ins, I-Ready and mClass literacy assessments. The i-Ready assessments diagnose student learning loss, monitor reading and math progress, and provide adaptive instruction that adjusts to on, below and above grade level standards to meet students at their individual performance level. ISD students are provided with laptops to engage in synchronous and asynchronous lessons led by their teachers and access the i-Ready software.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

To fully and effectively implement the assessments, the district will utilize ESSER funds to employ additional instructional positions which will be directly responsible for analyzing assessment data and intervening at the individual student level to ensure improved student outcomes and mitigate instruction gaps due to COVID-19. Staff will utilize i-Ready diagnostic data to guide teachers and others in supporting student academic needs. By having this data in real time, teachers and other support staff can work with students to ensure that they are receiving differentiated instruction that is specific to their individual needs. Teachers, administrators, and others will collaborate and disaggregate data from iReady, NC Check-ins, School Net, and other assessment tools in PLCs to determine best practices and lesson development and design to support addressing the learning loss. Funds will be used to ensure staff will receive on-going job-embedded professional development on Saturdays to insure the work of teacher teams. Tier three students as evidenced by i-Ready data will receive additional instructional support through small reading groups and a targeted curriculum outside of the core.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Facebook and Twitter accounts are will be used used for communicating with families to provide tips and strategies. Parents can submit technology helpdesk tickets for repair or exchange and request a hotspot. The school provides a schedule for the pickup of student devices and hotspots.

* (D) Tracking student attendance and improving student engagement in distance education;

In addition to the current resources and procedures, the district will provide contracted services support for a school social worker. The social worker will track and attendance, improve engagement during remote learning . The school staff have access to online reports that track student online engagement. Parents may monitor student attendance and performance through PowerSchool.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

The ISD will evaluate student progress to provide acceleration and instructional support positions. These positions will ensure the ability to track student academic progress and address learning loss and deliver hands-on support for teachers as they address the learning loss needs of their students.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	Desk shields, air purifiers and additional furniture to ensure distancing will be purchased and installed for teachers as well as each student to prevent the transmission of COVID-19.	August 2021 - June 2024	Reduced virus transmission	$ 8,061.20
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◯ Yes ⦿ No				$

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◉ Yes ○ No		August 2021 - June 2024	Increased student achievement by using appropriate curriculum resources and students receiving appropriate services through identification	$ 221,000.00

		Due to learning loss from COVID, purchase of reading curriculum to meet needs of EC and low-income students; contracting school psychologist for testing to meet re-evaluation deadlines missed due to COVID-19 and hire a K-3 literacy specialist to meet the instructional needs of students.			
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◉ Yes ○ No		August 2021 - June 2024	Reduced virus transmission	$ 79,000.00

		In addition to the current resources and procedures, the district will provide contracted services support for a school nurse. The nurse will develop power point presentations and written communication for teachers, staff, parents and students about the virus, social distancing, guidelines for the nurse's office and student's dismissal if necessary when COVID-19 is suspected.			

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$
	* ◉ Yes ○ No		Increased access to school instruction and August 2021 - June 2024	Increased access to school instruction and increased attendance	$ 105,000.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.		The ISD will retrofit 15 classrooms through the purchase of new PCs, microphones, room amplifiers, SMART boards, classroom cameras, document cameras and other technology to address the growing demands of technology support as we support students virtually during any potential quarantines or school closures and continue to use online resources to address learning loss due to COVID.			

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ◉ Yes ○ No	The ISD will support the purchase of STEM materials to provide a MakerSpace and additional elective for students. The updated technology will allow teachers to better instruct students and increase student enrollment as a response to COVID.	August 2021 - June 2024	Increased class enrollment and technology tickets	$ 52,707.60
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ◉ No				$
	* ◉ Yes ○ No		August 2021 - June 2024	A reduction in learning gaps and increased student achievement	$ 179,000.00

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.		The ISD will provide summer learning opportunities to address learning loss for next two summers to students who are identified as "at-risk" based on various factors (EL, students experiencing homelessness, low income, etc. in addition to academic and other risk factors). Funds will be used to provide payroll, supplies and transportation.			
	* ◉ Yes ○ No		August 2021 - June 2024	Increased teacher retention and decreased number of open positions	$ 80,000.00

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		Due to the impact of COVID, districts across the state have experienced high turnover. To fully return students to in-person learning and close instructional gaps, it is essential to retain and recruit employees. Retention incentives will be provided as well as recruitment bonuses for hard-to-fill positions in EC and upper grade levels.			
			Total ESSER III Allotment	$	724,768.80

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Innovative School District (295) Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

Innovative School District (295) Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Davie County Schools (300) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

1. The district collaborated with many different groups to determine the needs of Davie County Schools. The first budgeting meeting was held with a district leadership team (Superintendent, Assistant Superintendent, CFO, CAO, CTO, Maintenance Director, Transportation Director, EC Director, and the Federal Programs Director). The Federal Programs Director outlined all the allowable uses for the funds specifying the primary purpose of the funds and the expiration of funding. Each director was then tasked with collaborating within their departments to prioritize a list of needs with a description and data of the purpose of their request. The Superintendent and the Federal Programs Director outlined the same information for principals at a district staff meeting. The Chief Academic Officer (CAO) was responsible for communicating with principals and teacher leaders overall school needs. Principals were responsible for reviewing information with their SIT (which includes parent input) to determine their site needs. Once information and data were collected each department prioritized its needs on a uniform budget sheet. Then, each department lead met with the district leadership team (Superintendent, Assistant Superintendent, CFO, and Federal Programs Director) to defend and justify their needs and to prioritize the overall district plan. The result was 55.33% for Learning Loss (including summer learning for two years - 2023 and 2024; instructional support positions; and software/resources to help assess learning gaps and progress monitor); 34.36% for maintenance (upgrade facility for the virtual school, instructional support collaboration, and community technology lab for after-hours use); 6.23% for educational technology to support instruction and decrease learning loss; and, 4.08% unbudgeted for any unknown needs that may arise. 2. Learning loss is the primary use of funds for ESSER II funding for

Davie County Schools. Various forms of assessment will be utilized to determine learning loss and closing academic gaps. The district will use EOC/EOG data, iReady progress monitoring data, teacher-made assessment data, attendance data, student participation data, discipline data, retention/promotion data, and school counselor referral data. The district will also use course failure data for high school courses to determine if students are on track for graduation and how to support students in recovering those credits. All of these data points will guide district and school monthly and weekly PLCs. District and school data talks will be led by the Accountability Department and Instructional Support personnel.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Learning Loss - the following data is an example of data collected and utilized to inform all decisions regarding learning loss. Not all data points could be included but other data and more in-depth analysis of data being used are EOC/EOG data, NC Check-In data, teacher-made assessment data, failure rates of courses/retention data, attendance data, discipline data, and school counselor referral data. The district focuses on district-wide and overall school/grade-span trends, but instructional leaders work with schools on drilling down to more specific data points within the school. District Participation During Virtual Learning/Virtual Activities 71.5% Actively Engaged 18.7% Somewhat Engaged 9.7% Not Engaged 4.3% Not Connected i-Ready Reading CES: EC students average 1.6 grade levels behind 36% at or above grade level 45% one grade level below 19% two or more grade levels below CZE: EC students average 1.7 grade levels behind 51% at or above grade level 49% one or more grade levels below MES: EC students average 1.3 grade levels behind 51% at or above grade level 49% one or more grade levels below PES: EC students average 1.7 grade levels behind 47% at or above grade level 53% one or more grade levels below SGES: EC students average 1.1 grade levels behind 64% at or above grade level 36% one or more grade levels below WRD: EC students average 1.8 grade levels behind 44% at or above grade level 56% one or more grade levels below i-Ready Math CES: EC students average 1.5 grade levels behind 26% at or above grade level 74% one or more grade levels below CZE: EC students average 1.4 grade levels behind 43% at or above grade level 57% one or more grade levels below MES: EC students average 1.4 grade levels behind 36% at or above grade level 64% one or more grade levels below PES: EC students average 1.7 grade levels behind 34% at or above grade level 66% one or more grade levels below SGES: EC students average 1.3 grade levels behind 53% at or above grade level 47% one or more grade levels below WRD: EC students average 1.5 grade levels behind 34% at or above grade level 66% one or more grade levels below Middle School Check-In Data 2020-2021: ELA Grade 6 - 62% Grade 7 - 61% Grade 8 - 60% Math Grade 6 - 51% Grade 7 - 38% Grade 8 - 45% i-Ready Math for Middle School EC Students Only NDMS: 6% at or above grade level 94% one or more grade levels below SDMS: 0% at or above grade level 100% one or more grade levels below WEMS: 0% at or above grade level 100% one or more grade levels below High School - EOC Failures as of 3rd quarter (including Semester 1) 2020-21 334 students Resources and Software - After looking at student data, schools and the curriculum department collaborated with principals, instructional coaches, and teachers to determine the most effective

resources/software to close academic gaps and collect student data trends. Math was seen as a district-wide need, so many resources and supports will be math-specific (especially for EC students). Based on failing grades, referrals to school counselors, and the COVID-19 pandemic, SEL, and Mental Health supports are a priority. The district will hire additional personnel to support students' social-emotional health. The district will get back on track with Compassionate Resilient Schools (CRS) training. Training that began in the spring of 2019 was put on hold due to COVID. Funding will provide booster training to those initially trained and train all new staff and administrators. Full CRS implementation is expected by 2023-2024. Instructional Technology - A district-wide assessment of technology needs showed SmartBoard replacement as a priority. Interactive whole class devices are a key component in quality instruction. All K-5 SmartBoards will be replaced with Interactive Flatpanels and 6-8 SmartBoards will be replaced with a Flatpanel Television and a casting device. Facilities An assessment of facilities as it pertains to clean air was conducted by the maintenance department and an HVAC subcontractor. It was determined that six of our older school buildings (with older HVAC systems) did not have sufficient access to clean air. The most effective solution is to add ionization bars to each of those schools. The district plans to upgrade a current building (known as K Building) in the district (left intact from the old high school site). With newly hired instructional support personnel, the district plans to use K Building as the instructional hub of our district as well as housing Davie County Virtual School (DCVS). The district currently does not have a space large enough for professional development and/or training safely with social distancing and does not have a single location to house DCVS teachers/administration or to assess virtual students. Without K Building, the district will be required to assess students at the student's previous home school or other school locations which potentially exposes those students to a COVID risk. Most students who chose the virtual school did so due to the student and/or caretaker being immunocompromised while others chose the virtual school for fear of an increased risk of exposure to COVID. There will be a designated area in K Building with Chromebooks and desktop computers staffed after hours by technology and instructional personnel for parents to bring their children into the building for instructional and technological help. District surveys provided data of families in our district who have insufficient internet service or are without internet service. This lab will help families gain access to quality internet service with instructional support. The district plans on designating 60% of the building for COVID-related activities (ESSER funds) and 40% of the building for other multipurpose usages (local funds). This building upgrade will have a direct impact on our district's learning loss.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 2,099,000.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students

experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

All assessments, both formative and summative, will inform instruction in Davie County Schools as outlined by the district Common Instructional Framework. Pre-assessments will be a key component of quality instruction to close achievement gaps and to reduce learning loss. Pre-assessments are a district expectation for all teachers as outlined by the district Common Instructional Framework. Pre-assessments will include, but not be limited to SchoolNet, Canvas, Kahoot, district/school-created Common Formative Assessments (CFAs), DIAL (for PreK), etc. Utilizing data from these assessments, additional before, during, and after school tutoring will be implemented at all grade levels to front-load and catch students up on content. Priority will be given to any students who are quarantined due to a positive contraction of COVID-19 and/or are quarantined due to contact tracing. To assess student progress, CFAs will be consistent and standards-based across the district for grade levels and content areas. Instructional support personnel will continue to construct and tweak CFAs for teachers. Summative assessments will be used in data collection to determine the effectiveness of teaching strategies and to monitor student progress throughout the course. Summative assessments will include but are not limited to NC Check-Ins, EOCs, EOGs, i-Ready data, the BOG, etc. MTSS - The district will continue training in MTSS for administrators and teachers. School data discussions will outline the processes for placing students in the appropriate tiered level of support. Instructional support personnel will continue to train teachers on the most effective researched-based instructional strategies in PLCs. Using data, instructional staff work to provide targeted support to the students who need it, when they need it and in the area of need in order for growth to take place.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

All activities will be evidence-based and standards-driven. Data, both formative and summative, will direct instructional practices. Data discussions will take place in school and district level PLCs. Examples of evidence-based activities through the standards-based curriculum: Letterland, Heggerty, SEFEL, Ready Rosie, decodable text, small group reading, HillRAP, Reading Research to Classroom Practice, All appropriate teachers will be adequately trained in any practice/program they will be required to use. Teachers have or will be trained in PLCs, Letterland, Heggerty, SEFEL, Ready Rosie, decodable text, small group reading, HillRAP, Reading Research to Classroom Practice, the Science of Reading, etc. One of the main district goals is to always strengthen core instruction. In 2020-2021, instructional support personnel have worked this year to dig into the standards and rewrite them in student-friendly language which we call learning targets. It is a universal expectation to post these in every classroom and reference them so students are aware of their learning goals. This process takes place in PLCs which meet weekly where teachers have to discuss standards, plan instruction, respond to student data. Moving forward a focus will be on providing research-based interventions for students who still have not mastered the content, especially those with learning gaps due to the nature of this school year. One of the strategies we will use to differentiate instruction in the planning and implementation of small group instruction. This will target the learning needs of individual students. MTSS - Multiple layers are in place to meet students' needs. All staff including counselors,

special education teachers, reading specialists, teacher assistants, and interventionists collaborate to identify and work on a variety of student needs including academic, social-emotional, and behavior. Training will continue to build on our MTSS framework for school improvement that is established at every school. Within this framework, data-driven problem-solving is used to promote growth from whole group core instruction to small group interventions. Using data, instructional staff work to provide targeted support to the students who need it, when they need it and in the area of need in order for growth to take place. Blended Learning is a district initiative due to the increase of devices due to COVID. The device is only as good as the instruction that accompanies it. Blended learning provides a balance of educational tools that give intentional options for learner agency which enhances engagement and success for all. Blended Learning will allow for differentiation, promotes student success, engages and empowers students, creates purposeful time with each student, prepares students for future success, and allows students to become creative and independent thinkers. There will be a committee of teachers representing each grade level/span and an appropriate device set up in each classroom. Training will be provided by Beyond the Chalk with a focus on station rotation, flipped classroom, and playlist models.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Parent/family communication is required for teachers/administrators in the district if students are not engaged/active in distance education. Contact logs must be kept at the school. The purpose of these contacts is to promote student success and involve parents in their child's learning. School administrators have been tasked with working with school staff in having engaging and interactive family engagement events; many of which can be done through virtual means. The focus of family engagement events is to provide technology and instructional support to families to make students more successful. All school and district communications are required to be put into a language families can understand. The district sends a minimum of weekly communication (by phone and email) regarding events and general information, as well as posting all information on the school website. There is also a Safe and Secure page on the district website updated by the Marketing and Communications Officer. There is also a Families page on the district website to provide information to parents and families.

* (D) Tracking student attendance and improving student engagement in distance education;

Attendance must be taken each day of the school year. Attendance for Plan B (Students with both on-site and off-site days - A/B students) If it is the student's assigned day to be on-site, the student must physically be in the building for at least half of the instructional day in order to be counted present. Early Checkout or Late codes may be used for students that are not present for the full instructional day. If it is the student's assigned day to be off-site, the student must meet the teacher's expectations for that day to be counted present. If technical issues prevent this from happening, the family must communicate with the teacher and/or school on that day for alternate arrangements to be made to be counted present. Absence, Early Checkout or Late codes may be used for students that do not fully meet the communicated expectations as appropriate. Attendance for Plan C or virtual only students (Students enrolled in DCS Virtual or otherwise being served only virtually) Please clearly communicate to your students what they must do to be counted "present" for every off-site or virtual

day. Absences may be coded retroactively if the expectation is discovered to have not been met. Please assign a 1R code to those students that meet expectations on off-site days. If a student should be on-site and they are not, they must be assigned a 2A absence code, even if they complete the work for that day. A student needs to meet the attendance expectations for at least half of their classes on an "off-site" day to be counted present (1R). This can be tracked by using period attendance but period attendance is not required by the state or the district. Daily attendance is required every day in the homeroom section, with all off-site present students being marked a 1R and absent students being marked a 2A by the teacher. The procedure to know whether a student is present or absent on an off-site day is to be developed by the school. Students must attend each teacher's synchronous instruction or meet other communicated expectations in order to be counted present for the day. If technical issues prevent this from happening, the family must communicate with the teacher and/or school on that day for alternate arrangements to be made to be counted present. Absence, Early Checkout, or Late codes may be used for students that do not fully meet the communicated expectations as appropriate. For asynchronous work that will determine attendance, it is suggested to set a due date and time for work/assignments at the end of the day (9 pm, midnight, etc). Do not set assignments to be due at the end of the school day since some students may be at locations where they can not complete off-site work during the school day and will complete it that evening. If a student does not finish the expected work on a particular day, they are absent for that day and must be coded as a 2A, unless there has been a communication from parents with a legitimate reason. If a legitimate reason exists, students can be counted present by turning in the work by the agreed due date between family and teacher. Legitimate reasons might include but are not limited to, lack of internet connectivity or other technical issues. Students can always make up the work, even when counted absent. Grading consequences might occur if the work is not made up in a reasonable amount of time, depending on the circumstances. You have the ability to change attendance up to four days in the past. There may be some times when you will be told that a student is not able to attend school (ie, quarantine), and the reason for that absence may not be able to be shared with you. In that case, you will provide work virtually to that student, but they will still be counted absent if it is their on-site day. For their off-site day, they can be counted present off-site (1R) if they are meeting the teacher's expectations for attendance. Canvas includes analytics to help you determine if a student participates in the content you have created. Please see this video to learn more about the analytics available in Canvas. It is very important that students do not physically attend schools if they are sick. Because of this, please remove any incentives or rewards for perfect attendance. Exam exemptions should not include an attendance component, and awards for perfect attendance should not be given. Any other rewards or incentives should not have an attendance component. Local board policies containing information about the consequences of absences are being reviewed for changes that need to be made. When you receive information from DHHS that a student is in quarantine, either from DHHS directly or through your nurse, code their on-site days as a 1D. Off-site days during quarantine or dates that a doctor/parent has excused can be coded as a 1R if the student is meeting attendance expectations. Otherwise, students would be coded a 1D,1B, or 1A as appropriate according to the documentation you have. All documentation should be placed in the attendance folder. If the documentation is verbal communication, a letter signed by the school employee providing the verbal communication or an email from that employee should be placed in the attendance folder stating the dates of the quarantine and the student name(s). The district also

tracks participation during virtual learning/activities: 71.5% Actively Engaged 18.7% Somewhat Engaged 9.7% Not Engaged 4.3% Not Connected Parent/family communication is required for teachers/administrators in the district if students are not engaged/active in distance education. Contact logs must be kept at the school.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Schools have been required to document all pre-pandemic student progress and compare it to pandemic student progress. PLCs focus on growth and outline trends (both negative and positive) for individual students, classes, grade levels, content areas, and schools. Supports are put into place currently for students who are falling behind, and preparations are being made for how to close those gaps beginning next school year. Teachers and administrators are currently working in PLCs on a plan to teach next year's content while catching students up on any learning loss. Summer Learning is focused on students that have the largest academic gaps/learning loss. Students were selected for our elementary school camps based on academic needs. Students being considered for retention were first invited to camp. Additional students were then prioritized based on academic need and invited. High School students were placed on three lists and were prioritized by the number of classes failed, the number of EOC classes failed, and the number of failed classes that count as graduation requirements. Student data, pulled at the end of first semester and again as the invitation process starts, will be used to determine if students will receive face-to-face instruction or if they will participate in the Program using GradPoint and APEX. All assessments, both formative and summative, will inform instruction in Davie County Schools as outlined by the district Common Instructional Framework. Pre-assessments will be a key component of quality instruction to close achievement gaps and to reduce learning loss. Pre-assessments are a district expectation for all teachers as outlined by the district Common Instructional Framework. Pre-assessments will include, but not be limited to SchoolNet, Canvas, Kahoot, district/school-created Common Formative Assessments (CFAs), DIAL (for PreK), etc. To assess student progress, CFAs will be consistent and standards-based across the district for grade levels and content areas. Instructional support personnel will continue to construct and tweak CFAs for teachers. Summative assessments will be used in data collection to determine the effectiveness of teaching strategies and to monitor student progress throughout the course. Summative assessments will include but are not limited to NC Check-Ins, EOCs, EOGs, i-Ready data, the BOG, etc.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	HVAC and facility upgrade in K Building for DCVS Davie County Virtual School (DCVS) will be housed in K building. Teachers will have their own classroom and students will be able to come in there in small groups for activities and as whole classes for state assessments. Without K Building, the district will be required to assess students at the student's previous home school or other school locations which potentially exposes those students to a COVID risk. Most students who chose the virtual school did so due to the student and/or caretaker being	June 2021- April 2022	Virus transmission data from virtual students and staff. Contact Tracing Air quality checks	$ 800,000.00

		immunocompromised while others chose the virtual school from fear of an increased risk of exposure to COVID. Having a separate space without other students/teachers creates a safer space for virtual students to socially distance when they are required to come back into the building. See a more detailed plan in the History Log.			
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ○ No		June 2021-September 2021	Air quaility checks Virus transmission rates within school buidings Contact Tracing Data Quarantine data	$ 500,000.00

		After a clean air assessment for all HVAC systems in schools, ionization bars for eight school HVAC systems to provide cleaner air to classrooms. Ionization bars will be installed in the following schools: South Davie Middle Shady Grove Elementary William R. Davie Elementary Central Davie Pre-K Cornatzer Elementary Cooleemee Elementary Mocksville Elementary William Ellis Middle			

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$ [ ]
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◉ Yes ○ No		August 2022-June 2024	EC Program Data i-Ready Data EC Staffing Data EC Student Headcount Data Trans Math Reports Unique Learning System Reports	$ 45,000.00

		Reviewing EC assessment data, math was recognized as an area of concern. Trans Math Digital licenses will be purchased as a resource for EC students who choose to enroll in the virtual school. Unique Learning System licenses will also be purchased to support students on Extended Content Standards. Additional EC personnel will be hired in the highest need schools as determined by the percentage of students being served in the EC program.			
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$ [ ]

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$
	* ○ Yes ◉ No				$

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.					
	* ◉ Yes ○ No		July 2021-July 2022	Walk-through Data (interactive use of devices) PDP Goals set specifically for the effective use of technology in the classroom Blended Learning Data	$ 500,000.00

11/10/2021 9:39:36 AM

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		SmartBoards were purchased in 2005 with a life expectancy of 10 years. Sixteen years later, the technology department has been able to keep them working, but they are becoming beyond repairable. Interactive whole class devices are now a staple of classroom instruction and have become a key component in quality instruction. The plan is to replace all K-5 SmartBoards with Interactive Flatpanel Televisions and 6-8 SmartBoards will be replaced with a Flatpanel Television with a casting device.			
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ◯ No	The district will hire additional personnel to support students' social-emotional health to help where needed with a focus on our virtual students who seem to struggle the most due to a lack of face-to-face interactions. There will	June 2022- July 2024	Referrals to school counselors Referrals to cooperating mental health partners Student grades Student attendance Discipline data (Educator's Handbook)	$ 182,604.00

		also be a concerted effort to get the district back on track with Compassionate Resilient Schools (CRS) training. Training began in the spring of 2019 with the district planning full CRS implementation in every school by the end of the 2021-22 school year. Due to COVID-19, all training and implementation were put on hold. The plan is to use ESSER funding to give booster training to those who have already had the initial training and train all new staff and administrators. Davie County Schools would like to have full CRS implementation by the 2023-2024 school year.			
	* ⦿ Yes ◯ No		June-July 2022, 2023, 2024		$ 460,448.00

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.		A K-12 summer learning program will be conducted for Davie County Schools as required by legislation. All aspects of the legislation will be followed including prioritizing at-risk students; providing enrichment opportunities, SEL support, transportation, physical activities, breakfast, lunch, and a snack; and, using researched-based instructional practices, both face-to-face instruction and online modules. Staff participating in Summer School/Camp will be compensated and incentivized. We will follow the guidance as given by the legislature/NCDPI and the framework of the 2021 Summer Learning Program		Student retention/promotion Student assessment data Graduation rate Student social-emotional check-in data Child nutrition data Transportation data	
		The district plans to upgrade a current building and make it the instructional hub of	June 2021-April 2022		$ 3,386,523.26

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ○ Yes ○ No	our district as well as housing DCVS. The district currently needs a space large enough for professional development and training safely with social distancing and a single location to house DCVS teachers/administration or to assess virtual students. Without the building, virtual students could potentially be exposed to a heightened COVID risk. There will be a designated area in the building with Chromebooks and desktop computers staffed after hours by technology and instructional personnel for parents to bring their children into the building for instructional and technological help. District surveys showed families in our district have insufficient internet service or are without internet service. This lab will		DCVS and District graduation rate DCVS and District student assessment data Instructional Initiative Effectiveness Data from district needs assessment (Blended Learning, The Science of Reading, Math Effective Strategies, PLCs, etc) District-wide Student Growth Data Teacher effectiveness data as shown in EVAAS	

		help families gain access to quality internet service with instructional support. This building upgrade will have a direct impact on our district's learning loss. The district will provide a recruitment and retention bonus to staff due to the loss of staff and to recruit new staff. See additional descriptions and comments in History Log			
			Total ESSER III Allotment	$	5,874,575.26

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.

* ☑		Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
* ☑		Funds shall not be transferred into or out of this allotment category.
* ☑		**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Grant Details

Durham Public Schools (320) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

In collaboration with Durham Public Schools (DPS) stakeholders (teachers, principals, and district leaders), stakeholders reviewed analyzed remote learning student academic performance/attendance data, teacher/parents remote learning survey data, and ESSER II/III employees survey data to prioritize the use of CRRSA-ESSER II funding to address student learning gaps resulting from the disruption of in-person learning as of March 2020 through March 2021(K-5 schools) and March 2020 to April 2021 (6-12 schools). Additionally, the process involved a review of the district's Strategic Plan and funding priorities, a review of the district's use of CARES ACT/ESSER I funding, and an overview of CRRSA-ESSER/ AMR -ESSER III funding including allowable uses as well as input from the public during the 2021-2022 budget review held on April 9, 2021.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Prior to the onset of the COVID-19 pandemic, Durham Public Schools was making significant progress toward its 4-year Strategic Plan implemented in the fall of 2018. The following Five Strategic Priorities drive the district's Strategic Plan: Priority 1: Increase Academic Achievement Priority 2: Provide a Safe School Environment that Supports the Whole Child Priority 3: Attract and Retain Educators and Staff Priority 4: Strengthen School, Family, and Community Engagement Priority 5: Ensure Fiscal and Operational Responsibility For the purposes of this data analysis, Strategic Priority 1: Increase Academic Achievement (Goal 1A, By 2023, at least 90 percent of all DPS schools will meet or exceed standards for year-to-year academic growth as measured by the state model; Goal 1B, By 2023, at least 60 percent of all DPS students will achieve grade level as measured by the End-of-Grade and

End-of-Course testing; Goal 1C, By 2023, the DPS four-year graduation rate for students who start with DPS in ninth grade will be at least 90 percent; Goal 1D, By 2023, 100 percent of all teachers, leaders, staff will use technology for accelerating and personalizing student learning); Strategic Priority 2: Provide a Safe School Environment that Supports the Whole Child (Goal 2A, By 2023, 100 percent of Durham Public Schools will implement research-based cultural frameworks to support the social-emotional health and safety of students and staff); Strategic Priority 3, Attract and Retain Outstanding Educators and Staff (Equity Priority Staffing); and Strategic Priority 5: Ensure Fiscal and Operational Responsibility (Goal 5D, By 2023, DPS will improve the physical environment to enhance student learning and ensure safety) will be the focus of these funds. Since the district transitioned educational services from in-person to remote learning from March 2020 to March 2021 (elementary schools), and March 2020 to April 2021 (middle and high schools), district Quarter 3 2020-2021 Grading Snapshot data indicates 50.6% of students in grades 6-12 have failed at least one course compared to 20% of students in grades 6-12 in 2019-2020, an increase of 30.6 percentage points; Quarter 3 Attendance Snapshot data reveals 27.2% of students in grades K-12 have15 or more absences for the school year compared to 12.9% of students in grades K-12 in 2019-2020, an increase of 14.3 percentage points. The impact of COVID-19 and remote learning has significantly limited effective teaching and learning practices and in many cases negatively influenced school, family, and community relationships which has been shown to have a direct correlation on student learning outcomes. The increase in student absences may yield significant learning loss, especially for our most vulnerable students, which ultimately broadens the learning opportunity between racial and socio-economic subgroups and may increase the dropout rate in middle and high schools. Prior to COVID-19, the district experienced a decrease in reported dropouts, 264 in 2019-2020 in comparison to 455 in 2018-2019. Based on the data analysis, the district will aggressively implement acceleration and summer learning programs throughout the 2021-2022;2022-2023 school years to mitigate academic learning loss across subgroups, particularly for most vulnerable students. Subsequently, the district will prioritize funds to maintain concurrent learning (remote/blended learning), 1:1 technology/connectivity, support for the whole child (emotionally, mentally, socially, and physically), improve facilities (repairs, air quality, etc) and provide highly effective teaching and learning in a safe school environment.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 20,999,502.35 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Durham Public Schools uses the following high-quality, reliable assessments to assess students' academic progress and assist educators in meeting student's academic needs including progress monitoring as well as inform instructional decisions and

teaching practices: iReady Formative Assessments (Reading, Math)/Progress Monitoring (MTSS) Reading Plus/Progress Monitoring Case21 Benchmark (Beginning-of-Year, Middle-of-Year, and End-of-Year) Reading Inventory Assessments (i.e. IRLA) to support literacy instruction WIDA (English learners) End-of-Grade Assessment End-of-Course Assessment Panaroma Screener (Fall/Spring)

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Expand extended day opportunities (summer, intercession camps, Saturday Academies, flexible learning environments) to accelerate student learning; increase instructional personalized supports as requested by schools (Strategic Equity Staffing positions, i.e., teachers, literacy, math, and science coaches, student success coaches) as well as broaden district support with additional literacy integration specialists to reduce class size, mitigate and accelerate student learning, and standardized intervention supports for marginalized populations to address students' social, emotional, and behavioral needs using a Multi-Tiered System; provide evidence-based curriculum resources to support literacy instruction, and expand professional learning opportunities across schools to increase teacher efficacy in high impact teaching strategies through digital literacy

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Offer training to families through the Family Academy with evidence-based strategies for supporting students' academic and social-emotional learning needs including digital literacy; provide on-going digital/technology series to support families with digital content and practical strategies for supports students virtually and in-person

* (D) Tracking student attendance and improving student engagement in distance education;

Utilize Powerschool to track attendance daily for remote learning; monitor attendance through MTSS school teams to determine appropriate supports to students as needed; and provide on-going professional learning to teachers on highly effective, evidence-based digital pedagogy, and high impact teaching strategies to engage students in meaningful learning

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Address the impact of COVID-19 on learning and improving learning outcomes by providing acceleration and enrichment programs (afterschool, intercession, Saturday academies, summer learning) to narrow learning loss and increase student mastery of content throughout the school year. Formative (iReady, common district assessments, CASE21 benchmarks) and summative data (EOC, EOG) will be compared to the pre-pandemic data to ascertain student performance and efficacy of acceleration strategies.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline

for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ◉ Yes ○ No	Create outdoor learning spaces; Replacement of bib water coolers with bottle filling stations; Replacement of building finishes that trap moisture/dirt leading to mold/mildew; Abatement/encapsulation of environment health hazards (lead, asbestos, etc.); New construction, renovations, temporary facilities to support minimizing class sizes as well as to provide adequate learning environments for highly effective teaching and learning	2020-2021 (July-June); 2022-2023 (July-June); 2022-2024 (July-June)	Clean School Data; Emergency Response and Crisis Management; Safe School Climate Survey Data	$ 13,760,000.00

| IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement. | * ⦿ Yes ◯ No | Filter changes; Coil cleaning/sanitizing; Controls retro-commissioning; Assessment of major equipment; Air quality testing; Review capital improvement report for repairs/replacement; Upgrade mechanical/non-mechanical building per IAQ | 2020-2021 (July-June); 2022-2023 (July-June); 2023-2024 (July-June) | Clean School Data; Emergency Response and Crisis Management Report; Safe School Climate Survey Data; Indoor Air Quality Report | $ 16,800,000.00 |
| COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus. | * ◯ Yes ⦿ No | | | | $ |

11/9/2021 1:36:30 PM

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◉ Yes ○ No	Increase instructional personalized supports as requested by schools (Strategic Equity Staffing positions, i.e. EC/ELL teachers) to reduce class size, mitigate and accelerate student learning as well as Parent Liaison/Interpreters to support families with diverse language needs, and standardized intervention supports for marginalized populations to address students' social, emotional, and behavioral needs using a Multi-Tiered System; Recruit additional exceptional children's teachers and staff to narrow the learning opportunity gap of children with disabilities.	2020-2021 (July-June); 2022-2023 (July-June); 2023-2024 (July-June)	Student growth and proficiency data (iReady, benchmarks, EOC/EOG assessments); Discipline Data (Educators' Handbook); Dropout Data; Cohort Graduation Data	$ 2,926,873.75
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$ 0.00

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ⦿ Yes ○ No	Providing training to staff of proper methods of cleaning and disinfecting including use of personal protective equipment; Offer professional development to reinforce proper hand hygiene and symptom monitoring measures to reduct the transmission of infectious diseases	2020-2021 (July-June); 2022-2023 (July-June); 2023-2024 (July-June)	Clean School Data Emergency Response and Crisis Management Report Safe School Climate Survey Data	$ 0.00
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ○ No	Purchase custodial supplies and equipment for cleaning and disinfecting; Increase personnel and services for cleaning and disinfecting	2020-2021 (July-June); 2022-2023 (July-June); 2023-2024 (July-June)	Clean School Data; Emergency Response and Crisis Management Report; Safe School Climate Survey Data	$ 3,530,364.48

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ⦿ Yes ◯ No	Contract additional services to assist with planning and implementing a coordinated response for maintaining meal distribution and virtual/remote learning during long-term district or school(s) closure; Provide child care (learning centers, before/afterschool, summer camp) for existing and potential educators to avoid disruption of educational services	2020-2021 (July-June); 2022-2023 (July-June); 2023-2024 (July-June)	Student growth and proficiency data (iReady, benchmarks, EOG/EOC assessments)	$ 2,508,850.00
EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ⦿ Yes ◯ No	Procurement of student learning devices (chromebooks, mobile hot spots, etc.) for virtual/asynchronous instruction; Expand information/educational technology personnel for 1:1 learning including virtual and asynchronous, provide technical assistance and inventory maintenance, and increase cyber security administration	2020-2021 (July-June); 2022-2023 (July-June); 2022-2024 (July-June)	Student growth and proficiency data (iReady, benchmarks, EOG/EOC assessments);Discipline Data (Educators' Handbook); Dropout Data Cohort Graduation Data; Technology Survey; NC Teachers Working Conditions Survey	$ 7,269,902.29

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ○ No	Increase instructional personalized supports as requested by schools (Strategic Equity Staffing positions i.e. Mental Health Counselors, Guidance Counselor, Mental Health Coordinator, other student support personnel) to accelerate student learning and provide standardized intervention supports for marginalized populations to address students' social, emotional, and behavioral needs using a Multi-Tiered System	2020-2021 (July-June); 2022-2023 (July-June); 2022-2024 (July-June)	Student growth and proficiency data (iReady, benchmarks, EOG/EOC assessments)	$ 2,615,730.44

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ○ No	Address impact of COVID-19 on learning Improve learning outcomes by providing summer learning opportunities to targeted students; Recruit highly effective teachers for in-person, summer learning; Provide operational support for summer learning including transportation; Cultivate partnerships to provide students meaningful and purposeful summer learning	Summer (June -July 2022); Summer (June-July 2023), Summer (June -July 2024)	Student growth and proficiency data (iReady, benchmarks, EOG/EOC assessments) Cohort Graduation Data	$ 21,110,222.46
	* ◉ Yes ○ No		2020-2021 (July-June); 2022-2023 (July-June); 2022-2024 (July-June)	Teacher Licensure/PRAXIS Passage Rate; Program participant survey; NC Teacher Working Conditions Survey	$ 12,761,409.23

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		Increase teacher pipeline by implementing the Teacher Assistant to Teacher Program in partnership with North Carolina Central University; Support lateral entry teachers and hard to staff high need teaching areas (EC, Math, Science, and Elementary) with PRAXIS test preparation and reimbursement; Target recruitment strategies in collaboration with Hispanic Serving Institutions and Historically Black Colleges and Universities (HBCUs) to attract and retain teachers of color including on-boarding and targeted professional development; indirect cost			
				Total ESSER III Allotment	$ 83,283,352.65

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Durham Public Schools (320) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

GAN Information

Durham Public Schools (320) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Edgecombe County Public Schools (330) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

ECPS Strategic Planning Team worked to develop the needs assessment for the district. Members of the team collected data and input from stakeholders in their department, schools, and community. Principals solicited feedback from teachers and staff and identified individual school needs through a survey. Empathy interviews were conducted with students as well. *Link to Face to Face and Virtual Student Data: https://docs.google.com/document/d/1Q7w00IhOFljGQs2_q4W82-IE1Xj7ivPnlIruoUNRfZo/edit?usp=sharing *65.2% of ECPS are face to face learners and 34.7% of learners remain remote The Exceptional Children's Department has seen a decrease in headcount from 851 to 750 from school year 2018-19 to 2020-21. Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Student Achievement + Educator Effectiveness I-Ready data for students in grades K-8 shows that student progress was minimal in almost every grade. Where there was some gain, the gain was minimal and not what would be expected during a year with all students receiving in person instruction. I-ready is a virtual platform used for diagnostic assessments and personalized learning path. When considering our pre-pandemic EOG data and our most recent MOCK assessment data for all schools, it is easy to see that student achievement has been negatively impacted by our pandemic learning environments. All schools have experienced a drop in proficiency in both reading and math, with greatest losses being seen in the area of math. Projected proficiency scores on our mock high school EOC assessments show that scores increased in Biology and Math 3 compared to final EOC results in 18-19. Mock data shows a decline in projected achievement scores in Math 1 and English 2. Student Enrollment Edgecombe County Public Schools has seen a decrease in student enrollment since COVID. It is believed some families have relocated and others are choosing other options while the pandemic posed significant health risks to face to face learning. With the decrease in ADM, state teacher allotments will be less. In order to provide a high quality education to all students and support all learners, it is important that the district not lose teaching positions as we anticipate the return of students. Losing teachers could create inequities in schools creating additional learning loss. Due to the increase in

learning loss, more teachers are actually needed to provide the necessary remediation. Exceptional Children The Exceptional Children's Department has seen a decrease in headcount from 861 to 787 from school year 2018-19 to 2020-21. Due to COVID the frequency of EC services was decreased due to the amount of time students were in school and the decrease in instructional time. Their services were aligned with the frequency students received on their current IEP. Contingency plan meetings were held for every EC student to reflect the reduction in services during COVID. Early Learning The North Carolina Early Learning Inventory provides us with data regarding how prepared our students are as they enter kindergarten. Students are assessed across 5 domains. The data indicates our youngest learners are entering school with many areas being below the widely expectations. During the pandemic, our PreK enrollment was lower than normal and we are expecting our 21-22 NCELI data to reflect even more students to enter below widely held expectations because they did not have the benefits of our high quality early learning environments. Pre-K enrollment numbers have decreased by 36% due to COVID. We feel the decrease in these numbers is due to parents taking precaution due to COVID. Our typical enrollment months are April and May in each elementary school and local childcare centers. April and May 2020 was the beginning of COVID and our schools and childcare centers were closed which decreased the opportunities for parents to enroll their children. Attendance for Pre-K students has been inconsistent at times due to COVID cases and quarantine. 1:1 In order to accommodate the needs for students in our district to each have access to a device, 2,000 additional devices will need to be purchased. Becoming a 1:1 district will allow our students to access learning and learning resources outside of school hours in order to support the loss of learning that has occurred over the past year. Travel Expenses: Transportation's annual funding allotment from the State of NC is affected by this efficiency rating. Additional use of Yellow buses will need to be funded separately since our funds can only be used for 2 trips per day (TO and FROM school) x 185 days per calendar year. Teacher Turnover Rate: Upon review of Teacher Turnover data for the past five years, Edgecombe County Public Schools is experiencing an overall decrease in its attrition rates; however, we experienced a slight increase of .40% during the 2019-2020 school year as compared to the 2018-19 school year. While Edgecombe County Public Schools attrition rate has decreased over the years, based on comparisons to the state's data, we are almost three times the state's turnover rate. Because of this, we find it necessary to ensure that we are proactively including strategies and various methods of support to retain our teachers as well as rapidly decrease the attrition rates. Student Social-Emotional State ECPS has increased by over 50% the number of students/families requesting school supported therapeutic services this year as a result of COVID. Some of this need as evidenced by student responses on the Panorama survey given to grades 3-5 November 2020 and grades 6-12 March 2021. Specifically, students struggled with questions around GRIT and CHALLENGING FEELINGS. Already marginalized populations (EC, ELL, and Black students) responded least favorably to these question sets which shows that they struggle more than counterparts in these areas. Building Needs: *ECPS has (11) chillers that beyond the 20-25 year life expectancy *(2) of the (11) chillers no long function *CDC recommends Merv 13 or higher rated filters for catching airborne virus and existing AHU and motors will not support thicker filters *ECPS contracted Progressive Design Collaborative to conduct a HVAC

Study and found that the (11) chillers will not support proper air flow nor will they support the thicker filters recommended to prevent virus spread. *(13) schools have inadequate HVAC controls that do not allow for the control of fresh air flowing through the buildings. ECPS can not meet the CDC recommendation of in non-residential settings, running the HVAC system at maximum outside airflow for 2 hours before and after the building is occupied.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 3,945,115.06 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, underline provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Continue to purchase IREADY ($202,572.43): Edgecombe County Public Schools uses I-Ready in K-8 for diagnostic assessments. These assessments are administered three times a year (BOY, MOY, EOY). The results of these assessments leads to a personalized learning path for students. The purchase of IREADY will provide consistent and uninterrupted learning opportunities for both face to face and virtual learners.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

*Provide an aligned curriculum in ELA for all K-12 students which includes EC ($760,000 for 3 years) *Provide an aligned curriculum in Math for all K-12 students which includes EC ($760,000 for 3 years) *Provide Second Step for SEL support to K-8 students. ($14,487 for 3 years) *Provide Ripple Effects for SEL support of 9-12 students. ($68,100 for 3 years) *Provide Hill Rap tutors to close gaps in early literacy specifically related to learning loss. ($248,149.10) *Provide shared MCLs for high school Math, English, and Science to coach teachers and implement evidenced based activities to meet the comprehensive needs of students ($595,497.90 for 2 years) *To provide facilitators for learning hubs. Facilitators will extend student learning from content specific to application. ($89,385.45) *Contract with Emerging Leaders to provide professional development to MCLS and leaders in the area of data disaggregration and

coaching for excellence. MCLs will use strategies learned to work with teachers to address learning loss and implement plans for students. ($91,500)

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

*Contract with TNTP to provide Early Literacy Community Educator Academy ($167,500) Train the trainer *To provide stipends for staff facilitating the TNTP academies. (13,579.65) *To provide supplies for parents to create make and take materials (12,600) *To provide snacks for parents attending TNTP parent academies (6,206.53) *Contract with a Family Counselor to provide parent workshops on how to support students with academic, behavioral, and social and emotional concerns. ($2,000) *Pay a stipend to a Triple P parenting facilitator ($587) *Purchase E-Tips for parents - Provide information to parents on how they can effectively support students especially in distance learning environments ($900)

* (D) Tracking student attendance and improving student engagement in distance education;

*Continuing Learning Pods after school and in the summer. Transportation will be needed for students. Learning Pods will provide additional support to students and families after school, weekends, and during the summer. *Teachers were expected to maintain accurate attendance records throughout the school year (remote and face to face). When teachers recognized a pattern of absences or lack of engagement, after unsuccessful contacts by teachers, the school would use social workers to assist with parent/family contacts to encourage participation. Schools also offered office hours and some recorded versions of live lessons to allow students and families to receive support after regular school hours. *Implement a Virtual Academy to meet comprehensive needs of students and maximize student engagement in distance learning. ($800,000) *1:1 To purchase chromebooks and cases to make the district a true 1:1 district. Students will be allowed to use chromebooks at home for an extension of learning. This extension will address learning loss. ($112,050)

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

*The district has continued to implement our local benchmarks to assist in gauging student success at all levels via Mastery Connect (TE21). This data was easily compared to previous benchmark data. K-8 students have been evaluated using I-Ready diagnostic assessments three times per year (BOY, MOY, EOY) and monthly growth monitoring assessments. This was our first year using I-Ready as an assessment. We were able to look for areas of growth within domains from one assessment period to the next but were unable to compare to the previous year. Schools have used data to guide instruction at their schools.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	*Replace inoperable windows to allow for natural ventilation in buildings. *Purchasing water filler stations *Replace carpet with tile to reduce pollutant and allergen transmission.	June 2021 - June 2024	*Improved indoor air quality test results (Pre and Post Test) Decrease the number of allergens and pollutants present in the buildings.	$ 2,955,000.00

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ○ No	*Purchase exhaust fans to filter air through a carbon filtration system. *Replace chillers to improve air quality. *HAVC upgrade and controls *The 2 story building on the campus of MMA does not have a functioning AC system. It has been recommended by an engineering services to redesign the system to heat and cool the building without using window units. To provide zoned heated and cooled spaces for classrooms, offices, and restrooms along with exhaust fans to filter the air inside of the building.	June 2021-June 2024	*Improved indoor air quality test results (Pre and Post Test) Decrease the number of allergens and pollutants present in the buildings.	$ 3,243,000.00

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$ [ ]
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◉ Yes ○ No		December 2021-July 2022	Goal: Increase proficiency and growth goals met for all subgroups Measure: EOG/EOC data	$ 58,506.43

		Hire Innovative Partner: Providing principals and others school leaders with the resources necessary to address the needs of their individual schools through supporting design processes, and coaching and supporting advanced roles teachers. The person in this role will also support the unique needs of our diverse school population.			
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◯ Yes ⦿ No				$ [ ]

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	*Contract with part time custodians to help sanitize buildings. *Purchase sanitizing supplies to clean facilities and prevent the spread of COVID 19.	June 2021-June 2024	Reduce the number of staff and student COVID infections based on monthly data collected in the ECPS COVID Dashboard.	$ 401,000.06

| LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements. | * ○ Yes ⦿ No | | | | $ |

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ○ Yes ◉ No				$
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ◉ No				$

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◯ Yes ◉ No				$
	* ◉ Yes ◯ No		August 2021-June 2022	*Staff Retention Data, EOG data, iReady Data, Child Nutrition Data *Rate from DPI *Measures may change based on changing needs over time.	$ 1,698,716.65

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		*To provide supplements to staff for their continued support of students by providing services, meeting SEL needs, and meeting the educational needs of students as a result of the impact of COVID. The supplements will also serve as a retention strategy to retain staff and provide continuity of services. ($1,163,970.00) *Indirect Cost ($204,409.61) *Unbudgeted reserve for changing needs over time. ($330,337.04)			
				Total ESSER III Allotment	$ 8,356,223.14

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Edgecombe County Public Schools (330) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

 There are no new applicants.

GAN Information

Edgecombe County Public Schools (330) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Winston Salem / Forsyth County Schools (340) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

WS/FCS uses a continuous improvement process to address needs. Since March 2020, when the community was initially impacted by the pandemic, various existing groups were used to gather input for the district's responses and additional groups are created as new concerns arise. The district continues using established stakeholder groups and district processes for gathering input in the 20-21 school year. Surveys are used as one method to collect input because data are collected and analyzed efficiently since many concerns require swift attention and action. Additionally, data from various surveys are shared among divisions so that information is constantly shared such as the district annual ESSA survey. The groups providing input included, but are not limited to, administration (central office and school-level), school-based personnel (certified and classified), Teacher Advisory Council, Principal Advisory Council, Student Advisory Council, parents/families, Board of Education meetings (public comments and discussions), and community groups. Data from the WS/FCS Safety Tip Line and Assistance Form, both posted on the district webpage, provide stakeholders with opportunities to share concerns and request assistance (food, healthcare, housing, mental health support, transportation, internet access, computer for remote learning, assistance for remote learning). WS/FCS collected more stakeholder input in May 2021 through a series of Town Hall Meetings that were

offered in English and Spanish. Once the feedback was reviewed, the district presented "You spoke. We listened." to the Board of Education and community as part of the district's review and adjust the ESSER plans and budgets. Data are reviewed, priority areas identified, strategies selected to address the needs, and resources aligned with funding allowability in response to the needs. Planning was not isolated to ESSER III funds. Rather leadership identified priority needs and then aligned strategies/use of funds to available funding (including but not limited to ESSER I, II, III, non-federal funds, etc.) maximizing various funding sources. Based on grant funding allowability and periods of availability, the district developed a multi-year plan and will continue to assess and address facilities' conditions, mitigation process, and students' progress in learning recovery. WS/FCS Accountability department evaluators will measure the impact of the district's response by using student data and other measures to monitor progress. The district will then adjust strategies if outcomes are not achieved or not trending in a direction to result in the desired outcomes. Since the identified needs span across many areas, the data used to prioritize the use of funds were extensive to include, but not limited to: student academic data (EOC data, various computer based progress monitoring tools, BOG 3); student engagement data (Canvas usage, instructional personnel feedback, attendance); district's implemented return to in-person instruction plan to include numbers of students served in-person, remote, and enrollment at Virtual Academy; student and employee attendance rates; district vacancy and substitute coverage rates; instructional personnel process and perception data (professional development evaluations; instructional coaches data based on teacher interactions and school requests; Instructional Assistant Principals, Instructional Facilitators, and MTSS Interventionists meetings agendas and feedback); Exceptional Children data such as number of evaluations and re-evaluations needed to ensure compliance; Student Services trend and referral data, availability of community services, and nursing services; Panorama Student, Parent/Families, and Teacher data; WS/FCS district and school level CARES team data including referrals for services both within WS/FCS and the community, technology support requests, translations and interpretation assistance to support parents and families efforts in supporting academic progress; Community Learning Center data including staffing and schedules, utilization rates, and areas of needed support; conditions data for facilities (HVAC systems and watercoolers); PPE and cleaning supplies inventory and usage data; Technology device inventory for students and employees, including adaptive devices, and device conditions' reports. Since impacts of the pandemic continue to emerge, WS/FCS will continue engaging stakeholders in input sessions seeking additional feedback for consideration. Following district process, stakeholder input will be reviewed and considered. Modifications to plans and use of funds will be made, as needed, to support learning recovery efforts.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Although all students wanting in-person instruction returned to buildings, remote learning remains an option from students' assigned schools and Virtual Academy (VA). Around 76% of all elementary school (ES) students returned to in-person instruction (02-2021). According to parent/family survey data, almost 65% of MS and 50% of HS students planned to return to in-person instruction (03-2021). If not participating in VA, students receive remote instruction from classroom teachers who are also teaching students in-person. As of 03-30-21, VA enrollment is about 2000. Parent/family interest in remote learning remains as measured by student assignment data for 21-22. Social-emotional and academic data demonstrate continued students' needs. Panorama data reveal that student self-efficacy has decreased 6 percentage points with only 55% of students believing they can achieve academic outcomes, and only 43% of students believe they can regulate their emotions. For 20-21, the district's attendance remains a challenge with student participating in in-person instruction and virtual. Although the 20-21 EOG/EOC data has not been approved by the NC State BOE, the district's analysis of the data does show declines in achievement levels, a result of the unfinished learning. An additional 1,142 high school students working with the school-based and/or district-based CARES Teams because of not meeting high school graduation requirements. Disengagement challenges continue; school and district CARES Teams work to address root causes for disengagement. Teachers implement strategies to connect with students and families establishing relationships. Teachers and parents/families created 36,596 free accounts on a communication platform and averaged 580 messages a day. With over 85 languages and dialects spoken in the district, EL parents/families need help navigating all the operational changes and understanding academic progress including attendance. EC students have been impacted by the interruption of in-person instruction. IEP evaluations and re-evaluations were halted due to the restrictions resulting in many evaluations and re-evaluations needing to be appropriately completed. Prior to March 2020, substitute teacher and other staff fill rate was 88%; fell to 75%. Most recently with return to in-person instruction, declined to almost 60%. Teachers and central office staff cover classrooms when substitutes due to COVID absences are not secured. Staffing agencies maintain about an 98% fill rate. In Spring 2021, critical positions were vacant, many created by COVID issues. There were 111 school-based, 60 bus driver, and over 40 central office vacancies, all higher than the same period pre-pandemic (03-21). The vacancies have continued and in July 2021, over the LEA has over 150 teaching vacancies specifically in K-12 EC, secondary Math and secondary Science. A adjacent LEA is offering recruitment bonuses, and WS/FCS is experiencing an increase in resignations to this LEA increasing WS/FCS vacancies. There is the need to retain current employees and recruit individuals to fill key teacher positions. Additionally, current staffing for school nurses, social workers, and mental health professionals for over 80 schools does not meet the current needs of students due to the impacts of the pandemic on students' physical, mental, and emotional health and long periods of time away from in-person instruction and access to health services. Current referral data shows that the needs are increasing with the most vulnerable students. There is a continuous need for devices for students and instructional staff (planning for long-term closure as well as in-person instruction). Since March 2020, weekly about 110 Chromebooks/devices are damaged (keyboards and monitors) and needing repair. In-person instruction still requires the of use devices. With the

increased usage, older equipment deployed are failing and devices require repairs to ensure access. Security of all devices and user information is imperative to promote safety of students and employees through continued use of secure video conferencing platform and cloud-based security. Digital and print instructional resources will support the transition to remote learning, if needed, while also accessing prior knowledge to support learning recovery. These resources allow continuous access to resources no matter the learning environment. A district's response includes COVID coordinators at each school as points of contact of preparedness and concerns, lead schools in preparedness activities, and report and manage cases. Based on the district's enrollment, urban setting, county population, mobility of community among adjacent counties, and size of geographical county, an internal contact tracer team is needed to conduct timely tracing within WS/FCS and partner with the health department to reduce the spread within the community. With in-person instruction, efforts to mitigate infection remain a priority. Filters for touchless bottlefill watercoolers and HVAC are needed. Additionally, aging Energy recovery ventilation (ERVs) and HVAC control systems can increase COVID transmission risk. HVAC systems have approximately 10,000 filters per cycle and are changed at 2-month intervals

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 49,578,220.07 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Central Office instructional leaders will provide benchmark assessments (iReady BOY, MOY, EOY, and Common Formative Assessments) as well as a Standard Treatment Protocol and Tiered Supports. Students will also be assigned individual instructional pathways based on formative assessment data. Unit Plans will include both guidance on grade level standards as well as Just Right lesson to address learning loss from the previous year. Ongoing professional development, PLT, and coaching support for teachers will include evidence-based strategies guided by formative data to drive a personalized and differentiated learning experience for students. Academic coaches will

provide support to teachers and instructional staff with the use of data to select appropriate standards-aligned resources, provide coaching feedback as part of job-embedded professional development for the creation and implementation of differentiated lessons, and support with content knowledge. To provide additional student support in the learning recovery efforts, all Title I schools and schools with the federal CSI-LG and CSI- LP and/or TSI-AT and/or TSI-CU designations will have MTSS Interventionists who will work collaboratively with classroom teachers and administration to provide supplemental and/or intensive interventions to identified students. These positions will spend at least 80% of the time providing direct student support and the remaining time can include providing job-embedded professional development (i.e. with classroom teachers: planning for differentiated instruction before interventions begin, reviewing student data, co-teaching).

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

The ESL department will support teachers and students with supplemental academic support with ESL/SIOP coaches who will provide job-embedded professional development to ESL and content teachers for sheltered instruction. Instructional supplies and materials aligned to state and WIDA standards will provide instructional personnel with appropriate resources for strategic teaching and learning in all language domains. Additionally, based on EL and EC student data and the impact of the interrupted instruction, highly effective teachers will engage in Curriculum Writing over the next two years. To meet the needs of EL, teachers will develop curriculum resources aligned with WIDA English Language Development standard; and EC teachers will create pacing guides for the Extended Content Standards. Content and EC teachers will have appropriate calendars and resources to address specific students' needs. The district's continued use of digital resources, for both in-person and remote instruction, supports teaching and learning efforts in various content areas and is part of the response to learning recovery. Examples include, but are not limited to, iReady, NewsELA, TurnItIn, and supplemental content area materials such as students' decodables and leveled readers. Elementary and secondary schools use iReady to differentiate instruction for students with the dynamic program focusing on students' needs. NewsELA offers standard-aligned digital resources to increase reading, social studies, and science knowledge and skills and allows for equitable access and content continuity with existing instructional materials. NewsELA also contains lessons and activities that address social emotional learning. TurnItIn provides secondary ELA teachers with a tool that allows personalized feedback to students and promotes collaboration among teachers and students with reading and writing. Offering multiple supplemental and intensive interventions and extended learning opportunities to support students' learning recovery, including but not limited to, extended school year, supplemental reading teachers, MTSS interventionists at select schools, and extended learning programs at all schools and community learning centers. In response to the interruption to in-person learning, summer school offerings are expansive over the next few years. Currently, over 15,000 students who were negatively impacted by the change to remote learning, as measured by available formative data and BOY/MOY data, are invited to a five-week summer enrichment program. Teachers for the program must be highly effective and recommended by current

supervisors. Instructional materials are strategically selected by district content directors (i.e. math, ELA, science). During 21-22 and subsequent years, based on funding, the district will continue the Extended Learning Program at each school. Schools implement plans to address the specific needs of students through remediation or front-loading during tutoring. Lastly, some select schools will offer extended school years with additional days prior to the rest of the district starting. The additional time provides support teachers and students in select Title I schools as intensive support within the district turnaround network. Each high school will have a graduation coach that will provide school-based, multi-faceted framework of instructional support and intervention for students identified at-risk of dropping out and/or failing to graduate with their cohort. Coordination of wraparound services at specific schools with highly vulnerable students including EL newcomers responding to specific student needs. Contracting with a staffing agency to secure substitutes for teacher absences ensuring coverage in all classrooms due to teacher infections/exposure. Offer recruitment/retention incentives for summer school teaching assignments since experiencing difficulty securing enough teachers to meet the demand of students and families requesting services. Recruitment/retention bonuses at select schools and for specific, hard to fill positions (i.e. EC and Math) with high quality candidates. While the district had existing challenges of filling vacancies pre-pandemic, the pandemic has made the task of filling positions more difficult and feeling some classrooms without permanent, highly effective teachers.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Resuming and expanding the Family Literacy programs is imperative to support EL progress. WS/FCS's programs use the Toyota Family Literacy program model. In support of non-English speaking families, additional bilingual Parent Liaisons will be used to supplement the district CARES Teams by providing connections between school and families in areas such as attendance and academics. The district is also continuing the CARES Team model that began with ESSER I funding that offers support to parents, families, and students both at the district and school level to address challenges students are facing and that impact learning. District teams that serve within the communities consist of cross-divisional members such as technology assistants to provide technical assistance for connectivity and using on-line resources, parent liaisons to assist families with community resources and also school resources to ensure the needs of the students and families are addressed, and community center personnel to offer after school academic support. School CARES Team members provide referrals to district CARES Team for students who are presenting with challenges and barriers to learning recovery such as attendance. Also, based on current teachers and school use of a basic version of a communication platform that is aligned to the district's Learning Management System (LMS) and is allowed within the district policy and procedures, the resource will be purchased districtwide allowing all parent and families access to information that supports their efforts in monitoring student progress and learning. The district's "Our Safe Return" website is updated with new information as operational changes occur and videos, FAQs and

Resources for families in support of students. Lastly, the Office of Early Learning is actively in the community for Family Outreach to ensure students are registering.

* (D) Tracking student attendance and improving student engagement in distance education;

In March 2020, WS/FCS began measuring attendance and engagement by the number of students that were active in Canvas (WS/FCS's Learning Management System) on a weekly basis. In the 20-21 school year the district modified its measures and now monitors grades, formative and summative assessments, and attendance. District and school-level CARES teams with school personnel, coordinate responses for students with limited engagement and attendance concerns. CARES Teams remain in place and will continue supporting students, families, and schools, including schools not offering remote learning. In 21-22 only Virtual Academy (ES and MS) and the new Virtual Academy - High School will offer remote learning opportunities as long as the district does not have to implement short-term and/or long-term closures. Using the continuous improvement cycle, district and school staff refine processes through the 20-21 school year to fully support the coordination and communication to ensure the needs of students are addressed when engagement and attendance are concerns. The coordinated support includes, but is not limited to, linking students and families to community resources if the barrier(s) to engagement can be addressed with community partners and services, deploy CARES Teams Technology Assistants to ensure students can utilize the educational technology resources and digital resources, refer students to Community Learning Centers where supplemental support is provided to students and families through partnerships with the community, additional support and professional development to instructional staff at the Virtual Academy to ensure high engagement opportunities are provided to students.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

K-8 students will be assessed using iReady benchmarks and assigned personalized learning paths. Teachers will use the iReady data from the 20-21 school year to the 21-22 school year data to track growth and target specific areas of strength. The Accountability Department will collaborate with the Instructional Services team and school-based staff to effectively utilize the Performance Matters platform to triangulate data and determine specific needs for students. Edgenuity MyPath will be utilized to conduct pre-assessments and design learning paths for students in grades 9-12. In addition to district benchmark assessments and common formative assessments, the district will provide standards-aligned instructional resources, unit plans, check points, and unit assessments to target and drive data informed instruction. District coaches will work collaboratively with teachers during PLTs to unpack standards and utilize data to select the most appropriate resource and instructional strategy to design meaningful experiences for students to take ownership of their learning and demonstrate content mastery. Professional development, coaching, and PLT support will be used to design support for teachers and school leaders as they develop a systematic approach to using data to maximize instructional time and improve academic performance.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ○ No	- Maintain all water coolers with touchless bottle-fill watercoolers	Throughout the grant's period of availability	- Lower/elimination of viral transmission via watercoolers - Increased instructional time (reduced absences) - Increased student learning as measured by summative and formative assessments	$ 45,070.99
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ○ No	- Repair and replacement of almost 175 ERV providing outdoor air ventilation to buildings - Maintain clean air supplied to HVAC systems - Replace failing HVAC Control Systems	Throughout the grant's period of availability	- Lower/elimination of viral transmission via air circulation - Increased instructional time (reduced absences) - Increased student learning as measured by summative and formative assessments	$ 14,350,487.00

11/10/2021 9:42:54 AM

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ◉ Yes ○ No	- Additional nurses addressing COVID and non-COVID related health issues among students specifically for the most vulnerable students.	Throughout the grant's period of availability	- Lower/elimination of viral transmission - Increased instructional time (reduced absences) - Increased student learning as measured by summative and formative assessments	$ 425,000.00
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◉ Yes ○ No		Completed by September 30, 2022	- Increased student learning as measured by summative and formative assessments - Increase teacher efficacy	$ 540,800.00

		- Contract and/or employee additional duties speech language pathologists, occupational therapists, EC facilitators, to complete evaluations and/or re-revaluations - Current staff will provide specially designed instruction provided to identified students			
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	- Reduce risk is of transmission within schools during summer school appropriately cleaning rooms and facilities especially high touch surfaces. - Additional cleaning during summer school programs	Throughout the grant's period of availability	- Lower/elimination of viral transmission via hard surfaces - Increased instructional time (reduced absences) - Increased student learning as measured by summative and formative assessments	$ 7,800,000.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ⊙ Yes ○ No	- Offer all students an option of virtual learning due to the continued presence of COVID-19 through the Virtual High School	Throughout the grant's period of availability	- Increased student learning as measured by summative and formative assessments - Increased positive connections and relationships in school (peers and adults) - Increased positive perceptions about learning and the instructional opportunities	$ 1,542,240.00
	* ⊙ Yes ○ No		Throughout the grant's period of availability		$ 12,573,340.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		- Purchase Chromebooks adaptive and assistive devices, cases, charging lockers, and charging adapters; laptops; hotspots, support services and to all students in grades 3-12 and instructional staff to support virtual instruction and to access resources during in person instruction. - Support for maintaining inventory control, cleaning, and repairing devices. - Software to support student engagement through collaboration with video and audio submissions for lessons and activities.		- Increased connections and relationships in school (peers and adults) - Increased positive perceptions about learning and instructional opportunities - Increased student learning as measured by summative and formative assessments - Increased usage of digital resources and application in learning	
		- Offer			

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◉ Yes ○ No	...Offer professional development to school staff, EC instructional staff, student services staff to enhance knowledge and skills to support students experiencing trauma because of the pandemic. - Coordinate and address student needs based on COVID by offering support from SEL coaches, counselors, and social workers providing Tier II and III interventions to students, referral students and parents to community and mental health resources, establishing home-school connects, and coordination of	Throughout the grant's period of availability	- Increased connections and relationships in school (peers and adults) - Increased positive perceptions about learning, instructional opportunities, self, and community - Increased students' efficacy - Increased student learning as measured by summative and formative assessments - Increased instructional time (reduced absences)	$ 2,916,000.00

		enrollment based on anticipated higher mobility rates. - Offer Tier II and III supports for all student by Mental Health Coaches and/or Specialists in the areas of CBT, DBT, individual and family sessions.			
SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ⦿ Yes ◯ No	- Expanding summer school offerings in grade K-12 to addressing learning recovery, increase engagement, and social-emotional needs (funds included in Addressing Learning Loss above). `	Each summer throughout the period of the grant	- Increased connections and relationships in school (peers and adults) - Increased positive perceptions about learning and instructional opportunities - Increased student learning as measured by summative and formative assessments	$ 0.00
		- Provide multi-day professional development to instructional staff	Through the grant's period of availability		$ 8,461,388.93

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ◯ No	regarding standards-aligned instruction and appropriate resources prior each school year with attention on specific areas of student needs due to interrupted instruction during the pandemic and to support learning recovery. - Offering retention bonuses to current WS/FCS employees meeting specific employment terms for a one-time bonus to be paid in October 2021. - Offering and K-12 EC, secondary math, and secondary science teachers with retention bonuses for two years. - Offering recruitment bonuses to		- Increased student learning as measured by summative and formative assessments - Increase teacher efficacy	

		bonuses to candidates filling the 150 current vacancies to have qualified teachers in all classrooms for the start of schools. - $58,374,432.94 will be budgeted in this line again item once all of the LEA allotment is released. The line was reduced to clear an error message and allow the submission of the application.			
		Total ESSER III Allotment	$	48,654,326.92	

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.

*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Grant Details

Franklin County Schools (350) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Beginning in April of 2021, Franklin County Schools (FCS) began efforts to reassess district-wide needs in response to the continued impacts of Covid-19. As a primary step, FCS Leadership met and developed a survey to gather data that provided important insights into needs from across the district. Once the survey development was completed, it was then distributed to district departments and building leaders to review and provide perspective and feedback from their specific lens. Specific to the schools responses, schools held SIT meeting where provided needs surveys were reviewed and completed collaboratively. This approach was taken to be inclusive of all stakeholders as needs were determined and data compiled. District level surveys were completed by departments with the input of support staff. Stakeholder group feedback gathered includes: District Level: - Curriculum and Instruction - Human Resources - Maintenance / Custodial - Child Nutrition - Testing and Accountability - AIG / Arts Education - Finance - ESL / EC / Special Populations School Level: - Administration - Classified Staff - Teachers - Parents - Counselors - Nurses Meeting were held at the district leadership level to review survey responses and build a budget and plan outline to address the identified needs from department and school level input. Meetings were held on: April 14th, 23rd, 27th, and May 5th.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Due to the additional funding allotted in ESSER III PRC 181, the identified priorities in ESSER II PRC 171 were focused on allocation to schools for the support of school level needs with a small reserve for immediate capitalized air quality needs. The ESSER III PRC 181 funds will fulfill more district level, capitalized project priorities that will extend across multiple years. District level Departments and Schools have identified, in collaboration with building level stakeholders, needs related to Covid-19. The compilation of survey responses Needs that have been identified following district meetings and survey collection data was reviewed and includes, but is not limited to: - Education Technology devices for enhanced instruction for remote learning needs - Technology needs - including equipment, staff support, and software provisions - Learning loss - needs for tutoring and additional instructional supports - New and continued need for supplemental education technology resources to support face to face instruction as well as remote leaning needs - Facility Improvements, specifically to air quality - Instructional supply flexibility - For both face to face and remote learning needs - Special populations supply and equipment needs - Sanitation supplies and resources at all building and school locations

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 5,742,060.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

The measures taken by Franklin County Schools (FCS) to address learning loss is being developed through a lens that prioritizes equity and is comprehensive and inclusive of all learning stakeholders. In the outline below, areas of general approach are provided: Education Technology: As a supplemental tool for instructional support, a wide-ranging product

resources has been complied and provided to support students as a result of learning loss. Education Technology resources being leveraged include: (All listed education technology tools support diverse leaning needs, as well as a parent and/or family's ability to support/reinforce learning at home) i-Ready - Supplements instruction through intuitive learning pathways in Math and Reading for students from Kindergarten through 8th Grade. This is a powerful supplemental tool for students of all levels of learning abilities and meets students where they are academically. i-Ready supports the needs of EC learners and Regular Education students. Additionally, Our district focus on this intervention strategy supports both remote students and well as those who are learning face to face. Smarty Ants - is being provided to supplement i-Ready as a remote option and resource that supports K-2 Phonics. This gaming approach to phonics engages young learners in critical phonics and language acquisition. Other education technology resources such as NewsELA, RazKids, Mystery Science, and others are also being identified to supplement core instruction, identify student learning gaps, and support areas of weakness within grade level standards and skills. Tutoring: Our district is developing a tutoring program that will be operationalized at the school level and supported from the district. Teachers are being offered opportunities to spend additional time working with small groups and individual students to address learning needs. Tutoring will focus on our most At-Risk populations and struggling learners as a top priority. Tutoring resources will be available at each district school. Summer Learning activities: Beginning in the summer of 2021, Franklin County schools will hold its first in a series of future SL opportunities to take place between now and the Summer of 2024. FCS SL activities have been outlined in Part D in the ESSER II application. Curriculum FCA Work: District Curriculum teams are being formed to address the grade level and content area curriculum and resources to be used to support core instruction across the entire district. This collaborative effort involves input from district stakeholder groups and provides a research and data based approach to addressing grade level / content standards and skills. This process will use EOY formative and summative assessment results to build and reinforce priority and power standards based on identifiable student weaknesses. FCS understands the importance and foundational need for building and providing an equitable and comprehensive core instruction to all student populations which can be used virtually or face to face. Reading Interventionists: - 1 Interventions will be added to LES, FES, & RES to support reading improvement efforts for students in these three elementary schools. Middle School Instructional Coaches: - 4 Instructional Coaches will be added, one at each of the 4 district middle schools (BMS, CCMS, FMS, TLMS) to strengthen curriculum provisions and support instructional practices for MS teachers and classrooms.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

As a foundational approach to addressing learning loss, FCS will utilize many data points to determine the needs of our learners. Formative and Summative data will be leveraged to pinpoint academic weaknesses, strength, and areas for instructional intervention. Highlighted again below are a few evidence-based approaches to what the data sources indicate as needs for each individual student. FCS evidence-based approaches include, but are not limited to:

11/10/2021 1:54:09 PM

Education Technology: As a supplemental tool for instructional support, a wide-ranging product resources has been complied and provided to support students as a result of learning loss. Education Technology resources being leveraged include: (All listed education technology tools support diverse leaning needs, as well as a parent and/or family's ability to support/reinforce learning at home) i-Ready - Supplements instruction through intuitive learning pathways in Math and Reading for students from Kindergarten through 8th Grade. This is a powerful supplemental tool for students of all levels of learning abilities and meets students where they are academically. i-Ready supports the needs of EC learners and Regular Education students. Additionally, Our district focus on this intervention strategy supports both remote students and well as those who are learning face to face. Smarty Ants - is being provided to supplement i-Ready as a remote option and resource that supports K-2 Phonics. This gaming approach to phonics engages young learners in critical phonics and language acquisition. Other education technology resources such as NewsELA, RazKids, Mystery Science, Ready Rosie, and others are also being identified to supplement core instruction, identify student learning gaps, and support areas of weakness within grade level standards and skills. Tutoring: Our district is developing a tutoring program that will be operationalized at the school level and supported from the district. Teachers are being offered opportunities to spend additional time working with small groups and individual students to address learning needs. Tutoring will focus on our most At-Risk populations and struggling learners as a top priority. Tutoring resources will be available at each district school. Summer Learning activities: Beginning in the summer of 2021, Franklin County schools will hold its first in a series of future SL opportunities to take place between now and the Summer of 2024. FCS SL activities have been outlined in Part D in the ESSER II application. Curriculum FCA Work: District Curriculum teams are being formed to address the grade level and content area curriculum and resources to be used to support core instruction across the entire district. This collaborative effort involves input from district stakeholder groups and provides a research and data based approach to addressing grade level / content standards and skills. This process will use EOY formative and summative assessment results to build and reinforce priority and power standards based on identifiable student weaknesses. FCS understands the importance and foundational need for building and providing an equitable and comprehensive core instruction to all student populations which can be used virtually or face to face.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Education Technology: As a supplemental tool for instructional support, a wide-ranging product resources has been complied and provided to support students as a result of learning loss. Education Technology resources being leveraged include: (All listed education technology tools support diverse leaning needs, as well as a parent and/or family's ability to support/reinforce learning at home) i-Ready - Supplements instruction through intuitive learning pathways in Math and Reading for students from Kindergarten through 8th Grade. This is a powerful supplemental tool for students of all levels of learning abilities and meets students where they are academically. i-Ready supports the

needs of EC learners and Regular Education students. Additionally, Our district focus on this intervention strategy supports both remote students and well as those who are learning face to face. Smarty Ants - is being provided to supplement i-Ready as a remote option and resource that supports K-2 Phonics. This gaming approach to phonics engages young learners in critical phonics and language acquisition. Other education technology resources such as NewsELA, RazKids, Mystery Science, Ready Rosie, and others are also being identified to supplement core instruction, identify student learning gaps, and support areas of weakness within grade level standards and skills. FCS will operate and maintain two learning management platforms that serve as communication portals for instruction and communication. Google classroom will be used to support students and their families in our elementary schools, while Canvas will serve as the primary LMS in support of secondary families. Communication: The School Messenger platform is/will continue to be leveraged as a communication portal for school and district messaging. In recent survey responses, FCS families have reported with overwhelming support/approval for district and school communication. The data confirms the successful use of the platform as a tool to support families through important and consistent information sharing and feedback collection. Additionally, individual from varied departments have been added as additional parent outreach support. As an example, FCS has added two individuals with additional duty responsibilities who have been given up to 25 hours per month for parent outreach specifically targeting families of EL students. They are reaching out to support attendance, academic concerns, sharing important updates, and to engage with families they may be struggling. They provide parents with support to effectively assist their children. This additional duty outreach support has been replicated to support other departments as well. Parent Family Liaison: FCS employs a Parent and Family Liaison who serves to support families in a variety of ways. Her primary areas of parental support currently is kindergarten readiness, district level parent needs, early learning needs, family/student enrollment, parent and family feedback gathering and information sharing, among others.

* (D) Tracking student attendance and improving student engagement in distance education;

FCS has begun and will continue to develop student engagement and attendance through a newly formed "Attendance Task Force" established by the district Chief of Academics. Regular meetings have been held, with seven meetings held between December 2020 and March 2021. The work of the task force has/will continue to focus of developing attendance teams to respond to student attendance and engagement efforts and develop and support school level attendance teams with best practice approaches. In early work the district task force has established and communicated best practice to be followed as outlined below: Team Members: The work of the attendance committee is maximized when all relevant staff participate. It is crucial that the classroom teacher(s) are involved in the work to the greatest extent possible. Scheduling meetings to accommodate all team members may be challenging. If not possible, having a method for collecting feedback on the student is a must. Recommended team members include: Administrator (Principal or Assistant Principal) Social Worker School Counselor School Nurse Data Manager Exceptional Children's Teacher, if applicable Artifacts: During the meeting, artifacts that support school concerns and student's academic

performance are shared with the team. These documents are used to highlight patterns of attendance, reasons for absences, communication attempts, etc. Recommended artifacts may include: Attendance reports McKinney-Vento information Discipline referrals Medical Updates Progress report/Report card Documentation for outside services Communication log Interventions or MTSS status Meeting Frequency: Frequent meetings of the committee are necessary so that concerns are addressed in a timely manner. Principals or administration should schedule these meetings early in the year so that all meetings are on team members' calendars as early in the year as possible. Meetings may need to occur more often than originally scheduled based on student need. Frequency: Every two weeks on the same day of the week and time Role of the Classroom Teacher: A child's classroom teacher (both regular education and special education) can provide invaluable feedback to the attendance committee. To the greatest extent possible, classroom teachers should be involved in the work of the attendance committee. While scheduling may be difficult due to teaching times and afterschool commitments, schools should solicit feedback and information from classroom teachers for use by the attendance committee. Teachers should be provided with ample time to provide all relevant information. Classroom teachers: Can provide important background information regarding student attendance concerns Should receive feedback from the attendance committee on ways to engage students with attendance/academic concerns Should maintain a communication log on all contact attempts and outcomes Provide any relevant updates to school data managers so that information in PowerSchool is accurate. All attendance records must be maintained correctly and updated, as needed. School Efforts to Improve Effectiveness of Committee: The work of the attendance committee rests with the schools. To best support students, establishing processes and procedures that support this work are critical. Efforts to improve the work include: End each meeting with action steps so that everyone is clear about next steps. Review completed steps at the end of each meeting. Involve teachers when possible. Invite them to provide feedback on students, communicate with them more often, encourage them to be the first contact when a student is absent. When needed, schedule time for more meetings when the case load becomes extensive. Keep everyone in the loop and updated. This includes administrators, social workers, teachers, school counselors, data managers, school nurses, etc. Attendance at committee meetings must be a priority for team members.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Below is district guidance to assist principals as they track and evaluate student academic performance following this past school year. Review Team Schools are encouraged to establish a process that allows a team of individuals to review individual levels of academic performance. This might be one team or it might be a series of teams such as grade levels or middle school teams. Teams might consist of teachers, social workers, school administration, and other staff who can speak to the performance of students and provide learning recommendations. Current Academic Performance Schools are encouraged to examine current academic performance seeking to determine student level of

proficiency in state standards. Historical Academic Performance Given the unique circumstances of this school year, it's important that schools review a student's historical academic performance to determine how a student has typically performed in school. This might be a strong indicator of the impact of COVID-19 on student performance. Previous Retentions When a student retention is being contemplated, one important consideration is to review cumulative records to rule out a previous retention. Reviewing records will eliminate situations of multiple retention. Student Performance Data Schools should review NC Checkin Data, iReady Data, previous/current EOG data, and any other appropriate data to assist with determining student proficiency and grade level academic performance. Attendance Attendance may be a deciding factor for retention only if there was minimal to no contact between the student and the core academic teacher(s) throughout the school year. Otherwise, attendance should not be the only factor considered when determining promotion/retention. Best Educational Interest of the Pupil Consider known hardships related to COVID-19. Also, consider whether promotion or retention will have a positive or negative impact on the student as it relates to the student's pursuit of academic growth resulting in the receipt of a high school diploma. In keeping with G.S. 115C-288, principals are encouraged to exercise their right by law to make the final determination regarding promotion/retention and consider what's in the best of the interest of the pupil. Potential Summer Learning benefits - Schools should work to support and encourage participation in summer learning opportunities for eligible students.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
		Funds for this allowable			$ 2,333,203.00

| FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs. | * ⦿ Yes ◯ No | use category will support the installation of GPS systems in HVAC units & additional upgrades to improve air quality CN upgrades for efficiency needs in cafeteria, and equipment, furniture and supplies to reorganize classrooms to keep student/staff safe in accordance to health/safety guidelines. Specific Projects Include: - Replacing booths and seating which limit spacing of students with 14 cafeteria new tables at Bunn Elementary school to increase seating and spacing as a result of covid related restrictions. There is potential for this same provision at other sites moving forward. - Contracting with a 3rd party vendor for the purpose of determining facility upgrades/improvements related to covid-19 needs. - HVAC | July 1st, 2021 through September 30th, 2024 | Additional seating installed, work completion as approved by district maintenance and regular equipment use by district child nutrition staff and the enhanced ability to . Impact surveys will be developed and disseminated to the appropriate stakeholder groups to gather impact feedback data. | |

		Upgrades / Improvements requested to improve air quality include: (Replacement and repairs to HVAC are pending 3rd party recommendation) - Sites included in evaluation and possible upgrades - BES, BMS, FHS, & LES. (All schools) 9.16.21			
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ◯ No		July 1st, 2021 through September 30th, 2024		$ 1,891,000.00

| | | Funds for this allowable use category will support new screens for windows, an Air Quality Study and Air Filter/Screen replacements for central offices, and replacement of Air Filters & screens at the school level. Additionally, funds will provide enhanced outdoor cafeteria seating at school sites. Specific Projects Include: - The addition of outdoor seating/benches at Louisburg High School to expand seating for meals and outdoor mask breaks. There is potential for this provision at other sites moving forward. | | Additional seating installed, work completion as approved by district maintenance, and the regular use of seating by students. Impact surveys will be developed and disseminated to the appropriate stakeholder groups to gather impact feedback data at the conclusion of work and/or once equipment has been received and put into use. | |
| | | Funds for this allowable use category will support FCS efforts to contract with a 3rd party | | | $ 215,652.00 |

| COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus. | * ○ Yes ○ No | vendor to collect, analyze, and report data related to the overall impacts of COVID. Workshops, advertisement, printing and distribution of material in coordination with local & state agencies for support and training will also be provided. Specific Projects Include: - To improve the ability of schools and the district to contact trace, cameras will be added to remaining buses without an existing camera. - To improve the ability to route and transport students to meet unique learning needs and support additional student transportation needs; a Transportation Support Position will be added within our transportation department. 9.16.21 - To improve the ability to socially distance additional activity buses will be purchased to better separate | July 1st, 2021 through September 30th, 2024 | Impact surveys will be developed and disseminated to the appropriate stakeholder groups to gather impact feedback data at the conclusion of work and/or once equipment has been received and put into use. | |

		better separate students traveling on activity buses to and from sporting events and other school sponsored activities. 9.22.21 - Funds will be used to support the purchase of a delivery truck to mitigate the 500% increase to supply delivery needs to schools as a result of Covid-19. (Added 10.19.21) - An additional Nurse Position added to support the increased need for contact tracing and parent communication (Added 10.19.21) - Funds will support additional duty Saturday support of meal deliveries to schools as a result of supply chain challenges. Employees would work up to 5 hrs each and only as needed. (Added 11.2.21)			

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ○ No	Funds for this allowable use category will provide non-digital remote instruction resources to students with limited connectivity Additionally, funds will provide equipment and furniture for adaptive services needed for EC-Pre-k, Speech, AIG & LEP students. Postage & Travel for SW's will be provided as they provide additional supports to special student populations. Funds in this use category will provide Adaptive device needs for students with disabilities and additional duty funding for Social workers and mental health workers as needed.	July 1st, 2021 through September 30th, 2024	Impact surveys will be developed and disseminated to the appropriate stakeholder groups to gather impact feedback data at the conclusion of work and/or once equipment has been received and put into use.	$ 1,036,831.00

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◯ Yes ◉ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ◯ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ◯ No		July 1st, 2021 through September 30th, 2024		$ 2,161,466.00

		Funds for this allowable use category will support the provision of maintenance equipment to provide in-house servicing to grounds and delivery of COVID supplies to schools & Operational Disinfecting Supplies, the distribution of posters for safety & sanitization, and the allotment of funds directly to the school level to follow protocol for sanitization and disinfection of classrooms.		Impact surveys will be developed and disseminated to the appropriate stakeholder groups to gather impact feedback data at the conclusion of work and/or once equipment has been received and put into use.	

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ⦿ Yes ◯ No	Funds for this allowable use category will support the additional expansion of outdoor seating needs if virus transmission increases in buildings. Also, this funding category will support equipment upgrades to expand meal delivery options in the event of future closures.	July 1st, 2021 through September 30th, 2024	Impact surveys will be developed and disseminated to the appropriate stakeholder groups to gather impact feedback data at the conclusion of work and/or once equipment has been received and put into use.	$ 843,084.00
	* ⦿ Yes ◯ No		July 1st, 2021 through September 30th, 2024		$ 1,801,463.00

| EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment. | | Funds for this allowable use category will support, based on the District Technology Plan, the allocation of technology equipment and devices based on ADM, school level needs and as developed by FCS Classroom Device Committee priorities. Additionally, funds in this category will be allotted for software enhancement to support technology device upgrades based on Classroom Device Committee priorities. Funds will also support: A Cyber-Security contract and Additional IT duties Document Camera / Web Cams for all schools Provision of Cyber Security for Windows devices that leave the district network (Added 10.19.21) | | Impact surveys will be developed and disseminated to the appropriate stakeholder groups to gather impact feedback data at the conclusion of work and/or once equipment and/or devices have been received and put into use. | |

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ◯ No	Funds for this allowable use category will support contracted health support personnel for students, Social Workers, and Mental Health contracts to support EC students and other special populations.	July 1st, 2021 through September 30th, 2024	Impact surveys will be developed and disseminated to the appropriate stakeholder groups to gather impact feedback data at the conclusion of work and/or once equipment has been received and put into use.	$ 215,496.00
	* ⦿ Yes ◯ No	Funds for this allowable use category will support and supplement the District Summer Learning Plan as outlined in Part D of ESSER II Summer Learning Plan subsection. Funds will support staffing, transportation, supply, and leadership summer learning needs.	July 1st, 2021 through September 30th, 2024	Impact surveys will be developed and disseminated to the appropriate stakeholder groups to gather impact feedback data at the conclusion of work and/or once	$ 1,500,000.00

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.				once equipment has been received and put into use. Impact measures for this allowable use category also include: - Summer leaning student attendance - Summer leaning staff rosters - Student achievement growth as measure by K-8 i-Ready Math/Reading pre and post assessments - RTA 3 Grade Test Results - HS credit recovery totals	

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ○ Yes ○ No	Funds for this allowable use category will support and supplement Athletics & Band Covid related protocols, Attendance Incentives, ADM Fluctuation, Fiscal monitoring and compliance. Specific Fund Uses Include: - Additional Nursing position to support 2 elementary schools - Bunn Elementary and Laurel Mill Elementary School.	July 1st, 2021 through September 30th, 2024	Impact surveys will be developed and disseminated to the appropriate stakeholder groups to gather impact feedback data at the conclusion of work and/or once equipment and/or devices have been received and put into use.	$ 2,457,343.00
				Total ESSER III Allotment	$ 14,455,538.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Franklin County Schools (350) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - New Applicant Summary

 There are no new applicants.

Franklin County Schools (350) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Gates County Schools (370) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

On March 13, 2020, COVID-19 plagued our country and we were forced of shut schools down indefinitely. As a result, teachers and students had to quickly transition from the traditional face-to-face academic setting in the classroom to a virtual learning environment that consisted of meeting daily on platforms such as Zoom, Google Meet, and Google Hangout. The transition was not difficult for some; however, others were left feeling lost. Even in our quest to educate students, COVID-19 shined a bright light on the many disparities present in our school system and in some of the homes of our students. Gates County Schools is not a 1:1 school district and struggle to provide all students with technology devices. Additionally, all students do not have Internet access in their homes nor do they have technology devices to use at home. There are also certain areas of Gates County that do not have the appropriate infrastructure for Internet which makes it difficult to ensure that all students have equal access and equitable learning opportunities. As a result of COVID, the Superintendent, Assistant Superintendent, Board members, and Principals meet weekly to discuss the lack of resources available for students and the learning gaps that are being displayed by students and identified by teachers as a result of having to learn in the virtual environment. Due to COVID-19 closures, it has been determined that students have experienced regression or learning loss over the last 14 months based on classroom

and iReady benchmark assessments. iReady benchmark data for reading showed that approximately 52% if students were functioning academically on Tier 1, 31% functioning on Tier 2 and 18% functioning on Tier 3. iReady data for math revealed that 38% are functioning at Tier I, 43% are functioning on Tier 2 and 19% are functioning at Tier 3. Since returning to school face to face, data indicates that at least 65% of the total student body is demonstrating significant learning loss for grade. After reviewing the data, weekly meetings were held with school administrators, teachers, parents, students, board members and district level staff to engage in a needs assessment to determine what the needs of our students. As a result of ESSER II funds, Gates County will provide the following services and resources to students and staff: - Compensatory education services, extended school year and tutoring will be provided to EC students. Since COVID-19 came in abruptly and schools closed, related services personnel were not able to complete therapy sessions. Data supports that 40 students require EC Instructional Services, 2 students require Physical Therapy, 5 students require Occupational Therapy, and 11 students require Speech Therapy. Additionally, more students have been identified as needing related services as a result of COVID. IEP meetings must take place to share finding and ensure services are provided to student that meet their needs. Extended school year dates will run concurrent with the summer program for all students and compensatory education will be scheduled through December 2021. - Gates County Schools will hire additional teachers to help close the academic gaps and address learning loss created as a result of COVID-19. Data indicates that students in grades 3-5 are showing signs of strong learning loss due to COVID-19 in both math and reading. Summative assessments in math demonstrates that 70% of the total student enrollment in grades 3-5 are achieving below grade level or maintaining the same proficiency as demonstrated prior to COVID-19 in both math and reading. - Gates County Schools will hire a K-12 Literacy Coach/ISCs to address the literacy needs of students. ELA assessment data shows that students are demonstrating proficiency below grade level in grades K-8.The Literacy Coach and ISCs will provide professional development and support to teachers in order to help them address the individual needs of all students. The Literacy Coach will be a fully trained Letterland trainer who will help to provide resources and pedagogy support to teachers in early grades that will help close academic gaps. * Gates County Schools will hire a School Counselor to assist with providing socio-emotional support for students that may have increased due to COVID. *. Tutoring will be offered to all students who are functioning one to two grade levels behind as a result of learning loss from COVID as well as residual loss prior to COVID. Data from iReady assessments will be used to identify students who would benefit from tutoring. *. Learning Support Assistants will be hired to assist classroom teachers with providing small group and individual instruction to students who require more intense academic instruction as a result of learning loss. - Current Floor machines and Kaivac cleaning systems do not adequately support proper cleaning and sanitation measure that need to be implemented as a result of COVID. Purchasing new equipment will provide all schools with necessary floor machines and Kaivac cleaning systems that will be housed at each school. - Chromebooks will be purchased for student use both in the classroom setting and in the virtual setting at home. Data revealed that at least 35% of the total student population do not have technology devices at home nor do they have Internet access. *. EC Coordinator will be paid

an additional responsibility to manage additional caseloads and compliance matters as a result of COVID. *. Office staff and Grant manager will be paid an additional responsibility stipend to maintain ESSER III and ensure compliance with all federal regulations. *. Compact Needlepoint Ionization Devices will be purchased to improve air quality at each school to ensure safe and operable buildings free of germs as a result of COVID. * Recruitment and Retention bonuses will be paid to attract teacher in hard to fill areas as a result of COVID

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

As a result of the data in Part A, the following will occurs; * Compensatory education and extended school year services will show growth in 45% of all EC students. Students will show an increase in learning loss due to COVID-19 and students will come closer to functioning on their grade level. Extended school year services and assessments will illustrate growth in students. * Additional Chromebooks will provide technology education for all students in Gates County Schools. We will close to offering a 1:1 initiative for all 1453 students. As a result, students will engage in more individualized learning and they will remain current in all class assignments. * Recruitment and Retention bonuses will attract teachers to the areas and retain them. North Carolina teacher starting pay is significantly lower than other states; therefore, paying teachers a sign on bonus or reimbursing them for professional license fees or college courses will entice them to remain in Gates County Schools. * The Literacy Coach will provide professional development for teachers to support their pedagogy practices. Also, the Literacy Coach will provide small group instructional settings for students to provide personalized instruction for specific students who are demonstrating learning loss. The Literacy Coach will use data from iReady and classroom data to determine which students need additional literacy support. * Learning Support Assistants will use data from iReady, STAR Reading, and the classroom to provide more intense small group academic assistance to students who are two grade levels behind academically and require more individualized support. * The School Counselor will use recommendations from teachers and parents as well as information gained from the mental health agency to provide social emotional support to students. * Data from iReady, end of grade test, end of course test, classroom data and teacher recommendation will be used to determine which students are offered tutoring. * Student survey results will be used to offer Enrichment opportunities to students during summer learning in order to give all students a well rounded educational experience. * iReady Diagnostic Data for 1453 students will indicate the academic skill level of each child and be used to develop an individual learning plan for all children. Data will also reveal a 25% increase in growth and achievement for students. IReady benchmark data and classroom data demonstrate an increase in growth and achievement for 65% of the total student enrollment. * EC Coordinator will provide additional support to staff to maintain compliance and assist with

case management. Compliance paperwork will be reviewed monthly with staff. * Office support and grant manager will maintain compliance by keeping appropriate documentation of all purchases and activities lived out through the grant.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 522,965.20 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

High quality assessments will be used to address learning loss among all students in Gates County Schools. COVID-19 has caused learning loss to occur in groups of students such as those who are identified as low-income, children with disabilities, English Learners, racial and ethnic minorities, homeless, foster care students and all other students demonstrating low level proficiency skills according to assessment data. High quality assessments designed to improve student academic progress will be administered at the beginning of the school year an throughout the school year. Those assessments will include: iReady Math Diagnostic iReady Reading Diagnostic Reflex Math Read Theory Teacher made assessments for grade level standards Star Reading Test Carnegie Math Teachers will utilize all high quality assessments to differentiate student instruction in order to meet students' academic needs. End of Course testing End of Grade testing While using the above assessments, teachers will meet weekly to review data reports and make suggestions regarding what academic supports students need to increase their academic abilities. Data Teams will meet at both the school and district levels to share information and discuss the needs of our students and teachers. Teachers will also be asked to complete a survey twice yearly to determine which curricula is most effective for student learning as well as curricula that needs to be changed or removed.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Gates County Schools will utilize the following evidence based activities to meet the comprehensive needs of students: Small group instruction Clustering students to meet individual needs Flexible Grouping Differentiation

Personalized Learning Project-Based Learning Peer tutoring Collaboration and creativity Centers STEM activities One on One Instruction Co-Teaching Inclusion Teachers will meet weekly to determine the effectiveness of the evidence based activities being used to meet student needs. Data will be reviewed weekly to decide effectiveness of student learning. School Improvement Teams and Data Teams will analyze the evidence based activities being used to address the needs of comprehensive students.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Information and assistance to parents and families will be provided through the following ways: Progress Reports Report Cards Week at a Glance information Parent Workshops (parenting tips, introduction to computer programs, homework help, curricula support) Parent Night Virtual Learning night Google Classroom information Parent and Community Engagement Team Saturday Drop In's Call in Technology Support Curriculum support websites

* (D) Tracking student attendance and improving student engagement in distance education;

Student attendance in the distance education classroom will be monitored through the following: Canvas log in Powerschool data Conversations with teachers Google Docs to track student attendance and work completion Parent phone calls Visits from the School Resource Officer

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress will occur through: Data Team discussion Formative and Summative Assessments End of Course test from the previous school year End of Grade test from the previous school year Classroom data prior to COVID-19 Classroom data after COVID-19 Vertical and horizontal meetings Grade level PLCs

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ○ No	Compact Needlepoint Bipolar Ionization Devices will be added to traditional HVAC systems to improve air quality.	June 2021-June 2022	This addition of technology to the school HVAC equipment will aid in the removal of airborne particles and pathogens. Custodians will complete a check off sheet daily to certify the cleaning of each building.	$ 75,000.00
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ⦿ No				$
				Compensatory education	$ 130,000.00

| ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population. | * ⦿ Yes ◯ No | Compensatory education services and Extended School year for students with special needs. Extended School Year tutoring | June 2021-June 2024 | education services will Increase individualized support for students with special needs and maintain100% IEP compliance. Extended School Year tutoring will help to address the learning loss present in students who are not meeting proficiency goals. Tutoring will also build academic skills in students who are identified as displaying at-risk academic behavior. Teachers will meet weekly to decide instructional needs of struggling students. Students will demonstrate increased growth. | |

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ● Yes ○ No	Recruitment and Retention (incentives for persons to enter the teaching profession during COVID) * Signing bonuses for hard to fill positions (EC, Science, Math) * Full reimbursement for completion of required activities to earn and/or maintain a Continuing Teaching License (Praxis exams, college courses, professional development) *Job Recruitment fair registration costs	June 2020-June 2024	Incentives will help to decrease the number of district vacancies, improve school/district morale, and maintain teacher retention. Human Resources will provide a staffing report twice a year to determine which teaching positions are hard to fill. The report will also identify data on retention rates for teachers.	$ 55,000.00

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ◯ Yes ◉ No				$ [blank]
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ◯ No	Floor machines will be used to sanitize and disinfect the vinyl floors on each school campus. Kaivac cleaning systems will be used to sanitize and disinfect bathrooms and locker room facilities to prevent the spread of COVID.	June 2021-June 2022	Floor machines and Kaivac cleaning systems will ensure that custodial staff have properly working cleaning supplies and materials to prevent the spread of COVID. Custodians will complete a checklist each day to certify that the building has been cleaned according to COVID protocols.	$ 20,000.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ◉ No				$
	* ◉ Yes ○ No	Purchase additional iMacs to upgrade computer labs at each school.	June 2021-May 2022		$ 237,002.14

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.				Purchasing additional Lab computers will provide the opportunity for small group instruction as well as offering each student an individual computer to work on. Lab computers will also provide an upgrade to the current systems and offer students updated technology. Teacher will analyze classroom data to determine student achievement as a result of technology used.	
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ◉ No				$

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ⦿ Yes ◯ No	Purchase iReady Reading and Math Ready Math Letterland Hire teachers and instructional support personnel Purchase Imagine Learning to support EL students. Education vendor Daytime and After-school tutoring Field Trips Hire Bus Drivers to transport students for summer learning. Absorb the cost of school bus fuel for transportation. Pay substitute teacher and substitute bus driver pay	June 2021-June 2024	Research based materials and activities will address the learning loss present in students and build academic skills to increase proficiency levels in students. Data reports will reveal that academic gaps are present as well as being closed within students. School Improvement Teams will analyze data in order to make instructional decisions for students. Educational Vendor will provide enrichment opportunities to students. Field trips will provide cultural awareness for students.	$ 215,000.00

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ○ No	Temporary EC Coordinator Supplement for additional responsibilities due to COVID. Office Support Stipends for additional duties related to COVID. Leadership supplement for managing and providing leadership and administration support to the district and schools related to maintaining ESSER III. Hire an additional School Counselor. Hire Learning Support Assistants Hire Literacy Coach Hire teachers and instructional support for the academic year. Purchase iReady Ready for the academic year	June 2021-June 2023	All activities listed will provide services related to maintaining ESSER III and remaining in compliance with federal guidelines. Additionally, activities listed are necessary to close learning gaps relative to learning loss, EC compliance, and addressing social emotional needs of students. iReady, classroom, IEP, counselor reports, fidelity reports and other data from teachers and staff will be analyzed to provide a baseline for discussion on the needs of students.	$ 496,359.66

		Purchase iReady Math for the academic year. Purchase Ready Math Utilize Letterland for students in grades K-3 Pay SELREP bonus to third grade teachers whose students passed the RtA test. Pay Teacher growth bonuses Indirect Cost			
			Total ESSER III Allotment	$	1,228,361.80

Part E: Assurances

Check **all** *assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:*

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.

*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Gates County Schools (370) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

Gates County Schools (370) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Graham County Schools (380) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

-40% students don't have access to any or to quality internet and 20% of remote learners had to travel at least 5 miles to access reliable internet. -15% total student population chose remote learning even when in person learning was offered. -Approx 23% students failed part or all of their classes during pandemic. -Prior to pandemic, mathematics overall scores fell below state averages in most grades and have declined more at this time. -Lack of staff to analyze data in middle school -25% increase in # academic student referrals to EC. -Over 10% school age students are connected to mental health counseling with an increase of referrals -20% increase in # of students who have been referred to academic school based intervention since the pandemic. -Students in DSS custody increased 25% putting county at 4 X state avg. -Child abuse & neglect rate has increased by 20% - county at 3 X state avg. -The transportation dept has only 4 activity buses, 2 of which will soon be pulled offline due to being almost 20 years old. To social distance for trips or athletic events, we will not be able to accommodate 50% of riders. No other means of transp exist -ie-public transit, cabs,leases. --Indoor space is maximized, will need to utilize outdoor spaces to add instructional space -Maintenance & custodial suppl/equip. increased at a rate of 20% due to spikes in material costs & additional usage of products. Equipment has been used at rates over general usage due to additional cleaning or building as a result of COVID cleaning/sanitation requirements. -Food insecurity-Graham County, at 24.9% is 5% above the state average -Percentage of children living in poverty is over 6% above the state rate -Dec. 2019-Dec.2020, high school Math I scores fell 34.9% in proficiency -Dec.2019-Dec 2020, Math III scores fell 15.3% in proficiency -42% elem students tested below grade level in math after Spring 2020 closures -71% elem students tested-at risk or below grade level in math after Spring 2020 closures -Most Air filtration units have not been replaced in 30+ yrs.Air quality output is 30-50% expectancy. 1) *Public comment survey regarding pandemic effect on learning-offered via website & social media *PK-12 Staff survey regarding needs/lessons learned from pandemic *Board of Education input during regular meetings and work sessions *Administrative Leadership team meetings and submission of data *Parent interviews- individually & in small groups *Student input via personal interviews & surveys *Community partner input-via interviews, agency coordination meetings with mental health, health department & other relevant agencies such as tribal consultation *December 2020 DPI Facility needs Survey - Graham County Schools *Teacher Working conditions survey 2)ASSESS: *Summer School-pre/post assessments for students involved in any Summer School program using a DPI approved instrument *Existing End of grade/course data and final academic performance data *Universal Screeners such as iStation, MAPS, IXL *Research-based intervention programs such as Number Worlds, Fundations, Wilson Reading, Edmark, Just Words, Extreme Reading, Touch Math, etc. *SEL assessments-such as Second Step, BESS 3 Social Emotional Screener *IEP/504/ESL/Intervention/AIG plan goals/outcomes *Homeless/Foster Care student needs & outcomes as well as Racial/Ethnic minority

considerations *Graduation & attendance rate across time *Gaps in core curriculum alignment & instruction *Physical environment conducive to safe, healthy conditions-including air quality equipment & facility needs *Digital learning capacity including needs for devices, infrastructure and educational technology *Mental Health incidents/rates/needs *Basic needs met/unmet- food insecurity, clothing, school supplies, etc. *ESSR data *Broadband connectivity rates and access for remote learners *Capacity of existing leadership team and school based staff to execute strategies to address student learning/pandemic related issues *Severity of learning loss that needs to be addressed during the summer of 2021 *Professional development needed to close learning loss gaps & prepare for future response efforts *Assessment of unique needs and performance of special populations *Capacity of transportation system, child nutrition program, maintenance, custodians and health support systems to accommodate student success as a result of pandemic ADDRESS as a result of needs assessment: To address learning gaps with this funding, we plan to employ 2 mathematics coaches for the district to analyze student data, to vertically align mathematics curriculum across the PSU and to offer professional development and direct coaching support to all teachers in K-12. Also, we will host Summer School as legislated to all eligible at-risk students K-12 for a period of 6 weeks. We will offer appropriate professional development to staff across several areas including dealing with academic gaps, learning styles, differentiation of instruction, special population unique training, mental health and support for helping parents to assist students. We plan to enhance our digital learning procedures and materials by providing additional devices, equipment and infrastructure on campus and remotely to serve students better and promote higher student engagement. We will use research-based strategies and interventions to assess students and develop a plan for their academic success. We will track student attendance overtime -pre pandemic to now. We will employ a distance learning facilitator to address remote learning needs of students and families. We will employ mental health support staff to address critical social emotional learning needs as evidenced by screeners and direct contact. Parents will be assisted through providing resources, virtual and onsite training on curriculum and other needs, distance learning strategies and other supports as needed .

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

From our latest assessments across all curriculum, it is evident that there is a more significant need for learning loss recovery in mathematics than in reading. This is due to the fact that the PSU has a strong foundation base of core reading and reading intervention strategies in place and with students returning to person-to-person learning the structure will assist students in a swifter recovery process. Additionally, reading instruction that was delivered remotely is less abstract and more accessible for student comprehension. The PSU will use existing programs and ongoing professional development to continue progression in reading proficiency. Based on our data in Part A, our PSU plans to address student learning gaps caused by the COVID pandemic by employing 2 mathematics coaches for the district and a lead teacher in the middle school. The mathematics coaches will assist with vertically aligning our mathematics curriculum across the PSU. Even prior to the COVID 19 pandemic our overall mathematics scores fell below state average in most grades and have continued to decline. In December 2019, just before the pandemic started our high school test scores in Math 1 were at 87.5% proficient. A year later after spring closures and during the height of the pandemic in December 2020, scores in Math 1 fell to 52.6%, which is a decrease of 34.9%. Due to loss of instruction and difficulty with remote instruction students struggles with assignments in the overall curriculum. Proficiency scores in Math 3 fell 15.25% from December 2019 to December 2020. When elementary students returned to school after the closures of 2020, 42 % of Robbinsville Elementary students were below grade level in mathematics based off iStation score reports. Seventy one percent were at risk or below grade level. Additionally, approximately 23% of students in our district failed at least 1 or more of their classes during the pandemic. We have seen a 25% increase in the number of academic student referrals to Exceptional Children during the pandemic due to difficulty with distance and remote learning. The math coaches will help implement a seamless, vertically aligned math program, and will lead teachers by helping them access data, identify learning gaps and implement evidence-based strategies in the classroom and student interventions. The 2 math coaches will deliver evidenced based professional development to

teachers, administrators, and parents that addresses comprehensive needs from the learning loss. We will employ a lead teacher to analyze data, identify learning gaps, and structure evidence based interventions to address issues that have come up due to the pandemic. The lead teacher will assist with identification of the behaviors related to social and emotional health issues and coordinate other data analysis related to COVID. One teacher assistant will be employed to provide instructional interventions in the elementary. In addition, our district plans to hire a district coordinator for Student and Staff Support Services and a Mental Health Liaison to address the increased mental and physical health factors of our students and staff as it relates the pandemic. According to our data, over 10% of school age students are connected to mental health counseling with a significant increase of referrals related to mental health needs. Since the pandemic the number of students in DSS custody has increased by 25%, which puts Graham County at 4 times the state average. Concurrently, the prevalence of child abuse and neglect has increased by 20% during the pandemic. Statistically, these increases lead to increased mental health needs in the school setting. With current funding, we struggle to keep 3 preschools open and will use this funding to maintain a PK teacher position so that early intervention efforts may continue. A minimum of 40% of students do not have access to reliable internet and 20% of remote learners had to travel at least 5 miles to access any kind of internet. Funding will continue and increase capacity for access to broadband across the district, including infrastructure, equipment and devices necessary to allow students to have better options (or an option for those who live in remote areas with no reliable access) for internet access than currently exist. We will provide a mobile hotspot on the PSU's food truck that will provide broadband access for remote instruction when the food truck is delivering remote meals in the communities. We will provide supplemental technology programs that target specific learning needs, particularly for those students who have special needs. We will upgrade interactive classroom technology that will allow teachers, whether remote or person-to-person, to promote substantive educational interaction and replace antiquated classroom devices that have failed to maintain consistent connections with newer technology of the student devices. Due to COVID,we have spread classrooms & students to all available spaces in the buildings & need to utilized spaces outdoors to accommodate additional instructional space. We will also renovate interior spaces and/or replace furniture in order to promote maximum social distancing and to minimize virus transmission. HVAC units need to be replaced due to current ones running 30-50% below efficiency rate.Funding will include upgrades to the Child Nutrition, maintenance and custodial programs in order for them to replace or add supplies/equipment due to use for mandated enhanced sanitation standards related to COVID-ie-cleaning supplies, vacuum cleaners, water fountains,etc . At the district level, we will employ one office support position to coordinate pandemic efforts and maintain accurate data for reporting.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 800,588.94 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

High-quality assessments will be administered to all students as pre-tests, mid-term tests and post-tests by qualified staff. This data and information from daily monitoring will be used to direct student instruction. Using professional development, ensure that all instructional staff are thoroughly trained to implement evidence based assessments. Invest in local trainers on staff who can ensure that instruments are implemented with fidelity and can assist teachers with understanding the data resulting from the assessments as it relates to driving instruction. Depending on

subject area, existing literacy coaches or newly funded math coaches will be instrumental in helping teachers to understand and plan for differentiation across all subgroups. Additionally, mental health professionals will screen and based on results, will utilize an evidence based activities/strategies to address needs of students considered at-risk. Based on needs assessment, employ 2 math coaches for district to analyze, identify goals and implement a seamless vertically aligned math program K-12. Coaches will lead teachers in assisting students to recover from any learning loss from the pandemic by helping them to assess data, identify learning gaps and implement evidence-based strategies in the classroom and in student interventions. For example, using iStation or IXL in the schools to identify students with learning gaps in math knowledge due to lost class time and develop quality quality professional development to address how to close or decrease those gaps. Math coaches will act as liaisons between grade levels to eliminate any gaps in the delivery of the curriculum. The current teachers are having to incorporate previous year's standards not covered due to school closures and also due to the challenges with delivering high quality instruction in a remote manner. This grant will fund a preschool teacher to work with young children, first entering the school system and to reliably assess their progress in order to get them ready to enter kindergarten on grade level. The pandemic has caused many parents to keep young children at home, partly because parents were not working. Therefore, many children will be entering preschool with little to no early intervention concepts. Two additional teacher assistants will be employed to directly assist with academic interventions related to learning loss. Assistants will work directly under the supervision of math or literacy coaches to implement evidence-based programs that target skill deficits that occurred or worsened due to COVID.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Math coaches can share evidence based activities with teachers and will deliver high quality professional development ongoing throughout the school year to enable teachers have a high impact on student learning. Evidence based programs are in place in literacy and math to address learning gaps and to individualize instruction for students who are deficient in academic skills or exhibit social emotional needs. Students are placed according to their level of need in intervention small groups and assessed frequently to look at individual growth and needs. Assurance of fidelity is monitored by curriculum coaches as well as the leadership team. Based on ongoing analysis of data, intervention strategies or programs are aligned to meet the needs of each student. PSU consistently monitors to ensure that all teachers have the needed professional development in Reading Research to Classroom Practice and Foundations of Math to assure consistency in instructional delivery across grade levels.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Curriculum coaches/staff will develop digital resources for parents and families, offer curriculum nights or events, provide quarterly newsletters and development social media platforms to share information and resources with parents. PSU will continue to offer technology training for families to help their students navigate devices or online programs. This could include basic technology concepts and training as well as digital safety awareness. The teacher assistant assigned to facilitating digital learning will have office hours and parent information sessions available to assist all families, from preschool-12.

* (D) Tracking student attendance and improving student engagement in distance education;

One teacher assistant position will be utilized to facilitate data and implementation of distance education for the district. This position will be responsible for the coordination of procedures necessary for appropriate tracking of student attendance during distance education. They will work collaboratively with PSU teachers to ensure good communication and adequate, meaningful progress is made by each student. This person will be responsible for maintaining contact with students and their families to resolve any student engagement issues or offer additional support. This position will gather data in this area to help PSU complete required reporting and to make informed strategic planning decisions. This position will serve as the liaison between the PSU and distance learning. Curriculum coaches will be instrumental in developing a systemic, interactive platform to deliver meaningful, rigorous instruction that will promote higher student engagement in distance learning.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Using existing diagnostic tools to track progress over time will allow teachers to analyze student performance and adjust instruction accordingly. Summer programs will use pre- and post-assessments in subject areas and SEL. Any available EOG/EOC data will be used to compare grades and progress over times.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	Due to maximized use of interior space as a result of social , outdoor space in needed. To create additional outdoor classroom space, renovate interior space or replace furniture/equipment in order to promote maximum social distancing, to minimize virus transmission and to increase the use of outdoor spaces for instructional purposes. Due to maximized use	2021-2024	To promote maximum social distancing, to minimize virus transmission and to increase the use of outdoor spaces for instructional purposes for students PK-12 and staff, due to COVID. To generate adequate number of meals to students ages 0-18 per federal pandemic mandate. To provide maintenance with supplies/materials and equipment necessary to maintain healthy conditions of classrooms and campuses per CDC pandemic related guidelines.	$ 565,000.00

		Due to maximized use of interior space, outdoor space in needed.PK-12 indoor and outdoor environments will be expanded to meet COVID requirements. Preschool equipment will be updated to allow for additional outdoor educational space for this population due to COVID. The Child Nutrition Prog will receive a new dishwasher due to the additional use of current one during the pandemic.This will improve efficiency in generating meals to all children ages 0-18, per federal COVID mandates. Maintenance suppl/mat/equip to maintain healthy conditions of classrooms and campuses in order to comply with COVID guidelines such as water fountains, vacuum cleaners, etc			

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ◯ No	Install pandemic approved HVAC air handling systems throughout the schools, as much as possible within funding allotment to replace antiquated systems. HVAC systems now are running at 30-50% efficiency rate for air quality and need to be at 100% to reduce the spread of COVID.	2021-2024	100% of new HVAC units will provide safer, healthier air quality to reduce the spread of COVID. HVAC will produce air quality efficiency that is 100% of expected rating in order for decrease spread of germs.	$ 300,000.00
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ⦿ Yes ◯ No		July 1, 2022-June 30, 2024	To gather data, inform and disseminate pandemic related information/tasks in a timely and accurate manner in order for students and staff to meet compliance guidelines and in order for data to be used to guide PSU immediate and long term planning.	$ 95,108.13

		Employ one district office support position to coordinate pandemic related tasks including but not limited to COVID-related state reporting requirements, monitor attendance-students and staff, gather information from school nurses/staff and disperse information to appropriate agencies such as health department and tribal agencies, collect data from schools for reporting, order/organize and disseminate PPE, assist district leadership team with additional tasks related to pandemic.			
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ⦿ No				$

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ⦿ Yes ◯ No	As more students are enrolled back to in person learning and regular activities resume, we will purchase one additional activity bus to ensure social distancing capacity & healthy transportation options are available. 2 of 4 PSUs activity buses will be pulled from the fleet within the grant period due to them being approximately 20 yr old. No other viable transportation options exist such as leases, cabs, public transp system, etc.	2021-2024	Because there are no other transportation options in the county and students will need to social distance as much as possible, an activity bus will provide adequate capacity to transport students to school events/activities in a safe manner. To provide tuition reimbursement to existing staff in order to fill vital instructional vacancies as a result of staff leaving due to COVID in order to maintain a seamless educational program for students.	$ 97,000.00
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ◯ Yes ⦿ No				$

| SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency. | * ⦿ Yes ◯ No | Supply custodial/maintenance staff with adequate supplies/materials to thoroughly and efficiently clean school facilities and ensure appropriate equipment is in place to comply with recommendations per CDC established COVID guidelines. To ensure that each classroom has appropriate supplies/materials to daily maintain CDC recommended COVID guidelines in excess of routine custodial cleaning. | 2021-2024 | To comply with sanitizing and cleaning guidelines as set forth in CDC guidance in order for students and staff to have a healthy, germ free environment. | $ 30,000.00 |
| LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements. | * ⦿ Yes ◯ No | | 2021-2024 | To increase reliable access to internet to meet unique needs of students so that they might access instruction across the county. To provide digital learning options to students in the event that they have to be or choose to be remote learners during the pandemic event. | $ 75,000.00 |

		To continue and increase capacity for access to broadband across the district, including infrastructure, equipment and devices necessary to allow students to have better options (or an option for those who live in remote areas with no reliable access) for internet access than currently exist. To provide a mobile hotspot on the PSU's food truck that will provide broadband access for remote instruction when the food truck is delivering remote meals in the communities. To provide supplemental technology programs that target specific learning needs, particularly for those students who have special needs or who struggle academically. Those programs may include IXL, APEX, etc.			

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ⦿ Yes ◯ No	Upgrades to interactive classroom technology that will allow teachers, whether remote or person-to-person, to promote substantive educational interaction. Example of purchases: Smart Series interactive displays for classrooms (@ $2,800 each)	2021-2024	To improve educational interaction among students and teachers both remotely and person-to-person.	$ 125,000.00
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ◯ No	Due to the pandemic, students have been disconnected from their comprehensive support services in the areas of mental and physical health. Also, staff are tired and adjustments in the education profession are causing issues that are more prevalent than ever before. Burnout, depression and lack of positive staff morale affect the quality of instruction to students. For these reasons, a district coordinator for student and staff support services is necessary to implement programs	July 1, 2022-June 30, 2024	A comprehensive mental health program will be implemented for the PSU by qualified mental health professionals. 100% of students in PSU will have access to SEL curriculum/assessments/resources. 100% of instructional staff will have professional development and daily support in areas to assist students who struggle with mental health issues. The district coordinator and liaison will supervise & implement programs with 100% of students and staff.	$ 342,153.36

		and strategies that will make each population more successful. The most significant service coordinated from this position will be to equip staff with knowledge and skills to recognize and address indicators in students that would lead to self harm or negative behaviors in order to get them immediate assistance.A district mental health liaison will be employed to implement mental health programs directly with students in the schools.			
SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ○ Yes ● No				$

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ◉ Yes ○ No	Lead teacher will assist with identification of behaviors related to social and emotional health issues and coordinate instructional strategies for learning loss, will analyze and report COVID related data. Due to COVID, in addition to learning loss, classrooms need multiple copies of materials to limit sharing, promote safe & healthy classroom environments. To assist w/ tuition reimbursement to employees who are willing to enhance their education to fill instructional positions/ gaps that are vacant from staff leaving due to COVID. -Indirect Cost	2022-2024 Lead teacher 2021-2024 Supplies/Materials 2021-2024 Teacher Assistant	To increase student achievement and student mental health awareness due to COVID. To equip schools with appropriate supplemental supplies/materials to address individual needs of student and increase student achievement. To assist with student learning through helping with instructional interventions. To fill positions left vacant by COVID to ensure continuity of instruction to students. Indirect Costs	$ 376,361.57
				Total ESSER III Allotment	$ 2,005,623.06

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

* ☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.

* ☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
* ☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
* ☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
* ☑	Funds shall not be transferred into or out of this allotment category.
* ☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Graham County Schools (380) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - New Applicant Summary

There are no new applicants.

GAN Information

Graham County Schools (380) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Granville County Schools (390) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Granville County Public Schools' has sought stakeholder input regarding challenges and opportunities that have emerged since the onset of the pandemic. GCPS stakeholders (teachers, principal and district leaders) and community stakeholders have reviewed and analyzed the student academic performance data, student/teacher attendance data, home to school connection data, remote learning survey data and employee survey data to prioritize the use of CRRSA-ESSER II and ARPA- ESSER III funding to address student learning and district improvement gaps resulting from the disruption of in-person learning. Additionally, the process involved a review of the district's strategic plan and funding priorities, a review of the district's use of CARES ACT/ESSER I funding and an overview of the CRRSA-ESSER II and ARPA- ESSER III allowable uses as well as input from the public on the 2021-2022 district budget review held on March 15, 2021. Additionally, in January 2021, a series of community centered task forces were established to begin the strategic and forward thinking to address the needs in the public school system. Those task forces include the Innovation and Forward Thinking Taskforce, the Reimagining Learning Taskforce and the Strategic Planning Taskforce. Stakeholder feedback from these task force meetings provided valuable insight for district leaders to determine strategic steps for immediate and long-term planning. In March and April of 2021, the Granville County

Public Schools Equity Taskforce, which consists of education leaders, community leaders and faith-based leaders, met to identify disparities that have been exacerbated by the pandemic. A list of priorities was generated at the conclusion of those meetings. Additionally, the Safety Taskforce has met multiple times over the 20-21 academic year to assess improvements to mental health supports for students and staff, coordination of response to migitate COVID-19 exposure, building and facility maintenance and community outreach to support families. Additionally, in April 2021, a priority needs survey was administered to district and school leaders. The results of this survey identified emergent and remaining departmental and school based needs due to disruptions due to COVID-19. Qualitiative data was captured through the implementation of a focus group. The focus group members prioritized the needs and potential expenditures through a digital prioritization process. The focus group consisted of district leaders, school administrators, teachers, counselors, social workers and parents.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Prior to onset of the pandemic, Granville County Public Schools was making adequate progress toward the strategic plan goals of: By 2023, 90% of all students will meet or exceed proficiency rates by at least two points as determined by the ESSA long-term proficiency goals. (GCPS Strategic Priority #1, Academic Success); By 2023, all students in all subgroups will meet or exceed growth rates as determined by the EVAAS growth index. (GCPS Strategic Priority #1, Academic Success); By 2023, the retention rate of fully certified and proficient educators will increase to 90% across the district. (GCPS Strategic Priority #1, Academic Success); By 2023, 100% of GCPS students will have access to well-rounded education opportunities. (GCPS Strategic Priority #1, Academic Success & GCPS Strategic Priority #4, Fiscal Responsibility); By 2023, the four-year cohort graduation rate will exceed 87% as measured by the NC Graduation Rate report. (GCPS Strategic Priority #1, Academic Success); By 2023, GCPS will improve by at least 5% in the areas of long term and short term suspension rates, discipline referrals, mental health referrals, and school climate satisfaction as measured by school and district surveys. (GCPS Strategic Priority #1, Academic Success, GCPS Strategic Priority #2, Health and Safety); By 2023, 100% of Granville County Schools educators will participate in focused activities to enhance stakeholder engagement and increase positive relationships with students' families and members of the community. (GCPS Strategic Priority #5, Communication, and Community & GCPS Strategic Priority # 4 Fiscal Responsibility). The transition to remote learning has significantly affected teching and learning in Granville County Public Schools. A snapshot of student academic performance revealed 43% of students in grades 3-12 failed at least one couse compared to17% of students in grades 3-12 in 19-20, an increase of 26%. A snapshot of Quater 3 attendance data revealed that 42% of students have 15 or more absences, an increase of 23%. A significant

percentage of chronic absenteeism are amongst students in underperforming subgroups or at school's with higher populations of subgroups who are economically disadvanagted. The increase in student absences may yield significant loss of instructional time and learning for our most vulnerable populations of students, which ultimately widens the learning gaps between racial and socio-economic subgroups and may increase the dropout rate in middle and high schools. A snapshot of SEL data revealed that 60 % of students in grades 3-5 well being was at risk at the conclusion of the 19-20 academic year as compared to 51 % of students' well being at -risk currently. 53 % of students in grades 6-12 well being was at risk at the conclusion of the 19-20 academic year as compared to 42 % of students' well being at -risk currently. There was a significant drop in the graduation rate for 18-19 at 83% to 82% in 19-20. Based on student academic performance and the economic effects of the pandemic, there may be a greater gap for the class of 2021. There has been a 15% decrease in the number of PreK applications for the 2020-2021 school year. This is not due to a decrease in the eligible population of preschool aged children, but due to the COVID pandemic and parent fears. Allowable uses to address learning recovery and acceleration programs, as well as, district improvement needs resulting from the disruption due to COVID- 19 will be the focus of these funds. Based on the data analysis, the district will aggressively implement acceleration and summer learning programs throughout the 2021-2022 and 2020-2023 academic years to mitigate the academic learning loss of subgroups, particularly the most vulnerable students. Subsequently, the district will prioritize funds to maintain concurrent learning (remote/belnded learning), 1:1 technology & connectivity, SEL support for the whole child and provide highly effective teaching and learning in a safe school environment.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 2,665,172.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Expanded professional learning opportunities will be offered across schools to increase teacher efficacy in high-impact teaching strategies to include data- driven instructional teaching strategies; Student performance will be measured through a variety of high-quality assessments to include: Student growth and proficiency data (iReady, Benchmarks (i.e., TE-21 &NC Check-ins), EOG/EOC assessments, WIDA ACCESS, Method Test Prep, Dropout data, Cohort graduation data and Strategies Gold.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Expand extended day opportunities (e.g., after school programming, saturday academy, summer enrichment, and flexible learning environments) to address learning recovery and accelerate student learning Increase instructional personalized school-based support (instructional coaches, reading and math interventionists, core certified teaching staff, Pre-K staff, ESL and AIG certified staff, MTSS/Equity coaches, etc..) to reduce class size, as well as recover and accelerate student learning. Upgrade core curriculum materials to ensure all students have equitable access to the core curriculum and improve our Multi-tiered System of Support Broaden district support with additional curriculum and instruction personnel to standardized intervention support for marginalized populations to address student' social, emotional, and behavioral needs using a Multi-tiered System of Support Expanded professional learning opportunities will be offered across schools to increase leader efficacy in culturally responsive leadership strategies to include data-driven school improvement practices Retain assistant principal positions despite a drop in ADM to ensure continuity of services and instructional supports in schools Offer transition programs for students at critical transitional periods (Pre-K to K, 5 to 6, 8 to 9, and 12 to post-secondary) to improve readiness skills and mitigate learning loss

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Offering training to families through Parent University with evidence-based strategies for supporting students' academic and social-emotional learning needs including digital literacy sessions; providing ongoing social and emotional learning and trauma-informed care sessions to equip families with practical strategies to address the whole child growth and development.

* (D) Tracking student attendance and improving student engagement in distance education;

Utilize Powerschool to track attendance daily for remote learning; monitor attendance through MTSS school teams to determine appropriate supports for students as needed; provide ongoing professional development for teachers to increase digital teaching and learning competencies and high impact teaching strategies to engage students in a meaningful learning experience.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Utilize a single platform data management system (i.e., Innovare) to build district wide data analytic capacity to strategically address the emergent student needs, monitor progress and examine trends; monitor academic performance through MTSS school teams and PLCs to determine appropriate interventions for students as needed

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ⊙ No				$ 0.00
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ⊙ No				$ 0.00

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ⦿ No				$ 0.00
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ○ No	Increase instructional personalized school based support (e.g., Pre-K, EC ELL and AIG certified teachers, MTSS/Equity coaches, etc..) to reduce class size, as well as recover and accelerate student learning. Increase Parent liaisons, interpreters and translation service to support families	July 2021-September 2024	Student growth and proficiency data (iReady, Benchmarks, EOG/EOC assessments, Discipline data (Educator's Handbook), Dropout data, Cohort graduation data	$ 1,408,133.50

		with diverse language needs Recruit addition ELL and EC teachers and staff to narrow the learning opportunity gaps Expand professional learning opportunities across schools to increase teacher efficacy in culturally responsive teaching strategies Improve data analytic capacity to strategically address the needs of our most vulnerable populations Offer training to families through Parent University with evidence-based strategies for supporting students' academic and social-emotional learning needs of our most vulnerable			

		vulnerable students.			
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◉ Yes ◯ No	Recruit additional nursing position to reduce school caseloads and offer expanded medical services to schools Recruit additional custodians to meet the CDC and Strong Schools cleanliness guidance to mitigate exposure to the virus Retain school-based clerical staff despite the reduction of ADM to ensure response rates remain high Recruit and retain high-quality teachers, including those in hard-to-fill subject areas to reduce class size in the face-to-face and virtual classroom.	July 2021- September 2024	Pandemic Action Response satisfaction survey, NCEES evaluation data, clean schools reports, survey, teacher working conditions survey, teacher turnover data	$ 681,856.41

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ⦿ No				$ 0.00
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ⦿ No				$ 0.00
	* ⦿ Yes ○ No	Provide a high quality virtual academy for students who are unable to return to in-person learning Increase core certified teachers to provide a high quality virtual learning experience Expand professional learning opportunities across schools to increase teacher's	July 2021 - September 2024	Student growth and proficiency data (iReady, Benchmarks, EOG/EOC assessments, Dropout data, Cohort graduation data	$ 824,652.60

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.		increase teacher's digital teaching and learning competencies Offer training to families through Parent University with evidence-based strategies for supporting students' academic and social-emotional and remote learning needs. Purchase an improved district website platform to improve navigation and communication with families and the community			

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ⦿ Yes ◯ No	Provide internet connectivity service to families who have experienced a disruption in service or live in an area that without adequate service Renew videoconferencing subscription to ensure remote learning have access to the core curriculum	July 2021 - September 2024	Useage data; Student growth and proficiency data (iReady, Benchmarks, EOG/EOC assessments, Dropout data, Cohort graduation data	$ 871,205.15
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ◯ No		July 2021 - September 2024	SEL Survery data, SCUTA data	$ 1,178,172.85

		Offer a district-wide SEL curriculum to address the social, emotional, and behavioral needs of students Cultivate community partnerships to improve school-based mental health supports and family outreach efforts Increase the number of school-based social workers and counselors to improve whole child supports.			

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ○ No	Expand extended day opportunities (e.g., after school programming, Saturday academy, summer enrichment, and flexible learning environments) to address learning recovery and accelerate student learning	July 2021-September 2023	Student growth and proficiency data (iReady, Benchmarks, EOG/EOC assessments, Dropout data, Cohort graduation data	$ 1,296,043.49
	* ○ Yes ◉ No				$ 0.00

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.					
				Total ESSER III Allotment	$ 6,260,064.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Granville County Schools (390) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

 There are no new applicants.

GAN Information

Granville County Schools (390) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Guilford County Schools (410) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Guilford County Schools (GCS) is leveraging investments to focus on addressing gaps in access and achievement as students recover from the pandemic loss, and seize the opportunity to reimagine public education to ensure all students receive the life outcomes they deserve, including career and college success. Needs assessment data is framed by planning priorities including: - Reopening Schools and Keeping Them Open - Accelerating Learning - Investing in Staff Capacity - Recruiting, Retaining, and Rewarding Highly Effective Staff - Creating Strong Postsecondary Pathways - Investing in Mental Health and Student Support Services - Investing in Instructional Materials and Resources - Closing the Digital Divide GCS launched a Task Force of 164 stakeholders including parents, teachers, classified staff, building leaders and community members in April 2020, immediately following school closure as a result of COVID-19. The Re-Entry Task Force worked over the course of the year to plan for school re-entry including human resources and operations, academics and student services and community outreach. When planning allotments and ESSER guidance was released, the Re-Entry Task Force met over a series of four input sessions to discuss learning loss and establish priorities for ESSER spending. Once planning priorities were outlined, meetings were held to gather feedback from Teacher Advisory Council, Principal Advisory Council, and all 128 sitting principals. ESSER priorities were shared during the April Superintendent's Budget Presentation to the Board of Education. Because English Learners have faced the greatest loss during school closure in Guilford County, a subset of this task force is an English Learner Task Force that represents parents, teachers and community supports for English Learners. This task force has also provided feedback on ESSER spending priorities and has been led by interpreters in our top languages. GCS is utilizing multiple data points to assess and address student learning loss resulting form the disruption in education services including: - NWEA MAP assessment data - baseline to end of year through 2024 - EOG and EOC performance by subgroup - Tracking reporting measures specific to

middle and high school students with multiple risk factors (chronic absenteeism, English Learners, Students with Disabilities, proficiency on past state assessments, course failures) - Course failures - Student attendance and engagement (based on Canvas login data)

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

The current average year of school construction in Guilford County is 1966. Facility-related equity issues are pervasive throughout the count. Following a Facility Condition Assessment Study in conjunction with the Board of Education and County Commissioners, more than 50% of GCS school facilities are rated as unsatisfactory or poor; dozens of mobile units that are currently housing students are more than 30 years old. Low math proficiency scores on the NWEA-MAP assessment are consistent across grade levels. In 1st-5th grade, math proficiency scores averaged 10 percentage points lower in math than reading. For K-5th grade students who took assessments in-person, large performance gaps exist when comparing student proficiency between different racial groups, as well as for students identified EC and EL. On the K-3rd grade Istation reading assessment, white students had significantly higher proficiency (66%) in comparison to black (36%) or Hispanic (31%) students. Only 26% of K-3rd grade students identified as EC met the threshold for proficiency, as well as only 25% of EL students. On the NWEA-MAP assessment, which tests both reading and math, there was a trend for performance gaps to increase as students get older. In grades 6-8, performance gaps in student proficiency range from 20 to 30 percentage points based on race. Approximately 80% of both white and Asian students were proficient in reading, and about 78% of both groups were proficient in math. In comparison, 55% of black students in 6th-8th grade scored proficient in reading, as well as 60% of Hispanic students. In math, only 44% of black students in middle school were proficient, as well as 51% of Hispanic students. For high school, white students' proficiency was 26 percentage points higher in reading than black students, and 24 percentage points higher in math. EC students struggled the most in reading, with only 24% of 6th-8th graders scoring proficient, 49 percentage points lower than their non-disabled peers. From 2014-2019 on state EOG tests, white students outperformed their peers by approximately 30 percentage points. The same pattern was true on the end of course (EOC) assessments which white students outperforming black and Hispanic students by an average of 30 percentage points. Black and Hispanic students are enrolling in advanced courses at a considerably less rate than their White peers. In GCS, 21% of teachers are classified as beginning teachers while 79% are not beginning teachers. Of beginning teachers, 37% completed a traditional educator preparation program, while 63% completed a non-traditional education preparation program. The teacher attrition rate is 11.25% with a 13.45% attrition rate in our lowest-performing 25 schools. These data points demonstrate the need to invest in sustainable training opportunities for educators and families. Only 47.5% of students in Guilford County have completed the FAFSA for the 2021 academic year. 54.6% of students participated in the 2019-2020 school year, a decline of 1.9 percentage points. The overall SAT score for GCS students for the 2019-2020 school year was 1078 a slight decline from 1080 in 2018-2019. College enrollment disparities exist between students of color and their white peers. Of the students that enrolled in college the semester after graduating high school, black students have a declining trend with 36%, 35% and 34% percent enrolling in 2018, 2019 and 2020 compared to an

average of 45% of white students. Around 55% of SWD students and a little more than 62% of EL students remained in college from freshman to sophomore year compared to almost 79% of their classmates. Black and Hispanic students who also graduated in 2018 and 2019 had a lower retention rate than their white and Asian counterparts. Many students and families continue to face trauma and food and housing insecurities as a result of COVID-19 that directly impact how systems should invest in student and mental health support services. Strong and supportive relationships between students and teachers lead to improved and enduring social-emotional and academic outcomes for students. The enrollment in GCS has declined from 73,321 students in 2017-18 to 70,227 in 2021. The need to retain our GCS students is evident particularly among our White students who had a decline of 3,220 students. With two disrupted school years, students have fallen behind-many, substantially so. Aligned instructional resources can eliminate opportunities for students to access grade-level instruction and can support districts with high numbers of new and lateral entry teachers. Black and Hispanic students as well as students identified as EC and EL are experiencing learning loss and are performing at a lower proficiency rate than their White and Asian peers. An achievement gap is evident in grades K-3 for the aforementioned student groups. The largest declines in performance based on fall assessment data were in mathematics across all grade levels. In high schools, the largest decrease was in NC Math 1, dropping 18.7 percentage points from 2018-19 to 2019-20. Black students in particular have the lowest science proficiency rates among all ethnic groups followed closely by Hispanic students. For the past three years, the average proficiency rates for Black students barely surpassed 50% on the End of Grade and End of Course assessments. Similarly, Hispanic students averaged only 57% proficient compared to their White peers whose rate was considerably higher at 81% proficient. Census data reports that 18% of GCS families do not have access to broadband internet. Data collected in Fall 2020 indicate that approximately 26% of Hispanic households and 20% of black families reported not having enough devices for the number of students in the hom

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 69,641,392.37 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

In order to address learning loss among our most vulnerable students, including low-income students, children with disabilities, English Learners, black and Hispanic students, students experiencing homelessness and students in foster care, Guilford County Schools will invest in comprehensive assessment systems to inform instructional planning and the need for intervention. Assessment components are valid, reliable, and sensitive to change in order to project student growth. The NWEA-MAP assessment will be administered 3 times annually to provide targeted diagnostic information to teachers. Additionally, curriculum-

based measures, interim assessments, and End of Grade and End of Course data points will be used to assist educators in meeting students' academic needs. GCS will also expand the evaluation team.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Evidence-based activities to meet the comprehensive needs of students include: - Building the capacity of teachers to meet the needs of students through professional learning support and job-embedded coaching - Recruitment Incentives for Teacher Career Ladders - New Teacher Center mentor training - Implementing high quality instructional materials in core content areas - Implementing student climate surveys - Providing college bridge supports to support students beyond high school graduation - Establishing a districtwide attendance campaign to promote positive student attendance practices - Implementing a social-emotional learning curriculum and training for teachers and leaders - Increasing access to dual enrollment college-level courses and advanced courses - Extended learning opportunities including summer programs and evening/weekend alternatives for students with multiple risk factors - High-dosage tutoring and establish tutoring division of TLPD - diversify the work force through tuition assistance contract to ensure high quality teachers - retention incentives for classified staff and incentives for certified teachers in 25 lowest performing schools - Teacher preservice preparation - Scholarships for students to enter the education profession - Incentives for students to apply for college, complete FASFA, and enroll in college

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment -   Guilford Parent Academy sessions on supporting students in completing college applications -   Guilford Parent Academy sessions for helping students succeed in a remote learning environment -   Training for community partners and agencies for how to access remote learning resources -   Digital learning sessions for parents to practice using digital resources to support parents - Establishing a GCS Training and Development Center for families and educators -   Live Q&A sessions to help parents troubleshoot -   Social and emotional learning support sessions for parents and families

* (D) Tracking student attendance and improving student engagement in distance education;

Tracking student attendance and improving student engagement in distance education - Employ public relations firm to assist with PK marketing to increase enrollment - Student and family community liaisons and college transition counselors to support students who need support with attendance/engagement - Weekly student level Canvas reporting tools and dashboards for schools to identify students who need support with attendance/engagement - Counselor and social worker training sessions for utilizing data sources to measure and support student attendance/engagement - Weekly logs to track services for Students with Disabilities and English Learners - Student support committees designed to track and support students with multiple risk factors in grades 6-12 - Attendance campaign through partnership with Attendance Works to increase student attendance both face-to-face and in virtual learning programs

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss - Multiple measures including NWEA-MAP Assessment data, student attendance data and course grades have been used to identify students that experienced learning loss as a result of COVID-19. - Dashboards track at-risk students by school to indicate whether students are making progress. At-risk students are given preference for interventions including high-dosage tutoring, summer learning opportunities and evening/weekend learning hubs. - Following EOG/EOC assessments, these dashboards will be updated so that students are appropriately identified for summer learning and interventions.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	GCS will use ESSER funds to reopen schools and keep them open. Strategies may include but are not limited to: Creating and configuring indoor/outdoor learning spaces scope to include construction as related to the creation of spaces	July2022-June 2024	An annual increase in alternative learning spaces	$ 1,150,000.00
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◯ Yes ⦿ No				$

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ⦿ No				$
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ○ No	GCS will invest in staff capacity through ongoing PD that builds capacity for teachers to respond to specialized areas such as AIG and EL. GCS will also invest in materials and resources to support these areas. GCS will work to address the needs of unique learners by investing in student support services: -Establish additional Newcomers School in High Point (construction to include all materials and labor needed to conduct renovation of existing facility)	July 2022-June 2024	Annual # of interpreters employed # of students receiving support through Newcomers Programs	$ 9,003,772.00

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◉ Yes ○ No	GCS will use ESSER funds to reopen schools and keep them open. Strategies may include but are not limited to: -hiring nurse supervisor to coordinate COVID response -purchase and install life safety systems to support better contact tracing -better HVAC routine maintenance -purchase systems for increased communications and outreach	July 2022-June 2024	Maintenance records better coordination of nurse work better contract tracing	$ 29,010,470.00
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	PPE and supplies to sanitize and clean	July 2022-June 2024	Annual PPE expenditures	$ 1,500,000.00

11/10/2021 9:45:00 AM

| LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements. | * ⦿ Yes ○ No | GCS will use ESSER funds to reopen schools and keep them open. Strategies may include but are not limited to: Sustaining virtual academy staffing and programs Supporting infrastructure for wifi and telecommunications support (community-based) to increase access to broadband internet | July 2022-June 2024 | % of families with access to broadband internet Virtual academy enrollment | $ 1,500,000.00 |

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ◉ Yes ○ No	GCS will purchase educational technology to aid in educational interactions between teachers and students both in a virtual and face to face setting. Strategies may include but are not limited to: Technology/telecommunications Infrastructure (school-based) Student and Teacher Device Replacement Cycle--Teacher devices are needed to operate programs and to have access to camera and mic	July 2022-June 2024	% of schools with access to broadband internet Student and teacher device ratio	$ 18,375,000.00
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◉ Yes ○ No	GCS will work to address the impact of COVID on the mental health of students and families by investing in student support services. Strategies may include but are not limited to: Community partnerships and mental health coordination efforts Tuition assistance and partnerships with higher education for counselors, psychologists, social workers and other student support personnel	July 2022-June 2024	Annual attendance rates % of nursing support available by year	$ 1,798,833.00

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ⦿ Yes ◯ No	GCS will plan and implement summer learning and supplemental after school programs. Strategies may include but are not limited to: Extended academic calendars Summer programs	July 2022-June 2024	NWEA-MAP data Annual course failure rates	$ 21,562,500.00
	* ⦿ Yes ◯ No		July 2022-June 2024	# of mobile supports available to families and students Annual virtual academy enrollment Add $18,118,939.00 here when other funds drop	$ 44,835,064.63

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		GCS will use ESSER funds to support other ESSA allowable activities. Strategies may include but are not limited to: - working with marketing firm on HR recruitment, PreK and K enrollment -Career ladder incentives - Recruitment/Retention incentives for classified staff, highly effective teachers, administrators, and/or hard to staff areas -partnerships to support completion of teacher residencies -create onboarding process to orient beginning teachers -tuition assistance to assist with filling positions with qualified candidates due to COVID-related attrition Indirect Costs			
			Total ESSER III Allotment	$	128,735,639.63

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.

* ✔		At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
* ✔		Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
* ✔		Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
* ✔		Funds shall not be transferred into or out of this allotment category.
* ✔		**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Halifax County Schools (420) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

The district has compiled a comprehensive list of data that has been collected over an extended period of time from a plethora of stakeholders (i.e. community members, business partners, parents, students, educators, etc.) to bring forth the ESSER plan to support the Halifax County Schools' Strategic Plan. Committee itemization includes input from several of the board's overarching documents extracted from their sub-committee reports. Long-Range Facility Committee - Overarching documents are the Long Range Facilities Plan (financial projections only), Facility Needs Assessment Data, Facility Survey Curriculum and Instruction Committee - Overarching documents are the ESSER Needs Assessment, HCS Strategic Plan, Assessment Data Building and Grounds Committee - Overarching document is the Capital Improvement Plan Finance Committee - Overarching documents include HCS Proposed Expense Budget, School Nutrition budget projection, HCS Financial Procedures Manual Public Relations Committee - Overarching documents include HCS Strategic Plan, State of the District Human Resources Committee - Overarching document includes HCS Strategic Plan From the Needs Assessment identified during ESSER I, the following categories were noted: 1. More than 50% of Halifax County Schools students lack broadband access at home. 7 of 11 schools report that lack of broadband access at home is significantly impacting academic progress for at least one of their students. 2. 11 of 11 schools will need infrastructure upgrades to support online instruction and bandwidth matters. 3. 60% of Halifax County Schools students do not have access to a tablet, laptop, or desktop computer at home to access remote learning opportunities. 4. 11 of 11 schools report that they expect all students to have access to a sink to wash their hands with warm water immediately before lunch without causing significant delays in the lunch schedule. 5. 5 of 11 schools report that teachers are proficient in the use of remote learning technologies. 6. 0 of 11 schools have facilities sufficient to support the CDC guidelines for proper hygiene and sanitation protocols. 7. 11 of 11 schools will require additional training to prepare for future occurrences of pandemic protocols. 8. 11 of 11 schools will require additional training to deal with the socio-emotional needs of students and staff. 9. 11 of 11 schools report that additional instructional materials are needed to support remote learning across all grade levels. 10. 11 of 11 schools do not have a Learning Management system. 11. The current bus garage was built in the late 1920s and prevents us from conducting up-to-date procedures in a safe manner. Halifax County Schools mission is to provide appropriate educational programs that allow all students to achieve at a high level of success. The district holds the expectation that every student is a unique individual who can and will learn when provided with adequate time, effective teaching, and a positive learning environment. With the mission in mind along with input from its stakeholders and the latest statistics, Halifax County Schools has identified six goals per the latest School Improvement and Title I Action Plans. The most recent comprehensive review of existing plans from as reviewed by the board, principals, teachers, parents, business partners and community leaders, supported the continuation of the following goals: Student Achievement, Fiscal Management and Resource Development, Human Resource Development and Management, Communications and Messaging, Health and Wellness, and Governance and Leadership Development. - Student Achievement (SA): Halifax County Schools will drive accelerated achievement for all students to eliminate the achievement gap and low performing schools, while increasing the well-being of students and professional development for teachers and other school personnel. - Fiscal Management & Resource Development (includes grants and partnerships) (FMRD): Halifax County Schools will ensure sound fiscal management through budgets and audits in compliance with all governmental regulations and guidelines producing unqualified audits through internal audits; following a procedural manual for monthly, quarterly and end of fiscal year audits. - Human Resource Development and Management (HRDM): Halifax County Schools will adhere to human resource development best practices that result in the recruitment and retention of high-quality staff and comprehensive, ongoing professional development opportunities. - Communications and Messaging (CM): Halifax County Schools will use effective, diverse, innovative, methods of communications to increase internal and external stakeholder awareness and engagement in the educational process from the classroom to the community. - Health and Wellness (HW): Halifax County Schools will improve the overall physical and mental health and wellness of its student and faculty populations to reduce preventable health care costs and increase teacher and student productivity. - Governance and Leadership Development (GLD): Halifax County Schools will build and maintain clear, realistic governance structures and leadership development opportunities at all levels. Vision: HCS will focus on the needs of all students by empowering them to be successful global residents. Mission/Core Purpose: HCS will create a supportive and positive learning environment to address the needs of the whole-student in partnership with educators, staff, parents and communities. HCS will continue to address student learning loss by extending learning opportunities and maximizing instructional minutes. The district will continue to focus on valuing and protecting instructional time with a high profile on teaching and learning along with rigorous student engagement. The senior team will monitor on a quarterly basis.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

The district has compiled a comprehensive list of data that has been collected over an extended period of time from a plethora of stakeholders (i.e. community members, business partners, parents, students, educators, etc.) to bring forth the ESSER plan to support the Halifax County Schools' Strategic Plan. Committee itemization includes input from several of the board's overarching documents extracted from their sub-committee reports. All committees have been meeting all year long to address needs and have been required to have lists of needs and plans of action. Long-Range Facility Committee - Overarching document are the Long Range Facilities Plan (financial projections only), Facility Needs Assessment Data, Facility Survey Curriculum and Instruction Committee - Overarching documents are the ESSER Needs Assessment, HCS Strategic Plan, Assessment Data Analysis, Recruit-Retain-Support staffing plan, WestED study, curriculum review study, PLC agendas and notes Building and Grounds Committee - Overarching document is the Capital Improvement Plan Finance Committee - Overarching documents include HCS Proposed Expense Budget, School Nutrition budget projection, HCS Financial Procedures Manual, PLC meeting minutes Public Relations Committee - Overarching documents include HCS Strategic Plan, State of the District, Internal reviews of social media; websites; and communication and messaging Human Resources Committee - Overarching document includes HCS Strategic Plan, Recruitment and Retention Plans From the Needs Assessment identified during ESSER I, the following categories were noted: 1. More than 50% of Halifax County Schools students lack broadband access at home. 7 of 11 schools report that lack of broadband access at home is significantly impacting academic progress for at least one of their students. 2. 11 of 11 schools will need infrastructure upgrades to support online instruction, face-to-face instruction following CDC recommendations, and bandwidth matters. 3. 60% of Halifax County Schools students do not have access to a tablet, laptop, or desktop computer at home to access remote learning opportunities, except for what has been provided by Halifax County Schools. 4. 11 of 11 schools report that they expect all students to have access to a sink to wash their hands with warm water immediately before lunch without causing significant delays in the lunch schedule. 5. 5 of 11 schools report that teachers are proficient in the use of remote learning technologies. 6. 0 of 11 schools have facilities sufficient to support the CDC guidelines for proper hygiene and sanitation protocols. 7. 11 of 11 schools will require additional training to prepare for future occurrences of pandemic protocols. 8. 11 of 11 schools will require additional training to deal with the socio-emotional needs of students and staff. 9. 11 of 11 schools report that additional instructional materials are needed to support remote learning across all grade levels. 10. 11 of 11 schools do not have a Learning Management system. 11. 11 out of 11 schools report that they expect exceptional measures to recruit and retain staff during a time that has never been more difficult to educate children. 12. 11 out of 11 schools report needing additional support with parent involvement and effective communication. The most recent comprehensive review of existing plans from the Six strategic Goals (reviewed by the board, principals, teachers, parents, students) examining infrastructure and capacity in each of the various departments. Halifax County Schools has continued to assess student needs in terms of learning loss through Istation, Exact Path, attendance/engagement in instruction, and completion of work. As we conduct EOG and EOC assessments, those will also be factored in to determine impacts of learning loss. To address learning loss, Halifax County Schools has planned to implement a summer camp during the month of June, in alignment with SB 82 and RTA policy, to mitigate learning loss. During the month of August, Halifax County Schools will offer before school starts again to address learning loss and jumpstart students into their new grade level content. Halifax has been and will continue to offer tutoring services after-school to address deficits and student needs. Address Learning Loss - The most recent test data shows Halifax County Schools with a performance composite of 37.9%. Additional learning opportunities will be made available to students to increase instructional minutes to address social emotional learning, academic learning loss, common skills deficits, and to build the skills of vocabulary, phonics, phonemic awareness, fluency and comprehension. Facility Repairs/Improvement to Minimize Virus Transmission - Repairs and upgrades are needed for antiquated buildings to better impact student health. Improve Air Quality - Repairs and upgrades are needed for antiquated buildings to better impact student health. Summer Learning - The most recent test data shows Halifax County Schools with a performance composite of 37.9%. Additional learning opportunities will be made available to students to increase instructional minutes to address social emotional learning, academic learning loss, common skills deficits, and to build the skills of vocabulary, phonics, phonemic awareness, fluency and comprehension. Teacher Boot Camps - Job embedded professional development is needed to support the facilitation of teaching and learning and professional learning community. Social Emotional Learning - Teaches students and staff effective means to mitigate gaps and needs for social emotional needs. Learning Pods - Community-based centers where students can attend to gain greater educational support. Regional Programs -all students maintained access to specially designed instruction and teachers were able to collaborate within disciplines

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 3,083,038.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Halifax has been and will continue to utilize Istation assessments to measure reading and math skills and progress being made at the K-5 level. We will continue to use Exact Path (an adaptive assessment that measures students skills at their individual level) to assess skills that may not be measured by grade level assessments and to monitor progress learning gaps. As we assess student knowledge using EOG and EOC assessments, we will triangulate the data to inform and prioritize skills (to be taught both during summer camps and through intervention during the 21-22 school year) that are crucial as students advance to the next grade level. Effective with the 2018-2019 school year, Halifax County Schools experienced improvement in its academic performance. Over a four-year period from

2013 - 2014 to 2018 - 2019, the District's Composite Scores have gone from 26.3% to 37.9%, an increase of 11.6 percentage points. For the 2018-2019 school year the district increased its graduation rate by 8.1 percentage points, increasing from 69.7% to 77.8%. In 2019-2020, COVID prevented schools from testing so no assessment data is present. However, the graduation rate continued to increase to 84%, which is the highest it has been since the collection of cohort data. Currently, the district's teacher turnover rate is about 28% which is approximately twice as high as the state turnover rate. This high turnover rate makes it difficult to consistently sustain the gains. Approximately 25% of the district's teachers are later entry. The district will implement a referral program where staff members will be paid $500 for referring a licensed 2 teacher who stay in the district for a year.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

During our summer camps, we will provide instruction using evidence based practices (Reading Research to Classroom Practice strategies, The Science of Reading strategies) and evidence based curriculum and intervention materials targeted at individual student needs to address learning loss. Additionally, we will provide social emotional learning activities, utilizing evidence based curriculum (Second Steps, Centervention, Sanford Harmony) to support the needs of the Whole Child. The district is targeting 1,500 at-risk students with a n-count of 100 staff members to be inclusive of teachers and support staff. The district will continue to employ 5-10 social workers, 5 nurses, and contract with therapists to meet the needs of our students. ESSER III funds will be used once ESSER II funds are depleted. Halifax County Schools will offer a choice-board of summer camps to accelerate grade-level competencies, address learning loss, address common skills deficits, support project based-learning, focus on STEM related projects, and to strengthen literacy skills across the board in phonics, phonemic awareness, fluency, vocabulary and comprehension. Narrative/Description: Halifax County Schools is excited to announce its free "Literary Arts Camp" in reading, math, science, and social-emotional learning. All K-12 students are invited to participate in this unique opportunity. Students will learn and express their grade-level content knowledge of the NC SCOS through the arts and exploratory play. Campers can expect to partake in fun academic challenges that also provide for the development of social relationships, physical play, language development, and learning through a preferred art medium. All campers will experience six-weeks of in-person instruction. Their schedule will consist of whole-group activities with breakout challenges, individualized support, and the advancement of skills with a highly qualified teacher. Priority enrollment is offered to all K-12 struggling students by way of an invitation letter that will be sent home in these students' Third-Quarter HCS Progress Report. However, all students are invited to attend. Students scoring below their established End-Of-Year Reading Proficiency Lexile Level are strongly encouraged to attend. Sample Schedule Instructional Minutes Hours of Operation: 7:30 AM - 3:00 PM (Monday - Friday) June and July Calendar Dates Listed Below 7:30 - 8:15 AM Arrival, Breakfast, & Transition 30 8:15 - 8:45 AM Social-Emotional Learning/Transition 60 8:45 - 9:45 AM Session 1: Reading 45 9:45 - 10:30 AM Session 2: Science 10:30 - 11:30 AM Lunch, Exploratory Play, & Transition 60 11:30 - 12:30 PM Session 3: Math 135 12:30 - 2:45 PM Breakout Sessions: Project-Based Literary Arts 2:45 - 3:00 PM Transition, Pack-Up, & Dismissal Total: 330 Instructional Minutes (5½ hours per day) Dates of Operation - June 1, 2021 - June 30, 2021 (each year thereafter June-July) Other camp opportunities include the choice board of camps which can be found at: https://docs.google.com/spreadsheets/d/1PhWlkVKho61tZZwSw6AO4BoOB-jwDRuGOadMfQOOFPs/edit#gid=620956077 All camps will use the same hours of operation as transportation will be designed using a blended model to maximize student opportunities for exposure.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

To support parents in supporting their students, Halifax County Schools sends effective strategies through the means of social media, webinars, letters, flyers, and meetings. The district is creating its very own digital library embedded with high quality lessons to promote teaching and learning. We have also recorded and will continue to record high quality lessons on prioritized standards that parents can utilize when supporting their children. Additionally, we will continue to offer tutoring students (both face-to-face and virtually) to any student needing additional support.

* (D) Tracking student attendance and improving student engagement in distance education;

Halifax County Schools implements a policy to track and report attendance, both for students receiving instruction face-to-face as well as through distance learning. Attendance is reported in Powerschool. Depending on modes of engagement, students are coded accordingly (1R=remote, _=present face-to-face). Engagement through distance learning is engaged by attendance though virtual means as well as work completion and submission. To improve engagement in distance learning, the district has provided devices (chromebooks, hot spots, desks (given away for free), and ancillary materials.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

To track student academic progress, school level PLC's are comparing student academic data (Istation, Exact Path, EOG/EOC) from pre-pandemic to current in order to measure potential learning loss.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	Roof installation and repairs installation and upgrade of bathrooms drainage system upgrade installation of boiler systems and repair needs Construction or upgrade of bus garage (3-way system expense) - The current condition of the bus garage, built in the late 1920's, does not have space to properly sanitize and clean the buses, routine maintenance, and safety inspections. These things are much more different in our current work space. Our mechanics must work in an environment with adequate ventilation and clean air. - Currently we have to sanitize the buses outside. The lack of space hampers out ability to properly maintain our buses. Today's buses are longer than our bays which prevents our mechanics from closing the bays to prevent cross-contamination.	July 1, 2021 - September 30, 2024	improvements to existing infrastructure to support student health and minimize environmental health risks Plan components at: https://docs.google.com/spreadsheets/d/1AZnOXfYZOugBN_ncEjm2a3TUb_Cw4pnmiBAFgquMOJk/edit?usp=sharing new bus garage to prevent cross-contamination and to support new length of buses in bays The maintenance director and the Assistant Superintendent to ensure all purchases (invoices, purchases orders, bids) are monitored and implemented quarterly.	$ 1,500,000.00
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ◯ No	HVAC Maintenance and upgrade of buildings Building Automation - System of direct digital controls which are connected to actuators that control heating and cooling valves as well as outside fresh air dampers and this will allow a tighter control band of temperature, humidity and CO2. By doing this, we will improve environmental quality by having fresh air for students. By having automation, we can monitor the air quality and adjust accordingly. This project will impact 11 school buildings and the district office. See components of Capital Improvement Plan located at https://docs.google.com/spreadsheets/d/11UmQUnS7gvV3W3tnpwmVqb7Dg28xp-0iyzl8bN3be3E/edit?usp=sharing	July 1, 2021 - September 30, 2024	improved air quality as measured by devices - Replace floor coverings and ceiling tiles, replace filtration systems, design new systems which will upgrade the current learning spaces that can be used as learning spaces where students will have conditioned air Adequate CO2 levels - The current boilers and air handlers are outdated and do not allow for fresh air make-up, which means your C02 levels will increase. The current systems do not have adequate filtration and monitoring systems.	$ 1,500,000.00

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ⦿ Yes ○ No	Rebranding of Schools Marketing Materials Digital Marquees (All Schools) intercom system Paid postage for schools Portable PA System for all schools Electronic marquee at Central Office COVID has lowered the number of students electing to return to school for in-person learning. HCS will have to take a much more aggressive approach to recruit our students back to in-person learning. Our marketing materials will have to educate and train our families on our new protocols, procedures, and materials that will be available to staff and student upon return to the building. We have to purchase materials that will lead our student to come back to school, i.e PPEs, cleaning supplies, etc.. The district will also use marketing strategies with our vaccination clinics, STEAM/STEM in the Park initiatives, and back-to-school rallies.	July 1, 2021 - September 30, 2024	Coordinated services in strategic plan for communication and messaging Coordinated services in strategic plan for health and wellness	$ 385,387.50
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ○ No	Hire additional staff to serve only students who are high risk, special pop, and/or medically fragile Tuition reimbursement for classified and certified staff to develop job related skills Having additional EC staff will allow us to support our teachers and increase their capacity in terms of instructional strategies.The EC leadership staff will also model and assist with small group instruction and modeling co-teaching strategies. We will measure effectiveness through pre-post assessments on students utilizing our district-wide assessment. We have baseline data from the 20-21 school year and will collect more at the BOY, MOY, and EOY through the upcoming school years.	July 1, 2021 - September 30, 2024	Hire SP2 licensed EC teacher or other EC staff in classes to impact teaching and learning Hire additional support staff (coach/compliance) student growth data teacher effectiveness data attendance staff evaluation parent/family engagement professional development See plan at: https://docs.google.com/document/d/16vlRYyJTewZg9kcDaqFx-WkC15oU8AOxOBPgFoFsD8E/edit?usp=sharing	$ 500,000.00
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ⦿ Yes ○ No	Rebranding of Schools Marketing Materials Digital Marquees (All Schools) intercom system Paid postage for schools Portable PA System for all schools Electronic marquee at Central Office	July 1, 2021 - September 30, 2024	Coordinated services in strategic plan for communication and messaging Coordinated services in strategic plan for health and wellness The senior team will monitor on a quarterly basis.	$ 385,387.50
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ⦿ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ○ No	PPE supplies custodial equipment facilities upgrade (touchless lights, faucets, etc.) generator	July 1, 2021 - September 30, 2024	Implementation of Strongschools Toolkit Emergency Preparedness Measures The senior team will monitor on a quarterly basis.	$ 624,556.00
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ⦿ Yes ○ No	School Nutrition services Transportation services (for meal delivery in rural district) Bus monitors Salary study Contracted services Expansion Programs	July 1, 2021 - September 30, 2024	Ability to keep staff whole Meet the needs of the whole child The senior team will monitor on a quarterly basis.	$ 270,775.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ◉ Yes ○ No	infrastructure and network upgrade broadband initiatives Edmentum Technology devices	July 1, 2021 - September 30, 2024	improved Internet connection and services technology resources for improved learning The senior team will monitor on a quarterly basis.	$ 639,225.00
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◉ Yes ○ No	Health and Wellness Strategic Plan Components See plan at: https://drive.google.com/file/d/1F2wDWgg_6N3Cf1KfrVK8rj8FSX-p2YDS/view?usp=sharing	July 1, 2021 - September 30, 2024	Coping strategies Ability to cope with trauma Addressing food shortages Chill-Out Rooms The senior team will monitor on a quarterly basis.	$ 66,075.00
SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ○ No	Includes but not limited to: graphing calculators Tent for STEAM in the Pa wireless sketch pads publication subscriptions Virtual Science Lab Flip Classroom Professional Development High School STEM Lab cameras microphones Laptops/Chromebooks Network Upgrades Band Instruments Band Uniforms Virtual Academy (digital library) North Carolina Virtual Public Schools More teachers for Immersion Program Instructional Supplies for EZ CTE rooms upgraded at SE Full Time Instructional Coach at EV Updated books and novels in the Media Center Ident-a-kid county contract District-wide cloud version of Destiny Technology supplies-hard drives, routers, cables) Adobe subscriptions K-12 comprehensive library at the district level; learning lab of best practices Spanish tutors Data & records center Accelerated Reader Media Center - electronic and traditional Guest Speakers Field Trips Teacher Assistants in Grade 3 Professional development Teacher bootcamps Incentive pay Tutors extend learning	July 1, 2021 - Septermber 30, 2024	Continued improvement of: - valuing and protecting instructional time - high profile on teaching and learning - rigorous student engagement -social emotional learning - transitional planning https://docs.google.com/spreadsheets/d/11UmQUnS7gvV3W3tnpwmVqb7Dg28xp-0iyzl8bN3be3E/edit?usp=sharing Target Number = 1,500 students The senior team will monitor on a quarterly basis.	$ 770,189.00
OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ◉ Yes ○ No	Indirect Costs (0.0329) STEAM camps, etc, field trips - Exploratory trip to for recruitment purposes Clothing and supplies for homeless students - closets at each school Tuition reimbursement for classified and certified staff to develop job related skills Instructional Materials Extracurricular Materials Extended Learning Opportunities Additional staffing Incentive pay Professional Development Subscriptions Records and data center and staffing Referral Program of fully licensed teachers	July 1, 2021 - Septermber 30, 2024	STEAM camps, etc, field trips - Exploratory trip to for recruitment purposes Clothing and supplies for homeless students - closets at each school Tuition reimbursement for classified and certified staff to develop job related skills Instructional Materials Extracurricular Materials Extended Learning Opportunities Additional staffing Incentive pay Professional Development Subscriptions Records and data center and staffing Teachers receive a stipend for the referral of fully licensed teachers	$ 599,969.00
				Total ESSER III Allotment	$ 7,241,564.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.

*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Halifax County Schools (420) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

Halifax County Schools (420) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

☐	11/1/2021 9:22:24 PM	Tina Letchworth	**181 Amended** The amended carryover budget in the continuation application that has been submitted within BAAS and the amended FY 2022 – ARPA (American Rescue Plan Act) – ESSER III Application (PRC 181) within CCIP have been approved. This approval reflects programmatic allowability of strategies only. In the event of a fiscal audit, it is the responsibility of the district to provide documentation that demonstrates the strategy is for the prevention of, is in response to, or will reduce the spread of Coronavirus and is the most cost-effective way to address the problem. Any capital projects must adhere to all guidelines and requirements of capital projects.	C

☐	11/1/2021 12:40:46 PM	Julie Thompson	Andrea Midgette and Julie Thompson worked to ensure the Linq Budget and CCIP Application were consistent. CCIP Amendment reflects the addition of six full-time substitute positions to address preparedness and response to staff absences - especially due to COVID-19 quarantines. We replaced our HVAC numbers in CCIP with their original plan (as we had to reduce it this summer so it would match the current year's available funds). We increased the amount for the 20% minimum for our addressing learning loss through COVID-19 interventionists as our allotment had increased somewhat.	C

Grant Details

Roanoke Rapids City Schools (421) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Roanoke Rapids Graded School District is using formative and summative data to determine its most important educational needs as a result of the disruption in educational services due to the COVID-19 pandemic and subsequent shift to remote learning for 3/4 year to 1 year for its Pre-K through Grade 12 students before our return to in-person instruction beginning with Quarter 4 2020-21. This Needs Assessment to inform ESSER II and III planning is based on current Spring 2021 RRGSD data. The team is led by the Assistant Superintendent, Chief Finance Officer, Executive Director of School Improvement and Accountability, Chief Technology Officer, and Director of Facilities and includes school and district leaders including the Superintendent's Cabinet, all of our school principals, classroom educators (including teachers and instructional coaches), and other stakeholders. The team began by asking the following questions: (1) Are more students placing below grade level overall by subject in fall 2020 or spring 2021 compared to prior academic school years? (2) Are more students placing below grade level within subject and by grade in fall 2020 or spring 2021 compared to prior academic school years? (3) Are more students placing below grade level in fall 2020 or spring 2021 when disaggregated by subgroup (e.g., race/ethnicity or special population status) compared to prior academic school years? This team at RRGSD intends to assess and address student

learning gaps resulting from the COVID-19 pandemic's disruption in educational services using a combination of formative and summative assessments that include a comparison of 2020-21 data with previous years on Istation, Case Benchmark Assessments, NC Check Ins, EOG and EOC tests, course/grade passing rates, attendance, discipline data (including in-school and out-of-school suspension rates), and perception data from teachers, parents, students, and other school leaders to determine which students need remediation and supplementary educational services or educational technology. We have also used our prioritized capital outlay requests to the County Commissioners to determine which priorities focus on ESSER II and III allowable uses.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

The RRGSD team determined that all students enrolled in RRGSD could benefit from some allowable use activities, such as new HVAC, chiller units, controls, air handlers, wall packs, motel units, and boilers. Over the course of ESSER II and ESSER III, each school building will receive replacements or upgrades to the HVAC system to improve air quality and reduce virus transmission. These facility repairs are all already part of our district capital outlay priority requests for the County Commissioners. Likewise, the education of all students has been disrupted because of COVID-19; however, some students have been able to flourish during virtual learning and their learning, while completed in a different way than our old "normal," has not been adversely affected. Our team has determined that 747 students are considered at-risk due to COVID-19 learning losses as determined by triangulating course grades, attendance, discipline data with results on Istation, Case Benchmarks, and/or NC Check Ins. Kindergarten - 47 students Grade 1 - 84 students Grade 2 - 49 students Grade 3 - 28 students Grade 4 - 93 students Grade 5 - 54 students Grade 6 - 36 students Grade 7 - 72 students Grade 8 - 81 students Grade 9 - 62 students Grade 10 - 50 students Grade 11 - 27 students Grade 12 - 64 students We are also aware of some situations in which students are performing better on 2020-21 tests than in previous years. Whether these students learned more than others while at home - or whether they received extra support from parents or others - remains unanswered at this time; however, as more students return in-person and tests are given in a proctored way at school, we anticipate changes could occur in at-risk numbers. For that purpose, we are planning to use the iReady curriculum for our summer program, which is not something that we use in our elementary or middle schools to allow all students to participate in "fresh" content as well as with a new diagnostic that can be administered either at the end of the 2020-21 school year or the beginning of the summer 2021 program. After discussions with more iReady staff, we feel confident that this program will be helpful in addressing learning loss over the 2021-22 school year as well, so we have decided to purchase it to create more continuity between Summer School 2021 and the 2021-22 school year for students in K-8. Students in grades 9-12

also need targeted support for course/credit recovery. Our needs assessment showed that since the school closures began in March 2020 that students in CTE courses were having more difficulty than normal in completing the CTE credentials associated with their courses. Consequently, we will have a CTE Credential Bootcamp over the 2021, 2022, 2023, and 2024 summers (as funds allow). We know that we will need summer learning opportunities in upcoming years as well. Because we know that the learning recovery process will not be completed at the end of Summer 2021, RRGSD plans to use the 20% required funds to address learning loss to create five temporary district-based COVID-19 interventionist positions to provide targeted support to identified students who experienced severe learning loss because of COVID-19 at Belmont, Manning, Chaloner, RRHS, and RREC/ACES. Because these positions will be grant-funded, they will last as long as the grant funds allow but no longer than the 2021-22, 2022-23, and 2023-24 school years. These positions will work in coordination with our permanent elementary interventionists and instructional coaches as part of our district Instructional Services team. These positions will be available for current RRGSD employees as well as external applicants. Lastly, our team realizes our need and desire to continue to build on the momentum we have achieved with technology during the school closures. Consequently, we feel it is important to continue to provide Go Guardian Admin and Teacher, Google Enterprise for Education, Gaggle, document cameras (for teachers to use at home and school), and tablets to interact with the Smart TVs and Smartboards.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 1,408,281.23 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

RRGSD teachers will administer iReady, Istation, NC Check Ins, STAR Reading and Math, Case Benchmarks, and other high-quality assessments that are valid and reliable to accurately assess students' academic progress and assist educators in meeting students' academic needs including through differentiating instruction. The RRGSD Instructional Services team, led by the Assistant Superintendent and Executive Director of School Improvement and Accountability

and made up of permanent instructional coaches, permanent interventionists, temporary COVID-19 interventionists, and testing coordinators, will oversee the administration and usage of these assessments and use them to drive instructional decisions in PLCs. This team collaborates with Community Outreach Liaisons, who provide extra support to low-income students, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care; Director of Exceptional Children, who oversees programs for students with disabilities; and the Lead English Learner Teacher, who coordinates services for English learners. The majority of funding will be spent on the three years of COVID-19 Interventionist (salary and benefits) positions. Remedial and supplemental K-12 salaries, FICA, state retirement, and hospitalization is budgeted for each of the five positions for three years. Budgeted: $1,376,040.45

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

The temporary COVID-19 interventionists will take the lead on implementing evidence-based activities to meet the comprehensive needs of students affected by COVID-19 learning losses. These interventionists will work with individual students and small groups of students with these activities. They will also share evidence-based activities with the teachers in their building to use with these students. The activities will be differentiated and aligned to the specific standards in which students showed gaps. A portion of the funding will be spent on supplies to implement evidence-based activities to meet the comprehensive needs of students as identified by the COVID-19 interventionists. Budgeted: $31,020.55

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Parent and family engagement is an important part of our comprehensive approach at RRGSD. Before, during, and after the school closures, we have consistently provided information to parents and families on how they can effectively support their students, including in a distance learning environment. Our information has encompassed both academic and social-emotional strategies. Currently, our Community Outreach Liaisons and ESL Family Liaison work directly with families to connect them with school/teachers to provide targeted information and assistance to parents and families, and once our COVID-19 Interventionists begin, they will join this team to provide specific information and assistance to recover COVID-19-created learning gaps. Lastly, during times of virtual learning, RRGSD uses a Technology Help Desk that is open every day from 7:00 am - 4:00 pm with live technicians to provide technical assistance to families, and families can leave messages after 4:00 pm to be returned the next day.

* (D) Tracking student attendance and improving student engagement in distance education;

RRGSD has worked with teachers to understand how to track student attendance during times of virtual instruction, as it is very different than our policies for in-person attendance (which is taken in the moment and marks students as present, tardy, or absent, and if absent, with specific codes for why). Our virtual instruction attendance policy allow

students flexibility in when they do their work; however, attending a live session can count. If students are completing assignments after watching recorded lessons, they can still be counted present within 48 hours. We are working with teachers on managing taking attendance multiple times as well as tracking who is attending live consistently and inconsistently or never. Improving student engagement has been a longer process as teachers had to learn how to teach in a completely virtual environment first and then working on honing their craft to improve student engagement. During the 2021-22 school year, we're planning an intentional virtual academy for RRGSD in which only a few teachers who have shown to be effective and engaging in their virtual environment are leading distance education.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Administrators and instructional coaches have been instrumental in assisting teachers in tracking student academic progress throughout the pandemic using data charts that include pre-pandemic assessment scores and during- and after-pandemic assessment scores from Istation, iReady, Case Benchmarks, NC Check Ins, EOG, EOC, Star Reading and Math. Our spreadsheets show students at all areas (those who lost ground, those who are performing similarly, and those who are performing much higher). Our conversations have centered around each area, and lingering questions remain (such as if students whose data went up are actually suffering from learning loss because assessment data is unreliable). We know that more learning gaps will appear as we take more reliable assessments. These data sheets will create the list of students suffering from severe COVID-19 learning loss that our COVID-19 interventionists will support.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ⦿ No				$
	* ⦿ Yes ○ No	To ensure proper air quality, RRGSD has 93 air handlers and 3 chillers that are 23 years old. With COVID-19 placing emphasis on air quality, we	April 2021 - June 2022	AMENDED AMOUNT to include entire amt. Roanoke Rapids High School will receive an air handler and chiller	$ 4,000,000.00

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.		on air quality, we feel it is imperative that we replace these obsolete systems. These units are located at an elementary school and a high school. Rusty water clogging up the filters has been an ongoing problem as these systems have aged. We also have one elementary campus that has 60 HVAC controls that regulate airflow that need to be upgraded in order to improve air quality. RRGSD will use maintenance contracted services to improve air quality with the HVAC and chiller units and controls. TOTAL PLANNED:		chiller replacement in the Senior Building. Belmont Elementary School will receive a new air handler and chiller. Chaloner Middle School will receive wall packs, motel units, and boiler replacements. Clara Hearne will receive wall pack and boiler replacements. ACES will receive wall pack replacements. Central Services will receive HVAC replacements in Building B/Board Room and Building A.	

		$4,000,000			
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ⦿ No				$ [ ]
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ⦿ No				$ [ ]

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◉ Yes ○ No	AMENDED: RRGSD will employ six full-time substitute positions (at Clara Hearne, Belmont, Manning, Chaloner, RRHS, and RREC) to improve preparedness and response efforts when staff members are out unexpectedly or long-term such as for COVID-19-related quarantines.	2021-2022 school year	AMENDED: RRGSD will be able to operate with fewer shutdowns due to staff unavailability.	$ 148,653.78
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◯ Yes ⦿ No				$
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ◯ Yes ⦿ No				$

11/9/2021 10:47:27 AM

| EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment. | * ◉ Yes ○ No | Purchase educational technology including - three-year licenses for Gaggle: $30,000 - document cameras that teachers can use at school and at home in the event of a COVID-19 school closure: $32,000 - tablets for online presentation (one per classroom): $16,000 - three-year licenses for Go Guardian Admin and Teacher: $120,000 - three-year licenses for Google Enterprise for Education: $60,000 | July 2021 - June 2024 | Three-year district site licenses will be purchased, so all students, teachers, and administrators have consistent access for 2021-22, 2022-23, and 2023-24. All classrooms will have one document camera and one tablet. | $ 258,000.00 |
| MENTAL HEALTH SERVICES: Providing mental health services and supports. | * ○ Yes ◉ No | | | | $ |

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ○ No	RRGSD Summer School 2022, 2023, and 2024 (as funds allow) will address learning loss among students through summer learning. - Teacher/tutor extended year instruction, FICA, state retirement, and hospitalization to implement evidence-based activities $192,219.90 - Extended day/year K-12 instructional supplies and materials for evidence-based activities and high-quality assessment $174,670.58 - Transportation for students including bus driver salary, FICA, state	June and July 2022, 2023, and 2024	Improvements in formative and summative assessment such as iReady, Istation, Case 21, EOG, EOC, scores as well as course/credit recovery & CTE credentials for students who failed courses or grades and/or are not showing grade-level proficiency on formative and summative assessments from summer school based on usage of evidence-based instruction and assessment including iReady and other resources, daily transportation between home and school, and breakfast and lunch for all	$ 609,972.80

		retirement, hospitalization, and contracted services for buses to get students to summer programming: $43,109.52 - Provide three years of summer CTE Credential Bootcamp to give high school students opportunities to make up or finish credentials they were unable to complete during the school year by paying for credential vouchers (which are budgeted at $50,000) and CTE staff salary and benefits (which are budgeted at $149,972.80): $192,972.80		students in attendance	

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ◯ No	AMENDED: Indirect Costs: $101,870.69 AMENDED: Unbudgeted Reserve: $514,627.64 ORIGINAL: Indirect Costs: $93,367.39 (at this point based on 4.104%) ORIGINAL: Unbudgeted Reserve: $666,901.81	June 2021 - July 2024	RRGSD will budget indirect costs for all activities and use the unbudgeted reserve for other ESSA -eligible activities (along with a budget amendment) for this money.	$ 616,498.33
				Total ESSER III Allotment	$ 5,633,124.91

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Roanoke Rapids City Schools (421) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - New Applicant Summary

There are no new applicants.

GAN Information

Roanoke Rapids City Schools (421) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Weldon City Schools (422) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

The district and school-level leadership with teachers and parents completed a specific needs assessment for the ESSER II & ESSER III funding. The team met as a team on April 13, 2021, and April 26, 2021, along with individual committee meetings in between. The committees were Academic Achievement and Graduation, Whole Child, Infrastructure and Operations, and Organizational Effectiveness & Development. The participates participated virtually and in person. The attendees were Terry Alston, Federal Programs Director; Lyrita Garner, Child Nutrition Director; Natashalyn Snipes, Exceptional Children's Director; Kenny Turner, Maintenance Supervisor; Ronald Brown, Weldon High School Principal; Matilda Campbell, Finance Officer; Tekeyla Jones, Weldon Elementary School Principal; Krissy Martin, AIG/Beginning Teacher, Curriculum Specialist; Jeannie Roberson, Weldon Middle School Principal; Laquasha Hudson, Behavior Specialist; Anissa Robinson, Resource Teacher; Schwanda Bowser, Parent; and Deondre Miller, Student Support Specialist. The committee utilized data and information to address learning gaps by providing extra support to teachers and students. In addition, the team placed priority on the students having the opportunity to return to face-to-face instruction safely. The in-person following benefits were considered: The Advantages of Face to Face Learning in the classroom are - Students will be able to concentrate harder on learning because there will be fewer distractions than at home. Students can gain greater understanding, stories, and real-world examples from teachers and other students - Students will have a greater chance of completing the course by doing it in a classroom situation. (Completion rate of teacher-led classes is almost 5x higher than that of online learning) - Students may feel more comfortable and learn more efficiently in a familiar, traditional classroom

situation. -Students can access more information and richer understanding through teacher and other student's body languages and voice. Students have the opportunity to connect with, problem-solving, and network with other students from a wide range of backgrounds. The committee's consensus is to prepare all buildings for safe re-entry. In addition, ESSER II funding will improve Air Quality Control within the school to welcome students into buildings. Good Air Quality contributes to a favorable environment for students, the performance of teachers and staff, and a sense of comfort, health, and well-being. These elements combine to assist a school in its core mission- educating children-maintain acceptable temperature and relative humidity. Finally, ESSER III funds will allow students to participate in the 2021 summer program and receive services from school-level part-time Interventionists, Specialized Support Staff, Instructional Technology Facilitators. The district-level support will enhance by a Skilled Maintenance, Federal Programs Administrative Assistant, and a Director of Administrative Services. The team identified the need to support teachers and students in addressing the academic learning loss due to the unexpected change in face-to-face learning. The goals are as follows: GOAL 1.0 Increase Academic Performance for All Learners 1.1 Increase the percentage of third grade students on grade level in reading as measured by the Beginning-of-Grade (BOG) assessment. 1.2 Improve grades 3-8 End-of-Grade (EOG) proficiency in reading.; 1.3 Improve grades 3-8 End-of-Grade (EOG) proficiency in math. 1.4 Improve grades 5 and 8 End-of-Grade (EOG) proficiency in science.; 1.5 Improve End-of-Course (EOC) proficiency in Biology. 1.6 Improve End-of-Course (EOC) proficiency in Math I and Math III.;1.7 Improve End-of-Course (EOC) proficiency in English II.;1.8 Increase the percentage of students with at least a 17.0 Composite Score on the 11th Grade American College Test (ACT). GOAL 2.0 Improve Four-Year Cohort Graduation Rate GOAL 3.0 Meet the Needs of the Whole Child GOAL 4.0 Build Infrastructure Conducive for Teaching & Learning

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

The district gathered the data from a parent survey on April 30, 2021 that expressed a concern regarding the safety of the students return. The committee prioritize the upgrade of facilities and preparedness of the district to return to face to face instruction begining with summer programs. The original results was 56.8% electing to remain virtual As a district wide Title I School, with two schools identified as Targeted Support and Improvement Schools (TSI) and one Comprehensive Support and Improvement (CSI) the committee members goal is to increase the face to face instruction to 95%. School Face to Face Count Percentage Weldon Elementary 149 57% Weldon Middle 75 37% Weldon STEM High 51 32% RVEC 26 21% District Total 301 40%

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss

through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 653,652.80 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

While the COVID-19 pandemic has resulted in learning deficits for many of our students, the pandemic has also yielded opportunities for growth and improvement, especially relating to digital teaching and learning. As school districts across the state and country, Weldon City Schools will vigorously work toward learning recovery and ensure technology sustainability. The district has adopted the MAP as a high-quality universal assessment that provides teachers reports for planning differentiated instruction. In addition, administrators are provided with a context report to drive the data across the district. The MAP assessment is administered quarterly. The district-level Curriculum Department reviews the data and makes recommendations to school-level administration related to instructional programming, resources, and professional development. Curriculum team members also participate at the school level in PLCs to support teams in disaggregating the data to drive instruction.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Build organizational capacity by creating more opportunities for teachers to expand their knowledge, improve classroom practices, and increase content and academic rigor. Increase student engagement through differentiated and collaborative teaching and learning while incorporating social and emotional learning support. Implement the Problem-Solving Team approach with fidelity. Ongoing monitoring of individual student achievement goals on local and state assessments to make adjustments in personalized learning plans and enhance standards-based curriculum implementation. Provide all district and school personnel and students with updated technology and professional development on using devices for optimal digital teaching and learning experiences.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

The schools host regular Town Hall Meetings, Informational Sessions, one on one parent conferencing and access to parent resource rooms. The district supports will provide an online On-Demand Parent based resources. The Parent on demand provide workshops to parents in at their convenience. Schools will purchase marque signs to remain connected with students, parents, and the community. School Marquees can be used to: Congratulate your staff and students or showcase milestones achieved, thank students or staff for participating in events or for providing volunteer services, announce reminders for events that are coming up like PTA meetings, practice times, or any school event that is happening,

highlight testing dates, school closing dates, early releases, or special meetings, promote open houses, dances, game nights, fundraisers, and important health and safety information.

* (D) Tracking student attendance and improving student engagement in distance education;

The data manager shares a weekly attendance report with the district level homeless liaison, foster care liaison, school level counselor and district social worker. The team collaborates and contact parents, provide home visits, and resources to support student attendance. District and school-level problem-solving teams review progress monitoring data during program implementation.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

The district has adopted the MAP as a high-quality universal assessment that provides teachers reports for planning differentiated instruction. In addition, administrators are provided with a context report to drive the data across the district. The MAP assessment is administered quarterly. The district-level Curriculum Department reviews the data and makes recommendations to school-level administration related to instructional programming, resources, and professional development. Curriculum team members also participate at the school level in PLCs to support teams in disaggregating the data to drive instruction. The pre-pandemic benchmarks, state beginning of grade assessments, and informal teacher assessment skills are analyzed utilizing the MTSS Framework. School-level problem-solving teams analyze ongoing student data to provide intervention, remediation, and enrichment as they continually monitor student progress towards standards mastery. District and school-level problem-solving teams review progress monitoring data during program implementation.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	School facility repairs will include touchless commode flush, water coolers, outdoor canopy,	June 7, 2021 - September 21,2024	The attendance data will decrease due to the spread of current and future viruses as measured through attendance reports and nurse's contact logs regarding virus and classrooms reverted to remote due to quarantine.	$ 525,778.80

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ◉ No				$
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ◉ Yes ○ No	The district will employee an Administrative Director to collaborate with the local health department, law enforcement and local government agencies to ensure district compliance to heath and safety mandates. Federal Programs Administrative Assistant will assist with maintaining documentation for ESSER.	July 1, 2021 - August 30, 2024	Provide technical assistance and provide support to ensure a successful Compliance Audit with federal, state, and local areas.	$ 423,097.80

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ○ No	The employment of part-time Interventionists in the area of ELA/Math/and Science, Instructional Technology Facilitators to continue integrating technology into face to face lessons continuing a 1:1 instruction, Specialized Instructional Support Staff will provide additional support to Social Worker, and Student Support Specialists.	June 7, 2021 - September 21,2024	1.1 Increase the percentage of third grade students on grade level in reading as measured by the Beginning-of-Grade (BOG) assessment. 2018-19: 22.4% 2025 Goal: 47% 1.2 Improve grades 3-8 End-of-Grade (EOG) proficiency in reading. 2018-19: 35.4% 2025 Goal: 60% 1.3 Improve grades 3-8 End-of-Grade (EOG) proficiency in math. 2018-19: 25.0% 2025 Goal: 50% 1.4 Improve grades 5 and 8 End-of-Grade (EOG) proficiency in science. 2018-2019; 64.8% 2025 Goal: 90% 1.5 Improve End-of-Course (EOC) proficiency i	$ 486,289.96

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	The purchase of supplies to sanitize all facilities	July 1, 2021 - August 30, 2024	Principals will monitor the purchase, delivery and use of sanitation supplies or strategies. Sanitation/Custodial staff will verify completion of sanitation by signing daily that process is completed .	$ 60,000.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ⦿ Yes ◯ No	The purchase of 2- 15 passenger vans, 1 -7passenger van, 2 - maintenance trucks, and 2 - midsize sedans. Staff will use these vehicles for delivery, student support and the monitoring to ensure compliance with federal programs. (Technology, Child Nutrition, Curriculum and Guidance)	June 7, 2021 - September 21,2024	The effectiveness of providing services to staff and students through delivering meals, technology, supplies, and services in a timely manner. A log will be created to record the use of each vehicle.	$ 185,000.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ⦿ Yes ○ No	The upgrade of district wide infrastructure and school level technology. Will ensure data closets are protected to maintain current equipment. Purchase of laptops for new support staff members.	June 7, 2021 - September 21,2024	The upgrade of the infrastructure will provide safety and consistent connectivity with 21st Century Technology. Technology interruption and comparability requests will decrease as measured by the number of requests submitted to the Technology Department.	$ 145,000.00
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ⦿ No				$
	* ⦿ Yes ○ No	The district will provide an in-person six-week summer school program for students. Each school has created individual plans based on student data. *Weldon Elementary Global Academy criteria will prioritize students entering the	June 7, 2021 - September 21,2024		$ 228,464.76

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.		kindergarten through 3rd grade with 20 or more absences from the 2020-2021 school year, 3rd and 4th-grade EOG scores level 1 and 2, MAP data in all students performing at low average to low, students are performing below grade level on based on Classwork assessments along with teacher input. The instruction plan will be ELA/- M-class Intervention, CKLA Skills Curriculum, and Study Island; Math - Imagine Math, MAP accelerator, Study Island, and Science - Study Island, and Project-Based Learning activities. *Weldon Middle School students are identified and targeted students based n Benchmark/EOC/EOG data. The instructional plan will be ELA - EdPuzzle, Readworks, Common Lit, Brain		Academic growth: We will use iReady as our Competency-based Assessment to administer pre and post tests to K-8 learners to measure academic progress. Students will take pre-tests during the first week of instruction (June 7-11, 2021) and post-tests during the last week of instruction (July 19-22, 2021).	

		Pop, Study Island, IXL Math- EdPuzzle, IXL, Study Island, SchoolNet, Brain			
OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ○ No	Marquee signs to provide communications to students, staff and community on a regular basis. School Marquees can be used to: congratulate your staff and students or showcase milestones achieved, thank students or staff for participating in events or for providing volunteer services, announce reminders for events that are coming up like PTA meetings, practice times, or any school event that is happening, highlight testing dates, school closing dates, early releases, or special meetings Promote open houses, dances, game nights, fundraisers, and important health and safety information.	July 1- 2021 - August 30, 2024	Parent Engagement will increase as a result of the school Marquee signs reaching low-income and mobile parents with inconsistent contact information. Engagement will be measured by parent contact logs. Studies have shown that students who learn outdoors develop: a sense of self, independence, confidence, creativity, decision-making and problem-solving skills, empathy towards others, motor skills, self-discipline and initiative. The staff supplemental pay will reflect impact the retention rate.	$ 450,712.67

		Funds will be used for the creation of outdoor learning environments to expand the classroom experience. Studies have shown that students who learn outdoors develop: a sense of self, independence, confidence, creativity, decision-making and problem-solving skills, empathy towards others, motor skills, self-discipline and initiative. All staff members will receive supplemental pay not to exceed $2,500.00.			
			Total ESSER III Allotment	$	2,504,343.99

Part E: Assurances

Check **all** *assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:*

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.

* ✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
* ✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
* ✔	Funds shall not be transferred into or out of this allotment category.
* ✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

There are no new applicants.

GAN Information

Weldon City Schools (422) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Harnett County Schools (430) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Prior to the global pandemic, HCS completed a strategic plan and listed priorities as high-quality instruction, high-quality staff, facilities and technology, and collaboration with community stakeholders. With ESSER I funds, we had to respond to immediate needs due to the pandemic, such as PPE, school cleanliness, and student service needs in response to school closures and remote learning. We did not have time to do any long-term planning to address the needs and gaps created by long-term school closures. ESSER II and III funds will allow us to address these needs and return our focus to our strategic plan and priorities. As we planned for ESSER II and III funds, information from student, staff, and parent surveys, attendance data, iReady data, failure date from PowerSchool, remote learning, and face-to-face data were all used in the development of the Needs Assessment and ESSER Plan. Input from school leaders, district leaders, educators, and stakeholders was included in the needs assessment. Beginning with school closures in March 2020, the district leadership has held weekly meetings with school principals. We heavily relied on our Student Services Department and Lead Nurse for current and updated data concerning positive cases, quarantines, and impacted schools and staff. Our Facilities and Maintenance Department provided information on the needs of schools for signage, PPE, and other COVID-related materials. The Curriculum and Instruction team provided

student data such as iReady scores, report card data, and attendance data. The Human Resources Department provided up-to-date data on employee attendance and COVID-related absences. The Digital Learning Department provided information on student and teacher connectivity and usage during COVID and remote learning as well as device deployment. Parents, students, and stakeholders provided data through the completion of surveys, the use of social media, emails, and phone calls. The common concerns from all stakeholders were the fear of contacting COVID, learning loss due to COVID, and the need for social interaction and face-to-face learning. Data discussed as the plan was developed included EOC and CTE Course failures for 2020-21; Attendance percentages as of March 31, 2021; iReady BOY and MOY data for grades K-8; Number of K-5 Students Identified as Not on Target to Meet End of Grade Expectations as of June 2020; Grades 3-4 Fall 2020 Supplemental After School Tutoring Eligible and Served Students; Middle School and High School failure rates for 2019 and 2020; Number of students participating in remote learning as of March 15, 2021; Fall EOC Tests not taken and Fall EOC GLP compared to 2018-2019 data. ESSER II and III funds will be used in coordination with other funding sources. Our district plans to assess and address learning gaps by: Identifying K-12 at-risk of failure using iReady data, EOC data, EOG data, attendance data, and classroom performance data. Offering a Summer Learning/Enrichment Program for all students K-12 with at-risk students given priority. Offering an afterschool tutoring program at all sites with transportation provided. Providing curriculum resources and professional development for all staff. Professional development will include SEL, best practices, high yield strategies, identifying deficits, and acceleration. Providing principal support through professional development that includes instructional practices, identifying deficits and acceleration as well as in remote learning leadership and how to engage parents during remote learning. Providing support for teachers with added retention and recruitment specialists and instructional coaches. Increasing number of EC teachers to support special needs population and increasing number of certified staff to reduce class size in high need and/or low performing schools. Using all available data to monitor student progress and daily instruction, including district-wide walkthrough model. Update and improve school facilities to reduce the risk of virus transmission. Continuing to train staff, students, and parents in procedures to reduce the risk of COVID: handwashing, social distancing, etc. Offering Parent University events that will provide parents with strategies and practices to address the learning gap at home and resources available from the district to use at home. IReady Data Grade Level BOY 19-20 % At-Risk MOY 19-20% At-Risk EOY 19-20 % At-Risk BOY 20-21 % At-Risk MOY 20-21 % AT-Risk First Grade 11% 5% 5% 6% 6% Second Grade 22% 14% 12% 24% 24% Third Grade 31% 20% 21% 37% 32% Fourth Grade 30% 23% 24% 31% 32% Fifth Grade 41% 38% 38% 46% 41% Middle Schools: Q1 2019 failure rate 11% Q1 2020 failure rate 29% Q2 2019 failure rate 14% Q1 2020 failure rate 32% High Schools: T1 2019 failure rate 9% T1 2020 failure rate 24% T2 2019 failure rate 13% T2 2020 failure rate 27% T3 2019 failure rate 12% T3 2020 failure rate 27% F1 2019 failure rate 8% F1 2020 failure rate 18% Additional data available upon request.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Feedback from community stakeholders, teachers, and school leaders continues to be mixed. While many are ready to return to face-to-face instruction and normal activities, there are still many worried about the transmission of COVID and prefer remote learning. The common concerns from teachers and school leaders this year have been student engagement, student attendance, and student performance. When you look at our EOC and CTE course failures for the first semester, it reflects an increase, and even more, concerning is the current number of students failing an EOC or CTE high school course. Our overall attendance is at 93.89%, and this is much lower than in previous years. School leaders feel this is not an accurate representation because students are counted as present if they complete the work assigned. Remote learners are not required to participate in virtual classes to be counted present per state policy. While school leaders understand this policy is due to the connectivity issues in rural North Carolina, they feel it has hurt student engagement and will ultimately negatively impact student performance. K-5 iReady data shows that our percentage of at-risk students in grades K-5 has increased at every grade level from the EOY to the BOY. Unfortunately, we can not rely on the EOY data for 2019-2020 and the BOY data for 2020-21 as students were in remote learning, and parents may have assisted students in completing the diagnostic. Our plan is to look at our EOY data for 2020-21 and use it as a baseline for summer school. In the summer of 2020, over three thousand K-5 students were invited to our virtual Summer Jumpstart because they were not on target to meet end-of-grade expectations; only 1279 students participated. In the fall of 2020, we offered supplemental after-school tutoring through LitLife, and only 74 students out of 1046 eligible students participated. When comparing our middle school and high school failure rate from the fall of 2019 to the fall of 2020, there was a significant increase in both middle and high school failures. The second quarter failure rate in 2019 for middle school students was 14%. This increased to 32% in the second quarter of 2020. The first-semester failure rate for high school students in the first semester of 2019 was 8%. This increased to 18% in the first semester of 2020. Our grade-level performance in Biology, English II, and Math I decreased from 2019 to 2020. Currently, 64.7% of our elementary students are face to face, 62.7% of our middle school students are face to face, and only 40% of our high school students are participating in face-to-face instruction.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 6,433,187.40 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Harnett County Schools realize that learning was interrupted during remote learning and the only effective response will be to use diagnostic tests and other tools to meet the children where he or she is and develop a personalized learning plan. HCS will use high-quality assessments to assess and monitor students' progress. In grades K-8, iReady Reading and Math Diagnostic will be given to all students at BOY, MOY and EOY. Students in grades 3-8 will participate in the North Carolina Check-Ins in reading and math. Students in grades 5 and 8 will participate in the NC Check-Ins in Science. Students in K-5 will also participate in the Fountas and Pinnell Benchmark Assessment at BOY, MOY, and EOY. Classroom teachers will utilize Eureka assessments for common formative assessments in math. Classroom teachers will also use Schoolnet in grades 3-8 to create and administer common formative assessments in reading, math, and science. Students in grades 3-8 will also participate in the NC End of Grade Assessments in reading, math, and science. In grades 9-12, the NC Check-In for Math I will be used to monitor and assess students' progress. Our high school teachers will use Exact Path diagnostics in Math and Reading. Teachers in 9-12 will also use Edmentum to monitor all content areas. They will use Edmentum (Study Island) for common formative assessments to assess student progress. Our high school students also will participate in the NC End of Course Assessments in Math I, Math III, English 2, and Biology; the ACT in grade11; Pre Act in grade 10; and WorkKeys for CTE concentrators in grade 12. Our English Learners are administered the WAPT-Screener in Kindergarten and the WIDA-Screener in grades 1-12. All English Learners take the ACCESS test annually to monitor progress and language acquisition. Harnett County Schools Exceptional Children's teachers use research-based reading and math programs which include assessments that progress monitor students' growth on IEP goals. When used with fidelity, the programs will close the achievement gap students are experiencing. Research-based reading programs with assessments: - S.P.I.R.E.: An intensive, structured, and spiraling curriculum that incorporates phonological awareness, phonics, spelling, fluency, vocabulary, and comprehension in a systematic 10-step lesson plan. Students are assessed at the end of each unit and have benchmark assessments to monitor progress. Reteaching lessons are incorporated into each unit to ensure students' mastery of skills. - Reading Mastery: A highly systematic and explicit scripted program focusing on reading decoding, fluency, and comprehension with ongoing progress assessments occur at the

end of every 5 lessons. - Language!: A comprehensive program directly teaching phonemic awareness, phonics, vocabulary, fluency, comprehension, and writing. Progress monitoring assessments are administered every 10 lessons, and reteaching and retesting should be evident if students fall below the 80% mastery level. - Early Literacy Skills Builder (ELSB): This program allows for verbal as well as nonverbal responses. The program has seven levels with 5 scripted lessons in each level. The 5 lessons contain 14 objectives focusing on phonemic awareness, phonics, vocabulary, comprehension, and accuracy/fluency with connected text. Once the 5 lessons in the level are completed, a progress assessment is administered before moving on to the next level. Research-based math programs with assessments: - Number Worlds: The program was developed around the five strands of math proficiencies. Levels A-G have weekly progress monitoring as well as cumulative and unit assessments with reteaching and reassessing as needed. Number Worlds is aligned to the Common Core Standards. In Levels D-G, teachers can select units from different levels to meet the student's IEP goals and deliver instruction that is aligned with the common core. - TransMath: A comprehensive math intervention program that includes computational skills and problem-solving instruction. Throughout the lessons are ongoing assessments and differentiation days after assessments with multiple groups. - Foundations of Algebra: Foundations of Algebra has six units, and each unit includes an overview, objectives, words to know, day-by-day summaries, materials lists, career connections, unit projects, review of prior learning, and assessments. Along with research-based programs and the assessments included in those programs, teachers also use: - CORE Phonics Survey: Assesses the phonics and phonics-related skills that have a high rate of application in beginning reading. - Phonological Awareness Screening Test (PAST): Assesses a child's development of phonological awareness as it's a reliable predictor of future reading ability. - Number Knowledge Test: An assessment given at the beginning and end of the school year measures students' conceptual knowledge of number sense. When normed referenced data is needed to determine if students are closing the gaps with their peers, teachers have access to: - Acadience: Online program contains benchmark assessments and more frequent progress monitoring assessments when a need is identified in the areas of reading and math. Examples of specific progress monitoring include First Sound Fluency, Oral Reading, Phoneme Segmentation Fluency, comprehension, number identification, computation, concepts, and applications. - Easy CBM: Online program which provides progress monitoring in oral reading fluency, vocabulary, reading comprehension, and common core state standard in mathematics. - Universal screening in literacy and math is conducted three times per school year. Literacy screening includes multiple Curriculum-Based Measures. Early Numeracy Screening Inventories are conducted in math. This is the first step in helping identify students in need of additional support.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

To address the learning loss that may have occurred due to school closures and remote learning, our district will: - Offer additional student support by funding additional teachers to reduce class sizes, especially in high-need and/or low-performing schools. - Provide additional instructional support and professional development for our teachers in

high need content areas and high need schools, including a high school Math Instructional Coach and a high school Instructional Coach at our alternative school. We will also address remote learning and offer additional professional development. In March 2020, there was little time to design and implement a plan for remote learning. A recent analysis of research on the subject stated, "Online education, including online teaching and learning, has been studied for decades. Numerous research studies, theories, models, standards, and evaluation criteria focus on quality online learning, online teaching, and online course design. We know from research that effective online learning results from careful instructional design and planning, using a systematic model for design and development. The design process and the careful consideration of different design decisions impact the quality of the instruction. And it is this careful design process that will be absent in most cases in these emergency shifts. (Hodges et al. 2020)." Our district certainly found this to be true. We know this summer and the coming year will have to include high-quality professional development to address the missed step. Additional topics for professional development will include best instructional practices emphasizing reading in K-5, high yield strategies based on Marzano's research, identifying deficits, and acceleration practices/strategies. - Offer an after-school tutoring program at all sites 2 days per week with transportation provided. We know that our low socio-economic students may have suffered the greatest loss in learning due to inequities in connectivity, support, and available resources. Providing transportation will allow many at-risk students to take advantage of our after-school tutoring. - Replace teacher iPads and Chromebooks as needed to provide access to technology to ensure instruction continues in remote learning if needed. Funding will also be used to purchase Google Enterprise accounts for teachers and Classlink to ensure students and families can better navigate the learning management system and other technology resources. Research on effective online learning clearly reflects that students and teachers must have adequate tools and devices. Google Enterprise will allow teachers to better monitor student engagement, better manage student online behavior, host parent events virtually and use breakout rooms for small groups and differentiation. Classlink is a single sign-on tool that will give students and staff access to everything they need for learning and instruction with one password. Classlink will also allow teachers to monitor student virtual learning through usage reports and real-time analytics. Classlink will allow our district to personalize learning by grade level throughout the district. - Purchase curriculum materials with a focus on ELA, Math, and Science and additional CPR training materials to meet high school graduation requirements and limit sharing of curricular materials. - Continuation of Summer Enrichment Program from June 2024 to August 2024 after ESSER II funding ends in September 2023. The Summer Enrichment Program will be tailored for a variety of special populations. We will include reading, math, and science in a program tailored for personalized learning and choice with STEM and CTE activities. - Support in staffing and instructional materials to sustain and grow our Dual Language programs. - Provide resources and training for parents with Parent University.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Our district maintains a parent information site on the district webpage and utilizes social media to constantly and consistently update our parents and community. Each school also maintains a web page and social media account to communicate with parents. Parents serve on School Improvement Teams and School Advisory councils as well as district-level committees. This past year during remote learning, a Remote Learning Plan was developed and shared with parents. Parents were updated through our COVID 19 Updates and Resources for Families link. This page included a current Coronavirus Tracking Dashboard and : COVID 19 Updates K-5 Digital Resources ESL Digital Resources Resources for families 6-8 Digital Resources EC Digital Resources K-12 Digital Teaching and Learning Resources 9-12 Digital Resources Student and Family Technology Resources The Student and Family Technology Resources included videos in English and Spanish to help parents navigate remote learning. We also operate a Technology Hotline on nights and weekends for parents and students. This page also included a list of active outdoor hotspots for parents to utilize. As we shift back to face-to-face instruction, funding from ESSER III will be used to address the learning loss of students with parent involvement and engagement activities. We will host Parent University events for our parents throughout the year. The purpose of the Parent University will be to provide parents information about school initiatives and to provide resources for parents to support students at home or while in remote learning. We plan to offer face-to-face events and virtual events to accommodate our parents. Funding will also be used to purchase Google Enterprise accounts for teachers and Classlink to ensure students and families are able to better navigate the learning management system and other technology resources. Research on effective online learning clearly reflects that it is critical for students to have adequate tools and devices. Google Enterprise will allow teachers to better monitor student engagement, better manage student online behavior, host parent events virtually and use breakout rooms for small groups and differentiation. Classlink is a single sign-on tool that will give students and parents access to everything they need for learning and instruction with one password. ESSER funding will also be used to provide services and training from our Student Services Department to educate and implement positive mental health practices, to educate and implement anti-virus transmission procedures and support parents as they work with the district in areas of strategic planning, school/student leadership, diversity, equity, and inclusion. As shared earlier, the Remote Learning Plan will be revisited and updated as we move to the 2021-2022 school year and online parent and student resources. Our district will open a Virtual Academy in the fall of 2021 for students who are not able to return to face-to-face instruction. The virtual academy will be open for grades K-12, with students making a commitment to one semester.

* (D) Tracking student attendance and improving student engagement in distance education;

Our district will continue to use PowerSchool to track and monitor student attendance. Student attendance concerns will be addressed and supported with a team approach that includes classroom teachers, school administrators, social workers, guidance counselors, and drop-out prevention specialists. Schools often employ activities and rewards to encourage improved attendance. The team of school and district support will help to target individual needs and create

solutions that help improve student attendance. To address individual student attendance and engagement, a collaborative approach will be used and may include mental health and other support from our Student Services Department, support from our Exceptional Childrens' Department, and support from our English Learners' Department. We will also continue to address attendance and collaboration using our community resources and contacts such as the recreation department, public library system, civic groups, and churches. These stakeholders often help in disseminating information and resources to our students and their families. The purchase of Google Enterprise will address student engagement while in distance learning. This will allow classroom teachers to use features such as "poll everywhere" and "question and answer" to keep all students engaged. The break-out rooms available in Google Enterprise will allow teachers to have break-out rooms for differentiation and small groups. Many of the EdTech tools such as Kami, Edpuzzle, Nearpod, and Quizzi that we have purchased for students can be integrated into Google Classroom with the Google Enterprise subscription. Classlink will also allow the district to track student engagement using usage analytics. Classlink will allow the district and the school to monitor who is accessing each application, how often, and how long they are spending in the application. District resources for online learning will continue to be improved upon for teachers and students. Distance learning that offers choices and is personalized will help improve student engagement. Resources from the state level were organized for AIG, EC, and EL students and included in the digital resources for parents and students. Virtual extracurricular events for parents and students will also be part of distance learning to increase engagement. Evening virtual tutoring or classes will be offered to encourage engagement. This year, virtual tutors were utilized to support engagement with some of our most at-risk learners, and this program will be expanded as needed.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Our district will continue to disaggregate all available data, including assessment data, EVAAS projected data, attendance data, and walk-through data, to share with teachers, instructional coaches, and school administrators. Our Student Accountability and Information Department has created "Principal Dashboards" for all schools. These dashboards contain school demographic profile, teacher profile, teacher years of experience, student absences, student discipline, ELA achievement, math achievement, science achievement, growth score, and achievement score. Principals will have this information for 3 years at a glance. Our school Instructional Coaches will use Professional Learning Communities to disaggregate and discuss data with grade level or content area teams. They will use common formative assessment data to look for trends and gaps and then plan instruction to address student needs. Our schools have teams in place to support a multi-tiered system of support (MTSS). If data from diagnostic tests, screeners, or classroom performance indicated a need for intervention, schools are equipped to provide these interventions. Special populations also have monitoring of academic support in place from the EC Department and EL

Department. The implementation of BOY diagnostics will enable our district to identify students who may have experienced learning loss and implement a plan to address this loss.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
	* ○ Yes ○ No	Esser funds will be used to add a gym to the existing multipurpose room at Lillington Shawtown	June 2021 to June 2023	Number of positive cases and number of quarantines. Attendance data of staff Attendance data of students	$ 25,450,568.59

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.		Elementary, additional classrooms to Harnett Primary School, and cafeteria expansions and renovations at Lillington Shawtown Elementary, Highland Elementary, Overhills Elementary, and Central Office. These improvements will enable schools to reduce the risks of virus transmission and protect the health and safety of students and staff. The improvements and additions are an effort to prevent the spread of the			

spread of the virus and prepare for and respond to the coronavirus. Lillington Shawtown Elementary serves a high population of exceptional children and an expanded gym space will allow students to participate safely in PE with their non-disabled peers. Lillington Shawton and Harnett Primary serve a high population of socially economically disadvantaged students. The improvements will provide much-needed room to distance socially if

		needed safely. These improvements will also improve the air quality			
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ◉ No				$

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ◯ Yes ⦿ No				$
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◯ Yes ⦿ No				$

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$

11/10/2021 1:58:04 PM

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ◉ No				$
	* ◉ Yes ○ No		June 2021 to June 2023	Student Attendance Data Student Achievement Data Digital Learning and Teaching Inventory Program/Subscription Usage Data	$ 119,160.27

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		As part of our plan to address learning loss, we will replace teacher iPads and Chromebooks as needed to provide access to technology to ensure instruction continues in remote learning if needed. Funding will also be used to purchase Classlink to ensure students and families better navigate resources and learning management systems.			
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ◉ No				$

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ○ Yes ◉ No				$
	* ◉ Yes ○ No	Indirect Costs	June 2021-September 2024	Finance Records	$ 163,020.74

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.					
				Total ESSER III Allotment	$ 25,732,749.60

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Harnett County Schools (430) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

GAN Information

Harnett County Schools (430) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at <u>NCDPI School Allotment Section</u>. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Haywood County Schools (440) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Needs Assessment Central office administrators meet with school administration monthly to discuss student, staff, and school needs. During monthly meetings, principals share concerns/needs related to COVID, and leadership respond with problem-solving solutions. In addition, a district administration team formed and surveyed principals, staff, and stakeholders to identify student and school COVID-related needs. Summary of the survey from principals based on needs identified by staff and stakeholders. Tutors - 16 Subs - 5 Additional Teachers for Remote - 3 EC Teachers - 8 Summer Jumpstart for 9th and 10th graders - 3 Additional Psychologist -1 ACT Prep support - 1 Math/Literacy Coaches - 5 Technology Coach - 1 Nurse - 6 Water bottle refill stations - 10 PPE/Cleaning - 5 Additional PE Equipment - 1 Outdoor Seating - 6 HVAC or Air Quality - 4 Furniture/Desks - 2 Additional Mental Health Professionals - 14 Additional Social Workers - 12 Ipads/Chromebooks - 15 Teacher/Office Staff Devices - 11 Software - 10 We compared 20-21 benchmark data in grades 3-8 to benchmark data in 18-19 looking for areas of focus in learning loss. ELA - Benchmark Data 3rd grade - 18/19 (52.2% correct), 20/21 (36.7% correct) 4th grade - 18/19 (63.5% correct), 20/21 (62.0% correct) 5th grade - 18/19 (65.2% correct), 20/21 (65.7% correct) 6th grade - 20/21 (48.7% correct) 7th grade - 20/21 (51.1% correct) 8th grade - 20/21 (52.6% correct) Math Benchmark Comparison - grades 3-8 3rd grade

18/19 (72.2% correct), 20/21 (60.4% correct) 4th grade 18/19 (69.1% correct), 20/21 (59.3% correct) 5th grade 18/19 (67.6% correct), 20/21 (59% correct) 6th grade 18/19 (50.5% correct), 20/21 (44.8% correct) 7th grade 18/19 (44.9% correct), 20/21 (45% correct) 8th grade 18/19 (40.9% correct), 20/21 (39.4% correct) The number of days we needed to use TA's as subs also resulted in additional learning loss for students in the lower grades. In 18/19, we used TA's as subs for 34 days resulting in a cost of 5534.86. In 19/20, we used TA's as subs for 47 days resulting in a cost of 7651.13. In 20/21 (from August- to April 10th), we used TA's as subs for 264.50 days resulting in a cost of 42975.17. Summer Learning Using predetermined criteria, principals identified 1080 Elementary students, 872 middle school students, and 550 high school students at risk of not obtaining proficiency at EOY. Plan to address learning loss: summer math, reading, and science instruction in grades K-12 employ math and ELA coaches to support data disaggregation and classroom coaching part-time certified teachers to tutor students in small groups during the school day in grades K-12 Special Populations: The following data regarding special populations was reviewed by the team -# of EC Students failing courses first semester (second semester estimate) -# of EC Students assigned a grade of incomplete for first semester (second semester estimate) -mClass data - regression/progress rate -Teacher anecdotal data -Attendance Data -Report Cards/Grades -Service Delivery/Progress Monitoring Logs -Remote Engagement - Blended (virtual week engagement) -EC Staff Survey Data As a result of COVID our day treatment/classrooms will be close, 26 students with behavior challenges will return to classrooms across the county. Additional EC teachers Additional behavioral support in schools HVAC - Air Quality Needs Thirteen schools require HVAC repair/replacement to filter air effectively at an estimated cost of 8,087,000.00. Mental Health Needs: The ratio of mental health professionals to students: school psychologists (1:986), school counselors (1:363), social workers (1:986). Plan to address Mental Health Needs: create a comprehensive mental health system including self-supporting mental health services and community partnerships hire clerical staff to assist high school counselors offer employee assistance for staff mental health Technology: Our three-year plan utilizing multiple funding sources to maintain one device for every teacher and student. Staff laptop replacement needs Year 1 - We need to replace 267 laptops Year 2 - We need to replace 200 devices Year 3 - We need to replace 200 devices Student Ipads: For grades K-1 Year 1 - We need to replace 132 Ipads Year 2 - We need to replace 195 Ipads Year 3 - We need to replace195 Ipads Student Chromebooks: Year 1 - We need to replace 39 devices Year 2 - We need to replace 974 devices Year 3 - We need to replace 0 devices Projectors Year 1- We need 100 projectors Year 2 - We need 100 projectors Year 3 - We need 100 Projectors Document Cameras Year 1 - We need 80 document cameras Year 2 - We need 80 document cameras Year 3 - We need 80 document cameras Due to COVID, we added three platforms to aid in communication with parents and teachers. Seesaw - estimated annual cost 10,000.00 Remind - estimated annual cost 22,000.00 Google Enterprise - annual cost 20,000.00 Plan to address technology: Update our district replacement plan needs based on the impact of COVID 19 and develop a plan to maintain 1 to 1. Recruitment and Retention With the current climate in the field and a projected shortage of teachers on the horizon, we have concerns for teacher retention. We reviewed teacher retention rates since 2014. Teacher Turnover Rates 2014 11.49% with 14 teachers resigning to teach in

another county, and 1 resigned to teach in an NC Private School 2015 11.82% with 14 teachers resigning to teach in another county, and 5 resigning to teach in an NC Charter School 2016 11.52% with 27 teachers resigning to teach in another county, and 1 resigning to teach in an NC Charter School 2017 12.33% with 19 teachers resigning to teach in another county 2018 11.07% with 16 teachers resigning to teach in another county 2019 10.06% with 13 teachers resigning to teach in another county, 1 resigning to teach in an NC Charter School, 1 resigning to teach in an NC Private School Plan for recruitment and retention Offer retention bonus to staff

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Data Analysis: Learning Loss: Based on a comparison of current benchmark data to data from 18/19 the impact of school closures is greater in the area of math. We discussed multiple ways to address learning losses. We will hire part-time retired teachers in the coming year to tutor small groups of students during the day. This model has proven effective in our school-wide Title 1 elementary classroom. We will expand this model into middle and high school over the next few years to support learning losses. Providing additional tutoring in the lower elementary grades will help recoup lost instruction that occurred when TA needed to be used to sub in classes. Due to COVID, the number of days TA's served as a sub doubled this year. Many of our subs were not willing to work during COVID and due to quarantine, many teachers were out for extended periods of time. Technology: Teachers and staff need a device capable of providing virtual instruction in the event of a future pandemic. We focused funding on the purchase of student devices to move to 1:1 during the stay-at-home order. We currently have 452 teachers/staff using devices not compatible with video chat. We ordered 185 but need 267 more devices to have enough for remote learning in the event of another pandemic. Our student device replacement plan is currently solely supported by local funding. Due to the increase in device pricing caused by the pandemic, the need to move to and remain at one device for every student, and devices not returned by students during virtual instruction, our local allotment will not meet the device shortfall in the next three years. Our technology department revised our replacement plan schedule to maintain a working device for every student and every teacher. We have 325 classrooms with projectors that are more than five years old. The pandemic compounds this due to the need for social distance. It is difficult for students to see a screen with poor clarity while maintaining social distance. Document cameras were used to support instruction during virtual learning. Unfortunately, only a small percentage (48%) of our teachers had a document camera with the capacity to be used in this manner. Two hundred and forty-five of our teachers have a document camera older than five years. We will plan to use ESSER I, II, and III funding over the next three years to address the impact of COVID on our replacement cycle. To maintain this cycle, we will replace items in increments over several years. To communicate

during remote instruction, our district purchased Remind, Seesaw, and Google Enterprise. We must maintain student/teacher/parent familiarity and continued use of the platforms to ensure a smooth transition in future closures. The pandemic required teachers to learn new technology platforms and modes of instruction quickly. To ensure we are prepared for a future pandemic, we need to employ a technology trainer. This trainer will work with teachers across the county daily to meet individual and group technology-related staff development needs. Although this is an expense/need resulting from the pandemic, we do not plan to fund the position with ESSER funds as we anticipate the need to sustain this position longer than 2024. HVAC: We have over 8 million dollars in HVAC repairs and replacement that is needed in our county. Eight of our schools have HVAC systems more than 19 years old. These systems frequently break down and result in stagnant air. We need to use funding from ESSER II and III to expedite the replacement of appropriate systems and parts creating safer and healthier environments for our students. Mental Health: Schools requested additional mental health professionals. Our central office administrators developed a team to analyze the number of mental health professionals we have, and the funding source used to pay the individual. The team compared the number of mental health professionals students - school psychologists (1:986), school counselors (1:363), social workers (1:986). The greatest gap in the recommended student to mental health professional ratio was in the social work to student ratio. Using PRC 169 we will fund additional mental health professionals. We will also continue to use Title 4 funding to support mental health. Because we do not have a provider in our area with the capacity to meet the needs of our students we are developing a system to meet the needs through multiple funding sources. As part of a comprehensive plan, we would like to add two clerical employees to review records and assist school counselors at the high schools to meet the needs of students. This will help school counselors addresses and meet the needs of students with course failures during online learning. We have a higher number of course failures than we did before COVID. Special Populations: The pandemic resulted in sporadic and inconsistent instruction, lack of engagement in remote instruction, limited internet connection, limited face-to-face instruction, a sense of apathy, etc. Virtual students have fewer opportunities for exploring, learning in collaboration with peers, and the multi-sensory approach embedded throughout EC instruction. One full-time and one part-time teacher will be funded by ESSER to assist our EC population. One teacher will provide pre-OCS type instruction. The part-time employee will assist students struggling to adjust after returning to in-person instruction. Recruitment and Retention: Our data indicates a positive connection between teacher retention and a 2018 increase in the local county supplement. Based on the current climate in education, the fatigue and frustration teachers express, and a drop in the number of college students in education programs, we feel using ESSER funds to support an additional teacher bonus would aid us in retaining our teachers in the coming years

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning

loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 3,537,270.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

We already use high-quality assessments to guide instruction. This year using PRC 165, we added mClass reading for our 4-6 grade students who are at risk or not meeting proficiency. If students show gains using this as an additional assessment for at-risk students in grades 4-6 we will continue the purchase of this resource using ESSER III funding in 22-23 and 23-24. We use CASE 21 benchmark assessments in reading and math. Data provided from 18 and 27-week assessments will guide our plan for additional small group instruction. Adding additional instructional tutors will assist teachers in providing additional small group targeted instruction based on assessment results. These two supports will allow us to identify learning loss, then design and implement differentiated instruction. The cost of additional tutors to provide small group instruction will be funded by ESSER II in 21-22 and ESSER III in 22-23 and 23-24.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

1. Small group tutoring based on needs identified through evaluating assessment data as discussed in (A). 2. Additional high-quality instruction designed to individual student needs during the summer months. This will include the cost of paying teachers and directors to provide and monitor instruction for students. 3. Hire additional social workers to identify and meet the social-emotional needs of students. Many of our students have or will experience challenges as a result of COVID and will require extra support to meet social-emotional needs. We are currently funding one social worker using PRC 169. We need to fill two additional positions using ESSER III. 4. Hire additional TA's to work under the direction of the social workers to support identified social-emotional goals of students. Resulting from COVID we are experiencing a shortage of mental health care providers in our area. Many of our students exhibit behavioral challenges resulting from a decreased access to treatment over the last year and a half. Our TA's will help us provide frequent supports to help students be successful in the classroom environment. 5. Hire an additional EC Teacher to lower overall student-to-teacher EC teacher ratios across the county. This position will be funded by ESSER II in 21/22 and ESSER III in 22/23 and 23/24. 6. Hire a part-time temporary EC teacher to support

EC students in transition across the county. This position will be funded by ESSER II in 21/22 and ESSER III in 22/23 and 23/24.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

1. Purchase technology platforms that aid in communication with parents during times of remote and in-person instruction. We provide training as needed for parents on navigating the platforms and staying connected with parents. This was purchased out of ESSER II this year but will need to be purchased from ESSER III in 23/24. 2. The additional social workers and TA's will allow more staff to communicate and assist families of students who experience difficulty. Our social workers and administrators often make home visits if multiple attempts to contact a student or family are not successful.

* (D) Tracking student attendance and improving student engagement in distance education;

1. Our greatest attendance and engagement challenges occur at the high school level. We need to hire two clerical staff to support our counseling department at each of our large high schools. In 21-22 these positions will be funded by ESSER II and then by ESSER III for as long as the need persists or until 2024. The staff will complete the following COVID-related tasks daily... *The clerical staff will analyze records and make counselors and administration aware of students at risk of failure due to credit loss or attendance issues related to COVID. *Communicate with families and teachers to make sure students have the information necessary to complete assignments during quarantine. This includes following up with students when they return to school to check that missed assignments are completed. *Manage COVID related attendance concerns and communication with staff. This may include the management of attendance spreadsheets, making phone calls to parents, teachers, and students. 2. The additional social workers and TA's will allow additional staff to communicate and assist families of students who experience difficulty. Our social workers and administrators often make home visits if multiple attempts to contact a student or family are not successful. They help families connect to community resources and solve issues that may be contributing to poor attendance and/or student engagement. 3. Our remind, seesaw, and google platforms have been helpful in making contact with both students and parents during distance learning and missed instruction related to quarantine and COVID illness.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

This will occur through our already established review of student data in school PLCs. Using this data, teams of teachers will develop plans to meet the gaps identified. Subs will be needed to provide time for PLC teams to analyze student learning loss due to COVID and create plans to mitigate the loss. The plans for COVID learning loss remediation will be implemented by the teachers and the additional tutors hired to provide additional small group

instruction. Funds for ESSER III will be used to pay for tutors in the 22-23 and 23-24 school years. In 21-22, this will be funded by ESSER II.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ⦿ No				$
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ○ No		September 2021-September 2024 March 2020-September 2024 August 2021-September 2024	Improve air quality resulting in increased health and safety of students, staff, and community.	$ 7,257,926.78

		Replace or repair HVAC systems to improve air quality in school buildings. Eight of our schools have HVAC systems more than 19 years old. These systems frequently break down and result in stagnant air. We need to use funding from ESSER II and III to expedite the replacement of appropriate systems and parts creating safer and healthier environments for our students.			

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ⦿ Yes ◯ No	To aid in the coordination and implementation of the activities in the ESSER funds, we need to employ one clerical staff person.	June 2021-September 2024	Accurate and timely completion of required federal and state documents.	$ 218,791.61
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◯ Yes ⦿ No				$

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ⊙ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ⊙ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ⊙ No				$

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ⊙ No					$
	* ⊙ Yes ○ No			August 2022-September 2024		$ 1,000,000.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		1. Purchase teacher/staff laptops with video and Google meet capability. Many teachers do not have devices that will work for remote learning. 2. Purchase classroom projectors - Many classrooms have very old projectors and do not offer clear projection. This makes it challenging for students to social distance and see the screen. Updating old projectors will solve this pandemic-related challenge. 3. Purchase classroom document cameras		Provide teachers and students with the equipment needed to maintain 1:1 and easily adapt to virtual instruction in a future health crisis. All of these items are part of a three year plan to ensure that our teachers and students have the technology needed to move seamlessly to virtual instruction should this be necessary.	

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ◯ No	Last year, using 163 funds, we added an employee assistance program to assist our employees with mental health. We want to ensure that our staff has access to mental health support during a very stressful time in education. We need to continue this in the coming years using ESSER III funds. From November 2020-July 2021, 203 staff members used this service.	October 2021-September 2024	Last year 203 staff accessed the employee assistance program. Due to the increased stressors teachers currently experience we hope to see at least 250 teachers access the program each school year.	$ 32,000.00
	* ⦿ Yes ◯ No	Additional costs of summer school in addition to the teacher and director pay discussed in the learning loss section. 1. Bonus pay for principals	Summers, 2022, 2023, 2023	Increase the percentage of all ELA and Math subgroups by 5% by June of 2024.	$ 664,548.14

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.		of host summer school sites. 2. Bus Driver Pay and Overtime, Bus Monitor Pay 3. Transportation fuel, repairs, and oil 4. Cafeteria workers and managers 5. Bonus pay for teachers meeting criteria established by state mandates 6. Supplies and materials for summer school 7. Clerical staff to cover vacations of 12-month employees in schools who only have one 12 month clerical staff. 8. Teacher assistants to provide additional student support when appropriate.			
		1. Bonus pay as a method of recruitment and retention. We	August 2021-September 2024		$ 1,327,886.47

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ◯ No	currently have certified teaching, psychologist, cafeteria worker, teacher subs, classified employee positions in all areas going unfilled. This did not occur before COVID. We need to retain our employees to continue to provide a high-quality education for our students. 2. Bonus pay for 12-month employees (non-certified) with additional duties resulting from summer enrichment addressing learning loss related to COVID. 3. Unbudgeted and Indirect Cost		Decrease the percentage of teacher turnover by an additional 1.5% by 2023. Provide additional tutors to support students and mitigate learning loss resulting from COVID. Our goal will be for our percentage of proficient students in reading and math to be back to what it was prior to COVID by 2024. Provide teachers time to effectively analyze student data and plan data-driven high-quality interventions. (August 2021-September 2024)	
			Total ESSER III Allotment	$	10,501,153.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Haywood County Schools (440) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

 There are no new applicants.

GAN Information

Haywood County Schools (440) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Henderson County Schools (450) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Henderson County Public Schools (HCPS) Leadership Team provided district oversight in the development of the draft Needs Assessment and Plan and solicited feedback in multiple ways. They first presented the ESSER II plan to the HCPS Board of Education at their Budget Planning Workshops on April 14th and 29th, 2021. Additionally, HCPS Superintendent shared the ESSER II draft plan with his Teacher Advisory Committee (4/15/21) and his Parent Advisory Committee (4/22/21), both of which include one representative from all 23 schools. In planning for ESSER III, the Superintendent presented draft plans to the Board of Education at their budget workshop 7/20/21. The district-level Instructional Services Team (IST) Directors were instrumental in collecting, providing, and analyzing data that contributed to the Needs Assessment. IST Directors synthesized the current qualitative and quantitative data as compared to previous year's data, thus providing the necessary lens to begin weekly discussions with principals about targeted instructional areas and goals for summer programming. The Directors of Administrative Services, Capital Projects, and Maintenance evaluated HCPS facilities using a ten year facility assessment completed by an outside agency as well as district-level information regarding the current conditions of each facility. This data collectively provides the necessary information for HCPS to identify and address facility needs that will reduce the risk of virus

transmission. The Human Resources Department identified 51 of certified, classroom teaching positions and 96 of support personnel that have remained unfilled since August 2020. These positions have been staffed by substitute teachers, interim teachers, part-time retirees, overtime, or simply remained unfilled in an ongoing effort to meet the instructional needs of our student populations. In response to this COVID staffing shortage, a retention bonus has been proposed for all full-time and part-time employees to ensure workforce continuity across the district for instructional and support personnel. HCPS Leadership Team determined that positions in Technology, Finance, and Instructional Services needed to be added to provide additional district support due to COVID related needs. Because of the increased number of technology devices in response to virtual learning needs, the workload of current technology support staff increased exponentially as HCPS moved to a 1:1 environment which necessitates the addition of a technology position to facilitate response to increased work orders. Also, it was determined that in response to the additional COVID fund opportunities, a position should be added to the Finance Department to provide support to meet the increased demands on processing payroll and other finance functions. A Director of Student Engagement and Inclusion is also needed to respond to severe learning loss due to COVID. Justification for this position appears in the Data Analysis Section below. ESSER III funds will allow these positions to extend an additional year. HCPS will use multiple resources to both assess and address student learning gaps resulting from disruption in educational services. iREADY reading and math will be used by K-8 teachers and students as an instructional and assessment tool. Additionally, as recommended by NCDPI for summer learning, HCPS used a single competency-based assessment (iREADY) for use with students in grades kindergarten through eighth grade as a pre/post model. Those results were shared with all teachers of record for each student who participated in summer school. Performance on iREADY and EOCs from SY 2019-20 and SY 2020-21 will be used to assess student learning gaps. Other data points will include results from EOGs, ELL progress, iREADY, CTE postassessments, and end of semester/year grades. Our most immediate strategy to address learning loss was our robust K-12 summer program. Certified and non-certified staff provided instructional support, including core academic and elective course teachers, teacher assistants, counselors, social workers, and other student support providers. Staff provided opportunities including differentiated learning, content knowledge, socio-emotional and executive functioning activities, as well as engaging, experiential learning designed to address the whole child. Additionally, HCPS partnered with a wide variety of other organizations and community agencies, whose shared goals, broad resources, and varied expertises complemented the goals of summer learning. The success of our summer program was recently highlighted by EdNC. Hanover Research is conducting a program evaluation of our summer program. Results will be used to inform our future summer learning program. English Learners represent roughly 10% of our total population, with multilingual families making up closer to 30%. Dually identified EC/EL students make up a percentage of our EL population with a range of 4% to 27% in elementary and 28% to 47% in middle and high schools. For this reason, funds from this grant will allow schools to continue to staff their summer programs with needed EC and EL support. At least 25% of EC students struggle with accessing services during virtual learning. In order to recover some of this missed time we

hosted a summer recovery program for these students and will continue to do so as needed. Additionally, we anticipate a large number of students needing Tier 2 and 3 support. Our district goal is to increase the number of students referred to Tier 2 and/or 3 in SY2021-2022 who progress to the next grade level without being referred for EC evaluation. Our new Director of Student Achievement, funded by ESSER II, is overseeing the work of our MTSS teams.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Data used in the assessment to determine student learning gaps resulting from the disruption in educational services was submitted in Part A and is displayed and analyzed below. iREADY data provides detailed information for HCPS K-8 students in the areas of mathematics and reading. In the area of mathematics, HCPS K-8 students who were on-grade level and above decreased and students who were below grade level increased. Additionally, the percentage of HCPS K-8 students who were on-grade and above was less than historical national norms from SY 2018-19 and the percentage who were below grade level was higher. A positive note is that HCPS K-8 students performed slightly higher than the national in-school population Winter 2020-21. (See Figures 1 and 2 in Related Documents section.) In the area of reading, HCPS K-8 students who were on-grade level and above actually increased and students who were below grade level decreased. iREADY consultants suggested this could be due to students being allowed to test remotely from home as opposed to previous years. As compared to historical and same season national data, HCPS K-8 students performed slightly better. (See Figures 3 and 4 in Related Documents section) HCPS students in grades 9-12 performed lower on Biology, Math I and Math III assessments as compared to previous year's data. However, a slight increase was seen in English II. This could be attributed to the fact that an additional honors section was taught at the Early College in Fall 2020 and all 23 students tested were proficient. (See Figure 5 in Related Documents section) Other data points include: Percentage of ELs assessed on ACCESS (Figure 6 in Related Documents) HCPS worked diligently to provide all students the opportunity to test, even under adverse conditions. All virtual students were offered transportation to an alternate location to be tested in a one on one environment. The percentage of untested students represents students who were not engaged in instruction during the 20-21 school year, due to virtual or hybrid learning environments, even with extensive outreach, including home visits. We anticipate needing additional support to recover the learning losses. Number of Ds and Fs As commonly documented in local, state, and national news programs, HCPS students have reacted to the stresses and alternative instructional paradigms related to COVID in wildy disparate ways. Many students have succeeded, despite these new challenges, while other students have struggled to attend school face-to-face, engage online, or develop positive relationships with their

teachers. Of great concern is the number of students earning grades of D and F as compared to previous year's grades. The total number is displayed in Figures 7, 8, and 9 in Related Documents. The increase in D's and F's for students grades 3-5 is 129%, grades 6-8 is 77%, and grades 9-13 is 90%. A 10 Year Facility Assessment conducted in 2019 identified district wide building envelope issues that impact both the efficiency of HVAC systems and the ability to provide fresh air for circulation and ventilation. These facility concerns were further affirmed by our NCDPI Facility Needs Survey submitted in January 2021. Fixed, failing, and/or inoperable windows prevent access to fresh air for circulation and ventilation in classroom and office spaces. System wide replacement of these conditions with fully operable windows will provide immediate and future access to fresh air in all school environments.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 5,157,611.11 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

iREADY HCPS will continue use of iREADY as an instructional, diagnostic, and assessment tool for K-8 students with a focus on the recommended six key teacher actions which include: Actively monitoring each diagnostic assessment Encouraging 45 minutes of instruction per subject each week Reviewing reports after each diagnostic and interim assessment to differentiate instruction Adjusting instruction and pacing when student progress indicates need to do so Providing intentional, small group instruction for general education and Exceptional Children Setting clear goals and celebrating success Monitoring progress toward IEP goals NC EOGs/EOCs HCPS will follow testing protocol as required by NCDPI. Data will be shared with teachers and follow-up discussions will be scheduled to share best practices and strategies for improvement. CTE Postassessments, Portfolios, and Credentials HCPS will follow CTE testing protocol which includes multiple choice assessments, portfolios, or credentials which measure student achievement. District program area meetings will be held each semester to share results and strategies for improvement. CogAT HCPS will continue to administer the Cognitive Abilities Test (CogAT) to all 3rd grade students.

This assessment gives teachers information about students' academic aptitude and helps determine the need for gifted services. HCPS Instructional Coaches will model differentiation strategies and administrators will monitor for implementation and provide constructive feedback. HCPS Student Services staff will help initiate, administer, evaluate, and provide interventions to students based on an assessment of student social and emotional competencies. This high quality, evidenced-based assessment provides information on our students' perceptions of their own abilities to recognize, respond and mitigate the many adverse effects of the pandemic and related changes in school schedules and delivery options. Research demonstrates that students are more likely to recover lost learning when they better manage their emotions, more quickly recognize stress, more accurately identify supportive adults and peers, and advocate for themselves. EC staff will continue to monitor student progress toward IEP goals in academic, behavioral, and/or social emotional areas using the research based, high quality assessments available to help determine if EC students are closing their educational gaps with their peers. ACCESS ESL staff will continue to monitor progress towards English Language proficiency for all students determined to be English Learners using data from yearly ACCESS testing. Additionally, subgroup data from EOG/EOC will be analyzed to determine if students are closing the educational gaps with their non-EL peers.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

HCPS adheres to the belief held by Frey and Fisher, which states, "Effective schools rigorously examine their quality core instruction, which includes differentiation, as the first and most substantial method for fostering student learning," (2017). Below are some of the evidence-based strategies to be incorporated SY 2021-22 which will seek to meet the comprehensive needs of all students. High Yield Instructional Strategies Teacher Expectations, provided to all instructional staff, sets the district expectation that high yield instructional strategies will be included in lessons. Instructional Rounds will be conducted by the Instructional Services Team to provide feedback to schools regarding use of high yield strategies. Multi-Tiered System of Support (MTSS) HCPS Director of Student Achievement, funded by ESSER II and extended one year with ESSER III, serves as the district contact for MTSS, a framework our schools will use to give targeted support to struggling students. Principals and Directors received an overview of the MTSS plan for SY 2021-22 at their Administrative Inservice held on 8/4/21. Then, on 8/18/21, MTSS teams met together to begin working towards actionable goals. Oversight and accountability are expectations for principals and teams for the implementation of MTSS this year. Leading the Rebound (2021, Fisher, Frey, Smith & Hattie) This resource was provided to district leaders and instructional coaches to use as an instructional guide as learning loss is addressed district-wide HCPS administrators have committed to avoiding deficit language. The following quote was used to facilitate conversation at a recent district meeting of principals. "The widespread discussions about learning loss result in deficit thinking and grant permission to lower expectations." (Fisher, Frey, Smith, & Hattie, 2021) Social and Emotional Support HCPS SEL and Mental Health Resources SY 2021, provided to all staff, provides tools for teachers who want to better support their students by differentiating how we interact with or support our students' social,

emotional, and mental health. Recognizing that learning loss often has much to do with student wellness and non-academic skills, creating positive environments, forming positive relationships, making referrals to outside medical or mental health providers, and helping students navigate their often stressful circumstances remain integral parts of meeting the needs of each student. The HCPS Behavior Support Team added an additional behavior support assistant for the 2021-2022 school year to support more students with their behavior and social emotional needs as they transition back into the school setting and for those students who also struggled to access their social skills instruction and support during the last year. Although their primary focus is on serving students with disabilities, they also support students in the MTSS process.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Eight school-based Digital Learning Coaches will be added to address learning loss with digital instructional initiatives. DLCs will be instrumental in forming a structured partnership between students and families, the Instructional Services and Technology departments. DLCs will work in collaboration with Instructional Coaches to support district initiatives and instructional expectations, in addition to increasing teacher capacity to deliver face-to-face and remote instruction with meaningful technology integration and blended learning methods while utilizing high-yield instructional strategies. Return to Learn has been an ongoing communication commitment by HCPS to stakeholders. https://www.hendersoncountypublicschoolsnc.org/return-to-learn/ This site was launched in March 2020 and has been the repository for all communications with families throughout the pandemic. Students, staff and families rely on this site as the primary resource for information as we have transitioned through different attendance phases and expectations. This site is divided into 5 sections which are: COVID-19 District Dashboard Communications Health & Safety Student Learning Emotional and Mental Wellness Students and families who experience housing or family instability often meet additional barriers to school success, especially in distance learning environments. Of course, homelessness or changes in custody can exacerbate the difficulties students and caregivers encounter when school schedules change, students are quarantined, schools move to online instruction, or school officials modify grading or attendance procedures. HCPS McKinney-Vento and Foster Care social workers, along with their HCPS Student Services teammates, work to establish and maintain effective, two-way communication with students and their families. Homeless students and children in Foster Care, along with their families and school staff, participate in Best Interest Determination meetings, receive the assistance of a School Social Work Case Manager, enroll in supplemental tutoring services, benefit from school stability provisions, and are protected by special student success or safety plans. For students who are medically homebound or self-identify as living with someone at high risk due to COVID, we have 2 homebound teachers to assist them. They will help students and their families with accessing Google Classroom and online assignments and assessments to continue their education in a distance learning environment as well as facilitate communication between the families and the schools as needed.

* (D) Tracking student attendance and improving student engagement in distance education;

HCPS is only offering virtual asynchronous learning to students who have been approved for medical homebound. For these students, the school will determine if asynchronous enrollment is needed in HCVPS and/or NCVPS. For students who are unable to attend face-to-face due to quarantine, one additional Teacher Assistant has been hired by each school for each school to serve their needs. The quarantined students and families may contact this Teacher Assistant for support with Google Classroom and questions about assignments. This liaison position will continue to support students as needed after they have returned to school from quarantine to ensure they are back on pace with their classmates. (Budgeted in Part D.) HCPS Student Services personnel continue to monitor student attendance, improve student engagement when online or at-school, and help students to recover from extended absences. School nurses, school counselors, and school social workers work together with students and their families to identify the reasons for truancy or disengagement, help stakeholders understand the effects of absenteeism and identify the often unique solutions to these barriers. Practical technical or transportation assistance, dynamic instruction, effective feedback, and powerful, positive relationships with school staff are key strategies when helping truant or disengaged students. Continue supporting 1:1 with chromebooks for each student Continue to offer hotspots

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

In response to learning loss as a result of COVID, a Director of Student Achievement was added to the HCPS Instructional Services Team to oversee initiatives that seek to improve student achievement. This position provides professional development to teachers and administrators on evidence-based practices to increase student outcomes. Additionally, this position provides oversight regarding student subgroup achievement and inclusion practices, summer learning opportunities, and MTSS (multi-tier system of supports). Additionally, the Director of Student Achievement: Stays abreast of innovative professional development techniques to provide the district with the highest quality professional development activities Develops, coordinates, and delivers district-wide professional learning programs in alignment with district goals and initiatives to include multiple delivery models including face-to-face and digital platforms Analyzes and uses data to Identify district professional development needs to improve student academic achievement Identify underperforming subgroups and to develop strategies to improve performance Assist school administrative teams to develop systemic responses to improve academic achievement for all students Seeks to identify and remove existing barriers to student achievement Seeks resources to support student achievement Oversees the implementation of MTSS for the district Develops and administers Summer Learning opportunities Establishes strong working relationships with school and district staff

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ◉ No				$
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$
		1 - To remove barriers for low-			$ 200,000.00

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ○ No	barriers for low income students whose families have lost income and/or increased medical expenses due to COVID, the district is implementing a series of collaborative, instructional experiences for students to increase awareness of and access to use of borrowed instruments in middle and high schools. Additionally, purchase of new instruments and repair of existing instruments will decrease sharing requirements which further mitigates the spread of COVID. District participation has decreased, due to COVID economic	To begin Spring 2022	1 - Increase in enrollment in middle and high school band and orchestra programs. 2 - Reductions in office referrals and suspensions.	

		and health concerns, from 931 in SY 2019-20 to 762 in SY 2021-22. 2 - Students returning to school from hybrid and fully virtual instruction are having more behavioral and social skills needs than in previous years across all grade levels. Teachers and students need additional support as students return to in person learning with social emotional learning strategies and behavior interventions to help students successfully navigate the in person school environment. Students need to learn or re-learn appropriate peer			

		appropriate peer interactions and teachers need support to provide more intense classroom wide and student specific interventions for students who need behavioral support. By adding a behavioral TA, we now have 5 people able to help in these areas for our 23 schools. (Budgeted above in Part C.)			

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ⦿ Yes ◯ No	HCPS seeks to pursue additional full-time school nurse positions to be based in the Henderson County Department of Public Health to support COVID-19 response duties within the school system. HCPS intends to provide every school with a full-time nurse which would require 5 additional nurse positions.	To begin Fall 2021 and continue through Spring 2024	1 - Every school would be provided a full-time nurse to support COVID testing, contact tracing and other student medical needs.	$ 1,122,810.00
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ◯ Yes ⦿ No				$

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ⊙ No				$ ☐
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ⊙ No				$ ☐
	* ⊙ Yes ○ No	1 - iREADY will continue as the competency based, customized instructional and	To begin Fall 2021 and continue through Spring 2024		$ 476,151.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		instructional and assessment tool for elementary and middle schools to use in addressing learning loss due to COVID. This resource is available for at-home use as well as when students are out for quarantine and medical homebound purposes. (See Part C for budgeted amount.) 2 - Newsela will address learning loss through leveled reading resources for English Language Arts, Science and Social Studies and is available for at-home use as well as when students are out for quarantine and medical homebound		1 - Students will close learning gaps and achieve grade-level status in reading and mathematics as measured by iREADY. 2 - Students who are below grade-level in reading will be provided leveled resources in order to access grade level content information and recover from learning loss. Additionally, first language grade-level content support is provided to the district's EL students.	

		purposes.			
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ○ No	1 - Previously funded through GEER, we were able to hire an additional counselor for one of our middle schools to bring them to two full-time counselors. To extend mental health services and support to these students, we are requesting ESSER III funds to offer employment to the additional counselor through SY 2023-24. 2 - Previously funded through GEER, we were able to hire two social workers for our district. ESSER III funds would allow us to extend their employment through SY 2023-24. 3 -The current COVID-19	SY 22-23; SY 23-24		$ 945,059.50

| | | pandemic has had far-reaching effects on the well-being and readiness to learn of Henderson County Public School students. Well-established sources of student well-being and academic measures all point to diminished health, wellness, and engagement in school. For example, data continue to demonstrate that family stressors, mental health and substance use, student attendance, and academic achievement have suffered during COVID. We seek to add school social workers. | | 1 - Wait time for counseling services will decrease for students. Increased SEL supports will be provided in both large and small group settings. 2 - Additional students and families to be served 3 -Adding staff to our School Social Work teams will reduce the number of schools assigned to each school social worker , increase the number of days school social workers work in each of their assigned schools, and improve our average School Social Worker to student ratio. | |

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ⦿ Yes ◯ No	HCPS Summer Learning will be offered Summers of 2022, 2023, and 2024. Lunch and physical activity will be offered daily. HCPS will, at minimum, provide in-person instruction in the content areas of reading, math and science for elementary and middle grades students. Course recovery will be offered to high school students. Enrichment will be provided by Community Partners under the supervision of school staff with alignment to core content as appropriate.	Summer 2022, 2023, and 2024	Per DPI Guidance: *Results of competency-based assessment given to students in grades K-8 at the beginning and conclusion of the program (iREADY) *Number of students who progressed to the next grade level after participating in the program *Number of students who were retained in the same grade level after participating in the program *Number of students who received credit recovery in high school	$ 3,472,532.00

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ◯ No	employment to three positions funded via ESSER II: (1)Director of Student Achievement, (2)Finance Department Payroll and (3)Technology Management. (Dir of Student Achievement budgeted within Part C.) 2 - Additional funds are needed for NCVPS and Henderson County Virtual Public School facilitation and enrollments to serve the needs of medical homebound students and others who did not make adequate progress towards graduation due to learning loss. 3 - Teacher		school students will remain enrolled and make progress towards graduation. 3 - Quarantined students will stay on-track with assignments while working from home and will transition back to a face-to-face environment without learning loss. 4 - Students will show increased engagement, acquisition of content, and growth as a result of Digital Learning Coaches preparing teachers to effectively use technology tools. This coaching will improve teachers' a	

Assistants will be added at each of the district's 23 schools to provide support to quarantined students and their families as they access and complete Google Classroom assignments and assessments. TAs will be available via phone and Google Meet to provide liaison services. (Budgeted in Part C.) 4 - Eight school-based Digital Learning Coaches will be added to address learning loss with digital instructional initiatives. DLCs will be instrumental in forming a structured partnership

| | | between the Instructional Services and Technology departments. DLCs will work in collaboration with Instructional Coaches to support district initiatives and instructional expectations, in addition to increasing teacher capacity to deliver face-to-face and remote instruction with meaningful technology integration and blended learning methods while utilizing high-yield instructional strategies. (Budgeted in Part C.) 5 - Multi-Tiered System of Supports (MTSS) - As a result of learning loss and in anticipation of | | | |

		many students needing tier II and tier III support in the 21-22 SY and beyond, we will create an approved bank of research based interventions for the secondary level. We will use HCPS psychologists, EC teachers and core teachers to build the bank. We will use MTSS chairs to plan intentionally about how to effectively support the anticipated rise in Tier II and II students due to COVID learning loss. 6 - In order to address unfinished learning through vertical alignment, specifically in math, teachers will participate in a professional development to			

		development to establish vertical teams focused on priority standards, vocabulary, and plan continued actionable items. 7 - While in the midst of the pandemic, student enrollment for planning purposes continues to be difficult to predict. In order to reduce class sizes to better address learning loss and to provide continuity of school staff and consistent services to students, teaching positions and teacher assistant positions will be maintained through the use of these funds. 8 - Unbudgeted Reserve - As our			

		response to COVID continues to evolve, these funds will provide the necessary resources to address student and staff needs. As amendments are needed to expend these funds, we will work closely with our regional ESSER NCDPI support staff. 9-Indirect Costs			
		Total ESSER III Allotment		$	17,098,559.89

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.

*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

There are no new applicants.

GAN Information

Henderson County Schools (450) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Hertford County Schools (460) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Using stakeholder input through meetings, surveys, feedback protocols, student performance data and leadership strategic planning, Hertford County Public schools have identified the following areas of needs due to COVID-19 aligned with the district's strategic plan. Operational Efficiency: - HCPS lacks modern school business systems and enhancements to existing business systems in Human Resources, Finance, Technology and PowerSchool that would minimize personal contact, allow virtual access and paperless processing to prevent the spread of COVID 19 and ability to work virtually if needed. - Beginning March, 2019 to present, HCPS District Office will have experienced a 31% turnover rate. As a result of COVID 19, the work load and fiduciary responsibility and accountability have increased in two key areas - federal programs and finance. Currently these areas are understaffed and/or inexperienced. - HCPS has not filled an Auxiliary Director vacancy for more than 5 years. In order to reduce and prevent COVID 19, expertise and analysis of our existing facilities is required to efficiently and effectively plan facility improvements, critique/improve 5 year Facility Plan and update safety protocols. - To help prevent and reduce the spread of COVID 19, new sanitizing equipment and supplies are needed for buses, classrooms, and student health/wellness. - Child nutrition services were provided beginning in March, 2019 but resulted in a high percentage of

non-refunded federal meals which has adversely impacted Child Nutrition operating expenses. Teaching and Learning: - Beginning in March, 2019 the district's K-12 curriculum and instruction needs and services were provided by one person at the district office who served as Assistant Superintendent. Beginning July, 2020 the Assistant Superintendent also became responsible for federal programs and accountability in addition to supervising EC and Student Services. Additional resources were needed to address learning loss. - As a result of COVID 19, the district's academic performance is expected to significantly decrease due to low attendance and in-person instruction. Diagnostic data collected during the 2020-21 school year and school performance as of March, 2019 is provided below. To improve academic performance extended learning periods during summer and after school are required. - Three low performing schools. - Long-Term Goal Reporting measures of interim progress targets for HCPS is 21% (met 10 goal targets out of 48). - Four schools with a School Performance Grade of D or F. - Four schools reported on Identification for Consistently Underperforming Subgroups (Black, Hispanic, SWD, and EDS). - Reading and math diagnostic data indicating a majority of students are 1 grade level below expected performance. -To prevent and reduce the spread of COVID 19, classroom and cafeteria furniture does not provide opportunities to place students in small groups that are conducive to classroom instruction and/or child nutrition social distancing. - Due to COVID, the need for increased educational software and technology support was identified to achieve goals for future blended learning, universal screening, individual student education plans and progress monitoring for students. Participation in software analysis and selection needs to include a more equitable stakeholder group. As of May, 2021 the two universal screeners currently used reported: - Universal Screening Reading Levels: Primary (grade 3) reading level 2.6 Elementary (grade 5) reading level 3.8 Middle School (grade 8) reading level 4.8 - Universal Screening Math Proficiency: all results below grade level - Due to COVID 19, there has been an increase in student health/wellness needs and an emphasis to accelerate implementation of SEL and mental health services for students and adults. - The increase of devices and potential increase of educational software in support of learning loss due to COVID 19 will require additional technology personnel. The Technology Department currently has an unfilled technology position following the promotion of a Technician to Technology Director. - Increased transportation costs to help facilitate CTE pathway Career College Promise electives at our local Community College to assist with student engagement and post-secondary goals for at-risk high school student drop outs due to COVID 19. -Due to the COVID 19 pandemic, the district has realized that parental and webpage communication and school branding is inadequate for making HCPS a premier school of choice for our community. Stakeholder input is not always representative of subgroups and provide an equitable voice. Talent Acquisition & Development: - As a result of COVID 19, the need to sustain training and internal instructional/leadership capacity is hindered due to 20% or greater turnover rates. Beginning with the 2019-20 school year, HCPS teaching workforce was approximately 43% beginning teachers (70 BTs out of 163 teaching positions). Additional resources are needed to provide reimbursement for required courses, mentoring and instructional coaching for BTs and other teachers whose students are not reaching academic proficiency. - As a result of COVID 19 and to help with preventing the spread of COVID 19, HCPS was not equipped with the

hardware/software or instructional skills for effective synchronous instruction. - As a result of COVID 19, principals are in need of a sustainable highly effective teaching framework for strategic planning and professional development to address content and technology deficiencies. - As a result of COVID 19, local leadership anticipates that the workloads and increased professional development will continue. All employees are in need of incentives through supplements and grants to improve morale and provide appreciation.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Operational Efficiency: - By August, 2024 district strategic plan incorporates 5 year facility plan and goals. - HR modernized systems provide paperless electronic processing in the areas of candidate requirement/hiring, onboarding, CEU submission for license renewal. Currently all of these functions require paper and manual processing for all or a at least 50%. Teaching and Learning Goals: - By August, 2024 zero low performing schools (currently 3) - By August 2024 increase Long-Term Goal Reporting measures of interim progress targets for HCPS from 21% to 41%. - By August 2024, meet or exceed school performance and growth results as reported pre-pandemic: Met or Exceeded Growth - 57.2% Math Proficiency - 31% ELA Proficiency - 34% Science - 57% Biology - 69% Eng II - 49% Math I - 25% Math III - 22% 4 Year Graduation Rate - 79% ACT/ACT WorkKeys Combined - 45.1% Talent Acquisition & Development: - By August 2024, percent of beginning teachers reduced from 43% to 33% or less.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 2,666,839.68 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, underline provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating

11/9/2021 12:22:36 PM

instruction;

- Address teacher's training needs for diagnostic software and interpretation of data to ensure implementation of relevant MTSS strategies and interventions identified in school improvement plans. - Provide assessment and diagnostic resources that focus on standard based mastery and require school leadership to report quarterly on student progress. - Document PLC and SIP data conversations and ensures fidelity of instructional practices and reporting of data. - Training and use of critical friends protocol to improve and ensure planning of small group instruction included on district lesson plan template. Building leadership and Multi-Classroom Leaders use of lesson plan quality tools and protocol to identify teacher needs and improvement. - Professional development and resource purchases that emphasizes understanding of differentiation and hands-on activities associated with needs identified in assessment outcomes. - Implement use of ACT software to access high school students' readiness and assist with individual plan for skill development. - Counselor and school SEL team training on administration, reporting and data analysis of SEL universal screener and incorporating with other student data to inform needs of the whole child.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

- Provide research based universal screeners for ELA and Math -- results will be used to determine MTSS needs and determine daytime tutoring and after school services - Expansion of Opportunity Culture multi-classroom leader positions that provide content and grade level instructional support and coaching. - Science of Reading training for K-3 instructional personnel and continued participation in Schools to Watch Pilot for improved fundamental literacy skills. - Enhance current use and train ELL teachers with curriculum resource for phonemic awareness and phonics instruction. - Utilizing NC Mathematics Collaboration PD materials, provide a content related PD schedule for all grade levels. - Provide more hands-on resources and manipulatives to utilize in building of math foundation skills and problem solving. - Purchase of classroom furniture that allows for configurable learning environments more conducive to differentiation and small group services. - Purchase software that provides a framework and tracking process for compliance with federal spending and strategies for improvement.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Throughout the grant implementation, HCPS will utilize contracted services and materials supplies for the following: - re-brand current district communications and development of resources for future academic services and programs demonstrating HCPS as a school of choice - enhance parent resources and translation services for families of Hispanic subgroup - virtual parent resources for use of educational software as well as in-person events at school facilities to provide curriculum transparency - provide reading mobile bus to promote family reading engagement and reduce summer learning loss

* (D) Tracking student attendance and improving student engagement in distance education;

- Curriculum Directors and school leadership will work collaboratively with teachers, students, and community to determine the best fit for blended and virtual learning academies in HCPS. Professional development for leadership will be needed as well as an opportunity to continue collaborating with other districts who have successful virtual academies. - Establish expectations and competencies for digital learners and expand use of NCVPS for middle school students to better prepare for high school independent virtual learning. - Establish a district PLC (Professional Learning Community) to implement problem solving model to assist with engagement in teachers and students in distance education.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

- Improved MTSS implementation at district and state level that will ensure all students needs are being addressed through Tier academic, equity and SEL interventions. - School leaders and school leadership will address academic progress data during principal dialogue meetings. - New position of Secondary/CTE Curriculum Director will focus on engagement and preparation of students' readiness for post-secondary plans. - Academic reporting will be revised to include pre and post pandemic data to assist with identifying areas of learning loss. - Provide classroom teacher and teacher assistant positions that have been eliminated from state allotments.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ● Yes ○ No		10/01/2021 through 9/30/2024	Implementation of facility improvement plan, board approval of revised safety protocols, COVID training incorporated in district PD plan, and modernized restrooms with stall partitions for social distancing.	$ 388,105.60

		Auxiliary Director for facility planning and improvement - salary, supplement, taxes & benefits(1 year) Bathroom renovations in school facilities to provided partitioned stalls for social distancing and countertop and partition materials that are more conducive to cleaning and santizing. New cafeteria furniture for middle school and high school cafeterias that will allow for small groups and improved social distancing.			

11/9/2021 12:22:36 PM

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ○ No	Portable air cleaners and related supplies and air filters.	10/1/2021 through 9/30/2024	Implementation of the use of portable air filters in identified areas with ventilation concerns and high traffic areas.	$ 89,600.00
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ⦿ No				$

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ◯ No	- EC contracted services for psychological and other related services - 504 database for plan development and follow up	07/01/2021 through 09/30/2024	- Meet all compliance requirements for EC services and meet EC student needs for IEP services - Academic growth for 504 students	$ 57,000.00
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ⦿ Yes ◯ No		01/01/2022 through 09/30/2024	-revised district safety handbook - improved communication and implementation of safety protocols - ability to address student health needs - ability to limit COVID exposures on extra curricular activities and cafeteria setting	$ 565,600.00

		Contracted services for Health/Safety Intern Supplies for health and safety To be prepared to provide curriculum related field trips and student extra curricular activities, purchase of an additional activity bus to provide the ability for appropriate social distancing and reduce the risk of exposure. New cafeteria furniture to provide ability to group students in smaller clusters and provide better social distancing configurations			

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ◉ Yes ○ No	Subscription for Safe Schools training	07/01/2021 through 09/30/2024	- completion of required safety and health training modules by all staff members	$ 20,000.00
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	PPE requirements for staff return to work requirements transportation sanitizing equipment and supplies	10/01/2021 through 09/30/2024	- 100% employees return to work - compliance with transportation sanitation - compliance with COVID cleaning and sanitizing practices	$ 66,000.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ◉ No				$

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ◉ Yes ○ No	Purchase of computer software & supplies for teacher tech grant awards Additional Chromebook purchases for classroom and virtual instruction Computer software and programs to assist with virtual learning and paperless handling tasks	07/01/2021 through 09/30/2024	- implementation of teacher tech grants and completed grant identified outcomes - 1 to 1 student/device ratio - virtual curriculum resources for all core curriculum areas - paperless application processes	$ 1,120,200.00
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◉ Yes ○ No		07/01/2021 through 09/30/2024		$ 422,232.16

| | | - Expansion of contracted services for additional in school day treatment resources - Employee EAP services - Elementary trauma informed consultant training and resources - Provide salary and related benefits to maintain 1 counselor position for 3 years to ensure implementation plan of MTSS Equity/SEL plan (this position has been affected by state allotment reduction) | | - Reduction in behaviors that result in discipline referrals. - Successful resolution of SEL Tier II and III concerns - Employee and Parent satisfaction with resources and participation levels - Implementation of EAP services for employees | |

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ⦿ Yes ○ No	Summer Extended Learning -- Assistant Principal contract extensions, payroll and taxes for instructional support, teacher assistants, drivers, food nutrition. Funding for related bonuses.	06/01/2022 through 08/15/2024	- academic growth measured by diagnostic software, summer testing plan, IEP goal progress, course completion, graduation rate and other required state assessments	$ 1,520,112.73
	* ⦿ Yes ○ No	HR Administrative Support and Accounting Specialists - continued from ESSER II for the purpose if providing additional services required for COVID tracking and training, teacher retention and recruitment, implementation of	07/01/2021 through 09/30/2024		$ 2,386,276.83

Includes salaries, supplements, taxes and benefits. Employee supplements to reward additional workhours and increased expectations. Allocation includes taxes and retirement. Indirect Costs Unbudgeted funds		- 100% of grant funding utilized, compliance of grand funding expenditures and reporting - Zero compliance concerns - Completion of HR and Finance new business system transition - 10% improvement in teacher retention rates - Teacher working condition survey results at or higher than state results.	

			Total ESSER III Allotment	$ 6,635,127.32

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Hertford County Schools (460) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

 There are no new applicants.

GAN Information

Hertford County Schools (460) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at <u>NCDPI School Allotment Section</u>. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Hoke County Schools (470) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

A continuous improvement process is utilized for Hoke County Schools (HCS) to address the needs of the district. The COVID-19 crisis continues to rattle HCS K-12 education into the 2021-22 school year. HCS staff and families face daunting challenges to ensure that our students receive a quality education in an unprecedented environment. With more than 4000 students at-risk for the district, "unfinished" learning has rarely been more pertinent and contentious. At the beginning of the pandemic and throughout these unprecedented times, HCS has communicated with various stakeholders to gather input for reopening and to address learning loss. The district continues using established stakeholder groups and district processes for gathering input in the 20-21 school year. Surveys are used as one method to collect input; a variety of data are collected and analyzed efficiently since many concerns require immediate attention and action. Additionally, data from these surveys are shared among the district leadership team so that information is readily available to guide the district's pandemic response. The focus groups providing input include, but are not limited to administration (central office and school-level), school-based personnel (certified and classified), students' voices, parents/families, Board of Education members, and community groups. HCS conducted multiple Google surveys that provided stakeholders with opportunities to share concerns and request assistance

(transportation, internet access, computer for remote learning, and assistance for remote learning). District leadership staff continues to review the data, identify priorities that the district can address with ESSER resources, and select resources in order to safely re-open and address the learning loss. With that being said, the identified needs span across many areas, and the data used to prioritize the use of funds were extended to include, but not limited to the following: student academic data; student engagement data; student attendance rates; district vacancy and substitute coverage rates; instructional personnel process and perception data. Learning loss, student engagement and attendance, student progress, and achievement remain critical issues for our school system and students. Based on current data, there is a continued need for academic and social and emotional supplemental support and services for our students. For instance, the first quarter 2020 data indicated a significant increase in the number and percentage of D's and F's as grades earned by students. If HCS must implement another long-term closure, the district will continue utilizing and implementing plans that were used at the start of 2020-2021 under Plan C. Up-to-date devices must be available for students, teachers, and instructional support staff. Since March 2020, the district has averaged 30 damaged Chromebook devices weekly (keyboards and monitors). We have also had to provide numerous hotspot distribution events to ensure that all students had connectivity and were given the opportunity to trade in their hotspots when they experienced technical difficulties or data was exhausted. Along with devices, a secure video conferencing platform and cloud-based security are needed for safe interactions between students and instructional staff. Extended summer employment opportunities will be provided to school-based essential operational staff to ensure sufficient staffing is available to implement plans to prevent and mitigate learning loss associated with COVID-19. With in-person instruction 4 days a week and the number of students returning to the building increases, efforts to mitigate the spread and transmission of infection remain a priority. The district needs touchless faucets, toilets, and related items to prevent and reduce the spread of the virus. Based on our 2021 NCDPI BASIC report, the average age of HCS Buildings is over 60 years. Aging HVAC systems, HVAC control systems, roof, and window systems can increase COVID transmission risk due to poor air quality and ventilation. HVAC systems have approximately 1,136 filters per cycle and are changed at 6-month intervals. HCS has identified at least six schools where HVAC systems or units are not performing optimally with the aging and leaking pipes. Many of the current control systems are outdated, limiting the ability to centrally control and monitor systems on all 14 campuses. The commitment to maximizing instructional time is supported with appropriate cleaning and sanitizing reducing viral transmission. Providing non-custodial staff with supplies to enhance cleaning efforts in classrooms and shared space is critical. Ensuring adequate custodial staff who are trained in COVID cleaning and disinfecting strategies are in place also plays a major role in keeping spaces safe for students and staff and decreasing anxiety levels among all stakeholders. Therefore, all HCS staff will be trained before the start of the school year on the CDC and NC DHHS guidelines on how to prevent and reduce the spread of the virus. The district will provide stipends for all staff members who complete the training modules and F2F training. In closing, HCS federal funds will be aligned to the LEA and state's strategic plan and provide supplemental support to the district and schools. The majority of the funds will be used to address the following:(a) learning loss, (b)

mental health, (c) improvement of air quality and facilities, (d) providing additional support to building level administrators, (e) addressing the unique needs of special populations, (f) continuous training on prevention of the virus-Covid-19, (g) education technology, (h) summer learning and supplemental programs such as after-school and Saturday academies, (i) other areas to prepare, prevent, and respond to Covid-19 and (j) purchasing two activity buses to reduce the spread of the virus by adhering to the social distance guidelines.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

HCS ESSER III funds will be aligned to the LEA and state's strategic plan and provide supplemental support to the district and schools. The majority of the funds will be used to address the following:(a) learning loss, (b) mental health, (c) improvement of air quality and facilities, (d) providing additional support to building level administrators, (e) addressing the unique needs of special populations, (f) continuous training on prevention of the virus-Covid-19, (g) education technology, (h) summer learning and supplemental programs such as after-school and Saturday academies, (i) other areas to prepare, prevent, and respond to Covid-19 and (j) purchasing two activity buses to reduce the spread of the virus by adhering to the social distance guidelines. Learning loss, student engagement and attendance, student progress, and achievement remain critical issues for our school system and students. Based on current data, there is a continued need for academic and social, and emotional supplemental support and services for our students. For instance, the first quarter 2020 data indicated a significant increase in the number and percentage of D's and F's as grades earned by students. Below is a detailed breakdown by grade spans: Elementary: For 2019-2020, HCS data indicated that 4.8% of students were failing two or more core courses in quarter one and 7.8% in quarter 2. Comparatively, 2020-2021 data reflect 33.2% in quarter one and 33.4% in quarter two. Middle: For 2019-2020, HCS data revealed 8.6% of students were failing two or more core classes in quarter one and 13.1% in quarter two. For the 2020-2021 data, it was 43.4% in quarter one and 39.4% for quarter two. High: For 2019-2020, HCS data showed that 13.4% of students were failing two or more classes in quarter one, and 12.8% in quarter two. For 2020-2021, the data depicts 32.3% for quarter one and 29.9% for quarter two. In addition, EOC data reflects the negative impact the pandemic has had on student learning. HCS students' performance on Fall 2020 EOCs is as follows: Biology decreased 6.04 percentage points from Fall 2019. English II scores showed a little increase when compared to Fall 2019. Math I decreased 7.52 percentage points, and Math III had a significant decrease of 25.93 percentage points. The overall Fall 2020 scores are 9.8 percentage points lower than the Fall of 2019. After reviewing the 2020 North Carolina Teacher Working Conditions Results results, teachers feel more professional development on personalized learning for students. Based on the 2018 North Carolina Teacher Working Condition Results, teachers still express a

need for professional development on personalized learning as it is aligned to the district's strategic plan. Also, teachers are requesting additional help on teaching SWD and ELs, in which results show a significant gap between SWD, ELs, and White students in both reading and math. The Migrant and Limited English Proficient parents were surveyed throughout the year at Parent Council and MEPAC meetings; the results showed a need to extend the school day to provide tutorials to students with limited English skills, SWD, basic math application, and literacy skills. As a result, HCS will continue to conduct Saturday Academy, after-school programs, and built-in intervention blocks to promote student achievement and conceptual understanding of curriculum standards in reading, math, and science. Also, we will continue our summer extended learning to address learning losses, and negative impacts students have experienced due to COVID-19 during the 2020-2021 school year. The data directs our continuous effort toward implementing a comprehensive PreK through eighth literacy plan and supportive resources to increase reading achievement for all subgroups. Special emphasis must be placed on ensuring high-quality instructional reading materials for teachers in EC self-contained and inclusive classroom settings. Next, the results of individual school's Comprehensive Needs Assessment during the 2019- 2020 academic year indicate a continual need to communicate with and engage families in district/school events and digital resources, including PowerSchool. Additionally, more communication needs to be with SWD, Migrant, and English Learners to ensure both entities are working together to increase the student's performance. All schools need to place an instructional focus on the ALL subgroup by meeting the state's target for each subgroup to help mitigate the learning loss for the 2020-2021 school year. According to the 2018-2019 reading data, we need to provide additional support to teachers in literacy. The data shows a significant gap between SWD (CCS-16.8%; GLP-22.3) and White (CCS-22.3%; GLP-67.6%) students. In addition to the literacy support, we need to purchase, train, and incorporate SEL into our curriculum. A SEL curriculum will increase student's performance, improve classroom behavior, an increased ability to manage stress and depression, and better attitudes about themselves, others, and school.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 6,945,490.82 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Hoke County Schools will address the need to administer high-quality assessments by the implementation of comprehensive core curricula and supplementary resources. All purchased core curriculum and curriculum resources will include screeners, assessments, and progress monitoring tools to support small group instruction, special populations, and closing learning gaps for Tier 2 and Tier 3 students.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Hoke County Schools will be utilizing peer evaluation reports to determine the strengths and weaknesses of any academic core curriculum. By utilizing these reports to guide our purchases, we will ensure the implementation of high-quality and evidence-based instructional materials so that all students have access to quality education. In order to facilitate implementation and the use of effective strategies, district curriculum guides will be developed to include all new curriculum and resources. Additionally, Hoke County Schools will hire 11 intervention specialists, one for each elementary and middle school, who will support small group instruction through evidence-based strategies and activities for our special populations. Intervention specialists will also provide professional development on evidence-based and formative assessment strategies for teachers to ensure the effective delivery of differentiated core instruction to meet the comprehensive needs of students.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

The additional student support services staff that Hoke County Schools will hire will not only effectively intervene for students who have academic and/or social-emotional at-risk factors, but will also work with family units on strategies in the home that can support students. By offering weekend, evening, and virtual programs, parents and families will have multiple opportunities to gather information and receive assistance on strategies that can be used to support their child. Furthermore, the student support services staff will conduct home visits to eliminate barriers for at-risk students by assisting parents and family members with disabilities and parents and family members who are economically disadvantaged, have limited English proficiency, are migratory, or have other backgrounds or characteristics that may affect participation in school.

* (D) Tracking student attendance and improving student engagement in distance education;

Hoke County Schools will employ 3 dropout prevention specialists to engage, re-engage, and monitor middle school students who have been significantly impacted by the pandemic and who lack academic and attendance supports. Additionally, Hoke County Schools will employ additional student support staff to include counselors, social workers,

mental health facilitators, and nurses to assist students at all schools that have struggled with academic, attendance, health, and/or social-emotional concerns as a result of the pandemic.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

HCS will employ student support staff to include intervention specialists, counselors, and social workers to identify students at all schools that have struggled with academic, attendance, and/or social-emotional concerns as a result of the pandemic. The support staff will utilize student baseline data and current data to determine students who have experienced learning loss. These students will receive targeted interventions and support to regain loss learning.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

| FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs. | * ⦿ Yes ○ No | In order to prevent the spread of contagious diseases such as COVID-19, we will be looking at replacing windows and doors that currently do not open or cannot remain open to help improve the air quality within our classrooms and hallways. Also, in order to reduce the spread of COVID-19, bathroom fixtures and other faucets will be updated to touchless fixtures. | 2022-2024 | Increase access and circulation of fresh air throughout the classrooms and hallways. To promote the reduction of virus spread. Documentation would include maintenance records and reports and physical monitoring. | $ 410,000.00 |

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ◯ No	In order to prevent the spread of contagious diseases, such as COVID-19, and improve the air quality and ventilation within our buildings, we need to address the replacement and maintenance of HVAC units and the replacement components of the HVAC system. MERV 13 and UV lighting are included in the new units. All R22 units will be replaced as well.	HVAC systems updated by June 2023.	Data from indoor air quality and capacity reports from updated HVAC systems, documentation of upgraded systems and controls to ensure efficiency and the introduction of fresh air throughout school facilities, maintenance records and reports, and physical inventory and monitoring.	$ 1,022,754.50
	* ⦿ Yes ◯ No	In order to prevent the transmission of Covid-19 and to ensure students receive meals under Plan A, B, or C, additional and replacement	August 2021-June 2024		$ 365,008.00

| COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus. | | materials are needed for meal delivery and pickup sites, and to support breakfast and lunch in the classrooms. The following items are needed under Plan A or B: signage, outside seating and canopies, coolers and insulated bags, serving supplies, and preparation tables (food prep). In order to consistently communicate COVID-19 information with all stakeholders, HCS will create and provide flyers and other printed materials. Funds for postage will be necessary to mail out printed materials to stakeholders and to mail report | | Effective communication and increased implementation strategies for mitigating COVID-19 as evidenced by survey data and monitoring visits Participation in meal delivery, pick-up or breakfast, and the lunch in the classroom | |

		to mail report cards, progress reports, assessment info, etc. to students who may be completely online learners.			
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ◯ No	In response to the learning loss associated with COVID-19 and the unique needs of our English Language Learners, EC, and AIG students, HCS plans to purchase and implement supplemental programs and materials to support and accelerate student learning and growth.	July 2021 - August 2024	Improve student achievement, graduation rate, and teacher effectiveness. Documentation of effectiveness is state and local assessments, EVAAS, and classroom observations.	$ 625,000.00

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ⦿ Yes ◯ No	In response to the growing Hispanic population and the need for quality information related to COVID-19 being disseminated, HCS will contract with a company to assist with translations to adhere to ESSA guidelines on communicating in a language that families can understand.	2021-2024	District monitoring reports of translation services provided to families by the contracted company	$ 45,000.00
