Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Hyde County Schools (480) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

ESSER II and III During the March 22, 2021 District Leadership meeting the Federal Programs Director provided information to the District Strategic Planning Committee on ESSER II funds. Information on PRC 171 was presented to the group for preliminary discussion about use of funds and the gathering of information concerning the needs of the district to safely reopen schools and prepare for a return to virtual learning, if necessary. On the forefront of the team's concerns is the Emotional Well-being of the students, teachers, and families. According to the National Association of School Psychologists: "One fifth of all students in the US now suffer from some form of mental disorder. Only 20% of them are receiving some form of treatment. Student anxiety and depression have increased by over 60% in the last 10 years.1.1 million K-12 students attempt suicide every year." The District MTSS Implementation Team has chosen Sanford Harmony as a Core for SEL for students in PreK - Grade 6th, however there were no Tier II and Tier III interventions for Mental Health. Covid-19 was not the first or last catastrophic occurrence in Hyde County with Hurricane Dorian devastating Ocracoke School and leaving the majority of the families homeless or with inadequate housing, and additional damages on the mainland. A year after Dorian, only 2 families continue to qualify under the McKinney-Vento definition for eligibility, however the mental recovery is far from anywhere near as successful. The

period between Dorian and Covid-19 was a small window for these families. A psychiatrist volunteered to work with families on Ocracoke immediately following Dorian and 19 students were referred by school personnel for assistance. Another 20 were referred for virtual counseling with an agency in Dare County. When Covid-19 caused learning to become virtual, the psychiatrist left the Island and did not continue services. Due to a lack of internet access, the virtual counseling was suspended for the remainder of the year. The District has adopted Branching Minds as its SEL screener. With the District returning in August 2020 to all virtual instruction, the school counselors and assistant principals (on Ocracoke they are the same person) used attendance, completed work, and grades to track students who they determined to be considered "at-risk Tier 3" with regards to mental health. Seventy-four students on the mainland and thirty-one students on Ocracoke were identified as at-risk based on the three factors mentioned previously. Interventions included phone calls, emails, and home visits. Hyde County Schools is the smallest school distinct in the state and like many rural districts, it struggles to add needed personnel. In addition, there is no local supplement available for teachers and staff. With one social worker serving the mainland campus, no social worker on Ocracoke, and no School Psychologist for the district, the school counselors struggle to address the needs of the students. In addition, the district does not have additional personnel to assist with scientific, research based interventions for reading and math. Elementary and middle school teachers have attended professional development in Tier I, II, and III interventions, however there is no one in the district to conduct professional development and documentation of fidelity. Teachers return from training with no support to help them transfer what they have learned into classroom practice. The District MTSS Implementation Team chose as a universal screener for math and reading the iReady online assessment. MTSS indicates that utilizing core instruction, 80% of students should be at grade level. Based on End-of-Year Assessments with 74% of students completed, assessments in reading indicate that 47% of students are at grade level with 29% at least one grade level below (Tier 2) and 25% two or more grade levels below. When compared to the Beginning of Year Assessments with with 76% of students completed, 44% of students were at grade level, 31% were at least one grade level below (Tier 2), and 25% were two or more grade levels below (Tier 3), this would show overall growth in Tiers 2 and 3, however the EOY assessments remain below the projected MTSS achievement levels. Based on End-of-Year Assessments with 72% of students completed, assessments in math indicate that 40% of students are at grade level with 35% at least one grade level below (Tier 2) and 25% two or more grade levels below (Tier 3). When compared to the Beginning of Year Assessments with 87% of students completed, 31% of students were at grade level, 44% were at least one grade level below (Tier 2), and 26% were two or more grade levels below (Tier 3), this would show growth in all Tiers, however the EOY assessments remain below the projected MTSS achievement levels. All Tier 2 and Tier 3 students are screened using one of the following to determine appropriate interventions: The Word Identification and Spelling Test (WIST), Kaufman Test of Academic Achievement - 3rd Edition (KTEA III), The Wilson Assessment of Decoding and Encoding (WADE). These students then receive interventions either 1:1 or small group. HCS used the EOY assessments to determine at risk students to attend the Summer Enrichment Program. They will be assessed during and at the conclusion of the program to

determine growth. Air quality is another issue facing the district. While there is actually a new school being built on Ocracoke to replace the one destroyed by Hurricane Dorian, the air conditioning unit on the mainland is antiquated. In addition, the roof at the Central Office Building has been patched again and again, however there is still water soaking into some of the tiles throughout the offices that continually need replacing to prevent mold. Personnel who are returning to work are closing doors to encourage social distancing. With the doors closed, air quality becomes more of a concern.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

One of the side effects of Covid is the awareness of the number of families in Hyde County without internet access. With teachers turning to remote learning, there is a need for technology to allow teachers to teach remotely for long periods of time due to a resurgence. With one full-time and one part-time technology person, small issues with signing in or accessing a website cost the tech department for the district precious time. Tech Support Personnel for the school campuses will be of great assistance, especially as technology is upgraded to allow better instruction and less learning loss. The State Superintendent is rolling out the Science of Reading Program, which will require 2 years of training in LETRS for Administrator's, Coaches/Specialists, and Pre-K - 5 teachers. Hyde County Schools began addressing literacy in the elementary schools with the implementation of MTSS at both the district and school level through encouraged professional development in Fundations, Just Words, Wilson Reading System and Reading Research to Classroom Practices. To address learning loss and provide support for teachers using research based interventions, a District Reading Specialist will be hired. This position will assist with implementation of interventions to fidelity when teachers return to the classroom from professional development. Other funds will be used for professional development stipends for Science of Reading training and any necessary supplies and materials. To address social emotional learning and mental health issues, the district will attempt to hire a social worker for Ocracoke School, and a District School Psychologist. It is very difficult to entice professionals to come to Hyde County due to the extreme rural setting and lack of housing, especially on Ocracoke. Until a social worker and/or psychologist can be hired, the district will use contracted therapists to assist with students' mental health. Other funding is being used to employ the school counselors during the summer months beyond the summer program to assist students and their families. Air quality has been a problem at Central Office due to issues with the roof. With employees returning back to the office and keeping their doors shut, it is even more apparent of the need for improvements to or replacement of the roof.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 443,909.37 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Hyde County Schools currently uses iReady, WIST (Word Identification and Spelling Test), WADE (Wilson Assessment of Decoding and Encoding), Brigance Comprehensive Inventory of Basic Skills, and KTEA (Kaufman Test of Educational Achievement) to assess student learning performance. Intervention pieces that address evidence of academic lapses are chosen based on the results of the screening. These intervention pieces are tiered according to the severity of the deficit identified by the screening process. Technical Support Personnel will be available in the schools to assist teachers and students who are having difficulty signing on or accessing websites. Extended School Year (ESY) Services are provided to students with disabilities if the IEP Team determines that services are necessary for the provision of FAPE. Compensatory Services are provided when there is a failure to provide a SWD with FAPE. Other students who are considered at risk and need additional interventions will receive services. Any student receiving services will be assessed for a baseline and progress monitored to determine response to interventions. Attendance and service logs will be completed. Hyde County Schools will hire personnel as necessary to address instruction in the summer months and during the school year. Special Education and English Learner Teachers will provide ESY or compensatory services for students who are at risk. Covid Supplemental Pay will be provided to employees who assist with distance and in person instruction.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Three evidence-based interventions used by Hyde County Schools come from the What Works Clearinghouse. The website includes studies done as to the affects of the programs and breaks the studies down by race, ethnicity, gender, Free & Reduced-Price Lunch, delivery method and urbanicity. The Wilson Reading System® is a reading and writing program. It provides a curriculum for teaching reading and spelling to individuals of any age who have difficulty with written language. The Wilson Reading System® directly teaches the structure of words in the English language,

aiming to help students learn the coding system for reading and spelling. The program provides interactive lesson plans and uses a sequential system with extensive controlled text. The Wilson Reading System® is structured to progress from phoneme segmentation to more challenging tasks, and seeks to improve sight word knowledge, fluency, vocabulary, oral expressive language development, and reading comprehension. Read Naturally® is an elementary and middle school supplemental reading program designed to improve reading fluency using a combination of books, audiotapes, and computer software. The program has three main strategies: repeated reading of text for developing oral reading fluency, teacher modeling of story reading, and systematic monitoring of student progress by teachers and the students themselves. Accelerated Reader™ is a computerized supplementary reading program that provides guided reading instruction to students in grades K-12. It aims to improve students' reading skills through reading practice and by providing frequent feedback on students' progress to teachers. The Accelerated Reader™ program requires students to select and read a book based on their area of interest and reading level. Upon completion of a book, students take a computerized quiz based on the book's content and vocabulary. Quiz performance allows teachers to monitor student progress and to identify students who may need additional reading assistance. In addition, all elementary teachers are trained in Letterland for their grade level and in the intervention piece. Teachers also have begun training in Fundations, Just Words, and Reading Research to Classroom management. Teachers are encouraged to attend professional development in scientific research based interventions, and will be continued to do so. A District Reading Specialist will assist with implementation of interventions and use of such to fidelity.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Hyde County Schools uses social media, emails, automated messaging calls and website posting to provide information to parents. Assistance with signing onto look at their student's grades and assignments is available on the website or by request for one-on-one meetings for access to the parent portal.

* (D) Tracking student attendance and improving student engagement in distance education;

Daily/Classroom attendance is taken and recorded in PowerSchool. The attendance data is reviewed to identify students who are at risk due to attendance. A Tier II and III team reach out to the students via email and phone (parents and students) as well as making home visits. The teams are also available to assist students who are having difficulty accessing classrooms and/or work.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Hyde County Schools uses iReady to assess student performance and growth. Assessments are done at the beginning, middle, and end of year. The assessments are compared for both growth during the school year, and individual/grade level growth from previous years. Students who appear to be at risk are assessed using other

research based testing and interventions are put in place to address specific weaknesses. There were no end of year EOG/EOC from 2020, however there will be testing at the end of this year. Scores will be assessed to address growth and proficiency.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

11/9/2021 12:30:33 PM

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ○ No	Air quality has been a problem at Central Office due to issues with the roof. With employees returning back to the office and keeping their doors shut, it is even more apparent of the need for improvements to or replacement of the roof.	June 2021 - September 2024	Air Quality checks will be taken quarterly to assure there is no mold or other issues within the building	$ 100,000.00

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ◉ No				$

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ● No				$
	* ● Yes ○ No		June 2021 - September 2024		$ 425,706.94

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		The district will purchase updated technology for the classrooms to address the need for student interaction with teachers and materials and utilization in instructing students virtually. Infrastructure equipment, cabling and management support will be upgraded to make connectivity more effective.To assist with the management of the new technology, additional Technical Support Personnel with be hired.		According to 2019 data compiled by the state's Broadband Infrastructure office, roughly 37% of people in Hyde County do not have internet access as opposed to nearby Dare County with only about 7%. The Ocracoke Observer reports that typical speeds are about 25 Mbps.The Technology Director advised that it could take her more than an hour to upload a video for students to Google Drive. These areas will continue to be assessed to note the impact of upgrades.	

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ○ No	The district will hire a social worker for Ocracoke School to assist with at risk students and learning loss. The district will hire a school psychologist to serve the district by providing counseling and other services to students in need of support. In the case that these positions cannot be filled, the District will utilized contracted Mental Health Providers to provide mental health support to these students.	June 2021 - September 2024	The district adopted Branching Minds, which has a mental health screener and progress monitoring capabilities. These will be used to identify students and track their response to interventions. Additional Mental Health Assessments under the State Mental Health Initiative and MTSS will be used to gauge student mental health.	$ 590,562.63
	* ⦿ Yes ○ No		June 2021 - September 2024	Extended School Year (ESY) Services are provided to students with disabilities if the IEP T...	$ 193,995.00

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.		Hyde County Schools will hire personnel as necessary to address instruction in the summer months and during the school year. Special Education and English Learner Teachers will provide ESY or compensatory services for students who are at risk. Covid Supplemental Pay will be provided to employees who assist with distance and in person instruction		IEP Team determines that services are necessary for the provision of FAPE. Compensatory Services are provided when there is a failure to provide a SWD with FAPE. Other students are considered at risk and need additional interventions. Any student receiving services will be assessed for a baseline and progress monitored to determine response to interventions. Attendance and service logs will be completed.

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ○ Yes ◉ No				$
				Total ESSER III Allotment	$ 1,310,264.57

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

There are no new applicants.

Hyde County Schools (480) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Iredell-Statesville Schools (490) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

The Iredell Statesville Schools utilizes a PLC Approach when completing Needs Assessments for the District, Schools, Grade Levels, and Individual Classrooms. The first Monday of each month is dedicated to our District Admin. Team which is made up of our Executive Team, Directors, Principal of the Year, and District Stakeholders. During our Admin. Team PLC we discuss what is going well throughout the district and what needs to be improved which includes any department needs (all decisions based on data). During the following Mondays of the month, the district conducts an Executive Cabinet PLC with Executive Directors followed by a weekly Cabinet PLC. The Cabinet PLC consists of the Executive Directors, Directors, Rotating Principal Schedule, and District Stakeholders. In each of these PLCs, the district discusses what is going well and what needs to be improved. Specifically how the improvements will be made. At the individual school level, each school conducts a monthly School Improvement Team, Leadership Team, Goal Team, and weekly Grade Level PLCs. It is an expectation for each PLC to discuss what is going well at the school level and what improvements need to be made (all based on individual school data). Schools will utilize the same data points as the district, however schools level analysis is based on the students who attend their school. The data Iredell Statesville Schools is utilizing to determine needs from the disruption in educational services due to Covid 19 include

the following: Student Attendance, Number of Virtual Learners, iReady Math and Literacy Levels, NC Check in Results, Number of students not on grade level, School / District Climate Survey Results, Positive Covid Cases, Number of Students Quarantined Weekly, etc. With the data analysis described above, Iredell Statesville Schools intends to utilize ESSER II and ESSER III funds to address the following: Learning Loss = Multiple Data Points have shown a clear learning loss with our students. This learning loss will be addressed through:* Professional Development provided to teachers which will demonstrate best practices aligned to closing learning gaps. The focus of our PD will be based on Rigor, Relevance, and Relationships. * Class sizes need to be lowered in some of our schools and additional Teachers and TAs are needed to assist in closing student learning gaps. Parents are in need of resources to assist their children at home. *2 Community Liaisons will be hired to coordinate partnerships with those families. Student engagement is a definite need due to the Student Learning Loss. *A STEM / Rocket Camp will take place to re engage our Middle and High School Students. Improvements in Facilities = Facilities are in need of improvements throughout the district *Hiring of additional maintenance staff will assist in improving the quality of our buildings to make them safer for students and staff, *Water bottle filling stations will be utilized to improve the spreading of germs in all buildings. Air Quality = *Inspection Results have shown schools and buildings are in need of improved air systems. Preparedness and Response = Nurses are needed throughout the district to assist with Health Checks, Quarentines, Parent Communication etc. Additional nursing positions will assist with these processes. School Resources = Individual Schools are in need of resources to assist with student learning and student / staff safety. *This would include improvements to the Media Centers, Fine Arts, etc., *Supplies provided based on Individual School Based Needs Assessments Preparedness and Response = Survey data has shown we still have stakeholders unaware of COVID Impacts, Safety Updates, What can be done at home to help parents, and how schools are helping students to close gaps from learning loss. *Iredell Statesville will use ESSER II Resources to make improvements on communication and advertising. Long Term Closure Activities = *Online Courses are being created to assist students who will remain virtual and to prepare in case long term closes occur in the future. Iredell Statesville Schools also has staff without technology devices. These staff members were not able to assist with their daily duties while we were closed. *Devices will be purchased for those staff members in case of any further closures. Staff would include (ESL District Staff, AIG Dept., Testing, Operations, etc.) Educational Technology = Since the epidemic began we have seen a need to enhance our technology options. This will be addressed through: *Synchronous Learning Equipment so students are able to participate in a regular classroom setting while at home.*Outdoor Wireless Set Up- Students will be able to participate in class and complete assignments they were not able to complete at home. The pandemic has shown us our Elementary Students are in need of 1:1 for devices. *Further devices will be purchased to assist Elementary becoming 1:1 with Ipads. With the purchasing of new technology, *Additional Techs will be needed along with an *Updated Server and *Programming. Summer School Activities = Due to the Covid Learning Loss, Summer Learning will be a necessity for our district. *Supplies will be purchased to assist with the Summer Learning Program. *Teachers, Support Staff, and Administrators will be an essential component of the Summer Learning program as well

Other Activities = We are well aware Future Data Analysis Discussions will show needs we are not aware of at this time. Funds will be set aside to assist with upcoming needs.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Here is the data analysis which will demonstrate the ESSER II and III needs for Iredell Statesville Schools: Learning Loss: Our District Data has shown a significant learning loss in specific areas. *According to our latest attendance numbers are at 93.75% as a district. In the past 3 years, the district's attendance numbers average around 95%. *Currently the district has approx 15% of students (3,011.25) learning virtually. We realize moving forward there will be a need for synchronous learning classrooms, extended wireless opportunities, and online course creation. *According to the District iReady Mid Year Results, Approx. 60% of students are below grade level in Math and 50% below grade level in Reading. There was also drop of 10% proficiency in Math and 5% proficiency in Reading from the Mid Year Assessment the previous year. District Check-in Results are demonstrating the same trends for each grade level and subject area. Multiple resources and learning strategies will be required starting in 21-22 and beyond. *School and District Climate Survey Results have shown a need to improve communication, specifically aligned to the pandemic. Our stakeholders have asked for more avenues to see what the latest Covid Data is showing, District updates, and what can be done at home to help their child. *Positive Covid Cases and number of Students / Staff Quarantined are updated weekly on the Iredell Statesville Website (https://www.issnc.org/coronavirus). Overall the data is trending lower, however we want to be sure this trend continues, and do not want to let up on our safety measures. Further nursing staff will also assist in meeting the needs of our student and staff. The nurses will also be able to work with our local health agencies to provide guidance for Covid throughout the district

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 8,816,296.26 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities,

students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

The learning loss from the pandemic has shown Iredell Statesville Schools the need for quality curriculum programming and assessments. ESSER III Funds will be utilized to purchase extended curriculum for Math and ELA. The district will begin with CORE Programs in our most at risk schools and will measure fidelity of implementation along with student assessment data. If the data shows positive trends and is beneficial for students, we will expand the programs further in the district. Within the purchased programs, there will be included assessments utilized to measure student gains and to identify learning gaps. Gaps will be addressed by instructional staff in the classroom, during remediation blocks, and during extended Summer Learning Programs. The district will also recognize teachers in our Restart Schools who go above and beyond in meeting the needs of our students. Teachers will be able to earn bonuses for meeting and exceeding growth with students in these designated schools. Differentiation of instruction will be a key factor in order for these teachers to meet the bonus criteria.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Iredell Statesville Schools will utilize multiple evidence based Programs and Approaches to instruction to meet the needs of all students. To learn more about these programs and best practices, multiple Professional Development Opportunities will be made available. This will include Dr. Michael Bosse for best practices in Mathematics, Doug Eury to work with school administrators, Dr. Bill Daggett and his group to work with all staff on Rigor, Relevance, and Relationships and Jen Curtis to work with secondary teachers on how to fill in learning gaps. This Professional Development will not be a one time session. Multiple sessions over multiple years will take place to insure teachers and staff have what they need to be successful. This Summer and throughout the school year, Iredell Statesville Schools will be implementing a STEM Rockets Camp for our secondary students. This camp is a fully immersive hands on experience to re engage students who missed quality instruction due to the pandemic. The STEM Rockets Camp will be aligned to the Science Standards, Math, and ELA Practices.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Iredell Statesville Schools will be providing Family / Community Events at the school level to assist families in need. The district also has information on the website which provides information as to how family members can assist their student at home. Iredell Statesville School is also looking to hire two Community Liaisons to work with families on what they can do to support their student at home. This individual will focus on our most at risk schools.

* (D) Tracking student attendance and improving student engagement in distance education;

To assist with student attendance and improving student engagement through distance education, stipends will be paid for teachers to create online courses for our secondary students. Iredell Statesville currently has online courses for our students, however this pandemic has shown the need to vastly increase options. Students will have the opportunity to take online courses voluntarily or if further closures are necessary.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

To assist with the academic progress of our students, especially those who experienced learning loss, Iredell Statesville Schools will be adding additional teachers and teacher assistants. These additional staff will be assigned to our most at risk schools. It will be the responsibility of these teachers and teacher assistants to evaluate, and work with students in closing gaps created by the pandemic. Student data will be analyzed from pre-pandemic to current levels and beyond. Instruction will be differentiated based on need. Iredell Statesville will purchase Hoonuit through Powerschool to keep track of student progress and to make specific plans for student improvement. Student data will be evaluated and we will be able to identify instructional strategies that were beneficial for the students. Another strategy Iredell Statesville will implement to address academic progress is to conduct a 6 week Summer Learning Program for students in grades K-12. Students will be selected based on need, and will be provided academic remediation in the areas of Math, Reading, and Science for 3rd - 8th. Students will also have the opportunity for enrichment through the arts and through recreation. The district will evaluate students before entering the camp and after to measure growth and to see which learning gaps will need to be addressed the following year.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	*Water Bottle Filling Stations *Addition of Maintenance Positions	*2022-2023 Year, *2023-2024	*Number of Stations Added *Use of Stations *Number of Maintenance Added	$ 2,900,380.88

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ◉ No				$
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$

11/9/2021 2:55:38 PM

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ◯ No	*Tutoring Programs for the most at Risk Schools (Indwelling Church, Angel Wings, Speak Life and Live)	*21-22	*Number of students participating *Student Data	$ 208,915.00
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ⦿ Yes ◯ No	*Purchase of Qualtrics Program to measure and identify close contacts *Addition of nursing positions	*2023 - 2024, *23-24	*Number of Close Contacts Identified and contacted *Number of Nursing Positions Added	$ 797,759.93
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ◯ Yes ⦿ No				$

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ● Yes ○ No	*Purchasing of PPE Supplies	*21-22	*Supplies Purchased *Supplies Utilized	$ 100,000.00
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ● No				$

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ◉ Yes ○ No	*District Refresh of Technology devices for students and staff. District will be 1:1 for all grade levels *Updating classrooms with Smartboards, Apple TVs, *4,000 IPADS Cases Purchase for Elem. *Additional Tech. Positions *Class Link for single sign on	*Techs 23-24, Class Link 23-24, Tech upgrades 21-22, *Number if IPADS Purchased	*Number of Devices purchased through refresh *Use of Technology Devices *Student Assessment Data *Number of Technology Upgrades Completed *Use of Technology *Use of Elem. IPADS *Number of IPAD Cases Purchased *Work completed by Techs	$ 18,456,668.97
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ◉ No				$

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ○ No	*Transportation Costs	*Fuel for Bussing	*Amount of Fuel Needed to Summer Transportation	$ 32,550.12
	* ◉ Yes ○ No	*Stage Curtains will be purchased *Purchase of Activity Buses so students are able to space out for safety. *Indirect Costs *Unbudgeted Funds to be used as needs arise	*Curtains Purchased, *Activity Buses Purchased Indirect for 21-22	*Use of Indirect Costs *Students Transported on Activity Buses	$ 961,243.95

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.					
				Total ESSER III Allotment	$ 23,457,518.85

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Iredell-Statesville Schools (490) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - New Applicant Summary

There are no new applicants.

Iredell-Statesville Schools (490) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Mooresville Graded School District (491) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

MGSD in communication with its' executive team, Board of Education, and Parent Advisory Committee has determined first and foremost the need for quality, in-person instruction with a focus on disadvantaged learners. The pandemic has also shown the need for a high-quality educational environment with pure air quality that is free from pollutants. The technology needs of the district were tested during COVID and shown to be weak and stressed in many areas. The pandemic also made the lack of equality between demographics such as race and socio-economic status extremely obvious thus putting to the forefront the need to educate employees on diversity, equity, and inclusion. Finally, given the logistical challenges with instruction, finance, and day-to-day operations, it is important for MGSD to have strong, exceptional staffing to serve all student demographics. As a result of COVID-19, the district was unable to implement a dual language immersion program serving a diverse cross-section of our students. This negatively impacted our English Language Learner populations. In response to our inability to offer this program in 2020-21 due to a reduction of staffing, it is imperative we implement in 2021-2022.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

A review of student data from sources including but not limited to Station, iReady, NC Check-ins, and EOC scores and class grades, as well as attendance rates and social-emotional learning surveys, reveals the negative impact that the disruption of in-person learning since Spring 2020 has had on student proficiency. The significance of keeping students engaged and on-task in a safe and healthy environment conducive to learning cannot be understated. To that end, MGSD is committed to providing students high-quality instruction from certified teachers who are better able to focus on the individual needs of their students. To address student academic needs from the earliest grades and moving forward, MGSD will implement a dual language learning opportunity for all in-coming kindergarten and rising first grade students in Fall 2021. The program will expand by a grade level each year. Learning a second language builds the cognitive part of the brain. This increases abstract thinking, math, and logic skills, as well as problem-solving skills. These are all higher-level thinking skills that lead to better school achievement. Research shows that the bilingual brain is better able to perform high level thinking processes than the monolingual brain. Students, as well as staff, will also benefit from a district culture that is more diverse, inclusive, and culturally aware, and thus fosters greater understanding and genuine connections. The combination of these factors, as well as the provision of a clean and healthy environment, will create a learning community that not only encourages involvement but reduces absenteeism and ultimately cultivates learning. Although MGSD has long recognized the value of technology in education and made digital literacy a cornerstone of district culture, the pandemic revealed weak spots in our capabilities, particularly in data storage and connectivity. Grant funds will be used to shore up these areas, preventing data loss and improving/expanding connectivity capabilities which will enable us to provide even better digital services to students and families, particularly those members of our low-income and homeless population. In the end, even though MGSD was able to successfully transition to remote learning and will continue to offer an online option, it is clear that technology alone cannot take the place of the interpersonal relationship between students and teachers. A strong, diverse, and sufficient teaching staff is our most important resource.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 2,377,485.83 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among

students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

MGSD utilizes a variety of high-quality, evidenced-based assessment methods at the elementary and secondary levels to assess student academic progress and to give teachers insight into the specific individual needs of their students. At the elementary level, MGSD uses iStation, iReady, NC Check-ins, and quarterly benchmark assessments to evaluate student proficiency and identify specific areas of need. At the secondary level, MGSD uses NC Check-ins and Mastery Connect quarterly benchmark assessments. Based on this assessment data, teachers are able to tailor lesson plans and provide strong core as well as differentiated and individualized instruction. As a part of this grant to address learning loss, MGSD will purchase the Aimsweb assessment tool license to evaluate secondary education students and ensure progress from learning loss due to COVID.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

MGSD employs high-quality educators trained in the use of a variety of evidence-based instructional programs intended to meet the varied needs of students. MGSD will employ 6 dual language teachers in kindergarten and first grade during the 2021-2022 school year. We will add second grade for 2022-2023 (9 teachers), and third grade in 2023-2024 (12 teachers). It is best for students to begin the DLI program in Kindergarten in order to be successful. The skills and content taught in immersion programs build from one year to the next, so it is important that students begin in Kindergarten. By learning Kindergarten Standards in the target language, students are ready to continue doing so in the grades that follow. In comparison to English learners who were not enrolled in dual language programs, these students were found to outperform their peers on state reading tests and be more likely to be classified as "English proficient" by grade 6. As part of core instruction at the elementary level, MGSD teachers and specialists use Letterland, Heggerty Phonemic Awareness, Footsteps to Brilliance, MobyMax, EPIC, Ed Galaxy, IXL, Tumblebooks, RazKids/Learning A-Z (with the English Language Learner component for ESL teachers), and Scholastic Comprehension Clubs. Supplement and/or intensive programs are used with students identified as at-risk, including Fountas and Pinnell Leveled Literacy, Read Naturally, HillRap, Corrective Reading, FUNdations, and focusMath, iStation Math, iReadyMath, and Bridges Math Intervention. Dual Language students will utilize all of these resources as well a curriculum specifically designed to meet the needs of Spanish language learners. At the secondary level, MGSD teachers and specialists use Delta Math IXL, USA Test Prep, Common Lit 360, No Red Ink, Language Live, Ed Galaxy, MobyMax, Quizlet, Apex Tutorials, News ELA, Gizmos Science, Corrective Reading, Aimsweb, and Scholastic Comprehension Clubs Recognizing that fostering student success goes beyond addressing academic concerns and that the needs of the whole child must be considered, MGSD provides students with essential

social-emotional learning supports. Students at the K-6 level have access to SEL assistance through Sanford Harmony and students 7-12 have access to Mawi tools, all of which are Collaborative for Academic, Social, and Emotional Learning (CASEL) aligned. Teachers and guidance counselors collaborate to ensure that students have the SEL supports they need to be empowered learners.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

MGSD has an active, engaged Parent Advisory Committee that meets regularly and provides two-way communication between the district and parents. The district also emails all families a weekly message that is also made available on the website where it can be translated into a wide range of languages. Each school also sends out a weekly message from the principal. On a more individual level, teachers communicate weekly with parents using Smore newsletters (also translatable) and Class Dojo. Student progress is shared with parents via quarterly reports for K-6 and bi-monthly reports for 7-12, NC Check-ins, and iSIP reports (K-6). Access to the CANVAS parent portal enables parents to check on their child's status at any time. Now that the MGSD community has mastered virtual conferencing, the district is able to continue hosting host live quarterly teacher-parent conferences, open houses, and curriculum nights.

* (D) Tracking student attendance and improving student engagement in distance education;

Fully staffed schools with low student-to-teacher ratios will enable individualized instruction and foster a sense of connection between students and their classmates and teachers. This personalized approach and community building will encourage student engagement and participation and lead to improved, more consistent attendance rates. For students in a remote learning environment, the provision of reliable, state-of-the-art technology and the availability of hot spots if needed, reduces barriers to participation and facilitates attendance. Through the collaboration of high-quality staff, including teachers, guidance counselors, social workers, and other mental health support personnel services, MGSD is able to provide support for the whole child. Students participating in the Dual Language program benefit from the ability to continue to use their native language in dual language immersion classrooms and also maintain their sense of identity and heritage. This can be a boost to student self-esteem and confidence.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

MGSD is analyzing 2020-2021 student data from iStation, iReady, NC Check-ins, quarterly district benchmark assessments, EOC scores, and class performance data to identify those students most impacted by learning loss. These students will be targeted for participation in a summer camp program intended to help close the learning gap. At the end of the 6-week camp program, MGSD will use iStation and iReady data, as well as EOC scores and course credit recovery rates, to evaluate student progress. Moving forward, MGSD will continue to track student performance and use progress monitoring, differentiated instruction, targeted interventions, remediation, and acceleration to ensure

academic success. Particular attention will be paid to the academic progress of Dual Language learners compared to their non-DL peers.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ○ No		Solicitation for bids will begin immediately with full implementation expected by the summer of 2022		$ 650,000.00

		MGSD will add Ultrapure ionization devices to all classrooms across the district. This will ensure particles and contaminants in the air will be trapped and caught by the air filters, thus providing better air quality throughout the buildings. Also, MGSD will bid out air purifiers for locker rooms and large spaces throughout the district to provide better air quality in those areas.		We expect there will be a need for air filters to be changed more frequently due to an increase in trapped contaminants. We also anticipate an increase in attendance by students and staff due to better health resulting from improved air quality. Air quality tests will be performed periodically to ensure ionization and purifiers are performing as intended.	

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ● No				$
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ● Yes ○ No		Training will begin immediately through the life of the grant or fulfillment of budget allocation		$ 100,000.00

| | | Through intensive training and education, staff will be immersed in diversity, equity, and inclusion of students. This training will extend beyond the walls of the classroom to help promote and encompass an inclusion mindset to benefit all stakeholders across the district as well as families and the community. | | MGSD will provide an inclusive environment for students and staff that fosters understanding and awareness. Students will connect to culturally relevant content, examples, and metaphors from students' community and everyday lives. Students also will benefit from authentic opportunities to process content. Teachers will broaden their interpretation of culturally and linguistically diverse students. They will help cultivate a positive mindset and sense of self-efficacy. | |

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$

11/9/2021 3:23:02 PM

| LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements. | * ◯ Yes
 ⦿ No | | | | $ |

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ○ Yes ◉ No				$ [_____]
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ◉ No				$ [_____]

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◯ Yes ⦿ No				$
	* ⦿ Yes ◯ No	Mooresville Graded School technology resources and hardware in our data center will be upgraded including outdated and failing equipment to ensure continuity of service and connectivity. We also will be able to ensure that in	Immediately upon receipt through grant expiration or until budgeted allocation is used.	Technology upgrades will result in continuity in services and increased uptimes.	$ 147,938.04

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		the event of a major loss of power and/or connectivity the district will be able to restore major systems within a reasonable amount of time without any loss of data through a backup recovery solution coupled with a disaster recovery plan. In addition to upgrading the equipment, we will be purchasing software to manage our data center making certain that all systems are performing as expected. Upgrading our data center will help us to protect data and endpoint devices			

	devices, guaranteeing that our students and staff have a safe experience during teaching and learning. Reserve and IDC are also in this category.			
		Total ESSER III Allotment	$	897,938.04

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.

* ☑ **LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)**
An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Mooresville Graded School District (491) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

 There are no new applicants.

Mooresville Graded School District (491) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Jackson County Public Schools (500) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Jackson County Public Schools used multiple data points to determine the most important educational needs of students as a result of the disruption in educational services and the subsequent shift to remote learning due to COVID-19 and return to in-person learning. The JCPS Curriculum Department and Human Resources Department collected data to determine students' academic needs and COVID-19 transmission data. This data was analyzed by the Superintendent, Assistant Superintendent, Chief Academic Officer, Chief Finance Office, Executive Director of Human Resources and Personnel, and the Executive Director of Federal Program and aligned with possible ESSER II funding categories. This data was then shared with a stakeholder group including the district leaders listed above and the JCPS Director of Student Support Services, JCPS Principal of the Year, JCPS Teacher of the Year, Western Carolina University Dean of the College of Education and Allied Professions, Director of HIGHTS Therapeutic Program for students, and two parents representing both the K-8 and 9-12 grade spans. The data and plan for aligning funding to address the needs highlighted by the data were presented to the stakeholder group on April 29 in a hybrid meeting and a survey was shared with attendees to provide feedback about the proposed use of funds. Additionally, a recorded overview of the data and aligned funding were linked to the JCPS webpage with a link for feedback from

April 30 to May 6, 2021. The data below was used to assess student learning gaps and align funding for ESSER II and ESSER III support: Learning Loss: - K-8 Students: Student academic proficiency as measured by nationally-normed iReady data and NC Check-in data: 53% of students enrolled in grades kindergarten through eight scored less than 50% correct on math and/or reading NC Check-in 1 or NC Check-in 2 and/or received a benchmark score on an iReady math and/or reading assessment that indicated they were 2 or more years behind the expectation for their grade (1 year or more behind for kindergarten students). Out of all K-8 students who were currently identified as EL 78% of students were identified as below the grade level expectation in ELA, Math, or both as measured by the iReady math and ELA assessments. - 9-12 Students: Student academic proficiency as measured by high school course completion: (data is currently only available for fall semester course completion) Students were enrolled in 4621 individual courses, and of those only 4028 courses were considered completed and earned create toward graduation for students. 593 of the courses attempted were failed or incomplete. That is 13% of the attempted courses that were failed or incomplete. Subject specific data shows that many core academic areas exhibited less academic proficiency with the following data: 20% of math courses attempted were failed or incomplete, 19% of science courses attempted were failed or incomplete, 16% of social studies courses attempted were failed or incomplete, and 10% of English courses attempted were failed or incomplete. - COVID-19 safety measures and monitoring to prevent the spread of COVID-19 in JCPS schools: - Number and percent of students testing positive during the 2020-2021 school year (measured August 17, 2020-April 23, 2021): 127 student confirmed cases of COVID-19 (data includes students who attend face-to-face and who attend fully remote); which is 3.4% of students enrolled - Number and percent of staff testing positive during the 2020-2021 school year (measured August 17, 2020-April 23, 2021): 58 staff confirmed cased of COVID-19; which is 10% of staff. Student Social and Emotional Health and Learning: Since the beginning of the COVID-19 pandemic our student support services staff (social workers, school counselors, mental health specialist, student support specialist assistants) have seen a drastic increase in request for student counseling sessions, families requesting connections to community supports for food and financial assistance, student referrals to outside clinical counseling, and an increase in teachers and schools requesting support from our JCPS Behavioral Specialists for a variety of behavioral concerns. JCPS will continue to monitor student proficiency using iReady benchmark data, NC Check-in Data, EOG/EOC data when available, and student course completion data. We will also continue to monitor COVID-19 cases until such time that monitoring is no longer needed as determined by the CDC.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Learning Loss is a major concern of the Jackson County Public Schools stakeholder group. To address the learning loss identified in the student data above the district will : - Provide additional instructional assistants and teachers to provide in-classroom interventions and supports for academics and areas of need for students with a targeted staff to student ratio during interventions of 1 staff to 10 students or lower; - Provide high quality assessments using iReady testing software to analyze student growth between Beginning of Year, Middle of Year, and End of Year assessment in both math and reading for all K-8 student; - Provide parent and family engagement activities at each school to provide students a better understanding of the key learning standards for the grades their children are enrolled in and strategies for supporting them in math and reading at home; - Monitor and track student attendance by employing data managers beyond the allocation provided by NCDPI through state funds - Monitor student proficiency compared to pre-pandemic data by using the iReady platform to collect data about all K-8 student proficiency - Provide additional evidence-based materials - Provide access to online learning platforms to combat learning loss, including the Imagine Learning Language and Literacy Software for English Learners to support their language acquisition and reading and writing development as a supplement to support provide to ESL staff. - Provide assistance to principals for summer analysis of student learning loss and planning for curriculum purchases, professional development, master schedules, class rosters by employing assistant principals for additional months during the summer beyond their 10 month assignment. - Provide principals with funds to spend based on their individual learning loss needs (selecting from a menu of evidence-based allowable activities/budget codes provided by the district and monitored through consultation during meetings with the Central Office Leadership Team at least twice annually) - Provide support for the needs of special populations which have been compounded by COVID-19 school closures and hybrid learning, specifically providing additional teachers to support English Language Learners. - Provide funding for one additional technology technician to support the maintenance and repair needs of the increased number of devices purchased during the 2020-2021 school year and software needed to provided students access to learning management systems, appropriate filtering, and online lesson components used by teachers in instruction. - Provide additional Student Support Services staff and assistants to support overall Social Emotional Learning school and district wide and to provide for the individual needs of students. SEL supports the whole child which will lead to increased academic proficiency. - Provide a rigorous and engaging summer academic program for three consecutive summers (adapting to the needs of the students annually for scope and offerings) Another major concern of the group is to continue to keep current COVID-19 transmission mitigation activities in place. Based on the very low transmission rate for JCPS (having students in school face-to-face at least 2 days per week since October 2020) students and staff we feel that it is very important to keep the plans we put into place with ESSER I/CARES funds to continue to prevent transmission of the COVID-19 virus and thus keep students and staff in high quality face-to-face instruction. The following activities will be funded through ESSER II to prevent the transmission of COVID-19: - Provide additional school nurses and certified nursing assistants to ensure that each JCPS campus has a health care worker on campus to help monitor student symptoms and overall spread or exposure of COVID-19 - Provide additional custodial support to ensure that

cleaning measures to meet the CDC and NCDHHS guidelines can be carried out. - Provide cleaning supplies to ensure that all JCPS campuses meet the CDC and NCDHSS guidelines for cleanliness to combat COVID-19 spread. The final concern of the group was the social-emotional well being of students and how we can best support the rapidly increasing social emotional needs of students during and after the COVID-19 pandemic. Due to the recent increase in referrals for student support services and behavioral specialist services funds will be allocated to: - additional students support services roles (licensed school counselor or social worker) and student support services assistant who will work under a licensed student support services staff member to support student and classroom needs related to social and emotional health and learning -we will provide training to staff for Youth Mental Health First Aid or similar training about recognizing signs that students may need supports of student support service staff members and reviewing the procedures to get students connected to the appropriate staff member. To facilitate this training supplies and workshop expenses will be needed -A contract with HIGHTS for clinical support for students as needed beyond the expertise of the district

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 3,166,633.24 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

JCPS will use funds to purchase the iReady comprehensive testing software to monitor student growth and to identify gaps in student learning. The JCPS District Leadership Team will analyze results to determine specific standards and skills that large groups of students exhibit lack of proficiency and will provide high-quality professional development for staff in those areas. Additionally principals, instructional coaches, and classroom teachers will analyze student data to determine students who need additional support beyond a strengthened core and provide them with additional interventions delivered by additional staff funded through ESSER II funding. The JCPS Director of Testing and Accountability will combine data from the iReady platform and numerous other data points into the Qualtrics system to

monitor student sub-group performance and to provide additional subgroup trends and data to the District and School Leadership Teams.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Additional teachers and instructional assistants will be hired to provide evidence-based interventions to students who exhibit low proficiency. Supplies and materials that are evidence based will be purchased to strengthen both core instruction and interventions in areas with the most significant need in reading and math for students' academic growth. Teachers will also be provided targeted high-quality professional development in math and reading instructional strategies to increase student proficiency while being attentive to the social-emotional learning needs of students. Principals will develop plans for use of funds allocated to each school from a small menu of evidence based items to ensure alignment of staff, materials, and professional development meets the unique needs of their school. Budgets and purchases with the funds allocated to schools must be approved by the JCPS Curriculum Team and Executive Director of Federal Programs. Additional ESL teachers will be hired to meet the needs of English Learners who have particularly struggled to make adequate progress during periods of remote learning and hybrid learning in Jackson County Schools. All of these activities will also carryover into a high-quality summer program that meets the needs of at risk learners. Additionally, school principals will receive assistance for summer analysis of student learning loss and planning for curriculum purchases, professional development, master schedules, class rosters to best address learning loss by employing assistant principals for additional months during the summer beyond their 10 month assignment.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Funds will be allocated to all JCPS schools using a formula with a base allotment plus an additional per pupil allotment to provide at least two parent and family engagement activities per year focused on student math and reading proficiency. These activities must provide parents with an overview of the standards and skills expected from a proficient child at each grade level and provide strategies and modeled examples of how families can support their child's learning at home. Activities will be provided in a variety of formats based on feedback from parent surveys and will be engaging and safe for families. For families with students in a distance learning environment hybrid or remote opportunities will be provided for each of the same family engagement activities previously described. Synchronist and asynchronist virtual family engagement opportunities will be provided with the opportunity for feedback.

* (D) Tracking student attendance and improving student engagement in distance education;

Funds will support school data managers in additional to the allocation provided by the state (coded to 3.5820.181.151.000), school social workers, and other student support services staff who will monitor student attendance and will provide parent contact after 3, 6, and 10 absences. School student support services staff will

collaborate with students and families to problem-solve barriers to school attendance for both face-to-face and remote learners.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

The JCPS district curriculum team will analyze student data at least twice per year to compare to pre-pandemic data. The Director of Testing and Accountability has compiled information about student proficiency pre-pandemic and currently during the pandemic from iReady, NC Check-ins, EOG/EOC, ACT, cohort graduation rate, and other sources. As data is analyzed it will be shared with the JCPS District Leadership Team (including each school principal) to discuss district trends and areas of need. Additionally, data trends will be provided to each school to analyze their performance again pre-pandemic proficiency. Student data will be uploaded to Qualtrics to provide access to more easily identify students who need academics support so that school instructional teams can develop and execute a plan to meet whole group, small group, and individual student needs.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ◉ No				$

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◉ Yes ○ No		July 2021- June 2024	The percent of English Learner students identified as "at risk" using the same criteria used in the needs assessment data collection will be reduced.	$ 291,336.25

		Funds will be used to provide 2 additional English Learner staff to increase both language acquisition and academic proficiency of our English Learners who have extensive learning loss related to periods of remote learning due to COVID-19. Additional funds will be used to purchase the Imagine Learning Language and Literacy software each year for EL students and supplemental supplies for EL instruction will be purchased to combat learning loss for EL students related to COVID-19.			
					$ 1,100,327.00

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ⦿ Yes ◯ No	Funds will be used to provide salaries for 3additional nurses and 2 CNAs to ensure a school health care worker is available to every campus to monitor COVID-19 outbreaks and quarantines. Funds will also be used for salaries for custodians to ensure CDC and NCDHHS cleaning protocols for COVID-10 mitigation are carried out. Additionally, the salary of the HVAC technician and a portion of his assistant will be paid to ensure extra attention is paid to ensure air-quality is monitored to maximize the effort to limit COVID-19 virus transmission.	July 2022-June 2024	The percent of staff and students who contract COVID-19 will remain low to ensure that students are able to safely receive high-quality face-to-face instruction	

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$
	* ○ Yes ◉ No				$

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.					
	* ⦿ Yes ◯ No		July 2022-June 2024	The percent of students identified as "at risk" using the same criteria used in the needs assessment data collection will be reduced	$ 230,604.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		Funds will be used to provide the salary of one additional technician to assist with the maintenance of additional student devices received in 2020-2021, additional software and software management systems will also be purchased to provide opportunities to combat learning loss related to COVID-19/			
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ◯ No		July 2022-June 2024	The percent of students identified as "at risk" using the same criteria used in the needs assessment data collection will be reduced	$ 730,169.00

| | | Funds will be used to provide for 4 salaries of social workers or counselors and up to 9 new Student Support Services assistants who will work under the direction of a social worker or counselor to provide mental health support, counseling, and overall meet the social-emotional learning needs of students related to remote learning and overall student anxiety related to COVID-19. Funds will also be used to provide social-emotional learning professional development and supplies and materials for the staff listed above. | | | |

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ○ No	Funds will be used to provide a wide-scale K-12 summer academic program with academic and social-emotional learning supports focused on combating learning loss related to COVID-19, including certified and non certified staff, transportation, no cost meals, supplies, materials, and assistant principal extended employment to assist with analysis of student learning loss and plan for curriculum purchases, professional development, master schedules, class rosters, etc.	May 2024- August 2024	The percent of students identified as "at risk" using the same criteria used in the needs assessment data collection will be reduced	$ 600,002.00
		Indirect Cost; Funds will be used			$ 1,649,599.51

| OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act. | * ◉ Yes ○ No | to provide a district-wide staff retention bonus. JCPS leadership has determined that a retention bonus is necessary to ensure continuity of operations across all programs and schools. Since April 2021 JCPS has experienced 89 employee resignations or retirements leading to job postings. This is over 15% of all JCPS positions that have turned over in six months. Even more concerning is that of the 89 job postings, 30 postings have not been filled or have been filled and have become vacant again during this 6 month time frame | May 2021-September 2024 | The percent of students identified as "at risk" using the same criteria used in the needs assessment data collection will be reduced. Percent of job vacancies will remain the same or decrease after December 2021. | |

		month time frame. This is 33% of the open job postings which are not filled and are causing hardships across all departments that impact student success. Bus drivers, custodians, child nutrition employees, and EC teachers and teacher assistants are the hardest positions to fill with ongoing lengthy job vacancies, while K-12 teachers and social/emotional support staff have had the most turnover of positions. In an effort to combat additional employee resignations and retirements JCPS leadership would like to offer a one time $2000 stipend to all			

		employees who are employed as of November 15, 2021. The flat $2,000 will not be prorated as many hard to staff positions are part-time positions, yet are still essential to the continuation of operations.			

	Total ESSER III Allotment	$	4,602,037.76

Part E: Assurances

*Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:*

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.

* ✔ **LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)**
An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Jackson County Public Schools (500) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

 There are no new applicants.

Jackson County Public Schools (500) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

		☑		3-5110-164-000-000-00	0	The FY 2021 - ARPA-ESSER III Application (PRC 181) has been returned to the District as NOT APPROVED for the following reasons: The substitute stipends can be under "addressing learning loss" (with the justification that they are helping ensure smaller class sizes, social distancing, and continued learning without disruption when a teacher is absent, or it can be under "improving preparation and response" (with the justification that the district is preparing for potential COVID-19 absences). Whichever you choose to put it under, just make sure the amount budged is included as part of the total amount in the far right column. Budget: For each of the salary / position budget items, please go through and change the position justification from "Building ESSER III Budget" to a justification for that specific position. Once the areas listed above have been addressed, the grant application should be resubmitted up to Chief Administrator Approved.

Grant Details

Johnston County Public Schools (510) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Johnston County Public Schools (JCPS) supports a district-wide culture where all instructional staff analyze student data, reflect on their practice, collaborate with their peers, and incorporate evidence-based teaching strategies to ensure high levels of learning and increased student achievement for all students. By the end of the 2023-24 school year 100% of Johnston County Public Schools will earn a school letter grade of A, B, or C. JCPS Strategic Planning Framework was established to ensure a systematic review of practices, processes, and systems to assist leadership in determining needs, examining their causes and setting priorities for future action. Our goal narrows our focus to what is important while providing opportunities to frequently measure progress. Johnston County Public Schools continues to place emphasis on the opportunity for input from all stakeholders in planning for the future. Through this process, various data points (perception surveys, assessment data, focus group data, and district accreditation feedback) are continuously used to guide the discussions across various stakeholder groups. Following the recommendations from the Johnston County Public Health Department, the Centers for Disease Control (CDC) and the StrongSchoolsNC Public Health Toolkit, the Johnston County Public Schools developed the Back-to-School Protocols in Johnston County Public Schools plan to start the 2021-2022 school year. The purpose of this plan was to

support our community with guidance, considerations, recommendations and best practices in how to reopen our schools while ensuring a safe and successful 2020-2021 school year. Our Back to School Opening Plan is posted on our website along with the COVID Dashboard. All stakeholders have the opportunity to provide feedback making public comments during our board meetings, by using our tip line (https://www.johnston.k12.nc.us/tipline) as well as contacting us by phone. Overall Performance Composite - All Subjects- 2019 - College and Career Readiness (CCR) - 38.3 Grade Level Proficiency(GLP) - 52.9 2021 - College and Career Readiness (CCR) - 25.3 Grade Level Proficiency(GLP) - 42.7 2019 2021 Reading - CCR 38.9 GLP - 50.7 CCR - 23.9 GLP 41.2 Math - CCR 32.6 GLP - 52.1 CCR - 18.8 GLP 37.9 Science - CCR 62.6 GLP - 72.2 CCR - 53.2 GLP 65.9 Additional Indicators 2019 2020 2021 EL Progress (K-12) 39.4 30.6 21.6 The ACT 53.8 - 49.2 ACT WorkKeys 70.9 - 63.2 ACT/WorkKeys Combined 66.6 - 58.6 Cohort Graduation Rate North Carolina JCPS 2018 86.3 91.8 2019 86.5 93.5 2020 87.6 91.7 2021 91.0 According to The National Institute on Healthcare Management Children's Mental Health in the COVID-19 Pandemic has been significantly impacted. The pandemic has created a perfect storm of stressors for children and youth. Experts warn that these additional stressors present due to COVID-19 may negatively impact students' mental health: uncertainty, social isolation, school closures, familial changes, economic instability, and losing a family member to COVID-19. According to the National Institute for Early Education Research (NIEER) at the Rutgers Graduate School of Education, children ages 3 to 5 have also lost important learning opportunities over the last year. JCPS had over 550 applicants for Preschool. Parents are being required to go back to work and are not able to find quality early education for their children. Without building new classrooms, we would have a waiting list of close to 350 students. Contact Tracing Efforts- Currently, we have 24 buildings in our district that are not outfitted with S2 software. In an effort to allow our district to improve our contact tracing efforts, it would benefit us greatly to outfit all schools in our district with S2 software. Adequate Devices and Broadband Connections- During the 2020-2021 JPCS checked out over 24,000 chromebooks and over 5,500 hotspots. JCPS has over 10,000 obsolete Chromebooks that are no longer supported with Google Auto Update Policy. The 10,000 older model chromebooks do not have adequate resources to support remote learning and synchronous learning that utilizes video conferencing. JCPS has over 15,350 Chromebooks that are over 4 years old. JCPS expects to check out Chromebooks to nearly all the 38,000 students enrolled at JCPS. Further, our students need reliable access to broadband or wifi internet to complete academic assignments on the way to school or on the way home from school each day. Some of the rides last up to 1.5 hours. JCPS currently has 2000 hot spots and 11 outdoor units. Last year's data from hotspot usage reports showed 2000 students utilized the hotspots for educational use.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Proficiency was impacted by learning loss as a result of interruptions in learning over the course of the 19-20 and 20-21 school years. Overall proficiency dropped by approximately 10 percentage points, with Math proficiency being most negatively impacted. College and Career Readiness indicators were also impacted by the interruptions of learning. Additional analysis of ACT data indicates Math is a continued area of focus. EL progress measures the acquisition of Language Skills for English Learners, as this is a growing population in our district this is noted as an area for improvement as a negative trend is present. Johnston County Public Schools 4 year graduation rate continues to be above the state average. JCPS recognizes the broad impact of the COVID-19 pandemic, therefore, our initiatives aim to address not only academic recovery but also the social and emotional well-being of our students, adequate resources as well as a healthy and safe environment. In our planning for recovering, we continue to recognize the value of data in providing information on individual student needs, analyzing learning loss and individual plans for remediation for our students as well as how to provide better access to remote learning and/or safe and healthy environment to our students by: -Addressing Learning Loss through evidence-based interventions that respond to student's academic, social and emotional needs; -Collecting information we need to guide instructional decisions (MTSS Plans, MAP benchmarks, list of students at risk of academic failure, End of Grade/End of Course Assessment, list of students who need to recover credits to meet graduation requirements, Panorama Survey and Panorama Student Success Data) and resource allocations; -Gathering information beyond test scores. This includes implementation of effective Core instruction, utilizing high leverage instructional practice across all schools; ensuring students have access to high-quality curricula, technology devices, and reliable internet; whether they regularly attended and/or engaged in online learning; and whether they are experiencing trauma, or food or housing insecurity; -Providing the opportunity to participate in Virtual Academy, Summer Learning, Extended Learning, supplementary and/or intensive targeted interventions; -Expanding opportunities for families with PreK students to have adequate access to instruction that will develop skills in the areas that are necessary to become successful in school; -Providing high quality consistent curriculum and learning resources, as the basis of its core instructional program; -Improving our contact tracing with S2 software to determine the path of individuals that may come into contact with one another in the hallways throughout the day. Thus, improving our ability to contact trace and accurately communicate this information with our stakeholders; -Providing a safe and healthy environment by monitoring air quality and working on school facility repairs to reduce risk of virus transmission and support student health; -Providing stakeholders with a clear explanation of JCPS reopening plan, assessment and instruction as well as opportunities to provide feedback.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 25,000,000.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Universal screening data is used in our classrooms to support teaching and learning. NWEA's MAP Growth assessments are administered 3 times a year in Reading and Math. Teachers are able to identify areas of need and success, in addition to having immediate access to the learning standards and what students are ready to learn now. The MAP system documents student growth and projections for achievement on NC End of Grade tests. A consistent process for Interim Assessment will be implemented during the 2021-2022 school year. Johnston County Public Schools will utilize CASE assessments, aligned to local pacing and end of year State assessments. Results for these assessments will allow personnel to evaluate the mastery of grade level objectives and projections for achievement on state EOG/EOC assessments.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

- Curriculum Specialists (ESSER III) Provide additional curriculum specialists/coaches to support teachers in implementing evidence-based strategies for at-risk students. - Math Curriculum K-12 Core Curriculum-Envision, Math Curriculum Interventions-Do the Math, Dreambox, Math 180 Evidence-based curriculum was bought for K-12 students to teach core content. Do the Math and Dreambox was purchased for K-8 students to address learning loss, as it is an intervention. Math 180 was purchased for 9-12 students to address learning loss, and all students who are not on grade level in the 9th grade are required to enroll in one semester of math intervention using Math 180. - Reading/Language Arts Core Curriculum-My Perspectives, Into Reading, Haggerty, Fundations, Reading/Language Arts Intervention-Lexia, Elevate My Perspectives and Into Reading was purchased as the Core Curriculum. All elementary schools utilize the following for phonics and phonemic awareness instruction: Haggerty and Fundations. Intervention resources include ELEVATE, Fountas and Pinnell, Imagine Learning (ELL) and SPIRE (EC) - Tutors (ESSER III) K-8 schools will offer tutorial sessions for students to address learning loss. Certified and classified teachers will be employed to target specific learning academic and SEL goals for students based on data collected from benchmark assessments. Opportunities will consist of the following: Before and after school tutorial and Saturday Academies. - Evening Academy (ESSER III) All eight comprehensive high schools will offer extended day learning opportunities for students to address learning loss and recover credits. Certified teachers will be available to provide

instruction to students and Edmentum will be utilized to assist students with recovering credits. A counselor or Social Worker will also be available to meet the social and emotional needs of students. - Interventions Time during the school day (ESSER III) All K-12 schools provide instruction during the school day to address learning loss. Each school will utilize evidence-based curriculum resources that were referenced above. - Science & Social Studies Curriculum Materials (ESSER III) The most critical evidence based strategy that a school system can employ is to provide high quality consistent curriculum and learning resources, as the basis of its core instructional program. In the recent history of this school system, those kinds of resources have not been provided in the areas of science and social studies. The evidence is clear that there has been a precipitous decline in performance in those areas as a result. That decline continued and even escalated as a result of the Covid -19 impacts on instructional programs. This project would allow our school system to continue with our recent efforts to provide high quality core instructional curriculum and resources in Science and Social Studies, just as we have with Math and Reading over the last three years. - ACT Prep (ESSER III) The ACT is made up of four sections: English, reading, math, and science. With the disruption of educational services due to COVID, there are student learning gaps in these areas that require a systematic, evidenced based approach to address and ensure that students have numerous post-secondary opportunities available through their ACT performance. The rubric that is designed to select an ACT Prep program, will include the criteria of an evidence based approach to meet student needs. JCPS Summer Learning 2021 Plan Proposal was presented to the board on 4/13/2021. -A summer program is imperative to recover learning loss due to the impact of Covid-19 on our community. In order to meet the needs of our diverse population and help students be prepared for the next academic year, instructional support will be provided to targeted students during the summer of 2021, 2022, 2023 and 2024. (ESSER II & III) Multiple data sources will be used to identify eligible students. Data Points include: Students with MTSS Tier 2 and Tier 3 Plans in place, Students below MAP grade level benchmarks, Students at risk of academic failure, Students who are not proficient on the End of Grade/End of Course Assessment, Students who need to recover credits to meet graduation requirements, Teacher recommendation.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Parent Liaison/ Interpreter to ensure all communication is well established with our Spanish speaking families. The Liaison provides support to our families not only by translating the information but also providing webinars with specific training to ensure safety and connection with resources as needed. The Liaison will support our community with guidance, considerations and recommendations ensuring safe and successful learning environment to ALL students as well as the opportunity to provide feedback. A major focus in the search for resources is the availability of these resources to be delivered in a digital/remote/virtual environment. Having this as an option would ensure that students and families can have unfettered access to the provided resources even in the event of their inability to physically attend school due to any number of circumstances. Virtual Academy - some families may not be comfortable with in-

person instruction and some have had success with Virtual Academy. JCPS is providing a Virtual Academy to accommodate families that may not be comfortable with in-person instruction

* (D) Tracking student attendance and improving student engagement in distance education;

School social worker position/hours as well as additional student advocate hours were added with GEER funds to help increase attendance and engagement. In addition, school nurse and school counselors positions/hours were incorporated to the GEER funds to specifically address health and crisis needs of students due to COVID19 hardships. JCPS developed the Quarantine Learning Provision Plan to provide students that are quarantined the opportunity to receive quality instruction: - Student (s) placed in quarantine - the teacher will live stream the class and will update their Learning Management System with daily assignments and activities; - Full classroom placed in quarantine - the teacher will set up a Google Meet meeting room for virtual instruction; - Teacher placed in quarantine - Students attend class with a substitute teacher or class monitor. The regular classroom teacher will teach the class virtually. Quarantined students access the Google Meet using their device at home; - Full school placed in quarantine - the school will switch to virtual instruction.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

JCPS will monitor student progress across the learning continuum utilizing summative and formative assessment measures. JCPS has implemented a district wide assessment program that will provide the district with the resource for this very process. In fact we will be in a position to know how students are doing across groups and over time and compare that performance to various pre-pandemic measures. Universal screening data is used in our classrooms to support teaching and learning. NWEA's MAP Growth assessments are administered 3 times a year in Reading and Math. Teachers are able to identify areas of need and success, in addition to having immediate access to the learning standards and what students are ready to learn now. The MAP system documents student growth and projections for achievement on NC End of Grade tests. A consistent process for Interim Assessment will be implemented during the 2021-2022 school year. Johnston County Public Schools will utilize CASE assessments, aligned to local pacing and end of year State assessments. Results for these assessments will allow personnel to evaluate the mastery of grade level objectives and projections for achievement on state EOG/EOC assessments. Monitor the attendance of supplementary services MAP Benchmark Data - monitor progress quarterly Monitor end of school year State Assessments Data (EOGs, EOCs, ACCESS, etc) Panorama - Survey and Student Success (SEL, Progress Monitoring)

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ○ No		October 2021-July 2022		$ 500,000.00

		- Children ages 3 to 5 have also lost important learning opportunities over the last year. To expand the program based on the JCPS need to accommodate students for Pre-K while preventing the spread of the disease, JCPS will purchase 5 mobile units to accommodate our PreK students (budget code - 3 6570-181-522)		Students will be provided with beginning, middle, and end of year assessments through Teaching Strategies that will allow for the teachers and other personnel to identify and monitor progress and adjust teaching to meet students' individual needs. - Increase the number of students with access to early education / intervention allowing students and parents to be better equipped for their K-5 education.	
	* ⦿ Yes ○ No		September 2021 - September 2024		$ 2,200,000.00

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.		JCPS continues to evaluate the air quality and prepare our buildings with improved filtration systems and air quality in reduction and prevention of spreading the virus. HVAC Upgrades contract - 3-6570-181-523 ($750,000) HVAC Maintenance - repair parts, materials and labor - 3-6580-181-422 - ($450,000) Additional custodial contracted Services needed to maintain school facilities sanitized due to the shortage of staff and the additional duties for sanitizing and keeping buildings cleaned to prevent the spread of the disease ($1,000,000)		By improving and monitoring air quality JCPS will have better air quality system and healthier environment to our students. Cleaned and sanitized buildings with better air quality to prevent the spread of the disease.	
		Following the recommendations			$ 471,112.80

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ⦿ Yes ◯ No	recommendations from the Johnston County Public Health Department, the Centers for Disease Control (CDC) and the StrongSchoolsNC Public Health Toolkit, the Johnston County Public Schools developed the Back-to-School Protocols in Johnston County Public Schools plan to start the 2021-2022 school year. - Administrator to manage safety and COVID response as well as one classified employee to help with contact tracing and delivering of supplies (PPE, etc). Both will be serving as liaison between JCPS and Health Department.	July 2021-December 2021	The purpose of this plan was to support our community with guidance, considerations, recommendations and best practices in how to reopen our schools while ensuring a safe and successful 2020-2021 school year. Our Back to School Opening Plan is posted on our website along with the COVID dashboard. All stakeholders have the opportunity to provide feedback. The dashboard is updated daily and the plan will be modified as needed. - Better response and collaboration among agencies.	

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ○ No	- Provide additional curriculum specialists/coaches to support teachers in implementing evidence-based strategies for at-risk students.	September 2021 - June 2024	JCPS will monitor student progress across the learning continuum utilizing summative and formative assessment measures. Monitor the attendance of student and staff and continue to provide additional resources as needed MAP Benchmark Data - monitor progress quarterly Monitor end of school year State Assessments Data (EOGs, EOCs, ACCESS, etc) Panorama - Survey and Student Success (SEL, Progress Monitoring)	$ 5,311,187.50
		Improving our contact tracing with S2 software and			$ 4,465,000.00

| IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts. | * ◉ Yes ○ No | cloud cameras to determine the path of individuals that may come into contact with one another in the hallways throughout the day. Securing substitutes to cover the high number of teacher absences and vacancies during this pandemic has been an enormous challenge. JCPS Board approved a plan to encourage our current substitutes to become more active by accepting a higher number of sub opportunities each month. Also, our hope is that the plan will attract a greater number of quality individuals in our communities to apply to become substitute teachers. Lastly, the plan will | September 2021 - September 2024 | Improve our ability to contact trace and accurately communicate this information with our stakeholder Prevent the spread of COVID-19 Provide support to schools and students while staff is in quarantine.(see in learning loss - session B) | |

		the plan will provide additional compensation to our current teacher assistants who are being asked to serve as substitutes for teaching absences and vacancies on a regular basis. This plan does not apply to teacher assistants who may be asked by their principal to serve in the absence of another teacher assistant. For example, if the principal asks a first grade teacher assistant to serve as a TA in an EC class for a day, the stipend will not be offered since the individual is still performing TA duties.			

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$ 0.00
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	-PPE,filters, hand held thermometers, hand sanitation, face masks, etc. to maintain a safe and healthy environment and prevent the spreading of COVID.	September 2021 - September 2024	- Monitor the number of COVID positive and quarantines. The JCPS dashboard is updated daily and the plan will be modified as needed.	$ 600,000.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ⦿ Yes ◯ No	Provide high quality consistent curriculum and learning resources, as the basis of its core instructional program; ensuring ALL students have access to high-quality curricula, technology devices, and reliable internet; Expenditures reflected on Education Technology	September 2021 - September 2024	Inventory of devices. - Collect information from schools based on students' needs. - Schools are to request devices to ensure every child has a device in good working conditions.	$ 0.00
	* ⦿ Yes ◯ No		September 2021 - September 2024	- Inventory of devices. - Collect information from schools based on students' needs. - Schools are to request devices to ensure every child has a device in good working conditions.	$ 9,212,000.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		- Purchasing educational Technology (including hardware, software, and connectivity) Provide high quality consistent curriculum and learning resources, as the basis of its core instructional program; ensuring ALL students have access to high-quality curricula, technology devices, and reliable internet.			
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◉ Yes ○ No	A large barrier of care during the pandemic for youth is that fewer mental health screenings are occurring due to school closures and delayed pediatric care. Another challenge presented during the pandemic is the possible lack of	September 2021 - September 2024		$ 250,000.00

		the possible lack of access to internet or technology that limited telehealth access to healthcare providers and mental health services. The JCPS goal for the School-Based Mental Health Program is to remove barriers that might be present for students to access mental health services. Adequately funding students in our community who are under insured or not insured would remove one of the most detrimental barriers to accessing services.		Success of mental health treatment will be monitored through ongoing sessions with partnered clinicians. Each student that is referred to the program and has parent/guardian consent receives a clinical assessment that results in a therapeutic plan. This therapeutic plan, managed by the partnering agency, guides each student's need for sessions. When therapeutic goals are met there is a clinical process in place to decrease the intensity and frequency of services. Youth who are mentally well	

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ⦿ Yes ◯ No	A summer program is imperative to recover learning loss due to the impact of Covid-19 on our community. In order to meet the needs of our diverse population and help students be prepared for the next academic year, instructional support will be provided to targeted students during the summer of 2022, 2023 and 2024. Teachers, TAs, bus drivers, office staff, custodians are also included in JCPS budget.	Summer of 2023 and 2024	Multiple data sources will be used to identify eligible students. Measuring Progress: Grades K-8 EOG Assessments - EOG Math (Grades 3-8), EOG Science (Grades 5 and 8), Math I (Middle School), Read to Achieve Reading Assessment (Grade 3), NWEA MAP Assessment High School After the student has acquired the skills necessary to "recover" the course. EOC Assessments will be made available for any student that did not successfully complete the assessment during the Fall or Spring Window	$ 17,161,354.70

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ◯ No	ESSER/ Cares Act Administrator to serve as the ESSER / Cares Act liaison between Finance and all schools and departments as well as to ensure that all funds are spent in the most effective way to achieve the maximum amount of student academic growth. Parent Liaison/ Interpreter to ensure all communication is well established with our Spanish speaking families	September 2021 - September 2024	- External and Internal audits and reports. Maintain compliance and effective use of all ESSER funds - The Liaison will support our community with guidance, considerations and recommendations ensuring safe and successful learning environment to ALL students as well as the opportunity to provide feedback.	$ 253,000.00
				Total ESSER III Allotment	$ 40,423,655.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Johnston County Public Schools (510) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

GAN Information

Johnston County Public Schools (510) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Lee County Schools (530) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

To determine our most important educational needs due to the disruption in learning caused by COVID-19, the district attained feedback from various stakeholders that included the following: - Parents - Teachers - School administrators - Crisis Team o Superintendent o Curriculum & Instruction ? Exceptional Children ? English Learners ? Academically Gifted ? Career and Technical Education ? Testing and Accountability o Human Resources o Finance o Student Services o Lead Nurse o Technology o Public Information o Child & Nutrition o Transportation o Facilities and Maintenance Parents provided qualitative data to schools and the district through open ended survey questions throughout the last few months regarding student learning and their concerns. Some common themes that emerged included the following: - The need for social interaction - The concern of learning loss due to COVID-19 - Importance of face-to-face instruction - The desire to remain in virtual learning Teachers and school administrators provided quantitative data to help the district determine the number of students at risk of academic failure for the 2020-2021 school year. The information provided by teachers and school administrators outlined the following: Number of students at risk of academic failure and are not successfully progressing toward grade level promotion: - Kindergarten: 88 - 1st grade: 82 - 2nd grade: 176 - 3rd grade: 248 - 4th grade: 199 - 5th grade: 268 - 6th grade: 275 - 7th grade: 386 - 8th grade: 325 - 9th grade: 234 - 10th grade: 238 - 11th grade: 173 - 12th grade: 103 More specifically, teachers and school administrators shared that continued progress in the areas of reading, math and science were critical for the future development and success of students. NC Check-In data supported this claim at the elementary level, producing the following results represented in terms of percentage of questions correct. 3rd Grade

Math 4th Grade Math 5th Grade Math BTB 36.7 51.4 51.0 BW 36.8 44.5 41.2 DR 36.4 44.3 47.3 GW 48.8 52.6 42.3 JGE 47.5 49.8 53.1 JRI 43.8 50.3 45.6 TW 51.6 51.0 50.3 WBW 24.9 42.4 34.4 3rd Grade Reading 4th Grade Reading 5th Grade Reading BTB 47.8 58.8 70.8 BW 47.6 50.3 62.7 DR 40.6 52.9 60.1 GW 56.7 56.2 58.9 JGE 52.7 53.2 64.3 JRI 46.9 56.4 68.1 TW 52.2 62.3 69.8 WBW 41.5 44.9 57.3 5th Grade Science BTB 56.9 BW 44.7 DR 50.0 GW 45.2 JGE 46.9 JRI 51.2 TW 59.9 WBW 38.7 Ongoing discussions with members of our district Crisis Team resulted in the following needs that include but are not limited to: - The need for targeted interventions for students who are deemed at-risk and/or show signs of learning loss - The need for additional support for EC, EL and AIG students to address learning gaps, learning loss and enrichment - The need for additional nurses, school counselors and social workers to support students, teachers and parents - The need for updated facilities to support a safe environment for students and staff - The need for more high-quality educators to help reduce class size to allow for proper social distancing Our district plans to assess and address student learning gaps by: - Identifying K-12 students at-risk of promotion or grade level standards based on teacher input, data and performance - Offering an intense summer learning program that offers 150 hours and/or 30 days of targeted interventions, remediation and enrichment due to learning loss from COVID - Utilizing program assessments provided by the State Board of Education to assess student progress - Offering after-school remediation and/or enrichment during the 2021-2022 and 2022-2023 school years to continue supporting student learning loss and assess student progress due to learning loss from COVID - Supporting teachers with updated curriculum materials, along with high quality professional development in the areas of reading and math in order to equip teachers with the tools needed to address learning loss due to COVID as well as the reduction of professional development due to COVID - Recruiting, retaining and developing all staff members to ensure students have access to high quality instructors to allow for increased physical distancing because of COVID - Continuously improve, update and repair school facilities to reduce the risk of virus transmission in order to support students and staff health needs due to COVID

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Data included in the needs assessment above clearly indicate that students have suffered learning loss due to COVID related school closures and/or remote instruction. The number of at-risk students within the district increased in elementary, middle and high schools. Most significantly, data from grades 5-8 indicate a more than 20% increase in the number of at-risk students from the previous school year, attributed to COVID. Clear, targeted interventions need to be implemented within the district through a robust summer program as well as before and after school remediation and enrichment during the 2021-2022 school year in order to mitigate the effects of COVID. NC Check-In data in reading and math in grades 3-5 as well as science in grade 5 also indicate a decline in student performance during the 2020-2021 school year due to COVID as compared to previous years. Remediation and/or enrichment in the areas of reading, math and science need to be a focus for all students, especially grades 3-12. In order for schools to best mitigate the impacts of COVID-19 and

improve upon the performance data previously mentioned, schools must work to recruit, train and develop teachers, as well as provide updated curriculum materials that supports teachers while working with students who have suffered from learning loss due to COVID. Data in grades K-12 indicate that a larger number of students are at risk and additional supports must be put into place to support remediation and/or enrichment. In order for any of this to happen, districts must be able to provide a safe learning environment for students and staff by improving, updating and repairing school facilities to reduce the risk of COVID transmission within the learning environment.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 2,486,703.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, underline detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

The district will use a variety of assessments to assess student's academy progress. Those assessment include but are not limited to: :i-Ready -North Carolina End of Grade tests -North Carolina End of Course tests -North Caroline Check-Ins -Pre-ACT testing -ACT testing -WorkKeys testing -Locally made benchmarks Data from each of these assessments will be analyzed by teachers, principals and district office personnel to identify both strengths and weaknesses. This data will be used to provide remediation and/or enrichment opportunities for students, ensuring that comprehension is on grade-level and aligned to NC teaching standards. Teachers will be provided additional professional development to ensure that our local assessments are aligned and the results allow us to provide accurate feedback. In order to do this effectively, we will do the following: 1. Deconstruct the standards - breaking down standards into various learning targets and aligning those learning targets to varying levels of achievement 2. Align assessment items and levels of thinking - the assessment must align with the learning targets derived from the standards 3. Develop valid and reliable assessments - ensuring that assessments are measuring what it is supposed to be measuring and understanding that just because an assessment is reliable does not mean it is valid 4. Take items to the next level by differentiating - adjust as needed for varying learning styles, including increasing rigor as needed for advanced students and providing scaffolding for those who need more assistance Finally, the district will continue to promote dialogue that is rich in data. Data cannot be an afterthought and must be a part of the planning process in order to accurately assess the academic progress of all students.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

The district will work to implement evidence-based activities and practices in order to best meet the comprehensive needs of students through utilizing the following steps: -Determine student, environmental and teacher characteristics -Search and find the best evidence based activities that fit our needs -Identify the essential components of the evidence based activity -Implement with effective instruction -Monitor with fidelity -Progress monitor student outcomes -Adapt, as needed -Make instructional decisions based on progress monitoring Using evidence-based activities will allow the district to better gauge student understanding and ability of all students. Using evidence-based activities also increased the likelihood of being responsive to student's learning needs and overall, less time will be wasted on trying to find a practice that works because data and research are used to reinforce decisions.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

The district will continue to communicate with parents on a routine basis to ensure everyone is effectively supporting students. During the pandemic, the district added various communication tools to improve communication including an add-on feature within PowerSchool that allows for progress reports and report cards to be sent directly to parent email addresses. Additionally, the district purchased a subscription to Peachjar which is a digital flyer management system that delivers important school and community resources directly to parent and student email addresses. The district will also continue to update its webpage dedicated to remote learning which includes tips on how parents can help their children manage distance learning. The link to our current site is https://www.lee.k12.nc.us/domain/3832 and https://sites.google.com/lee.k12.nc.us/summer-enrichment/home

* (D) Tracking student attendance and improving student engagement in distance education;

PowerSchool will be used to track student attendance throughout the district. Any concerns will be communicated with parents/guardians through teachers, counselors, principals and social workers. As needed, the district will provide support to students and parents to ensure regular attendance in school is a priority. Attendance and engagement will be a district-wide approach with collaboration from various departments including Student Services, EL, EC, AIG, district at-risk coordinator and mental health specialists. The district will also collaborate with our partners within the community such as religious organizations, civic groups and local charities to ensure we are reaching all students and families to ensure engagement.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Student data will be tracked at the school and district level to identify students who need remediation and/or enrichment. Data will be tracked for the next several years and compared to pre-pandemic data to gauge the level of learning loss and/or gain that may have occurred during school closures and/or remote instruction. EVAAS projection data will be analyzed carefully to ensure students are making progress as previous data suggests and targeted interventions will be put

in place for those students not performing as projected. The district and schools will work together to support teachers, students and parents on how to best support students and families who may have experience any learning loss.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	-Maximize space at each location to ensure proper social distancing can take place -Replace and/or repair cafeteria tables to allow for additional seating/spacing due to social distancing requirements	July 2021- September 2024	-student attendance - student promotion - credits earned (high schools) -failure reports -assessment data	$ 880,756.36

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ◉ No				$
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ◉ Yes ○ No	-Hire additional nurses to improve future responses to COVID -Additional CPR certification equipment due to COVID requirements	July 2021- September 2024	-nurse-to-student ratio -number of students and staff certified in CPR	$ 251,644.68

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ◯ No	-Additional curriculum materials to address students with special needs - Additional personnel, as needed to meet the needs of class-size requirements due to COVID	July 2021-September 2024	-pass/fail rates - increased capacity while adhering to social distancing requirements	$ 2,264,802.08
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ⦿ Yes ◯ No	-Additional personnel, as needed	July 2021-September 2024	teacher-to-student ratio	$ 251,644.68
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ⦿ Yes ◯ No	-Training for nurses and other personnel	July 2021-September 2024	-training/PD records	$ 251,644.68

11/10/2021 2:03:57 PM

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	-PPE supplies - Hand sanitizer - Other equipment, as needed to reduce the spread of COVID	July 2021-September 2024	-number of outbreaks/quarantines	$ 1,258,223.38
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ◉ Yes ○ No	-Hotspots for students/staff -Staff for virtual learning - Learning Management System for virtual learning	July 2021-September 2024	-number of students with at-home internet connection -number of students attending school virtually	$ 1,509,868.05

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ⦿ Yes ○ No	-Repair and replace laptops, as needed - Upgrade classroom technology to meet the needs of remote learning	July 2021- September 2024	-number of laptops available for student use -number of laptops available for staff use -number of classroom sets of laptops available for use	$ 1,258,223.38
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ○ No	-Additional mental health personnel - Curriculum supports/resources	July 2021- September 2024	-number of mental health referrals	$ 629,111.69

| SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care. | * ◉ Yes ○ No | - Provide a robust summer school program, targeted towards at-risk students but open to all students to focus on learning loss, attendance and enrichment. | July 2021-September 2024 | -student attendance - student promotion - credits earned (high schools) -failure reports -assessment data | $ 629,111.69 |
| | * ◉ Yes ○ No | -Incentive pay for personnel involved with summer school -Additional programs/curriculum needs that occur based on the need for remote instruction due to COVID | July 2021-September 2024 | -number of staff participating in summer school - student attendance - student promotion - credits earned (high schools) -failure reports -assessment data | $ 761,780.19 |

11/10/2021 2:03:57 PM

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.					
			Total ESSER III Allotment	$	9,946,810.86

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Lee County Schools (530) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

GAN Information

Lee County Schools (530) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Lincoln County Schools (550) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Plans for ESSER III funds included but were not limited to several small group face to face meetings and larger group email communications among district staff and other school leaders. Meetings included members form Instructional Services, Leadership team, , Maintenance staff and ITS Staff. Meeting dates were March 29,March 31, April 21, April 27, July 1 and July 8, 2021. Emails were sent to all stakeholders on April 5 and 8, 2021. The team gathered data from locally created COVID working conditions surveys and COVID response surveys from parents. This data along with changing COVID requirements, increased need for sanitation and air quality, one to one initiative and learning loss became the emphasis while determining the pan to use ESSER III Funds. Lincoln County Schools will address student learning gaps by providing Math, ELA and Science support at the secondary level, professional development at all levels that includes training in learning loss, increased use of technology in the classroom and access to remote learning platforms, personalized learning plans, teacher assistants at the elementary level to address MTSS and SEL, guidance counselors at the high school level, remote learning support, as well as clean buildings and air quality to help keep students safe and ready to learn. Funds will be used to provide supplemental instructional supplies and resources directly to students to support academic learning loss. Instructional supplies will include necessary items for content remediation and enrichment activities to support the core curriculum provided to students. This includes hands-on

activities, individual or small group instructional resources, and personalized resources that support specific areas of learning loss identified for students. Additional Psychologists and Psychologist Interns are needed to assist school administrators, counselors, and teachers in addressing specific areas of learning loss and mental health concerns. Specific diagnostic tools and data are analyzed to identify areas of concern. Such analysis requires professional support staff trained in this area. Such support personnel will better prepare our schools to provide meaningful support to students and families as the address the specific needs of their child both at home and in the classroom. Instructional resources and curriculum tools will be supported by the purchase of additional computer software programs and digital subscriptions to supplemental content. Software programs that provide opportunities for personalized learning and diagnostic assessment of learning are necessary to provide appropriate interventions that address learning loss. Software that is used to specifically assist in the identification of content standards or skills that need further intervention is especially beneficial. Digital subscriptions that provide increased access to instructional content and learning tools will provide opportunities for students to more readily access instruction using a digital format. Subscriptions will provide teacher with additional tools for the delivery of content in the development of lessons. A robust learning management system is necessary for students to access instruction that best meets their needs. Additional individual student licenses to Canvas will ensure that every student has access to the content using a district-wide learning management system. Additional programs, like summer school and tutoring, are necessary to address academic learning loss. Many student rely on bus transportation to access these services. Access to summer programming will be essential in addressing learning loss. School bus transportation will maximize the opportunities available for student to attend summer school other after school programs.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

In the parent survey, parents asked for more parent support for Canvas, Google Classroom and other online resources and who to contact with connectivity issues. Parents believe that schools and classrooms are clean and routinely sanitized and wish for them to be continue to be safe for their students including more efficient and filtered air systems and air circulation. They also requested parent involvement virtually. Learning gaps will be addressed by adding an additional AIG teacher to address higher level students, adding an additional EL teacher to address ESL learning gaps, as well as two additional Assistant Principal/Instructional Facilitators to address learning loss needs at our smaller schools. High School teacher support will be utilized to provide additional content specific information, instructional strategies and materials, and data analysis techniques to enhance student performance and personalized instruction. These individuals will be leaders within their department to provide support measures to their content colleagues. Content and coaching professional development will be provided to ensure fidelity and effectiveness in these teacher

leader roles. Professional Development - Will be provided to all staff in order to effectively use the technology and software/digital subscriptions, etc. for the benefit to students. Instructional Supplies - Supplemental instructional supplies and resources will directly support student academic learning loss. Instructional supplies will include items for content remediation and enrichment activities to support the core curriculum provided to students. Psychologist Interns/School Psychologists - Additional Psychologists and Psychologist Interns are needed to assist school administrators, counselors, and teachers in addressing specific areas of learning loss and mental health concerns. Specific diagnostic tools and data are analyzed to identify areas of concern. Such analysis requires professional support staff trained in this area. Such support personnel will better prepare our schools to provide meaningful support to students and families as the address the specific needs of their child both at home and in the classroom. Maintenance staff identified several areas in the district that were sewer related to address the elimination of the possibility of Covid Spread. This department also identified several schools in need of windows that open for increased air flow as well as HVAC systems that were more efficient in filtering air. One additional ongoing expense to provide to schools are supplies to clean and sanitize more often. When looking at Lincoln County and internet access, it became evident that many students do not have internet access. Hotspots will be purchased to address this issue. Additionally, each school will have wireless access in parking lots to make connectivity available for online school work. Remote learning support should be offered for after hour program and student access support. LCS has been on the leading edge of providing technology devices and infrastructure for students and staff. However, with Covid, we recognized the need to increase devices, software, online learning platforms as well as additional hardware for online classrooms. The SEL component has been magnified because of Covid. LCS has a need for two additional HS counselors, SEL TA's and a Lead counselor to offer additional support for mental health and social-emotional learning.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 3,106,000.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

The NCDPI will provide LCS with a competency based assessment program that may be used for students in grades K-8 at the discretion of the district. Training and support for the program may not be readily available prior to implementation. LCS will utilize i-Ready as the competency based assessment program in grades K-8. Diagnostic data will be gathered at the beginning and end of the program. Students in grades 9-12 may be assessed using a locally identified assessment process and/or current policy for credit recovery. Grade suppression in grades 9-12 may be used if allowable within current policy and the principal deems the student has appropriately completed the entirety of the course standards within the summer programs window of operations. The state assessment, end-of-course assessment, will be used to assess proficiency and award credit when available. Otherwise, locally created assessments will be used to award credit. (SEE DESCRIPTIONS in Addressing Unique Needs, Educational Technology, Mental Health Services, and Summer Learning in chart below)

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

School administrators with input from the teacher of record for each student will identify and prioritize at risk students. An at risk student is defined as a student who is at risk of academic failure and who is not successfully progressing toward grade promotion and graduation. Identification of an at-risk student shall have already occurred during the regular school year based upon grades, observations, diagnostic and formative assessments, and/or state assessments. Identification of an at risk student is not contingent upon results of an end-of-grade or end-of-course test. Other students not identified as at risk may also participate in the summer program within space available. The purpose of the program is to respond to the impacts of COVID-19 by providing in-person instruction and additional academic enrichment to address learning loss experienced by students during the 2020-2021 school year. Students identified as EC, ESL, 504, or AIG are not required to be invited to summer programs if the student is not identified as at risk. However, LCS may provide priority to these students if space is available. Additional services for these students may be provided outside the identified summer program hours. Transportation will be provided for these students if identified on the IEP or if available for students that do not have an IEP. Instructional hours provided to special populations will depend upon the identified need for extended school year or compensatory services and/or the availability of staff. Additional services and expectations for Students with Disabilities will follow guidance provided by the Exceptional Children's Division at NCDPI. (SEE DESCRIPTIONS in Addressing Unique Needs, Educational Technology, Mental Health Services, and Summer Learning in chart below)

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Funding will be used to pay for Technology Support and/or Homework Support after school hours using a help desk format. Parents, students, child care providers, etc. will be able to contact a help desk to receive after school hours assistance when completing school assigned tasks in a virtual environment, absent from in-person learning, or working on homework. Instructional supplies used to support curriculum materials will also be purchased for parents and

students to use as a reference for students when learning takes place in a virtual classroom (brochures, reference books, etc.).(SEE DESCRIPTIONS in Addressing Unique Needs, Educational Technology, Mental Health Services, and Summer Learning in chart below)

* (D) Tracking student attendance and improving student engagement in distance education;

Attendance is tracked and will be monitored by administration and school social workers. It will also be tracked for students that attend by remote instruction. (SEE DESCRIPTIONS in Addressing Unique Needs, Educational Technology, Mental Health Services, and Summer Learning in chart below)

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Academic progress will be evaluated and compared to pre/post pandemic progress using a Competency Based Assessment (i-Ready) in grades K-8 and local common assessments for each course in grades 9-12. Additional nationalized benchmark data (Pre ACT and ACT) scores can also be used at the high school level to monitor continued academic progress. Other alternate data sources (attendance data, SEL data, student survey data, etc.) will be used to monitor the overall progress and well-being of children in all grades. (SEE DESCRIPTIONS in Addressing Unique Needs, Educational Technology, Mental Health Services, and Summer Learning in chart below)

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ◉ Yes ○ No	Dehumidification - Continue to address issues in schools that cause a environmental health hazard to students	SY 22-23, SY 23-24	School environment will be safe for students and staff.	$ 250,000.00
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ○ No	Replacement of older HVAC systems to improve air quality. Replacement of inoperable windows in various school sites for improved air quality	SY 22-23, and 23-24	Improved air quality in various school sites.	$ 2,700,000.00

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◉ Yes ○ No		SY 23-24		$ 190,000.00

| | | Psychologist Interns/School Psychologists - Additional Psychologists and Psychologist Interns are needed to assist school administrators, counselors, and teachers in addressing specific areas of learning loss and mental health concerns. Specific diagnostic tools and data are analyzed to identify areas of concern. Such analysis requires professional support staff trained in this area. Such support personnel will better prepare our schools to provide meaningful support to students and families as the address the specific needs of their child both at home and in the classroom. | | Schools will successfully improve academic achievement, promote positive behavior and mental health, support diverse learners, create safe, positive school climates, strengthen family-school partnerships, and improve school-wide assessment and accountability. | |

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$

11/9/2021 3:23:16 PM

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ○ No	Planning and coordination to ensure educational services can continue. Professional Development to aid in continuation of services	SY 22-23, and 23-24	Teachers will be in place to aid instruction for guidance and individuals with disabilities Professional development provided to teachers.	$ 504,356.00
	* ○ Yes ○ No	Software/Digital Subscriptions - Digital subscriptions that provide increased access to instructional content and learning tools will provide opportunities for students to more readily access instruction using a digital format. Subscriptions will provide teacher with additional tools for the delivery of content in the development of lessons.	SY 22-23, and 23-24	Instructional support systems must also meet these requirements to aid in instruction and promote data driven decisions in the classroom and our schools	$ 576,958.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		Canvas-A robust learning management system is necessary for students to access instruction that best meets their needs. Additional individual student licenses to Canvas will ensure that every student has access to the content using a district-wide learning management system. Smart TV's - The teacher presentation system, is one of the most vital technology resources that we provide to our teachers. This system is used in daily instruction to share and relate content to students, both in-person and remotely. As part of our pandemic response these are necessary additions Operational Software - Additional costs related to One-to-One initiative			

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ○ No	HS Guidance Counselors - These two positions add 1/2 counselor at each of our 4 high schools to work with students in Mental Health and SEL MTSS/SEL Teacher Assistants - Elementary - These individuals are working with our highest need SEL students and those in Tier III in MTSS. Lead counselor position for three years to manage mental health and social emotional activities	SY 22-23, and 23-24	Schools will successfully improve academic achievement, promote positive behavior and mental health, support diverse learners and create safe, positive school climates, HS students have greater access to school counseling services. Elementary students show improvement in the MTSS process and gain support through SEL services	$ 1,385,000.00
		Additional programs, like summer school and tutoring, are necessary to address academic	SY 22-23, and 23-24		$ 2,411,994.46

| SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care. | * ⦿ Yes ○ No | learning loss. Many students rely on bus transportation to access these services. Access to summer programming will be essential in addressing learning loss. School bus transportation will maximize the opportunities available for student to attend summer school other after school programs. LCS' summer program will provide in-person instruction to students in grades K-12 five days per week. Specifically the plan addresses learning loss for students in grades K-3, 4-5, 6-8, and 9-12. The plan follows all guidelines specified within the StrongSchoolNC Public Health Toolkit as issued on March 24, 2021. The plan specifically outlines the number of hours of instruction provided for each grade span and/or subject area. Instructional hours do not include time identified for | | Academic progress will be evaluated and compared to pre/post pandemic progress using a Competency Based Assessment (i-Ready) in grades K-8 and local common assessments for each course in grades 9-12. Additional nationalized benchmark data (Pre ACT and ACT) scores can also be used at the high school level to monitor continued academic progress. | |

		include time identified for meal service, transitions/transportation, and physical activity			
OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ◯ No	Unbudgeted Reserves ($65,532.22) Indirect Costs ($211,202.00)	SY 22-23, and 23-24	Reserves Indirect Costs Learning loss not captured in other areas	$ 277,234.22
				Total ESSER III Allotment	$ 8,295,542.68

Part E: Assurances

Check **all**assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

* ✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
* ✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
* ✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
* ✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
* ✔	Funds shall not be transferred into or out of this allotment category.
* ✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Lincoln County Schools (550) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

GAN Information

Lincoln County Schools (550) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Madison County Schools (570) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Madison County School's needs assessment and plan was generated by multiple stakeholders that include: Board of Education, Superintendent, administrators, principals, teachers, parents, and other stakeholders such as Madison County Health Department Director, in an effort to determine our most important education needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19. From the onset of the pandemic, weekly meetings with multiple stakeholders were conducted (and still are) to keep the decisions being made directly related to real time data from our district. Madison County Schools established a K-5 and 6-12 team of administrators to guide the discussion, planning, preparation, and implementation regarding student learning. The educational needs gleaned from each team produced the following for our district. The K-5 Administrative Team used the following to collect data to reveal student learning gaps resulting from the disruption in the educational services for Brush Creek Elementary, Hot Springs Elementary, and Mars Hill Elementary: 1. K-2 Literacy Assessments 2. Skills based report card 3. Math Investigations Unit Assessments 4. Istation 5. Fundations Unit Assessments 6. LLI 7. SchoolNet 8. NC Check Ins 9. Case21 10. Aimsweb 11. BOG (Beginning of Grade Reading Test) 12. Pathway to Progress The 6-12 Administrative Team used the following to collect data to reveal student learning gaps resulting

from the disruption in the educational services for Madison Middle School, Madison High School, and Madison Early College High School: Madison Middle School (Grades 6-8) has used the following: 1. NC Check-Ins in Reading, Math, and Science 2. Open-Up Math (Curriculum) Unit Assessments 3. SchoolNet Assessments in Reading, Math, and Science 4. Teacher Created Formative and Unit Assessments in Reading, Math, and Science 5. GreatLeaps Reading and Math probes 6. EasyCBM (Curriculum Based Measures assessment tool) Progress Monitoring Assessments 7. LLI (Leveled Literacy Intervention) Progress Monitoring Assessments for Reading Levels Madison High School and Madison Early College High School (Grades 9-12) used the following: 1. Benchmarks in English II, Biology, Math 1, and Math 3 (Teacher Made and/or Mastery Connect) 2. EOC Test Scores (when available) 3. At-Risk Data Collection Tool (MTSS) 4. Mentor/Mentee Program 5. Delta Math Assessments 6. SchoolNet Benchmarks 7. Attendance 8. Formative and Summative Assessments 9. Counselor and/or parent report of concerns School based data teams have been established which include: Principals, Assistant Principals, Teachers, Teacher Assistants, and other stakeholders to access student performance data. Students data is discussed within teams to determine gaps and then placement. Intervention times have been incorporated into the academic day in which students received services based on gaps in performance level. For example: K-5 School Teams have established weekly groupings of students that receive face to face intervention instruction while at school in a smaller setting. These groups receive reading or math intervention based on the gap in performance level of the student. 6-8 School Teams have established weekly meetings that are content specific. Administrators, Teachers, and specialized staff dig into student performance data to place students in categories where they can receive additional support in the specific content area. 9-12 School Teams have established weekly meetings that are content specific. Administrators, Teachers, Counselors, Social Workers, and specialized staff discuss student performance data in which they establish referrals for student help in areas due to the gap seen directly related to the disruption in educational services due to COVID-19. MCS Administrative team expressed concern for our most vulnerable population of students whose consistent schedules were abruptly modified due to COVID-19. Additional EC staffing will help with academic needs and additional equipment will be purchased for the playground areas so that these students will have areas of inclusive play. These areas will have wheelchair access as well as problem solving opportunities and a place to build fine motor and gross motor skills. MCS Administrative team expressed the need for pre-k in the most rural area of our district that has not had access to pre-k since the closure due to COVID-19. Hot Springs Early Childhood Education Center has been established and a teacher and TA will be paid from ESSER funds to work with our 4 and 5 years olds in that area. MCS Administrative team has also seen a significant need for school based nurses to be stationed at each school building due to the response, prevention, and spread of COVID-19. MCS participated in the NC pilot antigen testing program this year. MCS Administrative team deemed it necessary to upgrade camera systems in our middle and high schools to enhance monitoring of students and protocols for COVID-19. This is the most cost effective way to have 1 person monitoring screens as students transition through hallways. Students can be seen in all areas of the school and not allowed to congregate which will help in preventing the spread of COVID-19 within our schools. MCS

Administrative team worked to find the most cost effective way to increase HVAC capacity in moving fresh air through our systems into our classrooms in response to COVID-19. Capital Needs Assessment showed that changes in the roofing system at MHS and MMS were needed to support the thermal conductivity (heat loss or heat gain) of the roof system. We do not want to make major HVAC changes to systems that are housed on a 50 year old roof.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

MCS gleaned data from our district needs assessment which brought us to the following conclusion on how to use the allowable ESSER III funds in response to COVID-19 and the learning loss felt by our students. MCS will add 5 curriculum interventionists to work hand in hand with students, teachers, and administrators to address learning loss due to COVID-19 in our elementary schools. Brush Creek Elementary School will have 2 interventionists, Hot Springs Elementary will have 1 interventionist, Mars Hill Elementary will have 2 interventionists. (based on student enrollment and need) MCS will add 2 curriculum interventionists to work hand in hand with students, teachers, and administrators to address learning loss due to COVID-19 at Madison Middle School. MCS will add an interventionist to work directly with students, teachers, and administrators to address learning loss due to COVID-19 at Madison High School and Madison Early College High School. MCS will strengthen a local program "EMYS" (Empowering Madison Youth to Succeed) by adding an additional tutoring position to the program. This position will add instructional hours in which tutors can work with students during the academic day to help with learning loss due to COVID-19. MCS will hire an additional Speech Language Pathologist to work with students that have increased deficits due to loss during COVID-19 shut down of schools. MCS will hire and additional EC teacher to address learning loss of students during COVID-19 remote learning requirements. MCS will hire an additional Nurse so that all campuses within our district will now have a full-time school nurse to address COVID-19 protocols and procedures as well as handle all other school nursing obligations. School nurses have been valuable this past year. MCS was part of the state's pilot antigen testing program. Our school nurses provided COVID tests, contact traced, as well as organized and work in vaccination clinics. They are critical in the ongoing response to COVID-19. MCS will purchase Kindergarten and Second grade "GEODES" to strengthen accessibility for leveled books available to students within classroom library sets. MCS purchased with ROTARY 10 first grade sets this school year. The addition of Kindergarten and Second grade will complete a consistent leveled reader program in grades k-3 to help with learning loss due to COVID-19 and last school year MCS will continue to provide digital programs to our students so that they can access material, teacher recorded lessons, and tutorials. These programs will also serve students that still choose to work virtual next school year. In response to COVID-19, MCS will hire an HVAC (heating, ventilation, air conditioning) specialist. This specialist

will address our HVAC system needs and oversee the improvements across our district. MCS will also purchase and install equipment in our buildings to enhance clean air flow in direct response to the prevention of spread of COVID-19. MCS conducted a capital needs assessment for 2020-2021 school year. In response to our capital needs assessment as well as response and prevention of COVID-19, our system will be replacing existing roofs at Madison High School and Madison Middle School. Both systems need replacement to enhance and increase quality air flow directly related to the response to COVID-19. MCS is striving to have all of our schools with the most up to date equipment to stop the spread of COVID-19 in regard to ventilation systems. Our school systems does not want to make major HVAC changes to systems that are housed on a 50 year old roof. Data will be gleaned by the monitoring of our HVAC system with the hiring of an additional HVAC systems specialist. To retain our certified and non-certified staff after working through a pandemic, MCS will provide supplements. Certified staff will receive a yearly supplement of $1,000 and non-certified will receive a yearly supplement of $500. MCS will monitor the growth of our most vulnerable population (EC) this school year. Due to the abrupt change to remote learning, this population of students had to endure tremendous scheduling issues that they are not accustomed to. With the additional playground equipment at schools, we will measure behavioral, emotional, and social increases or decreases in student behavior. We will also monitor problem solving skills from inclusive play by equipping playgrounds with wheelchair access to our students. Our goal is to help all students transition back into social well-being after being switched to remoted learning due to COVID-19 and the feeling of isolation that it brought to them. MCS will glean data from the upgrade of existing camera systems on the reduction of spread of COVID-19 by monitoring student transitions in all areas of our school. This is the most cost effective way to keep students from congregating in hallways or remote areas of our buildings. MCS will monitor the progress made by our 4 and 5 year olds in the Hot Springs Early Childhood Education Center. Our young students will receive instruction as well as social interaction daily. This will enhance readiness for the entry into our elementary schools. These students did not receive educational services this past year due to the closure of our facility in response to COVID-19.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 1,119,456.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities,

students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Kindergarten through Second Grade To accurately assess students' academic progress, in Kindergarten through Second Grade, Madison County Schools will administer the following assessments: Istation, AIMSWEB, PAST Assessment, a Phonological Awareness Screening assessment measuring phonological awareness Wilson Reading FUNdations Unit Assessments, Math Investigations Unit Assessments, NC Summative EOY Math Assessment, The above mentioned high quality assessments will be used to assist educators in meeting students' academic needs through differentiated instruction in the following ways: Report results to students, teachers, administrators, and parents through school based and district based data management systems Identify students in need of Tier 1, Tier 2, and Tier 3 intervention supports Teachers use assessment information to plan lessons for whole-class lessons within the classroom environment Teachers use assessment information to plan lessons for small, skill specific groups in literacy and math within the classroom environment Teachers use assessment information to plan lessons for individual students based on specific skill needs within the classroom environment School and teacher teams use assessment information to plan grade level / schoolwide intervention groups utilizing Reading and Math Interventionists, Special Education teachers, ESL teachers, and Title 1 support specialists Third Grade, Fourth Grade, and Fifth Grade To accurately assess students' academic progress, in Third through Fifth Grades, Madison County Schools will administer the following assessments: BOG3, Beginning of Grade 3 NC state assessment Reading Portfolio Passages, Grade Level Reading Passages and Comprehension Questions aligned to our NC state standards measuring: student understanding of grade level text and reading comprehension Istation, Wilson Reading FUNdations Unit Assessments, McLass/Dibels Math Investigations Unit Assessments, NC Check-Ins, state benchmark assessments given three times during the school year to measure student understanding of grade level concepts in reading, mathematics, and science NC EOG The above mentioned high quality assessments will be used to assist educators in meeting students' academic needs through differentiated instruction in the following ways: Report results to students, teachers, administrators, and parents through school based and district based data management systems Identify students in need of Tier 1, Tier 2, and Tier 3 intervention supports Teachers use assessment information to plan lessons for whole-class lessons within the classroom environment Teachers use assessment information to plan lessons for small, skill specific groups in literacy and math within the classroom environment Teachers use assessment information to plan lessons for individual students based on specific skill needs within the classroom environment School and teacher teams use assessment information to plan grade level / schoolwide intervention groups utilizing Reading and Math Interventionists, Special Education teachers, ESL teachers, and Title 1 support specialists Sixth, Seventh, and Eighth Grades To accurately assess students' academic progress,

in Sixth through Eighth Grades, Madison County Schools will administer the following assessments: EasyCBM, Curriculum Based Measures assessment tool used for progress monitoring literacy and mathematics skills LLI (Leveled Literacy Intervention), assessment tool used for progress monitoring reading levels Great Leaps Math Probes, assessment tool used for progress monitoring mathematics fact fluency OpenUp Mathematics Unit Assessments, assessments aligned to our math pacing guides given at the end of each unit of study measuring math concepts and applications SchoolNet Assessments, NC Check-Ins NC EOG The above mentioned high quality assessments will be used to assist educators in meeting students' academic needs through differentiated instruction in the following ways: Report results to students, teachers, administrators, and parents through school based and district based data management systems Identify students in need of Tier 1, Tier 2, and Tier 3 intervention supports Teachers use assessment information to plan lessons for whole-class lessons within the classroom environment Teachers use assessment information to plan lessons for small, skill specific groups in literacy, math, and science within the classroom environment Teachers use assessment information to plan lessons for individual students based on specific skill needs within the classroom environment School and teacher teams use assessment information to plan grade level / schoolwide intervention groups utilizing Reading and Math Interventionists, Special Education teachers, ESL teachers, and Title 1 support specialists School administration and teacher teams use assessment information to plan course tracks for students - advanced, honors, regular, inclusion, and intensive support Ninth - Twelfth Grades To accurately assess students' academic progress, in Ninth through Twelfth Grades, Madison County Schools will administer the following assessments: NC Check-Ins, state benchmark assessments given three times during the school year to measure student understanding of grade level concepts in reading, mathematics, and science NC EOG The above mentioned high quality assessments will be used to assist educators in meeting students' academic needs through differentiated instruction in the following ways: Report results to students, teachers, administrators, and parents through school based and district based data management systems Identify students in need of Tier 1, Tier 2, and Tier 3 intervention supports Teachers use assessment information to plan lessons for whole-class, small group, and individual lessons within the classroom environment School administration and teacher teams use assessment information to plan course tracks for students

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

When implementing evidence-based activities (EBA) there are two major factors that our PSU kept in consideration throughout this pandemic. Those factors include time allowed and progress monitoring. Time was a critical component, as our schedules had to be flexible and student-centered as we navigated Plan A, B, & C. As a district we remained in Plan B for the majority of the school year meaning our students were on a every other day rotation making it very challenging for our students to have exposure to EBA and adapt to the changes necessary to make progress. The disengagement of students due to virtual/remote learning and the unmotivated students who suffered loss of learning due to external factors mentioned above continue to be our top focus as we attempt to recover from

curriculum gaps and learning loss. Implementing EBA with fidelity will be crucial to our PSU's steps to recovering from this pandemic. The following EBA are implemented within our schools and have become part of our school culture. · Clear Lesson Goals · Modeling · Questioning to Check for Understanding · Peer to Peer Feedback · Summarize New Learning · Graphical Representation of Content · Feedback · Mastery Learning · Students Working Together · Challenge Based Learning/Project Based Learning · Teach Strategies, not just Content · Nurture Meta-Cognition (Think before and Reflect after)

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Madison County Schools plans to provide support to families on how they can effectively support their students in school by: Providing weekly newsletters with updates about what their child is learning and ways to support their learning. Parent-Teacher conferences in person and through Zoom. Monthly parent nights will allow families to gain support on ways to help their children at home. Madison County Schools plans to provide support to families on how they can support their children learning at home. The goal is to ensure that all students have access to all resources in order for every child to succeed in school. To support distance learning, Madison County School will... Provide a Home School Learning Program designed to follow State Standards. Calvert Education will be purchased for K-5 students whose families choose to learn from home. Edmentum Education will be purchased for 6-12 students whose families chose to learn from home. A Calvert/Edmentum Teacher will be hired to Support Families and students through daily lessons and grading. Tutors will support students when needed. Weekly parent meetings through Zoom will be available to answer questions. Low-Income Students-To Support low-income families, MCS will provide: Hot Spots Laptops Resources and materials needed to complete projects. Children with disabilities- For students with disabilities, MCS will: Follow all IEP's Modify and provide additional resources to students that follow IEP. Provide tutors and accommodations based on IEP needs. ELL-For ELL students, MCS will provide: ELL teachers will be available to support families working remotely. Information in families native language. Meetings with translators available.

* (D) Tracking student attendance and improving student engagement in distance education;

Learning loss can be most significant during and due to periods of remote learning. It is important to prevent, identify, and repair learning loss when possible. To prevent learning loss, expectation, communication and accountability create the braided rope that secure attendance and engagement for all individual students. Expectation starts at recognizing and addressing student needs. Survey to determine connectivity and accommodations needed to ensure student success. Students with disabilities and English Learners should be connected with EC teachers, EL teachers, and other related service providers in addition to the regular education teachers. Buses or mobile community classrooms can be offered for students experiencing hoomelessness, or minorities with fewer community resources. Children in foster care must be afforded the opportunity to connect regardless of home and situation. Updated documentation is important to establish the connection and provision of carrying case, or backpack would be helpful.

Recognition that any or each of these individual students should not be overwhelmed by the sheer amount of equipment, materials and/or quantity of expectations. Simple materials, concise rules and attainable goals are best. After offering resources and support personnel, the PSU must provide and convey clearly defined guidelines regarding distance learning attendance and engagement. These guidelines include: learning management platforms (google classroom, zoom, dojo, email, seesaw etc), time (a defined start and end), reporting an absence, mixed media of differentiated learning labs (for hands on paper / manipulative experience), and class expectations for engagement. After expectations are set forth, communication may begin. Parents, students and staff must connect through constant clear communication. Communication logs and differentiated assignments ensure student success. For conversations, phone calls are best. For meetings involving more parties, zoom platforms are wonderful. For daily and quick communication regarding simple questions and info, a messaging platform may be used. For larger groups of students with important information, administrators should use an all call approach paired with social media. For gathering large amounts of data in survey form, it is best to communicate by sharing a google form. Once the importance and avenue of communication are established, the final weave is accountability. Accountability during remote learning includes daily calls if neither attendance nor communication has occurred within a brief window of commencing remote learning for the day. This ensures a system of checks and balances. After ensuring student attendance for check in, for students and families who are not responding to the first measure of accountability, the next layer would be a call, text, letter or email from the teacher to make contact regarding the absence. Guidance counselors, social workers, nurses, and/or administrators will provide the next layer of support, asking questions about potential family needs and how the school can provide assistance. If attendance issues become a serious concern, it is important to hold a meeting with an attendance improvement agreement document to convey the severity of the concern. Agencies may be asked to assist if connection can not be established or if matters present unsafe or unstable. If, in the event, learning loss occurs it is important to identify the specific students at risk and the skills of deficit. A screening tool including Math standards, Reading standards, and SEL could be developed to provide data in conjunction with formative and summative assessment data. Finally, once learning loss has been determined, it is time to intentionally mitigate or repair this loss using a scaffolded approach of after-school and/or summer support. Providing parent resources for additional support

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

MCS have established a K-8 Intervention Director that will monitor K-8 learning loss. Data will be gleaned from multiple sources K-8 to determine the learning loss from pre-pandemic to post. Students will then be monitored weekly at each school by strategically placed curriculum interventionists that will directly report back to school administrators as well as district administrators to continue to drive instruction to meet students exactly where they are academically, socially, and emotionally. MCS have strategically placed interventionists at our high schools to monitor student

learning loss pre-pandemic to post as well. Students will be monitored using the follow weekly: Transcript audit -- analyze earned credits data by individual and cohort based on pre and post pandemic performance and grades. Collect data from teachers to compare % work completion rate pre and post pandemic Continue to compile and evaluate grading period trends (9-week's grade average) pre and post pandemic. Aggregate each of the above by core discipline Analyze attendance data by individual and cohort, pre and post pandemic.>Analyze Discipline data by individual and cohort, pre and post pandemic. 9-12 Interventionists will also report to school level administrators as well as district administrators to continue to modify instruction when needed to meet students where they are academically, socially, and emotionally due to loss felt from the closure of face to face learning and the past year of remote learning from the pandemic. MCS Administrative team as well as our Superintendent are all up to date on this process and eager to continue to help the students of Madison County regain any loss felt due to COVID-19.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
		MCS conducted a capital needs assessment of all			$ 750,000.00

| FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs. | * ◉ Yes ○ No | schools involving multiple stakeholders to prioritize areas of need within the district. With the decision to replace HVAC systems and to hire an HVAC specialist to maintain them, an area of concern developed for the roof at MMS and MHS. We did not want to make major HVAC upgrades to systems housed on a 50 year old roof. MCS also determined that updates to camera systems would aid in the monitoring of student cohorts and movement during transitions to continue to enforce social distancing recommendations in response to COVID-19. Mental Wellness is an | Bids will be taken and the project started during 2021-2022 school year | MCS will update HVAC systems thus prompting the changes to the roof systems to support the thermal conductivity and provide maximum quality air flow. MCS will monitor social, emotional, and behavioral referrals with social workers and guidance counselors to see effect of inclusive play for all students including our most vulnerable learners. MCS will use real time data to monitor student transitions with upgraded camera systems to prevent the spread of COVID-19 within our schools. | |

		Wellness is an issue within our student population due to the trauma felt during the closure of schools related to COVID-19 and remote learning. To increase safe spaces and places for interaction, MCS will purchase additional pieces of equipment to add to playgrounds at our elementary schools to encourage inclusion of play with wheelchair access for all students to engage in development multiple skills.			

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ○ No	MCS will hire an HVAC specialist to monitor and make repairs to continue to try to prevent the spread of COVID-19. MCS will purchase and install new equipment to improve air quality within our buildings to aid in the prevention of spread of COVID-19.	2021-2022, 2022-2023, 2023-2024	The impact measures will be seen by the decrease of spread of COVID-19. MCS HVAC systems will be up and running and repairs made efficiently and effectively.	$ 148,170.80
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ◯ No	MCS will meet the unique needs of certain populations of our students that were heavily impacted due to school transition to remote learning. MCS will hire an additional Speech Language Pathologist and an Exceptional Children's Teacher to address loss for these students.	2021-2022, 2022-2023, 2023-2024	Individual student performance measures will be used to gather data to determine impact of services.	$ 443,728.50
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◯ Yes ⦿ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ◯ Yes ⦿ No				$

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ⦿ No				$
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ⦿ No				$

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ⦿ Yes ◯ No	In response to the closing of face to face school and the transition to remote learning due to COVID-19, MCS will purchase software to ensure student learning success. Programs such as Calvert, Edmentum, and SeeSaw will be used with our students that choose this option as well as those that need additional guidance.	2021-2022, 2022-2023, 2023-2024	Impact Measures will be taken directly from individual student performance at each grade level. Teachers will also use this data to drive individualized instruction.	$ 404,375.89
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◯ Yes ⦿ No				$
	* ⦿ Yes ◯ No	MCS will plan and implement activities related to summer learning by providing classroom instruction during	2021-2022, 2022-2023, 2023-2024		$ 277,991.25

11/9/2021 12:28:57 PM

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.		instruction during the summer months to meet the needs of our students that have deficits in learning due to learning loss from COVID-19 and the transition to remote learning. MCS will purchase GEODES (multiple leveled supplemental reading program) for grades Kindergarten and Second to help student learning loss. Teachers in summer program can address students where the academic need is and students will have multiple copies of readers to enhance skills.		Impact measures will be taken from individual student performance on assignments and assessments administered during summer learning.	
	* ⦿ Yes ◯ No	MCS will address student learning loss by hiring additional curriculum interventionists	2021-2022, 2022-2023, 2023-2024		$ 590,451.06

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		interventionists, teachers, and TA's to work directly with students throughout the school day. The curriculum interventionists will also work with teachers to provide PD and work with district personnel to address learning loss. MCS will invest in a tutoring program that works with Middle School and High School students during the day to provide instruction for those students that have fallen behind due to going to remote instruction. (Empowering Madison Youth to Succeed) MCS will hire an additional school nurse to work at HSES full time to provide services directly		Curriculum Interventionists, Teachers, and TA's impact measures will be gleaned from individual student performance. EMYS impact measures will be taken from student performance data. School nurse will collect data regarding COVID-19, contact tracing, as well as all other nursing duties. Early Childhood Teacher and TA will collect data to measure student growth for 3-5 year old. Data will be gleaned from pre/post retention of staff during pandemic in relation to addition of supplements.	

		related to the reduction, prevention, and response to COVID-19. MCS will provide supplements to certified and non certified staff to retain qualified staff after the transition to remote learning due to COVID-19. MCS will hire an early childhood education teacher and TA to provide support to our 3,4, and 5 year old children before entering Kinder.			

	Total ESSER III Allotment	$	2,614,717.50

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.

*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Madison County Schools (570) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

Madison County Schools (570) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

 There are no new applicants.

Madison County Schools (570) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Martin County Schools (580) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Student and staff attendance (including COVID required quarantines), iReady BOY - MOY - EOY data, report card data, promotion/retention data, course failures, Checkin data, EOG/EOC data, classroom observations (virtual and in-person), facility walkthroughs, and maintenance repair requests, review of technology requests and repairs, district and school PLC data, NCEES data, EC LEA Self Assessment, EVAAS data, and teacher turnover were all used to determine the needs of the district. Martin County Schools has developed a Needs Assessment and Plan for ESSER III funds by meeting regularly with district administrators, school administrators, Board of Education, County Commissioners, District Parent Advisory Committee, School Advisory Committee, Instructional Coaches, Beginning Teachers and Mentors, School Teachers of the Year, and our Teacher Leaders' Forum. Using this data we have decided to focus on the following learning loss recovery strategies: We will continue with a summer learning recovery program during June and July of 2022. We are continuing to recruit 3 additional teachers to implement co-teaching for our students with disabilities allowing many students the additional support needed in the LRE. Digital personalized instruction will continue through remedial and self-paced platforms, including Letterland online, iReady, Apex, IXL,

CommonLit, as well as others. We continue to plan for opportunities for our high school students to obtain coursework online or in the evening if they continue to work.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

lAttendance - Nov. 30 13% absentee rate, Feb. 8 12.6% absentee rate, Mar. 22 10% absentee rate. Martin County Schools has struggled to certify accurate attendance data due to COVID related issues. However, our Student Services department has worked hard to reach every students enrolled on our district. Grades K-8 iReady Data - Comparing iReady data from last year's MOY to this year's MOY showed the following: Reading and Math: A slight increase in students 2 or more years behind as well as a slight increase of students on grade level. Comparing iReady data from this year's BOY to this year's MOY showed the following: Reading: Data on students 2 or more years behind was stagnant with a slight increase of students on grade level. Math: A slight decrease in students two or more years behind as well as an increase of students on grade level. One concern we have is that our virtual students were able to take their diagnostics at home. We have no way to declare that the students completed the diagnostic solely on their own. EOC or EOG District Proficiency Percent ELA 3 44 Math 3 44 Math 4 32 Math 5 30 Math 6 13 Math 7 12 Math 8 6 Science 5 40 Science 8 62 RtA 8 Biology 18 Math I - Middle School 61 Math I - High School 9 Eng II 37 Math III 11 Course Failures - Looking at first semester data for high school students we noticed a tremendous increase in course failures. In the Fall of 2019, there were a total of 185 course failures in grades 9-12 combined in both high schools. In the fall of 2020, there were a total of 644 failures in grades 9-12 combined in both high schools. This year's freshmen failed 332 first semester courses, sophomores failed 159, juniors 79, and seniors 74. Classroom Observations - Classroom observations have uncovered a concern regarding the disparity between face-to-face learning and remote learning. In October 2020, Martin County Schools opened the school buildings to students. Many students remained in a virtual setting by parent choice. This was especially true in our more remote western part of the county. In January, we again offered students to return to the classroom. A few more returned, but not many. By the beginning of April we saw our largest number of students return to the classroom. However, at the middle and high school levels, we have such a teacher shortage that teachers had to teach simultaneously in person and virtually. Retention of Teachers - We have struggled to replace fully certified Math, Science, and EC teachers. When we are able to replace them it is usually with lateral entry or first-year teachers from a university education program. Teachers who are leaving have said that they would stay if we provided an additional supplement for certain subject areas. Community - There is a disconnect between parents and students and schools. Especially for our at-risk and younger students. There is a need for staff members who are able to concentrate Facility Walkthroughs and Repair Requests -

In reviewing the facilities we have observed that we have a low level of airflow and a lack of ability for maximum filtration. Also, there have been several repair requests on HVAC systems that are not up to standard in regards to controlling the humidity levels which provide an opportunity for mold and mildew growth. Several spaces in our schools do not have HVAC. This means there is a lack of appropriate ventilation and air purification which can lead to the spread of viruses, including COVID-19. OUr outside facilities for high school students provide no opportunity for social distancing while learning. Our elementary schools do not have enough playground equipment to social distance or be able to clean between classes. Technology Repair Requests - Having provided Chromebooks for all of our students who requested a school device, we have continuously been replacing and repairing devices when they are repairable. Instructional Technology has reported that the computer labs do not allow for as much social distancing as needed. We have a low level of bandwidth, especially in our schools which are in outlying areas. Therefore, we are in need of additional desktop computers. PLC data - School and District PLCs have revealed many shortcomings in teacher planning. We have many staff members who are unaware of the standards, appropriate strategies, differentiation techniques, and data analysis. NCEES data - Professional Development is part of at least 70% of teacher and administrator PDPs. Reviewing observation data uncovered a discrepancy between teacher performance ratings and student performance data. EVAAS data - We have a large number of lateral entry teachers who are clustered in several schools on the west end of our district. The students in most of these classrooms struggle to make adequate yearly growth. As well the teachers are struggling to pass the licensure - We have eight, nearly ten percent, middle school and high school vacancies which have not been filled due to lack of candidates. At times we have attempted to hire and candidates have decided to decline due to COVID concerns. We have several teachers and staff who have remained on FMLA for a majority of the year due to mental and physical issues which were or could have been exacerbated by COVID-19. EC LEA Self Assessment - there is a need to increase the amount of time for all SWD students to be served in the regular education classroom.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 3,695,574.18 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Digital personalized instruction will continue through remedial and self-paced platforms for all of our students using iReady, IXL, CommonLit, mClass, and SchoolNet. Reviewing our EOY data we only had two areas where our students were greater than 50% proficiency - 8th grade science and middle school Math I. We will address our CORE instruction by providing teachers and staff with continual professional development in lesson planning, differentiated instruction, AIG certification, as well as MTSS and SEL. -Branching Minds MTSS Software - expertise in learning sciences, data management and analysis, software design, coaching, and collaboration. -Implement AVID at the two district high schools. -Prof Development - Differentiated Instruction -Made Practical, AIG certification, Letterland, etc. -Extended Day/Evening Classes -NC Education Corps tutors for 3rd grade -Paxton/Patterson College and Career Ready Labs -Additional Science Teacher -Family/Student Engagement Support Staff -Hiring subs and/or paying stipends for collaboration during PD

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Providing the most up-to-date instruction through our CTE department and the use of College and Career Ready Labs is a priority for our middle and high schools. Recruiting and retaining high-quality teachers based on training, NCEES, and EVAAS data is a must to develop a continuum of rigor and learning. Implementing an AVID program in our two highs schools, providing extended day and evening classes for our high school students. Hiring additional teachers to provide a variety of sciences courses offered at the high school level. Hiring tutors through the NC Corps to work with our at-risk 3rd grade students utilizing the Science of Reading. Utilizing Branching Minds software to support the MTSS/SEL programs and process.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Hiring staff coordinators for Student and School services and Family and School services. These two coordinators will assist students and families in the reconnection process for all school activities. They will also provide support to students and families in the event that we return to remote learning.

* (D) Tracking student attendance and improving student engagement in distance education;

In the absence of defined attendance measures, Martin County Schools tries to measure and understand student and family engagement in several different ways. The district tracks and measures types of active participation that could help the schools understand engagement levels (e.g., time spent on a learning platform, frequency, or quantity of online learning activities completed). Schools are tracking participation in live virtual instruction or through the

submission of assignments. Some of the schools also administer engagement surveys to students, families, and teachers to inform improvements to their school and district distance learning plan and support.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

We will continue to compare present and future academic progress data by comparing grades and assessments with data from past years. We will check the information at the end of each marking period and semester. We will use this data to tailor instruction for personalized learning. Last spring we used the high school data to provide credit recovery. We will continue that throughout the school year and next summer.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	Replace Carpet and Tile floors Provide antimicrobial rugs for elementary classrooms Update culinary classroom to allow for social distancing Provide tracks at high schools for outside H/PE classes Provide accessible playground equipment for all elementary schools	November 1, 2021 - June 30, 2023	For these items, we will utilize POs, paid invoices, and a log of placement of each item with date installed and school site.	$ 717,597.25
	* ⦿ Yes ◯ No	Replacement of heating and air conditioning systems and for improvement of air quality, air filtration, and ventilation. Our systems are an average of 20 years old. They do not allow for the most up-to-date filters. Also,	November 15, 2021 - June 30, 2022	For these items, we will utilize POs, paid invoices, and a log of placement of each item with date installed and school site.	$ 274,650.28

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.		they are limited in their effectiveness in the circulation of air. Gov't Accountability Office estimates that 36,000 schools nationwide need to update or replace heating, ventilation, and air conditioning (HVAC) systems. The report further documents how the need for investments in school facilities are unequally distributed, with the greatest need for improvements in schools serving high shares of students in poverty, which in turn, are often located in communities of color. We also plan to place dehumidifiers in the schools for these same			

		these same reasons.			
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ◯ Yes ⦿ No				$ ▢
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◯ Yes ⦿ No				$ ▢

11/9/2021 12:32:28 PM

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◉ Yes ○ No	Installing keyless entry at both high schools as other campuses as needed. Purchasing software to communicate with the families and communities as needed. Purchasing health supplies (gloves, masks, shields, thermometers, etc.) One vehicle for IT Dept to transport devices and materials for repairs. One vehicle for Child Nutrition to assist with the transportation of meals.	November 1, 2021 - September 1, 2022	For these items, we will utilize POs, paid invoices, and a log of placement of each item with date installed and school site.	$ 185,000.00
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ○ No	Purchasing cleaning supplies (disinfectant sprays and wipes, etc.) Purchasing washers and dryers for schools that do not have access to these machines.	Novemeber 1, 2021 - June 1, 2022	For these items, we will utilize POs, paid invoices, and a log of placement of each item with date installed and school site.	$ 53,312.72
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ⦿ No				$

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ⦿ Yes ○ No	Purchasing 2 years of iReady for K-8 students. This will maintain a program that we have been using during remote and face-to-face learning. iReady reading and math are used to provide personalized learning, remediation, and intervention.	November 1, 2021 - September 30, 2023	For these items, we will utilize POs, paid invoices, and a log of placement of each item with date installed and school site.	$ 305,000.00
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ○ No	Hire an additional nurse, counselor, and school psychologist for 2-3 years.	November 1, 2021 - September 30, 2024	For this we will use staff contracts and staff timesheets.	$ 328,190.76

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ⦿ Yes ◯ No	Provide a 4-6 week summer recovery learning program during the summers of 2022, 2023, and possibly 2024 if there is enough money to support this program.	April 1, 2022 - August 15, 2024	For these items, we will utilize POs, paid invoices, and a log of placement of each item with date installed and school site.	$ 505,578.23
	* ⦿ Yes ◯ No		November 15, 2021 - September 30, 2023	For these items, we will utilize POs, paid invoices, supplement budget, staff contracts, and staff timesheets.	$ 3,071,902.58

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		Provide 2 years of custodial staff to focus on the daily cleaning protocols. Provide a supplement to all staff. Provide a supplement for all MS/HS CORE Curriculum teachers as well as Exceptional Children's teachers at all grade levels. Unbudgeted of $247,289.64 and Indirect Cost of $617,824.23			
				Total ESSER III Allotment	$ 5,441,231.82

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Martin County Schools (580) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

 There are no new applicants.

Martin County Schools (580) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at <u>NCDPI School Allotment Section</u>. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

McDowell County Schools (590) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Small stakeholder groups were convened to present, review, and analyze the current district data and determine what additional data is needed in moving forward as described by the CRRSA and ARPA Act. The stakeholder groups focus on high-need areas as determined by the needs assessment. The stakeholder groups consisted of Board of Education members, district leaders, school leaders, classroom educators, and parents. The PSU has assessed a variety of district educational data. The PSU will address student learning gaps resulting from the disruption in educational services by providing a six-week summer camp, providing staff professional development, purchasing teacher devices to support remote instruction/learning, and maintaining a healthy educational environment for students and staff. Unemployment Rate: 5.7% Tier II County: economically at-risk county Per Capita Income: $24,281 Percent living in poverty: 16.8% Percent of children living in poverty: 22% Dropout Rate: 3.1% 2019 Free and Reduced Meals: 53.28% 114 children placed in DSS custody/ 12 children placed in DSS custody in the month of April alone Over 400 Students Eligible for McKinney Vento Services K-5 At-risk Students: 29% are considered at-risk based on an at-risk survey completed by teachers in early February 2021. Teachers predicted this number to increase after quarter 3. Middle School At-risk Students: 18% are considered at-risk based on an at-risk survey completed by teachers in early February 2021. Teachers predicted this number to increase after quarter 3. High School At-risk Students: 7% are considered at-risk based on an at-risk survey completed by teachers in early February 2021. Teachers predicted this number to increase after quarter 3. Approximately 43% of EC students in grades K-8 are predicted to not meet their IEP goals for this year due to the lack of consistency in services. 95 new referrals to special education this

school year Approximately 200 EC students will be transitioning to a new location. 32 of the students transitioning have disabilities that make it imperative to prepare for a major transition 16% of the student population qualify for specially designed instruction 11 out of 70, (21%), of our separate continuum students that returned, struggled with the requirements for school. A high number of at-risk students per principal survey - 16.5 % of MCS student ADM is identified as having a disability. EC students have to date, lost 3,990 hours of EC services. 77% of Kindergarten students scored below grade level on Middle of Year, Amplify mClass: TRC assessment. 63% of First Grade students scored below grade level on Middle of Year, Amplify mClass: TRC assessment. 45% of Second Grade students scored below grade level on Middle of Year, Amplify mClass: TRC assessment. 43% of Third Grade students scored below grade level on Middle of Year, Amplify mClass: TRC assessment. 53% of Fourth Grade students scored below grade level on Beginning of Year, Amplify mClass: TRC assessment. Currently, 507 teacher devices struggle to support remote learning for students. MCS currently has 313 students in Tier 2 and 114 students in Tier 3. STAR Assessment: Students in grades K-8: 52% are considered below the 50th percentile rank in the Consolidated Assessment Proficiency Report for the district in Math. Students in grades 4-8: 67% are considered below the 50th percentile rank in the Consolidated Assessment Proficiency Report for the district in Reading. This percentile rank of 50 was set by the district. Air Quality Glenwood: Oldest section was built in 1936 Nebo: Oldest section 1962 PGE: Oldest section 1953 Marion: Oldest section 1955 EMMS: Oldest section 1953 HVAC/Cooling Towers WMES 1989 Nebo 1994 MHS 1995 NCE 2002 The newest facility is Old Fort 2020 Positive CoVid Cases Staff: 133 Positive CoVid Cases Students: 263 Quarantined Staff: 713 Quarantined Students: 4012 Attendance: Absences 21: 31463 Absences 20: 28036 10.89 % increase for the year Staff Attendance: 7/1/2020 - 4/30/2021 Days: 4,800 Mental Health Elementary: 41 students in kinship care or foster care this current school year. Over 100 Referrals to Department of Social Services Parent referrals to School Counselor throughout the year- 32 for check-ins, SEL support, friend issues, loss Student self-referrals to School Counselor-over 150 throughout the year -related to anxiousness, confidence issues, loneliness, and friendship issues most often. School Counselor referrals-Over 200 Over 200 students on the food pantry list Behavior Support: This continues to increase for kindergartners due to ACES scores. Daily support is provided. The backlog of students waiting for mental health services is increasing. Two students were hospitalized for mental health crisis Therapy Referrals and Students Served: Over 70 42 Referrals to Supportive Beginnings for assessment and therapy between two elementary schools: Top three reasons for referrals: Trauma, Anxiety, Change in Home Placement High School: 193 referrals among high schools and community 59 students linked to a provider and followed through Individual therapy provided for substance use, TFCBT (Trauma-Focused Cognitive Behavioral Therapy), and to remove barriers Vape counseling group provided 2 afternoons per week and is open to middle and high school students SPARCS(Structured Psychotherapy for Adolescents Responding to Chronic Stress)-group 2 times a week with 6 students Social Workers completed 585 home visits from August 2020-March 2021 for the following reasons: (truancy, social and family concerns, poor attendance, not completing work, etc.) Middle School and High school Referrals to Department of Social Services- Over 75 Transportation - Limited number of activities bus available to distance students for academic and extra-curricular events Child Nutrition - Limited space to properly social distance students during lunch service at McDowell High School (comprehensive high school over 1500 students)

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Provide ongoing PD in Orton Gillingham for Elem. & MS teachers, PD for math, maintain subscriptions for online learning resources for classroom & virtual learning, & purchasing additional hand-on manipulatives/materials/supplies to support core academic areas & eliminate student sharing. Provide summer learning opportunities to K-12 students for 3 years. Install touchless restroom systems & HVAC (test, repair, replace), update electrical to support the installation of HVAC updates, replace boiler system at EMMS, replace cafeteria dish sanitation systems, & add hot water to restrooms for handwashing to minimize the spread of Covid. Carpet Removal/replace: Carpet is a porous surface, and in the CDC's white paper "Guidance for Cleaning and Disinfection," it states, "Soft and porous materials are generally not as easy to disinfect as hard and nonporous surfaces." The best way to minimize the transmission of the virus and improve air quality is to remove the carpeting and install easier-to-clean non-porous surfaces, such as vinyl or LVT flooring. This type of flooring will allow for proper cleaning and daily sanitation routines. MHS cafeteria serving lines run through the interior prep area of the kitchen. The area can be congested during serving times due to the number of students & space limitations. Removing students from the lunch prep area will minimizing through traffic & allow for more social distancing. EC related services were among the most affected areas. These services can't be fully implemented virtually. A critical amount of time was lost because our services were limited due to Covid. We have a lot of ground to make up in the areas of SPL, OT, and PT, especially for our young students who are growing & developing critical skills. These temporary employees would provide direct services based on service delivery time lost. Psychologist: Several students were pulled to be homeschooled or remained virtual; some parents refused to bring students in to be evaluated for their 3-year reevaluation. Students are returning, which increases the # of evaluations necessary within a short period of time. We need to contract for additional hours. The life skills & Discovery (Severe) classes at MHS & EMMS don't have access to outdoor areas for classes/breaks. These students spend the majority of their time in the assigned classroom without mainstreamed classes. Many suffer from respiratory conditions or are physically unable to remove their masks; therefore, wearing a mask isn't mandatory. Students should have the opportunity to enjoy a learning environment outside where they can experience fresh air while working on their IEP goals. Spaces will need sunshades and smooth rubber surfaces for wheelchair access & fall protection. Students with visual and hearing impairment require adapted equipment. Efforts to get students exposed to fresh air with mask breaks require purchasing additional equipment for student success & eliminate sharing (brightly colored equipment, brightly colored safety markings, stripes on balls, balls with bells or beepers, and a goal locator with sound). Multi-sensory features that incorporate sound such as wind-chimes, large xylophone, bells, etc., can benefit a child who is partially deaf. A metal slide that doesn't cause static electricity can support SEL for children with Cochlear Implants without worrying about being shocked. Adjustable basketball goals & balls for students who use wheelchairs. Other students with different disabilities identified will benefit from accessible, multi-sensory SEL play equipment. Equipment used for therapy must be shared. More equipment is needed to support individual student learning & to minimize the spread of Covid. Sensory Garden for SEL: Covid caused many regressions socially for students with special needs. Students who were comfortable with the school schedule, rules, and support found themselves

in an environment very different from school & nonconducive to learning. Installing a sensory garden to include stations that activate each of the 5 senses for students with disabilities will provide many different outlets for inclusion, accommodating all students' needs. This area will be an outdoor classroom to enrich learning experiences and a calming environment to meet the SEL needs of students. Benches, ground materials, sensory equipment, & educational signs are needed. Behavior Therapy: The closure of schools allowed our students to cut themselves off from their peers. For students with Autism, this period caused them to lose social gains & regress more into their private world. Many autistic children are drawn to Legos. An effective Lego social skills program has been developed that can be used in multiple settings & be transferable to real-world peer interactions. A facilitator works with the group to encourage problem-solving, communication, & engagement. Additional Legos will need to be purchased to minimize the virus spread. Ed. Tech.: Increased virtual/remote learning opportunities will require a server upgrade to support the # of devices (Azure Migration) Ongoing updated student devices to support virtual/remote learning (Chromebook purchases when devices become outdated/damaged) MH Services: Continue to fund the salaries of the Licensed Professional Counselor & Family Liaison; funding ends on 9/21. Continue to fund school counseling position; funding ends on 6/22. Temporarily investing 2 school social workers to support students returning back to school & remote learning. Ongoing training to support SEL& Mental Health. Continue to fund 3 LPNs and increase hours from 24 to 29; funding will expire on 6/22. Medical supplies for school nurses. Employ a bilingual family/community Liasion Hire additional IAs to support K-5 Core Content Purchase Washer & Dryer for Sanitation Maintain K-12 staff Purchase an activity bus to allow for social distancing when transporting students to academic & extracurricular activities

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 3,464,618.54 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

To address learning loss among students, including low-income students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, McDowell County Schools will utilize ESSER III funds for targeted tutoring, intensive and directed interventions during the regular school day, after school and during the summer, and other opportunities that may arise. Academic instruction will be offered both synchronous and asynchronous (14 synchronous campuses and 1 asynchronous campus). With K-5 students, MCS will comply with the NCDPI's Comprehensive Reading Plan, Read to Achieve Law, and Science of Reading expectations, as well as employee

additional instructional assistants to support core academics. Additionally, ESSER III funds will be used to support increased and targeted counseling and academic supports for ESL, students identified as EC, and those at risk of homelessness or already experiencing homelessness. Likewise, ESSER III funding will be used to increase the service hours of employed Psychologists, employ additional Social Workers, LPN, therapists, and other specialists to support Social Emotional learning for students at risk of failure, students in transition, students in foster care, and ethnic minorities.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

ESSER III funds will be used to support the implementation of evidence-based activities to meet the comprehensive needs of students by utilizing the following assessments: Edgenuity, NCCheck-ins, NCDPI K-2 Math Assessments, Orton-Gillingham, DIBELS 8, STAR, and Running Records

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

MCS will employ a bilingual parent, family, and community liaison to support our Spanish-speaking families and provide additional support for parent and family engagement activities district-wide.

* (D) Tracking student attendance and improving student engagement in distance education;

MCS will utilize ESSER II funds to employ additional Social Workers and Counselors to support, monitor, and track student attendance.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

MCS will continue to utilize the district MTSS Data Dashboard (Panorama) to monitor and track student progress or the lack thereof. MCS will evaluate the data to inform the district's yearly Needs Assessment and decision-making related to programming and staff.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	*Install touchless restroom systems *replace cafeteria dish sanitation systems *add hot water to restrooms for handwashing *Carpet Removalreplacement: Carpet is a porous surface, and in the CDC's white paper "Guidance for Cleaning and Disinfection," it states, "Soft and porous materials are generally not as easy to disinfect as hard and nonporous surfaces." The best way to minimize the transmission of the virus and improve air quality is to remove the carpeting and install easier-to-clean non-porous surfaces, such as vinyl or LVT flooring. This type of flooring will allow for	September 2024	*Student/Staff Attendance *Decrease in Student/Staff Quarantine *Decrease in Student/Staff CoVid Positives *Improved physical and mental health of our most at-risk students.	$ 1,921,723.21

		proper cleaning and daily sanitation routines. *MHS cafeteria serving lines run through the interior prep area of the kitchen. The area can be congested during serving times due to the number of students & space limitations. Removing students from the lunch prep area will minimizing through traffic & allow for more social distancing. *Outdoor EC Classroom *Sensory Garden for SEL: Outdoor classrm			
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ◯ No	*Contract services for inspection, testing, maintenance, repair, replace, and/or upgrade HVAC units to improve air quality on all campuses, update electrical to support HVAC installation and replace boiler system at EMMS to improve heating and air quality.	September 2024	*Student/Staff Attendance *Decrease in Student/Staff Quarantine *Decrease in Student/Staff CoVid Positives	$ 664,166.80

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ⦿ No				$

	* ◉ Yes ○ No	*On-going Orton-Gillingham PD for Elem. & MS and supplies *Math PD *Medical Supplies for Nurses *Continue to fund the salaries of the Licensed Professional Counselor and Family Liaison *Continue to fund 3 LPNs and increase services to 29 hours per week. *Continue funding school counseling positions to address the unique needs of students experiencing trauma, mental health concerns,	September 2024	*Improved SEL/mental health as measured by Panorama *Student/Staff Attendance *Decrease in Student/Staff Quarantine *Decrease in Student/Staff CoVid Positives	$ 3,783,899.73

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		homelessness, and foster care, as well as other ongoing student needs. *Purchase an activity bus to allow for social distancing when transporting students to academic and extracurricular activities. *Add a Parent/Family/Community Liasion to support Spanish-speaking families. *Add a temporary administrative asst. to support the oversight of ESSER funding. *Salaries for Virtual School Staff *Maintain current REACH Staff *Retention Stipend for all full and part-time school employees *Indirect Cost			
			Total ESSER III Allotment	$	9,532,364.46

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

McDowell County Schools (590) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

 There are no new applicants.

McDowell County Schools (590) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Charlotte-Mecklenburg Schools (600) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

During 20-21, CMS established cross-functional focus area teams to move the district toward the CMS 2024 Strategic Plan goals and respond to the impacts of the COVID-19 pandemic including student learning gaps. Focus Area Teams: Great Teaching, Student Wellness, Access to Advanced Course work, Time, Academic Performance, Health of the District. Focus area teams inventoried current work and identified needs, including needs related to COVID-19. Throughout the process, stakeholder groups were engaged for feedback. Meetings with stakeholder groups: Board of Education, Superintendent's Teacher Advisory Council, CMS Principal Meetings, Community Engagement Workshops, Generation Nation (students), Community Partners meeting, Interfaith Advisory Council, Title I Parent Advisory Committee, CMS COVID District Response Team, CMS EC Parent Advisory, Latino Civic Engagement Committee, Black Political Caucus, and West Side & East Side Think Tank. Needs from the focus area team process and stakeholder feedback that were aligned to the allowable uses as outlined in ESSER III and related to the prevention of, reduction of, response to COVID-19 were identified to be included within ESSER III. The teams will continue to review data and identify needs in 21-22. Data collected and reviewed: District enrollment: 20th day enrollment - 19-20: 146,888; 20-21:140,073. District poverty data (CEP): 42,997 students in the district who are economically

disadvantaged (ED). CMS serves 83 Title I schools in 20-21 and will serve 93 schools in 21-22. Available EOG/EOC: 20-21: lower participation and performance was experienced across all EOC subjects in the fall Non-proficiency Percentages: Biology: Fall 19 - 39.3% Fall 20 - 50.6%, English II: Fall 19 - 31.9% Fall 20 - 33.4%, NC Math 1: Fall 19 - 36.7% Fall 20 - 62.2% , NC Math 3: Fall 19 - 36.5% Fall 20 - 45.9%. Student Grades: As of April 2021, there were 37,576 students in grades 3-12 that were failing reading, math, or both. Failing ELA only: 10,614, Failing Math only: 11,404 , Failing both ELA and math: 15,558. MAP Data (Universal screener): The percent of students in grades 3-8 who were projected to meet or exceed grade level proficiency based on MOY MAP scores in 2020-2021 was 57% compared to 60% in 2019-2020. MAP reading data from the 20-21 shows that 39.5% of K-8 CMS students are scoring below the national norm. MAP Math data from 20-21 shows that 40.8% of K-8 CMS students are scoring below the national norm. Curriculum Embedded Assessments: Students in grades K-2 are assessed with curriculum embedded assessments that provide teachers with microphase data on their reading progress. 3rd quarter 20-21- on grade level or above benchmark: 63% of Kindergarten students , 45% of 1st grade students, 38% of 2nd grade students. Student Absenteeism: Average Daily Attendance Rate: 19-20: 95.09%, 20-21: 91.88%. Increased chronic absenteeism: 3rd quarter 19-20: 20.3%, 3rd quarter 20-21: 21.6%. Chronic absenteeism was greatest among high poverty schools. Students in low-poverty schools saw a decline in absenteeism from last year, while students in moderate and high-poverty schools saw sharp increases. High poverty schools 3rd quarter percentage of chronically absent students: 19-20: 29.1% & 20-21: 45.8% Panorama Social and Emotional Learning Screener Data: Opportunities for growth were observed in the following areas based on comparison to others nationally: Self-efficacy (grades 6-12: 0-19th percentile), Sense of belonging (grades 6-12: 0-19th percentile), Challenging Feelings (grades 3-5 & 6-12: 20th - 39th percentile), Emotion Regulation (grades 3-5 & 6-12: 20th - 39th percentile). Technology Needs: Student devices were deployed during the pandemic. Estimated 15% will need to be replaced due to being lost, stolen, or broken beyond repair. Sept 2021: 44,000 chrome books will no longer be eligible for google support. June 2022: 12,000 chrome books will no longer eligible for google support. The normal district refresh cycle is not adequate to provide the number of devices that need to be replaced. Learning cannot occur in a remote or hybrid environment without technology. Other Tech needs: presentation systems with camera access, additional monitors, document cameras, and wireless headsets for hybrid learning replacement chargers for student devices that have been deployed as they are often lost. Facility Needs to prevent and/or reduce the spread of COVID-19: CMS has a facility condition index that rates facility system components. To reduce the risk of virus transmission, this system is being used to prioritize needs in specific buildings that are related to improving indoor air quality, controlling and reducing humidity and moisture intrusion, and replacing high touch surfaces. Based on a review of the facility condition index, the team has identified over $60 million in projects that are needed for the prevention of and reduction of the spread of the COVID-19 virus. Health & Safety Needs: At the start of 20-21, over 90% of schools had a full-time nurse. As of 3/21/21, only 73% of schools are assigned a full-time nurse. CMS contracted for nurse extenders for schools using CARES Act funding. This support will likely need to continue. Teacher turnover & teacher vacancies: 19-20: 464 teacher separations, 20-21: 489 teacher

separations, 20-21: teacher vacancies varied from 30 to 70; In August of 2021, over 30 of the 60 teacher vacancies are EC Teachers. Staff turnover & vacancies: CMS lost over 170 bus drivers (full time, part time, sub) from June 2020 - June 2021; There are currently 8 vacancies for HVAC technicians (as compared to 1 vacancy in 2019-2020) The CMS substitute pool significantly declined over the 20-21 school year when students were learning remotely for most of the year due to significantly decreased need and over 38% of the existing sub pool have indicated that they are unlikely to return if CMS is doing in person learning.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

EOC data, student grades, and MAP assessment scores show that there is unfinished instruction as a result of the disruptions from the COVID-19 pandemic. Students will need additional opportunities for learning including summer school, after school programs, and tutors. Panorama data shows that students would benefit from consistent social emotional learning, increased school-based mental health services and increased access to counselors and social workers. The pandemic has also caused increased daily absences and chronic absenteeism. Supports will need to be in place to address chronic absenteeism and re-engage students in school. It is clear that additional and intentional academic, social emotional, and mental health support programming, staff, and services will need to be in place for the next 2-3 school years. Additional programming will need to include a curriculum for social emotional learning, consistent standards aligned curriculum for core subjects, differentiated curriculum resources to meet the needs of all learners, and evidence-based intervention resources. All programming and curriculum resources will need to be available in a format that can be delivered in remote, hybrid, or in-person instruction. High quality ongoing professional development for teachers will need to be in place for effective implementation of the academic and social emotional programs and resources. Additional staff to support meeting the academic, social emotional, and mental health needs of students will also be needed. Additional staff may include teachers, lead teachers, counselors, social workers, psychologists, teacher assistants, behavior support staff, interpreters, family advocates, and tutors. Additional services including access to school-based mental health services, tutoring and enrichment services, translation and interpretation services, and school health services through nurse extenders will all be critical to ensuring student needs are met. As evident in the data, the COVID-19 pandemic has resulted in a greater number of chronically absent students and a greater number of students with gaps in their learning. CMS teachers and other school-based staff have been working a significant number of additional hours as they are providing additional academic support to students after school hours, preparing lessons that students can engage with at any time, and calling and visiting student homes to re-engage students who are chronically absent. During the COVID-19 pandemic, it has been critical

that all students have access to devices and reliable internet so that they can engage in remote and hybrid learning. Based on the technology needs identified, additional student devices and chargers will need to be purchased to ensure all students have access to devices that are up to date and are working properly. Many students will continue to need hotspots and connectivity for reliable internet access. Classroom technology to support remote and hybrid learning may also be needed in preparation for any pandemic related disruptions. It is also important to recognize that COVID-19 has caused an increase in staffing needs in a few critical areas, so it is important that we find ways to incentivize staff to stay with the district. We recognize that teachers and staff across CMS have taken on significant additional responsibility during the COVID-19 pandemic and compensating staff for taking on additional responsibility is one way to incentivize staff to stay. The overall decrease in student enrollment in CMS, may lead to a decrease in overall teacher and staff allotments. However, we anticipate student enrollment returning to pre-pandemic levels as we are back to in-person instruction. It is important that we provide pre-pandemic level staffing allotments to our schools to ensure we are prepared when student enrollment levels increase to pre-pandemic levels while also ensuring more staff are available to the students who are enrolled, but may have greater academic or social emotional needs. This intentional strategy also ensures that we continue to employ current CMS staff. In addition, there is a need for recruitment and/or retention bonuses in a few critical areas that have experienced the greatest turnover and vacancies as a result of the pandemic and/or areas of the greatest need as we recover from the pandemic. The critical areas include: bus drivers, HVAC staff, instructional subs, EC teachers. It is also critical that we recruit teachers and staff to work CMS summer programming. 2021 summer programming is planned with ESSER II funding. Summer 2022 & Summer 2023 programming are planned with ESSER III funds. It is likely we will need a significant number of staff to commit to working the summer programs and we anticipate that we will need to incentivize teachers and other staff to commit to working over the summer. In order for students and staff to stay safe and healthy, it is critical that we invest in health and safety. This includes continued investment in personal protective equipment to ensure it is consistently available in schools. It also includes making our facilities safer by focusing on the areas that impact the spread of COVID-19. Improvements to indoor air quality will be prioritized because of the significant impacts that indoor air quality has on the spread of COVID-19. Improving indoor air quality includes controlling for optimal humidity levels. In addition, replacement of some high touch surfaces will be included to reduce virus transmission. Specific investments making facilities safety (related to COVID-19) are planned within ESSER II funds. Additional health and safety needs may be needed in ESSER III and will be identified during the 21-22 school year.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 136,035,914.47 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, underline{provide a detailed description} of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

In order to effectively address learning loss, we must assess and track where students are now, where they are at the conclusion of our summer programming, and where they are throughout the school year next year and over the next few years. Conclusion of 2020-2021 / Transition to Summer Programming: As the 2020-2021 school year comes to a close, teachers will be completing an end of year feedback form for all students in kindergarten, first and second grades and all students in grades 3-8 who will be attending summer programming and/or are in danger of retention. These feedback forms demonstrate where students finish the 2020-2021 school year by standard. For students in K-2 this information includes what reading foundational skills students have and have not mastered. Forms are available in English and Spanish. All students in grades K-8 will complete NWEA MAP assessments during the month of May. This data will show student growth throughout the 2020-2021 school year. Summer 2021 Programming: End of year feedback form data will provide a baseline for standards mastery for implementing instruction during summer programming. Standards mastery data will be entered into the data platform MasteryConnect and curriculum embedded assessments in the summer programming curriculum will enable teachers to continue to track standards mastery throughout the summer. ESSER funds will be used for the Mastery Connect platform to track individual students' mastery of standards and respond to meet student academic needs. In accordance with state law, NWEA MAP will be administered at the conclusion of the summer program. Growth data will be analyzed from the May administration of NWEA MAP to the conclusion of summer programming at the end of July. 2021-2022 Assessments & Instructional Moves: CMS will implement a robust balanced assessment system inclusive of a universal screener (NWEA MAP), diagnostic assessments (state-designated diagnostic for grades K-3), classroom assessments (curriculum embedded assessments) and summative assessments (end of grade and end of course assessments). Throughout the school year, student mastery of standards on the curriculum embedded assessments will be tracked using the Mastery Connect platform. The WIDA English Language Proficiency test data will be a major indicator of the current English Proficiency level to determine the intentional instruction moves. However, due to the pandemic, we may not have the most updated WIDA English Language Proficiency test data available. It is imperative to utilize and triangulate multiple sources of data in determining the unique linguistic needs of ELs such as authentic student work

samples aligned to the core curriculum at the varying levels of English proficiency and other quantitative, qualitative, and perception data. Data from these assessments will support teachers ability to 1) address any areas of unfinished instruction within the core curriculum, 2) provide interventions for students with significant areas of misconception that cannot be addressed within the core content instruction and/or 3) provide differentiated support for students with disabilities, students with unfinished instruction, and English Learners with acquisition of the English language as well as content mastery. DIBELS was named as the NCDPI required assessment for grades K-3. To support schools with tracking the progress of their strategies to address unfinished literacy instruction across all elementary grade levels due to the pandemic, DIBELS will be provided for CMS elementary schools as a continuation for grades 4 & 5. All students will be screened using the MAP assessment and schools will have the DIBELS assessment available for all students in grades K-5. DIBELS assessment will allow schools to determine specific needs of individual students and monitor their progress as interventions are provided.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Highly effective teachers are one of the most important factors in student academic success. As a strategy to respond to learning loss, we will be investing deeply in building the capacity of teachers. When students experience a highly effective teacher, their learning is accelerated and gaps are closed. This strategy will include professional development focused on deep content knowledge and core actions, professional development for the implementation of evidenced based math & ELA interventions, lead teachers to serve as coaches, stipends for existing highly effective teachers to coach their peers, and contracted 1:1 teacher coaching. Having a standards aligned consistent core curriculum and evidence-based interventions for math and reading are critical to student academic success and responding effectively to the learning loss students experienced throughout the COVID-19 pandemic. Over the past few years, CMS has begun implementing a standards-aligned core curriculum in math & ELA in grades K-8. Supplements to the core curriculum, including evidence based intervention resources & professional development such as Dreambox, Orton Gillingham, and iReady will be provided using these funds. In addition, it is evident based on the data that a standards-aligned core curriculum is needed in high school for math & ELA. This funding will support these efforts, including the creation of a standards-aligned core curriculum for integrated NC Math I that includes differentiation for English Learners, Students with Disabilities, and students who have gaps in their learning. In order to effectively address learning loss, strong core curriculum, differentiation, and consistent evidence-based interventions will need to be in place throughout the 2021 summer programming and the 2021-2022 school year. They will need to continue to be in over the next few years and for summer programming in 2022 & 2023. 2021-2022 Programming: CMS Instructional expectations for 2021-2022 can be found here:
https://drive.google.com/drive/folders/1N6O5h84RSzEGFCGCm1SwAj5n0rhl8whl?usp=sharing Standards taught reflect all grade level standards as indicated in the North Carolina Standard Course of Study. Included within these expectations are differentiated resources and expectations for students with specialized needs (unfinished instruction,

English language learners, students with disabilities, advanced learners). Included within this document is the CMS Standard Treatment Protocol. This includes all supplemental and intensive academic and behavioral interventions used within the district. The resources and professional development are provided for all schools. Intervention resources funded through ESSER federal funding include: DreamBox Learning, iReady, and AIMSweb. Additionally, professional development in IMSE Orton Gillingham multi-sensory reading strategies is funded through ESSER federal funding. Following the 2021-2022 school year, we plan to offer robust summer programming during the summer of 2022 and summer of 2023. As a part of our ongoing continuous improvement cycle, planning for those summer programs will be based on successes from 2021 summer programming and student needs from the 2021-2022 school year. Instructional expectations, intervention resources, and professional development that is in place during the 2021-2022 school year will be monitored for continuous improvement purposes and revisions will be made to continue to address student needs for the 2022-2023 and 2023-2024 school years. As a support to this work and build the capacity of teachers to implement the evidence-based activities needed to meet the comprehensive needs of students, we will use ESSER III funds to support extended employment for effective teachers to provide professional development, exemplars, and model classrooms for teachers to visit and learn from. ESSER III funds will also be used for substitute funding to support teacher professional development and opportunities for school improvement teams to work together on continuous improvement based on data. ESSER III funds will also be used for stipends for teachers to participate in professional development during after school, before school, and on weekends to reduce the loss of instructional time with students. Targeted schools will also be provided with 1-2 supplemental positions to support COVID recovery efforts and address learning loss. Schools will use these positions to either address chronic absenteeism, re-engagement of students, or academic gaps. School-level data will be used to determine the most appropriate use of the positions within individual schools and success will be measured based on progress in those areas. A robust after school tutoring program will be provided for the 42 low performing schools in CMS. CMS will contract with vendors to provide tutoring for students in specific grade levels and subject areas based on school data. Attendance and academic progress will be measured throughout the tutoring program and any needed changes will be made to increase the effectiveness of the program. The program will address pre- and post- pandemic unfinished learning. LETRS training is being provided by the state and required for elementary teachers. To support implementation of strategies learned, supplemental LETRS training will be provided for district specialists and curriculum coordinators, Assistant Principals & school-based administrators, and PreK staff. Some of the district specialists and curriculum coordinators will become trained trainers to support training of teachers over the next few years. To support the implementation of effective extended learning opportunities for students, district leadership in this area is needed. CMS will add a Senior Administrator for Extended Learning & Partnerships. This role will support the planning and implementation of summer programs, tutoring programs, partnerships, etc.

* (C) Providing information and assistance to parents and families on how they can effectively support students,

including in a distance learning environment;

In order for parents and families to effectively support their children with engaging in their remote instruction, they must have knowledge about how to access the Learning Management System (CANVAS) and the platform for online instruction (Zoom). Teachers and other school staff are consistently working with parents and families to ensure they can access these tools to support their child. In addition, school staff are providing parents and families with access to CANVAS and PowerSchool so they can support their child with assignments and monitor their child's grades. The CMS website also provides "how to" videos for students, parents, and families on the following topics: Chromebooks, CANVAS, NC Ed Cloud, Google Read & Write, iPads, and Hotspots. Each school offers curriculum nights that allow families to learn more about what their children are learning so they can provide support. Throughout the COVID-19 pandemic, these have been offered via zoom for families to engage. In addition, many Title I schools offer family engagement events that include opportunities to pick-up instructional resources they can use at home, such as science experiment kits, and opportunities to engage remotely to learn more about what students are learning and how to use the instructional resources at home. The main factor that impacts student and family engagement is having the staff to work one on one with families to support their needs. It is also critical that families have access to staff members that speak their language. Ensuring that we have in place additional staff in a variety of areas: Teachers, Counselors, Social Workers, Family Advocates and Interpreters is critical to provide the information and assistance needed for parents and families to effectively support their students in remote, hybrid and in-person learning. As CMS staff connects with individual families, they provide updates on student progress and connect the family with any resources needed for their child to be successful. Additional assistance is provided to parents and families through various resource pick-up options. Meal bundles are provided for pick-up to families engaging in remote learning. If a family is having issues with technology, they can drop off their device that is not working and be issued a working device. CMS also provides hotspots for reliable internet access as needed.

* (D) Tracking student attendance and improving student engagement in distance education;

The data from the comprehensive needs assessment shows that a higher number of CMS students have been chronically absent during the 2020-2021 school year. However, the data shows that absenteeism for students participating in the CMS Full Remote Academy was not as high as it was for students participating in the hybrid instructional model. It is critical that we provide the support needed for students to consistently show-up and engage in their education. Attendance data will continue to be tracked at the classroom, school, and district level and school based staff will respond to individual attendance issues through consistent outreach and interventions. The CMS MTSS framework includes attendance interventions including the Why Try program that is based in social emotional learning and as an intensive intervention called an Attendance Review Conference (ARC). Based on data and stakeholder feedback, CMS will provide additional attendance and chronic absenteeism support that is focused on solving some of the underlying issues that contribute to this problem. In addition to the approach described above,

11/9/2021 3:35:52 PM

CMS will contract with a vendor for additional attendance and chronic absenteeism support. The vendor will work to support students and families by getting them connected with community and social services needed by the family so that students can focus on school. The vendor will work with the schools to provide outreach, connections, and ongoing support for students and families to combat attendance & chronic absenteeism. In the spring of 2021, CMS surveyed families to determine how many families preferred to have a virtual/remote learning option for the 2021-2022 school year. Over 4,000 families in grades K-12 responded that they would enroll in a virtual or remote option if it was available. Based on the survey data, CMS will be opening a 3-5 and 6-8 virtual school and expanding the existing 9-12 virtual school. By offering this option, students and families that are not yet comfortable coming back in person can attend daily and engage in learning virtually. During the 2020-21 school year, remote/virtual attendance was higher than in person attendance. As a result, we see this option as a strategy to increase attendance and engagement for families who may not be ready to come back for in person instruction. Due to the timing of the opening of these schools, ESSER III funds will need to be used to provide staff for the virtual school. Once students are enrolled, CMS will use the district allotment formula to move positions from schools where enough students left to enroll in the virtual school. However, we anticipate this will not be enough staff to cover all of the staffing needs because the students enrolling will not all be coming from a handful of schools, but will be spread out over all CMS schools. ESSER III funds will also be used in the first year of the virtual school for the Principal, Assistant Principal, teachers, and other support staff such as counselors and media coordinators. This need exists for the first year of the virtual schools because they were established after staffing allotments were provided. Safety concerns impact students attending school in person. As a result, we will be investing using the ESSER II funds in making our buildings safer with a focus on improvements to indoor air-quality. We will continue to use ESSER II & ESSER III funds to provide personal protective equipment. In addition, trained medical personnel are critical to safety efforts and ensuring students feel safe coming to school, so we will continue to invest in Nurse Extenders for schools using ESSER II & ESSER III funds. Student social emotional and mental health needs impact attendance to remote and in-person instruction. As a result, we will invest in trained staff to provide support in social emotional learning, provide time during the school day for social emotional learning (SEL), supplement the existing K-8 SEL curriculum with a High School SEL curriculum, and provide additional school-based mental health services to support student needs. CMS tracks student attendance as a district and will use this information to provide additional district level support to schools and learning communities with the greatest needs in the area of attendance with the goal of re-engaging students. Schools track student attendance and counselors, social workers, and psychologists work with the families directly to identify needs or barriers contributing to attendance issues and potential solutions. Attendance and engagement in remote instruction is dependent on a number of factors. In order for students to consistently login and engage with their remote instruction, they must have access to a working device and reliable internet. As a result, CMS will continue to provide devices and internet access as needed to families. Another factor that impacts student attendance and engagement in remote instruction is having adult supervision and an appropriate environment for learning. We recognize that many parents and families need support

in this area due to their work schedules. As a result, CMS has engaged community partners to offer remote learning sites throughout the district. We currently have 31 active remote learning sites for students and families to use. If needed, CMS will consider expanding remote learning sites to support students and families with engagement in remote instruction.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

The data shows that there are a higher number of CMS students who have received a failing grade in math and/or reading/ELA than in previous years. Data analysis and tracking of student progress will be ongoing to address student learning needs and learning loss. This process will include data analyzed to prioritize students for summer learning for the summer of 2021 and continued tracking of student progress throughout summer school and throughout the 2021-2022 school year. Student data has been analyzed to determine students in need of being prioritized for summer programming in 2021 and potential additional support in 2021-2022. Students in grades 3-8 were identified based on course failures in ELA and mathematics. Students in grades K-2 were identified based on performance on the Measure of Academic Progress (MAP) assessment, the district's universal screener. Specifically K-2 students not having met their growth targets and/or performing below the national norm were identified as at risk of academic failure. A last factor we used to identify students at-risk of academic failure in grades K-8 was chronic absenteeism, which is consistent with updated federal accountability reporting. Students in grades 9-12 were identified based on course failures in ELA and mathematics. Two additional factors applied to identify students at-risk of academic failure were chronic absenteeism, and suspension rates. This "ABC" approach (attendance, behavior, course performance) is based on research of students that fail to graduate on-time, and serve as the basis for the district's Early Warning Indicator system in grades 9-12. The list identified students by school was provided to each school principal in the district data portal. School staff contacted parents directly to inform them of their child's academic standing and eligibility for summer programming. Targeted school-based outreach efforts included: individual phone calls, distribution of a parent information flyer, Connect5 messages, and individual outreach from teachers. As a result of COVID-19, secondary counselors will need additional hours of extended employment to review grades and course completion for each student, incorporate grades and course completion from summer programming, and create a plan to get students back on track for on-time graduation and post secondary success. There will also be a need to for increased counselor support & horse to serve students as they navigate college searches and college preparation after the COVID-19 pandemic as it has caused an abnormal high school experience for all students. Throughout the 2021-2022 school year academic progress will continue to be tracked using the data from the robust balanced assessment system, the mastery connect platform, and student grades and course performance. Teachers will respond to ongoing data with differentiation and interventions as outlined in the CMS Instructional Expectations. District level data will be tracked to provide additional district level support to schools with the greatest needs.

11/9/2021 3:35:52 PM

Counselors and other support staff will also continue to respond to academic progress and provide appropriate support to students to get them back on track. Additional academic support will be provided to students based on their needs. Academic supports will include summer programming (2021, 2022, 2023), differentiation, interventions, and tutoring. ESSER II and ESSER III funds will support the academic supports that are needed through staffing and resources. In response to learning loss from the pandemic, MTSS will play a major role in ensuring student needs are met. An action team has embarked on a plan to implement systems and practices to ensure that all students in need of academic intervention receive them regardless of the level of need at their school. An important part of this plan is to effectively and accurately track data relating to students in need of and receiving academic interventions. In order to track this data, the district needs to identify and purchase a data system in which screener, intervention and progress monitoring data can be stored, updated and actively monitored at the school, learning community and district levels. In addition to the data platform, ESSER III funds will be used to support stipends for MTSS Leaders at each school and interventionists to provide interventions to students.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ◉ No				$

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ◉ Yes ○ No	In coordination with the state and local health department, CMS has started a COVID testing program in schools. Each school has selected a point person who will take on the additional duties associated with this testing program. A COVID additional responsibility stipend of $750 will be provided to the point person at each school for taking on the additional duties.	2021-2022	Impact will be measured by: Successful implementation of COVID testing program in schools	$ 201,950.63
	* ◉ Yes ○ No		2021-2022, 2022-2023 & 2023-2024 school years	Impact will be measured by: Suspension data Attendance data Reduction in chronic absenteeism	$ 8,071,840.63

| ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population. | | Behavior support coordinators trained in restorative practices and social emotional learning; Translators and Interpreters; Bilingual Family School Advocates & interpreters to re-engage chronically absent EL students; Multiple language supports for school front offices and a district language assistance line; 12 Lead BMTs for behavior support; 6 Behavior Support Technicians for EC students; | | | |

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◉ Yes ◯ No	Nurse Extenders to ensure personnel with medical training at schools to screen and respond to identified health needs that may be associated with COVID-19; Personal Protective Equipment; 6 COVID-19 Response Coordinators - 1 to support each learning community; 1 additional Coordinated School Health Specialist;	2021-2022, 2022-2023 & 2023-2024 school years	Impact will be measured by: Compliance with established procedures to reduce the spread of COVID-19	$ 3,324,408.26
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ◯ Yes ◉ No				$

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ⊙ No				$
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ⊙ No				$

| EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment. | * ◉ Yes ○ No | Student devices: Chrome books; Subscription for web-based video conferencing; devices for translation services for school front offices to re-engage EL students and families; Online learning tool - DESMOS to support math instruction: Additional NCVPS course registrations due to increased need at the CMS Virtual HS and due to teacher vacancies | 2021-2022, 2022-2023, 2023-2024 | Impact will be measured by: All students having access to up to date technology that is working properly All students will have connectivity to engage in learning | $ 14,415,000.00 |
| MENTAL HEALTH SERVICES: Providing mental health services and supports. | * ◉ Yes ○ No | | 2021-2022, 2022-2023, 2023-2024 | | $ 17,093,569.80 |

		Contracted school-based mental health services: Suicide Prevention Program: Sources of Strength; High School Social Emotional Learning Curriculum; Additional counselors, social workers, psychologists; Coaching and support for teachers for implementation of SEL curriculum; 3 additional Substance Abuse Prevention Counselors; 4 additional section 504 Counselors; 1 Crisis Response Coordinator		Impact will be measured by: Panorama Assessment for Social & Emotional Learning Number of students participating in school-based mental health services	
		CMS plans to offer summer programming during the			$ 9,409,212.53

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ○ No	during the summer of 2022 & 2023 A free, full-day summer experience for K-12 students with in-person learning, Monday-Thursday, plus physical activities and enrichment. Prioritizing students that have been identified as having the greatest need for summer learning. The summer program will include transportation for students, meal program, daily enrichment & physical activity, student wellness support, and academic support targeted to student needs. Costs covered by ESSER III will include	Summer 2022 & Summer 2023	Impact will be measured by: Results of the competency-based assessment given to students in grades K-8 at the beginning of the program as compared to the end of the program. Number of students who progress to the next grade level after participation in the summer program. Course performance in summer courses Number of high school courses (new and credit recovery) completed successfully	

11/9/2021 3:35:52 PM

		transportation, staffing, incentive pay for staff, and curriculum materials			
OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ◯ No	Staffing: stabilization of staffing levels across CMS to pre-pandemic levels despite the decrease in student enrollment; Recruitment bonus for bus drivers, HVAC staff, EC teachers, and instructional substitutes. Retention bonus for bus drivers. Instructional Sub bonus: 5 jobs per month = $200; 10 jobs per month = $500; Leadership professional development related to leading a school during pandemic recovery; Guest	2021-2022, 2022-2023, 2023-2024	Impact will be measured by: Continuation of current staff positions to keep CMS staff employed Vacancies, recruitment, retention of bus drivers, HVAC staff, EC teachers, instructional subs HR data - handling of COVID related HR/ER issues	$ 129,161,022.68

		recovery; Guest Teacher positions for continuity of instruction in all CMS schools due to staffing issues and sub shortages; 7-8 Central Office HR Staff due to increased HR issues from COVID-19 (leaves, ER complaints, higher staff turnover & increased vacancies); Federal Programs Staff (grant administration); Indirect Costs; Unbudgeted Reserve - will be used for any additional needs that arise due to COVID-19			
			Total ESSER III Allotment	$ 181,677,004.53

11/9/2021 3:35:52 PM

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Charlotte-Mecklenburg Schools (600) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - New Applicant Summary

 There are no new applicants.

GAN Information

Charlotte-Mecklenburg Schools (600) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Mitchell County Schools (610) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

The needs assessment and plan was a collaborative effort between district stakeholders, including but not limited to, the Superintendent, district level administrators, community organizations, and others. Once information was received from the various groups, the district leadership team met to evaluate and identify needs. Once this process was completed, budget items were created with those needs to determine a plan for implementation of funds. In order to assess and address learning gaps, students have been and will continue to be progress monitored and evaluated using both summative and formative instruments to determine areas of strengths and weaknesses. This data will be used to plan instructional practices, develop intervention strategies for both group instruction and individual students needs as well.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Facility Repairs: Mitchell High School locker rooms and first floor bathrooms have their original sinks and toilets from 1975. The replacement of these fixtures will assist in reducing the risk of virus transmission in the school. Air Quality: Due to the age of our buildings, they currently do not have adequate ventilation systems. To ensure the proper air flow that will support student health needs, updates to current HVAC systems will be needed. Most of our HVAC systems in our district are over twenty years old. Supplies to Sanitize and Clean: The purchase of custodial cleaning guns, a cleaning machine, cleaning supplies and PPE supplies will replenish the supplies used this year and are key to limiting exposure to germs and maintaining a safe environment. Special populations: As a result of Covid, we feel that air purifiers are need in our Exceptional Children's severe profound classrooms. Since these students are at extreme risk, addition air purification is required. Also, a washer and dry is needed to help provide clean garments, facial covering, etc for low-income students and exceptional students at Greenlee Primary School. Education Technology:As a result of COVID-19, Mitchell County Schools is making as many opportunities for educational learning happen simultaneously. Students receive instruction remotely, in-person, and/or in blended instruction. Student devices are a necessity in order for them to learn on a daily basis. Instruction continues no matter what mode of learning is used. Devices also come at a cost. There is an initial cost and then a cost to replace and maintain. Summer Learning and Learning Loss: By maintaining at risk teachers we will be able to provide more intense instruction for at risk students. Students will have the opportunity to receive support to bridge the learning gap created as a result of Covid. The teachers will target learning loss, develop intervention strategies, and analyze student data to adjust instruction for reading and math. Currently MCS does not operate an after school program, MCS will utilize multiple fund sources to develop an after school program to support students with academic gains throughout the academic year. Mental Health Services: As a result of Covid, MCS has an increased need for mental health support for students. Currently, we have four school counselors for the seven schools in our county. The is a 1:436 school counselor to student ratio.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$	998,668.00	* 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students'

academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

MCS will utilize high-quality assessments to determine students' academic progress and to drive instruction. MCS has used and will continue to use a comprehensive screener with all K-8 students. The screener that we use is iReady for K-8 math and 4-8 literacy. K-3 literacy will be determined by the state. MCS will use NC Check-Ins, K-2 math assessments provided by NC, formative assessments paired with teachers' input to measure academic progress and use the data to differentiate instruction.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

MCS will continue to provide professional development in the science of reading. Teachers are trained to implement either RRtCP or Orton-Gillingham strategies and use the SPIRE Program with at risk students. Teachers will implement best practices, such as small group instruction, immediate feedback, and use all data points to drive instruction. Intervention time will continue to be in the master schedule at all schools, in order to focus on areas of academic and behavioral needs. MCS will continue to implement the structure of MTSS, focusing on core instruction and providing supplemental and intensive instruction for those that need the extra support. MCS will utilize at-risk teachers to support students with intensive instruction with activities described above.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

MCS information is shared over a variety of media platforms such as: web page information, facebook, letters to parents, email, and School Messenger. Our district phone calling system is utilized to communicate general school information, while Class Dojo and Remind are used by educators to connect with families. Educators schedule either face-to-face or virtual conferences with families to provide further individualized support. Parents can also access student progress information through PowerSchool learning for Grades 3-12. Teachers distribute mid-term progress reports to update parents on student progress. Schools will resume parent nights in-person and virtual if needed.

* (D) Tracking student attendance and improving student engagement in distance education;

For students in remote learning environments, attendance is taken on a daily basis. Students are required to complete a daily check-in activity. Students receive a 1R code, for present off site and a 2A code if it is an unexcused absence. For students that are in person, attendance is taken daily. Student attendance is monitored by classroom teachers and by school level administration. If attendance concerns arise for any student, the school social worker and school guidance counselor investigate and provide support. Strategies to improve student engagement in distance education include a combination of best practices and platforms that offer an engagement piece. Teachers will continue to use Nearpod as a tool to boost student participation with collaborative activities and formative assessments like Virtual Reality, Polls, Collaborate Boards, and game-based quizzes. Teachers will be able to gain student insights in real-time

and in post-session reports. Best practices include teachers and other stakeholders building relationships with students and their families to promote an environment of engagement. Teachers and students will have the necessary tools and technical support to succeed in a remote setting.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Students will be progress-monitored monthly in reading and math using a comprehensive screener. Students' progress will be compared to pre-pandemic academic success to identify those that experienced learning loss. Students' data will be analyzed during PLCs to determine what students know, what they do not know, and what strategies/interventions teachers will implement to meet their needs. Throughout this process, educators will use the MTSS framework to guide them through important processes in tracking, evaluating, and comparing data to determine learning loss and growth made over time as a result of interventions.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ○ No	Hands free bathroom fixtures (sinks, toilets, hand dryers) will be installed in locker room and 1st floor bathrooms at Mitchell High School.	July 2021- July 2023	This will be extremely helpful in keeping germs and bacteria to a minimum which should result in reducing the spread of Covid transmission.	$ 60,000.00
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ○ No		July 2021- July 2023		$ 210,968.00

		As a result of COVID. we plan to improve the air quality in our schools, we plan to have HVAC inspections and update HVAC systems to enhance filtration in 4 of our schools. As a result of COVID, we would update the air filtration system in the art room at Mitchell High School. As a result of COVID, we would replace two sets of doors at Harris Middle School with Keycard access to track and monitor access to the school.		In response to COVID, we plan to have inspections of our HVAC systems to determine updates or replacement to improve the air quality for our student and staff. Improving the filtration will help to reduce the spread of COVID. The replacement of the doors at Harris with Keycard access will offer tracking of individuals who are entering the building. These doors will be placed at high access points which will help with the reduction and spread of COVID.	

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◉ Yes ○ No	To improve air purification, we plan on installing Air purifiers in our severe profound classrooms to help minimize the risk of Covid. To purchase and install a washer and dryer for Greenlee school to sanitize student clothing to reduce to the spread of Covid.	June 1, 2021- July 1, 2023	This will help filter air flow in the EC severe profound classrooms, to help reduce the transmission of Covid. This will be used to wash and sanitize clothing, facial covering, and personal hygiene items to help reduce the spread of Covid.	$ 14,000.00

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ⊙ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ⊙ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⊙ Yes ○ No		July 2021- June 2023	The supplies being purchased will impact our schools by having clean buildings that have been properly disinfected and cleaned to safeguard the health and safety of our students, staff and visitors.	$ 41,000.00

		7 Disinfectant spray guns will be purchased for each school to have for disinfecting classrooms, lunchrooms and gym spaces. A floor cleaning system will be purchased to clean rubberized floor surfaces in our gyms, weight rooms and wrestling mats to reduce the transmission of Covid. Custodial cleaning supplies will be purchased for all schools to meet cleanliness standards. PPE supplies will be purchased for students and teachers to maintain health standards during a pandemic.			

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ⦿ No				$
	* ⦿ Yes ○ No		July 2022 and September 30, 2024	Students will be able to complete work and take formative and summative assessments both on and off campus as a result of having devices.	$ 340,000.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		Mitchell County Schools use student devices for 9-12 students. These devices are used for daily instruction in regular and remote schedules. In response to COVID-19, students have been on an irregular schedule. Students have been in many locations to complete work; therefore, causing more wear and tear on devices. Recouping this money will allow us to pay for the upkeep required.			
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ○ No	In response to COVID, Mitchell County Schools has seen an increase in the need for mental	June 1, 2021-September 30, 2024		$ 152,000.00

		need for mental health support services for students. COVID has increased anxiety and other mental health issues in our students as they return to school because of the lack of social interaction with people outside their home. We need additional guidance counselors to provide these services to our students and families. All our guidance counselors, with the exception of one high school counselor, serve multiple schools. Therefore, if a student needs to talk to a counselor, one may not be immediately available.		Students will receive support and services more efficiently. Addressing mental health needs will impact academic success and school attendance. Students and families can be connected with community resources.	

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ⦿ Yes ◯ No	As a result of Covid, several students have experienced learning loss. MCS would like to provide the adequate staff needed to provide a summer learning program. Funds will be used to fund teaching positions, bus drivers, guidance counselors, cafeteria staff as needed to support an effective summer program. MCS currently does not have an after school program. MCS will utilize funds in conjunction with our funding sources to create an after program. Funding will be utilized fund staffing, needs,	June 1, 2021- September 30, 2024	To provide students with the opportunity to have summer instruction/after school programming and enrichment to regain some of the instruction that was lost during the Covid, closure. Students will receive instruction in reading, math, and science as well as enrichment activities to help close the learning gap.	$ 798,963.00

		materials, transportation.			
OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ○ No	Indirect cost will be set aside.	July 1, 2020-September 30,2024	Indirect cost will be set aside.	$ 60,000.00
				Total ESSER III Allotment	$ 1,676,931.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Mitchell County Schools (610) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

GAN Information

Mitchell County Schools (610) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Montgomery County Schools (620) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Montgomery County Schools operated on Remote Plan "C" until March 8, 2021, due to Covid-19 levels and the county continuously being identified as a "Red" for positivity rates. Resounding feedback from community members helped guide decisions to remain on a remote learning plan to ensure community safety. MCS transitioned to Plan "B" instruction on March 8, 2021, and aligned with state mandates to return to Plan "A" on April 12, 2021, for all grade levels. Approximately 30% of our students remain on a fully remote option for the remainder of the 2020-21 school year. MCS is committed to making decisions that benefit all students that attend our schools whether face-to-face or virtually. The leadership teams in MCS worked collaboratively to address the most important items to ensure students are receiving high-quality instruction and support services. Feedback from teachers and community members informed leadership discussions concerning the most important needs to address remote learning and transitions back to face-to-face instruction. Areas identified aligned with district strategic goals and have assisted in the return to safe operation while addressing any potential issues that arise. These discussions were facilitated through virtual staff meetings and virtual school improvement meetings to gather school level information to drive district-level meetings. Monthly principals' meetings facilitated discussion concerning areas for improvement and collection of issues that

needed further research to address. These meetings were imperative for continuous communication between levels and facilitate feedback to community members. Community members provided responses on various communication channels. Surveys, emails, and responses on social media platforms helped guide decision-making efforts. One key area identified was investment in educational technology to address issues with devices, software, and infrastructure to ensure students' access to high-quality instructional materials. This will allow all students to receive instruction regardless of the learning environment they and their families choose. This access will also address operational issues that could impede the dissemination of instruction through the multiple channels being utilized. These technology resources allow teachers to address learning losses through the building of intervention plans utilizing educational platforms to bridge gaps. In addition, these resources assist in facilitating classroom environmental changes to focus on small group instruction strategies to properly differentiate instruction. Other areas identified are related to the support of instructional activities and student needs. Technology support, social and emotional learning supports, response to Covid-19 issues, and improving air systems within the buildings are identified as critical improvement areas to ensure student safety and learning. As learning evolves in response to Covid-19 and the transition to modified operations, we feel the following are key points that will allow us to ensure student success: - Educational Technology o Continued support of learning management systems (Canvas, Google Classroom and Seesaw) for coordinating teaching and learning o Refresh all teacher devices to ensure functionality to support face-to-face and remote learning for all students (375 devices) o Microsoft licensing to continue providing the software needs of students o Instructional platforms to address learning loss (iReady, Impero, ReadyGen, etc.) o Refresh all student devices to ensure proper functionality to support learning initiatives and software platforms (3,800 devices K-12) o Ensure classroom technology allows for the instructional delivery of new teaching methods by upgrading old technology to facilitate learning (400 classrooms) - Improving Preparedness o Ensure proper personnel are available to support technology usage and address any health related impacts of Covid-19 (2 Digital Learning Coaches) o Continue to ensure students have reliable internet connections through mobile hotspots - Coordination of Preparedness o Employ a district-level individual to oversee the coordination of potential Covid-19 related issues - Providing Principals with resources o Ensure that schools have adequate postage and copying resources to address student needs o Provide resources to ensure students are able to access individual manipulatives to support learning.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Montgomery County Schools has implemented many new initiatives as a result of Covid-19 and the impacts it has had on the educational environment. These initiatives have started new processes and increased communication both

horizontally and vertically to address the needs of all students. As the district transitions back to face-to-face instruction, many of the positive impacts of remote learning will be continued in the classroom to facilitate instructional practice. The utilization of learning management systems has enabled the streamlining of disseminating learning materials, collection of completed assignments, and better turnaround times for feedback and grades to inform students of their progress and performance. The process requires technological support to manage systems and devices for students to access the systems. The utilization of these learning management systems has enabled better deployment of assessment systems to facilitate district initiatives for continuous improvement. MCS utilizes the PDSA (Plan-Do-Study-Act) cycle for continuous improvement, which has allowed both students and teachers to analyze current and relevant data to inform instruction. These data points are varied and are collected in a timely fashion to be analyzed to address instructional decision-making. Data points utilized to inform classroom instruction include NC Check-ins, iReady diagnostics, and common formative assessments. Assessment data and student progress drive discussions and decisions in weekly PLC and MTSS meetings, vertical PLCs, and district PDSA meetings to analyze larger data sets across the district to improve student outcomes. Nine campuses employ a full-time Instructional Facilitator, who guides the disaggregation of data and discussion of instruction based upon the assessments. All data is presented to students through virtual PDSA boards to allow their ownership of data and performance. Data points are collected through multiple digital platforms, which makes it imperative to keep technology up-to-date. Many district level meetings continue to be conducted through virtual platforms adding to the importance of maintaining the most current technology for not only students but also teachers and administrators. Technology support efforts must be continued to ensure that students and teachers are able to access platforms utilized to drive instructional and improvement practices. Maintaining technology support personnel to assistance and train the digital efforts of the district will allow the district to continue the positive impacts of remote instruction to better serve the students. Student support services will continue to be a necessity as we slowly return to a more routine instructional day. Key personnel have been working with teachers to better identify social and emotional learning cues to work with identified students to ensure that their mental and physical health are at levels are fit. This tremendously important effort is imperative to the overall health of students, which directly affects the ability to learn effectively. These positions will be maintained utilizing funding and will continue to offer the supports necessitated during these times of difficulty. Communication with all stakeholders is a key component to operating a successful school. Principals need resources available to them for communicating with parents/guardians and community members in multiple communication channels. Funding for communication will drive the effectiveness of an informative school and ensure community members are aware of important programs and events within the school. Principals also need to be able to make learning manipulatives available to ensure that all students have what is needed to participate in learning. A greater emphasis has been identified for the need of individualized learning resources to ensure students are safe from transmission of potentially deadly infectious microbes. Adequate funding is necessary to support principals as they address any potential communication and/or resource needs. As more information is available about the Covid-19 virus, the need for

continued efforts to address cleanliness of buildings and response to potential issues is very important to addressing parental concerns. Funding will be utilized to purchase additional cleaning supplies and sanitization materials for ensuring the safety of all students. Additional personnel required to address any potential virus-related issues will be utilized to handle exposures and the coordination of district responses to minimize community concerns. This will allow for a seamless and timely response from the district.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 1,886,187.60 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Montgomery County Schools understands the importance of tracking and analyzing student data to inform instruction allowing differentiation and appropriate interventions to address student needs. MCS will utilize IReady, provided by the state, as an approved tool for assessment for our summer program to address learning loss cause by the Covid-19 pandemic. IReady assessments give actionable data that provides a foundational understanding of students' strengths and areas of need. These data points provided by IReady will drive the instructional delivery, aligned with course content standards, during the summer camp program to address student learning needs.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

-    1 on 1 instruction with tutors -   Small group instruction for providing interventions -   IReady assessments will inform interventions -   AVID practices -   Enrichment opportunities will reinforce instruction -   Social-Emotional Learning o   ACEs resources o   Zones of regulation o   Second Step o   Check and Connect -   Programs that will be utilized: o   Letterland o   Ready Gen o   Carnegie Math o   Edmentum o   Technology resources aligned with the Triple E framework o   STEM Scopes o   Reading Counts (SRI) o   Guided Readers o   IReady resources/lessons

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Montgomery County Schools will send each student identified as at-risk a letter inviting them to attend the summer extension program. Information will be posted on the district and individual school webpages to offer information to parents and students about the summer opportunity. The district and schools will utilize our automated call out service (Swift K-12) to disseminate information to parents and students about summer programming. Individualized student information will be provided through interim reports and the student diagnostic report provided through the IReady platform. The district has information on the website instructing parents how to access learning platforms. Teachers will be available to conference with parents and provide support resources for student learning. MCS Digital Learning Coaches have developed parent resources to assist with remote learning platforms for both students and parents. These resources have been shared through multiple communication channels.

* (D) Tracking student attendance and improving student engagement in distance education;

Montgomery County Schools supports school efforts to inform and assist students and parents in regards to attendance and engagement. Each school employs a Student Assistance Team (SAT) to track student attendance data, academic progress, social-emotional needs and assessment data to create an all-encompassing profile for each student that exhibits the characteristics for at-risk identification. Members of the SAT include personnel to address all aspects of whole child development. Team members can include the following individuals: Principal, Guidance Counselor, Trauma/Mental Health Counselors, EC staff, Nurses and classroom teachers. This team meets bi-weekly to remain up to date on any new information that can inform resources and support provided to the student at the school and/or district level. The supports identified be the SAT are communicated with students and parents to better serve the student and family. The MTSS process is vital to identifying contributing factors to capture the needs of students for referral to the SAT. Specific programs offered are tailored to each individual case and may include any of the following: - Strengthening Families - Check and Connect - RTI Stored - Social Circles - Mentorships - Teacher Advisory Groups

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Montgomery County Schools has many processes and procedures in place to disaggregate student data to inform school and district leadership to address any potential learning loss issues a student may be experiencing. Our district employs the PDSA continuous improvement cycle to inform instructional practices and guide teachers in addressing learning needs. This is the foundational method of identification to begin further analysis of student academic progress to inform the next steps in supporting instruction. Teachers meet weekly with Instructional Facilitators to disaggregate data and look deeper to identify gaps in student learning. Teachers collaborate to identify resources and strategies to

address student needs and design interventions. MCS utilizes a common formative assessment system to align teachers to standards and create a district data source for comparison to classroom performance. This informs teachers of standards that need to be spiraled into classroom instruction. These district data sets also provide valuable information that assist with identifying individual learning loss. This also enables collaboration amongst teachers to identify best resources and effective instructional strategies. MCS also uses Vertical PLCs to share data collection forms to the future teacher to provide individual student performance data and anecdotal notes that will promote student success at the next grade level.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ○ No	Montgomery County Schools will utilize outside contractors/counsel to assist in the identification of potential transmission sources, develop plans for correction and assist in the identification of cost effective equipment.	July 2020 - September 2024	Identification of potential transmission sources with correction plans. Expertise of outside contractors assisting in cost-effective solutions.	$ 66,291.45
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ○ No		July 2020 - September 2024	Comprehensive analysis to pin point areas to focus efforts for improved facilities. Improved air quality and reduction of the potential for virus transmission. Improved attendance data for students and staff.	$ 1,789,869.36

		Montgomery County Schools will invest in the improvement of facilities based upon the recommendations of an outside contractor to ensure safe environments that are conducive to student learning. HVAC upgrades at school sites that have been identified as priority projects to address as soon as possible.			
	* ○ Yes ○ No		July 2020 - September 2024		$ 242,640.57

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.		Montgomery County Schools will employ an Executive Director of Auxiliary Services to coordinate school issues with the appropriate district office to ensure issues are resolved to positively impact students' health and safety. This position will oversee all potential Covid-19 related matters and provide effective communication and support for efficient resolutions. This position will serve as a liaison between MCS and other agencies.		Time lines for addressing potential issues will be expedited due to the efficient oversight of the position. The district will track work order completion rates to ensure all issues are handled in timely fashion. Timely and articulated communications between the district and all stakeholders.	

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ◉ No				$
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◉ Yes ○ No	Montgomery County Schools will utilize funding to ensure nursing staff members are available to address and respond to any potential occurrences of the virus. Nursing staff members will also provide health advice to ensure families are following recommended guidelines. Digital Learning Coaches	July 2020 - September 2024		$ 429,537.34

		will be employed to assist with the delivery and facilitation of learning across multiple modes of instruction. They will assist both students and teachers to ensure the efficient and effective use of digital resources aligned to content standards. These funds will be utilized to provide a fair and level opportunity for all students to participate in learning through the continued allocation of hotspots.		Nurses will provide efficient response to potential infections to ensure student safety and health. Effective communication to educate stakeholders of current guidelines to follow to maintain health and wellness. DLCs will provide effective instructional support in timely fashion to maintain effective instruction in all learning environments. Hotspots will be utilized to minimize impacts of learning loss due to potential quarantines.	

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ⦿ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ○ No	Montgomery County Schools will follow all the current guidelines for cleanliness and will ensure that the school buildings will be clean to provide a safe environment that is conducive for learning. Additional sanitation services will be contracted as necessary to provide for the health and safety of staff and students.	July 2020 - September 2024	Clean and healthy learning environments will minimize the impacts on staff and student attendance rates. This data will be tracked and analyzed to respond to suspected issues to address individual building needs.	$ 163,118.87

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ⦿ No				$
	* ⦿ Yes ○ No	Montgomery County Schools will maintain the 1:1 initiative that has allowed us to effectively provide instruction during the pandemic. With the continuation of the positive impacts of digital learning, it is imperative that students are provided devices	July 2020 - September 2024		$ 1,426,749.13

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		that are current and align with software requirements. Current licensing to support digital learning is a must to continue the benefits of hybrid learning. This will allow for seamless transition to remote learning in the event of school closure or student quarantine. Security of devices and student access to materials has to be prioritized and maintained to ensure student safety. Teacher devices must be upgraded to meet software requirements and allow for the effective delivery of instruction to all students. Classroom technology is vital to the presentation and delivery of instruction and		Efficient and effective instruction of all students regardless of the setting for learning. Funding will provide for equitable access to learning materials, systems and resources that support content acquisition. These devices and platforms will allow students the flexibility to continue learning in the event of exposures.	

		instruction and must assist in the facilitation of learning across multiple communication channels.			
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ⦿ No				$
SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ⦿ Yes ○ No	Montgomery County Schools recognizes that due to the circumstances of the last year, the majority of students could be determined at-risk based upon the nature in which students have been forced to learn. MCS will utilize remote participation data, performance during remote instruction, data points collected through district improvement procedures and	July 2020 - July 2024		$ 32,261.28

		teacher recommendations to determine the students to invite to the summer extension program. A typical day for MCS students will include in-person instruction in reading, math, and science. Enrichment activities will be a part of the typical day to increase engagement and connection to student learning. Activities and instruction will address the academic, emotional, social, and physical needs of each child. Student needs will continue to be tracked and identified during the summer program and addressed by support staff. MCS will employ multiple		Comprehensive assessment data and recovered credits will offer the district the information needed to assist students with future planning. Data will inform future teachers of growth made by students and offer valuable information to create an individualized plan for each child to close remaining gaps. Secondary students recovering credits allows Guidance Counselors to adapt graduation tracking forms to monitor student progress towards diploma requirement completion.	

		levels of support staff to address all student needs of the program.			
OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ◯ No	Montgomery County Schools plans to allocate funding to ensure communication with parents is effective and in a channel that is conducive to the subject matter being disseminated. This includes both postage and printing costs. Funds will also be allocated to support classroom instruction while ensuring each student has individual manipulatives and materials to minimize the potential for transmission. Additional funds will be allocated to support the recruitment and	July 2020 - September 2024	Ample communication will be provided to stakeholders to increase awareness of school events and topics. These funds will assist in minimizing the impacts to school funds for the dissemination of printed materials. The purchase of individual resources will lessen the potential for transmission and will lessen the impacts on student attendance. Highly qualified teachers are becoming more	$ 88,137.65

		retention process to acquire highly qualified teachers and retain them after employment.		difficult to hire. Funds will be utilized to increase recruitment and retention efforts.	
				Total ESSER III Allotment	$ 4,238,605.65

Part E: Assurances

Check **all** *assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:*

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.

LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)
An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Montgomery County Schools (620) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

Montgomery County Schools (620) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Moore County Schools (630) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

The Moore County Schools CNA process included various stakeholder groups over a series of work sessions to provide an extensive evaluation of the needs and impacts of Covid-19 on the district, and how to leverage resources and braid funding resources accordingly to maximize resources. The CNA planning process began in January 2021 and various stakeholder groups met on a weekly and biweekly basis to review student performance data, AIG and AP data, teacher, student, and parent surveys, principal/school need surveys, MCS leadership priorities (goals/strategies), 2019-20 CNA, benchmark student data, SEL student surveys, EOG/EOC data from previous years, projected student retention reports, and student attendance data. Our stakeholder groups consisted of MCS Senior Leadership, MCS Board of Education Members, Moore County Commissioners, School Improvement Teams with Parent Representatives, all MCS departments, and respective support staff. Funding will be used to address learning loss through the addition of educational technology resources, instructional software programs, and student instructional resources all to help address learning loss. Mental and behavioral support and additional student screenings for MTSS tiered intervention support. Resources will be used to address learning loss through comprehensive professional development K-12 to support effective core instruction and to build capacity in support of closing achievement gaps

11/9/2021 7:08:04 PM

and addressing student needs as a result of Covid-19 impacts. Resources will be used to maintain the current level of student support in place and provide additional instructional assistants to serve and support students. In addition, ESSER III resources are being used to support the Summer Extension Learning Recovery- Power Up Summer Academy to help address learning loss and is an extension of some of the resources in place from ESSER II funding to support student learning loss, and provide remedial services to our most vulnerable students. In addition, Panorama and Frontline management will help us survey student progress, monitor additional services in place, manage student screenings, gain stakeholder input on the services being provided and benchmarks being met so adjustments can be made accordingly, and use of these resources can be maximized during the grant period. Data tracking is imperative to make sure student needs are being tracked and assessed accordingly. There are some major capital improvement projects necessary in our older buildings to improve air quality, provide outdoor classroom settings, outdoor eating areas, and building upgrades needed to improve air quality and to help stop the spread of Covid-19 and improve quality in our school buildings. Funds will also be spent on student devices to ensure that there is equitable access for all students, hot spots for internet access at student's homes, and instructional software programs for students to support instruction. Moore County is a 1:1 device to student district, but we had dated equipment in an area in need of a refresh to ensure those students did have quality equipment for daily instruction, remedial instruction, and summer extension services if needed due to learning loss. The MCS CNA process will drive all program and federal funding plans and resources will be braided accordingly to maximize efforts. Based on the outcomes of the CNA the following focus areas to meet student needs as a result of Covid-19 impacts are as follows: Mental Health and Special Populations services (2% of budgets), Educational Technology support for students (10-11% of budgets); Providing Principals with resources (10-11% of budgets); Addressing Learning Loss (30-31% of budgets); Improvements to facilities and improved air quality (45-45% of budgets); all of these initiatives are responding to learning recovery through evidence based interventions that respond to students academic, social, and emotional needs or are addressing capital needs that are appropriate and necessary for preparing for, responding to, and preventing Covid-19 in our facilities.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

The district composite EOC/EOG performance score has remained stagnant since 2015-16. It declined by 0.9 percentage points from 2017-2018 to 2018-19, and continued a slight two-year downward trend; which mirrors the state trend. The MCS composite is up by only 0.2 percentage points from 2015-2016. The district's 2018-19 Grade Level Proficiency (GLP) composite score was 61.1% compared to the state GLP composite of 58.8%. Due to the

Coronavirus closure, students did not take the EOC/EOG exams in 2019-20, so data for 2019-20 was not provided. The team continually tracks and analyzes Check-In data to chart the progress of schools. At Aberdeen Elementary School and Robbins Elementary School, NCCAT Literacy Badges are being earned with a goal to raise proficiency rates for students of color by building the capacity of teachers in the Science of Reading. This data is used to map out standards that are needed to be re-taught. Spiral review plans for science and math have been developed. The end of year assessments will be taken in 2020-21. Initial first semester data indicates that Moore County Schools exceeds first semester state proficiency by more than 6% in each tested subject area. Fall (First Semester) End of Course Comparison Results 2020-2021. The headcount for Academically and Intellectually Gifted students begins on April 30th and will be updated in May. The current data presented is from 2019-20. The total number of students identified as AIG increased by five students from 2018-19 (1,777) to 2019-20 (1782). Over the most recent three-year period, MCS has experienced modest gains in AIG program enrollment of the three major minority groups. While the total number of minority students has increased during that time, the percentage of AIG students compared to Moore County Schools demographic profile has remained stagnant, as well as disproportionate. Due to the Coronavirus closure, students did not take the EOC or EOG Exams and growth data for 2019-20 was not provided. Students will be taking the exams in May 2020-21. The most recent growth data is from 2018-19. Eighty percent of Moore County Schools met or exceeded growth in three of the past four years. The number of schools meeting or exceeding growth dropped from 16 of 20 (80%) in 2017-18 to 15 of 20 (75%) in 2018-19. The number of schools exceeding growth has dropped from 5 in 2016-2017 and 8 in 2017-2018 to only 2 in 2018-2019. Five schools did not meet growth in 2018-2019. In 2019-20: Five percent of AIG students were Black, but 15% of the total MCS population was Black; Seven percent of AIG students were Hispanic, but 14% of MCS population was Hispanic; and Two or more races make up 4% of the AIG population and 6% of the total MCS population. In addition to the slight decrease in AP enrollment, that disparity in the percentage of minority students taking AP tests measured against MCS demographic profile remains stagnant. In 2019-20: Two percent of AP tests were taken by Black students while 15% of MCS population is Black; and Eight percent of AP tests were taken by Hispanic students while 14% of MCS population is Hispanic. The average score on AP exams by minorities has remained stagnant for all student groups. In addition, the performance gap between minority students and their White peers persists. The average score for White students in 2019-2020 was 2.81. Black students' average AP score in 2019-2020 was 2.26 up 0.03 percentage points from 2018-2019. Hispanic students' average AP score in 2019-2020 was 2.47, no change from 2018-2019. Two or more students' average AP score was 3.04, a decrease of .06 percentage points from 2018-19. The 4-year cohort graduation rate has increased 2.5 percentage points to 93.5% in 2019-2020. Black students saw a gain (6.1 percentage points) over 2017-2018. Hispanic students decreased from 92.7% in 2018-2019 to 90.5% in 2019-20. English Language Learners also saw a slight decrease from 82.6 in 2018-19 to 81 in 2019-20. Multiracial students decreased by 3.6 percentage points to a four-year graduation rate of 89.1%. Economically disadvantaged students increased by 2.3%. The three-year trend for the overall and three primary sub-groups is as follows: Overall graduation rate: 2017-2018= 89.4%, 2018-2019= 91%,

2019-20=93.5% Black students: 2017-2018= 82.4%, 2018-2019= 86.7%, 2019-20=92.8% Hispanic students: 2017-2018= 92.1%, 2018-2019= 92.7%, 2019-20=90.5% Multiracial students: 2017-2018= 85.7%, 2018-2019= 92.7%,2019-20=89.1% Our Four Year Cohort Graduation rate is at 93% with our dropout rate at 0.76% compared to 2.01% of NC. In 2020, MCS had the 12th highest public school graduation rate in the state of NC. The district has worked prior to covid-19 to increase student industry-recognized credentials earned and expand learning opportunities for all students through CCP dual enrollment opportunities. Our goal is to expand upon the initiatives and level of personnel in place prior to Covid-19 to continue to provide intentional support and address additional gaps in student performance to help our students continue to grow to become career-ready after graduation whether they attend a 2-year college, 4-year university or enter the workforce and military postgraduation. We understand the commitment that is required of all of our stakeholders working together to identify to gaps in student proficiency, catching up on MTSS screenings and tiered intervention supports to better meet the needs of students. We plan to work together to continue to analyze data, performance measures, social and emotional status of students, and adjust to provide necessary services accordingly based on the data shifts. Our goal is to address student needs as a result of Covid-19 impacts, build capacity in our district for a future response if needed, and work to maintain not only the current level of student support services and instructional supports in place prior to March 2020 and to expand services.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 3,147,959.08 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Data analysis is critical if we are going to increase student achievement. Currently, we have a universal screener but we are missing the computer adaptive skill instruction. iReady will allow MCS to have a quality assessment suite that provides data to demonstrate how students are progressing with the NC SCoS. The skill instruction will provide practice where students are on their learning path and track their progress. This product will allow us to measure the

learning of all students and allow us to provide interventions to close gaps. MCS needs a way to assess students with a universal screener that supports instruction. A universal screener allows us to answer the following questions that will assist teachers in moving to learn forward: 1. Are students meeting standards? 2. Are instructional programs effective? 3. Have we met our goals for a student, class, grade, school or district? 4. What should we change? 5. What things should we continue? The Universal Screener and Skill-based assessment will assist teachers with data-driven problem solving to improve instruction for all students. Power School analytics, Panorama, and Frontline management services will provide assessment information needed to track social, emotional, mental health services needed for students as well so the whole child is being assessed and served accordingly.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Professional development is essential to improve student learning. Quality professional development will allow us to develop expertise in content and pedagogy. These half-day PD sessions will support teachers on the implementation of the MCS Instructional Framework and resources for CORE instruction. By offering this PD support, we will have a long-term effect on student learning. Providing PD on evidence-based activities will help close learning gaps. These sessions will examine vertical building blocks with the NC SCoS and developing content knowledge in all Core areas. The C&I team will provide focused PD on small group instruction that will ensure that students have differentiated instruction. Strategies to improve reading and math will also occur with an aligned support plan implementing additional Instructional Assistants, sustaining student support personnel in place, with additional student screenings and tiered interventions evaluated to better support MTSS processes and closing the gaps of necessary student screenings and testing by Psychologists. In addition, additional time will be scheduled over the summer between IEP support teams to reevaluate plans, update, and ensure meaningful plans are developed to serve gaps derived from learning loss. The use of supplemental instruction software program subscriptions that are research-based will also be implemented to provide additional student support. The district is working diligently to also ensure that every student has equitable resources across the district for internet connection at home and up-to-date computers to be able to complete homework, class assignments, interventions, and other services accordingly. Results from social and emotional student surveys have been used to adjust services as well.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Our schools and district continue to provide recorded phone messages, email messages, and social media posts on how to access support sessions, student/family engagement nights at schools that have all made remote accommodations for families. Drive-thru opportunities are available for parents to pick up support materials, and other items if needed as well. Family support sessions have been offered on a weekly basis and have tapered off as interest has declined for parents. Support staff, principals, and teachers have been available on scheduled nights and times to answer questions, provide homework or daily instruction support, and assist with other needs of families. Our Special

Projects Coordinator provided a series of support sessions on homework support, accessing and using technology, among other topics for parents and students. Those sessions were recorded and are accessible to families as needed.

* (D) Tracking student attendance and improving student engagement in distance education;

Students have returned to our buildings, but our district is also working to provide a remote option to families (Connect Academy). Professional Development with teachers, staff, and administration on the data collected from Panorama and Power School will help guide discussions and assist with tracking attendance. Teachers work diligently notifying parents of a student's absence from class, and email the student accordingly. Social Workers and Assistant Principals are following up with families on home visits for students who continued to have attendance issues, and connecting outside support resources as needed through our Student Services department. Teachers have attended PD opportunities on how to redesign instruction and delivery in remote settings.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Data analysis is imperative, and instructional leaders and administration are tracking total unique failures, core-specific failures, semester comparison of failures, and grade level failures. Benchmark common assessment data is being tracked as well. Although it is difficult to identify set data points or to gain a complete understanding of the entire impact on student academic achievement various facets are being tracked accordingly

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ◉ Yes ○ No	Several of our buildings need retrofitted bathroom fixtures, we need refillable water stations at every school we have water heaters needing upgrades, and some windows replaced in a couple of buildings to assist with overall air quality improvement. Resurfacing of two tracks to provide outdoor classroom options	July 2021-ongoing	Addressing capital improvements that would appropriately address the spreading of covid and provide updates that limit touching of surfaces by students, minimalize student interactions in congested areas for meal distribution times to help limit the spread, provide outdoor	$ 4,397,582.62

| | | for students. In addition, breakfast and lunch touchless kiosks distribution centers will be installed at schools with scanners on buses for students to order ahead of time to limit transaction time. Exhaust fans will be upgraded in high school cafeteria kitchen areas where students are completing internship hours for culinary and OCS classes. Overcrowding at PHS is a major concern with nearly 2500 students enrolled and being the building is over capacity. The average PE class size has 90 students in each section and 4 | | classroom areas that assist in overcrowding of gyms for PE classes with apprx. 90 students in each, and provide outdoor classroom areas. In addition, dated water heaters will be replaced with filtration systems to provide wa | |

		section and 4 sections of PE run daily. All of our high schools have projected increases in enrollment. More outside classroom areas are needed to adhere to the MCS ReEntry Plan			
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⊙ Yes ○ No	HVAC upgrades are necessary to provide improved air quality in buildings, HVAC filters, maintenance, and replacement of units to improve air quality in buildings at various school locations.	July 2021-ongoing	To improve air quality and air circulation in buildings to assist in overall indoor air quality	$ 34,000.00

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◉ Yes ○ No	Additional Teacher Assistants 2-years of additional services to assist with small groups, targeted support, interventions, and additional classroom instructional support for students to help address learning loss and recovery as a result of Covid-19 impacts. Approximately 38 additional TA in	August 2021-ongoing	- Universal Screener and Benchmark student data, retention data, IEPs, feedback from Instructional Support Coaches, MTSS Chairs, Principals, and C& I support team. Will assist in providing additional instructional support and services to students IEP	$ 1,500,000.00

| | | additional TAs in FY 22 and 23 for 2nd grade. ---- Additional IEP Services needed over the summer to review, update, and write student IEPs in preparation for the 21-22 school year for our most vulnerable students to ensure an effective service plan is in place to meet identified needs and additional needs as a result of Covid impacts. . Progress will be monitored and additional support may be needed the following summer to scaled back. -Power School analytics and Panorama services to assist tracking of student performance | | students. IEP plans are necessary to support instruction, identify service plans, and connect resources for EC students. By having TA support small group interventions, support and one-on-one remediation for students will be provided to address needs identified. | |

		performance, behavior, and SEL supported by ESSER II funding will be used to help support needs of students and identify small groups for TA support.				
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No					$ [____]
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No					$ [____]

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ⦿ No				$
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ⦿ No				$

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ○ Yes ◉ No				$ [ ]
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ◉ No				$ [ ]
	* ◉ Yes ○ No		June 2021-July 2023	A detailed plan of services for the MCS Power Up Academy has created written criteria to provide opportunities for students based on needs, instructional resources have	$ [602,758.04]

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	Power Up Summer Learning Academy will require 169 instructional staff (Teaching positions to include Elective, EC, and Enrichment). 63 Support Staff (Site Coordinators, Child Nutrition, Social Workers, Nurses, Counselors, and Custodians). Transportation costs to include drive and mileage along with supplies will be paid from RTA funding. Summer activities are research-based and provide supplemental and remedial instruction to students		resources have been identified, and personnel plans are underway identifying qualified, interested personnel to serve in instructional and support roles for the summer program. K-12 Professional Development on how to analyze student reports from instructional software programs, student data, and how to identify and implement service plans

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ◉ Yes ○ No	Sustain locally paid personnel to continue the level of services in place; 9 Teachers, 1 and 2 x .5 Assistant Principals, 2 Nurses, 2 Social Workers, 3 Counselors - Federal programs/grants compliance analyst for contracted services to review procurement processes, expenditures, support documentation, and budget analysis. Activity buses to sustain social distancing and transportation of students for summer programs, after school activities and tutoring	May 2021-July 2024	Due to budget constraints and local cuts to funding by Moore County Commissioners locally paid personnel would not be sustained without ESSER.	$ 1,864,000.00

	Total ESSER III Allotment	$	8,398,340.66

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Moore County Schools (630) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

Moore County Schools (630) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

☐	10/6/2021 10:36:16 AM	Erin Lewis	The FY 2021 - ARPA-ESSER III Application (PRC 181) has been returned to the District as NOT APPROVED for the following reasons:	C

Attention Needed	Date	User	Status (S)/Comment (C)	S/C
			- Supplies: 5210-411 – EC supplies and 5240-411 – speech supplies are listed in your budget. Please add these to your grant details as well under the allowable use: "addressing unique needs of special populations". - Transportation: Use object code 551 vehicle purchase (rather than 541 furniture and equipment) for the activity buses, refrigeration truck, and cargo van with lift. Be sure that all three vehicle types are included in both the budget and the grant details. In the grant details narrative boxes, please include the purpose and how these purchases are linked to COVID (preparation or response). - Repairs: Window and door repairs are listed in the grant details and so should also be reflected in the budget. - Professional Development: Staff training and PD are listed in grant details and so should also be reflected in the budget. - Library Books: Include in your narrative how the purchase of library books are connected to COVID or addressing learning loss. - Safety Office and Monitoring Systems: Include in your narrative how these expenditures are connected to COVID (preparation or response). Once the areas listed above have been addressed, the grant application should be resubmitted up to Chief Administrator Approved. **Erin Lewis** **Erin.Lewis@dpi.nc.gov** **ESSER Program Administrator** **Federal Programs Monitoring and Support Division**

Grant Details

Nash County Public Schools (640) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

The planning team for the funds include several District level departments. Members of the various departments were represented: Academics & Accountability, Federal, Transportation, Child Nutrition, Technology, Student Support, Maintenance, Parent Coordinator, Board Members, and Exceptional Children. The District plans to address the learning loss that students experienced during the pandemic. The following strategies will be implemented. Establish system-wide curriculum models accompanied by professional learning for teachers on scaffolding instruction and use of data to improve Tier I instruction thereby increasing student achievement in Reading and Math: Extended Employment for Content Specialists, IT Coaches, Select Academic Coaches, Additional Responsibility Stipends for Extended Employment for master teachers in various contents (reading, math, science, adaptive curriculum, ESL,etc.) to build teacher leadership capacity-train the trainer model, Hire Substitutes for Fishbowling (Peer Observations within buildings-and across the district), Replenish classroom and media book collections (non-Title I schools), Improve the digital learning experience for all students (Digital Learning Coordinator, Nash Everywhere Digital Academy (NEDA) teachers),Slates for students, Class.com, Support State teacher allocations. Develop and communicate a system for student intervention and enrichment to ensure each student is getting needed support, coupled with rigorous grade-level instruction, examine existing Multi-Tiered System of Supports (MTSS) and identify where adjustments need to be made in collaboration with student services. Continue to strengthen intervention/enrichment resources PK-12. Develop and implement a plan: a MTSS Instructional Plan for all grade spans. Determine which resources can already meet the needs of students through expanded use and where there may be gaps (consider middle and high school resources-soft skills course-HS). Continue to provide integrated intervention and enrichment time in high schools through power lunch and extended periods (Knight Time, Central Time, Firebird Time, Choices). Hire and train interventionists (part time retired), hire lead MTSS Facilitators-model contingent upon current student performance (K-12), assess existing coaching model, provide options for students to fill learning gaps by offering an Evening Academy within each high school. Alternative Learning Environment. Fine Arts Provide Elementary Music Curriculum (Quavered.com) 5 year license per music teacher Middle/Secondary Music: Equipment, materials & curriculum, PD, etc. K-12 Art: Supplies, materials, curriculum resources, equipment, PD

11/10/2021 2:05:10 PM

Middle/Secondary PPE Music/Band: Bell covers, performance/choral masks, flute mask MTSS 4: Guarantee each building has a strong instructional leadership team (ILT) that is equipped to deepen impact across each school to improve student achievement in reading and math. MTSS Facilitators in all buildings (based on high needs) Multi-Class Lead Teachers (Opportunity Culture) Expand Teaching and Learning Principal Coaching Model Hire BT Director (done - as of August 2021) ,

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

The information listed in Part A will be monitored and tracked using the various data points. The determination of the effectiveness of the allowable usages of the ESSER III funds will be determined by the following areas. -Student Attendance -Reduction in the spread of the virus -Students progress reports -Students report cards -Students benchmark reports -MTSS reports and effective strategies - Reducing the number of low performing schools -Effective professional development for staff -Improved parent involvement participation -Support for our front line workers -Improved social and emotional percentages -Support for BT and improved retention percentages -Reduced Discipline incidents -Alternative options for students choice of instructional delivery

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 5,013,800.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

At the beginning of each school year, students will be administered a competency-based assessment K-8 (reading and math) to determine the academic starting place. Training will be provided for district leaders, principals, teachers and teacher leaders to use the data to create data designed learning path for students. In addition to the assessment administered at the BOY, the students will be administered the assessment at the middle and end of the year to track student progress. In addition the assessments will be accompanied by a program that will provide each student a personalized learning path.The assessment resources are aligned to the curriculum and level of accuracy detects the areas the students have mastered. The data results also provides the teachers with a clear vision of the areas that need additional attention. It will also provide teachers with a clear vision of the students current academic state and prescription for ways to address the concerns and provide the interventions that needed designed to assist the student improve academically. The Learning loss will be addressed in a variety of ways during the course of the 3 years. The ESSER II funds will provide support for the summer learning programs and the ESSER III funds will focus primarily on the regular and extension of the

school day offerings. The plans to support the whole child are outlined in Plan A of this application. The plan details how it will support their academic needs, school safety, and the social and emotional needs.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

The district will establish system-wide curriculum models accompanied by professional learning for teachers on scaffolding instruction and using high yield strategies with students that will accelerate learning (John Hattie's Work on Visible Learning in Reading and Math) and use of data to improve Tier I instruction thereby increasing student achievement in Reading and Math academic outcomes for students. The instructional specialists will work closely with the BT Director and members of the Academics and Accountability team to determine the needs of the staff. This will include but not limited to planning, effective PLC models and ensuring that the staff are equipped with the needed tools to support the comprehensive needs of the students. A social and emotional support program will be implemented for students K-12 to address and student needs/concerns immediately and effectively. The MTSS model will be comprehensive and a consistent detailed process will be outlined for all staff members. The MTSS specialists will facilitate the process and collaborate with various departments to ensure that the best strategies/interventions are in place to address the students needs. NCPS is committed to the Science of Reading and focusing on building those foundational skills for our students. By increasing the text complexity and genre offerings in our media centers, we hope to help students develop a love of reading by providing text that interest them. This addition is designed to address the learning loss that students have experienced during the pandemic by focusing on the five foundational skills that are crucial for reading.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Partnering with the district's Parent Coordinator, the district will provide parent workshops (called Connect, Inform, Engage) to families to educate them in using the learning management systems, ways to support their students' learning at home (in person instruction or distance learning), and using other digital communication tools provided by the district (Remind 101, Parent Portal, Class Dojo, etc.). Interactive videos, virtual meetings and parent forums to ensure they are aware of the methods used, protocols, recent updates and most importantly strategies to use to support their child's academic needs. The District has a section on the website for parents to view at any time that provides resources in a variety of areas. Parents will continue to be surveyed to gather input, opinions and recommendations. The data resource centers are strategically placed throughout the District and equipped with capable managers to provide parents with needed information to support enrollments as well as direct them to the right department to address their needs/concerns. The guidance assistances will perform in the role of liaisons to bridge gaps and concerns regarding communication among the school and families.

* (D) Tracking student attendance and improving student engagement in distance education;

Using the comprehensive data dashboard, district leaders, principals and teachers will track student grades within schools, regions, and district wide to compare historical trends and the impact on COVID-19 in widening student achievement gaps. The District will purchase software systems in powerschools and outside resources to assist in tracking student attendance. The social workers and guidance counselors will collaborate to ensure that parents are informed immediately and work closely to remedy concerns that are preventing students from attending school and reduce tardies.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Using the comprehensive data dashboard, district leaders, principals and teachers will track student grades within schools, regions, and district wide to compare historical trends and the impact on COVID-19 in widening student achievement gaps. Progress reports, report cards, teacher observations and anecdotal notes as well as benchmark data will all be used and reviewed consistently to determine student mastery, weaknesses and skills that will need to be revisited. The MTSS model will be used regularly to ensure that students aren't getting delayed in their academic success rate.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	Upgrade HVAC systems, repair chillers and boilers and purchasing the needed supplies and materials. Contracted services with approved vendors may be used to assist with providing additional human capacity to ensure that the repairs are completed in a timely manner and to reduce the interruptions of the instructional day as much as possible.	June 2021-May 2024	To improve the air quality and the efficiency rates at each school and allow student and staff to learn and work in a safe atmosphere.	$ 8,103,666.00

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ○ No	Upgrade and replace windows and doors for schools to ensure that a pure air flow quality is accessible at each school.	June 2021-May 2024	Reduce percentage of COVID cases and virus transmissions by providing a quality air flow system.	$ 1,086,500.00
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ◯ No	-An Online program for students with complex learning needs to gain meaningful access to the general education curriculum, in-person or virtually. - Extended Employment for student services support staff to address/encourage/implement increased student engagement activities. - Increase in the number of Social Workers and Counselors in order to provide outreach to families and address the unique needs of students identified through the MTSS process or identified with unique identifiers such as homelessness, foster care etc. - This funding will be used to purchase required equipment and supplies needed to address the varying identified needs of students.	June 2021- May 2024	Decrease in the number of students identified with chronic absences, Increase in the number of students progressing in the general and adaptive curriculums,	$ 180,000.00

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ⦿ Yes ○ No	-Contract nursing supports to assist in response efforts, contract tracing and addressing complex student needs -Safety Officer to assist with Emergency plans and ensure safety measures are in place at all schools and assist with safety grants and audits. - Due to the increase in social-emotional needs of our students that have risen since COVID, the District will provide a stronger and more in-depth plan on how to address emergencies	June 2021-May 2024	Increase the number of schools with access to fulltime health care professionals, Decrease in the number of students with chronic absences	$ 1,500,000.00
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ⦿ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ○ No	PPE products will be purchased to assist in maintaining a safe and clean environment.	June 2021-May 2024	Decrease the spread of the virus and provide all the stakeholders the security of existing in a safe and clean environment.	$ 90,000.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ⦿ Yes ◯ No	Provide Refridgeration truck, cargo van w/lift, upgrade serving lines within the schools cafeterias, upgrade ovens, freezer and steamer equipment to assist in serving students and staff in a safe and efficient manner. Warehouse cooler and freezers will be repaired and/or upgraded. Contracted approved vendors will be used to assist with repairs and upgrades.	June 2021- May 2024	Improve the ability to demonstrate flexibility and be prepared to serve students and staff according to the mandates and guidelines that are in place in means to reduce the spread of the virus.	$ 623,742.00
EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ⦿ Yes ◯ No	To fund technology technicians to assist with the growing technology needs. Provide quick and professional service to students and staff by completing work orders and troubleshooting technology issues addressing District needs and the 29 schools.	June 2021- May 2024	To reduce the number of work orders in a quick manner as well as maintain the management of the devices and software programs to ensure that the staff and students are able to maximize the instructional time daily.	$ 2,000,000.00

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◉ Yes ○ No	-Implementation of a core SEL (Social-Emotional Learning) program within our high schools. - Implementation of a universal SEL Screener that will be used to identify students in need of additional services and/or supports. -Providing School-Based Mental Health services to students who have been identified as needing a higher level of social-emotional support but are uninsured. -Training/Professional Development - provide Skillstreaming, Crisis Prevention/Intervention and TED Facilitator training on order to gain in-house trainers.	June 2021-May 2023	Decreased Office Referrals, Increase in the number of students identified in need and receiving School-Based Mental Health, Decrease in the number of hospitalizations	$ 268,000.00
	* ◉ Yes ○ No		June 2021-May 2023	Decrease in the number of hours identified by IEP teams for ESY, Recovery and Compensatory services for students with disabilities.	$ 4,070,000.00

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.		-Provide SI and educational services through extended employment and/or contracts in order to provide recovery services to identified students with disabilities. -Supplies needed to implement activities related to recovery services. -Read 180 facilitators at all Middle and High Schools to assist in reducing the learning loss for overaged students that are not reading on grade level. -Guidance assistants to assist counselors with documentation to properly address student and parent needs. -Extended school year including stipends for master teachers, providing digital resources, substitutes for staff development, upgrade books in media center, provide enrichment supplies for fine arts, MtSS Specialist for low performing schools, transportation, and contract with vendors to provide Principal support -Virtual Coordinator, materials and supplies -Contracting with a company to provide training and produce quality full-time subs.		

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ◉ Yes ◯ No	-Safety Officer to assist with Emergency plans and ensure safety measures are in place at all schools and assist with safety grants and audits -Online discipline management software -Access to the ability to send digital documents and Sandbox to build programs personalized for the District in the student information system -Training and supplies for student support staff -Secruity monitoring systems will be upgraded at each school to improve the potential threats, emergency protocols and safety measures at each site. -Activity buses to limit the spread of the virus and reduce the overcrowding and reduce the double routes and tardies. -BT Director to support the on-going needs of beginning teachers and improve the teacher retention rates -Additional office support to help maintain records, filing and scanning	June 2021-May 2023	Student needs are identified through evaluations and addressed accordingly, Increase in Parent/student/teacher access to digitial documents, decrease in students identified with chronic absences, decrease in out of class removals	$ 1,700,000.00
				Total ESSER III Allotment	$ 19,621,908.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

* ✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
* ✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
* ✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
* ✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
* ✔	Funds shall not be transferred into or out of this allotment category.
* ✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Nash County Public Schools (640) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - New Applicant Summary

 There are no new applicants.

GAN Information

Nash County Public Schools (640) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Northampton County Schools (660) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 3 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Attendance Pre-Covid - 85.66% Attendance Post-Covid - 72.76% %-pt Change in proficiency on Feb 2020 Benchmark to Feb 2021 Benchmark Tested Area %-pt Change Feb 2020 to Feb 2021 (or other 2020-2021 data points post-Feb 2021 if Feb is not available) Grade 3 ELA : -20.8% Grade 4 ELA : -14.0% Grade 5 ELA : -5.0% Grade 6 ELA : -14.6% Grade 7 ELA: +31.3% Grade 8 ELA: -18.2% English II: +18.00 Grade 3 Math: -27.2% Grade 4 Math: -41.2% Grade 5 Math: -19.5% Grade 6 Math: -24.8% Grade 7 Math: -8.8% Grade 8 Math: -19.4% Middle Math I: -51.7% Math I: -9.49 Math III: 0% Grade 5 Science: -22.3% Grade 8 Science: -4.5% Biology: -41.0% As of April 2021, 46% of parents responded that they preferred remote instruction during the continuing pandemic. Approximately 50% of teachers responded that they needed professional development in how to teach remotely A comprehensive benchmarking system is needed to provide competency-based data for school and district improvement. Approximately 50% of the district Chromebooks are Generation 1 and 2. The devices will need to be replaced to support the continued use of devices during school, remote learning days and for homework support for families without devices in the home. Approximately 40% of students in Northampton do not have a device or internet access. Continued support of wifi zones, hot spots (devices and service plans) will be necessary to support students and staff who lack reliable internet at home. The nurses do not have an appropriate tracking system Surveys regarding needs for PPE equipment during classroom instruction to professional development needs for staff to teach. Teachers' surveys were used to select instructional resource selections, guide professional development choices to ensure that teachers are able to teach in a remote or hybrid environment. The district will continue to use Edmentum ExactPatch Diagnostic assessments to determine the needs skill attainment and deficits of students. The district will seek to recruit and retain a highly effective and diverse workforce that supports the district's goals to ensure high-quality teaching and learning for all. Staff who are able to address the needs of students prior to COVID compounded by the COVID-19 slide is Talent Recruitment: Attract and employ teacher talent throughout the district in order to maintain a highly effective workforce that significantly impacts learning and teaching Talent Management: Develop professional development that

supports personnel at all levels of the district to enhance and build the skills necessary for professional growth, leadership, or career advancement. The quality of air can be improved in all buildings as many of the district's buildings are over 35 years old with the exception of Central Elementary, Gaston Middle School, and the Central Services Office main building: Willis Hare Elementary The quality of the air is fair. Willis Hare Elementary was constructed in 1957 and renovated in 1988. The current HVAC system is outdated and needs a new system. An upgraded HVAC system is needed that can support better air quality. The current system is 32 years old and the building is heated by a boiler system The roof is in need of repair which results in leaks and potential air quality concerns. Gaston Elementary The quality of the air is fair. Gaston Elementary was constructed in 1957 and renovated in 1999. The current HVAC system is outdated and needs a new system. An upgraded HVAC system is needed that can support better air quality. The current system is 35 years old and the building is heated by a boiler system. The roof is in need of repair which results in leaks and potential air quality concerns. Northampton Career and Technical Career The quality of the air is poor. The original building was constructed in 1964. The Two buildings were added in 1973 and 1978. The main building is heated with two fuel oil-fired furnaces that produce steam that is piped through the building for heating. The main building is cooled with a chiller that is past its life expectancy. This cooling system was installed in 1996 with exposed piping in the ceiling. Parts for the heating system are hard to find and the system needs replacing. The roof needs to be replaced which has resulted in air quality concerns. Conway Middle School The quality of the air is fair. The current HVAC system is at the end of its life expectancy. The cafeteria, kitchen, and gym were constructed in 1957. Classrooms were added in 1990 and 1999. The gym and kitchen are on a rubber roof system that is beyond its warranty. An upgraded HVAC system is needed that can support better air quality. Gaston Middle School The quality of the air is good. The original building opened in 2000. The HVAC system is 21 years old. Northampton County High School The quality of the air is good. The current HVAC system is at the end of its life expectancy. The building was opened in 1990. Central Elementary School The quality of the air is good. The facility opened in 2006 Central Services The air quality is good in the main building. The windows do not open. The addition of air purifiers is needed to supply clean air to enclosed spaces. And minimize the transmission of airborne viruses. Professional Development Center Provide funding for college courses as the need for teacher growth and support of students impacted by COVID-19 through learning loss and social-emotional impacts. College course selection will be based on teacher, school, and student needs. We will work with our curriculum team and principals to plan what college course would help to bridge the learning gap caused by COVID. Financially supporting teachers/staff will also serve as a tool to recruit highly qualified and certified staff who will be able to bridge the learning gap for students.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Based upon the negative change experienced from February 2020 to February 2021 as evidenced in benchmark results, students and teachers are in need of support to improve student achievement and teacher performance. Support with developing professional development plan to support needs of staff and students Provide access to evidence based instructional resources Provide individual manipulatives, leveled text, etc. for use at home and at school. Leadership support/coaching for school and district leaders Instructional coaching support (Instructional coaches and advanced teacher roles) The quality of air is important to

reduce staff and student potential for long-term health problems, discomfort and absenteeism. HVAC repair and replacement Roofing repairs/replacements, etc. Creation of outdoor learning spaces to support access to fresh air during the day Equipment and service plans to support at home learning for remote instruction as well as homework support is needed to ensure equity in access.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 1,896,505.20 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Use of CASE21 as a benchmark system twice per year (EOGs) and once per semester (EOCs) Use of Edmentum ExactPath diagnostics (Competency-Based Assessment) Data retreats focused on data dives with instructional leaders in the building (administrators and teacher leaders/advanced teaching roles).

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Provide supplements for teachers who serve in advanced teaching roles and on data teams for supporting intervention planning Provide options for summer, after-school and Saturday academy for extended learning Utilize a variety of platforms to communicate with parents and the community. Provide tutors to support students

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Use of CASE21 as a benchmark system twice per year (EOGs) and once per semester (EOCs) Use of Edmentum ExactPath diagnostics (Competency-Based Assessment) Professional development related to student-centered pedagogy and curriculum. Use of evidenced-based supplemental resources and guides to support student learning at home and school. Parent help sessions regarding learning management systems, manipulatives, etc. Hands-on science curriculum resources Data retreats focused on data dives with instructional leaders in the building (administrators and teacher leaders/advanced teaching roles). Provide supplements for teachers who serve in advanced teaching roles and on data teams for supporting intervention planning Provide options for after-school and Saturday academy for extended learning Utilize a variety of platforms to communicate with parents and the community. Provide tutors to support students

* (D) Tracking student attendance and improving student engagement in distance education;

Provide a tracking system for distance learning days (attendance) Provide professional development for teachers on student engagement during distance education days.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Providing professional development on EVAAS and data analysis from district assessments.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	Repair or replacement of roof in Creeksville. Campus main building that is leaking resulting in poor air quality (mildew and mold) and ceiling tile replacement. Retrofit or replace water fountains with touchless fountains/hydration stations. Replacing light switches to a motion sensor to decrease	July 2021 to Sept 2024.		$ 3,000,000.00

		common surface touches Replacement/retrofitting of sinks and toilets to touchless. Repair to the cafeteria in Creeksville Campus Upgrade/replace HVAC systems to allow for minimization of potential virus transmission Construct a building to house remaining central office staff who are in the original building due to erosion of the facility and poor water and air quality. Upgrade and remove mold/mildew from warehouse and additional space to be used for professional development.		100% of all light switches, water fountains, and toilets in facilities occupied by students and staff will be a touch less or require minimal touching of surface areas. Roof replacement and repairs to occur by Sept. 2024. 100% of all traditional water fountains will be converted or replaced with a touch less foundations/hydration stations by Sept. 2024 Provide an environmentally safe location to store resources, equipment and conduct professional development sessions by Sept. 2024	

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ◯ No	Contract for an analysis of the HVAC system in all buildings. Replacement of equipment as recommended in air quality check reports. Purchase of room air purifiers in classes where windows do not open and circulation is poor Complete building repair and replacement	July 2021 to Sept 2024	100% of district facilities will have an HVAC system analysis. 100% of facilities occupied will have air quality ratings of "good" or better. 100% of classrooms identified as having poor circulation will be outfitted with air purifiers.	$ 199,999.80
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ⦿ Yes ◯ No	Coordinating with local emergency management and health departments to improve preparedness and response efforts. Development of COVID-19 and other infectious disease response plans with emergency response agencies in the county	July 2021 to Sept 2024	A minimum of bi-annual meetings to coordinate efforts. By November 2021, develop an infectious disease response plan and review it annually.	$ 10,000.00

| ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population. | * ⦿ Yes ○ No | Special populations students may lack resources during remote learning days. School supplies will be provided to all students to ensure equity in access to materials. Pencils, pens, whiteboards, dry erasers, notebook paper, headsets when needed to work without background noise, Access to SEL resources via district and/or contracted staff Professional development and support for MTSS district and school teams | July 2021 to 2024 | 100% of students will have their individual resource set. Addition of a minimum of one social worker to support SEL resource development and deployment. 100% of school teams will be fully trained in MTSS by the end of the 2022-2024 academic year. | $ 300,000.00 |
| IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts. | * ⦿ Yes ○ No | Purchase desk shields for students and staff in response to potential infectious disease transmission avoidance. | July 2021 to 2024 | 100% of student and staff desks will be equipped with a shield. | $ 50,000.00 |

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ⦿ Yes ○ No	Training of all district staff in proper sanitation of classrooms, buses, cafeteria, restrooms, and other high touch purchases	July 2021 to Sept 2024	100% of district teachers and staff will be trained in proper sanitation as evidenced by sign-in sheets.	$ 5,000.00
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ○ No	Supplies for classroom teachers to clean between groups of students Supplies for custodial staff to clean commonly touched surfaces Replacement of surfaces that are hard to sanitize inclusive of porous furniture and ceiling tiles.	July 2021 to Sept 2024	100% of classrooms will have adequate supplies to clean between groups of students. 100% of porous furniture will be replaced. A minimum of 100% of ceiling tiles that require replacement will be replaced by September 2024	$ 140,000.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ⦿ Yes ◯ No	The district will purchase supplies for transporting student meals during long-term closures and distance learning. The district will provide WiFi spots, hot spots, devices, service plans, headsets, and other appropriate tech resources for students and staff to connect to school during long-term closures.	July 2021 to Sept 2024	School nutrition staff will be 100% equipped to transport meals within food safety guidelines A minimum of 75% of all students and staff will have access to reliable internet access.	$ 100,000.00
EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ⦿ Yes ◯ No	To purchase Interactive Panels to provide options for students with entering, storing, and retrieving digital information To purchase additional Hotspots and provide service plans for students and staff in need of at-home Internet connectivity to supplement daily lessons and learning losses To purchase student Chromebooks to replace older units that have exceeded or	July 2021 to Sept 2024		$ 400,000.00

		that have exceeded or are approaching end of service life To purchase protective cases for student devices to deter breakage and replacement of equipment during transit To purchase Software subscriptions to Netcloud to monitor device usage and status To purchase malware software to protect student, staff, and district devices from malware attacks To relocate the District Servers in order to prevent loss of student data due to building structure erosion. Provide training on the use of educational technology for staff		00% of ELA, Math, and Science teachers in grades K-12 will have interactive panels. 100% of outdated devices requiring replacement (Chromebooks/desktops) will be replaced 100% of devices that will be sent home with students will have protective cases/coverings The district will deploy Netcloud software subscriptions to 100% of devices. 100% of district digital resources/devices will have increased protection via updated malware software 100% of the district's servers will be relocated.	

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ◯ No	To provide additional social workers via employment or contracting professional counseling services to provide socio-emotional support to staff and students To provide professional development in addressing the challenges of our students Creation of a de-escalation, relaxation, and anxiety reduction room in each class school to support students as they return to the building Providing access to ABL equipment/resources www.abllab.com	July 2021 to Sept 2024	Employment of a minimum of one social worker to support students and families. Provide a minimum of two professionals development opportunities for SEL Creating a minimum of one de-escalation room for students Providing ABL equipment for a minimum of 70% of classrooms.	$ 480,000.00
	* ⦿ Yes ◯ No		May - August annually Summer 2021- Summer 2024		$ 1,809,206.00

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.		Summer session will last for 30 days with emphasis on the science of reading, mathematics science, social and emotional supports for all students Students will have opportunities for enhancement activities supported by teachers, teaching assistants and tutors Meals and transportation will be provided Opportunities to integrate the arts and physical activity will be available Students will have opportunities for enhancement activities supported by school staff, tutors, and summer employment. Provide performance incentives for staff related to students who are proficient after summer testing who were non-proficient on the EOG/EOC		Students will have access to at least one summer program per year lasting up to 30 calendar days. To provide a minimum of 2 incentive options for highly effective teachers to work in the summer program (recruitment and performance-based). Provide resources for hands-on activities and field trips for students.	
	* ◉ Yes ○ No	Principals and school leaders will participate in leadership seminars inclusive of book studies individual coaching to transform school culture and	June 2021 to Sept 2024		$ 1,101,021.00

| OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act. | | foster high-quality instruction. Staff retention incentive for maintaining district operations during COVID-19. Create outdoor learning spaces. Provide additional custodial support via additional staff or additional time for existing staff to maintain and prepare buildings during extended closure and during summer sessions. Principals and school leaders will participate in leadership seminars inclusive of book studies individual coaching to transform school culture and foster high-quality instruction. Upgrade school board sound system when remote board meetings are required. Provide temperature check systems for schools and buses. Provide PPE for visitors, students, and staff Provide desk shields for students and staff | | 100% of school/building-level administrators will participate in a minimum of 10 leadership seminars. 100% of the district will have adequate PPE, outdoor learning spaces, safety, and instructional resources Hazard pay options for 100% of district staff who return to the district to work during COVID-19 and other highly infectious disease outbreaks (Retention). Incentives for 100% of returning district staff to support the continual educational plans. All board meetings will have ade | |

| | Total ESSER III Allotment | $ | 7,595,226.80 |

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Northampton County Schools (660) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 3 - New Applicant Summary

There are no new applicants.

GAN Information

Northampton County Schools (660) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 3 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details
Orange County Schools (680) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - FPMS-ARPA ESSER III PRC 181
DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data
* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction. Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.
The process used for determining the needs of the school system has been gathered through a Comprehensive Needs Assessment in the NC Star system that aligns with annual district and school improvement planning processes. A wide range of stakeholders provided input to complete the CNA. Additionally, a combination of parent, staff, student, and community surveys, NC Teacher Working Conditions Survey, data presentations and feedback, and school-level analysis of student achievement data--performance, attendance, and social/emotional status. Data compiled includes but is not limited to: Student proficiency 3-12 across schools, grade levels, content areas Increases and decreases in proficiency across cohorts of students and student subgroups School growth composites Student attendance, discipline, and retention data Teacher recruitment, retention and attendance data Perception Data: Families and Teacher Working Conditions Survey

Part B: Data Analysis
* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

In the 2018-19 school year Orange County Schools made progress in proficiency and growth. Orange County schools has 13 schools, 7 elementary, 3 middle, 2 traditional high schools, and one alternative school. For the 18-19 school year all schools in the district met (6 schools) or exceeded (4 schools) growth status. Two Middle Schools did not meet growth. One of those two middle schools exceeded growth the year prior. During the 2019-2020 school year, Orange County Schools did not administer state assessments due to the Covid 19 pandemic. OCS entered the 2020-2021 school year under Plan C - Remote learning for all schools K-12. During the spring of 2021, OCS transitioned to Plan B- Hybrid learning. The most recent student achievement data displayed a significant drop in overall student proficiency for OCS from 2018-2019 (59.60%) to 2020-2021 (40.3%). Elementary schools range from an overall grade level proficiency composite of (66%) at Hillsborough Elementary to (21.10%) at Central Elementary school. Hillsborough Elementary's proficiency level was (80%) in 2018-2019 and Central Elementary School was approximately 30 percent higher at (52%). The four Title 1 schools overall proficiency for 2020-2021 range from 21.10% (Central Elementary) to 31% (Grady A. Brown) with New Hope Elementary (26.50%) and Efland Cheeks Global (25.70%) in the middle. To provide context, it's important to note that Efland-Cheeks Global (57%), GAB (63%), and New Hope (58%) each saw an approximate 30% decrease in overall student proficiency from 2018-2019 to 2020-2021. Overall, five of the seven elementary schools fall between the range of (21.10%) and (33%) grade level proficient in 2020-2021. The other outlier is River Park at (49%) a drop from (70%) in 2018-2019. Middle Schools also saw a decrease in overall student proficiency. Gravelly Hill Middle School (33.60%), AL Stanback (37.40%), and Orange Middle (47.40%) each decreased between 22% and 30% overall proficient from 2018 - 2019 to 2020 - 2021. High Schools also experienced significant decreases in overall student proficiency between 2018-2019 and 2020-2021. Orange High School (74% in 2018-2019 to 45.80% in 2020-2021. Cedar Ridge High School (78%) in 2019 -2020 to (48.80%) in 2020-2021. Overall student proficiency in Reading and Math in grades 3-8 ranged from 39% in 3rd and 6th grade to 41% in 5th Grade and 48% in 8th Grade. Student proficiency in math is even lower in Elementary grades ranging from 28% in 4th grade to 35% in 5th and Middle grades from 28% in 8th grade to 29.90% in 7th grade. Overall grade level proficiency decreased across the majority of subgroups. The first set of numbers in each parenthesis is 2018 - 2019 grade level proficiency. The second set of numbers in the parenthesis is 2020-2021 grade level proficiency for each respective subgroup. Females (61.3% to 40.0%), Males (58.10% to 40.6%), Asian (74% to 51.8%), Black (38.1% to 21.7%), Hispanic (43.3% to 20.4%), Multi-racial (61.5% to 40.9%), White (72.8% to 55.4%), Economically Disadvantaged (39.8% to 19.9%), English Learners (22.3% to 5%), Academically Gifted (95% - 84.5%), Students with Disabilities (19.9% to 10.8%). While all subgroups showed a significant decline in proficiency the longstanding achievement gap is still evident between white students (55.4%) and their peers (Black, Hispanic, Multi-racial). School performance grades are not calculated for the 2020-2021 school year per state ruling. School Performance Grades are listed below for the previous three years: 2018 - 2019 - 6 schools exceeded growth (5 elementary, 1 high), 4 schools met growth (2 elementary, 1 middle school , 1 high school), 2 schools did not meet growth (2 middle schools) 2017 - 2018 - 5 schools exceeded growth (2 high, 2 middle, 1 elementary), 4 schools met growth (3 elementary, 1 middle), 3 did not meet growth (3 elementary) 2016 - 2017 - 3 schools exceed growth (1 elementary, 2

high), 8 schools met growth (5 elementary, 3 middle) 1 school did not meet (1 elementary) The official attendance rate generated by the state over the last 3 year cycle ending in 2019 (pre-pandemic): 2016 - 2017 - Total ADM 7,413 and Total ADA 7,035 = (94.9%) 2017 - 2018 - Total ADM 7,315 and Total ADA 6,941 = (94.89%) 2018 - 2019 - Total ADM 7,253 and Total ADA 6,773 = (93.38%) The unofficial attendance rates for the three previous years (2012 - 2015) also fall in the 94 - 95% range. Attendance rates have remained consistent but there is a slight decline. Per 2019 - 2020 data, the highest in school and out of school suspension totals are across the three middle schools. Within these totals at the middle grades, males are at higher risk for in school and out of school suspension than their female peers. Black students continue to be suspended (ISS and/or OSS) at a higher rate than their peers based on percentage of suspensions compared to total amount of students within each subgroup. Elementary Schools Total out of school suspensions - 81 Total in school suspensions - 35 Middle Schools Total Out of School Suspensions - 198 Total In School Suspensions- 244 High Schools Total Out of School Suspensions - 166 Total In School Suspensions - 68 Family Surveys indicated several areas of interest: strong academics, social-emotional learning and preparing their children for both college AND careers are priorities. Transportation, including bus routes, are a concern. Communication is important and families want clear, timely communication from central office leadership, schools and teachers. School maintenance and safety

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 1,655,705.80 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

OCS will use short-term school level enhanced staffing to help customize and personalize learning by providing tiered supports for targeted students to address learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency. This should provide an opportunity to close subgroup gaps and increase academic growth, allowing the number of schools that meet or exceed growth targets to increase by improving

personalized tiered supports. OCS will invest in short term enhanced school level staffing to address learning loss evidence based core and supplemental curriculum, professional development, high quality assessments and training. Orange County Schools will invest in multiple assessment measures and data analysis processes including universal screener(s), diagnostic assessments, Common Formative Assessments/Benchmarks, a Data Warehouse, SEL/Climate Surveys

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

OCS will utilize stakeholder input (families, teachers, students, etc.) to target support for students in a proactive and preventative manner rather than in a reactive approach. Additionally, OCS will align budgeting decisions to evidence-based activities to meet the comprehensive needs of students. The instructional materials to be utilized during the summer include multiple evidence-based practices.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Learning loss during Covid-19 has created a need for personalized content that allows students to move at their own pace. Additional digital programming to aid in regular and substantive interaction between students and their classroom instruction (including low-income and disabled students), which may include assistive technology or adaptive equipment. Students will have devices--laptop for all students, augmentative communication devices or assistive technology for students who need those devices. Parent sessions will be provided to help parents understand the learning needs of their students and how to address the learning needs at home.

* (D) Tracking student attendance and improving student engagement in distance education;

OCS will invest in SEL support programming to address student concerns. Students will receive instructional support and services when learning remotely due to quarantine and contact tracing. Many of our existing programs and future purchases will be accessible in school and remotely to meet this need.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

OCS will utilize a data warehouse and three tiered support system (MTSS) to identify student trajectory of learning to identify students demonstrating below grade level performance in the areas of reading and math as measured by the district's diagnostic assessment (Edmentum Exact Path, the K-2 foundational literacy assessment (mClass) and End of Course assessments at High schools and future screener, diagnostic, and benchmark data as needed. Subgroups particularly impacted are students with disabilities, students who are English Language Learners, Black and Hispanic. Although not fully able to dis-aggregate students who receive free and reduced meals, there is a suggestion that students who receive free and reduced meals were impacted this past school year. Using family surveys to inform decisions and further define opportunities for students to receive individualized and small group support in social

emotional skill with trained professionals. Support staff can work with classroom teachers to develop capacity for classroom scaffolds and interventions to eventually reduce the level of intervention needed. After school tutoring and Saturday school support opportunities will be developed to curb learning loss as needed and specifics of these programs are to be determined.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area **(10,000 characters or less and use of bullet points is acceptable)**	Timeline **(100 characters)**	Impact Measures **(500 characters)**	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ⦿ No				$
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ⦿ No				$
		Short Term District/School Level			$ 4,319,194.00

| ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population. | * ⦿ Yes ◯ No | Enhanced Staffing and Evidence Based Core, Supplemental and Intensive Curriculum including but not limited to Science of Reading/Literacy Curriculum, high quality assessments and professional development/training(s). Providing additional EL staff to ensure quality EL services. Providing additional support positions (AIG Facilitators, MTSS Facilitator, Equity Facilitators, Math Coaches/Interventionist. Staffing will help customize and personalize learning by providing tiered supports for targeted students. This should provide an opportunity to close subgroup gaps and increase academic growth, allowing the number of schools that meet or exceed growth targets to increase by improving personalized tiered supports | 2021 - 2022, 2022 - 2023, 2023 - 2024 | Formative and summative assessment data; MTSS student summaries; Data showing numbers of students identified in Tiers 1, 2 and 3 of MTSS or other response-to-intervention summaries | |

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ⦿ Yes ◯ No	Relaunch the MTSS by developing an implementation plan, monitoring tool and PD plan to ensure schools and staff have the appropriate supports and resources to meet the the individual needs of the students. Schools will have systems in place for data analysis and tiered intervention to properly respond to the needs of the students.	2021 - 2022, 2022 - 2023, 2023 - 2024	Benchmark and End of Grade Assessments as well as progress monitoring tools will be used to analyze student growth. Teacher survey feedback will be used to measure effectiveness of professional development and implementation.	$ 286,490.00
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ◯ Yes ⦿ No				$

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ◉ No				$

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ⊙ Yes ○ No	Purchasing educational technology (including hardware, software, and connectivity) for students. Learning loss during Covid-19 has created a need for personalized content that allows students to move at their own pace. Additional digital programming to aid in regular and substantive interaction between students and their classroom instruction (including low-income and disabled students), which may include assistive technology or adaptive equipment.	2021 - 2022, 2022 - 2023, 2023 - 2024	Digital tool usage data or progress monitoring data	$ 250,000.00
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⊙ Yes ○ No	Partner with local support agencies Employ additional counselors and social workers and extend their hours over the school year to provide services to students demonstrating stress, anxiety and changes in mood and/or behavior.	2021 - 2022, 2022 - 2023, 2023 - 2024		$ 246,403.20

				Increased student attendance (meet the 95% mark) Decrease in student discipline referrals (decrease below the pre-pandemic level) Records of contact by mental health service providers (social workers, counselors, nurses, psychologists, and others who provide services)	
	* ◉ Yes ○ No		Summer 2022, 2023, 2024		$ 1,210,309.00

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.		Summer Scholars Academy summer learning opportunity for at-risk students K-12 (6 weeks); Camps will include enrichment opportunities as well. Transportation and nutrition services will be provided. Planning and implementing summer learning and supplemental after school program activities, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, children with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.		Pre and post assessments administered and multiple progress monitoring measures used to assess student growth. Records of student attendance during the program(s)	

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ◉ Yes ○ No	11.04.21 - Reallocating funds from Summer Learning to use for indirect costs	2021-2024	To be determined when reallocation of funds occurs for indirect costs.	$ 310,427.00
				Total ESSER III Allotment	$ 6,622,823.20

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

* ✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
* ✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
* ✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
* ✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
* ✔	Funds shall not be transferred into or out of this allotment category.
* ✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available</u>, <u>the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Orange County Schools (680) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - New Applicant Summary

There are no new applicants.

Orange County Schools (680) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Chapel Hill-Carrboro City Schools (681) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Needs Assessment Procedures Chapel-Hill Carrboro City Schools has a continuous needs assessment process that we have maintained before the pandemic and beyond. The following procedures are used to ensure we have a pulse on our needs as a district to ensure we have systems and structures that will benefit all students we serve. The use of the strategic plan to identify key goals and needs within our district. During the 2020 and 2021 school years the following surveys were conducted: Panorama Surveys to gather information from families regarding remote learning Mini-TWC New Principals Vaccine Clinic Announcement/Bus Form 2021-22 Intent Form Survey EOY Testing Survey ACCESS Testing Survey x2 CogAT Testing Survey BOG Testing Survey Fall EOC Testing Survey ELS 6-12 Learning Options Survey ES - Learning Options Form Staff Vaccine Interest Form Staff Child Care Survey ACT-SAT Saturday Testing Form AVID PSAT Commitment Form Learning Options (December) Form Learning Options AC Classrooms Form CHCCS Daily Attendance Check We also have several committees including our Board of Education that meet frequently to discuss district needs relating to the pandemic either weekly or monthly: CHCCS Board of Education, Community, Principals Advisory Council, Superintendents Teacher Advisory Council, Principals, APs, Cabinet, Senior and District Leadership Teams

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Based on the data detailed in Part A key areas have been identified to address needs as it relates to ESSER III funding. Virtual Instruction is still needed to meet the needs of many students and families in our district due to the pandemic. We will have a virtual option for students and utilize ESSER funding to address this need. Unfinished Learning needs will be addressed. In March 2020 all CHCCS students moved to remote instruction due to the pandemic. We also began the 2020-2021 school year with all students accessing instruction from remotely. There were many days of missed in-person opportunities for learning. Therefore we have not been able to instruct or assess all students in person using our current curriculum since March of 2020. A review of our data from 2020-21 indicates the increase of students who have learning gaps due to the pandemic. Due to these needs, we have also identified that we will need to address our human resources. We continue to see significant needs related to human resources in our buildings due to the pandemic. We will need to ensure we have staff, support staff, and substitutes to ensure continuity of instruction for our students. We will also need to address our systems and supports for students to ensure schools have adequate time within the school day to address learning loss and social-emotional needs of our students. As we know and have learned during the pandemic change happens quickly and we would like to use ESSER funding to ensure we can address needs immediately to make sure all student needs are met. Due to these needs, we have also identified that we will need to address our human resources. We continue to see significant needs related to human resources in our buildings due to the pandemic. We will need to ensure we have staff, support staff, and substitutes to ensure continuity of instruction for our students. Recruitment needs will also be addressed to ensure continuity of instruction for students to address the continuity of instruction we will continue to train and employ substitutes and coverage staff to ensure instruction can be continued at a high level in the classroom. Continuity of instruction will continue to increase student proficiency growth of EOC, EOG data, iReady, IRLA, ACT, Discipline Data utilizing Educators'Handbook

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 1,446,000.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Chapel Hill Carrboro City Schools uses the following high-quality assessments that are valid and reliable to accurately assess students' academic progress and assist educators in meeting students' academic needs, including differentiating instruction: IRLA Mclass iReady(math) WIDA Beginning of Grade Assessments End of Course Assessments End of Grade Assessments

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Increase instructional supports as needed or requested by schools around staffing needs(i.e interventionists/coaches) Use current strategies and create new ways to reduce class size, acceleration of learning while using support resources in key areas. Addressing student needs using intervention strategies using the Multi-Tiered Support System while providing evidenced-based curriculum resources to support literacy instruction.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

We will provide assistance to families through school programming and the use of our Family Engagement programs. We will also continue using surveys and parent conferences to ensure we know the needs of our families needs are. We will address students Social Emotional Learning by working with schools and parents to provide support and education through our community outreach and family engagement activities. We will reach out to families using multiple communication methods throughout the community to ensure they are aware of the resources within our district to ensure success for students.

* (D) Tracking student attendance and improving student engagement in distance education;

Our district will monitor students' daily attendance and reports for distance learning using PowerSchool. We will use PowerSchool for distance learning and in-person learning. We will utilize our administrators, school counselors, social workers, MTSS, and attendance teams to ensure interventions are used to support the success of students.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Reviewing and tracking student academic progress prior to the pandemic gives a baseline of student overall academic achievement as well as individual students. We will use End of Grade and End of Course testing, student grades, and

data collected from IRLA, iReady, and ACT assessments will be used to compare pre-pandemic data to ensure student performance. We will utilize our district data protocol to review data as well as identify key needs to address learning loss. After reviewing data with schools and departments provide opportunities for acceleration and enrichment for students. Acceleration and enrichment such as after school and summer learning academies, intervention. Professional Development will be done to address unfinished learning needs that resulted in the Covid-19 pandemic.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

11/10/2021 2:08:14 PM

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$

	* ◉ Yes ○ No		July 2021-September 2024 July 2021-September 2024	The Chapel Hill Carrboro City Schools Finance Department will closely monitor unbudgeted balanced funds to address as needed through our needs assessment process	$ 2,850,087.00

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		Other ESSA eligible activities will be organized into the Chapel Hill Carrboro City Schools ESSER budget. This will help with the continuity of district services. The eligible activities will include the following: indirect costs that are deemed appropriate administrative costs recruitment and retention			

Total ESSER III Allotment	$ 5,773,087.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

* ✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
* ✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
* ✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
* ✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
* ✔	Funds shall not be transferred into or out of this allotment category.
* ✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

There are no new applicants.

GAN Information

Chapel Hill-Carrboro City Schools (681) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Elizabeth City-Pasquotank Public Schools (700) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Elementary Data Average Absences (9 week period) 2.88 Average # of Fs(9 week period) 0.66 Total Tier 2&3 iReady ELA MOY 1122/2049 55% Tier 2&3 Total Tier 2&3 iReady Math MOY 1292/2047 63% Tier 2&3 TE21 5th Grade Science Proficiency MOY 47.8 Middle School Data "Average Absences 9 week period 5.36 "Average # of Fs 9 week period 2.52 "Total Tier 2&3 iReady ELA MOY" 661/863 73% Tier 2&3 "Total Tier 2&3 iReady Math MOY" 680/863 79% Tier 2&3 "TE21 8th Grade Science Proficiency MOY" 45.4 5.36 2.52 661/904 680/863 45.4 The people who were involved in gathering needed information and writing the grant included, The Superintendent, Chief Human Resources Officer, Deputy Chief Academic Officer, Chief Academic Officer, Deputy Chief Human Resources Officer, Principals, Teachers, and parents. The needed information was gathered through conversations, surveys, and available state and local testing / benchmark data.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Facility Repairs/Improvements to minimize virus transmission ECPPS is focused on minimizing the transmission of COVID through improvements to schools. The addition of Marquee signs will allow information to be communicated minimizing the face to face interactions that assist in the spread of COVID. ADA playground equipment, and touchless faucets, carpet

replacements, outdoor classrooms will be added for the safety of children and the ease of sanitation to minimize the spread of COVID. Improvements will also be made to the Board Room including furniture and technology allow meetings that will allow the public to attend more safely. Improve Air Quality: The HVAC systems in our district vary in age with some being well over 10 years old. Many of these systems need to be updated and/or upgraded to improve the air quality in the schools. A large population of our students have identified respiratory issues. COVID-19 and the antiquated HVAC systems, have compounded the issues that could result in extended absences and additional learning loss due to these absences. Providing Principals/Leaders with Resources: Principals and leaders are critical to teacher and student success. The pandemic has exacerbated pre-existing learning gaps as well as illuminated SEL/Mental Health issues. Students, families, teachers, and leaders have experienced and grappled with coping and focus during these unparalleled times. Providing mental, emotional, and teaching and learning support for principals and leaders is essential to the successful implementation of and retention of strong school leaders now more than ever. To support principals/leaders, mentors will be contracted to provide additional guidance and assistance. Additionally, learning supplies and materials will need to be purchased to support professional learning opportunities for principals/leaders. Addressing Unique needs of Special Populations: All students have been impacted and/or affected by the pandemic. In order to address the unique needs of special populations of students, the district plans on doing the following to meet these diverse needs: 1. Hire EL personnel to address the growing EL student population as well as to help with assessments and instruction to address the learning loss and academic needs; 2. Hire Translators and/or translating services and/or online translation service to support the EL students and families, this may include translating software for webpage and document translation; 3. Hire/contract and/or pay stipends to qualified staff to ensure children identified with disabilities are 1) receiving the services as identified on their IEP 2) have contingency plans in place to address remote learning, etc.; 4. Purchase multicultural resources (ie. books, materials, etc.) to bolster awareness and global understanding as well as engage all students with materials that reflect the rich diversity in our district and the world 5. Provide additional learning opportunities (eg. tutoring, programs, services, etc.) that develop, nurture, and grow all students (low-income, AIG, Talent Development, racial and ethnic minorities, etc.) 6. Provide families and students experiencing homelessness and foster care youth with access to services, SEL activities and resources as well as information and guidance for local agencies to support and help them. 7. Website support through the form of contracted services to ensure that the website is highly functional and up to date with pertinent information for students and families; Supplies to Sanitize and Clean: To ensure the health and safety of all students, staff, families and to mitigate the spread of COVID-19, the district will do the following: purchase additional cleaning supplies (ie. sanitizing sprayers, sanitizing stations, etc.) and utilize contracted services in response to COVID outbreaks and employee absences due to COVID. Long-Term Closure Activities: COVID illuminated the need for additional professional development for staff members on how to provide and align instruction for students who have been identified with disabilities. Monies will be spent to: provide professional development to ensure all staff can meet the unique needs of all students; to hire/pay personnel to ensure students whose needs cannot be met with remote instruction when needed will have access to compensatory services; and pay for personnel to write/meet about contingency plans for students. Education Technology: Many of our students have experienced learning gaps due to COVID and access to working internet and appropriate devices. The district is focused on replacing aging Chromebooks, continuing Hotspot services for students who may otherwise be marginalized.

ECPPS is also focused on providing Innovative Classrooms that will engage students at high levels to combat the learning loss that has occurred due to COVID. Part of these innovative classrooms will require Educational Software (GoGuardian, Canvas, Docusign, Parent Square) for learning and effective family communication which has been very difficult due to COVID. Mental Health Services: Many of our students, staff, and families experienced trauma as a result of COVID. The district is focused on providing mental health support through contracted services to students and staff. Monies will be spent to provide training for psychologists and counselors as well as supplies and materials as necessary to implement these trainings and services. Nurses will be contracted/hired as needed to support these efforts in the schools.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 3,054,721.76 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

In order to address the large number of students who have been identified at-risk in our district due to COVID-19, ECPPS will first need to ascertain where the students are not only academically but socially and emotionally. The district will purchase and implement academic and social emotional learning benchmarks (i.e. Panorama; iReady [K-8]; TE21 [5th & 8th Science, High School EOCs]; State benchmarks, etc.) to determine academic and SEL strengths and weaknesses. Teachers will need ongoing professional development and learning opportunities to build their understanding capacity in utilizing these data to meet the students where they are and to accelerate learning. This would include but not be limited to: data training; differentiated, personalized, small group, and individualized instruction; curriculum mapping; evidence/research based instructional strategies. At times, teachers may need additional time for data analysis, professional development, and ongoing learning support, hiring substitutes to provide coverage for additional time will support capacity building of the teachers in our district. Research indicates small group instruction based on student's identified academic needs improves student learning. Monies will be spent to ensure the district has human capital to provide small group instruction. Supplies and materials will be necessary to support teaching and learning in the above mentioned activities. Additionally, digital resources will be purchased and used: to ensure students can engage in remote learning/hybrid learning; as a means to communicate with parents and provide support at home; and to track, evaluate, and compare data pre and post pandemic to further inform instruction. *A: Pretests and posttests have been used in the past and will continue to be used to assess where students are and what they need. ECPPS is in the process of updating pacing guides and beginning the work of curriculum

mapping across content areas and the district. Pretests and posttests will be encouraged to add to these maps as ways to identify students for intentional instruction. Benchmarks will also be purchased and utilized to ascertain student progress toward standard mastery. Kindergarten - 8th Grade will use iReady in math and reading. Students receive aligned instruction based off of the data. This will be continued. TE21 benchmarks will be used to assess students' academic progress in 5th and 8th grade science as well as high school EOC courses. Each school has and will continue PLCs. School level instructional coaches have and will continue to facilitate and lead data discussions and collaborative planning and designing of differentiated instruction to meet the diverse needs of students.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Surveys of teachers revealed a need for professional development in a variety of areas to address the comprehensive needs of the students. Because there were varying levels of teacher knowledge and due to a large number of newer teachers in our district, the ECPPS curriculum and instruction team developed numerous choice based professional development days for teachers, counselors, teacher assistants etc. This PD included but was not limited to: SEL/Mental Health support; online learning strategies; training in using a LMS; content support (i.e. math, reading, science, social studies, art, etc.; and job alike collaborative PLCs across the district. Moving forward, school level instructional coaches will be provided additional training and support in their role of facilitating PLCs, modeling evidenced based strategies lessons, and providing teacher support. ECPPS established early release days for the future school year to provide required professional development on (but not limited to): SEL/Mental Health; MTSS; AVID; content, and online strategies. Additionally, teachers will be working on Curriculum mapping across the grade levels and content area to analyze learning gaps and to collaborate on evidenced based instructional strategies to meet the diverse and comprehensive needs of the students they serve.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

The ECPPS office of Parent and Family Engagement will host a series of Monthly sessions based on academic success for families. They will also provide a monthly flyer with tips for academic success. Various Social & Emotional PD and events will be held throughout the year to support families and students. Individual schools will hold Title I events throughout the year to provide families with strategies to help students be successful. ECPPS will provide a video series on navigating CANVAS for families. ECPPS will provide tutoring for students. Small group instruction will be implemented and supported across the district. Based off of stakeholder surveys, ECPPS identified ways to effectively communicate and provide support to their families and stakeholders in the following ways: A universal communication device to be used by all schools that translates Social Media Platforms (Facebook, Twitter, Instagram) District Remote Learning Webpage Blackboard Connects (translates) Local District Television Station Principal Professional Learning Community (PLC) Teacher of the Year Advisory Council (NEW 2020-21) ECPPS Education Foundation Pasquotank Minister's Council District/Community Safety and Security Council Mailings Parent Center Resources to include: Tutorial Videos for Parents on Remote Learning Resources Flyers of Information Website Resources

* (D) Tracking student attendance and improving student engagement in distance education;

ECPPS employs a full time attendance coordinator to work with schools and families on attendance issues. Additionally, letters will be sent when students hit 3, 5, and 9 absences. In the event of an outbreak and students will be remote, attendance will be tracked in the following way: ECPPS will do the following (based off of state guidance): A student will be counted as present if: A student completes their daily assignments, with online or offline AND/OR A student has a daily check-in, a two-way communication, with the appropriate teacher(s) In K-8, homeroom teacher In all other grade levels, each course teacher as scheduled NOTE: A student cannot be considered absent solely due to not logging into an online resource/lesson when they are participating in remote learnin

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

The ECPPS curriculum and instruction team pulled attendance, academic progress for all students in the district. Some of the data included: Attendance, benchmarks prior to COVID and during COVID, # of assignments completed in intervention programs, etc. These data were disaggregated on spreadsheets by schools and shared with each of the school's administration team. In school level PLCs, teachers, instructional coaches, and school administrators analyzed their student data. During analysis they worked on determining the root cause of student learning loss and lack of engagement (attendance). A focus on intentional strategies to address these issues as well as data collection/analysis are ongoing and cyclical.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ◉ Yes ◯ No	Marquee Signs Playgrounds for Elementary Schools (ADA equipment) Touchless faucets & toilets Board Room Improvements Carpet Replacement at various schools Outdoor Classrooms	July 1, 2021 - Sept 30, 2024	Facility improvements that will minimize the spread of COVID-19, measured by completion of projects (Maintenance Director). School Nurses will keep a log of the number of COVID cases. The Executive Team will analyze/compare against the number of cases pre/post project completion to determine effectiveness.	$ 1,570,000.00

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ⦿ No				$
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ⦿ No				$

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ○ No	ESL Support - Teacher ($42,000) - 3 years (2) ESL Support - Teacher Assistant ($25,750) - 3 years Translator Services - Contracted Multicultural Materials AIG - Talent Development Group Website Support - Contracted Services Translating Software	July 1, 2021 - Sept 30, 2024	The AIG/EL Coordinators will maintain service logs to document how often students are served. Effectiveness will be measured by reviewing student achievement (EL Coordinator&AIGFacilitators). The Technology Director will use website analytics to track usage and determine the effectiveness of website improvements. Translator services, multicultural materials, translating software and services will be measured using school leader and parent surveys . Effectiveness measured by Title I & CA Officer	$ 994,704.65
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ⦿ No				$

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	Approved Cleaning Supplies to counteract COVID Contracted Cleaning Services to respond to COVID outbreaks and employee absences due to COVID	July 1, 2021 - Sept 30, 2024	Cleaning Supervisors will conduct building inspections to ensure that cleanliness / sanitation standards are met. This will result in a reduction in the potential number of COVID cases in a building. The effectiveness will be tracked on a monthly basis by the Maintenance Director.	$ 400,000.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ◉ Yes ○ No	Compensatory Services Contingency Plans for IEPs - Contracted Services	July 1, 2021 - Sept 30, 2024	Service logs, and Updated IEPs will demonstrate that compensatory services were provided and that IEPS are updated and in compliance. The files will be maintained, and effectiveness measured by the EC Director.	$ 65,395.00

11/9/2021 12:16:09 PM

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ⦿ Yes ◯ No	Chromebooks - 3 year refresh cycle Hotspot Service - $6,000 per month for 36 months Innovative Classrooms Software - GoGuardian, Canvas, DocuSign, ParentSquare, TE-21	July 1, 2021 - Sept 30, 2024	Records for the assignment of technology devices and hotspots are maintained by the Tech Director. The effectiveness of innovative classrooms and software will be measured by student success on benchmarks and various state tests (C&I & Technology Director).	$ 3,340,025.16
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ◯ No	Contracted Services to Support Students and Staff Training for Staff Psychologists and Counselors EAP Supplies & Materials Contracted Nursing Support	July 1, 2021 - Sept 30, 2024	Contracted Services will be measured using Service logs, EAP Program, and timesheets (HR/Finance). Effectiveness will be measured using evaluation data (HR/Title I). Staff Training will be measured using staff feedback surveys (District Coaches). Student classroom performance will be used to measure the effectiveness of purchased materials (C&I Team.	$ 1,474,000.00

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ○ No	School Administrators - 6 @ $345.93 per day - 2 years Classroom Teachers - 100 @ $267.91 per day - 2 years Enrichment Teachers - 18 @ $267.91 per day - 2 years Teacher Assistants - 25 @ $200 per day - 2 years Counselors - 6 @ $290.23 per day - 2 years Social Worker - 1 @ $232.56 per day - 2 years Nurses - 6 @ $209.30 per day - 2 years Bonuses - 2 years	July 1, 2023 & July 31, 2024	Student Assessments (Benchmarks, EOC & EOGs) will be used to measure the effectiveness of the added positions (C&I Team). Bonuses are added per state law and based on education and student achievement.	$ 1,032,984.16
	* ◉ Yes ○ No	Deputy Chief Human Resources Officer - 3 Year Indirect	July 1, 2021 - Sept 30, 2024		$ 3,144,808.27

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		Cost 10 Teachers ($42,000) - $60,244 - 3 years Instructional Coach - EC - 3 years Benchmark Tools Substitutes to Cover Professional Development Data Training Supplies & Materials Digital Resources for Students (School Subscriptions) Other Professional Development Learning Loss Bus Driver Bonuses for retention & sign on bonus for hard to fill positions. Bus monitors will be hire to help ensure compliance with safety		Employee surveys and evaluations will be used to measure the effectiveness of the added staffing (HR/Title I). Indirect cost - N/A Benchmark tools will be compared to State testing results to measure for accuracy/effectiveness (C&I Team) Data Training, supplies & Materials, digital resources and PD will be measured by comparing the impact on student achievement, and staff surveys (C& I Team) Bus driver bonuses and sign on bonuses will be measure by comparing retention rates	

	with safety measure to negate the spread of Covid.			

	Total ESSER III Allotment	$	12,021,917.24

Part E: Assurances

Check **all** *assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:*

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

There are no new applicants.

GAN Information

Elizabeth City-Pasquotank Public Schools (700) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

S	11/1/2021 9:21:17 PM	Tina Letchworth	Status changed to 'NCDPI American Rescue Plan Act-ESSER III Program Administrator Approved'.	S
☐	11/1/2021 9:21:12 PM	Tina Letchworth	**181 Amended** The amended carryover budget in the continuation application that has been submitted within BAAS and the amended FY 2022 – ARPA (American Rescue Plan Act) – ESSER III Application (PRC 181) within CCIP have been approved. This approval reflects programmatic allowability of strategies only. In the event of a fiscal audit, it is the responsibility of the district to provide documentation that demonstrates the strategy is for the prevention of, is in response to, or will reduce the spread of Coronavirus and is the most cost-effective way to address the problem. Any capital projects must adhere to all guidelines and requirements of capital projects.	C

Grant Details

Perquimans County Schools (720) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

The Perquimans County School District has determined the following educational needs as a result of the shift to remote learning and of the disruption in educational services caused by the pandemic. Data meetings at each school involving school administrators as well as central office senior staff have been occurring throughout the school year. Data has been analyzed to identify certain areas of need influenced by the impact of school closures and remote learning. Patterns of loss identified will be addressed during the summer and continue throughout the school year. These programs will occur at each school site in the district and target students who have not performed proficiently based on a variety of evaluation measures and will provide our students an opportunity to improve learning gaps, academic outcomes, and improved social-emotional measures. Collaboration with state health officials, Albemarle Regional Health Services, and Perquimans County Emergency Management Services, have determined steps to help protect students, teachers, staff, administrators, and community stakeholders to slow the spread of COVID-19 by implementing strategies to maintain healthy environments. The 2020-2025 Comprehensive Maintenance Plan has been established to develop, maintain and improve the maintenance program of Perquimans County Schools to support the delivery of educational programs and services and to provide a safe and healthy environment. The state-wide 2020 Facility Needs Survey, which has been approved by the Perquimans County Board of Education and Perquimans County Board of Commissioners, indicated the need for HVAC upgrades, asbestos abatement, doors, and windows replacement. Addressing lost academic achievement sustained by students during the school closure occurring on March 15, 2020, lasting throughout the 2019 - 2020 school year including the exclusion of all summer academic and social learning programs. The 2020-2021 school year continues to affect student's learning in a negative manner through the loss of instructional hours due to hybrid school schedules and remote learning. Currently, all schools in the district are classified as Targeted Support and Improvement (TSI)

Schools. School closures due to COVID-19 have been detrimental to academic growth and has caused trauma-related conditions for students and continues to contribute to a direct loss of the opportunity to learn, especially students whose families may have suffered from pandemic-related economic impacts. Resources and specially designed programs must be provided that will assist students to succeed academically, socially, and emotionally. Introduce measures to increase educational technology supporting both students and staff to ensure quality teaching and learning (academic and social/emotional) for all students and staff outside of the traditional educational setting.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Based on the needs assessments of our LEA data, Perquimans County Schools has determined the following: * Access to health/sanitation/PPE supplies & equipment for school staff/students and to properly sanitize school buildings throughout the district. * Re-entry procedures for school district staff will include hygiene and sanitation procedures. * Perquimans County Schools will need to purchase Chromebooks & Laptops to facilitate online and face-to-face instruction, documenting, tracking, reporting, and delivery of educational courses. * Laptop Management System (Filewave), Switches-POE, Outdoor Access Points, Google Workplace, VoIP Phone System, Media Specailist, Teacher Laptops, Chromebook Lease, Smart Televisions. * Mobile hotspots will be purchased to provide students/teachers/staff with internet access for online instruction/remote learning. * Purchase filtering software for student google accounts to support safe communication between students/teachers/staff. * Chromebook insurance to be purchased for all students to protect against a variety of damages for the district 1:1 initiative which supports online instruction/remote learning. * The wireless network will be upgraded to allow extended access for students to participate in remote learning and staff to provide online instruction. * Perquimans County Schools will need to purchase a digital curriculum designed to assess students and provide individualized instruction based on each one's unique needs. * Purchase social/emotional programs to support student's mental health needs as a result of emergency remote learning and future remote learning needs. * Employ school counselor to assist with student's academic/social/emotional learning needs. * Upgrade HVAC systems throughout the school district, replace, and doors and windows replacement. * Transportation-related costs to College of the Albemarle. * Funding for a track to enable outdoor learning spaces, physical education, healthful living, promote wellness activities for students with disabilities, and other special student populations. * Translation Services to eliminate communication barriers with students and parents. * Purchase bleachers for social-distancing measures.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 829,695.60 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Test and assessment data will be analyzed throughout the district and compared to both district and state gains. The data will be disaggregated according to gender, ethnicity, and economically disadvantaged students to determine progress in closing the achievement gap caused by the pandemic as well school closures. Efforts will be focused on students who are not meeting proficiency standards and obtaining expected growth. Provide information and educational resources to parents/guardians. Evidenced-based interventions that will appropriately address students' academic.social, and emotional needs include; Providing resources to students and families to address individual needs. Including culturally responsive teaching resources and remove barriers such as transportation and child care. Provide 1:1 staff assistance to students as appropriate, Providing resources for face-to-face and remote learners including at-home internet connectivity and digital platforms to prevent learning loss. Provide hotspots for all students promoting internet connectivity, Providing resources and specially designed programs that will assist students to succeed socially, and emotionally and employing an additional guidance counselor, Decrease achievement gaps due to school closures and remote learning especially among low-income, special needs, and English language learners. Identify emotional problems and provide mental health services to children. Focus on relationships with students. Improve reading achievement scores. Improve mathematics achievement scores. Increase student credits through Credit Recovery, and materials and supplies for instructional use.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Utilize Letterland, iReady, and Ready resources to meet the comprehensive needs of students. Letterland is a program that teaches phonics using a story-based approach. The story logic engages students leading to long-term retention of concepts. Letterland is multi-sensory and activates every learning channel through music, actions, alliteration, movement, song, art, games, and role-play. i -Ready is both a computer-based adaptive diagnostic (a "test") AND a Reading/Math curriculum--Personalized Instruction--that creates individualized learning paths based on student understanding. Ready North Carolina Reading instruction uses a consistent Read, Think, Talk, Write model in which teacher-led discussion and small group collaboration are central to student achievement. Lessons scaffold to build students' confidence as they develop important critical thinking and analytical skills. Students are immediately engaged by the variety of real-world source texts, from literature and poetry and news articles. Ready North Carolina Reading supports students and teachers with on- and off-grade level resources: Supports a balance of on-grade level and differentiated instruction, provides in-the-moment teacher support to guide teachers and help them build students' reading habits, connects instruction to the North Carolina's Standard Course of Study for English Language Arts across K-2 for a coherent path within and across grades, and implementation of the MTSS framework. Utilize digital and print curriculum assessment measures designed to assess students and foster individualized instruction.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Create and utilize videos on how to help families with tips. Post on Facebook, school website, and other social media venues. Overall: 1. Help students create a "workspace" in a set location at the home. One that is well lit and has good Internet reception. 2. Have needed supplies such as pencils and paper or notebooks for notetaking during Google Meets. If purchasing supplies is an issue, please contact the school counselor. Extra supplies are on hand at school. 3. Post the scheduled times for their classes (Google Meets). This schedule can be obtained from the school. 4. Post a daily To-Do list to help students know what they need to do each day. Example: Monday - complete i-Ready lessons, and catch up on missing/late work. Contact your teacher if you have questions, set up virtual meeting time if necessary. Tuesday - Friday - check Google Classroom, join Google Meet, check turned in assignments for grades. For students who are strictly remote: 1. Post a daily schedule and daily To-Do list as listed above. 2. Ensure students join the class Google Meets every day during class time. 3. Ensure students check their Google Classroom for assignments and work. Parent Support 1. Create/ Post and have parents View Facebook videos posted by each grade level and or class regarding how to navigate Google Classroom. 2. Sign up for the Parent Portal to stay on top of grades - check weekly. Please allow teachers at least a week to update grades. Before contacting teacher about missing work, have the student log in to Google Classroom to double-check to make sure work was submitted. (Create tutorial to help with knowing how to navigate) 3. Progress reports are sent out approximately 1/2 way through each nine weeks. Check progress report for missing grades. Have students check their Google Classroom to make sure assignment was submitted. You can pull up and view what was turned in. Continue to use our teacher websites, learning management system (Google Classroom and Canvas), and monthly newsletters to assist parents in supporting learning outside of the school walls.

* (D) Tracking student attendance and improving student engagement in distance education;

Students really need to have face-to-face instruction to reach their personal best. Attendance would be tracked based on days present in the program. Students are learning and benefit from a highly qualified teacher providing direct and explicit instruction with phonemic awareness, phonics, vocabulary, fluency, and comprehension. Students who participate remotely, attendance would be tracked based on participation in live instruction and completion of independent assignments. In addition to live instruction, instructional videos would be available for students for guided practice. Students who complete their daily assignments are counted present off-site. Teachers go live to improve student engagement and make weekly contact with students who are participating virtually.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Perquimans Central School Specific student academic outcomes include developing higher-order thinking skills, distributed summarizing, vocabulary instruction, reading comprehension instruction, and writing to raise achievement. Performance measures will be determined by iReady diagnostic data as compared to performance during the 2020-2021 school year - August - May. Arts and Recreational activities will be offered to reduce feelings of depression and associated anxiety. Pre and post-surveys will be utilized to ascertain effectiveness. SEL practices such as sharing, greetings, and check-ins will be routine for students. Hertford Grammar School Enrichment and intervention programs designed for populations of students that have not grown at the same rate as their peers this year will be offered at Hertford Grammar School. Hands-on enrichment opportunities will provide a positive impact on students' ability to apply content learned in class to critical thinking tasks and problem-solving activities. Performance measures will be determined by summer End-of-Grade retesting data as compared to previous EOG

Testing Data available at the end of the current academic school year as well as iReady diagnostic data compared to performance during the 2020-2021 school year - August - May. Arts and Recreational activities will be offered to reduce feelings of depression and associated anxiety. Pre and post-surveys will be utilized to ascertain effectiveness. SEL practices such as sharing, greetings, and check-ins will be routine for students. HGS uses formative and summative assessments to gauge student mastery. Formative assessments include daily questioning, bell ringers, and exit tickets. Summative assessments include unit tests, benchmark tests, iReady diagnostic assessments, and the EOGs. Perquimans County Middle School Explicit vocabulary instruction, building fluency, and direct and explicit comprehension strategy instruction, numbers, operations, measurement, and data will be the focus of the summer program. Performance measures will be determined by iReady diagnostic data compared to iReady performance during the 2020-2021 school year - August - May. A comparison of EOG Testing Data available at the end of the current academic school year will be compared to EOG achievement levels during 2020-2021 summer EOG retesting. Arts and Recreational activities will be offered to reduce feelings of depression and associated anxiety. Pre and post-surveys will be utilized to ascertain effectiveness. SEL practices such as sharing, greetings, and check-ins will be routine for students. Perquimans County High School Structured programs to address academic proficiency will be implemented. Priority areas include EOC retesting, credit recovery, freshman transition program. Performance measures will be determined by the increase of EOC summer retesting achievement levels as compared to exam scores from the first and second semester EOC testing. The number of students participating in and successfully completing the credit recovery program will serve as the performance measure for avoiding failure and earning academic credit. Arts and Recreational activities will be offered to reduce feelings of depression and associated anxiety. Pre and post-surveys will be utilized to ascertain effectiveness. SEL practices such as sharing, greetings, and check-ins will be routine for students. As we analyze test and assessment data for the program participants throughout the district, we will compare it to both district and state gains to show the impact of the summer program on our students. The data will be disaggregated according to gender, ethnicity, and economically disadvantaged students to determine progress in closing the achievement gap caused by the pandemic as well school closures. Efforts will be focused on students who are not meeting proficiency standards and obtaining expected growth. The comprehensive summer programs will increase learning times for students, mental wellness, and restore learning loss caused by the pandemic. In addition, this focused support will support students to make and sustain academic progress into the upcoming school year. The key student academic outcomes include the following and serve as our core beliefs in addressing these learning gaps due to the pandemic and subsequent school closures. 1) Decrease achievement gaps due to school closures and remote learning especially among low-income, special needs, and English language learners. 2) Identify emotional problems and provide mental health services to children. 3)Focus on relationships with students. 4) Improve reading achievement scores. 5) Improve mathematics achievement scores. 6) Increase student credits through Credit Recovery.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline

for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ○ No	* Establish an outdoor track to facilitate healthful living while maintaining appropriate social distancing measures. Increase outdoor learning spaces for physical education and promote wellness activities for students with disabilities and other special student populations.	July 1, 2021 - September 30, 2024		$ 1,080,000.00

				Reducing the risk of virus transmission and exposure by having adequate social distancing opportunities in outdoor learning spaces for students with disabilities and other special populations. Data will be collected and monitored for COVID-19 Case counts as well as tracking measures. Documentation will be kept regarding the number of disabled students and other special student populations participating in wellness activities in outdoor learning spaces.	

| IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement. | * ⦿ Yes ◯ No | * HVAC upgrades/replacement. * Doors and windows replacement/repair. * Ceiling tile replacement. * Repair/replace insulation in the maintenance department. | July 1, 2021 - September 30, 2024 | Replace and renovate outdated and poorly functioning HVAC systems throughout the district to increase air quality. Door/window replacement to promote safe air circulation. Ceiling tile and insulation replacement to improve air quality. Data will be collected to determine appropriate and acceptable moisture and humidity levels in classrooms, other learning environments and office spaces. | $ 694,558.80 |

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ● No				$
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ● Yes ○ No	* Purchase educational materials and supplies. * Academic tutors (salaries & benefits). * 1:1 Assistants (salaries & benefits). * Computer hardware/software/platforms. Purchase band uniforms that are machine washable to promote sanitation measures and to protect against contamination by human blood, body fluids, and other infectious substances.	July 1, 2021 - September 30, 2024		$ 184,274.00

				Provide resources to students and families to address individual needs, including culturally responsive teaching resources. Provide 1:1 staff assistance to students as appropriate. Data will be collected to determine student success in specially designed instruction as described in the student's IEP, and reduction in disciplinary referrals and out of school suspension rates.	
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ● No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ● Yes ○ No	* Purchase health/sanitation/PPE supplies for school staff/students and properly sanitize school buildings throughout the district. * Purchase touchless equipment for restrooms and other appropriate areas (paper towel dispensers, urinal/commodes, soap dispensers, etc.).	July 1, 2021 - September 30, 2024	Clean and disinfect frequently to reduce the risk of exposure to the virus that causes COVID-19. These steps will safely and effectively reduce the spread of disease in the school and work environment. Data will be collected from the monthly Perquimans County Schools Inspection Checklist to determine the cleanliness of the buildings. Each school site and buildings will be given a rating based on the Cleaning Scale levels.	$ 209,000.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ◉ No				$
EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ◉ Yes ○ No		July 1, 2021 - September 30, 2024		$ 359,575.00

| | | *Other technology hardware/software/platforms to include Smart TVs, Chromecast, Laptop Management Systems, Inventory Software, Switches-POE, Outdoor Access Points, Google Workplace, VoIP Phone System, Avast, and Canvas. * Print and Digital Curriculum Resources. * The wireless network will be upgraded to allow extended access for students to participate in remote learning and staff to provide online instruction. * Mobile Hot spots * Chrome Book Lease * Outdoor Access Points * TV's - PCHS * Fileware * VIPOE Phone System * Google Work Place * Scanners | | Provide resources for face-to-face and remote learners including at-home internet connectivity and digital platforms to prevent learning loss. Provide hotspots for all students promoting internet connectivity. Data will be collected to determine the number of hotspots issued to students and teachers, the number of chrome books leased and distributed to students and teachers, and the number of devices installed in classrooms to aid in instructional presentations. | |

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ⦾ No	* Purchase resources and specially designed programs that will assist students to succeed socially, and emotionally. * Additional guidance counselor.	July 1, 2021 - September 30, 2024	A district-wide focus will be on the mental health effects COVID-19 has on our students. Priority will be given to addressing social-emotional needs. Data collected from the School Health Assessment and Performance Evaluation System (SHAPE) will be utilized to determine targeted resources to support school mental health quality improvement.	$ 69,275.00
	* ⦿ Yes ⦾ No	* Purchase educational supplies & materials (Summer School). * Teachers' salaries/benefits/COVID-related supplements. * Teacher Assistant's salaries/benefits/COVID-related supplements. * Bus Driver's salaries/benefits/COVID-related supplements. * Child Nutrition Workers salaries/benefits/ COVID-related supplements.	July 1, 2021 - September 30, 2024		$ 115,717.00

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.				Data will be collected to determine achievement gaps due to school closures and remote learning especially among low-income, special needs, and English language learners. This data will be analyzed to Improve reading and math achievement scores. Increase student credits required for graduation through Credit Recovery. Data will be collected on the number of social-emotional problems/concerns identified and mental health services will be provided to students by school social workers.	
			July 1, 2021 - September 30, 2024		$ 606,382.60

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ◯ No	* Full-time employees COVID-related supplements. * Part-time employees COVID-related supplements. * Substitute employees COVID-related supplements. * Purchase educational supplies & materials. * COA Transportation * Translation Services * Extended Employment		Data regarding the number and school/department of COVID-related supplements for school employees will be documented in LINQ. The district has been face-to-face since August 17, 2020, and has served students remotely simultaneously. Data will be collected to determine what educational materials/supplies for instructional use have been purchased and utilized in the classrooms. Transportation Department TD 29 Reports will be assessed to determine the number of students being transported to college	
				Total ESSER III Allotment	$ 3,318,782.40

Part E: Assurances

Check **all** *assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:*

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

There are no new applicants.

GAN Information

Perquimans County Schools (720) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Person County Schools (730) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Person County Schools conducted a district wide needs assessment involving leads from each department: Finance, Human Resources, Exceptional Children, Operations, Curriculum and Instruction, as well as, principals, teachers, and classified staff members from each school. District staff also sought input from other stakeholders in the community such as parents, board members, and community leaders to assess the needs of children in our community related to learning loss due to COVID-19. An analysis of needs was then conducted by the leads of all departments and schools to drive the plans to address learning loss, social emotional needs, and the health and safety of all students in Person County Schools. The analysis of these needs led to a prioritized lists of services Person County Schools plans to provide using ESSER funds. The list of priorities include: 1) Air purification and quality, 2) Technology upgrades, 3) PPE Supplies, 4) Student Support Services, 5) Instructional Coaching/Curriculum Compacting/Loss of Learning, 6) MTSS Support.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Person County Schools did a facility audit to determine needs related to air quality and adequate spacing. Both were determined to be high priorities. The need for PPE and cleaning supplies will continue to be a need moving forward to provide a safe environment for children and staff. This year, during the pandemic, we have experienced an increase in the need for student support services such as counseling services, graduation coaching, teaching perseverance, and helping students cope with stress and change. As a result of stakeholder meetings, we anticipate a greater need in wraparound services when all students return to campus full time. Due to the loss of learning, more of our students are behind and/or below grade level and will need added supports to regain loss of learning to get back on target for success and, ultimately, successful graduation This accelerated approach will require us to employ more counselors for SEL support, instructional interventionists for small group interventions, instructional leads for curriculum compacting and enhanced professional development, and MTSS leads to help schools meet the needs of the whole child. Person County Schools is anticipating approximately 65% of our students to begin the 2021-2022 school year one or more grade levels behind.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 2,113,857.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

The PSU has analyzed student data throughout this year to identify and target academic, social, and emotional needs. According to our needs assessment, PCS will need to provide individualized learning plans to target weaknesses and accelerate learning to regain the learning that was lost. To do this, school leaders and teachers will need assistance analyzing student data, learning to use high-quality evidence -based interventions, and compacting curriculum. Instructional Coaches, MTSS leads, and Data Analysis Specialists will be working closely with School

Improvement/MTSS teams to analyze data from each benchmark assessment to create personalized learning plans for each student within each school. These plans will include evidence-based interventions according to the results of these high-quality assessments. They will also meet with teachers in grade level groups and individually when needed to prepare teachers to provide evidence-based interventions.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Instructional Coaches will provide Professional Development to all teachers to implement evidence-based interventions that respond to students' academic, social, and emotional needs. Coaches will target

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

The PSU will fund additional Social Workers and Psychologists to aid in the delivery of assistance to parents and families on how they can support their children in meeting the goals on their personalized education plan. These employees will also work with MTSS school teams to meet the social and emotional needs on each child's personalized learning plan, as well as, train teachers to provide SEL interventions for students.

* (D) Tracking student attendance and improving student engagement in distance education;

The additional Social Workers will work with our students' teachers and families to improve attendance and engagement in our distance learning academy.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

The PSU has analyzed student data throughout this year to identify and target academic, social, and emotional needs. According to our needs assessment, PCS will need to provide individualized learning plans to target weaknesses and accelerate learning to regain the learning that was lost. To do this, school leaders and teachers will need assistance analyzing student data, learning to use high-quality evidence -based interventions, and compacting curriculum. Instructional Coaches, MTSS leads, and Data Analysis Specialists will be working closely with School Improvement/MTSS teams to analyze data from each benchmark assessment to create personalized learning plans for each student within each school. These plans will include evidence-based interventions according to the results of these high-quality assessments. They will also meet with teachers in grade level groups and individually when needed to prepare teachers to provide evidence-based interventions.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with

ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ○ No	To improve the the indoor air quality in school buildings, the PSU will replace all heating, ventilation, and air conditioning units.	June 2021 - July 2024	Improve air quality index from inspection reports.	$ 1,229,959.86
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ◉ No				$
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ◉ Yes ○ No	PSU will pay lead nurse to provide professional development to school staff members on sanitation and minimizing the spread of infectious diseases and monitoring student health plans.	June 2021 - July 2024	Will be tracked and monitored by Student Support Services Director.	$ 49,721.82
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	PPE and cleaning supplies will be purchased to ensure safety of students and staff.	June 2021 - July 2024	Decrease in the spread of virus. Inspections and checklists from Principals and Custodial Lead.	$ 798,858.44

| LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements. | * ○ Yes ◉ No | | | | $ |

11/10/2021 2:10:15 PM

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ◉ Yes ○ No	PSU will purchase new technology (laptops) for students. Many students were unable to connect to virtual classrooms due to inadequate devices.	June 2021 - July 2023	Decrease in help desk calls and repairs. Increase in 1:1 laptop provision. Engagement in online activities increased.	$ 862,752.18
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ◉ No				$

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ○ No	Summer Learning Program. Program costs, teacher salaries, and admin costs.	June 2021 - July 2024	Student growth will be measured by a pretest and posttest. Teacher observations will also be conducted to measure quality and effectiveness of instruction.	$ 1,386,532.00
	* ◉ Yes ○ No	Virtual Academy for families who do not feel safe returning to face-to-face instruction. Funds in this category will be used for the salary of the Virtual Academy principal and also Indirect Costs for the salary of a Federal Grants Director.	July 2021 - June 2024	Principal and Director will be monitored and evaluated by the CAO and Superintendent for quality assurance.	$ 263,364.68

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.					
				Total ESSER III Allotment	$ 4,591,188.98

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Person County Schools (730) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

Person County Schools (730) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Pitt County Schools (740) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

The processes that were used to develop the Needs Assessment and Plan are listed below. 1. The Pitt County Schools Superintendent, Senior Leadership, and Educational Programs and Services Directors met and devised the district strategic plan using an array of data 2. The Needs Assessment was reviewed and developed based on data and alignment of the goals outlined in the strategic plan. 3. Both the Needs Assessment and district Strategic Plan were shared with the Board of Education members for approval 4. Surveys were distributed to departments to assess their needs as they relate to the student learning gaps and needs to support closing the gap and engaging the virtual students 5. Student check-ins and benchmark assessments were given to assess the students' achievement levels. 6. Attendance data was tracked for all students to gauge their level of engagement from the virtual or hybrid students 7. All schools were asked to use their resources (i.e., counselors, teachers, social workers) to reach out to those students that had low to no level of engagement on assignments due to poor attendance. 8. Based on the students' academic data and the tenets of HB 82, preparations were made to support summer school students who fit the following criteria. The needs were determined using report card data and attendance reports. Students who were failing reading and math were two or more grade levels behind in reading or math according to i-Ready diagnostic

reading and math results will be invited to attend. Also, those students that had low to no attendance were asked to attend. Principals will also provide additional data to support students attending this summer camp based on summative data, formative data, and attendance data. To help students meet Reading and Math State academic standards and close the learning gap, we plan to provide instruction in each subject area by high-quality in-person instructors. These instructors will use pre and post-assessment to determine student needs. They will also differentiate instruction based on the needs of this assessment and formative data as they work with students individually. TO ensure that all students and teachers had access to devices and capability to continue teaching and learning, a technology plan was devised by the Digital Learning Team and Educational Program Services to acquire devices and internet capability (hotspots) to ensure that all students, teachers, administrators had access to technology. The plan is that all students will have 1:1 devices as well as teachers. More devices will be needed to ensure that this is sustained in the next years. The students that will attend PCS Virtual Academy will need devices as well. Stakeholders-- Superintendent, Senior Leadership, Directors, Principals/Assistant Principals, Instructional Coaches, Central Office Staff, Bus Drivers, School Nutrition, Clerical, Support (EC Division), Transportation, Parents, Communities, and the Board of Ed. We intend to assess and address through assessments (Pre and Post Assessments). Once the data is available, individual plans for improvement will be developed for all students through Tiered Instruction.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Baseline 2020 Data Attendance: K-12 average daily attendance by PSU-District data 93% - Course Average of 60 in four core courses 3570/7119=50.15% - Graduation rate-86.2% - Dropout rate-1.45% - Suspension rate-Short-term 231.3 Long Term- 0 Expulsions-0 - Student Retention rates-2% 510/21708 - Teacher Retention-6.9% - % of students w/ devices-83% - % of teachers w/ devices-87% (i.e., laptops, mobile devices) Desk Tops-100% - % of classrooms w/video cameras-1.2% Only 4 schools in the district Pitt County Schools uses a variety of assessments to measure student achievement. Previously used reviews will continue to be used with increased data collection, analysis, and monitoring. New assessments will be implemented either system-wide or in schools/grade levels that did not previously use them. I-ready diagnostic assessments will be used in grades K-3. All students in grades K-3 will be assessed in reading to guide instruction. Students are assessed multiple times, beginning, middle, and end of the academic year. 3-8 students are assessed using BOG, I-Ready Reading/Math assessments, and NC Check-ins. I-Ready uses an initial placement test and regular progress monitoring to target specific skills for students in selected schools. District uses I-ready Reading/Math as a universal screener for academics. Schools use the I-Ready assessment to determine proficiency within the academic performance. The student's progress is monitored

consistently throughout the year. Canvas and Edgenuity will be available for the virtual students within Pitt County. This data will be used to identify, and target student needs to impact instruction directly. District-wide monitoring will increase effective implementation through individual differentiation. K-2 Math assessments will be administered at the beginning, middle, and end of an academic year. The WIDA ACCESS English Language Proficiency Tests are used to assess listening, speaking, reading, and writing proficiency for Limited English Proficient (LEP) students in grades K-12. Early Screening Profiles (EPS) cognitive screening is administered to all English-speaking preschoolers seeking admission to all NCPK Inclusive Programs. Children who do not speak English are screened using an interpreter. It is used to identify students below average in language and cognitive development. It is also used at the end of the school year to determine all preschoolers' language and cognitive development proficiency before moving into kindergarten. The High/Scope Child Observation Record (COR), an ongoing assessment system, is used in all preschool classrooms to provide documentation of each student's progress in six developmental indicators. For children functioning at a toddler level, the Infant Toddler COR is used. Anecdotal records and work samples are used as part of this ongoing assessment progress to document student growth. Beginning, Middle, and End of Year Assessments on skills necessary for kindergarten are administered to NC Pre-K students to monitor growth and differentiated instruction. Teachers use small group instruction to target specific skills for students. Teachers of LEP students use a separate PEP designed to address specific needs for modification. Benchmark assessments and Check-ins are available to schools to assist in the development of Common Formative Assessment. OTHER INDICATORS: At the LEA's discretion, describe any other indicators that will be used in addition to the academic indicators described in section 1111 for the uses described in such section. Pitt County Schools will continue to monitor previously measured indicators with increased data collection, analysis, and monitoring. Pitt County Schools measures, among others, the following indicators: Attendance: K-12 Students' attendance will be monitored and tracked. Those students that are absent for the 3, 6, 10 days will receive letters. Those students with low engagement will also be referred to the school social workers to assess the reasons for poor or no attendance. Course Average: A course average of 60 in the four core academic subjects-reading/language arts, mathematics, science, and social studies in grades 3-12. Graduation rate Dropout rate Suspension rate Retention rates Teacher Retention High Needs Schools Rubric Data Analysis Meeting Instructional Rounds Classroom Walk-throughs Professional Learning Communities Comparison of 2019-20 vs. 2020-21 BOG Data (that shows gaps) BOG3 2019-20 2020-21 School Proficiency Proficiency 2020 %Tested AES 13.2 20.9 67.7 Belvoir 7.2 22.2 66.7 Low Performing Bethel 9.7 4.2 82.8 CES 20.0 14.5 62.6 Chicod 37.9 21.2 86.1 Falkland 15.6 27.3 34.4 Eastern 21.9 40.0 71.4 Elmhurst 25.4 18.2 71.4 Grifton 19.5 18.0 78.0 Low Performing GRW 22.4 29.3 80.4 LFS 20.8 9.6 69.2 Low Performing NWE 7.0 10.5 57.6 Low Performing Pactolus 9.1 7.5 69.0 RES 38.3 17.5 74.6 WHR 35.1 26.8 71.7 SB 21.8 16.1 68.5 SGE 12.5 2.9 71.4 Low Performing Stokes 25.9 22.2 96.4 WC 12.7 19.2 67.1 Low Performing WIS 34.8 46.2 73.5 PCS 23.9 23.3 70.5 State 26.5 24.6 67.7

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 13,892,012.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

We will utilize iReady as our K-8 pre and post-assessment tool. Based on this data, students will be placed for optimal instructional groupings. Interventions will be provided through the foundational domains in iReady. These domains are phonological awareness, phonics, high-frequency words, vocabulary and comprehension literature, and informational text. Math domains will be numbers and operations, algebraic thinking, measurement and data, and geometry. Teachers will utilize common formative assessments to gauge their instructional delivery. Grades 9-12 will utilize Edgenuity for core-specific pre and post-assessment and intervention strategies. All stakeholders will be involved in planning to address the needs of all students/whole child (i.e., EC Director, ESL Coordinator, AIG Coordinator, Director of Student Services, Testing and Accountability Director, Director of Elementary Schools, Director of Secondary Schools, AVID, School Nutrition Director, Director of Federal Programs, Asst. Superintendent of Human Resources). A draft of a sample schedule to address the tenets of HB 82 (i.e., SEL, Math, Reading, Science, and Encore class). School Social Workers will reach out to the unresponsive parents.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Instructional flexible grouping Reading Horizons (K-2) iReady for K-8 in Math and Reading Purposeful centers Common lesson plans--Learning-Focused Summarizing strategies Text Analysis

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Edgenuity parent portal I-Ready Parent support Canvas and Seesaw training Information is sent to parents through our PIO on a consistent basis

* (D) Tracking student attendance and improving student engagement in distance education;

Attendance logs will be utilized Open House for Summer School Teachers will make phone contact with parents Counselors will be utilized Daily SEL lessons and support

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Utilizing iReady, Edgenuity, and other assessment tools to gauge student progress work toward learning goals Establish individual student learning goals Teacher-led vertical alignment discussions within their PLCs

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	Outdoor classroom spaces Outdoor seating areas These improvements will increase the need for additional restroom facilities and mowers for surrounding areas.	June 2021- September 2024	The outdoor learning spaces will allow students and staff to be in cleaner environments with great airflow. Thus, this will reduce the cases of spreading COVID. Student and staff attendance will increase. Attendance will be tracked in Power School. Principals and Directors will track the attendance of faculty and staff. Increase attendance will decrease the number of substitutes needed in the building and subsequently increase student achievement.	$ 1,000,000.00
	* ⦿ Yes ◯ No		July 2021- September 2024		$ 5,920,000.00

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.		Flooring replacement Floor cleaning machines HVAC Upgrades Remove carpet and replace with washable tile flooring. This will require the purchase of additional floor cleaning machines. It will also reduce environmental contaminants by replacing air handlers and boilers.		Upgrading and replacing HVAC will lower particulates in the air resulting in better quality. Replacing the carpet will remove germs from the air and improve air quality. The COVID cases and numbers will be tracked daily by our school nurses for both students and staff. Our data managers will track the attendance data. An increase in attendance will transcend to improved attendance & subsequently an increase in student academic achievement. An increase in teachers will lower the use of subs.	

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ⊙ Yes ○ No	Contract with local health agencies to acquire school nurses to serve as COVID contact in schools and respond to any exposure to COVID 19. Add Additional Nurses in the response of the uptick in cases in the schools with staff and students due to the Delta Variant	August 2021-September 2024	Providing health services from a medical professional to students and staff at school will provide guidance to decrease the number of students/staff expose and if there are positive cases in the school with students and staff the nurses will be able to support the tracking data to report to school officials and tracing to mitigate additional exposure	$ 1,369,484.18

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⊙ Yes ○ No	Contracting EC Comp Ed Svc Acquiring EC Software to meet the individual students with disabilities and EL Hire EC Pre-K Teachers Hire EC Pre-K TAs Hire EC Pre-K Coach Purchase additional bus used to run EC Pre-K transportation	July 2021-September 2024	The impact of providing support and outreach and service delivery will be accomplished through administering pre and post-assessment to the EC subgroup. The data gleaned from the assessment will determine if IEP goals will need to be modified or services will need to be increased or decreased in the annual review meetings or if a meeting is called my parents.	$ 3,344,100.80

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ⦿ Yes ○ No	Contract with local health agencies to acquire school nurses to serve as COVID contact in schools and respond to any exposure to COVID 19.	August 2021-September 2024	Providing health services from a medical professional to students and staff at school will provide guidance to decrease the number of students/staff expose and if there are positive cases in the school with students and staff the nurses will be able to support the tracking data to report to school officials and tracing to mitigate additional exposure	$ 1,260,000.00
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ⦿ Yes ○ No	School HVAC upgrades to minimize virus transmission in the school. Purchase mowers	August 2021-September 2024	Upgrading and replacing HVAC will lower particulates in the air resulting in better quality.	$ 1,000,000.00

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ◯ No	Purchase of sanitizing zupplies. Contracting cleaning service after summer learning programs due to short turnaround in time for the opening of a new academic year.	June 2021-September 2024	A deep cleaning between the mandatory summer school programs and the opening of school will provide a safer environment to minimize the spread of airborne contaminants and cases of COVID. This will ensure a safe learning environment as all students will return to school in Fall 2021. It will be necessary to contract additional janitorial services to complete this arduous task before students and staff return. This should also support our attendance efforts for both students and staff.	$ 821,644.98

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ● No				$ 0.00
	* ● Yes ○ No	Purchases: Devices-Students and Faculty/Staff Classroom videocameras 1:1 devices for students to complete assignments Teacher to integrate virtual lessons	July 2021-September 2024		$ 925,000.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.				The Asst Superintendent of Educational Programs and Services, Finance Director, and the Federal Programs Director will monitor monthly the ESSER purchase orders (educational technology to ensure that all funds are used as designated through reports ran in devices purchased (I-Ready usage reports, Edgenuity & Canvas). Meetings will be held with principals monthly to discuss programs' effectiveness through the district's common formative assessment reports from Testing Dept.

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ◯ No	Contracted Services with School-Based Mental Health Hire 10 counselors	July 2021- September 2024	Hiring additional counselors will support the schools as they work with SEL & Counseling standards. The Student Services Director will monitor the SEL survey information push it out to the counselors to provide wrap-around services or contracted school-based services (depending upon need). There will be a decrease in the discipline which will be tracked monthly. When students are in school, they are where they can receive the instruction& master skills taught.	$ 1,887,008.55

| SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care. | * ⦿ Yes ◯ No | Homeless Supplies Afterschool Programs Summer Learning Camps STEM Supplies Instructional supplies Salaries and Supplements | June 2021-September 2024 | This will be accomplished and measured by reviewing the I-ready pre and post-data. I-ready assessments will be given to all K-8th graders in summer school. EOC scores will be used for a baseline for 9-12 students and a benchmark and progress monitoring during the summer. Summer Learning-$17,100,000 Learning Loss-$10,320,748 | $ 5,980,980.75 |
| | * ⦿ Yes ◯ No | | July 2021-September 2024 | | $ 4,216,100.30 |

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		Indirect Cost Staff Supplements Purchase School Nutrition Vans- Reduce the spread of COVID Greenhouses, budget analyst, project manager, 6 activity buses, and school marquees for communication		These positions will provide continuity of services as the district faces a reduction in ADM and allow for smaller class sizes to address learning deficiencies and close gaps. Purchasing new activity buses will help to transport the students safely and meet the CDC guidelines for transportation. This will decrease the number of COVID cases that are tracked through our nurses daily. Marquees will increase communication with the parents and community to support family and community engagement	
				Total ESSER III Allotment	$ 27,724,319.56

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Pitt County Schools (740) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

 There are no new applicants.

Pitt County Schools (740) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Polk County Schools (750) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

To begin this grant application process, Superintendent Aaron Greene invited Dr. Jeremy Gibbs, Western Regional Support Director to meet with district level administrators/directors to discuss ideas for ESSER funding and the Summer Learning Program. After that meeting, Mr. Greene led a virtual meeting with principals and teachers of the year to outline ideas and gather input from all schools in the district. The ESSER plans were created based on these meetings and input from stakeholders in the school district. Using the district's Continuous Improvement Process and the constant review of local and state assessments, PowerSchool attendance data, COVID quarantine data, and anecdotal data from students, parents and teachers helped the district identify our most important educational needs. The data indicates learning gaps at all grade levels, especially for those students who experienced longer periods of remote learning. Students who have been in school for in-person instruction have shown better progress. To address student learning loss resulting from the disruption in educational services, the district plans to use ESSER III funding to do the following: hire six teaching assistants to support students in Grades 2 & 3; hire an additional ELL teacher to support English learners; share the cost with the local DHHS of a social worker/counselor to support students; provide up to six weeks of Summer Learning Programs for K-12 students over the next three summers; hire an additional high

school ELA teacher and purchase credit recovery/remediation courseware to help with credit recovery efforts; provide additional EC support for student services; provide arts-integration/enrichment activities for K-12; purchase PPE and cleaning supplies; and purchase additional student devices and classroom technology.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Teaching assistants in Grades 2 & 3: Current district-level data indicates that approximately 40% of next year's second graders will be below grade level in Literacy and approximately 32% of third graders will also be below grade level. This data is concerning because typically our district has less than 20% of students below grade level in second and third grades. Adding teaching assistants at these grades will provide more opportunities for small group and individual instruction to address learning loss due to COVID. Elementary ELL teacher: According to PowerSchool data, the number of Hispanic students enrolled in Polk County Schools has increased from 269 to 283 students in the past year. Not all of these students qualify for ELL services, however, due to the COVID pandemic, these students and families need additional support to mitigate COVID learning loss. The additional teacher will not only support these students and families, but also classroom teachers as they determine the best remediation strategies and interventions for students. This teacher will be an integral part of the elementary MTSS problem-solving teams. Shared social worker/counselor: The district's Attendance Mediation/At-Risk Coordinator has indicated the need for additional social work/counseling services to support students and families to increase student engagement for both in-person and remote learners. The number of chronically absent students has increased dramatically this year. According to PowerSchool data, currently 12-15% of students at all schools in the district have accumulated 18 or more unexcused absences for the 2021-22 school year. This is a concerning percentage because in previous years the percentage of chronically absent (18 or more absences - excused and unexcused) students has been between 10-13%. The percentage above does not include excused absences, such as COVID-related absences. Many students are experiencing anxiety, depression and social-emotional instability due to the pandemic. The shared social worker/counselor would act as a liaison between the school system and the local DHHS to better serve students and families and help them get the services they need to recover and thrive. Summer Learning Programs: Polk County Schools will dedicate a large portion of ESSER III funds specifically for Summer Learning Programs for 2021, 2022 and 2023. The teacher/student ratio will be 1:10 with additional adult support for students provided by teaching assistants and enrichment teachers. These programs will provide up to 30 days and/or 150 hours of summer learning and enrichment for the district's most at-risk students identified by individual school principals and teachers based on student data. 9-12 ELA teacher and credit recovery courseware: According to PowerSchool data, 49 of the 256 (19%)

students taking an English course during first semester failed the course. Compared to the 2% failure rate from the first semester of the 2019-2020 school year, the district determined a justified need for an additional ELA teacher and credit recovery courseware to help high school students recover credits in order to meet graduation requirements. EC support: An increase in eligible students, as evidenced by EC head count per federal reporting, indicates a need for additional support in this area. Analysis of IEP service times, shows a need for increased time for specialized instruction to improve student outcomes. The lack of participation of students who have chosen remote learning indicates the need for additional software and hardware. An analysis of student outcome data shows that EC students are performing well below their peers and professional development was identified as a way for teachers to improve instructional strategies. Arts-integration/enrichment: Anecdotal data shows the need for additional arts-integration/enrichment experiences for students and staff members to help improve social, emotional and mental health. Students and staff have all experienced trauma due to COVID closures and quarantines. One of the district's goals is to educate the whole child. Due to COVID restrictions, the district and our arts partners ha gone from providing enrichment opportunities for PreK-12 students on a regular basis to no outside visitors or field trips at all. Anecdotal data from counselors and principals indicates the negative effect that the COVID pandemic has had on our student and staff mental well-being. Arts enrichment activities, such as experiential field trips, assemblies and guest speakers/artists visits to schools and classrooms, were requested to ensure we are addressing the whole child and not just academic gaps. ESSER funds will be used to provide opportunities for community arts partners, such as Tryon Fine Arts Center, Tryon Arts and Crafts, and state organizations, such as NC A+ Schools, to engage with students and staff to improve social, emotional and mental health. These organizations have previously funded field trips, performances and artist-in-residency sessions for our students. However, due to the pandemic, many of our arts partners have lost funding and will not be able to offer these enriching activities for our students. PPE & cleaning supplies: Staff, students and families received guidance for using PPE and cleaning supplies to help stop the spread of COVID. The use of PPE and cleaning supplies has kept the total number of COVID-related absences below 15,000. Following health and safety protocols and procedures using PPE and cleaning supplies helps keep students and teachers in classrooms and/or learning remotely as necessary. Student devices & classroom technology: Although the district is not a true "one-to-one" district, all students have access to devices as needed. Students who have chosen the remote learning option have been given devices, which may or may not be returned in working order.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 586,659.70 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30,

2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

The district will administer and use the following NCDPI required assessments to assess students' academic progress: K-3 RtA Diagnostic BOY, MOY & EOY Assessments (currently Amplify mCLASS Reading 3D); K-2 Math assessments BOY, MOY & EOY; 3-8 End-of-Grade tests, 8-12 End-of-Course tests; NC Check-Ins, WIDA/ACCESS assessments and i-Ready for K-8, ELA and Math during Summer Learning Programs. Teachers will also use formative assessments to assess individual student progress and create remediation/intervention plans to address individual learning loss.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Polk County Schools will hire six full-time teaching assistants to support students in second and third grades in the area of Literacy and Math to address learning loss due to COVID. This will allow evidence-based small group intervention/instruction to occur more frequently during the regular school day. An additional high school ELA teacher will be hired to reduce class size and support students in grades 9-12 who need individual support due to COVID learning loss to receive English credits to meet graduation requirements. The district will purchase research-based credit recovery courseware to help provide remediation services for students in grades 8-12 and to provide additional opportunities for credit recovery for courses failed due to COVID-related issues.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Classroom teachers will hold parent conferences to communicate with parents ways that they can reinforce learning strategies at home. Teachers will also send information to parents via classroom newsletters, Google Classroom, Class Dojo or by using the Remind app. Schools will also send out detailed directions explaining to parents how to access student grades via the parent portal in PowerSchool. Polk County Schools sends out progress reports at 3 weeks and a report card at 6 weeks each six-week grading period to keep parents involved in the learning process. School and district administration will continue to underpin the MTSS process to ensure that students receive additional supports and interventions. Parents and families are considered partners in the MTSS problem-solving process in the district. In the distance learning environment, the Remote Learning Coordinator will be responsible for

communicating with students and families about ways to access and work through online curriculum. This communication may occur via Zoom meetings, face-to-face meetings or phone calls.

* (D) Tracking student attendance and improving student engagement in distance education;

During COVID, the district has developed a successful team of individuals who are working diligently to be sure students are engaged in learning, either in-person or remote. At the individual school level, classroom teachers, school counselors, school nurses and principals work together to identify and contact students who are not attending and/or not engaged in learning. If the schools are not seeing progress, the district Attendance Mediation/At-Risk Coordinator is contacted. For remote learners, the Remote Learning Coordinator makes direct contact with the Attendance Mediation/At-Risk Coordinator as soon as attendance or engagement issues arise. She then works with School Resource Officers and/or DHHS Social Workers to conduct home visits to share supports with families and encourage improved student attendance and engagement. The Attendance Mediation/At-Risk Coordinator provides monthly updates at Principal Meetings and partners with DHHS, DJJ and local mental health care service providers to hold monthly attendance mediation meetings for parents, students and school administrators to all work together to improve attendance.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

The Continuous Improvement Process in place in Polk County Schools requires regular data meetings with each school. These meetings require schools to look closely at student and school data, use the MTSS problem-solving framework and create plans for improving student outcomes. These meetings have focused on COVID learning loss and the strategies schools are using to mitigate that loss. School administrators will be asked to produce comparative data analysis focused on 2020-2021 student performance data in relation to past student and cohort performance. This data will be discussed during the 2021-22 Administrators Retreat and updates will be expected at each of the Continuous Improvement Process school-based meetings held during the 2021-2022 school year.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ◉ No				$
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$
		The district will hire an additional			$ 437,497.66

| ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population. | * ◉ Yes ○ No | an additional ELL/LEP teacher to support English learners in Grades K-8 and address learning loss. The district will contract with guest artists/performers to provide PreK-12 performances and classroom sessions because none were allowed during COVID and funds to cover the cost of these experiences are no longer available from our local arts partners due to COVID closures and funding loss. Funds for EC students will provide PD for teachers and an additional part-time EC teacher to help address learning loss due to COVID. EC Teachers, Teacher Assistants, and contracted staff will be used to address learning | August 2021 - June 2024 | The district will see increased ELL family engagement and improved grades for elementary ELL students. The high school will see an increased number of students receiving English credits to meet graduation requirements. The high school will see an increase in the number of students recovering credits to meet graduation requirements. A greater number of EC students will meet their IEP goals. | |

		loss for EC students. Computer hardware needs to be updated to ensure sufficient access to online instructional sessions, for example, a need for improved memory capacity to ensure adequate speed for optimal performance during online sessions. Some students need access to a variety of equipment and software to fully engage remotely or in hybrid settings beyond the district purchased Chromebooks, for example, touch screen capable devices.			

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	Polk County Schools will continue to purchase and supply schools with PPE and cleaning supplies for buildings and buses to minimize transmission of COVID.	July 2021 - September 2024	The number of COVID cases within schools will remain extremely low due to the use of sanitizing supplies and efforts of staff.	$ 99,904.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ◉ No				$ _____

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ◉ Yes ○ No	Polk County Schools will purchase student devices and classroom technology to enhance educational interaction between students and classroom instructors and to support remote learning when necessary.	July 2021 - September 2024	A greater number of students and teachers will have access to devices, projectors, etc. to enhance in-person and remote instruction.	$ 75,000.00
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◉ Yes ○ No	Polk County Schools will hire additional social workers/counselors (one shared with local DHHS). These positions will work with our attendance/at-risk coordinator to support families and improve student attendance and mental well-being.	August 2021 - June 2024	A greater number of students and their families will have access to and receive counseling support services. Also, the number of students who are chronically absent will decrease.	$ 40,000.00
		Polk County will			

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ○ No	Polk County will hold a six-week in-person K-12 summer learning program and will provide after school care for K-8 students June-August 2021. The district will hold similar summer learning programs in 2022 and 2023. All students will receive a basic school supplies to use during the program and then take home in August. Teachers will be allowed to purchase additional supplies and materials. Certified teachers and special guest artists/performers, such as ComMotion, will provide enrichment sessions. A school counselor and a school nurse will be on site to provide social-emotional	June 2021 - August 2024	A greater number of K-8 students will be promoted to the next grade level and a greater number of 9-12 students will recover credits for graduation requirements after attending the summer learning program each summer.	$ 1,215,619.80

		and health/medical support for students. Transportation and meals will be provided.			
OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ◉ Yes ○ No	Polk County Schools is placing $57,742.33 for Indirect Costs in this plan.	July 2021 - August 2024	Budget amendments will be submitted accordingly.	$ 57,742.33
				Total ESSER III Allotment	$ 1,925,763.79

Part E: Assurances

Check **all** *assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:*

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

FPMS-ARPA ESSER III PRC 181	Friday, July 30, 2021

Polk County Schools (750) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

Polk County Schools (750) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Randolph County School System (760) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

To determine the most important needs resulting from the disruption of educational services during COVID-19 and school closure, the Randolph County School System (RCSS) has established a process for stakeholder collaboration to collect, analyze, and communicate information regarding student learning gaps resulting from this disruption. As a continuation of the process started in March of 2020, the RCSS has throughout the beginning of the 2021-2022 school year with an emphasis on determining areas of need with respect to learning loss and supporting continuous improvement. As a follow-up to this survey, another digital device stakeholder survey was conducted in September, 2021. The survey was completed by 5,339 students and parents. The survey results show that 14% of RCSS students do not have access to high speed internet and 44% of students do not have access to a device at home. The survey also reinforced our knowledge of areas that lack connectivity in our rural public school unit geographic area. To better support our staff and teachers for the 2021-2022 school year, professional development through the Canvas Training Portal was made available to staff over the summer. Staff from the Digital Teaching and Learning division continues to provide support to schools with the use of Canvas to enhance remote, virtual and blended instruction. RCSS also applied for a school number to establish a Virtual Academy for the 2021-2022 school year to support the need for an all remote environment. The K-8 virtual academy, The Virtual Academy at Randolph, currently serves 183 K-8 students in a 100% online capacity. The RCSS also saw a need to establish a process for students in grades 9-13 to access a completely online environment if needed/desired. Students in grades 9-13 who wish to be completely virtual access online courses through iLearn Randolph, NCVPS, Career and College Promise courses at Randolph Community College and our Apex Learning platform. Currently, 128 students in grades 9-13 are completely virtual. As a district Curriculum and Instruction Team, our focus for the 2021-2022 school year surrounds the need to help schools identify and address learning loss that has occurred. Our focus encompasses the need for data driven decision making, an intense focus on core instruction, conversations surrounding continuous improvement in Professional Learning Communities and the importance of the Multi-Tiered System of Support (MTSS) process. Each principals' meeting has involved

professional development in one of the areas in an effort to support identification of student needs and allocation of resources to address the needs. We have begun the process with a focus on data analysis, the use of our Data Smart system and trying to make sense of the 2020-2021 data that was released in September. This process has also begun a conversation surrounding the need for high quality formative assessment to pinpoint the areas in which students did not perform well and as a means of continuous checks for progress toward mastery. Although statewide testing data for 2020-2021 is very different from our normal set of data, the RCSS is working to utilize this data as well as data from formative assessments, grades, MTSS data, mClass, iReady, competency- based assessments, discipline, and attendance to identify areas of concern and areas of celebration.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Data Analysis The Randolph County School System currently serves 15,464 students in grades PreK-13. Of the 15,464 students, 1,787 students qualify for services under Exceptional Children, 971 students qualify for English Language services,and 343 students are being served by our PreK funding.   466 students are enrolled in our online courses through iLearn Randolph in 19 different courses, and 344 students are accessing community college courses this fall through our local community college, participating in 650 courses.   The RCSS has seen an increase in our number of hispanic students, but a decrease in our number of immigrant students.   We have also seen a rise in the number of students classified as autistic. School Performance data from the 2020-2021 school year showed that the district had a 42.9% grade level proficiency, which means 58.1% of our scores on EOGs and EOCs were not proficient. 58.6% of students were not proficient in math grades 3-8 and 60.0% of students were not proficient in reading grade 4-8. Grade 3 showed 50.6% of students were not proficient. Science grades 5 and 8 showed only 33.5% of students were not proficient. English II scores showed 48.9% of students were not proficient. Math 1 and Math 3 showed 84.8% of students were not proficient and 67.1% of students were not proficient, respectively. In Biology, 63.7% of students were not proficient. The RCSS still has four low-performing schools. Their identification was made in 2018-2019 and continues due to lack of testing data due to the COVID-19 pandemic. We also continue to have 26 TSI schools, 25 of which are TSI in the SWD category. Preliminary mClass data for K-3 shows 82% of kindergarten students fall below grade level. First grade data shows 70% of students are below grade level and 66% of second graders were below grade level. Finally, 62% of third graders performed below grade level. Since data regarding proficiency by domains for individual students is no longer available and mClass data is showing a large number of students performing below grade level, a need for focused, intensive, formative assessment is key to determining the areas of learning loss and need for learning acceleration. Training on development of formative assessment, analysis of formative assessment data, and response to interventions is needed for teachers and staff. With the resulting formative assessment data, schools can determine areas of need for both learning acceleration and resource allocation. RCSS can also utilize this data to refine core instruction to meet the needs of all student groups while determining professional development needs and the need for additional resources. Supporting PLC discussions surrounding data and core instruction will help to define interventions needed and align with the MTSS process. The RCSS has continued to survey stakeholders on availability of devices and connectivity. The data shows a continued need to provide hotspots and devices to a portion of our students and staff, particularly when quarantined to reduce potential learning loss. The system continues to share information with stakeholders regarding access to discounted

internet access where available and to work with families in areas where access is limited due to the rural nature of our county. A need for a virtual option (as described in part A) was evident based on previous data, therefore the district created a virtual academy and a virtual option for high schools. Along with the platform for the Virtual Academy at Randolph, more training is needed for teachers who will provide instruction solely through an online platform. This training will help teachers better assist students in learning in a remote environment and would also support teachers at traditional schools with assisting students in learning in a blended environment. Additional seats in NCVPS and Apex are also needed to support the virtual requests for high school. The district also needs more intense training for staff on the use of digital devices in a classroom and in situations where schools are one-to-one. Our data also continues to indicate a need for additional training and support for the use of our LMS, Canvas. Our Digital Teaching and Learning staff continue to provide small group and one-on-one support as well as access to Instructure's training portal. Social/emotional support for students are a dominant needs as well. In response to this need, the district is working to purchase a curriculum platform focused on social/emotional education. Currently, select schools will have access to the platform, but RCSS knows there is a need across all schools to offer this type of support. Attendance also continues to be an area of concern for RCSS. Although schools are in session (in-person) five days a week for the 2020-2021 school year, preliminary attendance data shows a district attendance rate of 94.9%, under the normal pre-pandemic rate of 96.0% or above. This data definitely could be indicative of some absences linked to sickness, but further analysis and tracking is needed to determine patterns and needs.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 7,083,148.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

The RCSS will work to implement regular use of high quality formative assessments to gather data regarding learning loss and to pinpoint areas of need and determine academic progress or the lack thereof. Formative assessments will inform instruction, drive PLC conversations surrounding strategic planning, resource allocation and differentiated opportunities for students. The formative assessments include, but are not limited to, NC Check-ins, mClass, iReady, Ellevation, teacher made formative assessments, Panorama (SEL screener), the Brigance, the Woodcock Johnson, MTSS process.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Through the data collected from the formative assessments, the RCSS will be able to identify the specific needs of students and provide the appropriate evidence-based activities to address these needs. Examples of these evidence-based activities include, but

are not limited to, small group instruction, scaffolding, differentiation, hands-on activities, problem-based learning activities, classroom talk, rigorous questioning strategies, immediate feedback, targeted vocabulary teaching, peer tutoring, guided practice, targeted classroom design and opportunities for student engagement and response.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Parents/Families: Communication with parents/families has become more important than ever before. The RCSS uses parent conferencing through both in-person and virtual means, the SchoolMessenger communication system, district and school webpages, Class Dojo, Remind, the PowerSchool parent portal, parent information nights, teacher Canvas Pages, IEP meetings, transition meetings, Title I parent information sessions, Social Worker outreach, Student Advocate meetings, Public Health Department collaboration, Partnership with Children collaboration, information mailings, PeachJar communication system, email communication, communication via our business partners and local cable news video communications.

* (D) Tracking student attendance and improving student engagement in distance education;

Attendance in school is essential for student success. The RCSS uses several different methods to track and monitor student attendance. Attendance is taken in the PowerSchool Student Information system where various reports exist that allow for analysis of this data. Schools monitor attendance by doing regular attendance audits and implement strategies for improving attendance such as collaboration with distance education entities like NCVPS, Randolph Community College, Internships, and iLearn Randolph virtual teachers, positive two-way communication between counselors, student advocates and social workers with parents and students concerning attendance, regular mailings of attendance letters, and individual student conferences regarding attendance.The RCSS has increased the number of distance learning opportunities for students such as the establishment of a virtual learning academy, the increased use of NCVPS, iLearn and College and Career Promise courses, and through the increased use of Canvas, our learning management system. We have also purchased and implemented various digital tools to help foster better student engagement in distance learning. These tools include Kami, Google Suites, Screencastify, and the Pearson Learning platform for the virtual learning academy.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Formative assessment data, summative assessment data, and teacher grade data can be used to identify potential learning loss that may have occurred due to the pandemic. The PowerSchool information system, our Data Mart System, iReady, mClass, WIDA access system and the state assessment data system contain various reports that offer us the ability to compare student performance pre and post-pandemic.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline

for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ◉ Yes ○ No	Update furniture to replace fabric with hard surface furniture for cleaning purposes to reduce the transmission of Covid 19 and support student health needs.	January 2022-December 2024	To reduce the transmission and exposure of infectious disease and to allow flexible seating to provide adequate social distancing.	$ 445,270.00

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ◯ No	In an effort to minimize the spread of Covid-19, custodial positions are needed to continue the enhanced cleaning of our school facilities.	January 2022- December 2024	Minimize the spread of Covid-19 and enhance the cleanliness of the school facilities.	$ 1,000,000.00
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ◯ Yes ⦿ No				$
	* ⦿ Yes ◯ No	In an effort to provide students and families with virtual learning options during Covid 19, BCSS	January 2022- December 2024		$ 10,000,000.00

| ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population. | | Covid 19, RCSS will continue funding of the virtual academy, NCVPS courses, iLearn course development and implementation. To address the needs of students with disabilities RCSS will-Hire registered behaviour technician for autism/behavior team. -Learning loss will be addressed through the purchase of subscriptions to be used with small group instruction, assess oral reading progress, provide differentiated instruction for students with disabilities. -Hire EC program specialists to support ELA and Math instruction. -Hire additional teacher assistants for | | Increased student achievement on formative assessments, progress monitoring, and summative assessments in low-income, minorities, English learners, students with disabilities, and homeless and foster care students. | |

		assistants for self-contained classrooms to address the increased number of student behaviors being experienced during Covid-19 Purchase CTE pathway kits for 6th grade students to aid in transition to middle school. The RCSS will hire a Heath Science I and II teacher for high schools in highly impacted areas of low wealth and by Covid 19. -PD for PowerSchool team to enhance data collection, analysis and reporting. -Purchase instructional materials to support differentiation for student needs in grades K-5. -Hire 3 part-time interpreters to support EL			

		families in their unique educational needs. -Provide PLC training for district and school staff to increase student achievement across all subject areas. Provide professional training for Canvas course development to support student engagement in distance learning. -Provide AVID PD and training for 6 school teams. -Purchase instructional materials to support differentiation for student needs in grades 6-8. -Hire interventionists at all elementary and middle schools to address the needs of low-income, minority, ESL and EC students experiencing			

		learning loss.			
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$

11/10/2021 9:47:09 AM

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ⊙ Yes ○ No	In an effort to be prepared for possible school closure, educational technology purchased will be to provide remote instruction for students.	January 2022-December 2024	Minimize learning loss in the event of long term school closure. Seamless transition from in-person to remote instruction to reduce the impact with the unique needs of special populations.	$ 1,000,000.00
EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ⊙ Yes ○ No	-Continue to purchase educational technology tools to support virtual learning in conjunction with our Learning Management System, Canvas. -Update Media Center Collections. -Purchase and install interactive panels and monitors in 2nd through 12th	January 2022-December 2024	Increased access to educational technology will allow low income students, minority students, students with disabilities, English learners, students experiencing homelessness and foster care the opportunity to utilize educational resources to reduce learning loss.	$ 10,000,000.00

grade classrooms to increase student engagement and support in-person and virtual learning. - Purchase Chromebooks and accessories to bring all schools to 1-to-1 access to support in-person and virtual learning. - Replace unsupported teacher devices to support in-person and virtual learning. -Provide PD on teaching using a 1-to-1 initiative. -Hire an additional information systems technician to support additional hardware and software used to provide in-person and virtual instruction and 1-to-1 initiative. - Upgrade existing wiring to support in-person and

		virtual instruction, along with the 1-to-1 initiative.			
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◉ Yes ○ No		January 2022-December 2024	SEL Survey data is used to provide Teacher/Student comparison data, subgroup data, Individual student data, and resources to meet student needs. Results can be used to drive/measure NCStar Goals for SEL. Playbook/Interventions/strategies provided to address needs found through surveys. Survey data can measure SEL at the district, school, classroom and individual student level.	$ 150,000.00

		Panorama for All Schools in RCSS. Panorama provides a survey for students and staff that can be taken multiple times during the year to determine SEL needs. The survey measures various topics in 3 core areas 1) Student Skills & Competencies, 2) Student Supports & Environment and 3) Adult SEL. The data collected from the surveys can be disaggregated by student subgroups and drill down to individual students. Panorama continues to support students/teachers through access to a variety of professional development, instructional strategies, and interventions			

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ● Yes ○ No	-Summer Learning should include the purchase of additional APEX, NCVPS and iLearn offerings for high school students -Provide summer enrichment activities for low income students, minority students, students with disabilities, English learners, students experiencing homelessness and foster care to reduce summer regression and provide opportunities to reduce learning loss.	January 2022- December 2024	To provide opportunities for increased number of credits earned toward graduation and provide summer enrichment opportunities to minimize learning regression and increase student achievement.	$ 2,000,000.00

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ○ Yes ◉ No				$
				Total ESSER III Allotment	$ 24,595,270.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

* ☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.

*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Grant Details

Asheboro City Schools (761) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

1.) The Asheboro City School (ACS) District Leadership Team began the initial planning and data collection process. Each principal led a needs assessment data collection activity with their school leadership team identifying their top needs to reduce the impacts of COVID-19. These needs assessments were analyzed by the district leadership team to determine the most important educational needs. Classroom educator groups were provided opportunities to give feedback on resources purchased from the CARES (ESSER I funds). Classroom educators also provided feedback for additional resources needed to best combat the learning disruptions as we shifted fully to in-person instruction. Parent and student surveys were conducted on the effectiveness of remote instruction and to determine the effects of closure and impacts of COVID-19. These surveys aided in identifying the needs of our remote learners, present and future. They also addressed the impacts caused by the disruption of educational services. The ACS Board of Education were provided opportunities to hear the plan and provide feedback and direction. The board approved the plan at the April 15, 2021 meeting. 2.) ACS will use the following data to assess learning gaps that have occurred as a result of the disruption of educational services. We collected and compared data from the year prior to closure (18-19), the year of closure (19-20), and the year of a combination of reentry plans, including plans C, B and A (20-21). By comparing across these years, we are able to measure the amount of learning loss in areas that show participation, engagement, and performance. Data used to assess learning gaps: a.) Student Attendance b.) Student Classroom Performance c.) Student Performance on Issued Assessments d.) Student Reading Performance on Diagnostic Screeners We will address the learning gaps by focusing on the allowable areas of: a.) addressing learning loss b.) long-term closure c.) education technology d.) summer learning e.) improve air quality Details of the plans for each of these areas are included in Part D of this application.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

1.) Student Attendance   a.) Comparison of attendance through PMR 6 in 2019, 2020, & 2021 -During the first six months of the 2020-2021 academic year, all schools in Asheboro City have experienced a drop in attendance. Three schools have seen an ADA decrease of greater than 5%: Charles W. McCrary (-6.5%), Donna Lee Loflin (-6.8%), and North Asheboro Middle School (-5.9%). This results in a loss of instructional time for our students. 2.) Student Classroom Performance   a.) Grades 3-5 Core Course (ELA, Math, Science, & Social Studies) grades for Quarter 3 for 2019, 2020, & 2021 - During the 2020-2021 academic year, students in grades three, four, and five have experienced a decrease in classroom performance as evidenced by earned grades in their core courses. Also, a five-fold rise (2.5% to 12.8%) in the percent of students earning less than a 60% during the third quarter of the current academic year. The number of students not meeting classroom expectations demonstrates a need for providing catch-up instruction and remedial opportunities for our students.   b.) Grades 6-8 Core Course (ELA, Math, Science, & Social Studies) grades for Quarter 3 for 2019, 2020, & 2021 - During the 2020-2021 academic year, a higher percentage of middle school students have not met classroom performance expectations in their core academic subjects of English/Language Arts, Mathematics, Science, and Social Studies. The percentage of students earning a failing grade in a core subject during the third quarter has increased by 28.3%. Without the foundational knowledge and experience in these subjects, students will not have a sufficient understanding of grade level content standards and will require additional support to engage with content at the next grade or course.   c.) Grades 9-12 first semester classes passed for Fall 2019 & Fall 2020 - During the first semester of the 2020-2021 academic year, 586 high school students did not earn a passing grade in one or more courses. This represents a decrease in the successful completion of academic credits of nearly 20%. These students will require support with repeating elements of a subject for the purpose of improving skills, engaging in enrichment activities, providing credit recovery opportunities, or repeating a course for credit if they are to successfully complete their graduation requirements within four years of entering grade nine. 3.) Student performance on issued assessments (BOG3, NC Check-Ins, EOCs)   a.)Beginning-of-Grade 3 Reading Test comparison 2019 to 2020 - The Beginning-of-Grade 3 Reading Test (BOG3) is a standardized test administered to establish a baseline measure of students reading skills. The BOG3 is linked to the Read to Achieve Program and is aligned to the North Carolina Standard Course of Study for English Language Arts. In the fall of 2020, 273 of the enrolled 354 grade 3 students participated in the BOG3 assessment. Of the students participating in the BOG3, there was a 5% decrease in the demonstration of third grade reading proficiency. Students not demonstrating proficiency will need additional instructional opportunities and support in reading and English language arts to successfully meet the grade level standards established in the Read to Achieve Program and to be prepared to engage in future academic content.   b.)Comparison of the North Carolina Check-In 2 performance from 2020 & 2021 - Due to COVID-19 restrictions, the first round of NCCI assessments were not administered during 2020-2021. The second round of NCCI was administered to students in-person or remotely in February. In comparison to the 2020 administration, there was a decrease in subject performance on all assessments and in all subject areas. In mathematics, most schools had more than a 10% decrease in the overall subject performance. For example, grade seven mathematics subject percent correct slipped from 43.3% to 30.8% and 46.5% to 36.8% in our two middle schools, respectively. Similar decreases were observed in the science assessments in grade 5. Grade 8 assessed different strands within science, so a comparison was not available. Reading/Language Arts results also evidence a decrease in performance, but with a smaller magnitude. The decrease in mid-year performance in reading/language arts, mathematics, and science demonstrates learning loss across grade levels and subjects in grades 3-8. Students will need additional instructional opportunities and support to address gaps in learning and skill development.   c.)Comparison of the Fall 2019-20 to Fall 2020-21 End-of-Course Assessments - In

the spring of 2020, the EOCs were not administered due to the COVID-19 closure of schools. Fall administration of the EOCs in 2019-2020 and 2020-2021 evidence a decrease in course level proficiency in all four assessment subjects. Students who are not proficient, according to the achievement level descriptors, demonstrate inconsistent understanding of grade level content standards and will require support before engaging in content at the next level. 4.) Student Reading performance (iReady)   a.) Comparison of mid-year elementary Reading performance in 2020 & 2021 - Elementary students in ACS are formally assessed at the beginning, middle, and end of the year in reading. In 2019-2020, this assessment was administered using the IStation platform. Starting in 2020-2021, reading assessments were administered using the i-Ready platform. As each platform has independent assessment protocols and norms, the data may not be directly comparable. The MOY i-Ready assessments for 2020-2021 were administered in January of this year. The assessments in Kindergarten evidence an improvement (61% to 48%) from the IStation assessments the previous year. Reading performance data in grades 1-5 showed a decrease in performance from the IStation to the i-Ready assessments. These decreases in reading performance will require additional instructional opportunities and interventions.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 2,279,948.34 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

In grades K-8 reading and mathematics, we will be administering i-Ready, a comprehensive assessment and instruction program that empowers educators with the resources they need to help all students succeed. By connecting diagnostic data and personalized Instruction, i-Ready reduces complexity and makes differentiated instruction achievable in every classroom. i-Ready enables educators to confidently determine each student's on-grade level proficiency based on state and national standards and then delivers online lessons that provide tailored instruction and practice for each student to accelerate growth. In grades K-5 reading, we will also be administering Literacy Footprints, a literacy assessment that includes anecdotal notes for reading behaviors and sequenced lessons to address vocabulary, comprehension and writing needs to build toward on-grade-level readers. We would like to review and select diagnostic assessments and universal screeners to implement with our high school students. Currently, we do not have these assessments in place at the high school level.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

We will implement AVID to meet the comprehensive needs of our students by incorporating system-wide proven strategies for academic success to help our students get back on track and to provide focused attention to targeted students that have experienced academic loss. AVID strategies help students access rigorous grade level content by supporting their academic work

with strategies to develop organization, collaboration, inquiry, reading and writing. Within four years, we will have AVID fully-implemented at every school. During the 2021-2022 school year, grades 4,5, and 7 will implement AVID. In 2022-23, grades 3, 6, and 7 will implement AVID, The following two years grades K-2 and 9-12 will implement AVID and have these evidence-based strategies in place K-12 district-wide. Beginning in middle school, AVID also provides focused attention for targeted students during an elective course. We will identify students that need this elective based on their academic learning loss. The students remain in the elective course receiving additional support, tutorials, speakers, and curriculum every year until graduation. An AVID coach will be utilized to support the program, professional development of the school-wide strategies and students in the elective course. We will implement digital resource subscriptions and curriculum to help students access a more engaging, hands-on curriculum. Examples of curriculum and curriculum materials include: Science of reading elementary curriculum, Springboard ELA for middle school students, Didax hands-on algebra kits for middle and high school teachers that teach algebra concepts, manipulatives for elementary mathematics teachers, science kits and resources for inquiry-based instruction, high-interest classroom texts for students, cutting-edge textbooks that are culturally-responsive, and a variety of other helpful resources. Digital resource examples include: Science Techbook, Scholastic Scope, Apex Learning for high school credit recovery, Discovery Streaming, EdPuzzle, SeeSaw, decodable texts for the science of reading, and a variety of other digital resources to help strengthen our core and meet the needs of diverse learners.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

We will be utilizing the ACS Family/Community Specialist along-side the Director of Equity & Inclusion to spearhead a Family Resource Center in the northern and southern sections of our district. We will be buying books and resources for the Family Resource Centers and conducting classes on a regular basis at the centers for families and students. Topics for families will range from student advocacy, how to make the most of a parent conference, SEL support, a child in crisis, organization and time management, and understanding grade level expectations to help my child be successful. Student classes will be similar in nature and there will also be STEM opportunities, ACT Test Prep courses, and tutoring available for students. Every department and school will participate in these topics on a rotating basis in order to address all students (EC, 504, EL, low-income, racial and ethnic minority students, students with disabilities, and homelessness). We also plan to investigate and implement Family Engagement On Demand (or similar platforms) to assist with resources for our parents in a digital platform. We would also like to contract to have a second Family Engagement Specialist for the district that focuses on our Hispanic population to effectively support the families of our Hispanic and English Learner families with distance learning and learning loss.

* (D) Tracking student attendance and improving student engagement in distance education;

Regular attendance will be prioritized within each school and encouraged throughout the community. School administrators shall monitor and analyze attendance data to develop and implement strategies for reducing chronic absenteeism. Such strategies should involve engaging students and parents, recognizing good and improved attendance, providing early outreach to families of students missing school, and identifying and addressing barriers to attendance. The ACS PowerSchool Coordinator will track our distance education (virtual learning) student attendance daily and provide reports to principals and the Curriculum & Instruction department for students that have 3 consecutive absences or more than six absences in a quarter. These students will be flagged and the MTSS team, along with the school counselor and mental health specialist, will develop a plan for the student. The plan will encompass strategies for the parents/guardians to support their child/children to ensure student attendance and participation in virtual learning. A counselor will be dedicated for the students in the Virtual Learning Academy. This counselor will track attendance, participation, and

performance and do weekly contacts checking in with these identified students and their families. Social and Emotional Learning lessons and support will be provided by the mental health specialist team. An additional mental health specialist will be hired to assist with the support needed in response to COVID-19.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

We will be hiring transition classroom teachers and interventionists for the district to address students identified with the greatest academic learning loss and track their growth and academic progress throughout the year. The transition classroom teachers will work in the elementary schools to teach the current year's grade level standards while filling in the learning gaps of the previous year. Students will maintain rigorous expectations while receiving scaffolding and support for important standards that build on the new standards. These classrooms will not be considered retention classrooms; rather they are on grade level classrooms with additional support for the previous year's content. Class sizes for these classrooms will be decreased. Interventionists will be utilized for students in grades K-12 throughout the district. Interventionists will address learning loss for prioritized standards for students. The intervention sessions will focus on remediation and intervention using evidence-based resources and strategies. Intervention resources will need to be reviewed and purchased for some grade levels and subjects in order to implement with students and track progress and growth. For example, materials from the 95% Group company are being reviewed to fill intervention and progress monitoring needs for advanced phonics, vocabulary, fluency and comprehension.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ⦿ No				$
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ○ No	All of our schools have HVAC needs due to the age of the systems and air quality. We have chosen two of our elementary schools to replace HVAC units to improve the quality of air and reduce the risk of virus transmission. The two schools chosen have external units that can be replaced without disturbing instruction. These replacements will enhance air quality by introducing outside air systems, updating the control systems, UV germicidal light systems in the air handlers, and more precise temperature control.	Replacements will be scheduled based on equipment and installer availability during 2021-2023.	By monitoring building automation systems we can verify in trend, temperatures, humidity levels, outside air exchange, and system run times.	$ 1,843,722.00

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ◉ No				$

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◉ Yes ○ No	Replacing carpets to increase preparedness and to reduce virus transmission.	Carpet replacement should take place within the 2021-2023 school years.	Cleaner air and floors to reduce virus transmission.	$ 400,000.00
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$
	* ◉ Yes ○ No		Devices and equipment will be ordered by July 2021. Virtual Learning Coordinator August 2021.	Attendance data and usage reports for LMS and tools purchased.	$ 39,065.27

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.		We will be updating teacher devices that will allow us to be able to accommodate serving students in a remote learning environment. We will be providing devices to paraprofessionals and other support staff in order to support student learning and assist with tracking student engagement and communications with families on student attendance and social-emotional learning needs and summer learning. We will be redesigning our virtual learning academy. Funds will be used to purchase additional technology for teachers in the virtual learning academy. Funds will also cover the expense of a coordinator for this academy.			

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ◉ Yes ○ No	Student devices will be purchased to upgrade out of date devices and devices that no longer provide adequate connectivity and accessibility for instructional programs and materials utilized in our classrooms. Technological hardware and software to aid remote, blended, and face-to-face instruction will be purchased and utilized to enhance instruction and interaction between students and between students and teachers.	Devices and education technology will be ordered by October 2021.	Tracking number of students served with adequate connectivity and accessibility. Usage reports for tools purchased.	$ 1,315,030.57
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ◉ No				$
	* ◉ Yes ○ No		Summer camp will begin 6-14-2021 and end 7-29-2021. (The week of July 5th will not be utilized).		$ 529,090.27

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.		An in-person summer camp will be offered for six-weeks during the 2021 summer months to all students in grades K-12 that will address learning loss due to COVID-19. This direct response to COVID-19 will focus instruction in the prioritized standards for reading, math and science. Summer camp will utilize certified teachers with a proven track record of successful academic outcomes. Teacher Assistants, EC Specialists, ESL teachers and reading specialists will also be utilized to meet students unique learning needs. The camp will run for 150 hours of instruction, emphasizing reading, math, science, social-emotional learning and enrichment.		Standardized assessments will be utilized for K-8 and EOC students to determine student improvement over the course of camp. Track the number of high-school students to achieve graduation credit recovery during summer camp. In addition, student achievement and engagement will be measured by: -Daily attendance -Exit student & family survey	
	* ◉ Yes ○ No	Retention/Recruitment bonus- Bonus to current employees and future employees due to current labor shortage issues.	Retention/incentive bonus- FY22 Talent Specialist-FY22 Executive Coaching-FY22		$ 3,726,969.55

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		Bonus for all staff including substitutes. Talent Specialist- Working with K-3 teachers to cultivate academic potential by fostering creativity, curiosity, and critical thinking thru access to academic content. Responding to outstanding potential with intentional differentiation of curriculum and instruction. Partnering with teachers to increase capacity for talent development. Better meet the needs of our students in response to the pandemic since there was a lack of talent development while students were not in school at full capacity. Executive Coaching- Coaching for principals for effective leadership and decision making skills during high-stress situations such as the pandemic	Retention/Recruitment bonus- Reduction in job vacancies and increase in employee retention Talent Specialist- Increase in the number of students on grade level. Increase in students identified for AIG in underserved populations. Executive Coaching- Personal development and leadership skills

Total ESSER III Allotment	$ 7,853,877.66

Part E: Assurances

Check **all**assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Grant Details

Richmond County Schools (770) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

1) District leaders began regular (weekly or bi-weekly) COVID Relief fund meetings January 2021. The individuals included are the Superintendent, Associate Superintendent of Auxiliary Services, Assistant Superintendent of Human Resources, Executive Director of Curriculum and Instruction, Chief Finance Officer, Director of Student Services, Director of Technology, Director of Maintenance, Director of CTE, and the Director of Federal Programs. Other leaders joined as needed. Principals along with their School Improvement Teams completed a COVID Relief funds survey to determine needs for the remainder of 2020-2021 and for 2021-2022. Principals completed and submitted software evaluations. The Director of Technology, Executive Director of Curriculum and Instruction, and the Director of Federal Programs met with each principal to discuss technology needs in their schools along with other identified needs. District leaders have weekly COVID meetings to discuss data and identify needs. These meetings have occurred all year. Other stakeholders are invited as needed (i.e. Director of Social Services, Lead Nurse, etc.). The local school board members participated in work sessions to provide feedback on and approve the plan. 2) The district will use the following data to identify and address learning gaps resulting from the impact of COVID19 on educational services. The district will use the following data to identify and address learning gaps resulting from the impact of COVID19 on educational services. EOGs, EOCs, NC Check-in assessments, universal screener data, projected retention data, failure rates, graduation rate, drop out

rates, attendance, risk assessment data (i.e. suicide, depression), school re-entry rates throughout 2020-2021, pre-post assessments, MTSS Tier II/III data The district will provide a summer learning program that will focus on academics, specifically learning loss, as well as enrichment and social/emotional learning. The program is designed to attract students by featuring various themes that promote high levels of engagement. Incentives will be provided for the most effective teachers and to other personnel that will be directly involved with students. Beginning with the 2021-2022 school year, the district will use funds to provide high quality tutoring during the school day and afterschool for all k-8 students that have had significant learning loss due to COVID-19. On-going formative and summative assessments will be conducted to identify individual student needs. Tutors will work with students that are most at-risk based on various data points included above. For our high school students, RCS will offer non-traditional credit recovery and academic support services throughout the school year offered outside of the regular school day (i.e. "twilight" credit recovery, Saturday sessions, etc.). Beginning with the 2021-2022 school year, our k-8 classrooms will use an educational software program for both reading and math to address learning gaps. The program provides a universal screener as well as diagnostic assessments so that our teachers can provide intervention and remediation instruction that is targeted to specific skills for each learner. With both reading and math using this program consistently for k-8 classrooms, our district will be able to analyze the data comprehensively and this data can go with each student to the next grade level. This vertical piece will be instrumental in helping teachers continue to provide consistent, targeted instruction each year. RCS will use various software programs to track attendance (k-12) and our cohort graduation rate (9-12). Non-instructional student support personnel (i.e. social workers, counselors, nurses) will be involved in summer planning for 2021-2022 scheduling to ensure purposeful pathways are created and transitions are supported with the social and emotional needs necessary. A universal screener will be employed in all schools to identify social emotional learning gaps that exist, then developing responsive lessons that address those gaps. A pilot group of middle school students will be targeted this summer featuring the screener and prescribed interventions. Counselors in grades K - 8 will use a research based SEL program next year and other evidence-based resources to provide school wide instruction which will also be supported by core instruction teachers. Additionally, all student support personnel will focus on attendance and the lack of regular attendance as a contributing factor to continued learning loss through lack of access to the provided curriculum. Home visits, administrative meetings, targeted intervention plans and court action, when necessary, will all be strategies employed to encourage regular school attendance and subsequently academic and social success. For our traditional high school (NGA and RSHS), RCS will employ an academic coach to do the following: work with teachers in grades 9-12 to promote alignment with high quality instruction and lesson planning overall; provide model lessons that incorporate ways to engage students; facilitate PLCs to support data analysis that will lead to an increase in student achievement overall; monitor along with administration and teachers the CGR; and provide one-on-one support for teachers as needed.

Part B: Data Analysis

Multi-year trend data for the Richmond County Schools district shows an increase in grade level proficiency for end-of-grade assessments; however, the district continues to lag behind the state average. The trend for both reading and math over the past several years has increased each year. From 2015-2016 to 2018-2019, reading increased from 48.9% to 52% and math from 51.5% to 57%. In 2018-2019, the state average in reading was 58% compared to 52% in RCS and in math 59% compared to 57% in RCS. For the school years, 2019-2020 and 2020-2021, data is limited as compared to previous years. NC Check-In 2 data from January 2020 shows a similar trend to previous years in reading; however, math in the middle schools decreased significantly. Overall, reading and math proficiency for NC Check-In 2 was 52% and 44%, respectively. For 2020-2021 school year, results from universal screening data show a proficiency of 30% in elementary reading at the beginning of the year with an increase to 47% by mid-year. Middle school reading has one data point beginning mid-year of 32% proficient. A universal screener was administered to students in grade 3 through 8 at the beginning of the year and mid-year. The proficiency dropped from 63% to 61% (Figure 5). It is important to note that middle school students were virtual until near the end of fall semester. Another important factor to consider is that participation and results for both elementary and middle school students are highly affected by virtual learning. In the spring of 2021, 23.5% of elementary students in Kindergarten through 2nd grade have been identified as below grade level and 8.6% are projected to be recommended for retention. In a normal year, approximately 4% are retained in K-8. In grades 3-5, the percentage of failures for the 3rd 9-week grading period are: 29.8% Reading; 33.1% Math, 22.3% Science; and 25.4% Social Studies. In grades 6-8 for the same period are: 32.3% ELA; 32.5% Math; 31.4% Science; and 27.4% Social Studies. In grades 9-12, 53.5% of students failed one or more courses. The graduation rate has not had any measurable increases over the past 5 years and is significantly below the state average. Although the rate increased from 80.9% (2018-2019) to 84.1% (2019-2020), this increase can be attributed to the decision for seniors to not be negatively impacted by the stay at home order. In March 2021, attendance data was analyzed and compared to data from March 2020. Data was categorized in 3 groups; 10-19 days, 20-49 days, and 50+ days. Although, the percentage of students missing 10-19 days only increased by 2.2%, the percentage in the 20-49 days category and the 50+ days group increased drastically (Figure 11). The middle and high school attendance data shows an even more drastic increase in the 20-49 and 50+ days categories. Throughout the school year, the Director of Student Services monitors student email content flagged by the security system. During the timeline of September 2020 to January 2021, 40% of all emails with an alert were categorized as suicidal ideation and/or anxiety/depression. In terms of social emotional supports for our students, our district has an MOU in place with 2 mental health providers to provide services to our students in school if that is the best fit for the family. Counselors referred 78 students for services this year with about 49% of families following through with the referral process resulting in services being provided. This can be echoed by the fact that 81 referrals to the Data Review Teams in our schools were made based on behavioral concerns. Some of those referrals were combined with academic needs as well, but some were stand-alone mental health/social

emotional learning needs. When elementary counselors were asked for the approximate percentage of students they see based on mental health needs and/or concerns, averages across schools ranged from 10% - 95%. In the high school setting, the percentages are much higher ranging from 33% - 99%. Both of these professional counselor judgements support the need for additional nurses, additional social workers and the use of a social emotional curriculum in our schools.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 2,929,892.76 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

K-8 Math and reading programs that have a universal screener, diagnostic assessments, and interventions for targeted support for all students will ensure reliable data that also differentiates for all learners. These will be used at beginning of the year, middle of the year, and end of the year. Skill-based instruction will be a focus area. Check-in data will be analyzed and based on these data, schools will employ tutors, both face-to-face and online to support standards-based instruction and help all learners increase in achievement and growth. K-5 and 6-8 students will utilize standards-based Math and Science workbooks that provide students practice opportunities that are aligned with district pacing guides and state standards.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Evidence-based resources will be utilized for social and emotional learning support in K-8. For example, Second Step SEL curriculum will be implemented in all K-8 settings to reinforce the 5 essential CASEL competencies among student groups. Students have experienced losses academically as well as socially. The Second Step curriculum will help to re-acclimate students to school structure using positive decision making and personal/social accountability standards. Small group instruction that focuses on the academic needs of students will be incorporated into the plan for tutors. This evidence-based strategy will be a natural part of classroom instruction as well. For 9-12 students, an available online tutor from a research-based company will support CORE instruction as supplemental instruction to the classroom

teacher. The RCS science department will upgrade and update the science equipment to support teachers and students in conducting high-quality standards-aligned science inquiry labs. This will increase student engagement and allow for a more socially responsive approach to science instruction. At this high school level, after school programs will be offered to assist students completing graduation requirements as a dropout prevention method as well as keeping students in their 4-year graduation cohort group. Additional electives will be offered to encourage student expression, a strategy that will support the critical need of social/emotional learning. For students that remain virtual for the 2021-2022 school year, RCS will employ teachers (remote learning facilitators) to work with these students after regular school hours to support their asynchronous learning. These teachers will create office hours to support learning for remote learners. Reading and math software for our k-8 students that implements a universal screener, diagnostic assessments for all students, and interventions to support each learner's needs. This software meets children where they are with their reading and math skills (not standards) and accelerates their growth through individualized, daily differentiated instruction. RCS will employ an academic coach for our high school students in grades 9-12. This academic coach will facilitate PLCs, support school data analysis, model lessons for all teachers, and support teacher professional development with areas for improvement. Researching and sharing best practices for teachers will be another vital responsibility for this coach. The academic coach will also work with the administration team to monitor the cohort graduation rate and find strategies for increasing the overall graduation rate for the high school. For our 9-12 high school students, we plan to offer more engaging and exciting elective course options for the 2021-2022 school year. These include: theater, public speaking, African American studies, 3 new PE courses and American Sign Language. The social and emotional needs of our learners and getting them back into the building is a huge priority for all of our students. These courses offer a fresh start for high school students in a variety of ways. RCS Summer Camp will be a 6-week program for our k-8 students and a 30 day program for our high school students. This camp will include high quality instruction with certified teachers in every core subject classroom. We will also offer enrichment activities that include: STEM, 4-H activities with nature, STEM and field trips, as well as, a local organization that is centered around the social and emotional needs of students with arcade and gaming rooms for increased socialization, podcast and music rooms to explore the arts, and outdoor activities to ensure physical activity is a priority. Our k-8 schools will focus on reading and math with the enrichment activities planned and our high schools will focus on credit recovery programs that support students with a certified teacher, in-person learning with EOC courses, and an elective course that offers PE, CTE, or another engaging course.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

The student support staff at each school (nurse, social worker and counselor) have a plethora of resources available for families upon request. The student support team works collectively to help meet the immediate Maslow-level needs of students, but also works to remove barriers for families. Specifically, the school social worker serves as a liaison between families and needed community resources. Our Homeless Liaison has created a comprehensive Resource Guide which lists all service agencies available in our county and in surrounding counties when a specialized service.

We are working with two agencies this year to provide in-school mental health services to our students once the guardian agrees to those services. To date (in the midst of pandemic) 78 students have been referred for services across all schools with about 49% of families following through to secure services.

* (D) Tracking student attendance and improving student engagement in distance education;

Our school social workers systematically monitor attendance via PowerSchool reports and work closely with families on improving regular school attendance. They submit monthly reports to the district outlining letters sent, and they keep a running contact log to document home visits, phone calls and any other means of communication. Our district is also investigating an Attendance Tracking Service which sends letters at regular intervals to families outlining absences, individual versus group comparison data, the importance of regular attendance and data to support how regular school attendance leads to positive learning outcomes for students. The service also provides the same information in text form for families.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

The high school academic coach position to be added will be responsible for supporting the tracking of student academic progress. This coach will facilitate PLCs and data-driven analysis. This position will support the identification of which data points should be identified and used for targeted high school student supports and interventions. The Gifted and Talent Development position will support k-2 classrooms with tracking student academic progress. This position will help to address some of the local identification disparities that are a result of COVID. This position will evaluate and compare grades of our k-2 students pre-pandemic and post-pandemic and help build critical thinking and problem solving in the k-2 classrooms to ensure even our most gifted students are supported as at-risk learners. Summer program planning for each summer will include assessments that measure student achievement and growth for the beginning of summer and the end of summer. Using competency based assessments will allow our district to analyze academic progress. Our EC department will hire two additional psychologists to analyze assessment data and academic progress data for EC students that have experienced learning loss. They will support schools tracking and identifying the growth and learning loss of students through the pandemic.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ○ No	Update 7/29/2021 *For the FHE project, classrooms will be added as part of the gym project to increase social distancing. *In the original application, 6-8 classrooms were in the plan for the RSH gym/classroom project; however, there will be room for 10 classrooms in the space provided (increase social distancing). *In the original application, 4-6 classrooms were in the plan for the MSS; however, there will be room for 8 classrooms in the space provided (increase social	2021-2024	Class enrollment in new classrooms/gyms Increased number of preK slots and pre-post assessment data	$ 9,500,000.00

distancing). *Amend budget to correct code (6570 532) - Facilities Planning, Acq & Con - Improvements to Existing Sites rather than 6580 311 - Maintenance - Contracted Services Original *Gym and 6-8 classrooms added to the existing building at the high school to allow appropriate social distancing *Addition of touchless toilets, sinks, and water stations *One K-5 school will move to an existing building to allow appropriate social distancing which will allow RCS to open a preK center. Current preK classes (most classes are in trailers) will move to the new center which will allow appropriate social distancing in addition to an

		opportunity to increase the number of preK classes in RC in an effort to decrease gaps and learning loss for our most at-risk population *Upgrade preK center to meet required standards *Additional classrooms (4-6) added to the existing building at Mineral Springs School to provide appropriate social distancing *Gym to be added to the existing building at Fairview Heights Elementary School to allow for physical activity to promote SEL -- the only option for students at this time is dependent on the weather			

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ○ No	*Air purification equipment to retrofit existing units to improve indoor air quality for students and staff due to COVID.	2021-2023	6,593 Students + Staff served by HVAC	$ 1,000.00
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$

| ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population. | * ⦿ Yes ◯ No | ESL Teacher to work with elementary students (approximately 150 students depending on enrollment) to close academic gaps that were disproportionately widened by COVID | 2023-2024 | ACCESS scores Documentation of PD activities Teacher schedules Language Acquisition educational software data Student grades/attendance data | $ 61,157.68 |

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ○ No	*3 school nurse positions due to increased need for health checks, record keeping, student monitoring due to COVID *Technology technician to continue to improve and maintain the continuity of technological system based on the increase in hardware, software, and connectivity due to the COVID and the need for online learning	2023-2024	Daily district data tracker for staff and students Daily absentee report of substitute coverage Quarterly regional nursing reports Local health department data reporting as requested/required Time and effort documentation	$ 237,290.24
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ● No				$

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ◉ No				$

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ◉ Yes ○ No	Student devices to have more access to online programs with specific interventions to meet the individual needs of students including Tier II and III interventions to improve academic achievement lost due to COVID	Summer 2023	Inventory of devices distributed Number of students to engage online during remote learning days User reports of online program intervention	$ 105,000.00
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◉ Yes ○ No	*Part-time social workers to assist school worker staff with tracking attendance, linking families to needed resources and removing barriers that have increased in need due to COVID	2023-2024	Monthly reporting Court filings Attendance letters Professional notes	$ 27,558.40
	* ◉ Yes ○ No	Update 9/24/2021 Cost of summer school addresses learning loss Summer school added to learning	Summer 2022 and 2023	EOGs, EOCs, failure reports, course completion, pre-post tests, attendance	$ 1,420,641.09

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.		added to learning loss *6 Week K-12 Summer Learning Program for most at-risk students *Staffing: Teachers: K-3 (math and reading) 4-8 (math, ELA, and science), Encore teachers (physical activity and enrichment), 9-12 (credit recovery, biology, Math I, Math III, English II, and electives), Other personnel: Site Coordinators, Teacher assistants, custodians, bus drivers, nurses, counselors, cafeteria staff, school resource officers, principals Child nutrition expenses: Breakfast and lunch will be provided for all students. Resources: Software programs for targeted interventions/support (K-8), STEM activities that include interdisciplinary			

		interdisciplinary connections with core subjects, reading articles/books and other project-based activities and supplies. SEL lessons/programs to support needs daily, support of counselors in working directly with students to rebuild and strengthen relationships, software and certified staff members for credit recovery (9-12), elective courses and resources to include CTE and PE courses			
	* ⦿ Yes ◯ No	Update 9/22/2021 Add legal services as support for accountability of COVID funds (contracted services for support with accountability approved in original application) Original *Administrative	2021-2024	Time and effort documentation Contract and documentation of services	$ 366,923.60

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		assistant to manage all COVID related funds - Due to COVID, and the additional amount of funds flowing through the district, this position will serve in doing: - Assist in completing reports to include gathering information, creating, and updating reports, getting appropriate signatures and meeting deadlines. - Maintain all files/spreadsheets with current and accurate records of budgets. - Process purchase requisitions and purchase orders and maintain up-to-date inventory records for federal expenditures. *Due to the increased accountability of COVID funding, RCS will contract with a highly			

		qualified consultant who will provide support and guidance for the RCS Federal Programs office in regards to federal compliance measures, reporting, and fiscal and programmatic compliance matters and will serve as a resource to staff by helping analyze and oversee programs to ensure compliance; provide checks/balance processes along with support based on needs of the COVID funds.			

	Total ESSER III Allotment	$	11,719,571.01

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. *I assure that the PSU will:*

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.

*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

There are no new applicants.

GAN Information

Richmond County Schools (770) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Public Schools of Robeson County (780) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

A team of district stakeholders including District Leadership (Superintendent & Cabinet) including members from Student Support Services, Curriculum and Instruction, Maintenance, Technology, and Human Resources, select principals and SIT chairs from elementary, middle and high schools across the district, and a member from the Lumbee tribe convened to review the district data including academic data, attendance data, social and emotional data and building needs to determine how to address student learning gaps resulting from the disruption in educational services. An important piece in the recovery from the COVID-19 pandemic will include meeting the needs of all student subpopulations, and especially the most vulnerable subpopulations. Addressing these needs will require the restructuring or capacity building of school programs, which will not only address the academic needs of the child but the needs of the whole child. Data was collected from a variety of sources to help clearly define the Public Schools of Robeson County students learning loss and needs as we move forward to ensure we address the needs of the whole child. Data sources include IReady, K-8 Check-In #2, and EOCs. To provide a more comprehensive overview of the whole child, attendance data and data from Gaggle (a system that identifies suspicious items by reviewing students' online activity to ensure student safety and well-being) were included. The IReady Reading data showed that

the student learning gap increased by 10% from 62% (Pre-COVID) to 72% of students one or more grade level behind. The IReady Math diagnostic showed that the student learning gap increased by 12% from 64% (Pre-COVID) to 74% of students one or more grade level behind. The Check-In (3-8) data revealed that 60% of students were not meeting the standards in reading, math, and science (5 & 8). High School EOC Data (Fall 2020 EOC Score Comparison to State) Based on the PSRC fall results compared to state fall results, there is a significant difference. Virtual & Face-to-Face Student Numbers Attendance Daily Average (K-12): 8,000 Face-to-Face or 38% Total Enrollment= 20,988 Teachers working Remotely: 100/2000 A total of 111 staff have resigned or retired since January 2021. Gaggle Data (March 9, 2021- Current) - Implementation of Gaggle began March 9, 2021. The Public School of Robeson County (PSRC) Receives notification for all Possible Student Situations and Questionable Content. These notifications are addressed using the PSRC workflow for addressing each notification. Possible Student Situations (PSS): An immediate threat to the student, including but not limited to: violence; suicide; rape; or harmful family situations. Questionable Content (QCON): Not an immediate threat to a student, but content that is cause for concern and should be brought to an administrator's attention. This includes but is not limited to: a cyber-bullying event; pornographic images; graphic, violent or sexually related stories; or files not associated with an assignment. Gaggle Incident type: 29% Questionable Content and 3% Possible Student Situations Gaggle Content Categories of Actionable Items by Grade Level: High School (20% Suicide Self-Harm, 5% Harassment, 15% Violence Toward Others, 47% Nudity & Sexual Content, & 13% Drugs and Alcohol), Middle School (35% Suicide Self-Harm, 5% Harassment, 30% Violence Toward Others, 30% Nudity & Sexual Content, & 5% Drugs and Alcohol), and Elementary School (45% Suicide Self-Harm, 5% Harassment, 25% Violence Toward Others, 20% Nudity & Sexual Content, & 5% Drugs and Alcohol). Though children and staff had to leave the school building following the onset of the COVID-19 pandemic, the virus itself revealed the significant need for increased investment in capital improvement and maintenance in our school infrastructure. The costs of capital improvement and maintenance are steep. The 2020-21 DPI Facility Needs Survey Results are included below to show school needs and potential cost to address the needs of not only HVAC, additions and renovations to building and playgrounds to allow for social distancing, new windows to increase ventilation, and touchless sinks, toilets, paper towel dispensers, etc. to help reduce the transmission of the virus and increase the safety of the students. With in-person instruction 4 days a week and the number of students returning to the building increases, efforts to mitigate the spread and transmission of infection remain a priority. The district needs touchless faucets, toilets, paper towels dispensers and water fountains to prevent and reduce the spread of the virus. Based on our 2021 NCDPI Building Facility Survey and BAISCA, LLC report indicated the average age of buildings is 68 years. Aging HVAC systems and window systems can increase COVID transmission risk due to poor air quality and ventilation. PSRC has identified that all school/district building units are not performing optimally. As a result, air purifiers will be purchased to help improve air quality in all buildings. In addition, 3 buildings will have their HVAC systems replaced based on the highest need. Outdoor classrooms will be added, playgrounds updated/replaced, 2 field houses renovated, and one auditorium renovated to ensure social distancing is able to be

maintained to reduce the risk of transmission. As a result of the data reviewed and information shared by the stakeholders, the following needs were identified: -Need for certified teachers in hard to staff areas -Targeted support for students and staff on Tier I, II, and Tier III needs -Professional development to school personnel on providing tiered mental health -Facility improvements necessary for upgrading ventilation, air conditioning systems, sanitation, lighting, space -Social-Emotional Learning Resources, Professional Development & Curriculum -Stipend to retain high-quality staff

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

There are many possible factors contributing to the loss of learning during COVID-19. The IReady, Check-Ins, and EOC data show that at least 70% of the student population are one or more years behind in reading and math. This with the compounding factors of being a high poverty and low-performing district has put the students at even higher risk of falling further behind. Attendance data showed that on average 38% of students returned for face-to-face instruction. Based on stakeholder feedback, many students that continued remote learning did not fully participate in classroom instruction. A number of high school students started working full-time jobs and continue to do so while juggling their classes. In addition, schools across the district had anywhere from 1 to 14 teachers that continued to work remotely for medical reasons when schools returned to face-to-face instruction. Teachers continue to have to manage to teach online and remote at the same time. This and a number of other factors compounded the continued issue of finding teachers for the hard-to-staff areas including Math, K-6, EL, EC, and Science. So COVID-19 magnifies pre-existing achievement gaps. The effects are inversely related to overall achievement: students with lower achievement have greater losses. This means that we can no longer assume common starting points and fixed pace of learning. The Learning in a Pandemic presentation by the Department of Education examined 20 states in the study attending the traditional 180 days of school and their learning loss or not attending the school over that school year. For example, the average loss of learning was 64%, or in other words, as if they had not attended school for 116 days of reading instruction. With math, the worst-case scenario was 232 days of loss of learning for some students (as if they did not attend school for 232 days at this time). As suggested by the data collected from Gaggle once we returned to campus, student mental health needs continue to be at the forefront when addressing the whole child. The mental health toll on students resulting from the COVID-19 pandemic has been immense, and as students continue to endure the severe difficulties brought by the pandemic and accommodating crises a portion of ESSER dollars to mental health services. Resources to strengthen connections between children, educators, and families by providing intentional social-emotional support through the use of a social-emotional learning curriculum and professional

development on social-emotional learning for teachers in kindergarten through eighth grade. This will be an essential component of the tiered mental health supports and interventions being provided through counselors and Public School of Robeson County community partners. Additional social workers will be hired to support the growing mental health needs due to the pandemic based on the results from Gaggle. After review of the NCDPI Facility Needs Survey, it was determined that our schools need a number of renovations to ensure that the air quality of the buildings and buses is at the level needed for the safety of our students including outdoor classrooms. In addition, some schools will need additions to their building to allow for students to be able to continue to physically distance when all students return to campus. A further evaluation is being conducted to help prioritize the schools based on the highest need. In order to ensure. continued district guidelines following the district reopening plan for busing, additional buses are required to reduce the transmission of the virus. Nurses and nurse extenders will be utilized to help continue to support the needs of the whole child by ensuring student medical needs are met and to help mitigate the spread and transmission of COVID 19 in order to reduce learning loss. Additional Assistant principals will be hired to support tracking COV-ID 19, monitoring transcripts and attendance, and track graduation in order to reduce learning loss. Additional School psychologists will be hired to assess learning loss needs of students due to remote learning To continue to provide tools necessary for hybrid learning, PSRC will purchase additional hardware and software to support students' needs based on the data. As a result, additional staff will be needed to support the technology needs due to the purchases.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 26,167,590.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

IReady assessment is being utilized in the district to assess student needs. The I-Ready Assessment suite: Pinpoints students' strengths and knowledge gaps at the sub-skill level Delivers individualized learning paths in i-Ready

Personalized Instruction Saves time by automatically grouping students and offering targeted instructional recommendations Helps educators spot trends across student groups Includes a wide range of accessibility features to maximize usability for all students This assessment will be utilized within the MTSS framework in PSRC to ensure student needs are addressed as they are supported in Tier I, II, & III.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

PSRC will implement a comprehensive plan for supporting student needs based on the data from IReady, Classworks, EOG/EOC, and formative assessments. These activities will include professional development in MTSS which will include such topics: use of data, problem-solving, interventions, and support. Academic Coaches will be hired to help support teachers as they work with students to address learning loss due to COV-ID at each K-8 school. In addition, targeted support will be provided to students through target after-school tutoring, and interventionists (K-2). PreK-5 teachers will participate in the Science of Reading professional development. Additional professional development will be provided by the C&I supervisors targeting specific needs in ELA, math, and science to support differentiated instruction based on the data. Teachers will be paid a stipend to teach if they teach students virtually in addition to face to face due to the continuing needs of COV-ID and student safety. A SEL curriculum will be implemented Prek-12 not only through the counselors but also through teacher-led lessons. In addition, the Three Signature SEL practices along with the SEL Playbook will be utilized to embed SEL in the lesson plans. Interventionists will be utilized in K-1 to work with at-risk students based on learning loss. Professional development will be provided to Principals and Assistant Principals to help develop leadership skills to support student learning loss. In addition, professional development will be provided to teachers and teacher assistants on the Science of Reading to help support the students' learning loss in reading. Professional development will be used on how to effectively use an online tiered intervention program to help pinpoint learning gaps, deliver math, reading, and language arts instruction at the right level and gain real-time insight into student progress. A stipend will be paid for participation in the professional development. Additional teacher assistants will be hired to support differentiated instruction to support needs due to learning loss.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Parent information sessions will be held throughout the year during Parent Nights, parent conferences, and online courses on how to effectively support students based on the data. Parent liaisons will also be utilized to reach out and support families based on the needs. Information is also shared through the PSRC and school social media platforms, emails, phone calls, school newsletters, and resources shared based on needs identified. Social workers and guidance cousins will also provide support with social-emotional learning and mental health needs. Through the collaboration of the District Mental Health Team, SCORE, and community partners online sessions on mental health will be provided to help provide continued support on how to support not only the students but also the families.

* (D) Tracking student attendance and improving student engagement in distance education;

Attendance is an important predictor of student success, in addition to serving as a daily wellness checkpoint for students. Chronically absent students are at risk of lower academic achievement and educational attainment. Without daily face-to-face interactions, monitoring student attendance in remote learning during extended school closures serves as the primary means for ensuring student well-being in a time of unprecedented disruption to home and family life. The following strategies are being employed to: Schedule a weekly touchpoint between the teacher and students as a wellness and attendance check. Track student attendance during live instruction. Track student completion and submission of assignments. Prioritize wellness and social and emotional learning over participation in remote learning. In addition, social workers will continue to follow up to address any student concerns that arise as a result of students lack of attendance.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Student progress will be tracked through IReady assessments, formative assessments, Check-Ins, Credit Recovery, EOGs, EOCs, and attendance. In addition, PowerSchool will be utilized to review students' grades and progress. MTSS teams will review students' data on a monthly basis to ensure student needs are addressed and any additional support is provided to students through Tier II & Tier III supports. A progress monitoring tool will be purchased to help clearly identify student needs due to learning loss.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	Facility improvements to school field houses (physical education classroom) to help mitigate the transmission of the virus and facilitating social distancing based on the district re-entry plan. At the any given time there can be as many as 150 student in the the building. As a result, in order to maintain social distancing based	July 2021-September 2024	- Facility Needs Assessment - Reduction in Number of COVID 19 cases and site closures -Monitor class size, attendance data and documentation of proper social distancing.	$ 4,500,000.00

		on re-emtry plan. Rennovations will be necessary. Add additional outdoor learning environments to reduce the risk of virus transmission and allow student to social distance based on the district re-entry plan.				
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ● Yes ○ No		July 2021-September 2024	Data from indoor air quality and capacity reports from updated HVAC systems, documentation of upgraded systems and controls to ensure efficiency and the introduction of fresh air throughout school facilities, maintenance records and reports, and physical inventory and monitoring.	$ 16,287,532.70	

		Facility improvements necessary for upgrading ventilation and air conditioning systems to help mitigate the transmission of the virus. Upgrade windows to enhance air quality in buildings. Add air purifiers to buses to improve air quality to reduce transmission of the virus.			

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◉ Yes ○ No		June, 2021-September, 2024	- Increased instructional time - Increased student learning as measured by summative and formative assessments. - Increase in effective communication to EC families - Reduce number of students referred for EC	$ 400,000.00

		Based on the data, there is an increased gap learning gap for reading and math by 10%. As a result, we will: - Employ school psychologists to assess learning loss needs of students as a result of remote learning during COVID and help clearly identify student needs to address learning loss.			
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◉ Yes ○ No		June, 2021- September, 2024		$ 5,520,000.00

		- Employ nurses and nurse extenders to help mitigate the spread and transmission of COVID 19 - Employee assistant principals to support with tracking COV-ID 19, monitoring transcripts and attendance, and graduation track in order to reduce learning loss		- Reduce the number of COV-ID cases and site closures - Increased level of safety in school zones. - Decreased or Elimination of virus transmission - Timely and adequate replenishment of supplies at the district and school level -Decreased stakeholder anxiety as it relates to a safe environment for work and learning - Increased instructional time (reduced absences)	
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ◉ No				$

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ⦿ Yes ◯ No	Employees - Employee additional technology staff to help support the implementation of purchased hardware and software to address continued hybrid learning as a result of COVID. -Purchase and manage additional hardware and software needed to support students and teachers in a hybrid learning environment and address student learning loss as a result of COVID	June 2021- September 2024	- Centralized technology for students and staff -Increased student learning as measured by summative and formative assessments - Increased positive perceptions about learning and the instructional opportunities.	$ 10,330,000.00

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ○ No	Gaggle Reports indicate an increase mental health needs including suicidal ideations, as a result additional staff and support are needed to support student mental health needs as a result of COVID. - Employee additional social workers to help support mental needs of students due to COV-ID - Purchase SEL Curriculum to help support mental needs of students due to COV-ID	June 2021-September 2024	- Reduction in Mental Health Referrals - Increased Student Attendance - Increased student learning as measured by summative and formative assessments - Increased positive perceptions about learning and the instructional opportunities - Decrease in the number of Gaggle Alert due to Mental Health Needs	$ 1,630,000.00

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ○ Yes ◉ No				$
	* ◉ Yes ○ No		June 2021-September 2024	- Reduce the number of COV-ID cases - Increased student learning as measured by summative and formative assessments - Lower/elimination of viral transmission - Increased instructional time (reduced absences)	$ 2,094,686.30

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		When students return to class, schools will need additional buses in order to help continue maintain social distancing based on the district re-entry plan. - Purchase buses to ensure social distancing guidelines can be met and reduce the risk of viral transmission. - Indirect Cost			
			Total ESSER III Allotment	$	40,762,219.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

There are no new applicants.

GAN Information

Public Schools of Robeson County (780) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Rockingham County Schools (790) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

1A) Parent, Student, Teacher, Administrator Advisory Boards will provide feedback. RCS Teacher Working Conditions Survey has over 700 responses as of 4-20-21. Title I parent survey. iReady diagostic data and mClass data inform our instructional focus for at risk learners. SEL Screening data reveals needs for improvement in emotional regulation and social skills instruction for grades K-12. BETA Triage log from 2020-2021 school year indicates, 184 suicide and threat assessments have occurred and a need for crisis response is needed for summer support. 1B) Diagnostic assessments will provide achievement levels for students identifying learning gaps CASA-used to analyze learning gaps MTSS process will monitor and target needed interventions for closing learning gaps Remediation focussed on specific learning skills Research based interventions to target remediation of students 2 or more grade levels behind CCRG courses (high school) to assist students transitioning Community College Remedial support programs-iReady, Achieve 3000, Apex Tutorials, USA Test Prep, Course Recovery classes to aid in building skills CTE Credit Recovery Options needed Investment Grade Audit for facilities, 10 Year Capital Plan Needs Survey

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Data breakdown ADDRESSING LEARNING LOSS:- iReady diagnostic information, Mclass and EOG test results, Multiple SEL surveys to address the needs of staff and students, Reading EOY Diagnostic shows the following data: 25% above grade level, 19% on grade level, 31% 1 grade level below, 11% 2 grade levels below, 15% 3 or more grade levels below Math EOY Diagnostic shows the following data: 22% above grade level, 19% on grade level, 38% 1 grade level below, 10% 2 grade levels below, 10% 3 or more grade levels below FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION:-Dr. Parks has surveys HVAC,

Custodial Needs and School preparedness for reopening Improve Air Quality: HVAC survey, collaboration with Johnson Control regarding energy efficiency and air quality needs COORDINATION OF PREPAREDNESS AND RESPONSE: SEL Survey data (staff and students), PPE equipment surveys and capital project prioritization list PROVIDING PRINCIPALS/LEADERS WITH RESOURCES: Updates from CDC and DHHS to all leaders. NC School Kit Guidance communication. Survey of school needs for teaching resources. Provided hot spots and 1:1 chromebook distribution for e learning needs IMPROVING PREPAREDNESS AND RESPONSE: RCS Covid Tracking App for contact tracing, records of stakeholder communication in response to preparedness and response to Covid. RCS continues to need to provide updates and support for COVID-19 and collaboration with local agencies and district. TRAINING TO MINIMIZE VIRUS TRANSMISSION: Data documenting training of Principals and training of schools staff. Custodial training specific to Covid 19.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 3,738,976.40 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

In response to COVID related learning loss, RCS will: - Continue utilization of iReady assessments in reading and math to provide individualized learning paths - Continue utilization of Achieve3000 assessments and learning platform to individualize reading instruction - Utilize Read to Achieve assessment for K-3 literacy - Acquire universal screening and diagnostic tools for secondary schools; -stipend for MTSS secondary team to develop tools for high schools to identify students at risk in ELA and math and collect data to further define specific standard and skill concerns; stipend for MTSS teams to develop intervention curriculum protocol; - Provide professional development to support teachers in the utilization of data to support student growth and achievement - Provide stipends to teacher leaders to create and implement professional development at school sites -Provide National Board Certification core proposition training and materials as a continuation of quality instruction professional development. Provide refresher courses and new teacher courses to continue this implementation to address strong core instruction. -Provide progress monitoring for SEL and skill attainment of students related to resiliency and emotion regulation. -Continue implementation of easyCBM progress monitoring for students receiving Tier II and Tier III supports through MTSS processes ($18,000)- Provide technology to all PK-12 students to access web-based platforms/assessments, including items mentioned above. - Provide assessments to address PK-12 student needs in speech-language aquisition, early literacy, and psycho-educational needs for students who have at-risk factors. - Provide a stipend or contract with Covid Lead & Lead School Nurse when they are working after hours and weekends. - Audiological equipment to assist with hearing screenings/evaluations ; Contracted hours (stipends) to support schools with MTSS implementation. Would provide technical and coaching support, facilitate data review sessions, attend to MTSS

compliance/paperwork, and provide assistance with installation of MTSS ECATS. (2 years). - Providing principals and others school leaders with the resources necessary to address the needs of their individual schools. - Newsela for grades 6-12 -iReady Reading /Math for grades 3-8 - Media Allotment for each school -Zoom, SeeSaw, Screen Castify, Lucid, Pear Deck, Canvas Studio, Discovery Science, Discovery Techbooks - USA Test Prep -Expand Canvas to grades 4-5 - APEX Tutorials and Credit Recovery - Achieve 3000 - Wilson Reading, Fundations Materials - Professional Development budget for each school - Stipends for digital/personalized learning coaches - Materials for SPLASH program - Cultural Arts allotment for band, music, and art - Training for Modern Classroom - MTSS DIstrict allotment - Translation and interpretation services ELL - School instructional supplies allotment - Training to address CCRG legislation - CCP textbook allotment - Media Center allotment for replacement of novels/books -Funds for additional teachers and tutors -Funds to encourage attendance; provide incentives for teachers with 1 or fewer absences -Funds to hire 4 additional school counselors to support middle/high transition -Explore coaching supports for alternatively licsensed teachers and support for the Beginning Teacher Program -Create an attendance incentive for teachers to promote our teachers in the classroom to minimize and mitigate learning loss -Provide funds to support the cultural arts and other extracutticular programs to engage and encourage students to get in volved in their daily school activities to promote connectivity and engagement.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

In response to COVID related learning loss, RCS will: -Implementation of evidence based programs for reading and math: Wilson Reading, Transmath, Number Worlds -Progress monitoring for students using: EASY CBM, Informal assessments for IEP goals (teacher designed), iReady, Achieve, McClass, Raz KidsHeadsprout, Styer Fitzgerald Curriculum progress monitoring for middle school, Functional Skills Classes, Care Assessment Books for High School -Professional Development for using evidence based practices: Transmath, Math Foundations, Reading Research to Practice, Foundations of Mathematics, Autism, Online modules in NCEES, DPI offered ASD PD, District provided PD on evidence based practices for ASD, Adolescent Literacy -Specially Designed Instruction Observations: Use SDI observation tool for EC Leadership Team to observe EC teachers and complete data collection on use of evidence based practices, accommodations, modifications, etc. as on the SDI observation tool. Utilize competency based progressions and mastery checklists Seesaw Learning targets (NC aligned) -Student supports Evidence based literary with student supports Discovery Education-Grade level and differentiated Informational texts with translation and read aloud capabilities Newsela (Secondary)- translation and read aloud capabilities, differentiated USATestPrep- Remediation study sets; Resources and professional development opportunities for SISP personnel to support our special populations of students (low income, minority, homeless, etc.) with educational recovery from pandemic; -Google collaboration tools Docs Slides Translation feature in gmail and google -Technology: Use recorded mini-lessons for students to review and refer to standards based examples Zoom for migrant and ESL supports/tutoring -Health and Wellness Student Supports Develop Individualized Health Plans for students who have chronic conditions Follow/adhere to McKinney-Vento Act Provide no cost meals to students Provide vision and health screenings to students grade K-5 and 8 Provide SEL lessons and supports to all students Ensure health assessments and immunization compliance -Enrichment Supports that target student academic proficiency Tutoring (During and/or afterschool) Small group instruction Differentiation Personalized Learning MTSS INtervention programs for secondary

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

n response to COVID related learning loss, RCS will: -Provide support documents to assist parents with understanding and using digital platforms and resources -Provide access to food sources through our Child Nutrition Program (via public pick up) -Provide technology asssistance through our HelpDesk -Provide technology resources such as hotspots, devices, and troubleshooting assistance -Provide transportation to students and making transportation available for tutoring and other afterschool activities -Providing access to mental health services to address social and emotional learning needs -Provide parent informational meetings and parent engagement activities to support student learning -Provide translation services for EL students -Provide supports to address at risk populations such as homeless and migrant students and families -Maintain our Digital Resources Parent Site for information on passwords and access to digital resources -Provide information on the resources and activities associated with our Parent Resource Centers -Provide teachers (who are contracted) to support student learning in our eLearning Academy -Continue assistance and information regarding COVID-19 safety protocols -Inform parents of vaccine information, the necessary health screeners such as dental, hearing, eye exams -Inform parents and students of the available resources at the high school Student Health Centers -Provide parent training sessions on digital resources such as CANVAS, SeeSaw, Zoom, etc -Provide regular online webinars to reduce face to face meetings, while still communicating important information to families -Inform parents and students of our testing diagnostics and benchmarks to inform student progress and prepare them the EOG/EOC -Inform parents of how schools are supporting students with 504s and IEPs in a virtual environment -Inform parents of the high school pathway options such as high school academies, Career & College Promise. Apprenticeships, etc

* (D) Tracking student attendance and improving student engagement in distance education;

n response to COVID related learning loss, RCS will: 1. Developing an App for summer attendance; 2. social workers to make home visits and be a part of the staffduirng the summer camp months 3.Contract Staff to make home visits to disengaged students. 4.Track those students in virtual learning with daily check up on attending zooms and active engagement in the classroom learning. 5. Schedule meetings with students to ensure the students are attending through distance learning. 7. Social workers identify those students who need extra assistance maybe through tutoring sessions (extra). 7. Transportation arranged for students needing to attend summer program or experiencing difficulty with distance learning. 8. Review built-in digital anatyics to see active engagement for online programs. 9. After hour opportunities for students to meet with content teachers for support. (Contract subject expert teachers)

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

n response to COVID related learning loss, RCS will: - through use of data mart monitoring system - iReady BOY, MOY, EOY diagnostic assessment reports - Achieve 3000 BOY & EOY ready set evaluation reports -Read to Achieve BOY, MOY, EOY benchmarks and progress monitoring - Fundations Unit tests and progress monitoring - Apex Tutorial pre-assessment and post assessment reports - RCS Ready coursework in APEX on ACT performance mastery tasks - mastery of skills on ACT WorkKEYs - formative assessment data from classroom teachers - NC Check-in growth - SchoolNet assessment data - MTSS progress monitoring for students receiving tier II and tier III interventions - data dives into student performance on EOCs and EOGs -Review individual student reports from EOG/EOCs - student success and failure rates -student grades in sequenced content areas (English I, II, II, Math I, II, etc.) - cohort graduation progress reports in data mart - absenteeism reports - student dropout reports - IEP goal progress and student performance task data - DEP goal progress for AIG students - counselor student visitation reports identifying

student struggles due to COVID trauma factors - crisis reports for trauma impacted students BETA team- five members working in the summer to support crisis response and suicide/threat assessments. The would recevie a contract for their work per hourly rate plus 20% to work during the 6 weeks summer Accerlation Academy time.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ○ No		June 2021 - September 2024		$ 4,350,000.00

		In response to minimize COVID related virus transmission, RCS will assess needed HVAC, & facility repairs and improvements in our 22 school campuses and other support buildings. Automation, replacement windows, generators, touchless water fountains, Preschool Cot Sheet replacements for DCDEE Requirements due to flame retardant material Install/ repair building automation systems (BAS) throughout the district to improve indoor air quality (IAQ) and overall control of HVAC equipment. Improve building envelope to reduce unconditioned air and moisture infiltration, which can cause indoor environmental health hazards (windows, doors, skylights, insulation). Install generator at Technology Center to ensure accessibility for virtual learning and cloud based applications. Install touchless water fountains to reduce exposure to SARS-COV-2 and provide drinking water to students.		Monitor the temperature and humidity in affected spaces to maintain District's comfort and energy standards. Conduct thermal imaging to verify building envelope improvements. Document length of time for any power interruptions and monitor generator status utilizing the building automation system (BAS). Verify installation and operation of the water fountains at each location.	

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ○ No	In response to minimize COVID related virus transmission and improve air quality in our campuses, RCS will assess needed repairs and improvements via having site assessments from Johnson Controls to identify needed HVAC repairs and replacements. RCS has identified 15 school sites that are in need of immediate repairs and all other campuses are also in need of improved systems to better support air quality. Replace and/or install HVAC equipment throughout the district that have exceeded its useful life, including: Chillers, AHUs, terminal units, RTUs, HPs, ERVs, OAUs, hydronic heating, and associated equipment and piping.	June 2021 - September 2024	Monitor the temperature and humidity in affected spaces to maintain District's comfort and energy standards.	$ 4,350,000.00

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ● Yes ○ No	In response to COVID related school disruptions, the RCS CARES Planning team will continue the following: - Meetings with our local health department, state agency calls, and DPI Updates -School Nurse Meetings to review logistics and support -Continue District and Administrator Meetings with COVID-19 Updates -Continue website, social media, and professional developments for COVID-19 - RCS will continue to collaborate with Operations/Logistics Department for coordination of necessary PPE and cleaning supplies -Provide COVID-19 helpline for direct COVID-19 consultation support -Provide COVID-19 nursing supports for schools	June 2021 - September 2024	Local Health Department Health Department Agendas, Nurse Agendas, Disrict and Administrator Agendas, RCS Website, Professional Developmental Materials and Documents,COVID-19 Helpline Google Document Log	$ 50,000.00
	* ● Yes ○ No		June 2021 - September 2024		$ 750,000.00

11/10/2021 9:52:40 AM

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.		In response to COVID related school disruptions & learning loss, RCS will provide: -Instructional materials to address learning loss for special at risk populations -PD for staff with special student populations -Screening/Assessment tools to identify specific needs and educational services -Monitoring tools to monitor progress & intended outcomes -Additional in-school or after-school support services -Early Childhood interventions & services -Recruitment of qualified staff (classified & license) to support special need populations -High quality technical tools & devices -Transportation/nutritional services for specialized programs -Social/emotional support services -Funds to support basic needs for students to be prepared to learn -Transitional activities to ensure students are prepared for next steps (Pre-k to K, Elem. - Middle, Middle - High) -9th grade academies to meet the needs of special populations -Use of educational programs that support the communication to families		-Student Academic Progress: Progress monitoring data, benchmark data, intervention data, EOG results, EOC results and graduation and dropout rates -Retention of Highly Qualified staff -Risk and threat assessments and referrals for further follow up, log of social emotional lesson delivery/instruction,

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◉ Yes ○ No	In response to COVID related school disruptions & learning loss, RCS will provide the following: RCS CARES Planning team will continue to efforts to improve and provide updates in this areas: - Continue to use RCS COVID APP to track cases -Continue Tracing efforts for identified cases -Explore diagnostic testing -Adjust RCS procedures in alignment with NC Strong Schools Tool Kit/Reference Guide for Suspected, Confirmed, and Presumptive Cases and NC DHHS/CDC guidance -Update communications (focus on prevention, safety protocols) for staff, students, and families - GAGGLE technology monitoring tool	June 2021 - September 2024	RCS COVID-19 App; RCS Case Count Chart, RCS Cares Planning documents, Record of Communication Procedures and Information	$ 20,000.00
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ◉ Yes ○ No		June 2021 - September 2024	-Improve/Promote Employee Well-Being and Belonging Survey - Social-Emotional Survey Data - Surveillance System to track and trace infectious diseases	$ 20,000.00

		In response to COVID related school disruptions & learning loss, RCS will provide the following: -Ensure there are supplies of PPE for staff, students, etc. -Development of a communication plan for decreasing transmission of virus, sanitation guidelines, and the development of staff training for employees and info ambassadors surrounding all infectious diseases. -Translation of infectious disease info for families into multiple languages. -Increasing the use of infographics and development with RCS specific info on decreasing the spread of infectious diseases. -Explain in training the environment, behavioral, or social factors that are contributing to the emergence, re-emergence, or persistence of the infectious disease explained in staff professional development of public school system training system. -Develop and maintain a surveillance system of all infectious disease -Develop task force to host focus groups on understanding infectious disease protocols. (Consult w/ Health Dept.)			

11/10/2021 9:52:40 AM

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ◯ No	In response to COVID related school disruptions & learning loss, RCS will: - Ensure there is adequate supply of PPE for school staff, students, etc. - Purchases will include PPE such as masks, face shields, gloves, -Purchase of disinfectants, cleaning machines such as sprayers and other equipment to assist with building cleanings - Schedule frequent and scheduled daily cleanings of high touch surfaces and high traffic areas	June 2021 - September 2024	RCS Safety Team will monitor the RCS Safety Checklist for compliance with the cleaning protocols	$ 411,023.60
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ⦿ Yes ◯ No		June 2021 - September 2024		$ 200,000.00

| | | In response to COVID related school closures, disruptions, potential closures, & learning loss, RCS will provide: -Accessibility to services that include high quality technology and online educational services -Programs that support communication between school and home (DOJO,Google Classroom, CANVAS) -Use of USDA waivers to allow for the selection of food distribution sites to serve daily meals to students -High quality professional staff development geared towards service delivery and IEP compliance on a virtual platform -Transportation Services -Online Screening/Assessment needs -Online Tele-Therapy -SEL services and check ins -Digital Safety and Tip Line to monitor student communications for student and adult safety (GAGGLE) -Educational Parent Online Zoom and Webinars -Outreach Intervention Services | | Student Academic Progress: Progress monitoring data, benchmark data, intervention data, EOG results, EOC results and graduation and dropout rates IEP service delivery logs IEP service delivery logs GAGGLE data reports Participation logs for teletherapy sessions delivered Zoom registration report for parent educational webinars Number of families impacted by meal service | |
| | * ⦿ Yes ◯ No | | June 2021 - September 2024 | | $ 1,000,000.00 |

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		In response to COVID related school disruptions, potential closures, & learning loss, RCS will provide: Funds will be used to purchase up-to-date equipment for classrooms to include laptops, interactive projectors, document cameras and charging solutions. Ipads will be purchased for K-2 classrooms, students with special needs and/or accessibility issues. These devices will also be used for formative, reading & readiness assessments and remediation. Additional devices will be purchased to outfit Project Labs & provide remediation computers,& chromebooks for one-to-one student initiative. Software purchases will include Adobe & other project based, remediation and acceleration software. Software purchased will be assessed for standards alignment, ability to differentiate, and student success data availability. Connectivity devices (wifi units) will be purchased for low-income students to use outside of school for tutoring, ESL,EC support & acceleration activities. Library book purchases		Destiny data (Equipment database), Circulation data (Media), Student data, Student benchmark data, Student connectivity data (Survey)	

| MENTAL HEALTH SERVICES: Providing mental health services and supports. | *   ◉ Yes

 ○ No | In response to COVID related school disruptions, potential closures, & learning loss, and social/emotional and mental health needs, RCS will: RCS will continue to implement a full continuum of mental health services for each and every student by providing: -Develop in-person social emotional curriculum (SEL) for all students (K-12) during Summer Acceleration -Provide social emotional learning opportunities to all students on a daily basis during Summer Acceleration Academy -Provide crisis response through RCS Beta Mobile Crisis Team during Summer Acceleration Academy -Provide Specialized Instructional Support Personnel (SISP) to address student and staff SEL/MH needs during Summer Acceleration Academy -SISP staff will provide consultation support for SEL curriculum during Summer Acceleration Academy -SISP provide individualized and/or small group counseling supports -SISP provide continued collaboration with families to address barriers to student engagement | June 2021 - September 2024 | SEL Audit Checklist, SEL Lesson Verification Log, BETA Traige Log, Recommendation Summary from BETA, SEL Curriculum Development Agendas, Time Sheets for SISP Staff, SISP Data Log, Second Steps and Zones of Regulation Kits | $ 750,000.00 |

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ◯ No	In response to COVID related school disruptions, potential closures, & learning loss: -Up to 150 hours of in person summer programming to address learning gaps in PK-12 based on end of year data from EOG's, EOC's, iReady diagnostic, Achieve3000 level set, MClass assessment, credit recovery needs for high school students, report cards -Provide enrichment activities during summer programming -Provide CTE camp for hands-on enrichment experiences -Provide maker space experiences at the middle school level -Procurement & utilization of iReady/Achieve3000/NewsELA assessments to progress monitor students & provide individualized learning paths -Small group & differentiation through certified teachers & experienced support staff during summer programming and during school year -In school & after school tutoring programs to support students who are at-risk -Hire tutors/outreach personnel for migrant, EL, and students experiencing foster care or homelessness -Provide transportation for summer programs	June 2021 - September 2024	-20-21 EOY to 21-22 BOY data - Student/Parent Surveys - Participation rate - Summer and tutoring - Attendance - Individualized learning pathway progress -MTSS documentation of tiered supports - Check-in data, common assessment data	$ 1,000,000.00

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ◯ No	In response to COVID related school disruptions, need to recruit school staff, need to incentivize the teacher profession, potential closures, & learning loss, social/emotional and mental health needs, RCS will: - Establish a Teacher Apprenticeship Program within CTE to create a pipeline for future teachers - Consider a potential attendance bonus incentive for teachers - to ensure high quality teachers can mitigate learning loss - Create an incentive bonus of $4000 per employee to retain teachers and staff. Due to Covid-19, the Rockingham County School system is experiencing unprecedented labor shortages across multiple classifications of employment. In an effort to retain our employees and compete with private sector wages and bonuses, a retention bonus will be paid to those individuals currently employed as of October 1, 2021. Bonus funds will be prorated based on days of employment and paid in two installments to employees (Nov. 30, 2021 and Aug. 31, 2022). Additionally, a prorated recruitment/signing bonus will be paid to new hires who are	June 2021 - September 2024	-RCS will monitor enrollment in our Apprenticeship program to include future teachers - Needs assessment data to inform additional high school academies and programs - Securing additional information for ELL families through translation services -Securing additional supports for homeless/at risk youth -Monitoring parent engagement through participation in engagement sessions based on student/familiy need	$ 2,054,882.00

| | | employed or approved for hire by the RCS Board of Education, between October 2, 2021 and January 10, 2022. Furthermore, in an effort to attract substitute employees, a $500 bonus will be paid to those substitutes who work a required number of days (20) between October 1, 2021 and January 31, 2022. - Expansion of HS academies and other CTE endeavors - Secure translation services for ELL students/families - PD/Training with Social Workers to address needs of homeless youth - Transportation to address summer learning needs associated with at risk youth - Incorporating family engagement programs within our federal funding sources to focus on parent engagement, homework assistance, personal/health care - Coaching supports for alternative licensed teachers - Tuition assistance to support new teacher program - Additional guidance counselors -Create a scholarship program for teachers to achieve National Board Certification ($2,200 for 10 teachers per year of funding). -Funds to designate a permanent substitute teacher at each of | | | |

		our 22 schools. -Funds ($7000) to purchase an online training module for recruiting and training new substitute teachers/employees. Using the APP Garden application to train new substitute teachers as well as orient the new subs to RCS. AppGarden is an online, self paced program used to train prospective Substitute Teachers. AppGarden offers both onboarding and Effective Teacher Training modules that can be completed quickly and effectively. Once the modules are completed, participants are given a certificate of completion and can start substituting as soon as possible. AppGarden customizes the modules to what our district needs and allows us to streamline the process of application to substitute in our district. Due to the recent shortage of substitute teachers, we have not only contracted to begin with AppGarden but paid for a set amount of training modules (75 individuals) so that prospective substitutes can complete the training for free. -Funds devoted for cultural arts needs			

	Total ESSER III Allotment	$	14,955,905.60

Part E: Assurances

Check **all** *assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:*

* ✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
* ✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
* ✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
* ✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
* ✔	Funds shall not be transferred into or out of this allotment category.
* ✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Grant Details

Rowan-Salisbury Schools (800) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

The district held a Needs Assessment meeting with each department to explain ESSER II and it allowable expenses and requirements. Each department completed a Needs Assessment to determine its top needs in order to move to a five-day a week school day as it pertains to COVID with the reduction, prevention, and in response to. The committee included district leaders, school leaders, etc. The PSU will assess and address student learning gaps using both formative and summative assessments as well as teacher evaluations of students academic performance. Specific assessment will be used to determine learning loss for special populations such as AIG, EC, ELLs, as well as students identified as Neglected and Delinquent. The Rowan-Salisbury Operation/Facility department departments assess facilities needs at each school site to assess needed repairs. Additional assessment have been conducted to target air quality at each school and to outline what measures need to be taken at each site to help prevent and/or reduce the spread of viruses, especial COVID19.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Data from various sources such as ExactPath, MCLASS data, and NC Check-Ins have all shown that there has been significant impact on learning loss due to the COVID-19 pandemic and the shutdown of schools. As a 1:1 district, Rowan-Salisbury was quick to start remote learning for grades 3-12 as all students had devices. We were not able to assume remote learning K-2 until devices were secured and students were issued their iPads. MClass data shows that students K-2 have experienced academic gaps and little growth. All data points indicate that students have declined in math skills and achievement. Rowan Salisbury concludes that this is a direct correlation that high yield math instruction requires face-to-face instruction and interaction which students did not get during the time of school closure.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 10,604,051.00   * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Rowan-Salisbury Schools will address learning loss through various avenues. For students K-12, summer school opportunities will be offered with a 3 week literacy/reading camp being held the month of June and math camp being held throughout the month of July. Credit recovery will be available to all high school students to help students regain the skills and mastery of content to get credit for their courses. Both exceptional children and English learners will receive additional support during the summer months at the camps as certified ESL and EC teachers will be staffed to assist these students with their specific learning needs. Additional support will be provided throughout the schools year for English Learners as additional staff will be hired to help increase service time for all English Learners to 225 minutes a week and for English Learners who are newcomers, level 1 and level 2 proficiencies will receive an additional 225 minutes to help with language acquisition which is needed to successfully navigate academic language

and content mastery. Tutoring will also be offered throughout the upcoming school year for students who need it specifically to target literacy and math. Enrichment opportunities will also be provided for CTE students as well as AIG students. There will be an increase in instructional support for all Pre-K programs in the district to help assist with jump starting learning and closing academic gaps .

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Evidence-based activities will be implemented to meet the comprehensive needs of students in order to address learning loss and to close academic gaps. Sheltered Instruction Observation Protocol (SIOP) strategies will continue to be used throughout the district to support learning, specifically English Learners. Other evidence-based instructional strategies such as Marzano's high yield strategies, Competency-based education, Orton-Gillingham, LETRS, Do the Math, will be some of the specific evidence-based activities used to address academic gaps and learning loss for students. Leveled Literacy Interventions (LLI) will be used all elementary schools to address struggling readers and to provide effective instructional strategies.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Each school has provided parent workshops/training to help parents to promote literacy at home. Specific reading strategies have been highlighted to help parents know what to promote reading and reading comprehension. A yearly Parent Teacher Magazine is made available to parents, both hard copy and online, that provides resources both at the district level as well as the school level for parents. The district also provides "90 second solutions" which is a series of short videos that are available to parent to assist them when they are working with their students at home in the areas of math and reading. To support distance learning, the parent section of the websites provides specific instruction and user-friendly videos to assist parents with using Canvas and iStations. School specific apps have been downloaded on every students' device to help parents navigate the remote learning piece of instruction. The district also worked with various community agencies to help find child care for remote learning days that would also assist with remote learning at their sites.

* (D) Tracking student attendance and improving student engagement in distance education;

Students engagement was a priority for the Rowan-Salisbury Schools System not only during the school closures but even before. Rowan-Salisbury has been afford the opportunity to be North Carolina's first Renewal District and one advantage of this initiative was calendar flexibility. RSS had conducted "E-Learning Days" each quarter of the school year prior to COVID-19. This allowed our staff to invest in engaging remote instruction before it became essential. Collaborative planning and sharing sessions, both grade level and content specific, have been held to assist teacher with ideas to promote engagement. Professional development prior and during COVID19 shutdown was offered to all staff on how to engage students academically but also to promote Social and Emotional Learning as well. Attendance

was tracked at the school level and school's guidance counselors along with district social workers assisted in ensuring that students had/have all that need to successfully participate in remote learning. Our technology department has provided families with hotspots to assist with internet connectivity to help support distance education.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Data from various sources such as ExactPath, MCLASS data, and NC Check-Ins have all shown that there has been significant impact on learning loss due to the COVID-19 pandemic and the shutdown of schools. As a 1:1 district, Rowan-Salisbury was quick to start remote learning for grades 3-12 as all students had devices. We were not able to assume remote learning K-2 until devices were secured and students were issued their iPads. MClass data shows that students K-2 have experienced academic gaps and little growth. All data points indicate that students have declined in math skills and achievement. Rowan Salisbury concludes that this is a direct correlation that high yield math instruction requires face-to-face instruction and interaction which students did not get during the time of school closure

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ◉ Yes ○ No	Schools will receive upgrade/updated ventilation systems to help with air quality and to reduce contamination. Replacement of doors and windows will be made to help minimize the drafts that can help spread viruses and contagious diseases.	June 2021-December 2021		$ 7,000,000.00

				Air quality tests as well sanitation assessments will be conducted to measure effectiveness. With the updates/repairs this will have a direct impact of staff and students well being and health. Absence data will be collected and compared to previous years to verify the impact of these strategies. Surveys will also be used to collect data to determine the impact of these measures.	

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ◯ No	HVAC systems will be repaired/replaced to ensure good air quality and to reduce the spread of viruses. Buildings Envelopes will be assessed to determine the if the envelopes seals have been breached. Repairs will be made to address water drainage/leakage and air seals that are compromised.	June 2021-August 2024	Air quality tests as well sanitation assessments will be conducted to measure effectiveness. With the updates/repairs this will have a direct impact of staff and students well being and health. Absence data will be collected and compared to previous years to verify the impact of these strategies. Surveys will also be used to collect data to determine the impact of these measures.	$ 12,940,090.00

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ⦿ No				$
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ⦿ No				$

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$

| LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements. | * ○ Yes ◉ No | | | | $ |

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ○ Yes ◉ No				$ [____]
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ◉ No				$ [____]

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ○ Yes ◉ No				$
	* ○ Yes ◉ No				$

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.					
				Total ESSER III Allotment	$ 19,940,090.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Rowan-Salisbury Schools (800) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

 There are no new applicants.

GAN Information

Rowan-Salisbury Schools (800) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Rutherford County Schools (810) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Multiple meetings were held across all areas of the educational spectrum involving teachers, principals, district level personnel and school board members to discuss learning gaps created by the COVID-19 pandemic and the best ways for Rutherford County Schools to address them. The data points listed below were used to assess student learning gaps. Measures of Academic Progress (MAP) results from Winter 2020 (last Pre-Covid data point) Measures of Academic Progress (MAP) results from Winter 2021 (First Post-Covid data point) Istation assessment data PowerSchool grade performance Credit accrual of high school students fall 2020 Student Attendance Student engagement of remote instruction during the 2020-2021school year Easy CBM data for tier III students Counselor referrals Additionally, RCS understands the need to be proactive in the reduction, response and prevention of transmission of Covid-19 in our schools. Rutherford County Schools intends to address learning gaps created from the disruption in educational services through a multifaceted approach. Additional teachers at all levels of instruction will be employed to reduce class size and provide more small group and individualized instruction. A robust summer learning plan will be incorporated that serves students who are not performing at grade level. Special populations and

the social-emotional learning of all students will be addressed. Air quality within buildings will be examined, maintenance upgrades to reduce the spread of COVID - 19 will be employed.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

The data reveal what common sense has told us. Due to interrupted instruction, students' academic performance has suffered within Rutherford County Schools. NWEA Measures of Academic Progress (MAP) test data was analyzed from winter of 2020 and compared to data from winter of 2021 for grades three through eight. The significance of this data for our school system is that MAP from winter 2020 is the last data point we have for this grade band before the Covid-19 pandemic. MAP data from winter 2021 is the first district data point after school closures and learning interruptions. The data is striking and reveals the power of school and the educational loss that occurs when students are not in school on a regular basis. Math scores for grades three through eight were universally lower in winter 2021 than in winter 2020. Grade level decline in projected End-of-Grade proficiency ranged from 20 percent to 23 percent. Middle school math scores also showed declines ranging from 18 to 21 percent in expected proficiency on the EOG. Reading scores for grades three through eight show students overall scoring lower in winter 2021 than in winter 2020. Grade level decline in projected End-of-Grade proficiency ranged from as small as 3 percentage points in third grade to 14 percentage points in fourth grade and 15 percentage points in fifth grade. Middle school reading scores also showed the least change of any area. Sixth grade reading proficiency is predicted stable while seventh grade showed a 4 percentage point decline in projected EOG proficiency. Eighth grade revealed an expected 8 point fall in EOG expected proficiency. Istation data for K-3 students show nearly twice as many students not performing on grade level in reading. Additionally, more third grade students have not met RTA requirements. This data indicates a need for a more robust reading camp experience is needed for the summer of 2021. Credit accrual data obtained through PowerSchool indicates a sharp increase in the number of high school students not earning credit in courses in which they were enrolled in the fall of 2020. Among high school students, the percentage failing to earn credit in more than one course tripled during the fall semester. As a result, extensive course recovery must be offered in order to catch students up, while still moving forward with regularly scheduled courses. School closures and alternative schedules have produced irregular school attendance. Students having to balance growing up during a global pandemic has created additional stress points. With increased stress and isolation, an increase in social-emotional issues is inevitable. For this reason, Rutherford County Schools will use ESSER funds to temporarily increase the number of counselors providing service to our schools.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 5,429,456.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Administering and using high-quality assessments that are valid and reliable is a critical piece that drives instruction for Rutherford County Schools. Administrators use data to place students into the appropriate classroom. Teachers use data to accurately assess students' academic standing and progress towards meeting academic goals. Data assists all educators in helping to meet students' academic needs, including differentiating instruction for the multiple learning ranges in any given classroom. Annual assessments are used to determine overall student knowledge and proficiency on grade level or course material. EOG and EOC data is analyzed and compared to current and previous data to gather a more complete picture. Measures of Academic Progress (MAP) Growth reports are used as a quarterly assessment (fall, winter, spring) to provide a lens into how a student is progressing in their current class environment. More frequent assessments are used to progress monitor students. A Multi-tiered System of Support (MTSS) is in place at every school. Students whose academic history have them placed in tier II or tier III are progress monitored using Easy Curriculum Based Measures (CBMs), K-3 assessment data (for the 2020-2021 school year, RCS used Istation) and other brief assessments to determine how well individual students are responding to instruction. English Learners (ELs) are monitored using ACCESS testing annually as well as mini-assessments given by teachers. EC students receive all support and accommodations provided in their individualized Education Plans (IEPs) to provide maximum opportunity for academic growth.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Rutherford County Schools understands that critical learning gaps exist for the students we serve due to the Covid-19 Pandemic, resulting school closures, disjointed and often irregular school attendance and time students have missed with a qualified instructor. For this reason, when the district when the district planning teams looked how to best address these learning gaps through evidence-based activities to meet the comprehensive needs of all students, the

district has placed a premium on reducing class size, providing recovery opportunities an enabling schools to have the personnel to construct groups and classes to meet the needs of so many students in different places in their learning. An immediate top priority is the reduction of class size in grade four and five while eliminating combination classes throughout every elementary school. The state of North Carolina mandates class size for kindergarten through third grade, with those numbers shifting down in some grade levels for the 2021-2022 school year. However, with no class size restriction in grade four and five, student enrollment has been larger, averaging 25-26 students per class. ESSER funding is allowing for the hire of additional teachers to bring the student teacher ratio in fourth and fifth grade closer to 20:1. These smaller classes will allow for the teacher to spend more time with each student and address learning gaps that exist. Another elementary priority was eliminating combination classes. With much academic recovery work to be accomplished, Rutherford County Schools wants to ensure that no classroom teacher is responsible for teaching more than one set of grade level standards. This will enhance the teacher's ability to meet students where they are and move them towards grade level. Additionally, the district values MTSS groups and believes that providing small group instruction specifically targeted to students performing in the same learning band is a key method for addressing learning needs. For this reason, teacher assistants will be hired for second through fifth grade with one assistant allotted for every 56 students. The district wants to provide a resource to work with students individually or in small groups throughout the day to reteach and fill learning gaps. Ensuring the effectiveness of MTSS will help fill learning gaps for students. Therefore, Rutherford County Schools plans to hire an MTSS Coach to work with all schools to limit disparities and ensure high functioning programs. Elementary education is proposing to add a comprehensive English Language Arts (ELA) program for kindergarten through fifth grade. Currently, the district uses a variety of tools and products to teach the standards. A comprehensive program aligned to North Carolina standards would enable better alignment between classrooms and schools while also providing a more clear roadmap to daily instruction. Rutherford County Schools is proposing to add core subject teachers in middle grades to provide smaller class size and allow for reteaching to happen throughout the year. For the same learning loss reasons as in elementary, there is an overwhelming need to move students forward with grade level content while still providing remedial instruction to students. High schools face the same needs for core area instruction as middle school students while additionally needing to offer credit recovery options for students who are not making adequate progress to graduate with their cohort. Additional teaching positions are planned to be allotted to provide course recovery offering during the traditional school day. Course recovery is previously something that was only offered afterschool at the traditional high schools. It is critical to understand that while everyone has been affected by Covid-19, our most vulnerable populations have often suffered unnoticed. Special populations will be served through the addition of Exceptional Children's (EC) teachers. These students have lost direct instructional time with their EC teacher. Additional teachers will allow for increased EC time for students. One additional English Learner (EL) teacher will be added to support EL students. Rutherford County has historically had a small EL population. However, many students from this population have missed significant amounts of school during the 2020-21 school year. 19 Teachers K-5 for class size reduction

and the elimination of combination classes 15 Teachers 6-8 for core subject class size reduction and academic recovery 19 Teachers 9-12 for class size reduction in core areas and credit recovery 1 English Learner Teacher to provide students increased services 9 Teachers k-12 for exceptional children to reduce class size 40 Teacher Assistants K-5 for a 1:56 ratio for grades 2-5. 1 MTSS Coach 1 Math Coach 1 social worker to work with parents and students who have become disconnected with school during the pandemic Comprehensive ELA curriculum K-5

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Rutherford County Schools has strived to provide excellent, consistent communication to families for years. This has never been more important than the last 14 month. During this time, remote learning was the only option for all students during stretches of learning where in-person instruction was not available. During other points, hybrid models where students were on campus part of the week permeated the need for increased communication with parents and families on how they can effectively support their student(s). The district has and continues to reach out to parents through a myriad of platforms and approaches to reach as many parents and caregivers as possible. Frequent school messenger voice messages, school Facebook postings, district wide social media postings, Remind app, parent and student Canvas accounts, emails, calls and letters filled pathways in which the district communicates with parents. Clear communication of expectations and steps needed to ensure the least disruption to student learning are constant. Parents were provided clear expectations related to remote learning expectations that included teacher Zoom schedules, virtual office hours, a consistent time (4:00pm Friday) when lessons for the following week. The method of communicating with parents has changed with technology. Communication is more frequent and instantaneous than ever before. Our district has learned that traditional communication methods are not the most effective in 2021. The response has been a move towards technological ways of communication that reach parents. Our translation services department saw an unprecedented increase in material needing translating and parents calling for assistance. As a result, the district added an additional employee for the primary purpose of assisting schools with communication to our Spanish speaking parents.

* (D) Tracking student attendance and improving student engagement in distance education;

Rutherford County Schools has worked diligently to track student attendance both in -person and specifically virtually over the past 14 month. These data have helped frame the formulation of the district comprehensive approach to address student needs moving forward. The district is leveraging all of its resources to maintain contact with every student and encourage attendance every day whether in-person or remote. Graduation Coaches are in contact with every high school student to explain in detail where he or she stands in regards to progressing towards graduation. Currently, three social workers serve the school district, one for high schools, one for middle and one serves elementary schools. The district plans to hire an additional social worker due to the increase in students and families needing services due to the pandemic. Social workers make contact with families who have students not attending

school or attending infrequently. Social workers make home visits to explain compulsory attendance and work with families to support better student attendance habits. Outreach Specialists work with underprivileged and homeless students. Rutherford County Schools realizes that pandemic homeless counts are misleading or false data for the district. The data show a slight decrease in homelessness during the pandemic. This is a trend seen across the state. The district expects a rapid rise in McKinney-Vento students once moratorium on evictions are lifted. Outreach Specialists provide food, clothes and personal hygiene essentials to students while working with families to ensure students are in school. The technology department is investing in additional hotspots to provide enhanced internet access to students around the county. In order to provide cyber security for the access points and provide content filtering for student accessing the hotspots, software products are being purchased for internet access points. Asavie Moda and MDM are both being purchased for content filtering purposes. SSIT software is being purchased for cyber security and to ensure that students can access high speed internet in a safe environment for them to learn and to ensure that equipment Rutherford County Schools is deploying is resistant to hackers and malware. In order to provide both in-person and remote learning students greater time on task, additional help desk technicians will be employed to trouble shoot technology issues for students and staff. Improving student engagement in distance education has been an ongoing goal of Rutherford County Schools since March of 2020. The district has set and published expected criteria for students who may wish to participate in remote learning during the 2021-2022 school year. Attendance and academic requirements are as follows: Attendance Participation shall be limited to those students whose school attendance satisfies the requirements of Board policy 4400 ("Attendance"). Students who accumulated excessive absences as provided in Section D of policy 4400 during the 2020-2021 school year are ineligible for participation in the remote learning program during the 2021-2022 school year. Students participating in the remote learning program during the 2021-2022 school year who accumulate excessive absences as provided in Section D of policy 4400 shall be removed from the remote learning program and reassigned to the face-to-face learning program. Academic Success Participation shall be limited to those students who demonstrate academic success in the remote learning environment. For the purpose of determining eligibility, academic success means demonstrating (1) progress sufficient for promotion to the next grade level (grades K-8) or (2) progress sufficient to earn units of credit in all enrolled high school courses (grades 9-12). Students who did not demonstrate academic success during the 2020-2021 school year are ineligible for participation in the remote learning program during the 2021-2022 school year. Students participating in the remote learning program during the 2021-2022 school year who do not demonstrate academic success shall be removed from the remote learning program and reassigned to the traditional face-to-face learning program.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Rutherford County Schools continuously tracks multiple data points to measure student learning outcomes. There are no schools in Rutherford County identified as low performing by the state of North Carolina. Additionally, 17 out of 18 schools receiving growth scores met or exceeded growth in both the 2017-18 and 2018-19 school years. The district is extremely proud of the educational performance of its students. Much of this success can be attributed to knowing where students are academically, where learning gaps are and what instruction needs to be provided in order to close those gaps. Measures of Academic Progress (MAP) results from Winter 2020 was the last nationally normed reliable data point for most students in the district. All students kindergarten through eighth grade and some high school students take the MAP test three times per year (fall, winter, spring). AS a result this data has become an important benchmark for the district to understand where our students were before Covid-19. With schedules changing rapidly between Plan A, Plan B and Plan C, MAP testing did not occur during the fall of 2020. However, all elementary and middle schools completed MAP testing in the winter window to provide the district with a set of nationally normed data since returning to school. The district was able to make a rough comparison of student aptitude this winter compared to the previous winter. Predictably RIT and proficiency scores were lower. Rutherford County Schools will continue to use MAP data for an assortment of purposes including student placement in small groups, remediation targets and to inform teaching and reteaching. Learning loss in high school is most easily identified through student ability to accrue credits towards graduation. High school students take four classes in the fall and four classes in the spring each year. Year of year data comparing the number of courses where students did not meet the threshold to earn credit tripled from the fall semester of 2019 to the fall semester of 2020. Maybe more so than any other statistic underscores the negative effect the Covid-19 pandemic has had on students. Rutherford County Schools has instituted several changes to help meet the needs of students, re engage them in learning and provide course recovery options. The district will use 2020 End-of Grade (EOG) and End-of Course (EOC) data to access students' knowledge. EOG and EOC scores from 2018 will be used as reference points to measure the effects of the pandemic. The data tell us this is a critical time for many students who have suffered as a result of the pandemic. Rutherford County Schools is using data to inform decisions to meet students' needs where they are as we strive to achieve levels even higher than they were before the pandemic.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ◉ Yes ○ No		July 1, 2022 - September 30, 2024	* Decrease in student absences due to illness * Decrease in staff absences due to illness	$ 1,310,000.00

		After careful research and review of the district's facility needs plan. Multiple items have been identified and marked for expeditious review in order to support school facility repairs and improvements to enable operation of schools while reducing the risk of virus transmission and exposure to environmental health hazards, and to support student health needs. These include: door and window renovations, installation of easily disinfectable surfaces, no touch faucets and no touch entries.			

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ○ No	After review if the district's facility needs plan, it has been determine that air quality can be improved in multiple facilities through repairing, replacing and upgrading HVAC and HVAC related systems to reduce the transmission of Covid-19.	July 1, 2021 - September 30, 2024	Increased winter & summer energy efficiency Improved air quality within buildings	$ 1,210,000.00
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$ 0.00

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ○ No	One Teacher for English Learners to reduce case load and provide additional support to combat learning loss due to Covid-19 Additional supplies for outreach specialist to provide resources to students experiencing homelessness due to Covid-19.	July 1, 2022 - September 30, 2024	Increased ACCESS test scores Increased EL attendance and report card grades Adequate resources for every student	$ 165,000.00
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ⦿ Yes ○ No	1 additional school nurse to increase the number of days schools have a nurse present on campus to provide increased reaction time to Covid-19.	July 1, 2022 - September 30, 2024	Increased response times for students with medical issues.	$ 125,770.00

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$ 0.00
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	PPE, sanitizer, supplies and equipment as needed to keep buildings clean and mitigate the spread of Covid-19.	July 1, 2022 - September 30, 2024	Reduction in the transmission of Covid-19 Reduced absences from staff and students	$ 300,000.00
	* ○ Yes ◉ No				$ 0.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.				

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ⦿ Yes ○ No	Hotspots and mobile internet access points for students participating in remote learning as a result of the Covid-19 pandemic.	July 1, 2022 - September 30, 2024	A larger percentage of students will have wifi access capability.	$ 248,000.00
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ○ No	K-12 Counselors - 3 full-time, 2 part-time for the 2022-23 and 23-24 school years to be paid from ESSER III funds to provide additional SEL support for students experiencing SEL issues from the Covid-19 pandemic experience.	July 1, 2022 - June 30 - 2024		$ 480,872.00

				Increased in students receiving counseling services both individual and small group An increased awareness of social emotional needs of students Increased attendance from providing social-emotional support to students.	
	* ⦿ Yes ○ No	Summer learning consisting of 150 hours of instruction taking place at all 18 school campuses across the district. Reading camp will incorporated into elementary school while academic recovery is focused on in middle school and course recovery	Summer 2022, 2023 and 2024	High school students completing course recovery Middle school students who did not achieve promotion standards during the school year will receive have the opportunity for academic recovery	$ 4,800,000.00

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.		course recovery is targeted in high schools. This Robust summer learning plan is estimated to support 20% of the students in Rutherford County Schools as the district looks to aggressively combat learning loss from the Covid-19 pandemic. All EC students will be invited to summer school Additionally, students identified for retention, meeting reading camp guidelines or tier III as designated by MTSS. Bus transportation will be provided for all students invited to summer school in order to boost attendance. Bus transportation and			

		food services will be provided for all students invited to summer school in order to boost attendance. This plan will be implemented using ESSER II funds in 2021 and using ESSER III funds in 2022, 2023 and 2024			
	* ⦿ Yes ◯ No	Support Services - Additional security cameras to cover additional entrances and areas being used to socially distance faculty staff and employees to reduce Covid-19 transmission Finance Position - To appropriately mange ESSER funds Maintenance Position - To increase effectiveness of	July 1, 2022 - September 30, 2024		$ 635,000.00

| OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act. | | effectiveness of mitigation of Covid-19 Student Bus transportation for summer learning - All students invited will be offered transportation services Food services for summer learning - All participating students will be offered breakfast and lunch. | | Security cameras will increase the security of the school. This is a critically needed component due to social distancing. Schools are now using side entrances to distance students and employees that were not used previously. The maintenance position will provide oversight and expertise in air quality and HVAC systems to ensure work is completely correctly, effectively and efficiently. Finance position will ensure allowability for all the extra budgeting and payroll happening with ESSER fund | |

| | | Total ESSER III Allotment | $ | 9,274,642.00 |

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Rutherford County Schools (810) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

GAN Information

Rutherford County Schools (810) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at <u>NCDPI School Allotment Section</u>. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Attention Needed	Date	User	Status (S)/Comment (C)	S/C
☐	11/5/2021 3:02:53 PM	melinda Vickers	These are the changes that were made in Esser III for this revision This change was added in the other ESSA box: We will be offering a fall of 21 retention bonus to permanent part-time and permanent full time staff. The bonus amount will be prorated based on the percentage of employment. The bonus will also be prorated for cafeteria staff based on the bonus they are already slated to receive per 174. We will be hiring a person to help with the maintenance and tracking or ESSER funding, activities, purchase orders, and monitoring documents. This person will have 20% of their job allotted to these tasks and as such 20% of the salary will come from ESSER (about 22,000) Improve Air Quality: New HVAC units will be installed system-wide as we are able to do based on funding and timing. (We are reducing the number of HVAC units because we cannot get quotes in a timely manner to begin the work in a time frame that allows for finishing by the end of the grant cycle) We will also replace chillers in the following facilities: CES, PVES, MMS, HES all receiving 1 new chiller. MHS, UHS, RES will receive 2 new chillers. (UHS and MHS had an additional chiller adde4d to the scope of work) Bus cameras will be replaced that are non-functioning to help us contact trace on buses as drivers cannot enforce mask mandates while driving.	C

(We are reducing the number of HVAC units because we cannot get quotes in a timely manner to begin the work in a time frame that allows for finishing by the end of the grant cycle) We will also replace chillers in the following facilities: CES, PVES, MMS, HES all receiving 1 new chiller. MHS, UHS, RES will receive 2 new chillers. (UHS and MHS had an additional chiller adde4d to the scope of work) Bus cameras will be replaced that are non-functioning to help us contact trace on buses as drivers cannot enforce mask mandates while driving.	C

Grant Details

Sampson County Schools (820) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

1)   K-12 classroom teachers, administrations, and support staff were allowed input through various means which include (but not limited to) a Microsoft Forms Survey, informal teacher discussions and asset inventories. All data collected was reviewed in a stakeholder meeting on April 26th with administrators, support staff, instructional staff as well as district leaders. Each level reviewed data from elementary, middle and high school. At this meeting needs were ranked according to academic priorities in areas of greatest need. Learning loss will be assessed through state assessments (EOGs, EOCs, POLs) and school diagnostics (which include: K-5 Istation, 6-8 I-Ready and 9-12 Edmentum). We will address these learning losses through summer learning extension program as well as K-12 interventionists based on the identified tiers of MTSS, Tier 2 and 3. Current assessment data for K-5 (Istation): Students in need of Intensive Interventions in Reading: K-32%, 1st Grade 31%, 2nd Grade 19%, Third Grade 21%, 4th Grade 33%, 5th Grade 30%. Students in need of Intensive Interventions in Math: K-18%, 1st Grade 18%, 2nd Grade 43%, 3rd Grade 39%, 4th Grade 38%, 5th Grade 44%. Current assessment data for 6-8 (iReady) Students in need of Intensive Interventions in 6th-8th Grade Reading: 40% Students in need of Intensive Interventions in 6th-8th Grade Math: 30% Chronically Absent students: 6% of student population 9th-12th: And for HS over 50% of the

students have failed 1 or more classes during COVID and will need credit recovery courses to complete for graduation before they graduate. We will address these learning losses through summer learning extension program as well as K-12 interventionists based on the identified tiers of MTSS, Tier 2 and 3. The summer learning extension program will be a 150-hour, K-12 summer school at all school sites. Students will be invited based on local promotion requirements as well as diagnostic data (listed above). K-8 schools will offer reading, math and science instruction daily with a focus on small group intensive interventions to close gaps for students. Class sizes will be intentionally small to again focus on intervening in areas of needs determined by screener data. The K-8 interventionists will be allotted to schools based on the number of intensive interventions needed at each school, each year. These interventionists will work with students during the school day in the areas of reading and math. They will use research-based interventions in the area of need of the student to address the skill deficit.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

From data collected from K-12 stakeholders the results showed the following needs: Equipment (including technology), Interventionists/MTSS Supports, Facilities Upgrades and Instructional Text/Digital Resources. The stakeholder feedback paired with the student assessment data detailed in Part A clearly justifies the need for intensive interventions by Interventionists and Summer Learning extension program. The gaps have increased in each grade level over 6% from K-3rd grade since COVID began last March. Students in need of intensive interventions increased at the following rate in each respective grade level: K- 6%, 1st 9%, 7%, 2nd 7% and 3rd 7%. For example, our first-grade students needing intensive interventions in March 2020 were 22% now 31% in May 2021. This data validates the fact that early literacy skills cannot effectively be taught in a remote learning environment. Our gaps are increasing due to the environment created by COVID and face to face instruction by interventionists who can drill down to the specific reading deficiencies of students. This direct assistance will help us to begin to reverse this trend. This same pattern holds true in middle and high schools were students not meeting local promotion standards has almost doubled to over 30% in the 6-12 area. The same needs hold true in middle and high school, engaging face to face instruction is needed to scaffold the lost instruction from this past school year.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 5,382,603.87 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Diagnostics being utilized at SCS for each level are as follows: K-5 Istation, 6-8 i-Ready, 9-12 Edmentum/Exact Path. Each of these diagnostic tools are competency-based screeners, which screen for deficiencies of students. This data will be input into Panaroma, an educational platform that converges all data as an early warning system to indicate differentiated needs of students. This information will then be used to intervene strategically to meet the comprehensive needs of students. We will use interventionists K-12 for this protocol. This will allow us to decrease number of Tier 2 and 3 students demonstrating deficiencies caused by COVID-19. An additional way we will address learning loss is to utilize Virtual certified teachers through Elevate to make sure students in classrooms where we are unable to find qualified, certified teachers for in person instruction, we still have certified teachers available, virtually, to the students present in those classrooms in person. Panaroma will allow disaggregation of data as listed in learning loss description. Provide more direct instruction to ELL students in 9-12 while also providing increased communication with the ELL population.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

As aforementioned these evidence-based activities will meet the needs of all subgroups. The strategies will be delivered by interventionists and supported by classroom teachers. Not only will these services be delivered during the school year, SCS will also be hosting a summer learning program for K-12 students (minimum of 150 hours) in face to face instruction to close learning gaps indicated by aforementioned assessments.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

SCS will utilize the diagnostic assessments detailed above to notify parents of students academic progress. Panaroma also will enable us to provide an individualized academic and SEL profile for each student which will be addressed with the parent and strategies planned. Communication tools already in use include Remind, Blackboard Connect and SCS social media sites. All communications are translated in the students' native language. Increase direct to ELL

students lessening the negative gaps caused by COVID to include drop out. Increase communication with ELL parents/guardians about academic progress of students.

* (D) Tracking student attendance and improving student engagement in distance education;

Tracking of student attendance and progress will be improved using school dedicated LMS in collaboration with a classroom management tool to monitor student activity while online and in the classroom setting (both in person and remote). Panaroma alerts educators to attendance/engagement issues with individual students. Panaroma is an early warning system that plugs into PowerSchool and will alert stakeholders when an attendance issue is noted based on the thresholds input by district level. The first point of contact for an attendance issue will be the teacher; however, when an attendance issue continues even after the first teacher contact the administrators will be alerted and the individual problem-solving team will be convened to discuss. This team includes the guidance counselor, social worker and administrative team when addressing atttednance concerns.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Panaroma allows student academic data to be disaggregated by remote and face to face students in addition to alerting educators to any academic concerns/decline in student performance. This platform brings together social-emotional learning, MTSS, response to interventions, school climate, and student voice. This is a comprehensive student data tracking platform. It is the school's responsibility to ensure the student is receiving instruction at their level as well as on grade level standards. Diagnostic testing will demonstrate deficiencies of students and what interventions need to be utilized for each individual student. Benchmark and formative assessments on grade level will inform teachers on grade level mastery. Both of these data points will be reviewed by the MTSS teams to ensure students receive the instruction they need to scaffold instruction and close gaps created by COVID. Panaroma will be utilized to track the progress of core instruction as well as interventions.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ◉ Yes ○ No	Adding additional classroom space focuses on class size reduction, that is the decrease in the number of students in a classroom, as a feasible means of social distancing in classrooms. Given the fixed area of the classroom, the physical distance between students depends on class size: the smaller class sizes, the greater students'	June 2024		$ 9,000,000.00

| | | physical distance. Mobile units will be added at each of the following schools - LHS (10), SES (6), MES (4), HMS (1) to increase classes available to distance students. We will be repairing or replacing roofing in the following places - C.E. Perry, CES, HHS, UMS, HMS, RSMS, Early Childhood Development center. Bus cameras will be replaced that are non-functioning to help us contact trace on buses as drivers cannot enforce mask mandates while driving. | | We also believe that as class sizes decrease, the slower the spread of Covid becomes. This may be directly related to the increase in social distancing in classrooms. By adding mobile units and reducing classroom size, we will also increase the time teachers can spend with each student. This time will be used to close achievement gaps and help many struggling students catch up on lost instruction due to Covid closures and remote learning. | |
| | | New HVAC units will be installed system-wide as we are able to do | June 2024 | | $ 2,000,000.00 |

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ○ No	we are able to do based on funding and timing. Most of our HVAC units do not have economizers or means of bringing in outside air. An economizer is a part of the outdoor system for most commercial buildings. The economizer evaluates outside air temperature even humidity levels. When the exterior air levels are appropriate, it uses the outside air to cool your building. HVAC economizers use logic controllers and sensors to get an accurate read on outside air temperature quality. As the economizer detects the right level of outside air to bring in, it		HVAC economizers improve indoor air quality through increased ventilation,. Many buildings, especially most of our older ones, weren't designed with modern ventilation in mind. An economizer can improve air quality by bringing fresh air and exhausting your building's stale or contaminated air. It is estimated that economizers cut down on sickness and transmission of COVID 19 by providing fresh clean air free from air pollutants.	

		utilizes internal dampers to control the amount of air that gets pulled in, recirculated and exhausted from your building. We will also replace chillers in the following facilities: CES, PVES, MMS, HES all receiving 1 new chiller. MHS, UHS, RES will receive 2 new chillers.			
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ⦿ No				$

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ⦿ No				$
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ⦿ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ⦿ No				$

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ◉ Yes ○ No	In order to provide uninterrupted instruction to students during long term closures, SCS will be purchasing digital textbooks (for all CORE subjects K-12) as well as a career development program to help complete graduation requirements for all students.	June 2024	This will ensure that educational services will continue to be provided consistent with all federal, state and local requirements.	$ 589,322.81
	* ◉ Yes ○ No	Student Devices will be purchased to allow for in person and remote students access to	June 2024		$ 4,164,870.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		access to instruction. Teacher devices will allow access and deliver content face to face and remotely. Interactive Displays will allow for greater visibility, sound, and ease of access to content both on campus and in remote instances. Classroom Mgmt software will be purchased to give teachers the ability to monitor the screens of students and keep them on task, as well as providing ease of accessing vetted content. Microsoft and FileWave licensing will allow the Technology Department to manage devices		100% of students and teachers will have devices less than 7 years old to ensure efficiency during instruction. 100% of classrooms will have interactive displays for in person and remote learning to ensure greater visibility to digital content. 100% of teachers will have the ability to manage student computers during instruction. 100% of staff and student computers will be managed and security measures implemented to enable cyber protection during instruction. Servers will be backed up.	

		deploy content to devices in a safe efficient way. Deployment of the Hyper-V Cluster on site at SCS will allow for servers to be hosted in the cloud and managed on-site, while also providing off-site and air gapped backups. Also included is anti-virus to ensure safety of the recovery backups. Educational software will be purchased to increase student engagement and allow for data disaggregation (Panaroma).			
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ◉ No				$

| SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care. | * ⦿ Yes ◯ No | Face to Face, Summer Learning will be provided for a minimum of 150 hours to all K-12 students demonstrating deficiencies through the following indicators: 1) diagnostic screener data 2) not meeting state/local promotion requirements 3) course failure. K-8 will provide ELA, Math and Science instruction daily. Students will also have a daily recess and exploratory class. 9-12 will operate a credit course recovery summer school. Transportation and meals will be provided. | June 2024 | Lessen the negative academic and social-emotional impacts on students caused by COVID-19. | $ 2,700,000.00 |

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ◯ No	Indirect Costs for allowable expenses We will be offering a fall of 21 retention bonus to permanent part-time and permanent full time staff. The bonus amount will be prorated based on the percentage of employment. The bonus will also be prorated for cafeteria staff based on the bonus they are already slated to receive per 174. We will be hiring a person to help with the maintenance and tracking of ESSER funding, activities, purchase orders, and monitoring documents. This person will have 20% of their job allotted to these	June 2024	Indirect Costs for district to maintain services charged at allowable rate	$ 2,220,311.32

	tasks and as such 20% of the salary will come from ESSER (about 22,000)		
		Total ESSER III Allotment	$ 20,674,504.13

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.

☑ **LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)**
An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Sampson County Schools (820) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - New Applicant Summary

There are no new applicants.

GAN Information

Sampson County Schools (820) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Clinton City Schools (821) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

CCS annually revised comprehensive needs assessments (CNAs) are used to determine the most important needs of our PSU. Each school's SIP team consisting of teachers, teacher assistants, administrators, and parents participate in the annual revisions. A district CNA is also conducted annually. District level leaders including executive staff, directors, and coordinators as well as building level leaders use the NC Star platform to conduct these assessments. In addition to the CNA a facilities study was also conducted during the 2021 school year. In addition, throughout the 2021 school year administrators have monitored students for at risk criteria base on academics, Social Emotional Learning (SEL) data, attendance data, etc. Virtual parent focus groups were also conducted along with a connectivity survey in the spring of 2020. Students' IEPs were also reviewed. Contracted service providers were also surveyed for potential cost. Cleaning and sanitation guidelines were also updated and reviewed to address COVID 19 related issues. Principals also provided input to discuss COVID impacts at individual school sites. In order to assess learning loss we will review data from our K-8 I-ready diagnostic that is given three times a year in reading and in math. Student attendance data, EOG data, EOC data, and NC Check-in data will also be reviewed. This data will be utilized to identify students' present level of performance. This data will also help to identify the student's strengths and

weaknesses. Data will also be used to determine the effectiveness of the environment on the student's learning. Once data has been evaluated; an individualized instructional plan will be created to help extend the student's learning, select appropriate curriculum, and prescribe academic therapy to maximize strengths and support weaknesses. In order to address learning loss we will provide after school tutoring, hire interventionist and other support personnel such as SEL Coordinator, nurses, EL teacher etc. We will also provide a summer program per state guidelines of 150 hours of instruction. We will also increase internet connectivity and purchase additional Chromebooks to support student learning. School nurses and other healthcare personnel (HCP) will play an important role in safely keeping CCS schools open for in-person learning, in addition to supporting other in-person activities, during the COVID-19 pandemic. School nurses and other HCP routinely evaluate students for symptoms or exposures. They will also assist administrators and teachers in implementing mitigation strategies, contact tracing, and maintaining school-based clinics.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Our most recent diagnostic shows that only 33% of are students are proficient in reading. In math (K-8) we have an overall proficiency rate of 24%. Our high school 2021 fall test data shows that our students are 35.9% proficient in English 2, 12.12% proficient in NC Math 1, 28.26% proficient in Math 3, and 51.4% proficient in Biology (an increase of 10% from the 2019-2020 school year). As of January 20th we had an average of 30% of our student population that was chronically absent. In two of our elementary schools we had higher than average numbers of COVID cases which caused loss of instructional time due to quarantine.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 3,224,951.44 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

I-Ready data, NC Check-ins, EOG & EOC data will be used to provide system-wide data on student achievement as well as data by subgroups of learners. This data will provide valuable insights regarding the achievement and progress of all students, including efforts to promote equitable access to excellent educational opportunities and to narrow the achievement gap. I-ready and NC Check-in assessments will allow for continual snapshots of the student's progress across time before summative assessments are administered. This will allow administrators and teachers to implement proactive measures to help promote learning. These assessments will also help identify students' understanding, inform and improve the instructional practices of teachers, and help students track their own learning.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

The SEL coordinator will provide outreach to families. They will also maintain our implementation of the Jesse Lewis Choose Love movement which is aligned to CASEL standards. Interventionist will also be used at each school to provide additional research based interventions and support in reading and math for students who have experienced learning loss due to COVID. The SEL coordinator will work closely to support all stakeholders in order to create more supportive environments as students and staff return to in-person learning after dealing with the stress, anxiety, etc. that the pandemic has caused. Our 2020-2021 Jesse Lewis Choose Love Survey data shows that 30% of our students do not know how to calm down when angry. Other data shows that our 30% students do not know how to stop being upset when someone does something to them. Survey data also shows that over 50% of our students try and get back at someone when they do something mean to them. 15% of our students, according to survey data, say that they have nothing to be thankful for. In grades 6-8 42% of our students reported that they did not know how to calm down when they were angry at someone. 47% of middle school students reported that they try to retaliate when someone is mean to them. 37% of our high school students reported that they did not know how to calm down when angry at someone. 31% of high school students reported that they tried to retaliate when someone did something mean to them. The 2020-2021 data has improved from the previous school year. However, in order to continue to see positive gains we are in need of additional SEL support.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

The SEL coordinator will provide parent outreach and assistance to support students, parents, and families in distance learning environments. This coordinator will be expected to make phone calls, send emails, and do home visits where appropriate in order to make sure parents/guardians feel supported. The coordinator will send written correspondences in the form of emails, social media posts, and newsletters to reach a wide communication.

Resources will be gathered and posted explaining how parents can work with students at home. The primary resources will come from the Jesse Lewis Choose Love Movement, which we are currently implementing K-12. The SEL coordinator will additionally, work with counselors and teachers to share best practices for working with families directly of the students they teach.

* (D) Tracking student attendance and improving student engagement in distance education;

CCS is a Community Eligible Program (CEP) district. A vast majority of our students are low income. Therefore, we intend to have a 1-to-1 device ratio and ensure connectivity for all students. Clinton City Schools staff will track participation through submission of assignments. When a student is not present for a checkpoint, the teacher will follow up with the family by e-mail or phone and escalate calls to school leaders or support staff when a student is unreachable. Attendance monitoring will also take place during live virtual instruction. Resources such as recorded video instruction, online activities, and assignments will be accessible via Google Classroom. Other resources will be disseminated via mail or picked up at a central location. Some teachers gather students virtually via online platforms for a "morning meeting," which allows for wellness checks. Others offer "office hours" to students for asking questions about their work. Others offer small-group virtual instruction in core areas. Services such as speech, ESL, McKinney Vento, mental health therapy will also be available for students who have suffered from the results of the pandemic.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Formative data analysis through the use of I-Ready, Study Island, PowerSchools, EOG, and EOC data will be used to evaluate the progress of students pre and post pandemic. ACCESS testing will also be used to evaluate the progress of our EL students pre and post pandemic.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ⦿ No				$ 0.00
	* ⦿ Yes ○ No		By Summer of 2022		$ 2,600,000.00

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.		HVAC-L.C. Kerr Elementary School (LCK) No humidity or outside air controls due to the design of the current 2 pipe HVAC system with room unit ventilators (without outside air dampers). This solution creates situations where we have stagnate, overly humid air in many classrooms that could lead to an increased potential for airborne virus transmission. *$1,000,000.00 is needed for the H-VAC. The cost is more than the anticipated initial cost. The new budget for the H-VAC is $2.6 million		Heating, ventilation and air-conditioning (HVAC) systems are used to maintain indoor air temperature and humidity at healthy and comfortable levels. The impact of the new HVAC will be the reduced spread of COVID in indoor spaces by increasing the rate of air change and reducing air recirculation. Data from indoor air quality reports and capacity from updated HVAC system will be used to measure the impact of the new HVAC. Other data sources will be: maintenance reports & records	

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$ 0.00
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◉ Yes ○ No		Annually: 2021-2024		$ 160,000.00

| | | EL Teacher- According to our formative data collected during the 2020-2021 school year, EL students have been negatively impacted by COVID related learning loss. Adding an additional EL teacher will allow us to provide intensive services to increase ESL services in grades 3 through 8 at Sunset Avenue School (SAS) and Sampson Middle School (SMS). | | It is essential to continue sharing information about COVID-19 with English language learner (ELL) and immigrant families, especially as it changes. The impact of the new EL teacher will be increased sharing of information related to COVID, reduced class sizes, and improved social distancing. Data sources will be: communication logs, parent surveys, student teacher ratio, observations, academic data, and attendance reports. | |
| | * ◉ Yes ○ No | | Annually: 2023-2024 | | $ 250,000.00 |

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.		5 CNAs 1 LPN 1 BSN or RN Daily reported and confirmed cases of COVID have placed an increased demand on our school nurses. In order to help with the evaluation of symptoms or exposures additional health care personnel are needed in order to improve preparedness and response efforts. The CNAs will be placed at each school. The LPN and/or BSN/RN will serve students district wide.		School nurses and other healthcare personnel (HCP) will play an important role in safely keeping CCS schools open for in-person learning, in addition to supporting other in-person activities, during the COVID-19 pandemic. School nurses and other HCP routinely evaluate students for symptoms or exposures. They will also assist administrators and teachers in implementing mitigation strategies, contact tracing, and maintaining school-based clinics. Impact Measures: reduced number of cases	

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ⦿ No				$ 0.00
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ○ No	PPE: Disinfecting wipes and hand sanitizer can help reduce potential virus transmission in schools Carpet Cleaning: There are known positive cases of COVID-19 in all carpeted areas of CHS. The CDC recommends thorough deep cleaning of carpeted areas periodically on a normal basis outside of pandemic situation. CCS Custodial staff does not have the equipment or expertise to deep	Present through Summer 2024		$ 225,591.78

		clean and sanitize carpeted areas. Band instrument sanitation: Band instruments such as drums are shared by multiple students. In order to prevent the spread of COVID sanitization supplies are needed to properly clean shared band instruments.		Personal protective equipment (PPE) will help to prevent the spread of germs in our schools. Carpet cleaning is an essential service during the pandemic since carpets can easily contain the virus once it is spread to areas of a school from cough droplets. The powerful chemical agents and steam cleaning provided by carpet cleaning can kill the virus on these frequently used surfaces. Impact measures: attendance data, COVID dashboard	

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ⦿ No				$ 0.00
	* ⦿ Yes ○ No		Fall of 2021		$ 200,000.00

11/9/2021 7:00:49 PM

| EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment. | | 500 Chromebooks w/extended warranty & damage protection (will cover all 1300 Chromebooks) Must replace these units to continue any possible virtual learning that will be chosen by parents and/or required at any point Must replace these units to continue any possible virtual learning that will be chosen by parents and/or required at any point Must have some warranty coverage to help offset repairing damaged units | | Chromebooks will allow for more personalized instruction to help combat learning loss as a result of COVID. The expected outcome of additional Chromebooks is increased student engagement, increased motivation, and increased personalized learning. Data sources that will be evaluated are as follows: academic data (formal/informal assessments, I-ready data, observations, walkthroughs). | |
| MENTAL HEALTH SERVICES: Providing mental health services and supports. | * ⦿ Yes ○ No | | Fall of 2021 through 2024 | | $ 222,000.00 |

| | | SEL Coordinator- The pandemic limited interactions between students, teachers, their peers, and their families. To help address the social and emotional impact that the pandemic has had on all school stakeholders a SEL coordinator will be employed through the use of ESSER funds. The SEL coordinator will provide mental health services and supports to CCS students/staff. *$50,000.00 will need to be added to the SEL budget. The cost to employee the SEL coordinator was more than anticipated. | | The SEL coordinator will work closely to support all stakeholders in creating environments that are supportive as students and staff return to school after dealing with the stress, anxiety, and etc. that the pandemic has caused. By adding an SEL coordinator we expect to see increased moral of students and staff. Data sources that will be explored are SEL surveys, attendance data or students/staff, TWC surveys, discipline data and academic data. | |
| | | Summer | | | |

| SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care. | * ◉ Yes ○ No | Summer Programs- Summer programs help children catch up on the learning they have lost and prepare to reenter school and other activities after this period of isolation caused by COVID 19. Summer programs will help: *Close the achievement gap by providing students with more time for deeper learning and the extra help they need to recover from learning loss due to school closures and disrupted schedules. *Address student mental health by connecting young people with caring mentors who are trained to help youth build healthy | June - July 2021 | CCS leaders are concerned about students' learning loss as a result of the constraints the pandemic has placed on teachers and students. CCS will create summer programs to help students who have fallen behind during COVID. With the creation of a summer program we expect to see and increase in proficiency and growth across the district. Data sources: surveys, attendance data, academic data, discipline data, formal/informal assessments. | $ 0.00 |

		relationships and heal from trauma caused by COVID. *Ensure child safety by partnering with schools to offer families a safe place for children to learn both during and beyond the school day, allowing parents to return to work or take time to seek employment. *These funds will not be used for Summer Learning. Another PRC (069) will cover the cost of Summer Learning.			
	* ◉ Yes ○ No	Activity Bus: Must have additional activity bus to provide capacity for social distancing Floor decals and arrows: Floor Decals for physical	Present-2024		$ 450,591.78

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		physical distancing and directional arrows are required in the NC Strong Schools Toolkit. If they continue to be required for 2021-2022, we will need to replace existing decals after floor refinishing during the summer Touchless water fountains: Touchless water refill stations are recommended to help reduce potential virus transmission in schools as an alternative to traditional water fountain stations Security camera tracking for contact tracing and density: COVID tracking will continue to be required for reporting and assigning		Activity Bus-allows for more social distance when transporting students Floor decals and arrows-social distancing/direct flow of traffic in hallways and other areas Touchless water fountains-allows for use of fountains while reducing the risk of spreading COVID Security Camera-helps with contact tracing Custodians-The virus may remain on surfaces for days. Custodians are essential in ensuring classrooms and other areas of the building are properly sanitized to reduce the risk of spreading COVID	

11/9/2021 7:00:49 PM

		quarantines and will be enhanced/shored up with camera tracking systems as opposed to relying on manual paper tracking and word of mouth 7 Custodians: Custodians are essential in ensuring classrooms and other areas of the building are properly sanitized to reduce the risk of spreading COVID *The cost to cover the bus, contracted services for custodians, equipment, custodial supplies & materials was more than anticipated. An additional $255,000 is needed to cover all cost.			

	Total ESSER III Allotment	$	4,108,183.56

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Clinton City Schools (821) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

Clinton City Schools (821) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Scotland County Schools (830) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - History Log

Attention Needed	Date	User	Status (S)/Comment (C)	S/C
	11/4/2021 8:17:54 PM	Dr. LaTricia Townsend	Status changed to 'NCDPI American Rescue Plan Act-ESSER III Division Administrator Approved'.	S
	11/1/2021 9:17:32 PM	Tina Letchworth	Status changed to 'NCDPI American Rescue Plan Act-ESSER III Program Administrator Approved'.	S
☐	11/1/2021 9:17:26 PM	Tina Letchworth	The budget that has been submitted within BAAS and the FY 2022 – ARPA (American Rescue Plan Act) – ESSER III Application (PRC 181) submitted within CCIP have been approved. This approval reflects programmatic allowability of strategies only. In the event of a fiscal audit, it is the responsibility of the district to provide documentation that demonstrates the strategy is for the prevention of, is in response to, or will reduce the spread of Coronavirus and is the most cost-effective way to address the problem. Any capital projects must adhere to all guidelines and requirements of capital projects.	C
	10/26/2021 12:00:45 AM	Barbara Adams	Status changed to 'Chief Administrator Approved'.	S
	10/26/2021 12:00:38 AM	Barbara Adams	Status changed to 'Fiscal Representative Approved'.	S

Scotland County Schools (830) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

As a result of the COVID 19 pandemic, disruption in educational services, shift to remote learning and return to in-person instruction, our LEA used several processes to identify the pre, post and existing educational needs, specifically in the areas of learning loss, social emotional and mental health well-being. Multiple surveys and leadership planning meetings were held and are on-going with district and school based administrators, school leadership teams and community stakeholders to identify specific, priority areas of learning loss that need to be addressed and the appropriate professional development needed to support the execution of such. In addition, as various district data supports that learning loss is prevalent in our students, an intense, enriched summer program has also been a planning focus. At the elementary level, IStation's Rate of Improvement Report, ranging from Mar. 20 - Mar. 21, indicates that there is an overall learning loss of 2 or more points in grades K-5, in the areas of: comprehension, fluency, vocabulary, phonemic awareness, and phonics, district-wide. The district's NC Check-Ins, reviewed from fiscal school year, 19-20 - 20-21, that were analyzed for percentage correct and used for Benchmarks in Reading and Math showed an overall decrease in percentages correct, district-wide, with grades 4th, 5th and 8th showing a decrease of 8 or more points in percent correct in Reading. Using the same data pieces in the area of Math, all grade levels showed a decrease in percentage correct, with grades 3rd, 5th, and 7th showing a decrease of 12 or more points in percent correct, noting that the overall decrease in percent' s correct in Math weighed in higher than those in Reading. 5th grade Science data retrieved from both standards mastering and

percent correct ratings, for the 20-21 school year, shows a test average of 41.2, with at least a 10 point decrease as compared to the 2019-2020 average of 51.7 while 8th grade Science indicates a loss of 16.55 points in all assessed areas. During the Fall of 19-20, grades 9th -12th English II assessments showed a decrease of 16.63% in proficiency while Biology showed a proficiency decrease of 15.79%. Due to various barriers resulting from the pandemic, schools were unable to enroll students in NC Math 1 in the Fall of 2020-2021 but instead, chose as a pro-active measure to place students in Math Foundations in hopes to help bridge the gap of the incurred learning loss. After careful review of this data, it is evident that in our LEA, Scotland County, learning loss is prevalent in all academic areas, district-wide. In addition, our stored grades and attendance reporting data, retrieved from PowerSchool, denotes that the number of students receiving a failing grade in 1 or more courses in Semester 1 of 19-20 was marked at 928 students and spiked significantly to 2,165 in Semester 1 of this school year, 20-21. Also, the number of students with 10 or more absences during the 19-20 school year indicates a total of 1,642 students, while those with 20 or more absences was recorded at 458 students. The same attendance reporting data for the 20-20 school year, with a date range of: Aug. 10, 2020 - Apr. 10, 2021, shows an increase of students with 10 or more absences at a total of 2,370 and 20 or more absences weighing in at 1,558 students. 20-21 EOG data continues to show decreases in student proficiency in the areas of: Reading, Math, Science and Biology district-wide. Furthermore, attendance and discipline data, alerts and risk assessments for self-harm and threats, caseloads for school based counselors and mental health professionals and documentation of goals/objectives for student plans, indicates that being in isolation and having limited social interaction had a negative impact on the mental health stability of some of our students' return to in-person instruction. Our LEA, has seen an increase in self harm alerts for middle and high school students and; students who were once seeing mental health professionals regularly face to face, not wanting to attend counseling sessions virtually, showed inconsistency in attending their routine sessions. These various data sources and comparisons in data points, continues to help validate the overall learning loss within our student population throughout this pandemic. As the previously noted data assessment supports decreases in: student learning, academic performance, grade failure and daily attendance, our LEA has determined that due to the amount of learning loss our students have experienced through the absenteeism of consistent, direct instruction, current and additional staff/community partners/stakeholders will definitely need to be utilized to facilitate enriched summer programs/summer learning sessions in grades K-12, to serve as an intervention and to account for incurred learning loss among our students. Specialty area staff will be needed to provide additional direct services via summer enrichment programs to a mass majority of students who did not progress at a sufficient rate due to the interruptions of traditional instruction as well as encountered social emotional barriers by the onset of the pandemic. The provision of staff to facilitate credit recovery opportunities for students who previously failed courses and did not receive adequate opportunities for course recovery; those who were unable to complete their career-ready credentials course work and in situations where hands on workforce and internship experiences were paused for many students with the meeting of credential requirements marked as incomplete prior to school closing, will also be warranted. Due to the above-mentioned COVID-19 related needs, our LEA has chosen allowable uses of ESSER funds in the following areas: Learning Loss; Facility Repairs/Air Quality; Resources for Leaders; Sanitizing & Supplies; Technology; Mental Health; Summer Learning and Other ESSA Activities.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

The following data analysis provides an overview of how the selected allowable use areas will be supported with ESSER III & other available ESSER funds in our LEA (SCS): * Address Learning Loss: A higher need for intense supervision/directing of additional personnel in the areas of: Health Support; Social Work; Guidance Support/Services; Mental Health; Attendance and MTSS Instruct. Support I - Reg, to ensure that the (academic, social & emotional) needs of students and staff will be addressed appropriately and with fidelity, district-wide. Also, specialty PD in the areas of restorative practices, cultural responsiveness, high dose tutoring, (SEL) training, Strengthening Families and other related school-based/district needs will be needed to properly train staff on how to respond to the on-going,new and existing challenges that are affecting the success of the whole child. * Addressing Learning Loss: Professional development in the areas of: understanding/re-examining the Science of Reading is needed to help administrators and staff better understand reading/literacy and the whole child, to provide the strategies needed to address identified learning loss in the note foundational reading skills (comprehension, fluency, vocabulary, phonemic awareness, and phonics). * Facility Repairs/Air quality Improvements: SCS's Facilities Usage Report indicates, indicates that the majority of the HVAC systems are degenerating and will need to be replaced and/or upgraded in the near future to sustain the producing of clean filtration of air quality levels. * Providing Principals/Leaders with Resources: Principals will be able to use funding to maximize the appropriate selection and use of resources for instructional improvement and the reduction of learning loss. Individual school/district data will dictate how funds will be used to support the allowable professional development and related expenditures deemed as intentional and necessary to address learning loss and social emotional well being throughout the school environment. * Supplies to Sanitize & Clean: Per CDC guidelines for re-entry phases to in person learning, the district is not solely equipped with the quantity of PPE supplies needed to protect students and staff over the next 2 years; the need to replenish supplies to effectively sanitize remains as a need for sustainability on a month to month basis and throughout the endurance of the pandemic. *Long Term Closure: Personnel needed to provide district-wide leadership in response to the effects of the COVID-19 pandemic and manage the development/implementation of the virtual learning program to offer families instructional options in the return to in-person instruction;. the need to oversee the Technology Department and maintain processes and infrastructure necessary to respond to needs of hybrid and online instruction; tasked with monitoring data metrics regarding student achievement to ascertain learning loss and monitor instructional improvement standards. * Education Technology: During the pandemic's remote learning experiences, district-wide technology difficulties and dated televised conferencing capabilities in various classrooms/facilities, indicated that the current devices supplied to students are not designed to meet the needed specifications to fulfill the requirements of working in both in-person and remote learning environments which often stall student/teacher interactions throughout daily instruction. Direct Leadership personnel needed to oversee Technology initiatives district-wide. * Mental Health Services:

As students return to in person, additional services will need to be provided for those with identified mental health needs as well as those who have experienced trauma during the pandemic including illness, loss of loved ones and lack of personal connection to friends and family. Mental Health Services will be utilized to identify barriers and provide students the skills needed to cope with the trauma they have experienced. Direct Leadership personnel needed to oversee implementation of services/initiatives district-wide * Summer Learning: Staff will be compensated to provide instruction in the areas of Reading, Math, Science, and Enrichment; PD related expenses; purchase supplies and materials needed to support summer learning instructional needs/expenses; stipends to compensate support staff for providing extra duties in the area of Social Emotional Learning; Transportation Staff (bus drivers) and fuel cost to provide student access to available summer learning instruction/activities and Child Nutrition Staff compensation for summer employment to prepare/provide meals for students. * Other ESSA Eligible Activities. Funds will be used to: cover expenditures needed to compensate the appropriate personnel (health professionals, attendance liaisons, EC Support personnel, counselors, mental health professionals, additional instructional support and transportation expenditures (e.g. bus drivers, fuel cost, child nutrition staff and possible maintenance personnel, etc.) for services provided towards meeting the diverse student needs and facility upgrades and operations resulting from prior and on-going pandemic related learning loss and other encountered needs. Funds will also be utilized to offset costs incurred during the 2020-2021 through 2022-2023 years to include FICA and Retirement for the above mentioned personnel from our local fund. Contracted Services for marketing purposes and Stipends for NC Education Corps members providing tutoring services or after school programming instruction will also be considered/allotted for.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 4,695,891.19 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

In addressing Learning Loss among students, professional development in the areas of: understanding/re-examining the Science of Reading will be implemented to help administrators and staff better understand reading/literacy and the whole child, to provide the strategies needed to address identified learning loss in the noted foundational reading skills (comprehension, fluency, vocabulary, phonemic awareness, and phonics). High dosage tutoring and other individual

student needs will be assessed and addressed through the use of selective, universal screener(s)(mclass, I ready; etc.) along with NC Check-ins, Benchmarks and research-based curricula/strategies. Dual Language Immersion Program(s) and Data Dashboards will also be established. These tools will help combat deficits in language/literacy and to track student and district data. To mitigate secondary learning loss and provide support for post-secondary attainment opportunities. School specialty personnel will be utilized to support timely graduation through analysis of student data and other outcomes to match individual student needs with holistic support services.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

To ensure that we are addressing the Social Emotional Needs of our students district wide with consistency and fidelity, personnel will be utilized to provide direct leadership and coordination for efforts of addressing restorative practices, work with health officials around COVID-19 mitigation, supporting the needs of specialized populations, and supervising the efforts of those tasked with counseling student behaviors, learning problems, and dealing with the over well being of healthy students. High student needs at the elementary level, the primary grades, Pre-K through 2, is one entity in which dedicated support in the foundational grades will be provided to aid in the traditional return to in-person learning, engage parents in accessing educational programs, and implement strategies designed to increase academic success. At the secondary level, an additional social worker will be funded to address the social, emotional, and behavioral needs of students as a result of school closure during the COVID-19 pandemic. Return to in-person learning identified a need for students to have positive behavioral support in conjunction with academic support to mitigate the impact of learning loss and reduced socialization. Scotland County Schools (SCS) will provide evidence base activities in which school administrators and staff, based on student data, will have identified at-risk students at each school. Areas of focus will include: Reading, Math, Science Social Emotional and Enrichment. The activities will be scheduled daily to address the needs of the students and highly qualified staff members will be employed to provide tailored instruction in specified areas. Administrators and district staff also will also use assessment to measure their learning loss progress throughout the year. In conjunction with Title I, GEER and other ESSER funds, the program will be supported with the means to provide appropriate planning and rendering of quality services to children in need of learning loss recovery. Local universities will partner with our LEA to provide coordination of specialty, academic tutoring services to each of our elementary schools by providing two tutors at each school. SCS plans to integrate SAU tutors into their summer school schedules by providing intensive interventions, assist with core instruction and provide enrichment activities. Stipends for NC Education Corps members providing tutoring services or after school programming instruction will also be considered/allotted for. SCS will use the appropriate, evidence-based programs and provide the PD needed to address the Social Emotional Learning needs of students through the implementation of Restorative Practices and Building Relationships. These programs will provide resources and follow through monitoring for staff and students. A parent component of the program will also be purchased and utilized to provide continuation of services and parent involvement. School based mental health and other specialized support staff for the provision of after hours services provided to students and their families.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including

in a distance learning environment;

With the need for continual virtual learning that is inclusive, effective, and reduces potential learning loss, a virtual academy option for students and parents has been established and will continue to be further improved and implemented across the district. This virtual academy offers students and parents an additional choice option in the face of an ongoing pandemic. Professional development will be provided to continue the perfecting on the design of an effective virtual academy. ESSER III funds will be used to: provide PD on effective virtual instruction and exceptional education services in a virtual setting; provide stipends to administrators to oversee and lead virtual academy; provide stipends to teachers to conduct virtual classes; purchase technology (hardware & software) to support virtual learning academy staff and students and provide funding for transportation to support the delivery of meals to virtual students. Assigned personnel will be funded to help provide district-wide leadership in response to the effects of the COVID-19 pandemic via managing the on-going stages of development and implementation of the virtual learning program, to offer families instructional options in the return to in-person instruction. Additionally, personnel will oversee the Technology Department, maintaining processes and infrastructure necessary to respond to needs of hybrid and online instruction; and will be tasked with monitoring data metrics regarding student achievement to ascertain learning loss and the monitoring of instructional improvement standards. Professional Development/initiatives and resources to help support and engage parents in their children's learning will be considered/provided, in conjunction with district set aside parent engagement funds(as needed).

* (D) Tracking student attendance and improving student engagement in distance education;

Impact will be measured by student improvement on the following assessments: End of Grade/End of Course tests and universal screener benchmark performance. In addition to these assessments, percentages of student failures by marking period as well as student attendance data will be recorded daily and measured weekly for criterion adherence. All attendance issues will be referred and addressed as outlined in the district's Return to Learn Plan.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Impact will be measured by: tracking the attendance of students attending the program; analyzing pre and post assessment data from the Summer program; tracking of grades, state testing and graduation rates of those students attending the program to note progress or lack there of for on-going intervention in the areas of learning loss. Impact will be measured by: student attendance reporting and work logs from 2020-2022 -2023-2024. The district's NCStar Indicators and completion of, followed by the continuing of school improvement goals that will address students' academic, proficiency/growth/learning recovery needs for the the 2021-2022 - 2023-2024 school years.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III

funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	ESSER III funds will be used to: continue to upgrade current district Camera System to support CDC compliance areas and allow for the monitoring of potential health threats, social distancing, wearing of masks and occupancy tracking; additional outdoor learning playground equipment to maintain social distancing while promoting safe, social emotional learning/interaction with peers and the	July - Aug. 2023; units and parts secured for purchase;1 year projected to complete all installation	Impact will be measured through: data tracking of COVID cases, monitoring of social distancing (inside & outside learning environments) and the following of CDC guidelines on a daily basis with a focus on pro-actively utilizing the resources provided to prohibit any outbreaks and/or Infectious chains within in our LEA's facilities.	$ 3,038,000.00

		purchasing of flex furniture (indoors & outdoors) to provide a variety of seating options and enable the various learning environments to be easily reconfigured or expanded to meet social distancing requirements during whole/small group and individualized instruction.			
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ○ No		July - Aug.2023; units and parts secured for purchase;1 year projected to complete all installations		$ 3,700,000.00

		ESSER III funds will be used to continue to: upgrade and replace HVAC units and HVAC support components throughout the district to help reduce the concentrations of indoor air pollutants or contaminants including any viruses that may be in the air throughout the district's facilities. The purchase of this equipment will help ensure proper ventilation with outside air which will help reduce the concentration of airborne contaminants during the pandemic period and future encounters. The greater the number of students/faculty in the building the greater need for ventilation with outdoor air.		Upon installation and as compared to the prior HVAC systems, impact will be measured on a monthly rotation through: the comparison of air flow/velocity. The HVAC's monitoring system will also be used to monitor the impact of the system's chillers, exhaust fans, motors, etc. and can detect issues that can be corrected in real time, allowing for the execution of pro-active maintenance if needed.	

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ● No				$
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ● No				$

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No		Monthly ordering of supplies as needed.	Impact will be measured by: the limited number and/or complete elimination of COVID-19 clusters in all school facilities district-wide.	$ 464,661.02

		ESSER III funds will be used to: continue to supplement the replenishing of PPE equipment as it will be needed to lessen the daily barriers between infectious materials and to help prohibit the transmission of contaminants from blood, body fluids, or respiratory secretions among students and staff allowing for sustainable safety measures as required.			
	* ○ Yes ○ No	With the need for continual virtual learning that is inclusive, effective, and reduces potential learning loss, a virtual academy option for students and parents has been implemented in grades 4-12 and will be further researched for improvement across	Over a 1-3 year span, the district will implement these specific measures to negate learning loss.		$ 3,203,920.00

| **LONG-TERM CLOSURE ACTIVITIES:** Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements. | | the district. This virtual academy will continue to offer students and parents an additional choice option in the face of an ongoing pandemic. ESSER III funds will be used to: provide PD on effective virtual instruction and exceptional education services in a virtual setting. Stipends will be allotted for selected staff/teachers to oversee and provide virtual instruction. Technology (hardware & software) will be purchased to support virtual learning academy staff and students and if needed, funding will be provided for transportation to support the delivery of meals to virtual students. Also, a district wide | | Impact will be measured by student improvement on the following assessments: End of Grade/End of Course tests and universal screener benchmark performance. In addition to these assessments, percentages of student failures by marking period as well as student attendance data will be measured quarterly for ongoing improvement. | |

		district-wide leadership position will be funded to provide strategic leadership in response to the effects of the COVID-19 pandemic. Assigned personnel will be fully compensated to manage the on-going development and implementation of the virtual learning program, oversee the Technology Department, maintain processes and infrastructures necessary to respond to needs of hybrid and online instruction and will monitor data metrics regarding student achievement to ascertain learning loss and monitoring of instructional improvement standards with fidelity.			
		SCS will continue to refresh and provide			$ 1,052,332.42

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ⦿ Yes ○ No	refresh and provide new, state of the art devices to all students and staff. Students in grades K-2 grades will receive Google Chrome Based devices while students in grades 3-13 will continue to receive Microsoft Windows based devices. Staff will also require new, more powerful devices (Microsoft Windows based) to handle the Virtual classroom and or the hybrid model. Based on funding availability in ESSER II, SCS tentative plan started with the upgrading of devices for students in grades 9-13 and assigned staff. SCS will continue to use ESSER III funds and as funding becomes available to deploy refreshers/upgrades	July - Aug.2023; devices secured for purchase; 3-4 weeks to deploy all devices for remaining grades.	Impact will be measured by: the deployment and connection of each device to all resources required of each student and staff member at 100% and an increase in classroom technology use/participation, student attendance and EOG data.	

		in grades 6-8, followed by the same for grades.K-5. In order to assist with dual platform, asynchronous teaching and Interactive Displays in each classroom, ESSER III funds will also be allocated to help enhance technology integration/upgrades in classrooms district-wide.			
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ◯ No	SCS will continue to use ESSER III funds to: invest in the programs and PD needed to address the Social Emotional Learning needs of students through the implementation of Restorative Practices and Building Relationships. These programs will provide resources and follow through monitoring for staff and students. A parent component	Programs will be implemented beginning Fall, 2021 with full implementation by Spring, 2023.	Impact will measured by: Attendance Data; Discipline/Incident Data; Mental Health Service Referrals and Plans; Report Cards; Progress Reports; Benchmarks and End of Course/Grade Reports.	$ 100,000.00

		of the program will also be purchased and utilized to provide continuation of services and parent involvement. Stipends will also be allocated to compensate school based mental health and other specialized support staff for the provision of after hours services provided to students and their families. Staff will be provided additional duties stipends for the provision of mental health services.			
	* ⦿ Yes ○ No	ESSER III funds in conjunction with other allowable funds will be used to: continue to fund staff to provide instruction in the areas of Reading, Math, Science, and Enrichment; PD related expenses; purchase supplies	The Summer Learning Program will run June - July 2022.		$ 34,639.98

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.		and materials needed to support summer learning instructional needs/expenses; stipends to compensate support staff for providing extra duties in the area of Social Emotional Learning, teacher bonuses and contracted staff (teachers & other staff) employed to provide direct services on a temporary basis during summer learning; Transportation Staff (bus drivers) and fuel cost to provide student access to available summer learning instruction/activities and Child Nutrition Staff compensation for summer employment to prepare/provide meals for students.		Impact will be measured by: tracking the attendance of students attending the program; analyzing pre and post assessment data from the Summer program; tracking of grades, state testing and graduation rates of those students attending the program to note progress or lack there of for on-going intervention in the areas of learning loss.	
		ESSER III funds will be used to: cover			$ 4,632,800.39

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ○ Yes ○ No	expenditures needed to compensate the appropriate personnel (health professionals, attendance liaisons, EC Support personnel, counselors, mental health professionals, additional instructional support and transportation expenditures (e.g. bus drivers, fuel cost, child nutrition staff and possible maintenance personnel, etc.) for services provided towards meeting the diverse student needs and facility upgrades and operations resulting from prior and on-going pandemic related learning loss and other encountered needs. As allowable, funds will be utilized to offset costs incurred during SY 2021	Funds will be used upon receipt the of the grant award and throughout the fiscal years (2021-2023).	Impact will be measured by: student attendance reporting from School Year 2019-2020 compared to FSY 2020-2021; work logs from FSY 2020-2021 and the district's NCStar Indicators and completion for FSY 2020-2021 and into the 2021-2022-2022-2023 school year.	

11/9/2021 6:11:25 PM

during SY 2021-2022 for the above mentioned personnel from our local fund. Funds will be utilized for salaries and benefits including FICA and Retirement. Stipends for NC Education Corps members providing tutoring services or after school programming instruction will also be considered/allotted for. Also, to prepare and develop informational materials through print and/or digital design using best marketing practices to convey district initiatives targeting learning loss and engagement of the Whole School, Whole Child, Whole Community framework, Contracted Services (Marketing) will be

				slated for funding.		

			Total ESSER III Allotment	$	16,226,353.81

Part E: Assurances

Check **all** *assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:*

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

 There are no new applicants.

Scotland County Schools (830) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

Grant Details

Stanly County Schools (840) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Team Members and Process 1)   Various stakeholders were included in the development of the needs assessment including the Curriculum & Instruction team, Chief Financial Officer, Director of Federal Programs, Superintendent, Director of Maintenance and Transportation, Deputy Superintendent of Personnel and Student Services, Chief Technology Officer, and school level administration. Ongoing bi-weekly review of the following data: --   course failures --   attendance data --   students at risk --   staff fatigue --   current interventions in place --   COVID cases and quarantine occurrences 2) Plans to address learning gaps: --   Adoption of a screener K-12 to guide intervention efforts --   Revision to MTSS process --   Bridging the Gap documents developed at the district level --   Utilization of a literacy model to shape and map critical content at the secondary level Data Collected: --   Q3 Course Failure Data --   Data collected at the end of Q3 indicated the district experienced high numbers of course failures among middle and high school students. These course failures were across multiple content areas. When making comparisons of students who were face-to-face vs. remote, the data showed that there was little to no variation in the number of failures. This indicates that learning gaps exist for all students, not just those who were remote for this year. It further indicates that learning gaps exist in multiple subject areas. --   iReady data gathered

from MOY yielded the following results: -- Reading Tier 3 - 26% -- Math Tier 3 - 23% -- Reading Tier 2 - 34% -- Math Tier 2 - 46% -- COVID data -- Stanly County Schools operated on Plan B for the 2020-2021 school year -- Even with all recommended practices in place to prevent the spread of COVID, SCS experienced daily quarantining of students and staff ¦ Director of Student Services tracked and reported quarantine numbers of students and staff weekly. ¦ The highest reported numbers of quarantine were reported during winter months. ¦ The highest weekly total of quarantined students was the week of 2/3/21 with 625 students quarantined ¦ The highest weekly total of quarantined staff was the week of 12/16/21 with 100 staff quarantined. --- Educator Handbook Data -- The percentage of occurrences among the top ten student behaviors tracked in EH, remained constant during the 2020-2021 school year. -- In fact, in the offense area of Aggressive Behavior, SCS saw an increase from 11% to 21%. -- Other offense areas where an increase was noted include: ¦ Disrespect of faculty/staff ¦ Inappropriate behavior --- Technology Data -- All teachers were directed to utilize Canvas as the Learning Management System for students K-12 during the 2020-2021 school year. -- The average percentage of students who opted for full remote instruction for the 2020-2021 school year was 23% -- Students in grade 5-12 who chose face-to-face instruction still experienced remote learning at least 3 days per week due to COVID restrictions on classroom capacity. -- The average monthly volume of Help Desk Tickets filed by students and staff was 3600. -- Our technology department does not have a dedicated position to address Help Desk Tickets. -- There are not dedicated outlets in the classrooms for the chromebook charging cabinets. As we continue to add chromebooks with more charging cabinets the existing outlets will become overloaded. A dedicated circuit for the cabinets will need to be added to multiple classrooms. --- Window and HVAC Data -- The gas seal in the windows at Oakboro and Norwood have failed allowing moisture to accumulate between the glass panes. -- Average Age of HVAC - 1989 - 32 years old ¦ Oldest equipment 1965 ¦ Newest equipment 2007 as part of a total school refurbishment and conversion of an historic property ¦ 13 of 22 school facilities have HVAC equipment the pre-dates 1990 ¦ 7 of 22 school facilities have HVAC equipment that pre-dates 1980

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Data Analysis: Learning Loss -- Q3 Course Failure data indicates an increased number of course failures across all content areas at the secondary level. It also indicates that learning gaps exist for all students, not just those who were remote for this year. -- K-8 Ready MOY data indicates that more than 50% of our students in grades K-8 have not been successful in accessing the general curriculum. This data also indicates that those students are in need of additional intervention to support mastery of content. -- While teacher attendance remained comparable to prior

years, COVID related absences accounted for an additional 526 days. Technology -- At the K-1 level, student access to technology is limited to a class set of 10 devices. There is a need to add devices at the K-1 level. -- At the 2-12 level, devices are nearing end of life that has been accelerated due to unsupervised use in the home environment due to prolonged COVID closures. -- This will require electrical upgrades at our schools. There are not dedicated outlets in the classrooms for the chromebook charging cabinets. As we continue to add chromebooks with more charging cabinets the existing outlets will become overloaded. A dedicated circuit for the cabinets will need to be added to multiple classrooms. Student Behavior -- Teachers report lack of engagement among students, even when students were present for in person learning. On virtual learning days teachers consistently reported a lack of attendance among students. -- For the 2020-2021 school year, SCS experienced 11 threat assessments, 39 emergency mental health referrals, and 8 Alcohol and Other Drugs referrals. -- With the exception of the category "Late to Class", the top discipline incidents entered into Educator Handbook were consistent from the 2019-20 and 2020-21 school years. While the number of incidents were much lower within each category during the 2020-2021 school year, the data indicates the students would benefit from social and emotional learning lessons, assignment of mentors to support appropriate behaviors, as well as professional development for school leaders working to address the issues indicated within the data. COVID -- Stanly County COVID numbers have exceeded state averages multiple times. As a rural county, we lack access to high quality health care in many areas of the county. HVAC and windows -- Window will need to be replaced at Oakboro and Norwood -- HVAC systems/ventilation will need updates/replacements at multiple sites Based upon collected and analyzed data, SCS will respond by: -- Contract with iReady to provide reading and math diagnostic testing for K-12 and individualized learning pathways as part of student intervention strategies for K-8 with embedded professional development. -- Implement a telemedicine initiative with our school nurses in partnership with local health agencies to improve student health and respond to COVID and related illnesses. -- Continue to employ a licensed school psychologist to coordinate mental health services for students -- Employ various support positions to ensure student success. -- Make electrical upgrades to facilitate increased power needs for telemedicine and instructional technology. -- Update HVAC, ventilation, and air quality at multiple sites. -- Take steps to ensure services to students continue in the event of a remote situation.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 5,445,000.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Extend our multi-year contract with i-Ready to provide BOY, MOY, EOY diagnostic assessments with personalized learning paths to be used as a component of ongoing interventions for students in reading and math in grade K-12. Data from the diagnostic assessments would be used to inform decision-making for instruction.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Provide professional development to teachers on highly engaging strategies in the classroom. Critical thinking skills, problem-solving, collaborative projects. Implement STEM initiatives in middle school to improve student engagement in the areas of science and math. Implement AVID at middle schools, with a district coordinator, to help underachieving students with high academic potential prepare for entrance to colleges and universities. As part of Tier 2 interventions, purchase novel sets to support Xtreme Reading initiative.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Incorporate a Family Liaison position to address student/family needs including the following: attendance, engagement, dropout prevention, student preparedness, access to resources for distance learning, and provide training for parents.

* (D) Tracking student attendance and improving student engagement in distance education;

Incorporate a Family Liaison position to address student/family needs including the following: attendance, engagement, dropout prevention, student preparedness, access to resources for distance learning, and provide training for parents.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Hire 4 academic interventionists. Positions would be assigned to the feeder pattern between middle and high schools. Each interventionist would track student academic progress (using available pre and post-pandemic data), use the data to group students based on area of need (MTSS Tier 2 and 3), and provide appropriate academic interventions to those identified students. Provide summer school opportunities for students identified as at-risk. Offer Summer Learning aligned with HB 82 requirements These funds will support summer learning 2021, 2022, 2023 and 2024.

Extend nurse contracts through summer to support summer school. Offer rising 9th graders Transition Camp in early August each year 2021-2024 to informally assess learning gaps that may exist as students transition from middle to high school.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ○ No	Establish a school nursing station/health room at all school sites. Electrical upgrades to accommodate telemedicine, instructional technology and computer carts	Between Summer of 2021 and September of 2024 Between Summer of 2021 and September of 2024	Each site would have a functioning health room where students could be seen and/or treated by the school nurse. Improved electrical capacity at school sites	$ 900,000.00
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ○ No	Update ventilation, air conditioning, and heating systems at multiple school sites to address indoor air quality. Create permanent walls at sites where needed. Replace windows at Norwood Elementary and Oakboro STEM	Ongoing from Summer 2021 through December 2024. Summer of 2021 - Summer, 2022	Improved air quality in our school sites	$ 1,852,982.00

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ◉ Yes ○ No	Incorporate "telemedicine" cart for virtual wellness checks - will be housed in permanent nurse stations referenced above	Fall, 2021 - Fall, 2024	Improved student health Improved attendance for students and staff	$ 550,000.00
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ◉ No				$

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ⦿ Yes ◯ No	Employ a District Safety Officer to conduct safety trainings, monitor responses to contagious diseases, and ensure district readiness in event of COVID or related illnesses	Fall, 2021 - Fall, 2024	A consistent point of contact for district safety policies and procedures and OSHA compliance	$ 315,000.00
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ⦿ Yes ◯ No	Invest in additional training for staff to ensure appropriate responses and procedures are in place for COVID or related illnesses	Fall, 2021 - Fall, 2024	Increased staff awareness and knowledge of appropriate response to COVID and related illnesses	$ 100,000.00
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ◯ No	Building sanitization supplies	Fall, 2021 - Fall, 2024	Cleaning and sanitation logs	$ 200,000.00

| LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements. | * ⦿ Yes ◯ No | Bus Transportation for delivery of meals and learning materials as needed due to school closures. Continue student support through a Learning Management System for distance learning | Fall, 2021 - Fall, 2024 as needed Fall, 2021 - Fall, 2024 | Ensure delivery of meals provided to students in the event of school closure Continued student access to teacher-led instruction via an LMS | $ 600,000.00 |

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ◯ Yes ⦿ No				$ [ ]
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ◯ No	Continue to employ a full-time school psychologist to coordinate mental health services and supports for students.	September 2023 - September 2024	Address student mental health concerns	$ 100,000.00

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ○ Yes ◉ No				$
	* ◉ Yes ○ No	Extend current school nurse contracts to continue to support related health issues. Sept 2023 - Sept. 2024 Indirect costs Unbudgeted reserve	Summer 2021 - September, 2024	Provide consistent health care to students	$ 376,074.00

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.					
			Total ESSER III Allotment	$	4,994,056.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Stanly County Schools (840) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

Stanly County Schools (840) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Stokes County Schools (850) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

The district leadership team met throughout April, 2021 to discuss the needs of the district relating to the COVID. Each director was tasked with identifying needs of the district to maintain open schools in a safe manner and regain the instructional time and learning lost by the closures of schools and effects of COVID 19. The primary focus was learning loss of the students in the district. The assessment data collected through this school year identified areas of loss in all areas across all grade levels. It was determined that funding would be set aside to comply with the requirements of a 6 week summer program to provide learning opportunities for students based on assessment data. Although this program would provide opportunities for all students, the staff was concerned with the number of students that would attend this camp. The staff considered the impact of adding staff during the school year for areas of EL support and EC support in the form of tutoring and part time assistants to expand the service times for this population of students. There was an identified need for support in the form of remedial service through tutors and retired teachers supplementing the instruction of the classroom for other subgroups of the population. As part of this discussion, the district examined the current textbooks and resources used through the county. The team identified a need for an adoption of a math textbook to better align with the math standards and provide parents and students with physical text/resources that could be put in students' hands. Through this adoption, parents would have the support they need to assist their child with the content

while in periods of remote/virtual learning. The team reviewed the counseling program and the mental health components within the district. Even prior to the closure, mental health concerns have been prevalent for several years given the county is ranked 16th out of the 100 counties for suicides as of 2019. The impact of the pandemic has increased the need for mental health services in our school age population with a documented increase in self harm cases. The assistant superintendent consulted with school nurses and social workers to identify additional needs. A need was identified that would increase the number of counselors and social workers primarily at the elementary level so that there is a full-time counselor at each elementary school. The family support services specialist position would increase services to work with families regarding attendance and mental health services through community partners. The team examined needs of the facilities for improvement through our five-year facilities plan. The district is made up of aging buildings with HVAC systems and windows in need of repair or upgrades. To improve air quality of our buildings and prevent external contaminates in our facilities, the team identified windows throughout the district that needed replacement to create an improved air quality in our classrooms. The HVAC system utilizes a filtering system that is outdated. The most cost-effective means would be to install an ionization system/air purification system on our older air units to deactivate/remove harmful substances from the air. The team reviewed our custodial staff to determine if there was sufficient staff to clean the buildings effectively. Although it was determined that the staff has done an excellent job with our cleaning procedures, support was needed to assist our current custodians. There are eight schools that only have one custodian so there was no one to clean facilities if the employee had to be absent. The team determined that the best approach would be to add two maintenance positions that would serve the district. These positions would assist with the fogging of the buildings periodically through the week as well as serving as additional custodial services to supplement the current staffing duties. They may be assigned duties to maintain the HVAC system and change air filters on a regular schedule. The final major area of need was the supports within the area of technology. The Director of Technology provided a review of the current age and condition of the SmartBoards and Chromebooks within the district. There was an identified need to replace some of the outdated devices over the next couple of years so that schools are better prepared for virtual options that might be made available to families. The upgrades would improve the quality of the presentations provided by the teachers and allow for more differentiation of instruction for both the in-class student as well as the remote student. The supports available for the increased number of devices were concerning. The district currently contracts with a company for technical support and employees only one technician on staff for network support. Repairs on devices are managed by each media coordinator that are often untrained in these repairs. The team identified a need to increase the technical support team by two positions to be able to maintain and repair the increased number of technology devices and support the network for the system. After multiple meetings, the assistant superintendent presented the recommended needs to the school level administrative team to gain input on recommendations. With the principals' recommendations added to the list, the superintendent meet with school board members individually to discuss the different areas of need. The recommendations were presented publicly at the next school board meeting to allow for comments. The school board discussed the recommendations and identified additional needs at this meeting. The superintendent and leadership

adjusted the recommendations and presented at the next board meeting. After a thorough review of the list, the board made the final adjustments to the needs list and approved the budget recommendation on April 26, 2021

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

The team prioritized the expenditures where funding would have the greatest impact. The summer learning opportunities is projected to be needed for the next couple of years to regain learning loss. Using the assessment data and other criteria to detect a gap in learning, it was determined that 503 students (22%) at the elementary level were significantly behind in reading. The number of at-risk students is significantly greater in mathematics; 824 students or 35% have met the criteria established for summer school. It is projected that similar numbers will exist at the middle and high school levels with approximately 30% of students failing one or more core classes. Given these numbers, the team established the teacher/student ratio of 1:15 for the summer program for an estimated need of 18 staff at the elementary level plus 1 EC teacher and 1 counselor for two sites. At the middle and high school level, the ratio would be slightly higher at 1:18 for a total of 30 teachers. Each secondary program will also have an EC teacher and counselor on site. A supplemental curriculum for math and SEL would be purchased to enhance the learning to support students. The team also felt that additional instructional support personnel would be needed throughout the school year to support students that continue to be behind. With roughly 35% of students that are currently behind, these staff would support students in smaller groups within the classroom to give individual or small group support. This would be accomplished by supplementing the current tutoring program. It was determined to use $100 per ADM to provide schools with supplemental tutoring supports. Within this line item, the two part time EL support positions would also be created. This program currently only has 2 certified EL teachers to serve 75 EL students across 16 of 19 schools. Under the current model, students were only receiving services 1 - 2 days a week for 45 minutes or less. It was determined that the 2 part time positions would be able to supplement this EL instruction so these students are supported 4-5 days per week. This will help to close the gap of instruction due to COVID loss. In reviewing the data associated with our textbooks and curriculum, it was determined the mathematics adoption was the highest need. The current materials used to teach math during the year was last adopted in 2011. Due to curriculum changes, it is estimated that the current materials align with approximately 50% of the standards per grade level. In addition, the district has not purchased any consumable math materials for the K-2 for several years. The addition of this text adoption would provide hands on materials for the estimated 7% elementary students that may remain in the virtual setting if it is an option. The current virtual percentage for each grade span: 7% elementary, 17% middle, and 35% high school. It is anticipated that these may remain constant if a virtual option is offered next school year. There are several data points to support the need for additional counselors and a social worker. The district currently employees 3 social workers for 19 schools. The addition of 1 position will increase support and services for families in need to allow

each social worker to focus on fewer schools. The status of counselors at the elementary level presents another challenge. There are currently 7 of the 11 elementary schools in the district that share counseling positions. Each of the 7 schools has a rotation of days for the counselor to be on site. It is felt that these schools will need a full-time counselor to be available to support the social and mental health needs of students. To accomplish this goal, the addition of 3.5 positions would be needed. In the areas of sanitization/maintenance of facilities, there are 8 schools that have one full time custodian. In the event of sickness or absences, these units would be left without someone to sanitize the building during school. The most cost-effective way to address this need was to hire two maintenance positions added to serve in the support role of custodial services on an as need basis while assisting to maintain the HVAC system upkeep such as changing of filters, etc. It is estimated that filter replacement would need to increase to a frequency of once every two months to help maintain air quality. These positions would support the fogging of the facilities twice per week to remove contaminants/virus. The fogging process currently requires maintenance to utilize 66 hours of manpower per week to complete. The inclusion of the air purification system would also decrease the frequency of these fogging events although they would continue to sanitize playground equipment and other frequently used areas of the building. The maintenance department identified through the facility study that 12 sites in need of window replacements to improve indoor air quality. This project would be accomplished over the life of the grants.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 2,323,079.77 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

The district will conduct the state required beginning of the year assessments for grades kindergarten through third grade to identify areas of need for individual students. For the fourth through eighth grade students, staff will be able to analyze the previous year's End of Grade assessments to help determine areas of needs for students so that the diagnostics administered at the beginning of the year will confirm the needs and provide teachers will data to establish a learning path for students. The use of state assessments provides a standardized assessment for each grade levels to establish the baseline measure for reading and math skills to determine the learning loss due to COVID closure and disruption of

school schedules during the 2020-2021 school year. Each elementary and middle school will also conduct a diagnostic benchmark assessment through the iReady system at the beginning of the year, middle of the year, and at the end of the year. The diagnostic assessment is adaptive and designed to provide teachers with real time data to identify specific areas and skills that students have not attained and outlines a pathway to improving student performance and grow the students. The assessments will pinpoint student ability levels and identify specific skills that students are weak in that need to be addressed. By addressing the differentiated needs of students, the learning process can be accelerated. The "i-Ready Assessment (system) empowers teachers with a deeper knowledge of their students' needs. Based on industry leading research into assessment design and backed by extensive validity evidence, sophisticated data is transformed into meaningful, actionable insights that make differentiating instruction a reality for teachers and students. A suite of intuitive reports provides a common language through which both teachers and administrators can work toward the shared goal of student achievement. The i-Ready Assessment will assist the teachers by providing them with resources to: - Pinpoints students' strengths and knowledge gaps at the sub-skill level - Delivers individualized learning paths in i-Ready Personalized Instruction - Saves time by automatically grouping students and offering targeted instructional recommendations. - Helps educators spot trends across student groups. - Includes a wide range of accessibility features to maximize usability for all students. The data collected from the beginning of the year diagnostics will provide teachers with more detailed data on students to determine reading and mathematics levels and make comparison/analysis of these results with the state assessments. Within this iReady system, teachers can then assign supplemental lessons that are presented on the level of the student based on the diagnostic data and needed skill set. These supplemental lessons also provide opportunities for the teacher to assign other lessons that help to facilitate differentiated lessons for students that will both challenge the student while improve content attainment. The process of administering the iReady Diagnostic assessments is repeated two additional times in the year. The system will provide reports that assist in analyzing the data to determine if students are meeting the expected growth or stretch growth to close the achievement gaps that were revealed in the first diagnostic. The district will also conduct the required End of Year assessments for comparison against the beginning of the year assessments to determine if students are showing growth and closing the gap that was revealed throughout the other assessments. Each elementary and middle school will also have the opportunity to administer the NC Check Ins throughout the school year to gage the instructional program and completion/attainment of specific goals with the standard course of study. These schools then meet with the curriculum team to analyze this data to determine if there are specific objectives in which students continue to struggle. This insight will assist the teachers in identifying areas that need additional instruction for specific students. For the high school students, the district will rely on the state level assessments to evaluate student progress in meeting or closing the achievement gaps. Preparation courses and additional student supports will be put in place to ensure student success on the End of Course assessments and CTE assessments as well as the PreACT, ACT and WorkKeys assessments.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

At the elementary and middle school levels, the schools utilize benchmark assessments, a variety of formative assessments and progress monitoring to determine needs of students. We utilize a Multi-Tiered System (MTSS) problem solving approach to ensure we are educating the whole student. Elementary utilizes a district created Intervention Matrix with a tiered approach to provide a comprehensive education that meets the academic and social emotional needs of the student. These prescribed practices are grounded in researched evidence-based instructional practices and resources. Schools employ the expertise in their buildings to problem solve around students ensuring that appropriate goals are set to enhance learning recovery. This standard treatment protocol gives schools the resources and structure needed to guide problem solving teams as they work together to meet the comprehensive needs of all students and ensure equitable services. The high school program will focus on formative assessments and progress monitoring students to identify specific needs and provide interventions. Student data will include attendance, discipline referrals, and academic progress to identify students who receive two referrals, are scoring a D or F in any class, and any student who is likely to go over ten days absent in a semester. Interventions to address these deficits will be implemented to assist the students to continue progressing with their four year cohort. Primary components of the academic need will be met using credit recovery options to assist students in maintaining grade levels and advancing with their peers. Stokes County Schools will identify students who are at risk of not progressing and provide recovery options through summer school and recovery blocks during the school year.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

At the beginning of each school year, the schools will host open house events to meet with small groups of parents. It is in these sessions that information is exchanged for assistance in the communication between home and school - such information as email address, phone numbers, and teacher office hours so that parents can call in or contact the teacher for assistance. The teacher will demonstrate how to set up and access the student's PowerSchool account for access to grades as well as how to set up other accounts such as iREADY, other online programs and resources, Dojo, or other means of communications. These small group sessions will be led by the classroom teacher and will provide demonstrations on use of the Google Classroom that will be established to access the instructional materials and resources. Parents will also be provided with resources that outline the standard course of study for each subject by grade level. The instructional team at each school will routinely hold curriculum nights to inform parents of the content being covered and provide them with strategies to assist them in supporting the instruction that is provided in the classroom. These nights may revolve around reading, math, science, or general content information. This information will also be made available in the form of videos posted on the school websites and within the Google Classrooms. The curriculum events may be conducted differently for middle and high school and could involve the presentation of this information in a virtual format for all families to allow them to access the video content as it fits into their schedule. In addition to these special events, the school team will send home communications in the form of Newsletters and eNewsletter via DOJO or student email accounts. Embedded in these communications will be links to content and videos

on specific activities being conducted in the classroom. These links may include activities that parents can do with their child to facilitate or extend the child's learning. The newsletter may have a demonstration video included to show parents the most effective way to use the activity with their child. For the elementary level, the school will send home learning resource packets periodically through the year that will provide hands-on manipulatives along with strategies and activities that parents can do with their child to practice and review content covered during the lessons. It is anticipated that teachers will continue using the Google Classroom regardless of the mode of instruction. These Google Classrooms will serve as additional resources for the families. The teachers will post daily videos recorded during the live class sessions so that parents can view the lesson if needed with their child or to assist their child with the assignment of the day. The videos would allow students that are absent due to sickness to also participate in the class activities without being behind when they return to school. The teacher will have established office hours so that parents or students can reach out to them if they have questions. In addition to the teacher's office hours, the media coordinator and technology staff will have flexible hours to assist with troubleshooting computer and technology issues experienced by the families while at home.

* (D) Tracking student attendance and improving student engagement in distance education;

The district believes that regular school attendance is of crucial importance to the educational achievement of each student and the primary responsibility for regular school attendance resides with the parents and the individual student while creating and maintaining an atmosphere conducive to student learning is the responsibility of the school staff. It is also the responsibility of all school personnel to promote and encourage regular school attendance. This responsibility is inclusive of students that may have chosen to participate in online or virtual options for instruction. Students need to attend school on a regular basis to have continuity of instruction, communication of knowledge through well-planned and well-taught lessons, participation in class discussions, and social interaction with fellow students are vital elements of a student's education. In accordance with state law regarding attendance the Board of Education expects all students to be present at school each day and to be on time for classes to benefit maximally from the instructional program and to develop habits of punctuality, self-discipline, and responsibility. For students that are participating in a virtual/remote option for instruction, the schools will continue to maintain attendance for the students pursuant to the state law governing such attendance. It is expected that students attending the school through an online option that they attend instruction at the assigned time of the class (synchronous learning) unless prior arrangements have been made with the teacher. Students that are not present during the synchronous learning session will be counted as absent. The teacher will also maintain records of tardies for students that do not arrive at the assigned time for class but arrive late. While home study/review of the recorded videos and make-up work aid in continuing a student's instruction, this process cannot replace the direct instruction provided through content presentations given by the teachers. Attendance will be taken each day. For middle and high school courses, the attendance will also be taken for each instructional period. To be counted present, a student must attend school or the virtual session(s) and be present at least one half of the instructional day to be recorded present for the entire day or class. The only excused absence would be for an authorized school activity approved by the principal in advance of the class session. In high schools, attendance is recorded in each class period.

Students must be in attendance for at least 80% of scheduled class time to be counted present for that class period. Pursuant to established regulations, absences are excused if caused by one of the following reasons: (a) personal illness or injury that makes the student physically unable to attend school; (b) isolation ordered by the State Board of Health; (c) death in the immediate family; (d) medical or dental appointment; (e) participation under subpoena as a witness in a court proceeding; (f) observance of an event required or suggested by the religion of the student or the student's parent(s) with prior approval by the principal; (g) participation in a valid educational opportunity such as travel or service as a legislative or Governor's page, with prior approval by the principal; or (h) absence due to pregnancy and related conditions or parenting, when medically necessary. Each student will be responsible for notifying the teacher prior to missing class to participate in a school-sponsored or other approved event regardless of their mode of instruction. The student will be responsible for obtaining assignments and completing make-up work in accordance with a plan developed with the teacher. If the student fails to notify the teacher prior to missing class, then the missed class will be treated in the same manner as an unexcused absence. The board recognizes that online instruction is a valuable tool for affording students extended educational options. These courses may be provided by NCVPS or a community college. The board will provide opportunities for students to participate in online instruction to the extent that it is academically and financially prudent. Counselors shall advise students on NCVPS courses and other online courses available for credit. Enrollment in an online for credit course will count toward satisfying board requirements related to minimum instructional days, seat time policies, student attendance, and other obligations. Since these courses are primarily at the high school level, the principal shall designate a counselor at the school to serve as the e-learning advisor, who will coordinate the enrollment of students in online courses, monitoring students' progress, and supervise any required testing. Attendance in these courses will be maintained by the instructor according to the rules governing those courses. The e-learning advisor will monitor the courses and will work with the instructor if attendance issues are identified. For the online learner and virtual students that are participating in regular courses provided by the district, attendance will be monitored according to this guidance. To ensure and improve engagement, the teacher for the courses will stay in regular communication with the parents or guardians of the students. The teacher will contact the parent when students are absent to ensure that they can access the presentations and are not experience technology issues. If the teacher is unable to resolve attendance issues, the administration will work with the counselor and social workers to reach out to families to determine causes of the absences. The social workers may make home visits and work with other agencies within the district if attendance and engagement does not improve. Through this process, it is the district's goal to fully engage families and students in the learning process and support them in the education of our students.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

The district utilizes benchmark assessments to assess student learning three times a year. Schools data to inform instruction, refine core instruction, create intervention groups, intensify interventions, determine further diagnostic testing, design group and personal learning paths. All interventions are implemented to fidelity and are progress monitored for

effectiveness. Schools track progress to determine effectiveness and guide next steps for students. The district provides professional development to teachers in core curriculum, evidence-based interventions, best practices, and Multi-Tiered System of Support. Schools collaborate within Professional Learning Communities to implement these strategies effectively. Schools incorporate school counselors, teachers, special programs teachers, English Learners teachers, and social workers to provide wrap around support services.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	*The district will retrofit older HVAC systems with an air purification system/ionization system to remove, deactivate and isolate contaminants that are in the air and prevent them from entering the air space of the classroom.	Projected to begin late fall 2021 with full implementation by Spring 2022	*Rate of COVID cases - increases or decrease *Absentee rates for each school due to air borne contaminants. *Air quality checks for each facility periodically through the school year.	$ 0.00
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ◯ No		Begin late fall '21, will contract with a company to replace windows - 3 yr. implementation plan		$ 0.00

| | | These funds set aside in this category will be used to improve air quality for some of the older buildings in the district. Windows for twelve of the nineteen schools have been identify on the facility needs assessments as priority for improvements in order to address air quality and eliminate the exchange of external air that might contain pollen and other air borne contaminants that might lead to students being more susceptible to respiratory conditions caused by air borne viruses. | | This impact will be measured through air quality measures within our buildings as well as through indirect measures of student absentee rates and other relevant health data. The timeline will be monitored to ensure completion within the time frame of the grant and successful completing the project and complete window replacements at all identified sites. | |

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ● No				$ [ ]
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ● Yes ○ No		August 2022 - June 2024	*Review EL ACCESS data pre and post results of program. *Review formative, BOY, and EOY assessment data to determine if improvements are evident. *# of referrals/reports of service to homeless, EL, SWD, etc. and services provided by social workers - service logs, phone logs, etc.	$ 0.00

		*The district will hire two part time employees at 25 - 29 hours per week to supplement EL services and support throughout the district. These employees will serve as tutors for content attainment as well as increased EL service times. They will be supervised by two EL certified teachers to ensure the intended result improves language attainment.			
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ⦿ Yes ◯ No	*The district will hire two maintenance staff to assist with custodial duties throughout the district as school level custodial staff may be absent	July 2021 - June 2024		$ 303,577.46

		may be absent. In addition, these positions will help to maintain the facilities such as the HVAC system, filter changes, etc. They will also assist with the fogging of high traffic areas within the buildings to decontaminate. *These positions will provide a more efficient system of response time to schools when a need arises without affecting other service areas. *With the addition of the positions, the filters, etc. on the HVAC systems will be cleaned and replaced on a more frequent schedule which in turn will improve the efficiency of the		*Frequency of service in school custodial supports - documented on time sheets/time and effort sheets *Evaluate Logs of fogging schedules *Evaluate logs of maintenance records for filter changes, HVAC repairs, etc.	

		HVAC systems.			
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ◯ Yes ⦿ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◯ Yes ⦿ No				$
	* ◯ Yes ⦿ No				$

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.					
	* ◉ Yes ○ No	*This line item will provide for upgrades and repair on existing infrastructure and digital devices such as Chromebooks to improve the interaction within classrooms as well as enhance the content distribution and interaction between the	The upgrades will begin August '21 - ongoing throughout the grant. Tech Asst - hired August 2021		$ 1,590,862.68

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		between the classroom teacher and the virtual students. With the addition of newer Chromebooks, students will be able to access content presentations through the devices that will be sent home with students. * There will also be technology assistants hired to support the technology program and infrastructure as well as assist with making repairs and provide support to families of virtual learners.		*The impact will be measured through purchasing agreements reflecting upgrades/number of devices purchased. *Improvements in presentation/student interactions may be measured through student surveys and parent input. *Employee records will reflect on the number of tech assistants hired. *Service/Repair logs will provide data to show how the employee's time is spent with technology repairs and other service calls.	
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ○ No	*The district will employ 3.5 additional guidance counselor positions for the elementary schools to	School Year 21-22, 22-23, and 23-24		$ 474,043.25

		schools to support the social and emotional needs of students. These employees will work closely with the social workers to support families in attendance, engagement in the educational setting, mental health, and other services that might be available to them through partnering organizations. They will provide guidance and monitoring of classroom participation and attendance to ensure students are receiving the needed supports to be successful in the classroom. *The district will maintain the position of		*Impact of positions will be measured through an evaluation of employment records and service logs kept for services provided to families. *Additional impact will be evaluated through classroom guidance and individual counseling session logs *Evaluate the efforts of employees in meeting the needs of the families served. *Post event surveys conducted by staff to see supports were effective in meeting the needs. *Review of the number of mental health referrals compared to previous years	

		position of Director of Academic and Emotional Support to coordinate services relating to the social emotional needs of the students to provide a more consistent uniform approach to mental and social/emotional health. This position will service as a point of contact for community providers to support the needs of families. In addition, there will be a family support services specialist position added to increase and serve the needs of families. This position will work in conjunction with the social			

		workers to identify needs of our families.			
SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ○ No	*Funding will be used to facilitate learning opportunities through a summer learning program offered for students meeting a specific criteria similar to the initial year under ESSER II. High needs students will be given priority in an effort to close the gap between subgroups. *The majority of the funds for this program will be included in the learning loss outlined in part C of the application. There will also be a program offered to support the EC student	Summer 2021 - 2024	Pre and Post performance measures such as BOY and EOY year assessments as well as other formative assessments conducted throughout the year will be evaluated to determine if the services were effective in reaching the students. The results will be compared against assessments conducted during the summer program through iReady to determine if students were able to close the gap and increase the learning growth measured through iReady assessments.	$ 984,965.35

		population. This may included specialized times to work on IEP goals as well as an adaptive curriculum program to meet the developmental needs of the EC adaptive population. During the program, iReady assessment system will be used to assess students performance as compared to their achievement levels and class performance through the school year to evaluate the impact of the summer program. *A portion of these funds are included under Part C of the			

		application.			
OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ○ Yes ○ No	*In order to provide students with additional supports throughout the school year, this line item will be allocated to schools in the form of an amount per ADM to use for purposes of tutoring and remedial supports to help close the learning loss during the school day. Schools will be allowed to use this fund in the form of resources as well as staffing cost for tutors, teacher assistants, or additional teaching positions. At present, the funds are designated as	Allocated based on ADM at the beginning of each school year - starting August 2021	*Pre and Post performance measures will be used to judge the effectiveness of the school year tutoring/remedial support program. *Analysis of the iReady data will help identify students need these services and will also be used to measure its effectiveness to determine if students are meeting their "stretch growth" identified in the iReady diagnostic assessments.	$ 523,399.49

	tutoring services during the school day in an effort to reach students that generally are unable to attend tutoring before or after school hours.			
		Total ESSER III Allotment	$	3,876,848.23

Part E: Assurances

*Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:*

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.

☑ **LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)**

An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Surry County Schools (860) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Processes Used to complete district Needs Assessment Surry County Schools strategic plan Designing Dreams & Growing Leaders focus on 3 goals: Academics, Leadership, & LIfe. Each qualitative data point was organized around each pillar of the strategic plan. Additionally, the funds were prioritized & scheduled to address gaps in educational opportunity & outcomes beyond the liquidation of ESSER funds. Senior Cabinet & Directors' retreat evaluated the district's strategic plan goals in order to align w/ current needs and resources using a color-coded Gallery Walk Protocol. Innovative Task force leaders hosted multiple, small-group meetings to include a variety of stakeholders including employees, parents, teachers, & students to gather input on the impact of COVID-19, & the preparation & mitigation of future infectious disease clusters. Small group principal, assistant principal & K-12 Professional Learning Community (PLC) meetings were completed to seek input. Principals completed an ESSER survey of school-based needs in alignment with ESSER funding & their NCStar School Improvement Plans. District implemented ED COVID-19 Handbook: Roadmap to Reopening Safely and Meeting All Students' Needs, Vol.2. 2021, crosswalking Creating Safe & Healthy Learning Environments (LIFE); Addressing Lost Instructional Time (ACHIEVEMENT), & Supporting Educator and Staff Stability & Well-Being (LEADERSHIP) Assess and Address Learning Gaps Review of NCSTAR School Improvement academic achievement goals. District completed high-quality, local benchmarks & universal, diagnostic screeners to evaluate the

current academic status of our students in order to set attainable goals. Principals met w/ PLC to collaborate & analyze data. Through the data analysis of the assessments priority standards were identified to be used during summer learning sessions & in the next school years. In order to focus on addressing learning gaps to increase student achievement, the district is planning a 150 hour Summer Blast: Launch into Learning for K-12 students. The focus is targeted, but not limited to support for at-risk learners in reading, math, science, STEM, enrichment, social-emotional learning (SEL), and physical activity. The high schools will focus on student completion of high school credit recovery and EOC courses. Students in all subgroups & those which have intersectionality (or overlapping), including EL, MEP, Homeless, Foster, Delinquent, & EC students will receive specialized services. Student agency (student choice & voice) will be considered as supports are put into place to differentiate for closing learning gaps. Additional teaching assistants hired & trained in intervention support in order to close learning gaps & accelerate learning. Each school employing additional tutors will be required to submit a tutoring plan. High schools will remain open from 3:00-7:00 to offer Twilight School for students to complete current course assignments, receive additional tutoring, and complete credit recovery. Expansion & improvement of technology hardware & software. Additional SVA Course development Increased parent & family engagement Professional Development The needs assessment provided qualitative data on the needs of Surry County Schools. Central office teams completed a coding process of all data points from the CNA. Coded trends and patterns emerged from categorizing phrases, words, thoughts, & ideas to understand the information. In small workgroups, they identified emerging themes along with w/ supporting statements & were correlated to the E-II allowable uses. The major identified themes for meeting the academic needs of students were time & people as well as schools needing resources to effectively implement the curriculum in classrooms. All staff & students need support w/ technology hardware & software. Additional resources are needed for continued training to minimize virus transmission in order to improve our preparation & response.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Goal 1 Address Learning Loss: Accelerate learning-add classroom teachers, a Reading Specialist, EL specialists,Curriculum Coaches, reduce class-size for closing achievement gaps & accelerate learning measured by state assessments- 3% for Tier 1 & focusing on Tier 2 & 3 students identified in MTSS & overlapping subgrps. Add trained T/As for high dosage tutoring (min.3 X per week-min.:30 per session) for students-grps. of <5, focus on Priority Standards. Add Graduation Coaches-increase # of students going from HS to college-provide college advising,support dual enrollment, career pathways,work-based learning,bridge programs,complete FAFSA & PFE sessions. Expand Surry Virtual Academy, EPIC teacher PD, & Canvas (LMS) course creation & relevant, flexible PD, leverage existing digital learning options to support all staff. Buy print & digital books for school media centers & establish a digital library for Surry Online Magnet School. Ed Tech: update teacher, staff, & student laptops for equitable access & effective use of techn; support blended & online learning. DHCP print servers at each school to improve workflow. Addressing the Unique Needs of Special

Populations: Intersectionality of subgrps. & effect on students' unique needs to close gaps. Use E-II & E-III to employ 3 EL specialists to lower student/EL Specialist ratio & to increase the % of EL students being on progress in ELD, measured by ACCESS; EC supplies & materials for a new Adapted Curriculum class & 2 new PreK classes-early childhood education. Long-term Closure Activities: Add Network Engineer & Instructional Technology Specialists supporting Canvas, Google Suite, Follet Destiny, and Microsoft Enterprise; provide equitable access & effective use of blended & online learning resources & support for teachers, parents, & students bridging the digital divide. Summer Learning: E-II & III salaries for free, inclusive Summer Blast- accelerate learning & build on what students already know to access new learning. Activities include ELA, STEM activities, physical fitness, & arts programming. Reduce barriers by providing home-to-school bus transportation, free school nutrition meal services, & supplies provided to support student academic & SEL learning. E-III funds establish class SEL libraries to engage students in meaningful, culturally, & linguistically relevant learning, rooted in high academic expectations. E-III supports partnering w/ families & the creation of SCS academic video library for student & family support. Other ESSA Eligible Activities: Science Institute (STEM) coordinator, K-5 Picture Perfect STEM and literacy integrated resources & supplies, 6-8 Science online GIZMOS, K-12 contracted services for math & literacy to accelerate student learning & build teacher instructional capacity. Salary for ESSER Finan. Admin. Goal 2 Providing Principals w/ resources: Salary of a Human Resources Specialist to ensure the development, launch,implementation, & training of all district onboarding protocols and safety training to mitigate the spread of infectious diseases. 4 salaries of HS APs-help track attendance, accelerate learning, ensure students graduate, lead PLCs & support use of school safety protocols to lessen spread of infectious diseases. Add 1 month of employment for APs to accelerate learning via summer programming for students & teacher training. Provide PD for school admins through contracted services to provide time, resources to learn new strategies & stabilize our current workforce & retain qualified & effective educators. Establish Teacher Leadership Academy for retention of qualified & effective educators, extend & address educator staff stability & well-being needs due to COVID-19. Goal 3 Facility Repairs/Improvements to air quality to minimize the virus transmission; complete air quality audit & installation of bottle fill stations to provide safe drinking water. Upgrade school facilities for healthy learning environments. Using the ED COVID-19 Handbook & food safety protocols the district will purchase flexible cafeteria seating to accommodate sanitation & distancing for 2 campuses (E-II) funds w/ E-III funding the other campuses. Install Wireless Modules for bus cameras to monitor & track potential infectious disease clusters.. Training to minimize virus transmission Virtual training for all staff to minimize spread of infectious diseases. Purchase cleaning supplies for healthy environments. Coordination of preparedness & response: Salaries for Lead Custodian & Lead Nurse to work w/ School Nutrition (SN) Managers & other staff members to ensure all families in need are identified & provided w/ resources to access meals, health & safety needs Improving Preparedness & Response Contracted services for digital enrollment for families. Contracted services to create bilingual safety bulletins & safety videos for parents & stakeholders regarding safety measures in the district & increased communication. Contracted services for SN training to implement COVID-19 related safety protocols for food distribution & help minimize the spread of infectious diseases. Salary for SN Technician to enhance safety & exposure risk to ensure staff is trained & program is continuously monitored & in compliance w/ HACCP procedures & COVID-19 USDA Waivers. Mental Health Services: E-II & III funds salary for Mental

Health Counselor to support Tier 2 & 3 mental health supports, decrease school suspensions & expulsions, increase SEL framework implementation for all schools. Provide Youth Mental Health Training for all certified staff & classified T/As; increase staff awareness on signs & symptoms-student mental health. Trainers for Community Resiliency to increase SEL implementation for staff & students. Training sessions for SEL framework to explicitly teach SEL skills, actively engage students in meaningful, culturally, & linguistically relevant learning experiences.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 3,106,386.20 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Intersectionality of subgroups. & the effect on students' unique needs to close gaps through diagnostic & formative assessments & differentiated instruction. Lower student/EL Specialist ratio to increase the % of EL students being on progress in ELD, measured by WIDA ACCESS through more differentiated instructional time with students and their unique, overlapping needs Use of formative assessments to guide differentiated learning for all special populations while using formative & summative assessments to evaluate progress in accelerated learning. Use universal screeners to establish baselines & progress monitor through MTSS protocols for high-quality assessments & to assist educators in meeting needs.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Focus on assets-based accelerated learning so that students may learn at grade level & identify Priority Standards Collaborative learning that is differentiated while building academic vocabulary, etc. HIgh -functioning PLCs & PD for teachers: 3 Key Questions to guide PLCs: (1) Where is each student in their mastery of critical skills?; (2) what evidence-based interventions are most effective for the individual student? (3) When will accelerated learning take place? Evidence-informed Tutoring: trained tutors, tutor during the school day when possible; make is "high-dosage"

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Family Partnership: Online library resources; use of Canvas & other digital tools that parents have been acquainted with during orientations. Provide enrichment activities for SEL & academic support Frequent, layered Parent & Family Engagement sessions based on parent needs--survey results Closing the digital divide so that parents & families will have equitable access to distance learning: tech purchases; Canvas Multiple avenues for bilingual communication: digital, non-digital; School Messages; Screencasts

* (D) Tracking student attendance and improving student engagement in distance education;

School officials will work quickly to locate & re-engage students who are chronically absent or disengaged in a non-punitive manner: Additional APs; Graduation Coaches; Added month of salary for APs at each high school. AP's will support accelerated summer learning due to the COVID loss as well as implementing COVID safety protocols. Safe, welcoming & inclusive learning environments: face-to-face & distance through SEL, Mental Health supports; Teacher PD; Mental Health Counselor; safety protocols that are in place; Addressing bias; Lead custodian & lead nurse to support safe environments; Air Quality improvements. Update teacher, staff, & student laptops for equitable access & effective use of technology; support blended & online learning. DHCP print servers at each school to improve workflow. PD for distance learning-Students & Staff; Tech-enabled learning experiences based on: Inquiry, Collaboration, & Content Creation

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Use of data about students' opportunity to learn (OTL) indicators: Qualified teachers, clean & safe facilities, up-to-date books; quality learning materials; high-quality coursework, absences, discipline rates, data from staff, student, parent surveys & ratio of teachers, T/as, nurses, counselors, social workers, integrated support services, & positive school climate DIfferentiated student progress-MTSS protocol; use Early Warning System to identify disengaged students early Locally collected data on subgroups; disaggregated data from SCS DataMart for all students Parent Portal for Canvas & Parent PD on the new LMS. Use of NCStar and the continuous school improvement process to tailor funds, activities, & need to support accelerated academic progress from the school-to-class-teacher-individual student cycle.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ⦿ No				$

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ◯ No	Facilities Planning, Acq & Con - (HVAC Contract)-Inspection and testing, maintenance, repair, replacement and upgrade to improve the indoor air quality in school facilities including mechanical and non-mechanical heating, ventilation, and air conditioning systems, filtering, purification, and other air cleaning fans, control systems and window and door replacement. Air Quality/HVAC to reduce the transmission of Covid.	07/23-06/24	100% of HVAC units will be audited for safe air quality and those requiring upgrades will be upgraded.	$ 5,000,000.00

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ⦿ Yes ○ No	Strategic Plan Goal 3 Life: Lead maintenance foreman: To train for COVID. Lead School Nurse: Training, Health Dept Coordination; Point of Contact (POC) for other school nurses.	07/23-06/24	100% of custodial staff trained & monitored for following proper sanitation methods. 100% of school nurses & admin trained in proper preparedness & response to health & safety-infectious diseases.	$ 281,855.48
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ○ No		07/23-06/24		$ 4,835,511.60

| | | Strategic Plan Goal 1 Achievement: Accelerating student achievement due to the Covid-19 learning loss Employment of 14.5 additional teachers. 7 Virtual Teachers 4 Graduation Coaches 6 Curriculum Coaches 15 additional trained TA's as Interventionists 3 EL Specialists-braided w/ PRC 108 or other federal funds. Supplies and Resources for EC students. iSpire for SWD Unique Learning Systems for Extended Content Standards Support. Hill Rap for SWD Digital Enrollment through PowerSchool School Nutrition Tech: PD, Compliance, Safety & Sanitation-Food, Infectious diseases, Student Health; Reporting. | | To increase the % of EL students being on progress in English Language Development as measured by WIDA ACCESS testing (increase by 5%--ESSA progress is measured by 3.47%). To increase student-teacher engagement & IEP goal attainment for students who participate in the Extended Content Standards (SWD). | |

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ⦿ Yes ○ No	Strategic Plan Goal 1 Achievement: Digital Enrollment through PowerSchool to lessen exposure to COVID. School Nutrition Tech-PD, Compliance, Safety & Sanitation-Food, Infectious diseases due to the transmission/prevention of Covid. Student Health; Reporting.	07/23-06/24	Increase parent/family communication as measured on Commitment to Excellence Surveys 100% of SN staff trained in Serve Safe, compliance, reporting, and USDA accountability.	$ 474,105.08
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ⦿ Yes ○ No	Strategic Plan Goal 3 Life: Virtual training in Public School Works for all stay in ways to help minimize the spread of infectious diseases/COVID	07/23-06/24	100% participation: Required for all employees w/ a completion log from the vendor of staff participation.	$ 24,000.00
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ○ No	Strategic Plan Goal 3 Life: Purchase of supplies to sanitize and clean due to COVID Paper products Nitrile gloves Hand sanitizer Disinfectants	07/23-06/24	100% of supplies & materials will be used to prevent the spread of infectious diseases/COVID.	$ 60,000.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ○ No	Network Engineer Instructional Technology Specialists Canvas LMS Google Suites Follet Destiny Microsoft Educational Enterprise Agreement	07/23-06/24	100%: Planning and preparation in response to Covid for online learning infrastructure (personnel & technology) will be implemented and executed in Y1 & continued in Y2,3,4.	$ 521,000.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ⦿ Yes ◯ No	Hardware Ed Tech: To support online instruction due to COVID update tech devices.	07/23-06/24	100%: Planning and preparation for online learning infrastructure (personnel & technology) will be implemented and executed in Y1 & continued in Y2,3,4.	$ 658,000.00
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ◯ No	Mental Health Counselor- to support SEL for students who have anxiety and other mental health concerns due to COVID Training: Youth Mental Health Training for all certified teachers, Teaching Assistants, Administrations. Community Resiliency Model Trainers for the district (Train-the-Trainer model).	07/23-06/24		$ 209,233.68

				Mental Health Counselor Training: Youth Mental Health Training for all certified teachers, Teaching Assistants, Administrations. Community Resiliency Model Trainers for the district (Train-the-Trainer model). To combat declining student and staff mental health issues related to COVID.	

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ⦿ Yes ◯ No	These funds will be used to support Summer learning based on State guidance, student needs, and data trends due to COVID.	05/23-7/23	Students will close their individual learning gaps by 3%. 90% of identified students needing Summer learning support will attend Summer accelerated learning due to COVID.	$ 196,023.64
	* ⦿ Yes ◯ No	Science Institute(STEM) Coordinator-To increase loss of learning opportunities due to COVID. PD and resources for all staff in Math, Science, and Literacy. To close gaps due to COVID. 6-8 Science GIZMOS online. TO accelerate learning impacted by COVID. SCS will offer a retention bonus of $1,000 for any staff member (certified & classified) employed as of July 1st through Oct	07/23-06/24	Accelerate learning as measured by state accountability assessments by 3% during the for Tier 1 students as well as focusing on Tier 2 and Tier 3 students as identified through the MTSS process. To accelerate learning due to COVID.	$ 165,815.32

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		of July 1st through Oct 30th. These employees will receive the 1st installment in November. Employees must be employed to the end of May to get the second installment. From July to October we have lost 45 positions due to resignations and 24 due to retirement. Due to increased stress and anxiety due to COVID. Indirect Cost K-12 Keys to Literacy Supplies and Materials. To supplement student instruction and provide resources due to parental job losses due to COVID. K-12 Math Emerald Education Contracted Services. Supplemental instructional support for teachers to close learning loss gaps due to COVID. ESSER Financial Administrator will complete PAR.stem-To provide additional office support to help implement procedures and

		guidelines due to COVID fundling.			
			Total ESSER III Allotment	$	12,425,544.80

Part E: Assurances

Check **all** *assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:*

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Elkin City Schools (861) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

A needs assessment meeting was held on April 16, 2021 to discuss federal program areas. This meeting was held virtually with school leadership facilitating various sessions. Each federal program area was addressed and ESSER II funds were discussed within each breakout group. There were approximately 23 teachers and 1 teacher assistant from various areas who participated, 10 students, 13 parents, 3 principals, 1 assistant principal, and 4 Central Office Directors. There have also been several leadership team meetings held within Elkin City Schools to address requests and concerns voiced during the needs assessment meeting. Student Services meetings were held with the school counselors, social worker, and Director of Student Services. During these meetings, the SHAPE assessment was completed to demonstrate the areas of needs regarding mental health in Elkin City Schools. Elkin City Schools plans to utilize the funding to address learning gaps by providing additional teachers within our school buildings and also the Global Learning Academy that was developed as a direct result of online learning needs during COVID. Teachers will be hired to address the learning loss for EL students who are beginning in our schools. A part-time counselor will be needed to work with students in the Global Learning Academy and at the elementary school as a direct result of social emotional learning needs of students. A full-time nurse will be hired at the middle/high school as a result of COVID. In

the past, this was only a part-time position. Due to the health needs of medically fragile students and monitoring of students, this position needs to be made full-time. Funds will also be used to assist with mental health needs and social emotional interventions by continuing the position of a social worker and hiring an interventional specialist to assist with implementation of social emotional learning and interventions across all three schools. Due to the air flow requirements associated with COVID, funds will be set aside to assist with air purification in the classrooms where students will be learning.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Anecdotal notes during the Needs Assessment meeting show that there are several areas where Elkin City Schools is doing well in meeting the needs of students. As a result of the pandemic, Elkin City Schools has implemented the following: (1) monthly virtual parent meetings, (2) JUMP (Join Us, Make Progress) tutoring program in the community, (3) Family Literacy program for EL families in collaboration with a local community college, (4) the creation of an At Risk Outreach Advisor position, (5) the hiring of a social worker, and (5) ensuring students basic needs are met such as food, clothing, and shelter assistance for several families. During the Needs Assessment meeting, the following needs/gaps were addressed: (1) support for students post-pandemic, (2) smaller classroom sizes, (3) community mentoring program, (3) assistance for incoming, beginning EL students, (4) more mental health support for students and teachers. There are still concerns addressed about "safety protocols" being followed in the upcoming years pertaining to COVID. MTSS needs to be enhanced through assistance from an intervention specialist to assist schools with interventions for behavioral, emotional, and academic needs. The SHAPE (School Health Assessment and Performance Evaluation System) School District Mental Health Profile summary shows that Elkin City Schools does not have the following in place: (1) mental health screening protocols, (2) evidence-based practices and programs for SEL, and (3) quality improvement process. Elkin City Schools needs to ensure these areas are addressed for the upcoming school year in order to address mental health needs of students post-pandemic. Through completing the SHAPE, the Student Services Department was made aware that there are many supports for the highest needs students who require Tier II and Tier III interventions in mental health. However, there is not a universal screener or CORE program for all students to address social and emotional learning

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning

loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 359,172.20 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Elkin City Schools will utilize the following assessment tools for progress monitoring of all populations: Star Reading, Star Math, IXL Diagnostic (reading and math), Study Island Reading, Study Island (math, reading, science and social studies). At the elementary school level, students with disabilities are also assessed through HillRap for reading. These tools provide data for teachers to use in order to differentiate instruction for all students. A universal screener for K-12 will be used for social/emotional needs.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Based on progress-monitoring data from the above programs, students will be assigned to specific individualized instructional plans. Small group instruction will also be provided in reading and math. Tiered support will also be implemented for students. The Newcomer classroom will be offered to students who have been in the United States between one and five years. Intensive reading interventions in HillRap will be used for students who demonstrate learning loss. Letterland intervention modules will be used for students who demonstrate the need. Based on the results of the universal screener for social/emotional needs, students will receive tiered interventions. A social/emotional learning curriculum will be utilized grades K-12 to meet the individual needs of students. Students who demonstrate a need for more intense interventions will receive school-based counseling through a mental health agency partnership.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Virtual Parent Nights will be offered monthly. These are sessions offered to parents that focus on various topics parents choose as an interest to them and their families. These include information about how to help struggling learners, how to access PowerSchool, and mental health resources for struggling students. Experts in areas such as social/emotional learning, reading interventions, and digital literacy will be contracted to provide additional instruction for parents. These sessions will be offered in different languages based on family need. Counselors, social worker,

and an at-risk outreach advisor will identify students with learning loss, initiate parent contact, develop learning plans, and make home visits as needed to support families

* (D) Tracking student attendance and improving student engagement in distance education;

Attendance is taken daily by the teacher. After a number of absences, a personal contact is made by the teacher to the parent/guardian to discuss reason(s) for absence. PowerSchool data managers will collaborate with the counselors, social worker, and At-Risk Outreach Advisor to identify students with attendance concerns. Students who are considered at-risk are those who have excessive absences (missing more than three days unexcused), failing grades (making below a 60), and/or identified by the teacher at risk for failure. Individualized plans will be made in collaboration with parents and teachers to improve student attendance and engagement. The At-Risk Outreach Advisor will notify the principal at each school on a weekly basis. Create a daily schedule, give students voice and choice in their learning, engage them in virtual breakout rooms to complete project based learning activities in small groups, utilize Gather Town as a means of pulling the whole class together to discuss topics, used times activities to regroup for debriefing.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Task force teams will be developed at each school to review pre-pandemic and current academic data. These teams will identify students who have displayed learning loss. The district will employ assistants and tutors to work individually with students to address the learning loss.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	Replacement of the existing gym HVAC system is important to reduce the transmission of the coronavirus as well as being important to the general health quality of the indoor air. The existing system is over 60 years old and only has heat with no air conditioning. The system relies on doors to be left open and exhaust fans to run for	2021-2024	The new systems air purifying system will reduce contaminants in the air as the air passes through the system. Replacement of the entire system will lead to a healthier indoor air environment with reduced possibilities for viral transmissions and a more energy efficient system.	$ 115,000.00

fresh air intake. This is not good for multiple reasons: (1) safety concerns with open doors (2) insertion of cold untempered air in the winter and bringing in hot humid air in the summer thus reducing efficiency of the system.(3) Many times in the summer system heating fans do not run leading to stagnate air. Exhaust fans do run bringing in humid summer air which leads to moist air and concerns of mold and mildew. New systems are set up for heating and cooling with fresh air intakes to temper the air and recover heat or cool from exhaust air and temper the fresh air intake for

		fresh air intake for reduced energy cost. New systems can also be set up with air purifying system.			
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◯ Yes ◉ No				$

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◉ Yes ○ No	Newcomers Classroom: A teacher for students who have been in the US one-five years with no or limited English speaking skills. Qualified students in the middle/high school who are struggling in the English instruction program due to limited or no formal education in their native	2021-2023	(1) Progress on the WIDA Can Do Descriptors (2) ACCESS scores (3) Data will be collected to show the number of students the full-time nurse works with in regards to medically fragile students	$ 218,097.93

		countries. The goal is to meet the students academic and language development needs as well as respond to their social, emotional, and cultural needs to promote a successful transition to an all-English instructional program. To better support special populations, supplies and materials will be incorporated to reflect diverse backgrounds. Nurse: A full-time position is needed to meet the medical needs of students at the middle and high school. There are several students with high medical needs.			

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$ _____
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$ _____
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	Purchasing supplies to sanitize high touch surfaces and objects within the school and school transport vehicles	2021-2022	(1) Decrease in illnesses, specifically related to COVID-19 (2) Maintain cleaning supplies	$ 15,000.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ⦿ No				$
	* ⦿ Yes ○ No	Because of COVID, our district increased the usage of student devices to reach a 1:1 student per device level using Chromebooks. We have been using Chromebooks for several years now and the older devices will stop	2021-2023	Maintain the number of devices to use for daily instruction	$ 247,500.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		updating after their Auto Update Expiration (AUE) date. Once they stop updating, they will no longer be certified for testing and may not run updated educational web sites. As the older Chromebooks reach the AUE date, those devices will be replaced with newer student devices. Our district has a phased replacement plan in place to keep our Chromebooks current. This also occurs with other platforms as well since most laptops can only be used for 5-6 years before they have to be replaced.			
		Social Worker: The social worker	2021-2024		$ 73,961.78

| MENTAL HEALTH SERVICES: Providing mental health services and supports. | * ⦿ Yes ◯ No | is necessary to ensure the needs of students and their families are being met. The school social worker assists with also meeting the social emotional learning aspect for students. Social Emotional Universal Screener - The Student Services Team completed the School Health Assessment & Performance Evaluation (SHAPE) assessment to look at mental health needs in Elkin City Schools. The assessment showed that one of the deficits in Elkin City Schools is a universal screener for behavior. This will be used to | | Address social emotional needs of students by implementing a universal screener and core SEL curriculum across all grade levels. Progress will be measured through the SHAPE assessment Train administration and teachers to work on addressing unique needs of special populations. | |

		be used to purchase a screener for K-12.			
SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ⦿ Yes ◯ No	Competency Based Assessments to provide data for improved learning Student remediation outside of the regular school calendar to include supplemental instructional resources	2021-2024	Assess academic progress of students using Competency Based Assessments (CBA) results to individualize instruction	$ 123,166.00
	* ⦿ Yes ◯ No		2021-2022; 2022-2023	Reduced class size to address learning loss by personalizing instruction	$ 643,963.09

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		Maintain the operation of instructional services in our classrooms by hiring additional personnel. Specific personnel include: two elementary teacher assistants, a second grade teacher, one middle school teacher assistant, a high school math teacher, and a high school history teacher. These positions will allow us to address the disproportionate impact of the coronavirus pandemic on disadvantaged students so that we can provide equitable opportunities for all students.			

			Total ESSER III Allotment	$	1,436,688.80

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Grant Details

Mount Airy City Schools (862) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

1) On May 4, 2021, the PSU met with a group of stakeholders to represent the district's current needs and plan for the ESSER II funds. This group included 4 representatives from within the district office, representing Finance, Teaching and Learning, Human Resources, Career and Technical Education, Communication, and Auxilliary Services. In addition, the group included school-level representatives, including a school principal, a digital learning coach, and teachers from various grade levels and years of experience. This work will also be shared with the MACS Board of Education during April and May board meetings. In addition, the work will be shared with district leadership team during our April and May meetings and weekly principal meetings. 2) Throughout the spring of 2021, the PSU assessed through a diverse array of data points including the following universal screeners: a) NC Check-Ins for students in grades 3-8, b) Panorama, which is a social-emotional learning (SEL) screener, c) Imagine Learning for English Language Arts in grades K-5, d) Imagine Learning for Math in grades K-8, e) mClass reading in K-3. Secondly, the PSU collected student names by school for those that are at risk for failure. Additionally, the PSU has worked extensively through the MTSS process and Corrective Action work to identify those students who were Tier 3 in March 2020 and are identified as still Tier 3 in March 2021. The school MTSS teams are working through these students with

intervention plans in Branching Minds (platform for tracking student data at large) and navigating their progress through the MTSS framework. School level tutors and interventionists are working to support small groups of students with common skill gaps in math and literacy. Teachers are also working through intervention plans and completing progress monitoring to address the individual needs of students. The NC ED Corp services are providing supports to struggling students, those at risk for failure due to multiple reasons not limited to remote learning needs, absenseteeism, social emotional needs or family dynamics as a result of COVID. The EdCorp team is making home visits, working to get students back in the face-to-face school environment and supporting their work with teachers to catch up in learning loss. -As of May 17, our summer enrichment experiences (camps) provided through our final year of the 21st Century grant, have been published for 1 week- So far, we have approximately 50 students registered for this service each week for 7 weeks (June 7- July 29), therefore proving the needs of our families wanting and needing their students to engage in summer learning.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

The PSU needs assessment identified the following needs to represent our plan for implementing our ESSER II plan and serving our students: -Title I district wide- PSU is over 50% free and reduced lunch with 3 of the 4 schools being over 50% individually -772 students are currently working in Tier 3 status based on our MTSS work in Branching Minds -Over 100 students have been identified across the district as Tier 3 in March of 2020 and still remaining Tier 3 in March/April 2021. Many of these are going through the IEP team referral process, therefore both MTSS requirements and EC referral requirements are happening in tandem to identify the student's needs and plan for the most appropriate course of action/intervention to ensure student success. -Our current middle school is heavily engaged in online learning tools, using Schoology learning management system for communication and assignments, as well as Google Suite Tools. This need is imperative to moving forward with strong engagement for learning loss. Additionally, a small group of students are also completing coursework remotely from home or engaging in courses through Edgenuity (outside curriculum vendor). -Technology tools and support through consistent technology devices and software platforms has supported and will continue to support learning continuity for the learners, teachers and families all striving to support student learning. The use of the iPads have also supported the time on task at the K-5 level. This will continue and learning quality versus quantity of screen time has been observed by both teachers and parents/caregivers. The digital learning coach will support all schools and teachers K-12, as well as having a lead role supporting and designing parent engagement events that help families to engage with their child's learning at home. - Our Panorama social-emotional learning screener shows the SEL needs of many students. For example, the 20% of

middle school students that remained remote have documented SEL needs that must be addressed with SEL supports starting in the summer, as well as through the 2021-2022 school year. The social worker or family liason is key to this work being done with fidelity. -The PSU developed the Graduation Task Force, which is represented at the K-12 level has identified the students at risk of failure and lined up a plan of action for support, which may include NC EdCorp services, school counseling services, administrative check-ins, mentors, after-school programming, remedial coursework. -Social distancing will continue at the K-12 level in Plan A, as our district has been able to safely have face-to-face school since August 17, 2020. We will continue with our safety protocols and social distancing in cafeterias with the use of additional furniture inside and outside the cafeterias. We will also support some innovative style classroom furniture to support social distancing with collaboration and problem solving through inquiry designed lessons. -At the middle school level, the buses will continue to use the back driveways, ensuring that students enter the building directly into their grade level appropriate hallways and exit the same ways to avoid spread of the virus. -At the high school, the auditorium will be used as additional learning spaces with the stage and adjoining classrooms allowing for arts-based classrooms to spread out safely and engage in singing and band courses. -Continued cleaning and maintenance of all buildings is necessary to keep the district operating at full capacity in Plan A. Therefore, the 2 maintenance support personnel will keep the HVAC systems operating for improved air quality, supporting the cleaning of the facilities at all times, supporting the cleaning services of the yellow buses and activity buses. -Summer learning loss will be addressed with the summer school plan discussed below. This will address the learning loss gaps we have identified in our students during this school year. The summer school programming will be facilitated for students at risk of failure and the use of certified teachers will strengthen the programming provided.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 814,439.40 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

A) The public school unit has administered multiple assessments to monitor and measure student progress during the 2020-2021 school year. This includes any NC Check-Ins for grades 3rd and up for formative assessment purposes that drive teachers professional learning community (PLC) work. In addition, at the K-2 level, literacy is being assessed with mClass/Dibels/TRC measures to help them work through differentiated guided reading groups with teachers on a daily basis. At the 3-5 level, they are using a combination of mClass, NC Check-Ins and Imagine Learning to monitor and assess students reading skills. At the secondary level, teachers are assessing using NC Check-Ins where available and common formative assessments during ongoing instructional practices. Imagine Math scores at the 6-8 level are also provided to develop students MTSS tiers within Branching Minds and provide a basis for the appropriate evidence-based interventions needed for the student. The implementation of the director of learning loss to support K-12 will allow the role to work closely with school admin teams for supporting assessment and the effectiveness of using the data analysis to drive future instruction. Within this work the PSU will have 5 tutors to support students needing additional interventions and support to aid their learning loss and work to achieve grade level status in both reading and math.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Summer school programming will highly reflect the regular school year with a traditional day of academic interventions, enhanced with enrichment and social-emotional learning support. Students will engage in literacy activities that include small group, differentiated instructional practices that allow teachers to monitor multiple times each week as students progress with word fluency and comprehension skills. Moving into the 2021-2022 school year, additional tutors will be used to support small group interventions in order to reach our struggling students. Tutors will use practices aligned within Branching Minds to support the students' specific needs with regard to skill development and competency-based assessments. The PSU will implement the Advancement Via Individual Determination, also known as AVID, which fosters a safe and open culture, high expectations for teachers and students, and collaboration in all classrooms. This programming will help teachers shift from delivering content to facilitating learning, resulting in an inquiry-based, student-centric classroom. These elements are at the core of our approach to closing the opportunity gap. AVID will support our secondary students in goal development through the development of a community of learners. The director of learning loss will support the AVID work through consistency of the programming goals, objectives and daily practices to support participating students.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

The PSU will strive to communicate and educate our families regarding resources that are supportive of distance learning. At the K-5 level, all students have been assigned iPads to provide continuity of learning and the ability to have learning access at any point that school would have to go into remote or distance learning status. Parent

information sessions will be provided in the Fall of 2021 for all schools and will include information on using common resources that impact every learner, which includes Seesaw (K-2 learning management system), and Schoology (3-12th grade learning management system). The PSU website, along with the specific use of the Teaching and Learning department page will be used as a springboard to communicate and historically archive all Family newsletters developed by the teaching and learning team leads. These electronic newsletters will be published monthly and pushed out via social media platforms (Facebook and Twitter) as well as the website.

* (D) Tracking student attendance and improving student engagement in distance education;

At the K-5 level all students that were engaged in remote learning during the 2020-2021 school year were served by teachers within the public school unit. These teachers used Google Meet to have daily "live" class sessions where students could engage with them and their peers. Attendance was monitored by the teacher and tracked in Power School. Remote learning teachers were able to monitor attendance and engagement daily through their Google Meet sessions. They also used Seesaw (K-2 level) and Schoology (3-5 level) to consistently communicate with students and families. These are the learning management systems for the PSU and enable constant two-way communication between student, teacher and parent/caregiver through individual access accounts.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

The PSU has used the MTSS framework with the implementation of Branching Minds, which has every student's progress from pre-pandemic learning assessments to current progress. This system allows teachers and administrators to consistently see each student's tier levels for MTSS within the Branching Minds platform. Evidence-based interventions are built into the system, taking the guess work out of the teacher's planning and differentiation for their students. This has allowed the PSU to clearly identify those students in Tier 2 or Tier 3 status, needing extra support with a more targeted and intention plan for success and growth. The Branching Minds platform allows for consistency in interventions and communication between teachers, instructional support staff and NC Ed Corps members supporting our students through varied and differentiated services.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ◉ Yes ○ No	Middle school paving for front entrance	Fall 2021	The paving is directly related to Covid as we had to re route bus pick up and drop off at this school to keep students spread out. The area the buses are using was never intended to be used by buses and therefore has been badly damaged and needs to be fixed in order to continue our same bus procedure as last year.	$ 50,000.00

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ◉ No				$ [ ]
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$ [ ]
					$ 147,457.25

| ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population. | * ⦿ Yes ○ No | 1 Exceptional Children teacher for Kindergarten through 5th grades 3 NC EdCorps tutors to support at-risk, students that are also low-income, minority students Figures associated include salary, FICA on all roles, and retirement and hospitalization on the EC teacher. | 2021-2022 school year | The additional K-5 EC teacher will support the increasing population of EC students as a result of COVID. These students have been identified and many are going through the IEP referral process now and this summer. The NC EdCorps tutors will serve students that are at-risk for failure by working w/them during school day, completing lunch time check-in visits, home visits, mentor alignment opportunities and working through the collaborative plan for support and success with students and families. | |

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$ ☐
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$ ☐
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$ ☐

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ⦿ No				$
	* ⦿ Yes ○ No		2021-2022 school year		$ 476,575.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		Google Enterprise (K-12 teachers, 3-12 students) Zoom (online meeting platform) Schoology (3-12 learning management system) SeeSaw (PreK-2nd learning management system) Imagine Learning (K-8 math and K-5 literacy) online learning interventions NWEA Growth- 6-8 literacy intervention tool Raz Kids- K-5 access to online books Electronic displays with Apple TV service for all K-12 classrooms Teacher iPads K-12 lease for devices Student iPads K-5 for devices		Education technology subscriptions are being used for serving students in K-12 classrooms. These platforms ensure consistent communication, sharing of resources and communicating with families. Teachers will facilitate using tech devices & can provide equitable resources for learning while remaining socially distanced within classroom. The addition of electronic displays will allow every teacher to display learning at the front of the classroom. K-5 students have continued access to devices.	

| MENTAL HEALTH SERVICES: Providing mental health services and supports. | * ⦿ Yes ◯ No | Panorama K-12 SEL Screener Branching Minds | 2021-2022 school year | Instructional staff and administrators will also be supported on leading this work within the schools on a daily basis to strengthen core areas of learning. Panorama is the K-12 SEL screener and these results are within Branching Minds to assist teachers with the MTSS process, incorporating the whole child in the tiering process. | $ 18,200.00 |
| | * ⦿ Yes ◯ No | | Summer 2021 (July) and Summer 2022 (June) | | $ 339,150.99 |

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.		Bus drivers, child nutrition workers, certified tutors, non-certified instructional support for learning loss to safely monitor and help operate summer school, enrichment camps and the Blue Bear Bus for July 2021 and June 2022; this includes FICA and retirement on these positions - Summer School Supplies - Transportation contract for summer programming of July 2021 and June 2022 -Child nutrition staff to help provide summer school meals		Personnel and supplies needed will be provided for the PSU to meet the requirements of summer programming for all students at-risk for failure and needing additional support. Sufficient staffing will support all summer in the areas of academics, enrichment, social emotional learning, nutrition and transportation.	
		-2 certified teachers provided to allow for additional classes and support social	Summer 2021 and 2021-2022 school year		$ 2,226,374.36

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ○ No	and support social distancing in the PSU -1 part-time CTE teacher to support social distancing secondary -5 tutors for learning loss support during the 2021-2022 SY Learning Loss Coordinator to direct programs: AVID, LIM, MTSS, EL, Global Education, Family Engagement Substitute teachers for quarantine purposes -School year tutors -Furniture for soc. dist -1 additional maintenance role for safety and facilities -1 Smart Bus TIMS role -Substitute teachers -Vision Screener tool -Science of Reading curriculum support materials for		Addl' teacher to offset the social distancing needs. Tutors will support learners in small group intervention times to aid in learning loss. Smart Bus TIMS- Builds bus routes, seating charts, tracking of students within the bus/onboarding. Maintenance will support the safe environment with cleaning. Subs to be used for quarantine situations and/or need to split larger classes. The vision screening tool for nurses to safely monitor vision. Curriculum materials will support literacy goals/changes	

		teachers and students in Pre-K-5th grade - Supplemental income for all employees as compensation for additional duties during the COVID-19 pandemic - Indirect cost All of this at a cost of $851,520.68 in Year 1. *The remaining funds for Years 2 and 3 are located in contracted services to allow for plans that can be supportive of the progress/changes needed to best support student and school need			
		Total ESSER III Allotment		$	3,257,757.60

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Grant Details

Swain County Schools (870) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

1) Input for the Needs Assessment and Plan included surveys, interviews and conversations with Individual School Principals, Teachers, District Administration as well other District Leadership. Collectively, these individuals assessed and planned for the most effective and efficient uses of ESSER III funds reflective as a result of COVID-19. 2) 100 hours of Direct service Summer School Learning, continued online learning options for students over the summer and subsequent school years, supplemental after school programs including classroom instruction or online learning options, meals to eligible students, and mental health services and support meeting requirements set forth by IDEA addressing learning loss as a direct result of COVID-19. a. Direct service Summer School Learning will include: K-8 Math Instruction, K-8 Reading Instruction, 3-8 Science Instruction, Daily Physical Activity, Enrichment Activities, Meal Services, Social and Emotional Learning Supports and Transportation. 3) Development and Implementation of fully sustainable support programming, purchase of effective educational tools assisting in meeting the needs of students and staff to minimize the negative impacts in educational and emotional growth due to COVID-19, and increasing personnel in areas of support: absenteeism, professional development, teacher support, student academic support, and social and emotional support at all grade levels. Provide limited financial support to personnel in order to pursue

higher education degrees in high need certifications. 4) Absenteeism during COVID-19 continued to increase and in efforts to improve student attendance, additional personnel will be hired allowing focus on student attendance, student and family engagement and programming instituted to improve student attendance towards our goal of 100%. Increased student attendance is directly related to increased academic achievement and hiring of personnel to focus on attendance facilitates building relationships with students and families to combat chronic absenteeism and allows consistent structure in all facets. Personnel hired will be used to build instructional capacity through personalized teacher development and more effective use of instructional evaluation tools such as EVAAS. 5) Building safety enhancements including HVAC and ionization systems for cleaner air to promote and facilitate a healthier classroom environment as a result of COVID-19. 6) With only about 35% of students having online capability at their houses, hotspots available by subscription by the school increases those numbers dramatically and allows more students to actively participate in remote and online learning as a result of COVID-19 and learning options available to students (remote and in-person).

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Processes used included teacher surveys, direct interviews and planning with school principals, assessment and implementation discussions with district stakeholders including Directors of Curriculum, Director of Student Support Services, Director of Human Resources, Director of Technology, Director of Facilities Management, and Superintendent of schools. - Teacher survey responses indicated a continued need for remote learning and digital learning support. - Principal's data from teacher feedback indicated as low as 5% of students actively engaged in remote learning. - District Stakeholders and Administrative Directors indicated needs for increased personnel to focus on social and emotional support and absentee management; as well as instructional coaches to increase staff development focusing on student growth and academic recovery due to lack of face to face instruction during the pandemic. - At the elementary school level (grades K-3) approximately 50% of students are at or below proficiency in reading. - At the elementary school level (grades 4 & 5) approximately 60% of students are below proficiency in reading. - At the middle school level (grades 6, 7, 8) 63% of students are below proficiency in reading. - District Math Proficiency Scores fall near or below state level standards across the board getting progressively worse as students exit middle school. Based on EOG scores year end 2019, college and career ready student populations are falling dramatically to less than 30% at the 8th grade level.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 651,651.34 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, _provide a detailed description_ of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Increased programming includes the purchase of iReady to connect diagnostic data and personalized instruction for all students grades K-8 and support teachers with "in-the-moment" resources for individuals, small groups, or entire classrooms including support materials. Achieve3000 programming will also be purchased and used to address learning loss through literacy acceleration, personalized instruction, flexible curriculum platforms, and differentiated content to include all learners, including those with learning disabilities and additional academic needs. Programming will follow North Carolina Education Standards, including but not limited to Read to Achieve (RTA); MobyMax: Curriculum content and formative assessments and built-in social and emotional learning processes, available both in-person and for online learning student; iReady: Provides formative assessments to measure student growth, adaptive curriculum to support intervention to enrichment, personalized data profiles to support decision-making and intervention strategies, teacher resources, and school to home connections with 24/7 access to supplemental instruction. A critical component of instructional improvement is the use of data to identify individual student needs; however, data without instructional intervention is useless. The cumulative learning loss of the pandemic interruptions has created a more extensive need for student assessment. To develop the capacity to store, input, statistically compare, and report the data for the implementation of individual student interventions, we must provide time and personnel. The most logical person to accomplish this is our testing coordinator. She has been contracted to complete this goal and prepare us to move forward with a system-wide data tool

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

The addition of teachers and assistant teachers will provide smaller student-to-staff ratios throughout the elementary program. This will also create less stress on high school instruction by removing class size limits at the elementary. This will ensure all students develop intellectually, physically, emotionally and acquire necessary vocational skills through individual education programs and provide an environment conducive to those learning needs across the

school system. Effectiveness will continue to be measured by multiple, valid measures, including test scores, proficiency scores, formative assessment measures, and professional assessment. Students gain skills and experiences colleges and employers look for in applicants, including communication skills, critical thinking skills, and specified subjects. Decreased learning loss during the remote/online learning experience will continue to offset summer learning loss by keeping students engaged in learning every day. High risk students (exceptional children, low-income families) who may not have access to educational resources throughout the summer are given additional time to master academic content. Increased programming will also include purchasing the Leader in Me program to address instructional and cultural components of learning recovery by implementing systems that accelerate academics and empower all students to thrive personally. All of our students NEED, and our more vulnerable students (especially those with the most learning losses from COVID and the most difficulty learning even during normal times) REQUIRE additional learning time and more supports for recovery from those year-long-plus deficits that have accrued. Providing afterschool programs to Pre-K through high school is a large part of our efforts to overcome COVID's learning losses. Afterschool teachers, tutors, and relevant support personnel with be hired to provide these services. Pre-K and high school students are not otherwise served by our current afterschool programs, and these funds will supplement the prospective 21st century afterschool program if our school system is selected during cohort 15 21CCLC round of grants. (Partial year-funding for k-8 afterschool is assured by 21CCLC and ICARES carryover for 2022 school year.) Swain County Schools are small and rural, and staffing - attracting the best teaching candidates who will remain with us - is becoming more of an issue for us in the far west. The pandemic demonstrated that in emergency times, it is even more difficult to provide the quality staffing needed by our students. Especially difficult was hiring and maintaining key teaching positions such as our exceptional children teachers. In order to support our EC students, many of whom will have the utmost difficulty in recovering from learning losses sustained during COVID, we plan to encourage more of our educators to become certified in EC areas, as well as other difficult-to-fill positions. We will assist this effort with professional development and tuition reimbursement funding.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Absenteeism during the pandemic continued to increase. Additional personnel will be hired to improve student attendance, allowing focus on student attendance, student and family engagement, and programming instituted to improve student attendance towards our goal of 95% (see section c). The additional hiring of the Dean of Students allows for consistent structure in how absenteeism is approached with each student and family. Early interventions create a more positive school culture, consistency in tracking and acting on real-time data involving absences, communication of attendance expectations, instructional support to the home to achieve MTSS 80% proficiency and the 95% student attendance goal. The addition of the Dean of Students at an elementary school will support an increased and equitable opportunity for both elementary schools to improve instruction in the classroom by freeing the

principal and teacher learning coaches from management needs. The addition of a teaching and learning coach (TLC) at the middle school will provide professional growth not possible before the pandemic, as well as to aid teachers with providing more effective instruction - whether delivered via face-to-face or digitally. DoS and TLC are critical capacity builders in SCS buildings in order to stem student learning losses as quickly as possible. These positions are critical elements not only regarding needed academic recovery, but as we attempt to aid students and families in recovery from social-emotional situations significantly exacerbated by the extended length of time of the pandemic.

* (D) Tracking student attendance and improving student engagement in distance education;

I-Ready programs provide dashboards and clear reports with actionable data that give teachers and administrators a foundational understanding of students' strengths and weaknesses and confidently determine students' on-grade proficiency levels based on state and national standards. Provide in the moment resources and resources to teach individually, in small groups, and whole-class levels. Moby Max shows 360-degree progress monitoring and reporting for students, parents, teachers s, and administrators. Built-in motivational techniques allow students to learn without teacher intervention. Designed to find and fix student learning gaps. This information is critical as goals are set with students and families for growth.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

I-Ready programs provide dashboards and clear reports with actionable data that give teachers and administrators a foundational understanding of students' strengths and weaknesses and confidently determine students' on-grade proficiency levels based on state and national standards. Provide in the moment resources and resources to teach individually, in small groups, and whole-class levels. Moby Max shows 360-degree progress monitoring and reporting for students, parents, teachers s, and administrators. Built-in motivational techniques allow students to learn without teacher intervention. Designed to find and fix student learning gaps. This information is critical as goals are set with students and families for growth.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	During the pandemic, COVID-19, some classroom spaces were unable to be used because of the increased risk of transmission of the virus due to moisture and humidity issues. HVAC work and improvement to update older systems to provide better air quality, reduce humidity in classrooms and reduce the transmission of airborne contaminants. Decisions about which buildings will receive upgrades/replacements will be based on a pending environmental assessment from a	July 2021 - July 2024	Reduction in student and staff absenteeism due to illness, ability to provide more adequate socially distanced learning areas with the increased, usable learning spaces.	$ 436,979.98

		local architect. As details solidify, a budget amendment will be submitted to provide more specificity at that time. We plan to replace all conventional water fountains with water bottle refill units throughout all schools in order to reduce the spread of germs. We plan to contract with a company to provide a facility needs and environmental survey to address building capacity and improvements needed to address the health and safety of students.			
	* ⦿ Yes ◯ No	Increased monitoring of ventilation units and replacement of ventilation filters more frequently to reduce the risk of airborne particulates and contaminants from COVID-19. Increased education of staff, students, and parents about the importance of Air Quality and their	July 2021 - July 2023	Reduction in student and staff absenteeism due to illness from poor air quality and ventilation and create a school environment as safe as possible	$ 87,000.00

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.		roles to ensure a healthy, high-quality learning experience. These things will occur after environmental assessment by NOVICE Architect has taken place to allow for the most accurate, timely information. Purchase of air ionization units for schools in order to purify the air and reduce the number of contaminants in the air. Improving air quality in traditionally damp areas will decrease the probability of exacerbated respiratory complications in light of the COVID pandemic by replacing guttering systems at both East and West Elementary Schools in order to help divert the water that is creating moisture leading to mold and mildew issues			

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ⊙ Yes ○ No	COVID-19 has increased the workload of school nurses. They are required to ensure proper protocols are followed, supervise isolation rooms, conduct screenings, track suspected and confirmed cases of COVID-19, and communicate with the local Health Department to ensure appropriate tracking. Swain County Schools will increase our nurses from 80% to 100% employees so schools are fully staffed with a highly qualified school nurse 5 days a week. This will ensure COVID-19 protocols are followed to better meet the safety and wellness needs of our students and staff. Swain County Schools are also pursuing school based COVID-19 testing that school nurses will be expected to facilitate.	Aug 2021 - June 2022	This will ensure COVID-19 protocols are followed to better meet the safety and wellness needs of our students and staff.	$ 42,876.81

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ◉ No				$
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ◉ No				$

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ⦿ Yes ○ No	At present, only about 35% of the county has direct access to internet and in proportion, only about 35% of the student population has direct access to internet. In order to offset learning loss as a direct result of COVID-19, allow students the ability to continue remote online learning for homework, access during summer school programming and over the course of a normal school year; as well as, the event of closure due to inclement weather or pandemic, internet hotspot subscriptions need to be purchased to give all students access to reliable internet services.	July 2023 - June 2024	Increased student achievement and increased student academic proficiency measurable by their proficiency scores on but not limited to EOC and EOG tests.	$ 56,990.00
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ○ No	Due to COVID-19, historically disadvantaged and under served populations have suffered as a result of	July 2022- June 2023	The school psychologist will participate in school and grade/subject level MTSS	$ 247,145.76

| | | lack of access to resources. Greater access to mental health personnel helps provide an ideal environment for promoting good emotional wellbeing, identifying early behavior changes and signs of mental distress, provide consistent, protective and therapeutic environment in order to help students cope. Additional school psychologists will be hired to help design interventions for students identified at working below grade level as part of MTSS programming. These positions will also provide additional mental health support for students, including exceptional children. Current support personnel will also be encouraged to pursue professional development in mental health and SEL | | meetings to help design specific interventions for students. They will help create more individualized interventions leading to more individual growth as measured by MTSS data tracking. Swain County Schools has created district-approved data collection tools and charts. The school psychologist will provide direct counseling services to students identified as Tier 3 SEL in the MTSS | |

		health and SEL support. This is necessary in order to sustain the need for long-term mental health support for students and families. Social Workers will be increased from 80% to 100% employment to provide additional support.			the MTSS process.	
SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ⦿ Yes ○ No	The Summer Learning Program will be focused on recovery for students stemming from learning loss due to COVID. Summer programming will be a 4 week intensive program covering 100 hours of Direct service Summer School Learning, continued in-person online learning options for students over the summer and subsequent school years, supplemental after school programs including classroom instruction or online learning options, meals to eligible students, and mental health	June 2022-July 2024	Effectiveness measured by multiple, valid measures including test scores, proficiency scores, formative assessment measures, and professional assessment. Decrease learning loss suffered during the remote/online learning experience, offset summer learning loss	$ 217,107.15

		and mental health services and support meeting requirements set forth by IDEA. Programming will include: Math Instruction, Reading Instruction, Science Instruction for students, periods of physical activity, and enrichment activities. Programming will also include transportation available for all students. Funding for 2 site leaders, SEL support for all grades, and # of teachers based on student performance data. When data provides more specifics about staffing needs, a budget amendment will be submitted.		learning loss by keeping students engaged in learning every day. Students of need (exceptional children, low income families) who may not have access to educational resources throughout the summer are given additional time to master academic content.	
	* ◉ Yes ○ No	Since the beginning of June 2021, Swain County Schools has lost 13 employees requiring 17 number of jobs to be filled or reallocated. The pandemic has created an increase in	July 2021-June 2024		$ 400,288.96

| **OTHER ESSA ELIGIBLE ACTIVITIES:** Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act. | | instruction need to overcome learning loss. This level of expectation along with general fatigue from a very 2020-21 school year has eroded the internal motivation of all staff. The district administration is regularly faced with requests for pay increases and salary supplements. In response to the realized staffing attrition and to provide continuity for the 2021-22 school year, it is the intent of Swain County Schools to provide a retention and appreciation bonus to all permanent employees. Those employed by Sept 1 and still employed by Oct 1 will receive a $500 bonus in Nov. Those employed by Dec 1 and still employed by March 1 will receive a $500 bonus during March. It is possible to receive | | To help cover the administrative cost of administering the grant for the District. Also, increased staff morale, recruitment and retention of quality staff. | |

	is possible to receive both bonuses by continued employment during these periods of time. Budgeted amt also include IDC		

		Total ESSER III Allotment	$ 1,488,388.66

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.

11/9/2021 12:34:49 PM

* ☑ **LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)**
An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

 There are no new applicants.

GAN Information

Swain County Schools (870) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Transylvania County Schools (880) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

A committee composed of representation from Curriculum Directors, Finance Officer, Technology Director, Superintendent, Human Resources/Assistant Superintendent, Child Nutrition, Transportation Director, School Principals, parents, and teachers brainstormed the needs of the district to develop the needs assessment Plan for the ESSER II Funds. Transylvania County plans to use the funds to address learning interruptions in a variety of ways using the allowable areas to guide our decisions. Transylvania County Schools plans to utilize various assessment tools to address student learning gaps. In the original plan TCS had included Math Coaches due to the need for closing gaps in math skills due to COVID. Although we have tried our best, to this point we have not been successful. Tools used will be Istation for Reading and Math (K-5) *Current Istation data shows that approximately 25% of our K-5 students are at risk for reading development. These students need intensive support in order to trend towards a grade level path. *Current Istation data shows that approximately 30% of our K-5 students are at risk for math development. These students need intensive support in order to trend towards a grade level path. IXL for reading and math (6-8) Exact Path for reading and math (6-8) *For more detailed information regarding Summer Learning, see the full TCS Summer School plan below on Part E. 2021-2022: Under ESSER II, TCS is planning to use funds to further enhance

our TCS Online Learning Path program. This online platform was created to respond to needs from the result of Covid 19. Items purchased will be additional computer monitors, enhanced microphones, possible boosters for adequate internet service. Addressing Student Learning Gaps: In 2021-2022, school personnel will increase to provide targeted instruction to struggling learners and also to provide smaller class size to further enhance our high performing students. Under ESSER III, specific positions added will be Reading and Math Specialists at the elementary level, Math Specialists at the middle school level, and an Academic Specialist Coordinator to work closely with the specialists to analyze and interpret student data. Exact Path for reading and math (6-11) NC Check Ins (Reading, Math, Science: 3-8 & Math 1) Case Benchmarks (Math 3, Biology) Common Lit (English 10) Academic and SEL meeting with school counselors for Online Learning Path Students Transylvania County Schools plans to add Specialists positions (Interventionists) in the area of reading and math. Reading and Math for elementary schools, K-5. Math Specialists for middle schools. These added positions will determine student levels in September and work to close the achievement gap for our Tier 2 and Tier 3 students. Resources used to address learning gaps will be small groups, 1:1 support, enVision math program tools, and other approved resources that are research based in maximizing student growth. The added position of Academic/MTSS Coordinator will work closely with school Specialists to analyze growth trends and adjust strategies, as needed. This position will work closely with each school in the MTSS process to ensure that all processes are geared towards problem solving and helping students grow, academically, behaviorally and socially. MTSS has been earmarked as an improvement area for our school system to ensure we are adequately identifying and serving all students in need. TCS Online Learning Path teacher positions being added will allow students to have the option of being full virtual for academic learning. These teachers will work on school sites and collaborate together to enhance remote instruction for grades K-12. Educational Technology is needed to enhance the online learning. Teachers had difficulty with equipment this year. The online option will remain in place in order to meet the needs of families. All of this is a result of Covid and parents not wanting their children to return to in person learning. Therefore, the need is great. The age of the equipment makes it difficult to have effective teaching and learning that teachers were forced into due to COVID so in response to COVID we need panels, mics, etc in order to deliver quality instruction. Three of our elementary schools have Preschool classes. These classes are full with a waiting list for next year. In order to meet the needs of families and better prepare children for kindergarten an additional class is needed. Families are in desperate need of quality care and learning for their children as a direct result of the pandemic. Some of the families that were hesitant to enroll their children last year realize they are behind in starting school this year and are scrambling. Looking at the kindergarten data, it is clear that children are better prepared for learning when they attend preschool compared to those children who do not attend. Children who attend preK outscore the children who do not attend preschool on the Kindergarten Early Entry Assessment. In order to meet the 1:6 ratio, teacher assistants are needed for preK. The preK is an inclusive population of NC PreK, DD, and general ed children. The ratio is mandated by the license and having an inclusive classroom. The classroom and TAs needed are a direct result of COVID and meeting families needs. EC teacher and TA are needed as mandated by the summer

school requirement. The EC grant 137 will be used in addition to the ESSER III to meet the number of teachers needed to carryout the summer program. Ratio for EC students will be maintained. An Elementary Math textbook adoption will serve to streamline practices and close identified gaps of knowledge, created by Covid 19. Currently our math data from Istation shows the majority of our grade levels have students working below grade level. K: 20% below grade level on our Istation Math Summary Report for May 1st: 27% 2nd: 57% 3rd: 48% 4th: 45% 5th: 6

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

TCS current data shows that we need to offer an extended learning program for the Summer of 2021. This is also in accordance with the law signed in April, Summer School Choice for NC Families. Elementary: Istation Mid Year (January) data shows that: 60% of Kindergarten students need supplemental or intensive support (in addition to Core) 57% of First Grade students need supplemental or intensive support (in addition to Core) 38% of Second Grade students need supplemental or intensive support (in addition to Core) 37% of Third Grade students need supplemental or intensive support (in addition to Core) 40% of Fourth Grade students need supplemental or intensive support (in addition to Core) 44% of Fifth Grade students need supplemental or intensive support (in addition to Core) Middle School: Exact Path Diagnostic (April) data shows that: 25% of middle school students are below grade level in Reading 28% of middle school students are below grade level in Math High School At Risk: Students not on track to be promoted to the next grade level Students not on track to graduate with the assigned cohort Students who failed 2 or more classes in 20-21 Reflection on EOC proficiency levels and student growth Addressing comprehensive needs of students: In 2021-2022, school personnel will increase to provide targeted instruction to struggling learners and also to provide smaller class sizes to further enhance our high performing students. Tools used will be Istation for Reading and Math (K-5) IXL for reading and math (6-8) Exact Path for reading and math (6-11) NC Check Ins (Reading, Math, Science: 3-8 & Math 1) Case Benchmarks (Math 3, Biology) Common Lit (English 10) Academic and SEL quarterly meetings with school counselors for Online Learning Path students SEL Curriculum and screeners Restorative practices Due to having a preK classrooms for children, data shows that the children are 75% better prepared going into kindergarten compared to those that did not attend PreK programs. Early intervention and providing a PreK programs sets children up for success as they enter kindergarten. Due to Covid, children in our community are farther behind. Children that would have started school last year did not due to the pandemic. This year we have a waiting list of children that would fill an additional classroom just due to COVID and not attending. These children will need the benefit if a preK program to provide the SEL due to COVID and the learning opportunities that COVID prevented.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 1,462,518.20 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Specific positions added, as mentioned in ESSER III, will be Reading and Math Specialists at the elementary level, Math Specialists at the middle school level, and an Academic Specialist Coordinator to work closely with the specialists to analyze and interpret student data. Additional qualitative data was analyzed as well (i.e. bullying at school versus abusive home life). Robust summer school over the next 3 summers will help to close the learning gaps. We have included special populations in all areas of summer school. PreK to 12th grade have been invited to receive 5 weeks of support. Reading and math focused activities. Assessments will be given to monitor progress High Quality Assessments: Assessments measured in TCS for 2021-2022 will be: -NC Reading Diagnostic, grades K-3 -enVision Math Diagnostic, grades K-5 -Exact Path Diagnostic, grades 6-12 -NC Check Ins, grades 3-8 -SEL Screener, grades K-12 These high quality assessments will be given at BOY, MOY and EOY. NC Check Ins will follow the window schedule set forth by the NCDPI. The data collected from these various assessments will be collected and analyzed by our Academic Specialist Admin role, helping District and School leaders identify strengths, weaknesses and what areas need strengthened curriculum support. This data will continue to be collected and utilized to drive instruction for the benefit of the students.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Addressing comprehensive needs of students: In 2021-2022, school personnel will increase to provide targeted instruction to struggling learners and also to provide smaller class sizes to further enhance our high performing students. Tools used will be Istation for Reading and Math (K-5) IXL for reading and math (6-8) Exact Path for reading and math (6-11) NC Check Ins (Reading, Math, Science: 3-8 & Math 1) Case Benchmarks (Math 3, Biology) Common Lit (English 10) Academic and SEL quarterly meetings with school counselors for Online Learning Path students SEL Curriculum and screeners Restorative practices These activities will be repeated for Summer School 2022,2023, and

2024 to ensure that students benefit from the additional learning and support opportunities. School Number of Counselors Number of Students Foster Care McKinney Vento 1:1 Group Sessions BRH Referrals Counselor to Student Ratio: BES 1 537 4 20 22 3 18 1-537 BMS 1 549 1 13 0 0 0 1-549 PFES 1 434 9 2 0 5 18 1-434 RMS 0.5 235 1 13 3 1 12 0.5-235 RES 1 327 5 5 0 3 10 1-327 BHS 2 704 3 15 40 plus 0 22 1- 352 RHS 1 266 3 9 11 1 13 1-266 TCH 0.5 118 0 5 7 1 1 0.5- 118 DRS 1 95 0 21 17 1 7 1-95 Above or below the average ASCA Recommendation Ratio- BES above by 287, BMS Above by 299, PFES Above by 184, RMS above by 110, RES above by 77, BHS above by 102, RHS above by 16, TCH below by 7DRS below by 155. Above or below by National Average of 464: BES Above by 73, BMS above by 85, PFES below by 30, RMS Above by 3, RES Below by 137, BHS below by 369, RHS below by 369, TCH below by 114, DRS below by 369 The ASCA recommends that schools maintain a ratio of 250 students per school counselor, and that school counselors spend at least 80 percent of their time working directly with or indirectly for students. Across all schools, the average student-to-school-counselor ratio is 464 to 1. Summer School requirements also mandate a counselor to be onsite to work with students on SEL. Counselors are directly tied to social emotional learning. Leading professional development for staff on implementing restorative circles to degrade or eliminate academic learning barriers. High School- high quality assessments will be administered twice a year not including state required assessments. NC Check Ins for Math 1, Common Lit for English 10, and Case21 benchmarks for Math 3 and Biology will be used to determine student gaps and specific areas of struggle to drive teacher instruction. The therapist position will be filled by a licensed Social Worker/Licensed Mental Health Therapist who will run small groups and individual counseling as needed to Social and Emotional Support to students which is especially needed as a result of COVID, isolation and family loss and disruption because of COVID. Students mental health needs are needed more than ever.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Parent invitations for at-risk students to attend summer school Virtual parent meetings/training for K-5, 6-8, and 9-12 for online learning students Links to resources for academics and counseling services are available on school's websites; communicated to parents in a variety of ways (face to face, phone conversations, email, social media, dojo, newsletters, Title I parent nights, transition from elementary to middle, middle to high, and high to post-secondary parent information sessions) PreK teacher is needed better prepare children for the later years of learning. Data shows that Preschools have a positive impact on early learning. Due to covid the children have been at home and are behind in many areas. Preschools lay the foundation for reading and math as well as the social and emotional piece that the children need. We will be tracking data to show the direct correlation between attending prek and not attending as the children enter kindergarten. We already see an overall, however, we are going to keep it by individual preschool both county and TCS. We will continue to hold trainings for our parents to better understand how to help their students navigate the chromebooks and Google Classroom along with other platforms or programs used by the

various grade bands of students. By training the parents, they will better understand what the expectations are and ensure that the students complete assignments thus better performance and grades of the students.

* (D) Tracking student attendance and improving student engagement in distance education;

Transylvania County Schools will continue into 2021-2022 with our TCS Online Learning Path (OLP). Currently, we will have: 3 Elementary OLP teachers (K-1,2-3,4-5). Serving approximately 36 students. 3 Middle School OLP teachers (6th, 7th, 8th). Serving approximately 32 students. 4 High School OLP teachers (various sections). Serving approximately 29 students. *TCS will use ESSER III funds to hire 3 OLP teachers so we are able to meet NC Class Size Mandates. *In the OLP platform: -Student attendance is taken daily through Powerschool -Cameras will be required to be turned on for 21-22 to ensure active learners and to help with a strong SEL connection. -Under ESSER II, funds will be used to enhance OLP instruction with updated technology equipment Student attendance will be closely monitored to ensure that students are attending regularly both in person on virtual dep[ending on what the parent signed their child up for due to COVID. If a child is not participating online as expected, the child will be moved to in person learning with proper precautions due to COVID.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Transylvania County Schools will continue implementation of formative assessment tools to identify student learning gaps. Istation (K-5) IXL NC Check Ins (3-8 reading and math; math 1) Case benchmarks (Math 3 & Biology) Common Lit (English 10) Attendance will continue to be tracked in PowerSchool. Letters will be delivered for 3,5, and 10 day attendance. Social Workers and Principals will make hope visits to help with resolving issues with attendance. We will continue to take parents to court for intervention with the students and attendance. Due to the gaps in learning based on data, math materials for remediation and enrichment will be purchased to close the achievement gaps. The need for an EC TA is for additional support due to the rise in EC students. This position is needed to assist with meeting this populations learning needs.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$

11/9/2021 12:37:04 PM

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ● No				$ _____
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ● No				$ _____
		*Brevard and Rosman Middle	2021-2024		$ 1,042,500.72

| ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population. | * ◉ Yes ○ No | ~~Reeman Middle~~ Schools will each add an interventionist to provide support to our Tier 2 and Tier 3 students. *3 additional school counselors will be added to our highest needs schools. One full time counselor added to BES and one full time counselor to be shared between PFES and BMS. One additional counselor will be added as an interim for RES and then moving to TCH full time. *The middle school interventionists will be measured in effectiveness by analyzing student growth on NC Check In Benchmarks, Exact Path | | * School counselor data will be collected twice a year to determine if SEL supports and restorative practices are impacting students in a positive manner(November & April) *Data from formative assessments will be analyzed to identify specific learning deficits and student growth *Percentages of students not on track to graduate or be promoted to the next grade level will be compared against previous data The rise in the EC population has created a need for additional support creating need for TA | |

		diagnostic growth, daily student grades, EOG scores. *Data will be collected twice a year to analyze effectiveness. Comparing current referrals and other student services data with future student services data. *The LSCW/LCMHC position will be measured in effectiveness by analyzing our TCS SEL Screener, discipline reports, school counselor referrals. Growth in the TCS Online Learning Path will be measured by NC Check Ins, Reading/Math Diagnostics. The rise in EC			

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ⊙ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ⊙ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ⊙ No				$

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ⦿ No				$
	* ⦿ Yes ○ No		2021-2024		$ 740,774.62

| EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment. | | Interactive smart panels will go hand in hand with enhancing the teaching and learning for students to be engaged and better focused. This upgrade is in response to COVID and will be rolled out over a 3 year period. Teachers would not have had to move to virtual teaching full time had it not been for COVID. Instructional Technology is ineffective in teaching when the equipment doesn't work, and students can't hear the instruction. Teachers are teaching face to face and online simultaneously due to COVID. | | Better interactive teaching Higher scores from students More individual growth from students More effective teaching and learning The additional panels were added here where they had to be subtracted earlier. This was the original number of smart panels. | |

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ◉ No				$
SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ○ No	Transylvania County Schools plans to offer summer learning opportunities due to COVID and learning loss for 2022 and 2023, focused on growing struggling learners, but also providing opportunities to our grade level and advanced learners. Offerings at various elementary and middle schools will be "Theme" Based and offer a wide variety of topics (Space Camp, Coding Camp, Art Camp, etc). This amount was increased to	Summer 2022 and through Summer 2024	Data will be used to identify struggling learners needing summer enrichment. In addition, parents will be given the opportunity to sign up their child for a Theme offering. School Counselors, Admin and teachers may also make student referrals for these opportunities.	$ 520,539.37

		was increased to allow for summer learning opportunities in 2022,2023, 2024. Job Core Tutors were also added here at 15.00 per hour, 20 hours per week for 6 tutors. These positions have been posted but we have not interviewed. We had originally dedicated part of this funding for Math Coaches but we did not receive any applications. Therefore, we included tutors and additional funds for summer learning through 2024. Out overall goal is to grow the struggling learners due to COVID.			
		* Reading & Math Specialists	2021-2024		$ 1,054,983.71

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ◉ Yes ○ No	will work with Tier 3 students to address student weaknesses & provide explicit & structured interventions. Data will be analyzed with NC K-3 Reading Diagnostic, 4th-8th grade Diagnostic & Specialists will provide personalized PD to support teachers in reading strategies. *The reading diagnostic for grades 4 and 5. TCS wants to have the same diagnostic adopted in grades K-3 so schools can have streamlined data, vocabulary & processes. *The Academic/MTSS Coordinator will work directly with		*Growth measures for the Reading and Math specialists will be NC Reading Diagnostic scores, Teacher EVAAS growth, enVision Math Diagnostic growth, 3-5. NC Check Ins. *Growth measures from the reading diagnostic for 4th and 5th will be measured at BOY, MOY and EOY. *The Academic/MTSS Coordinator position will be measured in effectiveness by student growth on reading and math diagnostics, teacher surveys on support from this position, and NC Check in results. Indirect cost is being added here.	

work directly with the Reading & Math specialists to assist with support and identifying growth trends & strategies. *The LSCW/LCMHC Therapist will work in our high school setting to provide mental health supports to high school students. We have an influx of preschoolers trying to enroll. We currently have 3 PreK classes that are at max capacity with a waiting list. Therefore the need for an additional classroom with T and TA are needed. Need for additional support with EC - TA needed Due to the situation we are in with

		employees in TCS being exhausted in trying to meet the needs of our students as a response to COVID; it is reasonable and necessary to pay all employees a retention bonus for remaining with the school district. The devotion of our staff needs to be rewarded. We are going to pay full time employees who work 30 hours or more a week 1200.00 and part-time employees who work up to 29 hours a week 600.00. This bonus will be paid to all employees since it takes everyone doing their job for			

| | | the county to run effectively and efficiently. If a sub works for 8 days in a month between November 2021 and May 2022 a percentage will be paid to them for their dedication. The agreement will be if the employee leaves or is terminated before the end of the school year the bonus will be paid back. We plan to pay this bonus in 2 equal parts if the employee meets the criteria. Once in February 2022 as a retention bonus for the year and again in October 2022 as an incentive for returning. The morale of the teachers is at the lowest point and | | | |

11/9/2021 12:37:04 PM

		lowest point and this will be a small incentive to stick with the profession and things will be better after COVID. We also have a tremendous amount of trouble finding subs for the classroom when teachers are out sick. On any given day, we have 15 vacancies for subs and only 50% of those are filled. We are using teacher assistants to cover classes as well as admin in the building and central office staff to fill in the gaps. We have approximately 550 employees in the district who will receive the bonus. We have not been able to			

		fill a few of the positions we had written into the original plan. Retaining the people we have and encouraging them to remain with the school system during difficult times will help with not requiring hiring replacements. The need is great.			
				Total ESSER III Allotment	$ 3,358,798.42

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.

*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Transylvania County Schools (880) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

 There are no new applicants.

Transylvania County Schools (880) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Tyrrell County Schools (890) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

1. The process of conducting our educational needs assessment for Tyrrell County Schools started with the district leadership team. We reviewed the ESSER-I needs assessment and also reviewed the guidance and allowable expenses that were currently available for ESSER-II to craft the needs assessment for ESSER-II. The district created a survey and disseminated it via the district website to allow stakeholders to give input on the use of ESSER II funds. Feedback from the surveys in addition to previous needs assessments and current inventory was used in developing our initial needs assessment to determine the best utilization of ESSER II funding. District directors were asked to work with their individual departments to access immediate and long term needs that were or could be impacted by future closures or changes to school operations due to COVID-19. These areas included student support services, child nutrition, maintenance, transportation, exceptional children, Pre-K, curriculum and instruction, federal programs, human resources, testing/accountability and technology. School administrators were given a timeline to meet with staff at their sites to gather data and report their findings. They were also able to elaborate their needs during weekly meetings with the superintendent and district directors. They obtained and shared information about their individual school sites and presented their needs based on school level and current or projected site operations. Instructional

staff were asked to give input about staffing needs, strategies to address learning loss, resources needed and supplies desired to promote a healthy learning environment. Other staff members, such as librarians/media specialists, registrars and secretaries, were asked to conduct a list of needs that were either unique to their positions or common to the needs of administrators and instructional staff that were not previously mentioned. A draft of the ESSER-II needs assessment was shared with the superintendent's cabinet for suggested edits and revisions. The final ESSER-II needs assessment was disseminated to diverse stakeholder groups including principals, assistant principals, district administrative staff, exceptional children's department staff, teacher leaders, school social workers, school nurses, school counselors and parents. The ESSER-II needs assessment received various responses from a diverse group of stakeholders. The data was compiled to create graphs to drive the discussion around ESSER-II planning. Collaboration around the graphed data occurred with members of the school board, district leadership, and the superintendent. The data created a priorities list from each ESSER-II allowable area of focus. 2. TCS intends to assess and address student learning gaps resulting from the disruption in educational services due to the COVID-19 pandemic. While conducting our needs assessment with directors, schools administrators, instructional staff and parents. TCS identified several ways that we want to address learning due to changes in the operational structure of the district, chronic absenteeism, inequity related to internet access. a). Personalized learning interventions: personalized learning interventions would be a collaborative effort between instructional staff and regular or at-risk students. These flexible learning options for individual students will address academic needs and allow for differentiation between learners. This includes one-on-one, small grouping, individual coaching, increased instructional time (during school if applicable),or contract with specially trained professionals (if needed). b). After school tutoring: after school tutoring will allow for additional academic services to regular and at-risk students after the regular school day. Learning options for individual students will allow for smaller instructional groups to enhance in-school instruction. This includes addressing content specific needs in settings that could be one-on-one or in small groups. This time could also provide compensatory services for exceptional children. c). Additional or specialized instruction for EC, regular, and at-risk students: additional or specialized instruction after school will allow for additional academic services after the regular school day. Learning options for individual students will allow enhanced after-school instruction or services. This includes providing content instruction, compensatory services for exceptional children or occupational services for students. d). Increase staff for specialized populations: Language interpreters are needed to work with ESL students who are Spanish and Vietnamese speaking on the elementary and secondary level. Interpreter services will be needed to meet with/ inform parents about participating in any strategy to address student learning gaps, translate/ distribute information about opportunities to address learning loss or assessments in the native language. e). Summer enrichment: address learning loss and social-emotional health for at-risk students Pre K-12. Students will receive academic based instruction as well as encore courses (art, music, pe, stem) and go on field experiences. f).Purchasing additional educational resources: curriculum for math and reading, software to support and enhance instruction and training. Assessing student gaps and closures to those gaps will be done using diagnostic and

formative assessments. Previous performance data such as BOY, MOY, EOY, BOG, EOG, benchmark and the pass/fail grades from Power School data will be the best tools for establishing baselines.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

The process of data collection, interpretation and collaboration with stakeholders supported the need to continue with the implementation of systemic resources that were implemented in ESSER-I. Data analysis reflected the following areas of focus for ESSER-II funding: 1. Extend systemic instructional resources into grades K-12. Rationale: data has showed that the K-12 resources purchased with ESSER-I had a positive impact of students consistently with engaging in instruction, teachers were able to effectively collaborate and plan within district wide PLCs to target and address student deficiencies in both face to face and virtual environments, this was not as prominent on the secondary level. 2. Implement systemic core reading curriculum which includes grammar instruction and instructional resources K-6. Rationale: the district did not purchase a systemic curriculum for the elementary grades with ESSER-I, the data indicated lower student performance compared to Math. Instructional resources will be needed to supplement and address this. 3. Provide instructional resources for our most vulnerable groups including EL, Migrant, Immigrant, and EC. Rationale: ESSER-1 provided systemic resources to regular education teachers, teachers serving subgroups of students needing additional support due to limited English proficiency, significant interruptions to formal education, and learning disabilities were still using outdated curriculums while attempting to help provide a bridge for their students to access the core curriculum in either face to face or virtual environments, these teachers have to have curriculum materials that effectively supplement core curriculum in order to effectively serve and impact the performance of these identified subgroups. 4. Provide instructional resources that will facilitate integrated learning in core subject areas, arts, world languages, dual languages, and social emotional learning. Rationale: COVID-19 precluded the opportunity for robust instruction in these areas, it was determined that strategies and resources should be purchased and used to embed these subjects and positively impact student engagement and achievement 5. Provide a curriculum that will address the needs of Tier III students. Rationale: A K-8 core ELA curriculum was put in place with ESSER-I with data to indicate that it is positively impacting student performance, students exhibiting concerns with accessing core curriculum prior to COVID (low performing students in traditionally low performing subgroups) are significantly further behind and will require intensive intervention strategies to keep pace with typically performing peers. 6. Complete the provision of adequate hardware and software initiated with ESSER-I as well as provide additional support at school sites for the seamless expansion of technology in the classrooms and at home. Rationale: the integration of technology is critical to student success in both the face to face and virtual environment, therefore our efforts in this area must be maintained and increased. 7. Maintain the staffing level of the district to ensure adequate class size ratios for the

facilitation of student learning. Rationale: classroom environments that are conducive to student learning are imperative to student success, the availability of lower student to teacher ratios and small group instruction are results based interventions. 8. Initiate actions to address clean air flow Rationale: a thorough review of school facilities and the needs assessment indicate that repair and replacement of equipment and units is necessary so that recommendations in this area are fulfilled (HVAC, chillers and boilers, AC, windows, roof and wall damages that disturb air flow, removal and replacement of items deemed hazardous,etc). 9. Initiate repairs to buildings that produce exposure to environmental health hazards. Rationale: a thorough review of school facilities and the needs assessment indicate that repair and replacement of roofs, walls, carpets and removal of asbestos is necessary 10. Continue to implement and expand actions to support the social emotional and health needs of students and staff through mental health services, additional social workers, and additional nurses Rationale: ESSER-I allowed us to provide contracted nurses, an additional social worker and contracted mental health support, a master service spreadsheet and the needs assessment indicates that these services are still needed through ESSER-II. 11. Provide additional support to school sites in identifying Tier III students through the integrated academic and behavior support (IABS) services. Rationale: COVID 19 has slowed down the process of identifying students who may require services under IDEA, in an effort to remedy this, ESSER-II will be used to provide additional school psychologist for evaluation and support of identified mental health needs. 12. Provide PD for instructional resources initiated in ESSER-I and extended in ESSER-II as well as PD in instructional Rationale: school leadership and teacher feedback in district PLCs and student performance data indicate the positive impact of PD associated with implementation of new instructional resources, sustained PD is critical for the proposed curriculum updates and technology integration. PD supporting the implement 13. Continue and expand training and support to parents and families around academic support, response to trauma, technology, social emotional learning, early intervention, and mitigation of the virus. Rationale: active partnerships with parents have been essential in addressing learning loss, SEL skills that are lacking, and alignment of school and home practices, ESSER-II will be used to extend and deepen these partnerships, district survey data indicates that parents need both training and support. 14. Provide intervention and opportunities for extended learning during the summer, after-school, regular year

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 241,857.60 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among

students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

The district will use any universal screeners that are required by NCDPI in addition to Benchmark Data, BOY, MOY, EOY data and teacher assessments. The aim of these assessments are to progress monitor instruction and improve student performance. Teachers will most often use formative assessments to progress monitor modules of learning to help them understand how each student is progressing so the teacher can clearly plan next steps for the class as a whole and for small groups of students and individuals. Used 3 times of the year are our large-scale assessments which include pre and post. They determine whether students have met learning goals. Our pre-assessments or beginning of the year assessments evaluate important prerequisite knowledge and help our teachers determine a range of needs . We use the post or summative assessments at the end to determine the level of mastery each student has achieved. All assessments are based on the curriculum guides for each grade level from NCDPI. We encourage the use of released tests and practice tests provided on the NCDPI website as practice tools.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Restructure daily schedule to provide around a minimum of 1 hour of daily tutoring in addition providing after school sessions in an effort to extend thed school day. Data shows this strategy has high in meaningfully close gaps in achievement in the areas of math and reading for most struggling students. High-dosage tutoring tied to classroom content can substantially accelerate learning in both math and reading for the most struggling students . Extended learning time interventions, including weeklong acceleration with highly effective teachers and some double dose math structures, show strong evidence of effectiveness. Provide struggling students with targeted, smallgroup instruction in a single subject, Create homogenous ability groups of around 10-12 students and provide 10-15 of extra content instruction. The extra time will enable teachers to provide intensive instruction. Monitor for early student warning signs paired with strong norms and routines help students recover emotionally and engage academically. Look for those who have regular disruptions in teaching and then learning with the shift to remote learning, but also stress and trauma from the crisis itself, and loss in family financial resources. Identify students who need support for any reason. Teachers will increase more supports particularly for low-achieving students to help them continue to make strides towards achievement. Provide mental health services via more school social workers Provide translators/interpretive services for ESL students who need assistance or have been identified as needing services

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Regular and English learners face inequitable access to learning in many formal educational contexts, and those inequities are exacerbated by the demands of virtual learning. The district, schools and teachers are always working to find ways to help regular and English learners continue their English language development as well as learn content, and there are many existing online resources that English learners and their families can access. The district has identified a running list of tools that may be used during virtual learning. We have also created a tutorials page for parents/guardians who may need assistance in learning about those virtual learning tools. The list is updated as training is completed and more resources are available. We also provide guidance on what parents and family members can do at home to work with their students. These are posted on school websites and any school based social media platforms. They can: read to their child at home. For ESL- read to their child in their home language. Research shows that children who are read to in their native language will have an easier time learning to read in the second language. All families can think aloud as they read together with children. This is a method in which the parent talks through their thoughts as they read. All families can incorporate writing at home, such as: writing a letter to a family member, read a part of the book and have their child write their own ending to the story or having their child illustrate the story by drawing part of the story and then writing a few sentences below the drawing that tells them All families can incorporate cooking into content lessons. These lessons can incorporate reading, math, and science. All families can incorporate physical activity to resemble PE class. Counting exercises, chores, afternoon, and morning walks. Filming activities so students can see themselves doing them, The district also provide\s a list of free learning websites that our employees may utilize. This is includes: BrainPop offers videos and quizzes to students at no cost to families. Resources available for ELs include: BrainPOP ELL (focuses on grammar and vocabulary) and BrainPOP Español (for Spanish-speakers who are learning English) Khan Academy provides some supports to parents and educators for all grade levels in 40 different languages.

* (D) Tracking student attendance and improving student engagement in distance education;

Tracking student attendance includes:. At least one weekly "live" checkpoint between the teacher and students, although the format varies. Monitor/track participation through submission of assignments. Tracking participation in live virtual instruction When a student is not present for a checkpoint or does not turn in an assignment, the teacher follows up with the family by e-mail or phone and then escalates calls to school leaders or support staff when a student is unreachable. Prioritize wellness and social and emotional learning over participation in remote learning. I Strategies for improving student engagement: Track time and adjust (increase/decrease) on a learning platform, Time watching videos (in hours),Number of videos accessed, Number of login sessions per week, Mean length of session (hours), Mean time between sessions (hours) , Quiz submission timeliness , Proportion of session time spent watching videos , Average platform time per week , Number of revisited video lectures, Number of discussion forum visits, Number of forum contributions, Percentage of time spent on quizzes, Determining the use of synchronous or asynchronous learning based on instructional need I Provide instructor presence and opportunities for interaction Provide

opportunities to interact with peers Provide use of problem- or project-based learning Opportunities to practice or test skills Give students opportunities for feedback through discussion Alter frequency or quantity of online learning activities completed based on current levels Administer engagement surveys to students, families and teachers to inform improvements to their distance learning plans and supports Providing a device for all students for online learning such as a laptop or a tablet. Deliver wraparound supports academic and non-academic

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Review student access to the internet to determine consistency Review/determine if teachers have received targeted training and support for online instruction. Review data of students and determine if learning needs to be personalized, and sufficient resources are available. Reduce/ increase learning time to determine the amount and quality of learning through extended schedules, summer enrichment and after-school activities, more personalized instruction, and staffing strategies that reduce class sizes and staff schools with sufficient and highly credentialed educators. Review attendance and suggest strategies for decreasing chronic absenteeism reinforce the urgency of providing appropriate support to those at risk of becoming disengaged and eventually dropping out. Research shows that a lack of contingency planning exacerbates the negative impacts of recessions, natural disasters, and pandemics on learning. Contingency planning thus needs to be institutionalized and include emergency funding to replenish the resources drained during emergencies.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ◉ Yes ○ No		June 1, 2021 - September 30, 2024		$ 42,005.00

		repairing and improving school facilities to reduce risk of virus transmission and exposure to environmental health hazards; Electrical, plumbing renovations, new construction or even roof replacements to convert portions of a building to additional academic or dining space Implementing facilities improvements to support remote learning or concurrent learning		Facility improvements to assist in combatting Covid-19 spread and reopening schools safely by thoroughly cleaning and maintaining healthy facilities. Sites will the reports from the most recent inspections and the newly adopted COVID protocols toolkit to drive facility improvements. Maintenance while conduct a monthly report of issues that they identify needs, recommend upgrades, make repairs and or upgrades. They will place orders and keep an inventory of performance logs, supplies, and reports	
		HVAC renovations and replacements			$ 225,000.00

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ○ No	at all of the district's three schools. These revocations will improve air quality in all of the buildings. Four of the units will be installed in the TES Cafeteria,TES Art Room,TES Music Room, and CTE room 606 the Scope of work for heat pump would be: 1. Remove and dispose of existing equipment. 2. Install a new 18 SEER energy efficient heat pump. 3. Inspect existing ductwork for air leaks 4. Seal and re-insulate as needed. 5. Install high efficiency air filters. 6. Start up and warranty registration by contractor. 7.	June 1, 2021 - September 30, 2024	Upon the instillation for new HVAC systems, air quality professionals will come to the district twice a year for the first two years and annually after. They will take taking air samples and compare them to the outside air and determine if air quality is standard. We will keep records of these air quality reports to determine a log of the air quality inside each site.	

		Maintenance and service conducted by the school Maintenance Department according to manufacturer recommendations. Scope of work for replacement carrier chiller: The new proposed 130 ton chiller shall provide proper cooling and humidity control for the high school building. Piedmont Service Group will provide the chiller and the pricing (Quotation: Q-6-2021-141855). Base price for installation for chiller for the sum.......... $121,801 Carrier chiller specifications: · DX cooling, · Freeze protection,· Al fin/Cu tube coil , Ultra-low sound			

option, · Suction line service valves , Coil protection trim panels Clarifications: Price is based on normal working hours and complete access to the building during replacement of the unit(s) No repairs to existing mechanical equipment 13-15 week estimated delivery from manufacturer 1. Removal and disposal of the existing Carrier chiller unit to EPA standards 2. Installation of a new Carrier 130 ton air cooled packaged chiller- M# 30RBX130 3. Fabrication and installation of new welded black iron piping to mate to existing supply

| | | and return CW piping 4. New heat trace freeze protection included 5. All new piping shall be wrapped with fiberglass insulation and wrapped with a weatherproof metal jacket 6. Installation of new thermometers and pressure gauges 7. All high voltage electrical included 8. All low voltage wiring disconnection and reconnection are included 9. Project Management and coordination with Tyrrell County Schools personnel 10. Unit logistics and mobilization included 11. Crane services included- Crane to utilize front parking lot over the building and set unit on | | | |

		set unit on existing concrete pad 12. All labor and miscellaneous materials included 13. Cleanup and removal of all debris at work site 14. Factory start up and commissioning			
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ⦿ Yes ◯ No	Continue to implement and expand actions to support the social emotional and health needs of students and staff through mental health services, additional social workers, and additional nurses	June 1, 2021 - September 30, 2024	The LEA will use the following measures to determine the degree of impact for coordination and response: Parent/student Needs Survey Intervention logs Contact logs notes Notifications from Blackboard by then district Correspondence from the School Nurse who will act a Public Health Agent	$ 3,000.00

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ○ No	Language interpreters and translator services are needed to work with ESL students who are Spanish and Vietnamese speaking on the elementary and secondary level native language. Provide instructional resources for our most vulnerable groups including EL, Migrant, Immigrant, and EC, provide a curriculum that will address the needs of Tier III students. Provide additional support to school sites in identifying Tier III students	June 1, 2021 - September 30, 2024	The LEA will use the following measures to determine the degree of addressing the unique needs of special populations: Parent/student Needs Survey Intervention logs Contact logs from EC teachers with notes Contact logs from ESL teachers with notes Service Time Logs for students ESL /EC Data that includes progress monitoring of students progress	$ 10,000.00

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ⦿ Yes ◯ No	Continue to implement and expand actions to support the social emotional and health needs of students and staff through mental health services, additional social workers, and additional nurses	June 1, 2021 - September 30, 2024	The LEA will use the following measures to determine the degree of impact for coordination and response: Blackboard frequency reports Power School data (updated) for response (addresses and phone numbers) Parent/student Needs Survey Intervention logs Contact logs notes Notifications from Blackboard by then district Correspondence from the School Nurse who will act a Public Health Agent	$ 2,000.00

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ◉ Yes ○ No	Professional Development in mitigation of COVID and other viruses	June 1, 2021 - September 30, 2024	The LEA will use the following measures to determine the degree of impact for training to minimize transmission: Participant Surveys about the trainings PD records of attendance transmission plan being written into the district PD plan Evaluations of custodians and are they ability to replicate what they learned in training logs of service equipment inventory cleaning schedule invoices from services provided	$ 3,000.00

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	Sanitizing equipment, Cleaning Equipment Part time custodians to operate on a stagnating or alternative schedule and/or cleaning services contracted outside of the LEA	June 1, 2021 - September 30, 2024	The LEA will use the following measures to determine the degree of impact for supplies to sanitize and clean: Logs of service for cleaning Monthly equipment inventory Weekly/Monthly cleaning schedule Invoices from services provided Invoices from products ordered	$ 37,500.00
	* ◉ Yes ○ No	Extend systemic ELA instructional resources into secondary grades. Implement systemic Math instructional resources K-12. Provide instructional resources for our most vulnerable groups including EL, Migrant, Immigrant, and EC. Provide instructional	June 1, 2021 - September 30, 2024		$ 5,000.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.		instructional resources that will facilitate integrated learning in core subject areas, arts, world languages, dual languages, and social emotional learning. Complete the provision of adequate hardware and software initiated with ESSER-I as well as provide additional support at school sites for the seamless expansion of technology in the classrooms and at home. Continue all efforts initiated under ESSER I for provision of meals during extended closure and hybrid settings.		The LEA will use the following measures to determine the degree of impact for long-term closure activities: Results from Parent/Stakeholder Surveys Results from Staff/Student Surveys Participation Data in the surveys Virtual Observations Administrative Surveys Minutes/logs from Planning Meetings Developed Google Forms to identify technology needs Service time logs	

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ◉ Yes ○ No	brand new Chromebooks for students, audio equiptment, hotspots, tablets, new document cameras for in person and virtual learning, and additional software for students and teachers.	June 1, 2021 - September 30, 2024	The LEA will use the following measures to determine the degree of impact for education technology current inventory of technology needs itemized invoices from orders projection allotments of costs for devices and software for teachers/students	$ 151,500.00
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◉ Yes ○ No	Mental health supports through local and telehealth agencies for staff/student counseling sessions and support groups social and emotional wellness.	June 1, 2021 - September 30, 2024	The LEA will use the following measures to determine the degree of impact for mental healthn services: Reports from interventionists indicated number of students and families served.	$ 64,588.00
					$ 100,000.00

| SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care. | * ◉ Yes ○ No | Summer Learning for TCS will take paces over the month 4 week period. All summer learning will provided face-to-face. Schools administrators will been plan with district administration to meet all of the requirements as required by NCDPI or the local LEA board of education. The emphasis for summer learning will be in the content areas of science, reading and math but will also have a socio-emotional aspects by providing participation in elective course and the CATS program. | June 1, 2021 - September 30, 2024 | The LEA will use the following measures to determine the degree of summer learning for closing achievement gap: Allow for re-testing based on current accountability measures. Compare pre and post COVID results based on NCDPI curriculum and accountability standards A decrease learning loss due to virtual learning A decrease mental/behavioral supports needed for at-risk students Normalize re-entry to regular school setting Provide intensive support for ESL students. | |

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ○ No	Media Coordinator Completion of capital needs project that will address the issue of small space at the secondary level. This will expand student/teacher learning space, allow for social distancing, advance new learning opportunities and provide community space COVID Retention Package (bonus)	June 1, 2021 - September 30, 2024	The LEA will use the following measures to determine the degree of impact for other ESSA eligible transmission: Logs of community use of space Increase the need for social distancing Updated (21st century) workspace for students/teacher Smaller class sizes for more intimate learning and social distancing.	$ 323,837.40
				Total ESSER III Allotment	$ 967,430.40

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Tyrrell County Schools (890) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

Tyrrell County Schools (890) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Union County Public Schools (900) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Our district spent a great deal of time listening to and encouraging feedback from our stakeholders, community partners, and school leaders regarding the best uses for improved student achievement related to but not limited to learning loss. The district scheduled virtual meetings with parents, teachers, staff, principals, students, and board of education members to discuss ESSER II funds, the specific guidelines and rules associated with the funds, and how best the district could utilize those funds to support students, principals, families, and the district related to learning loss and academic achievement. Additionally, our academics department used disaggreated data to determine failure rates, decrease attendance, achievement gaps and the affects of remote and blended instruction on both attendance and achivement amoung students in grades K-12. Likewise, our Student Services department utilized Social Emotional rating scales completed through a program called Panarama to deterime the effects of COVID on the physical and emotional well-being of our students. 2). After a thorough analysis of data, feedback from all stakeholder groups, and many hours of data diving, Union County Public Schools has determined the following uses for ESSER II funds that will target learning loss while embracing the Social and Emotional well-being of our students. Moreover, a majority of the funds will be used to support intensive interventions, robust summer learning programs for multiple

years, and to enhance intervention efforts throughtout hte 21-22 school year and the subsequent years (2022-23 and 2023-24) to follow.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

A thorough analysis of summative and formative data including BOG-3 and ACT, it was determined that there was significant learning loss among students of UCPS. Due to limited data from Standardized Testing, our district looked closely at BOG-3 and ACT data to a demonstrate the level of learning loss that has occured as a result of COVID-19. The data is below: Year UCPS BOG3 Proficiency 2015-2016 39.0 2016-2017 38.3 2017-2018 36.0 2018-2019 35.2 2019-2020 34.8 2020-2021 24.1 Table 2. UCPS BOG3 Results 5-Year Trend Key Findings: - The district's current proficiency rate is 24.1. - UCPS's current proficiency rate fell 10.7 percentage points as compared to the results from 2019. - All schools with the exception of Prospect witnessed a decrease in CCR as compared to the previous year. - All schools with the exception of Prospect witnessed a decline in GLP as compared to the previous year. ACT: Key Findings: - UCPS's average reading score decreased 0.7 points as compared to the previous year. - UCPS's average Reading score is 1.9 points higher than the state average. - Four schools (CATA, Piedmont, Porter Ridge, and South Providence) witnessed increases in Reading scores in 2020-21 as compared to the 2019-20 school year

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 5,276,551.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

To address learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care,Union County Public Schools will utilize ESSER III funds for targeted tutoring, intensive and directed interventions during the regular school day, extended school day, during the summer, and other opportunities that may arise. With K-5 students, UCPS will comply with the NCDPI's Comprehensive Plan for Reading Achievemnet. Additionally, ESSER III funds will be used to support increased and targeted counseling and academic supports for ESL, students identified as EC, and those at risk of homelessness or already experiencing homelessness. Likewise, ESSER III funding will be used to employ additional Psychologist , Social Worker, nurses, and and other health-related specialist to support Social Emotional learning for students at risk of failure, students in transition, students in foster care, and ethnic minorities. Lastly, UCPS will use ESSER III funds to provide increased opportunities for connectivity and club/sponsorships.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

ESSER III funds will be used to support the implementation of evidence-based activities to meet the comprehensive needs of students by utilizing the following assessments: iReady, NCCheck-ins, Orton Gillingham, iStatiton, APEX, CORE Phonics, and Running Records

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Additional support for parent and family engagement activities district-wide,

* (D) Tracking student attendance and improving student engagement in distance education;

UCPS will utilize ESSER III funds to employ additional Student Outreach Positions as well as addtional attendance counselors to monitor and track student attendance.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

UCPS will continue to utilize the district MTSS Data Dashboard to monitor and track student progress of the lack there of. The analysis will be evaluated to inform the district's yearly Needs Assessment and decision-making as it relates to programming and staff.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how

you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ⦿ No				$

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◯ Yes ⦿ No				$
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ◯ Yes ⦿ No				$
		English Learners, racial and ethnic			$ 7,802,554.00

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◉ Yes ⦿ No	racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care,Union County Public Schools will utilize ESSER III funds for targeted tutoring, intensive and directed interventions during the regular school day, extended school day, during the summer, and other opportunities that may arise. With K-5 students, UCPS will comply with the NCDPI's Comprehensive Plan for Reading Achievemnet. Additionally, ESSER III funds will be used to support increased and targeted counseling and	06/14/2021-09/30/2024	Increased student performance on formative and summative assessments.	

		academic supports for ESL, students identified as EC, and those at risk of homelessness or already experiencing homelessness. Likewise, ESSER III funding will be used to employ additional Psychologist , Social Worker, nurses, and and other health-related specialist to support Social Emotional learning for students at risk of failure, students in transition, students in foster care, and ethnic minorities. Lastly, UCPS will use ESSER III funds to provide i			

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ● No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ● No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ● No				$

11/9/2021 3:37:02 PM

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ◉ No				$ [ ]

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ⦿ Yes ◯ No	To increase the number of devices to ensure all students have equitable access to high quality technology as well as the abiltiy to connect to the Internet using district provided Hot Spots. This will increase the capability for hybrid instruction.	06/14/2021- 09/30/2024	Survey data for parents, staff, students, and other district stakeholders.	$ 903,650.00
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ◯ No	Additional supports in the way of school counselors, social workers, nurses, and other health-related supports to target the social and emotional needs and well-being of our students.	06/14/2021- 09/30/2024	Panarama Data PowerSchool Educator's Handbook	$ 1,240,000.00

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ◯ No	ESSER III funds will be used to fund a robust summer program to combat learning loss for the 20-21 school year as well as 21-22 and 22-23. These supports will be used for all students with a significant focus on low income, students with disabilities English Learners and those at risk of homelessness or living in foster care.	06/14/2021-09/30/2024	Increased student performance on formative and summative assessments.	$ 11,160,000.00
	* ◯ Yes ◉ No				$

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.					
			Total ESSER III Allotment	$	21,106,204.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Union County Public Schools (900) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

Union County Public Schools (900) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Vance County Schools (910) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Part 1 1. 0 out of 16 have a sufficient outdoor dining and learning space. 2. 0 out of 16 schools have a sufficient Face-to-Face Summer Learning Opportunity to support student learning loss in all subgroups. 3. 0 out of 16 schools have sufficient mental health staff and wellness space to support families and students in times of crisis. 4. 0 out of 16 schools have a school wide Social and Emotional program to support students of all subgroups. 5. 0% of the VCS administrative staff have had sufficient effective professional development to address the areas of curriculum oversight, operational systems, and organizational effectiveness. 6. 0 out of 16 schools have researched based tutoring and enrichment programs. 7. 0 out of 16 schools have a student data tracking system to identify student learning loss. 8. 0 out of 16 schools have sufficient resources to address student learning loss for students of all subgroups. 9. 100% of VCS teachers have been trained on currently used instructional programs used by VCS. 0% of new staff has been trained on currently used programs and 0% on newly purchased programs and resources. 10. 15 out of 16 schools need infrastructure upgrades to accommodate the 1:1 initiative. 11. 71% of the students in VCS have received a new Chromebook device and supplemental equipment for instruction purposes. 12. VCS will increase 1:1 initiative quantity by 15 % to support incidentals (breakages, manufacture defect, and losses) 13. 0 out 16 schools have replacement devices to fulfil their 25 % replacement cycle. 14. 0 out of 16 schools have sufficient internet connectivity for students to

participate in remote learning. 15. 0 out of 16 schools have sufficient and effective classroom management and instructional software. 16. 0 out of 16 schools have uninterruptible power supply systems. 17. 0 of out 16 schools have sufficient technology resources to support simultaneous face-to-face and remote instruction. 18. As a virtual learning option, 100% for Vance Virtual school staffing salaries rendered will be paid. 19. 100% of extra duty stipends, Temporary positions, and time and effort portions of salaries will be paid for COVID related activities. 20. 0 out of 16 schools have an environment that is assured to meet the needs of all students of all subgroups. 21. 15 out of 16 schools need a continuous sufficient PPE supply and sanitation supplies at their schools for COVID related purposes. 22. 100% of the VCS staff has been trained on effective cleaning and disinfecting processes. 0% of new staff have been trained in these processes. 23. 0 out of 16 schools have sufficient, effective HVAC equipment. 24. 0 out of 16 have a current (less than 2 year old) Comprehensive Needs Assessment 25. 0 of out 16 schools and the District will have a more enhanced and creative parent engagement program that will give stakeholders opportunities to help inform decision making and access to Face-to-Face and Remote learning instructional support. 26. 0 out of 16 schools have sufficient and effective internal emergency protocols and procedures with adequate working equipment. 27. 0 out of 4 High Schools do not have a tuition reimbursement and incentive programs for leadership planning 28. 0 out of 16 schools will provide an effective and positive transition program for all grade spans every year. 29. 0 out of 15 schools has carpet that does not exhibit extreme signs of mold or smell that contributes to inadequate air quality. 30. 0 out of 16 buildings have bathrooms that are adequate and safe for all students and staff. 31. 0 out of 16 schools has enough food to supply students by Child Nutrition because of problems in the supply chain, extra cost, and shipping. 32. Additional technology support is needed to work on the Network Infrastructure. 33. 4 out of 16 schools have IT technicians to deploy computers to students and staff and make repairs to those computers. Part 2) K-3 Literacy will continue to use the state RtA assessment to assess learning loss and gaps resulting from disruption in educational services. K-5 Literacy will continue to use i-Ready Diagnostic assessments to assess learning loss and gaps. A new assessment program addressing learning gaps for academic and Instruction recovery will be purchased, so educators will have easy access to all data sources that inform daily decisions. Phonemic Awareness Instructional Resources: Kindergarten: Heggerty Phonemic Awareness Curriculum 2020 First Grade: Heggerty Phonemic Awareness Curriculum: Primary 2020 Second-Fifth: Heggerty Bridge The Gap, intervention lessons for Phonemic Awareness Phonics Instructional Resources Kindergarten: Kindergarten Letterland and Letterland Decodable Text Sets 1st Grade: 1st-Grade Letterland and Letterland Decodable Text Sets 2nd Grade: 2nd Grade Letterland and Letterland Decodable Text Sets 3rd-5th: Phonics and Spelling Through Phoneme-Grapheme Mapping Comprehension: Continue use of Ready and Learning A-Z for K-5 Literacy. Grade 9: Read 180 9-12: Continue use of Actively Learn; expand to include universal screener for reading Math K-8 Math will continue to use i-Ready Diagnostic assessments to assess learning loss and gaps. Grade 9: Expand iReady Grade 9: Math 180 EL/Migrant K-12: GrapeSEED Exceptional Children PreK-12: Goalbook K-3: Spire PreK-12: Unique Learning System

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

1. Schools do not have a sufficient outdoor dining and learning space to extend learning and dining spaces. 2. There are no Summer Learning Opportunities for students to focus on student learning loss. 3. Schools do not have sufficient Mental Health staff or Wellness Space to support families and students in times of crisis. 4. Schools do not have a school wide Social and Emotional program to support students of all subgroups. 5. Training is needed for the VCS Administrative staff in areas of curriculum oversight, operational systems, and organizational effectiveness. 6. Schools do not have a researched based tutoring and enrichment program. 7. Schools do not have a student data tracking system to identify student learning loss. 8. Schools do not have sufficient resources to address student learning loss for students in all subgroups. 9. Training is needed for all staff newly purchased instructional programs and for new staff on currently used programs. 10. Schools need an infrastructure upgrade to accommodate the 1:1 initiative. 11. New and existing students and staff who currently do not have electronic devices need Chromebook devices and supplemental equipment for instructional purposes. 12. VCS needs additional devices to continue the 1:1 initiative in order to support instruction and incidentals. 13. VCS will replace 25% of their devices each year for 4 years to keep the devices current. 14. With the transition from Remote Learning to Face-to-Face, students continue to have wifi internet needs. 15. Schools do not have effective classroom management and instructional software to support student learning loss. 16. Schools do not have an effective uninterruptible supply system to prevent outages during face-to-face and remote instruction. 17. Schools do not have sufficient technology resources to support simultaneous face-to-face and remote instruction. 18. All salaries rendered by Vance Virtual staffing will be paid. 19. Contracted, existing staff, time and effort portions of salaries and temporary staff will be paid for services rendered. 20. Schools will be assessed to determine a favorable environment to meet the needs of all students in all subgroups. 21. Schools will have a continuous sufficient supply of PPE and sanitation supplies at all times. 22. New and existing staff will be trained or retrained on effective cleaning and disinfecting processes. 23. New HVAC equipment will be installed in schools to upgrade the efficiency of the equipment. 24. Schools will be having a detailed Comprehensive Needs Assessment completed. 25. A enhanced and creative Parent Engagement program will give parents and guardians opportunities to help with decision making and better access to Face-to-Face and Remote Learning instructional support. 26. Schools will be putting into place more effective internal emergency protocols and procedures with adequate working equipment.. 27. There will be a program put in High Schools to reimburse tuition and give incentives for succession planning for leadership. 28. All schools will put in place an effective and positive transition program for all grade spans every year 29. New carpet will be place in any building where the carpet is over 20 years old to improve air quality and reduce the signs of mold. 30. Bathroom facilities in buildings built prior to 1950 will be upgrade and include spatial improvements to ensure adequate and safe restroom access to students and staff. Should there be a need, buildings built between 1950-1960 will be evaluated next. 31. To cover any excess cost with Child Nutrition because of the increased cost of food due to supply and demand, extra cost, and shipping. 32 The district will hire a Network Engineer and IT Security Specialist to ensure

safe and efficient operations of the network and protect the district from security vulnerability. 33. To increase the number of adequate and working computers for students and staff.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 4,888,630.20 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

K-3 Literacy will continue to use the state RtA assessment to assess learning loss and gaps resulting from disruption in educational services. K-5 Literacy will continue to use i-Ready Diagnostic assessments to assess learning loss and gaps. K-8 Math will continue to use i-Ready Diagnostic assessments to assess learning loss and gaps. 3-8 NC Check-Ins for Reading and Math will be used to assess academic progress and mastery (3 times per year) Math I Check-In (twice per year) 9-12: Expand Actively Learn to include universal screener for reading 9-12: Incorporate a universal screener for Math K-12 WIDA Assessment for EL to access learning loss and gaps (Pre and Post assessments). K-12 ACCESS Assessment for EL to access learning loss and gaps. EC PreK-12: Unique Learning System testing for EC to access learning loss and gaps.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Phonemic Awareness Instructional Resources: Kindergarten: Heggerty Phonemic Awareness Curriculum 2020 First Grade: Heggerty Phonemic Awareness Curriculum: Primary 2020 Second-Fifth: Heggerty Bridge The Gap, intervention lessons for Phonemic Awareness Phonics Instructional Resources Kindergarten: Kindergarten Letterland and Letterland Decodable Text Sets 1st Grade: 1st-Grade Letterland and Letterland Decodable Text Sets 2nd Grade: 2nd Grade Letterland and Letterland Decodable Text Sets 3rd-5th: Phonics and Spelling Through Phoneme-Grapheme Mapping ELA/Comprehension: Continue use of Ready and Learning A-Z for K-5 Literacy 6-12: Continue use of Actively Learn 9-12: Incorporate Language of Thinking online learning community (Thinking Maps) Math K-8: Continue use of iReady/Ready K-12: Continue use of IXL 9: Expand iReady 9-12: Continue Carnegie Math 9-12: Expand Actively Learn

to include Math in support of Tier 2 instruction ESL K-12: GrapeSEED K-12: ReadWorks Exceptional Children PreK-12: Goalbook K-3: Spire PreK-12: Unique Learning System

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Each month, the VCS Parent Involvement, the Exceptional Children and EL/Migrant departments conduct virtual meetings to educate parents on various topic related to helping their child increase students achievement, Social/Emotional assistance for parents and students, professional development for online resources we are using for remote learning,where they can find WIFI assistance and what to do if they have trouble with their electronic devices, and resources to survive during COvID. Each time there is a meeting, it is recorded and placed on the VCS website for future reference. Also, the facilitator shares their screen and shows the attendees, exactly where to find the information they had been referring to in the meeting.

* (D) Tracking student attendance and improving student engagement in distance education;

At the present time, the only way we have to track student attendance is through PowerSchool or by running the analytics report on the various instructional platforms such as Edmentum, Google Classroom, Zoom, etc. VCS has purchased GoGuardian to help ensure students are logged onto the appropriate website and the teachers have the ability to disconnect and redirect them when they are off-task online. This will improve student engagement and help with learning loss by keeping students focused on the academic lesson they are covering at that time. A committee was formed to explore and implement strategies to address attendance. As a result, the district designed billboards around the community to encourage students to attend school and developed a process to reconcile attendance records.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

VCS will be purchasing a high quality program that will have a baseline indicator to determine where our students are. It will give teachers easy access to all data sources that inform daily decisions. Teachers will be able to retrieve data related to social and emotional well-being, attendance, discipline, and student achievement-disaggregated by subgroup-to make informed decisions when developing support for each student. The progress monitoring component will allow teachers to establish goals and make sure learning gaps are filled. It will provide teachers and administrators with real-time visual reports, intervention lists, and student dashboards. VCS has other assessment programs, but this one will allow teachers to identify students in need of assistance, design targeted interventions, and spot trends in their classroom.

Part D: Other Allowable Uses

11/10/2021 2:11:27 PM

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No		Summer 2021 and Fall of 2023	Reduce time needed for meals due to expansion of space. Expansion of learning spaces as a means of reducing student ratios To help students and families learn to cope with all the social and emotional issues that have risen during the	$ 2,025,000.00

| | | Purchase of outdoor furniture to expand dining and collaboration spaces Touch less Plumbing/Water Fountains to minimize transmission points in facilities Development of outdoor learning spaces on each campus to extend learning in a safe environment Development of Health and Wellness centers at all sites to enhance social emotional wellness of staff and students Upgrade and Spatial improvements to restroom facilities to buildings built prior to 1950 to ensure adequate and safe restrooms for students and staff. Replace carpet that is older that 20 years old to reduce signs of mold and air quality. | | pandemic. Restroom improvements will reduce the number of students and staff being put in unsanitary conditions and reduce repairs. Carpet improvements will increase the number of rooms being used for students which in turn will reduce class size. | |

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ○ No	Installation of GPS systems in Air Handling equipment throughout the district. Replace or upgrade HVAC equipment where needed to maximize the efficiency of this equipment. Addressing other Air Quality Issues after getting assessment, etc. (could be replacing carpeting, etc. that could trap and hold viruses, etc. to improve air quality) Replace filters regularly with MERV filters to reduce air borne particles.	Begin in the summer of 2021 until December 2022	Monitor areas for air exchange with fresh outside air vs areas with limited capacity to supply regular air exchanges.	$ 5,400,000.00

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ⦿ Yes ◯ No	Contracted services with Social Workers, Nurses, Counselors and Psychologists for support for families in times of crisis (cost of local transportation, meals, housing and uniforms)	Summer 2021 - Fall of 2023	Connection to local support and medical agencies for families, staff and students	$ 2,000,665.80
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ◯ No		Fall 2021 - Spring 2023	Overall academic enhancements and growth for students in the areas of Reading, Math and Science Strengthened family engagement as evidenced by surveys and engagement	$ 150,000.00

		Support for housing, transportation and medical assistance for students who are below levels of proficiency, K-12 Additionally, support for assessment in academic areas and Social Emotional Learning (SEL) (assessment materials, psychologist) Enhance parent engagement activities with all stakeholders to ensure access and information to support learning are in place Use surveys to collect input from parents, utilize feedback from parents to help inform decision making.			
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◉ Yes ○ No	Organizational effective analysis, systems check for internal systems Internal mock drills and community emergency awareness events Safety System/Paging/Intercom	Fall 2021 - Fall of 2023	Enhance and correct any issues with internal protocols and procedures	$ 150,000.00

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ⦿ Yes ◯ No	PPE and Staff Training	Summer 2021 - Summer 2023	Reduction in staff absences due to virus or virus related medical implications	$ 25,000.00
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ◯ No	Lysol and wipes for each classroom for easy access for sanitizing tables, desks, etc., PPE Electronic device disinfectants for each school	Summer 2021 - Summer 2023	To reduce the number of staff and student absences due to the virus or virus related medical implications	$ 340,000.00
	* ⦿ Yes ◯ No	Wifi cards, Keejets, Bus Hotspots, Making sure that all students have a working electronic device. Ensure technology programs are ASHA and HIPPA approved for Speech, OT and PT)	Summer 2021 - Summer 2023	Will impact the number of students that log onto their daily Google classroom lessons.	$ 200,000.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.					
	* ⦿ Yes ◯ No		Summer 2021 - Summer 2023		$ 50,000.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		Purchase devices for students and staff to deliver and receive instruction. Peripherals Protection for devices Continue to support classroom management and instructional software Continue to support classroom management and instructional software Infrastructure needs to support increased 1:1 programs (wireless & switching & UPS). Power backup system for central communication rooms and adequate cooling systems Video conferencing equipment to support remote learning needs Assistive Technology Devices IT Support to repair student and staff computers Network Engineer and IT Security Specialist to ensure the safety and efficient operations of the network.		Impact will be that students will not have devices to be able to connect to their Google Classrooms to complete assignments. The absentee rate will increase. The number of workable computers will increase for students to use for blended learning. The infrastructure and network will have less outages which will enable students and staff to have less interruptions during classroom instruction.	

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◉ Yes ○ No	Identify the social and emotional state of staff and students Adopt a district model of mental health support for staff Contract with mental health professionals for staff and students to provide telehealth and tele-counseling. Development of Health and Wellness centers at all sites to enhance social emotional wellness of staff and students	Summer 2021 - Summer 2023	To help students and families learn to cope with all the social and emotional issues that have risen during the pandemic.	$ 750,000.00
SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ○ No	Summer Learning Opportunities for all K-12 Students who qualify - 150 hrs of face to face instruction at 8 school sites. Ensure EC, ELL newcomers and migrant students are participating in the summer learning program.	June 2022 - August 2022; Summer 2022 - Summer 2022 Summer 2023 - Summer 2023	Provide additional time for students to master content and decrease learning loss.	$ 150,000.00

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ◉ Yes ○ No	Grade Span Transition Programs for students and parents Time & Effort for Staff Supporting ESSER Activities various positions - In Reserve Vance Virtual Academy (#369), support staff as may be needed Indirect Cost Unbudgeted Reserve	Fall 2021 - Fall 2023	Allows additional staff to help in students in areas of learning loss Supports salaries of Vance Virtual staff to enable students to have a remote option. Unbudgeted Reserve allows us to add more monies to areas that cost more than predicted.	$ 241,948.00
				Total ESSER III Allotment	$ 11,482,613.80

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

There are no new applicants.

GAN Information

Vance County Schools (910) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Wake County Schools (920) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

NEEDS ASSESSMENT PROCESS The Wake County Public School System engages in an ongoing process of needs assessment. Key elements of the needs assessment process include: * Use of the ongoing district strategic planning process to identify, prioritize, and respond to strategic goals of the district. * Principal feedback is regularly collected to provide details on their needs related to strategic goals. * Periodic surveys of parents and teachers as key stakeholders. These surveys have been administered on a regular basis over the last year and inform the needs assessment process. * Focus group feedback from key groups including the Superintendent's Teacher Advisory Council (STAC) and the Superintendent's Student Leadership Council. These focus groups meet several times each year. * A district-level curriculum team meets regularly and specifically focuses on assessing needs related to curriculum and instruction resources necessary to support teachers and students in moving to post-pandemic learning. The development of the Superintendent's proposed budget to the Board of Education also informs the needs assessment process. As a part of developing the budget, data and feedback are collected from teams across the district and needs are prioritized. These priorities as well as the examination of all available funding sources has contributed to the development of the plan for use of ESSER funds. In addition to the activities listed above, several

steps have been taken specifically related to the use of ESSER funds. Several cross-departmental teams have reviewed current and future needs and various data related to those needs. This process specifically examined the allowable uses related to ESSER funds. Data relevant to the needs assessment process include: data and surveys listed above, multi-year standardized testing data, achievement data from other assessment sources, financial data relevant to the budget development process, current spending related to ESSER 1 (PRC 163) funds, and virtual academy enrollment and related costs/needs. This needs assessment process will be ongoing throughout the term of the ESSER funds. ASSESS & ADDRESS STUDENT LEARNING GAPS The district's Standard Treatment Protocol for learning is a key component of addressing student learning gaps. This protocol establishes resources and parameters for core instruction throughout the district at each grade level. It also provides research-based / research-informed options for supplemental and intensive intervention. Embedded in this standard treatment protocol are assessments and activities aimed at providing teachers key information to assess and respond to student learning. Intervention teacher positions are being added to school sites to (1) support appropriate, timely response to learning data, and (2) to mitigate lost opportunities for learning as a result of the pandemic. Also key to assessing and addressing student gaps is developing effective tools to translate district vision and process into classroom practice with students. WCPSS is developing additional curricular resources that will inform pacing and alignment to strategic goals. The resources will also provide teachers with assessment strategies and resources useful in responding to the outcomes of those assessments. These resources will prioritize standards based on the progression of learning over multiple grades to help address any potential gaps resulting from the pandemic. Also, the district will invest in additional tools within Canvas, our primary learning management system, that will streamline our ability to view learning data both at the classroom level and at the district level. This will allow curriculum teams and school leaders to immediately identify and responsive to patterns in learning needs. School-based processes will be important in assessing and addressing student learning needs. First, the role of professional learning teams (PLTs) will be critical to this process as they will be able to coordinate common school-level assessments and develop responses to the data those assessments produce. Second, the school-based school improvement process will provide the opportunity to review learning outcomes across grade levels / courses for further response. Both PLT work and school improvement processes are supported at a district level by the area superintendents' team to determine patterns at a district level. Finally, learning gaps related to behavioral health skills will also be addressed. With ESSER funds, investments will be made in additional student support positions (counselors, psychologists, etc.) that will support students in building appropriate behavioral and social emotional skills to be able to fully engage with learning.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Based on the process and data outlined in Section A, a number of key needs have been identified related to the use of ESSER funds. It is important to note key assumptions: * CONTINUED GROWTH. The district population will continue to grow during the administration of ESSER funds. The projected student enrollment for 2021-2022 is 160,591 students with increasing numbers in subsequent years. The district anticipates opening four new schools during the lifetime of the ESSER grant. * REMOTE INSTRUCTION: It is anticipated that the district will continue to operate some type of virtual option for students throughout the lifetime of the ESSER funds. * CHANGE IS A CONSTANT: District needs and priorities will continue to evolve during the implementation of the grant as will costs related to those needs. Upon review of the data, the following analysis supports decisions regarding priorities for ESSER funding: * LOST OPPORTUNITIES FOR LEARNING: Starting in March 2020, WCPSS moved to fully virtual learning. The district similarly began the 2020-2021 school year in a fully virtual setting. PreK-3 students returned October 26 with grades 4-8 returning in early November. High school students did not return to in-person learning until January 2021 and did so then in cohort rotations. The number of days of in-person learning missed are significant in terms of missed opportunities for learning. The inability to have all students in person has limited the district's ability to assess all students on their current mastery of grade level / course standards. A review of current course grades indicates an increase in the number of students who are struggling academically in 2020-2021. Because we anticipate a higher number of students requiring academic support, several needs have been identified including (1) the need for additional staff to focus on intervention and more personalized instruction, (2) the needs for additional administrative employment during the summer to support summer learning and adapt structures to current realities; and, (3) the need to expand learning supports to include but not be limited to tutoring, programs outside the school day or year, and activities to aid students in fully accessing resources and opportunities within their learning environment. * REMOTE INSTRUCTION: WCPSS will continue to support students needing fully remote instruction. Data indicates the need to support at least 14,000 students in a virtual setting which will require investment in additional staff including potential needs for teachers, counselors, administrative staff, and other appropriate personnel to support student success. Curriculum and instructional resources will also be needed to support students and staff members. * SUMMER LEARNING: Based on state guidance, WCPSS identified definitions of "at-risk" students to be invited to summer extended learning. Data included in this review of student performance include: IStation assessments, Number Knowledge Test, End-of-Grade/Course tests, grades in current courses, and other relevant data. Approximately 23,000 students meet the criteria developed and will be invited to summer learning. This level of need requires operation of approximately 130 summer learning sites and necessitates approximately 1,100 staff to support effective student outcomes. Summer learning in isolation is unlikely to yield long-term gains for students. Support structures must be extended into the 2021-22 school year and beyond. Addressing this need will include the creation of intervention teacher positions at school sites as well as the potential need for future summer programming. * EDUCATIONAL TECHNOLOGY: WCPSS is building toward a 1:1 program (1 device:1 student) in part so that the district is better able to respond and maintain continuity of learning should another closure occur. Additional devices

(~200,000) will be needed over a three year period in order to account for growth and device replacement. This movement toward a 1:1 program will require additional human capital to support students and parents. Feedback indicates that this level of support is critical to ensuring that all students and parents have equitable access to technology and digital resources. * SOCIAL EMOTIONAL SUPPORTS: At present, WCPSS exceeds the recommended ratios of student support professionals (counselor, psychologist, etc.) to students. With high levels of student need around social emotional supports, additional school-based positions are needed. These positions will move the district closer to recommended ratios and therefore provide greater service to students as they return to the school building following the pandemic. * OPERATIONAL DETAILS: Budget analysis shows reductions in the 2020-2021 school year to key resources due to the district being fully/partially virtual. Examples include cost reductions to maintenance, cleaning, transportation, fuel costs, child nutrition and other departments. These reductions will need to be restored and in some cases expanded in 2021-2022 and beyond in order to meet the increased need of students in fully in-person instruction. In some cases, expanded needs will require funds to cover existing costs to maintain continuity of services across the district. Examples include but are not limited to cleaning and sanitation contracts, utilities, child nutrition maintenance costs related to maintaining a safe environment, and costs related to specialized transportation contracts. * HUMAN RESOURCE NEEDS: Schools continue to see position vacancies and staff absences due to the pandemic as evidenced by staff attendance data. There is a need for continuity of support and staffing via substitute teachers to promote greater ability of (1) substitute staff with necessary knowledge of resources to adequately support students, and (2) decreasing use of teachers for non-instructional duties so that they can better focus on instructional goals.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 42,916,647.82 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

WCPSS will be providing additional staffing to each school to support the intervention process including the process of data-based problem solving. These additional staff members will assist in: (1) securing and utilizing assessment data to support and inform student learning, (2) providing direct instruction to classes, small groups, or individuals to support learning in response to relevant assessment data, and (3) grow capacity with teachers and school staff by modeling research-based strategies for addressing learning goals. Assessments are being created and vetted at the district level to support assessment of key standards. Also, reliable common assessments are built into core curriculum resources to assess student understanding. Resources are being developed for 2021-2022 to revise pacing and related resources in anticipation of learning gaps and to prioritize and assess key standards for learning. WCPSS will also work to ensure that teachers have sufficient resources to respond to learning data. This includes the purchase of supplies and materials, curriculum writing, digital subscriptions, and contracted services (ex: tutoring and other related student supports). This will include purchasing materials and supplies to replace instructional supplies lost / damaged during remote learning.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

WCPSS has developed a Standard Treatment Protocol that outlines the components of strong core instruction as well as appropriate, aligned supplemental and intensive intervention supports. District-wide core instructional resources have been identified and procured in reading / Language Arts for Kindergarten through Grade 8 as well as mathematics for Kindergarten through Grade 8 as well as Math I, II, and III. These core resources were vetted for standards alignment and are monitored in terms of effectiveness of implementation and outcomes. Additional core materials are being procured presently for high school English courses. Supplemental and intensive support resources have also been procured at the elementary and middle school level to support growth with regard to reading and mathematics. This set of resources is research-based and available to all schools in the district. Implementation is monitored and supported through professional learning and coaching supports where applicable. Intervention teachers funded through ESSER funds will build greater capacity of teachers to choose the correct resources and tools as well as the frequency and intensity of instruction.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Family engagement remains a key component of the WCPSS Strategic Plan. Panorama as well as other parent surveys are used regularly to gather parent feedback and to assess success of district initiatives. The Title I Program also provides supports to schools related to family engagement strategies. WCPSS will continue to encourage family engagement and monitor effectiveness of such efforts throughout the duration of the ESSER grant. Our needs assessment identified a current gap with regard to ensuring that parents and families will be able to fully support their students with technology devices and digital resources. Instructional Support Technician positions will be established

using ESSER funds to staff and support a Help Desk to assist parents and students to ensure that they have equitable access to instructional resources. By ensuring equitable access, further lost opportunity for learning is mitigated.

* (D) Tracking student attendance and improving student engagement in distance education;

Student attendance will be tracked through PowerSchool both in (1) virtual / distance learning as well as (2) in-person instruction. Protocols are in place to support students and families related to chronic or repeated absences. School counselors and social workers are available to support this effort, but it is insufficient to meet the need. Additional counselors and social workers will be hired through ESSER funds to meet the unique needs of students as it relates to attendance and returning from the pandemic. Engagement is a mixture of not only attending school but also finding success and connection with the learning process. WCPSS will continue to build capacity with the instructional core. Specifically, this is the interaction between the content, the student and the teacher. The overall connection between these components helps to define the student experience and influence their outcomes. WCPSS annually surveys students regarding their perceptions about their experience and abilities. This combined with monitoring of academic grades provides data points that can be monitored to inform discussions about student engagement. WCPSS has formed an Engagement Team that involves district and school staff to provide leadership to this work.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Data on student achievement prior to the pandemic provides a baseline for both individual and student achievement. Data points include standardized testing such as End-of-Grade and End-of-Course testing, course grades, and other assessment structures such as IStation, iReady, Dreambox, and ACT and its related assessments. As current learning data is collected, a relative comparison can be made to determine if academic progress is moving along a positive trajectory. This data will be used in a data-driven problem solving process to support continuous growth and improvement. The WCPSS Office of Data, Research and Accountability regularly monitors student performance and provides tools and supports to schools to monitor this data as well. Professional learning is provided to assist schools in understanding the data and identifying research-based strategies for responding to the data. The creation of intervention teacher positions at each school will facilitate greater ability to collect and act on current learning data. It will also provide an avenue to respond to changes in the academic achievement of students in presently learning when compared to pre-pandemic learning.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how

you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$ 0.00

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ⦿ No				$ 0.00
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ⦿ Yes ○ No		July 2021 - September 2024		$ 2,000,000.00

| | | WCPSS will respond to the impact of the virus in part by continuing to offer virtual learning for students who have health concerns with returning to learning within the school building. WCPSS will provide courses through remote instruction to support implementation of the Virtual Academy. These positions provide human capital in response to families that have concerns about returning to fully in-person instruction due to the pandemic. | | Surveys of Virtual Academy families will reflect a perception that students are receiving a full, comprehensive learning experience. Academic performance will reflect similar levels of achievement when comparing in-person learners and their remote learning counterparts. | |

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◉ Yes ○ No	Contracted transportation services will be secured to meet the needs of special populations including special education students, students served under McKinney Vinto, and other students in a special population as approved by the district.	July 2021 - September 2024	Transportation data will be collected based on effectiveness of the vendor / service; Success will also be reflected in increased attendance and academic success of students serviced through the transportation service.	$ 11,000,000.00
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$ 0.00

11/10/2021 2:12:29 PM

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ⦿ No				$ 0.00
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ○ No		July 2023 - September 2024	Standard sanitation inspection data will reflect appropriate use of the supplies and services in order to achieve standards for cleaning and sanitation.	$ 4,389,309.00

		During 2019-2020, funds were reduced from cleaning supplies and service contracts due to reduced presence in school buildings. This funding is being restored to respond to greater use of the school building. This funding will also maintain a portion of the cleaning / custodial budget for contracted services aimed at maintaining cleaning standards and thus preventing the spread of the virus.			

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ◉ No				$ 0.00
	* ◉ Yes ○ No	Laptops will be purchased with the goal of maintaining the district's commitment to a 1:1 environment to support remote learning if needed in the future. To accomplish this goal and keep current with replacement	July 2021 - September 2024	District inventory will reflect alignment with the 1:1 goal; Student survey data will reflect student perception that they have sufficient skill, access, and support to fully engage in digital resources and instruction.	$ 38,000,000.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		devices, an additional 200,000 laptops must be purchased over the period of the grant. Additional funds will support related software and connectivity needs related to ensuring all students have access to digital instruction. Funds will also be budgeted to support replacement devices as necessary.			
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ○ No		July 2022 - September 2024		$ 8,008,200.00

		Additional counselor, psychologist, social workers and other related student support positions will be funded at various schools to support counseling and social-emotional needs of students following the pandemic. Relevant additional district positions will be funded to provide support to the schools and the additional school-based positions.		Student survey results will be used to gather student perception data over time as a measure of student mental health. Positive patterns will be observed in attendance, referral data, and other monitored data.	
	* ○ Yes ○ No		January 2022 - September 2024		$ 20,000,000.00

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.		Summer learning programming will continue to be incorporated into the summer session of 2022 and 2023 to include intentional focus on learning loss and mitigating impacts of the pandemic. This will include costs for teacher pay with higher incentive rates, bonus pay, transportation costs, CNS costs, supplies & materials, and other appropriate allowable expenses.		At the school level and the district level, we will continue to monitor the same criteria that were used to identify student summer learning starting in summer 2021. Indicators will reflect positive academic growth as well as positive student perceptions about learning as evidenced by annual student survey results.	
	* ◉ Yes ⚪ No		July 2021 - September 2024		$ 17,554,854.18

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		Other ESSA eligible activities will be built into the ESSER budget to support continuity of services within the district. This includes: (1) appropriate indirect costs, (2) unbudgeted balance, (3) maintenance costs to include new square footage and custodial costs as well as base custodial costs related to continuing operations; (4) utility costs related to continuity of services; (5) Transportation Fuel costs, (6) administrative costs.		Finance staff will monitor indirect costs and unbudgeted balanced and address as appropriate through the standard budget development and needs assessment process. Maintenance of fiscal reporting and administrative compliance will be monitored for appropriate implementation of funds for other ESSA eligible activities.	
				Total ESSER III Allotment	$ 100,952,363.18

Part E: Assurances

Check **all** *assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:*

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Wake County Schools (920) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

GAN Information

Wake County Schools (920) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Warren County Schools (930) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Warren County Schools collect, analyze, and progress monitor student data to include academic, attendance, and social emotional learning (SEL). Once student data has been collected, the district and schools' MTSS leadership teams use EWS (Early Warning Sign) indicators from the results of the universal screeners in collaboration with other data such as attendance, behavior, and additional performance data to students identify learning loss and at-risk students. Next, specific skill deficits were identified for grade spans and individual students. Warren County Schools superintendent, executive cabinet, the district management team (principals, directors, coordinators, managers, etc..), school-level leadership teams (principal, teachers, instructional staff, etc..) all collectively decide on the needs of the students being served. The teams collaborate on the best practices to use in order to have the greatest impact on student learning. The district will provide additional instruction during the summer, and throughout the school year using a variety of approaches including but not limited to scheduled intervention times, instructional academies to address student learning loss. Student data will be collected at the end of each cycle of learning to determine effectiveness of the extended learning opportunities. I

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

As measured by iReady MOY universal screener, in 2019-2020 54% of WCS K-8 students were Tier 2 and 22.5% were Tier 3. In 2020-2021, 43.4% of WCS were Tier 2 and 33.5% were Tier 3 as measured by iReady MOY universal screener. Based upon EOC data for Warren County's 9-12 students, 20.7 % were proficient in Math I, 9.8% were proficient in Math III, 39.5% were proficient in Math II, 31.1% were proficient in Biology, 29.4% were proficient in ACT, 35% were proficient in WorkKeys and 79.4% were proficient in CGR.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 3,728,376.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Any and all of the district's at-risk students will be administered a diagnostic universal approved screener to assess students' academic level and then to progress monitor academic gain over a specified period of time. The collected data will be used to identify student learning needs thereby providing teachers academic information that will be used to determine interventions needed to address learning loss. Teachers will use research-based supplies, materials, and resources to provide differentiated instruction.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

During interventions and small group instruction teachers will implement best practices that are evidence-based and proven to be effective in promoting closing learning gaps. Teachers will be provided professional development that will assist with learning the techniques of the evidence-based materials prior to implementing these best practices.

11/10/2021 2:14:00 PM

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Teachers will communicate the progress of student performance with parents on a regular basis. The district will also prepare and implement learning workshops for parents in an effort to provide them with materials and suggestions that can be used at home to assist with addressing a student's learning loss. The communication concept will create a true partnership between home and school.

* (D) Tracking student attendance and improving student engagement in distance education;

The district will collect attendance data regularly and promote opportunities for student engagement and self-motivation.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

The district will use comparative data to determine the effectiveness of the educational strategies used to close student learning loss.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ⦿ No				$
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ⦿ No				$

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ⦿ No				$
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ⦿ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ⦿ No				$

11/10/2021 2:14:00 PM

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ◯ No	Funds allocated for this use will assist with sustaining supplies and materials that will be used to sustain a certain required level of sanitation within our schools in order to maintain a safe learning environment.	FY2021- FY2023	Impact measures will be a record of the number of Covid 19 cases within a school and the district.	$ 501,104.00
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ◯ Yes ⦿ No				$

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ◉ Yes ○ No	These funds will be used to ensure that all students are equipped for blended learning engagement.	FY2021-FY2023	The impact measures that will be used are a data collection of student information and data points onto selected instructional programs, platforms, and learning management systems.	$ 400,000.00

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◉ Yes ○ No	The Social-Emotional Learning needs of students and staff are crucial to improving learning loss and assisting students with identifying and addressing their own emotional needs. This includes services provided by social workers and nurses.	FY2021-FY2023	The impact measures that will be used include the use of a universal screener and a daily database of services rendered. Data will be collected and progress monitored at least three times a year.	$ 230,224.00
SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ○ Yes ◉ No				$

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ◯ No	To maintain quality instruction for all students in all buildings by providing research-based instructional practices for instruction. To assist with meeting the needs of all students in all course areas. Provide materials and resources for adequate instruction in various courses.	FY2022-FY2023	The impact measures that will be used include data reports, building walk-throughs, and data feedback from students, parents, and staff.	$ 200,000.00
				Total ESSER III Allotment	$ 1,331,328.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

There are no new applicants.

GAN Information

Warren County Schools (930) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Washington County Schools (940) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

A Comprehensive Needs Assessment (CNA) was completed at each of our school sites and at the District Level in the Spring of 2018 by DPI. In 2021 a Comprehensive Needs Assessment was completed at each site and the District Level by the district to gain input from all of our stakeholders including staff, students and parents. Our focus is on the effective use of all available funds designed to improve student learning, including but not limited to Title I, Title IV, CARES Act funding, ESSR II, and ESSR III. The analysis of the CNA will be the springboard to providing additional services to support students with input from parents on additional supports beyond the school day to enhance learning opportunities including summer and extended day programs. We will also be hiring additional staff to that will support building teacher's capacity and work to support the needs of the whole child including SEL support. Air purifiers were purchased for each classroom prior to students returning to school. In March 2021 Piedmont Service Group was contracted to conduct an air quality study of each facility and made an official report to the Washington Board of Education in April 2021. All buildings except Pines Elementary were within normal ranges but recommendations were made to perform quarterly maintenance and cleaning regiments with additional cleaning strategies along with upgrading filters in all locations. Pines Elementary was closed immediately and WCS along with the support of the County of Washington is in the middle of collecting bids on the repairs needed to have a safe school incorporating an architectural engineer report from Hall Architecture in 2017 that identified other concerning issues regarding air handlers, fresh air circulation, roofing and structural issues. We have moved PES to WCMS for the current school year. To address the

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

An analysis of our current Comprehensive Needs Assessment Data indicates the need to focus additional resources in the following areas: (1) develop a plan for identifying areas of teacher need and accompanying support to increase professional capacity through coaching. (2) Establish and implement instructional monitoring practices that ensure lessons and activities are aligned to standards, meet the appropriate level of rigor and are differentiated to meet all student needs. (3) Leverage available technology resources to extend student opportunities beyond the classroom, fostering the development of 21st-century skills. (4) Ensure the air quality at all sites is at a safe level. (5) Ensure all sites are appropriately cleaned, sanitized, and safe (including but not limited to the effective use of PPE). (6) Focus on the whole child - including but not limited to social-emotional learning, safety, health, and student learning. Our CNA showed that we had needs about before and after school care, concerns of students being well below grade-level in many areas, needing before and/or after school care, safe buildings, and additional experiences for students. We will focus on these needs by adding positions that will support teacher's capacity in the classroom, provide support in SEL, provide additional support to maintaining the building and air quality as well as providing additional learning opportunities in the way extended day learning, summer programming, field experiences, a district makers space, AVID, and PGC. Our CNA showed a high need for basic literacy support across the district so a district reading specialist will be hired to support reading instruction at all levels, we will provide specialized PD for each grade span as well.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 1,105,248.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Washington County School incorporates a Comprehensive Assessment System that includes formative assessments as its base. Formative Assessments are built into our daily lesson design and provide the teacher with data to address the individual needs of our students. Elementary students take a BOY with Imagine Learning that will offer individualized targeted instruction in both reading and math and build time in the schedule to assure students are able to complete personalized lessons beyond

whole group and small group interventions. WCS will utilize the NCDPI approved tool. Middle school students will use IReady as a BOY Aug-Sept and personalized learning metric to support individualized learning needs. Monthly reports will be analyzed by the administrator and instructional coach to ensure that students are received targeted support in small groups as needed. A MOY Dec-Jan and EOY April-May assessment will be conducted to compare growth for each student in the academic year. The High school will utilize school need with short assessments that address specific subject objectives. The data is also analyzed within our Professional Learning Communities (PLC's) to determine the need for interventions and enrichment. Benchmark Assessments are created by a collaboration of teachers, instructional coaches, and the District to determine the effectiveness of our current instructional approach, the need for interventions and enrichment, the need to supplement/enhance our curriculum, and the need for alternate instructional approaches (analyzed by the District, School Level Administrators, Instructional Coaches and teachers - next steps determined - action steps created). Summative Assessments are provided at the end of each semester to determine proficiency, student growth and the effectiveness of our current instructional approach in Dec for HS and again in May with testing for elementary and middle school at the end of May and June. Vertical planning and grade level meetings will be held weekly to support effective communication and address student needs. The Chief Academic Officer, Instructional coaches, and Administrators will assist with monitoring reports and analysis of data shared in PLC's quarterly. Professional Development 2021-2022 will be centered around Schools That Lead for elementary , WCS has been selected to participate in Cohort 1 for the Science of Reading Training, AVID for the middle school, and WestEd Reading Apprenticeship for the high school.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Washington County Schools has invested in Curriculum focused on Literacy and Mathematics for K-5 (SAAVAS) and for Mathematics, Sciences, Social Studies and English Language Arts for 6-12 (HMH). Each Program provides our teachers with differentiated research-based activities designed to meet the needs of all students. Social Emotional Learning is also incorporated into both our literacy program (K-5) and English Language Arts (6-12): 1) Technology facilitator with benefits - 70,000 2) Extended Day Program - 100,000 3)Field Trips/Curriculum Extension (K-12) - 65,124 4) Additional Instructional Coach (Continued from 2021) - 80,000 5) Professional Development - 150,000 6) 500 supplemental pay for growth/proficiency (TA) - 12,500 7) 1000 supplemental pay for growth/proficiency (teachers) - 100,000 8) STEAM Camps - 27,624 9) Reading Interventionists (each campus) - 280,000 10) AVID (WCMS) - 80,000 11) PGC (WCHS) - 15,000 12) Maker Spaces - 100,000 13) Support for Arts - 25,000

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Student assessment data is kept current by our teachers and is available for review by our students and our parents throughout the school year. Progress Reports are provided every three weeks. mClass and Imagine Learning Assessment Data is available to students and to parents (K-5) and IReady Data (6-8). Positive communications between school and home are completed using a variety of platforms that include but are not limited to REMIND app, phone calls, text messages, the use of social media, at athletic events, through the PTO, through our School Leadership Teams which include parents, and the use of technology.

COVID-19 identified a number of challenges that we have addressed over time. The need for a second social worker/SEL Support - one for Elementary and one for Secondary will assist in this area. In addition, through ongoing professional development efforts lead by our Instructional Coaches and supported by NCCAT - our teachers have become more proficient at creating lesson designs that are more engaging. Additional funds have been included in this budget to continue this effort.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

An analysis of our mClass, IReady and Imagine Learning data indicates that our students have experienced a learning loss related the adverse effects of the pandemic. We anticipate that our Summative Assessment Data will further highlight this loss. Our goals would be: 1) increase Student Growth Data by 5% as measured from EOC/EOGs, mClass, IReady, Imagine Learning, ACT/pre-ACT Data 2) Increase Student Proficiency by 5% at the district level 3) Attendance Data by school increased 8% on average from 20-21 District will offer data trackers to help principals monitor the above-listed progress areas. Data will be reviewed on the school level during PLCs.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

11/9/2021 12:43:35 PM

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	1) Touchless fixtures - 400893.46 2) Water Filtration - CES - 100,000	July 1, 2021 - June 30, 2024	Reduce risk of transmission - monitor transmission rate. The water at the Creswell Facility is currently not safe to drink. Monitoring - school by principal and district level by director of maintenance	$ 500,894.00
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ◯ No	1) HVAC maintenance/repair - 117754/yr	July 1, 2021 - June 30, 2024		$ 117,754.00

| | | | | Air quality sensors have been purchased. These sensors are placed around the building to record air quality. Sensors are moved every 3 days. The director of maintenance monitors the results makes repairs as needed. PES was moved to WCMS for the year while we continue to work towards a solution around the air quality issues at PES. Due to the two schools sharing one location, units are being replaced as needed to ensure adequate air flow in all spaces. | |

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ⊙ No				$
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ⊙ No				$

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	1) 2 Maintenance Staff (HVAC) - 110,000 2) HVAC systems, ducts, and vents - 109256 3) Cleaning Supplies - 68.988	July 1, 2021- June 30, 2024		$ 288,244.00

				Supplies will be ordered by the lead nurse, director of maintenance, and federal programs directors when needed to ensure that the buildings are clean and safe for students and staff. These same people will monitor the effectiveness of the products. The maintenance work order system shows the need for additional maintenance staff with the large increase in repairs due to COVID 19 and air quality issues, cleaning, and repairs. Monitoring - school and district level	

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ⊙ No				$ [ ]
	* ⊙ Yes ○ No	1) Computer intervention/Instructional Aides - 100,000/yr 2) Device replacement - 100,000/yr 3) Power Pack/E-Collect - 10,000/yr 4) Automated Projection System - 10,000 5) Instructional Tech sound systems/AV Equipment - 10,000	July 1, 2021 - June 30, 2024		$ 440,000.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.				Addressing differences in student learning styles and modalities - classroom observation data - lesson plan review. The director of testing and accountability, CAO, and CTO will meet quarterly to look at usage and student progress/ growth in these programs/ interventions. The goal would be to see an increase in the overall growth of students by 5% Equipment will be used to better serve students and families during Covid by increasing the district's ability to communicate with stakeholders.

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◉ Yes ○ No	1) SEL Resources -30000yr 2) Flexible Seating - 100,000 3) Social Worker/ SEL support staff with benefits - 70,000/yr	July 1, 2021 - June 30, 2024	Increase effectiveness of services The ITF and additional SEL support staff will work to decrease discipline referrals by 3% and increase attendance percent at the school leave by 8%. The district will develop an SEL plan to support the needs of the whole child. This will be monitored by the MTSS team.	$ 300,000.00

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ○ No	1) School Extension Program - Summer 2022 -342980/yr	July 1, 2021 - June 30, 2024	All students invited; full instructional day. Will incorporate STEAM, SEL, Literacy, and Math as focuses. Our goal would for all students to show growth which will close the gap that was caused by Covid 19.	$ 685,960.00
	* ◉ Yes ○ No		July 1, 2021 - June 30, 2024		$ 1,027,737.00

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		1) Addressing staffing Needs of schools - 761194 (196,250 WCMS/WCHS/CES/PES); 95,000 (WCECHS)/yr 2. Additional Resources to help principals and other district leaders retain staff will use additional funds to provide a $1000 retention stipend to all staff that worked 45 or more days during the 2020-2021 school year and returned for the 2021-2022 school year and completed duties outside of their job description that ensured the health and safety, as well as, meet the educational needs of students during COVID-19. 224,094 3. Unbudgeted- to allow us the flexibility for needs that arise during COVID-19 42,452.00		Based on Comprehensive Needs Assessment - with the goal of increasing the level of student growth and percentage of students being proficient schools will create positions that will meet the needs of that school. This process will be overseen by HR and CAO with the principal's recommendations. By providing the retention stipend we will decrease the number of positions that we will have open due to the impact of Covid-19. Carryover unbudgeted reserve	
				Total ESSER III Allotment	$ 3,360,589.00

Part E: Assurances

Check **all**assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Washington County Schools (940) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - New Applicant Summary

There are no new applicants.

GAN Information

Washington County Schools (940) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Watauga County Schools (950) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

In response to COVID-19, WCS was forced into the remote learning environment very quickly as a way of maintaining educational services for our students while doing so in a safe environment in an attempt to slow the spread of the virus. School leaders, classroom teachers, technology facilitators, parents, community members and other stakeholders came together to implement a plan that would allow school to open in the remote environment constant with the Governor's Executive Order that required Plan B or C. We started with by assessing our needs around how to open and how to provide necessary technology to families in a remote setting. This also meant that we had to improve our available access points both inside, but mostly outside of our building so that students and families could access the internet from our parking lots if they did not have internet access at home. We also had to arrange student schedules in such a way that they would be with academic teachers and follow a schedule that was as normal as possible. This hurdle meant that teachers could be providing instruction to students that were not in their home school and could be in a variety of locations. We quickly discovered that in addition to technology needs, that basic needs such as school breakfast and lunches needed to be delivered to homes. Our Child Nutrition and Transportation Departments worked hard to create a plan that would meet those needs and many employees changed the course of

their days to driving meals to homes and preparing meals for delivery. WCS Curriculum Team will be looking at EOC/ EOG proficiency data from SY 20-21 and identifying the major gaps from years past. At current, we are seeing a dramatic drop in our G3- G8 math scores district wide. In an effort to afford students the opportunity a second chance to improve a Not Proficient EOG test score, WCS will offer students a second administration following summer school. Students in G3-G8 Math and G5 and G8 Science who did not pass may take the EOG again for a chance to improve their score.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

As time and the virus continued, WCS became strained using resources in a changing environment. We discovered we were planning for a new way to educate our students, provide meals to families and support the emotional toil brought on by a global pandemic. ESSER II funds will help to address some of those needs by addressing any learning loss needs and being proactive in summer planning and the start up of our newly created Watauga Virtual Academy or WVA. WVA will begin as our newest school with its own school number within our LEA. This school began as a result of COVID-19 and we have the need to continue and grow the school in an effort to meet the unique challenges that have presented themselves in the wake of this pandemic. Funds from ESSER II will help to create this school and will help to lay a foundation of sustainably after funds have expired. We will track ADM from each of our schools and using historically ADM data to determine the need to continue the program in the future. We will also track data from standardized assessments to determine the effectiveness of the programs and school as a whole and make any adjustments necessary to ensure learning is high quality in the WVA as compared to that of the face-to-face model. Once summer school has concluded, WCS Curriculum Team will analyze the second administration data in an effort to determine effectiveness of the summer program. With the standard setting process happening in G4-G8 ELA and results being delayed, this year's focus will be on G3-G8 Math and G5 and G8 Science.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 790,807.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

WCS will be addressing learning loss using this fund source to purchase reading and math screening assessments in an effort to provide tracking data comparing pre-pandemic academic progress to post. Data gathered will be analyzed across subgroups including but not limited to SWD, EL, EDS, etc. Once learning loss is identified (and how much) we will create a clear path for intervention and support.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Reading and Math Screener data gathered will allow WCS to determine what measures will need to be implemented to provide high quality instruction to students who have experienced a learning loss due to COVID-19 and/ or due to limited access to technology within the remote environment. Our schools have been working to improve MTSS protocols within their PLT/ PLC models. They are working within teaming structures to identify students and provide supports to meet the needs of students who may have and are still experiencing learning loss due to COVID and interrupted instruction.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Notifications to parents and families will continue even in a distance learning environment. Parent communications including but not limited to, report cards, reports generated from screeners, Individual Student Reports (ISRs), etc. will continue to be provided. Parent/ Teacher conferences will also continue through in person, via phone and Google Hangout for parents and families and will provide information about how they can support learning and make up any potential learning loss deficits related to COVID.

* (D) Tracking student attendance and improving student engagement in distance education;

WCS will track attendance in PowerSchool in accordance to NCDPIs standards and guidance. WCS will track student engagement and contact parents and families for support should engagement in distance education be an issue. WCS will work with families and parents to ensure student learning and engagement maintains a high level of rigor and will partner with them to ensure success.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

WCS will use data provided in the form of historical grades, former screener data, EOG/ EOC data, etc to determine baseline standards for students. WCS will continue to monitor student progress and compare that to current progress. MTSS and other data metrics will be used to formulate plans for improvements and periodic updates and checks will be put into place to ensure success and measure progress.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ◉ No				$

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ◉ Yes ○ No	In coordination with state and local Health Departments, WCS will employ and maintain additional staffing in the form of nurses who will help with contact tracing, vaccination clinics and rapid testing. Nurses will be able to share data with stakeholders necessary for the prevention and response to COVID-19.	Implementation to September 2024	Data gather and shared will allow WCS to determine and maintain the safe reopening of schools and what to do if a hot spot is identified.	$ 300,000.00

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ⦿ No				$
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ⦿ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ⦿ No				$

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ⦿ No				$
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ⦿ Yes ○ No	In an effort to keep our building open as much as possible and to prepare for the potential of a teacher's need to quarantine, funds will be used to maintain long term subs should the need arise.	implementation to September 2024	Schools will remain open using long term subs when they might have had to experience a closure due to limited staffing.	$ 150,000.00
	* ⦿ Yes ○ No	In response to COVID-19 and the shift to remote learning, the need for greater internet	implementation to September 2024		$ 725,000.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		greater internet coverage became apparent. WCS moved and added access points to the outside of school facilities so that families/ students could access the internet from their cars at school locations if they did not have internet at homes. We also have a need to purchase additional devices and hot spots so that students who are in the virtual environment may have access to learning throughout district Learning Management System or LMS and to their classroom meetings. In addition, WCS		Greater number of students accessing their classroom meeting times and more engagement during school hours. We also are hoping this is an attractive option for students to enroll in WCS if they previously were not.	

		continues to plan for the unknown in response to COVID. We will utilize funds in Education Tech in the event that a group needs to quarantine because of COVID. Should this occur, we need our infrastructure to be robust enough to meet the student/ teacher needs.			
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ○ No		implementation to September 2024		$ 285,000.00

| | | WCS will use funds to develop a middle school day treatment program. The stress of COVID-19 has been observed to be most impactful on our middle school population. Programs currently exist to address the need of our younger students however we are noticing an increase need for our middle schoolers. This program will help to meets those challenges by expanding the program and offering services to them. | | Students attendance within the program will be tracked as well as their attendance back into the regular setting. Monitoring and regular check-ins will be preformed to determine proper placement and transition back into the regular setting. | |
| | | WCS will be offering summer learning opportunity to all students in the | Starting with Summer 2021 to Summer 2024 | | $ 1,500,000.00 |

| **SUMMER LEARNING:** Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care. | * ⊙ Yes ○ No | students in the summer of 2021 constant and compliant with HB 82. In addition to summer learning during the day, WCS will also provide enrichment activity time after summer school until 6P. WCS will use ESSER II/ III funds to provide a summer learning program during summer 2021 and beyond that is constant and compliant with HB82. In addition to summer programming, WCS will also offer a summer enrichment program that will take place following the scheduled end of the learning day (2:30P) and until | | Students and families will have the opportunity to attend at no cost. WCS will be able to use attendance data to determine if this program was needed within the community and should be sustained in the future. Also we will use attendance completed with data from next school year to determent the effectiveness of the program as it relates to learning loss. | |

		6P to help working families and those who may be in need of child care. Funds used will cover salaries, required signing bonuses, transportation, after-school staff and materials for the program. In addition, as noted above we have geared our summer program to help those students who have not had success in the first administration of the G3-G8 Math and G5 and G8 Sci EOG. Following the summer program, students may take the EOG again.			
		In response to COVID-19, WCS			$ 203,226.00

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ○ Yes ○ No	was forced to create the Watauga Virtual Academy quickly and with little to no funding. The WVA now has a school number within the LEA (950 334) and will operate as its own school beginning with SY 21-22 in an effort to reduce class size in the traditional classrooms for increased focus and attention to address learning loss. Funds will be used to bring the school, staff it as well as provide a service to students and families that learn best in the virtual environment. The amount includes unbudgeted and	implementation to September 2024	Creation of new school will allow students to learn from home with a high qualified WCS teacher. We also hope this will be an attractive option of home school families thus increasing our ADM.

		indirect costs as well as additional compensation to employees for added duties in response to Covid.				

				Total ESSER III Allotment	$	3,163,226.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.

* ☑ **LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)**
An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Watauga County Schools (950) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

 There are no new applicants.

GAN Information

Watauga County Schools (950) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Wilkes County Schools (970) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Every year Wilkes County Schools conducts a Comprehensive Needs Assessment (CNA) to determine the most pressing learning needs for the district. This year, the CNA team focused on the needs and gaps identified due to the COVID-19 pandemic as we began our transition to in-person learning. The data considered may be found in within a Google Drive at the link below: https://drive.google.com/drive/u/0/folders/14hhsPN2nks3LFpM9I_RFDzWFHKIngXJT On April 14, 2021 the CNA team met to collaborate on the sources of data to consider for the CNA. Team members consisted of Instructional Services Directors, Auxiliary Services Directors, Chief Financial Officer, Chief Academic Officer and Chief Technology Officer. Additionally, a survey was sent out to stakeholders throughout the system to collect qualitative data on perceived needs of the system. The survey, along with responses can also be found at the link above. As the team began the discussion on relevant data to consider, the initial conversation revolved around the goals of the District Strategic Plan and what information was needed to identify gaps as they relate to district goals. During this time the team made use of the ESSER Planning Guide that was provided by NCDPI, specifically the guiding questions contained in the guide: 1. What are your district goals for the next four years? 2. What worked well with ESSER I? 3. What challenges did you face with ESSER I? 4. How can ESSER (I,II,III) funds be used to help

accomplish district goals in light of COVID-19? 5. How can ESSER (I, II, III) be used in coordination with other fund sources (local, state, other federal dollars)? 6. How can we ensure sustainability of the plan? During the initial meeting of the CNA team, the following data was selected for analysis in regards to learning loss and anticipated needs related to COVID-19: -Test Scores -NC Check-Ins -Social & Emotional Needs Surveys / Counselor Feedback -Nurse Logs -EL Teacher Contact Logs/Surveys -Student Engagement Data -NCStar Assessment/Diagnostic with NC Standards -Course Failures -Retention Lists -Home Visit Logs -Cohort Graduation Rates -Dropout Rates -Attendance -Discipline -504 Online Housing Program -Expenditure Report From ESSER I -Principal/Teacher Survey in Regards to Needs -Progress Report to IEP Goals -Facility / HVAC / Air Quality Reports -BOG 3 Reports -Standards Based Grading -Good-Cause Exemption Sheets -Remote Instruction Anecdotal Data -Remote Instruction Plan -Summer Learning Plan Outline -WCS Virtual Learning Surveys / Data The needs of the system will be assessed and addressed based on the analysis of this data. When possible, data will be triangulated to enhance the credibility of the needs identification process. This will be done to facilitate validation of data through cross verification from more than two sources. It is the team's focus to provide a consistency of findings obtained through the different data analyzed to increase the chance to control, or assess, some of the causes and some threats influencing our results. Priority will be given to needs associated with the prevention of the spread of COVID-19 and learning gaps associated with disruption of education services through the proper allocation of resources provided by ESSER funding. All resources considered will be reviewed for sound, evidenced-based practice.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

At the conclusion of the data analysis, the team identified five categories of support that will address the needs associated with the COVID-19 pandemic. By providing resources to each of the categories of support below, it is anticipated that the district's strategic goals will be positively impacted and our stakeholders will benefit holistically. Once these categories were identified the team identified the allowable uses of ESSER and how they would correlate to our needs. 1. Learning Support - Learning Recovery / Coordination of Preparedness and Responses / Special Populations / Long-Term Closure Activities / Educational Technology 2. Physical, Mental, Social and Emotional Support - Coordination of Preparedness and Response / Mental Health Services 3. Environmental Support - Improve Air Quality / Training to Minimize Virus Transmission / Supplies to Sanitize and Clean 4. ADM Support - Long-Term Closure Activities 5. Frontline Support - Learning Recovery / Summer Learning By addressing these categories with activities that are allowable through ESSER III, we anticipate being able to move forward with our Wilkes County School (WCS) Strategic Plan goals: 1. Eliminate Opportunity Gaps 2. Improve School and District Performance 3.

Increase Educator Preparedness to Meet the Needs of Every Student Detailed Information on the WCS Strategic Plan can be found in the needs assessment data link in Part A.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 3,179,662.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Wilkes County Schools will use state mandated assessments, summer learning data, Renaissance Star assessments, daily formative assessments and qualitative data from school staff to identify progress and needs to direct our learning recovery efforts. All federally funded schools will continue using NCSTAR to direct them in determining which school success indicators need to be addressed within the context of the pandemic to support all students. Special populations staff will review, evaluate and revise current individualized education plans (EC, EL, 504, Homeless/Foster Care) in light of needs identified during the past year. All federally funded schools will conduct comprehensive needs assessments with quantitative and qualitative data to determine efforts of learning recovery for their specific students. All the assessments and accountability strategies mentioned above contribute to our goal of improving and fostering student learning recovery. As we analyzed our assessment data our focus will be on mitigating the effects of learning loss and returning students academically to where they would have been in the absence of the pandemic. Our students have been profoundly and differently affected by the closure of schools and the introduction of virtual instruction, and are likely to return to school with an even higher variance in preparation for the coming year than in normal years. The assessment strategy will be an effective tool in helping teachers match their instruction to where students are. In the short term, formative skills-based assessments, pre and post-assessment and progress monitoring, will help our teachers identify student learning levels, differentiate instruction, and meet students where they are as they transition into in-person instruction. In the long term, traditional accountability tests, either administered to all students or a representative sample of students, will hep us measure the large scale average effect

of learning loss due to COVID-19 and direct resources to the groups who have been hit hardest, i.e. EC, EL 504, Homeless, Foster Care, Economically Disadvantaged, etc.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Based on the assessment data outlined above, Wilkes County Schools will focus on evidence based activities for learning recovery. Below is a list of each activity planned with a brief description: 1. Textbook adoption for K-5 Ready and K-5 Math - these textbooks will be used to supplement / enhance student learning as they are incorporated into teacher lesson plans. 2. K-12 Interventions - professional development and training will occur to select and implement evidence-based interventions to address identified needs of individual students as well as progress monitoring. 3. Cultural Arts Enrichment - Due to COVID 19 and additional safety protocols our arts programs have been required to allocate additional supplies and materials to keep our programs from becoming potential super spreader events. Our district has been required to replenish materials more often and our supplies are low or completely gone. The time has passed where materials could be shared in class, across grade levels, and across the entire school. Whether in art, music, or theatre we must provide the basics for a sound basic education and this requires increasing the cultural arts budget. 4. Parental and Family Engagement - professional development and training on evidence-based, parent and family engagement strategies for our administrators provided by consultant. 5. After school support for our at-risk students - The learning loss students have experienced may require time beyond the regular school day and summer programming to recover. We are planning to establish Homework Havens as a support for students who need ongoing tutoring or interventions beyond the regular school day. These sites would hire tutors to work every afternoon for several hours to meet the needs of students and families. We would offer drop-in services so that students who are struggling with work can come to get homework assistance, tutoring, or technical assistance for accessing web-based instructional tools and programs. Additionally, schools may elect to offer supplemental interventions to students who are willing to participate in these extra sessions beyond the school day. 6. Completion on upgrading and replacing HVAC systems to mitigate the spread of the COVID-19 virus so that we will increase the likelihood of being able to continue with in-person learning. 7. SNAP Health Center & Portal for School Nurses - One of the major lessons we have learned in the COVID-19 pandemic is how essential the monitoring of health conditions by our school nurses and other staff is to the safety of our schools. With the pandemic, we have had to create and build tools for our nurses to document and track C-19 symptoms, confirmed cases, and return to school dates for our students. While our homemade data collection tools have been sufficient for our needs to date, we recognize that a more robust system would make this work easier for our school nurses and more efficient for our families and schools. We would like to invest in a documentation system that will allow our school nurses to document their interactions with students, manage health plans for those with chronic conditions, monitor medication administration, collect data for state reporting, and securely communicate with both parents and colleagues regarding student health needs. We have selected the SNAP Health Center and Portal for School Nurses for these tasks as it is the industry leading

documentation and communication tool that integrates with PowerSchool. 8. Improving Employee Wellness - The pandemic has also taught us many lessons regarding maintaining and protecting both the physical and emotional health of our employees. The physical and emotional toll on all staff has been great and we want to respond to the evidence of this toll that we have seen already as well as the long-term impacts that may come from living and working in a public school during a global pandemic. We want to improve the physical and mental health of our employees by dedicating funds for wellness initiatives at each school site or work location that meet the needs of personnel in that location. While one site might decide to pursue a yoga instructor to provide weekly yoga classes for the staff, another might feature activities and incentives to help staff maintain a healthy weight, another might offer professional learning sessions on optimizing one's mental and emotional health led by a local therapist and another might install calming and relaxation aids in their staff lounge. 9. Juvenile Mediation - See Part D. 10. Special Populations - Included in after school support as well as addressing needs specific to homeless students and families. We know that many of our families have experienced economic losses from the pandemic that have impacted their housing status. We also know that many of our families have experienced mental health, substance abuse, or other crises that may cause children to enter the foster care system. With either of these scenarios, we know that maintaining school stability for students impacted by homelessness or involved with the foster care system is an absolute priority. We are planning to help assist with transportation costs that go above and beyond our normal transportation costs on our school buses or in contracts with parents/guardians who need to provide transportation if our buses are not available for the student to get to their school of origin. 11. Educational Technology - provided students connectivity and software solutions to support the learning recovery efforts and to prepare for the event of returning to remote learning. 12. Mental Health Services - as outlined in ESSER II funding grant application, i.e. contracted service with licensed therapists, profession development / training, software and supplies needed for embedded training.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

One of the priorities for our learning recovery efforts is to properly train our administrators to facilitate every opportunity to engage our stakeholders in research-based, parent-friendly strategies to connect home and school and to empower families. A specific need identified in Wilkes County is the decrease in parent and family engagement during the pandemic. We determined that we were not properly prepared to support our families to face the challenge of remote learning as well a hybrid remote learning / in-person schedule. Therefore, through much research we have determined to contract with an established organization that has documented experience in advocating for effective and transformative family engagement. Our plan is to provide ongoing embedded training for our leadership teams on how to properly, and effectively communicate, and engage our families, as we transition into in person learning. This training will not only offer strategies, resources and materials to our leadership teams, but we will also contract to provide on site, supervised family activities that will give the opportunity for the consultants to give real time feedback

on the events during the year. The plan is not only to provide information and assistance to parents and families to support them in distance learning, but also to regain some of the connection that was lost during the pandemic. The company we have chose to contract with is Sliver Ink Publishing and they come highly recommended by several peers. We also want to provide more support for our elementary / Title I parents on the developmental needs of young students. We will be training our K-5 student instructional support personnel in delivering the Circle of Security parenting program. The goals of this program are to increase secure relationships between caregivers and children based on the child's developmental needs for attachment. We have selected this parenting support curriculum based on what we have learned about trauma, resiliency, and protective factors. Rather than focusing on correcting a child's behavior, this parenting program focuses on the caregiver's response to the child, which makes it suitable for parents as well as foster parents and other caregivers (such as teachers) in a child's life. Given the large number of children we have in foster care in our county, it was especially important for us to select a training that would meet the needs of our student and caregiver population. A positive adult relationship is often the key protective factor in a child's resiliency, so we want to utilize this program to help parents and other caregivers improve their relationships with their children. We believe this training will also help us strengthen our relationships with parents/guardians and give us more avenues of supporting parents in meeting the essential needs for their children. Our future plan would be to implement the training with our early elementary teachers also to help increase teacher capacity in understanding the behavior of children, offering consistent support, and meeting relationships needs with their students.

* (D) Tracking student attendance and improving student engagement in distance education;

Wilkes County Schools acutely recognizes that attendance measures have been used as proxies of engagement generally, but in the wake of COVID-19 and the emotional impact it has had on so many students, it will be valuable to directly assess student socioemotional and non-academic skills. It was no surprise as we studied our data that our enrollment has dropped during the pandemic. Many of our students who previously had good attendance records have experienced attendance concerns for the first time. We would like to contract with Juvenile Mediation to provide support to our school administrators and student instructional support personnel in working with students and families who are experiencing attendance issues or other conflicts with the school that interfere with their educational experience.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

As mentioned above, Wilkes County Schools will use state mandated assessments, summer learning data, Renaissance Star assessments, daily formative assessments and qualitative data from school staff to identify progress and needs to direct our learning recovery efforts. All the assessments and accountability strategies mentioned above contribute to our goal of improving and fostering student learning recovery. As we analyzed our assessment data our focus will be on mitigating the effects of learning loss and returning students academically to where they would have

been in the absence of the pandemic. Our students have been profoundly and differently affected by the closure of schools and the introduction of virtual instruction, and are likely to return to school with an even higher variance in preparation for the coming year than in normal years. The assessment strategy will be an effective tool in helping teachers match their instruction to where students are. In the short term, formative skills-based assessments, pre and post-assessment and progress monitoring, will help our teachers identify student learning levels, differentiate instruction, and meet students where they are as they transition into in-person instruction. In the long term, traditional accountability tests, either administered to all students or a representative sample of students, will hep us measure the large scale average effect of learning loss due to COVID-19 and direct resources to the groups who have been hit hardest, i.e. EC, EL 504, Homeless, Foster Care, Economically Disadvantaged, etc.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

11/9/2021 12:01:17 PM

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ○ No	To reduce the potential for airborne transmission of COVID-19 the layout and design of all Wilkes County Schools facilities, as well as occupancy and type of heating, ventilation, and air conditioning (HVAC) system, will be assess to determine the impact potential of airborne spread of the COVID-19. Where determined to be needed,	2021-2024		$ 9,042,504.47

| | | improvements to ventilation and air cleaning will be one step in eliminating the risk of airborne transmission of the SARS-CoV-2 virus. EPA recommends increasing ventilation with outdoor air and air filtration as important components of a larger strategy that includes social distancing, wearing cloth face coverings or masks, surface cleaning and disinfecting, handwashing, and other precautions. | | 1. Decrease in contact rate for students and staff up to 3% at each facility with upgraded air flow as recommended by CDC. 2. Decrease in number of students in remote learning of up to 50% based on confidence of community to transition children to in-person learning due to upgraded air flow systems. 3 Improve attendance rate up to 5% due to reducing the risk of airborne infections by upgrading air quality in antiquated facilities. | |

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ⦿ Yes ○ No	1. Professional Development in Star Assessment and Improving Employee Wellness 2. SNAP Health Center documentation software for nurses to document interactions with students and mange health plans for those with chronic conditions. 3. Supplies for Improving Employee Wellness 4. Contracted services with Juvenile Mediation (attendance)	2021-2024	1. Increase student attendance up to %5. 2. Increase parental engagement contacts up to 20%. 3. Increase of employee attendance up to 15%. 4. Increase of Teacher Working Conditions Survey results overall of up to 25%.	$ 529,600.00
	* ⦿ Yes ○ No	1. 504 Planning Software - A digital platform is needed to manage and share 504 documents during annual meetings. A digital storage platform would	2021-2024		$ 104,500.00

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.		also allow greater access to our 504 coordinators so they could schedule meetings that meet the needs of our parents. During COVID 19 many parents feel safer conducting meetings and signing paper work digitally. 2. We know that many of our families have experienced economic losses from the pandemic that have impacted their housing status. We also know that many of our families have experienced mental health, substance abuse, or other crises that may cause children to enter the foster care system. With either of these scenarios, we know that maintaining school		1. Increase parental engagement contacts up to 20% as measured in communication logs with DHHS / Parent and Family, and 504 meetings.

		maintaining school stability for students impacted by homelessness or involved with the foster care system is an absolute priority. We are planning to help assist with transportation costs that go above and beyond our normal transportation costs on our school buses or in contracts with parents/guardians			
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$ [_____]

11/9/2021 12:01:17 PM

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ⦿ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ⦿ No				$
	* ○ Yes ⦿ No				$

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.					
	* ◉ Yes ○ No	1. Computer equipment to repair and replace for lost and damaged student 1:1 devices during remote instruction. 2. Zoom Professional subscription for students who will remain in remote instruction due to the pandemic. 3. During the course	2021-2024	1. Maintain 1:1 device ratios of 100% for students. 2. Maintain 100% of connectivity infrastructure for students and staff for remote instruction.	$ 168,000.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		During the course of the COVID pandemic and remote instructions, a need was determined for some upgrades in our ability to provide connectivity for our students and staff: next generation anti-virus protection, off-site hosted backups for district data, active vulnerability network scanning, and multi-factor authentication software. These upgrades will support our remote instruction efforts provide for a secure and stable infrastructure for our remote learning students due to present/future COVID restrictions.

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ○ No	1.Mental Health Therapists - to meet the increased need for students and staff is to contract with the local mental health providers to have three mental health providers dedicated to each attendance zone in the district. 2.Circle of Security Parenting - providing more support to our elementary parents on the developmental needs of young students. 3. DESSA - SEL Universal Screener - a universal SEL screener and to move forward with SEL integration into all classrooms.	2021-2024	1. Increase student attendance up to %5. 2. Increase parental engagement contacts up to 20%. 3. Increase of employee attendance up to 15%. 4. Increase of Teacher Working Conditions Survey results overall of up to 25%. 5. Decrease number of counselor referrals up to 10% in three year window (2021-2024).	$ 2,802,716.00

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ○ Yes ◉ No				$
	* ◉ Yes ○ No	Indirect Cost	2021-2024	As determined by Finance Dept.to support federal program implementation 100% for 2021-2022 school year.	$ 71,327.53

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.					
				Total ESSER III Allotment	$ 12,718,648.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

There are no new applicants.

GAN Information

Wilkes County Schools (970) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Wilson County Schools (980) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

1. The Needs Assessment Process consisted of Senior Staff and other District level administrators convening to review the goals for ESSER I funding and the amount remaining in ESSER I and to forecast the district needs through September 2024. A draft list of expenditures was compiled and shared with principals for feedback and input. The Assistant Superintendent for Administrative Services has worked closely with the Wilson County Health Department throughout the pandemic so guidance from the Health Department was also included in the needs assessment process. The district also completed an online survey to gather input from community stakeholders. 2. The district plans to assess and address student learning gaps through a class size reduction teachers, intervention positions, afterschool tutoring and a summer program for 2021-2024. Data Considered 30 percent of students considered at risk given current grades and district benchmarks 23 facilities are in need of window and HVAC upgrades to reduce virus transmission and improve air quality 100% served in the Exceptional Children's Program are most in need of learning loss services based on data 100% of sites continue to lack funding for PPE outside of ESSER funds 100% of classrooms need to be equipped with flat screen TV panels and swivls to allow synchronous blended instruction Student lessons and family engagement activities need to be recorded for asynchoronous delivery Media centers

need to be upgraded to provide STEM and project based learning experiences, while providing appropriate social distancing 100% of principals indicate a need for continued professional development for remote learning and technology integration 100% of schools are behind in processing IEP referrals and reevaluations due to COVID 20% of EC students in need of compensatory education services 100% of facilities in need of updated media centers to create engaging STEM centered media centers that actively engage students in learning Increased need of student support services and mental health due to COVID Increased technology work orders due to increase in technology usage Families continue to need hotspots

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Schools do not have sufficient PPE to protect students and staff Insufficient supplies exist to properly sanitize schools Additional instruction is needed for 30% of students due to learning loss, the use of online Reading and Math online programs will allow for ongoing assessment and differentiated instruction to fill instructional gaps Students are in need of intervention and small group instruction due to learning loss Professional development is a continued need for all staff to increase the quality and effectiveness of virtual academy instruction and technology integration in a face to face setting Compensatory services are needed for EC students to ensure that learning loss is addressed Upgrading windows and HVAC units will lead to better air quality and reduced transmission of virus TVs, speakers, and swivls will allow for synchoronous instruction and high quality technology integration Hotspots are needed for students to engage in remote learning days TV studio will allow student lessons and family engagement activities to be recorded for asynchronous delivery Student support and mental health positions will provide needed services and support to 26 schools

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 7,526,590.75 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities,

students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Wilson County Schools will address learning loss through the use of the following strategies: reducing class sizes with class size reduction positions, hiring either an interventionist to provide during the day intervention or teachers to provide afterschool tutoring or ACT preparation instruction at each of our schools, and the implementation of Summer Scholars Institute for 2021-2024. We will utilize data from Lexia and Dreambox to assist with ongoing differentiation and small group instruction. These programs will be utilized duirng the summer and regular school year. In addition, we will continue Project REACH efforts that were started with ESSER I funds to continue to provide outreach services to students with attendance and lack of engagement concerns. We will also utilize funds to provide EC compensatory education services as determined by the IEP team.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Wilson County Schools has utilized interventionists in 10 schools during the 2020-2021 school year. Evidence indicates these positions have been effective in producing academic growth in the students served. We have also utilized Lexia this year and have seen positive academic results with the utilization of this resource to both motivate reading practice and to chart progress in reading skills. The data from Lexia has also been utliized to guide small group instruction. Extending the school year for our most at risk students through the Summer Scholars Institute will also assist with providing a continuation of evidence based instructional practices to at risk students and reduce the risk of summer learning loss.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Wilson County Schools has a robust Family Engagement Academy that is hosted by the district federal programs office. Sessions have been provided to assist families in all content areas, as well as in the use of technology tools in the distance learning environment. We will continue to offer these sessions and will tweak the content of these sessions based on ongoing feedback from participants and our District Family Advisory Council.

* (D) Tracking student attendance and improving student engagement in distance education;

With ESSER I funds we began Project REACH. Project REACH utilizes current employees (social workers and counselors) that are willing to work extended time on nights and weekends to provide intervention and outreach to students and families that are not engaged in the learning process. Project REACH has had excellent results thus far this school year, resulting in reengagement of at least 85% of the students initially referred. We plan to continue this

iniatitive with ESSER III funds. Funding will be utilized to continue a Virtual Academy and Teacher Development Coordinator to provide professional development geared toward increasing student engagement in virutal learning.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Wilson County Schools will utlize all data sources: student course grades, benchmark data, Lexia and Dreambox data, as well as attendance data to track academic progress and to identify at risk students that are in need of additional supports in order to experience academic success.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ⦿ No				$ 0.00
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ○ No	We will be upgrading HVAC systems in 23 facilities to improve the air quality. This will be done by updating air handling systems, changing 2 pipe systems to 4 pipes and updating control systems to allow for fresh air and proper ventilation. We will upgrade the current single pane windows in 23 facilities and the district office.	June 2021-July 2024	Air quality measures, COVID statistics	$ 23,281,628.82

		These single pane windows allow for air to pass through as they are not sealed well. Installation of double pane windows will improve air quality inside the buildings. (Added additional $12,320,790 for HVAC and window upgrades to assist with improving air quality 10/28/21)			

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ⦿ No				$ 0.00
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ○ No	EC compensatory services will be offered as deemed by the IEP team. Funds will be utilized to offer Saturday testing clinics.	June 2021- August 2024	Students served and progress monitoring data based on IEP goals.	$ 132,020.00

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$ 0.00
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$ 0.00
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	PPE and sanitizing materials will be purchased for all sites.	June 2021- September 2024	COVID statistics	$ 430,522.01

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ◉ No				$ 0.00
	* ◉ Yes ○ No	Funds will be spent to develop a district recording studio that can utilized to record lessons for asynchronous instruction. The recording studio will also be utilized for family engagement and instruction. In addition, funds	June 2021-August 2022	Number of devices deployed, Data on recorded lessons or family engagement events, usage data for STEM labs	$ 3,825,221.50

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		will be utilized provide TV displays, cameras, and speakers in all classroom that will allow the teacher to provide both face to face and remote instruction simultaneously. Funds will be allotted to cover installation costs associated with the interactive TV displays such as additional electric hardware needed for the install and painting the area where old boards were removed to install the interactive TV displays that enable staff to deliver hybrid instruction. Repair and renovation costs associated with installation of interactive TVs are directly		

		are directly related and in response to COVID and are necessary to provide quality hybrid instruction. Media centers will also be revamped to provide spaces for STEM and project based literacy instructional experiences.			
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ○ No		June 2021-June 2024	Data on students served and statistics on student success for these students (grades, level of engagement, attendance)	$ 735,336.85

		3 positions that were started with ESSER I and GEER funds will be sustained through 2024 with ESSER III funds: Executive Director for Student Services, Mental Health Coordinator, and Lead SEL Psychologist. These positions will work collaboratively with current social workers, counselors and school personnel to ensure mental health needs are met. (Changed lead SEL psychologist to an additional social worker based on needs 10/28/21)			

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ○ Yes ○ No	Summer Scholars Institute will be offered in 2022, 2023, and 2024 utilizing ESSER III funds.	June 2022 - August 2024	Pre and post assessments from each Summer Scholars Institute session.	$ 0.00
	* ○ Yes ○ No		July 2021-July 2024	Sign in sheets from professional development, survey data from PD sessions, success data for Virtual Academy students (grades, attendance, level of engagement), Project REACH data	$ 1,318,872.07

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		Sustain Virtual Academy Coordinator position, Staff positions for Virtual Academy (full time or stipends), Continue Project REACH, Class size reduction positions, interventionists, tutoring, Additional clerical support for entering budgets and amendments, additional Instructional Technology Facilitator position to support technology integration and professional development (changed to Instructional Facilitator instead of ITF - October 2021)			
				Total ESSER III Allotment	$ 29,723,601.25

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

There are no new applicants.

Wilson County Schools (980) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Yadkin County Schools (990) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Our district leadership in collaboration with school leaders have analyzed all available data (iReady diagnostics, failure reports, Letterland assessments, BOG scores, Parent feedback, and Common Formative Assessments) to determine learning gaps and failure rates at all levels (K-12). This year, Yadkin County Schools has seen a significant drop in Reading and Math proficiency and a higher rate of failure at the secondary level. Yadkin County Schools intends to utilize the EOY diagnostics and state testing to assess student performance for the year. We will provide summer learning opportunities for all students identified as at-risk due to the disruption in educational services. In the 2021-22 and 2022-23 school years, Yadkin County Schools will employ additional teachers and assistants for intervention and enrichment. This will help to lower class size and allow for a focused effort on closing student learning gaps brought on by the pandemic. Current Data Due to the Disruption of Educational Services: The percentage of students scoring at a "Level 1" on the BOG test for third grade has remained steady in the three years prior to 2020-21(between 49 - 51%). This year 73% of third graders in YCS scored a "Level 1". As of this fall: grade levels 3, 4, and 5, yielded a total of 41 students currently failing a course. Of these 41 students, they are failing a total of 57 courses; middle schools show a much higher fail rate than their elementary counterparts. A total of 363 students are currently failing at least one course

(approximately 30% of the total student population); just under 30% of the total high school population is failing at least one course (28%); of those students, approximately half are failing more than one course. One quarter of students at FHS have at least one "F", while 33% of S at SHS have at least one "F". Diagnostic performance in iReady indicates that the number of students performing below grade level in Math has increased by 10%.These data cover student performance through the midyear diagnostic. Diagnostic performance in iReady confirms BOG findings, which show a decrease in the number of students performing at grade level across grades K - 8. These data cover student performance through the midyear diagnostic. Internal projections of student growth in high school EOCs show the following learning losses as indicated by Normal Curve Equivalent scores (scores for two traditional high schools): Math 1: -8.5, -9.0; Math 3: -4.3, -1.1; English 2: -2.1, -1.7; Biology: -6.2, -7.5

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

PSU Data Analysis due to the Disruption of Educational Services: Our district team has determined that our students have experienced tangible reading loss and substantial math loss through instructional time lost during this pandemic. An examination of performance data coming from the Beginning of Grade testing for 3rd grade (BOG) and iReady diagnostic assessments indicates that we have learning loss in both subject areas, and our lower-performing students have been more impacted than our students that are traditionally higher-performing. Our BOG scores have been relatively stable for the past three years prior to this school year; however, this year, the amount of students performing at a "Level 1" doubled. The students scoring at the one- to two-year below grade level range in our Reading diagnostic are scoring lower than groups have in past years. Math diagnostic performance has shown a dramatic increase of students performing at a one- to two-year below grade level range. Pre-Pandemic PSU Data Analysis: In a review of cohort and trend data, scores in reading and math remain steady with cohorts seeing slight increases, but most grade level trend data demonstrates a loss over time. Since the 2013-14 school year, grades 3,4,5, and 6 see a drop in reading proficiency. 7th grade held steady and 8th grade saw an increase of 2.8% over the last 5 years. Math proficiency shows a steady decrease by cohort, but an increase in most trend data across the grade level. Since 2013-14, all grade levels increased proficiency with the exception of 6th and 8th grade. Increases and decreases are minimal. Over the past 5 years, there is a 15.8% gap between whites and Hispanics in grade level proficiency (GLP) on EOGs and EOCs. The average proficiency for White Students is 64.5% between 2013-14 and 2017-18 school years and Hispanics are 48.7% proficient on average during that same time span. The largest gap shown by the trend data is the gap between Economically Disadvantaged students and their peers. 60% of YCS students qualify for free or reduced lunch (EDS) in 2017-18. 51.4% of our EDS students are proficient compared to 73.2% of their peers who do not qualify for economic assistance. The gap is almost 22%. 21% of our Hispanic students are considered Limited

English Proficient in YCS. The English Learner (EL) subgroup is much lower with only a 63% graduation rate. The gap is 23% LEP or EL student 5 year average for proficiency is 24.1% between the years of 2103-14 and 2017-18. SWD students are 27.3% proficient during this same time period.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 2,519,892.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Yadkin County K-8 schools utilize iReady diagnostic assessments at the beginning of year, the middle of year, and the end of year to determine student proficiency and growth. This data informs core instruction as teachers differentiate lessons based on standards mastery. This data also provides information to create small groups and triggers opportunities to identify and address specific skill deficits. In addition to diagnostic data, baseline assessments are used in elementary schools to determine specific needs in phonological awareness, phonics, fluency and comprehension. Common formative and summative assessments are administered in individual content areas across all high schools. Midterm benchmark assessments are utilized to identify content area skill deficits and the data is used to address student learning gaps.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

We will use funds to provide a consistent core curriculum for language arts, math, science, and social studies across all grade levels. Consistent resources focusing on the NCSCoS will allow us to accelerate students to grade level. Elementary will utilize Studies Weekly (SS), Generation Genius (Science), Heggerty curriculum, Letterland, Ready Reading (ELA), and Ready Math for Tier 1 instruction. Secondary will utilize Gizmos for Science as well additional content instructional resources and software. For our youngest learners requiring additional support, we are ensuring all elementary schools have a full-time reading and math interventionist. Funds will also ensure all k-2 classrooms are sufficiently equipped with decodable texts accessible for emergent readers. In addition to decodable Letterland

readers, consumable Letterland handwriting materials and a subscription for Letterland online will be utilized. Tier 2 and Tier 3 intervention resources will be supplied to all elementary, middle, and high schools. iReady Instructional Toolkit lessons will be utilized for Math Tier II interventions K-8. Number Worlds will be utilized at elementary and middle school for Tier III intervention. Heggerty pre-K materials, Phonics for Reading, Hill Rap, and Easy CBMs will be used to provide strategic support for and measure the progress of students in Tier II reading interventions. Tools for Comprehension-Intervention will be utilized 6-8 reading at Tier II. Hill Rap will be utilized K-8 for Tier III reading intervention. This includes funding to enhance media centers in all K-12 schools.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

One approach to supporting parents to support students is to provide texts that can go home with students. These texts will help students build background knowledge and develop vocabulary. Based on outreach and communication opportunities developed during the Pandemic, parent meetings will continue to be offered via online platforms and during remote learning days. YCS plans to partner with a local IHE to provide families in the county with afterschool targeted remediation and homework assistance at JES, WYES and YES as well as both SMS and FMS. The Institute for Higher Learning (IHE) will work with parents to provide information on how to best help their children in a remote learning environment. The children will engage in literary activities and receive homework help while parents receive targeted support.

* (D) Tracking student attendance and improving student engagement in distance education;

We will continue to use PowerSchool to track attendance of students. For remote learning purposes, logging into an online class is considered being "present." When measuring student engagement, student access to technology as well as in-home support and facilitation of remote learning are taken into account. Additionally, teachers meet weekly with individual students via an online platform to address learning gaps, concerts about engagement, and receive feedback on their work.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

A multi-year analysis of math and reading iReady diagnostic feedback indicates there is measurable learning loss across grade levels. When these data are broken down by quintiles within grade-level cohorts, the performance data shows that our lower performing quintiles experience learning loss at a greater rate than than our higher performing quintiles. While this loss spanned both reading and math, the math loss was more profound across all groups. Our Beginning of Grade Three Reading Test (BOG) scores yielded half of the passing rate than it did over the past three years prior to this year. For the three years prior to the 20-21 assessment, the range of students scoring "proficient" on the BOG ranged from 21-23%; for 20-21, the passing rate was 11%.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
	* ⦿ Yes ⚬ No	YCS will utilize ESSER funds to replace outdated and faulty windows at multiple schools locations. In order to improve the air quality and	2021-2024: Replacement of windows at the oldest locations. Install security/entry equipment.		$ 300,000.00

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	Sanitation and Hygiene 1. All YCS staff will be trained in YCS Sanitation and Hygiene Protocol (SHP) 2. All YCS buildings will be sanitized using the process outlined in the SHP 3. Supplies required to effectively sanitize will be purchased.	2021-24	Staff responsible for executing SHP will complete checklist once completed; site manager will submit to Director of Operations	$ 100,000.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ⦿ No					$
	* ⦿ Yes ○ No			2021-24	Professional Development Rosters Teacher Evaluations o the utilization of the new technology Parent/Student/ Teacher Surveys	$ 809,427.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		Classroom Technology will be purchased to increase instructional access for all students. Additional resources and software will also be acquired to improve teacher, student, and parent communication. 250 NewLine Interactive Panels (+installation) 350 Classroom Desktops 250 Document Cameras Resources :Zoom, GoGuardian, Edlio, Remind, Classlink, Blackboard Connect			
		School Based Therapy: YCS			$ 500,000.00

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ◯ No	Therapy. YCS will partner with local mental health agencies to provide school based therapy at no cost for any student requiring intensive mental health services. The system's LCSW will provide small group and individual mental health services to any student at-risk during summer learning opportunities in the 21/22 summer months. YCS will purchase 6 school licenses for 6 minute SEL to be utilized for the summer learning initiative. Day Treatment	Summer 2021-24	YCS will use pre/post self assessment data to analysis the SEL efforts (small group therapy/CORE curriculum/individual therapy) to determine the overall well being of at-risk students YCS/AYN will conduct mental health needs assessments pre and post day treatment services.	

		Teacher: YCS will partner with Alexander Youth Network to provide day treatment to students that have developed moderate to severe mental health concerns during the pandemic. YCS will have to supply a k-5 teacher to implement this initiative. School Counselor: YCS will hire an additional counselor. Mental Health Training and Resources: YCS will purchase mental health training for all district staff through Vector Solutions. YCS will contract with Aperture			

		with Aperture Ed to provide a mental health needs assessment (DESSA) to all student			
SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ○ No	YCS will create a Summer School program with six weeks of instruction, four days a week, for at-risk students in grades K-12. Summer School sites will be set up at four elementary schools, two middle schools, and two high schools. School nurses will be onsite to administer medications and ensure proper COVID precautions are taken. Transportation and meals	June - July 2021	YCS will use the pre-and post-assessments provided by the State Board of Education to assess student learning during our Summer School program. Additionally, we will utilize Read to Achieve assessments as well as other local formative and summative throughout the duration of our summer session.	$ 1,120,000.00

		(breakfast and lunch) will be provided for all students. Students in grades K-8 will be provided face-to-face instruction in math and reading, as well as additional subjects as appropriate (science, social students, and electives). Exceptional Children instruction and related services will be provided at every site Students in grades 9-12 will be provided credit recovery opportunities for any courses that students failed during the 2020-21 school year. Additional instruction			

		support will be provided by teachers and support staff during the summer school term.			
OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ◯ No	ESSER II and III Program Coordinator - The coordinator will provide leadership, direction and staff assistance toward the planning, development, coordination, evaluation, and research of ESSER II and III for the next 3 years. The Coordinator is responsible for administering and coordinating all activities as they are described in the ESSER II and II grant details. In	2021-2024	Federal Grant and Local Financial Audits will be conducted annually and reviewed to evaluate program effectiveness, coordination of services, and to ensure compliance.	$ 255,400.00

		grant details. In addition, the ESSER II and III Programs Coordinator will support principals to assure that all schools meet necessary timelines for submission of budget and other program information according to Federal requirements with ESSER.			
			Total ESSER III Allotment	$	6,736,935.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.

11/10/2021 10:10:23 AM

*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Grant Details

Yancey County Schools (995) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

The Needs Assessment and Plan was a coordinated effort between district stakeholders, including but not limited to, the superintendent, directors, administrators, teachers, and parent representatives. Once receiving input from each group, the district leadership team met to evaluate and rank order identified needs and create a budget associated with those needs to determine a plan for implementation of funds. In order to assess and address learning gaps, students have been and will continue to be progress monitored and evaluated using formative and summative instruments to determine areas of strengths and weaknesses. This data will then be used to plan interventions and instructional pathways for not only groups of student but for individual students as well.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

* Improve Air Quality - Due to the age of our schools, some school ventilation systems are currently not adequate. To ensure proper air flow that will support student health needs, ventilation systems will need to be inspected and necessary repairs and upgrades made.   * Supplies to Sanitize and Clean - As a result of COVID -19 and new sanitation protocols, YCS has identified areas of needs in regard to cleaning and disinfecting areas within the buildings and individual items in the building. This identification results in the need of more equipment and supplies to ensure the minimization of virus transmission. In response to COVID-19, the sharing of supplies and materials between students and classes is no longer safe without proper disinfection between uses. It is not always feasible to purchase individual materials for every student so proper sanitization equipment would allow for classroom use. * Education Technology - Due to the COVID19 pandemic, technology infrastructures have been taxed as never before. Upgrades are needed to support remote and onsite learning and the educational interaction between students, their peers and their classroom instructors, to provide support for learning recovery, help to minimize learning loss and improve our teaching and learning environments allowing us to continue to grow and improve education in Yancey County Schools. YCS networking equipment is more than a decade old and not sufficient to manage data traffic created by distance and digital learning. Currently, 20% of students are not one-to-one in regards to updated devices that work efficiently. Additionally, all seven schools are in need of additional instructional technology devices to support teaching and learning. Collectively, these improvements will help to provide support for learning recovery, help to minimize learning loss and improve our teaching and learning environments allowing us to continue to grow and improve education in Yancey County Schools. Mental Health Services - At this time, YCS only has one grant funded school nurse position to serve both middle schools which is approximately 480 students. This nurse is only able to provide each school with 20 hours of service time each week which results in student without access to school nursing services for a large portion of time. Summer Learning - Starting last spring, students within our district were forced to move to virtual instruction for more than 6 months. Lost instructional time due to the COVID-19 pandemic has resulted in "significant" learning loss for our students, both academically and in their social-emotional progress. This is especially true for our Hispanic, low wealth and EC population.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 965,000.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among

students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Programs will be provided to all students that will provide valid and reliable assessment results, as well as differentiated instruction. The programs will allow each student to receive personalized instruction and the appropriate academic level of for their ability and performance. These programs could include, but are not limited to, iReady, Renaissance Learning, Istation, etc. Students will be progress monitored weekly using these programs. The results will then be used to drive instruction at the whole class, small group and individual student levels. Assessment data will be disaggregated by subgroups to ensure instructional gaps are identified in all students and at all grade levels.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Data generated from assessment programs and informal assessment processes will be utilized to target small groups and intervention groups. Tutoring will be provided during the school day and during after school hours to provide targeted instruction based on student needs. Curriculum materials and resources will also be provided to meet the social-emotional needs of students at all levels. Professional development will also be provided to teachers and administrators to ensure fidelity of programs and supported implementation of training. This professional development will support assessment programs utilized to generate student data, any new social-emotional curriculum and The Science of Reading implementation.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

In conjunction with current district parent and family engagement activities, information and assistance will be provided that will support learning from school to home. Resources will also be provided that will bridge the instructional and informational gap between home and school. Grade appropriate instructional strategies will be shared with parent and families to promote the use of best practices. This consistency should positively impact student growth and performance. In the event of distance learning, open and on-going communication with parent and families. Social-emotional resources will also be provided. Parents and families who do not have internet access will be provided with internet connectivity options. Each school and the district will provide technology help desk supports for all students and families during distance learning.

* (D) Tracking student attendance and improving student engagement in distance education;

Students who do not have internet access will be provided with internet connectivity options. Each school and the district will provide technology help desk supports for all students and families during distance learning. Connectivity and technology resources will help to ensure students have daily access to instruction and on-going communication with teachers and other school staff, including student support services. Attendance will be tracked using PowerSchool during the school day, and any afterschool or summer attendance will be tracked using Google spreadsheets.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Cross-functional teams will be utilized to gather, share and analyze data since students returned to in-person learning. This data will include formative and summative assessments, End of Grade/Course assessments, attendance data, course failure reports, etc. Teachers will identify content-standard gaps due to fully remote learning during the pandemic. Vertical and horizontal alignment meetings will be implemented to ensure grade level standards are incorporated as needed for instructional planning purposes to address learning loss.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ⦿ No				$
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ○ No	In order to improve air quality and ventilation as a result of COVID-19 and any other transmittable viruses, the ventilation systems at all schools will be inspected and any necessary repairs, replacements or upgrades will be completed.	9/30/2024	Increased ventilation and air circulation during and after school hours	$ 335,000.00

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ◉ No				$

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◯ Yes ⦿ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ◯ Yes ⦿ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ◯ No	As a response to COVID19 and prevention of virus transmission, cleaning/sanitizing supplies, equipment, and services (cleaners, disinfectants, rags, etc.) will be purchased.	9/30/2024	Reduced spread of virus at all YCS schools	$ 50,000.00

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ⦿ No				$
	* ⦿ Yes ○ No		9/30/2024		$ 373,430.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		In response to COVID-19, technology will be purchased to support learning recovery, help to minimize learning loss and improve our teaching and learning environments. This will include instructional programs, interactive classroom technology and touch devices for students to enhance the educational interaction between students, peers and instructors and provides for ease of transition between distance learning and onsite instruction.		Increased and updated technology devices that will support online and in person learning in addition to support services Increased support for learning recovery, help to minimize learning loss and improve our teaching and learning environments with increased access to instructional technology and more effective use of instructional time	
		As a result of COVID-19 and screening requirements	9/30/2024		$ 85,000.00

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ○ No	requirements, Yancey County Schools does not have enough school nurses to provide adequate health services to students in the district. YCS will contract with registered nurses to help cover school nurse services across the district. The nurse will provide remote and in-person services to all students. These services will increase access to care for school age students allowing students to remain in class and limiting unnecessary exclusions. It will also increase education of individual students with chronic medical conditions which will improve management of		Monthly nurse visits by school and visit type including mental health, in addition to monthly attendance reports by school will be tracked as metrics evaluate effectiveness. Monthly visits by school will be tracked as metrics evaluate effectiveness.	

		diseases, increase follow up of care of students to reduce impacts of medical conditions on learning, and increase screening of mental health symptoms and increase referral and follow up with mental health treatments. As a result of COVID-19, the district is in need of a School Psychologist. YCS will use the funds to paycontracted services associated with this position.			

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ○ Yes ○ No	As a result of COVID-19, summer programming for students grades K-12 will be provided to mitigate learning loss. This includes transportation, meals, employment; instructional supplies/materials.	9/30/2024	Student academic and social/emotional growth; pre and post assessments to measure growth in content areas; social and emotional growth will increase as new friendships are formed with peers and staff throughout each instructional day; daily schedules; increased academic and social confidence	$ 900,000.00
	* ○ Yes ○ No	Indirect Cost Unbudgeted Reserve	9/30/2024	Unbudgeted items will be measured accordingly.	$ 520,005.00

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.					
				Total ESSER III Allotment	$ 2,263,435.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

 There are no new applicants.

Yancey County Schools (995) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Carteret County Public Schools (160) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

1) Central Office staff, principals, school board members and teachers examined test and assessment data from mid year 2019, mid year 2020 and course completion rates to determine educational needs. Key stakeholders were surveyed in the spring of 2021 to determine the needs of our students and teachers. Computer repair data was examined and compared to the number of technicians available. Links: 2021-22 Needs Assessment https://docs.google.com/document/d/1_fv8o_D0rxDFUogRH-B1rEl6pc6sTc946bo6f4UnPTE/edit?usp=sharing District NC Star Needs Assessment https://docs.google.com/document/d/1pkuIBddZTZ6Gz-3vRC2P2_2ijtiTXycg2io19k6Pa9M/edit?usp=sharing 2) We will continue to assess all student data, implement programs/practices to address identified areas of need and evaluate effectiveness of those initiatives in improving student outcomes. K-3 students will be assessed three times a year in the state approved vendor for reading and with FastBridge for math. 4-8 will be assessed in reading and in math with FastBridge. 9-12 course passing rates will be assessed mid year and end of the year in PowerSchool. Social Emotional needs of students will be assessed with FastBridge's assessments (mSAEBRS or SAEBRS) or Signs of Suicide (SOS). MTSS teams at each school will monitor growth through out the year making adjustments to student support as needed.

11/10/2021 9:42:38 AM

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Data Analysis https://docs.google.com/document/d/1O_VK2MLebec8RvT3S2RYSxHHIhxfTAdRLTRJOB7PI6g/edit?usp=sharing

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 6,152,817.17 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

High-quality assessments that are shown to be valid and reliable for use with students including FastBridge, the state approved vendor for the K-3 literacy assessment will be used in conjunction with End of Grade and Course assessments and North Carolina Check-Ins to assess students' progress in their underlying skills and on the standards at least yearly. Universal screening tools will be used at least 3 times a year in K-8. At-risk students will be progressed monitored on a regular basis. Teachers, MTSS teams and/or school improvement teams will monitor student progress and make instructional decisions based on the results. This data will be used to assess needs school-wide, in the classroom, and with individual students in order to provide appropriate supports and ensure growth for all students.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Teachers and MTSS teams will monitor student progress and make instructional decisions based on the results. Professional development needs will be based on the students' results to ensure accelerated student growth to reduce

the learning loss due to Covid. Instructional practices and strategies such as, small group instruction led by trained professionals, teachers, curriculum specialist and interventionist assistants, will be implemented to differentiate instruction. Teachers will receive professional development on evidence based instruction and research based materials will be provided for utilization with students. Curriculum specialist teachers will be hired to provide intense remediation to address the learning loss for students EL students, EC students and the general population with special needs. The specialists will be teachers with certifications in the areas of reading, EL or EC. As some families are choosing to remain virtual due to concerns over Covid, regular education teachers specifically trained in virtual instruction will be paid a stipend to address the comprehensive needs of virtual learners. NCVPS courses will be purchased to provide course opportunities for our virtual learners. Three curriculum interventionist specialists will be hired to work with high school students who are at-risk of failing or dropping out of school due to the negative impacts of Covid on student learning. Interventionist assistants will be hired in elementary and middle school to provide small group instruction. These interventionist assistants will be trained to be classroom instructional support. Budget is set for paying teachers, interventionist assistants and a virtual director for 3 years following state salary schedules.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Professional development will be provided to ensure that students as well as their families are supported in the educational process of their student. This will include support for learning in an distance learning environment. Counselors, social workers, and mental health clinicians will support families to bridge the gap between school and home and build educational and community partners.

* (D) Tracking student attendance and improving student engagement in distance education;

To increase student attendance, administrators, data managers, curriculum interventionist specialists, teachers, teachers assistants and interventionist assistants will track and monitor student attendance using an online attendance tracking system. Classroom teachers and curriculum specialists will monitor student engagement to ensure accelerated student growth. Professional development with a specific focus on virtual instruction, will prepare the virtual learning director and virtual teachers to best meet the educational needs of virtual students. To increase the opportunities to take needed or interest courses, virtual electives will be purchased through NCVPS. Families of students that are not showing engagement in distance education will receive personalized outreach, including outreach in the family's native language. Digital coaches will be hired to provide professional development for teachers to implement best practices to improve the learning environment. A technician will be hired to address and ensure that student access to functioning technology is available. Curriculum interventionist will be hired at the high school level to work with students and their families to be sure they are engaging in the learning process. These interventionist will also work with struggling students who are behind due to the instructional interruption Covid caused. Our calendar includes five virtual learning days at all grade levels. Teachers will provide support to families on how to access digital

work to increase student engagement. Data will be tracked to see if families and students are engaging and plans will be developed to make improvements for the next virtual learning day.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

MTSS teams which include administrators, classroom teachers, student support staff, curriculum specialists and curriculum interventionist specialists will evaluate and track student academic progress. This will be done using summative, formative, universal screening, and progress monitoring tools. Teams will have regularly scheduled meetings to review all students progress and will meet more regularly on students that are not showing adequate growth. Plans will be developed to meet the needs of the students to enhance growth.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

11/10/2021 9:42:38 AM

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ◉ No	Install an HVAC Control to regulate the air flow, air temperature, and humidity levels in schools	July 2021 - June 2022	Benefits will be measured by a decrease in the number of HVAC work orders submitted.	$ 105,000.00

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ⦿ No	Hire Contract Nurses to prevent the spread of COVID and reduce the effects of Covid.	July 2021 - July 2024	All students and staff will benefit from having nurses that work to prevent the spread of and reduce the effects of Covid. Nurses will be able to provide immediate services, allowing teachers and administrators time to do their jobs to educate students. Benefits will be measured using Health Related Incident Reports	$
	* ⦿ Yes ○ No	To respond to the learning loss due to Covid, the following will be done: -Hire EL teacher to respond to the learning loss and social emotional needs of students and families in the EL	August 2021-2024		$ 809,998.83

| **ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS:** Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population. | | population. -Hire EC teachers to respond to the learning loss and social emotional needs of students and families in the EC population. -Increase opportunities for small-group targeted instruction, we will ensure that teacher assistants and interventionist assistants are employed 210 day to serve students and receive appropriate training. Paying for TAs to work 5 workdays equates to 2 TA salaries for 3 years. | | K-12 students will benefit by having EC, EL and trained teachers assistants and interventionist assistants that are equipped to meet their unique needs. Benefits will be measured using the following: - FastBridge Competency Assessments - mClass Spring Assessments compared to Fall State Approved Vendor - EOG/EOC Data - Course Completion Reports - Graduation Rate - Behavior Mental Health Screening Report | |

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ⦿ No				$

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ⊙ Yes ○ No	To address the effects of Covid, the following will be done: -- Replace student devices that have been damaged as a result of increased use during COVID. Using ESSER funding due to our county not having a renewable funding source for 1:1 devices	June 2021 - September 2024	Students will benefit from having reliable computers so they are able to complete assignments. Benefits will be measured using the following: - One to One Service Ticket Data	$ 473,212.85
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⊙ Yes ○ No		July 2021 - September 2024		$ 799,999.08

		Responding to the social emotional effects of Covid, the following will be done: --Hire four student support and a mental health clinician to address the social and emotional learning needs of students that were evident from a review of our needs assessment.		Students will benefit from having mental health support, allowing their academics to improve. Benefits will be measured using the following: - FastBridge Competency Assessments - Course Completion Reports - EOG Results - EOC Results - Behavior Mental Health Screening Report	

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ○ Yes ◉ No				$
	* ◉ Yes ○ No		July 2021 - September 2024	All staff will benefit from receiving a supplement that compensates them for the extra demands of work placed due to Covid. -NC Teacher Working Conditions Survey	$ 1,030,411.07

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		To address the effects of Covid on the staff moral, the following will be done: - Supplement to enhance staff retention during COVID periods where extra duties were placed on all staff to meet the needs of face-to-face and virtual students. An ESSER manger will be hired to ensure that ESSER grants are applied for, monitored and appropriately allocated to ensure the needs of the district are met and all federal guidelines are followed. Indirect Cost			
				Total ESSER III Allotment	$ 3,218,621.83

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Carteret County Public Schools (160) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

 There are no new applicants.

Carteret County Public Schools (160) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Craven County Schools (250) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

The Needs Assessment and Plan for ESSER III funds has included coordination of preparedness and response efforts with school administrators, classroom educators, central services staff, along with state and local public health departments. Craven County Schools intends to assess and address student learning gaps resulting from the disruption in educational services by the following: Provide instructional activities to address the unique needs of low-income students, children with disabilities, ELL, racial, and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will address the needs of those students. Develop and implement procedures and systems to improve preparedness and response efforts as students return to school in the fall. Purchase sanitation and cleaning supplies of school facilities to prevent the spread of Covid 19. Purchase educational technology (including hardware and software connectivity) for students to aid in regular and substantive interaction between students and teachers (including low-income and disabled students), which may include assistive technology or adaptive equipment. Plan and implement summer learning and supplemental after school program activities, including providing classroom instruction or online learning during the summer months, and addressing the needs of all students. *Address learning loss among all students (low-income, children with disabilities, ELL, racial and

ethnic minorities, students experiencing homelessness, and children in foster care. Our K-2 Microphase Assessment data (phonics and phonemic awareness) indicates that 53% of our Kindergarten students are still at an Early Pre-Alphabetic level and due to learning loss we would need to continue working on these areas during our Summer Camp. Our STAR Reading diagnostic for Grades 3-5 indicates that 50% of our third and fourth graders are performing at least at a level of "Sufficient Command" and 44% of fifth grade students are performing at this same level. Lexia Core5 data in Grades 3-5 suggest that 62% of third grade students, 53% of fourth grade students, and 45 % of fifth grade students are performing at or above grade level. Our Lexia PowerUp data in Grades 6-8 shows that 74% of sixth grade students, 53% of 7th graders, and 50% of eighth grade students are performing below grade level in Comprehension. Our recent ELA Benchmark data indicates that 46% of third graders, 34% of fourth graders, 36% of fifth graders, 70% of sixth graders, 61% of seventh graders, and 68% of eighth graders are performing below grade level. English II Benchmark data indicates that 39% of students are performing below grade level. Our most recent Math Benchmark data indicate that 46% of third graders, 48% of fourth graders, 55% of fifth graders, 60% of sixth graders, 62% of seventh graders, and 75% of eighth graders are performing below grade level. Our Grade 9-12 Math Benchmark data shows that 74% of students are performing below grade level in Math I and 64% of students are performing below grade level in Math III. *Our ESL population has increased to 575 students with only having four staff members who are able to assist with translating, instructing our students, and the challenges of contact tracing with Covid 19. Additional staff is needed to assist with these areas to help address learning loss among our ESL students. Additional EC staff is *Address school facility repairs and improves to enable operation of schools to reduce risk of virus transmission and export to environmental health hazards, and to support student health needs. Craven County Schools facilities range in age from 69 years old which includes buildings on the campus of J. T. Barber Elementary to 13 years old (Creekside Elementary) which represents the last new building construction in Craven County Schools. Three schools have been constructed in this century, Havelock Elementary (2002), Bridgeton Elementary (2003) and Creekside Elementary (2007). *The average age of school facilities in Craven County Schools is 1971; nearly 50 years old. Although some of our school facilities are in adequate working condition, the age of the building makes them pose a challenge for poor air quality with the spread of Covid 19. ESSER III funding would help to improve the air quality in our aging school buildings and help reduce and prevent the spread of Covid 19. - Due to age, air handlers cannot accommodate increased MERV filtration to reduce particles in the air. It would create excessive strain on the equipment and cause failure. New equipment will be capable of increased MERV rating filtration to help prevent the spread of viruses and increase overall air quality. - Many of our current units are not capable of increasing the amount of outdoor (fresh) air intake and some do not have capabilities of providing outdoor air intake at all. Increasing the fresh air reduces the risk of virus spread by increasing air exchanges and creating better indoor air quality. - Multiple schools do not have centralized HVAC systems, meaning there are individual rooms with systems but nothing in the corridors. This was typical for the age of our buildings as they did not have air conditioning when they were designed. Solution is to add HVAC systems to areas with limited or no air flow to increase air flow for filtration and improve air

quality in the entire building. *Additional school inspections, testing, maintenance repair, replacement, and upgrade projects to improve the indoor quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems, filtering, purification, and other air cleaning, fans, control systems, and window and door repair and replacement. *Address other activities deemed necessary to maintain the operation and continuity of services in the district and continuing to employ existing staff of PSU

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

*Data from our district benchmarks and common predictive formative assessments in grades K-12 suggests that additional instructional activities are needed to address student learning gaps due to Covid 19. Our Lexia Core5 data for Grades K-5 was analyzed and indicates that students in Grades 3-5 are performing significantly lower when compared to our 2019-2020 Lexia data. Our Summer Program would provide additional time, support, and resources to address phonics and phonemic awareness due to learning loss, improve skill areas in Lexia Core5, improve reading comprehension in Grades 6-8 and help us address learning gaps from our district benchmarks in English II. An analysis of our District Math benchmarks indicates that students are performing below where we were at this point in time during the 2019-2020 school year. Our Summer Learning Program would help us to address skill deficiencies in math in grades K-12 to close those learning gaps. Our data analysis in reading and math will be reviewed again after the pre and post competency based assessments in our Summer Program. An analysis of our school facilities indicates the need for repairs and improvements to enable operation of schools to reduce the risk of virus transmission and exposure to environmental health hazards, and to support student health needs. ESSER funds would be needed for the inspection, testing, maintenance, repair, replacement, and upgrade of projects to improve the indoor air quality in school facilities, including mechancal and non-mechanical heating, ventilation, and air conditioning systems, filtering, purification, and other air cleaning, fans, control systems, and window and door repair and replacement.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 4,621,354.20 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Craven County Schools will administer and use high-quality assessments that are valid and reliable, to assess students' academic progress and assist our educators in meeting all students needs through differentiated instruction. Our PSU will administer the following assessments to address learning loss: Grades K-5 ELA (STAR Early Literacy/STAR Reading), FastBridge Grades 6-8 ELA STAR Reading/FastBridge Grades 9-12 Benchmark Assessments Grades K-5 Math STAR Math/FastBridge Grades 6-8 FastBridge Grades 9-12 Benchmarks Grades K-12 Second Step Social and Emotional Program Teachers of students with disabilities (SWDs) will receive training on how to adjust IEPS and services to meet students' needs in a distance learning environment. They will also receive guidance on how to utilize Teacher Assistants and other school personnel to provide one-on-one and small group assistance, as well as remedial and intervention services. Instructional services will be based on students' respective settings (adaptive, occupational, separate, inclusion). Teachers will utilize data from our Cognitive Abilities Test (CogAt) to address our Academically and Intelligently Gifted students. Our ESL students will continue to receive instructional support and assistance from our ESL team. ESL teachers will have a schedule for support and contact of students at each of their respective schools. This can be in small groups or individually. Schedules will be published and shared with designated students and parents before school starts. AIG teachers will have a schedule for support and contact for each of their respective schools. Intervention time will be built into the daily schedule so that educators can utilize assessment data to meet the unique learning needs of all students.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Evidenced-based activities are those that are supported by research and have proven to get positive results with students. Educators will implement evidence-based activities based on their "playlists" that are designed through our work with Modern Teacher and making sure they are aligned to the district instructional model PDSA (Plan, Do, Study, Act). These activities will consider screen time, synchronous, asynchronous, learning targets, and PDSA. Evidence-based activities will be developed in beginner, intermediate, and advanced formats. Professional Learning Communities will meet weekly to create "playlists/lesson plans", which will be published for all schools/classes/grades in advance so that students can work at their own pace. Hire tutors during the school day, and after school to assist with supplemental after school programming. Supplies and materials will be used to address learning loss among all populations of students (Regular Ed, EC, ESL, remedial, afterSchool, and for parental involvement. Teachers and staff who work extended day will provide remediation and other instructional supports to address learning loss.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Craven County Schools will continue to take multiple avenues to consult with stakeholders to meet students needs in a distance learning environment. We will continue to send out surveys to receive feedback and input. Our school leaders will help to communicate specific instructional plans for each school, grade level, and course. The district will share general information about what parents and students can expect while learning face to face and in a distance learning environment. Surveys were administered to certified educators, classified staff, students in grades 3-12, and parents/guardians. The surveys asked about our distance learning this year and pose questions related to concerns, needs, and current challenges with distance learning. Administrators have engaged in feedback protocols to analyze a variety of options, point out drivers, restrainers, and specific areas of need. Each district level division has participated in the feedback sessions in order to be aware of the areas of need they will have to specially address (enhancements, trainings, and revisions). A representative teacher from each school was selected to provide input on the specific processes and expectations for our distance learning plan. A representative parent from each school was elected to provide input on the specific processes and expectations for the distance learning plan that related to impacts on families. In addition, we used this time to solicit additional insight related to our operational planning for returning for learning in the fall. Related to the distance learning plan we used a protocol to solicit feedback on the following areas: *Connectivity *Engaging Community Partners (Childcare specific) *Design and Delivery of Instruction *Training Students and Parents *Learning Targets *Teacher/Student Communication *Students with Disabilities/AIG Students/ESL Students

* (D) Tracking student attendance and improving student engagement in distance education;

Attendance will be documented by teachers on class spreadsheets housed at each school and then transferred to PowerSchool by school staff (teacher or data manager). Students will be marked present once they have submitted the work assigned. The criteria for being marked Present or Absent will be the small for all schools for consistency and equity. Elementary students may need parental/adult assistance to access and/or complete their work, which may prevent them from electronically submitting work by the end of the school day. Students who are working offline will not be able to submit their work until they have internet access to upload or sync. At a minimum, the attendance procedures will be communicated to parents via school calls, emails, social media, teacher websites, course syllabi, school newsletters, Open House/School Opening welcome letters, etc. Our PSU will collect data from schools as documentation of all the communication methods.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

As families and teachers continue to help students address learning loss, it is important to monitor how well these students are retaining skills that they learned pre-pandemic while addressing new learning. Educators will set specific, realistic goals for each lesson and explain how learning will be assessed. Each lesson will spiral information that will help to address topics and material taught pre-pandemic. Educators will collaborate on using Common Predictive Formative Assessments to determine if students are meeting the targets set forth in their learning goals. Teachers will make decisions promptly after collecting assessment information that will impact teaching and learning. Summative assessments will be used from this current school year to help us pace out our curriculum and assessments for when we start back to school in the fall.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

| FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs. | * ⦿ Yes ◯ No | Purchase and repair school facilities that include but not limited to maintenance repair, replacement, and upgrade projects to include mechanical and non-mechanical heating, ventilation, and air conditioning systems, filtering, purification, and other air cleaning, fans, control systems, and window and door replacements. These repairs and upgrades will help reduce, prevent, and will be a response to COVID. | June 30, 2022 | Review school and local inspections from our Facilities and Maintenance Department to ensure facilities are able to reduce the risk of virus transmission. | $ 1,000,000.00 |
| | * ⦿ Yes ◯ No | Utilize funding to improve testing, maintenance, repair, replace, and upgrade | June 30, 2022 | | $ 2,500,000.00 |

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.		projects to improve indoor air quality in all facilities by replacing HVAC systems and new controls to help with dehumidification. These upgrades will help increase efficiency of airflow and air exchange and help reduce, prevention of, and/or be a response to Covid. Repairs and upgrades will include envelope repairs to windows, doors, walls to help with indoor air quality. We will begin replacing soft surfaces in classrooms with non porous cleaning surfaces to prevent the spread of COVID..		Coordinate with our Maintenance and Facilities Department to ensure schools are meeting sanitation requirements outlined by the CDC.	
		Continue to			

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ◉ Yes ○ No	improve our safety protocols to establish pathways to reopening schools full time in the fall. Purchase materials for cleaning, safety, and sanitation. Materials will include but not limited to touchless water faucets, touchless toilets, water bottle fillers, and automated hand dryers. These measures will reduce, prevent, and be a direct response to COVID. Materials will be purchased for program enhancement supplies and materials. We will continue to utilize these funds for a PreK teacher assistant due to the increase in learning loss. A	December 30, 2022	Activities, resources, and materials will be utilized and monitored by our Facilities and Maintenance staff to ensure safety measures are being met in all schools.	$ 1,880,714.00

		learning loss. A school leadership office support position will be added. Central Office supplies and materials will be added for regular curricular education. A Finance Office Support/Program Accountant position will be added to help review, maintain, and coordinate our continued response to Covid grant funding.			
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ◯ No		September 30, 2021	Activities, resources, and materials will be utilized and monitored by our Facilities and Maintenance staff to ensure safety measures are being met in all schools.	$ 3,617,035.46

		Increase personnel and resources to assist with safety protocols in all schools (LEP teacher to assist with contact tracking of ESL students due to increase of ESL students in our district) Increase EC personnel and resources to assist with learning loss in all schools. These strategies will reduce, prevent, and be a direct response to COVID.			
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ⦿ Yes ○ No		November 1, 2022		$ 2,168,506.49

		Continue to improve our safety protocols to establish pathways to reopening schools full time in the fall. Increase personnel and resources to assist with safety protocols in all schools. We will hire contract custodians to help reduce and prevent the spread of COVID. We will increase resources to improve our preparedness and response to COVID. Additional responsibility stipends will be given to teachers to for additional time needed to improve preparedness and response to COVID.		Activities, resources, and materials will be utilized and monitored by our Facilities and Maintenance staff to ensure safety measures are being met in all schools	

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	Purchase supplies so that schools can sanitize and clean all facilities to prevent, reduce, or be a direct response of COVID.	January 30, 2022	Activities, resources, and materials will be utilized and monitored by our Facilities and Maintenance staff to ensure safety measures are being met in all schools.	$ 1,177,354.14
	* ◉ Yes ○ No	Provide meals to students and families during long term closures Provide educational technology (hardware and software) to assist with online learning. Technology that is	Initial Implementation Summer 2022 and ongoing		$ 1,277,156.52

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.		~~Technology that is~~ needed will help us complete 1:1 and also replace devices that will not run current applications needed for face to face and blended learning. Support providing services to students under Disabilities Education Act, ELL, homeless, and foster care (aligned with Federal, State, and local requirements). These strategies will be a direct response to the reduction of, prevention, and/or response to COVID.		Activities and resources will be coordinated and monitored in the event schools have to go into Plan A, B, or C (total remote). Technology and instructional resources will be monitored to ensure that in case we have a long term closure that learning can continue.	
	* ⦿ Yes ○ No	Purchase educational technology (hardware and software) to aid in regular and substantive ~~interactions~~	Initial Implementation Summer 2022 and ongoing		$ 3,000,000.00

| EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment. | | interactions between students and teachers. iPads would be purchased due to needed upgrades that will help students learning in virtual and face to face environments for students in grades K-5. We will also add Central Office devices for staff. These strategies will be a reduction of, response to and/or prevention of COVID. Instructional technology, equipment, and supplies will be purchased to help address learning loss in a blended learning environment. | | Monitor student engagement daily on educational technology (attendance) and monitoring students participation rates on our supplemental platforms. | |

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ⦿ No				$
SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ⦿ Yes ○ No	Plan, implement, and coordinate a summer learning program for students to address learning loss. - Certified staff will be paid $250 per day. They will also receive a one-time $1,500 bonus for working every day of the Summer School program. (This bonus will be prorated.) - Non-certified staff will be paid $20 per hour. They will also receive a one-time $1,000 bonus for working every day of the Summer School program. (This bonus will be prorated.) Provide	Initial Implementation Summer 2022 and ongoing	Monitor student engagement daily on educational technology (attendance) and monitoring students participation rates on our supplemental platforms. Schools will monitor student progress and learning gaps through progress reports, supplemental programming reports, and report cards.	$ 1,388,685.00

		prorated.) Provide resources to teachers, students, and parents to address unique learning needs. These strategies that will be a response to the reduction of, prevention of, and/or response to COVID.			
	* ⦿ Yes ◯ No	Indirect Cost	August 21 - Sept 24	District will use these funds in conjunction to identified needs in ESSER application.	$ 475,965.19

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.					
			Total ESSER III Allotment	$	18,485,416.80

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Craven County Schools (250) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

Craven County Schools (250) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Duplin County Schools (310) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Duplin County Schools sought a wide variety of input from numerous stakeholders in determining the needs of the district that could be addressed through ESSER II and ESSER III funding. Shared decision-making has always been a top priority for our district, with a sharp focus on ensuring equity for ALL students and staff. In planning for funding, the Superintendent initially met with department directors (Cabinet) to discuss the funding and spending requirements and asked directors to seek input from their departments and schools to develop proposals aligned with district priorities. The Superintendent also met with principals seeking direct input from them and directed them to seek input from their school staff. Alignment to the district's STEAMA model (Science, Technology, Engineering, Arts, Math, and Agriculture) was reflected throughout the planning process. A document was created that allowed district staff to input spending proposals generated from department and school planning for review and consideration. A district-wide survey was sent to all Duplin County School employees asking them to give input on priority areas of need aligned with the funding guidelines. The results from the employee survey were shared and reviewed with district and school-level staff. Survey results were then used to determine the comprehensive district plan. Several committees met to determine the amount of funding needed for each priority area to inform the final plan. The Board of Education provided continuous guidance and support throughout the planning, proposal, and approval process. The spending plan was approved at the May 4, 2021 Board of Education Meeting. Numerous data points were used to determine the educational needs of the district. Duplin County School students demonstrated an overall grade-level proficiency of 48.0% on the latest state end of grade and end of course testing in the 2018-19 school year. ESSER II and ESSER III funding will allow schools to improve academic outcomes for all students, especially those not performing on grade level. While attendance rates for the district are generally very high in a normal year, we know that attendance tracking during the COVID-19 pandemic has been a challenge, and support for attendance is needed moving forward. Our graduation rate for the 2019-20 school year was 84.2% and our goal as a district is 87% or higher, showing a need for additional student support in this area from Pre-K through Grade 13. In the implementation phase, the district Curriculum Innovation department, along with all departments and school leadership, will play an instrumental role in addressing student learning gaps resulting from the disruption of educational services and assessing the effectiveness of the strategies that will be

implemented with this funding. As part of the proposal process, impact measures were determined based on the relevant data sources for each area of need and are included in Part C below.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

The input provided by stakeholders through the district-wide survey was overwhelmingly student-centered. Survey data and its analysis showed a top priority of addressing student academic recovery and learning loss, followed by support for mental health/SEL, health and safety, digital learning/technology, facilities and maintenance, and system improvements. Other priorities were also identified and are reflected in Part C below. In addition to the survey data analysis, district staff also reviewed student performance, attendance, discipline, and graduation/dropout data to determine district needs. Duplin County School students demonstrated an overall grade-level proficiency of 48.0% on the latest state end of grade and end of course testing in the 2018-19 school year. ESSER II and ESSER III funding will allow schools to improve academic outcomes for all students, especially those not performing on grade level. While attendance rates for the district are generally very high in a normal year, we know that attendance tracking during the COVID-19 pandemic has been a challenge, and support for attendance is needed moving forward. Our graduation rate for the 2019-20 school year was 84.2% and our goal as a district is 87% or higher, showing a need for additional student support in this area from Pre-K through Grade 13. The district's continued work with IABS shows a need for ongoing improvements in positive behavior support and a reduction of disciplinary offenses resulting in out-of-school suspension. ESSER II and ESSER III funding provides a means for improvements in outcomes in all of these areas.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 3,204,279.90 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, underline{provide a detailed description} of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

During the summer learning program, schools will gather baseline data to assess K-8 student learning loss through a Competency Based Assessment tool called Istation. This assessment tool will identify skills gaps and deficits in literacy areas, such as phonics, phonemic awareness, vocabulary, fluency, and comprehension. The system will then suggest literacy interventions that match the needs of the student and that are personalized to students who demonstrate skill deficits based on data outcomes. Teachers will be able to differentiate and scaffold instruction to match academic needs. The Istation Math Diagnostic will also be administered to identify

gaps in conceptual and procedural understanding of mathematical concepts. Interventions will be matched to these skills deficits and progress monitored for student improvement. Student learning will be assessed and progress monitored throughout the summer program. Schools will utilize the collected data to inform instruction and interventions at the beginning of the 2021-2022 school year. Once students begin the school year, a Competency Based diagnostic will be administered in both reading and math to gather baseline data. Teachers will utilize the data to inform multi-tiered support structures for each student. All students will continuously receive Tier 1, core instruction that include digital and written resources that are implemented universally. As students advance through the school year, diagnostics and performance tasks are administered to provide continuous data of student progress. Teachers select interventions that continuously align to student academic needs. Data-decision rules inform schools of students who are priority and those who require enrichment. Priority students are continually monitored for progress. If students do not meet expected gains during the year, the students are offered additional support during the state required read to achieve camp or other supports offered by the state or district during summer 2021. During the 2022-2023 school year, the diagnostic process will be administered as required by the state for grades K-3rd. Teachers will design instruction that is personalized for each student. The recurring process of assessments and intervention matching will continue during the 2022-2023 school year. In grades 9-12, student learning will be assessed during the summer learning program using pre- and post-assessments in the Edgenuity credit recovery online program. Students will be assigned differentiated modules to complete to recover credit in failed courses. During the school year, students will be assessed in end-of-course tested courses using normed benchmark assessments aligned to state content standards. Based on benchmark performance, teachers will design instruction to accelerate or remediate student learning as needed by each student. Student academic progress will also be assessed using the national PSAT and ACT tests.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Teachers provided evidence-based strategies and interventions to meet the needs of students. Those strategies are implemented at the student's instructional level and sequenced from simple to complex implementation. Students are provided with additional time or extended time to complete activities. Teachers also employed small, interactive flexible grouping based on progress monitoring data. Other researched based techniques to meet the unique needs of students include high leverage practices, such as collaboration with MTSS teams for continuous monitoring of student learning and collaboration, as well as communication with students' families. Multiple sources of information to develop a comprehensive understanding of a student's strengths and needs were obtained from universal screeners, such as Istation, the Waterford early learning system, Houghton Mifflin Harcourt (HMH) early literacy and advanced reading resources, benchmarks, and common assessments. These assessment results provide an opportunity for comprehensive disaggregation of data to provide for individual needs. All district resources are also available in both digital and paper format, which provides accessibility to families during face-to-face instruction or a virtual setting for continuous application to meet students' needs. The district interprets and communicates assessment information with stakeholders to collaboratively design and implement research-based interventions, such as Reading Mastery, instructional strategies from Florida Center for Reading Research, and the National Center for Intensive Interventions. Schoolwide expectations for student behavior are established throughout all schools. Social behaviors are monitored through the social-emotional screener, Panorama, district-wide, K-12. Data results provide an opportunity to match SEL supports to students' emotional needs and to explicitly teach appropriate interpersonal and social skills, appropriate communication, and self-management. Other areas of focus are social awareness, emotional regulation techniques, and the encouragement of growth mindset. Ongoing professional development is implemented to support teacher knowledge and best practices to meet the comprehensive needs of students. Teachers are provided reading strategies, such as Reading Research to Classroom Practice, which provides a deep understanding of the science of reading in the areas of phonics, phonological awareness,

fluency, vocabulary, and comprehension. Math Foundations is also provided to deepen the teachers knowledge of how students move from a concrete to an abstract understanding of math.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Parent communication is vital to the academic growth for students. Schools will maintain communication throughout the course of the summer learning program through weekly progress reports, as well as, employ an MTSS approach to family communication and engagement. Family engagement within an MTSS is defined as the active and meaningful partnerships that educators build and maintain with students' families for the purpose of supporting student learning and closing achievement gaps. Schools and families are equally invested in the student's educational experience and all parties bring knowledge and skills of equal value to the table to work together. The Duplin County Schools website contains valuable information for parents to assist in supporting students during remote learning, including remote instruction resources, free WiFi access locations, and a Frequently Asked Questions document. These documents and resources are provided in both English and Spanish and are updated regularly as additional resources become available. Individual schools regularly share information on their websites and through ConnectEd phone calls, emails, and text messages. In addition to timely school information, these communications also provide families with information about community resources and events. These messages are also delivered in both English and Spanish. Over the next three years, funds will also be used to provide additional EC and EL support for students and families. This additional personnel will be able to communicate directly with the families of students they serve to provide support for both in-person and remote learning.

* (D) Tracking student attendance and improving student engagement in distance education;

Student attendance is tracked daily in PowerSchool and monitored by school and district level personnel. Duplin County Schools currently has a partnership with Communities in Schools to address attendance concerns for pre-kindergarten and kindergarten students at two schools. This partnership will continue in the 2021-22 school year. Additionally, school counselors and social workers continue to monitor student attendance and communicate with families of students with excessive absences through a multi-tiered approach. Schools employ problem-solving strategies to determine reasons for excessive absences, then wrap-around supports provided by the school social worker, school counselors, and nurses, are implemented. These support staff members regularly make home visits and provide resources to meet the personal and academic needs of students. In an effort to improve student engagement in distance education, Duplin County Schools has provided each student in grades K-2 with an iPad and each student in grades 3-13 with a Chromebook. Internet hot spots have also been provided to students who lack sufficient connectivity to access remote learning opportunities. These devices and hot spots will continue to be provided to students over the coming school years to encourage student participation in remote learning. A Remote Learning Plan, created by the district, outlines distance education expectations, strategies and tools to facilitate learning and increase student engagement. Additionally, teachers regularly communicate with families regarding student engagement in remote learning using platforms such as Canvas, Google Classroom, Remind, PowerSchool, and email. School support staff and administrators also make home visits to connect with families of students who are disengaged with remote instruction.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Individual student learning has been assessed throughout this school year and will continue to be assessed throughout the summer learning program and subsequent school years. Previous End of Grade and End of Course data, as well as competency based assessment data is available for all students to facilitate the evaluation and comparison of pre-pandemic learning and post-pandemic

academic needs. Schools utilize data results to determine supports and interventions that match academic needs. Students are progress monitored to determine if interventions are effective. A school-based MTSS team meets regularly to discuss individual student progress and adjust interventions as needed. The school-based MTSS team will also review IEP goal progress monitoring data to ensure that specially designed instruction is meeting the needs of students with disabilities. High school student progress is tracked by monitoring progress toward completion of graduation requirements. Students who failed to earn credit for courses during the 2020-21 school year will be more closely monitored by the school MTSS team, and additional academic and social emotional interventions will be provided for students who are not progressing toward graduation. Interventionists will be employed in each school beginning with the 2021-2022 school year to provide intensive interventions to students who are not progressing toward academic standards and literacy goals.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

11/10/2021 10:00:44 AM

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ⦿ No				$
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ○ No	In order to respond to the increased need for safe and healthy schools as a result of COVID-19: *HVAC systems will be replaced/repaired to ensure proper air quality in all buildings and facilities. *Roofs will be repaired will ensure that leaks do not lead to mold or other air quality issues ensuring a safe learning environment for students and staff.	September 2023	Replaced/repaired HVAC systems and roof repairs will ensure proper air quality in all buildings and facilities and result in a decreased chance of spreading communicable diseases. All students and staff will benefit from better air quality in school facilities. 100% of schools that need immediate HVAC replacement and roof repairs will receive those improvements.	$ 10,837,153.73

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$ [blank]
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◉ Yes ○ No	As a response to learning loss caused by COVID-19, *Contracted services will be provided to EC/EL students to ensure that any learning loss or other identified need is properly addressed. SEE SECTION B - LEARNING LOSS FOR FUNDING	September 2023	Contracted services for EC/EL students will provide additional instruction and support to close gaps for these students and mitigate learning loss due to the pandemic. All students who qualify for additional services will receive them based on their IEP/EL service plans.	$ 0.00

11/10/2021 10:00:44 AM

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ⦿ Yes ◯ No	*As a response to the increased need for supplies as a result of COVID-19, *Additional storage buildings/sheds will be purchased in order to provide a location to hold supplies needed for cleaning and sanitizing schools/buses as well as storage space for technology supplies and equipment.	September 2023	Additional storage buildings will allow the district to properly maintain cleaning and sanitizing products and to house technology equipment and supplies in a controlled environment extending their lifetime usefulness. These buildings will result in improved preparedness for future incidents that may impact school cleanliness and technology accessibility. All needed supplies will be properly stored and secured. All staff and students will benefit from these new buildings.	$ 178,000.00
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ◯ Yes ⦿ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◯ Yes ⦿ No				$

11/10/2021 10:00:44 AM

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ⊙ No				$
EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ○ Yes ⊙ No				$

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ○ No	Due to the increased academic, social and emotional strain on students due to COVID-19, one contracted intervention/specialist per school will be hired to work with students on behavioral support, social-emotional learning, reading, and math. This will reduce or prevent additional learning loss and/or behavioral/social/emotional challenges faced by many students. SEE SECTION B - LEARNING LOSS FOR FUNDING	September 2023	Interventionists/specialists will help to improve student outcomes by meeting the behavioral, social/emotional, and academic needs of all students. This will result in improved academic performance as measure by state standards and decreased referrals for behavioral/social/emotional issues.	$ 0.00
SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ○ Yes ○ No		August 2021		$ 1,778,328.54

11/10/2021 10:00:44 AM

| | | In response to learning loss caused by COVID-19, *Duplin County Schools will provide Summer School and hire teachers, teacher assistants, instructional support personnel, tutors, summer school director, interpreters/translators, school-based specialists, office support, bus drivers, custodians, cafeteria workers and managers, substitutes, supplies & materials, food processing supplies, transportation related expenses, and provide staff bonuses *The district will also provide student mentoring & a tutoring program *Media Centers will also be opened at all schools in the summer SEE SECTION B - LEARNING LOSS FOR FUNDING | | *Summer Learning opportunities will result in closing the gap for students negatively impacted by the pandemic. Improved results will be measured by local testing measures and state/federal testing as well. *The Student Mentoring and Tutoring Program will result in improvement in attendance rates and academic performance for individual students participating in the program. *The opening of Media Centers in the summer will allow students and families access to literature and other media. | |

| OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act. | * ○ Yes ○ No | *Indirect costs *Unbudgeted for future identified needs | September 2023 | *Indirect costs are required *Unbudgeted funds will be reassigned as future needs arise in order to maximize the impact of ESSER funds. | $ 23,637.31 |
| | | | **Total ESSER III Allotment** | | $ 12,817,119.58 |

Part E: Assurances

Check **all** *assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:*

| * ☑ | Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D. |

*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

There are no new applicants.

GAN Information

Duplin County Schools (310) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Forsyth Academy (34F) Charter District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

1) The school leadership assessed their short and long term needs as related to preventing, preparing, and responding to COVID-19. The school leadership got input from stakeholders (school staff, Board, parents and families, etc.) as applicable. For example, the school surveyed parents and families on their connectivity needs and instructional learning platform preferences to identify needs. The school prioritized the safety of their staff and students and ensuring instructional supports and resources were in place to address the learning loss as a result of COVID-19. 2) The school will ensure there are additional instructional (digital and non-digital) resources to address the learning gaps. Additionally, 1:1 devices will be provided to students.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

- The building did not meet the sanitation requirements and didn't have PPE and equipment to preventing, preparing, and responding to COVID-19. - There was a need for clean uniforms to be available at the school to ensure sanitation levels are being met. - There was a need to increase the air quality within the school to prevent the spread of COVID-19. - There were not sufficient student and staff technology devices and accessories, digital curriculum subscriptions, and connectivity for students to implement remote llearning and in-person instruction. - Additional instructional materials (non-digital) were needed to address the student learning loss as a result of COVID-19. - Additional instructional time was needed to combat the impact of COVID-19. To provide this time summer learning will be offered, tutoring program during the school year, summer kits for kindergarten students, and an out of school time learning platform will be created and implemented to increase student achievement. - Additional staff will be needed to provide virtual small group instruction, meet social distancing requirements, and provide parent-elected virtual instruction during in-person instruction.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 312,098.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

The school will ensure high-quality assessments are used to assess student achievement and progress. The school utilized many data points to determine student achievement included their performance on the state test and through the formative assessment process. If a student is not displaying mastery and is showing a decline in achievement then additional interventions, including differentiation, will be put in place to increase achievement in order to meet the student's needs.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

The school's educational program is grounded in the principles of Effective Schools Research, which was originally developed by Ronald R. Edmonds, who served on the faculties of Harvard University and Michigan State University. Effective Schools Research recommends the following evidence-based school attributes that are associated with quantifiably improved student learning. By definition, an "Effective School" is one in which all children obtain at least the essential knowledge, concepts, and skills needed to be successful at the next higher level. Within the Effective School, there are seven unique characteristics that correlate with school effectiveness. This school has adopted these characteristics as part of its promise to deliver a high-quality, evidence-based, educational option for parents of the community. These seven characteristics are as follows: clear school mission, high expectations for success, instructional leadership, frequent monitoring of student progress, opportunities to learn, safe and orderly environment, and strong home-school relations. In addition to adopting these characteristics of Effective Schools Research, the educational program includes a "Back to Basics" approach, a longer school day, structured discipline, and a moral focus component of the curriculum based on the Greek cardinal virtues. The educational program utilizes a curriculum that is evidence-based, aligned with State standards, and designed to ensure college opportunity for each child that the academy serves.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

The school uses multiple platforms including email, mailings, phone blasts, and school's website to inform parents and families of educational and related opportunities available to their children. Parents and families are provided with meaningful opportunities to participate in their child's education. The school ensures that all required information is provided in a form, manner, and language that is understandable to parents and families.

* (D) Tracking student attendance and improving student engagement in distance education;

The school continues to track students' through the student data system and routinely reaches out to make personal connections with students and families during remote learning.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Student academic process is done through the school's student data system. Routine data analysis is done to assess student data pre-pandemic and the impact of COVID-19 on student achievement. If a student is not displaying mastery and is showing a decline in achievement then additional interventions, including differentiation of instruction, will be put in place to increase achievement in order to meet the student's needs.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ○ No	Air Filters: More effective air filters will be purchased and changed on a quarterly basis to improve indoor air quality, to help reduce risk of virus transmission and exposure to other environmental health hazards. Costs are for the filters and associated labor.	Implementation timeline aligns with the grant project period.	Prevention of spreading COVID-19	$ 8,489.20
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◉ Yes ○ No	School Uniforms: Will be purchased for socio-economic disadvantaged students to ensure student's clothing is sanitary while removing barriers to school attendance. Average costs per uniform is $20 per student.	Implementation timeline aligns with the grant	Increased attendance	$ 10,000.00
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◉ Yes ○ No	Additional technology for teaching staff is needed to support remote learning and in-person instruction. Items may include computer monitors, headsets, speakerphones, microphones, document cameras, tablets, charging cords, charging stations,	Implementation timeline aligns with the grant	Increased student achievement	$ 663,932.60

		extension cords/surge protectors and web cameras with tripod. Supplemental Teaching Staff: Hire supplemental teaching staff needed to provide virtual small group instruction, meet social distancing requirements, and provide parent-elected virtual instruction during in-person instruction.			
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
			Implementation timeline aligns with the grant	Prevention of spreading COVID-19	$ 59,955.80

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	Sanitation Services are needed to meet sanitation requirements due to COVID-19, additional and more frequent cleaning of the building are needed. Personal Protection Equipment: Personal protective equipment, including gowns, masks with lanyards, plexiglass, dividers, and carrels, social distancing markers, COVID tests, cleaning supplies, sanitizer, to protect staff and students during in-person instruction and prevent the spread of COVID-19.			

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ⦿ No				$
	* ⦿ Yes ○ No	Chromebooks including headphones and protective cases were needed to meet a 1:1 device for students to participate in remote learning. Charging stations, charging cords, adapters, and extension cords may also	Implementation timeline aligns with the grant	Increased student achievement due to increased participation in remote learning	$ 157,484.28

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		be purchased when in-person instruction resumes to reduce the sharing of items to prevent the spread of COVID-19. Connectivity: Wi-Fi hotspots were purchased along with the monthly connectivity costs. Digital Curriculum: Online student subscriptions were purchased for all students to support students during school closure and remote learning			
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ◉ No				$

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ○ No	Summer learning staff will implement a summer learning program to increase academic achievement in response to the learning loss due to COVID-19. Kindergarten Curriculum Kits: Will be purchased to prepare incoming kindergarten students for academic success to be utilized over the summer.	Implementation timeline aligns with the grant	Increased student achievement	$ 348,529.12
	* ○ Yes ◉ No				$

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.					
				Total ESSER III Allotment	$ 1,248,391.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Forsyth Academy (34F) Charter District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

 There are no new applicants.

GAN Information

Forsyth Academy (34F) Charter District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Graham County Schools (380) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

-40% students don't have access to any or to quality internet and 20% of remote learners had to travel at least 5 miles to access reliable internet. -15% total student population chose remote learning even when in person learning was offered. -Approx 23% students failed part or all of their classes during pandemic. -Prior to pandemic, mathematics overall scores fell below state averages in most grades and have declined more at this time. -Lack of staff to analyze data in middle school -25% increase in # academic student referrals to EC. -Over 10% school age students are connected to mental health counseling with an increase of referrals -20% increase in # of students who have been referred to academic school based intervention since the pandemic. -Students in DSS custody increased 25% putting county at 4 X state avg. -Child abuse & neglect rate has increased by 20% - county at 3 X state avg. -The transportation dept has only 4 activity buses, 2 of which will soon be pulled offline due to being almost 20 years old. To social distance for trips or athletic events, we will not be able to accommodate 50% of riders. No other means of transp exist -ie-public transit, cabs,leases. --Indoor space is maximized, will need to utilize outdoor spaces to add instructional space -Maintenance & custodial suppl/equip. increased at a rate of 20% due to spikes in material costs & additional usage of products. Equipment has been used at rates over general usage due to additional cleaning or building as a result of COVID cleaning/sanitation requirements. -Food insecurity-Graham County, at 24.9% is 5% above the state average -Percentage of children living in poverty is over 6% above the state rate -Dec. 2019-Dec.2020, high school Math I scores fell 34.9% in proficiency -Dec.2019-Dec 2020, Math III scores fell 15.3% in proficiency -42% elem students tested below grade level in math after Spring 2020 closures -71% elem students tested-at risk or below grade level in math after Spring 2020 closures -Most Air filtration units have not been replaced in 30+ yrs.Air quality output is 30-50% expectancy. 1) *Public comment survey regarding pandemic effect on learning-offered via website & social media *PK-12 Staff survey regarding needs/lessons learned from pandemic *Board of Education input during regular meetings and work sessions *Administrative Leadership team meetings and submission of data *Parent interviews- individually & in small groups *Student input via personal interviews & surveys *Community partner input-via interviews, agency coordination meetings with mental health, health department & other relevant agencies such as tribal consultation *December 2020 DPI Facility needs Survey - Graham County Schools *Teacher Working conditions survey 2)ASSESS: *Summer School-pre/post assessments for students involved in any Summer School program using a DPI approved instrument *Existing End of grade/course data and final academic performance data *Universal Screeners such as iStation, MAPS, IXL *Research-based intervention programs such as Number Worlds, Fundations, Wilson Reading, Edmark, Just Words, Extreme Reading, Touch Math, etc. *SEL assessments-such as Second Step, BESS 3 Social Emotional Screener *IEP/504/ESL/Intervention/AIG plan goals/outcomes *Homeless/Foster Care student needs & outcomes as well as Racial/Ethnic minority

considerations *Graduation & attendance rate across time *Gaps in core curriculum alignment & instruction *Physical environment conducive to safe, healthy conditions-including air quality equipment & facility needs *Digital learning capacity including needs for devices, infrastructure and educational technology *Mental Health incidents/rates/needs *Basic needs met/unmet- food insecurity, clothing, school supplies, etc. *ESSR data *Broadband connectivity rates and access for remote learners *Capacity of existing leadership team and school based staff to executive strategies to address student learning/pandemic related issues *Severity of learning loss that needs to be addressed during the summer of 2021 *Professional development needed to close learning loss gaps & prepare for future response efforts *Assessment of unique needs and performance of special populations *Capacity of transportation system, child nutrition program, maintenance, custodians and health support systems to accommodate student success as a result of pandemic ADDRESS as a result of needs assessment: To address learning gaps with this funding, we plan to employ 2 mathematics coaches for the district to analyze student data, to vertically align mathematics curriculum across the PSU and to offer professional development and direct coaching support to all teachers in K-12. Also, we will host Summer School as legislated to all eligible at-risk students K-12 for a period of 6 weeks. We will offer appropriate professional development to staff across several areas including dealing with academic gaps, learning styles, differentiation of instruction, special population unique training, mental health and support for helping parents to assist students. We plan to enhance our digital learning procedures and materials by providing additional devices, equipment and infrastructure on campus and remotely to serve students better and promote higher student engagement. We will use research-based strategies and interventions to assess students and develop a plan for their academic success. We will track student attendance overtime -pre pandemic to now. We will employ a distance learning facilitator to address remote learning needs of students and families. We will employ mental health support staff to address critical social emotional learning needs as evidenced by screeners and direct contact. Parents will be assisted through providing resources, virtual and onsite training on curriculum and other needs, distance learning strategies and other supports as needed .

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

From our latest assessments across all curriculum, it is evident that there is a more significant need for learning loss recovery in mathematics than in reading. This is due to the fact that the PSU has a strong foundation base of core reading and reading intervention strategies in place and with students returning to person-to-person learning the structure will assist students in a swifter recovery process. Additionally, reading instruction that was delivered remotely is less abstract and more accessible for student comprehension. The PSU will use existing programs and ongoing professional development to continue progression in reading proficiency. Based on our data in Part A, our PSU plans to address student learning gaps caused by the COVID pandemic by employing 2 mathematics coaches for the district and a lead teacher in the middle school. The mathematics coaches will assist with vertically aligning our mathematics curriculum across the PSU. Even prior to the COVID 19 pandemic our overall mathematics scores fell below state average in most grades and have continued to decline. In December 2019, just before the pandemic started our high school test scores in Math 1 were at 87.5% proficient. A year later after spring closures and during the height of the pandemic in December 2020, scores in Math 1 fell to 52.6%, which is a decrease of 34.9%. Due to loss of instruction and difficulty with remote instruction students struggles with assignments in the overall curriculum. Proficiency scores in Math 3 fell 15.25% from December 2019 to December 2020. When elementary students returned to school after the closures of 2020, 42 % of Robbinsville Elementary students were below grade level in mathematics based off iStation score reports. Seventy one percent were at risk or below grade level. Additionally, approximately 23% of students in our district failed at least 1 or more of their classes during the pandemic. We have seen a 25% increase in the number of academic student referrals to Exceptional Children during the pandemic due to difficulty with distance and remote learning. The math coaches will help implement a seamless, vertically aligned math program, and will lead teachers by helping them access data, identify learning gaps and implement evidence-based strategies in the classroom and student interventions. The 2 math coaches will deliver evidenced based professional development to

teachers, administrators, and parents that addresses comprehensive needs from the learning loss. We will employ a lead teacher to analyze data, identify learning gaps, and structure evidence based interventions to address issues that have come up due to the pandemic. The lead teacher will assist with identification of the behaviors related to social and emotional health issues and coordinate other data analysis related to COVID. One teacher assistant will be employed to provide instructional interventions in the elementary. In addition, our district plans to hire a district coordinator for Student and Staff Support Services and a Mental Health Liaison to address the increased mental and physical health factors of our students and staff as it relates the pandemic. According to our data, over 10% of school age students are connected to mental health counseling with a significant increase of referrals related to mental health needs. Since the pandemic the number of students in DSS custody has increased by 25%, which puts Graham County at 4 times the state average. Concurrently, the prevalence of child abuse and neglect has increased by 20% during the pandemic. Statistically, these increases lead to increased mental health needs in the school setting. With current funding, we struggle to keep 3 preschools open and will use this funding to maintain a PK teacher position so that early intervention efforts may continue. A minimum of 40% of students do not have access to reliable internet and 20% of remote learners had to travel at least 5 miles to access any kind of internet. Funding will continue and increase capacity for access to broadband across the district, including infrastructure, equipment and devices necessary to allow students to have better options (or an option for those who live in remote areas with no reliable access) for internet access than currently exist. We will provide a mobile hotspot on the PSU's food truck that will provide broadband access for remote instruction when the food truck is delivering remote meals in the communities. We will provide supplemental technology programs that target specific learning needs, particularly for those students who have special needs. We will upgrade interactive classroom technology that will allow teachers, whether remote or person-to-person, to promote substantive educational interaction and replace antiquated classroom devices that have failed to maintain consistent connections with newer technology of the student devices. Due to COVID,we have spread classrooms & students to all available spaces in the buildings & need to utilized spaces outdoors to accommodate additional instructional space. We will also renovate interior spaces and/or replace furniture in order to promote maximum social distancing and to minimize virus transmission. HVAC units need to be replaced due to current ones running 30-50% below efficiency rate.Funding will include upgrades to the Child Nutrition, maintenance and custodial programs in order for them to replace or add supplies/equipment due to use for mandated enhanced sanitation standards related to COVID-ie-cleaning supplies, vacuum cleaners, water fountains,etc . At the district level, we will employ one office support position to coordinate pandemic efforts and maintain accurate data for reporting.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 800,588.94 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

High-quality assessments will be administered to all students as pre-tests, mid-term tests and post-tests by qualified staff. This data and information from daily monitoring will be used to direct student instruction. Using professional development, ensure that all instructional staff are thoroughly trained to implement evidence based assessments. Invest in local trainers on staff who can ensure that instruments are implemented with fidelity and can assist teachers with understanding the data resulting from the assessments as it relates to driving instruction. Depending on

subject area, existing literacy coaches or newly funded math coaches will be instrumental in helping teachers to understand and plan for differentiation across all subgroups. Additionally, mental health professionals will screen and based on results, will utilize an evidence based activities/strategies to address needs of students considered at-risk. Based on needs assessment, employ 2 math coaches for district to analyze, identify goals and implement a seamless vertically aligned math program K-12. Coaches will lead teachers in assisting students to recover from any learning loss from the pandemic by helping them to assess data, identify learning gaps and implement evidence-based strategies in the classroom and in student interventions. For example, using iStation or IXL in the schools to identify students with learning gaps in math knowledge due to lost class time and develop quality quality professional development to address how to close or decrease those gaps. Math coaches will act as liaisons between grade levels to eliminate any gaps in the delivery of the curriculum. The current teachers are having to incorporate previous year's standards not covered due to school closures and also due to the challenges with delivering high quality instruction in a remote manner. This grant will fund a preschool teacher to work with young children, first entering the school system and to reliably assess their progress in order to get them ready to enter kindergarten on grade level. The pandemic has caused many parents to keep young children at home, partly because parents were not working. Therefore, many children will be entering preschool with little to no early intervention concepts. Two additional teacher assistants will be employed to directly assist with academic interventions related to learning loss. Assistants will work directly under the supervision of math or literacy coaches to implement evidence-based programs that target skill deficits that occurred or worsened due to COVID.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Math coaches can share evidence based activities with teachers and will deliver high quality professional development ongoing throughout the school year to enable teachers have a high impact on student learning. Evidence based programs are in place in literacy and math to address learning gaps and to individualize instruction for students who are deficient in academic skills or exhibit social emotional needs. Students are placed according to their level of need in intervention small groups and assessed frequently to look at individual growth and needs. Assurance of fidelity is monitored by curriculum coaches as well as the leadership team. Based on ongoing analysis of data, intervention strategies or programs are aligned to meet the needs of each student. PSU consistently monitors to ensure that all teachers have the needed professional development in Reading Research to Classroom Practice and Foundations of Math to assure consistency in instructional delivery across grade levels.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Curriculum coaches/staff will develop digital resources for parents and families, offer curriculum nights or events, provide quarterly newsletters and development social media platforms to share information and resources with parents. PSU will continue to offer technology training for families to help their students navigate devices or online programs. This could include basic technology concepts and training as well as digital safety awareness. The teacher assistant assigned to facilitating digital learning will have office hours and parent information sessions available to assist all families, from preschool-12.

* (D) Tracking student attendance and improving student engagement in distance education;

One teacher assistant position will be utilized to facilitate data and implementation of distance education for the district. This position will be responsible for the coordination of procedures necessary for appropriate tracking of student attendance during distance education. They will work collaboratively with PSU teachers to ensure good communication and adequate, meaningful progress is made by each student. This person will be responsible for maintaining contact with students and their families to resolve any student engagement issues or offer additional support. This position will gather data in this area to help PSU complete required reporting and to make informed strategic planning decisions. This position will serve as the liaison between the PSU and distance learning. Curriculum coaches will be instrumental in developing a systemic, interactive platform to deliver meaningful, rigorous instruction that will promote higher student engagement in distance learning.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Using existing diagnostic tools to track progress over time will allow teachers to analyze student performance and adjust instruction accordingly. Summer programs will use pre- and post-assessments in subject areas and SEL. Any available EOG/EOC data will be used to compare grades and progress over times.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	Due to maximized use of interior space as a result of social , outdoor space in needed. To create additional outdoor classroom space, renovate interior space or replace furniture/equipment in order to promote maximum social distancing, to minimize virus transmission and to increase the use of outdoor spaces for instructional purposes. Due to maximized use	2021-2024	To promote maximum social distancing, to minimize virus transmission and to increase the use of outdoor spaces for instructional purposes for students PK-12 and staff, due to COVID. To generate adequate number of meals to students ages 0-18 per federal pandemic mandate. To provide maintenance with supplies/materials and equipment necessary to maintain healthy conditions of classrooms and campuses per CDC pandemic related guidelines.	$ 565,000.00

		of interior space, outdoor space in needed.PK-12 indoor and outdoor environments will be expanded to meet COVID requirements. Preschool equipment will be updated to allow for additional outdoor educational space for this population due to COVID. The Child Nutrition Prog will receive a new dishwasher due to the additional use of current one during the pandemic.This will improve efficiency in generating meals to all children ages 0-18, per federal COVID mandates. Maintenance suppl/mat/equip to maintain healthy conditions of classrooms and campuses in order to comply with COVID guidelines such as water fountains, vacuum cleaners, etc			

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ⦿ Yes ◯ No	Install pandemic approved HVAC air handling systems throughout the schools, as much as possible within funding allotment to replace antiquated systems. HVAC systems now are running at 30-50% efficiency rate for air quality and need to be at 100% to reduce the spread of COVID.	2021-2024	100% of new HVAC units will provide safer, healthier air quality to reduce the spread of COVID. HVAC will produce air quality efficiency that is 100% of expected rating in order for decrease spread of germs.	$ 300,000.00
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ⦿ Yes ◯ No		July 1, 2022-June 30, 2024	To gather data, inform and disseminate pandemic related information/tasks in a timely and accurate manner in order for students and staff to meet compliance guidelines and in order for data to be used to guide PSU immediate and long term planning.	$ 95,108.13

		Employ one district office support position to coordinate pandemic related tasks including but not limited to COVID-related state reporting requirements, monitor attendance-students and staff, gather information from school nurses/staff and disperse information to appropriate agencies such as health department and tribal agencies, collect data from schools for reporting, order/organize and disseminate PPE, assist district leadership team with additional tasks related to pandemic.			
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ⦿ No				$

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ⦿ Yes ○ No	As more students are enrolled back to in person learning and regular activities resume, we will purchase one additional activity bus to ensure social distancing capacity & healthy transportation options are available. 2 of 4 PSUs activity buses will be pulled from the fleet within the grant period due to them being approximately 20 yr old. No other viable transportation options exist such as leases, cabs, public transp system, etc.	2021-2024	Because there are no other transportation options in the county and students will need to social distance as much as possible, an activity bus will provide adequate capacity to transport students to school events/activities in a safe manner. To provide tuition reimbursement to existing staff in order to fill vital instructional vacancies as a result of staff leaving due to COVID in order to maintain a seamless educational program for students.	$ 97,000.00
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ⦿ No				$

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ◉ Yes ○ No	Supply custodial/maintenance staff with adequate supplies/materials to thoroughly and efficiently clean school facilities and ensure appropriate equipment is in place to comply with recommendations per CDC established COVID guidelines. To ensure that each classroom has appropriate supplies/materials to daily maintain CDC recommended COVID guidelines in excess of routine custodial cleaning.	2021-2024	To comply with sanitizing and cleaning guidelines as set forth in CDC guidance in order for students and staff to have a healthy, germ free environment.	$ 30,000.00
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ◉ Yes ○ No		2021-2024	To increase reliable access to internet to meet unique needs of students so that they might access instruction across the county. To provide digital learning options to students in the event that they have to be or choose to be remote learners during the pandemic event.	$ 75,000.00

		To continue and increase capacity for access to broadband across the district, including infrastructure, equipment and devices necessary to allow students to have better options (or an option for those who live in remote areas with no reliable access) for internet access than currently exist. To provide a mobile hotspot on the PSU's food truck that will provide broadband access for remote instruction when the food truck is delivering remote meals in the communities. To provide supplemental technology programs that target specific learning needs, particularly for those students who have special needs or who struggle academically. Those programs may include IXL, APEX, etc.			

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ◉ Yes ○ No	Upgrades to interactive classroom technology that will allow teachers, whether remote or person-to-person, to promote substantive educational interaction. Example of purchases: Smart Series interactive displays for classrooms (@ $2,800 each)	2021-2024	To improve educational interaction among students and teachers both remotely and person-to-person.	$ 125,000.00
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◉ Yes ○ No	Due to the pandemic, students have been disconnected from their comprehensive support services in the areas of mental and physical health. Also, staff are tired and adjustments in the education profession are causing issues that are more prevalent than ever before. Burnout, depression and lack of positive staff morale affect the quality of instruction to students. For these reasons, a district coordinator for student and staff support services is necessary to implement programs	July 1, 2022-June 30, 2024	A comprehensive mental health program will be implemented for the PSU by qualified mental health professionals. 100% of students in PSU will have access to SEL curriculum/assessments/resources. 100% of instructional staff will have professional development and daily support in areas to assist students who struggle with mental health issues. The district coordinator and liaison will supervise & implement programs with 100% of students and staff.	$ 342,153.36

11/9/2021 12:20:59 PM

		and strategies that will make each population more successful. The most significant service coordinated from this position will be to equip staff with knowledge and skills to recognize and address indicators in students that would lead to self harm or negative behaviors in order to get them immediate assistance.A district mental health liaison will be employed to implement mental health programs directly with students in the schools.			
SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ⚪ Yes ⦿ No				$

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ○ No	Lead teacher will assist with identification of behaviors related to social and emotional health issues and coordinate instructional strategies for learning loss, will analyze and report COVID related data. Due to COVID, in addition to learning loss, classrooms need multiple copies of materials to limit sharing, promote safe & healthy classroom environments. To assist w/ tuition reimbursement to employees who are willing to enhance their education to fill instructional positions/ gaps that are vacant from staff leaving due to COVID. -Indirect Cost	2022-2024 Lead teacher 2021-2024 Supplies/Materials 2021-2024 Teacher Assistant	To increase student achievement and student mental health awareness due to COVID. To equip schools with appropriate supplemental supplies/materials to address individual needs of student and increase student achievement. To assist with student learning through helping with instructional interventions. To fill positions left vacant by COVID to ensure continuity of instruction to students. Indirect Costs	$ 376,361.57
				Total ESSER III Allotment	$ 2,005,623.06

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

* ☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.

* ☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
* ☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
* ☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
* ☑	Funds shall not be transferred into or out of this allotment category.
* ☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

There are no new applicants.

GAN Information

Graham County Schools (380) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Greene County Schools (400) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

The needs assessment process started with meetings with instructional support staff (instructional coaches, Title III Coordinator, STEM Director, MTSS Coordinator, and EC director) to introduce the ESSER grants and to determine the student, teacher, and family data that have been collected to date. Principals worked with the professional learning communities and the leadership teams in their respective schools to analyze the data available to them. At the district level, instructional support staff provided an analysis of district-level data to support the school data provided. Focus on K-8 Math Learning Loss The table below shows math standard progression by grade level. Each number represents the percentage of standards below, at, and above grade level that GCS students are working on as of March 2021. In grades 2-8, students are spending the majority of their time on below grade-level standards. Grade | Standards Progressed in Below Grade Level | Standards Progressed in At Grade Level | Standards Progressed Above Grade Level K | 0% | 60% | 40% Grade 1 | 40% | 45% | 15% Grade 2 | 60% | 30% | 10% Grade 3 | 70% | 15% | 15% Grade 4 | 65% | 25% | 10% Grade 5 | 70% | 20% | 10% Grade 6 | 70% | 90% | 10% Grade 7 | 60% | 35% | 5% Grade 8 | 60% | 40% | 0% Dreambox Predictive Data from March 2021 The percentages below represent the percentage of students at each grade level who are on-track to master grade level standards. The majority of students at each grade

level are not on track to master grade level standards. DPI- On Track to Master Grade Level Standards K-5: 32.1% Kindergarten: 44.3% Grade 1: 25.9% Grade 2: 22.5% Grade 3: 40.6% Grade 4: 32.1% Grade 5: 26.7% Reading The chart below represents the percentage of students in grades K-8 by school, who meet i-Ready's criteria for Tier 1, Tier 2, and Tier 3 based on mid-year diagnostic results. Snow Hill Primary-Tier 1: 37%; Tier 2: 60%; Tier 3: 3% West Greene Elementary-Tier 1: 36%; Tier 2: 32%; Tier 3: 31% Greene County Intermediate-Tier 1: 30%; Tier 2: 33%; Tier 3: 37% Greene County Middle-Tier 1: 29%; Tier 2: 21%; Tier 3: 50% Reading Inventory Data The Reading Inventory measures student reading proficiency in comparison to year-end reading Lexile level ranges. The Reading Inventory is administered multiple times each year to students in grades 9-12. The Reading Inventory is also administered to students in grades 4-9 who receive supplemental or intensive reading supports. The table below reflects results as of mid-year 2020-2021. Below Basic: 44% (394 students) Basic: 23% (206 students) Proficient: 26% (235 students) Advanced: 8% (68 students) Subgroup Data-based on iReady data: Average Lessons Passed | Average Time on Task (Minutes) | Average Scale Score Growth Black Females: 20.9 | 582 | 17 Black Males: 25.1 | 634 | 20 HIspanic Females: 26 | 609 | 16.3 Hispanic Males: 26.9 | 617 | 14.3 White Females: 30.2 | 686 | 18 White Males: 34.3 | 759 | 19.7 Other Females: 39.3 | 1013 | 28.1 Other Males: 25.3 | 555 | 14.1 (Because of the limited number of students, Other includes Multi-Racial, Alaska Native, and Asian) GCS mental health screening data (collected in 2018-2020) is presented as shown below: Based on screening: 104 were identified as being at-risk for or having mental health problems that interfered with functioning 104 students received a school mental health service within seven (7) days of identification * received depression screening 85 received suicidality screening * received substance use screening * received trauma screening * received anxiety screening 104 received general mental health screening * received other mental health screening Tier 1 2960 students received Tier 1 services and supports 2960 students received evidence-based Tier 1 services and supports * students had documented improvement in academic functioning * students had documented improvement in psychosocial functioning Tier 2 242 students received Tier 2 services and supports * students received evidence-based Tier 2 services and supports 261 students had documented improvement in academic functioning * students had documented improvement in psychosocial functioning Tier 3 261 students received Tier 3 services and supports 261 students received evidence-based Tier 3 services and supports * students had documented improvement in academic functioning * students had documented improvement in psychosocial functioning Cybersecurity-Last three months Risk-1846 emails and 61 files flagged for self-harm, toxicity, image, PII, or PCI risks Malware-11 active suspicious or malicious malware detected Apps-1567 medium or high-risk apps detected Alternative Education Center There were 72 students either assigned or self-enrolled at our Alternative Education Center in 2020-2021. Our AEC serves students in grades 6-12. There are 2.5 certified staff and 1 classified staff to serve the needs of the students. SWD Reading Proficiencies (%) Grades 6-8 2017 | 2018 | 2019 Grade 6: 11.8 | 10.0 | <5 Grade 7: 14.3 | 5.7 | 7.7 Grade 8: 7.7 | 7.6 | 12.5 Air Quality Aging HVAC systems can increase COVID transmission risk. HVAC systems have approximately 8,000 filters per cycle and are changed at 3-month intervals.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Math Students in need of supplemental and intensive interventions will continue to be served through the MTSS process. As of March 31, 2021, 68% of K-5 students are not on track to master grade-level math standards according to Dreambox Math reporting. GCS will hire a math interventionist at each of the three elementary schools and the one middle school. The positions funded through ESSER II will be continued for an additional year through ESSER III. The math interventionist positions will serve students performing below grade level in math through an in-class support model and/or direct service model based on the intensity of student needs. GCS will also purchase a K-5 math curriculum to ensure consistency of instructional materials from grade to grade. The curriculum will include Spanish language versions for our large EL population and at-home support materials for family members to use in assisting students at home. The curriculum resources will be available in print and digital form and compatible with district technology infrastructure and student 1:1 devices. Reading In our K-8 schools, two-thirds of students are in Tier 2 or 3 for reading based on iReady's mid-year diagnostic. Students will receive small group and individualized literacy instruction through in-class and MTSS services. To address learning gaps and learning loss, evidence-based curriculum materials will be purchased to be used with all students. Students will complete a competency-based assessment at the beginning and end of each year. Student progress will be monitored. A local alternate assessment approved by NCDPI will be used to measure the reading proficiency of third graders. The district currently funds reading interventionists at all K-8 schools. School Psychologist The request for a school psychologist is to aid in supporting more proactive means of addressing crises (such as experienced during the COVID pandemic) before they happen and is based upon information gained during the completion of the School Health Assessment and Performance Evaluation System (SHAPE). This survey helps district teams identify tools needed to improve school mental health programming and sustainability in schools. The addition of a school psychologist would allow for more client-centered assessment and intervention. It would also allow for self-initiated and/or requested SEL programming as primary prevention (e.g. social skills). Currently, the student ratio for school psychologists exceeds the recommended ratio of 1:500, thus personnel is spread out across an entire district rather than assigned school locations. Cybersecurity With every child having a device as a result of COVID, cybersecurity has become even more important. Not only must we work to protect our students, but we must also protect our network and the personally identifiable information it contains. Continuing our relationship with Managed Methods would enable GCS to monitor student use for harmful images and situations and all users for malware and installed risky apps. Alternative Education Center We anticipate an increase in students and families requesting alternative, small group settings. Updated equipment is needed to provide instruction consistent with that which is received on our traditional campuses. SWD

The request for evidence-based instructional programming for students with disabilities (reading and math) is based on ongoing deficits in the performance of students with disabilities at the middle school level. Greene County Schools' student with disabilities population is 9.4% of the district's ADM. 28.7% of those students are served in the middle school setting, of which 8.75% follow the future-ready pathway in resource and/or inclusive settings. The goal supporting this request is the need to further strengthen instructional practices and delivery at the elementary instructional levels K-5. The intent is to better prepare students at the elementary level by building stronger reading and mathematical concepts and skills such that once students reach the middle school level, they are better equipped to meet pre-determined local, and state standards. The most recent local, state, and national outcome data depict ongoing discrepancies in the performance of children with disabilities and their non-disabled peers regarding proficient achievement outcomes. Data reports from Greene County Public Schools in 2016-2017 and 2018-2019 denote that the middle school did not meet expected growth targets in the subgroup of special education. This has been an ongoing pattern within the middle school setting, with the exception of the 2017-2018 school year in which the middle school met growth. Current i-Ready Reading data for middle school students with disabilities in inclusive classroom settings show less than 50% of students making adequate growth (overall reading proficiencies, Lexile levels, vocabulary scale scores, literature, and Informational Text scale scores) from the BOY benchmark to the MOY benchmark. Recent benchmark data scales range from 587- 476. Performance deficits have only been exacerbated by limited in-person instruction as a result of the impacts of COVID-19. Air Quality Aging HVAC systems need to be replaced to improve indoor air quality and reduce the risk of transmission of COVID.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 2,300,000.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Greene County Schools (GCS) has monitored academic progress using competency-based assessments approved by the NC DPI. The assessment programs have a strong research and evidence base. Assessments used for monitoring reading and math progress include adaptive instruction that adjusts to on, below, and above grade-level standards to meet students at their individual performance levels. Reporting from the assessments is used by grade level and content specific Professional Learning Teams to plan and deliver individualized and small group differentiated instruction which is available in person and virtually. GCS provides each student with a device so they are able to engage in the adaptive software and synchronous and asynchronous lessons led by their teachers. After-school programming will be provided for students in grades 9-13 to address areas of identified needs. Summer programming will be delivered to students K-13 in a fashion similar to the Summer Learning and Enrichment Program.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

To address reading learning loss among all students, including low-income, children with disabilities, ELs, racial and ethnic minorities, and homeless students, iReady diagnostic assessments are given at the beginning of the school year. Once gaps are identified, students will be engaged in differentiated core instruction in the areas of phonemic awareness, phonics, vocabulary, and comprehension using research-based curriculum materials that support the reading process. Phonics instruction will consist of a research-based core phonics curriculum and includes an intervention component with a focus on targeted phonemic awareness and phonics skills for students who are struggling with grade level phonics. iReady will provide individual learning paths for students based on the baseline diagnostic test. The areas of phonemic awareness, phonics, vocabulary, comprehension of literature and comprehension of nonfiction text are all addressed in the individual learning path and the diagnostic. In addition to the differentiated core curriculum, students with particular gaps are engaged in supplemental instruction using additional research-based and evidence-based materials. Supplemental instruction may occur within the classroom in small groups, using a "double-dose" approach of core or another support material. Students who demonstrate even greater gaps may be engaged in small group instruction in an MTSS small group setting. The iReady diagnostic will be given at MOY, and instruction adjusted accordingly. The iReady diagnostic will be administered at EOY to determine student growth. Students with disabilities, while not served in MTSS, would be served in their appropriate setting according to their IEP, using similar materials or materials selected as appropriate to their identified need and IEP goals. The 6-12 Literacy Facilitator surveys and confers with all 6-12 ELA teams to gather data around needs for professional learning, instructional practices being implemented, and skills gaps related to learning loss due to COVID. Revisions to 6-12 ELA curriculum maps are made addressing skill gaps noted from data. Teachers work with Literacy Facilitator to build content in Canvas, receiving feedback throughout the process using the district rubric. Mastery path courses are being developed in Canvas for 6-12 ELA. These courses allow students to take a standards-based pre-knowledge assessment at the start of each module that places students on an instructional path to address their learning needs. The NCENSI screener for grades K-3 is used to identify early numeracy skill gaps. Data are used to help identify

students needing additional math supports. DreamBox is used K-8 as an adaptive supplemental program to fill student learning gaps. A new K-5 math curriculum will be adopted in 2021. This will help establish a high-functioning math core, which will ultimately impact our 6-12 students as well. Small group instruction in mathematics is being emphasized. Teachers are learning how to implement small groups as well as tiered math centers so that students are working at their varying ability levels. NC Check-Ins are used in grades 3-8 as formative assessments for grade level standards. Teachers are able to use the data from the assessments to remediate standards and prepare students for the EOGs. MTSS Problem-Solving teams at both the district and school level review historical and current data outcomes to sustain and/or revise when necessary data decision rules that support alignment and delivery of intervention. The problem-solving process continues at both the Core and Intervention level throughout the year. The available researched-based and/or evidence based intervention options GCS schools use to implement supplemental and intensive intervention is outlined below: K-3 Literacy uses Fundations (double dose), Focused Reading Intervention, Reading A-Z, Benchmark Phonics Intervention, and HillRap. Math uses DreamBox (small group extension) and Behavior/SEL uses Second Step (individual/small group extension), Check In/Check Out, and ABE modules. 4-5 Literacy uses iReady (small group extension), READ 180/System 44, and HillRap. Math uses DreamBox (small group extension), and Behavior/SEL uses Second Step (individual/small group extension), Check In/Check Out, and ABE modules. 6-12 Literacy uses iReady (small group extension), READ 180/System 44, and HillRap. Math uses DreamBox (small group extension) in grades 6-8 and Foundations of Math in grade 9, and Behavior/SEL uses Second Step (individual/small group extension), Check In/Check Out, and ABE modules (grades 6-8). GCS will offer professional development that is supported by research-based studies and are promoted by national experts in the area of second language acquisition. SIOP training is sustained throughout the year and is not a short term remedy. Professional development activities are designed to improve the instruction and assessment of English Learners and to enhance the ability of those who support them on a daily basis in the academic community. SIOP training is designed to enhance the ability of teachers, administrators and instructional coaches by providing year long coaching through routine observations providing feedback. In addition the participants attend six meetings throughout the year that focus on each component and allow participants to practice what they are learning. Each school also has a PLC that focuses on digging deeper into the SIOP format. After participants complete their first year of training they are invited back each year to participate in a mentor group that continues to practice using these research based techniques in their instructional planning. Research supports SIOP as an effective method of teaching that increases children's English language proficiency through the content areas. Our ongoing professional development plan supports each school in building their capacity of SIOP trained teachers.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Greene County Schools has launched a Google Site for parents that includes tips, videos and information for supporting students in a virtual learning environment. School and district social media accounts are also used for sharing tips and videos. Parents can submit technology helpdesk tickets or request a hotspot by phone or online form. Parents can schedule time to drop off or pick up 1:1 student devices and hotspots for repair or exchange. The Remind app is used to send parents text reminders about upcoming school events and to share links to resources such as the GCS Virtual Learning Guide for parents which is available in English and Spanish. Just in time help sessions are also offered to parents through live Zoom meetings and meeting recordings. Principals, counseling and student services staff have access to online reports that track student online engagement.

* (D) Tracking student attendance and improving student engagement in distance education;

GCS family support teams monitor student attendance during in-person and virtual learning. Principals, counseling and student services staff have access to online reports that track student online engagement. On-going communication is maintained through virtual class sessions, email, phone call and messaging through the district Remind app. Parents can monitor student attendance and assignment submission through the district LMS parent portal. Principals host regularly scheduled virtual parent information sessions. Parents/guardians of students who do not participate in virtual lessons or submit assignments receive a personal phone call from a school administrator, teacher or counselor to alert them of their student's engagement status. Home visits are made if there is no response from parents. Instructional technology facilitators and instructional coaches work closely with teachers to ensure consistent design of virtual courses across the grade levels so virtual courses look familiar to parents and students. LMS communication features are used to notify students and parents of upcoming and missed assignments.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Greene County Schools (GCS) has monitored academic progress using competency based assessments approved by the NC DPI. The assessment programs have a strong research and evidence base. Assessments used for monitoring reading and math progress include adaptive instruction that adjusts to on, below and above grade level standards to meet students at their individual performance levels. Reporting from the assessments is used by grade level and content specific Professional Learning Teams to plan and deliver individualized and small group differentiated instruction which is available in person and virtually. GCS provides each student with a device so they are able to engage in the adaptive software and synchronous and asynchronous lessons led by their teachers.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with

ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ⦿ No				$

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ○ No	Repair/Replace aging and/or inefficient HVAC systems to reduce COVID transmission risks. Amendment 9/27/2021 Upgrade to Desigo CC to enable control of temperature and humidity requirements in buildings to address COVID transmission risks.	June 2023	Increased ventilation and improved filtration. Temperature and humidity levels maintained. Student absences connected to indoor air quality will be decreased.	$ 1,050,000.00
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ● No				$

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ○ No	Due to learning loss from COVID, purchase of curriculum to meet needs of EC students; contracting school psychologist for testing to meet deadlines; extended learning opportunities for SWD students. Hiring school psychologist to focus on meeting the SEL needs of students. Amendment 9/27/2021 Purchase of software to accompany approved curriculum Amednment 9/27/2021 Purchase math software to help with implementation of new curriculum. Purchase supplies to	August 2021-2024	Increased student achievement 1) using appropriate curriculum resources; 2) students receiving appropriate services through identification; 3) extended learning opportunities, and 4) increased student achievement as a result of SEL needs addressed in a timely manner.	$ 432,000.00

		support new full-time AIG position.			
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ⦿ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ⦿ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ⦿ No				$

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ◉ No				$
	* ◉ Yes ○ No		November 2021-2024	Reduce the risk of cyber-attacks and cyberbullying. Increase student performance	$ 115,000.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		Purchase of Managed Methods (three years) to enable limited staff to maintain network security and keep students safe from cyberbullying and self-harm. The number of incidents has increased as a result of COVID. Purchase of 20 iMacs for Alternative Education Center to serve students needing an alternative, small group setting.			
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ⦿ No				$

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ⦿ Yes ◯ No	Purchase literacy and math supplies and curriculum target learning gaps as a result of COVID closures.	June 2021-2024	A reduction in learning gaps and increased student achievement	$ 190,000.00
	* ⦿ Yes ◯ No	Purchase of curriculum and assessments to support student learning (core and supplemental) during the school year. Hiring four interventionists to serve K-8 students. *Amendment 9/27/2021 Hire tutor to assist online students and families. Hire Help Desk	June 2021-September 2024	Increased student achievement 1) using appropriate curriculum resources and 2) students receiving appropriate services through identification; Support eligible activities	$ 4,410,652.00

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		Technology Assistant to support 1:1 students and teachers. Summer programming supplies in preparation for 2022 summer programming. Purchase Fundation supplies to address gaps in learning due to COVID. PET supplies to replace those lost due to COVID. Indirect cost and unbudgeted reserve			
			Total ESSER III Allotment	$	6,197,652.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Greene County Schools (400) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - New Applicant Summary

 There are no new applicants.

Greene County Schools (400) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 2 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Johnston Charter Academy (51B) Charter District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

1) The school leadership assessed their short and long term needs as related to preventing, preparing, and responding to COVID-19. The school leadership got input from stakeholders (school staff, Board, parents and families, etc.) as applicable. For example, the school surveyed parents and families on their connectivity needs and instructional learning platform preferences to identify needs. The school prioritized the safety of their staff and students through the need for contracted nursing services and ensuring instructional supports and resources were in place to address the learning loss as a result of COVID-19 through additional learning time (summer learning programming). 2) The school will ensure there are additional instructional (digital and non-digital) resources to address the learning gaps. There will be a contracted nurse to address the health and safety of staff and students. Summer learning programming will be implemented to increase learning time opportunities to increase student achievement to combat the negative impact of COVID-19.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

- Staff assumed new duties that were outside of their regular positions in direct response to preventing, preparing and responding to COVID-19. Compensation was needed for this additional time and duties. - Additional instructional time was needed to combat the impact of COVID-19. To provide this time, tutoring program will be offered during the school year and a summer learning program will be offered to increase student achievement. - The student health needs were not meet and nursing services were needed to help create a safe school environment and to prevent the spread of COVID-19. - There were not sufficient student digital curriculum subscriptions, and connectivity for students to implement remote learning.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 77,090.60 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

The school will ensure high-quality assessments are used to assess student achievement and progress. The school utilized many data points to determine student achievement included their performance on the state test and through the formative assessment process. If a student is not displaying mastery and is showing a decline in achievement then additional interventions, including differentiation of instruction, will be put in place to increase achievement in order to meet the student's needs.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

The school's educational program is grounded in the principles of Effective Schools Research, which was originally developed by Ronald R. Edmonds, who served on the faculties of Harvard University and Michigan State University. Effective Schools Research recommends the following evidence-based school attributes that are associated with

quantifiably improved student learning. By definition, an "Effective School" is one in which all children obtain at least the essential knowledge, concepts, and skills needed to be successful at the next higher level. Within the Effective School, there are seven unique characteristics that correlate with school effectiveness. This school has adopted these characteristics as part of its promise to deliver a high-quality, evidence-based, educational option for parents of the community. These seven characteristics are as follows: clear school mission, high expectations for success, instructional leadership, frequent monitoring of student progress, opportunities to learn, safe and orderly environment, and strong home-school relations. In addition to adopting these characteristics of Effective Schools Research, the educational program includes a "Back to Basics" approach, a longer school day, structured discipline, and a moral focus component of the curriculum based on the Greek cardinal virtues. The educational program utilizes a curriculum that is evidence-based, aligned with State standards, and designed to ensure college opportunity for each child that the academy serves.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

The school uses multiple platforms including email, mailings, phone blasts, and school's website to inform parents and families of educational and related opportunities available to their children. Parents and families are provided with meaningful opportunities to participate in their child's education. The school ensures that all required information is provided in a form, manner, and language that is understandable to parents and families.

* (D) Tracking student attendance and improving student engagement in distance education;

The school continues to track students' through the student data system and routinely reaches out to make personal connections with students and families during remote learning.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Student academic process is done through the school's student data system. Routine data analysis is done to assess student data pre-pandemic and the impact of COVID-19 on student achievement. If a student is not displaying mastery and is showing a decline in achievement then additional interventions, including differentiation of instruction, will be put in place to increase achievement in order to meet the student's needs.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how

you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ◉ No				$
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ◉ No				$
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◉ Yes ○ No	Contracted nursing services will be provided to prevent the spread of COVID-19.	Implementation timeline aligns with the grant project period.	Student attendance and nursing services records will be used to evaluate the effectivess. COVID contract tracing will also be used to determine is the spread of COVID-19 has been redduced or eliminated.	$ 53,151.40

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$
	* ○ Yes ◉ No				$

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.				

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ◯ Yes ◉ No				$
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◯ Yes ◉ No				$

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ○ No	Summer learning staff will implement a summer learning program to increase academic achievement in response to the learning loss due to COVID-19.	Implementation timeline aligns with the grant project period.	Student achievement data (formal) and student attendance of those participating in the summer learning program will be used to evaluate the effectiveness of the program.	$ 30,912.00
	* ○ Yes ◉ No				$

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.					
			Total ESSER III Allotment	$	84,063.40

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds</u>, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Johnston Charter Academy (51B) Charter District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

Johnston Charter Academy (51B) Charter District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Jones County Schools (520) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Jones County Public Schools Needs Assessment was created by School Administrators, District Directors and the Superintendent of Schools. From this needs assessment, Jones County Schools has developed a three-year plan to directly address learning loss for students as a result of COVID-19 through the use of tutoring, remediation and extended learning plans to address targeted skills lost during school closures. School administrators used data from their schools MTSS Data Teams and School Improvement Teams that identified crucial needs in academics, attendance and social/emotional needs to identify a targeted list of students in need. Jones County Public Schools will purchase i-Ready to assess student performance and plan whole and small group instruction. i-Ready Diagnostic is an adaptive assessment designed to provide teachers with actionable insight into student needs. It offers a complete picture of student performance and growth, eliminating the need for multiple, redundant tests. By adapting to student responses and assessing a broad range of skills-including skills above and below a student's chronological grade-the i-Ready Diagnostic pinpoints student ability level, identifies the specific skills students need to learn to accelerate their growth, and charts a personalized learning path for each student. School administrators, District Administration and the Superintendent reviewed the comprehensive needs of the district to develop the criteria listed below for student

selection to receive these supports as directed through ESSER III (PRC 181) funds. Students will receive personal instruction driven by insights from the i-Ready Diagnostic, i-Ready's online K-8 lessons in Reading and Mathematics will provide tailored instruction that meet students where they are in their journey and encourages them as they develop new skills.Summer learning programs will include general education, special education art, music, physical education, school counseling and school nursing services to address whole-child needs. Summer Learning and Extension will be open to all students. Administrators have identified At-Risk Indicators and have contacted parents of At-Risk students to encourage participation in the Summer Learning Program. The At-Risk Indicators are as follows: ELA: K-3 Istation: Not proficient on the MOY Assessment. ELA: K-6 HMH: 65% or lower on four or more Module/Unit Assessments ELA: K-6 Received a final grade of 65% or lower in any quarter MATH: K-6 HMH: Scored a 70% or lower on the EOY Interactive Assessment MATH: K-6 HMH: 65% or lower on four or more Module/Unit Assessments MATH: K-6 Received a final grade of 65% or lower in any quarter SCIENCE: 5th Grade CASE 21: Scored a 65% or lower on two or more benchmarks ATTENDANCE: K-6 PowerSchool: Student absences have significantly impacted academic performance SOCIAL/EMOTIONAL: K-6 Current caseloads and therapist notes for small group social-emotional lessons through counseling and mental health services. Plan to measure impact: Baseline i-Ready Assessments will be administered in Grades K-12 in August 2021. Jones County Schools Maintenance Department will evaluate weekly sanitation logs at each school site. Jones County Schools will implement evaluation rubrics to assess and modify professional development sessions. Jones County School Counselors will submit weekly contact logs at each school site. Jones County School Nurses will monitor and maintain daily contract tracing data, exposure rates and quarantine rates. 100% compliance with upgraded HVAC and air filtration systems 100% single school assignments for custodial staff with 100% provision of school signed PPE and mitigation sprayers. Jones County is designated as a small school district and currently one school's enrollment numbers necessitates the need for combination classes in 4 grade levels. This format requires two teachers to plan, instruct, and support two separate grade levels at the same time. The addition of two teachers will eliminate this combination need for one year so that students can receive intensive instruction with significant class size reductions and teacher focus on one-grade level. The EC caseload at MES and PES only requires a half-time position, the addition of the EC teacher fully at MES will allow her to provide higher level of support through co-teaching and direct instruction as only one out of 14 students are at grade-level proficiency according to benchmark scores. Our maintenance department will utilize funds to replace and/or install five HVAC systems with additional COVID-19 filtration systems as currently none of ours support new methods to sanitize and filter air flow as it relates to transmission of COVID-19. As we have moved to full-time student attendance, the district needs two additional mitigation sprayers and additional PPE to ensure that we can sanitize all areas daily and provide intensive cleaning on a scheduled basis to prevent. Currently, two locations are sharing in these mitigation sprayers. This addition makes each site self-sustained in their own mitigation. As two additional custodians will be serving the district, the addition of PPE will also be needed to prevent the spread of COVID-19. With the addition of Verkada software at each school, this student monitoring system will allow school

nurses and administrators to contact trace efficiently to determine exposure rates and quarantine needs due to COVID-19. Currently our district has had to contact trace 519 students with several school closures due to exposure rates and primary infection rates. ***amendment Create new assistant principal to assist in addressing learning loss and attendance concerns as a direct result of Covid-19 closures. Provide bonuses for all staff performing duties to keep students engaged and recovering academic loss due to Covid-19 closures and involved in Covid-19 response.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Analysis of this data indicates a direct need to support our K-6 population with an intensive program that can flex instructional goals according to immediate instructional progress. Students were identified using the criteria and At-Risk Indicators designated by the district: ELA: K-3 Istation: Not proficient on the MOY Assessment. ELA: K-6 HMH: 65% or lower on four or more Module/Unit Assessments ELA: K-6 Received a final grade of 65% or lower in any quarter MATH: K-6 HMH: Scored a 70% or lower on the EOY Interactive Assessment MATH: K-6 HMH: 65% or lower on four or more Module/Unit Assessments MATH: K-6 Received a final grade of 65% or lower in any quarter SCIENCE: 5th Grade CASE 21: Scored a 65% or lower on two or more benchmarks ATTENDANCE: K-6 PowerSchool: Student absences have significantly impacted academic performance SOCIAL/EMOTIONAL: K-6 Current caseloads and therapist notes for small group social-emotional lessons through counseling and mental health services. Collectively our K-6 schools have identified the following numbers of students at each grade level that are in need of these targeted services: Kindergarten: 23 First Grade: 26 Second Grade: 27 Third Grade: 31 Fourth Grade: 26 Fifth Grade: 25 Sixth Grade: 35 Currently 0 out of 5 HVAC systems in our district are able to support new air filtration systems to mitigate and prevent the spread of COVID-19 per CDC guidance. The updating of these HVAC systems and air filtration systems will bring all schools up to a high level of air quality prevention. Additionally, two sites have shared staff and sanitation equipment included PPE and mitigation sprayers. The addition of these supplies and personnel will result in all 5 schools self-maintain their sanitation and mitigation protocols. Projections for 21-22 class size and allotments result in the necessity to use combination classes across four grade levels to meet class size regulations. The addition of two teachers during 21-22 will eliminate all combination classes so that teachers can focus on one set of Standards and with the lower class sizes can provide intensive services to each grade level. With only 14 students identified as Students with Disabilities, they general a half-time EC teaching position. Currently only one out of fourteen students is meeting grade-level proficiency according to benchmarking results. The addition of this teacher will ensure that both MES and PES (also a half-time position) receive a full-time EC teacher to address intensive needs and learning loss for students with disabilities. The Verkada software for each school site will increase

proficiency rates for student and staff contract tracing and reduce quarantine and exposure rates. JCPS has contract traced 623 students and staff so far in 20-21 which resulted in total 2 14-day school closures, 9 14-day classroom closures and 519 quarantines. While we are aware that all parents may elect to take advantage of extended learning plans during the summer, this data will be able to be utilized in future in-clas remediation, tutoring and small group instructional lessons. Teachers will be hired at each individual grade level with training to provide the iReady program and align instructional practice to quicken the pace of learning trajectories in efforts to bring students to grade level standards. The sensitive nature of the IReady program will allow individualization for student progression with built-in assessment and mastery checks. Ongoing benchmark reviews will be able to determine when students may be ready to exit these intensive services and allow other students to enter in a reactive model across the three-year plan. Of the students selected, we are able to also ensure all students have access to participate as these numbers include 38 Students with Disabilities, 9 English Language Learners and 14 Receiving Social Emotional Supports. In addition to our grade level and elective teachers, we will also be hiring a special education teacher to continue intensive special education goals and the co-teaching model for intensive supports. Plan to measure impact: Baseline i-Ready will be administered in Grades K-12 in August 2021 for pre- and post-assessments for identified at-risk students to guide intensive remediation plans. IEP goal acquisition for students with disabilities in addition to pre- and post-assessments of iReady with increased trajectory of skill gap closure. Jones County Schools Maintenance Department will evaluate weekly sanitation logs at each school site to meet expectation rates of 100%. Completion of HVAC renovations and installation for new filtration systems resulting in 100% provision of new air-filtration systems to address COVID-19 prevention and mitigation. Daily monitoring of Verkada data by school nurse for contract tracing and numbers of identified exposures and resulting quarantines with reduced rates of out-of-school quarantines. Provision of technology devices to support both face-to-face and extended learning at home for 100% students. Benchmark assessment and regrouping of student support rosters by remediation specialists at all 5 schools with 100%completion of Intervention Plans and progress monitoring for all at-risk students. ****amendment retention rates of employees, staff surveys through Leader in Me professional development

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 711,908.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among

students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Jones County Public Schools serves students in PK-6 grades at four elementary sites. The four elementary schools do not have Reading or Remediation Specialists. Jones County Schools will hire five Remediation Specialists to serve students in grades K-3 at each of elementary sites (two at TES) for the 2021-2022 and 2022-2023 school years. The student population that will be served is represented below: ($60,000 per year Remediation Specialist x 5 x 2 years= $600,000) Comfort Elementary School K-3 Population: 65 Students Maysville Elementary School K-3 Population: 61 Students Pollocksville Elementary School K-3 Population: 68 Students Trenton Elementary School K-3 Population: 105 Students Jones County Public Schools will also purchase i-Ready to assess student performance and plan whole and small group instruction. i-Ready Diagnostic is an adaptive assessment designed to provide teachers with actionable insight into student needs. It offers a complete picture of student performance and growth, eliminating the need for multiple, redundant tests. By adapting to student responses and assessing a broad range of skills-including skills above and below a student's chronological grade-the i-Ready Diagnostic pinpoints student ability level, identifies the specific skills students need to learn to accelerate their growth, and charts a personalized learning path for each student. Students will receive personal instruction driven by insights from the i-Ready Diagnostic, i-Ready's online K-8 lessons in Reading and Mathematics will provide tailored instruction that meet students where they are in their journey and encourages them as they develop new skills. Summer Learning and Extension will be open to all students. Administrators have identified At-Risk Indicators and have contacted parents of At-Risk students to encourage participation in the Summer Learning Program. The At-Risk Indicators are as follows: ELA: K-3 Istation: Not proficient on the MOY Assessment. ELA: K-12 HMH: 65% or lower on four or more Module/Unit Assessments ELA: K-12 Received a final grade of 65% or lower in any quarter MATH: K-8 HMH: Scored a 70% or lower on the EOY Interactive Assessment MATH: K-8 HMH: 65% or lower on four or more Module/Unit Assessments MATH: K-12 Received a final grade of 65% or lower in any quarter SCIENCE: 5th Grade and 8th Grade, HS Biology CASE 21: Scored a 65% or lower on two or more benchmarks ATTENDANCE: K-12 PowerSchool: Student absences have significantly impacted academic performance

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

As part of our MTSS Data Team Reviews at the school level, schools reviewed multiple measures of data including iStation data, curriculum-based measures through the HMH curriculum platform, CASE 21 Science data, Benchmarks, attendance reports and social/emotional Tier II supports. Spreadsheets were created to address students in need of Tier I, Tier II and Tier III services. This previous practice will continue with direct Intervention Plans developed to

address student specific needs. The use of i-Ready will increase the trajectory closure rates for students to make educational gains and negate learning loss. Monthly reviews also included direct tie-backs to the HMH Curriculum and Standard Course of Study alignment to help build small-group development within Tier I or Core Instructional models. Remediation groups and flex groups were built and will be sensitive to student progression and response to provide Tier II or supplemental supports in addition to the Tier I services at the student specific level. Students that needed Intensive supports or Tier III supports were introduced to specialized curriculum through a co-teaching model through the Exceptional Children's teachers and support staff. All programs, instructional practices, and targeted Intervention plans were and will continue to be developed aligned to evidenced-based practices as supported through the Multi-Tiered Systems of Supports framework expectations.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Our district was fortunate in that a previous curriculum selection was a heavy technology focused selection. Teachers were and continue to be able to set-up and design lessons that could be delivered both synchronously and asynchronously to students served in Plan A, Plan B, Plan C or a combination of both face-to-face and virtual learning environments. The addition of Swivels and Apple TV's helped teachers manage blended learning environments as well. Through the HMH platform students managed their own individual log-in accounts that could be facilitated with parents so they could better understand assignments and expectations. Teachers use of Google Classroom, SeeSaw and Class Dojo also served as effective communication tools to outline assignments, expectations, and provide teacher office hours so that students or parents could contact the teacher directly for help with weekly assignments or lesson plans. i-Ready also allows for student-specific learning goals, parent communication and technology-rich interaction that is sensitive to student mastery of learning. Our technology department, counselors and social workers also formed their own version of help desks to allow parents to reach out for tech support of new equipment sent home including hot spots, iPads, platform access and how to check attendance and grades for their students. Home visits by social workers were also provided and will continue to be provided if parents had continuous difficulty and needed a hands-on tutorial. Through extended learning plans counselors and social workers will continue to be available for this level of support to assist in remediation and extended learning plans. School nurse services will assist parents in quarantine and isolation needs and methods to bring students back to the learning environment as soon as possible.

* (D) Tracking student attendance and improving student engagement in distance education;

Data managers teamed with school counselors to review student attendance profiles, including those that were virtually participating in their classrooms. Once teachers took attendance, counselors also began tracking these missed classes as part of our MTSS Data Review Teams. This brought our monthly tracking systems to include academics, attendance and social emotional concerns. This same tracking system will be utilized to target students,

however counselors will now be monitoring attendance weekly to identify students that need immediate intervention by the social worker. Social workers began to make contacts with parents and students once six days of unexcused absences or failure to check into virtual classes. Teachers, counselors and administrators help conferences with students about promotion standards being different this year than the 19-20 year Covid waiver. Home visits and work visits were made to both parents and students. Several students had found jobs while virtual learning to help support families with finances as a result of parents losing jobs due to COVID-19. Social workers would also make work visits to the students to drop off packets, pick up work and answer questions. The counselors and social workers also began a positive contact campaign to praise students that began showing progress and engagement in classes. Some parents that did not have transportation could not take part in food distributions and other social service projects. Our social workers delivered the USDA food boxes to several families in this situation, as well as, breakfast and lunch offerings from the school. These positive engagements improved communications, student attendance and student engagement in the school. This practice will be continued and extended in a responsive nature to student needs.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

As part of the MTSS Data Team Review, each school used the 19-20 Benchmarks and iStation data to develop a baseline standard for which to measure student skill retention using the HMH beginning of year assessment data and subsequent benchmarks and HMH Module Assessments to determine the levels of regression and the need for remediation. With the ability for teachers to pull prerequisite skill lessons from previous grades, teachers could prepare for remediation and small group instruction lessons to remediate these skills. HMH module assessments including the Pre-and Post assessments assist teachers in the intensity of remediation needed and which students need more intensive and frequent remediation groups. Each school also reviewed data to determine thematic deficits across grade levels that showed a historical area of need in both reading and math so that these intensive remediation efforts could target those areas. Teams are able to review data across the modules to determine individual student rates of progression for these specific skills as well. Students that are consistently low or make little regression are given Tier III intensive services in addition to Tier I and Tier II through the use of co-teaching with the Exceptional Children's staff.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$

| IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement. | * ⦿ Yes ◯ No | To reduce the spread of COVID-19, JCPS will replace five HVAC units and purchase air filtration systems for each school site. The sites include Jones Senior High School, Comfort Elementary, Maysville Elementary, Pollocksville Elementary and Trenton Elementary. | July 2021-December 2021 | The following will impact students, community members and teachers by providing cleaner/filtered air to reduce the spread of COVID-19. Impact Measures will include: Monthly Air Purification Testing Monthly Air and Temperature Distribution Testing Improved overall air quality at all school sites | $ 598,035.00 |

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ◉ No				$
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◉ Yes ○ No	in response to COVID-19 an on-Site EC Teacher at MES will be funded: 2021-2024 ($77,000 per year) for three years.	August 2021-August 2024		$ 263,833.20

11/10/2021 10:06:45 AM

				Impact Measures will include: This position will ensure that MES will have a full-time EC teacher to engage co-teaching with all grades. This co-teaching model fits within the MTSS framework to provide Tier III services to both general education and special education students. General education students can receive these intensive supports even when they do not meet criteria for a disabling condition to remediate learning loss and skill deficits in order to close achievement trajectories over	

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◉ Yes ○ No	In order to reduce the spread of COVID-19, Verkada Contact Tracing and Monitoring systems will be purchased and installed at each school site. The tracing system will allow Health Department officials and School Officials to precisely identify the locations of students and school personnel in order to reduce and prevent the spread of COVID-19.	July 2021-December 30, 2021	Impact Measures will include: Daily/Live Monitoring of Student Transitions Daily/Live Monitoring of Student and Staff Attendance Daily/Live Monitoring of Individuals Proximity (Contact Tracing) Daily/Live Monitoring of student discipline and safety protocols	$ 105,000.00
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ○ No	In order to reduce and prevent the spread of COVID-19, JCPS will purchase additional PPE and mitigation sprayers. Two additional custodians will also be hired to sanitize and clean at school sites.	July 2021-August 2024	Impact Measures will include: Schools will implement a weekly sanitation schedule. Custodian schedules will be created to eliminate sanitation gaps. PPE will be distributed for all teachers and staff according to ADM.	$ 275,000.00
	* ○ Yes ⦿ No				$

11/10/2021 10:06:45 AM

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.					
	* ◉ Yes ○ No		July 2021-August 2024		$ 577,854.67

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		In response to COVID-19, i-Ready Assessments and i-Ready Instructional Software will be purchased as competency-based assessment tools for Grades K-12. The purchase will allow teachers to monitor student growth and establish baseline measures of instruction to decrease the learning gaps created by the pandemic. ESSER III Funds will also be allocated to purchase Apple Insurance, Apple Macbooks, iPads and charging stations for each school site.		Impact Measures will include: As part of our MTSS Data Team Reviews at the school level, schools will review multiple measures of data including i-Ready data, curriculum-based measures through the HMH curriculum platform, Benchmarks, attendance reports and social/emotional Tier II supports. Spreadsheets will created to address students in need of Tier I, Tier II and Tier III services. This practice will continue with direct Intervention Plans developed to address remediation.	

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ⦿ No				$
SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ⦿ Yes ○ No	In response to COVID-19, students will be provided summer instruction on-site at Trenton Elementary School and Jones Senior High School. Electives such as music, art and PE will be provided, as well as counseling and school nursing. Summer Transportation will be provided daily. Breakfast, lunch and physical activity will also be provided daily. School administrators will use the following At-Risk Indicators to	June 6, 2024-July 15, 2024	Impact Measures will include: i-Ready pre and post assessment data in ELA and Math will indicated student growth in proficiency and guide interventions for summer services. i-Ready assessment data will be able to be utilized in future in-class remediation, tutoring and small group instructional lessons. Students will receive two nutritious meals per day to aid in instructional readiness.	$ 437,726.92

		indicators to identify students for the Summer Learning Program: Identifying At-Risk Measures ELA: K-3 Istation: Not proficient on the MOY Assessment. ELA: K-12 HMH: 65% or lower on four or more Module/Unit Assessments ELA: K-12 Received a final grade of 65% or lower in any quarter MATH: K-8 HMH: Scored a 70% or lower on the EOY Interactive Assessment MATH: K-8 HMH: 65% or lower on four or more Module/Unit Assessments MATH: K-8 Received a final grade of 65% or lower in any			

		lower in any quarter SCIENCE: 5-12 CASE 21: Scored a 65% or lower on two or more benchmarks I			
OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ◯ No	In response to COVID-19, 5 Remediation Specialists will be hired for two years at CES, MES, PES and TES to address targeted interventions and learning loss using the predetermined at-risk designations and the continued use of progress monitoring through iReady. Due to small district status, MES will be required to use combination classrooms at MES for four separate grade levels. The use of	August 2021-June 2024		$ 494,252.92

		levels. The use of 2 Teacher ($130,588) for one year will allow for intensive instruction with small class sizes to address learning loss. The use of 2 TAs ($150,000) will assist with station teaching, remediation and increased one-on-one learning for two years to sustain increased learning rates. 7-12 Remediation Specialist for three years (($200,000) will target learning loss to increase proficiency rates and graduation rates. Indirect Costs Allocation at 7%= $211,962.11 ***additional Assistant Principal at JSHS		Remediation specialists are a critical component for providing Tier II services to students not meeting grade level expectations due to virtual learning loss. Eliminate combined classes at MES of four grade levels so teachers increase grade level and intervention services. 7-12 Remediation Specialists will provide interventions to targeted students to increase proficiency and graduation rates **** Assistant Principal to facilitate learning loss programs in 6-8. Bonus for staff retention.	

		- in order to provide appropriate social distancing for our elementary students (not able to receive vaccine), JCPS moved sixth grade to our high school locations to ensure quality classroom assignments. This movement developed two natural separations for typical middle and high school wings within the new JSHS. The addition of the Assistant Principal allows for better supervision of classrooms, mask mandate reinforcements, social distancing, parent contacts for disengaged students, Covid-			

		19 contact tracing, and high needs data tracking for academic progression rates. Each assistant principal can better oversee educational alignment for all students recovering academic standing due to Covid-19 closures. Addition of bonus for all employees as a retention effort for work during the Covid- 19 pandemic. Staff incentive to assist school climate concerns and fatigue. New Indirect Funds - $185,349.18			

	Total ESSER III Allotment	$ 2,751,702.71

Part E: Assurances

Check **all** *assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:*

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Jones County Schools (520) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - New Applicant Summary

There are no new applicants.

GAN Information

Jones County Schools (520) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Lenoir County Public Schools (540) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

The following Lenoir County Public Schools stakeholders were involved in the development of the needs assessment and funding usage for ESSER III: Superintendent, Associate Superintendent, Assistant Superintendent, Director of Federal Programs, Director of Accountability, Director of High School & CTE, Digital & Learning Coordinator, Director of Technology, Director of Exceptional Children, Principals and Teachers. Lenoir County Public Schools will use NWEA MAPS Reading and Math Growth Assessments, Jumpstart data, Fall EOC Data, Spring EOG, ACT and Pre-ACT, Cognitive Abilities, Exceptional Children Learning Logs, ACCESS scores, NC Checkins, mClass, evaluated need for Credit Recovery, and locally developed formative assessments to assess and address student learning gaps resulting from the disruption in educational services due to COVID. This data will help focus on identifying students most academic need. Lenoir County Public Schools currently have 1434 Exceptional Children, 449 student identified as English Learners, and 1435 students currently working in Tier II and Tier III of MTSS. To ensure the cleanliness of our school buildings, Lenoir County Public Schools will continue the daily cleaning and sanitizing procedures that align with best practices from NC DPI, the Center for Disease Control, and state and local health officials during the summer. To ensure our school buildings have a favorable and healthy environment for our students, and the performance of our teachers and staff, 41% of Lenoir County Public School buildings are in need of repair, replacement, and upgrade projects. A facility study was conducted by LCPS Maintenance Director, and a general contractor. School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs. We will be installing methodologies to mitigate mold and damp learning environments that currently can have health effect on our students and staff. We are making this application to be able to repair areas where there is increased dampness and moldy buildings. We need to prevent further water intrusion and excessive moisture accumulation in our schools. Currently, 7 out of 17 of our schools are experiencing major moisture issues that need immediate attention. Lenoir County Public School buildings HVAC systems are in need of upgrading to enable better indoor air quality, and to meet the IAQ requirements since COVID is a predominately airborne virus, it is critical that the HVAC systems identified in the inspection report are upgraded to the most current and safe available technology. Lenoir County

Public Schools will provide a one time incentive to staff members for additional responsibilities since March 13, 2020 for the safety of all stakeholders, as it relates to COVID.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

A large percentage of students have lacked direct instructional services during the 2020-2021 school year, as a result of COVID. To mitigate the effects of loss of instructional time, students need access to high quality instruction specifically designed to address learning loss and gaps during the summer. The following data is the results of the End of Course & End of Grade assessments for the 2018, 2019, and 2021 school year: 2017-18 Math I 36.4 2018-19 Math I 29 2020-21 Math I 18.6 2017-18 Math III 2018-19 Math III 28.9 2020-21 Math III 27 2017-18 Biology 43.2 2018-19 Biology 47.3 2020-21 Biology 32 2017-18 English II 43.6 2018-19 English II 44.7 2020-21 English II 45.8 Math Grade 3 2017-18 Grade 3 58.5 2018-19 Grade 3 50.9 2020-21 Grade 3 27.1 Math Grade 4 2017-18 Grade 4 46.6 2018-19 Grade 4 45.1 2020-21 Grade 4 22.2 Math Grade 5 2017-18 Grade 5 55.4 2018-19 Grade 5 50 2020-21 Grade 5 32.1 Math Grade 6 2017-18 Grade 6 37.7 2018-19 Grade 6 44.5 2020-21 Grade 6 26.8 Math Grade 7 2017-18 Grade 7 39.5 2018-19 Grade 7 45.8 2020-21 Grade 7 31.6 Math Grade 8 2017-18 Grade 8 35.4 2018-19 Grade 8 38.1 2020-21 Grade 8 24.7 Reading Grade 3 2017-18 Grade 3 49.7 2018-19 Grade 3 49.9 2020-21 Grade 3 28 Reading Grade 4 2017-18 Grade 4 52.8 2018-19 Grade 4 54 2020-21 Grade 4 27.1 Reading Grade 5 2017-18 Grade 5 53.7 2018-19 Grade 5 49.2 2020-21 Grade 5 31 Reading Grade 6 2017-18 Grade 6 48 2018-19 Grade 6 52 2020-21 Grade 6 31.1 Reading Grade 7 2017-18 Grade 7 51.8 2018-19 Grade 7 45.7 2020-21 Grade 7 33.2 Reading Grade 8 2017-18 Grade 8 42..7 2018-19 Grade 8 43.3 2020-21 Grade 8 38.7 Science Grade 8 2017-18 Grade 8 68.6 2018-19 Grade 8 73.6 2020-21 Grade 8 64.1 Science Grade 5 2017-18 Grade 5 66.9 2018-19 Grade 5 68.6 2020-21 Grade 5 47.6 LCPS is planning on opening nine school buildings to accommodate the students for summer learning increasing the need for cleaning and sanitizing. To ensure the safety and cleanliness of our school buildings during the summer, custodians will be employed to ensure areas are clean and sanitized, as students and staff rotate from one area to another. In many areas of our facilities we do not meet current codes, preventing upgrading of new air systems. We have identified the areas in each school that need microbial contamination removed to eliminate any future exposure to our building occupants. Without the help of ESSER III funds, we will still be a state with increased respiratory health effects. Lenoir County Public Schools contracted with an external partner to assess and to identify air quality needs and upgrades to ensure a healthy learning environment. The results from the most recent HVAC inspection, Lenoir County Public School buildings HVAC systems are in need of upgrading to enable better indoor air quality, and to meet the IAQ requirements. Controllers are failing at a rapid rate and thus space temperature/humidity/indoor air quality conditions are suffering. HVAC controls need to be upgraded to enable better control of learning environment conditions. Fluctuation of temperature and moisture increase the likelihood of spreading illness and aggravating allergies. Lenoir County Public Schools staff participated in numerous virtual professional developments and trainings tailored to their job duties for the safety, prevention, and reduction of COVID. Professional Development and training included but not limited to, how to teach remotely, engaging disengaged students, how to use software programs, sanitizing schools, cafeterias, buses, and playgrounds. A Remote Handbook was created for instructional staff detailing processes and procedures related to hybrid and remote learning. Teachers had to plan lessons according to their students, remote, hybrid, and even face to face. Cafeteria staff prepared and delivered meals to remote students, and family members in the community when school buildings were closed, due to COVID. The Technology

Department increased the WiFi capabilities in the school parking lots, and also order, distributed, and served Hotspot to student in need of WiFi. The Student Services Department ordered and distributed Personal Protective Equipment (PPE) throughout the district, provided social & emotional support to students and families, participated in the COVID-19 Testing Pilot for NCDPI, so our Nurses were able to test for COVID in our schools. Student Services linked with the community health department to provide vaccines to all interested staff. The Maintenance Department installed signage and shields throughout the district for safety. The Transportation Department revised bus routes to ensure the appropriate number of students at a time, and sanitized the buses between the different groups of students.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 6,400,000.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, underline provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Lenoir County Public Schools summer learning will be available to grades K-12. The summer learning program will operate for 150 instructional hours. Staff will apply for a position in the summer learning program in March. Staff will be recommended for hire in April. Summer learning staff will include site administrators, Digital Learning Specialists, Curriculum Specialists, School Counselors, School Nurses, School Social Workers, Teachers, Teacher Assistants, Exceptional Children staff, English Learner staff, Behavior Specialists, Therapists, Office Support, Bus Drivers, and Custodians. The summer learning will take place in the months of June and July. The criteria for student participation is for at-risk students as individuals who are identified as Exceptional Children, English as Secondary Language, and level two and level three participants in MTSS. Additionally students who are at risk of class/grade failures, not successfully progressing toward grade promotion and graduation, not meeting grade level standards as indicated on diagnostic and formative assessments, and not reading on grade level are eligible for participation in summer programming. Also, parent request were accepted. In grades K-8, the following will be included in the daily schedule of summer learning: Math, Reading, Science, physical activity, enrichment activity, and Social-Emotional Learning Groups, meal service, and transportation. In grades 9-12, the following courses will be offered: English II, NC Math I, NC Math III, Biology. Credit Recovery subjects offered include, all core Academic courses (English I, English III, English IV, NC Math II, 4th level mathematics, and Social Studies courses). In addition, elective courses such as, ACT/SAT prep, Art, Music, STEM enrichment activities, CTE courses, and CTE credentialing opportunities. Social-Emotional Learning (SEL) supports include an onsite counselor, school nurse, and social worker. Students will have access to daily Seminars addressing Social Emotional learning, Career Exploration, and Writing activities. Child Nutrition staff, meals, other expenses will be paid by Child Nutrition funds. Transportation cost will be paid by Title I PRC 050, and ESSER II PRC 171. Staff members will be recommended by principals for summer learning, and paid by ESSER II and ESSER III funds. Instructional

resources, common shared reading materials, common math resources, manipulatives, classroom student supplies, common science resources, assessment materials, will be purchased with Title I PRC 050, ESSER II PRC 171 funds, ESSER III PRC 181 funds, and additional PPE supplies will be purchased with the remaining ESSER I PRC 163 funds.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Instruction will be provided by evidence-based activities to meet the comprehensive needs of students using Leveled Literacy Intervention, Guided Reading groups, explicit phonics instruction, inquiry based science learning, and a social emotional curriculum.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Information and assistance are provided to parents and families to effectively support students in the face-to-face and distance learning environments through progress reports, two-way communication, websites, social media, phone calls, ConnectEd, parent and family engagement events, parent and family connectivity and LMS tutorials. The following items will be available to students and parents via the district and school websites, social media accounts, and in hard copy format (when available): A Frequently Asked Questions (FAQ) document to address common technical issues Smart Sheets and Quick Start Guides for Canvas, Seesaw and other common apps Video Tutorials for Canvas, Seesaw and other common apps

* (D) Tracking student attendance and improving student engagement in distance education;

Parents will be notified of attendance requirements through the following method: Learning information sessions during Open House meetings, Social Media, LCPS website, phone calls, and emails. Parents will receive assistance with learning how to access the Parent Portal in PowerSchool and students' Learning Management Systems. Attendance will be tracked closely by students' teachers and there will be a system of accountability and follow-up for all staff to ensure that no student is overlooked when they become disengaged. Teachers will utilize data from Learning Management systems to track engagement data and assignment completion. Students and parents will be provided digital and printed materials on learning protocols, procedures, and expectations.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Lenoir County Public Schools will utilize data gathered from pre-assessment data to determine appropriate pacing and standards focus for the instructional environment. Pacing will be adjusted to allow for simultaneous grade level instruction and embedded review of prior standards. Grade level/subject area teachers will develop common lessons and common formative assessments for use in the weekly learning plan. Teachers will provide feedback that is specific and actionable to promote student growth and learning. LCPS will utilize parent friendly communication materials and methods to communicate learning plans and expectations. In addition, LCPS will provide families with a compilation of resources utilized for student learning. Each school will implement a recovery and acceleration plan to address student needs based on student assessment data. Interventionist will be hired to support recovery and acceleration of student academic progress.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For

each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ● Yes ○ No		Completion of projects will be monitored and scheduled ending no later than September 30, 2024	To prevent the spread of COVID, water bottle filling stations will help reduce the spread of germs and disease. The water bottle filling stations will be placed in schools throughout the district.	$ 100,000.00

		A percentage of ESSER III funds will be used to provide water bottle filling stations in schools throughout the district. The water bottle filling stations will help to prevent the spread of COVID, the spread of germs, and diseases.			
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ○ No		Completion of projects will be monitored and scheduled ending no later than September 30, 2024	The CDC recommends that organizations implement a layer approach to reducing exposure to COVID-19. They have sited this approach to include improving building ventilation to reduce the spread of disease and lower the risk of exposure. Upgrading the HVAC systems will impact and improve the air quality within our school builds, as recommended by the CDC. The inspection of the air quality will continued to be closely monitored. https://www.cdc.gov/coronavirus/2019-ncov/community/ventilation.htm	$ 5,800,000.00

		A percentage of ESSER III will be used to provide air scrubbers that attaches directly to the ductwork of your HVAC system. It removes air pollution, VOCs, surface contaminants, and dust. The air scrubbers provides a cleaner, healthier air quality.			
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ⦿ Yes ◯ No	To provide contracted services in the areas of school health support for physical and mental health support services in response to COVID.	Completion of projects will be monitored and scheduled ending no later than September 30, 2024	The school health support will aid in a more safer and healthier school environment, as it relates to COVID.	$ 750,000.00

| ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population. | * ⦿ Yes ◯ No | To address the needs of all special populations, core instructional resources will provide equitable access to high quality, standards aligned, research-based instruction. In addition, each school will implement a recovery and acceleration plan to address student needs based on student assessment data. Interventionist will be hired to support recovery and acceleration of student academic progress. | Completion of projects will be monitored and scheduled ending no later than September 30, 2024 | Assessment indicators include NWEA MAPS, mClass, Credit Recovery Units earned, Exceptional Children Learning Logs, and locally developed assessments. | $ 7,377,621.00 |

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ⦿ No				$ ⬚
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ⦿ Yes ○ No	ESSER III will paid for professional development to mitigate the spread of COVID. The professional development will focus on how to be prepared and ready to respond to an outbreak, limit human to human transmission, and how to identify, isolate, and report cases.	Completion of projects will be monitored and scheduled ending no later than September 30, 2024	The professional development will aid in a more safer and healthier school environment, as it relates to COVID, and other infectious diseases.	$ 18,000.00

11/10/2021 4:09:53 PM

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ◯ No	A percentage of ESSER III will be used to ensure supplies to sanitize and clean the facilities are purchased.	Completion of projects will be monitored and scheduled ending no later than September 30, 2024	The supplies to sanitize and clean will aid in a more safer healthier school environment, as it relates to COVID, and other infectious diseases.+	$ 50,000.00
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ⦿ Yes ◯ No	A percentage of ESSER III will be used to purchase additional hotspots for students without Internet access at home for online learning. Also, meals will be provided to eligible students during school closures relating to COVID.	Completion of projects will be monitored and scheduled ending no later than September 30, 2024	LCPS will make every effort to ensure the students are able to continue to receive instruction, and meals in the event of school closures, related to COVID.	$ 500,000.00

| EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment. | * ◉ Yes ○ No | A percentage of ESSER III funds will be used to purchase computers for student to provide instructional tools and resources aligned with state curriculum to better prepare our students for educational and learning opportunities. Also, computer software programs will be purchased to allow students access to high quality supplemental educational resources. | Completion of projects will be monitored and scheduled ending no later than September 30, 2024 | LCPS will provide each high school student with a laptop computer to better prepare our students for post secondary education or career opportunities. Access to high quality educational software programs will aide in loss of instruction related to COVID. | $ 4,000,000.00 |

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ◯ No	A percentage of ESSER III funds will be used to purchase a Social Emotional Learning curriculum.	Completion of projects will be monitored and scheduled ending no later than September 30, 2024	LCPS is making efforts to prioritize students' mental health, both during and beyond the current pandemic.	$ 100,000.00
SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ⦿ Yes ◯ No	A percentage of ESSER II funds will be used to provide summer learning, due to the learning loss resulting from COVID, to at-risk students as individuals who are identified as Exceptional Children, English as Secondary Language, and level two and level three participants in MTSS. Additionally students who are at risk of	Completion of projects will be monitored and scheduled ending no later than September 30, 2024	Assessment indicators include NWEA MAPS, mClass, Credit Recovery Units earned, Exceptional Children Learning Logs, and locally developed assessments.	$ 6,400,000.00

		are at risk of class/grade failures, not successfully progressing toward grade promotion and graduation, not meeting grade level standards as indicated on diagnostic and formative assessments, and not reading on grade level.			
	* ⦿ Yes ◯ No	ESSER III funds will provide a bonus for the Bus Drivers for preparing, informing, and implementing the change in transporting, and safety measures of all bus riders, as it relates to COVID. Virtual professional developments and trainings	Completion of projects will be monitored and scheduled ending no later than September 30, 2024	LCPS modified the way of doing business to prevent, reduce, and/or decrease the spread of COVID. The virtual professional developments, trainings, and district meetings are effective, as noted from the weekly COVID information provide by our Human Resource Department.	$ 502,000.00

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		and trainings were provided tailored to job duties for the safety, prevention, and reduction of COVID within our transportation department. Lenoir County Public School Nurses will partner with the local health department to plan for some Covid vaccine clinics to assist with the distribution of the vaccines. A one bonus will be given to all participating School Nurses.			
				Total ESSER III Allotment	$ 25,597,621.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

* ☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
* ☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
* ☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
* ☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
* ☑	Funds shall not be transferred into or out of this allotment category.
* ☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

 There are no new applicants.

GAN Information

Lenoir County Public Schools (540) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Neuse Charter School (51A) Charter District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

Along with the Director of Academics, Dean of Students, EC Director, Principals, Director of Business, parents, and classroom teachers, we analyzed MAP testing data, student classroom averages and evaluated the Powerschool retention report to develop the Needs Assessment and Strategic Plan. Strategic Goals: NCS will rank in the Top 25% of K-12 Charter Schools in the State of North Carolina on the School Report Card Grade by 2025. NCS will rank in the Top 10% of K-12 Charter Schools in the State of North Carolina on the School Report Card Grade by 2025. NCS will score as a "B" rated school or higher on the School Performance Grade, as determined by the State Report Card, by 2025. A minimum of 75% of students will meet Grade Level Proficiency Standard (score a 3, 4, or 5) at all End of Grade (EOG) and End of Course (EOC) State Exams by 2025. We plan to use the funds to help accomplish our 4 strategic goals in the following areas; more details are provided in Part C: Address learning loss for all learners including our at-risk students Data: COVID revealed we have no solid vertically aligned, standards base scope and sequence for student learning. Facility repairs Data: We only have 1 usable outdoor learning space. Resources for administration Data: Admin technology needs to be updated in order to provide meaningful PD for staff that includes the new instructional software acquired that will address learning loss Educational technology Data: NCS does not

have a 1:1 student device program and many of our students do not have access to their own device off-campus. Summer learning Data: Increased failure rates K-12 As we review how our students are performing in the classroom. The individual student per class failures has increased from 27 in the fall of 2019 to 93 in the fall of 2020. Learning loss has happened across the campus for all students, not just those shown in this failure rate. Therefore, we do not clearly know the extent of the loss and may not be able to assess it completely even with EOG and EOC data. As a school, we don't know what we don't know, just like our students, and that in and of itself is the biggest challenge in moving forward. It gave NCS the flexibility to provide what we would not normally be able to provide for student needs. ESSER 1 provided us the freedom to meet the needs of our students on and off-campus. We were able to purchase instructional and office software to help slow down and reduce the loss of learning. Even though our students across the board still suffered from learning loss, these funds helped us offer a variety of learning opportunities to support traditional learning as well as at-risk students such as those identified as ELL, EC, Title 1, and Tier 2 support for the MTSS process. For example, with the purchase of office software, we were able to increase family engagement. The ESSER 2 and 3 funds are giving us the freedom to purchase curriculum all at once to address learning loss across our K-12 campus. Without it, we would have to choose which groups of students to prioritize and incrementally address learning loss over the coming years due to the general limitations (PRC 036) of our funds as a charter school. We are attempting to purchase programs and manipulatives that will belong to the school such as hardback books and more sustainable items that will last for years to come. We may not be able to sustain the instructional software when it runs out, but we will have the books long after the funds are depleted We are planning to host the next three year's summer schools for the following students: All rising first through fifth graders who do not meet the national average growth for reading using the NWEA Map testing data All rising fourth graders who did not reach the state benchmark for Read to Achieve. This program will include: 72 hours of reading instruction for rising fourth graders 45 hours of reading instruction for all other students attending summer school Preliminary training and oversight will be provided by our Title 1 Coordinator for all teachers participating in summer school, and all Read to Achieve classes will be taught by licensed educators.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Address learning loss for all learners including our at-risk students Analysis: Historical student performance demonstrates stagnant or diminishing proficiency scores on Reading and Math End of Grade tests for Grades 3-8. In 2016-17, the overall NCS composite proficiency score for Grades 3-8 was 72.05% proficient, in 2018-19, 69.92. Facility repairs Analysis: As a K-12 campus with over 900 students, we need more outdoor spaces to continue student

learning while giving them access to fresh air Resources for administration Analysis: COVID severely limited admin opportunities for PD which the need for has now drastically increased due to newly acquired software and educational programs. Admin needs updated devices to effectively deliver meaningful PD for years to come in order to support our teachers as they bridge the learning loss created by COVID. Educational technology Analysis: The need to increase accessible Chromebooks for students that do not have their own has increased over the course of the year. With more of our K-12 classroom practices coming through instructional software due to COVID, the need for students to have their own device has increased. Summer learning Analysis: NWEA MAP Spring benchmark data shows that 60.4% of 3-8 students have achieved an RIT score at or above the national norm for Reading, and 54.8% met that benchmark in Math. These scores indicate that the End of Grade composite proficiencies in Reading and Math will be lower than our historical trend proficiency. NWEA MAP and NC EOG data have been correlated to offer predictors of achievement on the state assessment. As we review how our students are performing in the classroom, the individual student per class failures has increased from 27 in the fall of 2019 to 93 in the fall of 2020.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 326,216.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

-NWEA MAP Testing -Progress Monitoring Tools within our Wonders (K-5) and Study Sync reading curriculum (6-8). -Eureka Math progress monitoring (K-5) -IXL progress monitoring

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

-After school tutoring (k-12) -Summer School (K-5) -Bi-weekly PLC's centered around specific student needs and making adjustments based on data to include progress monitoring and/or benchmarking -Development of Academic

Support plans to help support at-risk students. This includes monthly parent-teacher conferences to discuss progress. -MTSS and Title 1 support

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

-Students on the Academic support plan will have monthly parent-teacher conferences. -Parents will receive information on student progress through PowerSchool and Canvas. -Title 1 family engagement night -Parents will receive informational letters regarding upcoming reading and math skills that will be covered including tips and tricks on how to support students at home. -MTSS Tier 2 meetings every 4-6 weeks to review data and interventions.

* (D) Tracking student attendance and improving student engagement in distance education;

-During PLC meetings, NCS staff identifies disengaged virtual learners and student services makes contact with families, conducts home visits, and provides the necessary supports. -NCS will track attendance for distant learners through PowerSchool. Students must attend the live session and/or complete the assignments for the day. -NCS will ensure all students have the necessary supports at home in the virtual environment to include Chromebooks, hotspots, paper copies of work, and any assistive technology students need.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

-NCS will track MAP growth to identify student progress, needs, and potential regression -NCS will utilize EOG/EOC historic and current trends to identify student needs. -NCS will track historical trends of student report cards. -NCS will track students receiving MTSS Tier II and III support. This will include collaboration and analysis of student progress in PLCs and 4-6 week parent meetings to review MTSS progress data. -NCS will monitor students with disabilities to ensure progress is being made towards IEP goals. -NCS will monitor Title 1 support and modify the support plans when necessary. -NCS will monitor students with 504 support and adjust these supports based on identified student needs.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No		2022-2024	Increase accessibility for teachers to utilize outdoor facilities to engage students in learning. Improve Science lab facilities to allow for more social distancing and less potential COVID exposure.	$ 30,000.00

		We need to add and improve our outdoor learning spaces and science lab furniture. COVID revealed that we are severely limited in our ability to accommodate a full classroom of students outside, socially distanced, with outdoor furniture and equipment that can be sanitized effectively. Additionally, we need to update our science labs from desks and chairs to lab tables which are less porous and more sanitary to reduce the potential spread of COVID.			

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ⦿ No				$
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ⦿ No				$

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ⊙ No				$
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ⊙ Yes ○ No	These funds will be used to support the coordination and preparedness of response by adding a designated staff member on campus to support COVID processes and operations.	2021-2022	Increase response rate and time to COVID situations on campus; increase communication with families related to COVID situations	$ 50,000.00

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ⚪ Yes ⦿ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ⦿ Yes ⚪ No	Sanitizing supplies are needed to reduce and/or present the transmission of the COVID-19 virus	2022-2024	There will be no increase in COVID-related illnesses in the 2021-2022 year compared to the 2020-2021 school year.	$ 18,000.00
	* ⚪ Yes ⦿ No				$

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.					

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ⦿ Yes ◯ No	Student Chromebooks: replace and provide additional student devices to support efforts to bridge the gaps of learning loss as a result of COVID	2022-2024	Improved and updated devices will help staff support students to improve their learning.	$ 111,752.00
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ◯ Yes ⦿ No				$
	* ⦿ Yes ◯ No		2022-2024	-There will be a 5% decrease in Title 1 referrals compared to Q1 of the 2021-2022 school year.	$ 57,239.00

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.		NCS will use the funds to pay teachers and provide supplies over the summer to teach summer school. In addition to RTA students, students identified as qualifying for Title 1 services (supplemented by 050 funds) in the 2020-2021 school year will be instructed by NC licensed educators. Summer learning funds will be used to address learning gaps due to the shutdown and virtual learning gaps as a result of COVID.			

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ○ Yes ⦿ No				$
				Total ESSER III Allotment	$ 266,991.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Neuse Charter School (51A) Charter District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - FPMS-ARPA ESSER III PRC 181

There are no new applicants.

GAN Information

Neuse Charter School (51A) Charter District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 0 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

New Hanover County Schools (650) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

1) New Hanover County Schools has engaged in the ongoing process of assessing district needs and planning to prepare/prevent/respond to COVID-19 learning loss, reopening, and related projects. This process has spanned the past 13 months and included a variety of stakeholders. Across each of these stakeholder groups, there has been representation from district-level leadership, school administration, classroom teachers, School Board and community members. The aforementioned groups include: -NHCS Senior Leadership Team -NHCS Board of Education -NHCS Summer Learning Ignite Committee -NHCS Alternatives to Student Retention Committee -NHCS COVID-19 Teaching and Learning Subcommittee -NHCS COVID-19 Health and Safety Subcommittee -NHCS COVID-19 Operations and Transportation Subcommittee -Site specific parent surveys and communication 2) New Hanover County Schools intends to continue to assess, address, and monitor student learning gaps resulting from the disruption in educational services by continuing these highly effective committees and subcommittees. The weekly/monthly work of these committees and stakeholders will be to continuously attend to the celebrations, challenges, and district success goals related to utilizing PRC171 throughout the phases of implementation, recovery, and sustainability of educational services. 3) Assessment of Student Learning Gaps- Grades K-2 Students with an i-Ready EOY score below the

established proficiency level Grade 3 Students who have not scored level 3 or higher on the BOG, EOG, or RtA tests Students with an i-Ready EOY score below the established proficiency level students with less than 50% chance of scoring level 3 or higher on the Reading EOG as determined by EVAAS Grades 4 - 5 Students that have less than a 40% chance of being proficient in Reading, Math, or Science (grades 5 & 8) as determined by the EVAAS Projection Summary Report (not available for fourth grade students due to lack of data) Students with a failing grade in Reading, Math or Science (grades 5) through the end of the third grading period Also...5-8 - students with less than 50% chance of scoring level 3 or higher on the Reading, Math, and Science (grades 5 and 8) EOGs and Math 1 (8th grade only) as determined by EVAAS For grade 5 - 7, students have been identified at risk of not being proficient on all 3 EOGs, at risk of not being proficient on 2 of the 3 EOGs, and at risk of not being proficient on 1 EOG. For grade 8, students are identified who are at risk of not being proficient on all 3 grade 8 EOGs as well as Math 1 in high school, at risk of not being proficient on 2 or 3 of the listed tests, at risk of not being proficient in Math 8 and Math 1. Additionally, students at risk of not being proficient on just the 8th grade Reading EOG OR at risk of not being proficient on either math only, science only, or Math 1 only. Due to COVID19 there has been an increase in student absences and SEL learning loss. EOY 2021 FAM-S data shows that schools were unable to implement the SEL curriculums with fidelity. These results indicated that an SEL Curriculum Specialist is needed to respond to SEL needs created during the pandemic & build capacity in the classroom teachers' ability to sustain these programs and support students' social-emotional needs. - Since the return to face to face learning, out of school suspensions spiked to 85, and in-school suspension =115 for the month of April. -2020-2021 Dropouts = 214 as of April 30, 2021. The two most chosen reasons are Lack of Engagement & Attendance due to COVID19. -As of April 30th, 98 Say Something incidents were reported, 10 = Suicidal Ideation, 41 = Bullying Reports, 6 = self-harm, 8 = depression, and 8 = drug use. -Student safety software, Gaggle, has logged 1424 incidents of inappropriate use of technology since January 2021. Of those, 31 were deemed "Possible Student Situation" which indicates a student in immediate danger of hurting themselves/others. NHCS plan is to address student learning gaps and learning loss in response to COVID19 by overhauling all 3 aspects of the Instructional Core: -Increase the teacher's instructional knowledge and capacity in preparation to respond to COVID19 learning loss in an on-going manner through PD & job-embedded coaching with K-8 Instructional Coaches. -Increase the level of complexity of the content students must learn by implementing high-quality standardized curriculums and resources. -Change the role of the student in the instructional process through short-cycle assessments, universal screeners, coordinating key positions to address the needs of special populations in response to COVID19 (SLP, OT, PT), and offering a high-quality summer learning program as well as extended day contracts. OT/PT contracts: -Lead for OT covered 25+ referrals throughout the county -OTRs had to move students service schedules around to make room to complete evaluations & not miss service times -Child Find services have increased since the Pandemic as young children have not had the opportunity to attend daycare and preschool & have opportunities to naturally practice skills; therefore, these students are requiring more OT than in the past to remediate skill deficits & build access to classroom materials This will seriously impact & overload OTs caseload on the preschool settings. The # of parent

request evaluations has increased since school closure in response to COVID19. The details specific to this plan are listed below throughout Part C: Allowable Uses.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

ADDRESSING LEARNING LOSS DATA ANALYSIS--> K-12 standardized curriculums in order to implement evidence-based supports/activities to meet the comprehensive needs of ALL students and a team of special education curriculum specialists is needed with expertise in explicit and systematic specially designed instruction. -12 of 26, K-5 schools have a standardized math curriculum -20 of 26, K-5 schools have a standardized phonics curriculum -26 of 26, K-5 schools need to continue standardized ELA instruction & resources -0 PreK classrooms have aligned ELA and Math resources to support transition to Kindergarten -66% of 6-8 is using Open Up Resources -0 of 34, K-8 schools have sufficient hands-on Science resources -12 of 34, K-8 schools have consistent, primary source, SS resources. Grades 9-12 are also inconsistent in providing common SS resources. -20% of K-8 students have access to a universal screener -0 of 8, 9-12 schools have standardized English I & II, NC Math 1, or Biology curriculums -NHCS currently has 3,305 SWD. 90% of SWD were more negatively impacted by virtual teaching options than typically-developing students. -90% of compensatory services for SWD are in the area of Speech Language. FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION--> Additional supplies and equipment are needed to operate as a result of the pandemic. -3 of 45 schools need extensive repair to the thermal envelope of the building to prevent the infiltration of moisture laden outside air, improve the performance of the HVAC system, improve indoor air quality (eliminate mold growth),, and minimize the transmission of the virus. Replacement of roofs at 10 of 45 schools per roof evaluation and recommendation of roofing engineer. -Current industry standards, and provide needed additional storage space for COVID related supplies. -Facility repairs to improve the thermal envelope of the building to prevent outdoor air infiltration and improve indoor air quality. -Facility repairs to prevent the infiltration of moisture laden outside air and improve indoor air quality (eliminate mold growth). IMPROVE AIR QUALITY--> Facility Improvements for building systems and operations to meet current k-12 facility standards, current industry standards, and improve indoor air quality through improved HVAC system operations in an effort to prevent virus transmission. -140 buses need installation of air cleaning/disinfecting technology -4 of 45 schools require chiller replacement -10 of 45 schools require HVAC control replacement -8 or 45 schools require HVAC equipment replacement ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS --> Student Support Positions in response to COVID impact -Currently 1 district supervisor supports 134 School Social Workers & Counselors in 45 schools. -758 students are identified as homeless under McKinney Vento regulations during 20-21. Currently 656 students are receiving McKinney Vento

services. -current attendance rates are considerably lower than the previous averages around 97%. Currently, NHCS is around 91% in attendance, with disproportionate impact on students of color (84% for Black and 88% for Hispanic). -Since returning to F2F learning, the attendance rate for Black students has increased from 80%. -The Social Work Association of America establishes an appropriate ratio of SSW to Ss at 1:250. NHCS ratio is currently 1:501. IMPROVING PREPAREDNESS AND RESPONSE --> Additional School Nurse Support for prevention of virus transmission -6 of 45 schools require full-time school nurse support -School Nurse Supervisor is required to manage the nurse workforce & oversee preparedness/response -School Nurse to student ratio for general populations is 1:750, the ratio for students requiring daily services or interventions is 1:225. Impacts of the pandemic increase that need to daily services for many students. NHCS is currently = 1:684. -NHCS has identified 887 positive COVID cases among student/staff since returning to F2F instruc on 10/12/20. -1,552 staff or students have been quarantined due to exposure to a positive COVID case at school and 2 clusters have been identified since 10/1/20. EDUCATION TECHNOLOGY--> Device Access and Updated Projection Abilities to maximize remote learning/face-to-face hybrid needs -24,704 students share 15,120 laptops & iPads for instruction. -50% of school sites have adequate projection capabilities MENTAL HEALTH SERVICES --> Positions and Professional Development in response to SEL impact due to COVID19 -As of March 1, 2020, NHCS had intervened on 4 clear suicide threats among students that were anonymously reported by friends during this school year. SUMMER LEARNING --> Fulfill HB82 Legislation and Create High-Quality Summer Ignite Program in response to COVID Learning Loss -Failure rates for HS students were recorded as high as 68.18% in the district with black students failing at a rate of 41.12% when compared to white students with a failure rate of 31.82%. -ES failure rates increased as much as 23.91% from the 19-20 school year to the 20-21 school year with an overall failure rate as high as 32.70%. -When comparing BOY Reading outcomes to MOY Outcomes there was an overall decrease of 5 percentage points from the 19-20 to the 20-21 school year in grades K-3. In first grade there was a decrease of 10 percentage points, 19 in second grade and 5 in 3rd grade. OTHER ESSA ELIGIBLE ACTIVITIES --> Coordination of Recovery Funding and After-School Programming to mitigate COVID19 academic and SEL learning loss. -Parents of the schools were surveyed in February 2021. 80% responded that they were interested in afterschool programming at their child's school or at another nearby school (with transportation provided), but 59% reported an inability to pay for school-based afterschool care for their child(ren). -Currently, district level positions to plan, monitor, and measure the impact of all Federal Funds are not in place.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 11,404,885.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

NHCS has prioritized the 20% of this allocation to address learning loss by adding the following positions. The grant details in (A)-(E) provide a detailed description of how these positions will be utilized to support the recovery of learning loss across all schools due to the pandemic. -1 K-8 Reading Curriculum Specialist for SWD -32 Elementary and Middle School Instructional Coaches (1 per school) -1 K-8 Math Curriculum for SWD -1 Secondary Curriculum Specialist for SWD -2 OTs & 1 SLP The standardization of curriculums as stated in Section B: Data Analysis and ESSER II Grant Details will include high quality unit/module assessments. In addition, NHCS has created a pacing guide and expectation that all schools will utilize Short Cycle Assessments as an interim assessment is to help improve learning for all students through regular review of student achievement, as well as subsequent adjustment of instructional strategies, difficulty level of instructional and practice materials, and targeted interventions. The aforementioned positions will lead the implementation of these valid and reliable assessments, ensure fidelity, and monitor the planning/delivery of differentiated instruction. In addition, these key positions will contribute to the measuring of progress monitoring data for trend analysis by student and student groups (by teacher, by student cohort, by school, and by district.) This will ensure recovery of learning loss over the past 1.5 years of COVID19 and the negative impact on student achievement. In addition, recurring student licenses for AimsWeb Plus will be purchased as a universal screener for all K-8 students to provide detailed information on student learning gaps due to COVID19.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

To respond to the negative impact of COVID19 and student learning loss, NHCS will further utilize the positions listed in subsection (A) to lead and elevate the evidence-based practice of Professional Learning Communities at the school level. Current observations indicate that PLCs have become a vehicle for writing lesson plans. Instead, we will run effective PLCs in which the following 6 components are non-negotiables: 1. Studying student data 2. Selecting instructional strategies for meeting the standards 3. Planning on how to incorporate instructional strategies into lessons 4. Implementing the planned lessons 5. Analyzing student work 6. Reflecting on the outcome and adjusting as necessary In addition, recurring student licenses, consumable materials, and professional development for the

standardized curriculums will occur to sustain high-quality, evidence-based activities through: -Fundations -Reading/Writing Fundamentsl -Eureka Math -OpenUP Math -Discover Ed -Science Kit Expansions -History Alive -Miller & Levine Biology -My Perspectives Eng I and II -SPIRE for K-5 SWD -LANGUAGE for 6-12 SWD

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Regular parent communication and engagement is paramount. The positions listed in subsection (A) will lead the work of establishing the following in an effort to meet the needs of students in response to COVID19: -Collaborative homework that requires parents and children to work together -Providing enrichment materials that students can take home to use with their families. -Establishing formal school initiatives that encourage student learning at home. -In the right situations, encouraging appropriate, but possibly higher student and parent aspirations and expectations. Regular, targeted communication to parents regarding their child's academic successes. -Regular communication to parents regarding academic activities and schedules. -Actively and genuinely seeking parent input through newsletter or online surveys. For any future distance learning activities, the positions listed in subsection (A) will lead and support converting our high-quality, standardized curriculums into instructional units for distance learning. This will include, but not be limited to... -teacher clarity and learning intentions from a distance -engaging tasks and rigor from a distance -feedback/assessment/grading from a distance Furthermore, the following 2 positions will be added to support the learning loss of students due to Speech/Language and Occupational disabilities. This will span both face-to-face instruction and distance learning in an effort to provide specially designed instruction per IEPs to students owed compensatory services due to teaching and learning loss and providing educational evaluations to students suspected of having a disability due to prior below-grade-level performance exacerbated by recent teaching and learning loss. -1 additional Speech Language Pathologist (SLP) -2 additional Occupational Therapists

* (D) Tracking student attendance and improving student engagement in distance education;

We have learned that that tracking student attendance to approve and monitor student engagement is more complex in our current environment. The positions listed in subsection (A) will support the recovery of learning loss and respond to students' academic, social, and emotional needs by attention to the following indicators: -Gradebook assignments and assignment scores -Log in records and log in duration from learning platforms or student portals -Daily logs (electronic or paper) that can be saved or stored in a student's file -Online polls or chat history -Attendee logs from video or audio calls In an effort to strengthen relationships and create school improvement... the Elementary and Middle School Coaches and Curriculum Specialists will actively build capacity will all instructional staff in how to utilize the metrics for monitoring student attendance and engagement.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

In an December 2020 article by Brookings Institute it was stated that, "Based on historical learning trends and prior research on how out-of-school-time affects learning, we estimated that students would potentially begin fall 2020 with roughly 70% of the learning gains in reading relative to a typical school year. In mathematics, students were predicted to show even smaller learning gains from the previous year, returning with less than 50% of typical gains. While these and other similar forecasts presented a grim portrait of the challenges facing students and educators this fall, they were nonetheless projections. The question remained: What would learning trends in actual data from the 2020-21 school year really look like?" The positions listed in subsection (A) will support classroom teachers and support staff in the process of determining actual learning loss for students and converting this information into individual learning paths for standards mastery and recovery. Both the Elementary and Middle Schools Instructional Coaches have the depth of knowledge to look backwards and forwards (vertically) through grade level standards. Their roles and ability to do this will support planning and instruction in an effort to minimize learning loss without the loss of more instructional time. For example: -What should students be able to do to indicated the mastery of a standard? -Pre-assess -Design a learning trajectory to mitigate gaps in learning from the prior grade level/previous grade level standard -Post-assess -Analyze and adjust

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area
FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ○ Yes ⦿ No				$ ☐
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ⦿ No				$ ☐

ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ○ Yes ◉ No				$
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$

SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ⦿ No				$
LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ⦿ No				$

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ○ Yes ◉ No				$
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ◉ No				$

SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ○ Yes ◉ No				$
	* ◉ Yes ○ No	- Afterschool programs for 10 Elementary Schools Parents of the schools were surveyed in February 2021. 80% responded that they were interested in afterschool programming at their child's school or at another nearby school (with transportation	July 2021 - September 2024	-Increase student achievement - Reverse COVID-19 learning loss - Alleviate childcare issues for working parents -Provide a supervised setting for students to generalize SEL competencies	$ 26,788,258.00

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		provided), but 59% reported an inability to pay for school-based afterschool care for their child(ren). The goals of this program are to increase student achievement, reverse COVID-19 learning loss, help alleviate childcare issues for working parents that often leads to more student absences, and provide a supervised setting for students to generalize SEL competencies as a result of & in response to COVID19. Each program would serve between 25 and 30 students and include transportation. - Indirect Cost			

		currently 2.721% - Unbudgeted funds for FY 2023-2024			
			Total ESSER III Allotment	$	26,788,258.00

Part E: Assurances

Check **all**assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

There are no new applicants.

GAN Information

New Hanover County Schools (650) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Onslow County Schools (670) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

To complete the needs assessment, executive staff meet bi-weekly to share identified needs of each division in the school system. Principals and maintenance staff were completed site inspections to identify capital improvement needs. The capital improvement evaluation team meet to prioritize identified needs, including HVAC replacement/repairs and door/window replacement. Instructional service leadership monitored data and utilized MOY diagnostics and PowerSchool reports to identify students at-risk of academic failure and eligible for planned summer learning activities. School-based tech facilitators and district IT leadership identified technology needs from DLMI reports and monitoring of staff/student technology needs. Feedback and input for ESSER II and III needs was sought from the district's Quality Council and System Involvement Team, which consists of teachers, community leaders, business leaders, parents, administrators, and classified school staff. In determining the needs identified in this plan, the following data was utilized. -While OCS began the year under Plan B for all students and has since transitioned to plan A for all students, K-5 students have missed approximately 50 days of in-person instruction and 6-12 students have missed 86 days of in person instruction. Students also missed 30% of in-person instruction during the 2019-20 school year due to COVID-19. In addition, students missed 20% of in-person instruction during the 2018-19 school

year due to Hurricane Florence. -MOY PowerSchool early warning system data indicate 20.6% of k-12 students are at-risk of academic failure due to grades and/or attendance. -MOY iReady diagnostic data show indicates 19% of K-8 students are more than one grade behind in math and 20% of K-8 students are more than one grade level behind in reading. -2020 -21 EOY iReady continues to show significant decreases of students ending the year on grade level in both reading and math and preliminary EOG/EOC data shows a significant decrease in proficiency rates as compared to pre-pandemic data. -HVAC and ventilation inspections identified a minimum of 13 critical HVAC projects schools necessary to improve ventilation and air circulation. -Site inspections revealed 8 schools in immediate need of repair and/or replacement of windows and doors to improve ventilation and air circulation. -The annual DLMI report, along with device inventory and maintenance logs, are used to monitor the serviceability of student and staff devices, including the model number, amount of RAM, and processer speed. In response to COVID-19, it is critical that all students and staff have devices that meet minimum specs to effectively run Microsoft Teams, as well as all technology-based programs used to support both core and supplemental instruction. Most current operating systems are optimized for 8 to 16GB of RAM. Student and staff devices identified for immediate replacement do not meet these minimum specs. COVID-19 has intensified the need to ensure that all students and staff have a functional and reliable device at all times. Having a device go down or not function correctly in our current blended learning environment creates additional learning loss for our students who are trying to catch up from the effects of COVID-19. In addition, in response to COVID-19, it is critical that we are prepared to immediately go back to full remote instruction should the need arise. Up to date and effective technology for students and staff is necessary to ensure there is minimal disruption to the learning process. With the ongoing quarantines and full remote instruction, teachers must be able to plan and deliver instruction in both blended and full remote models and having reliable technology is a must. Additional instructional staff monitor teaching and learning and provide teachers with resources and support to enhance instruction as we respond to the effects of COVID-19 on student learning. Future device replacement needs to provide ongoing support for learning loss due to COVID-19 will be addressed annually. - Coordination was required between OCS and the Onslow County Health Department in administration of COVID-19 vaccinations, requiring several district-level employees to perform additional duties in responsibilities to assist in vaccinating district employees, of-age students, and community members in response to and for prevention of COVID-19. - Assessment of Exceptional Children's services lost or negatively impacted by COVID-19 indicate the following EC needs: approximately 157 students qualifying for extended schools year, 220 for compensatory services, 30 students in need of OT, 50 for PT, 70 for speech/language, and 5 in need of nursing services. The district will continue to evaluate needs throughout the grant implementation period, with an emphasis on monitoring learning gaps that have resulted from lost in-person learning. School level and district staff will utilize available state accountability data to identify school/district-wide gaps. In addition, student progress will be monitored through quarterly diagnostic and/or benchmark assessments. School and district leadership will also continue to utilize the at-risk feature in PowerSchool to assist in identifying at-risk students. At the school level, teachers will also utilize ongoing formative assessments

and the Data Teams process to monitor student learning and mastery of content. The Data Teams process will also be used to plan evidence-based interventions and instructional practices for students who need additional support. Teachers will continue to receive coaching and support in strengthening the implementation of the math core curriculum. A new Science of Reading based ELA curriculum will be implemented in grades K-5, which will be accompanied by professional development and coaching support. Summer learning programs will be offered for at-risk to assist in closing gaps due to lost instructional time.

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

- As evidenced by the data, support of learning loss is critical. OCS has established a learning loss plan for the summer and will continue to plan additional student learning opportunities to address learning loss. To support the summer program, additional custodial services, as well as cleaning and sanitation supplies will be needed to prevent possible spread of COVID-19. In addition, transportation services will be required to ensure students are able to participate in summer programs to address learning loss due to COVID-19. - To address learning loss in early literacy, OCS will be implementing an new K-5 ELA curriculum aligned with the "Science of Reading." The selected curriculum will provide blended learning resources to meet the needs of both in-person and remote learners as we continue to address the long-term learning impacts of COVID-19 and ensure the district is prepared to quickly return to remote learning should the future need arise. Teacher will need extensive PD on the new curriculum and in the "Science of Reading" to best respond to the post-pandemic learning needs of students. -The ongoing need for the replacement of student and staff devices no longer meeting minimum functional specifications is critical for ensuring OCS continues to offer and support technology-rich core and supplemental instruction as we address learning loss due to COVID-19. The district must also be prepared to make an immediate switch to full remote instruction in the future if the need arises due to COVID-19. Any delay in ensuring fully functional devices for students and staff will slow current efforts to address learning loss from COVID-19 and will lead to an additional loss of learning for our students, especially if a future shift to remote instruction be required. -Identified concerns with HVAC systems, as well as and doors and windows, must be addressed to ensure adequate ventilation, circulation, and air quality. - Performance of additional duties and responsibilities as a result of COVID-19 may result in the need for additional salary supplements for employees providing vaccination support. - To provide for learning loss for EC students due to COVID-19, the following EC services must be provided: OT, PT, Speech/Language, Nursing, ESY, and compensatory services. Funds from PRC 167 will also be utilized to provide some of these services.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 9,667,373.74 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, <u>provide a detailed description</u> of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

School level and district staff will utilize available state accountability data to identify school/district-wide gaps. In addition, student progress will be monitored through quarterly diagnostic and/or benchmark assessments utilizing IReady Reading and Math and state required K-3 diagnostic assessments. Apex Learning will be purchased from PRC 181 and used to track student progress with course recovery efforts, and ALEKs will be used to administer diagnostic assessments in high school mathematics courses. School and district leadership will also continue to utilize the at-risk feature in PowerSchool to assist in identifying at-risk students. At the school level, teachers will also utilize ongoing formative assessments and the Data Teams process to monitor student learning and mastery of content. The Data Teams process will also be used to plan evidence-based interventions and instructional practices for students who need additional support. OCS will utilize the the state-approved competency-based assessment to measure student learning progress in grades K-8 during the summer 2021 learning program and as required in future summer learning programs.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

OCS has established Discover 2021, a learning loss plan for the summer of 2021. This plan includes 150 hours of instruction in required content areas at the K-8 level, as well as course recover options and elective offering at the high school level. Summer instruction will occur over a five-week period during the summer of 2021. Future summer learning opportunities will be planned based on the identified needs of the district as student proficiency results become available. The district will also continue to plan additional student learning and tutoring/recovery opportunities to address learning loss based on needs identified from state accountability and/or diagnostic assessment data. To address learning loss in early literacy, OCS will also be implementing an new K-5 ELA curriculum aligned with the "Science of Reading." Professional development will be key in supporting teachers in research-based best practices

aligned with the "Science of Reading" to ensure learning recovery through a strong core in literacy at the K-5 level to mitigate learning loss due to COVID-19. Through implementation of a research-based core, teachers will be provided with instructional tools and resources to plan and provide explicit, systematic, and sequential instruction based on evidenced-based best practices. Teacher will also receive professional development, as well as assessment tools and resources to identify individual student needs, develop individual learning plans, and plan instruction to address any identified student skills deficits resulting from COVID-19. In addition, the identified core will also provide student and teacher resources in both digital and print editions, ensuring that Onslow County Schools is prepared to shift to full or partial remote instruction should it become necessary in the future. Exceptional needs students will be provided with ESY, Compensatory Ed, Speech/language, nursing services, as the need is determined by assessments of learning loss, services missed, and/or progress on IEP goals.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Information and invitations will be sent home with all students eligible for Discover 2021. In addition, virtual learning links will be reactivated on the district website that provide asynchronous instructional and at-home activities in math a reading. Information and invitations will also be sent to parents for Exploration activities as part of Discover 2021. These activities are meant to address learning loss outside of the traditional core content areas, as well as focus on social /emotional and mental health needs of students. In addition, the new K-5 ELA core curriculum contains a parental involvement component that includes a parent letter at the beginning of each unit of study, along with take home activities explaining the upcoming unit and how parents can support student learning at home. Students attending Onslow Virtual Elementary or Onslow Virtual Secondary will be provided with an orientation for learning coaches explaining the expectations for remote instruction, the expectations for learning coaches, and how to support their child's learning in a full-remote environment. A learning recovery webpage will also be developed for the OCS website to provide information to parents about OCS strategies for learning recovery, as well as with information on how parents can support student learning at home. Parent and family communication will continue in future years to ensure students are informed of student progress an dare aware of additional activities to address learning loss.

* (D) Tracking student attendance and improving student engagement in distance education;

Onslow County Schools utilizes Microsoft Teams as our LMS. Attendance and activity reports are readily available through Teams. For the 2021-22 school year, OCS will utilize a synchronous model for remote instruction requiring participating students to be logged on live with the teachers at regularly scheduled times. This will also allow the teacher to take attendance and monitor participation and engagement of students on a daily basis. For future years, OCS will continue to utilize Teams as the LMS and will offer synchronous and/or asynchronous based on student and staff needs.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

OCS utilizes data from the PowerSchool at-risk report to analyze students at-risk of academic failure due to grades and/or attendance. Comparisons between pre-pandemic and post-pandemic years can be made. In addition, OCS is able to use comparative data from district benchmarks and iReady diagnostics to compare student performance pre-pandemic and post-pandemic. Finally, OCS will use EOG/EOC from pre and post-pandemic years to help further identify learning loss due to the pandemic.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ○ Yes ◉ No				$
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ○ No	HVAC repair/replacement, as well door/window replacement have been identified to improve air quality and reduce the likelihood of transmission of COVID-19.	Prior to end of 2022-23	Project completion, monitoring of air quality, centralized monitoring and control to ensure appropriate air quality, flow, and temperature to reduce likelihood of transmission of COVID-19 do to air quality and ventilation.	$ 737,834.00

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ⦿ No				$
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ○ No	Identified exceptional needs students will be provided with OT/PT services based on learning loss, lack of services, and progress on established goals due to the impacts of COVID-19.	Summer 2021	Service plans and logs, IEP goal progress	$ 180,000.00

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$

11/10/2021 10:17:36 AM

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ◉ No				$
	* ◉ Yes ○ No		Prior to 09/30/2024	DMLI Report; computer specs; annual repair cost analysis; down-time analysis	$ 10,582,441.24

11/10/2021 10:17:36 AM

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		Funds will be used to purchase replacement devices for staff and students to support blended and remote learning. Devices will will be replaced as the need is determined (when device will no longer meet minimum necessary specs or cost of repair/maintenance exceeds device value) Functional devices are necessary to support core and supplemental instruction as students make up for lost learning due to the pandemic and to prevent any future learning loss due to a shift to remote instruction.			

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ○ Yes ◉ No				$
SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ◉ Yes ○ No	See Addressing Learning Loss in Part C above.	Ongoing starting August 2021	State and local assessment and progress monitoring results. PowerSchool at-risk reports.	$ 0.00
	* ◉ Yes ○ No	Indirect Costs - $442.660.96; Unbudgeted reserve - $28,759,578.63	Indirect cost quarterly; credit recovery beginning June 2021	PRC 181 budget reports; Credit Recovery - students participating in credit recovery and number/percent recovering credit.	$ 29,133,779.67

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.					
				Total ESSER III Allotment	$ 40,634,054.91

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.
*	✔	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Onslow County Schools (670) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

GAN Information

Onslow County Schools (670) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Pamlico County Schools (690) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

The Pamlico County Schools (PCS) has a leadership team that consists of the following: all 4 principals, the Superintendent, Assistant Superintendent of Business Services (Finance), and all Directors (Digital/Technology, EC, Federal Programs/CTE, Personnel, Student Services, Instructional Services/Accountability, Child Nutrition, Maintenance, & Transportation). Each member of the team was tasked with conducting a needs assessment within their departments/schools/responsibilities in response to COVID-19 impacts (response to, the result of, and the prevention of). Meetings and subcommittee meetings were held weekly during the month of April 2021 to discuss data collected (from each team member) in the following areas: Learning Loss, Enrollment, Attendance, Social-Emotional Impacts, Exceptional Children, MTSS Processes, Health & Safety, Technology/Digital Teaching & Learning, and Personnel (Roles/Responsibilities). The leadership team reviewed PCS's four schools' school improvement plans, the PCS District Strategic Plan, all PRC & other allocations/revenues, as well as the GEER/ESSER I grant funds. The leadership team has conducted several work sessions to create a plan for the PCS K-12 Summer Learning Program and has created an incentive package for those employees that we will contract for the summer program. In addition to PRC 16 (RTA), PCS will use ESSER II and part of ESSER III funds to support the summer learning program and the corresponding incentive package. The Summer Learning Program Plan was submitted to the State for approval on April 29, 2021. We are still awaiting the submission's final approval. The GEER grants and the remaining ESSER (I, II and III) funds will be prioritized to address the specific needs generated from the development of the PCS comprehensive needs assessment to respond to the COVID-19 pandemics impacts on our students/schools/district. These identified needs include the following: focused learning recovery/acceleration efforts, needed SEL supports, the procurement of tools, resources, and services needed to accurately assess and disaggregate the documented learning loss, address the educational & social emotional gaps with equity, and to track the progress towards learning recovery, as well as continued health & safety concerns. Anticipating that PCS will need to continue to prepare for possible reoccurrences of remote learning due to school closures/quarantine mandates, our plan will also include action steps to improve our future response to virtual instruction and teacher/student preparedness to successfully interact and engage in the virtual and blended learning environment. PCS will continue to strengthen

parent involvement and parent supports through the resources, personnel, and protocols outlined in the plan. PCS will monitor and evaluate the effectiveness of our plan's action steps and resources through regularly scheduled data collection & analysis. To keep our plan transparent, FERPA compliant analyses will be accessible by all stakeholders. Additionally, PCS is mindful of the employment of additional personnel in order to successfully implement our scope of work and will routinely monitor our ability to maintain these positions throughout the grants' timelines and beyond if needed. For PCS's detailed Needs Assessment please use the following hyperlink: https://drive.google.com/file/d/15cgXOqYuPEjJQWy1Y7PJ78e3UQBQHJ78/view?usp=sharing

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

PCS data analysis in the area of learning loss indicated a substantially elevated course/subject failure rate as well as a much higher percentage rate of K-5 students not at grade level standards mastery. Our middle school students went from a 2% course failure rate in 2020 to a 35% rate in 2021. Our high school went from a 6% course failure rate in 2020 to a 32% rate in 2021. K-5 percentages of NOT meeting grade level standards mastery in reading are ranging from 28%-59% and in math the range is 20% to 57%. This is significantly higher than years prior to COVID-19. Currently PCS still has approximately 25% of the student enrollment choosing to remain in virtual instruction (Every grade level is impacted with comparable percentages). The district's attendance rate dropped from a 99.02% in 2019-2020 to 86.64% this year. Additional support personnel is needed at all 4 schools to address learning loss and attendance. We will need support personnel in tutor roles, additional teacher assistants in grades that do not have any, and school counselors to assist in addressing the mounting learning and social -emotional needs of our students due to the Pandemic. We currently employ one counselor at the high school. Several data areas reflected negative social- emotional impacts due to COVID-19. In addition to hiring counselors, a Success Coordinator would be an excellent tool to monitor attendance, student apathy, and social-emotional struggles as it relates to attending high school. This person will make home visits, communicate with the students and their parents, provide mentoring support, and work closely with the teachers that recommend the students to provide in resources to support learning. A SEL/CHOICE assistant for the high school would work with students who are sent to in-school suspension due to disruptive behaviors -impeding their learning as well as others. This assistant will incorporate SEL activities and academic mentoring when students are disengaged due to disciplinary action. Data in the areas of Exceptional Children/MTSS reflect that PCS does not have an effective progress monitoring tool or a universal screening tool for both reading and math (K-12). After consult/review of several tools, PCS will purchase EDMENTUM ExactPath (TIER I) and CLASSWORKS (TIERS II & III). Additionally, as students are returning to in-person learning, the academic effect due to the pandemic is multiplying. COVID-19 learning loss will result in an increase in student referral/identification meetings, student services, and teacher support. The EC & General Ed student thrust into several learning environments with limited exposure. Now both parents and teachers are challenged with determining if their child/student is experiencing COVID-19 related learning loss or whether there might be a disability to be addressed. The PCS EC teams are responding with identified interventions and progress monitoring; however, the additional concerns are multiplying across the grade levels and our current school teams will need additional personnel to meet the increasing demands specifically in the following areas: 4 additional EC teachers (one for each school); an additional school psychologist; and 4 Learning Acceleration Coordinators (one at each school) to coordinate/facilitate/monitor the Learning Recovery/MTSS processes. Health/Safety needs are as follows: 1- PCS needs to add HVAC ionization units to the existing HVAC units. These can be installed in the air handlers. 2-Install

water refill stations at the middle/high school. 3-Sanitation fogger/mister for sanitation of gym equipment for the middle/high school. 4-A food warmer transfer cart for each school to assist in delivering hot meals to classrooms. Two additional maintenance positions need to be added to install, repair, and maintain HVAC systems, water dispensers, fogging equipment, and evening cleaning responsibilities in response to CDC regulations. Technology/Digital Teaching & Learning needs have increased due to the pandemic. 1-Additional IT staff (1 tech and 2 tech assistants) to meet the demands of keeping PCS digital resources updated/functioning in a timely manner and to provide equitable access to effective teaching and learning resources. 2-Targeted professional development to a) implement an in-house digital mentoring program and b) to integrate PCS digital tools/resources effectively in both blended and virtual learning environments. 3-Hardware purchases to allow equitable access for all (in/out of school). 4-Software purchases for online subscriptions for districtwide programs that assist in learning recovery/acceleration. Other Needs: PCS is a very small school district where many central office personnel have multiple responsibilities. Responding to COVID-19, preventing further impacts from the pandemic, reducing the learning loss evidenced, and accelerating the recovery efforts necessitates additional CO support. 1-(Temporary position July/Aug) CAO of Learning Recovery & Acceleration: coordinates and oversee the initial implementation of the PCS plan of work, ensures district compliance, designs the protocols for data collection, facilitates the hiring and training for summer program 2021 and the new school year. 2-Full time administrative assistant for the Personnel Department due to the anticipated increase in personnel (currently part time). For PCS's detailed data analysis, please use the following hyperlink: https://drive.google.com/file/d/1q8sTKP3wG-CRYySQPMvB43ArE3Tq-qkB/view?usp=sharing

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 800,084.96 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, underline{provide a detailed description} of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Pamlico will use the following high-quality assessments/resources platform to address learning loss among all students: - Edmentum: (MTSS/Tiers I and II) Edmentum's Exact Path will be used to address learning gaps in all students. The Exact Path program offers competency-based assessments and personalized learning in the subjects of math, reading, and language arts for grades K-12. Research confirms that Exact Path's adaptive diagnostic is a reliable and valid assessment for the purpose of diagnosing individual learning strengths and gaps within a K-12 progression of skills. -Diagnostic-driven: provides diagnosis to accurately determine the specific deficits and strengths in hundreds of skills in the domains of Counting and Cardinality, Fractions and Ratios, Algebra and Expressions, Functions, Geometry, Numbers and Operations, and Measurement, Data, and Statistics (for Math); Reading Foundations (K-4), Language and Vocabulary, Reading Literature, and Reading Informational Text (for Reading); and Language and Writing (for Language Arts). - Classworks: (Tiers II and III) Classworks will be used for progress monitoring all EC students, students in MTSS,

and students in extended learning programs during the summer months, afterschool programs, or during enrichment/remediation blocks. -Tracks student progress in standards/skills from Kindergarten through grade 10. -Provides instructional level and grade-level instruction in math and reading. -Has SEL supports built in that support CASEL competencies. -Goal Tracker incorporates SMART goals framework to help students set and monitor progress toward weekly behavioral and academic goals. -Also used in primary classrooms to set and monitor progress toward common class goals. -Its Universal Screener is an NCII approved tool used to identify at-risk students with near perfect validity and reliability results at all grades. -Integrates with other industry assessment leaders to ensure whatever mechanism you are using to identify at-risk students, Classworks can support student growth for all. This includes NWEA, STAR, iReady, ACT Aspire and many more. -Includes resources available to build parent awareness and the Student Dashboard provides students and parents with real-time insight into their own progress. Both programs will provide the necessary data to identify learning gaps and opportunities for acceleration. They both have parent support resources and can be accessed from anywhere. Use hyperlink for more information on Edmentum's Exact Path: https://drive.google.com/file/d/10V0ecKelJ4xkgg2-vqok2_CRiTvZZ6ka/view?usp=sharing Use Hyperlinks for more information on Classworks: https://drive.google.com/file/d/1pPxi687ppowc55tZppgyg2sQmJ94wjET/view?usp=sharing and https://drive.google.com/file/d/1uvIlC2uDCN6GPNHirntbTePRxCjnsdYe/view?usp=sharing

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

17 Tutors will be employed to address learning loss and to assist students with learning recovery/acceleration in the areas of reading, mathematics, and writing. Students to receive tutoring will be selected based on highest need and the groups served by these tutors will be flexible as needed to address identified needs. The 17 tutors will use the in-class support model and/or direct service model based on intensity of student needs. Data will be collected by each tutor on all students served and the data discussed at PLC/DATA team meetings. Progress monitoring will be required and recorded for each student served. Parents will be involved in the progress update meetings. At the K-5 level, a tutor will be assigned to a teacher's classroom that does not have a full time assistant. The Learning Acceleration Coordinator (LAC) at each school will coordinate, support, and monitor the tutors. K-3: 7 tutors 4-5: 7 tutors 6-8: 3 tutors

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Both the Edmentum and Classworks programs have family portals for engagement, resources, and student data reporting. The Learning Acceleration Coordinator (LAC) at each school will be working closely with students and their families during the MTSS process (conferencing, data analysis, progress monitoring, learning plans, and student supports). The technology facilitators and the Director of Digital Teaching and Learning will seek out opportunities to inform and support students/families with blended and distant learning through parent sessions, professional training, family resources, and FAQ tools. School Guidance Counselors will strengthen PCS Child Family Support Teams (CFST) located at each school. Currently the team consists of the principal, nurse, school social worker and teacher of student. This team provides family supports for at-risk students needed additional supports in the school as well as outside the school.

* (D) Tracking student attendance and improving student engagement in distance education;

The School Social Worker tracks attendance and coordinates meetings between the school and home when attendance becomes a concern. Currently we have only two social workers between four schools. Employing a school counselor at each school will provide

additional support in this area. Additionally, employing a SUCCESS coordinator and a SEL coach at the high school will provide another layer of support for truant students as well as disengaged students both at school and virtually. The SUCCESS coordinator will make home visits, conduct student/family conferences, as well has track student involvement in school "life" (attendance, discipline, academics, extra-curricular, post-secondary explorations, etc.). The SEL coach will work with students in In-school suspension and with students assigned to out of school suspension. -Hire a (9-12) SEL coach to supervise and support students in in-school/out-of-school suspension. -Hire a (9-12) SUCCESS coordinator to work with at-risks students and their families in the areas of truancy, disengagement from school, discipline, and grade retention.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Having a Learning Acceleration Coordinator (LAC) at each school will give both the school and the district a point of contact for getting "real time" learning recovery/acceleration data in a uniform manner. Tracking student academic progress and determining areas of strengths/weaknesses (in students, grade levels, content areas) in a variety of formats (subgroups, cohorts, targeted focus groups, etc.) will be one of the main responsibilities of the LAC. The data collected, disaggregated, and analyzed will drive decision making at PLCs, school improvement/leadership teams, and district level teams; as well as identify professional learning/development needs at the teacher, grade, content, and/or school level. The LAC's will meet as a team regularly to discuss trends, plan vertically, and to create and monitor the district's plan of work. The district's MTSS coordinator will facilitate these meetings and will include the Instructional, EC, and Digital Teaching & Learning Directors as warranted.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ◉ Yes ○ No	Employ an additional maintenance technician to clean school buildings and school facilities in the evenings to prevent the spread of COVID-19 and other viruses, contaminants, etc. Job responsibilities will also include maintenance and inspection of school facilities to reduce health hazards and access to supplies that combat transmission and expose to environmental health hazards.	Post immediately upon grant approval	Coordinate with our Maintenance Director to ensure schools are meeting sanitation requirements outlined by the CDC.	$ 59,601.24
IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ○ No	Employ an additional maintenance technician to install the ionization units in our current HVAC units, inspect and repair the HVAC units as needed. Job responsibilities will also include maintenance and inspection of school facilities to reduce health hazards as it relates to indoor air quality.	Post immediately upon grant approval	Coordinate with our Maintenance Director to ensure schools are meeting sanitation requirements outlined by the CDC.	$ 59,601.24

11/10/2021 3:21:33 PM

COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ○ Yes ⦿ No				$
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ⦿ Yes ○ No	Hire an EC teacher at each of the four schools: PCPS (K-3), FAA (4-5), PCMS (6-8), and PCHS (9-12). These EC teacher positions will serve EC students through an in-class support model and/or direct service model based on intensity of student needs. Hire a School Psychologist to absorb the additional testing and student referral meetings as a result of increased referrals due to learning loss. Hire an EC Job Coach for PCHS to assist in job placement (OCS), monitoring, and transportation to/from work site and school.	Post immediately/Hire by August 2021	The number of EC students who are on-track to successfully meet IEP goals will increase. The number of EC referrals will meet compliance guidelines and timelines. The number of EC-OCS students in appropriate job placement internships and successful completion of coursework will increase.	$ 445,626.83

IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$
TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$

11/10/2021 3:21:33 PM

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.	* ○ Yes ⊙ No				$
EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.	* ○ Yes ⊙ No				$

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⊙ Yes ○ No	-Hire a school counselor at each of the three schools that does not have counselor. The counselor will provide in class, small group, and direct services in SEL supports. The school counselor will be an integral team member of the Child, Family Support Team and the MTSS school level team. The school counselor will facilitate schoolwide SEL activities and develop and facilitate parent support sessions on requested topics determined by the stakeholders needs.	Post immediately/Hire by August 2021	Continue to monitor local benchmark and common predictive formative assessment data to address learning loss. Continue to monitor discipline and attendance data to decrease repeat occurrences with students. Continue to monitor attendance and grades for at-risk students. The number of students on track will increase.	$ 234,898.37

| SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care. | * ⦿ Yes ○ No | Hire a Summer Learning Program Coordinator (SLPC) for each of the four schools. The SLPC is responsible for the management and supervision of the 30 day program- to include assessments, tracking of student progress, appropriate instruction attendance, discipline, classroom walk-throughs, health/safety monitoring, fulfillment of program's purpose and expectations, and point of contact for the district, families, and assigned staff. | Post immediately/Hire prior to May 28, 2021 | Continue to monitor local benchmark and common predictive formative assessment data to address learning loss. The number of students who are on-track to master grade level standards will increase. | $ 48,442.50 |
| | * ⦿ Yes ○ No | Hire Technology Tech I to assist with maintenance, repair, replacements, & upgrades to student/teacher devices, classroom hardware, installations, and tech support for all school stakeholders- to include parents. The Tech will assist with connectivity/internet/wireless issues. Hire 2 tech assistants to service the 4 schools' students & teachers daily technology/digital needs Change the Personnel Director Admin Assistant from part-time to a full-time to accommodate for | Begin June 2021 | | $ 668,864.86 |

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.		the additional staff hired to successfully implement our Learning Recovery and Acceleration programs. Hire (2 months) CAO of Learning Recovery & Acceleration to coordinate/oversee the initial implementation of PCS's scope of work. CAO will create protocols, systems, expectations, checklists, and job descriptions to disseminate and will facilitate in-service training on the district's Learning Recovery Plan & GEER/ESSER Grants compliance expectations ($17,601.98). Indirect costs/$71,621.72 Unbudgeted/$1,528,624.66		100% of students and staff with a working computer. Classroom hardware and instructional software for both blended and remote learning environments are accessible by students and staff on and off campus. All additional personnel are hired and in place to address learning loss, reduce/prevent additional COVID-19 impacts, and to provide additional SEL and academic supports to at-risk students. PCS Learning Recovery and summer program is implemented with compliance/tracking protocols/guiding docs.	
				Total ESSER III Allotment	$ 1,517,035.04

Part E: Assurances

Check **all**assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

* ☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.	
* ☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.	
* ☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.	
* ☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).	
* ☑	Funds shall not be transferred into or out of this allotment category.	
* ☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, within 30 days of receiving the funds, make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. Before making the plan publicly available, the LEA must seek public comment on the plan. This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Pamlico County Schools (690) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

Pamlico County Schools (690) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Attention Needed	Date	User	Status (S)/Comment (C)	S/C
S	11/5/2021 2:48:58 PM	Tina Letchworth	Status changed to 'NCDPI American Rescue Plan Act-ESSER III Program Administrator Approved'.	S
☐	11/5/2021 2:48:50 PM	Tina Letchworth	**181 Amended** The amended carryover budget in the continuation application that has been submitted within BAAS and the amended FY 2022 – ARPA (American Rescue Plan Act) – ESSER III Application (PRC 181) within CCIP have been approved. This approval reflects programmatic allowability of strategies only. In the event of a fiscal audit, it is the responsibility of the district to provide documentation that demonstrates the strategy is for the prevention of, is in response to, or will reduce the spread of Coronavirus and is the most cost-effective way to address the problem. Any capital projects must adhere to all guidelines and requirements of capital projects.	C

Grant Details

Pender County Schools (710) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

PCS initiated the planning process through district leadership meetings with various divisions including Instruction, Operations, Technology, and Strategic planning. Meetings focused on COVID data tracking, academic benchmarking, attendance, virtual vs. in-person learning and results from a district data dive conducted in February. PCS has also closely collaborated with the local health department. Feedback was obtained from the district MTSS team and work Coastal Horizons (our local mental health provider), and Pender Parks and Rec. dept. Parents have provided feedback regarding district implementation of Plans A, B, and C as the district has moved between each of these plans. Instructional coaches and directors conducted planning sessions on possible implementation ideas including summer learning, additional interventionists, school based pilot programs and social-emotional learning supports. Information from principals was obtained throughout the year, specifically as schools have worked to implement site based intervention programs. To assess student learning gaps resulting from the disruption of educational services, PCS has been reviewing student outcomes throughout the school year and conducted a district level data analysis following the first semester. In February of 2021, PCS district and school instructional staff conducted a day-long review of academic, social-emotional, behavioral, and attendance data to determine areas of need for the remainder

of 2021 and the 2021-2022 school year. In response to the COVID-19 pandemic and in an attempt to prevent further spread of the virus PCS identified areas of concern for student learning gaps, facility improvements, and educational technology resulting from the disruption in educational services using the following data points: Academic: - Student attendance - approximately 30% of high school students have remained virtual, 20% of middle school students and 10% of elementary school students. Online attendance has been difficult to measure accurately, current estimate of overall chronic absenteeism is 18% of 6-12th grade students and 12% for elementary ages. Student attendance data shows 46,674 student instructional days lost due to COVID-19 with staff losing 6,570 days of instruction. - 1st Semester grade reports indicate 16% of PCS students failed one or more courses - 3rd-12th grade course failure rates have been 10% or higher compared to previous years. Reading and Math results in I-Ready for K-5 students have mirrored national trends with students underperforming in both areas with 50% of students 1 or more years behind in Reading and 61% 1 or more years behind in Math. - 36% of ESL students in elementary had at least 1 F during the first semester, 57% of middle school students and 45% of high school students - 30% of Pender County Schools' AIG population saw a drop of at least one letter grade in one or more core courses. - As of 02/2021, 600 high school students have not met appropriate progress toward graduation as measured by initial credits earned and credit recovery. - A review of K-8 "at-risk" prioritization indicates 1,000 K-8 students at risk. - MTSS referral data shows 23% of students being referred for EC evaluation - Reading and Math results in I-Ready for K-5 students indicate 50% of students 1 or more years behind in Reading and 61% 1 or more years behind in Math - Mental Health data indicated 15% of Say Something Tips were Suicide, 19% anxiety/depression and 28% bullying/cyberbullying. - PCS staff turnover since the return to in-person learning has resulted in the loss of all but 1 school psychologist Assess student learning loss resulting from the disruption in educational services, in addition to the data above PCS will utilize data compiled from 2020-2021 end of year grades, iReady reports, EOG and EOC scores and SEL data collected from Educator's Handbook and the "Say Something" App. PCS will also review data from Pre-/Post assessments administered during the 2021 Summer learning program. In response to the learning losses and the negative impacts on PCS students' social-emotional/mental health suffered as a result of COVID-19, PCS seeks to provide a significant increase in additional targeted academic interventions in K-8 Reading and Math as well as high school EOC courses and those courses required for graduation. In addition, the data indicates the need to provide additional social-emotional/mental health for all K-12 students. This increase interventions will come in the form of: Additional specialized interventionists in Reading and Math for K-8 to target students identified at-risk students Additional specialized ESL resource teachers to support the unique needs of those students and families. Additional course specific interventionists in 9-12 EOC courses and those required for graduation. Additional social workers to support families and school in regards to chronic absenteeism and finding mental health resources Additional training for MTSS personnel to plan, monitor, and support the increased number of "at-risk" students Provide instructional coaches to support classroom teachers to support planning and implementing lessons/units targeted based on the learning gaps created after 3 years of interrupted instruction. Hiring behavior specialists to help with in-school

behaviors related to documented increases in anxiety, depression, suicidal thoughts, and re-adjustments to school PCS will provide an alternative learning option for students in need of continuing virtual instruction, those needing intense SEL/mental health support, and/or those needing alternate initial credit academic pathways in order to graduate or recover credit. Hiring a virtual teaching/instructional coach to support teachers in implementing virtual/remote instruction and build capacity of K-12 teachers. Providing principals/school sites with funds to design site specific interventions targeted to school communities

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Academic analysis includes the following: Absenteeism/Attendance In February 2020 18% of all K-8 PCS students were chronically absent. In February 2021, 19% of all K- 8 PCS students were chronically absent (quarantine absences filtered out) Student absenteeism is a concern at all levels. The highest grade level with chronic absent is kindergarten with 26% chronically absent Student absenteeism is of particular concern at the MS and HS level (18% of all MS and HS students) compared to elementary student absenteeism (11.5%, though elementary is still high) High School Failure Rate 3 out of 4 high schools increased failure rate from Q1(19'20) to Q1 (20'21) for all grade levels Subgroup Achievement and Proficiency Gaps English Language Learners proficiency remains low and/or inconsistent SWD remains low and inconsistent, though student growth levels improved this year. Students with Disabilities consistently met growth on the 18-19 state assessments EL students continue to trend downward in achievement and did not meet growth in the majority of schools and subject areas in the 18-19 school year. As grade levels increase, EL students decrease proficiency in reading and math. EL Progress - less than 30% met expected yearly growth as measured by Access test at the high school level i-Ready Winter ELA Diagnostic - For our mid or above-grade-level students (green at BOY), the median percentage toward end-of-year goals was 18% toward the typical growth goal. (we are looking for 50% or higher at this point in the year). i-Ready Winter Math Diagnostic - For our mid or above-grade-level students (green at BOY), the median percentage toward end-of-year goals was 0% toward the typical growth goals. (we are looking for 50% or higher at this point in the year). K - 5 i-Ready Winter ELA - Vocabulary is our lowest domain i-Ready Math MOY - 61% are below grade level 6th Grade - 8th Grade Low math and reading proficiency Overall District decrease from Fall to Winter for Math Check-ins** 6th: -3.32% 7th: 0.95% 8th: -8.81% SEL/MH Data 22% of tips (suicide ideology, domestic violence, drug use, etc) 21.4% of tips Depression/Anxiety 51 Threat assessments were conducted by school Counselors Significant summer learning and grade level transitions support will be needed. Technology: All schools have experienced higher levels of loss and damage to online devices/equipment due to the shift to online learning and rapid expansion of 1:1 device use across Pender County

schools. Schools have shifted to increase their use of online software and completed professional development to better utilize new tools which will require on-going renewals and training. Operations: Per guidance received from the CDC, NCDHHS and local health department Pender County Schools has examined the current status of air handlers, air filters and HVAC equipment as they relate to suggested standards for cleaning the air circulating in schools. In addition, there is a need to dramatically increase the number of touchless water fountains, sinks, and door entry points.

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 3,500,000.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, provide a detailed description of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Pender County Schools will utilize the required State assessments for K-3 literacy, 3rd-8th grade EOG's, and all EOC's. PCS will continue to use I-ready to benchmark and progress monitor reading and math for students in K-5 while using the NC Check-in's for 6th -8th grade Reading, Math and Science. Pender County uses common formative assessments in 6th-12th grade for course specific benchmarking through SchoolNet. In order to support to continue and strengthen the use of these instruments, PCS seeks to expand the professional development and summer work session opportunities for the district and school MTSS teams. The implementation of required corrective action along with the higher number of students needing differentiated and targeted instruction will require these teams to grow in their capacity to help implement the problem solving process. In addition to supporting MTSS teams, PCS seeks to hire content and grade level coaches to help classroom teachers plan and put into action MTSS plans at all their tiers. Pender County will conduct quarterly district level data reviews to track attendance, social-emotional, academic, and behavioral data to closely monitor results and alter resources or personnel assignments to support specific schools, grade levels, or individual classrooms. PCS is also seeking to expand our after school programs to include more sites, before school programs and to increase alignment between our beyond school day programs and our during school

day instruction. This will include additional personnel, purchasing materials and technology for beyond school day programs that match or directly align with regular core instruction. These materials will include instructional supports, communication efforts and parent engagement. To further support the implementation of high quality assessments to measure student progress through MTSS, PCS will also utilize hiring bonuses to seek and retain highly qualified school psychologists, special education teachers, and other specialized staff.

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Pender County currently has 2 elementary coaches and 2 secondary coaches to support 18 campuses and nearly 10,000 students. The impacts of Hurricane Florence and now two consecutive years of COVID-19 on student learning requires not just annual yearly growth but multi-year growth. PCS seeks to use ESSER funding to strengthen the district and school level MTSS teams, hire additional grade level as well as subject specific coaches, and expand the number of ESL teachers. Additionally, to support both MTSS teams and our EC department the school system seeks to add additional school psychologists, behavioral therapists. and a digital technology specialist to support the best online/virtual instructional practices for any virtual learners. In addition to the above, PCS is seeking to hire four additional counselors and social workers to support the social-emotional learning of K-132 students utilizing the CASL standards and the 2nd step program., In addition, because of the learning gaps created PCS is expanding the availability of alternative learning pathways to support a virtual academy, additional slots for alternative academic interventions, and to implement for the first time a mental health therapeutic day treatment program. This will allow PCS to go from serving approximately 30 students to nearly 200 in either in-person or virtual formats while also serving diagnosed mental health needs of identified students. Partnerships have already been established for the virtual academy and the day treatment programs ready to implement these options starting in August of 2021. Pender County also seeks to expand our after school programming from solely serving elementary students but to include middle school while potentially adding a before school option and/or hiring after school staff to serve earlier in the day in order to better connect daytime instruction with after school programs and tutoring. Pender County also intends to expand access to PreK programs by offering additional PreK program slots and free to students on waitlists for Headstart and NCPreK positions.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Pender County is seeking to hire 4 additional school counselors which would allow PCS to meet national recommendations for counselor-student ratios. The purpose would be to provide greater regularity in social-emotional supports, increased communication between schools-families-community agencies, and allow for counselors to be standard members of school MTSS teams and actively participate in the development of Tier 2 and 3 intervention plans. PCS also seeks to hire an additional parent liaison with both translation and interpreting to increase our capacity to seek out, and respond to second language families. Current attendance and student academic data

indicates these students and families have suffered a greater learning loss during COVD than all other sub-groups. Pender County also is seeking to hire 6 additional social workers in order to provide each high school feeder pattern with 3 social workers who would be able to work across schools while serving entire family units. A part of the expansion of our alternative learning pathways Pender County Schools seeks to expand and provide far greater support to our virtual academy. Part of this includes formalizing the alternative learning pathways currently in use into a single Pender Innovative Learning Academy that would support alternative academic pathways and a virtual platform. PCS intends to hire a coordinator while also providing access to the increased number of counselors, social workers and parent liaison in order to ensure families have access to both academic supports but also mental health as well as social-emotional help. The coordinator's role would specifically include direct contact with virtual learners and their families ensuring regular monitoring of their attendance, work completion, assigning of additional tutoring support if needed, and scheduling time for in-person lab or tutoring work if/when appropriate. To further support the alternative learning pathway coordinator, PCS seeks to hire a digital learning instructional coach to ensure that teachers have the necessary resources and professional development to implement highly effective virtual lessons while also supporting parents in how best to establish important at-home online learning routines.

* (D) Tracking student attendance and improving student engagement in distance education;

Data collected during the first half of the 2020-2021 school year demonstrated that students who were in attendance and signed in for virtual classes/assignments, whether with PCS teachers or 3rd party vendors, performed at or above in-person students. The data showed a clear correlation between online attendance and successfully completing tasks. PCS is now a 1:1 district ensuring all students have access to a Chromebook. PCS now has over 300 mobile hotspots to increase the availability of internet access and all 18 campuses now also serve as regional hotspots. PCS has established a live data dashboard that tracks attendance by pulling data from PowerSchool throughout the instructional day. PCS seeks to hire a digital learning/instructional specialist in order to provide professional development, coaching, and modeling to design and deliver effective virtual classes and modules. PCS is seeking to user ESSER 2 funds to purchase CANVAS and begin training classroom teachers on creating online modules/classes aligned to current PCS courses. The digital learning coach would support this work in order to help teachers create engaging, active, and relevant online learning experiences which will result in greater percentages of daily online attendance. PCS will monitor virtual attendance using the existing attendance data dashboard.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

Pender County Schools has conducted twice yearly data dives reviewing academic, grades, attendance, behavioral, and social emotional outcomes across all 18 campuses for the past several years. The team consists of school and district staff. Reports are compiled and shared with district leadership as well as with each school. PCS intends to increase this to quarterly reviews. The most recent reviews were conducted immediately prior to the March closure

and then again in February of 2021. These data dives along with the next scheduled summer data dive will provide PCS with pre-pandemic and early pandemic baselines. PCS will continue to use reading and math benchmark data for K-5, common formative assessments and NC Check-in data for 6th-8th grade Reading, Math, and Science as well as common formative assessments for EOC and non-EOC courses in high school plus WorkKeys, ACT, as well as early and regular graduation cohorts data. PCS uses Educator Handbook to track office referrals along with PowerSchool reporting data for behavioral data. PCS is now actively using the "SaySomething" application plus counselor referrals to monitor the social emotional status of students.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

		work session opportunities for the district and school MTSS teams. To support MTSS teams, PCS seeks to hire content and grade level coaches to help classroom teachers plan and put into action MTSS plans at all their tiers. PCS is also expanding the availability of alternative learning pathways to support a virtual academy, additional slots for alternative academic interventions, and to implement for the first time a mental health therapeutic day treatment program. To		MTSS Tier 1, 2 and 3 rates of student identification. Reduction of school office referral rates, reduced reports of depression/anxiety through counselor referral and/or "say something" app reports. Increased in-person and/or virtual learning attendance compared to 2020-2021, Increased EOG/EOC and I-ready proficiency and growth rates compared to 2020-2021 final or end of year assessments.	

		program. To further support the effective implementation of MTSS plans PCS seeks to hire additional school psychologists and instructional coaches PCS also seeks to hire a family liaison for outreach to at-risk groups in support of additional social worker			
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ◉ Yes ○ No	COVID-19 has impacted PCS's ability to hire, train, and and monitor drivers and mechanics. Quarantine and isolation requirements have created a constant need to adjust routes, change drivers, hire new drivers, improve cleaning protocols, and	November 2021 - September 2024		$ 173,559.69

		protocols, and contact the community. School personnel are attempting to handle these responses but additional personnel are needed to develop and implement procedure that would allow greater proactive preparation and coordinate responses across the school system.		Reduction in lost instructional time due to late arriving buses. Greater lead time in communicating with students/families when bus routes will be delayed or changed. Increased training for staff in cleaning protocols for buses to limit COVID-19 transmission related to school transportation. Creation, communication, and implementation of established procedures and protocols when dealing with staff reductions and route changes.	

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ◉ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ◉ No				$
	* ○ Yes ◉ No				$

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.					
	* ⦿ Yes ○ No	As part of Pender County School's response to the COVID-19 pandemic closures, the school system is greatly expanding the use of alternative learning pathways including offering a virtual	July 1, 2021- Sept. 2024		$ 1,500,000.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		a virtual academy and increasing the option for online courses. In order to support the design of online curriculum and to improve online teaching practices the school system will seek to hire a Digital Technology specialist. This position will focus on the instructional design, online lesson planning, online assessments, and online student engagement. The position will support teachers by serving as a coach, model and designing professional development in collaboration with principals		Creation of online courses and modules, attendance in virtual academies, growth and proficiency rates on EOG/EOC's, NC Check-in, I-ready assessments. Course completions, credits earned, and student graders reported each semester,	

		and district leaders.			
MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ◯ No	Pender County has documented data indicating increased rates of depression, anxiety and suicidal thoughts across grade spans. PCS seeks to hire 6 additional social workers, 4 school counselors, 2 school psychologists and 2 behavioral therapists to provide schools a significant increase in their ability to identify students in need early on, provide families and students therapy and/or identify resources available in the community. Pender County is also seeking	July 1, 2021 - Sept. 2024	PCS will measure the impact through school attendance, office referral rates, MTSS actions, EC referral rates, referrals to counselors, referrals to the "Say Something" application, enrollment in day treatment program and return rates to base school.	$ 2,230,059.00

		to start a therapeutic day treatment program to merge academic supports with diagnosed mental health needs for the most in-need students.			
SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ⦿ Yes ◯ No		June - July 2022	Student enrollment in Summer 2022 programming. Student proficiency and growth rates measured through I-ready, pre/post EOG/EOC assessments, course credits recovered, and promotion/retention rates.	$ 2,000,000.00

		Per the existing law, Pender County Schools is planning to duplicate the same level of intensity and opportunity for summer learning in the summer of 2022. Pender County students are now in their third straight year of significant losses of in-person learning following 30+ days after Hurricane Florence, March 2020-June 2020, and throughout the 2020-2021 school year.			
	* ◉ Yes ○ No	Pender County utilized ESSER I funds during the 2020-2021 school year to provide individual schools the	August 2021 - June 2024		$ 3,299,887.58

11/10/2021 3:29:00 PM

| OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act. | | schools the ability to design unique, site based program to respond to COVID-19 impacts specific to their campuses. Pilot programs provided each school a method for working with MTSS teams and school leadership teams to respond to their particular attendance, academic, and behavioral outcomes. Pender County Schools intends on now allowing schools to create and establish similar pilot programs over a longer term throughout the three year life of this grant. Programs designs/budgets | | Measures will be unique to each school but minimally will include: Proficiency and growth rates for Reading and Math as measured by I-ready, EOG/EOC, and NC Check-ins Attendance Credits earned (high school) Office referral rates Count of students being served directly by pilot programs MTSS referrals and results Number of vacancies and rate of staff retention | |

		will be submitted to district leaders for review and approval prior to funds being released. School must demonstrate intended outcomes and measures. PCS also seeks to expand existing after school programs to include middle schools as well as before school programming. Staffing concerns have created significant gaps in maintaining the presence of highly qualified teachers across grade levels and content areas notably in math, science, and EC. In order to maintain the operation of and ~~continuity of~~			

		continuity of services in these areas PCS seeks to use funds to provide bonuses to staff in these areas who stay for the life of the grant cycle.			
			Total ESSER III Allotment	$	13,154,789.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	✔	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	✔	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	✔	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	✔	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	✔	Funds shall not be transferred into or out of this allotment category.

* ☑ **LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)**
An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

 There are no new applicants.

Pender County Schools (710) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.

Grant Details

Wayne County Public Schools (960) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - FPMS-ARPA ESSER III PRC 181

DIRECTIONS: *To ensure that the organization's plan for the use of the American Rescue Plan funds (ESSER III) funds (PRC 181) is data-based and is reflective of needs that have emerged as a result of COVID-19, please provide answers to each section below:*

Part A: Needs Assessment-PSU Data

* In the space below provide data the PSU will use to determine its most important educational needs as a result of the disruption in educational services and subsequent shift to remote learning due to COVID-19 and return to in-person instruction.

Include 1) A description of the processes used, and groups involved in the development of the Needs Assessment and Plan specifically for ESSER III funds including, but not limited to, school leaders, classroom educators, and other stakeholders. 2) How the PSU intends to assess and address student learning loss resulting from the disruption in educational services.

1): The federal programs leadership team reviewed the ESSER-I needs assessment and reviewed the guidance and allowable expenses currently available for ESSER-II and ESSER III to craft the needs assessment used for ESSER-IIand ESSER III. The Federal Programs Department shared a draft of the needs with the superintendent's cabinet for suggested edits and revisions. The final needs assessment was disseminated to multiple relevant groups, including principals, assistant principals, district administrative staff, exceptional children's department staff, teacher leaders, district parent advisory council, school social workers, school nurses, school counselors, Wayne Community College, Goldsboro Pediatrics, Wayne County Public Library, the Teaching and Learning Community Council (parents, teachers, administrators, school board members, and students), Wayne Action Group for Economic Solvency (WAGES), and the Partnership for Children. The needs assessment garnered one hundred eleven (111) responses from this diverse group of stakeholders. The Executive Director of Federal Programs used graphs reflecting the data to drive the discussion around planning. Collaboration around the graphed data occurred with members of the school board, district leadership, and the superintendent. Graphic representations of the needs assessment were shared electronically with remaining stakeholder groups for collaborative input. Emerging priorities from each ESSER-II and

ESSER III allowable focus area can be reviewed in the graphs below. Copy and paste the link into your web browser to view the charts.: https://docs.google.com/document/d/1oqcIsFoW0oiTivC-75-ezvnYs6R7u0PizKZ0m_TMu-4/edit?usp=sharing 2): At the close of the first semester, the Teaching and Learning Department compiled the data from the Middle of Year in Math and ELA based on the Universal Screener (STAR) and the rate of passing/failing grades from PowerSchool. We did a comparison study using those two metrics from the same point in time in the previous school year (note: the point in time used for the prior school year would have been prior to COVID closure of schools). The team wanted to determine exactly where the learning and mastery gaps were extremely evident and where learning and student performance was holding steady despite the impacts of COVID. The committee lead PLC discussions around this data with principals, assistant principals, and teacher leaders. The PLC discussions with school leadership were captured in a google form. School leadership mirrored these PLC discussions within their schools to capture teacher input on the district-wide data drilling down to the data specific to their school. District data and school leadership discussion notes were presented to the superintendent, the teaching and learning board committee, and the school board. Copy and paste the link below into your web browser to view district universal screener data: https://docs.google.com/document/d/1qA61DtPO8MJ8ZOk_YNBhUpOO-g-WOlo6Z8pnn06hvy8/edit?usp=sharing

Part B: Data Analysis

* In the space below, provide an analysis of the data submitted in Part A that will support allowable uses of ESSER III funds (PRC 181) as provided by the American Rescue Plan Act selected in Part C-D.

Data analysis supports the continued implementation of systemic resources implemented in ESSER-I. Data analysis reflected the following areas of focus for ESSER-II: 1. Extend systemic ELA instructional resources into secondary grades. The data shows the K-8 HMH resources purchased with ESSER-I have had a positive impact on the growth of K-8 students consistently engaging in instruction, and teachers are able to effectively collaborate and plan within district-wide PLCs to target and address student deficiencies in both face to face and virtual environments, This was not as prominent at the secondary level. 2. Implement systemic Math instructional resources K-12. The district did not purchase a systemic curriculum for Math with ESSER-I. The data indicated lower student performance and growth in Math as compared to ELA. K-12 math curriculum in addition to supplemental math materials are needed to address this need. 3. Provide instructional resources for our most vulnerable groups including EL, Migrant, Immigrant, and EC. ESSER-1 provided systemic resources to regular education teachers. Teachers serving subgroups of students needing additional support due to limited English proficiency, significant interruptions to formal education, and learning disabilities are still using outdated curricula while attempting to help provide a bridge for their students to access the core curriculum in either face to face or virtual environments. These teachers have to have curriculum materials that effectively supplement core curriculum in order to effectively serve and impact the performance of these identified

subgroups. 4. Provide instructional resources that will facilitate integrated learning in core subject areas, arts, world languages, dual languages, and social-emotional learning. COVID-19 precluded the opportunity for robust instruction in these areas. It was determined that strategies and resources should be purchased and used to embed these subjects and positively impact student engagement and achievement. 5. Provide a curriculum that will address the needs of Tier III students. A K-8 core ELA curriculum was put in place with ESSER-I with data to indicate that it is positively impacting student performance. Students exhibiting concerns with accessing core curriculum prior to COVID (low performing students in traditionally low performing subgroups) are significantly further behind and will require intensive intervention strategies to keep pace with typically performing peers. 6. Complete the provision of adequate hardware and software initiated with ESSER-I as well as provide additional support at school sites for the seamless expansion of technology in the classrooms and at home. The integration of technology is critical to student success in both the face-to-face and virtual environment, therefore our efforts in this area must be maintained and increased. 7. Maintain the staffing level of the district to ensure adequate class size ratios for the facilitation of student learning. Classroom environments that are conducive to student learning are imperative to student success, the availability of lower student-to-teacher ratios and small group instruction are results-based interventions. 8.Initiate actions to address clean airflow. A thorough review of school facilities and the needs assessment indicates that repair and replacement of equipment and units are necessary so that recommendations in this area are fulfilled (HVAC, chillers and boilers, windows, roof and wall damages that disturb airflow, removal and replacement of items deemed hazardous, etc). 9. Initiate repairs to buildings that reduce exposure to environmental health hazards. A thorough review of school facilities and the needs assessment indicates that repair and replacement of roofs, walls, carpets, and removal of asbestos is necessary to mitigate the spread of Covid 19. 10.Continue to implement and expand actions to support the social-emotional and health needs of students and staff through mental health services, additional social workers, and additional nurses. ESSER-I allowed us to provide contracted nurses, an additional social worker, and contracted mental health support. A master contact log of services and the needs assessment indicates that these services are still needed through ESSER-II 11. Provide additional support to school sites in identifying Tier III students through the integrated academic and behavior support (IABS) services. COVID 19 has slowed the process of identifying students who may require EC service. In an effort to remedy this, ESSER-II will be used to provide additional school psychologists for evaluation and support of identified mental health needs. 12. Provide PD for instructional resources initiated in ESSER-I and extended in ESSER-II as well as PD in instructional technology and mitigation of COVID and other viruses. School leadership and teacher feedback in district PLCs and student performance data indicates the positive impact of PD associated with the implementation of new instructional resources. Sustained PD is critical for the proposed curriculum updates and technology integration. PD supporting the implementation of new rules and regulations around COVID aided in the school's ability to instruct students while also keeping them safe 13. Continue and expand training and support to parents and families around academic support, response to trauma, technology, social-emotional learning, early intervention, and mitigation of the virus. Active

partnerships with parents have been essential in addressing learning loss, lacking SEL skills, and alignment of school and home practices. We will extend and deepen these partnerships. District survey data indicates that parents need both training and support. 14. Provide intervention and opportunities for extended learning during the summer, after-school, and during the regular school year to mitigate learning loss. 15. Provide meal distribution

Part C: Address Learning Loss

American Rescue Plan Act requires a minimum of 20% of the PSU's allocation amount to be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs.

$ 12,230,890.00 * 20% (minimum) of PSU Allocation to be used to address learning loss through September 30, 2024.

In the required spaces below, underline{provide a detailed description} of how the PSU will be addressing learning loss among students, including low-income students, children with disabilities, English Learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency.

* (A) Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction;

Wayne County Public Schools will use STAR Renaissance, our Universal Screener, and NC Check-Ins data to monitor student growth and adjust instruction to ensure continuous improvement. This data will gauge the students' progress towards meeting the standards on summative assessments. Using the Universal Screener' s critical information about student comprehension throughout the learning process, educators will provide students with timely and action-oriented feedback. Also, this data will be used to revise instruction so that every student has an opportunity to learn and re-learn. The students who perform on the outer edges of the normal curve-the struggling and the gifted-particularly benefit from formative assessment. These students have learning needs that are often unique and specific, and teachers will use it to address them. Additionally, using consistent formative assessment to address learning gaps enhanced by COVID-19 ensures that teachers can provide timely remediation. The district will use high-quality formative assessment to accomplish the following goals: Define learning goals   Increase rigor   Improve academic achievement   Enhance student motivation   Increase student engagement   Provide focused target feedback to students and teachers   Provide personalized learning opportunities   Promote data-informed instruction IMPLEMENTATION PROCEDURES Conduct Multiple Formative Assessments (Daily) Administer and Analyze Summative Assessments (Weekly) Student grades on individual assignments, essays, and exams are used to determine individual level of understanding, determine classroom performance, identify student

misconceptions, curriculum misalignment with standards, instructional deficits and/or classroom environment obstacles.Summative assessments inform selection of content (what students need to learn), student product (demonstrations of what students know, understand and are able to do), process (how students learn - deliberate practice, classroom discourse, small group, whole group, etc.) and environment (structure of learning such as flexible grouping, established expectations and routines, additional support services). Reexamine the content, product, process and environment if less than 80% of students fail to demonstrate mastery of the standards. Revising or restructuring is necessary to ensure learning goals and benchmarks are met. WCPS summative assessments include but are not limited to SchoolNet assessments, extended passages, Actively Learn selection assessments, HMH, SAVVAS that are created and/or selected by district teams. Administer and Analyze Individual Assessments (BOY, Q1, Q2, Q3) Purpose: Individual assessments reveal each student's strengths and needs. Individual assessments confirm or refute standardized assessment results and identify individual student strengths and needs. Individual assessments provide a more clear understanding of students' personalities and abilities, and possibly learning style. WCPS Individual Assessments: K-3 RtA, Renaissance Star Reading and Math, Achieve 3000, K-2 Math Progress Report Card, CCRG English and Math, NC DPI Check-ins

* (B) implementing evidence-based activities to meet the comprehensive needs of students;

Key Program Components Wayne County Public Schools' students will be provided academic reinforcement in the areas of reading, math, and science. Evidenced based practices will embedded in direct instruction during the school day. In addition small group instruction will be a key component during the school day, after school, and also in summer programs. Working with approximately 5-10 students at a time, certified classroom teachers will provide core academic area instruction. Research reflects that small groups and/or small teacher to student ratios are highly effective (effect size .47). In fact, the most effective group size is not greater than five students (Lou, et al. 1996). The following practices will be used to align and support classroom instruction in small groups. These practices are in accordance with John Hattie's effect sizes for influences on student learning. Hattie's meta analysis of multiple strategies used in instruction suggests that a hinge point of .40 effect size allows us to determine the strategies that work best in educating students (Hattie, 2011). 1.   Guided Reading (effect size .47) Guided reading is an instructional approach that involves a teacher working with a small group of students who demonstrate similar reading behaviors and can read similar levels of texts. It offers challenges and opportunities for problem-solving, but it is easy enough for students to read with some fluency. 2.   Guided Math (effect size .47) Guided Math is a structure for teaching whereby a teacher supports each child's development of mathematical proficiency at increasing levels of difficulty within the context of a small group. In Guided Math groups, students engage in standards-based, rigorous, and engaging meaning-making learning opportunities where the teacher focuses on a particular concept, strategy, or skill. Teachers facilitate this learning through hands-on, scaffolded conversations, and intensive questioning. 3. Computer-Assisted Instruction (effect size .44) Computer-Assisted Instruction (CAI) is an interactive instructional

technique whereby a computer is used to present the instructional material and monitor the learning that takes place. CAI uses a combination of text, graphics, sound, and video in enhancing the learning process. Programs that will be utilized are: Classworks and Imagine Learning. 4. Problem Solving (effect size .68) Problem Solving facilitates learning about different subjects simultaneously. This is achieved by guiding students to identify through research, a real-world problem (local to global), developing its solution using evidence to support the claim, and presenting the solution through a multimedia approach based in a set of 21st-century tools. 5. Inquiry-Based Science (effect size .40) Inquiry-Based Science adopts an investigative approach to teaching and learning where students are provided with opportunities to investigate a problem, search for possible solutions, make observations, ask questions, test out ideas, think creatively, and use their intuition. 6. Social and Emotional Learning (effect size .39) Social and Emotional Learning (SEL), is the process through which children and adults understand and manage emotions, set and achieve positive goals, feel and show empathy for others, establish and maintain positive relationships, and make responsible decisions. 7. Parent Support/Relationships (effect size .50) Fostering positive partnerships with families helps families to feel valued, recognized, and supported in their role in children's learning and development. Parents and teachers working together can support children in connecting their home and school experiences, which enables deep learning. Strategies and resources to facilitate learning partnerships will be shared in seminars and round table discussions. Instructional resources, coaching and support will be provided to PLCs during the summer and during the school year. Teachers or staff who create the material to present and use in schools will be compensation for this additional responsibility. Teachers who attend and complete the modules and implement with fidelity will also recieve additional responsibility stipends. An additional Curriculum Specialist will assist with carrying out this plan.

* (C) Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment;

Wayne County Public Schools will continue to supply multiple layers of support to parents in the area of distance learning. This support will consist of live and recorded webinars and training on various topics, such as guidance on tracking students' assignments and classroom progress, Social Emotional Learning (SEL), and Cyber Safety. The district's goals in this area are: 1. Encourage simple strategies that parents can implement at home. 2. Hold virtual, recorded, and face to face training sessions. 3. Offer small-group information sessions 4. Give tips on social and emotional well-being. 5. Be prepared to respond to different needs. Many students and parents will experience anxiety subsequent to the Pandemic. It is the district's intention to contract Clinical Social Workers to assist will meeting mental health challenges that impact both the student and the parents. This clinicians will be available to families both during the school day and the evening. In addition, for the duration of the ESSER funds the district intends to contract 2 additional School Social Workers and 5 School Nurses. All of these staff members will interface with parents daily, and thereby assure student growth and progress.

* (D) Tracking student attendance and improving student engagement in distance education;

School Social Workers will assist teachers and administrators with making phone contact and home visits to parents of chronically absent students. Daily and weekly attendance reports from Powerschool will be reviewed to create a "Watch List" so that intervention will be ongoing and systemic.

* (E) Tracking student academic progress with evaluating and comparing to pre-pandemic grades and progress to identify students that experienced learning loss.

The Teaching and Learning Department has compiled pre-pandemic Universal Screener data and passing grade percentages, to compare with Middle of the Year and End of Year Data this school year. This comparison will be repeated during the next 2 years, in order to observe trends. This data will assist administrators at the district level to select resources, craft and provide training to teachers, coach teachers, and advise principals in the area of instructional leadership. At the school level, teachers will use this data to accelerate the learning for those students identified as at risk. Again, this data will inform the selection of resources and revise practice. Principals will use the data to determine scheduling, grouping, and support teacher and parents in the educational process.

Part D: Other Allowable Uses

In the table that follows, please **indicate which other allowable uses** from the law you intend to support with ESSER III funds. For each use you intend to support, provide a brief description **(1000 characters or less)** of how you will use the funds, timeline for usage of funds, impact measures and the total amount from ESSER III funds for each allowable use area. Note that you are not required to spend funds in each of these areas.

Allowable Use	ESSER III Formula Funds will be used to support this Allowable Use area	Briefly describe ESSER III Formula Funds will be used to support the Allowable Use area (10,000 characters or less and use of bullet points is acceptable)	Timeline (100 characters)	Impact Measures (500 characters)	Total Amount for Each Allowable Use Area

FACILITY REPAIRS/IMPROVEMENTS TO MINIMIZE VIRUS TRANSMISSION: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.	* ⦿ Yes ◯ No	Air quality testing at 15 schools to ensure the quality of air to mitigate the transmission of Covid and other harmful viruses Cafe partition Walls at 4 schools need to be repairing to effectively separate the cafeteria from other large meeting spaces to reduce the spread of Covid or other harmful viruses transmitted in large groups Asbestos Removal at 15 schools to improve air quality to help mitigate the transmission of Covid and other harmful viruses	July,2021- August 2024	Inspection Reports Decrease in absenteeism for staff and students	$ 6,182,510.00
		The following repairs and	July 2021- August,2024		$ 6,462,119.00

IMPROVE AIR QUALITY: Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including mechanical and non-mechanical heating, ventilation, and air conditioning systems; filtering, purifications and other air cleaning; fans, control systems, and window and door repair and replacement.	* ◉ Yes ○ No	replacements are necessary for the facilitation of improving air quality in an effort to mitigate the transmission of Covid 19 and other hazardous viruses: Boilers in 5 schools Dielectric unions in 2 schools HVAC water pipes in 2 schools Sun Units in 1 school Chillers in 2 schools Control Systems in 30 schools Exterior windows and doors in 6 schools Coil Cleaning in 33 schools AC units in 10 schools Mechanical Systems in 2 schools Carpet in 20 schools with material(tile or squares) that can be disinfected more readily and		Inspection Reports Decrease in absenteeism for staff and students	

11/10/2021 3:30:52 PM

		more readily and more often.				
COORDINATION OF PREPAREDNESS AND RESPONSE: Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and public health departments and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to Coronavirus.	* ◉ Yes ○ No	Contract with Wayne-UNC Health to provide 5 school nurses, to supplement the 20 school nurses and 1 nursing supervisor serving 32 schools, pre-K, and district personnel. This staff will sustain services responsive to Covid 19.	July 2023-2024	Decrease in absenteeism for staff and students	$ 269,110.00
ADDRESSING UNIQUE NEEDS OF SPECIAL POPULATIONS: Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	* ◉ Yes ○ No		August 2021-December 2024		$ 616,464.00

		In order to support the needs of special populations that have been created by Covid the following will be done: Hire additional school psychologists, retain the services of outside pyschologists, therapists, to assist with the placement and service of students with IEPs. Summer Learning opportunities for CDSP students		Increased use of technology in daily instruction and independent practice measured by Walk Through data and NCEES data. Increase proficiency scores on the Universal Screener. Increase growth performance on the Universal Screener. Increase proficiency and growth on EOC and EOG, Increase percentage of passing grades.	
IMPROVING PREPAREDNESS AND RESPONSE: Developing and implementing procedures and systems to improve preparedness and response efforts.	* ○ Yes ◉ No				$ [____]

TRAINING TO MINIMIZE VIRUS TRANSMISSION: Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	* ○ Yes ⦿ No				$
SUPPLIES TO SANITIZE AND CLEAN: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	* ○ Yes ⦿ No				$
	* ○ Yes ⦿ No				$

LONG-TERM CLOSURE ACTIVITIES: Planning for and coordinating during long-term closures, including for how to provide meals to eligible students, how to provide technology for online learning to all students, how to provide guidance for carrying out requirements under the Individuals with Disabilities Education Act and how to ensure other educational services can continue to be provided consistent with all Federal, State, and local requirements.					
	* ⦿ Yes ◯ No		August 2021,- June, 2024		$ 1,700,000.00

EDUCATION TECHNOLOGY: Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and students with disabilities, which may include assistive technology or adaptive equipment.		In order to sustain and expand instructional resources and practices that address learning in blending settings due to Covid 19, the following will be done: Continue to provide Google Chrome devices for students to use at home and school use. Replace dated technology in learning labs. Replace technology used for instruction (teachers and students) .		Increased use of technology in daily instruction and independent practice measured by Walk Through data and NCEES data. Increase proficiency scores on the Universal Screener. Increase growth performance on the Universal Screener. Increase proficiency and growth on EOC and EOG, Increase percentage of passing grades.

MENTAL HEALTH SERVICES: Providing mental health services and supports.	* ⦿ Yes ○ No	Contract with clinical social workers to provide on-site individual and group therapy to students in high needs schools. This staff will sustain services responsive to Covid 19.	August 2021,- June, 2024	Decrease of OSS and ISS referrals Increase in attendance Improvement in school culture as evidenced through teacher, student, and parent surveys.	$ 300,000.00
SUMMER LEARNING: Planning and implementing activities related to summer learning and supplemental afterschool programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	* ⦿ Yes ○ No		June 2022- August 2024		$ 1,000,000.00

| | | In an effort to combat learning loss experienced as a result of Covid 19, K-12 students will be invited to participate in The WCPS Summer Scholars program. Participants will be selected based on formative and summative data (Universal Screener, End of Course Data, Attendance, Report Card Data and EOG DATA). Salaries for classroom teachers, instructional assistants, cafeteria staff, bus drivers, tutors, and parent liasions will be paid with ESSER II and ESSER III. | | Increased use of technology in daily instruction and independent practice measured by Walk Through data and NCEES data. Increase proficiency scores on the Universal Screener. Increase growth performance on the Universal Screener. Increase proficiency and growth on EOC and EOG, Increase percentage of passing grades. | |

OTHER ESSA ELIGIBLE ACTIVITIES: Other activities that are necessary to maintain the operation of and continuity of services in local educational agencies and continuing to employ existing staff of the local educational agency. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act; the Individuals with Disabilities Education Act; the Adult Education and Family Literacy Act; the Carl D. Perkins Career and Technical Education Act of 2006; or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act.	* ⦿ Yes ○ No	Maintain teacher positions to ensure robust instruction at a smaller teacher to student ratio which is necessary to combat learning loss created by Covid 19.The 2020 number of teachers was 1179 teachers and 34 APs. We will maintain staffing at this level by funding 42 teachers and 3 assistant principals. Retention and Recruitment bonuses will be awarded to teachers who sign or resign with the district. Indirect Costs Unbudgeted reserve	August 2021,-June, 2024	Increased use of technology in daily instruction and independent practice measured by Walk Through data and NCEES data. Increase proficiency scores on the Universal Screener. Increase growth performance on the Universal Screener. Increase proficiency and growth on EOC and EOG, Increase percentage of passing grades.	$ 8,505,618.00
				Total ESSER III Allotment	$ 25,035,821.00

Part E: Assurances

Check **all** assurances as required to receive ESSER III funds (PRC 181) as provided by the American Rescue Plan Act. I assure that the PSU will:

*	☑	Create a budget of reasonable, necessary, and allowable expenditures of ESSER III funds that corresponds to the PSU plan identified in Parts A through D.
*	☑	At least 20% of PSU allocation shall be used to address learning loss through evidence-based interventions that respond to students' academic, social, and emotional needs as required with ESSER III funds outlined in the American Rescue Plan Act.
*	☑	Maintain documentation related to the use of ESSER III funds (PRC 181) as part of the American Rescue Plan Act that may be subject to audit or review.
*	☑	Comply with the requirements of section 442 (20 U.S.C. 1232e) and section 427 (20 U.S.C. 1228a) of the General Education Provisions Act (GEPA).
*	☑	Funds shall not be transferred into or out of this allotment category.
*	☑	**LEA Safe Return to In-Person Instruction Plan (New requirement with ESSER III-American Rescue Plan Act-ARPA)** An LEA that receives ARPA ESSER funds must, <u>within 30 days of receiving the funds,</u> make publicly available on its website a plan for the safe return to in-person instruction and continuity of services. <u>Before making the plan publicly available, the LEA must seek public comment on the plan.</u> This plan will have to be submitted with a live link to the PSU website after the 30 day comment period from each PSU to be in compliance with ARPA.

Wayne County Public Schools (960) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - New Applicant Summary

There are no new applicants.

Wayne County Public Schools (960) Regular Local School District - FY 2022 - FPMS-ARPA ESSER III PRC 181 - Rev 1 - Grant Award Notification (GAN)

Upon final approval of your Federal Grant applications and budgets within the Comprehensive Continuous Improvement Plan (CCIP) Grants Management System, your Grant Award Notification will populate for the programs that have received approval. The amounts listed are estimated amounts; the final award amount will be made available at NCDPI School Allotment Section. The estimated award amount can be found within the allotments section of your organization's CCIP application and within the local budgeting system. Once the Grant Award Notification is populated within CCIP, the memorandum will provide the authority to request, receive, and expend these funds. Your organization will receive notification from the DPI Allotment System when the funds approved through populated Grant Award Notification are available for drawdown.

If you have any questions, please contact Alex Charles, Section Chief for ESSER West Programs at Alex.Charles@dpi.nc.gov or (984) 236-2796 or Melissa Eddy, Section Chief for ESSER East Programs at Melissa.Eddy@dpi.nc.gov or (984) 236-2789.
