Tips – To Prepare

• Read and Understand the RFP Guidance before starting.
• Download and review all Required and Optional Documents so that you have time to obtain and complete the required commitments and supports.
• Read the scoring rubric to be used during the Level I grant review process very carefully so you understand what the reviewers will be looking for and if your program model is a good fit for this RFP.
Tips – To Develop Your Application

• Clearly identify the academic, attendance, or behavioral needs of targeted students.
• Be clear about your “end in mind” for targeted students in terms of desired outcomes to be measured (how you will use data to monitor student progress on key outcomes).
• Identify partner schools and develop a partnership agreement with school principals that describes the roles/responsibilities of the non-profit and the schools in implementing the program model for the students needing additional academic support.
Tips – To Finalize Your Application

• Make sure that you have completed and uploaded all information required of this application.
• Make sure your budget is aligned with the program and number of students projected to be served.
• Before submitting your application, have a colleague or partner school principal review your draft application against the rubric and give you feedback about where it may not be clear.
