## **Overview of Master of School Administration Program**

The Campbell University Master of School Administration licensure programs was “re-visioned” in 2010. The program is based upon the North Carolina Standards for School Executives: Principals. Several modifications have been implemented at the request of the Master of School Administration Advisory Committee. These include the substitution of a three-semester hour course in the place of three internship modules of one semester-hour each, the institution of crucial conversations in two courses, a field trip to an exemplary school and guest speakers in Saturday Seminars and in the Effective Leadership Practices course.

The premise of the program is that candidates learn best by “doing” leadership tasks. These task include, but are not limited to, seven electronic evidences and the achievement of at least proficient in each of the seven standards in the School Executives: Principals rubric as well as proficiency in each of the twenty-one competencies of School Executives: Principals.

The seven evidences include:

- a case study addressing both student academic achievement and student development, a human resource handbook,
- a fifteen-minute culture video addressing all aspects of a school’s environment,
- a management manual,
- a school improvement action plan,
- a staff and community tool kit, and
- an ethics project for Campbell University only.

The candidates must address leadership actions through real-world scenarios and case studies; video-tape crucial conversations in which they resolve conflict and address dilemmas on video for feedback from their peers; produce budgets and schedules; use data to improve learning, teaching and school facilities; create staff recruitment and retention documents and address other non-personnel issues and other support structures.

Admissions criteria are: a minimum of three years of successful teaching or related experience; a GPA of 3.0 or higher in the last 60 semester hours of undergraduate or graduate credit; an official satisfactory score on the GRE for those who have no previous Master’s degree; three letters of recommendation, one of which must be from the school principal or superintendent;

a writing sample done through a survey of experiences based upon the standards and competencies; and an interview with the M.S.A. program coordinator.

The total program requirements include nine, three-semester-hours credit courses and seven, one-semester-hour credit internship modules with total program requirements at thirty-four (34) Semester Hours. Courses are offered in all four academic sessions (fall, spring and two summer sessions). Except for the Saturday Seminars that meet from 9:00 a.m. – noon eight times per year and Summer Session II when two classes are offered back-to-back starting at 8:00 a.m. – 3:30 p.m., all other classes are offered in the late afternoon and evening on the main Campbell University campus or on-line.

Candidates for the Master's degree must successfully complete these 34 semester hours of course work including the seven, one-semester hour internship modules; complete an electronic evidence portfolio consisting of six evidences required by the State of North Carolina with one module/electronic evidence related to ETHICS which is assessed only by Campbell University; attend eight Saturday seminars, presenting at one of these; and successfully pass an applications-based, four-hour written comprehensive examination. The School Leaders Licensure Assessment is no longer a licensure requirement for candidates but remains an option for those who wish to consider placement in other states.

The Internship seminars are held for three hours once per month from September through April on Saturday mornings on the Buie's Creek campus. Practicing and aspiring school administrators are also invited to attend these seminars and add much to the depth of discussions. For these seminars, candidates read a series of books, enjoy several guest speakers and hold lively discussions about the North Carolina Standards for School Executives: Principals, and how the Standards apply to the real world of school leadership. These are the same Standards on which they will be evaluated as school leaders. Guest speakers are invited to share their experiences and are always well-received by the candidates.

The candidate's electronic evidences portfolio documents the attainment of at least a PROFICIENT level of competence in each of the descriptors in the North Carolina Standards for School Executives: Principals and attainment of proficiency in each of twenty-one competencies. These evidences also demonstrate that candidates have met the objectives of the Campbell University M.S.A. Program which are to develop PROFICIENCY in:

- 
- Problem solving,
  - Leadership,
  - Collaborative and data-driven decision-making,
  - Management and supervision,
  - School law and finance,
  - The education of students with special needs including poverty, behavior, English Language Learners and Exceptional Children --- both gifted and struggling learners,
  - Student growth and development,
  - Curriculum and instructional improvement and
  - School culture and safety.

### **Special Features of the Masters of School Administration Program**

The revised Campbell University M.S.A. stresses field experiences in every course, offer internship modules which address specific behaviors, and engage candidates in standards-based, real-world application of skills and competencies. The programs is noted for the personal attention given to candidates.

Candidates and professors maintain close contact by visits, phone or email, and seminars and workshops. The program coordinator communicates regularly with the entire group of candidates, shares phone and email professional information and provides a supportive and positive dialogue with candidates.

All candidates rate each course and give feedback to each professor. They also rate the program components as part of their exit requirements. These data are used to provide program improvements and changes to coursework or those who teach in the program.

The Campbell M.S.A. program is also unique in its efforts to maintain relationships with program completers and other public school administrators. These working professionals are given opportunities to network, attend seminars and workshops and engage in collaborative dialogue regarding educational practice and program quality. All program completers are invited to join the M.S.A. Advisory Council. Venues are provided at these meetings for participants to interact, share concerns and gain assistance from their colleagues and former professors.

---

M.S.A. Advisory Council meetings also provide opportunities for graduates and program completers to share valuable input regarding the quality of the degree program and to help envision future directions for the programs. These meetings were crucial to the re-visioning and continuous improvement of the Campbell M.S.A. program. Many program modifications have occurred based upon the Advisory Council's feedback.

A committee of program completers meets to examine portfolios and to triangulate the assessment of those portfolios. The seven assessment team members each becomes an expert in ONE evidence and assess all portfolios for that evidence. Their rating is compared to the Coordinator rating for validity and reliability of assessments.

Assessments done by program completers indicate that candidates report high satisfaction rates with their experiences at Campbell University. Many candidates are employed as Assistant Principals prior to completing their degrees and many of our graduates are working in administrative positions upon and following their graduation from Campbell.
