North Carolina offers numerous feedback opportunities in accessible modalities to assess need and inform the distribution of funding across the state. Predominantly, the state State Systemic Improvement Plan (SSIP) external team meets quarterly to discuss progress toward general supervision goals and the funding needs to meet those goals. Multiple data sources at the local, regional, and state levels are used in interactive dashboards to elucidate priorities and identify activities that can be scaled across the state. In addition, feedback opportunities occur regularly through the year, which include webinars, quarterly Regional Director/Coordinator meetings, monthly meetings of the Director's Advisory Council, the Exceptional Children Statewide Stakeholder Collaborative, content focused stakeholder groups, and the Council on Educational Services for Exceptional Children. Finally, the website is leveraged for public comment to gain LEA input.

B. Significant Disproportionality

In accordance with 34 CFR § 300.647(b)(7), each State must report all risk ratio thresholds, minimum cell sizes, minimum n-sizes, standards for measuring reasonable progress if the State uses the "reasonable progress" flexibility in 34 CFR § 300.647(d)(2), and the rationales for each, to the Department. Under § 300.647(b)(7), rationales for minimum cell sizes that exceed 10 and minimum n-sizes that exceed 30 must include a detailed explanation of why the numbers chosen are reasonable and how they ensure that the State is appropriately analyzing and identifying LEAs with significant disproportionality based on race and ethnicity, in the identification, placement, or discipline of children with disabilities. Additionally, pursuant to the authority established in IDEA section 618(a)(3), each applicant must also provide the number of years of data it uses in making annual determinations of significant disproportionality. Each applicant must provide this information by completing and submitting the Significant Disproportionality Reporting Form.

All States completed and submitted the **Significant Disproportionality Reporting** Form with their FFY 2020 IDEA Part B application. After the initial submission of the Form, a State will only be required to submit the Form with any future annual IDEA Part B State applications if the State modifies its risk ratio thresholds, minimum cell sizes, minimum n-sizes, standards for measuring reasonable progress, and rationales for each, or the number of years of data used in making annual determinations of significant disproportionality.

If your State has revised its Significant Disproportionality procedures or has any questions regarding Section V.B. of the grant application, please contact your OSEP State Lead before the Application due date.
