

1

00:00:17.304 --> 00:00:24.085

Good morning friends, we're gonna even about 2 more minutes for everybody to get logged in and we will jump right into it.

2

00:00:26.640 --> 00:00:36.270

Just as a reminder as you're logging and make sure that your video is off and that you are muting yourself.

3

00:00:36.270 --> 00:00:45.270

With the larger numbers of people, it is more difficult to have enough bandwidth to support everybody so that they're hearing communication clearly.

4

00:00:45.270 --> 00:00:48.810

So just make sure you're muting and turning off your.

5

00:01:17.784 --> 00:01:27.805

Good morning. Everyone this is Elizabeth millon. Welcome to special grant training as Adam just said we appreciate you keeping your mikes muted.

6

00:01:27.805 --> 00:01:42.174

I will be monitoring the chat for any questions as we go through each of the 6 special grants. We will Paul's at the end of each for any questions related specifically to that grant.

7

00:01:42.924 --> 00:01:56.724

We do ask that you not ask specific student specific questions today, as we don't want to breach any confidentiality. If you do have student specific questions. Our email addresses will be available.

8

00:01:56.724 --> 00:01:59.155

On the last slide, if you don't already have those.

9

00:02:02.579 --> 00:02:06.000

I think we can get started.

10

00:02:07.709 --> 00:02:22.314

And just a quick note about your questions. Please don't direct them directly to me, because I'm sharing my screen. I cannot see the chat. So, if you would just direct

them either to Elizabeth or to everyone, that will be the easiest way for us to be able to.

11

00:02:23.069 --> 00:02:26.099

Access those after each grant.

12

00:02:29.699 --> 00:02:44.370

We will make the PowerPoint available and 1 of our 3 recordings available after today's session, uh, they will be posted on the resource tab of the grant system.

13

00:02:44.370 --> 00:02:54.509

So, with that said, we will go ahead and get started, um, just with a quick overview for special grants. Um.

14

00:02:55.830 --> 00:03:05.250

If you are new to the system, you will go in when you log and you will see all of the grants listed when they go live, which is Tuesday.

15

00:03:05.250 --> 00:03:18.180

Of next week, when you land on that section page of the grant, you will see all of the items that are required for that grant. Just like you do in the grant.

16

00:03:23.634 --> 00:03:34.585

Accessing and logging in this is the link for if you do not have that you will be using your ID to log in.

17

00:03:34.585 --> 00:03:39.235

Sometimes we can with the power school log in,

18

00:03:39.264 --> 00:03:42.025

and this is not your 10 digit power school number,

19

00:03:42.025 --> 00:03:49.585

but your NC ID that will get you into the system and 1 caution any time you were working in the system,

20

00:03:49.585 --> 00:03:52.014

do not use your browser button.

21

00:03:52.289 --> 00:04:00.419

The system is set up that, as you navigate within the navigation tabs of the system, it will say you have done.

22

00:04:00.419 --> 00:04:09.930

If you use that back, but you're going to lose everything that you just typed because it does not save it. If you use the browser button.

23

00:04:11.034 --> 00:04:11.664

If you do,

24

00:04:11.664 --> 00:04:18.595

not have your ID reach out to your local user access administrator those are the only ones who can change,

25

00:04:18.595 --> 00:04:19.915

or add you within your,

26

00:04:20.964 --> 00:04:25.105

if you're not sure who that is email us and we will tell you,

27

00:04:25.105 --> 00:04:27.535

who that person is identified in the system.

28

00:04:30.899 --> 00:04:43.559

Common to all of the special grants there is an instructions page for completing the history log that will capture when things have moved in the system. Uh, the contacts.

29

00:04:43.559 --> 00:04:49.439

Information district information, and then grant specific information.

30

00:04:49.439 --> 00:05:04.139

As well, you will be changing the status for each of your grants from not started to dress started before you can enter any information. And that will not be opened until.

31

00:05:12.598 --> 00:05:17.548

Elizabeth, we may have lost your volume.

32

00:05:17.548 --> 00:05:20.879

Can you hear me now? There we go yes. Okay.

33

00:05:20.879 --> 00:05:31.798

All right, thank you. Okay, so, 1st, steps to all grants is changing that to draft started. That's the only way you will be able to get in and do anything in the grant.

34

00:05:31.798 --> 00:05:37.949

And we are getting feedback if you'll please chat to make sure you're Mike's are muted, we would appreciate it.

35

00:05:39.449 --> 00:05:44.038

Adam next slide.

36

00:05:44.038 --> 00:05:50.338

All right, we will jump right into our 1st grant, which is risk pool.

37

00:05:51.869 --> 00:06:06.149

Risk fool funds are for high needs children with disabilities h3 to 21, and they're not intended to replace any existing state, federal or local, exceptional children's funds.

38

00:06:06.149 --> 00:06:13.709

Risk pull along with all of the applications that we're going to talk about today, have a deadline of May 15th.

39

00:06:15.028 --> 00:06:23.968

With specific to risk pool, this grant cannot be submitted until after the student's 1st day of attendants for the current school year.

40

00:06:23.968 --> 00:06:30.088

With riskful priority is given to students needing nursing.

41

00:06:30.088 --> 00:06:33.119

Personal care and assistive technology.

42

00:06:36.478 --> 00:06:42.418

We've taken screenshots from each of the grants so that you can see how it's going

to look in.

43

00:06:42.418 --> 00:06:46.259

In the grant system, instead of putting bulleted items in.

44

00:06:46.259 --> 00:06:52.439

The presentation today, all of these items are found under the tabs within the grant.

45

00:06:53.879 --> 00:06:58.019

riskful funds are.

46

00:06:58.019 --> 00:07:09.478

The average the ATM, the average daily membership needs to be 3 times the average amount that is Pre calculated within the system. So that's 32,000 dollars.

47

00:07:10.254 --> 00:07:18.803

And some change, uh, that the student must cost that, but that's Pre calculated. Now, uh, prior to this system, it was not Pre calculated.

48

00:07:18.803 --> 00:07:25.644

So you had to do some fun math but the system calculates that for us, the student must be an exceptional children student.

49

00:07:25.978 --> 00:07:33.088

To have to qualify and this grant is risk a risk rubric based grant.

50

00:07:33.088 --> 00:07:36.928

Some of the student eligibility criteria is at the student.

51

00:07:36.928 --> 00:07:40.678

Cannot have been funded for 5 years.

52

00:07:40.678 --> 00:07:49.858

Prior to this current year, so this is their 5th year, then they could get funded this year, but after 5 years, there are no longer eligible for.

53

00:07:49.858 --> 00:08:04.673

Support through the risk full grant there is a rubric score of 8 points which Pre

calculates within the system. If you do not need that 8 point criteria, the system will not allow you to be able to submit this grant.

54

00:08:05.038 --> 00:08:11.639

1 of the other items to highlight on this is that a student would not be eligible.

55

00:08:11.639 --> 00:08:20.038

If they have received any of any other special grants, so you could not combine a student on developmental day.

56

00:08:20.038 --> 00:08:27.988

As well, as risk 1 of the ones to really pay attention here is that if the student is on the PRC.

57

00:08:27.988 --> 00:08:36.599

029 grant, they would not be eligible to be able to apply for the risk full Grant on top of that other.

58

00:08:39.208 --> 00:08:43.229

Like I said, the maximum years of funding is 5.

59

00:08:43.229 --> 00:08:53.038

Um, for that, if you have a question, if your student has been funded a certain number of years, you're like, Ooh, I feel like they are not gonna be eligible this year cause the grant will.

60

00:08:53.038 --> 00:09:03.389

The grant system will allow you to submit the grant. You can absolutely reach out to Elizabeth and I, and we have tracking information for the students that have been approved.

61

00:09:04.678 --> 00:09:08.458

Notification of approval is found within the system.

62

00:09:11.668 --> 00:09:18.928

Sorry, I was, I'm trying to pull up the, um, the grant monitoring system so I can show you guys live I just logged me out.

63

00:09:18.928 --> 00:09:28.739

Right. Um, it is found within the system I'm going to show you here. So this is a

test page so don't be worried that ash county is.

64

00:09:28.739 --> 00:09:32.908

Uh, if cash counties on this is just our quality assurance page.

65

00:09:32.908 --> 00:09:38.938

To be able to get to your applications, you're going to go to funding applications in this test site.

66

00:09:39.958 --> 00:09:44.068

Sorry, this one's Alexander county. I apologize. I said ash county.

67

00:09:48.568 --> 00:09:56.908

Hold on just 1 moment I need to be in each county. I am so sorry it's not open for all of their the grants just give me 1 moment.

68

00:10:21.538 --> 00:10:26.278

Okay, now we're back I apologize friends.

69

00:10:28.469 --> 00:10:32.938

Screen right. Okay. So.

70

00:10:32.938 --> 00:10:42.568

Back to that funding applications, we can see that the risk full grant is available for application because this is our test site.

71

00:10:46.408 --> 00:10:53.519

And that new application summary that I was just speaking about so that approval or denial is located, where my cursor is currently.

72

00:10:53.519 --> 00:11:03.653

If I had applied for a grant for a certain student, I would be able to click that tab and see if the student was approved or denied notification letters are no longer being sent out.

73

00:11:03.774 --> 00:11:08.874

They were not sent out last year and they will not be sent out this year of approval or denial of the grant.

74

00:11:09.178 --> 00:11:17.849

This is where you will find approval or denial for most of your grants we'll highlight. If it's not found to the same way.

75

00:11:26.663 --> 00:11:33.803

All of the grants, like Elizabeth said, have an instructions tab that is found on your sections page.

76

00:11:33.984 --> 00:11:42.083

We're not going to take your time and read the instructions for each 1 of the grants because they are intuitive and they are step by step within the system.

77

00:11:42.389 --> 00:11:46.139

Below the instructions tab is how.

78

00:11:46.139 --> 00:11:52.318

A grant approval will look within the system, so you'll be able to see the budgeted amount.

79

00:11:52.318 --> 00:12:01.078

Um, that was provided, and then the approved funding program, whether it is approved denied, or if it is still under review.

80

00:12:06.749 --> 00:12:11.158

It will take time to answer any of your risk for questions.

81

00:12:11.158 --> 00:12:20.219

I have not seen any questions in the chat. We'll give you a 2nd, if there's something that has come to mind while Adam has been speaking.

82

00:12:20.219 --> 00:12:24.989

To ask those before we move on to special state reserve.

83

00:12:38.183 --> 00:12:44.333

Question if a student was funded by special state reserve last year, are they eligible for risk pool this year?

84

00:12:44.813 --> 00:12:53.543

If a student it was with your with risk pool if the student was enrolled in your district last year, they are eligible to for application for risk pool.

85

00:12:54.594 --> 00:13:09.443

The fact that they received funding under special state reserve does not automatically guarantee they're going to receive funding under risk pull it is regret based and eligibility based the 1 thing that we do

86

00:13:09.443 --> 00:13:10.193

look for,

87

00:13:10.884 --> 00:13:11.874

in all of these,

88

00:13:11.874 --> 00:13:12.354

when Adam,

89

00:13:12.354 --> 00:13:17.364

and I are going through and approving we're verifying the information by reviewing the,

90

00:13:18.264 --> 00:13:22.374

and the prior written notices to see that the need for the.

91

00:13:22.889 --> 00:13:36.839

Whatever you are asking for that, the need of that child are well documented either between the and your prior written notices. So, yes, if a student had risk pool.

92

00:13:36.839 --> 00:13:49.524

Had special state, reserve, funding last year you you can't apply, but it is not a guarantee. Um, if they that they will get risk pull. None of these are a guarantee for the presentation. Yes.

93

00:13:49.524 --> 00:13:57.264

We're gonna make the presentation available after today. This is our last day of training we will post it on the, um.

94

00:13:58.019 --> 00:14:05.999

Website the home page under resources, we will also post 1 of our recordings there as well.

95

00:14:46.229 --> 00:14:52.558

Then they, um, and we get that information from school business.

96

00:14:52.558 --> 00:14:56.698

Okay, next question, if a student had restful funding of the previous.

97

00:14:56.698 --> 00:15:06.629

within the last five years are they eligible in the new elliot yes you can apply uh if they have had funding in it so it's

98

00:15:06.629 --> 00:15:18.568

Because they're need to you, but if they're new and your this year, it's their 1st year with them you may want to consider special state reserve, which we're getting ready to talk about.

99

00:15:21.418 --> 00:15:25.288

As well, as sorry, I was going to point out the.

100

00:15:25.288 --> 00:15:28.469

Staffing types and.

101

00:15:28.469 --> 00:15:35.308

The amounts that are already funded within that. So if I am.

102

00:15:35.308 --> 00:15:39.688

Click there you are so I'm.

103

00:15:41.399 --> 00:15:45.479

Sorry, I'm requesting personnel here.

104

00:15:46.649 --> 00:15:52.168

That creates a drop down box. These salaries are preset based on.

105

00:15:52.168 --> 00:16:05.369

calculations from all of the other risk for grants that we have gotten received so that's the average amount for those those are pre set in there and it and as you can see the eligibility points are based on that

106

00:16:17.903 --> 00:16:18.533

Yes,

107

00:16:18.563 --> 00:16:25.793

we will be posting the PowerPoint of the presentation and the recording on the website,

108

00:16:26.754 --> 00:16:27.053

uh,

109

00:16:27.083 --> 00:16:28.163

after we finish,

110

00:16:28.224 --> 00:16:28.494

uh,

111

00:16:28.524 --> 00:16:34.553

today's training and it'll take us probably a day to get it uploaded but it will be under the resources.

112

00:16:35.009 --> 00:16:45.688

Uh, on the grant website. Okay. Um, I'm not seeing any other riskful questions, so we will move on to special state reserve.

113

00:16:47.094 --> 00:17:02.033

Special state reserve is also a grant that is available for students with disability ages 3 to 21 again, not intended to replace any state federal or local AC funding. It is supplemental funding. Special start reserve is available.

114

00:17:02.423 --> 00:17:06.413

Only in the student's initial year of enrollment. In the year.

115

00:17:07.499 --> 00:17:13.828

So, their 1st, year of enrollment with you, this is really for those students.

116

00:17:13.828 --> 00:17:16.949

That you did not know were coming.

117

00:17:43.284 --> 00:17:55.193

The last day to submit an application is May 15th, and that is a requirement of

finance so that it can get processed in the funding can be distributed prior to the end of the fiscal year.

118

00:17:55.193 --> 00:18:05.243

But any time throughout the year, the 90 days is so if that child is new to North Carolina, it's ties in with that. You have 90 days for that initial placement.

119

00:18:05.243 --> 00:18:16.554

And again, we're looking on the for the data to support the request and the needs of the student, either through the or through your prior written notices.

120

00:18:17.459 --> 00:18:26.189

Adam, okay, so the basis of approval again, it is that new student.

121

00:18:26.189 --> 00:18:34.078

With you that new student that is new to your district for special state reserve and.

122

00:18:35.153 --> 00:18:50.064

The, so that is the 1, the other way that a student could be apply for special state reserve is if there has been a change in condition for that child, they were with you previous year.

123

00:18:50.394 --> 00:18:52.253

But something has happened.

124

00:18:52.673 --> 00:18:53.544

An example,

125

00:18:53.544 --> 00:18:58.463

is that a student who was not previously identified as an AC student,

126

00:18:58.463 --> 00:19:13.223

or a student who could have been identified with a learning disability or something else but because of an accident or something now have a traumatic brain injury or more significant needs that would be a change of condition.

127

00:19:13.884 --> 00:19:18.144

The other would be a child that was already an AC child, but.

128

00:19:18.449 --> 00:19:30.298

Has a medical condition that has deteriorated to the point that they need a personal care assistant with them. That would be another reason for applying for a change of condition.

129

00:19:30.298 --> 00:19:38.338

What is not a change of condition is a student that is transitioning from Pre K to K from.

130

00:19:38.338 --> 00:19:53.243

Elementary to middle school from middle school to high school student was with you, you were aware of what those needs were, you were aware of what the needs were going to be moving forward so you could have prepared for that. So that is not a considered a change of condition.

131

00:19:53.243 --> 00:19:54.894

It actually has to be a physical.

132

00:19:55.588 --> 00:20:02.608

Of condition with the student or an increase in their service delivery. A change in their service delivery is not.

133

00:20:02.608 --> 00:20:06.388

A change of condition, right?

134

00:20:06.388 --> 00:20:17.128

Adam, again, if you are applying for special state reserve, the student cannot be on any of the other.

135

00:20:18.959 --> 00:20:29.009

Special grants, you have to decide what is the most important, uh, for the student, the approval notifications will be through the grant system.

136

00:20:29.009 --> 00:20:41.999

Um, just a sample of the stamp down the difference between special state reserve and, um.

137

00:20:43.558 --> 00:20:47.489

Risk pool is that special state reserve does not have that rubric.

138

00:20:47.489 --> 00:20:54.148

So, there is not a rubric requirement for special state reserve is needs based for that student.

139

00:20:56.398 --> 00:21:09.233

Right. Um, before we go on, let me go back to the questions a question, the salaries are too low if you have to use a contracted provider. We were funded for an interpreter last year, and our cost was over 60,000 for the year.

140

00:21:09.233 --> 00:21:16.223

Uh, that's a huge difference in what the grant provided the salaries were sat either through. Um.

141

00:21:17.098 --> 00:21:20.818

Average salaries based on.

142

00:21:20.818 --> 00:21:33.449

From a human resource, or the average amounts that had been requested previous years. We understand that. It may not cover the entire cost, but it will help. You cover some of your cost um.

143

00:21:33.743 --> 00:21:34.644

Next question what,

144

00:21:34.644 --> 00:21:36.624

if we have a student who has been in our district,

145

00:21:36.624 --> 00:21:38.814

but always homebound at the start of the year,

146

00:21:38.814 --> 00:21:43.913

the parent decided to send the student appropriate person instruction and requires a nurse,

147

00:21:43.973 --> 00:21:48.683

that would be restful instead of special status cause you've had the kid a,

148

00:21:48.713 --> 00:21:52.013

you don't necessarily you didn't necessarily know they were gonna come to school,

149

00:21:52.044 --> 00:21:56.243

but that would definitely be a risk full application instead of a special state reserve.

150

00:22:33.298 --> 00:22:45.538

Should have applied for risk we should only do the evaluation. The application wants a next question. We have a student who previously had an EIT what's homebound for the last 2 years.

151

00:22:45.538 --> 00:22:55.229

During which the Labs, we are having to complete a evaluation, but the student definitely has high needs. She has never been a student in our school.

152

00:22:55.229 --> 00:23:00.358

Prior to this year, so she is new to your if.

153

00:23:00.358 --> 00:23:09.239

Any student that is new to your does make the beginning criteria for special state reserve. If they are new to your.

154

00:23:11.308 --> 00:23:19.048

I mean, I'm sorry that was home schooled and not homebound. Yes. So that 1 would qualify under special state reserve because they are new to, you.

155

00:23:21.778 --> 00:23:25.798

Any other questions of special state reserve, or.

156

00:23:25.798 --> 00:23:29.753

Restful no,

157

00:23:29.813 --> 00:23:29.963

the,

158

00:23:29.963 --> 00:23:32.874

I would have to be in place before,

159

00:23:32.874 --> 00:23:41.243

because we verify the need by reviewing the and what is on the and in your prior

written notice,

160

00:23:41.243 --> 00:23:43.223

which is why with special state reserve.

161

00:23:43.223 --> 00:23:49.074

You have that 90 days to get that evaluation done before you have to complete the application.

162

00:23:49.378 --> 00:23:54.239

But we do need a for any of these.

163

00:24:17.574 --> 00:24:29.213

1 of the other items have know with that 90 days, that doesn't change the amount of money that you're or the amount of funds that you're going to be provided. So, providing that nurse during that time, the district will have to up front, the money.

164

00:24:29.213 --> 00:24:35.604

But the, when the funding is allocated, it doesn't change. There's no prorated amount based on that.

165

00:24:42.148 --> 00:24:48.298

Alright, any other questions special state reserve or risk pull before Adam moves on to developmental day.

166

00:24:52.378 --> 00:25:02.878

Right, well, if you do have questions, we can always come back and address them. We typically are moving a little bit quicker through this presentation. So we have time at the end as well to be able to address any of your questions.

167

00:25:02.878 --> 00:25:07.798

So, we will jump directly into developmental day center funds.

168

00:25:11.219 --> 00:25:25.648

Ddc grant funds are made through this, uh, made available through the state board of education to assist with providing special education and related services to eligible children with disabilities or placed in the.

169

00:25:25.648 --> 00:25:28.979

License or contracted.

170

00:25:30.689 --> 00:25:38.729

Just like all of our other grants, these are through the system and, uh, they are.

171

00:25:38.729 --> 00:25:46.078

Can be in house inside the, or they can be community community based developmental day centers.

172

00:25:46.078 --> 00:25:56.429

The community based developmental day center should not be completing the application in that is the responsibility of the, or.

173

00:25:59.759 --> 00:26:09.808

Eligibility criteria for development day center has not changed. It is the same as it has been in past years.

174

00:26:11.368 --> 00:26:14.608

For children age 3 to 5.

175

00:26:14.608 --> 00:26:22.439

They must be placed by an team in a DBC setting as their least restrictive environment. And that is 1 of the items that we.

176

00:26:22.439 --> 00:26:37.374

Elizabeth, and I check to make sure that they are placed in an environment that matches center. We will often find that in the least restrictive environment, justification statement or in the prior written notice.

177

00:26:37.648 --> 00:26:48.298

Along with having being placed in, by and team in that setting, they have 3 qualifications areas where they could qualify.

178

00:26:48.298 --> 00:26:52.769

They have at least 3 hours each day of especially design instruction.

179

00:26:52.769 --> 00:27:00.538

Or, or at least 2 hours of day, especially to that instruction with 1 weekly related service.

180

00:27:00.538 --> 00:27:06.868

Or, at least 1 hour, especially design instruction with at least 2 weekly related services.

181

00:27:09.778 --> 00:27:18.449

For children age, 6 to 21, they must be placed entities, setting as their least restrictive environment.

182

00:27:18.449 --> 00:27:23.519

And have a current that document special education services for 5 days a week.

183

00:27:23.519 --> 00:27:28.409

With a minimum of 4 hours per day, especially design instruction.

184

00:27:30.088 --> 00:27:37.858

So, it's a little more intense, but it is, um, the, the requirement and eligibility criteria for that.

185

00:27:44.699 --> 00:27:54.838

For the submission of this application, each developmental day center must have a contract with the if it is a outside of the.

186

00:27:54.838 --> 00:28:02.219

Contracted that contract is uploaded in the system and you'll be prompted to upload that.

187

00:28:02.219 --> 00:28:06.269

Um, for that, so each 1 needs its own individual contract.

188

00:28:07.588 --> 00:28:17.969

And these must be signed, we often get contracts that are unsigned and we have to deny the grant based on the contract not being valid.

189

00:28:20.608 --> 00:28:28.499

It is also the responsibility of the to make sure that they're operating license is uploaded into the.

190

00:28:28.499 --> 00:28:33.028

Um, system as well, not just your contracted.

191

00:28:33.028 --> 00:28:41.548

Services, but also your local must have a license that has a.

192

00:28:41.548 --> 00:28:50.159

Uh, developmental day center approval on their license. These are all things that we look for when we are going through.

193

00:28:53.009 --> 00:28:58.318

This is the most frequently changed rant within our system.

194

00:28:58.318 --> 00:29:03.298

And changes typically happen monthly because students enroll.

195

00:29:03.298 --> 00:29:07.169

Or unenroll typically in the preschool setting.

196

00:29:07.169 --> 00:29:10.798

When those students are transitioning from age 3 to 4.

197

00:29:10.798 --> 00:29:14.608

Or if they are just coming in, at age 3, those.

198

00:29:15.689 --> 00:29:25.169

Roster should be updated as currently as possible so that we are able to make sure that the fund allotments go through.

199

00:29:25.169 --> 00:29:36.179

Correctly, and I will show you an example of that and just a moment.

200

00:29:37.979 --> 00:29:44.878

If your Ellie contracts with more than 1 center, there must be an application for each center.

201

00:29:44.878 --> 00:29:54.568

If your Ellie only has centres within the or so you may have 5 classrooms spread across your district.

202

00:29:54.568 --> 00:30:00.118

You would only complete 1 application and upload multiple.

203

00:30:00.118 --> 00:30:04.019

Licences for that site so all of your students.

204

00:30:04.019 --> 00:30:09.598

A, across your district could be entered into 1 application.

205

00:30:11.064 --> 00:30:15.054

This is not a new process for this year,

206

00:30:15.233 --> 00:30:16.943

but it is something that is going to help,

207

00:30:17.034 --> 00:30:17.304

uh,

208

00:30:17.334 --> 00:30:30.084

in review as well as on your side help the and approval and the way that we're able to review and approve that is we look at every that is submitted or every applications that has submitted.

209

00:30:31.828 --> 00:30:36.028

And we are looking at that, we're able to line up.

210

00:30:36.028 --> 00:30:41.368

The school name with the license that is provided within the system.

211

00:30:46.078 --> 00:30:57.838

Ddc approvals and revision. Your total for funding is continuous. So when you are approval has been granted and your funds have been allotted.

212

00:30:57.838 --> 00:31:01.259

Those funds will not the.

213

00:31:01.259 --> 00:31:13.588

Reverted if there are any leftover until the end of the year. So if you have a student that attends day 1, and gets funded for 9 months, and then leaves.

214

00:31:13.588 --> 00:31:17.608

after two months you have a new student enroll

215

00:31:17.608 --> 00:31:30.209

That new students funding, or the old students funding would move to the new student. So that calculation is continuous. So, as you can see, the current revision is how much is changed.

216

00:31:30.209 --> 00:31:42.028

And then your fiscal year is how much money has been allotted for the entire time. So there may be a, a difference in those numbers and there may be a reversion or there may be an allotment, depending on.

217

00:31:42.028 --> 00:31:45.659

The amount of funds in the, uh, in this chart.

218

00:31:49.169 --> 00:31:55.493

This is a screenshot from an approval and revision so looking at your approval sheet,

219

00:31:55.973 --> 00:31:56.334

this is,

220

00:31:56.364 --> 00:32:02.814

you can see these students were funded and how long they were funded and the amount of money they were funded for if the student was to withdraw,

221

00:32:02.844 --> 00:32:04.344

you would enter that withdrawal date,

222

00:32:04.644 --> 00:32:06.894

and it would update the information based on that.

223

00:32:08.189 --> 00:32:13.409

1 of the item of items of note that we want to continue to say is that there should be no.

224

00:32:13.409 --> 00:32:25.288

Student names, initials provided in any of the information that you upload into only power school numbers should be used in any of the applications that we talk about.

225

00:32:28.709 --> 00:32:35.669

Any DDC questions.

226

00:32:35.669 --> 00:32:47.848

We'll give everybody a minute to process to see if you have questions on a couple of things as we're waiting. Um, before we move on the grants do open next Tuesday.

227

00:32:47.848 --> 00:33:01.499

We will start processing on the 16th of each month. So you every month, when you are filling out applications, just keep that in mind. As long as whatever you have done has been.

228

00:33:01.499 --> 00:33:09.929

See, it through and approved by the chief ad, man, that's usually where things get hung up that Chief admin approval. Um.

229

00:33:10.949 --> 00:33:17.429

By the close of business on the 15th, Adam, and I will start processing the morning of the 16th.

230

00:33:17.429 --> 00:33:25.828

It we usually can get that done in a week and you will know that your, uh, what has been approved what has not been approved.

231

00:33:25.828 --> 00:33:29.699

Then we notify DPI allotments.

232

00:33:29.699 --> 00:33:44.453

Or the allotment of funding, we have no control over their calendar of when you actually will see your funds. But the other thing to remember, because I know that you're thinking that's a quick turnaround they're gonna open next Tuesday. You're gonna pull on the 15 after the 15th, but that's okay.

233

00:33:44.453 --> 00:33:46.854

Don't feel like you've got to rush, um.

234

00:33:48.388 --> 00:33:59.933

We will be pulling again on October 15th. Your funding is dependent on the child's eligibility and their eligibility date for day day. C not when you submit the application.

235

00:33:59.933 --> 00:34:04.433

So if you don't get something finished by September 15th, don't worry about it.

236

00:34:05.608 --> 00:34:13.949

October 15th is fine we'll be pulling again on October 16th, and then November, 16th and so forth and so on. Um, so.

237

00:34:13.949 --> 00:34:18.568

Take the time if you need it to get your information in there, don't.

238

00:34:18.568 --> 00:34:22.378

Panic about not having it by the 15th.

239

00:34:22.378 --> 00:34:30.389

Because we'll get it the next month and again, it's based on your student eligibility date not the date that you put.

240

00:34:30.389 --> 00:34:40.438

The information into the grant that being said, please don't wait until April to apply for every DDC child you have for the entire year. Um.

241

00:34:41.153 --> 00:34:55.463

We need to know as soon as possible that you're getting the man, but as it changes, you can make those amendments also, as you're making those changes monthly in the grant. There is a drop down box that has the month.

242

00:34:55.824 --> 00:35:08.304

And that is the month that you are entering that data. So make sure you change that from September to October to November, as you're going through. So that we can track when the new stuff was submitted.

243

00:35:11.724 --> 00:35:21.143

All right questions now that have come and sites throughout the school year. Are we allowed to add our sites to this application? Absolutely.

244

00:35:21.264 --> 00:35:30.983

If you have your license and it is endorsed for, at whatever point you receive that, and you are up and running, please apply for the funding.

245

00:35:32.248 --> 00:35:36.958

Is there? That's 1 sorry? And that's really easy to do. You would just click.

246

00:35:36.958 --> 00:35:42.088

The new center and add a grant application so you would just add a new application. Um.

247

00:35:42.088 --> 00:35:53.273

For that, or if it is a school based, you upload that license and add those kids to your running list. That's exactly. Is there a longer eligibility criteria for DDC funding? Once upon a time?

248

00:35:53.273 --> 00:35:57.713

Not only did the child need to be eligible uh, what say, date laid, but.

249

00:35:58.284 --> 00:36:12.114

In 1 area, but at least 50% delayed or in 2 years. No, that is no longer. It is up to an team to decide if a child meets eligibility criteria, we are not going to question your team decisions.

250

00:36:12.114 --> 00:36:12.983

So,

251

00:36:14.213 --> 00:36:14.753

if you,

252

00:36:14.753 --> 00:36:15.324

as a,

253

00:36:15.324 --> 00:36:19.253

as a team are placing a child in a classroom,

254

00:36:19.793 --> 00:36:25.373

then y'all are saying that they made that eligibility criteria that being said,

255

00:36:25.373 --> 00:36:26.603

when you have blended classes,

256

00:36:26.603 --> 00:36:28.853

please don't apply for data to say,

257

00:36:28.853 --> 00:36:30.143

funds for your speech.

258

00:36:30.143 --> 00:36:41.784

Only student that happens to be in that blended classroom because service delivery is not going to get you funded on that but that percent of delay was not is not something we're doing a,

259

00:36:41.813 --> 00:36:42.923

if you check policies,

260

00:36:42.923 --> 00:36:44.423

governing children,

261

00:36:44.423 --> 00:36:45.713

it is not in policy.

262

00:36:45.713 --> 00:36:51.713

So, it is an team decision on whether or not that child needs placement.

263

00:36:53.693 --> 00:37:06.443

And then we look at the to see if that endorses the service level endorses the fact that the child is receiving that level of service. So that is an team decision a risk pull.

264

00:37:06.474 --> 00:37:18.804

If there is, no cut off data and risk pool again, if you refer to policies governing a risk, pulls the last date to submit application is may 17th just like, all the special grants there is? No.

265

00:37:18.804 --> 00:37:33.713

Cut off what we will do it's been a strange 2 years with funding, special, start, reserve funding. Especially we will do a check in about mid year to see if you have students that you thought were coming in that didn't.

266

00:37:33.744 --> 00:37:42.264

And you have the money sitting there. And check to see if you need to revert funds in the middle of the year. So we can get them out to.

267

00:37:43.739 --> 00:37:55.679

Another student that is in need after mid year, but the applications can be submitted throughout the year for risk pool. There is no cut off deadline other than the May 15th deadline for all grants.

268

00:37:59.309 --> 00:38:09.389

That being said most people want their money up front so you can go ahead and shift that expense into your restful funds, rather than have them in your.

269

00:38:09.389 --> 00:38:14.969

Your federal funding any other questions.

270

00:38:20.909 --> 00:38:33.750

All right, community, residential centers, uh, we will move on and, like I say, we have plenty of time at the end. If we have additional questions community residential, we have a handful of.

271

00:38:34.045 --> 00:38:37.284

Issues in the state that have community residential centers,

272

00:38:37.885 --> 00:38:38.965

they are made funds,

273

00:38:38.965 --> 00:38:50.485

made available for the state board to assist in providing special education and related services to students that have been placed in a community residential center through their local.

274

00:38:50.789 --> 00:38:56.010

Management entity their L. M. A. or their managed care organization.

275

00:38:56.010 --> 00:39:01.469

So these are for those issues that have.

276

00:39:01.469 --> 00:39:07.500

1 of these centers located within the boundaries of their district.

277

00:39:07.500 --> 00:39:11.969

The issue is the agency that requests the funding.

278

00:39:13.019 --> 00:39:16.559

And they will have a contract with that.

279

00:39:16.559 --> 00:39:18.054

Residential facility,

280

00:39:18.324 --> 00:39:18.864

just like,

281

00:39:18.864 --> 00:39:20.184

if you have community based,

282

00:39:21.054 --> 00:39:28.315

you have a contract with them that contract negotiation for DDC or community residential is between the,

283

00:39:29.275 --> 00:39:32.155

and that center does not.

284

00:39:32.400 --> 00:39:37.170

Do with the contracts does not initiate contracts. Um.

285

00:39:38.094 --> 00:39:49.735

But we do have to have those copies, um, the student information is required, and the grant has to be submitted annually. That was a question we had with with because a lot of those kids are there for a long time.

286

00:39:50.065 --> 00:40:04.585

But you have to redo that application yearly and update it as need be. And that last date for submission any changes. If a new kid comes in or if a kid leaves is May 15th again, a screenshot of the instruction.

287

00:40:06.750 --> 00:40:19.110

For that, and what that educational placement, and we will look for on the, that

that is a residential on the continuum. But that is the placement on the continuum.
Um.

288

00:40:19.110 --> 00:40:23.159

Some of our issues have a good.

289

00:40:23.159 --> 00:40:32.730

Collaborative relationship with their, and some of the students that are living at
the are actually able to come to school. Um.

290

00:40:32.730 --> 00:40:41.969

rather than having their education at the center in that case you would not be
applying for those students because they're not receiving their education at the
center

291

00:40:41.969 --> 00:40:50.460

Uh, these are the instructions, uh, again, we will need a copy of the signed
contract. Um.

292

00:40:50.460 --> 00:40:54.929

Between the, and the SRC.

293

00:40:54.929 --> 00:40:59.820

Update those rosters, um, monthly as needed.

294

00:40:59.820 --> 00:41:02.394

Adam, next line Yep.

295

00:41:02.635 --> 00:41:03.565

1 warning,

296

00:41:03.565 --> 00:41:07.434

if we have anyone who does deal with the community residential center,

297

00:41:07.434 --> 00:41:07.675

we,

298

00:41:07.704 --> 00:41:12.864

this was an issue last year when you're putting in the student ID information,

299

00:41:12.864 --> 00:41:16.255

as you go across and you're putting in that enrollment date,

300

00:41:16.255 --> 00:41:17.875

there is a box to check.

301

00:41:17.905 --> 00:41:21.715

If the student had why for the summer of 2021.

302

00:41:51.360 --> 00:42:05.280

Get that done so that they would get that funding. If they are we do verify that s. Y is on the, if the s. Y is going to be for July of 2022, then that will be checked.

303

00:42:05.280 --> 00:42:17.130

For the next year, so if you have a student who newly, enrolls and November, December, you're not going to check the because they weren't with you in the summer of 21.

304

00:42:20.039 --> 00:42:23.429

All right, uh, we have.

305

00:43:00.389 --> 00:43:08.400

But thank you for asking because, like I say, if you the longer you hang on to the money, the less, we can get it out to other students that are in need.

306

00:43:10.650 --> 00:43:13.710

Adam Foster.

307

00:43:13.710 --> 00:43:18.210

That was our last question group foster home grant.

308

00:43:18.210 --> 00:43:32.309

These are grant funds allocated to the in state 032 and federal PRC 60 these essentially make up for child count funds.

309

00:43:32.309 --> 00:43:39.929

For newly enrolled students that were not included in the previous years child count reports.

310

00:43:39.929 --> 00:43:46.380

It did not generate 88 ATM funds for the previous year. So an example of that.

311

00:43:46.380 --> 00:43:54.360

Would be if you had a student that was in a group home or a foster home last year for the 2021 school year.

312

00:43:55.469 --> 00:43:58.500

They would not be on your group foster home.

313

00:43:58.500 --> 00:44:11.934

If a student, enrolls today in a group home or a foster home, and they were not counted on your child count last year this would be the time to be able to apply for a group foster home fund.

314

00:44:12.385 --> 00:44:16.525

These applications are also due by May 15th. This is 1 of our.

315

00:44:17.545 --> 00:44:32.275

Easiest grants to apply for, um, they just really need to be eligible for services and they must be in a group home or a foster home. That is licensed.

316

00:44:32.545 --> 00:44:34.795

It is the responsibility.

317

00:44:35.400 --> 00:44:43.889

To make sure that they the group foster home or a group, or foster home is appropriately licensed to be.

318

00:44:43.889 --> 00:44:55.500

Serving those students, and there are links within the grant system. This is not an active. So, in the grant system, when you look at eligible students, you'd be able to.

319

00:44:55.500 --> 00:45:07.980

Look at the, uh, North kindra division of social services, licensing services as well as look at those licensed facility websites to be able to make sure that while you're applying these are.

320

00:45:07.980 --> 00:45:17.400

Appropriate sites to be able to be applying for them. So this is just replacement funds, um, because you did not draw down any funds to be able to serve.

321

00:45:17.400 --> 00:45:22.920

This those students, it's a quick 1.

322

00:45:24.809 --> 00:45:33.719

Elizabeth any questions? Yes, we do have 1 question if they came in from another district. Um.

323

00:45:34.920 --> 00:45:38.610

And are new to our school? Yes, the.

324

00:45:38.934 --> 00:45:52.735

Group foster home it is 4 students that are newly placed in your district and aggregate foster home. We do know, we have some issues that have a lot of group home and foster homes. So they have a lot of kids coming in.

325

00:45:53.244 --> 00:45:54.295

Um, and it's.

326

00:45:55.644 --> 00:45:57.144

As you're keeping track of that,

327

00:45:57.144 --> 00:45:58.375

if they're newly in what,

328

00:45:58.375 --> 00:45:59.215

Adam and I do,

329

00:45:59.215 --> 00:46:00.355

when we verify 1st,

330

00:46:00.355 --> 00:46:01.405

that the student is,

331

00:46:01.494 --> 00:46:04.494

does have a valid in a cat's,

332

00:46:04.795 --> 00:46:05.125

uh,

333

00:46:05.155 --> 00:46:09.175

we're also verify that they were not enrolled in the district the previous year,

334

00:46:09.594 --> 00:46:10.164

and therefore,

335

00:46:10.164 --> 00:46:12.474

had already generated your child count funds,

336

00:46:12.474 --> 00:46:12.775

because,

337

00:46:12.775 --> 00:46:13.465

as Adam said,

338

00:46:13.465 --> 00:46:16.074

this is basically replacement for child count funds.

339

00:46:16.554 --> 00:46:17.065

Um.

340

00:46:17.369 --> 00:46:21.960

In foster care, can we? Yes, it is. Group slash foster home.

341

00:46:21.960 --> 00:46:26.099

Great home foster home funds so if they are in foster care.

342

00:46:26.099 --> 00:46:35.969

Yes, uh, next question stuff we have 2 students who enrolled who were just placed in a local group home, and they are from out of state and Rob compliance. Do we wait to apply.

343

00:46:35.969 --> 00:46:38.969

Yes, because we have to verify.

344

00:46:38.969 --> 00:46:50.849

As Adam said, it's child can't replacement funds so they have to be eligible for those funds before we can authorize the funding. And once they have their out of their.

345

00:46:50.849 --> 00:47:00.210

Identified in North Carolina and have their eligibility, your funding will be provided based on when they became eligible for AC funding.

346

00:47:05.550 --> 00:47:09.360

1 of the most commonly rejected.

347

00:47:09.360 --> 00:47:24.114

Or denied grants that I saw for group foster home was when a student wouldn't that was already within the district just moved to 1 of the group foster homes within their district. You have to think about it that they have not drawn down any funds from the state.

348

00:47:24.355 --> 00:47:26.695

So this is just replacement funds.

349

00:47:38.099 --> 00:47:46.829

I am not seeing anything else, uh, 1 thing about great foster home for error, charter school friends that are online.

350

00:47:47.125 --> 00:47:57.175

This is open to charter schools as well. If you have students that are new to you that are in group, foster home you can't apply for these funds as well.

351

00:47:57.175 --> 00:48:04.644

We do have we only have a couple of charters that actually apply for this funding. So, it is available to charters as well.

352

00:48:06.690 --> 00:48:10.769

All right and our last 1 is out of district.

353

00:48:11.155 --> 00:48:21.594

Uh, and then we will hang around and take any questions that you have, but we will

move on to out of district. This 1 is the 1 that's a little different from everything else.

354

00:48:21.985 --> 00:48:33.445

These are satisfied side funds, established for special allocations are to determination of people allotments. The out of district fund grants are there to assist the.

355

00:48:34.829 --> 00:48:42.809

In funding the excess cost of placing a student with a disability and a program not operated by the.

356

00:48:43.224 --> 00:48:46.494

So this is when an team not apparent,

357

00:48:46.494 --> 00:48:53.125

but an team has made a decision that a student exceeds the capacity of the,

358

00:48:54.324 --> 00:48:55.195

and the,

359

00:48:55.224 --> 00:49:06.295

at the district's expense are placing the student in a public private residential in state or out of state placement anything that is not operated by the issue,

360

00:49:06.295 --> 00:49:12.385

and this is the team made the decision is not if it was made independently by parent,

361

00:49:12.385 --> 00:49:12.835

but 1,

362

00:49:12.835 --> 00:49:14.844

where the made the decision,

363

00:49:15.353 --> 00:49:20.364

and the is funding this out of district placement again,

364

00:49:20.364 --> 00:49:23.815

placements are not guaranteed payment is not guaranteed.

365

00:49:24.150 --> 00:49:34.260

The why this 1 works, you submit your application within 30 calendar days of a student's placement and this out of district placement.

366

00:49:34.260 --> 00:49:38.940

The last day to submit an application is May 15th, but it's not.

367

00:49:38.940 --> 00:49:48.389

When you're done, this is the only grant that actually carries over beyond June 30, because it is a reimbursement.

368

00:49:48.389 --> 00:49:53.460

It is not upfront money. It is a reimbursement of the cost.

369

00:49:53.755 --> 00:50:04.255

For this out of district placement and that reimbursement is set at 50%. Once we subtract your and your December and April 1 child count funding for this student.

370

00:50:04.255 --> 00:50:17.875

Uh, you would receive up to 50% of the total cost for the student, which is why it carries over into July and August. We're processing these right now from the 2021 school year.

371

00:50:17.875 --> 00:50:19.824

So you're going to complete the application.

372

00:50:21.480 --> 00:50:32.820

In that application process, you again are going to describe why this child the decision was made for this child to be in and out of district placement again. Don't use any.

373

00:50:32.820 --> 00:50:44.489

Thing, other than that students ID number, and then either he or she, we don't need any identifiable information in the grant system. We will verify through a cats.

374

00:50:44.724 --> 00:50:59.155

You, we will need a copy of your contract with the out of district placement agency and again, make sure it's signed because That'll delay if we don't have sign

signatures on your contracts and the calendar, the school calendar for the placement.

375

00:50:59.155 --> 00:51:02.125

So that we can verify the days that the student will be there.

376

00:51:03.119 --> 00:51:08.550

We will review all that information, give tentative approval or denial, depending on.

377

00:51:08.550 --> 00:51:12.480

What the information is, and then it just sets.

378

00:51:12.480 --> 00:51:16.320

And whites until the end of the year, so come.

379

00:51:16.320 --> 00:51:24.715

June, when you're clearing out, all of your invoices, you're paying up all of your bills, you're closing out with this agency.

380

00:51:24.744 --> 00:51:38.965

Once you have paid all of the invoices from, which is why it carries over sometimes into July. Once you have done paid and you've reconciled all of your records you're going to submit to send.

381

00:51:38.965 --> 00:51:44.184

There is a form that I will be sending to you before the end of the year. If you have been approved.

382

00:51:45.659 --> 00:51:55.889

To submit requests for reimbursement for these funds and with that, we will need all of those paid invoices as well to verify the expenditures.

383

00:52:20.639 --> 00:52:30.630

Okay, a few more questions can you apply for great foster home fund if they come in prior to child? Count for the current year? Yes.

384

00:52:30.630 --> 00:52:36.269

Those are the ones that you're going to apply for, because remember child count funds.

385

00:53:09.780 --> 00:53:18.925

Okay, our contact information is on the screen, the special grants will be opening up on September 7th or application.

386

00:53:18.954 --> 00:53:26.184

And, as I said, we will process beginning the 6th of each month unless the 15th falls on a weekend and then just.

387

00:53:26.849 --> 00:53:29.849

Up at until the next business day, um.

388

00:53:29.849 --> 00:53:34.739

Our turnaround we work really hard to get everything turned around within a week.

389

00:53:34.739 --> 00:53:43.110

Initially, that's a long call, especially usually the October 1 is the big 1 with all of the.

390

00:53:43.110 --> 00:53:47.579

Coming through, then we notify.

391

00:53:47.579 --> 00:53:55.170

Um, business, but we do not have any control over when your money's actually drop.

392

00:53:55.170 --> 00:54:03.090

So, we, we tell them that you have been approved for funding and the amount of funding and then we are done with the process and.

393

00:54:03.090 --> 00:54:08.309

When finance a lots, the money, you will see that allotment notification come out.

394

00:54:16.405 --> 00:54:24.505

Any other questions we did allow time for questions at the end do not feel like you have to hang online with us.

395

00:54:25.554 --> 00:54:38.635

If you've gotten the information you need as I stated, we will be posting the PowerPoint and 1 of our recordings on the grant site. So that it is available to

you, Adam and I are available to answer any questions.

396

00:54:38.635 --> 00:54:52.405

You may have reach out email us call us. We will get back to you, we want you to especially those questions, the difference between a special state reserve risk pool. We don't want you to have to fill out 2 applications.

397

00:54:52.675 --> 00:54:58.405

So if you're concerned that it might be 1 or the other reach out and we'll talk you through the scenario.

398

00:54:59.670 --> 00:55:04.199

So, that you, you don't have to spend time doing 1 when you should have done the other.

399

00:55:04.199 --> 00:55:17.099

If you don't have questions, feel free to drop off, we're giving you the rest of your time back. We just wanted to make sure we allowed enough time for questions as we went through and hang out. If you have any additional questions.

400

00:55:20.460 --> 00:55:24.719

It will be posted by Tuesday.

401

00:55:24.719 --> 00:55:32.219

It will be posted by Tuesday. I can't guarantee it's going to be posted by Friday, but it will definitely be posted on the website by Tuesday.

402

00:55:43.885 --> 00:55:57.684

Yes, receiving funding. The question is, if we submit, will we still get funded for September funding is based on the student's date of eligibility not the date that you submit the application.

403

00:55:58.494 --> 00:56:07.405

That's the reason I said, don't stress if you can't get something done by September 15th, you can all will process it in October, but it is all funding is based on the.

404

00:56:11.280 --> 00:56:15.480

Eligibility date of the student, the date that it was submitted.

405

00:56:18.360 --> 00:56:21.570

Other questions, these have been great questions. Guys Thank you.

406

00:56:31.019 --> 00:56:37.949

Uh, what if a student is an out of state student who Wisconsin placed with her biological father in our district this month.

407

00:56:37.949 --> 00:56:41.250

Can that be foster situation even though the play? No.

408

00:56:41.250 --> 00:56:49.199

It has to be a license foster home or group home if they are with a biological parent, then that is not a foster home situation.

409

00:57:19.284 --> 00:57:23.875

All right, guys other questions, like I said, these have been excellent questions today. Thank you.

410

00:57:39.300 --> 00:57:45.059

Ah, yes, Adam, can you slide back to please.

411

00:57:45.059 --> 00:57:52.530

You have a request, um, or Relook at special start reserve.

412

00:57:52.530 --> 00:57:59.880

Okay, Eva. Okay.

413

00:58:51.750 --> 00:58:55.139

But that answered the question.

414

00:58:55.139 --> 00:58:59.789

Who do we contact to see if a student has been funded for risk for 5 years? Adam and I.

415

00:59:56.159 --> 01:00:00.329

Any additional questions guys.

416

01:00:23.514 --> 01:00:36.534

If we purchase equipment, the equipment must follow the yes, if the equipment is purchased through special state reserve funds. Yes. That and that child ends up

leaving you and going to another that equipment does follow the child.

417

01:01:14.909 --> 01:01:23.940

I'm gonna go ahead and start the recording.

418

01:01:23.940 --> 01:01:28.650

Okay, thank you. Jeremy no problem. No problem.
