WEBVTT

1
00:00:02.488 --> 00:00:08.369
Okay, as I was mentioning, what is coming up is indicator 7, it opens.

2
00:00:08.369 --> 00:00:11.909
August 2nd closest August twentieth.

3
00:00:11.909 --> 00:00:15.749
And it is looking at at that cost of data.

4
00:00:15.749 --> 00:00:28.853
Looking at the percent of preschool students with who demonstrate improve childhood outcomes, and it's based on the July 1st, 2020 through June thirtieth 2021, fiscal year. And as mentioning there are.

5
00:00:32.789 --> 00:00:38.159
Various training resources that's available in and.

6
00:00:38.159 --> 00:00:41.429
Every instance of a cat.

7
00:00:41.429 --> 00:00:45.689
We go to the main page and scroll down to the resources section.

8
00:00:45.689 --> 00:00:50.640
Federal reporting tab, you'll be able to access the.

9
00:00:50.935 --> 00:01:00.354
Federal reporting as well as the indicator 7 errors and warnings, reference guide as well as the reporting checklist.

10
00:01:00.475 --> 00:01:07.284
So those are the things you definitely want to reference and preparation for the indicator. 7 count.

11
00:01:07.890 --> 00:01:16.200
So, when I open a floor for anyone who may have any questions regarding indicator, 7.

12
00:01:18.984 --> 00:01:31.075

I have a question. This is Christine from. We are facing a situation where we're trying to do an exit cost for a student who transferred into us and, um, that extra cost is not an E cat's.

13
00:01:31.075 --> 00:01:40.254
And it is not in the AC folder from the school. Where the, the county where the, um.

14
00:01:40.530 --> 00:01:49.500
Student transfer from when we've contacted that county, they said they did not complete 1. I've advised my teacher to to use the data.

15
00:01:49.500 --> 00:02:01.194
From a couple of years ago to create an entry cost and then to then use the data from now to create the exit cost. And I'm her concern is if that's legal or not.

16
00:02:01.224 --> 00:02:09.414
I said, well, I will check with DPI, but that's the only way that I know of to get a, um, exit cost completed. Is that your recommendation.

17
00:02:12.090 --> 00:02:18.060
Um, this is Kelly. What my, what I would recommend is that you reach out to Don Masco.

18
00:02:18.060 --> 00:02:22.770
Or kisha Walker, and ask that question, just to be sure we don't want to.

19
00:02:22.770 --> 00:02:27.120
Um, muddy the waters with policy. I believe that that is the proper.

20
00:02:27.120 --> 00:02:32.219
Um, the proper steps today, but I do, I do think it would be better if Don.

21
00:02:32.219 --> 00:02:40.495
Answered that question. Okay. Can you just repeat their names again? Kelly? Yep. And I'll put their email in the chat. How about that? Okay Thank you. I appreciate that.

22
00:02:40.525 --> 00:02:48.115
Um, it's just we can't complete the exit cost because the previous counting never completed the entry cost at all periods. So.

23
00:02:48.840 --> 00:02:56.520
Right.

24
00:03:05.370 --> 00:03:08.879
Any other questions regarding indicator 7.

25
00:03:18.030 --> 00:03:21.990
All right, so another sure.

26
00:03:21.990 --> 00:03:28.110
Is there any updates to all of them missing kids that aren't pulling for
indicator? 7.

27
00:03:28.110 --> 00:03:33.840
I know I've been working with his desk and stuff, but I don't know if
there was any kind of update about it.

28
00:03:35.310 --> 00:03:38.520
This Johnson.

29
00:03:38.520 --> 00:03:48.689
Yes, my, um, well, I think the update is this is the same at folks that
are coming over from.

30
00:03:50.729 --> 00:03:58.590
Well, I guess their, their entry coast didn't go in correctly and create
those events. And so that's already gone through. And.

31
00:03:58.590 --> 00:04:07.800
Then I'll always again, I'm talking about there's still on tons of kids
missing from the report even though they have an entry goes off.

32
00:04:07.800 --> 00:04:18.449
And honestly, I've been working on other stuff, and I'm just running it
now to check but usually we have a couple, 100 or so kids and it, it's
only pull in, like, 60 or so.

33
00:04:18.449 --> 00:04:27.959
And they have entry and exit, they have an entry right now, at least. So
I feel like they should at least be coming up on the report as that.

34
00:04:27.959 --> 00:04:32.129

But they're not coming up as at all and this happened last year too.

35
00:04:32.129 --> 00:04:38.668
I have to check the parameters of the E report. Um, it may only pull if they have an exit.

36
00:04:38.668 --> 00:04:46.168
Okay, I've got some kids in there that only have entries that were on the report. So I feel like it should.

37
00:04:46.168 --> 00:04:56.939
People on them as well, do you know if it pulls entry? Only on that? I know we had 1 in that did that.

38
00:04:56.939 --> 00:05:01.889
I just remember so if this.

39
00:05:01.889 --> 00:05:06.749
So, would the student be age eligible for exit or.

40
00:05:06.749 --> 00:05:14.819
Are this, including students who have not been receiving services for 6 months and they should be pulling the report.

41
00:05:14.819 --> 00:05:23.038
They've been receiving services for 6 months or more. They have an entry comes off, but they still don't come up on the report.

42
00:05:23.483 --> 00:05:36.353
Okay, and so these are students who would need to have an exit codes, or these are students who will be in Pre preschool for another year. Yeah, I need to have an exit class off which some of them may have been doing within the last few days.

43
00:05:36.384 --> 00:05:39.024
It's just the last time I ran it, they hadn't done him yet.

44
00:05:39.329 --> 00:05:44.069
But I still felt like they should at least show up on the report because an entry was created.

45
00:05:44.069 --> 00:05:48.749
I'm on it. Well, I remember.

46
00:05:48.749 --> 00:05:53.939
Time was it on.

47
00:05:53.939 --> 00:05:57.329
Sometime last year.

48
00:05:57.329 --> 00:06:03.718
Wasn't there a way to pull the data and advance reporting to look for.

49
00:06:03.718 --> 00:06:07.048
Those students had either had, uh.

50
00:06:07.048 --> 00:06:11.519
A draft missing is causes.

51
00:06:12.988 --> 00:06:16.709
I remember there was some Monday message that went out sometime last
year.

52
00:06:16.709 --> 00:06:22.048
I mean, I can I know all the ones that are missing pretty much. It's
just.

53
00:06:22.048 --> 00:06:36.113
They're not showing on the indicator set report and that's where they
need to show up. Eventually. I think that is correct that and what Lela
just said is that I think they did drop a, um, a report into you guys as
advanced reporting.

54
00:06:36.113 --> 00:06:43.403
Everybody's advanced reporting to data is missing. Exit reports I'm going
to check right now and I will.

55
00:06:43.709 --> 00:06:47.488
Respond if I find it in it.

56
00:06:49.649 --> 00:06:54.238
And you said you've already reported this present this? Yes.

57
00:06:56.668 --> 00:06:59.968
And and I can tell whose messages from our transition list.

58
00:06:59.968 --> 00:07:03.119
That doesn't have.

59
00:07:03.324 --> 00:07:17.663
That's not appearing on there. Okay. Are they still working on that? Or
do they yeah, I think so. Now we're up to, like, 100 kids, which is
better than it was, but, um, we're still got over 200 or so 250. so we're
missing quite a few steel.

60
00:07:19.858 --> 00:07:25.468
But I felt, you know, they're working on it. I just didn't know if there
was an update or anything.

61
00:07:25.468 --> 00:07:29.004
If you all know anything no,

62
00:07:29.334 --> 00:07:30.053
I don't know,

63
00:07:30.053 --> 00:07:39.053
I just remember there was an issue of those students as Kayla was
mentioning before those students with the entry that were created easy,

64
00:07:39.713 --> 00:07:42.084
weren't migrating into events correctly.

65
00:07:42.384 --> 00:07:48.653
So, I remember that issue and the resolution for that is students to.

66
00:07:49.048 --> 00:07:54.749
You know, that issue may continue until the last migrate student turned
6.

67
00:07:54.749 --> 00:07:59.879
So, but what you're mentioning is a little different.

68
00:08:02.579 --> 00:08:08.548
So, I don't have any additional insight on that issue.

69
00:08:09.569 --> 00:08:12.928
Other than I was mentioning.

70
00:08:14.098 --> 00:08:19.738
Being able to pull that data out of advance reporting. I remember seeing something in my message.

71
00:08:19.738 --> 00:08:23.309
Well, actually, I don't know how I remember it, but I believe this.

72
00:08:23.309 --> 00:08:29.639
That was July 2020 or August of 2020. it was August and I.

73
00:08:29.639 --> 00:08:38.938
What I think what Sarah's looking for is kind of like, what we had in and where the report would also would not only pull kids who were.

74
00:08:38.938 --> 00:08:53.813
We had an exit cursive, but also pull kids who should have an exit pets. It would be eligible and transitioning to kindergarten but I do not believe I know that indicator. 7 report.

75
00:08:53.813 --> 00:08:55.403
That's currently any cats.

76
00:08:55.649 --> 00:09:00.658
Looks for students who actually have an exit, um.

77
00:09:02.068 --> 00:09:05.428
So, I think that's that's the issue that we're running into, but.

78
00:09:05.428 --> 00:09:08.668
Let me find out Sarah and now.

79
00:09:08.668 --> 00:09:15.599
I'll give you guys an update, we're going to be taking down all of the cues from now on the questions that you guys asked.

80
00:09:15.599 --> 00:09:19.379
And put those together, so we'll figure it out.

81
00:09:19.379 --> 00:09:24.149
Okay, thank you. Thank you for the question too.

82
00:09:28.078 --> 00:09:34.318
All right, so another reminder we have is about X account.

83
00:09:34.318 --> 00:09:39.899
So, ex, account, open September 15th and closes September thirtieth.

84
00:09:39.899 --> 00:09:49.288
And this is looking at the end of year data on students, exiting special
education during the July 1st, 2020 through June, 30.

85
00:09:49.288 --> 00:10:03.089
2021, fiscal year and so once again, there's a training video and
training handouts that's available in the E cat's main menu resources
section.

86
00:10:03.089 --> 00:10:06.089
Put the federal reporting tab.

87
00:10:06.089 --> 00:10:13.139
And to view the, the recorded video, you're going to access the training.

88
00:10:13.139 --> 00:10:24.028
The training, federal reporting, webinar videos, it's in there as well as
the additional handouts, the errors and warnings reference guide.

89
00:10:24.028 --> 00:10:35.308
Same day reporting updates and the X account reporting checklist so
definitely be sure to look at that exit count reporting checklist.

90
00:10:35.308 --> 00:10:41.818
To see what the criteria is for students to be included in that extra
account.

91
00:10:43.318 --> 00:10:47.938
And other reminders about the ex account is.

92
00:10:47.938 --> 00:10:51.208
The modified exit reason I mean.

93
00:10:51.208 --> 00:10:55.139
See, if I can maximize this a little bit.

94
00:10:56.639 --> 00:11:02.759
So, whenever a student, it was drawn from your alien power school.
They're also withdrawn.

95
00:11:02.759 --> 00:11:08.158
And you can't, but you want to make sure those students who are a fee and are.

96
00:11:08.158 --> 00:11:16.229
Withdrawn from your you go into and document the modified exit racing.
That's very important. This is.

97
00:11:16.229 --> 00:11:19.558
Very important for the students to be included in.

98
00:11:19.558 --> 00:11:27.629
Ex account not only include an ex account, but to eliminate having that error warning.

99
00:11:29.124 --> 00:11:41.663
Excuse me the error message. So, once to locate those students that you need to document the modified exit reason for, you want to do an inactive student search.

100
00:11:41.813 --> 00:11:50.094
And in order to do an inactive student search from the main menu and a cat, she want to go to admin school system.

101
00:11:50.428 --> 00:11:55.438
And once you select school system, you'll see a 2nd theory menu, bar display.

102
00:11:55.438 --> 00:12:01.499
And what set secondary menu bar displays you want to go to administration and active students.

103
00:12:01.499 --> 00:12:13.168
I want you click and active students, the screen refreshes and then you'll see the screen where you can enter the search criteria to look for being active student.

104
00:12:14.339 --> 00:12:23.278

Once you click view inactive student, you should see the name of the
student that you're looking for. So, just click the link.

105
00:12:23.278 --> 00:12:32.548
Once you click the link, you should then see the screen where you can
enter the modified exit reason.

106
00:12:32.548 --> 00:12:36.538
And these are the options graduated with high school.

107
00:12:36.538 --> 00:12:44.303
Uh, the Poma dropped out of school died, received a certificate reach
back some of age and move now to be continuing.

108
00:12:44.783 --> 00:12:53.903
So you would select the appropriate modified exit reason at the bottom of
the screen click update database. So, this is definitely important.

109
00:12:54.208 --> 00:12:57.359
For.

110
00:12:57.359 --> 00:13:05.759
Preparing for the ex account, you want to make sure your easy students
have the modified exit reason documented.

111
00:13:09.389 --> 00:13:16.798
Now, when I open the floor for any questions that you may have about ex
account.

112
00:13:25.438 --> 00:13:31.019
And as those questions are coming in, I just want to.

113
00:13:31.019 --> 00:13:34.259
Sheer Kelly had sent in.

114
00:13:34.259 --> 00:13:41.489
The text a chat about the, the indicator several report.

115
00:13:41.489 --> 00:13:54.028
Um, if you're having any questions, or having the issues about students
that are still missing from the report, please feel free to send a few of
those IDs to us.

116
00:13:55.198 --> 00:13:55.469
So,

117
00:13:55.464 --> 00:13:57.714
we can further research that issue

118
00:14:11.994 --> 00:14:17.964
and the official memo or communication regarding the account has not.

119
00:14:18.298 --> 00:14:19.974
And sent out yet,

120
00:14:20.274 --> 00:14:33.714
but definitely want to give everyone a head start with looking at your
data and making sure information is documented is current and accurate.

121
00:14:34.019 --> 00:14:48.658
In preparation for the ex account.

122
00:14:50.188 --> 00:14:53.219
So, other reminders that we have.

123
00:14:54.899 --> 00:14:58.349
Entertainer 7 is coming up.

124
00:14:58.349 --> 00:15:04.979
So indicator, 7 is submitted and well, it opens October. 1st.

125
00:15:04.979 --> 00:15:07.979
And closes October 29.

126
00:15:07.979 --> 00:15:13.048
And is looking at those students for Homer referral was received.

127
00:15:13.048 --> 00:15:18.629
And placement was determined within 90 days, and this is also during.

128
00:15:18.629 --> 00:15:33.149
The July, 1st, 2020 through June 30th, 2021, fiscal year, you want to
give everyone a reminder that the delay reason cope at 19 is still
available.

129
00:15:33.149 --> 00:15:37.918
Under data collection, and to use when it's appropriate.

130
00:15:37.918 --> 00:15:50.938
So selecting that delay reason will not change, or will not result in a higher percentage rate and will still require Eli's to excuse me school units.

131
00:15:50.938 --> 00:15:56.428
To follow up with their monitoring consultant to ensure eligibility and placements.

132
00:15:56.428 --> 00:16:05.369
Decisions were made as soon as possible and once again, there's the training video and resources available in.

133
00:16:05.369 --> 00:16:09.509
Main menu resources section.

134
00:16:09.509 --> 00:16:14.668
Federal reporting, there's the re, um, the.

135
00:16:14.668 --> 00:16:20.038
You have the indicator 11, except reporting exceptions tab guide.

136
00:16:20.038 --> 00:16:26.609
Give you, there's also a resource on updating the initial, uh, delay reason.

137
00:16:26.609 --> 00:16:31.678
There is the document that goes through all the errors and warnings.

138
00:16:31.678 --> 00:16:37.708
And there's also the essay Q guy don't indicator 11 so there's.

139
00:16:37.708 --> 00:16:43.379
Various resources available to help assist Liaise in preparation.

140
00:16:43.379 --> 00:16:47.668
With the indicator 11 and also going through.

141
00:16:47.668 --> 00:16:55.528
The indicator 11 count and he, and while we're looking at that want to give some reminders.

142
00:16:55.528 --> 00:16:59.578
About the consent is very important.

143
00:16:59.578 --> 00:17:07.499
To document and submit the consent response what is going to send to evaluate response.

144
00:17:07.499 --> 00:17:17.638
And I'm consent for placement response. You want to make sure that on the consent screen this information is documented and submitted.

145
00:17:17.638 --> 00:17:21.628
As the reminder once you submit the response.

146
00:17:21.628 --> 00:17:26.519
It creates an event 1, the student history screen.

147
00:17:26.519 --> 00:17:30.358
So, we've seen many times where.

148
00:17:30.358 --> 00:17:33.419
And Liaise will.

149
00:17:33.419 --> 00:17:36.868
Finalize a consent form.

150
00:17:36.868 --> 00:17:44.969
But the 2nd step is to go to the consent screen and document the response that is what creates.

151
00:17:44.969 --> 00:17:49.919
The event on a student history screen in addition.

152
00:17:49.919 --> 00:18:01.763
To that community and submitting the consent response is also important to upload a copy of the signed consent form to the documents.

153

00:18:01.763 --> 00:18:08.034
This is what the modern consultants review whenever there's a desk review.

154
00:18:12.509 --> 00:18:16.169
So definitely want to give a reminder about that.

155
00:18:16.169 --> 00:18:21.479
Any questions regarding and the care 11.

156
00:18:21.479 --> 00:18:30.118
And, um, consent definitely want to open the floor. If you have any questions about.

157
00:18:30.118 --> 00:18:38.189
Fix account indicator, 11 or any additional questions about indicator 7 as well.

158
00:18:39.388 --> 00:18:43.919
Totally lie. I just wanted to make a comment on, um, indicator 11.

159
00:18:43.919 --> 00:18:48.419
Can you guys hear me here? Am I I hear some feedback.

160
00:18:48.804 --> 00:18:59.364
Okay, so just I just wanted to reiterate what said, and just remind you guys that I'm indicator. 11 can be extremely complicated.

161
00:18:59.364 --> 00:19:13.013
There's over 30 Delta data elements in that, um, indicator. So please take the time to run that report and review the exceptions tab. Um, and then reach out to us or Zen desk.

162
00:19:13.013 --> 00:19:16.013
If you have questions about any of the errors that you find,

163
00:19:16.794 --> 00:19:20.034
because it can waiting until October,

164
00:19:20.394 --> 00:19:25.614
or when it's due it can be extremely overwhelming to work through all of the,

165
00:19:25.913 --> 00:19:30.173
the different nuances associated associated with that data collection.

166
00:19:30.173 --> 00:19:37.374
So, just a reminder and start now. And take your time over the summer to
work through some of those things.

167
00:19:41.128 --> 00:19:44.128
Yes, thank you for sharing that.

168
00:19:53.459 --> 00:19:57.898
And also just wanted to share, um.

169
00:19:57.898 --> 00:20:03.749
1, quick way to check to see if the consent.

170
00:20:03.749 --> 00:20:08.788
Response has not been submitted is definitely 1st thing is to check your.

171
00:20:08.788 --> 00:20:16.528
Student history screen, if you don't see a line item for consent for
placement or consent for value.

172
00:20:16.528 --> 00:20:22.888
Evaluation then you want to check to make sure that a consent form was
finalized.

173
00:20:22.888 --> 00:20:30.898
And also go to the consent screen and submit the response. If you're on
the documents tab.

174
00:20:30.898 --> 00:20:37.378
And you see the item or the record for consent if you see.

175
00:20:37.378 --> 00:20:50.128
And open checkbox beside if you don't see the red E, then that lets, you
know that a consent form was created or consent form was finalized by the
response.

176
00:20:50.128 --> 00:21:04.528

Was not submitted once you see that red E next to the form that lets, you know, that the response was submitted and then event is created. So that's another way that you can check.

177
00:21:05.273 --> 00:21:19.614
To make sure that the consent response was submitted, or you can just simply go to the consent screen under AC process, go to the consent screen and go to the go to those sections and just make sure that information is documented.

178
00:21:26.338 --> 00:21:29.519
All righty so another.

179
00:21:29.519 --> 00:21:33.989
Update want to share is indicator 12.

180
00:21:33.989 --> 00:21:45.568
That is indicator. 12 is captured through a spreadsheet. Not eat cats. Not in the application is accessible. Now I believe there was a.

181
00:21:47.278 --> 00:21:59.429
Then amendment go out. Yeah, Kelly, I'll have to check, but it's an indicator. 12 is due October 29th.

182
00:21:59.429 --> 00:22:06.598
And it captures their data on students who receive part C services, and were referred.

183
00:22:06.598 --> 00:22:15.509
To part B, during the July 1st, 2020 through June 30th, 2021, fiscal year.

184
00:22:15.509 --> 00:22:23.249
All students must have an develop within 90 days other referral and receive surfaces spot a 3rd birthday.

185
00:22:23.249 --> 00:22:28.078
Charter schools do not submit indicated 12 data.

186
00:22:29.878 --> 00:22:33.749
Indicator 12 as I as I mentioned.

187
00:22:33.749 --> 00:22:40.199

Previously indicated 12 data submitted on the spreadsheet and you can actually access.

188
00:22:40.199 --> 00:22:43.679
The spreadsheet from the site.

189
00:22:43.679 --> 00:22:47.159
So, once you get to the site.

190
00:22:48.628 --> 00:22:52.078
Go to resources.

191
00:22:52.078 --> 00:22:58.048
And you'll see information on indicator 7 as well as a link to the spreadsheet.

192
00:23:03.239 --> 00:23:10.409
Now, once you access that spreadsheet, there is a spreadsheet. There is a tab.

193
00:23:10.409 --> 00:23:17.189
In a spreadsheet that has helpful information to clarify questions that you may have.

194
00:23:17.189 --> 00:23:23.669
Regarding the indicator indicator 12 and as I mentioned, charter schools do not submit indicated 12.

195
00:23:24.929 --> 00:23:28.108
And, um, there will be an updated file.

196
00:23:28.108 --> 00:23:31.229
Child fine in transition calculator.

197
00:23:31.229 --> 00:23:39.328
That will be available in in the E, cat's site on the resources and it should be there by June 18.

198
00:23:39.328 --> 00:23:44.429
Any questions that you have regarding indicator 12.

199
00:23:44.429 --> 00:23:49.949

Send them to ease the indicators at DPI that and see that.

200
00:23:52.618 --> 00:24:00.838
Yes, and if it if indicator if the memo indicated tough has not gone out
yet issues, go out today.

201
00:24:03.808 --> 00:24:09.209
But as I mentioned on his previous slide, you can actually go to the
site.

202
00:24:09.209 --> 00:24:13.949
Under resources and that information is there.

203
00:24:15.328 --> 00:24:20.939
Any questions you have about indicator 1211.

204
00:24:20.939 --> 00:24:29.278
7 or execute, feel free to share or senior question.

205
00:24:29.278 --> 00:24:35.939
In a chat we are at 1030 so I definitely want to think.

206
00:24:35.939 --> 00:24:39.298
Everyone for joining us.

207
00:24:39.298 --> 00:24:46.919
And sharing your questions, we will have another session today at 2
o'clock.

208
00:24:46.919 --> 00:25:00.419
With the repeat of the information covered, so feel free to join this
afternoon. If you have questions that you were not able to ask this
morning or if you think of any other questions.

209
00:25:02.183 --> 00:25:16.253
And just to just to let, you know, the indicator 12 information did go
out on 526 on Wednesday. So if you missed it, just go back and check in
with your director and ask them to forward you the Wednesday message from
the 26.

210
00:25:18.719 --> 00:25:30.028
Thank you so much. All right so that concludes our morning session.

211
00:25:30.028 --> 00:25:38.519
Of the office hours once again, thank you all for joining. And I hope
everyone has a wonderful rest of the day.
