WEBVTT

1
00:00:03.508 --> 00:00:11.608
All right once again, welcome to the federal reporting office hours afternoon session for July for the month of July.

2
00:00:11.608 --> 00:00:24.143
We're gonna go over some important updates some reminders about upcoming indicators and accounts anything that has to do with federal reporting. During this session.

3
00:00:24.443 --> 00:00:28.463
We welcome any questions or points of clarification that you need.

4
00:00:28.710 --> 00:00:40.439
During this session, so let's begin with indicator 14, which is the post secondary outcome survey data collection that mission.

5
00:00:40.439 --> 00:00:55.259
So, each year as required by, and the stay performance plan, annual performance report, the AC division collects exit data for indicator of 14, which is the post school outcomes.

6
00:00:55.259 --> 00:01:01.259
Indicator 14 data includes a sampling of students who graduated.

7
00:01:01.259 --> 00:01:09.989
Dropped out receive their certificate, or aged out during the 2019 2020 school year.

8
00:01:09.989 --> 00:01:15.689
And were reported in the 2019 2020 X account.

9
00:01:16.344 --> 00:01:23.935
Submitted and last fall so selected alias were notified in April to complete this survey.

10
00:01:24.295 --> 00:01:31.614
And for those that were selected, this is just a reminder that the due date to complete the survey data.

11
00:01:31.950 --> 00:01:34.950
In September 17th this year.

12
00:01:36.299 --> 00:01:43.140
Now, on to indicator, 7.

13
00:01:46.500 --> 00:01:51.719
Indicator 7 opens August 2nd, and closes August 20th.

14
00:01:51.719 --> 00:02:04.890
And this is based on wood indicator. 7 captures a percent of preschool
students with who demonstrated improved childhood outcomes and it's based
on data.

15
00:02:04.890 --> 00:02:12.150
From the previous fiscal year July 1st, 2020 through June 30th 2021.

16
00:02:16.020 --> 00:02:20.669
And as I mentioned that the indicator 7 opens in August.

17
00:02:20.669 --> 00:02:33.960
And we have access to review their indicator 7 data. Now, you can go to
the schedule reports and click these special ed tab and select indicator.
7.

18
00:02:33.960 --> 00:02:48.389
Once you query this report, you can review the data to assure the
information is correct and gives you an opportunity to address any
possible errors or exceptions. That needs to be that needs to be cleared.

19
00:02:48.389 --> 00:02:51.629
Before you certify your data.

20
00:02:53.039 --> 00:03:03.534
In addition to the indicator, 7 report being available, there are other
training resources resources that's available in the main menu resources
section.

21
00:03:03.625 --> 00:03:13.044
Once you go to the resources section, click the federal reporting tab,
and you can view the training video, which is located.

22
00:03:13.379 --> 00:03:17.370
With that link you cash training, federal reporting videos.

23
00:03:17.370 --> 00:03:26.099
Along with additional resources, such as the errors and warnings
reference guys, which issued a description of each possible.

24
00:03:26.099 --> 00:03:31.469
Oh, arrow warning that could display in the report along with how to
address them.

25
00:03:31.469 --> 00:03:36.389
As well, as the reporting indicator reporting checklist.

26
00:03:36.389 --> 00:03:43.620
Which covers the criteria that will include student records and the
indicator 7 count.

27
00:03:48.090 --> 00:03:51.240
Now, about the exit counts.

28
00:03:54.240 --> 00:03:59.669
The ex account open September 15th and close this September thirtieth.

29
00:03:59.669 --> 00:04:06.210
And the ex account captures in your reporting data on students who exit
special education.

30
00:04:06.210 --> 00:04:14.909
And it's based on data from the July 1st, 2020 through June 30th, 2020,
fiscal year.

31
00:04:17.939 --> 00:04:24.720
As the ex account opens in September Eli's have the opportunity to view
their data. Now.

32
00:04:25.014 --> 00:04:32.485
You can go into the schedule reports, section, click the special ed tab
and select X account.

33
00:04:32.904 --> 00:04:43.194
Once you query the ex account report, you are able to view the data that
is currently pull into the account. You want to check to make sure the
data is correct.

34

00:04:43.408 --> 00:04:52.319
And if there are any possible errors or warnings that need to be
addressed, you have an opportunity to do those before the ex account.

35
00:04:52.319 --> 00:04:59.819
September in addition to the ex account report being available to check.

36
00:04:59.819 --> 00:05:04.434
The data you also have access to training resources,

37
00:05:04.434 --> 00:05:06.413
such as the training video,

38
00:05:06.564 --> 00:05:16.374
the ex account training video along with other handouts that goes over
the errors and warnings there's errors and warnings reference guide.

39
00:05:16.769 --> 00:05:23.848
Information on reporting updates as well as the reporting checklist in
that reporting checklist.

40
00:05:23.848 --> 00:05:28.858
Will cover their criteria that will actually pull or include.

41
00:05:28.858 --> 00:05:40.199
Students in the exit count. All right some reminders about the ex
account.

42
00:05:40.199 --> 00:05:50.009
Is the modified exit reason so students who withdraw from your and are
also withdrawn and E, cats.

43
00:05:50.009 --> 00:05:54.598
So you want to make sure those students who have withdraw through Paris
school.

44
00:05:54.598 --> 00:06:03.329
You update the modified exit reason in and to do. So you have the 1st
search for those inactive students.

45
00:06:03.329 --> 00:06:07.918
To conduct an inactive surge to access those students.

46
00:06:07.918 --> 00:06:14.189
You will go to the main menu bar from the admin column. You select school
system.

47
00:06:14.189 --> 00:06:19.528
What's the spring refreshes you'll see a secondary menu bar display.

48
00:06:19.528 --> 00:06:24.329
Go to administration, and then select and active students.

49
00:06:24.329 --> 00:06:28.588
Once the screen refreshes you will see.

50
00:06:28.588 --> 00:06:37.499
The criteria for selecting inactive student screen where you would put in
your search criteria and click view and active students.

51
00:06:38.579 --> 00:06:41.699
Once you click view inactive students, the.

52
00:06:41.699 --> 00:06:47.668
Student will display on the manage inactive student screen.

53
00:06:47.668 --> 00:06:53.038
And to access that record is simply click the hyperlink of the student's
name.

54
00:06:53.038 --> 00:07:05.098
Which will then display this screen for you to select the modified exit
reason. And on that screen, you will see the power school withdraw code.

55
00:07:05.098 --> 00:07:09.538
Along with the drop list modified exit reason.

56
00:07:09.538 --> 00:07:23.754
And these are the available exit reasons to select from graduated with
high school. High school diploma, dropped out of school side, receive a
certificate, reach maximum age or move known to be continuing.

57
00:07:23.994 --> 00:07:27.983
So you want to make sure that for those students who have those.

58
00:07:28.228 --> 00:07:37.709
Students have who have withdrawn the parasoleil search for those inactive students, and has and document the modified exit reason.

59
00:07:41.668 --> 00:07:44.819
Now, on to indicator, 11.

60
00:07:47.488 --> 00:07:53.668
Indicator 11 opens October 1st and closes October 29.

61
00:07:53.668 --> 00:08:08.009
The indicator 11 count captures the percent of students from a referral was received and placement was determined within 90 days and it's based on data during the previous fiscal year.

62
00:08:08.009 --> 00:08:12.629
July 1st, 2020 through June 30th 2021.

63
00:08:12.629 --> 00:08:24.478
But wanted to give a reminder that a delay reason POV, 19 is still available under the data collection screen and Eli's can use it when it is appropriate.

64
00:08:24.478 --> 00:08:31.048
So, selecting this delay reason will not result in a change in the final percentage rate.

65
00:08:31.048 --> 00:08:42.028
And it will still require districts to follow up with their monitoring consultants to ensure that eligibility and placement decisions are made as soon as possible.

66
00:08:46.619 --> 00:08:53.938
As indicated 11 opens in October districts, have the opportunity now to check your data.

67
00:08:53.938 --> 00:08:57.719
You can go into and it's schedule reports.

68
00:08:57.719 --> 00:09:02.009
Put this special ed tab and then select indicator 11.

69

00:09:02.009 --> 00:09:12.298
We highly recommend that districts take this opportunity now to check
your data and make sure that the information is correct.

70
00:09:12.298 --> 00:09:22.619
And if there's any possible data errors, you have an opportunity now to
address those data errors before the indicator 11 count open.

71
00:09:23.698 --> 00:09:28.229
In addition to access to the indicator 11 report.

72
00:09:28.229 --> 00:09:37.558
There you have access to the indicator, 11 training videos as well as
other training resources.

73
00:09:37.558 --> 00:09:40.918
And you can the main menu screen.

74
00:09:40.918 --> 00:09:48.149
Under the resources section be sure to click the federal reporting tab.
You have access to the training video.

75
00:09:48.149 --> 00:09:53.369
Along with the updating, the initial delay reason guys.

76
00:09:53.369 --> 00:09:59.969
Description of the errors and warnings and how to address those that is
in the errors and warnings guide.

77
00:09:59.969 --> 00:10:04.798
There is also an essay Q. A, to guide.

78
00:10:04.798 --> 00:10:10.259
If you need further clarification on some frequently asked questions.

79
00:10:12.688 --> 00:10:20.068
Other reminders about indicator 11 if you can sit response, you want to
be sure.

80
00:10:20.068 --> 00:10:34.913
To document the consent to evaluate response as well as the consent for
placement response from the consent screen you'll notice an E, that if
you click the AC process tab and content.

81
00:10:35.249 --> 00:10:39.599
That you have the option, you have access to.

82
00:10:39.599 --> 00:10:44.668
Create a consent to evaluate and create a consent.

83
00:10:44.668 --> 00:10:51.389
Replacement document once you've done those and you have received the
response.

84
00:10:51.389 --> 00:10:56.999
Be sure to go back to the consent screen to submit that response.

85
00:10:56.999 --> 00:11:06.298
Once you submit that response that creates an event on a student history
screen. So it's very important that you not only document.

86
00:11:06.298 --> 00:11:14.578
That it is very important that you not only create the consent document,
but you also go back and.

87
00:11:14.578 --> 00:11:22.979
Submit the response that is once you submit the response that actually
creates the event on the student history screen.

88
00:11:22.979 --> 00:11:35.339
In addition to submitting the consent response, it's important to upload
a copy of the signed consent form to the documents.

89
00:11:35.339 --> 00:11:43.528
Page or to the document screen, and this is important, this is needed for
policy monitoring reviews.

90
00:11:47.938 --> 00:11:51.568
Now, 1 to indicator. Well.

91
00:11:53.399 --> 00:11:58.499
The indicator 12 data is due by October 29.

92
00:11:58.499 --> 00:12:13.438

Indicator 12 captures data on students who receive part C services, and were referred to part B during the previous fiscal year. July 1st, 2020 through June 30th 2021.

93
00:12:13.438 --> 00:12:21.899
So, all students must have an develop within 90 days of the referral. So it's still that 90 day timeline piece.

94
00:12:21.899 --> 00:12:30.149
And receive services by their 3rd for thing. So indicated 12 will be submitted on the spreadsheets.

95
00:12:30.149 --> 00:12:33.958
And can be accessed from the site.

96
00:12:33.958 --> 00:12:38.519
Under resources, so this is a screenshot.

97
00:12:38.519 --> 00:12:46.229
Of how you can access indicators that indicator from the site.

98
00:12:46.229 --> 00:12:51.149
He has application site, but the actual.

99
00:12:51.149 --> 00:13:01.438
Site you can't site through other reminders about indicator will.

100
00:13:01.438 --> 00:13:16.313
So, within the spreadsheet, there is a tab in title clarifications that provides additional information to clarify any possible questions. You may have regarding how to document the indicator 12 spreadsheet.

101
00:13:16.589 --> 00:13:21.389
Charter schools do not need to submit indicator 12.

102
00:13:22.528 --> 00:13:31.528
And the updated child, fine and transition calculator calculator is now posted to the sites.

103
00:13:31.528 --> 00:13:37.918
Under resources, if you have any additional questions regarding indicator.

104
00:13:37.918 --> 00:13:47.219
Be sure to submit your questions to easy indicators at DPI that that g.
O. V.

105
00:13:49.558 --> 00:13:55.528
And as I had mentioned about the, let me go back to.

106
00:13:55.528 --> 00:14:03.089
This slide the consent response that also applies to indicator to 12. so
when.

107
00:14:03.089 --> 00:14:10.918
The team is going through the initial placement process for those
students that would be captured and.

108
00:14:10.918 --> 00:14:15.509
Through indicator 12 it is also important to.

109
00:14:15.509 --> 00:14:21.448
Upload the sign copy of the consent form.

110
00:14:21.448 --> 00:14:25.259
To the documents trained for those students as well.

111
00:14:25.259 --> 00:14:36.149
That is those uploaded copies of the signed consent forms are needed for
policy monitoring reviews. So the reminder.

112
00:14:36.149 --> 00:14:42.359
About the consent response applies to both indicator, 11 and indicator
12.

113
00:14:42.359 --> 00:14:54.568
And at this time, I want to open the line for any questions you may have
regarding any of the information presented.

114
00:14:54.568 --> 00:15:02.668
Today feel free to unmute yourself and you can ask the.

115
00:15:02.668 --> 00:15:08.759
Question or feel free to send your question through the chat.

116
00:15:13.589 --> 00:15:21.359
Good afternoon changing around. I was wondering. Is there any way
possible? You can email us this.

117
00:15:21.359 --> 00:15:27.958
On PowerPoint, I sure can. We are actually in the process of.

118
00:15:27.958 --> 00:15:32.729
Getting this information together to post it to the site.

119
00:15:32.729 --> 00:15:39.719
But I can definitely in the meantime, I can definitely send out the
copies of.

120
00:15:39.719 --> 00:15:44.668
The PowerPoint to those who participated today.

121
00:15:44.668 --> 00:15:48.239
I just need to get a list. I'll send it out.

122
00:15:50.099 --> 00:15:54.089
So, we are where we are working 1 having.

123
00:15:54.089 --> 00:16:00.839
You know, the recorded session as well as the PowerPoints to the
resources.

124
00:16:01.918 --> 00:16:02.278
Great,

125
00:16:03.203 --> 00:16:03.744
thank you

126
00:16:22.224 --> 00:16:25.043
and while we are waiting for all these wonderful questions,

127
00:16:25.043 --> 00:16:36.203
just want to over emphasize the importance of taking this opportunity now
to review your data in preparation for indicator 7 indicator,

128
00:16:36.234 --> 00:16:39.443

11 as well as ex account as I mentioned,

129
00:16:39.714 --> 00:16:45.984
that those the indicators and accounts they open in August and September and October.

130
00:16:46.408 --> 00:16:50.278
Do not have to wait until then to check your data.

131
00:16:50.278 --> 00:16:53.938
You can start checking your data now.

132
00:16:53.938 --> 00:16:57.839
To make sure the information is correct. Your data is correct.

133
00:16:57.839 --> 00:17:11.548
And also check those reports of their, they display any possible errors that can be addressed. Now, this will definitely be a great opportunity for districts to.

134
00:17:11.548 --> 00:17:14.608
Check their data and correct those errors.

135
00:17:14.608 --> 00:17:21.269
Prior to those indicator, 711 ex account, opening up.

136
00:17:39.509 --> 00:17:50.608
Yeah, so he definitely wants to over over emphasize that many many of the exceptions or errors that display and indicator and 11st.

137
00:17:50.608 --> 00:17:54.058
Is what I had mentioned about it consent.

138
00:17:55.858 --> 00:18:03.354
We see that a lot sometimes those the errors that you may display,

139
00:18:03.804 --> 00:18:09.953
and the indicator 11 report deal with the consent response,

140
00:18:09.953 --> 00:18:10.973
not submitted.

141
00:18:11.278 --> 00:18:15.989
So, that's why we definitely want to emphasize the importance.

142
00:18:15.989 --> 00:18:22.588
You know, once you go into easy process consent and create the document, that is.

143
00:18:22.588 --> 00:18:37.409
That is correct. However, once you receive the response is very important to go back to the consent screen and submit your response by clicking submit consent to barry's files or submit consent.

144
00:18:37.409 --> 00:18:44.308
For services response, once you click those buttons, that is what creates the.

145
00:18:44.308 --> 00:18:50.669
The event on a student history screen, and that would clear, you know, 1 of those errors.

146
00:18:54.179 --> 00:18:57.778
Huh, huh? Yes.

147
00:19:03.778 --> 00:19:10.259
Thank you once again, we have any questions feel free to.

148
00:19:10.259 --> 00:19:17.699
Mute yourself and share your question, ask your question or feel free to send your question through the chat.

149
00:19:33.894 --> 00:19:39.834
Some reminders about indicator. Excuse me? Some reminders about the ex account.

150
00:19:42.959 --> 00:19:46.798
Definitely review the ex account.

151
00:19:46.798 --> 00:19:55.949
Checklist as a reminder for students to be included in the ex account, those students would have needed a current.

152
00:19:55.949 --> 00:19:59.729

Um, that has not expired.

153
00:19:59.729 --> 00:20:05.068
Prior to their exit date that they exited.

154
00:20:05.068 --> 00:20:10.709
So definitely check your ex account reports to make sure.

155
00:20:10.709 --> 00:20:16.709
The data is correct.

156
00:20:16.709 --> 00:20:19.769
Believe, but we do have a question. Okay.

157
00:20:20.788 --> 00:20:31.798
Says missing consent, 40 vows, gonna be warnings again this year or would
they be exceptions? That would need to be fixed in the indicating 11
report.

158
00:20:37.588 --> 00:20:41.338
Consider for.

159
00:20:41.338 --> 00:20:45.538
The going to say for evals should.

160
00:20:48.898 --> 00:20:57.148
Because so, for emails, if they're not submitted the consent for email's
response, if that they're not submitted as a response that does not.

161
00:20:57.148 --> 00:21:03.778
That does not create a student that is not creating yet when a student
history screen, and it's.

162
00:21:03.778 --> 00:21:11.759
The consent for email response, not talking about reevals with a separate
email response that triggers.

163
00:21:11.759 --> 00:21:18.628
The next step, and the initial placement process on a student history
screen. So.

164
00:21:18.628 --> 00:21:23.368

There's still a warning.

165
00:21:24.388 --> 00:21:32.519
Okay, so the update, this is still a warning it is an error and logic on
the report. You would make ignore them. Okay. Thank.

166
00:21:32.519 --> 00:21:46.078
Guys, I'll just from a different perspective, you know, it's, it's 1
thing to think about it in context of federal reporting, but uploading
those signed.

167
00:21:46.078 --> 00:21:53.608
Consent forms and going ahead and getting your staff in the habit of
doing it correctly.

168
00:21:53.874 --> 00:21:55.314
From the get go,

169
00:21:56.213 --> 00:21:56.723
you know,

170
00:21:56.723 --> 00:22:09.443
it may not be required for this federal report but if you can get your
staff in the habit of doing it correctly from the beginning and if you
can clean up these errors now,

171
00:22:09.834 --> 00:22:21.384
whether it affects your reporting or not it will help you in the long run
because that consent for E Val we need it for program compliance reviews.

172
00:22:21.598 --> 00:22:25.648
And eventually it will come back to haunt you.

173
00:22:25.884 --> 00:22:36.294
It will come back and it will show up as a finding some, where it will
come back as sometime that will need to be fixed. So why not do it right?

174
00:22:36.294 --> 00:22:44.334
From the beginning, why not clean up the errors as soon as they trigger
rather than let them lay their dormant.

175
00:22:44.608 --> 00:22:59.513

And come up and buy to you in, you know, years down the road. I only ask, because in previous, in the previous year, when we ran the report, there were errors that were warnings because when there was a referral, but.

176
00:23:00.028 --> 00:23:13.074
There wasn't a referral, so we started the referral, but the team decided that there wouldn't be a referral or not an evaluation. Anyway, it still is still through the warning for the student. So we didn't need a consent for Val.

177
00:23:13.284 --> 00:23:26.394
So that's what I was asking for some reason, we should be worried about those. Okay. Because then it would be having to filter out, which ones were non evals versus the ones that are just missing consents.

178
00:23:27.023 --> 00:23:32.634
So, Here's how you do that the role is and the requirement is.

179
00:23:33.479 --> 00:23:41.519
Any initials from July 12019forwarditis a requirement.

180
00:23:43.374 --> 00:23:56.844
And that that was set forth back when we started. So I would use that warning or not, you know, if if we get a warning light on our car, we need to go ahead and we need to fix it and take care of it.

181
00:23:57.233 --> 00:24:04.374
So, if we get a warning light here, we need to go ahead and fix it and take care of it. So when we run our car through the computer.

182
00:24:05.064 --> 00:24:19.943
It's telling us to fix it. So here is telling us to fix it and we're far enough along into that. What should be generating those warnings would be those from July.

183
00:24:19.943 --> 00:24:25.284
1st, 2019 forward would be the ones giving us the warning. Right?

184
00:24:25.314 --> 00:24:38.513
So those are the ones that you need to make sure that you have the, and you should all, you should always be in the habit of recording that consent response.

185
00:24:40.554 --> 00:24:53.304

Regardless of the date, you know, anytime you guys through, whether it's a re, Val, whether it's anything you should always be recording that consent response because that triggers other things down the road.

186
00:24:53.634 --> 00:24:56.124
But uploading the sign consent.

187
00:24:56.429 --> 00:25:06.058
Any initials, July 1st, 2019 forward. So just get your folks in the habit of that. If you get a warning on something.

188
00:25:06.058 --> 00:25:11.308
And it's July 1st, 2019 forward, whether it's for placement.

189
00:25:11.574 --> 00:25:24.173
Or an evaluation go ahead and upload it and let's get all this stuff cleaned up now rather than later and let's do it. When federal reporting is sending you that trigger.

190
00:25:25.104 --> 00:25:35.844
So, there were clean on everything else going forward. Because that will affect future federal reports and get them claim and.

191
00:25:36.209 --> 00:25:51.058
It will have things claim when we go in on monitoring visits that are combined with Amanda section in our section, and it'll make everything cleaner, going forward and save a lot of headaches some time later.

192
00:25:53.429 --> 00:26:05.338
Thanks, Patty and just to be clear and on my response, the error that you're seeing in that column on your report is has nothing to do with, um, you guys not signing or.

193
00:26:05.338 --> 00:26:19.223
Doing a consent that is truly a error and logic in the report that is asking for a consent after you've already did your is already determined team has already determined not to move forward with the with the evaluation.

194
00:26:19.584 --> 00:26:32.153
And, um, that's why I said you, you can ignore it, but please correct it. If you do continue forward with the, then you would want to make sure that all of your paperwork following that that Eva would, um.

195

00:26:32.459 --> 00:26:37.528
Would include those consents and upload um, but for the child count
report.

196
00:26:37.528 --> 00:26:47.699
Um, that column does display a false error and it does not, um, it is not
something that you can fix for your.

197
00:26:48.084 --> 00:27:01.943
For your student data, could we have 2 questions before we leave? I know
we write a thing.

198
00:27:02.604 --> 00:27:04.973
The 1st 1 says how would you fix the error?

199
00:27:05.308 --> 00:27:15.239
If the referral is stopped and that that I think that was my response.
What I just said, it's, it's nothing that they can.

200
00:27:15.239 --> 00:27:25.019
In fact, I've been tracking them since the beginning of the school year.
Okay. And the other 1 was just confirmation about.

201
00:27:25.019 --> 00:27:35.638
Tracking the arrows. Okay. She just wanted to make sure that she could
ignore the the 9. so that was his confirmation. She says, thanks.

202
00:27:38.308 --> 00:27:47.009
These are wonderful questions. Thank you so much.

203
00:27:47.009 --> 00:27:51.838
Right. So we have 230.

204
00:27:51.838 --> 00:28:02.459
And once again, I want to thank everyone for attending this afternoon,
federal data reporting. Q, and a session.

205
00:28:03.659 --> 00:28:10.888
And once that, once we have the participants list captured, I will work
on, um.

206
00:28:10.888 --> 00:28:12.713
Posting or not posting,

207
00:28:12.713 --> 00:28:26.064
but submitting to you a copy of this PowerPoint we are in the process of working to get the PowerPoint recording from this month as well as the previous month posted to the cap site.

208
00:28:26.064 --> 00:28:30.233
So we're still working on that. Thank you for your patients on that.

209
00:28:30.538 --> 00:28:40.798
I hope everyone has a wonderful afternoon and thank you so much for your attendance and participation. I hope everyone has a wonderful afternoon. Thank you.
