

1.0 Percent Participation Justification Form 2018–19

The *Every Student Succeeds Act (ESSA)* requires each district and charter school to complete and submit a justification when it anticipates exceeding 1.0 percent of students assessed in a subject area (i.e., English Language Arts/Reading, Mathematics, and/or Science) with the NCEXTEND1 alternate assessment. Justifications from each district and charter school will be reviewed by the North Carolina Department of Public Instruction (NCDPI), and follow up actions will be determined based on the information found in the justification document. Staff from the Exceptional Children and Accountability Divisions in each district and charter school should collaborate to provide the following information on the justification document. Responses to Sections 1–4 and the designated signatures are required; it is optional to include additional information (see page 5). This justification document will be publicly posted. As such, the document **must not contain any personally identifiable information**. If necessary, additional pages may be attached to this form.

Other, please explain below:

The LEA Test Coordinator provides building-level test coordinators with information related to the purpose and administration of the NCEXTEND1. The training includes proper use of any modifications as may be required by an individual student's IEP. This training is NOT intended to influence decisions about whether or not extended content standards or alternate testing are appropriate; it is intended to ensure proper test administration.

Does the district or charter school identify students to participate in the alternate assessment that do not traditionally participate (i.e., Speech and Language Impairment, Specific Learning Disability, etc.)? If yes, please explain how the district determined these students meet the criteria for participation in the alternate assessment.

Does the district or charter school provide a targeted program that may contribute to a higher enrollment of students with significant cognitive disabilities?

☒ Yes

☐ No

Explain below:

Edgewood Community Developmental Schools currently serves 159 students with severe cognitive delays and other profound needs. Based on the services the school provides, families from outside of Wayne County often request special placement at the school. This significantly impacts the number and percentage of WCPS students who justifiably qualify for extended content standards and alternate assessments.

Does the district or charter school have a process in place to monitor alternate assessment participation?

☒ Yes

☐ No

Explain below:

The WCPS Exceptional Children Department, along with the LEA Testing Coordinator, closely monitor identification for and participation in extended content standards and alternate assessments. Routine training is held for building-level IEP team chairs and other EC staff. District-level staff monitor IEP development and execution to ensure compliance.

Does the district or charter school have a process in place to identify and address disproportionality in alternate assessment participation (specifically, among race, gender, or socioeconomic status groups)?

☒ Yes

☐ No

Explain below:

In recent years, district leaders including principals and assistant principals have been provided with some information regarding extended content standards and alternate assessments. However, upon review, we have determined that more in-depth, face-to-face training for these two groups is necessary. District-level EC staff are planning to conduct more in-depth training in advance of the 2019-2020 school year.
