

## 1.0 Percent Participation Justification Form 2018–19

The *Every Student Succeeds Act (ESSA)* requires each district and charter school to complete and submit a justification when it anticipates exceeding 1.0 percent of students assessed in a subject area (i.e., English Language Arts/Reading, Mathematics, and/or Science) with the NCEXTEND1 alternate assessment. Justifications from each district and charter school will be reviewed by the North Carolina Department of Public Instruction (NCDPI), and follow up actions will be determined based on the information found in the justification document. Staff from the Exceptional Children and Accountability Divisions in each district and charter school should collaborate to provide the following information on the justification document. Responses to Sections 1–4 and the designated signatures are required; it is optional to include additional information (see page 5). This justification document will be publicly posted. As such, the document **must not contain any personally identifiable information**. If necessary, additional pages may be attached to this form.

### Section 2: Analyzing Contributing Factors

Did the Individualized Education Program (IEP) teams utilize the alternate assessment [eligibility criteria](#) and the [North Carolina Alternate Assessment Decision Making Flow Chart](#) to make alternate assessment participation decisions?

☒ Yes                      ☐ No

Indicate how all members of the IEP teams have been informed or trained on the alternate assessment eligibility criteria and the North Carolina Alternate Assessment Decision Making Flow Chart. Check all that apply.

Does the district or charter school have a small overall student population that increased the likelihood of exceeding the 1.0 percent threshold?

☒ Yes

☐ No

Explain below:

WCS has many therapeutic foster homes and several group homes where students with significant disabilities are placed.

### Section 3: Assurances

Does the district or charter school have a process in place to monitor alternate assessment participation?

☒ Yes

☐ No

Explain below:

The following additional information can be included with the justification documentation, but is not required:

- Evidence that all educators who administer the alternate assessment meet the requirements for test administrators and have received test administration training prior to administering the alternate assessment.
- Evidence that all students have appropriate access to accessibility features on statewide tests.
- A review of the percentage of students taking the alternate assessment at grade 3 versus grades 4–7 versus grade 8 versus high school and an explanation of how Individualized Education Program (IEP) teams are making consistent participation decisions across grade levels.
- A review of data to determine if students are moving from the alternate assessment to the general assessment or vice versa and an explanation for grade levels where this action is more prevalent.
- Evidence that the district is providing appropriate supports and services to students with disabilities to assist in meeting the same graduation requirements as their non-disabled peers.
- An evaluation of students instructed using the Extended Content Standards, but who are spending more than eighty percent (80%) of their day in the general education setting.
- Evidence of data-driven team decisions to determine appropriate instruction and assessment.
- An assessment of varying practices across a district and/or between different schools.
- An explanation of special programs or populations that are served by the district/charter school that may contribute to the alternate assessment participation rate.

## 1.0 Percent Participation Justification Form 2018–19

Our school district has monthly trainings with all EC Staff, furthermore, we also have several trainings at each of our schools on a yearly basis to address assessments, accommodations, and modifications.

Does the district or charter school have a process in place to identify and address disproportionality in alternate assessment participation (specifically, among race, gender, or socioeconomic status groups)?

☒ Yes

☐ No

Explain below:

WCS has 4 traditional schools and 1 alternative school. Our student population is small, so 1 or 2 students can make a significant percentage increase in our subgroups. With that said, student records are reviewed for compliance after all I.E.P. meetings and our administration and teachers are trained several times yearly regarding students with special needs.

### Section 4: Resources and Technical Assistance

What resources and technical assistance does the district or charter school need from the North Carolina Department of Public Instruction to ensure that students are being assessed using the appropriate assessment?

Additional funding to support the ever increasing, significant needs of our special needs population with highly qualified personnel and instruction.
